St. Jude bike ride set

Ozona bike riders are gearing up for the "Wheels of Life" bike-a-thon, which will be held here Saturday. Riders will gather at the Fesco parking lot at 111 N. Ave. H, at 10 Saturday morning to participate in the "Ride against childhood cancer," for St. Jude Children's Research Hospital. There will be prizes for the top riders.

All bicycle riders are urged to participate and sponsor forms may be picked up at local stores, the Stockman and from Mrs. Joe Moran, who is chairman for the event. Mrs. Moran said volunteer workers are still needed as well as riders and sponsors. Anyone wishing to help may call her at 392-3453 after 5 p.m.

Youngsters are asked to gather as many sponsors as possible and ask them to pledge a certain amount per mile. Completed sponsor forms must be brought to the starting place Saturday morning, where they will be given directions, bracelets, lap cards, and answers to any questions they might have.

A FLOCK OF TURKEYS has been roaming the hillside on the west hill lately. The wild birds number 19, consisting of a hen and 18 little ones. Led by the mother hen, the little ones follow like soldiers. Here we find them all in a row in front of Crystelle Childress' house.

Lions over Owls, 45-7--

Lions romp over Big Lake for third straight win

By-Ross A. Alexander

The Ozona Lions, showing an increasing confidence, mauled the Reagan County Owls 45-7, Friday evening in their third consecutive week of stingy defense and explosive offense against another highly-regarded, but simply outclassed opposing eleven. The Lion offense, powered by speed merchant Willie Payne, simply ran over, around and through the touted defensive unit of the Owls in amassing an impressive 352 yards rushing.

The opening drive of the game proved prophetic for the entire contest as Lion signal caller David Badillo led Ozona on a 58-yard scoring drive featuring a dazzling display of rushing prowess in the process. After Leal and Payne had moved the offense across the mid-field stripe, and faced with a 2nd and 7 at the Reagan County 48, Badillo on a beautifully disguised keeper,

dashed to within scoring position at the Owl 35. Four plays later, Badillo scampered in from the Owl 20 to give the Lions their initial TD of the night. Will Mason's conversion was solid and the Lions surged ahead 7-0 with 8:23 showing on the clock.

Robert Hearne and David "Iron Man" Tijerina wiped out the Owls' opening offensive offering so impressively with vicious tackles, that the Owl running backs ran with noticeable hesitation and indecision for the remainder of the half. Sensing this offensive reluctance, the Lion defensive unit applied a virtual choke-hold which didn't relax until the game was out of reach.

The Lions, on on the very next possession, produced another long scoring drive featuring the fierce running of Fierro, Leal, Huereca and Mason as the Lion QB elected to remain on the ground and march some 55 yards to

the Lions' second score. With 2:41 left in the quarter, Diego plowed through a tough Owl goal line unit for his touchdown and Mason's kick put the Lions securely in command with a 14-0 count.

Big Lake, unable to move the ball, was forced to punt, but the kick was blocked by Johnny Rodriguez, whose defense was outstanding all evening. Badillo quickly turned to his speed merchant Payne, who moved the ball in 2 plays into paydirt for the third Lion tally. Mason successfully converted as the Lions moved out to a 21-0 margin with 33 seconds left in the first quarter.

Second quarter action saw both teams battling to contain the ground game but with 2:10 remaining, following a crushing Cedillo quarterback sack, Diego intercepted an Owl pass deep in Lion territory and returned it to the 22 where he was mugged by a frustrated Owl after being forced out of bounds. That act of unsportsmanlike conduct seemed to irritate the Lion offense and Willie Payne simply rammed it into paydirt with 57 seconds to go in the half. Mason's kick gave the Lions a 28-0 halftime advantage with the shop closing early for the unfortunate Owl homecoming crowd.

Following halftime festivities, Payne took the opening handoff and charged through the line, spinning away from the defensive secondary personnel for 29 yards. Workhorse Greg Fierro then slashed for 18 additional yards with Fabian following with 9 tough yards inside the Reagan County 15. Badillo, the player of the week, took over and moved the pigskin across himself with 9:25 left in the third quarter. Mason's conversion put the score at 35-0 and disappointed Owl fans could be seen heading for the exits.

Early in the 4th quarter, with Sophomore QB David Delgado at the helm, the Lions mounted another scoring drive. Delgado, ripped off good QB keeper yardage, but it was the fleet-footed Robert Flores, completely re-

versing his field and sprinting to within scoring position who thrilled the large Ozona crowd on hand for the contest. After Gino Tambunga put the Lions into a 1st and goal situation with a strong inside run, Allen Dews plunged into the end zone for the Lions' final TD of the contest. Mason converted with 9:14 showing, to give Ozona a commanding 42-0 margin.

The Owls, in an admirable outburst of pride and determined effort managed to score on a pass play with just under 4½ minutes remaining.

But Ozona refused to relinquish the last word to their hosts. With Flores flashing some spectacular moves, and with a spinning, twisting, high-stepping Al Borrego

CONTINUED ON PAGE 9

School board to appeal values

The Crockett County School Board met last week in regular session and voted to request an appeal of the county and Index values recently assigned the school district by the State Property Tax Board.

The SPTB figures were considerably higher than the valuations assigned to the county, especially in the categories of minerals and utilities, and the figures will be used for the next two years in determining the school district's local fund assignment by the state.

After discussion and close investigation of the value assigned specifically to Crockett County, the board asked Superintendent of Schools Foy Moody to write a letter of appeal to the State Property Tax Board appealing the values assigned to this specific district. The procedure calls for a hearing to be granted to the school district after receiving a request for appeal.

The board also requested that the Superintendent invest \$51,500, which is in the Interest and Sinking Fund in a C.D. with Ozona National Bank, not to exceed a period beyond January 15, 1983.

The board discussed at great length the school policy concerning drugs and alcohol among students. Recognizing the growing problem of drugs and alcohol among young people nationwide, as well as Crockett County, the board expressed strong concern. Several methods of drug and alcohol education for parents and students were discussed.

Superintendent Moody and Assistant Superintendent Davis were instructed to study the problem and make recommendations at the October meeting to help attack this problem. The Board was of the opinion that strong cooperation among school officials, parents and students, law enforcement personnel as well as other community organizations would be needed in order to solve the problem.

Vandalism of school property was also discussed and a secured location for school buses was suggested.

The board directed immediate and direct supervision of junior high students going to and from the Junior High to the high school campus. Also, the possibility and feasibility of a place for junior high students to conduct band practice on their own campus was discussed.

In other action payment to

Davis Construction Co. in the amount of \$25,498.80 was approved along with the chartering of a bus for the football team to Colorado City Oct. 15.

Joe Couch will serve as local school board delegate to the School Board and School Administrators Convention in San Antonio Oct. 2-4, where 60 resolutions will be proposed to cover all phases of school business.

Homecoming week underway here

Homecoming week at Ozona High School will be highlighted by the Friday night football game between the Lions and the McCamey Badgers and a dance for ex-students and high school students at the Civic Center Saturday evening.

The traditional snake dance and pep rally will be held Thursday night with the snake dance set to begin at 7:30 at Clayton's Village

Drug, where it will end at the boys' gym, followed by the gigantic pep rally. Another rally will be held Friday at 3:05 in the gym.

During halftime homecoming activities Friday night, the homecoming queen will be crowned. Nominees for queen include seniors Velma Fierro and Darla Lovell, and juniors Kristal Williams and Pam Wilton.

Class of 1932 to celebrate

Homecoming this year will be special to the members of the 1932 graduating class of Ozona High School. The class of '32 will be celebrating its 50th anniversary and a full schedule has been planned by co-hosts Bernice Jones, Luetta Kost, Ethel Miller and Joe Sellers Pierce.

The class will gather for a supper at Mrs. Jones' home at 5:30 Friday, Sept. 24, then attend the Homecoming Game between McCamey and Ozona at Lion Stadium at 7:30 p.m. where a block of seats has been reserved for the class members.

The class will gather at the home of Ted and Jessie White Saturday morning at 10 o'clock for coffee, and have lunch at the Circle Bar dining room at noon. Open house will be held at the Civic Center at 3:00 p.m. for members of classes of 1929 through 1935.

The Class of '32 was the first class to graduate from the high school building when it was new. The 22 members of the class were the largest graduating class at that time.

Marvin Greer Rape was valedictorian and salutatorian was Margaret Deland. John L. Bishop was Superintendent of Schools and Claude S. Denham was High School Principal. Other members of the high school faculty were Lucille Williamson, Mr. Saddler, Ada Moss, Ludi Mae Harrison, Guinn Carruthers and Ted White. Class officers were Marvin Rape, president and Bernice Bailey, secretary.

Miller Robison was captain of the football team that year and cheerleaders were Bernice Bailey and Tommy Smith.

VFW to honor law officers

Ozona Veterans of Foreign Wars Post 6109 will honor all law enforcement officers with a Law Enforcement Appreciation Dinner tomorrow, Thursday evening, at 7:00 p.m.

All officers, DPS personnel, game wardens, border patrolmen, sheriff and city police department personnel, are invited and will be honored.

VFW members and guests are cordially invited to have dinner and visit.

Myatt is contest winner

After the Clemson-Georgia game was thrown out of the weekly football contest, the winner was Norvil Myatt. His entry was in a four-way tie, but his tie-breaker score was closer to the actual score when the Packers downed the Giants Monday night. There were four entries in the tie.

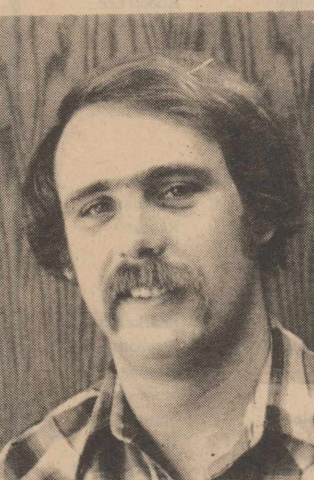

Due to the professional football strike, the contest will feature high school and college games in the future. The contest is sponsored by local merchants and entries may be found on the football page each week.

CORRECTION ON GRAND JURY STORY

In reporting on a meeting of the Grand Jury with the Commissioners Court last week, the story indicated members of the jury had met with members of the Sheriff's Department. This is incorrect. The jury made up the list of recommendations and took it directly to the Commissioners Court. The information about the Sheriff's Department was referring to an entirely different matter. The Stockman regrets any embarrassment or inconvenience this inference might have caused.

WTU names new local manager

Tim McMurray, customer contact representative with West Texas Utilities Company in Abilene, will become local manager of the Ozona office beginning Monday, September 20.

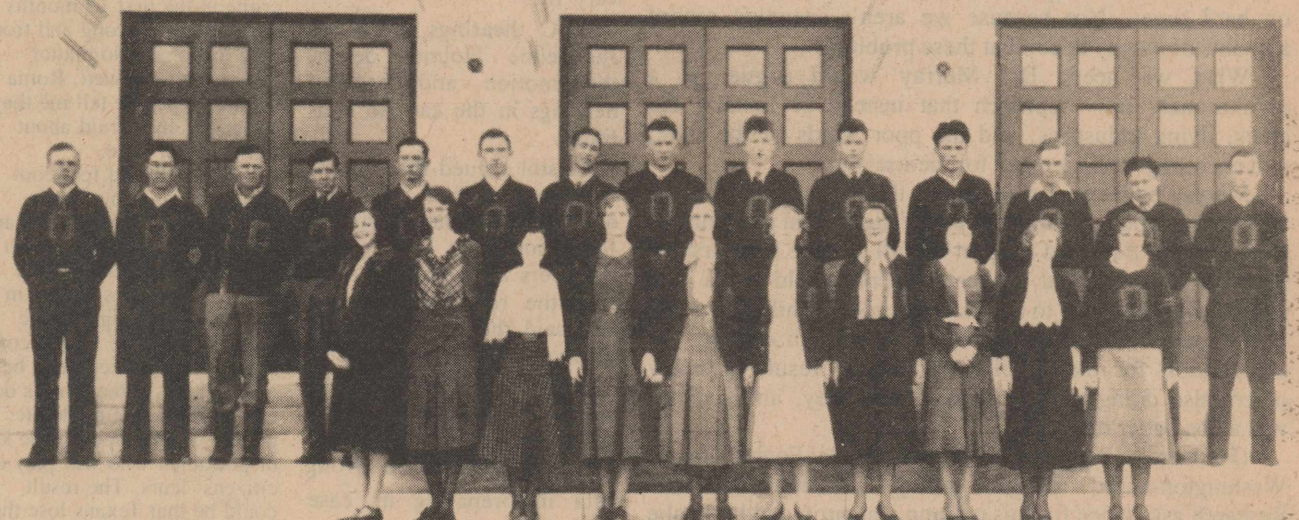

He will replace Pat Wester, who is on medical leave. Wester has been local manager in Ozona since August, 1976.

McMurray is a native of the Abilene area, and graduated from Abilene High School in 1971. He joined WTU in 1972 following graduation from Texas State Technical Institute in Sweetwater that same year. After serving as a line serviceman trainee in Childress, he was made a serviceman in the company's Chillicothe office in 1974. From there he was transferred to Abilene in 1979 where he served as an appliance serviceman before his appointment as customer contact representative in the Abilene downtown office.

McMurray has been active in the Lions Club and the Volunteer Fire Dept., holds a commercial pilot's license, and is a member of the United Methodist Church.

He and his wife, Pam, a nurse, were married in 1970, and are parents of a daughter, Michelle, 9, and Michael, 3. They plan to move to Ozona soon.

CLASS OF '32 TO CELEBRATE 50TH YEAR during homecoming this weekend for Ozona High School. Class members were, top row, l. to r., Vic Montgomery, Conley Cox, Joe Sellers Pierce, Lowell Schwalbe, Miller Robison, Lois Brock Hoover, Massie Ray Smith, Fletcher Freeman, Aubrey Fussell, Chester Wilson, Ethard Glover, Phillip Lee

Childress, Marvin Rape and James Baggett. Front row, Hattie McKinney, Rosalie Rauhut, Lois D. Adams, Luetta Powell, Margaret Deland, Mary B. Vaughan, Ethel Word, Angeline Patrick, Bernice Bailey, and Lucille Williamson, sponsor.

\$100 BILLION QUESTION

By Edwin Feulner

The do-gooders are at it again. They think they've discovered a "new" cure for black unemployment. All it will take is a little money... about \$100 billion.

What do we get for our money? We get a new government boondoggle that those of us who have been around for a while will recognize as a jazzy, dressed-up version of the old Humphrey-Hawkins "full-employment" scheme of a few years ago.

What it amounts to, however, is throwing good money after bad — a policy that hasn't worked in the past, and won't work now.

The new scheme was given its debut at the recent National Urban League convention. Urban League President John E. Jacobs described the plan as a domestic Marshall Plan for people; our own people.

There is, of course, a serious problem here that deserves our attention. Black unemployment stands at nearly 20 percent — more than double the national average.

The \$100-billion question is, what can and should we be doing about the problem?

Social scientist Charles Murray, who is starting to receive national attention for his pioneering research into the effects of throwing money at poverty, alcoholism, unwed motherhood, joblessness, and other social problems, has concluded in a new study that most Great Society programs have actually been counterproductive.

Dr. Murray claims there is a myth that badly needs debunking: namely, "that the federal government has in its power to do something about our most severe social problems, if only we are willing to spend the money."

Jacobs says, "A Marshall Plan for the 1980s would rebuild the cities and get our dying industries producing again for the benefit of all. More important, it would reach out to the poor and the unskilled with job training opportunities" — which, one would be led to believe, we haven't done in the past.

To the contrary, in fiscal 1980 more than \$10.8 billion was spent on training and employment programs, more than double the amount (\$4.9 billion) spent in 1975. Yet, today, joblessness stands at a record post-war high.

The reason is simple: because the economy has fallen on hard times. Not because we aren't spending record amounts of money to combat these problems.

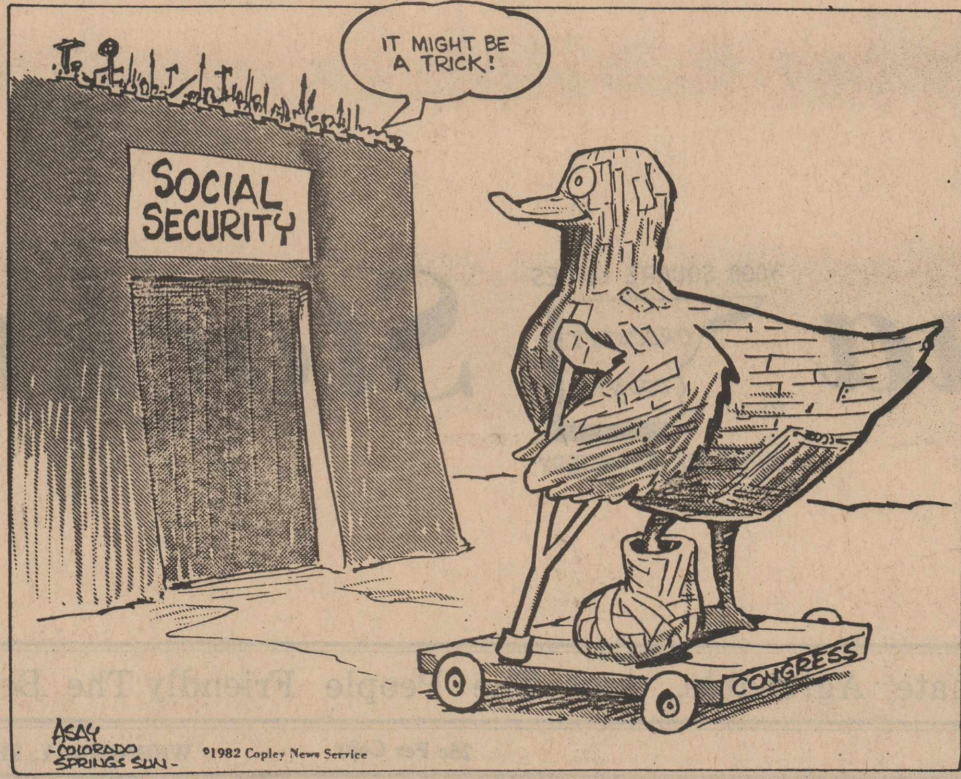

What we need, Dr. Murray would argue, is a revolutionary new approach that instead of making the cities, dying industries, and the poor wards of the state, will encourage them to fend for themselves.

Murray believes, for example, that competition breeds excellence. Thus, he suggests that if the federal government were to offer a limited number of full college scholarships to needy, exceptional students, there would be a real incentive for students to do well in school.

(Feulner is President of The Heritage Foundation, a Washington-based public policy research institute. Research assistance for this column was provided by Leslie Goode, a student at Smith College, who was an intern at Heritage this summer.)

The largest coral reef in the world is the Great Barrier Reef near the northeast coast of Australia. It extends 1,250 miles.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams

TEXAS PRESS ASSOCIATION

Republican Gov. Bill Clements and his Democratic opponent Attorney General Mark White got a boost in their campaigns last week when each picked up the support of separate hispanic groups.

White was endorsed by a group calling itself the Hispanic Mayors Advisory Committee for Mark White.

The group is co-chaired by hispanic mayors from five West Texas cities and boasts a membership of 18 of the 40 hispanic mayors in the state.

The group cited Clements' "insensitivity" to their needs as the main reason for supporting White.

Frank D. Gomez, mayor of Dell City, said Clements has "ignored" small cities such as his which need state help in order to improve city services and attract more industry and people.

While the mayors were meeting with White, Clements was receiving high praise from the leaders of the League of United Latin American Citizens (LULAC) and the G.I. Forum.

Oscar Moran, Texas chairman of LULAC, and Edward Bernaldez, director of the Texas G.I. Forum, said hispanics "can't deny" Clements' support for extending the Voting Rights Act and his numerous hispanic appointments. However, they stopped short of endorsing Clements, stating that it is the policy of their organizations not to endorse any political candidate.

That didn't stop them, however, from having their pictures taken with the governor as he presented a proclamation declaring Hispanic Heritage Week.

Moran said hispanics are "less than satisfied" with White, but the mayors' group, led by Waco Mayor Roland Arriola, predicted that White "will overwhelmingly carry every hispanic precinct in the state."

Bell Case

The move last week by Public Utility Commission staff attorney Sara Cristol to have Southwestern Bell Telephone Company's \$471.5 million rate hike request dismissed may have been unprecedented, but it didn't get very far.

PUC hearings examiner Jacqueline Holmes denied the motion and ordered hearings in the case to continue.

Cristol argued that Southwestern Bell had intentionally provided the wrong information to PUC staff members attempting to analyze the rate hike request, and said the case should be thrown out.

Bell officials say the PUC simply asked for more information than it needed and chose to analyze the wrong data in preparing its case against the rate hike.

Despite the denial of the motion to dismiss, the PUC has taken Southwestern Bell and its parent company, American Telephone & Telegraph, to court to get the information it needs on private line fees charged to burglary alarm and security firms and on license contract payments made by Bell to AT&T.

The PUC staff contends the data is needed to justify

portions of the rate hike request totaling more than \$100 million.

The staff has recommended that Bell receive only \$307 million of its request.

Crime Statistics

The Department of Public Safety has announced that crime in Texas increased by 1.3 percent during the first six months of 1982 over the same period last year.

According to DPS Director Col. James Adams, 3,083.1 major crimes were reported for each 100,000 population for the period ending in June.

That compares to 3,044.6 crimes per 100,000 population in the first half of 1981.

A total of 454,907 major crimes were reported. That includes 1,153 murders, 3,290 rapes, 15,723 robberies, 22,441 aggravated assaults, 136,961 burglaries, 232,192 larceny-thefts and 43,147 auto thefts.

Two police officers were killed in the line of duty, while four others died as the result of duty-related accidents and more than 1,800 were assaulted while in the line of duty.

Farm Implements

A group of lawmakers from rural areas have kicked off their campaign to win passage of a proposed constitutional amendment that would exempt all farm implements from property taxes.

The amendment is designed to clear up a question

with a statute passed in 1981 to strike farm tools and machinery from tax rolls. Attorney General White has ruled that the statute only applies to the first \$15,000 of farm implements of an individual or \$30,000 for a married couple.

The Vote For 3 Committee, chaired by LaGrange Sen. John Wilson, said that was not the intent of the Legislature and the proposed Proposition 3 will carry out the action lawmakers thought they were taking.

Officials of the State Property Tax Board said most counties and school districts derive very little revenue from taxes on farm tools and that the cost of assessing the value of that equipment, calculating the exemption provided under White's opinion and collecting the taxes would exceed the revenue generated.

The proposition is one of several proposed constitutional amendments that voters will be asked to decide on in the November general election.

Diez y Seis

Mexican-Americans gathered at the Capitol last week to celebrate Diez y Seis de Septiembre, Mexico's independence day.

The celebration in the Capitol rotunda featured mariachi music, traditional Mexican folk dances and a little politicking by U.S. Sen. Lloyd Bentsen, who was in Austin for a fundraiser to benefit his re-election campaign.

Strake Talk

CRIME: IT'S THE VICTIMS WHO ARE LOCKED UP

I want to talk to you this week about an issue that troubles me greatly and which I know is of great concern to Texans. It seems that whenever I have spoken about crime in the past 12 months I have gotten a strong and troubled response. No matter where I am—Jewett, Roma or Dalhart—people tell me they are angry and afraid about crime in our state.

This anger and fear concerns me for two reasons. First, because this kind of anger and fear serves as a sort of "jail" for innocent people. They are the ones locked in their homes at night while criminals go free. The second reason I am concerned is because unless something is done to stop the crime epidemic, people will be ripe for the kind of politician who will play on citizens' fears. The result could be that Texans lose their liberty in return for their "safety". In that sense, the crime problem is like a cancer gnawing at democracy.

The incumbent Lt. Governor's response to the crime issue has been shameful. While

he has been in office the crime rate has risen 131%. He has done nothing to attack crime in a substantial way. In fact, he has fought stronger anti-crime measures. He openly opposed the new wiretapping law designed to catch drug dealers. He openly opposed the Governor's anti-crime package by putting it in a legislative committee run by a hostile Senator, who promptly bottled it up. Much of the package passed anyway and now Mr. Hobby has the gall to go around the state taking credit for it!

His sympathies in the fight against crime are evident. Not long ago he allowed the American Civil Liberties Union (ACLU) to hold a fundraiser in his Houston mansion and he proudly defends it. The ACLU has consistently opposed laws that would make it easier to deal with the crime problem.

I think such two-faced maneuvering is disgraceful. It is obvious that if we are going to attack the crime problem, if we are ever going to give law officers, judges and prison guards the tools they need to make us safer, Bill Hobby will have to go.

If you have thoughts about this, I'd like to hear from you. Please write me at 1213 W. 34th, Austin, 78705.

The Newsreel

A re-run of "The Ozona Story" as gleaned from the files of the "The Ozona Stockman"

Thursday, Sept. 24, 1953

The powerful McCamey Badgers turned loose a quartet of hard running, fleet backs, to crush the Ozona Lions 52 to 6 last Friday night in McCamey.

Young and Company, ranked among America's top-notch magicians and entertainers, will present their interesting show of magic and illusion as the first in the series of Southern Assemblies programs to be presented Oct. 1 in the high school auditorium here.

Installation of a public address system and improvement of the lighting system in the High School Auditorium will be one of the outstanding projects to be accomplished this year by the Ozona Parent-Teachers Association.

Coach "Swede" Pelto's Ozona B team crushed the Big Lake B team 33 to 7 at Lions Stadium last Saturday night as the home team unleashed a powerful running game and a sturdy defense.

Monday night, October 12, has been set as the time for the annual Ozona Parent-Teachers carnival to be staged in the downtown city park.

The Ozona Lions will make their second home appearance Friday night at 8 p.m. when they meet the Bronte Longhorns at Lion Stadium.

Pfc. Kenneth Carr, 18, son of Mr. and Mrs. Charles F. Carr, Ozona, was recently awarded the Combat Infantryman Badge for active participation in ground action with the 2nd Infantry Division in Korea before the ceasefire.

Miss Billie Chandler, daughter of Mr. and Mrs. W.H. Chandler, a 1953 graduate of Ozona High School, has enrolled at San Angelo College.

Mr. and Mrs. Clay Adams honored their daughter, Jane, with a barbecue supper in the garden at their home Tuesday evening. The occasion was Jane's 17th birthday. Members of the Senior class of Ozona High School were guests.

Three Ozona students have returned to resume their studies at Schreiner Institute in Kerrville. They are Tom Kincaid, Roy A. Harrell and Ben Conklin.

Miss Kay Kirby, daughter of Mr. and Mrs. Doug Kirby, and Miss June Perner, daughter of Mr. and Mrs. Stephen Perner, have returned to T.C.U. in Fort Worth for the new term.

Letters to the Editor

September 16, 1982 Mrs. Montgomery,

Thank you so much for allowing the "Lion's Roar" staff to have free copies of the "Stockman" each week. This enables us to go over our work in class and make criticisms and compliments.

Thanks again! Sincerely, Karise Aycock, editor Lion's Roar

PUBLIC NOTICE

In compliance with Sec. 43(a) of Art. 1446c, V.A.C.S., West Texas Utilities Company hereby publishes NOTICE that it has filed, on September 13, 1982, its Statement of Intent to make changes in its retail rates charged for electricity and services sold and rendered inside and outside municipal jurisdictions, such proposed changes to be effective October 19, 1982.

Table listing affected municipalities: Abilene, Alpine, Anson, Aspermont, Baird, Ballinger, Balmorea, Benjamin, Big Lake, Blackwell, Bronte, Buffalo Gap, Childress, Cisco, Clarendon, Clyde, Cross Plains, Crowell, Dodson, Eden, Estelline, Goree, Hamlin, Haskell, Hawley, Hedley, Impact, Iran, Jayton, Junction, Knox City, Lawn, Lueders, Marfa, McCamey, Melvin, Memphis, Menard, Merkel, Miles, Munday, O'Brien, Paducah, Paint Rock, Presidio, Putnam, Quanah, Quitaque, Rankin, Rising Star, Rochester, San Angelo, Santa Anna, Shamrock, Sonora, Spur, Stamford, Sterling City, Throckmorton, Trent, Turkey, Tuscola, Tye, Valentine, Weibert, Wellington, Winters, Woodson.

Areas affected by the filing with the Public Utility Commission of Texas are in the following:

Table listing affected municipalities and counties: Albany, Chillicothe, Dickens, Eldorado, Lakeview, Matador, Mertzon, Moran, Roaring Springs, Baylor, Brewster, Brown, Callahan, Childress, Coke, Coleman, Collingsworth, Concho, Cottle, Crane, Crockett, Dickens, Donley, Eastland, Edwards, Lakeview, Matador, Mertzon, Moran, Roaring Springs, Fisher, Foard, Gillespie, Hall, Handeman, Haskell, Irion, Jeff Davis, Jones, Kent, Kimble, King, Knox, Mason, McCulloch, Menard, Motley, Nolan, Pecos, Presidio, Reagan, Reeves, Runnels, Schleicher, Shackelford, Stephens, Sterling, Stonewall, Sutton, Taylor, Throckmorton, Tom Green, Upton, Wheeler, Wilbarger.

Debra Says

By Debra Price

4-H projects and activities are in full swing in Ozona. 4-H projects in lambs, shooting and cooking are being conducted this fall.

A large group of sewers gathered last week to learn more about machine embroidery and monograms. Mrs. Opal McCleary presented the demonstration.

Any homemaker that is interested in attending an Extension Homemaker Club should give me a call at 2-2721. There are three active clubs in the county. The programs are informal and center around learning new homemaking skills.

The Super Snacker books were available at Foodway and Thornton's Grocery stores last week.

Social Super Snacking is a part of West Texas living. The quick party snacks will be perfect for your busy schedule.

SOCIAL SUPER SNACKING

What shows up at a party, in addition to today's Texans? Snacks, of course, and party snacks can be super and nutritious too. Here are some easy, nutritious snacks to bring to your next party.

QUICK PARTY SUPER SNACKS

Dill pickle rings: Frost one dill pickle with cream cheese and wrap thinly sliced ham or corned beef to cover. Slice in rings.

Fruit salad: Use apple chunks, orange sections, grapefruit sections, peaches, banana slices, pineapple chunks and toss with peaches, banana slices, pineapple chunks and toss with orange juice. Any combination of fruit may be used.

Celery pinwheels: Generously fill the center of a large celery stalk with peanut butter. Press a second stalk of celery onto this. Chill. Slice crosswise with very sharp knife to make pinwheels.

Minted pineapple party drink: Add green food coloring and mint flavor to apple juice. Serve cold and with a spring of mint.

Fruit shake: Mix in a blender: 1 cup of milk, 6 ice cubes, equivalent of 2 teaspoons artificial sweetener, 1 teaspoon vanilla extract and 1 whole fruit (banana, orange, pineapple, peach).

Stuffed celery sticks: Stuff celery sticks with pimento or other type of cheese, sugarless peanut butter, cream cheese and pecans or cream cheese and olives.

Cheese sticks: Mix 1/2 pound finely grated, sharp, cheddar cheese with 1/2 pound softened butter or margarine. Spread on finger lengths of bread, crusts removed if desired. Sprinkle with paprika. Set in refrigerator until ready to use. Can

be wrapped in foil and frozen. To serve, bake at 375 degrees F. for 10 to 12 minutes.

Fun kabobs: On a skewer, place small ham or luncheon meat chunks, olives, cheese chunks and fruit chunks.

Fruit sandwiches: Make a sandwich with sliced apples and cheddar cheese or sliced pears with Swiss cheese.

Fruit Pizza
1 cup sugar
4 tablespoons cornstarch
Dash salt
1/4 cup water
1 cup orange juice
1/4 cup fresh lemon juice
Stir all ingredients together well and bring to a boil over medium heat and cook until thick. Chill while preparing the rest of the recipe.

Cheese Mix
1 8-ounce package cream cheese, softened
1 teaspoon vanilla
1/2 cup sugar
Cream together until very smooth.

Base
1 package prepared sugar cookie dough, cut into 1/8 inch slices

Lay sliced cookie dough on a greased 12-inch pizza pan with sides just touching and bake as you would for cookies. When completely cooled, spread the cheese mixture over the base.

Fruit Topping
1 cup frozen strawberries, sliced
1 cup frozen peaches, sliced
1 cup fresh banana slices
1/8-1/4 cup frozen blueberries
1 cup canned pineapple chunks

Place all of the fruit over the cheese mixture. Then, pour the cooled orange-lem-on sauce over the fruit, sealing to the edges, as this will keep the bananas from turning dark. Yield: 12 dessert-size servings.

MARINATED VEGETABLES

1/2 cup salad oil
2 tablespoons green pepper, finely chopped
1 teaspoon salt
1/8 teaspoon pepper
15-ounce can garbanzo beans, heated, drained
2 cups cucumber, unpared and sliced
1/2 cup cider vinegar
1 tablespoon parsley, chopped
1/4 teaspoon paprika
3 cups (1 small head) cauliflower, broken into florets, cooked tender-crisp
1 cup carrots, cut in thin strips

Place oil, vinegar, green pepper, parsley, salt and spices in a large bowl. Mix well. Add vegetables. Mix gently. Cover. Marinate for several hours or overnight in the refrigerator. Mix occasionally. For optimum eating quality, use within a few days. Makes 7 cups. About 75 calories per 1/2 cup.

GIRL BORN TO HOOVERS

Mr. and Mrs. David Bryan Hoover of Needville, are the parents of a daughter born Sept. 20, in Polyryan Hospital in Rosenberg. The little girl weighed seven pounds and has been named Raiven Michelle. She has two brothers, David Ryan and Armond.

Grandparents are Mr. and Mrs. Armond Hoover, Jr., Mr. and Mrs. Gerald Pond of Needville, and Mrs. Armond Hoover.

RECENT BRIDE AND BRIDEGROOM-Miss Terri Lynn Kemp and Mr. David Darby McColloch were united in marriage in a double-ring ceremony August 7, at First Baptist Church in Jal, N.M. She is a member of the Ozona School faculty and he is an employee of Fesco.

Womans League kicks off current club year

The Ozona Woman's League met for its first meeting of what promises to be an exciting, as well as a productive, new year, in the home of Mrs. Duane Childress, with Mrs. Steve Kenley and Mrs. Randy Upham assisting her as hostesses, Tuesday evening.

Bill Sims, candidate for the Texas State Senate, and his wife Sue, were guests. Mr. Sims helped set the mood for the club's prospective activities by stating, "Nothing is impossible when a group of West Texas women get behind it."

The new yearbooks were distributed among members and plans for the year discussed by program chairman Carmen Sutton. Projects for this year will include the Mildred North one-year tuition scholarship, the J.A. Pelto interest-free loan fund for high school graduates, promotion of music education in the public schools, and assisting the Ozona Day Care Center as volunteer helpers.

Also under the heading of education, league members will see that supplies are provided for pre-schoolers at the Ozona Community Center, contributions are made to the Ozona Primary Library Fund, and cultural activities made available to Ozona school students.

Civic projects will provide the Day Care Center with a television, Girl Scout Day Camp with camping equipment, Ozona Volunteer Fire Department with equipment, Crockett County Hospital with medical equipment and entertainment packets for hospitalized children.

Fire-proof drapes will be provided for one room at the Crockett County Care Center. The Crockett County 4-H will receive contributions for sewing machine repairs. Contributions will be made to the bank fund for medical expenses for an Ozona family

and to the West Texas Rehabilitation Center Building Fund.

This year will see a display case donated to the Crockett County Museum, toys given to the Community Center Christmas Store, a fall activity provided for the Crockett County Youth Center, and active assistance given the Cystic Fibrosis Fund Drive in the spring.

All but three members were present to help new president, Mrs. Lane Scott, get her year off to a positive start.

DUPLICATE BRIDGE

Mrs. Bill Baggett and Mrs. Clay Adams were the winners in Duplicate Bridge Club play at the Country Club Saturday. Mrs. Robert Cox and Mrs. Sherman Taylor were second.

In play Sunday, Mrs. Cox and Mrs. Tom Montgomery were first and Mrs. Adams and Mrs. J. B. Parker, second.

LADIES GOLF DAY

Ella Clegg won low gross and closest to the pin on number 3, during Ladies Golf Day last week at the country club.

Marilyn Cox won low net and Jeanette Bailey won low putts.

Other golfers were Bobbie Fatout and Katy Jones.

COUPLES GOLF

The winning team at couples golf play last week at the Country Club with six under was Sherry and Bobbie Bailey and Katy and Demp Jones.

Tying for second were the team of Barbara and Bob Wallace, Wanda and Byron Stuart, and the team of Bobbie and Jerry Fatout and Gregory Stuart and Sheila Hartman.

Nearest to the pin on number 3 were Carol Hensley and Bobby Bailey.

Tips For Gardeners

From The Ozona Garden Club by Mrs. Bailey Post

One of the most delightful pleasures of Autumn is the fragrance of fall-flowering shrubs. So when deciding what shrubs to add to your landscape during the upcoming planting season, make fall fragrance one of your choices. Among these are the evergreens, sweet olive and holly olive, fruitland elaeagnus, loquat and single-flowered sanqua camellias. Among scented selections are apple blossom (white), Shinonome (soft pink), Nodami Ushiro (deep pink), Misty Moon (pale lavender pink), Hugh Evans (pink), and Texas Star (pink).

Both the flowers and leaves of this camellia are smaller than those of the popular common camellia (C. japonica), and flowering is earlier. Growing to a mature height of 8 to 10 feet, it's a good choice for medium-height screens and informal hedges.

Some landscape plants seem to have more than their share of attributes and the Skogholmen Cotoneaster Dammeri is a fine example. Along with its year-round ornamental appeal, this plant also offers toughness and versatility. It is a prostrate, spreading evergreen shrub with arching branches that may root wherever they touch moist soil. Growth is rapid with the plant spreading to 10 feet or more at maturity, but growing no more than 1 1/2 feet tall. For these reasons, this Cotoneaster is well suited for use as a ground cover on steep banks or hillsides. There, its extensive root system effectively controls erosion, while the branches spread the once-barren slope with a leafy carpet of green. It has the ability to withstand hot, dry conditions and poor soils

if well drained. Although full sun is best, the plant can tolerate partial shade. Avoid pruning when possible and never shear the plant. If light pruning is necessary, do it in late winter or early spring.

One request about African violets that have healthy foliage but no blossoms. What is wrong? Insufficient light, unfavorable temperature, or improper watering can prevent African violets from blooming.

If your violets are not getting 15 to 18 hours of bright light daily, install plant lights to supplement natural lighting. They grow and bloom best in a temperature range of 65 to 70 degrees. Keep the soil constantly moist but not soggy; do not allow it to dry out and drench.

FOR SALE-recently remodeled 3-br. or 2 br. with office or den. 2 baths, sun room, kitchen, living, dining and laundry room. Storage galore. Central heat and air. Established neighborhood, Ph. 392-2850, 608 Ave. I

Calling All Homemakers

Brought to you by Brown Furniture

Whether you have a large dining room, or a little corner off the living room where you dine, remember that you can create an effective and beautiful place to eat.

It can be done two basic ways, by, first the right choice of furniture and, second, by good decorating planning.

For your dining table, be sure to consider not only its size but also how it is scaled for the area, and consider different shapes for best decorative appeal.

And don't forget that dining areas are composed of more than just the dining table and chairs. Atmosphere and that includes everything in the area is one key to a beautiful dining area. Your walls, floors and other furniture pieces must be considered.

Your storage pieces in the dining area can be not only for storage but can also be beautiful furniture if chosen right. If you don't have room for a china cabinet or buffet, you can still consider any number of other things that will do a job for you practically and decoratively. Beside smaller cabinets, there are small servers, portable bars, tea wagons, etc.

Which dining room furniture should you use? We can help you with selection and ideas.

Mrs. Adams is bridge hostess

Mrs. Clay Adams was hostess for Country Club Bridge Club play Thursday at the club.

High score went to Mrs. Sonny Bailey and second high to Mrs. John Childress. Mrs. Bill Baggett and Mrs. Byron Williams won the bingos.

Others playing were Mrs. Joe Bean, Mrs. Bill Mason, Mrs. Kirby Moore, Mrs. Jake Short, Mrs. B. W. Stuart, Mrs. Ewart White, Mrs. Charles Williams, Mrs. Gene Williams, Mrs. Jack Williams and Mrs. Arthur Kyle.

Let Your Light Shine

Jesus put magnificent truths in simple terms we'll never forget. None among us wants to hide his light under a bushel!

But are we as quick to realize that Christ is really talking about setting the right example?

Let your light so shine before men that they may see your good works and glorify your Father which is in heaven.

Those whose light brightens life all week set an especially significant example in their place of worship. Apparently in the worship and work of God they recharge spiritual batteries.

Crockett County Care Center News

BY ANN MCCARTNEY
DIRECTOR OF ACTIVITIES & SOCIAL CARE

When writing about "Autumn Beauty," Lucille Sahakian wrote "Gazing at meadows and autumn skies, We enjoy God's gifts, created for all. As we drink in beauty of early fall." What fun it is to see the colors of autumn, colors that seem to spring before our very eyes.

Whatever the season, though, we have a large group of faithful volunteers we can depend on both as regulars and as back-ups. Second Sundays regular church group called to say they would be unable to come and so our faithful back-up group from the Calvary Baptist, led by their pastor Rev. Clinton Eastman came and conducted the services. We really do appreciate this group and are looking forward to seeing them for other programs as well.

Monday morning dominoes were played by Paul Cavin, Ola Mills, Louise McWilliams, Maude Pettit, and Johnny Henderson.

Monday afternoon a group of residents went on our monthly field trip to Clayton's Village Drug where they were treated to a milkshake or float of their choice. Residents making the trip included: Johnny Henderson, Carol Reed, Juana Hernandez, Paul Cavin, Frances Borrego, Nina Mayfield, Nila Turnell, Virginia Russell, and Minnie Karr. Volunteers helping with transportation and wheelchairs included: Jonesey Williams, Lelia Tambunga and Bernabe Villarreal. We really appreciate this extra help.

Tuesday bingo winner of the El Chato dinner for two was Paul Cavin. Frances Borrego won first place prize of the week from Watson's Department Store. Grace Cotter won second. Alice Ross volunteered both Tuesday and Friday. Others coming one of the two days included Louise Johnigan, Hope Vargas, Ofilia Enriquez, Dorothy Doll, and Anna Belle Patrick. Bingo is a big twice a week event. Residents really enjoy the popcorn made by Anna Bell every Friday.

We have something new in our Center, a mailbox for outgoing mail made and donated by Joe Sanchez and painted by J. McCartney. (These two are hard to beat when you need a painter and a carpenter.)

Another new item in our Care Center is a large magnifying lamp that hangs from the back of a chair and over the shoulder of one who wishes to have handwork or reading magnified. This neat new product was donated by Clayton of Clayton's Village Drug.

Tuesday afternoon Marie Pierson brought our ladies a demonstration on the various ways we could make and decorate throw pillows. Residents enjoying the demonstration included: Carol Reed, Juana Hernandez, Frances Borrego, Tomas Ramjos, Virginia Russell, Ola Mills, Verna Talley, Nina Mayfield, Alice Locke, Maude Pettit, Moraima Perez, Floy Calre Short, Johnny Henderson, and Max Schneemann.

It takes one second for the wings of small hummingbird to beat 70 times.

A brand for the future

WADE A. MOSLEY
MANAGER
Box 397
Sonora, Texas

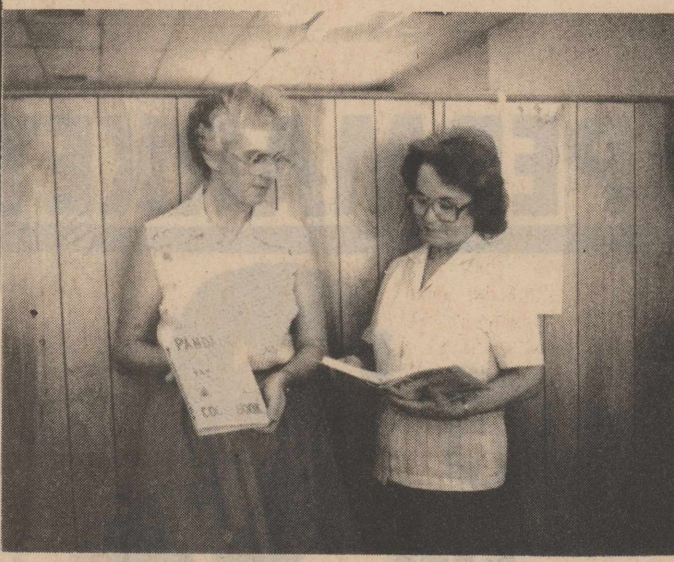

Wednesday morning Marie again returned to help volunteer Ruth Hester and our resident ladies with ceramics. Those working included: Juana Hernandez, Frances Borrego, Ola Mills, Vera Talley, and Maude Pettit. Jessie Deaton came for awhile to observe. Dorothy Doll was also a volunteer helper.

A large group of residents went out on the porch for sunshine hour.

Bonnie Warth and Madye Jo Humphreys helped make our ladies look their best through their work in the beauty shop on Thursday morning. Thursday afternoon Bible study was conducted by the Faith Lutheran Church group. This was followed by Spanish hour conducted by the Catholic ladies.

Also Thursday afternoon our residents were treated to a cake from Polly Eppler's Bakery and ordered by Edith Owens of Barnhart for Leona Harris. Mrs. Jack Baggett was here to help us sing Happy Birthday. How nice to have friends that remember our residents on their birthdays and thoughtfully share the celebration with all residents!

One of the major goals of the activity program in our Care Center is to promote and maintain preventive activities to assure the continued well-being and productivity of our residents. The importance of family, community networks and informed support in long-term care cannot be over-emphasized. In other words, we need you. Think volunteer!

COOKBOOK SALES SLATED-Kitty Montgomery and Sue Arledge, Pandale Study Club President, look over the new Pandale Cookbook which will go on sale Friday at the Ozona National Bank. Club members will be at the bank during banking hours to sell the cookbooks and serve refreshments made from recipes in the all new cookbook. Sharman West, artist for the cookbook, will be present to sign autographs. Price of the cookbooks is \$12.00.

Miss Powell hostess for Post Garden Club

Miss Leta Powell hosted the Myrtle Post Garden Club meeting Monday evening in the Community Center with Mrs. Polly Eppler serving as co-hostess.

An arrangement was made by each of the hostesses for the meeting. Mrs. Eppler's was of weathered wood and ivy. Miss Powell's arrangement was of fresh garden flowers.

During the business meeting the president, Mrs. Lee Graves, asked for reports on projects progress. Mrs. John Hight gave the report on the "Litter Campaign" project as to the further disposal of the bumper stickers. She also reminded the members to fill out the horticulture rating sheets, issued earlier, to be brought to the final meeting of the year. Mrs. Graves suggested a

project of helping keep the nature trail clean and neat.

Mrs. Jack Brewer, flower show chairman gave the progress report on flower show plans. She offered tips on cutting and conditioning flowers and foliage for the horticulture division of the show. The horticulture sight was given along with the procedure of entry and entry tags were handed out.

Plans were made for the flower show luncheon, headed by Mrs. T.R. Conner and co-hosted by Mrs. Polly Eppler. Each member was asked to bring a covered dish of salads or vegetables. A plant auction was held and refreshments served following the meeting.

Other members present were Mrs. Grace Williams, Mrs. T. H. Wellman, Mrs. Phillip Smith, Mrs. Myrtle Post and Mrs. Jim Dudley.

Some foods may lessen odds of getting cancer

Although we have heard plenty about foods that appear to increase the chances of getting cancer, a recent study also cites foods that seem to reduce the odds says the Texas Medical Association.

A scientific committee of the National Academy of Sciences says in a report that diets rich in fruits, vegetables and whole-grain cereals seem to reduce the chances of getting certain kinds of cancer. The panel specifically urged daily consumption of produce high in vitamin C and carotene, which the body changes to vitamin A.

The committee noted that vitamin C in foods can inhibit the formation of cancer-causing substances. It said foods rich in vitamin C, such as citrus fruits, tomatoes and peppers, appear to lower the risk of stomach and esophagus cancer.

Foods high in carotene are associated with a reduced risk of many cancers, including lung, breast, bladder and skin. These foods include dark-green leafy vegetables and deep-yellow fruits and vegetables, such as carrots, spinach and broccoli.

The study also cited vegetables in the cabbage family cauliflower, kale and brussels sprouts for their natural cancer-inhibiting substances.

But the committee advised against taking large doses of vitamin and nutrient supplements. It cited a lack of proof that this is healthful and noted possible toxic hazards.

The study also urged people to cut back on foods that may increase the risk of getting cancer. They include: Salt-cured and smoked foods such as bacon, bologna, smoked fish and ham, sausage and hot dogs.

Foods high in fat such as fatty cuts of meat, cooking oils and whole-milk dairy products.

Finally, the report urged moderation in drinking alcoholic beverages. It noted that heavy drinking has been associated with an increased

risk of cancer of the upper gastrointestinal and respiratory tracts, particularly when combined with smoking.

The problem of overweight can be solved by a combination of things--a sensible diet program based on lower-calorie choices from the basic food groupings, a daily exercise program and changing those bad eating habits, points out Mary K. Sweeten, a food and nutrition specialist on the home economics staff of the Texas Agricultural Extension Service.

HOMECOMING'S TRADITION AT O.H.S.

By-Robbie Turnley
The tradition of homecoming has been observed at O.H.S. for quite a long time. Homecoming Week includes the annual mum sale by senior students at O.H.S., the homecoming game, and the homecoming dance.
Some former homecoming queens are Elsa Fierro, queen of 1981; Michelle Galvan, queen of 1978; Jeanine Perry, queen of 1977; Sylvia Flores, queen of 1974; Lynn Cox, queen of 1964; Jann Smith, queen of 1961; Don Nell Carnes, queen of 1960; June Bunger, queen of 1959; Carolyn Mayfield, queen of 1957; Beverly Killingsworth, queen of 1956; Susie Schneemann, queen of 1954; Billie Ann Larvin, queen of 1953; and Betty Wally was homecoming queen of 1952.

Homecoming is a time for old friends to get together and talk about what they have been doing since they have departed from one another. It also is an emotional time for friends who have not seen each other for a long, long time. During this week, each class at O.H.S. will elect candidates for homecoming queen. The winner will be announced Friday night at the homecoming game where McCamey will visit Ozona.

LIONS DROWN BIG LAKE

By-Robbie Turnley
The Ozona Lions, with Will Mason's perfect 6 for 6 on extra points, beat Reagan County now 3-0 for the year, while the Reagan County Owls dropped to 0-2-1.

In the first quarter, the Lions got a 21 yard touchdown run by David Badillo, quarterback. The Owls had to punt and Ozona got a three yard touchdown run by Diego Leal. Reagan County then lost a fumble and Ozona recovered it at the Owl 30. Willie Payne then got a one yard touchdown run and the quarter ended with the Lions leading 21-0.

Payne also scored on a four yard touchdown run and Mason's PAT was good. Ozona led 28-0 at the half. Badillo who faked a lot on the Owl defense, ran four yards for his second touchdown run of the evening. After the third quarter, the Lions led 35-0.

Allen Dews scored the last touchdown of the evening for the Lions on a two yard run. The extra point was good. Reagan County broke the shutout with a 34 yard pass play for a touchdown. The PAT was good. Will Mason ended the game by kicking a field goal.

The McCamey Badgers, unbeaten in their games, come to town to play the Lions this Friday at the homecoming game which starts at 8:00 p.m.

SENIOR-50 YEARS AGO

By-Gayla Bell
May of 1982 marked the 50th anniversary of graduating class of 1932. Several

members of that class have organized a class reunion, to be held September 24 and 25. This is their first class reunion and they are expecting about 30 people to attend. A reception will be held for them on Saturday at the Civic Center.

Luetta Kost, formerly Miss Luetta Powell, is a member of that class. Mrs. Kost has lived in Ozona all of her life. Her family moved to Ozona in January of 1919 with her parents, Kate and R.F. Powell; her sisters, Gladine and Leta; and her brother, Fish.

Mrs. Kost was a senior in 1932 and her class was the first to graduate from the new high school building. They moved into the building in January of 1932 and graduated that May. Mrs. Ethel Miller, formerly Miss Ethel Word; Mrs. Bernice Jones, formerly Miss Bernice Bailey; and Mr. Joe S. Pierce, are the only classmates of 1932 that still live in Ozona. The president of the class of '32 was Marvin Rape and the secretary was Bernice Bailey. Their class sponsor was Lucille Williamson.

Mrs. Kost was involved in basketball, H.E., the pep squad, and her class plays while she was in high school. She said, "We were all cheerleaders and I all seeing the Lions win. Later going to the dance for a "celebration"! GO LIONS! Donna Tomlinson-What I like best about homecoming is all the spirit that everyone has during that week.

J.R. Garcia-Go to the game and play and march with the band.
Capp C.-To go to the game and watch us smoke McCamey, then go to the dance and have a blast.
Rowdy Holmsley-winning the game
Sherry Leonard-I like the game the best, and the pep rally they hold every year.
Linda Villarreal-I like everything about homecoming! Vickie Duncan-I like going to the game and the pep rally.

Kim A. Williams-I like everything
Evelyn St. Clair-I like to see everyone dress up and to see who will be homecoming queen.
Raul Delgado-"Party"!!
Leonor H. Munoz-Partying and being #1.
Jo Anne Hearne-Seeing how the students dress up that week and being at the game and seeing everyone who came home.
Ray Lara-"Sabes"----

We asked Mrs. Kost what she thought of the changes made in OHS since her graduation. She said there have been many changes and improvements in the H.E. building, such as new stoves. She and her classmates cooked on old stoves when they took H.E.

Mrs. Kost is married to Mr. Oscar Kost of Southwest Microwave. Mr. Kost used to announce at the football games and now he checks the P.A. system before each game to be sure it is working properly.

When asked how she felt about her high school years, Mrs. Kost was quoted as saying, "It was great, we all had fun!"

WHAT DO YOU LIKE BEST ABOUT HOMECOMING?!!

By-Melissa Galindo
The Lion's Roar Staff asked this question to some

of the OHS students, the following are some opinions:
Irma Tobar-to see who gets Homecoming Queen.
Mary Trevnio-Homecoming week.
Ninfa Cervantez-seeing people who I haven't seen in a long time.

James Fierro-winning Homecoming game
Mary Richarte-homecoming game
Yvette Martinez-wearing a mum made by a senior and seeing the Lions win the homecoming game.
Rudy Martinez-What I like best is for us to win the football game and to see the senior guys dressed like girls, and looking at the girls wearing a senior mum from you.

Imelda Vargas-To have lots of spirit that day, and going to the dance to get down!
Kala Sessom-to see the boys dress up like cheerleaders.
David Adams-I like all of it.

Arturo Gonzales-to see who will be the Homecoming Queen and to see who wins the Homecoming game.
Hilda Cisneros-I like going to see the game and watching the boys dress up as cheerleaders, but most of all seeing the Lions win. Later going to the dance for a "celebration"! GO LIONS!
Donna Tomlinson-What I like best about homecoming is all the spirit that everyone has during that week.

J.R. Garcia-Go to the game and play and march with the band.
Capp C.-To go to the game and watch us smoke McCamey, then go to the dance and have a blast.
Rowdy Holmsley-winning the game
Sherry Leonard-I like the game the best, and the pep rally they hold every year.
Linda Villarreal-I like everything about homecoming! Vickie Duncan-I like going to the game and the pep rally.

Kim A. Williams-I like everything
Evelyn St. Clair-I like to see everyone dress up and to see who will be homecoming queen.
Raul Delgado-"Party"!!
Leonor H. Munoz-Partying and being #1.
Jo Anne Hearne-Seeing how the students dress up that week and being at the game and seeing everyone who came home.
Ray Lara-"Sabes"----

We asked Mrs. Kost what she thought of the changes made in OHS since her graduation. She said there have been many changes and improvements in the H.E. building, such as new stoves. She and her classmates cooked on old stoves when they took H.E.

Mrs. Kost is married to Mr. Oscar Kost of Southwest Microwave. Mr. Kost used to announce at the football games and now he checks the P.A. system before each game to be sure it is working properly.

When asked how she felt about her high school years, Mrs. Kost was quoted as saying, "It was great, we all had fun!"

other students and also accomplish much more. Whereas, the students who do not care at all about studying, accomplish nothing and get lower grades.

If a student does not have any responsibilities in high school, most likely he or she will not have any as an adult. Not being responsible as an adult could be very hard on a person. For instance, do you really think anyone can raise a family without being responsible? There is no way a person can raise a family without having responsibilities. One must be a responsible person in order to survive in life. This is the time to begin accepting responsibility. Later, it can be too late.

STUDENT COUNCIL NEWS

By-Irma Ybarra
The Student Council is a group of students who work hard throughout the year. They have meetings now and then to see what projects they may need to do for the school.

The Student Council is going to be busy during Homecoming Week. They will be making plans on how they are going to decorate the Civic Center. Then, Friday they will be decorating there, where they will sponsor the homecoming dance, Saturday, September 24, from eight till twelve. Admission will be three dollars per couple and two dollars for a single person.

Randy DeHoyos, Student Council president, emphasized the dance is for all students and ex-students. Randy commented that he has been in the Student Council for four years, and this year has been the "most cooperative" group, and because of this, he commented, "We will be successful in what ever we try to accomplish."
SEVENTH GRADE JR. HIGH CUBS OPENS SEASON

By-Robbie Turnley
The seventh grade junior high Cubs opened the season at Lion's Stadium, Thursday afternoon with a 34-6 loss to Big Lake.
Big Lake scored their first touchdown with 4:40 left in the first period but it was called back because of illegal motion. Big Lake scored a touchdown ten seconds later and the two-point conversion try was good. The first quarter ended with Big Lake on top, 8-0.
Big Lake scored another touchdown with 3:16 left in the first half but the two-point conversion try pass fell incomplete. Big Lake got another touchdown with twelve seconds left until halftime. The two-point conversion try was good. The score at halftime was Big Lake 22, Ozona 0. Neither team scored in the third quarter but Big Lake, with 4:46 left in the game, scored another touchdown. The two-point try pass fell incomplete. The Cubs broke the

shut-out with a 49 yard run by Darrell Vargas for a touchdown with 3:07 left in the game. Big Lake ended the game by scoring another touchdown. The score, at the close of the game, read Big Lake 34, Ozona 6.

The eighth grade Junior High Cubs opened their season Thursday, also, with a 20-6 loss to Big Lake.

Big Lake scored with 1:27 left in the first quarter but the conversion attempt failed. They also scored another touchdown with fifty-two seconds left in the first half but the PAT failed again. The Cubs, on long passes by quarterback Sam Hightower, drove deep into Owl territory but the half ended before the Cubs could score. The half ended with Big Lake leading 12-0.

Nobody scored in the third period but Big Lake scored with 7:48 left in the game. The two-point conversion was good. The Cubs scored with 2:23 left in the game but Big Lake ended up winning 20-6.

The Ozona High School Junior Varsity played their second game of the season Thursday night with a thrilling 21-0 shelling of Big Lake's J.V.

Big Lake got close to field goal position until David Vargas intercepted a pass from Ozona's 23-yd. line. Oscar Vargas carried for Ozona to midfield before Big Lake recovered a fumble. Ozona's George Guerra recovered Big Lake's fumble at Ozona's 47-yd. line. The Lions scored a touchdown with a run by Mark Vallejo with 1:25 left in the first quarter. The PAT kick by Al Ramirez was good.

Big Lake fumbled again at their own 21-yd. line and George Guerra recovered it. Oscar Vargas scored a touchdown for the Lions with a seven yard run with thirty seconds left until halftime. The extra point was good. Ozona went into the locker room with a 14-0 lead.

Neither team scored in the third quarter but Oscar Vargas had a two-yard touchdown run with 7:57 left in the game. The extra point by Ramirez was good. The Lion JV won 21-0.
The seventh, eighth, and JV play Rankin there this Thursday.

A WORTHWHILE ORGANIZATION

By-Cyndi Trujillo
Preparing students in the world of work in the automotive field is just one of the purposes for auto mechanics in our school. Auto mechanics gives preparatory instructions in the development of skills, safety, technical knowledge, and related information in order to prepare students for useful employment.

Pete Maldonado is the instructor for auto mechanics. Mr. Maldonado hopes to teach his students the field of auto mechanics so that they

can successfully work in this field. He does this by treating his students on an employer-employee basis.

Mr. Maldonado said his first year class is picking up information very well. His second group is just receiving the basic procedures such as safety, organization, and policy procedures. The two classes will participate in district competition later in the school year.

Auto mechanics is part of an organization, Vocational Industrial Clubs of America, better known as VICA. VICA is a nation wide organization to serve the youth in trade and industrial education. It is designed to promote leadership development. VICA is involved in a lot of activities. Some of these activities include the annual Teachers Appreciation Breakfast, which is so the students can say, "Thanks" for all of the time they give to them in order to prepare them for life on their own. Other activities throughout the year include making baskets or a meal during Thanksgiving, throwing a Christmas party, and distributing gifts at the Care Center and a parent-student banquet in the spring. Mr. Maldonado stated that these activities are to "help out the community and the school."

The VICA officers are elected every year. Elected as this year's officers were Willie Payne as president, Randy DeHoyos as vice-president, Zeke Martinez as secretary-treasurer, Greg Fierro as Sergeant at Arms, David Tijerina as Parliamentarian and Henry Delgado as reporter. These officers will attend a meeting in Andrews to help them in carrying out their duties.

"Preparing for Leadership in the World of Work" is the motto for VICA. Mr. Maldonado feels that VICA is not only to teach technological skills but also to teach students the knowledge to teach leadership. He feels this organization is very worthwhile. Besides giving students knowledge, commented Mr. Maldonado, VICA gives them an opportunity to use their training, meet people, to travel, and to gain educational experience by going to contest and other related activities.

LIBRARY AIDS

By-Noemi Gonzales
Helping Mr. York in the library this year are seniors Gayla Bell, Noemi Gonzales, Brenda Ledbetter and Cindy Lott. Juniors are Matilde Castellanos, Maria Moreno and Marina Tijerina. These stu-

dents are called "library aids."

The purpose for having library aids, according to Mrs. York, is to first, "help get the work that needs to be done" and second, "learn how to use the libraries."

Checking books in and out, shelving them, filing cards, taking care of the magazines, clipping important articles out of the newspaper to put in the verticle file and fixing some of the jobs library aids do, according to Mrs. York.

When asked how she went about selecting the girls, she said, "they were recommended to me by Mr. Payne" and then "I interviewed them myself. They must also be juniors or seniors," added Mrs. York. Juniors and seniors can now take library as a class and get an extra half credit for it, according to Mrs. York.

Mrs. York also said that she "enjoys helping the library aids" learn more about the library and how "to use it correctly."

According to Mrs. York, being a library aid can be very helpful if you need a

part-time job when you are in college.

PEPE'S OPEN LATE ON FOOTBALL FRIDAY

By-Melissa Galindo

Recently the Lions Roar staff spoke to the owner of Pepe's Pizza, Alfred Tobar. He said that Pepe's Pizza was going to be open late during the Lion's Homecoming game and the Homecoming dance. Mr. Tobar commented, "I wish to make Pepe's a nice and clean place for all the kids in town. Here at Pepe's we have many different games and also we have a jukebox for the kids of Ozona."

A free small pizza will be given to each Lion football player who recovers a fumble for Ozona with compliments from Pepe's Pizza.

Pepe's supplies the kids with music of their choice and eight different video games.

Wildfire danger increasing daily

Wildfires have been increasing in number and size in both the timber region of East Texas and in the range lands of West Texas, during the current dog days of late summer. And there's apparently no relief from rain in sight for at least the next several days.

Pat Ebarb of Lufkin, head of the Texas Forest Service's Fire Control Department, said conditions are dry and dangerous all over the state.

"We are not yet to the point of crisis or issuing any sort of moratorium on burning," he said, "but we do need to give the people of Texas a good old fashioned warning to use caution with all kinds of fires and trash and leaf burning."

Lt. Lindsey Webb of the Lubbock Fire Department, who is also a part-time fire training instructor contracted by the Texas Forest Service, agrees with Ebarb that conditions for wildfires are worsening throughout West Texas and the Panhandle.

Meanwhile a check with the National Weather Service has shown a high pressure system keeping rain well to the north of Texas for the past couple of weeks. Forecasts indicate little relief expected within the next several days.

In East Texas there have been only two days since late June when no wildfires were recorded. During the past week between 15 and 20 per day have kept both Texas Forest Service and Volunteer Fire Department crews busy.

Tuesday, August 24, was the worst day this summer with 25 fires burning a total of 425 acres. The number of fires for August is 227 and 1,630 acres burned.

This brings the year-to-date totals for the first eight months of 1982 to 1,075 fires and 15,635 acres burned. If the late summer and fall continues to be dry, projections are that 1982 could equal 1981's total of more than 2,100 fires and more

than 27,000 acres burned. Firefighters hope fall and winter rains will keep 1982 from matching the dry years of 1980, 1978 and 1977 during each of which more than 40,000 acres of timberland burned in East Texas.

Ebarb also said that there has been enough scattered summer showers to give Texans a false sense of security. "Things still look green, but the hot summer winds cause grass and other vegetation—that still looks green—to burn like tinder."

He also explained that because of the early spring rains and lush growth there is a large amount of fuel in the pastures and on the forest floor. Add wind, high temperatures and the lack of moisture and hazardous conditions intensify daily.

"This is the time of year when folks start back to school and smell fall in the air. They begin to get anxious to get rid of trash and leaves that have been collecting, so we urge everyone to be extremely careful with their outdoor burning," he said.

Texas Forest Service records show that by far the largest cause of forest wildfires are debris fires that were allowed to get out of control.

Crib mattresses should fit snugly so an infant can't get caught between them and the crib wall. If you can fit more than two fingers between crib and mattress, the mattress is too small, says Dr. Peggy Owens, housing and home furnishings specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Through participation in clothing projects, 4-H members have the opportunity to complete 4-H record books and compete for a trip to the National 4-H Congress in Chicago and to model a garment in the Texas 4-H Fashion Show or in shows at the county or district level. They may also exhibit garments in the Texas 4-H Project Show or give clothing demonstrations and talks.

SHOP THE OZONA STOCKMAN FOR YOUR OFFICE SUPPLIES.

Projects abound in 4-H

What do you do when you don't know what to do? Join 4-H. 4-H'ers are always doing something in a 4-H Club...and they're doing it together.

These boys and girls take advantage of opportunities provided by the Texas Agricultural Extension Service which is in charge of the 4-H programs in Texas.

Foods and nutrition and clothing are projects with the largest enrollment among 4-H youth 9-19 years old, points out Debra Price, county 4-H program coordinator with the Texas Agricultural Extension Service, a part of the Texas A&M University System.

4-H has stirred up great new ways to teach youth about foods and fitness. Foods and nutrition projects teach youth skills to use in a lifetime of cooking, how to be a better consumer and about the latest nutrition information. New project materials include physical fitness activities to encourage a healthy lifestyle.

In foods and nutrition projects, 4-H members may participate in the 4-H Food Show, give nutrition demonstrations and talks, and enter their 4-H record books in competition for trips to National 4-H Congress in Chicago each fall.

4-H clothing projects help boys and girls develop skills in choosing and buying clothing as well as clothing construction. Projects also teach good grooming habits and help boys and girls determine their personal values and relate them to their clothing choices.

Through participation in clothing projects, 4-H members have the opportunity to complete 4-H record books and compete for a trip to the National 4-H Congress in Chicago and to model a garment in the Texas 4-H Fashion Show or in shows at the county or district level. They may also exhibit garments in the Texas 4-H Project Show or give clothing demonstrations and talks.

Microwave used most in cooking

From the Texas Medical Association

They detect speeding cars, provide warnings against burglars, send telephone and television communications, and provide deep heat for treating sore muscles. But the most familiar use of microwaves is to cook food.

Despite their widespread use, research on whether low levels of radiation from microwaves pose any health hazard is inconclusive, says the Texas Medical Association. But microwave ovens are considered safe if approved by the U.S. Food and Drug Administration and used properly.

Three characteristics allow microwaves to be used in cooking: They pass through glass, paper, plastic and similar materials; foods absorb them; and metals reflect them.

Inside the oven, an electron tube called a magnetron produces microwaves. They bounce off the oven's metal walls until absorbed by the food. The microwaves cause the water molecules in the food to vibrate, producing heat that cooks the food. For this reason, foods with a high water content, like fresh vegetables, cook more quickly than others.

These ovens cannot make food radioactive because microwave energy is converted to heat as soon as the food absorbs the waves. The concern is over radiation leak-

ing from ovens. But FDA standards limit allowable microwave leakage during an oven's lifetime to a level far below that known to harm people. In addition, the measurements are taken two inches from the oven's surface, and the level of leaking radiation that might reach a person decreases dramatically as he moves away from the oven.

Here are some tips for operating a microwave oven safely:

Follow the manufacturer's instruction manual.

Don't operate the oven if the door closes improperly.

Never operate the oven if you have reason to believe it will continue to operate with the door open.

Don't stand directly against the oven for long periods while it is on.

Football-

[Cont'd From Page 1]

ripping off an additional 35 yards to push the Lions deep into Owl territory. Mason again took the field and kicked the ball literally out of the stadium in connecting on a field goal giving the Lions a 45-7 victory margin.

"Tonight we showed a greater level of confidence in our offensive execution and managed to accomplish our game plan effectively," explained Ozona Assistant Coach Pete Maldonado.

"Now our backs seem to understand where to run and the overall offensive production reflects that fact. I'd say it's generally a positive indication."

That could be bad news for McCamey's squad that's due to invade Lions Stadium Friday evening at 8 p.m.

Notes from the Lions' locker room

By Ross A. Alexander

Coach Don Abbott: "It was a fun game to watch...essentially, we've improved in our running game and the guys upfront handled their blocking assignments effectively. I'm satisfied that progress is being made, but we still have some improvements to work on."

Greg Fierro: "The blocking up front held up real good for us tonight. Badillo called a great game. We like winning homecomings..."

Willie Payne: "The fellows up front opened some big holes tonight and that made it possible for the backs to do some real running. I feel we're really on the move and I just hope the fans will keep supporting us the way they did tonight."

Ed Borrego: "Everything fell in place pretty good tonight. David called a great game...we're coming right along in my opinion. McCamey better be ready."

Rowdy Holmsley: "Badillo called a really good game tonight, and Willie ran with authority which makes me happy, I'll tell you. The team just played well."

Zeke Martinez: "I'm pleased at the overall team effort tonight. Basically we didn't take anything for granted...we took command and created opportunities tonight and that's a good sign of the improvement I spoke of. Willie played especially well and Badillo was super. We're really coming together as a unit."

Will Mason: "We executed fairly well tonight and I'd say we generally did a good job. Some of the younger

guys looked really good and got some game experience. Al Borrego looked good and Flores and David Delgado did also. McCamey should be our first real test of the team's improvement and we've got to work hard to get ready for them."

Robert Massey: "Willie Payne really cut loose tonight and I hope he keeps it up...he's just got so much talent. We managed to work a lot of guys into the game and they proved themselves pretty well. Al Borrego looked like he'd like to play more and so did David Delgado. Now we've got to get ready for McCamey."

Johnny Rodriguez: "The coaches prepared us well for Big Lake. I studied their sweeps and slant patterns and I was ready. I feel this team can definitely handle the McCamey Badgers."

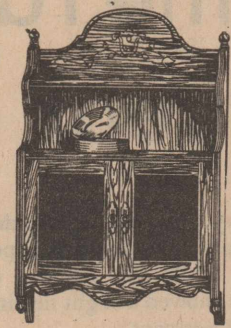

Harvey Huerreca: "The team played super tonight and Willie really ran well. The blocking up front was crisp and decisive and that really helps the running game." (Huerreca was hospitalized with cracked ribs and a punctured lung the day after the game.)

Iron Man: "We took it to them tonight and it paid off pretty good. I don't think we have much doubt about what we can do, it's just a matter of going out there and executing. Badillo was terrific tonight and I believe Willie has arrived at last."

Arnold Vargas: "We looked more improved, more aggressive and confident. McCamey should know that we will definitely be ready whenever they show."

Thursday, September 23, 1982

We carry a Wide Selection of vehicles

Chevrolet, Cadillac, Oldsmobile, Chevrolet Trucks, Buick and Pontiac

See our Wide Selection of new 1982 Carry overs SOLD AT OR BELOW WHOLESALE PRICES

Would you like to have a \$100⁰⁰?

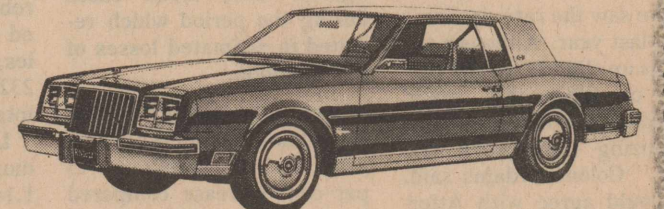

There will be three individual drawings for \$100⁰⁰

You must be 18 years of age or over to be eligible for the drawing.

It will be held Thursday, September 23 at 6:00 p.m.

We will have FREE Soft Drinks for everyone!

L-B Motor Co.

Rainfall gives firemen relief

The half inch of rain which fell in Ozona and most of the rangeland around gave firemen a break from the almost constant stream of grass fires they were called out to fight last week.

An unusually dry August and September has kept Ozona firemen busy. So far in the month the department has answered 14 fire calls. Of this number 12 were grass fires, one a house fire and one a wash down of a gasoline spill. The volunteer firemen have spent 367 man hours and used approximately 13,380 gallons of water.

The busiest time was last week, starting on Monday, and most of the fires were the result of lightning striking the dry ground along the edges of the rain showers.

The first call came in

Monday around 2 p.m. for a fire on Hwy 190, 4 miles west of Hwy 163. While en route the firemen received another call on a large grass fire east of Hwy 163 on 190. One truck was sent east and the other west while a third truck was started from Ozona. The west fire only burned 15 to 20 acres, but the fire east burned several sections of rangeland before being brought under control by units from Ozona, Barnhart, Big Lake, Eldorado, Mertzon and Sonora.

The fire was brought under control shortly before 7 o'clock Monday night, just as another call came in for a fire on the Pierce Ranch 26 miles south of Ozona. Two Ozona units responded and just as they were approaching the fire another call came in for a location south of Barnhart. One unit was dispatched to that location. Before the fires were contained and units back to the fire station, a

large grass fire was reported east of 163. Three Ozona units responded at 8:46. They found a large grass fire

Know your jeans

The anticipated life of a pair of denim jeans is related to weight and fiber content of the fabric.

"Weight" of the denim indicates the number of ounces of one square yard of fabric, says Alma M. Fonseca, clothing specialist with the Texas Agricultural Extension Service, Texas A&M University System.

"Lightweight denims are about 10 ounces, middleweights are 11 to 12 1/2 ounces, and heavyweights are 14 to 15 1/2 ounces. The heavier the denim, the sturdier and more durable, your jeans will be," Fonseca says.

Cotton jeans are durable, but blends (cotton-polyester or cotton-nylon) increase fabric durability and resistance to abrasion. Stretch denim (cotton with spandex or stretch nylon) is also very durable.

"The number of belt loops and their placement affect comfort and fit," Fonseca added. "Too few loops will cause the belt to ride up."

being pushed rapidly by gusty winds. Before it was brought under control units were called in from surrounding towns. The last Ozona truck was back in the station at 2:47 Tuesday morning.

Shortly after noon Tuesday the fire broke out again. The wind was still gusty and the humidity low. The first units found a large grass fire in progress. Other units were called and Ozona firemen returned to town by 5:00 p.m.

Wednesday afternoon firemen were called to the Bissett Ranch north of Ozona, where they were assisted by firemen from Big Lake and Barnhart. The Ozona units returned to the station shortly after 8 o'clock.

During all the fires many persons assisted with stock sprayers, planes to fly over the fire area and water trucks. Without this assis-

tance it would have taken area firemen much longer to contain the blazes, according to Fire Marshal Steve Kenley.

Flag football starts

Ozona will have adult flag football this fall and registration is now being conducted. The period must necessarily be limited because of the number of participants who have already expressed interest.

There will be a \$10 per participant registration fee and all registrants must be assigned a team slot before September 30.

All interested individuals should contact League Coordinator, Greg Stuart at 392-3577.

Barbecue for Sims

Bill Sims, Democratic candidate for State Senator, 25th District, will be here Saturday for a barbecue in his honor at the fairgrounds. Barbecue and all the trimmings will be served at noon, at \$2.50 a plate.

Sims, who is running for the seat vacated by Pete Snelson, will face Ernest Angelo, the Republican nominee, in the November General Election.

PUBLICATION GUIDELINES FOR WEDDINGS

Engagement announcements and pictures should be in this office not later than six weeks prior to the wedding. Wedding pictures and wedding information must be submitted the Monday following the wedding. The Stockman will no longer be able to give space to a wedding occurring prior to the first edition following the event.

Library receives gift books

Crockett Co. Library is one of over 300 public and school libraries in the state chosen to receive a gift of eight books from the Amon Carter Museum in Fort Worth.

The gifts were made possible by a grant from a private Dallas foundation. The Museum undertook a similar program in the mid-70's under a grant from the Texas Commission on the Arts and Humanities.

Officials for the Museum said that they were pleased to be able to share the programs of the Museum, as represented by the books, with such a large number of libraries.

The books cover a wide range of American art, history, and photography. All chronicle exhibitions that appeared at the Museum and other institutions throughout the country. The Amon Carter Museum opened in 1961 and is devoted to the "western" of America. It has published over 70 books in its twenty-year history.

The books given to the library are: *The Bison in Art* by Larry Barsness, *Cities on Stone* by John Reys, *Dorothea Lange Looks at the American Country Woman*, *The Track Going Back*, *The Democratic Art* by Peter Marzio, *American Art from the Worcester Art Museum*, *American Impressionist and Realist Paintings from the William Marshall Fuller Collection*, and *Todd Webb Photographs*.

Texas crime rate up over last year

The Texas crime rate for the first half of 1982 was up 1.3 per cent compared to the same period last year, according to DPS Director Jim Adams.

Statistics gathered by the DPS Uniform Crime Reporting Bureau showed there were 3,083.1 major crimes reported for each hundred thousand of population in the first six months of 1982. The rate for the comparable 1981 period was 3,044.6 crimes per hundred thousand population.

"After three years of crime rate increases in Texas, we saw the rate decline a little last year. Although the rate is up slightly for the first half of 1982, this would indicate a continuation of the stabilizing trend seen last year," Colonel Adams said.

"I would agree with Attorney General William Smith's recent comment that increased law enforcement professionalism is partly responsible for this trend. It's my feeling that citizen involvement in crime prevention is also a factor."

A total of 454,907 major criminal offenses were reported by Texas law enforcement agencies from January through June of this year, Adams pointed out. For the same period last year, the number of crimes totaled 431,409. This 5.4 per cent increase in actual crimes is fairly consistent with the 4.7 per cent increase in population projected for this period.

Three of the four violent crime categories posted increases for the first six months of 1982. The number of assault cases rose 15.4 per cent, while robberies were

up 8.4 per cent. Homicides increased by almost one per cent, while the number of rapes showed a slight decline of 0.3 per cent.

Auto theft led the property crime categories, increasing by 9.6 per cent when compared to the first six months of 1981. Larceny-theft offenses were up 5.5 per cent and burglary cases rose 2.5 per cent.

Property losses attributable to major index crime in the first half of 1982 totaled \$446.1 million. In addition, Texas authorities investigated 4,065 arson cases during the period which resulted in estimated losses of \$44.1 million.

Statewide reported arrests for the first six months of this year totaled 440,945, a 7.5 per cent increase compared to the same 1981 period. Reported arrests for driving while intoxicated were up 6.5 per cent for the first half of 1982, totaling 48,423.

Two police officers were killed in the line of duty by criminal action in the first six months of this year. Four other officers died as a result of duty-related accidents. A total of 1,805 officers were assaulted in the line of duty.

The state crime statistics are based on reports submitted by 749 law enforcement agencies representing nearly 100 per cent of the state population.

Statewide totals the first 6 months of 1982 were: Murders, 1,153; rapes, 3,290; robberies, 15,723; aggravated assaults, 22,441; burglaries, 136,961; larceny-thefts, 232,192; auto thefts, 43,147; totaling 454,907.

Last year-the first 6 months of 1981 there were 1,143 murders; 3,300 rapes; 14,506 robberies; 19,453 aggravated assaults, 133,621 burglaries, 220,030 larceny-thefts, 39,356 auto thefts, totaling 431,409.

Banvel 10G
GRANULAR HERBICIDE

Get Banvel 10G Herbicide and get silverleaf nightshade on the spot.

Spot treat problem areas between crops with Banvel 10G Herbicide.

You've harvested your crop. Now you can see how scattered your weed problems are. So there's no need to treat every acre. Instead, hit problem areas with a Between Crops Application of Banvel® 10G.

Banvel 10G controls the toughest broadleaf weeds, including silverleaf nightshade, lakeweed, blueweed and bindweed, plus many more annuals, biennials, and perennials.

A granular herbicide, Banvel 10G is not only effective, it's downright easy to use. Carry a bucket of Banvel 10G on the tractor or keep one in the back of the truck. When you spot a problem area, just throw some on. When treating large areas, use a Cyclone™ hand spreader.

Banvel 10G dissipates through soil moisture and is taken up by weed roots. Then Banvel translocates throughout the entire weed, killing root-tip to leaf-tip.

When you see problem weeds scattered around, get effective control with a Between Crops Application with Banvel 10G Herbicide. See your ag chem supplier today. And get control on the spot.

Public Notice

PUBLIC NOTICE

Notice is hereby given that SOUTHWEST TEXAS ELECTRIC COOPERATIVE, INC. (the "Utility") intends to change its power cost adjustment rate for electric utility service effective September 29, 1982, or as soon as may be permitted by law. The proposed power cost adjustment changes the manner in which wholesale power cost are collected from the Utility's ratepayers. The change is applicable to all areas to which the Utility provides electric utility service. All classes of customers are affected by the proposed change. The proposed power cost adjustment is not expected to increase the annual revenues of the Utility.

Implementation of the proposed change is subject to approval by the appropriate regulatory authority. A Statement of Intent including the proposed revision is on file with the Public Utility Commission of Texas.

The Statement of Intent is available for public inspection at the general office of the Utility located at 21 E. Gillis, Eldorado, Texas.

LETTERS TO THE EDITOR

September 27, 1982
To Whom It May Concern:

As of September 1, 1982, Crockett County Hospital will file your insurance for services rendered in the hospital by one of our physicians. We will be providing this service to assist you in getting your insurance claim processed quickly. This new benefit will also aid you in getting your medical bills paid promptly.

As a patient, you will be expected to provide Crockett County Hospital with an insurance form and the address where the claim is to be sent. We will need the patient's and/or employee's portion completed. The assignment of benefits and release of medical information MUST be signed. If hospitalization is scheduled or you are admitted on an emergency basis, please contact our office immediately. It is your responsibility to see that the hospital has a completed insurance form. We do not accept responsibility for collecting or negotiating a

CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 7.580 miles of Recond Fnd Crse & One Crse Surf Treat from RM 865 to 7.2 Mi W of SH 163 on Highway No. US 190, covered by CSB 558-10-20 in Crockett County, will be received at the State Department of Highways and Public Transportation, Austin, until 9:00 A.M., October 13, 1982, and then publicly opened and read.

Myrtle Post Garden Club sets first flower show

The Myrtle Post Garden Club will hold its first flower show since being federated in 1980, at the home of Mrs.

Jack Brewer, Saturday, Sept. 25.

Theme for the show will be "Home is Where the Heart Is." The Brewer home is located at 105 Owens St. and will be open to the public from 4 until 6 p.m. at no admission charge.

GS leaders meeting

Crockett County Girl Scout leaders met Wednesday evening at 7:30 in the home of Connie Nelson for the regular monthly meeting and to check on Scout registration.

A volunteer leader for first grade Brownie Scouts is needed. Anyone interested may contact Mrs. Nelson or Peggy Phillips.

As a money-making project, Ozona Girl Scouts will sell calendars for 1983 at \$1.00 each.

Leaders present were Leticia Tambunga, Cathy Carson, Kathy Hassell, Robin Reneau, Cynthia Ramos, Nikki Easterwood and Peggy Phillips.

The next meeting will be held Oct. 6, at Mrs. Nelson's home at 7:30 p.m.

Cub Scout Roundup

A Cub Scout Pack 153 Roundup rally will be held Tuesday evening at 7:30, at the Granny Miller Hall at Ozona Church of Christ.

The rally will be for all boys eight years of age and their parents. One parent must be present for a boy to join.

Dale Burger is Cubmaster and will be present to explain Cub Scouting and to sign up Cubs for various dens.

SIMS talks SENSE

"Water"
When I was a young boy growing up on the banks of the Concho River, my biggest worry about water was the location of the best swimming holes and the best fishing holes.

As I grew up, those water holes took on a new meaning.

In the 25th District, we are fortunate to have abundant land capable of supporting a large part of our nation with food, fiber and energy resources. But our area's ability to continue to produce and support future growth depends upon development of water resources.

I believe one of the most important tasks our State Government can undertake is the development of a water resource plan to insure Texas and the 25th District will have sufficient supplies for the future.

Our problem is water resources, and there are no easy or short-term answers to the problem.

It will take years to develop and implement a water plan, but we can begin now by enforcing the water quality laws now on the books to make sure we don't waste what we have by polluting it.

We should work toward developing local water districts to control underground water. This brings regulation home where it belongs.

Another way we can make the most of what we have is through the use of more efficient irrigation systems. Drip systems have proven they can produce the same crop yields with much less water. We need to provide incentives to make these conversions attractive to the agricultural industry.

The time to begin this planning and implementation of these programs is now because it could take decades to find solutions, and we don't have time or water to waste.

Just remember, as we depend upon our current water supplies and resources today, our children will be dependent upon the same resources and supplies tomorrow. I would like to think that some day my grandchildren will be concerned only with the locations of the best swimming holes and fishing holes.

Let me know what you think.

A West Texan for our times.

Sneak preview of new library books

The Crockett County Library has some new books on the shelf and ready to check out. Here are some sneak previews.

Books from the Best Seller list include *Different Seasons* by Stephen King, *The Case of Lucy Bending* by Laurence Sanders, *Lace* by Shirley Conran, *Cinnamon Skin* by John D. MacDonal, *Master of the Game* by Sidney Sheldon and *Edle* by Jean Stein.

New biographies are *Epiphany: The Story of Ann Landers* by her daughter; *My Life Without God* by William J. Murray, son of atheist Madalyn Murray O'Hair;

and *Mole*, the true story of the first Russian intelligence officer recruited by the C.I.A.

History buffs may be interested in *Covenant of Grace*, a biographical novel about Anne Hutchinson who was banished from the Massachusetts Bay colony because of her religious views. The author, Jane Gilmore Rushing, is a son of West

PBPA energy report

A&M DIRECTOR PREDICTS 100,000 TRAINED ANNUALLY

By the year 2000, the Texas Engineering Extension Service (TEEX) will be providing technical training for more than 100,000 Texans each year, predicts the agency's director.

James R. Bradley recently told about 300 TEEX employees attending the service's annual conference that the staff is expected to grow to about 1200 and will utilize 300,000 square feet of classroom, lab and office space on 600 acres of land in facilities throughout the state.

TEEX, the engineering/public service branch of the Texas A&M University System, currently serves more than 50,000 students each year in courses including fire prevention, construction equipment operation, electronics, electric power distribution, law enforcement, hazardous material control, automotive mechanics, telecommunications and wastewater training.

It operates a network of training centers in Floydada, San Antonio, Corpus Christi and Arlington, and facilities in Galveston, Lubbock, Houston, Fort Worth, Huntsville and Weslaco. A new rig crew training program has been established in Abilene to train roughnecks for the drilling industry.

The production of crude oil worldwide is at its lowest level since 1975. The daily average for the first six months of this year was 52.6 million barrels. This was down almost nine million barrels a day from the record 61.8 million barrels in the first half of 1979.

OPEC production is 18.5 million barrels a day, down 38 percent from 1979. The recession and higher prices are blamed for the reduced demand for oil.

The country of Mexico is now the number one supplier of oil to the U.S. We are importing about 635,000 barrels a day from Mexico. Saudi Arabia is number two. Mexico's location and attractive price are reasons given for the increase in imports.

Speaking of Saudi Arabia, that country may lower its benchmark price for oil beginning next month. Saudi Arabia's light crude is selling on the spot market for about \$32.50 a barrel...\$1.50 less than the \$34 benchmark price.

And, Hockley County will be celebrating its one billionth barrel of oil on Saturday, October 16. Doctor Marvin Baker, of South Plains College at Levelland, is heading up the festivities.

In the Permian Basin our rig count for this week was 273. One year ago it was 488.

Texas.

For fans of Dorothy Eden we have her latest, *An Important Family*, about a pioneer family in the mountains of New Zealand.

If westerns are your favorite, take a look at *Fair Land, Fair Land*, sequel to *The Big Sky* and *The Way West* by A.B. Guthrie.

Romance is the focus in *The Marquis and Miss Jones and Feather Castles*. Two other love stories feature China as a setting. *Till Morning Comes* by Han Suyin occurs in China during World War II and involves the love of a Communist agent and a young American foreign correspondent. *Jade* is the story of a young European woman taken captive in China during the late eighteen hundreds. If you enjoyed *The Far Pavilions* and *Noble House*, *Jade* may be your "cup of tea."

James A. Michener's latest novel is *Space*. In contrast to his earlier books, this novel covers only forty years and reveals the story behind Gemini, Apollo, Viking, Columbia, and Voyagers 1 and 2. The book is fiction but is based on fact.

Dallas Cowboys fans will not want to miss *Journey to Triumph: 110 Dallas Cowboys Tell Their Stories* by Carlton Stowers.

For thrills and chills check out one of these suspense novels. *The Foretelling* reveals what happens when the predictions at a fortune-tell-

CARD OF THANKS

We wish to thank our friends for the prayers, the food, and flowers sent to us during the loss of our beloved son, Alvin.

The comfort brought to us by the presence of our friends and relatives filled an emptiness that words cannot describe.

Thanks does not seem to be enough to say to Dr. Brown, Dr. Taylor, the nurses and nurses aides who worked so hard on our son, to them we will be eternally grateful.

Dale and Lisa Hobson

ing booth at a carnival start coming true. *Cloak of Darkness* is Helen MacInnes' latest novel of intrigue. *Jade Tiger* is an espionage thriller by Craig Thomas, author of *Firefox*. Margaret Truman's latest murder mystery is *Murder in the Supreme Court*. *Panda Bear Is Critical* is the latest work of Fern Michaels.

Ruth Bell Graham, wife of evangelist Billy Graham, has written an inspirational book entitled *It's My Turn*.

For a good laugh, read *Murphy Must Have Been a Mother* by Teresa Bloomingdale, who shares her view of life as the mother of ten

children and now a grandmother as well.

To learn more about the future queen of England, read *Princess*, the life story of Lady Diana.

If work is on your mind, the library offers *Job Resumes, Practical Secretary's Manual and Guide and Complete Secretary's Handbook*.

Sherry York, librarian at the Crockett County Library, invites you to drop by and look over the new books or browse through the library shelves. The library is open every school day from 8:00 a.m. to 3:30 p.m. and on Monday and Thursday nights from six to eight.

PROFESSOR EXAMINES ILLEGAL ALIEN PROBLEM

Undocumented Mexican workers are a necessary component of the Texas labor force and there should be a structured way to bring them into the state legally, says a Texas A&M University professor.

Dr. W. G. Roeseler, head of Texas A&M's urban and regional planning department, is comparing the problems of a migrating labor force in Texas with the way the issue is handled in Bavaria, West Germany. He began the study about two years ago when his department received several inquiries from border towns such as El Paso concerning the issues relating to migratory labor.

Several areas of the Texas economy are dependent on undocumented Mexican laborers, Roeseler said.

GPCP offers major financial aid

The Great Plains Conservation Program (GPCP) is a major financial assistance program administered by the Soil Conservation Service through soil and water conservation districts. The purpose of this program is to provide needed protection and improvement of soil, water, land, plant, and wildlife resources. This program is based on a long-term conservation plan developed by the landowner and SCS technicians. When the plan is agreed on, it is approved by the board of the soil and water conservation district and becomes a contract. No contract can be for less than 3 years or more than 10 years, and the cost-share amount may not exceed 80 percent for any single practice. Participation in the program is voluntary on the part of the landowner.

Also, there is one active GPCP application on 11,363 acres to develop into an active contract. Practices cost-shared and completed under the expiring contracts included brush management on 2,224 acres, range seeding on 845 acres, 3 water storage facilities, 12,483 ft. of livestock water pipelines and 26,137 ft. of fences. Management practices such as deferred grazing, proper grazing use and wildlife upland habitat management were carried out on 8,924 acres and a planned grazing system was carried out on 1,884 acres. These management practices are noncost-shared but are very important items of a contract and must be carried out to be in compliance with the contract.

The Great Plains Conservation Program has been very successful in Texas. Recently, 24 counties were added to the 123 counties previously eligible in Texas. With the continuation of this program, conservation practices can be promoted and applied to help maintain and protect our natural resources.

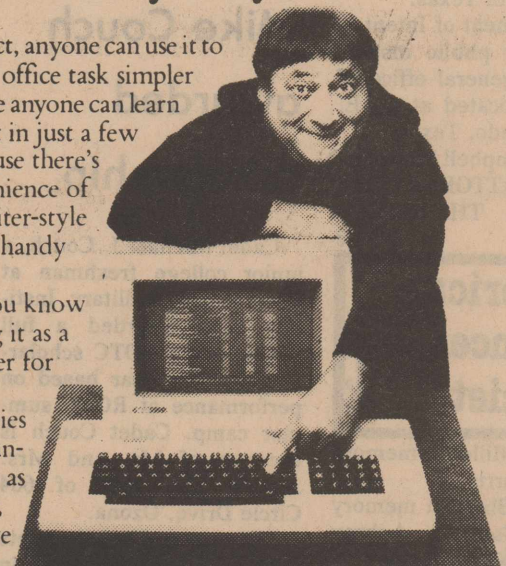

Within the Crockett County soil and water conservation district, there are presently seven active GPCP contracts on 58,126 acres, and two expiring contracts on 8,924 acres with all conservation practices completed.

The Xerox Personal Computer. Miraculously easy to use.

So easy, in fact, anyone can use it to make almost any office task simpler and easier. Because anyone can learn how to operate it in just a few hours. And because there's the added convenience of a familiar typewriter-style keyboard with a handy numerical pad.

So before you know it, you'll be using it as a personal computer for everything from keeping inventories up to date to financial planning. Or as a word processor, to type, edit, store and recall the printed word in just seconds. Even as an intelligent terminal, providing access to remote data bases or communication of information from one location to another.

The Xerox personal computer. A simply amazing machine that's so easy to use, it's almost miraculous.

Confusion over types of doctors

The title "doctor" is used by a diverse group of professionals in medicine and education, and similarities in certain specialty areas can leave consumers confused.

The Texas Medical Association offers these examples and explanations:

Ophthalmologist, optometrist, optician: An ophthalmologist is a licensed physician—M.D. or osteopath—who specializes in treating medical eye disorders as well as prescribing corrective lenses. The ophthalmologist also is the doctor who performs eye surgery.

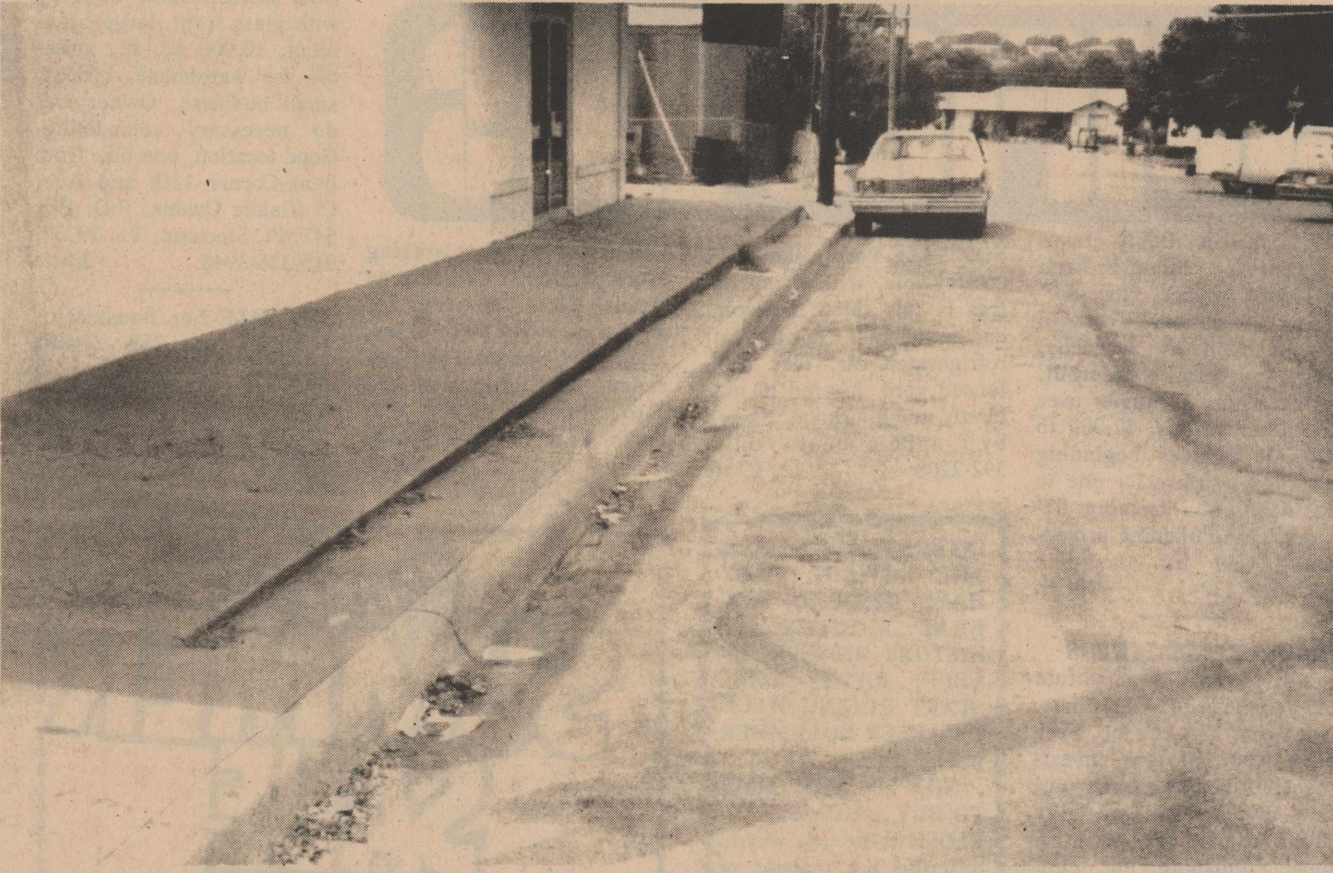

An optometrist is a licensed doctor of optometry who examines eyes and prescribes corrective lenses.

An optician, not normally called a "doctor," makes or sells lenses, glasses and other optical instruments for optometrists and ophthalmologists.

A psychiatrist is a licensed physician who specializes in diagnosing and treating mental disorders and may prescribe drugs. A psychologist is a licensed professional trained to perform psychological analysis, therapy or research and has a Ph. D. in psychology or the equivalent. Psychologists cannot prescribe drugs.

Orthopedic surgeon, podiatrist, chiropodist: An orthopedic surgeon is a licensed physician specializing in bone and joint disorders, including those of the feet. A podiatrist is a licensed doctor of podiatric medicine who is limited to diagnosing and treating foot problems. The podiatrist also can operate, but only on feet. Chiropodist is another name for a podiatrist.

M.D. and D.O. (osteopath): An M.D. is a doctor of medicine. A D.O. is a doctor of osteopathy.

OZONA EYESORE—In a continuing effort to point out the need for a general cleanup the Stockman photographer found the downtown streets to be the biggest eyesore this

week. Streets and gutters are piled with trash and litter and Monday morning's rain did little to wash it away.

NEWS OF HEALTH

How To Close The Door On An Unwelcome Visitor

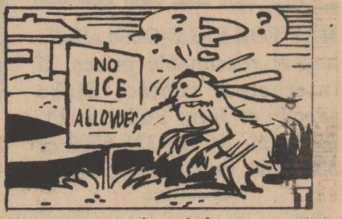

An extremely sociable but very unwelcome visitor in millions of American homes may find the door firmly closed in its face this fall.

The visitor is the head louse, which comes calling primarily through the heads of younger children. They bring the lice (and their eggs) home from school. The lice can infest the entire family and much of the immediate community.

Now there's an answer to this pesty problem. There's a new pleasant-smelling lotion that shows great promise in diminishing the rising incidence of head lice and their ova infestations.

The lotion is called Prioderm and it recently received approval from the Food and Drug Administration for treatment and eradication of head lice and egg infestation in humans.

The company that developed the lotion, Purdue Frederick, reports that recent studies done by the University of Miami Medical School were published in the Journal of the American Medical Association. Work-

The pesty head louse can expect closed doors in American homes this fall.

ing with Public Health officials in the Republic of Panama, the researchers studied the "kill power" of the new product. The project concluded that this power proved 100 percent effective for 24 hours after shampooing and diminished to only 95 percent after seven days.

The study pointed out that the problem of treating and eradicating head lice is twofold—both the adult lice and their eggs must be eradicated. "In addition," researchers said, "a reinfestation preventive program is an important therapeutic asset toward treating and eradicating this readily transmitted health nuisance."

I BET YOU DIDN'T KNOW

By Jerry Lay
A college football game a few years ago ended with the score of 1-0. How's that possible since there's no way in football to score just one point in a game? On Sat. Oct. 1, 1977, Tennessee State was leading Central State 17-0 in the second quarter when the Central State coach ordered his team off the field. The coach was upset with some calls by the officials. When Central State didn't return to the field, the officials declared Tennessee State the winner by a forfeit. The official score for a forfeit in football is 1-0, and that's how the score of that game is now listed in the record books.

Amazingly, a man once won a professional boxing match by beating a fighter who outweighed him by 140 pounds! Bob Fitzsimmons, who held various boxing championships between 1891 and 1905, once fought a man named Ed Dunkhorst. For this fight, Fitzsimmons weighed 165 pounds while Dunkhorst weighed 305 and Fitzsimmons beat him.

Did you know that the University of Alabama's football teams have gone to a post-season bowl game every season for the last 23 years. Last time Alabama didn't go to a bowl was after the 1958 season.
