Kitty's Korner

By
Kitty Montgomery

It is always surprising to me when an elected official takes the stance that public business is no business of the public. When a person is elected to a position, he or she is accountable to the public who elected him or her. There is no assurance, whatever, that the position is a permanent one. It depends on pleasing the public and the public looks to the local newspaper for that official's record and response to the constituents.

Indeed, it is the newspaper's obligation to tell the people what is going on in their local government. We try to give a concise report on the commissioners court, because they run everything in the county. Through our observation of the court's operation lately we have concluded that most decisions are made either in executive session or discussed out of court and everything is cut and dried when the vote comes up in open court. We seriously doubt the public is getting a true and accurate account of county business, through the newspaper or anywhere else for that matter.

We are not "out to get" anyone and we are sorry some of our officials feel that we are. If we had been out to do a hatchet job, we would have told the public some months ago about an improper \$17,000 expenditure made by a member of the court. It was a technical mistake and it would have served no good purpose to expose this fact.

We also think each commissioner should take care of the business in his precinct, at the same time looking at the overall good of the county and all the citizens therein. That's the job they have been elected to do by the voters in their precinct. The county judge is technically the head of the court and all matters concerning the entire county should be discussed in open court.

Of course, this is the opinion of this column writer, and, we believe the public in general.

It seems to us there was no reason to place the cemetery in the parks department and completely ignore the cemetery association which has been responsible for years.

We noticed they did not see clear to take over the hospital and ignore the board, nor place the civic center under the parks department. The cemetery association has been running the cemetery for longer than these two entities all together. They say the cemetery employees are county employees and the county must hire a supervisor to supervise the foremen there. Are not hospital employees also county employees as well as civic center employees? I fail to see the justice here.

Two cemetery employees were fired and given no notice nor reason a couple of weeks ago. We know they were doing their jobs. The two women were replaced by men. I also fail to see the justice here.

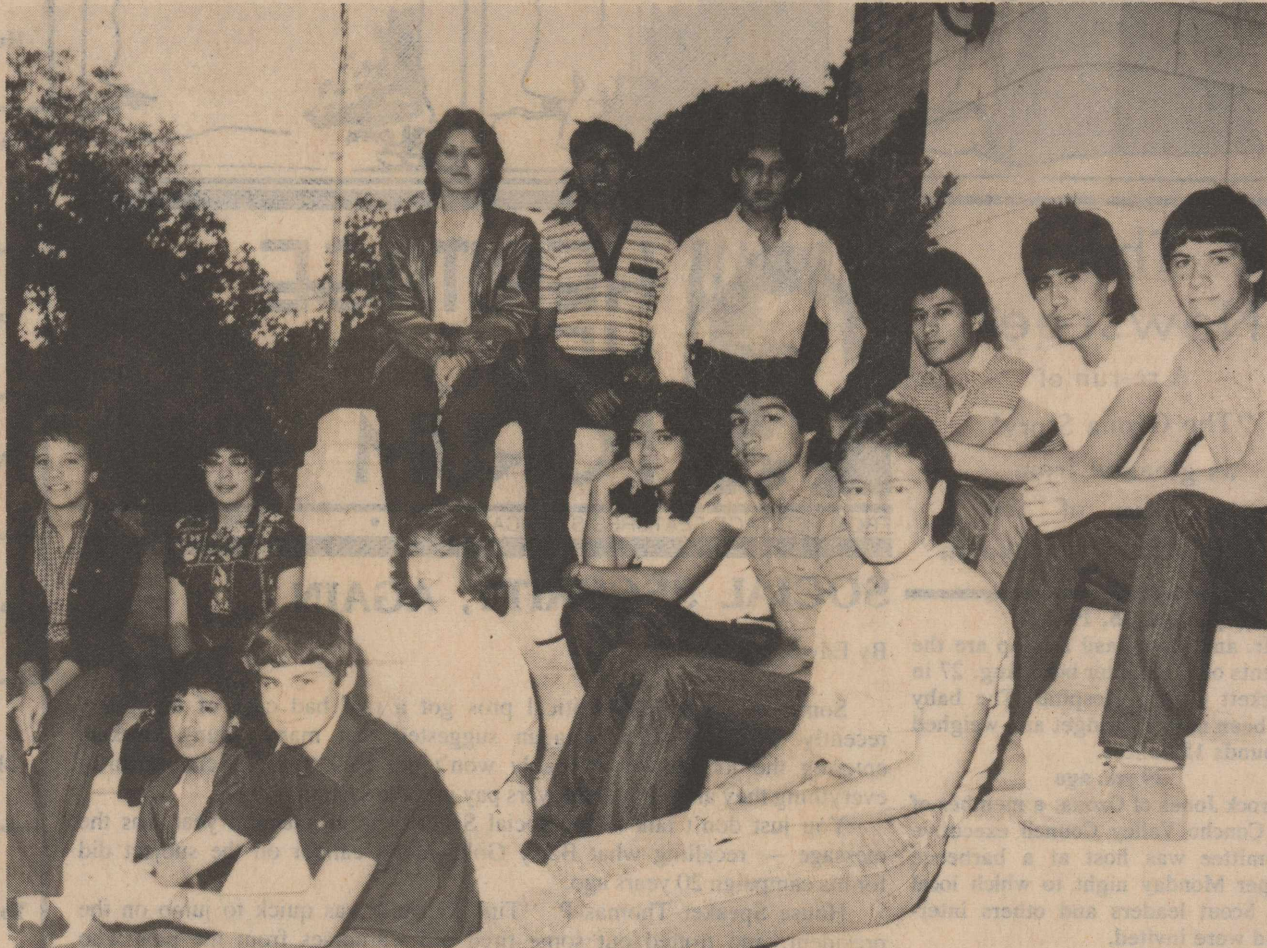

I have personal knowledge that women can do the job as well as men. For the past several months a former female cemetery employee has been doing my yard. She is better than any yard man I have ever had. She does the work in half the time and is thorough and efficient. She has several yards under contract, some of which belong to men, and I have yet to hear any complaint.

Before closing, I'd like to make one comment about the presidential election. If over 90 percent of the work force is employed and less than 10% unemployed, how on earth does Walter Mondale plan to win an election on a platform that promises to raise taxes? Did you ever know an employed person who was willing to vote for someone who promises to raise his taxes? I think not.

Football contest winner announced

Winner of the weekly football contest for the first week was Ruben Mendez. Mendez was tied with two others, Johnny Tambunga and Mercedes Martinez, until the tie-breaker. All three picked Houston to win, although they lost. Mendez had nearest to the true score.

The weekly contest is on the sports page, sponsored by local merchants. Anyone is eligible to win. Entry blanks must be in by 5 p.m. Friday or in the mail before then, or may be dropped by the Stockman office.

Student Council

The council, informally gathered on the steps of the school will have much input in Ozona High School affairs this season. Officers are David Delgado,

president; Raul Delgado, vice-president; Steve Sanchez, secretary and Haley Anderson, treasurer.

Court refuses to allow cemetery jurisdiction

The Crockett County Cemetery Association was effectively all but killed off at a meeting of the Crockett County Commissioners Court Monday. Mrs. Jack Baggett, president of the association, met with the court to ask that the cemetery be taken from the supervision of the parks department and reinstated under the jurisdiction of the association, where it has been since its inception in 1919.

Several members of the association were on hand for the meeting and to support Mrs. Baggett, including some of the workers who had been fired recently and one who was on vacation.

A bad situation developed last year when without the knowledge of the cemetery association, the cemetery was placed under the supervision of the parks department. This resulted in the park's supervisor, Onesimo Ortiz, the association president, Mrs. Baggett, and the cemetery foreman, Chona Vela, giving instructions.

A Mrs. Baggett requested was that the cemetery be taken out of the parks department and returned to the association and that the foreman, Mrs.

Vela, be given a county pickup to use for picking up cemetery employees and hauling trash rather than using her own vehicle as she has been doing in the past.

Although Mrs. Baggett made a very clear presentation, members of the court apparently misunderstood, and one commissioner asked why she wanted Ortiz fired. This was not even mentioned although the consensus was Ortiz had all he could do to take care of the ball parks, parks, city streets and dumpground.

Not one member of the court spoke up on behalf of Mrs. Baggett and the cemetery association although for 65 years it has been well-operated by the association with the county furnishing the employees. Mrs. Baggett has been president of the association for the past 24 years.

Bonnie Warth and Sammy Pierce spoke for the cemetery employees who have been taking care of the cemetery during the past year. One of the women, who had been terminated without notice by Ortiz, and replaced by a male employee, asked to be heard, but County Attorney Tom

Cameron said this subject was not on the agenda and was too far afield.

The consensus of the court was the county crew will continue to run the cemetery, due to its growth and the fact that the county budgets so much money to the operation of the facility. Ortiz was not available due to his present hospitalization. The court did agree to the use of a county pickup for Mrs. Vela. Commissioners B. W. Stuart and Jesus Castro were vocal about approval of the county taking over the cemetery and Ortiz being the boss, and other members of the court made no objections.

In other business, county reports were given by the various department heads. Henry Elledge, giving the road department report, reported street sealing had been finished for the year, the crew is working at Crockett Heights and has finished shooting asphalt there. He also discussed some equipment repair, before being asked to report back to the court for an executive session concerning some of the directions on personnel coming out of the last executive session.

Don Hopkins, hospital administrator, gave the hospital report. Occupancy for the past month was 18%, which is up from previous months. He reported the laundry deficiency down for the month and the four hospital rooms for the transfer to the care center approved.

In giving the civic center and youth center report, Garland Young reported Mrs. Garland Davis had been approved to replace Don Abbott on the center board. New directors for the Teen Council are Matt Gutierrez, Peggy Knox, Sharon McCrohan, and Jim Ethridge. Holdover teen directors are Amy Jones, Jennifer Probst, Andy Dews and Susan Scott.

In other business, members of the fire department asked for replacement of a pump. They were told the budget for next year had already been set, but promised a new truck the year after if revenues permit.

A letter from Kathy Reavis asking for assistance in the Helping Hands for the Elderly program was passed around. Mrs. Reavis asked for a continuation of the \$600 the county is now paying for an outreach worker in addition to the grant the county is in the process of receiving. Again, the budget would not allow it, but the court agreed to help out if the organization got in a bind.

J. W. Johnson of Sonora, who will take over as 112th District Attorney January 1, appeared to ask the county about allocation for his office for the year. Johnson had asked for \$20,000. The court allocated \$6,000 along with equipment and space as provided for the office of the D.A.

After loss to Greenwood - - -

Lions look for first win Friday

By Gary Davis

Defense was the name of the game Friday night as the Ozona Lions were only able to combine for 50 rushing yards and 9 passing yards in a 12-0 loss to the Greenwood Rangers. The Lions will have a chance to avenge their loss this Friday against the Eden Bulldogs. The game scheduled for 8:00 p.m. in Lions Stadium, will be the annual Homecoming football game. Eden, like Ozona, will be looking for their first win of the new season as they were defeated by Menard 33-37 last week.

The Lions were plagued by injuries which resulted in their having to start players at new positions. This proved to be hendering to the team's performance.

Junior, Harvey Fierro, started at the quarterback, Steve Sanchez threw for 9 yards to Sophomore, Butch Gonzales

on the only successful pass play of the evening. Senior, David Delgado, who started as a running back, led his team in rushing with 31 yards on 15 carries. Seniors Danny Moran and Matt Gutierrez also contributed to the rushing total with 8 and 7 yards respectively.

Greenwood's Roger Smith led all rushers with 118 yards on 18 carries, including a 39-yard scoring run late in the 4th period of play. His six points was added to a previous score made by Terry O'Steen in the 2nd quarter to make up the final total.

Greenwood had 11 first downs. The lions only managed 5. The Rangers punted 4 times and forced the Lions to punt 6 times throughout the contest. The referees had a busy night as they penalized Greenwood for 60 yards and Ozona for 53.

The Rangers' record now stands at 1-0 while the Lions are at 0-1.

Homecoming this week for O.H.S.

Homecoming festivities for Ozona High School will begin on Thursday night, September 13, at 7:00 P.M. with a snake dance. Those participating will gather at the Village parking lot between 6:30 and 7:00 p.m. and will then make their way to the Davidson Memorial Gymnasium. The Homecoming Pep Rally will be held there following the Snake Dance.

The crowning of the Ozona High School Football Queen will be Friday night prior to the football game. The nominees for Homecoming Queen are Haley Anderson, daughter of Mr. and Mrs. Ralph Anderson, who will be escorted by Al Ramirez; Christy Parks, daughter of Mr. and Mrs. John Parks, who will be escorted by Matt Gutierrez; Irma Tobar, daughter of Mr. and Mrs. Jose Tobar, who will be escorted by Danny Moran.

The Homecoming Dance will be held Saturday night at 8:00 P.M. at the Civic Center. The music will be provided by "Night Rage" from San Angelo. All Ozona High School students, their dates, and any Ozona

High School graduates are invited to attend. The prices are \$2.00 stag and \$3.00 per couple.

Lion boosters have Tuesday night meeting

The Lion Booster Club held its meeting Sept. 14th. The O.H.S. Cheerleaders and the Jr. & Sr. football players and managers were all introduced. Next Tuesday the Freshman & Sophomore football players will be there then the following week Sept. 18th will be at O.J.H.S. Football team and cheerleaders.

Everyone is welcome to come and bring a friend. Booster membership is still available. \$5.00 family and \$10.00 membership. So everyone come out and support the Lions in all their activities.

Women of the 80's

The program, aimed at the women of the 80's, enjoyed a modest crowd at the Civic Center last Tuesday evening. Giving demonstrations and lectures were Nancy Granovsky, Family Resource Management Specialist of Col-

lege Station; Rachel Hall, Crockett County Extension Agent and Jan North, Home Economics teacher at Ozona High School. Another program was scheduled for last night.

STATE CAPITAL HIGHLIGHTS

By Lyndell Williams
TEXAS PRESS ASSOCIATION

AUSTIN—Gov. Mark White last week scored an historical first with a newly appointed Secretary of State. Ending much speculation White named Myra McDaniell, his former general counsel, to the post vacated by long-time ally John Fainter. McDaniell is the first black ever and the first woman in 51 years to serve as Secretary of State.

Just a week ago, former Secretary of State George Strake, who served under Republican Gov. Bill Clements, criticized White for allowing the secretary of state's office to propose a 36 percent budget hike for itself after White had told state agencies to hold down spending requests.

Now state chairman of the Texas Republican Party, Strake hit the budget for seeking 64 new employees and a 381 percent increase in professional fees.

But acting secretary Ed Davis said Strake had targeted their highest funding level for political reasons, and said a good deal of the budget was actually going to help Strake's party.

More than \$3 million is designated to pay for party primaries, with about 85 percent going to Republicans because of their growth.

Water Plan

A key senator from arid West Texas told Texas water administration officials to quit talking and do something about water problems.

John Montford, D-Lubbock, called the latest water plan report "jibber-jabber", and criticized it for not providing for agriculture needs.

When the plan's architect defended it by questioning the availability of \$40 billion over the next 20 years for state water-related improvements, Montford speculated that the current drought might prompt legislators to act.

Drought-Resistant?

Speaking of the drought, State Rep. Dudley Harrison, D-Sanderson, says the livestock which is surviving in West Texas may be a more drought-resistant strain.

When his new lambs were sold many weighed over 50 pounds, "which isn't too bad considering how livestock out here has had to cope with the drought", he said.

Harrison said he was both surprised and hopeful that a healthy new stock was emerging from the costly dry spell.

Converting Wasteland

Fresh back from Israel where he inspected large-scale projects to enhance water in agricultural wastelands, Texas Land Commissioner Garry Mauro is negotiating with Israeli consultants to bring their techniques to arid West Texas.

Mauro's office manages more than 800,000 acres of public land in West Texas, and if the price is not excessive, he may promote pilot projects for various types of irrigation and water recovery.

A spokesman said the Israeli engineering consultants are recognized world experts in agricultural production in arid lands.

Spouse Immunity

Texas Atty. Gen. Jim Mattox last week urged legislators fight child abuse by eliminating a spouse's immunity from testimony in cases of assault or violence against a family member.

The present law is a major obstacle to the successful prosecution of child abuse, Mattox told a joint panel on child abuse and pornography.

"Spouses cannot testify against each other in several cases, even when they want to, because the law prevents it."

Public Works Bill

Sen. Hector Uribe of Brownsville, is planning to introduce a state public works bill in the coming session to relieve a Rio Grande Valley economy still facing high unemployment.

The measure was passed by the Senate in this summer's special session, but time ran out before the House could consider it.

The bill sets up a fund which could be used in areas of chronic unemployment caused by natural or economic disaster.

Bullock Report

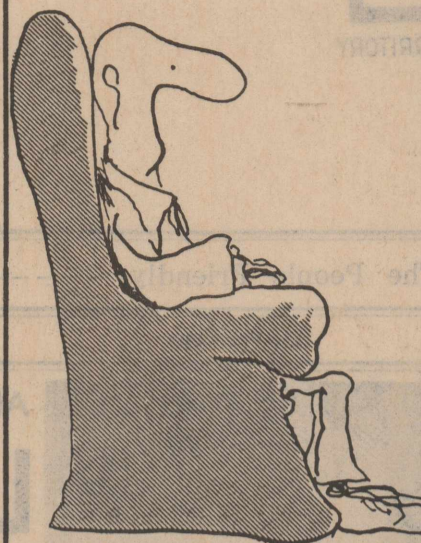

A prediction from State Comptroller Bob Bullock last week viewed the Gulf Coast as the Texas economic powerhouse for state government coffers.

Bullock said the economies of Dallas and Austin were diversifying and would soon catch up.

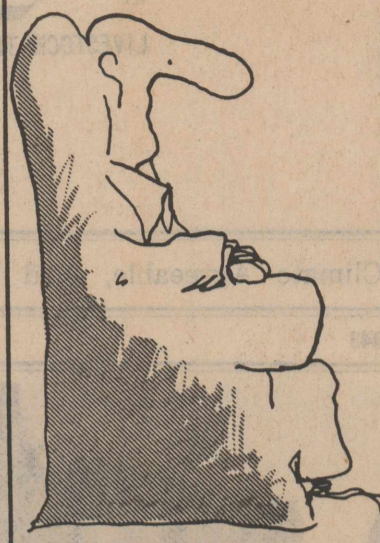

West Texas, of course, led in tax revenues paid from oil and gas production.

SOCIAL SECURITY, AGAIN

By Edwin Feulner

Some White House political pros got a real bad case of the jitters recently when President Reagan suggested that many young workers entering the job market probably won't get back from Social Security everything they and their employers pay into the system.

You just don't talk about Social Security in an election year was the message — recalling what Barry Goldwater's candor on the subject did for his campaign 20 years ago.

House Speaker Thomas P. "Tip" O'Neill was quick to jump on the president, and trotted out some tired old warhorses from the past who ritualistically declared the president all wet.

The only trouble is, the president is right. It's Speaker O'Neill who needs the toweling.

Despite disclaimers from a variety of "experts," most of them involved in creating the current Social Security mess, research done by Peter Ferrara for The Heritage Foundation clearly indicates that young workers will be lucky to break even when they retire.

Ferrara, a former senior staff member in the White House Office of Policy Development, is realistic enough to know that the Social Security system is not going to be rebuilt overnight. Nor, in fact, is it probably going to be tinkered with at all. Not now, anyway.

So perhaps now is the best time to try for second best: to set the record straight, and let the Baby Boom and post-Baby Boom generations know what a "great deal" is in store for them.

We might even start planning for the day when the Pepsi Generation starts thinking Geritol and demands changes in the government pension plan. I can assure you that day will come, and it's probably not that far off.

Ferrara, in his latest paper on the subject, proposes that we lay the groundwork now for the work that inevitably lies ahead. Not by tampering with Social Security. Congress won't touch it, so why bother?

Instead, Ferrara suggests the following:

1) That the maximum tax-deductible contribution to an Individual Retirement Account (IRA) be raised to equal the maximum employee "contribution" to Social Security. This would raise the max from \$2,000 to about \$2,600.

2) Raise the maximum IRA contribution a non-working spouse can make from the present \$250 to the same max allowed working people.

3) Indexing the maximum IRA contribution allowed, so it will automatically increase at the same rate Social Security increases.

4) Allowing individuals to apply a portion of their IRA contributions to the purchase of life, disability, and retirement health insurance.

Modest steps, these. But taken together they would mean that when the inevitable happens, a retirement program paralleling Social Security will already be in place.

Ferrara also suggests what might be called a "Truth-in-Packaging" law for Social Security: requiring the Social Security Administration to: (a) publish each year an estimate of the rate of return on Social Security contributions; and (b) furnish each worker with a "Statement of Account," indicating his or her contributions for the year and the anticipated rate of return under current law. In addition, he wants the employer's share of the payroll tax to be reported on each worker's paycheck, as well as the amount of employee payroll tax withheld, and what kinds of coverage are being provided. This would help workers understand the full amounts being paid for their Social Security benefits and enable them to compare more easily what they could obtain for the same funds in the private sector.

It would also help workers recognize how much of their money is going into portions of the program for which they are not eligible, such as single workers paying for Social Security survivors insurance.

Tip O'Neill notwithstanding, Social Security is a bad deal for the Baby Boomers and post-Baby Boomers. And it will become a worse deal. The least we can do is require the government to tell it to us straight.

(Feulner is president of The Heritage Foundation, a Washington-based public policy research institute.)

Letters To The Editor

September 4, 1984

Dear Ms. Montgomery:

Your readers will see big changes in their state taxes beginning October 2. This summer the State Legislature raised the rates for sales tax and a number of other state taxes. They also extended the sales tax to items and services that have been exempt in the past.

The enclosed package of news releases is designed to insure that these tax changes won't come as an unpleasant surprise the morning of October 2.

I've come to you in the past to ask your help in getting the word out about state taxes to your readers and you've never let me down. I'm asking your help again in getting started on the collection of the biggest tax bill in the history of our state or anybody else's.

Thank you in advance for your help. If you need further information or need answers to the questions sure to

arise about the details of all these changes, you can get quick answers by calling our toll-free tax hotline at 1-800-252-5555.
Sincerely,
Bob Bullock
Comptroller of Public Accounts
Austin, Texas 78774

September 10, 1984

Dear Supporters of Crockett County:

Thank you for your support by your attendance at the Helping Hands For The Elderly's benefit B-B-Q. Your donations of time and money will serve to support our senior citizens of Crockett County.

Our senior citizens will always be with us and by your support they will learn just how much they are loved and appreciated.

Again, we at Helping Hands and the Senior Citizens appreciate your support.

Sincerely,
The Directors of Helping Hands For The Elderly

Tips For Gardeners

From the Ozona Garden Club by Mrs. Bailey Post

I'm sure everyone was elated over the showers we had last week, so we are hoping others will follow to green up our country before fall.

If you haven't driven around our city lately, do go to see the beautiful pampas grass plumes in a number of yards. If you plan to cure them for later use, be sure to cut them just as they are about half open and especially if it looks like rain which causes them to look stringy.

Another early autumn evergreen you will enjoy and perhaps want to plant this fall is the scarlet firethorn often known as pyracantha. It can be counted on for fast, vigorous growth—something you will have to consider when choosing a location. It can be one of fall's most striking ornamentals. Also bird lovers have a special treat in store each autumn, as the berries are a favorite of many species, including cedar waxwings, tanagers, catbirds, and purple finches. Also there will be a blanket of blossoms that covers scarlet firethorn for two weeks in springtime. These plants sprawling look is due to a spreading, irregular growth habit, sending out long branches. So don't be deceived by the small specimen you may see at the nursery. If planted in a confined area, you may soon have a large problem. Located in an area at least 10 feet square, it only needs occasional pruning to remove a wild limb or dead wood. If you choose, its branches also espalier well on a wall. Among the selections to choose from the most popular are Kanan and Wyatt (orange-red berries) and Lalandei (orange berries). Lowboy (orangeberries) features a different habit of growth. Instead of sprawling, this plant mounds to a height of 3 to 4 feet. To maintain the lustrous green foliage fertilize firethorn in early spring and late fall with 1/2 cup of 5-10-10 per plant.

Promote better fall blooms on roses by lightly trimming this month and feed with a water-soluble rose fertilizer.

Cattails are ready to gather. Spray with hair spray, place in upright container to air out for dried arrangements.

Sorority in first meet of new club year

The Alpha Alpha Mu Chapter of Beta Sigma Phi held the first regular meeting for this year Monday night in the home of Marcy Williams. Hostesses for the meeting were Rhonda Shaw and Leslie Wilson.

Elizabeth Upham presented a very informative program on insurance. She covered a wide range of topics, explaining the different types, values, advantages and disadvantages of various insurance policies including life, health and homeowners.

Following the program, a meeting was held to discuss program topics for the coming year and the upcoming Girls Rush Party to be held on September 24. Marcy Williams was appointed as yardstick chairman for 1984-85.

Members then enjoyed refreshments and exchanged Secret Sister gifts.

Present were Dena Porter, Philda Morrison, Nesa Chandler, Jeannine Henderson, Rita Sigwing, Marilyn Armentrout, Tammy Bunger, Leslie Reeves, Ellen Lipsey, Lori Parker, Becky Dillard, Marcy Williams, Rhonda Shaw, Leslie Wilson, Debbie Glasscock, Melissa Hintz, Roylan Sullivan and Karen Huffman.

Dutch brunch kicks off club year for Forum

The program committee hosted the first fall meeting of the Ozona Woman's Forum which met Sept. 8 at 10:30 a.m. in the Circle Bar Dining Room for a Dutch Brunch with thirty members attending.

Following the meal, the year books were distributed and the upcoming programs were previewed.

After a brief business session, the meeting was adjourned.

Those present were Vera Dell Allen, Jane Black, Lillian Brown, Louise Bunger, Crystelle Childress, Rachel Childress, Arlene Clayton, Elizabeth Dudley, Mary Hagelstein, Totsy Hagelstein, Mayde Jo Humphries, Lu Ingram, Bernice Jones, Katy Jones, Mary Lee Jones, Georgia Kirby, Lois Lock, Velma Marley, Pauline Montgomery, Doris Moore, Louisa Pearson, Nora Lu Spencer, Madeline Stokes, Blanche Walker, Barbara Wallace, Mary Agnes Ward, Bonnie Warth, Modene Whitaker and Jewel Bailey.

Mrs. Friend is luncheon, bridge hostess

Mrs. Joe Friend was hostess for luncheon and bridge at the Country Club Thursday.

Mrs. Sonny Bailey won high and Mrs. Sherman Taylor, second high. Mrs. George Bunger won the bingo.

Others playing were Mrs. Clay Adams, Mrs. Bud Cox, Mrs. Hugh Childress, Mrs. Joe Couch, Mrs. John R. Hunnicutt, Mrs. J. J. Marley, Mrs. Bill Mason, Mrs. J. B. Parker, Mrs. Jake Short, Mrs. Sherman Taylor, Mrs. C. O. Walker, Mrs. Sidney Millsbaugh, Mrs. Charles Williams, Mrs. Byron Williams, Mrs. Gene Williams, Mrs. Jack Williams and Mrs. Bill Baggett.

Sorority hosts families at annual supper

The Alpha Alpha Mu Chapter of Beta Sigma Phi kicked off the new year on Thursday, August 30.

A hamburger supper was hosted by Mr. and Mrs. Tommy Wilson for sorority members, husbands and children.

Members and their husbands enjoyed an evening of socializing outdoors while the children played ping-pong and jumped on the trampoline.

Those present were the Wilsons, Mr. and Mrs. Bill Glasscock and children, Mr. and Mrs. Jason Sullivan and children, Mr. and Mrs. Tommy Morrison and Jarrod, Mr. and Mrs. Tony Renfro and children, Mr. and Mrs. James Armentrout and children, Mr. and Mrs. Ronald Shaw and Rebecca, Mr. and Mrs. Fred Chandler, Mr. and Mrs. Vince Huffman, Mr. and Mrs. Murray Hintz, Marcy Williams, Becky Dillard, Jeannine Henderson, Lisa Waggoner, Rita Sigwing and Dena Porter.

Seconds and irregulars can save dollars for consumers

Careful shoppers for seconds and irregulars can save consumers money, if they know how to look for signs of quality, says a Texas A&M University Agricultural Extension Service home economist.

Many manufacturers set standards for their products, says Bonnie L. Piernot. When those standards aren't met, they don't discard the items. Instead, manufacturers label the imperfect product a "second" or an "irregular" and direct stores to sell it below regular retail price, she explains.

New club year for Pandale Study Club

The first meeting of the 1984-85 club year for the Pandale Study Club was held Thursday, September 6 at the Pandale Community Center. Vice President Lara Sue Baggett presided in the absence of the President, Lou Deaton.

Barbara Malone, Secretary-Treasurer, reported that cookbook sales had been profitable during the summer and that more cookbooks had been ordered and should arrive in the next few weeks.

Annual allotments to San Angelo Volunteer Council, Boy's Ranch, and High Sky Girl's Ranch were approved with a one time increase to High Sky Girl's Ranch due to unforeseen financial difficulties there.

Discussion of the format and contents of the "Pandale Memory Book" were discussed with an outline being prepared by Barbara Malone to be ready for the October meeting.

Hostesses Ginger Perner and Vonnice Womack served a refreshing fruit salad, with shortbread cookies, tea and coffee to members Sue Arledge, Lara Sue Baggett, Lela Bunger, Opal Everett, Barbara Malone, Josephine Mills, Judy Nasworthy, Jessie White and guest Tammy Bunger of Ozona.

Submitted by Sue Arledge, Reporter

Texas mothers have lowest birth rate in 83

Texas mothers recorded 295,178 births in 1983 for a birth rate of 18.8 per 1,000 population. This is the lowest birth rate since 1978, reports the Bureau of Vital Statistics of the Texas Department of Health.

Even though the population of Texas continued to increase last year, the birth rate was a decrease from the 1982 rate of 19.5 when 297,683 births were registered.

Last year physicians were in attendance at 284,091 births (96.2 percent), while midwives and others were in attendance at 11,087 births. Births in hospitals totalled 284,973 (96.5 percent).

Couples golf winners told

Winners in Couples Golf at the Ozona Country Club Tuesday were Randy and Eddy Hall and Tommy and Christi Matthews.

Second and third places ended in a tie between the teams of Weldon and Cindy Nicks, Dick and Mary Webster; Pete and Jimmie Jacoby and Glenn Graham and Debbie Glasscock.

Closest to the pin were Perry Williams and Jimmie Jacoby.

1985 CALENDAR REFILLS NOW AVAILABLE AT THE STOCKMAN.

Crockett Heights homemakers Club meets in Karr home

Monday, September 10, the Crockett Heights Homemaker Club met at the home of Doris Karr.

Led by Rachel Hall, Crockett County Extension Agent, the group elected Polly Mayes and Charlotte Trull as co-chairmen for the upcoming year. Program suggestions were discussed for future meetings.

Also, an announcement was made by Mrs. Hall concerning the state meeting of the Texas Extension Homemaker Association to be held in San Angelo September 19-20.

The meeting concluded with arrangements for Mrs. Hall, Mrs. Mayes, and Mrs. Trull to meet Tuesday, Sept. 18, to draft a year-

book and to make final decisions for program topics.

Enjoying this meeting were Doris Karr, Polly Mayes, Charlotte Trull, Roberta Schoenhals, Goldia Kilgore, Hazel Storms, Kim Hager and Rachel Hall.

RIPPLES DON'T CHANGE A THING

Ripples do not move water—they are only the marks of a momentary disturbance. Next, orderly, symmetrical as they appear—they're just the remains of a splash.

How often we've tried to make waves and they turned out to be merely ripples. Our efforts brought no new flow of thought or action. We simply interrupted the tranquility. Or was it the stagnation?

There are new currents stirring today—positive, refreshing, hopeful currents. There are reverent, responsive people who believe it can become a better world.

Why don't you join the folks who are tired of making ripples who when they see a need or a problem plunge in to help?

You'll find many such people exploring the spiritual wells and springs. Their earnestness and enthusiasm is giving renewed energy to our churches. They would like to share with you their Christian opportunities and challenges.

Public Notice

CITATION BY PUBLICATION THE STATE OF TEXAS

To: T.B.A. Partnership, Defendant, Greeting:

You are hereby commanded to appear by filing a written answer to the Plaintiff's Petition at or before ten o'clock A.M. of the first Monday after the expiration of forty-two days from the date of the issuance of this citation, same being Monday the 1st day of October 1984, at or before ten o'clock A.M. before the Honorable 112th District Court of Crockett County, Texas, at the Court House of said County in Ozona, Texas.

Said Plaintiff's Petition was filed in said court, on the 1st day of January A.D. 1984, in this cause, numbered 4646 on the docket of said court, and styled, Halliburton Company Plaintiff, vs. Good Earth Energy, Inc., et al Defendant.

The names of the parties to the cause are as follows:

Halliburton Company as Plaintiffs and Good Earth Energy, Inc., Merit Gas & Oil, TBA Partnership composed of Daniel B. Thomas, Ora Boss, Gary Adolf, Indv. & Partners, Rye Supply Co., Inc., Elcon Trucking Inc., Castleberry Drilling Service, Ira Smith, Garrison Contractors, Inc., Western Company of North America, Bell Petroleum Surveys, Inc., AWS Well Servicing Co. & Shoreline Supply Company are Defendants.

A brief statement of the nature of this suit is as follows, to wit: The Defendant T.B.A. Partnership is a purported owner of an undivided interest in the working interest of the Scull Leases, and therefor, their interest in said leases is subject to foreclosure of Plaintiff's Lien Claims.

as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Ozona, Texas, this the 20 day of August A.D. 1984.

(Seal)
Attest: Debbi Puckett, Clerk
District Court, Crockett County, Texas.

Animal warning device used for cars and trucks

An ultrasonic device is now on the market which warns animals of an approaching motor vehicle so that they do not run in front of it.

Intended primarily to prevent frequent accidents involving deer and vehicles, the devices also warn other wildlife and domestic animals of an approaching vehicle, says Billy Reager county agent with the Texas Agricultural Extension Service, Texas A&M University System.

In tests in Europe the device was reported 80 percent effective with deer, bears, elk, skunks, dogs and cats.

The Save-A-Life animal warning device involves a pair of two-inch long, bullet shaped instruments mounted on the front bumper of a vehicle. There are no moving parts, but as the vehicle attains a speed of 30 mph, air rushing through the cylinder emits high frequency sound which projects up to a quarter of a mile. The sounds stop most animals in their tracks but cannot be heard by humans, according to information provided by the product's manufacturer.

Some trucking companies and fleet vehicle operators are installing the devices on all vehicles to prevent accidents and save the lives of animals.

Information on the new ultrasonic warning device is available from Save-A-Life, Inc., Box 1226, New York, NY 10025.

S. S. cards can only be issued to U. S. citizens

Social Security numbers for work purposes can only be issued to U.S. citizens, permanent resident immigrants, and temporary aliens who have been granted permission to work by the Immigration and Naturalization Service, Franklin H. Upp, Social Security manager in San Angelo, said recently.

Even so, Upp said, legal aliens who do not have permission to work may need a Social Security number for purposes other than work, such as banking, school, or driver's license.

In such cases, a Social Security number will be issued, but the card will be marked to show that it is not valid for employment. A prospective employer would know at once that the holder of such a card is not legally permitted to work.

Social Security numbers cannot be issued to illegal aliens for any purpose.

A person applying for a Social Security number must present evidence of age, identity, citizenship or alien status. In addition, a person 18 or older must apply in person.

An applicant for a Social Security number who provides false documents or false information of age, identity, citizenship or alien status may be subject to a fine of \$5,000 or 5 years in jail or both.

More information about Social Security numbers can be obtained at the San Angelo Social Security office located at 2214 Sherwood Way.

month awards were presented for August and September. Recipients of awards were Elliott Barrera for August and Raymond Borrego for September.

Protecting the elderly from drugs, and the effects of overdose

Older people take a lot of pills. Although only 11 percent of the U.S. population is over 65, this group takes about 25 percent of all prescription drugs--and not always to good effect.

Used carefully and appropriately, drugs can improve the quality of life for the elderly, but they can also cause problems, says Dr. Judith Warren, a gerontologist with the Texas A&M University Agricultural Extension Service home economics program.

Some elderly people take incorrect medications, too much medication or a combination of drugs that are not compatible, she says. Then, if they suffer fatigue, confusion or depression, the symptoms may be written off as evidence of simply growing old. The problem may be compounded if the elderly patient's symptoms are inappropriately treated with a tranquilizer or antidepressant.

Drugs are a special problem for the elderly because certain body organs become more responsive to drugs as we age, notes Warren. In addition, as older people take more and more drugs, the likelihood of interactions and side effects increases along with the chances of making a mistake in dosage.

Warren suggests that family members, concerned friends or health-care professionals consider the following steps to help protect the elderly from adverse drug effects:

Encourage a regular review of all medications taken by the patient. Put everything from the medicine cabinet into a bag and take it into the doctor's

office. Keeping drugs that were prescribed years ago can be a dangerous practice. Over-the-counter sleeping aids, diet pills or laxatives can also interact badly with the prescribed drugs, and prescriptions from more than one physician may have an adverse effect on each other.

Ask about uppers and downers. Ask the doctor whether mind-altering drugs are really needed and whether they should be taken regularly or just occasionally for a particular episode of insomnia or anxiety, for example. These drugs are too often prescribed for the elderly in an attempt to relieve the effects of life problems such as isolation and loneliness. Getting out of the house, making social contacts and other activities should be considered in place of drugs.

Manage pill-taking. Enter the list of drugs on a calendar and check off each dose as it is taken. Or use a set of small envelopes marked with the time of day. Sometimes a visiting nurse or family member will need to allocate pills dose-by-dose to the envelopes to make sure that the patient is taking the appropriate amount. However, the

presence of young children in the household may require a different pill management method for safety's sake.

Keep a drug schedule as straightforward as possible. Work with the physician to eliminate drugs that are not strictly necessary and choose those that can be taken once or twice a day instead of more frequently. Selecting pills that look different from one another--as long as this does not affect the quality of treatment--can help the patient keep track.

Be alert for any new symptoms, especially nonspecific complaints such as fatigue, weight loss or confusion, that could be the adverse effect of a drug rather than a disease or simple aging.

OZONAN'S KIN DIES

Mrs. Clay (Martha) Taylor, 69, died September 7, in Rankin District Hospital after a lengthy illness. Services were held at the First Baptist Church, Sunday, with burial in the Rankin Cemetery. Her nephews were pallbearers. Her husband, Clay Taylor, preceded her in death in September 1982. She was the sister-in-law of Mrs. Ray Dunlap of Ozona.

Extension Office News

By-Rachel Hall

Upcoming Activities

September 13-Foods and Nutrition Leaders Meeting, 5:15 p.m., County Extension Office. We will be reviewing new foods and nutrition guides, selecting food show committees, food show date, and leader training meet-meetings.

September 13-Program Building Committee Meeting, 7:30 p.m., County Extension Office.

September 17-4-H and Youth Committee Meeting, 7:00 p.m., high school library. 4-H Parents-Leaders Association Meeting, 7:45 p.m., high school library.

September 18-State 4-H Fashion Show, 7:30 p.m., City Auditorium, San Angelo.

September 19 and 20-State Texas Extension Homemakers Association Meeting, San Angelo.

Last week's "Women of the 80's" seminars hosted an array of excellent information in the areas of household management, meal planning, investment dressing, credit and investments and family communications. Over the next few weeks, I'll be sharing information related to these topics in this column.

In Jan North's presentation, Quick Easy Meals, she proposed many meal saving tips including: organizing your kitchen, shopping to save time, Mas-

ter Mixes, importance of lists, menu planning, and time-saving equipment.

Let's look at supermarket shopping. A few ideas listed below can save you money and get you through the market in the shortest time possible.

Check High and Low-Grocery stores often display expensive foods at eye level. Check highest and lowest shelves for best prices.

Hungry-Don't shop for food when you're hungry, because you'll only buy more.

Buying Meat-Compare price on basis of cost per portion, rather than cost per pound.

Coupons-Use them to help save money on products you normally buy. You may find coupon items to be more expensive than one without a coupon.

Lists-Always use a list to shop with. It'll organize your shopping. Deviate from your list only if you find items on special.

Store Ads-read and compare newspaper prices. Even if you prefer shopping at one store, you may find a real bargain at another.

Pet Food-Buy pet food in large quantities, to save on expensive small quantities.

Resealable Bags-storage for chopped bell pepper, nuts, coconut, crated cheese, bread crumbs, meats, etc.

Parents and youths, form 4-H partners

Parents, would you like to form a partnership with your youngsters? Thousands of parents are doing this every day in the 4-H program.

4-H is a program for youth between the ages of 8 and 19 and is administered by the Texas Agricultural Extension Service of Texas A&M University System, points out Rachel Hall, county Extension 4-H program coordinator.

Through 4-H, parents get involved with their youngsters by helping them with one or more of over 100 projects. By getting involved with the projects, parents help their youngsters learn basic skills and information and help them to fulfill an obligation. The "partners" then build on these successes in areas of project work, leadership, community service and many other character-building experiences, notes Rachel Hall.

By spending time with their sons and daughters in 4-H work, parents can overcome the problems commonly referred to as the "communication gap" or "generation gap." 4-H projects serve as a beginning to start the parent-youth partnership, and the relationship can grow through mutual understanding and trust between parent and child.

Parents and 4-H'ers learn to share the joys of winning and the disappointment of losing and to jointly work out solutions to problems as they arise.

Contact the county Extension office (392-2721) to learn more about the 4-H program and how it can develop close family ties through working partnerships.

Computers provide speedier checkouts and lower bills

Computerized price scanning systems provide grocery shoppers with speedier checkouts, and can mean lower grocery bills-if you read the receipts.

"Many people throw away the computer generated receipts listing each item, size and price without realizing that they provide an ideal way to keep track of food costs," says Texas A&M University Agricultural Extension Service home economist Bonnie L. Piernot.

Consumers can use the receipt information to determine how much they spend in certain categories, such as food and non-food items; or meat, vegetables, packaged products, convenience foods and staples, she says.

Reviewing the scanner receipt helps identify categories where spending could be cut. You might find, for example, that you're spending substantial amounts on non-food items that cost less at other types of stores, notes Piernot.

Scanner receipts also reveal impulse buying. Since impulse purchases make up about two-thirds of all supermarket decisions, reducing these costs can cut overall grocery expenses, says the home economist.

Regular review of scanner receipts permits consumers to track prices on products they frequently buy. Armed

with a good knowledge of prices, shoppers can better detect true specials in weekly advertising and unadvertised specials in stores, she explains.

Over time, receipt-reading consumers can develop a shopping calendar of items that are better buys at select times of the year. They can stock up when the price is right and save about 20 percent on food buying by eating foods in greatest supply, emphasizes the home economist.

Shopping at supermarkets with computerized cash registers and scanning equipment is not without its disadvantages, observes Piernot. These supermarkets sometimes remove prices of items on the shelf as a means of reducing their costs.

Without item prices on the shelf, consumers have a difficult time comparison shopping among different brands. Lack of item prices also makes it more difficult to spot computer errors or unchanged special prices at the checkout counter.

Because its eyeball is fixed, the whale must move its huge body to shift its line of sight.

Yours in Good Health

How to Save Your Teeth, Your Gums, Your Smile, and Your Money

High tech advances are not exclusive to the space program or the computer industry. Major scientific developments intended to make life easier, simpler and generally better have been turning up in areas where you might least expect them.

Consider dentistry. Recent advances in dental science are allowing more Americans than ever before to keep their teeth for a lifetime, while rendering treatment virtually painless.

Today's dental office would seem a foreign land to your grandfather. Although restoring diseases teeth and gums remains basic to dental care, continuing research has expanded the scope of dental practice to include treatments and procedures unheard of just a few decades ago.

"We are experiencing a change in the character of dental practice," says Dr. Burton H. Press, president of the 140,000 member American Dental Association. "Dentists are fast becoming the doctors of the head and neck, health professionals capable of treating a wide range of ailments and conditions far beyond those affecting our 32 teeth."

Texas crime rate drops, DPS

A 3.7 per cent drop in the Texas crime rate was recorded for the first half of this year compared to the same period in 1983, according to statistics compiled by the Department of Public Safety.

"Combined reports from 776 agencies indicated a rate of 2,879.8 major crimes per hundred thousand population for the first six months of 1984," said Colonel Jim Adams, DPS director. "The rate for the same period in 1983 was 2,989.7."

Adams said the actual number of major crimes reported during the period also declined.

"A total of 452,825 crimes were reported, amounting to a decrease of almost one per cent compared to the first half of 1983. This is a continuation of the trend we saw in 1983, when the number of crimes declined for the first time since 1961."

The DPS director said four of the seven major crime categories registered decreases.

"Murders were down 8.2 per cent; robbery cases dropped almost 10 per cent, and aggravated assaults declined by almost four per cent," Adams said. "Burglaries were down 5.1 per cent."

The number of rapes rose 11.6 per cent, theft cases were up 1.4 per cent, and motor vehicle thefts increased by 2.7 per cent.

Arrests for the period totaled 439,061, a decrease of 4.3 per cent compared to 1983. Drug arrests were up 16.6 per cent, totaling 27,888. There were 66,959 DWI arrests in the first half of this year, a decline of seven per cent.

"Hopefully, the increased level of public awareness about the drunken driving problem and tougher laws

have reduced the number of DWI offenders on our roads," Adams pointed out. "But the number arrested indicates that we still have a serious problem and DWI enforcement continues as a major priority of police agencies."

Two Texas law enforcement officers were killed in the line of duty by criminal action, while one died as a result of a job-related accident. A total of 1,751 officers were assaulted while on duty.

Statistics showed from Jan.-June 1983 there were 1,062 murders and Jan.-June 1984 there were 975, down 8.2%.

Jan.-June 1983 there were 3,057 rapes and 3,413 in the same period during 1984. This was a volume change of plus 11.6%.

There were 14,821 robberies in 1983 (Jan.-June) and 13,352 in the same months of 1984 which was down 9.9%.

Aggravated Assault-21,273 in Jan.-June 1983 and 20,441 (Jan.-June) 1984, down 3.9%.

Burglary-129,854-Jan. thru June 1983 and Jan.-June 1984 was 123,224 which was down 5.1%.

Theft-247,085, Jan.-June 1983; 250,672 for Jan.-June 1984-up 1.4%.

Motor Vehicle Theft-39,688 Jan.-June 1983 with 40,748 from Jan.-June 1984, plus 2.7%.

The total on murders, rapes, robberies, aggravated assaults, burglary, theft, motor vehicle thefts were 456,840 Jan.-June 1983 and 452,825 from Jan.-June 1984 with a volume change of -0.9%.

DWI arrests for the first half of 1984 totaled 66,959 compared to 71,972 in the first half of 1983.

Entertainment to be taxed

The coming attraction at your local movie theatre may be higher prices.

Beginning October 2, admission to movie houses and to almost any entertainment event will be taxed under the new state sales tax of 4 1/8 percent.

The Legislature passed the bill containing the new tax, and Governor Mark White signed it into law in July.

The minimum tax starting October 2 on a \$5 movie admission will be 20 cents. But theatre owners in some cities with a local sales tax and special taxes for mass transit will have to collect 30 cents per \$5 movie.

The same tax applies to concerts, cover charges at nightclubs, dragstrips, health club memberships, horse shows, opera performances, rodeos, water slides, golf tournaments, wrestling matches and professional sporting events.

The tax may or may not be spelled out to the ticket purchaser, but a businessman in the entertainment industry will be liable for collecting the tax. He has to get it from somewhere.

And that usually is the consumer's pocket, which almost always foots tax bills.

Any questions regarding the new state sales tax on movies can be answered by calling State Comptroller Bob Bullock's office toll free on 1-800-252-555 or on the regular line.

VA reports POW claims on increase

A new Veterans Administration study shows that more than one-third of the nation's living former prisoners of war are now receiving VA disability compensation payments. The VA says claims have increased by more than 30 percent since the agency began intensive POW outreach in October 1981.

The study, presented to a recent meeting of the VA's Advisory Committee on Former Prisoners of War, summarizes the results of physical examinations conducted among some 12,000 POWs who sought disability ratings or increases since enactment of special POW legislation in 1981. The vast majority of the claims—nearly 8,000—were filed by World War II veterans with European Theater service.

The Committee, formed in 1982, provides the VA Administrator with recommendations concerning the delivery of health care and other benefits to the nation's 88,000 living POWs. The 12-member committee is chaired by retired Air Force Lt. Gen. John P. Flynn, a prisoner of North Vietnam for 5½ years. Membership includes physicians and other individuals who have personal knowledge of the POW experience.

Outreach activities by VA have been directed toward informing POWs of priority access to medical care and the claims review process. Among several steps taken to make information more readily available was the installation of a toll-free POW Hotline (800-821-8139). VA is also developing a computer system for analyzing POW claims and health data.

While the VA study reflected increased claims activity, it also showed that 63 percent of the POWs already assigned disability ratings did not request reviews. The VA continues to urge all POWs to participate in a special protocol examination designed to gather indepth information about these veterans and their current health.

Former POWs can schedule examinations by contacting any VA medical center, clinic or regional office.

Garden Club opens new club year

The Ozona Garden Club opened the current club year with a covered dish luncheon Monday at the Civic Center, hosted by Mrs. Beecher Montgomery and Mrs. Mike Clayton.

The meeting was called to order by Mrs. Bill Mason, president.

Mrs. Mike Ledoux introduced Mrs. Clifford P. Lunson, master flower show judge of Fort Stockton, who gave a design program featuring weathered wood.

Following the program, Mrs. Ledoux reviewed the yearbook.

Monthly plant study on Iris was given by Mrs. Charles Williams.

Others attending were Mrs. Douglas Bean, Mrs. Joe Bean, Mrs. George Bean of San Angelo, Mrs. J. W. Howell, Mrs. Roy Jackson, Mrs. Brock Jones, Mrs. Steve Kenley, Mrs. Mike Miller, Mrs. Joey Pierce, Mrs. Bailey Post, Mrs. Tom Stokes, Mrs. O. D. West and Mrs. A. S. Lock.

The O.H.S. Junior and Senior Vica students elected officers on August 31, 1984. The officers from left to right are Danny Moran, Sgt. of Arms; Al Ramirez, Vice-President; Mario Arredondo, Reporter; George Guerra, Parliamentarian; Ed Borrego, Secretary of Treasurer, and Mike Lara, President.

This group of officers will be attending several meetings during the school year. Their first meeting will be a student leadership meeting which will be held in San Angelo on October 13, 1984. Vica is a student leadership club in cooperation with the Ozona High School Auto Mechanic Class.

It pays to know your food Additives from baby food up

Food additives are found in grocery products ranging from baby foods to coffee creamer. In fact, Americans swallow about five to ten pounds of emulsifiers, preservatives, flavorings, colorings, acids and vitamins in their food each year.

Yet few consumers can distinguish between products that use additives for a useful purpose, versus those that use additives to make a less-nutritious product more attractive, says Marilyn Haggard, a Texas A&M University Agricultural Extension Service nutritionist.

On the positive side, she says, preservatives help prevent spoilage, while emulsifiers keep water and oil mixed together. Vitamins and minerals add nutritional value.

According to the nutritionist, some of the most common useful additives include:

- Calcium propionate—inhibits mold growth in bread.
- Polysorbate 60—an emulsifier.
- Beta carotene—an artificial coloring that the body converts to vitamin A.
- Citric acid—an acid that occurs naturally in citrus fruit.
- Thiamin mononitrate—a nutrient (vitamin B-1).
- Carboxymethyl cellulose—a thick-

ening agent.
Sorbic acid—a preservative.
Casein—a protein that is obtained from milk.

Vanillin—the main flavor component of vanilla.

However, shoppers should be concerned when additives are used as a replacement for nutritional foods, says Haggard. For example, thickening agents are sometimes used to make a food look rich and thick, even if it contains smaller amounts of ingredients than a competing brand.

Artificial colorings and flavorings are sometimes substituted for fruit, chocolate or other real foods, she explains. Caramel coloring can make white bread look like whole wheat bread.

Flavor enhancers such as MSG, may suggest to the eater that a food contains more meat than it really does. And vitamins added to sugary, non-nutritious foods permit extravagant nutritional claims, notes Haggard.

All food additives are tested by private companies. The Food and Drug Administration (FDA) then evaluates the tests and decides whether the chemical may be used in food, says the nutritionist.

Should you fix it or buy a brand new appliance?

When the toaster gives out or the television set goes, every Texan confronts the old dilemma: Should I fix it or buy a new one?

The dilemma gets harder after October 2, when new tax laws on repairs go into effect.

The cost of repairing personal property—including home repairs—will be taxed under a new law passed by the Legislature and signed by Governor Mark White.

The tax rate is 4 1/8 percent. A local sales tax of one percent or a tax authorized by the Legislature for mass transit in some of Texas' large cities may boost the total tax to as much as 6 1/8 percent.

This is the first time such a tax

affects every household in Texas directly. Repairs of washing machines, dryers, lawn mowers, vacuum cleaners, microwave ovens (if they are freestanding) telephones and television sets are all included.

Also included are the extended warranties consumers buy to protect these items.

Repairs to real estate are not taxed. Neither are repairs to items that are specifically exempt, such as eye glasses or hearing aids, motor vehicles and aircraft. Parts are taxed, but not the repair work itself.

If your watch breaks or if your camera's shutter is on the blink, their repair is taxable at the place where you take them to get them fixed.

Michelle Mayde Jo Pearletta

Ferrell to host special series on sex abuse of children, 13

Nearly one out of three girls and one out of 10 boys will be the victims of sexual abuse by the time they reach their 18th birthday. 'Preventing Child Sexual Abuse', a pioneering television effort premiering on KERA/Channel 13 Monday, September 17, looks at the realities of this tragic situation and provides simple, workable techniques that can significantly reduce the chances of child molestation.

The landmark series, hosted by actor Mike Farrell of MASH, consists of five separate programs, each of which is designed for a specific audience. The programs will be broadcast on Channel 13 over four days—Monday through Thursday, September 17-20—at 7 p.m.

The first episode, "Program for Parents," is for parents, teachers, pediatricians, school nurses and anyone who has contact with children. It explains sexual abuse of children: who falls victim, who are the perpetrators and what the viewer can do to prevent

it. This 90-minute program also previews the forthcoming programs so that parents will be able to select the ones they feel are appropriate for viewing with their children. This program contains frank descriptions of sexual abuse and may be disturbing to younger viewers; it is recommended for viewing by adults and mature adolescents.

The second program, airing Tuesday night at 7, is aimed at kindergarten through third-grade children. The 30-minute program was taped in a classroom in a Chicago elementary school. Rape counselor Mary Ellen Stone talks with the children about some of the problems kids have with touching—"good touches" (a hug) or "bad touches" (a pinch) and touches that may be uncomfortable or confusing. Using storytelling techniques and "what if?" games, Stone helps the children develop coping strategies for tough situations.

The episode for students in grades four through seven airs Tuesday at 7:30 p.m., immediately following the program for younger children. In this half-hour program, Mary Ellen Stone adapts the "good touch/bad touch" concept from the previous program to the needs of an older audience. Using the same framework for discussion, she presents material geared to the more developed understanding levels of children in these grades, exploring problems with babysitters, sex role stereotypes and child-parent commun-

ication. Wednesday's program, "No Easy Answers," is targeted toward junior and senior high school students. Using a presentation by the Minneapolis Illusion Theater Company to illustrate the uncomfortable and sometimes dangerous situations young people encounter in adolescence, this hour-long program examines the risks in the dating and growing-up processes that can leave this age group especially vulnerable to sexual assault and abuse.

The series concludes on Thursday with a program specifically for high school-age children. In discussions with older teens at a middle-America high school, this final program continues the lessons of previous episodes and teaches students how to deal with dangerous situations and, more importantly, how to avoid them in the first place.

To promote further public awareness of sexual abuse and its prevention, a special radio panel discussion and phone-in program hosted by Bob Ray Sanders will air on Channel 13's sister station, KERA/90FM, from 8 to 9 p.m. Thursday, September 20, immediately following the final episode of Preventing Child Sexual Abuse.

Preventing Child Sexual Abuse has been endorsed by the National PTA, the National Education Association and the American Academy of Pediatrics.

NICKNAME STORY FOLLOWUP

News stories sometime have a way of begetting other stories. The recently published feature in The Stockman about nicknames worn by Ozonans has brought the first explanation of a nickname. Alvin (Dogie) Harrell didn't get his nickname because of his slim build. Rather it was because his mother and father, Mr. and Mrs. George Harrell, were ranch people and lived on their ranch.

Young Alvin, growing up and going to school in Ozona, stayed with various friends of the family during school days. He ate his meals with various households, slept in the homes of these and other friends—much like the dogie lamb mooches its living by running from one mother ewe to another and snatching a little food from whichever one it can.

SUEZ SHRINE CIRCUS

Make plans to go to Eldorado this Saturday, September 15th for the Shrine Circus. There will be two performances - 2:00 and 7:00 p.m. at the Rodeo Arena.

All children in the Ozona School System from Kindergarten thru the 6th grade will be given free tickets at school. Doors open 1 hour before show time.

Listen to your local radio station KRCT and have a chance to win free adult tickets to the Circus.

Local governments adopt new property tax rates in Texas

Local governments in Texas are in the middle of one of the most crucial steps in the annual tax process—adoption of property tax rates for the 1984 tax year.

The "truth-in-taxation" laws contained in the Texas Property Tax Code ensure that taxpayers will be informed of proposed tax increases through public notices and can become involved in the tax rate adoption process through public hearings.

These laws also provide a limited form of initiative and referendum by which voters in some instances can reduce the amount of tax increase adopted by a taxing unit's governing body.

Many tax assessors are now taking the first step in the truth-in-taxation process by calculating and publicizing the "effective tax rate."

The effective tax rate is a key element of truth taxation, a benchmark by which any tax rate changes are measured. It is a tax rate that will generate the previous year's level of tax revenue for maintenance and operation, based on the current year's property values for the property that was taxed in the previous year. It also includes the tax rate necessary to pay the taxing unit's debt obligations for the upcoming fiscal year.

The tax assessor calculates the effective tax rate after the unit's appraised property values are certified by the appraisal review board and the chief appraiser. He must then publicize the effective rate, along with the calculations for the rate and an estimate of uncommitted tax revenues left over from the previous year (called "encumbered fund balances"). This is normally done by August 7 or as soon thereafter as possible.

If the members of a school board, city council, commissioners' court or other governing body decide to adopt a tax rate that exceeds this effective rate by more than three percent, they must publicize their intent and hold public hearings. If the tax rate they finally adopt exceeds the effective rate by more than eight percent (with certain exceptions for school districts), the voters can petition for an election to roll back the tax increase.

The effective tax rate, by using current-year property values to generate prior-year operating revenue, prevents tax bills from rising automatically because of rising property values or reappraisals. Thus, according to Rep. Patterson, executive director of the State Property Tax Board, "Rising values on existing properties cannot create new tax dollars; only action by the unit's governing body can do that, and the taxpayers must be notified and given the chance to comment before that action is taken."

The effective tax rate also contains adjustments for newly granted tax exemptions and productivity valuation. As a result, says Patterson, the effective rate offsets the shift of tax burden to other classes of property caused by new exemptions or new productivity values.

Properties on the tax roll for the first time (such as new buildings, new homes or newly annexed territory) do not figure at all in the effective tax rate calculations. Thus, adding new prop-

erties or deleting part of the taxable value of property (by exemptions, productivity valuation, or deannexation causes a loss of tax revenue.

After the effective rate is publicized, the next step in truth in taxation lies with the governing bodies of the taxing units as they decide what level of services to budget for and what tax rate will be needed to provide those services.

If the decision is to keep the tax rate within three percent of the effective tax rate, the governing body is not required to notify the public.

However, if the governing body intends to raise taxes by more than three percent above the effective rate, it must announce its intentions in a quarter-page newspaper ad and hold a public hearing to listen to the taxpayers' opinions on the proposed tax hike. A second quarter-page ad is required to announce the public meeting at which the final tax rate will be adopted.

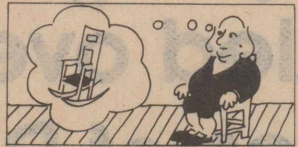

If the tax rate is set more than eight percent higher than the effective tax rate, the voters can challenge the tax increase by petitioning for an election to limit the increase.

After a successful election, any taxing unit other than a school district would have its tax rate reduced immediately to eight percent above the effective tax rate. A school district would have its tax rate limited to the eight percent level in the following year.

As a result of new laws enacted in this summer's special legislative session, school districts will be able to increase taxes in certain instances by more than eight percent before facing the possibility of a rollback election. Between now and 1987, voters may not limit a school district's tax increase that offsets the amount of lost state education aid or that increases the district's enrichment equalization funds.

Patterson pointed out that the property tax system in Texas gives all property owners several opportunities throughout the year to influence the amount they pay in property taxes.

"Open meetings and budget hearings allow a taxpayer to express his opinion about his tax dollars are spent, appraisal review board hearings allow him to ensure that the value placed on his property for tax purposes is fair and in line with other values in the jurisdiction. And, truth in taxation and the rollback election process then gives him the chance to have his say about tax-rate proposals that may increase his final bill," said Patterson. Taxpayers can find more detailed information on their roll in the Texas property tax system through a pamphlet entitled "Taxpayers' Rights, Remedies, Responsibilities!" Copies are available at local tax offices or from the State Property Tax Board in Austin.

Benjamin Franklin invented the rocking chair.

Protect trees from damage in construction

The time to protect existing trees from construction damage is before construction begins.

"Once a choice tree begins to suffer from construction damage, little can be done to remedy the situation," says Everett Janne, landscape horticulturist with the Texas Agricultural Extension Service.

Although most injuries are caused by mechanical damage from trucks and other vehicles, soil compaction and changing the soil level can also cause irreparable damage.

To protect existing trees, construct a barricade around them to insure that the soil is not disturbed as well as to prevent mechanical injury to the trunk and branches.

When the soil's grade level is raised, it upsets the air and moisture relationship in the soil, smothering root hairs and making roots unable to function.

"As little as 3 inches of heavy soil placed over the root zone of an oak tree will kill it," Janne says.

A simple tile or perforated plastic pipe system, properly installed to drain excess moisture away from the roots, will provide the essential air exchange necessary for normal root growth and development.

Terracing will usually provide satisfactory protection if the grade is to be lowered, notes Janne. If space is not available for a broad terrace, a retaining wall between the tree and the lower grade is effective. Deep holes must be placed in the base of the wall to allow trapped water to drain.

Trenching operations to install new utility services also can be deadly for trees, he points out. If a trench must pass near a tree, make any necessary cuts with a saw or pruning instrument to assure clean cuts. Backfill the trench as soon as possible to prevent excessive drying of exposed roots.

If many roots have been cut or removed, thin out the top of the tree to compensate for the lost roots, suggests the horticulturist. When trimming the tree, be sure to make all cuts back to a lateral branch—don't stub back major limbs.

In 1893, New Zealand became the first nation in which women had the right to vote.

When a honeybee finds nectar in flowers near its hive, it returns to the hive and dances in circles to let its neighbors know where nectar can be found. When it finds nectar in flowers that are far away, it dances in the direction of the flowers.

Idaho is the only state in the U.S. over which no foreign flag has ever flown.

REMEMBER WHEN YOU HAD

a college graduate and successful businessman to run the county business as a business

someone who got things done and not just made empty promises

a person who worked to build the Care Center for our senior citizens and who helped provide a youth center for our young people

a caring person who saw to it that our cemeteries were cared for in the proper manner

If you would like to have this type of service again reinstate JESS C. MARLEY to the office of Commissioner - Precinct 1

Pd. for by Jess C. Marley

PUBLIC NOTICE BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS GENERAL ELECTION NOVEMBER 6, 1984

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 29 proposes a constitutional amendment that provides to state-chartered banks the same rights and privileges that are or may be granted to national banks of the United States domiciled in this state. For example, if national banks become authorized to maintain branch offices, this amendment would extend the same privilege to state banks. The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide state banks the same rights and privileges as national banks."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 19 proposes a constitutional amendment that restructures the Permanent University Fund to provide: (1) for the expansion of the institutions eligible to participate in the bonding capacity of the fund to include the components of The University of Texas and Texas A&M University systems that have been added to those two systems of higher education since the Permanent University Fund was last restructured by constitutional amendment; (2) for the expansion of the purposes for which bond proceeds can be expended from new construction to include major repair and rehabilitation projects and the acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials; (3) for an increase in the bonding capacity from 20% (2% for The University of Texas System and 4% for the Texas A&M University System) to 30% (20% for The University of Texas System and 10% for Texas A&M University System) of the value of the assets (exclusive of real estate) in the Permanent University Fund in order to provide sufficient bond proceeds to care for the addition of 10 new institutions to those authorized to participate in the Permanent University Fund bonding program and to care for the expanded purposes for which the bond proceeds can be spent; and (4) for the dedication of the dividends, interest, and other income from the Permanent University Fund—remaining after payment of principal and interest due on bonds and notes issued, to the provision of support and maintenance (over and above normal legislative appropriations) for Texas A&M University in Brazos County, Prairie View A&M University, and The University of Texas at Austin.

House Joint Resolution 19 also annually appropriates \$100 million in each fiscal year, beginning September 1, 1985 (from the first money coming into the state treasury that is not otherwise appropriated by the constitution) for the use of those

education which are not included in The University of Texas or Texas A&M University Systems and, therefore, not eligible to participate in the Permanent University Fund bonding program. The amount of this appropriation could be adjusted every five years by a 2/3 vote of the Legislature, but could not be adjusted in such a way as to affect outstanding bonding indebtedness. Each institution of higher education that is eligible to participate (i.e., those institutions of higher education outside The University of Texas and Texas A&M University Systems) would be authorized to expend directly its share (such share to be determined pursuant to an equitable formula) of the \$100 million appropriation for the purposes of acquiring land, constructing and equipping buildings or other permanent improvements, major repair and rehabilitation of other permanent buildings or improvements, and acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials. Additionally, each institution would be authorized to issue bonds backed by a pledge of up to 50% of its share of the \$100 million annual appropriation for the purpose of land acquisition, new construction, and major repair and rehabilitation projects.

Except in the case of fire or natural disaster and in other extraordinary cases, verified by a two-thirds vote of each house of the legislature, all institutions of higher education would be precluded from receiving appropriations of general revenue funds for the purposes of land acquisition, new construction, and major repair and rehabilitation projects.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to create from general revenue a special higher education assistance fund for construction and related activities, to restructure the Permanent University Fund, and to increase the number of institutions eligible to benefit from the Permanent University Fund."

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 65 proposes a constitutional amendment which authorizes the legislature to provide for the payment of assistance to the surviving dependent parents, brothers, and sisters of officers, employees and agents of the state or its political subdivisions, including members of organized volunteer fire departments and members of organized police reserve or auxiliary units authorized to make arrests, who die in the course of performing hazardous official duties. Payments to surviving spouses and dependent children of agencies and institutions of higher

such officers, employees, and agents are already authorized by the Constitution.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the legislature to provide for payment of assistance to the surviving dependent parents, brothers, and sisters of certain public servants killed while on duty."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 20 proposes a constitutional amendment which abolishes the office of county treasurer in Bexar and Collin counties if a majority of the voters in each of those counties vote in favor of abolishing the office of county treasurer in a local election to be held on the issue. All the powers, duties, and functions of the office of county treasurer in each of these counties would be transferred to the county clerk.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to abolish the office of county treasurer in Bexar and Collin counties."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 22 proposes a constitutional amendment which provides a new method of filling a vacancy in the office of Lieutenant Governor. The amendment requires the President pro tempore of the Senate to call together the committee of the whole Senate within 30 days after a vacancy occurs in the office of Lieutenant Governor. The committee would be required to elect one of its members to perform the duties of the Lieutenant Governor until the next general election. This individual would continue his duties as Senator at the same time that he performs the Lieutenant Governor's duties. If the Senator who is elected ceases to be a Senator before the next general election, another Senator must be elected according to the above procedure to perform the Lieutenant Governor's duties. The President pro tempore would be required to perform the Lieutenant Governor's duties pending the election of one of its members by the committee of the whole Senate.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the state senate to fill a vacancy in the office of lieutenant governor."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 73 proposes a constitutional amendment that permits the use of public funds and credit for payment of premiums on non-assessable life, health, or accident insurance policies and annuity contracts issued by a mutual insurance company authorized to do business in this state. The constitutional prohibition against a grant of public money to an individual, association, or corporation or against becoming a stockholder in a corporation, association, or company has limited life and health group policies of political subdivisions to non-mutual insurance companies. The amendment would permit mutual insurance companies to bid for those policies.

The proposed constitutional amendment will appear on the ballot as follows: The constitutional amendment to permit use of public funds and credit for payment of premiums on certain insurance contracts of mutual insurance companies authorized to do business in Texas."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment to change the membership of the State Commission on Judicial Conduct to include one Judge of a Municipal Court and one Judge of a County Court at Law, who shall be selected at large and appointed by the Supreme Court with the advice and consent of the Senate.

The amendment also provides additional grounds for removal from office of judges or justices of Texas courts, and provides additional disciplinary actions that could be taken in lieu of removal or censure. The amendment would extend the Commission's disciplinary authority to masters, magistrates, and retired or former judges who hear cases by designation. The amendment creates a tribunal to review recommendations of the State Commission on Judicial Conduct for removal or retirement of a judge or justice. The review tribunal would be composed of seven (7) Justices or Judges of the Courts of Appeals selected by lot by the Chief Justice of the Supreme Court. The amendment also provides for appeal of the review tribunal's decision to the Supreme Court of Texas and grants an accused judge the right to discovery of evidence.

The proposition will appear on the ballot as follows: The constitutional amendment relating to the membership of the State Commission on Judicial Conduct and the authority and procedure to discipline active judges, certain retired and former judges, and certain masters and magistrates of the courts."

PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment which increases the per diem of members of the Legislature. The amount of per diem allowed during a calendar year would be equal to the maximum amount set in federal income tax statutes as of January 1 of that same year as a deduction for ordinary and necessary business expenses incurred by a state legislator. Current per diem is \$30; the maximum deduction is now \$75.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide a per diem for members of the legislature equal to the maximum daily amount allowed by federal law as a deduction for ordinary and necessary business expenses incurred by a state legislator."

Estos son los informes explicatorios sobre las enmiendas propuestas a la constitución que aparecerán en la boleta el día 6 de noviembre de 1984. Si usted no ha recibido una copia de los informes en español, podrá obtener una gratis por llamar al 1/800/252/9602 o por escribir al Secretario de Estado, P.O. Box 12887, Austin, Texas 78711.

Public Notice

CROCKETT COUNTY WATER CONTROL & IMPROVEMENT DISTRICT #1 is accepting bids for Comprehensive Automobile Liability, Multi-Peril, and Standard Workmen's Compensation & Employers Liability Insurance.

Bids to be submitted to Water Office, before October 1, 1984. 29-2tc

NOTICE OF APPLICATION FOR FLUID INJECTION WELL PERMIT (SUN EXPLORATION & PRODUCTION CO., P.O. BOX 1861, MIDLAND, TX. 79702) has applied to the Railroad Commission of Texas for a permit to inject fluid into a formation which is productive of oil or gas. The applicant proposes to inject fluid into the San Andres, Shannon State-B, Well Number 21, 23, 29, 27, 53. The proposed injection well is located 14 miles southeast from Iraan, Tx. in the Shannon (San Andres) field, in Crockett County. Fluid will be injected into strata in the subsurface depth interval from 1972 to 2208 feet.

LEGAL AUTHORITY: Chapter 27 of the Texas Water Code, as amended, Title 3 of the Natural Resources Code, as amended, and the Statewide Rules of the Oil and Gas Division of the Railroad Commission of Texas.

Requests for a public hearing from persons who can show they are adversely affected, or requests for further information concerning any aspect of the application should be submitted in writing, within fifteen days of publication, to the Underground Injection Control Section, Oil and Gas Division, Railroad Commission of Texas, Drawer 12967, Capitol Station, Austin, Texas 78711 (Telephone 512/445-1373).

29-1tc

NOTICE-P. C. Perner of Lubbock, is no longer associated with Perner Ranch Co., Ozona, and will not be responsible for any debts incurred other than those by P. C. Perner, Peggy Perner or Phillip Perner. 29-2tc

THE STATE OF TEXAS

To: Edward Ray Foster, Respondent, Greeting:

YOU ARE HEREBY COMMANDED to appear and answer before the Honorable District Court, 112th Judicial District, Crockett County, Texas, at the Courthouse of said county in Ozona, Texas, at or before 10 o'clock a.m. of the Monday next after the expiration of 20 days from the date of service of this citation, then and there to answer the petition of Charolett L. Judd, Petitioner, filed in said Court on the 10th day of September, 1984, against Edward Ray Foster, Respondent, and said suit being number 4720 on the docket of said Court, and entitled 'In the interest of Darla Jean Foster, a child, 'the nature of which suit is a request to change the child's surname to the stepfather's surname. Said child was born the 22 day of August 1969, in Big Lake, Tx.

The Court has authority in this suit to enter any judgment or decree in the child's interest which will be binding upon you, as requested on the application filed herein.

Issued and given under my hand and Seal of said Court, at office in Ozona, Texas, this 11th day of September, 1984.

Attest:
Debbi Puckett Clerk,
District Court, Crockett County, Texas.

EMS crew learns how to behave at scene of crime

The regular E.M.S. meeting was held Monday, Sept. 10, at 7:30 p.m. in CCCC dining room.

Those present included four special skills EMT's Dub and T.K. O'Bryant, Brian Henry and Joe Moran. Other EMT's present were Dugan O'Bryant, Billie Kiser, Ben Ross, David Cooke, Elaine Walston, Lee Carlisle and Tina Moran. Doug Meador, who recently moved to Ozona from Matador, to accept a position with the Crockett County water district was introduced and welcomed into the EMS. Doug is an EMT. Also present were Don L. Carlisle M.D. and Don Hopkins, hospital administrator.

How to handle a crime scene was discussed. Things EMS personnel should be aware of when summoned. Things such as first priority, which in all cases would be the patients. Other things to be aware of would include weapons, clothing, and other articles that would be used as identifying evidence. Those present were shown how to handle weapons and remove clothing from the injured patient.

Issuance of ambulance supplies was also discussed. Future billing and price changes became effective immediately. Each individual item in the trauma kits will be priced to make it easier for personnel when a run is made.

Ambulance runs made during the month will also be critiqued. At this time the service would like to ask the cooperation of everyone when they should have the need to call for an ambulance. When a person makes the call to the hospital they should try to stay on the line long enough so that

the person receiving the call can get as much information as possible. In other words when the correct address, medical problem, location of patient, age, if possible is known our personnel prepare what will be needed when they arrive on the scene. Time is what counts when a person is in distress. The more time saved lessens the jeopardy to that person's life.

EMS meetings will be held every second Monday of each month and all EMS personnel are urged to attend.

Ambulance runs for week

Ambulance runs made during the week were as follows:

September 1, 1984-12:45 a.m.- Ambulance went 17 miles north of Ozona on highway 137 to a motor vehicle accident. One male patient was transferred to C.C. Hospital with abrasions and lacerations to the back and head. One female was killed in this accident.

September 2, 1984-12:00 p.m.- C. C. Ambulance transferred one male patient suffering chest pains to Shannon West Texas Memorial Hospital.

September 3, 1984-1:35 p.m.- One female patient was transferred from C.C. Hospital to Shannon Hospital.

September 3, 1984-12:40 a.m.- C.C. Ambulance was dispatched to the scene of a motor vehicle accident at Howard Draw Rd. and I-10. One female patient was transferred to C.C. Hospital suffering multi-trauma.

September 4, 1984-3:04 a.m.- Female victim of motor vehicle accident was transferred by C.C. ambulance to Shannon Hospital.

September 6, 1984-11:00 a.m.- One male cardiac patient was transferred by C.C. ambulance to St. John's Hospital.

Catholics plan Fall Fiesta for Sunday

Our Lady of Perpetual Help Church will hold a Fall "Tardiada" Fiesta Sunday, September 16, from 2 p.m. to 8 p.m. Various parish and non-profit organizations are sponsoring food and game booths. Musical entertainment will accompany the festivities. The proceeds of the "Afternoon" fiesta will go for the needs of the respective organizations.

The previous night, Saturday, Sept. 15, there will be a dance in the parish hall from 8 p.m. to 12 midnight. Tickets will be \$8.00 and can be purchased at Al Ramirez's Grocery and Elma's Drive-In Grocery. They will be \$10.00 at the door.

For both events everyone is invited to come and enjoy themselves.

Ozonan's mother dies

Funeral services for Frances Pearl Lindsey, 98, were held last week in Healdton. Mrs. Lindsey was the mother of W. B. Lindsey of Ozona.

She died September 1 in Healdton Memorial Hospital. Other survivors include two more sons, 16 grandchildren, 31 great grandchildren and eight great-great grandchildren. Grandsons served as pall bearers.

Crockett County Care Center News

BY ANN McCARTNEY
DIRECTOR OF ACTIVITIES & SOCIAL CARE

September is here but we are still having some of those "dog days of summers" midday heat. But there is some autumn in the air in the mornings and this we enjoy.

Six members of the United Methodist Church brought our Sunday church services. On Thursday Charles Huffman brought seven members of the Faith Lutheran Church for Bible study. Maria Vitela brought three members of the Our Lady of Perpetual Help Church for Spanish Hour of Praise.

Clara Byrd and Vivian Hughes came for a fun Sing-along on Tuesday afternoon. They came back on Thursday and helped Lola Rios with the beauty shop. We are always glad to have these volunteers around!

Ruth Hester and Mattie Cooper were our ceramic volunteers on Wednesday. Dorris Karr and Ann Shaw helped by cleaning some pieces for us.

Sunshine Hour was sponsored by our Ladies Hospital and Care Center Auxiliary. Members Jo Davidson and Dorothy Doll were on hand to serve.

Thursday afternoon Rosa Jurado brought some twelve young boys who demonstrated the new art of break-dancing. This was something new for many of our residents and we enjoyed their performance. They promised to come again later this month. Thanks, boys.

Friday afternoon our faithful volunteer Dorothy Doll assisted a group of our ladies on a field trip to the newly opened Yarn Barn.

Bingo winners this week included Paul Cavin, winner of the El Chato dinner for two, Ola Mills, first place winner of a gift certificate from Clayton Village Drug and Moriana Perez second place winner of Avon

Commissioners Court, cont'd

The court approved the tax rate and budget for 1985, as amended in the called meeting last month.

Before adjournment, they appointed an Austin law firm to collect delinquent taxes and hired J. C. Schroeder to replace Dudley McCary as building maintenance supervisor.

Several hours were spent after luncheon in executive session concerning personnel problems.

Telephone users to have change in directory assistance

General Telephone customers here should take note of a change in the number to dial for local directory assistance.

"As of Saturday, August 25, the number to dial is 112-411," said E.O. Cambern, GTE General Manager. General Telephone changed the information numbers to correspond with its new digital switching system in downtown San Angelo. The facility is linked to directory assistance operators, also based in San Angelo.

To obtain a number in another city located within your area code, there has been no change. Simply dial 112-555-1212. If the city is located outside your area code, dial 112-the area code-555-1212.

"Linking all our Concho Valley customers to the digital system is the initial step," noted Cambern. "We are switching all our toll (long distance) traffic for nearby cities through the San Angelo office, also recently converted to the new system."

The digital system is computer-based and has replaced the mechanical telephone switching system with state-of-the-art electronics. Similar conversions to digital systems are planned for Concho Valley communities in the months to come.

ACTIVE RETIREMENT

It's called the "Treasure Coast"—this stretch of the southeastern Florida peninsula from Ft. Pierce to Palm Beach. Today, more and more retirees seek the "treasure" of a comfortable lifestyle in the area's pastoral setting.

Port St. Lucie, not quite 25 years old, is one of the youngest and fastest growing areas in Florida. Located between Stuart and historic Ft. Pierce, this area's newest community will add another 5,000 residents with Savanna Club, a maintenance-free adult-golf complex offering relaxation and a laid-back lifestyle.

The natural beauty of Port St. Lucie makes it Florida's ideal new retirement community.

Nylon was first introduced to the public in 1938. Research chemists of the DuPont Laboratories made this material by combining water, air and a by-product of coal.

TIMES CHANGE

That means your needs for insurance change too. You might have too little . . . maybe even too much.

So how do you know if the protection you bought yesterday is what you need for today?

It's easy. Just call and tell your Farmers Agent you want a complete review of all your insurance policies.

There's no cost and no obligation.

FARMERS INSURANCE GROUP of Companies

Garage Sales
