### His and Hers

By Scotty and Linda Moore

#### His

I have been informed by my brother who is in management with Dresser Security, an oilfield tool company, that real estate is beginning to move in the Midland/Odessa area. He should know because he and his wife have been looking for a house all summer long. He also said that several oil companies are beginning to rehire employees that have been laid off, which indicates that maybe things will get better in the near future. I sure hope so!

But, in the meantime back at home all we seem to hear nowadays is gloom and doom. People are talking bankruptcy and businesses are closing their doors. It is really heart breaking and sad because our community needs all of them.

It seems to me that every business that folds gives the consumer just another reason to shop out of town.

I was told that The Stockman should advertise its printing services; that a lot of people don't realize that we do our own in house printing and typesetting (offset and letterpress). We have the capability of typesetting your form and letting you proof read it before it is printed. We also do our own perforating and numbering if your form requires it, plus trimming to fit.

Twelve years' experience has taught us that if we feel we can't do the job right with professional quality, then we will tell the customer just that. After all, if a job is not well done, it is not done at all!

We have looked into computer-laser printer typesetting and have found that the quality is just not there. The blacks are not quite black and tend to fade after 100 impressions through the press, and the sharpness becomes muddy. For newspaper quality it does just fine, and several weekly papers have replaced their phototypesetting equipment with the laser printer.

Steve Kenley was by this week giving the low-down on the structure fires during the week and commended the volunteer fire department on its superior performance. It's a great feeling knowing that these guys and gals are so dedicated and well trained!

Football season is just around the corner, and I can hardly wait. We just got our high speed camera back from the shop so we can again bring those close up action shots of the mighty Lions in action. Good luck, Lions! We are behind you all of the way.

The Stockman will be running the football contest again this year so watch out for it.

It's HER time next week. Let's see if she can come up with some better more interesting stuff.

## Two fires damage Ozona businesses

Ozona Inn of the West remained closed this week after a Saturday morning fire which originated in the bar.

In addition to the damage in the bar, smoke damage was extensive to the rest of the building according to Fire Marshal Steve Kenley.

Volunteer firemen were on the scene with the first unit four minutes after receiving the 3 a.m. call. Upon arrival, they found heavy smoke conditions in the lobby and were advised that the fire was in the bar area.

Using a key to gain entry through the back door of the bar, John L. Henderson, Carol Hunnicutt, Della Moore and Jimmy Hokit entered the room, and with a 1 1/2 inch hose, had the blaze under control within a minute.

According to Kenley, the bar area, adjoining sitting area and ceiling were burning at that time. High heat and acrid smoke filled the room.

Firemen took 1 1/2 hours to clear the building of smoke and ensure that the fire had not spread.

"The firemen did a heck of a job," Kenley said.

Volunteers mounted a two-pronged offense, attacking and suppressing the fire and checking the upstairs living quarters for occupants.

Several members of the Dewayne Bullard family reside on the second floor of the building.

The fire originated in a plastic trash container near the door between the bar and restaurant according to Kenley. The bar had closed at 12:50 a.m., and the approximately two hour period until the fire was

discovered was consistent with a cigarette smoldering in a trash can, he said.

A faulty light fixture was the cause of a fire at Cottage Collection and Antiques, Etc. Monday afternoon. Fire Marshal Steve Kenley reported that a fire originating with a ballast transformer spread into the wooden attic space of the former Foxworth-Galbraith Building, heavily charring the 2x12 roof supports.

The fire was called in after Baggett Agency employees saw smoke coming from the roof as they left work at 5 p.m.

Firemen arrived three to four minutes later to find the building locked.

The front door was forced, salvage covers put down to protect the merchandise, and a portion of the ceiling pulled down to expose the fire in the attic in the left rear of the showroom.

Approximately 20 gallons of water were used to extinguish the blaze.

A hose was taken to the second floor where firemen discovered smoke and excessive heat.

The shops had been closed since about 2 p.m. and J. P. Pogue, who has an office in the back of the building, did not detect the fire because of its location.

The Ozona Fire Department was called out to fight two grass fires Wednesday, August 5. The first call came from the J. Cleo Thompson Ranch just north of town where approximately two acres burned. The second call came shortly thereafter from the Joe Pierce Ranch south of town. It was reported that approximately 50 acres burned.

## County may raise taxes

County taxes are looking at an 11 cent per \$100 valuation increase according to County Auditor Dick Kirby. The county budget being prepared for the 1988 fiscal year has been cut by \$276,000 and \$236,000 of the cut is from funds derived from taxes. A one cent increase in valuation brings \$40,000 to the county coffers, Kirby said.

A budget hearing will be held in September, and nothing will be final until after that time.

Crockett County and the Ozona School System have eliminated their participation in the child welfare program for Ozona. The school, county and state had participated in the joint funding of a child welfare program for Crockett County. Previously, Crockett and two other counties were served by the same case worker.

Court members agreed that the county should begin attempts to locate a consultant to aid in landfill application filing. Four to six months use are left for the landfill with an inspection scheduled for December.

Wading through the applications necessary for the Department of Health is impossible without expert

assistance, Judge A. O. Fields told the court.

Gasoline bids were received from Sonora/Ozona Oil Company and House Fuel. The court awarded the bid to Sonora/Ozona.

Paying bills and debating the purchase of a high pressure washer for the Road Department took up much of the court's time. After much discussion, and two motions, commissioners decided that Eddie Moore, road supervisor, should obtain information on Bean and John Deere high pressure washers for the next court meeting.

Terri Williams was approved as a board replacement for Queta Fierro when Garland Young gave his Civic/Youth Center report. Young also informed commissioners that the lettering for the building had come in and was in place on the front of the building.

Judge Fields told the court he had been notified of the coming resignation of Rachel Hall, county agent.

Jerry Hill reported for Helping Hands that 572 meals were served for an average of 25 per day during

**Letters to the editor**

Editor  
The Stockman

I am working on a history of Texas county sheriffs. It will have the names and terms of office of everyone who has been a county sheriff in Texas from 1836-1986. This information has been compiled on some 6200 sheriffs from the State Election Register in the State Archives in Austin. Any additional information found through county records is also noted.

Included with this are as many photos of these sheriffs as I can get with information about them. Currently, I have around 150 photos to put in this history. I do not have any photos of Crockett County sheriffs.

I would like to get as many photos as possible with biographical information on the sheriffs. I can copy any photo and return it if there is not a copy available. Credit will be given for all photos.

I am giving 25 percent of the profits on this book to the Sheriffs' Association of Texas Scholarship Fund.

Your help in running this letter in your paper would be greatly appreciated.

Send all information to: Mr. Sammy Tise, Rt. 1, Box 110 AA, Hallettsville, Texas 77964.

Sincerely yours,  
Sammy Tise

# Crockett County Public Library

by Louise Ledoux

**MEMORIALS**

The Crockett County Public Library has a very nice memorial program. It was started by Miss Mildred North when she began the adult library at the high school back in the '60s. Books or money for books can be donated to the library in memory of a loved one. The person donating the book will have their name placed in the book along with the name of the person it is in memory of. A card announcing the gift will be sent to the family of the loved one. This program can also honor someone special in your life. You may present a book in honor of a special friend you would like to do something really nice for or for someone you would like to recognize as an outstanding individual. Books make such a lovely tribute that will be enjoyed again and again. Every time someone opens the book that you have presented to the library, they will think of you and your gift in memory or honor of a loved one. These gifts are very much appre-

ciated by all of us here at the public library and by all our patrons. Mrs. Elizabeth P. Wilson in memory of Ele Bright Baggett, Jr. Sam and Julie Vandiver in memory of Chester Kenley. John and Mary P. Daniels in memory of Ele Bright Baggett, Jr. Mr. and Mrs. Joe Bean in memory of Mrs. Floy Friend Hume. Mr. and Mrs. David Bean in memory of Mrs. Floy Friend Hume. ## Sheriff's report

Week Ending 8-11-87

## Drink tax raises \$1,280

Crockett County received \$1,280.43 for its share of the mixed drink tax during the second quarter of 1987. Total amount collected in Crockett County was \$10,243.44 according to State Comptroller Bob Bullock. Checks were sent July 31 totaling 10.9 million to the 219 counties and 430 cities as their share of the state's 12 percent mixed drink tax collected during the period. Bullock said the state collected 45.3 million in mixed drink taxes for

the second quarter, compared to 50.8 million collected during the same period in 1986. Texas cities and counties each receive a 12.5 percent share of the tax collected on mixed drinks sold within their boundaries under the law that legalized the sale of mixed drinks in the state. Of the total 45.3 million in state collections, counties received 5.6 million, down from the 6.3 million received in the second quarter of 1986.

## Summer busy for Pool

Those who think teachers only work nine months of the year should be following OHS Ag teacher Brent Pool this summer. Pool accompanied four students to the State FFA Convention in Fort Worth July 14-18.

## Emler visits Washington

David Emler, 15-year-old son of Florence Baker Emler and nephew of Audrey Glynn of Ozona, has recently returned from Washington, D.C. with 17 members of his Speech Class from Robert E. Lee Junior High School in San Angelo. The young people were the guests of The Committee For A Free Afghanistan in appreciation of the class's video, "Who Will Save The Children?", which is based on the war in Afghanistan.

During the three-day stay, the youths had specially guided tours of the White House and Capitol Building, and were present at a press conference featuring a Soviet defector from Afghanistan. While in the area, the students stayed in "Little Afghanistan" in Alexandria, VA where the Afghans stay when they leave Afghanistan and while receiving medical attention. While there, the group was served an

authentic Afghan meal and visited with 12-year-old Hasrat Khan, whose legs were broken by a Soviet bomb two years ago.

A reception was held in the group's honor, hosted by numerous congressmen, including Charles Wilson and Lamar Smith of Texas, at which time the video was shown. The students were presented with wool Afghan hats, were briefed by the State Department on the situation in Afghanistan, and were interviewed on Voice of America radio.

Expenses for the trip were paid by The Committee. Press and broadcast personnel from San Angelo accompanied the group, as well as Mrs. Carolyn Underwood, their speech teacher, who initiated the idea of a video after hearing of a San Angelo physician, Dr. Preston Darby, who went to Afghanistan two years ago to help the people and was struck by the plight of the children. David will be a sophomore at San Angelo Central High School in the fall. He was one of ten students from the class selected to attend universities and high schools throughout the nation to speak on the class's experiences with the video. All expenses for these trips will also be paid by The Committee For A Free Afghanistan in an attempt to take the message of the Afghan's situation to the American people.

Any organization wishing to schedule a viewing of the 20 minute video may contact Audrey Glynn.

Texas sheep producers were pleased to learn of the addition of lamb to Stouffer's Lean Cuisine® line of low calorie entrees. Introduced nationally in February, this is the first American lamb frozen entree to be marketed.

The new product results from a four-year development effort by the American Lamb Council with Stouffer's product managers which began with discussions and ALC taste samplings of suggested entrees. Stouffer's conducted extensive recipe, cooking and consumer tests to ensure that the final product, herbed lamb with rice, met their high standards. ALC also coordinated needed research on frozen lamb cuts with Colorado State University and worked with Stouffer's suppliers on developing cutting specifications for the product.

ALC is working with several frozen food manufacturers to encourage the use of American lamb in their frozen entree lines. New product development may take several years from concept through to market introduction, so ALC includes this type of

new product development as an ongoing part of its activities with a number of prospects.

A three-month national retail contest and lamb promotion helped maintain high awareness and enthusiasm for American lamb and helped sustain high wholesale prices. Participants included divisions of Safeway, Kroger, Albertsons, Winn Dixie, Fleming and a number of smaller regional chains.

A few examples of outstanding sales results due to retailers' extra efforts during the contest:

- Increased sales overall ranged from two percent to more than 1400 percent, but most participating retailers showed about 70 percent increase.

- One Oklahoma retailer increased total Fresh American Lamb sales by 632 percent over the same six-week period last year. Total box packs of legs and loins increased by 232 percent, and the promotion stimulated new sales of 2,592 pounds of boneless legs and shoulders.

- A winner from Western Super-

markets in Birmingham, Alabama reports lamb sales increased during the contest from 60 pounds of legs per week to 10 full carcasses a week. Western expanded its lamb case space, provided lamb recipes, displayed a variety of lamb cuts with lamb Nutri-facts information and ALC channel markers and placed Fresh American Lamb stickers on packages.

- Stores in the central division of Kroger showed an average 188 percent increase in weekly dollar volume.

And, American retail lamb features in 23 markets increased during the contest for the last quarter of 1986 from an average of 77 percent of all features to 85 percent, while New Zealand features declined by a corresponding percentage.

As a direct result of the campaign, American features increased in Seattle from 63 percent to over 85 percent and sales of American Lamb increased 17 percent while New Zealand sales dropped, with only a few chains still carrying the New Zealand case-ready product.

Wildlife management important

By George Peacock

Wildlife management is becoming more important each year since the wildlife of this area are an important economic resource to many ranchers in Crockett County.

One of the first steps in beginning a good wildlife management program is to take some type of census of the wildlife population. In regards to white-tailed deer, there are several census techniques available that will give a fairly good estimate of the number of deer and in some cases buck:doe ratio on a given area or ranch.

Three of the more commonly used census techniques are: Hahn Walking Census Survey, Spotlight Census, and Helicopter Census. Each technique has its advantages and disadvantages; however, each will yield valuable data that can be used for management recommendations.

After conducting a census on a given area or ranch, a wildlife biologist or other trained specialist can tabulate the data collected and recommend a proper harvest of deer that can be taken without causing damage to the population.

Once a harvest recommendation has been determined, accurate harvest records should be maintained. Harvest data will give trends in a population as to whether the deer herd is improving or what steps need to be taken to improve the herd.

## with Mozelle and Little Bit

Gina McCollum and Tonya Carter are celebrating their nine years of being best friends this month.

Celebrating his birthday on Aug. 17 was seven-year-old Eric Pineda. Hope you had a happy one.

Jim and Kay Gray were at Angelo State University with Richard on July 30. Richard was there to pre-register and for freshman orientation. Last weekend they traveled to San Angelo to watch the Oilers.

Lisa Colin left Monday, Aug. 10, for A&M at College Station where she will be attending school.

Happy birthday on Aug. 12 to Gary Yeager.

Margaret and Mariuel Dudley have returned from a Canadian Rockies tour which included Seattle, Vancouver, Victoria, Jasper and Edmonton, Canada.

Recent houseguests of Jannette and Clayton Robinson were Gary and Carol Goodman and their son and daughter. They all went to Junction canoeing and fishing where another guest, Jim White, lost his reel and T-shirt. Jim said the catfish was wearing his shirt.

Aug. 12 is Frank Skinner's special day. Happy birthday.

Gina Sadler celebrated her big special on Tuesday, Aug. 4. Happy birthday, Gina.

Cynthia and Richard Berry returned late last week from a Caribbean cruise.

Ruth and George Hester were in Dallas July 26 for the graduation of their son, Dennis, from Aero Tech. Also attending was their granddaughter, Janis Hester.

Stacy Grendahl will be a birthday girl on Aug. 17.

Jim White is back in town getting ready for school after having a fun summer traveling and sightseeing. What a hard summer he's had.

Evan Fierro celebrated his very special day on Aug. 9. Being seven is a very big birthday.

Eddie Joe Lewing will be leaving Aug. 20 for South Carolina and the Army.

Carl and Marlys Thurman have just returned from a time of renewing old friendships and visiting family. The first stop was Tucson to visit their daughter, Kirstie, and family. Pretty hot - then on to Missoula, Montana to see Dana and her family. If you ever need a tow truck around Lake Powell, be sure to give the exact location of the camp ground. If they go to the lower and don't check the upper, you get to wait another three hours for that seven mile tow into Page. The weather was nice, though, and the problem minor.

They enjoyed their time in Missoula, camping at Lake Placid and picnicking at Flat Head Lake. Saw a lot of wildlife at the Bison Range. Visited St. Ignacius Mission that was built by the Indians brick by brick, all hand made. Beautiful.

They took two grandchildren with them to Newport, Oregon. Visited old friends, Marlys' mom and brother and family. Picked up two more grandkids, took mom along to see Marlys' sister and family in Ventura. Mom stayed there and Marlys and Carl and four grandkids went into Tucson and then back home to Ozona. Left the grandkids in Tucson. It's so good to be home.

Kellye Robinson received a gift of a T-shirt from her special friend in Alaska. Her name is Tracy Harris.

Happy anniversary to Kaye and David Cooke on Aug. 17. That day is also David's birthday.

Kaye will celebrate two days later on Aug. 19.

Lacy Miller, daughter of Mr. and Mrs. Van Miller, is home following knee surgery. Lacy will be a senior at Ozona High School this year.

Attending the Daniels-Carleton wedding in Abilene were: Mrs. Arthur Phillips, Mrs. Clay Adams, Mrs. Lela Nussbaumer, Judge and Mrs. Brock Jones, Mr. and Mrs. John R. Hunnicutt, Mr. and Mrs. H. M. Phillips Jr., all of Ozona. Also attending were Diane Phillips of Greeley, Colorado, Hope Phillips of San Antonio and Gail Hunnicutt of Hobbs, NM.

Brian May was in Cordell, OK last week as guest speaker at an Angora goat field day.

Bernice Ybarra and her parents, Joe and Rachel Ybarra, were in San Angelo last week to attend freshman orientation at ASU.

Here for a recent visit with Mr. and Mrs. Dub Reeves and L. M. Spurgers were their granddaughter and her husband, Gayla and Tony Stevenson of San Antonio. Mr. Spurgers and the Stevensons made a trip to Langtry during their visit.

Mr. and Mrs. Dub Reeves have returned from a family reunion on Lockney.

Among those from Ozona in San Antonio last week to attend the Miss Texas USA Pageant were Gary Davis, David Adams, Stacy Lay and Susan and Cliff McMullan. Alicia Heard of San Antonio also attended.

Robin Bolf will be leaving on Aug. 24 for Abilene Christian University.

Roger Flores is University of Texas bound on Aug. 20.

Kenneth Sessom is in Houston at TSTI where he is enrolled in auto mechanics. His was chosen Phase I leader.

### It's a boy!

The bouncing baby boy born to Bob and Cynthia Hodges is named for his two grandfathers.

Eager to make him welcome are a sister and brother, Christy and Harrell Hodges, and grandparents Mr. and Mrs. Alvin Harrell of Ozona and Mr. and Mrs. Robert G. Hodges of High Ridge, MO.

Pam and Joe Warren, Friend of McAllen and their children, Trip, Fontaine, Whit and Phaedra, called at

The Stockman before starting the long drive home Saturday. Friend is the son of Mrs. Dorothy Friend.

### Save trip by calling

It is a good idea for people in the San Angelo area to call Social Security before taking the time to visit the office. The reason is that most Social Security business can be taken care of over the telephone, Franklin H. Upp, Social Security manager in San Angelo, said recently.

Unless the person's business is urgent, it is best to call after the middle of the month. Inquiries can be handled more quickly at this time, Upp said.

Examples of the business that can be handled by phone include:

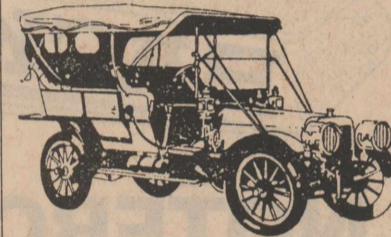

- \*Applying for Social Security benefits. A claim can be started over the telephone and completed by mail.
- \*Apply for Medicare.
- \*Changing name and address on Social Security records.
- \*Reporting a change in marital status.
- \*Reporting stopping or starting work or to report any event that can have an effect on benefits.
- \*Reporting a lost or stolen check or delayed payment.
- \*Getting help in filling out a Medicare form.

- \*Arranging for direct deposit.
- \*Getting an estimate of a benefit rate.
- \*Requesting a statement of earnings.
- \*Getting help in requesting a review of a claims decision.

\*To ask any question about Social Security or to ask for a free publication.

The telephone number of the San Angelo Social Security Office is 949-4608. The office is located at 2214 Sherwood Way.

# Rachel's Reviews

by Rachel O. Hall

## Plan ahead to air condition

When you buy an air conditioner, you are buying comfort. To get the most comfort for the price, you need to plan ahead.

The correct size air conditioning unit is especially important in Texas because the humidity is so high much of the year.

Remember that an air conditioner dehumidifies as it cools, and reducing humidity will improve your level of comfort. An air conditioner that is too small will not be able to keep the temperature low enough for comfort.

The mistake of thinking "bigger is better" may present another type of problem. Too large a unit will cool the area so quickly that dehumidification is insufficient.

To avoid such problems, measure the size of the area to be air conditioned, the size and type of windows in the area, and the voltage and accessibility of electrical outlets. Take this information along when shopping, to help a sales person determine the physical size of a unit and its cooling capacity in BTUs that will adequately cool and dehumidify the specified area.

The cost of the unit and its installation are only part of the total cost of owning an air conditioner. Operational costs are also a large consideration.

Each unit should have a yellow and black Energy Guide displayed on it. This contains its Energy Efficiency Rating. This rating explains about how much the unit will cost to operate. The higher the rating, the more efficient the unit will be and the less it will cost to use.

## Guild to hold yearly renewal meeting

The Crockett County Arts & Crafts Guild will hold its annual reorganizational meeting Saturday, Aug. 15, from 10 a.m. to 4 p.m. at the Civic Center.

Area crafters and artists displaying will be Ruby Olson, Donna Sanders, Alfredo Tobar and Mary Layman. Anyone interested is invited to display and demonstrate their craft or art.

All members and past members are urged to attend a meeting at 4 p.m. The general public is welcome to come get acquainted with the guild.

## Walkers mark fiftieth

Blanche and Lefty Walker greeted a multitude of friends Aug. 8 as they welcomed guests to their 50th anniversary celebration. The Civic Center was filled with an excited and happy crowd come to share in the joy of the day.

The Walkers married July 31, 1937 at the Church of Christ in San Angelo five years after their courtship began.

The couple met at Abilene Christian College where they were both students. They have reunited every first week of June for 40 years with their college friends. The first years were at Devil's River, and other locations have been chosen through the years.

During the first five years of their marriage, the Walkers lived in Lueders where he coached girls' basketball. He had earned the nickname Lefty in college for guarding assertively with his left hand.

After moving to her hometown of Ozona, Blanche, the daughter of the late Mr. and Mrs. P. T. Robison, and Lefty settled down on the ranch where they lived for 20 years before moving to town. He officiated the annual basketball tournament by himself for the first four or five years after moving here.

He served two terms as a school trustee and was a county commissioner from 1959 to 1968. During his tenure of office, the Crockett County Hospital was moved to the new building and the auditorium-coliseum was built. He was a charter member of the Ozona Country Club where he helped plan and build the sand greens on the first golf course.

"We've led a pretty calm life. The Lord's been real good to us, and I wouldn't change a thing," says Blanche of her 50 years with C. O. Walker.

The Carter, Oklahoma native, son of the late Mr. and Mrs. Artie Walker, and his Ozona bride reared two daughters, Gwynel and Janis. Gwynel is married to Guy Wells, and they make their home with their children, Gary and Gaylynn, in Richardson.

Janis and her husband, Darrell Almand, make their home in Irving with their two daughters, Amy and Anna.

The Walkers attend the Church of Christ where she has been a Sunday School teacher and he an elder. They are members of the Supper Bridge Club, 42 Club and Ozona Country Club. She has been a member of Woman's Forum for 40 years.

Lefty makes the 80 mile trip to their Sanderson ranch several times a week, but they have time for other travels, as well, having been to 49 of the 50 states.

A display of family pictures and wedding gifts brought about much reminiscing during Saturday's celebration. A newspaper printed on

the day they were married and wedding invitations received during their 50 years together were among the mementoes displayed.

Blanche's bridal gown and the gown worn by her maid of honor, sister Totsy Hagelstein, for the 1937 wedding, were displayed on mannequins placed on the stage in the party room. A congratulatory banner and many arrangements of yellow flowers added to the cheer evidenced by all who attended.

Members of the wedding party present for the anniversary celebration included Totsy Robison Hagelstein, maid of honor; R. V. Hardegree of Temple, best man, and Mrs. Hardegree; Jake Miller and Miller Robison.

Guests were served the traditional chocolate bridegroom's cake and

bridal cake from beautifully appointed tables.

And outside, as if waiting to wisk the couple away, sat a red 1931 model Ford belonging to Mr. and Mrs. Miller Robison.

Members of the house party included: Mrs. Fred Hagelstein, Haley Holden, Deene Holden, Mr. and Mrs. Rick Hagelstein of Waco, Ashley, Robby, Amber and Aubin Hagelstein of Waco, Mr. and Mrs. Wesley Graham of Lompoc, CA, Mr. and Mrs. Miller Robison of Baird, Mr. and Mrs. Louis Robison of Fort Stockton, Jackson Robison of Fort Stockton, Mr. and Mrs. Tom Robison of Marfa, Bill Max Robison of Marfa, Besa Robison of Houston, Mrs. Lloyd Winkley, Mrs. Gary Vannoy, Mrs. Ralph Moore, Mrs. J. B. Miller, Mr. and Mrs. Oscar Kost.

## All together

Charles Huffman, pastor  
Faith Lutheran Church, Ozona  
Hope Lutheran Church, Sonora

READ: Colossians 1:13-20

"He (Christ) was before everything, and He holds everything together." Colossians 1:17

Does it ever seem that just when you think you've about got it all together, things begin to break apart in your life? The early New England Primer Reader states: "In Adam's fall, we sinned all!"

Truly, the Fall into Sin was - and is - the Crash heard around the world, for the more people there are living on earth (five billion now), the more evidence we see of the brokenness and destruction sin brings.

A Christian mother was reading this nursery rhyme to her five year old son: "Humpty Dumpty sat on a wall; Humpty Dumpty had a great fall. All the king's horses and all the king's men couldn't put Humpty Dumpty together again." The boy thought for a minute, and then as if he had come up with a solution, he beamed brightly and said, "Jesus could have done it". How true - and in a much higher sense!

The apostle Paul tells us in the

above reading that Jesus Christ not only put all things together in the beginning, but that He still holds them together. As the omnipotent Son of God, together with the Father and the Holy Spirit, He is the uniting force that holds both the physical universe and all of human history together.

He's the One who laid aside His eternal glory to become a human being for a period of 33 years as Jesus of Nazareth. And in His immeasurable love for us He went to Calvary's Cross in order to repair the brokenness of our relationship to God. After defeating our enemies, sin, death and Satan, through the sacrifice of His own precious life, Jesus Christ gave evidence of His victory by His glorious resurrection from the grave. Then before ascending to the right hand of the Father and His rightful place in glory, He declared in Matthew 28: "I have been given all power in heaven and on earth. Go and make disciples of ALL people; baptize them in the name of the Father, the Son and the Holy Spirit and teach them to do everything I have commanded you.

And remember, I am with you always till the end of the world".

Throughout his Epistles, St. Paul not only presents Jesus Christ as our Savior and Redeemer, but also as our omnipotent Creator and Sustainer. For instance, he tells the Ephesian Christians in chapter 1 that the Father has put His Son "above all rulers, authorities, powers, lords... and has put everything under His feet, and gave Him as the Head of everything to the Church, which is His body". Truly, "He holds everything together!"

Most important for you and me, who have been called to a living faith in Jesus Christ, He holds our little lives together. In a world that seems to be flying apart, not only does He have "the whole world in His hands", but He also holds you and me.

So when things seem at their worst - when brokenness comes into our lives - we can rest assured that He holds all the pieces, and that He knows where every piece belongs. With Jesus Christ as Lord and Savior in our lives, we've got it ALL together!

## Crockett County Care Center News

by JoAnne Marshall

Residents enjoyed decorating fan blades so much during last week's craft class that they decided to do it again this week. Doris Karr was Monday morning's craft volunteer, and we appreciate her help. Residents putting their creative talents to good use were: Consuelo Sarabia, Juana Hernandez, Moriama Perez, Manuela Perez, Maria Cervantez and Doris Robnett.

Monday afternoon, residents kept in shape by attending an exercise class and participating in a game of ring toss. Doris Robnett was the top scorer. Rings were also made by Lucy May Meinecke, Lucia Rios, Juana Hernandez, Moriama Perez, Edna Wallace, Nellie Harp, Harry Blatchford and Consuelo Sarabia.

Sophie Kyle was the helpful volunteer in Tuesday morning's bingo. Winners were: Juana Hernandez, Consuelo Sarabia, Alice Ross, Manuela Perez, Moriama Perez, Rebekah West and Lucy May Meinecke.

Tuesday afternoon, residents gathered in the Sun Room to share memories and compare crocheting techniques during Sewing Circle Hour. Dorothy Doll was the volunteer sharing in the fun.

Hands were really busy in Wednesday morning's ceramic workshop creating lovely works of art. Residents participating were: Tomasa Ramos, Doris Robnett, Juana Hernandez, Consuelo Sarabia, Theo Burns, Moriama Perez, Hazel McDaniel and Maria Cervantez.

Volunteers were: Ruth Hester and her granddaughter, Janice Hester.

Wednesday afternoon, residents were treated to ice cold popsicles while they sat on the front porch and enjoyed the Sunshine Hour.

Residents looked stunning Thursday morning after their visit with volunteers Vivian Hughes, Clara Byrd, Lola Rios and Bobbie Light in the beauty shop, and their spirits were lifted by the lively piano music played by Clara immediately afterwards.

Jim Gray presented this week's mid-week Bible study Thursday afternoon, and the lesson was very interesting. Glenda Henderson played the piano and residents sang hymns.

Fr. Alberto Tijerina conducted Mass during the Spanish Hour of Praise. Beautiful hymns were sung in Spanish, and a short visitation followed.

Friday's bingo winners were: Juana Hernandez, Tomasa Ramos, Doris Robnett, Alice Ross and Moriama Perez. Juana won three games. It really was her lucky day.

Delicious cinnamon toast was made during Friday afternoon's bake day. Residents stirring up this delightful and easy treat were: Edna Wallace, Nellie Harp, Juana Hernandez, Consuelo Sarabia, Doris Robnett, Hazel McDaniel, Moriama Perez and Maria Cervantez.

Sunday workshop service was presented by the Catholic Church.

## HELP SLOW YOUR ELECTRIC METER DOWN THIS SUMMER.

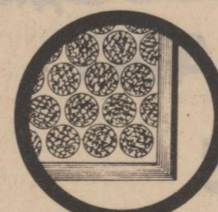

Set Your Thermostat at 78° or Higher.

The recommended thermostat setting for summer cooling is 78° or higher. Portable fans or ceiling fans can help you feel comfortable at higher thermostat settings. Don't forget to turn fans off when you leave the room.

Tightly Seal Air Leaks in Your Home.

Make sure all cracks around windows, doors, pipes and wiring are tightly sealed with proper caulking and weatherstripping. Also, R-30 insulation in the ceiling, and R-16 insulation in the walls is recommended to adequately insulate your home.

Check Your Filter Regularly.

A dirty filter could keep your air conditioning system from operating as efficiently as possible. Clean permanent filters according to manufacturer's instructions, and replace non-permanent filters.

For more information on how to help slow your electric meter down this summer, call your local WTU office.

**ASCS to follow bankruptcy policy procedures**

Due to depressed economic conditions together with numerous other contributing factors, many ASCS producers have decided to seek the protection afforded by the federal bankruptcy laws. Others are now pondering if they should make the same decision.

Over the past four years, ASCS has become increasingly involved in the area of bankruptcy. It continues to receive much criticism for the way in which bankruptcies are handled. This letter is written to inform our producers of the procedure necessary for county offices to follow when producers become involved in bankruptcy proceedings. This procedure is national policy, which means it is directed by our Washington Office. We cannot change or deviate from the policy; we must follow it.

When a county office becomes aware an ASCS producer has filed a bankruptcy petition, all program activity involving that producer, such as issuance of program payments, loan redemptions/issuances, etc., are suspended. Washington policy directs county offices to seek legal advice from the Office of General Counsel (government attorneys) before any action is taken to disburse payments loans, etc. A copy of the bankruptcy petition must be obtained by the county ASCS Office and provided to the ASCS State Office together with all ASCS program documentation involving the bankrupt producer. Many payment decisions are made at the State ASCS level. Cases requiring preparation of legal documents on behalf of ASCS or CCC are referred to our Office of General Counsel in Temple, Texas. The automatic stay that goes into effect when a bankruptcy case is filed prevents ASCS/CCC from conducting business-as-usual with the debtor.

staff of the hospital be included as an ex officio member of the board.

The hospital board has voted to eliminate one position in the Care Center.

An infant hawk is called an "eyas".

In Chapter 11, 12, and 13 bankruptcy cases, an Authorization to participate in Federal Farm Programs, signed by the bankruptcy judge is needed before any pending program payments, if due the producer, can be issued. This Authorization also allows participation in the CCC loan program. This form is available in the local ASCS Office.

Since ASCS may not become aware of a bankruptcy filing for many months, it is to the producer's advantage to inform the County ASCS Office when a bankruptcy petition has been filed. This will allow county offices to begin the process they are directed to complete. In this respect county offices can be of better service to the producer if they are aware a bankruptcy has been filed.

The State Office and the County Offices are inundated with telephone calls and letters from Bankrupt producers, their attorneys, financial consultants, etc., demanding certain actions to be taken on bankruptcy cases. It is difficult to process the volume of cases being submitted because so much time is being expended on satisfying questions on an individual cases by case basis. Once the required bankruptcy information is provided to the State Office by a county office, it usually takes a week to 10 days for payment advice to be received by county offices.

Thank you for taking time to read this letter. It is hoped the explanations provided will be helpful to you if you have or may become involved in filing of a bankruptcy. In spite of the recent accusations and criticisms directed toward ASCS regarding the bureaucratic handling of these cases, our goal has always been and will continue to be service to the farmer.

**EDITOR'S NOTE:**

The above letter was sent to livestock producers by the ASCS.

**SAVINGS**

We're not afraid to call people names.

We feel getting to know you is part of our job. We want to learn a lot more about you than your social security number. We want to learn your goals and ambitions so we can give you appropriate financial guidance. We want to know what you value most in a hometown bank so we can serve you better. But most important, we want you to feel comfortable when you do business with us. We want you to feel like the friend and neighbor you are.

You Know Us. We Know You.
