## J.V. finishes in 6th place slot Ozona Relays yields 4th places to boys, girls varsity track teams

by T. C. Tucker  
STOCKMAN SPORTS

Hindered by hosting their own meet and cold weather, the Lion track team tallied 50.5 points and placed fourth while the JV squad finished sixth.

"I wasn't disappointed with the kids' performances," Coach Pete Maldonado said. "I just wasn't pleased; they didn't perform to their maximum ability."

Ozona's speciality, the distance races, yielded a third place for Luis Rico in the two-mile run and sixth in the 800m run, while Gilbert Rico took fourth in the mile.

Jose Gutierrez pulled fifth and sixth places in the same respective events, while Pablo Talamantez took fifth in the two mile.

Some of the brighter spots of the day resulted from freshman Mark Ramirez' efforts. He claimed second in the 800 with a time of 2:08.87, then third in the mile in a time of 5:01.35.

"I'm pleased with the younger kids' efforts," Maldonado said.

Lalo Rodriguez pole vaulted his way to nine feet, six inches and fifth place and claimed sixth in the 110m high hurdles.

Javier Martinez tied for fifth in the high jump and leapt to an equal finish in the long jump.

"We had a few highlights in the meet, Maldonado noted. "We had excellent competition in the long jump as five kids had jumps of 20 feet or longer."

L. Lira of Sonora took first place in this event with a leap of 22' 3/4" while Ozona's Martinez jumped 20' 1/4".

Ruben Borrego clocked a third-placing 23.31 200m dash.

Both the 400m and mile relay teams placed fifth. Mingo Perez, Robby Tambunga, Borrego and Martinez made up the former team while Borrego, Martin Urbina, Ricky Burger and L. Rico served on the latter.

Sonora and Reagan County finished first and second team wise with a margin of less than ten separating them. Crane placed a distant third.

Danny DeHoyos, Marcos Quiroz, Albert Talamantez and Adam Alba teamed together for third-place finishings in both the 400m and mile relays to highlight the Ozona JV's competition.

Angel Hernandez and Albert Talamantez took fifth and sixth respectively in the shot put. Talamantez also placed fifth in the 100m dash.

Alba finished fifth in the 200m dash with a time of 25.20 while Joe Martinez took sixth in the 800m run in a time of 2:29.52.

"These meets are hard to judge since we're competing against teams like Sonora and Crane," Maldonado said. "We're keeping up with our district opponents and we know what we can do against them."

"We're going to spend this week refining our techniques, taking a rest and having good workouts."

Coach Maldonado would also like to express appreciation for all those who helped during last weekend's track activities.

Maria Sanchez, Kristina Martinez and the mile-relay team collected the Ozona Lady Lion Tracksters' four victories as they accumulated 79 points en route to a fourth-place finish in last Saturday's Ozona Relays.

Iraan easily won the meet with 105 points while Junction and Sonora followed in second and third places respectively in a field of eight teams.

Sanchez again dominated long

distances as her times of 5:42.97 and 13:03.40 in the mile and two-mile earned her two first placings.

Besides finishing second in the high jump and third in the triple jump, Martinez clocked a 2:36.86 800m run to win that event.

Martinez, Sanchez, Tamel West and Claudia Avila formed the winning mile-relay team which claimed the top spot in a time of 4:20.75.

West also had an excellent individual performance, long and high jumping her way to third and sixth places respectively and finishing fifth in the 400m dash with a time of 70.5.

The 400m-relay team of West, Martinez, Avila and Susan Pullen earned fifth place. Carri Chandler cruised to a fifth-place finish in the mile run.

"It's difficult to run your own meet and coach as well," Coach David McWilliams said. "But despite this and the girls' pains, they competed exceptionally well."

"We have some young girls coming up who are filling shoes left behind from last year's squad," he said, noting Avila's 61.1 time for her 400m leg in the mile relay. "She came through after laying out two weeks due to an injury."

Maria Sanchez' face reflects the pain necessary for the gain as she crosses the finish line at the end of first place win with a time of 13:03.40. Maria achieved her

## Local school board considers asbestos removal program

Ted Cleveland and Don Ripley, representatives from Professional Services Industries Inc., met with members of the Ozona School Board during their regular monthly meeting on Tuesday, March 14, to present their firm's plans and specifications for asbestos removal in the district's schools. Cleveland, acting as spokesman for the company, explained that the plans and specifications were drawn up after a thorough on-site investigation of district facilities and were designed to comply fully with the requirements of the Asbestos Hazards Emergency Removal Act passed by Congress.

Following board discussion of the asbestos abatement project, the trustees voted to call a pre-bid conference at 2:30 p.m. Friday, March 17, in the administration

building and open bids on the project on Tuesday, April 11.

The members also voted to call a school board election to be held on Saturday, May 6, for the purpose of electing three members to the local board. Terms of office for Sandra Childress, George Ybarra and Dan Pullen will expire in May. Ybarra and Pullen have already filed for a place on the May 6 ballot as has Wade Richardson.

The remainder of the meeting was spent in personnel employment considerations. Contract extensions were granted to Don Payne, Frank Hughey, John Curry, Jack Probst, Walter Spiller, Buddy Hooper, Jim Payne and Ted Cotton. Contract renewals for other classroom teaching personnel were considered in a meeting Tuesday, March 21, and will be reported in the next edition of *The Stockman*.

## Intermediates hold Spring open house

The Ozona Intermediate School celebrated Texas Public School Week a bit later this year with an open house on Thursday, March 16. The evening began with a play entitled "Davy Crockett" directed by music teacher Sara Hignight. This Disney youth musical featured fifth grade students from Mrs. Graham's room and Mrs. Glasscock's room. These young people sang, danced, and even helped to create the costumes and the sets for their presentation.

Following the musical, guests visited the classrooms to meet the teachers and to view the students' work. Highlights from the classrooms appeared to be the large hanging dinosaurs in Mrs. Chalmer's room, the pioneer artifacts, including homemade butter in Mrs. Glasscock's room, the large Texas flags in Mrs. Worthington's room, the hanging solar system models in Mrs. Williams' room, and the Japanese paper fish mobiles from Mrs. Probst's room. Every room was filled with both art and academic works that was interesting to all visitors.

More than 300 people attended the open house. The entire faculty, staff and student body of Ozona Intermediate School appreciated the interest of the community members in their school.

## Salvadorean dies in single vehicle rollover

An El Salvador man died last week in Crockett County as the result of a one car accident. Jose Eliseo Rosales, 41, was pronounced dead at 12:50 p.m. at Crockett County Hospital.

Rosales lost control of his 1982 Toyota 4x4 pickup when a vehicle he was towing began whipping back and forth. The pickup ran off the road and overturned three times.

A passenger, Juan E. Franco, 20, was hospitalized at Crockett County Hospital in fair condition according to reports.

The accident occurred at 11:25 a.m. Thursday about 30 miles west of Ozona on I-10. Richard Barton was the investigating officer.

L. A. McCaleb of Ozona and Roland Ramos of Richmond, VA were the drivers in a two car accident March 13. The accident occurred when a 1984 Ford driven by Mr. McCaleb pulled away from the post office on Ave. F into the path of the Ramos vehicle. There were no injuries.

Trooper Ben English was the investigating officer.

Two Iraan men were injured, one severely, March 14 .4 miles east of the Pecos River Bridge.

The driver of a 1979 GMC pickup, Jose Soto, received head injuries when he lost control of his truck while traveling at a high rate of speed. He was ejected from the pickup after losing control of the vehicle which overturned three times.

His passenger, who was wearing a seat belt, was injured to a lesser degree. Both were taken to Midland Memorial Hospital.

Trooper Ben English was the investigating officer.

Minor damage occurred Friday when a 1988 Ford crewcab pickup driven by Roy Bullard struck a

vehicle parked at 107 Ave. J as he backed out from a residence.

The accident was investigated by Ben English.

Marsha Cannon was taken to Crockett County Hospital for treatment of injuries received in a one vehicle roll over shortly after midnight Friday. Mrs. Cannon was traveling west on Hwy. 290 two miles east of the truck stop when she lost control of her Nissan four door and overturned.

The accident was investigated by

Trooper Richard Barton.

Minor vehicle damage resulted Monday when a 1987 Cadillac driven by Mrs. Ruth White and a 1985 Oldsmobile driven by Sherman Norwood of Odessa were in collision at Ave. E and 12th Street.

The accident happened when Mrs. White, who was traveling north on Ave. E, made a left turn in front of the southbound Norwood vehicle, clipping the Oldsmobile slightly.

Richard Barton was the investigating officer.

## Churches plan Easter services

Easter sunrise services are planned at three Ozona churches Sunday with each extending an invitation for all to attend.

Conducting the 6 a.m. service at the Assembly of God Church will be Oscar Baredes of Guatemala. Baredes is in Ozona to hold a campaign which began Tuesday and continues nightly at 7 p.m. through Easter Sunday.

Sunday school will be held at the regular time of 10 a.m., announced Rev. Bekie Diaz.

Ozona United Methodist Church will follow its 6:30 a.m. "Sonrise"

service with a continental breakfast. Both will be at Emerald House. Lawn chairs are suggested.

Other Easter Day events at the church are: Sunday school, 9:45 a.m.; morning worship, 11 a.m.; noon Easter egg hunt; fellowship dinner, 12:30 p.m.

First Baptist Church will celebrate Easter with a 6:45 sunrise service on Waterworks Hill.

Sunday school will be at the regular time of 9:45 followed by morning worship at 11. Communion

(Continued on pg. 8)

## Richardson files for school board spot

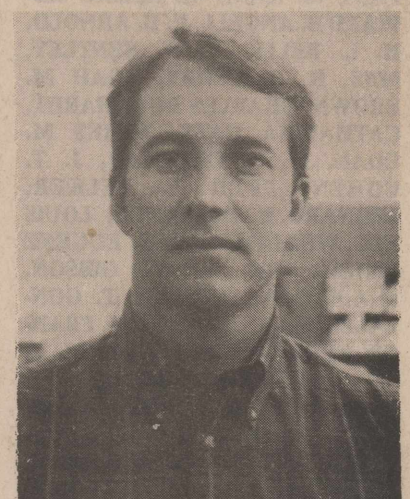

Wade Richardson has authorized *The Ozona Stockman* to announce his candidacy for school board subject to the May 6 election.

Wade and his wife, Jane, have lived in Crockett County since 1979. He runs the family ranching operation near Ozona. Richardson is a member of the Ozona United Methodist Church. He is also a director of Crockett County National Bank and Ozona Wool & Mohair Co.

Wade grew up near Rocksprings. He went to school in Sonora where he was a member of a state championship track team, a state co-championship football team, and graduated valedictorian of his class.

He entered Texas A&M University in the fall of 1973 and initially majored in chemical engineering. After a change of majors he graduated magna cum laude with a bachelor of science degree in animal science. Feeling that engineering and agriculture were not sufficient, Wade entered graduate studies and completed his course work towards a Master of Agriculture, agri-banking, in agricultural economics.

In filing for a position on the school board he stated, "Education has been of foremost importance to

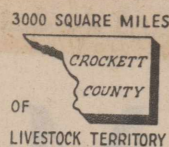

me, literally, not as long as I can remember. I know that my education has opened doors and presented opportunities that otherwise would not have been available. I would like the chance to do what I can to provide the same opportunity to my own children as well as to all the young people of Crockett County."

The Richardsons have three children. In the fall they will have Clay in second grade, Codi in first grade, and Kyle in kindergarten.

Pol. Adv. Fd. by Wade Richardson

### STATE CAPITAL HIGHLIGHTS

By Lyndell Williams  
TEXAS PRESS ASSOCIATION

AUSTIN—On the heels of the Railroad Commission's warning that Texas drilling is at its lowest since World War II, a bipartisan group proposes tax breaks to boost oil and gas production.

The bill offers a lifetime severance tax exemption for new field discovery wells completed before Sept. 1, 1991.

Though the tax break is offered at a time when the lawmakers are scraping the barrel for revenues, some officials think lost tax dollars will be exceeded by taxes from "offset" wells drilled in the discovered fields.

The chief sponsors are Railroad

### PUBLIC NOTICE

Notice is hereby given that an association of persons using the assumed name of **LOADING CHUTE** is making application for a permit to operate a Private Club located at 1305 Sheffield Road in Ozona, Texas. The Association is headed by Jim Farmer, President, Cynthia Bery, Secretary-Treasurer.

### REQUEST FOR BIDS ON TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for 15.148 miles of two asphaltic concrete pavement courses and appropriate raised pavement markers on IH 10 from Eureka Draw, E. to Ozona [W. End SH 163 Overpass] and from Ozona [W. End SH 163 Overpass] to 6.6 miles E. of Ozona, covered by I 10-3[76]357 in Crockett County, will be received at the State Department of Highways and Public Transportation, Austin, until 1:00 P.M., April 12, 1989, and then publicly opened and read.

This contract is subject to all appropriate Federal laws, including Title VI of the Civil Rights Act of 1964. Plans and specifications including minimum wage rates as provided by Law are available for inspection at the office of Joe W. Lane, Resident Engineer, Sonora, Texas, and at the State Department of Highways and Public Transportation, Austin, Texas. Bidding proposals are to be requested from the Construction Division, D. C. Greer State Highway Building, 11th and Brazos Streets, Austin, Texas 78701. Plans are available through commercial printers in Austin, Texas, at the expense of the bidder.

All abatement work must comply with EPA, OSHA, and State of Texas Regulations. 2c5

**REMEMBER OUR DEADLINE: 5 .m. MONDAY**

Commissioner Kent Hance, a Republican, Sen. Bill Sims, D-San drew the spending line for lawmakers, he set aside \$1.5 billion for pending tax lawsuits.

Now, the governor and lawmakers are urging him to free some of it to avoid new taxes.

Variouly, they argue that the state is positioned to win the lawsuits, that some lawsuits may linger for years, and that some have already been cleared up.

Bullock wants to hear first from Atty. Gen. Jim Mattox about the cases pending in the budget period.

Bullock, when all is said and done, probably does more to contain state spending than any other official.

### Anti-Crime, AIDS Tests

Senators heard panel debate on a bill to make it attempted murder for AIDS victims to knowingly expose others to the disease.

Other proposals would allow authorities to order AIDS testing for convicted prostitutes and drug offenders and those arrested for assault.

Police groups support the measures, but gay activist Glenn Maxey said the bill makes AIDS victims "scapegoats," a remark which infuriated Sen. Ted Lyon, a former policeman.

### Reserve Funds Sought

When Comptroller Bob Bullock continue pushing it, but some considered it a slap on the greedy wrist for Truan, who wants \$1.5 million for the school.

Truan was instrumental in bringing several South Texas colleges under the funding umbrella of the UT and A&M systems, as referred by Hobby.

### Other Highlights

Land Commissioner Garry Mauro urged eastern and western state land managers to unite for protection of environmentally sensitive areas.

Mauro also said he will announce in June as a candidate for attorney general.

Port Arthur Sen. Carl Parker is known both as the "Clown Prince" for his comic relief and as a pretty salty infighter, but his jokes aren't always understood. Two examples he tells:

At a hearing on his bill to test prostitutes and drug offenders for AIDS, a witness asked what they'd do with those who tested positive. Parker, deadpan, replied, "Kill them", which she didn't accept too kindly.

In another instance, he was lampooning the governor's no-new-taxes pledge by suggesting they match it with a no-new-students plan for public schools.

Elaborating, he said Texas could fire teachers as the classes graduated, and pretty soon, the illegal alien influx would stall because we would have our own uneducated labor force.

A woman getting off the elevator, misunderstanding his context, parted with "You're the meanest man I ever saw."

Depositors nationwide made record withdrawals from thrifts in January, about one-third of them made in Texas.

## The Newsreel

A rerun of "The Ozona Story" as gleaned from the files of "The Ozona Stockman"

### APRIL 14, 1960

29 years ago  
Corbett Smith, who has served as Ozona High School band director for seven years, this week submitted his resignation, which was accepted by the board.

Mr. Smith has accepted a position as band director and music instructor at Sul Ross State College in Alpine.

29 years ago  
Bobby Sutton, Ozona freshman at Baylor University, has been chosen for membership in Tryon Coterie social club on the Baylor campus. He is son of Mr. and Mrs. Glenn Sutton.

29 years ago  
The Ozona High School track team successfully defended its district title in Ozona stadium last Saturday afternoon as they swamped the balance of the league with a total of 178 points as compared to second place Sonora's 84.

29 years ago  
Mrs. P. T. Robison, who recently underwent surgery in a San Angelo hospital, was expected home sometime this week.

29 years ago  
Mrs. Lindsey Hicks was hostess to the Friday Bridge Club last Friday at the country club. The Easter theme was carried out in table accessories and decorations. High score went to Mrs. Hillery Phillips, second high to Mrs. Nelson Long, low to Mrs. Stephen Perner and cut prize to Mrs. Ben Robertson.

29 years ago  
Mrs. Mariana Ortiz was honored by a group of her friends on her birthday Sunday afternoon.

### NEWS REEL

#### APRIL 16, 1931

Mrs. Frank Taylor, pioneer West Texas citizen, was laid to rest here today following funeral services from the First Baptist Church, the Rev. M. N. Fulmer officiating, assisted by Rev. J. H. Meredith, pastor of the Methodist Church.

The Crockett county Commissioners Court this week destroyed by burning, as the law requires, \$60,000 worth of school building bonds recently retired as part of the deal in the sale of the new \$175,000 issue to the state school board.

The editor being flat on his back with a dirty mixture of tonsils and flue, this paper was gotten out by the efforts of the inhabitants of Ozona acting as assistant editors.

Miss Josephine Longley, daughter of Mr. and Mrs. Cam Longley, became the bride of Dr. Virgil B. Charane, local chiropractor, at a quiet wedding Friday evening at the Methodist parsonage in Junction.

## Crockett County Care Center News

by JoAnne Marshall

A toy egg with a little chick that popped up when the lid was opened put a smile on residents' faces Monday morning during Show and Tell. An adorable musical Easter bunny was also shown.

The residents' monthly birthday party was held Monday afternoon honoring Thelma Yaw, Minnie Karr, Juana Hernandez, and Tomasa Ramos. Hostesses for the party were Virginia Bishop, Maudie Couch and Alleane Sutton. Lovely corsages, compliments of Ozona Floral, were presented to the four honored guests. Pictures were taken, and a chorus of Happy Birthday was sung. The delicious cake was made by Polly. We would like to thank all the volunteers for a lovely party.

Juana Hernandez, Tomasa Ramos, Alice Ross, Nellie Harp, Adelaide Smith, Minnie Karr, Virginia Hoover, Consuelo Sarabia and Carmen Mendez were Tuesday morning's bingo winners. Candied rabbits and eggs were among the prizes given. Much appreciated volunteers were: Sophie Kyle, Georgia Kirby and Melinda Hokit. Thank you, ladies.

Residents spent an afternoon at the movies. Two films, compliments of Crockett County Public Library, "Australia of the 80's" and "A Gift From Derk", were shown. The film on Australia was very informative and educational while the other film touched the heart and brought back fond memories. Both films were thoroughly enjoyed.

Wednesday morning's ceramic workshop was really hopping. Rabbits of all sizes and shapes were being worked on. With the assistance of volunteers Ruthie Doris and Ruth Hester, residents were able to finish several in time for the Easter holidays. Residents attending were: Theo Burns, Hazel McDaniel, Juana Hernandez, Moriama Perez, Consuelo Sarabia, Frances Davis and

Srilda Senne.

Thank you to our volunteers. Morale was uplifted Thursday morning after visiting with beauty shop volunteers Vivian Hughes, Joann Williamson, Lola Rios, Bobbie Light, Yolanda Avila, Martha Tijerina and Audrey Smith. Thank you, ladies. We appreciate your time and talents.

Residents received spiritual uplifting Thursday afternoon by attending the mid-week Bible study conducted by Jim Gray of First Baptist Church and later the Spanish Hour of Praise presented by several members of Our Lady of Perpetual Hands Catholic Church.

Friday afternoon residents put their imaginations and creative abilities to work and decorated Easter bonnets. The hats will be judged Monday afternoon. Residents participating were: Theo Burns, Hazel McDaniel, Tomasa Ramos, Juana Hernandez, Consuelo Sarabia, Moriama Perez, Lucia Rios, Srilda Senne and Frances Davis.

This week's Sunday worship service was presented by Jim Gray of First Baptist Church.

We would like to thank the large number of visitors, Jim Gray and Maxine Brown for dropping by.

The aroma of freshly popped popcorn filled the halls Friday morning during bingo, and residents couldn't resist helping themselves to a bowl full of the tantalizing treat. Since Friday was St. Patrick's Day, all the prizes were green. Lucky winners were: Frances, Srilda Senne, Olive Berry, Emma Taylor and Moriama. Surely the luck of the Irish was with these ladies, for they won two games each except for Emma who won once and Moriama who won three games. We would like to thank Melinda Hokit for her helpful assistance during the bingo hour.

Tess Worthington goes over the hurdles during the Cub Relays March 17 at Lion Stadium.

## Thunderstorm precedes cold

A brief thunderstorm moving through Crockett County Sunday night caused loss of television reception in parts of town. Lightning hit a splitter near Crockett Automotive, causing the outage ac-

cording to Oscar Kost.

The storm was a prelude to a cold snap arriving late Monday, the first day of spring.

Snow flurries and temperatures in the low thirties came with Tuesday morning.

## Come out

By Charles Huffman, Pastor  
Faith Lutheran Church, Ozona  
Hope Lutheran Church, Sonora

JOHN 11:41-52

Jesus did many signs and miracles which challenged people to faith. But now there was one piece of evidence which was so dangerous that it required an immediate response from the Jewish Supreme Council. As they meet in emergency session, the air's charged with electricity against the threat to their ruling position - and the national security itself. The choices are: (1) Ignore Jesus, (2) Let Him go on, or (3) Do away with Him.

However, the threat's become so great that they can no longer ignore Him, for right under their noses - in Bethany, not two miles away - Jesus had raised a man named Lazarus from the dead and called him out of the grave after four days! Many of their own people had seen the corpse, and some had even smelled its stench. But now it walks and breathes, and a living Lazarus is evidence that cannot be ignored. In fact, this is so dangerous that not only must Jesus be done away with, but the evidence also covered up - as read in chapter 12: "But the ruling priests decided to kill Lazarus too, because he was the reason many Jews were going over to Jesus and believing in Him".

The provocative nature of Jesus Christ calls for a response - either to be wholeheartedly embraced or rejected in disgust. No one can remain neutral to Him who says: "Anyone who's not with Me is against Me". The Sanhedrin could no longer imagine they were dealing with an escaped mental patient or just another "messiah" who talked a good game. His presence makes

people feel uneasy and have sweaty palms. His provocative nature cannot be tamed by those who claim to be "religious". Of course, the world will allow a certain amount of religion, so long as it's in line with civil things ("Praise the Lord and pass the ammunition") to keep America strong, so long as it's in line with humanism and secularism.

But Jesus Christ on His own terms as Lord and Savior isn't so easily tolerated. He exposes the shabbiness of self-righteousness, the "filthy rags" or man's attempts to earn God's respect and acceptance. He offers salvation as a free gift - and that's offensive to man's old nature, which wants to do something to save himself. Jesus Christ offers forgiveness and fellowship with undeserving sinners, and calls them to committed discipleship of serving Him and their fellowmen. His words are more than just talk, as He says in chapter 6: "The Spirit makes alive; the flesh doesn't help. The words I spoke to you are Spirit, and they are life".

He still comes to people today - for years after His earthly life and ministry. His death on the cross and resurrection from the tomb, His ascension to the right hand of God the Father and the sending of the Holy Spirit; the writer to the Hebrews declared: "Jesus Christ is the same - yesterday, today and forever"! He confronts people today, calls them by name, and says to them from His Word: "COME OUT".

"Come out" of the bondage of sin and into the freedom of righteousness. "Come out" of the darkness of Satan's domain and into the Light of God's Kingdom. "Come out" of the shadows of death's valley and into the brightness of everlasting life's Mt. Zion.

And the choices are to "let Him go on", or "do away with Him". If we let Him go on, He can accomplish what He comes to do. Once He came to pay the price of our sins on Calvary's Cross. He comes in water and Word to claim people as His very own in Baptism. He comes by His Spirit and Word to create and build faith - an active faith which believes God's promises and is dedicated to proclaiming Him as Savior and King, as the crowds did on Palm Sunday.

His raising of Lazarus was proof that He is the Messiah of God, the Son who comes to give life - and also pointed to His own Resurrection on Easter morning. The evidence stands and cannot be ignored. So we

all face the question that the Sanhedrin, Pontius Pilate, and others have had to ask: "What will we do with Jesus?" LET HIM GO ON! Let Him go on to enter the very sanctuaries of our temples and cast out everything that's wrong. Let Him go on to fill us with the life and joy and love which comes from knowing God as our heavenly Father through the forgiveness of sins. Let Him go on - and in spirit let's go with Him this week to the Upper Room, to the Garden of Gethsemane, to the Cross of Calvary, to the empty tomb on Sunday morning; and to everlasting life in heaven.

What will YOU do with Jesus Christ?

The price of progress is change, and it is taking just about all we have.

\*\*\*\*

Public speaking is like drinking liquor. A few men can do it in moderation, but the majority don't know when to stop.

\*\*\*\*

What a great world this would be if people would spend as much energy practicing their religion as they do quarreling about it.

\*\*\*\*

If there are two sides to every question, why is there only one answer?

### A LIFT FOR THE WEEK

Be grateful for what you have, not regretful for what you haven't.

## Handwriting traits revealing to Ozona Women's League

Members of Ozona Woman's League met Tuesday, March 14, at Crockett County National Bank. Serving as hostesses were Kay Stewart and Vicki Stokes.

The program was presented by Virginia McCollum, senior partner of National Handwriting Consultants in San Angelo. She showed members how various personality traits and personal problems can be recognized in their handwriting. She then analyzed the handwriting of members Debbie Glasscock and Elizabeth Clark.

President Nancy Vannoy conducted a brief business meeting. Lee Allen presented a committee report concerning a memorial for Bonnie

Cameron. A letter of resignation was read from Sharon Forehand, who has moved to Lubbock. Elizabeth Clark announced that the next meeting will be held Monday, March 21.

Members present were: Lee Allen, Paula Bailey, Helen Bean, Tina Bean, Cynthia Berry, Cathy Carson, Becky Childress, Karen Childress, Elizabeth Clark, Lou Deaton, Debbie Glasscock, Jeannine Henderson, Karen Huffman, Benny Gail Hunnicutt, Camille Jones, Barbara Malone, Mary Jo Mason, Shane McKinney, Lorelei McMullan, Ronda Stuart, Carmen Sutton, Elizabeth Upham and Belinda Wilkins.

Having a party? Taking a trip? Share your news through The Stockman. Call 392-2551.

## League studies wine production

The Ozona Woman's League met Tuesday, Feb. 28, in the home of Cathy Carson with Lou Deaton serving as co-hostess.

The program was presented by Steve Hartman, manager of the University of Texas Surface Interests. He explained the wine production taking place on an experimental basis within the state. While having refreshments, members sampled different types of Texas wines.

Members present were: Lee Allen, Tina Bean, Tammy Bunger, Becky Childress, Debbie Glasscock, Janie Graham, Karen Huffman, Barbara Malone, Shane McKinney, Susan Slaughter, Vicki Stokes, Nancy Vannoy, Lou Whitley, Sammie Pierce and Sherry Scott, Helen White attended as a guest.

## Morgan-Dews make plans

Mr. and Mrs. Robert Morgan of Hereford announce the engagement of their daughter, Cindy, to Allen Dews, the son of Mr. and Mrs. Ted Dews of Ozona.

The wedding will take place June 23 at St. Anthony's Church in Hereford.

Allen is a 1983 graduate of Ozona

High School and a 1987 graduate of West Texas State University at Canyon. He is employed as a coach in the Hart school system.

Cindy is a 1985 graduate of Hereford High School and a 1988 graduate of West Texas State University at Canyon. She is an elementary school teacher.

## Book inspires floral designs

Mrs. Bill Row, La Rue, of Big Lake, a National Master Flower Show judge, presented a program of new creative designs in flower arranging at a recent meeting of Ozona Garden Club. Her unique designs were all inspired by Larry McMurtry's book, *Lonesome Dove*.

The meeting was held at Crockett County Civic Center with Sis Conner and Grace Williams as hostesses, assisted by Joycelyn Graves.

Marolyn Bean distributed programs for the annual flower show. It

will be a home show at the Bill and Mary Jo Mason home. The date is April 27, and the public will be invited.

Jan Frazier of Colorado Springs, Colorado, will conduct a flower preservation workshop on the 11th and 12th of April. Those interested are asked to contact Marolyn Bean.

The club's next meeting will be an April 10 pilgrimage to Mertzon to the Beth Nicholson greenhouse and to San Angelo to the Iris Patch.

# Lightning can be deadly

Lightning is deadly and annually kills more Americans than tornadoes and more than hurricanes and floods combined.

However, since lightning usually kills only one person at a time, lightning deaths do not attract as much attention as other weather-related fatalities.

"Lightning is particularly common with spring and summer thunderstorms in Texas, so individuals should take certain precautions during stormy weather," advises Dr. Gary Nelson, a safety engineer with the Texas Agricultural Extension Service, The Texas A&M University System.

"Quick thinking combined with common sense can go a long way in preventing lightning fatalities when thunderstorms are on the prowl," Nelson emphasizes.

He lists some "dos" and "don'ts" regarding lightning safety:

**Outdoors:**  
Do seek protection immediately. Safe places include a building that's protected from lightning; a large, steel-framed building; an enclosed automobile; and a large, unprotected building.

Don't touch any metal fences, wires, clotheslines or pipes. In a car, keep your hands off any metal or the radio.

Do get off your bicycle, golf cart, horse, tractor or motorcycle.  
Don't take cover under lone trees, taller trees in groves or in unpro-

tected shelters such as those on a golf course or camp ground.

Do head for a cave or under a cliff if you're hiking in mountains or other hilly areas.

Don't huddle in groups; spread out a few feet from one another.

Do head for a low spot—lower than ground level—such as a ravine, gully or ditch, but not one that's filling with water.

Don't remain near railroad tracks.

Do get off beaches, piers or docks and get away from pools, oceans and lakes.

Don't swim, wade or go boating; head for land at the first signs of a thunderstorm.

Do seek shelter in a clump of head-high trees or a thicket of small ones if you're stuck in a forested area.

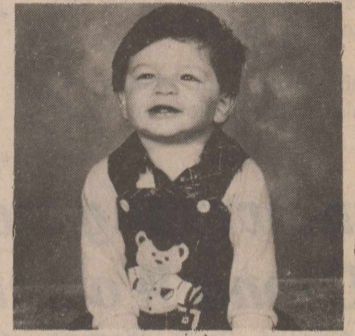

Don't stand in open spaces, since most lightning fatalities are people who are taller than their surroundings—a golfer in the middle of a fairway, a farmer in a field, a rider in open country.

Do immediately set down golf clubs, tennis rackets, fishing poles and other metal objects that can act as lightning rods.

**Indoors:**  
Do get away from appliances and metal fixtures such as refrigerators, ranges, sinks, bathtubs, air conditioners, washing machines, clothes dryers and television sets.  
Don't use the telephone except in an emergency.

# Polls shows public believes in reform

Four and a half years after the enactment of sweeping reforms in the state's public schools, an average of nearly 80 percent of Texas citizens believe the reforms have had a positive effect on education.

A survey commissioned by the Texas Education Agency and conducted in November as part of the statewide Texas poll also revealed that 56.1 percent of Texans favor increasing state taxes to improve equity in school finance, while 35.9 percent oppose higher taxes for educational equity.

The poll asked some 1,000 individuals whether specific reforms had a very positive effect, slight positive effect, no effect, slight negative effect or very negative effect on the education of students in Texas public schools.

The results showed 84 percent of Texans believe the TEAMS exit-level exam, a basic skills test required for graduation, had a very positive or slight positive effect on education.

Very positive and slight positive effects also were noted for the 22-24 class size limitation in kindergarten through fourth grade (80.1 percent); increased salaries and the career ladder for teachers (78.2 percent); annual appraisal of teachers (80.2 percent); the no-pass/no-play rule (80.6 percent); prekindergarten (79.9 percent); and the limitation of five unexcused absences to receive course credit (65.5 percent).

"We believe the reforms initiated by the Legislature in House Bill 72 and implemented by the State Board of Education over the past four and a half years have had a positive effect

on student learning," said Commissioner of Education W.N. Kirby, "but more important than the opinions of educators and policy-makers are the opinions of Texas citizens, whose tax dollars support public education. We are pleased to see that the poll shows Texas citizens agree that the reforms have had favorable results."

The poll also asked for opinions on several other possible actions to improve education that have been suggested by educators, professional organizations, governmental bodies and committees.

Results showed a significant majority of Texans believe a longer school year and longer school day would have a negative effect on education (59.1 percent and 69.9 percent, respectively). The poll indicated 84.3 percent of Texans think the addition of writing, social studies and science tests to the exit-level exam would positively affect education; 66.3 percent believe mandatory

kindergarten for five-year-olds would have a positive effect; and 67 percent think performance incentives for school districts would be positive.

Citizens split almost evenly on the question of whether student performance gains should be used as a basis for teacher pay with 42.3 percent believing it would have a positive effect on education and 41.5 percent thinking it would have a negative effect.

An almost-even split also was shown on the question of whether state funds should be allotted to districts to help pay for school construction; 44.9 percent said the state should provide construction funds and 47.1 percent said it should be left to the districts.

If funds are increased to improve equity, 70.2 percent of Texans say additional state funds should be allotted to all school districts while 25 percent said additional funds should go only to poorer districts.

## Sheriff's Report

Week Ending 3-21-89

### ARRESTS:

3-19 18-year-old Wolv Rutherford was arrested by THP on charges of driving while intoxicated and possession of drug paraphernalia. He remained in county jail Tuesday in lieu of bond.

3-19 Jesus Armando Coy, age 36, of Ozona, was arrested by THP on charges of driving while intoxicated and possession of marijuana. He was released the next day after posting bond.

### INCIDENTS:

3-17 Marilyn Moran of Ozona reported the theft of her car battery while the vehicle was parked at the Inn of the West. The car had been loaned to a friend at the time the battery was stolen.

3-18 Rusty Owens, coach at Reagan County Junior High, re-

ported that someone had thrown a rock and broken a window of one of the Reagan County School buses. This offense occurred while the school bus was passing South Texas Lubber Company. Juvenile officers are investigating the case.

3-18 Bill Williams reported the theft of a chain saw out of the back of his pickup while it was parked at the football field.

3-18 Sheriff's deputies are investigating the burglary of the Ozona Primary School. Nothing was found to be missing, but a window was broken. This case is still under investigation.

3-19 Max Morris reported the theft of a C.B. radio from his pickup. It is not known where the theft occurred.

3-20 Sandra Tambunga reported the theft of a child's bicycle from the 200 block of Bisente Street.

## Firemen answer few local calls

Three fire calls were answered by Ozona volunteers during the March 15-19 period.

A reported grass fire on Hwy. 190 proved to be a controlled burn near Eldorado when firemen responded Wednesday at 4:21 p.m.

## 1988 traffic fatalities increase

For the first time since 1984, Texas experienced an increase in traffic fatalities in 1988. Last year the traffic death toll was 3,395, an increase of 4.1 percent from the 3,261 deaths recorded in the state in 1987, according to DPS Director Col. Joe E. Milner.

"After several years of watching the number of deaths on our streets and highways steadily decline, we are certainly disappointed to see this increase," Milner said. "This is a reminder that we cannot be complacent about traffic safety."

Though the number of traffic deaths increased last year, the death rate, a calculation based on the number of deaths per 100 million miles traveled, stayed at the 1988 level of 2.2 deaths. This is the lowest mileage death rate in Texas history. "There are many factors involved in fatal traffic accidents and while we cannot point to absolute reasons for the increase we have seen in traffic deaths, we have some pretty good ideas," Milner said.

The DPS director said that 40 percent of all traffic fatalities in 1988 were alcohol or drug related.

"We know that 1,363 persons lost their lives last year in accidents caused by alcohol or drug abuse," Milner said. "Unfortunately, this represents an increase from the previous year."

Another factor in traffic fatalities is excessive speed. "Traffic deaths in rural areas of Texas, which included towns and cities under 5,000, increased by 10.5 percent last year," Milner said. "The death toll on rural interstate highways, in both 65 and 55 mile an hour zones, jumped by 20 percent. One of the primary reasons for this may well be the higher speed limit that now applies to rural interstates."

A third contributing factor to the fatality increase is the failure of motorists to use safety belts.

"Last year, 76.3 percent of persons killed in the front seat of cars or light trucks were reported as not wearing safety belts," Milner said. "This is an increase from 1987, when 75.3 percent of the fatalities were not reported as belted."

Texas has had a seat belt law since Sept. 1, 1984, Milner said, but the most recent statewide survey indicates only 60.6 percent of Texas motorists are using their belts.

Motorcycle fatalities were up 3 percent in 1988, with 295 operators or passengers dying in motorcycle accidents. Of those, 78 percent were not wearing helmets, Milner said.

I think the message comes through here loud and clear," Milner said. "If we are to reverse this increase in traffic deaths, and return to the pattern in the recent past of yearly decreases, we must realize that one of the quickest ways to get to a cemetery is to get in your car drunk, leave your seat belt unfastened and drive fast."

## Ozonan to compete in bar finals

Gregg Perry of Ozona is a member of the Texas Tech Law School team competing in the American Bar Association's 1989 National Counseling Competition in Baltimore, Maryland March 30 through April 2.

The three man team, including Drue Ann Davis of Lubbock and Christopher Sharkey of Tyler, won the regional finals of the competition this month defeating teams from the University of Texas at Austin, Baylor University, the University of Houston, Texas Southern University, South Texas School of Law, and St. Mary's University.

Charles Bubany, law professor

and faculty coach of the Tech team, said "What impressed the judges was the teamwork and the interviewing skills that our team possessed." The teams are judged on how well they respond to client needs and the providing of proper advice. Bubany said the tournament aids aspiring lawyers in developing counselors' skills.

Perry is a second year law student and a member of the Law Review at Tech. He was 1980 valedictorian of Ozona High School and received his Bachelors Degree in Communications from Trinity University in San Antonio. He is the son of Mr. and Mrs. Gene Perry.

Cast and crew of the UIL one act play, "The Bald Soprano", advance to area April 8. Ready for rehearsal are: Margaret Jones, Amy Graham, Cullen Curry,

Shannon Curry, Copie Davis, Cody Sutton, Stacie Winkley, Bruce Beasley and Terel Seahorn.

## Property rendition deadline March 30

March 31 is the deadline for local property owners to complete, sign and submit rendition forms to the Crockett County Appraisal District.

A rendition form is a document on which a property owner lists taxable property. The owner can also estimate the property's value on the form. It's filed at the appraisal district office in the courthouse annex at 908 Ave. D. Property owners who ask in writing for an extension before the deadline have 30 extra days to file the rendition.

Property owners who own or manage income-producing tangible personal property must file renditions. Examples of such property are business inventory, office furniture and fixtures, and business vehicles.

Filing a rendition is optional for other property owners unless the chief appraiser requires them to render their property. If so, the property owner will receive an explanation from the chief appraiser along with a rendition form.

Why file a rendition? "There are several good reasons," Tommy

## Bailey receives needlework awards

Billie Rose Bailey of Ozona received three awards for needlework at the 1989 crafts competition of the San Angelo Stockshow and Rodeo.

Mrs. Bailey was awarded a first place for her counted cross stitch entry.

A pieced quilt garnered a second place award for Mrs. Bailey, and her needlepoint entry earned an honorable mention.

Previously reported awards for Mrs. Bailey were incorrect.

Stokes, tax assessor/collector, said. The first is that rendering is a means for a property owner to record an opinion of the property's value.

Then, if the chief appraiser proposes a higher value for the property, state law requires the chief appraiser to notify the property owner. With this information, the property owner can decide whether to protest the appraisal district's value to the Appraisal Review Board.

Also, the property owner ensures that the appraisal district has the correct mailing address and property description.

Property owners who want to file a report of decreased value must do so by the March 31 deadline. Property owners who believe their property's value has decreased during the previous tax year for reasons other than normal depreciation should contact the appraisal district for a report.

Renditions, as well as reports of decreased value, are confidential. For more information, a property owner may contact the Crockett County Appraisal District at 392-2674.

Mr. and Mrs. David Cooke and children have been here on a spring break visit with his parents, Mr. and Mrs. Cleophas Cooke. Kaye and David and the children live in Walnut Springs.

HAVING A MEETING? Announce it in THE STOCKMAN. 392-2551.

## One act play advances

The Ozona High School one act play cast traveled to Big Lake March 16 and performed their presentation of Eugene Ionesco's "The Bald Soprano" at the District 6-2A OAP contest.

Competing against five other plays, Ozona pulled off a near flawless performance and was chosen as one of two plays to represent the district at area competition in McCamey April 8.

The play, "The Bald Soprano, is written by French playwright Ionesco, who specialized in writing scripts which poignantly highlighted the absurdity and pointlessness of everyday life.

The play centers around an evening at the home of Mr. and Mrs.

Smith, (Copie Davis and Amy Graham) who are entertaining their "dear friends", Mr. and Mrs. Martin (Bruce Beasley and Stacie Winkley). As the evening progresses, the Fire Chief (Cody Sutton) drops in and steals the show along with the Smith's maid, Mary (Margaret Jones).

At the district level, Ozona and Forsan advanced to area, with Eldorado as the alternate play.

Three members of Ozona's cast were chosen for the All-Star Cast. Copie Davis, Amy Graham and Margaret Jones all made the elite District 6-2A cast.

The next step in "The Bald Soprano's" quest for state will be April 8 in McCamey.

Texas A&M researchers develop process to improve juice flavors

COLLEGE STATION — Whether orange, grapefruit, pineapple, frozen or otherwise, juices may soon have an improved flavor and less acid, thanks to a new process developed by researchers in the Texas Engineering Experiment Station (TEES) at Texas A&M University.

SeparaSystems Ltd. of Santa Clara, Calif., will be marketing the technol-

ogy to food processors after signing an agreement with The Texas A&M University System.

"The emphasis of the new technique is to retain as much of the natural flavor as possible. There are no cooked flavors in the juice," said Dr. Ed Lusas, director of the TEES Food Protein Research and Development Center, where the technique was invented.

Lusas and James T. Lawhon, a retired research engineer, invented the patented technology, which requires less heating and consequently less energy. The new process involves using industrial membranes — fine sieves capable of separating compounds according to their molecular size. Lusas explained.

Texas A&M researcher says despite perceptions cancer deaths will rise

COLLEGE STATION — Contrary to popular conceptions, the number of cancer deaths will rise instead of decline in the future as today's post World War II boom generation — 77 million people or about one-third of the U.S. population — grows older, says an internal medicine specialist on the faculty of Texas A&M University's College of Medicine.

The general perception of the public is that cancer deaths will level out and lessen in the next 20 years because of advances made in cancer research and treatment, but the advances are being made almost exclusively in cancers of the young, says Dr. Jacob B. Green III.

Fewer people smoke today than did 20 years ago, but 35 percent of Americans do smoke. Smoking is on the decline among teenage males and there is a corresponding leveling off of men's death rates from lung cancer, he says. Green warns that teenage women are smoking more, and in 20 years women, who enjoyed a much lower risk of lung cancer, will die as frequently as men of the disease.

Green also suggests other ways individuals can lower their cancer risk:

- Eat sensibly and moderately from a balanced assortment of the basic food groups.
- Use strong skin protectants and limit exposure to the sun's ultra-violet rays, a form of radiation.
- Start periodic check-ups early in members of families with a history of cancer.

Easter services

(Continued from pg. 1)

will be part of the 7 p.m. service. The community is invited to an evangelistic campaign at Templo Bautista March 24-26. Jesse A. Hernandez of McAllen will hold the 7 p.m. meetings with a theme of Share Jesus Now.

Regular 9:45 Sunday school and 11 a.m. worship times will be observed Easter morning, said Rev. Carlos Venegas.

Holy Week activities at Our Lady of Perpetual Help Catholic Church include Mass at 7 p.m. Monday, Tuesday and Thursday. Good Friday Stations of the Cross will be at 2 p.m. with a communion service at 7 p.m. Easter Vigil begins at 8 p.m. Saturday; Easter Sunday service is at 11:15 a.m.

Confessions will be heard by Rev. Bill DuBuisson from 5 to 6 p.m. Monday through Saturday with the exception of Wednesday.

Faith Lutheran Church of Ozona and Hope Lutheran Church of Sonora plan combined Maundy Thursday and Good Friday services in Sonora at 8 p.m.

The normal worship schedule of 9 a.m. in Ozona and 11 a.m. in Sonora will be followed Easter Day, said Charles Huffman, pastor.

Church of God of Prophecy, pastored by Rev. Connie Marroquin, will follow its regular 10:15 Sunday school, 11:30 a.m. and 3 p.m. worship schedule on Easter Day.

Also holding to regular service times on Easter Day are Ozona Church of Christ and Calvary Baptist.

Bible classes for all ages begin at 9:45 at the Church of Christ followed by 10:45 worship and a children's Bible class at 6:30 p.m. The church is pastored by Ralph Moore.

Rev. Ken Eppler will conduct 11 a.m. worship services at Calvary Baptist. Sunday school begins at 9:45 a.m. and Bible study at 7 p.m.

No services will be held at Mt. Zion Baptist Church on Easter Day.

# Letters to the Editor

**EDITOR'S NOTE:**

The following letter has been presented to THE OZONA STOCKMAN for publication by a representative of the 17 Crockett Heights households whose members' signatures are attached.

**Objection of Crockett Heights Homeowners To Proposed Minimum Security Prison To Be Located At Former Radar Base, Crockett Heights, Crockett County, Texas**

To Kathryn Mayfield, County Judge, Sostenes DeHoyos, Commissioner, Prec. 1, Janet Hill, Commissioner, Prec. 2, Jim House, Commissioner, Prec. 3, Chuy Castro, Commissioner, Prec. 4.

We, certain owners of real property and homes located immediately adjacent to the property at Crockett Heights which has been and/or will be purchased by Crockett Detention Center, Inc., as the proposed site for a minimum security prison, hereby submit our strong objection to the location of same as presently proposed, and present for the Court's consideration the following:

At the Town Meeting on the subject of the proposed prison, which was held on Monday, February 27, in the opening remarks of Steve Williams, President of the Ozona Chamber of Commerce, he announced that the purpose of the meeting was to discuss the proposed minimum security prison which is to be located AT CROCKETT HEIGHTS. We are Crockett Heights. We are a residential community which cannot be separated from the detention center, should it be approved. It is the opinion of many of us who are residents of Crockett Heights that, should the commissioners approve this project, we stand to lose in many ways. For example, the loss of property value, the loss of the safety and serenity of our neighborhood, the stigma of being identified with living "out at the prison", and also the added burden of having to join with other residents of Crockett County in the payment of inevitably higher taxes in the event the prison becomes reality and possibly even still higher taxes to pay various liabilities which will certainly be incurred by Crockett County. Of course, our losses would be compounded should the facility be built and fail, which is certainly a possibility.

The only homeowner at Crockett Heights who is an investor in the Corporation, said at the Town Meeting that we should all be willing to "sacrifice" for the good of the County. And what will his sacrifice be? It will be close to nothing, since the dividend that is proposed to be paid immediately to the stockholders upon a contract with the County will reimburse each of them almost 100 percent for the investment they have made in the project. The only sacrifice that he could possibly make would be that of paying any additional taxes which were the result of the operation of the prison, and we would certainly share in that sacrifice. Potentially, he could stand to gain a great deal from our "sacrifice", or possibly, should the project not be approved, he could stand to lose the amount of his investment, which was not forced upon him, but

made of his own free will.

The boundary line of the prison would adjoin the boundary line of property owned by the closest residents, Mr. and Mrs. Don Kilgore. There would be zero distance between the property lines, to which we and they are vehemently opposed, and which has in the past since the project was first proposed approximately two years ago, caused them and all of us much mental anguish, and will continue to do so in the future if the Commissioners approve this project.

The proposed location of penal institutions of this type is presently causing monumental problems to homeowners all over the State of Texas. So much so, that State Representative Steve Wolens has introduced legislation, House Bill 300, to prohibit the placement of a correctional facility in close proximity (within 1,000 feet) to a synagogue, or other house of worship. This legislation is necessary to preserve the integrity and safety of our neighborhoods, statewide. The problem is certainly not unique to our neighborhood. This Bill is, as of this date, in Committee and will, in all likelihood according to assistants in Mr. Wolens' office, come up for a vote sometime during the last part of this month. There is much optimism for its passage as it is a statewide concern and has strong support. We believe that it would be the act of a responsible Commissioner's Court to await the outcome of the vote on this important issue before making a final decision. Although the effective date of the Bill is proposed to be September 1, 1989, a correctional facility must be, according to the Bill as proposed, in operation at this location "IMMEDIATELY BEFORE AND ON THE EFFECTIVE DATE OF THIS ACT" in order to be exempt from it. We would request that our Commissioners' Court not be a party to CDC's "barely getting in under the wire" to avoid having to abide by the laws of the State of Texas, should the Bill pass and become legislation.

We would also address the suggestion made by some that our safety has in some way been jeopardized by "transients from the Interstate" who spend the night in the empty buildings on the proposed site. According to residents, some of whom have lived on the location since it became a residential neighborhood, there has never in the history of the neighborhood (more than 20 years) been a robbery, or other violent (or nonviolent, for that matter) crime of any kind that anyone can remember. There has only recently been any complaint at all, and it was because of some mischievous neighborhood juveniles, and was of no serious consequence. Can we say that for many of the neighborhoods located in the town-proper of Ozona? We certainly feel a lot safer now than we would with 350 criminals housed (not even in cells, we have been told) in our "back yard". We might also mention that one of the Commissioners, when asked if that person would vote for the proposed prison if that person's grandchild lived at Crockett Heights, answered "probably not". We at Crockett Heights love our children and grandchildren, too. We are very much concerned for their safety and wellbeing, and are appalled that apparently the Commissioner does not share our concern since none of those children are related to the

Commissioner.

We request that the Court consider what would happen if the proposed site was located adjacent to any neighborhood in the immediate area of Ozona. We believe that the proposal would be turned down immediately -- probably not even considered, due to the fact that there would be such a public outcry from residents in the area. Our neighborhood and homes are just as important to us as any located in town and we, as taxpayers, expect the same consideration as other residents of Ozona.

Additionally, we have been told that there will be persons hired to work at the prison who will want to buy our houses. First and foremost, we don't want to be put in the position of feeling like we have to sell our houses -- we want to keep them and live there. Many residents have chosen to retire at Crockett Heights. Second, in the event someone did want to sell, if, as we have been told, so many of the jobs will be offered to Ozonans, why would they want to buy our homes? Most of them probably already own a home. If, on the other hand, we are going to have people brought in from other locations to work in the prison, isn't one of the proposed purposes, providing jobs for Crockett County Citizens, being defeated? Many prison employees probably wouldn't want to live next to a prison any more than we do. Also, if the salaries are as low as we have heard, (starting at approximately \$13,000.00 per year), they would not even be able to qualify for a mortgage loan for the amount we would need to receive, unless we just "take our loss and get out".

These are a few of our concerns - there are more, not the least of which is the water supply, which we have been told will not be adequate. Also, we are convinced that the project is not a good investment for Crockett County, at any location, as it has been presented. We feel that our concerns deserve serious consideration and we ask the Commissioners to vote AGAINST the project.

Dear Sir:

There has been much discussion on the detention center issue. I believe the public needs to be completely informed on all aspects before the vote comes before the four commissioners. Some of the main objections that raise the most concern to me on the financial side are as follows:

1. Crockett Detention Center, Inc., which presently owns 10.9 acres at Crockett Heights, hired a real estate appraiser from Hereford, Texas to value its land. His appraisal on the current market value was \$250,000.00. The sales price of the land is \$1,650,000.00. As soon as the certificates of participation are sold, Crockett Detention Center, Inc. will receive \$1,400,000.00 profit from the sale of the land.

2. Mr. Neville, the representative for CDC, Inc., stated at the Civic Center meeting that part of that money would be used as a dividend to the stockholders of the corporation. In other words, as soon as the transaction is completed, the investors in Crockett Detention Center, Inc. will make a nice profit.

3. The charge for legal fees is \$83,775.00. This amount needs to be broken down as to exact specifics as to amount of legal time, preparation of documents, etc. for each different segment of the project.

4. The corporation called Diversified Municipal Services, Inc., which is the company that will actually own the prison and then lease it back to the county is receiving \$134,041.00 for handling the transaction. What exactly do they do to earn this money? All we know is that they prepared the lease agreement and then will get a brokerage company to sell the Certificates of Participation. Explain to the citizens of Crockett County exactly how the hourly labor charges amount to \$134,041.00.

5. The brokerage company that sells these 1,240 Certificates of Participation valued at \$5,000.00 each, receives \$117,286.00 for selling them. Other nationally recognized securities companies have stated that the usual fee for selling these certificates of participation is \$17.00 per certificate. At that rate, 1,240 certificates should cost about \$21,080.00 to sell. Why are we being charged an additional \$96,206.00.

6. \$497,628.00 from the sale of these certificates is for capitalized interest and is being allocated the first year in advance. In other words, approximately 8% of the project costing \$6,232,917.00 is going to be set aside to pay interest the first year.

7. \$530,803.00 is being set aside in an escrow account that will be refunded to the county in 21 years, if the Detention Center does not default. I wonder what will happen to the money in case there is a default?

The whole scenario of the project reads like this:

Crockett County votes to accept the agreement with DMS to issue \$6,232,917.00 in Certificates of Participation to build a detention center. The certificates are taken to a broker and placed on the open market for sale. After they are sold, DMS retains the money in a supervised account. They then buy the land from Crockett Detention Center, Inc. DMS then proceeds to renovate all buildings for approximately \$3,000,000.00 and use the rest of the money as stated in the previous seven categories.

When the project is complete, the county signs a 21 year lease agreement with DMS and agrees to pay them \$57,000.00 a month for the prison for 21 years. The county then leases the prison to Crockett Detention Center, Inc. to run it and hopefully pay the county \$57,000.00 a month for it plus \$1.00 per prisoner per day.

Supposedly, the county allocates \$700,000.00 in the budget each year and is only liable for that amount of loss if Crockett Detention Center, Inc. cannot meet the \$57,000.00 a month lease payments. If a default occurs, DMS spokesman, Mr. John Grice stated that the trustee, who in effect represents the people who bought the certificates of participation, would step in and proceed to either sell the facility or manage it.

My problems with the project boil down to the following major areas.

1. The outrageous profit on the land at the county's expense.
2. The seemingly exorbitant costs at the front end of this project.
3. The liability of the county as previously discussed, will be to pay for all cost overruns in the construction of the project.
4. The liability of the county on all inmate lawsuits including civil rights, personal injury, etc. must be considered. The Crockett Detention Center, Inc. will have a \$1,000,000.00 insurance policy, but

what about one or a combination of suits against the county that total more than \$1,000,000.00.

5. Crockett County is entering into a 21 year lease with a closed corporation in Lebanon, Indiana called Diversified Municipal Services, Inc. and entrusting them to sell \$6.2 million worth of certificates and oversee the construction of the project and we don't even know who is in the company.

6. We are relying on Crockett Detention Center, Inc. to run the prison efficiently and make the \$57,000.00 monthly payments yet, we don't know who the stockholders of this corporation are or anything about their expertise in managing a prison.

7. The county commissioners have not had an outside attorney read the proposal and give the court a decision on the legality, liability, etc. of the lease.

8. Why is the county willing to risk \$6,200,000.00? Is it for the creation of 40 jobs of which most, such as guards, will be hired from outside Crockett County due to the requirement of certification. Is that number of jobs worth the risk?

9. Has an environmental impact study been done to ascertain what problems might arise through the construction of this prison?

10. Has a feasibility study been performed to see what the financial picture will be on prisons 5 years from now...10 years from now?

11. Both of the corporations Crockett County is dealing with have stated they have very little or no net worth.

12. Neither corporation is putting any money into this \$6.2 million project.

13. Do the citizens of Crockett County actually want a prison?

I know all of our citizens are for more jobs, more industry, and overall progress for Crockett County. No one cares if someone makes a profit, as long as it is not at the county's expense. Before we spend \$6.2 million, let's be sure we are doing the right thing. There seems to me to be too many unanswered questions. Talk to your commissioner and voice your opinion. Let's wait on a vote until we get more facts.

## Lion netters repeat 2nd place finish

by T. C. Tucker  
STOCKMAN SPORTS

For the third time in four weeks, the Ozona netters finished second in team standings, most recently at last weekend's Sonora tournament.

"We had another fine team effort," Coach Jerry Tucker said. "The kids are learning how to survive by focusing on one point, one game, one set, one match at a time."

Travis Burks and Tommy Tucker won five straight matches on the way to their second consecutive tourney championship.

"Travis and Tommy showed great mental toughness," Coach Tucker said. "and withstood pressure situations to outlast three tough opponents on the second day of the

tournament."

Summer Shacklette pounded her way to the finals in girls' singles before falling to Eldorado's Katie Hardy in a three-set decider, 2-6, 6-4, 2-6.

"Summer's work to improve her net game finally paid off," Tucker pointed out.

Jennifer Colin and Janet King repeated as consolation champions in girls' doubles. After losing their opening round, the duo won their next four to claim the title.

"Janet and Jennifer again provided the big win necessary in our second place finish as a team," Tucker said.

Ami Sewell followed the lead of Colin and King by rebounding after her first-round loss; however, in the consolation finals, Sewell lost a

three-set match to finish as runner-up.

"Ami showed gritty play for a freshman and almost proved victorious."

Ozona had three boys' singles entries. Scotty Burks and Alex Sanchez were eliminated in second-round play while Cody Morris reached the consolation quarterfinals before losing there.

Boys' doubles duo Gary and Joe Perez lost their first match but responded with a victory and advanced to consolation quarters where they lost.

Both the doubles team of Katie Sellers and Stacie Winkley, and Carol Easley and Elvia Vasquez won their opening matches but lost in the round of 16.

"I was proud of our efforts and sportsmanship," Coach Tucker said of the team's performance.

The Netters' next stop arrives March 31, April 1 when they travel to Mason in preparation for district play April 6 and 7.

## Cubs place in own meet

by J. L. Tucker  
STOCKMAN SPORTS

The seventh grade Cubs placed fifth overall in their own track meet held here Friday in Lions' Stadium.

Mike Fay ran the 110 intermediate hurdles in 20.38 which led to a second place finish. Fay also long jumped 15'10 1/2". He jumped far enough for third place. High jumping 4'8" Fay finished fourth.

Finishing fourth in the 600m run, Gerold Ortiz also finished fourth in the 1200m run. Keith Miller finished fifth in the 200m low hurdles which he ran in 33.87. Capturing fifth in the 300m dash David DeLaRosa ran it in 46.34. Sammy Hinoztroza ran the 200m dash in 28.74 fast enough to claim a fourth place finish. He also placed sixth in the 100m dash.

The 400m relay team finished fourth with a time of 54.35. The team was made up of DeLaRosa, Fay, Hinoztroza, and Miller. Thomas Galan, Ortiz, Gabriel Perez, and Jimmy Perez took fifth as they ran the 1200m relay.

With a total of 48 points the seventh grade finished fifth overall.

Aaron Carroll ran the 200m low hurdles in 29.53 which led to a first place finish. Carroll also finished fifth in the 110m intermediate hurdles. Mike Kenison threw the discus to a fourth place finish. With a time of 43.11 Mark Perez ran the

300m dash to a fourth place finish.

The 400m relay team finished up sixth. Running on the team was Carroll, Kenison, Chad Upham, and Jason Yeager. High jumping 5'4" Eric Sanchez was beat out by Chris Jeffery of Crane who set a new record of 5'11" Sanchez settled for second. In the 600m run Sanchez finished sixth.

Finishing up with 31 points the Cubs claimed fifth overall.

Jimmie Lott would like to be your druggist.

## Cubettes win Ozona Track trophy

by J. L. Tucker  
STOCKMAN SPORTS

The Cubettes participated in their track meet when the eighth won with 141 points and the seventh claimed fifth with 55 points.

Jana Cotton ran through the finish line in 30.78 which led to a first place finish. Petra Rios leaped long enough in the long jump to claim second place. Rios also ran the 100m dash in 13.89 which was good enough for third.

Running with a time of 2:01.48 Maribel DeLaGarza finished third in the 600m run. Angela Crawford of Iraan set a new record in the 300m dash which April Graham ran. She finished sixth with a time of 52.96. Cotton, DeLaGarza, and Teri Harms ran the 800m relay in 2:03.08 fast enough for second. The 1200m relay team finished fourth. Cotton, Graham, Harms, and Tiffany Vargas made up the team. They finished fifth overall with 55 points.

Jennifer Payne and Kristal Cervantez each won a first place ribbon. Payne high jumped 4'8" while Cervantez ran in the 100m dash with a time of 14.15. Julie Childress jumped 4.8" to claim second place. Cassie Montgomery finished fifth in the 100m dash.

Myra Sanchez leaped 13'10 1/2" when she claimed second in the long jump. Sanchez placed third in the 300m dash. S. Daughtery of Sonora broke the record 47.22 in this event. The new record is now 45.88. Tanya Daniels finished fourth in the same

event.

Cervantez leaped 13'9 3/4" in the long jump, far enough for third place. She placed third in the triple jump. Montgomery long jumped far enough for sixth place. Triple jumping 27'11" Montgomery took second. Belia Vasquez threw the discus to a third place finish. Michelle Gonzales placed fifth while Hollie Williams finished sixth in the discus. Throwing the shot put 24'5" Vasquez placed third. Gonzales finished fourth when she threw it 24'4 1/2".

Running the 100m low hurdles in 19.85 Tess Worthington finished fourth. Daniels finished six in the

same event. Williams finished third with a time of 30.26 in the 300m dash. Payne claimed fourth while Montgomery finished sixth.

The 400m relay team captured third with runners Cervantez, Payne, Sanchez, and Williams. The same four ran the 800m relay in 2'01.66 fast enough for second. Daniels, Barbara Eppler, Montgomery, and Connie Perez were satisfied with their sixth place finish in the 1200m relay.

Finishing with 135 points the Cubettes finished first overall at their own track meet.

The teams next meet will be held in Rankin on April 1.

## Lady golfers lead in district

by Copie Davis  
STOCKMAN SPORTS

The Ozona Lady Lion golf team traveled to Stanton Saturday, braving near freezing temperatures and gusting winds to forge ahead of the Stanton Lady Buffalos and take the lead in the District 6-2A tournament after two rounds.

The Lady Lions posted a score of 403 on the wind-chilled Stanton Country Club golf course to pull out of a tie with the host team after the first round of the tournament in Ozona last week.

Leading the Lady Lions in scoring on the day was Gina McCollum who fired a blistering 82. McCollum now leads the tournament.

Julie Carson posted a solid round of 93 on the day to secure her place as the third medalist in the tournament after two rounds.

Missy Bishop, who just joined the team last week, shot an impressive 111 for Ozona's third score, and Christy Cotton's 117 rounded out the Lady Lions' scoring.

Also playing for the Lady Lions were Terel Seahorn with a 121, Courtney Childress with a 126 and

Marandy Keith, who overcame several injuries to her hands and arms following a vehicle accident earlier in the week, to post a gutsy 129.

The Lady Lions' next round will be played at Comanche Trails Golf Club in Big Spring on March 30.

To all customers of Southwestern Bell Telephone Company:

### Public Notice

On December 22, 1988 Southwestern Bell Telephone Company filed with the Public Utility Commission of Texas several proposed changes in its Universal Emergency Number Service (911) Tariff. These proposals include:

- deletion of the current regulation which restricts E911 Service to a single exchange area which has 50,000 exchange access arrangements or more;
- revising the tariff text to clarify that costs associated with network rearrangements required to accommodate the 911 code may result in additional charges to be determined on an individual case basis;
- a text addition to clarify that telephone company provided Public Safety Answering Equipment is required when a service includes Automatic Location Identification (ALI); and
- a text addition to explain emergency ringback.

The application is styled Docket No. 8565, Application of Southwestern Bell Telephone Company for Approval of Amendment of Universal Emergency Number Service (911) Tariff. It is anticipated that Docket No. 8565 will be evidentiary in nature.

The public may intervene or participate in this docket but it is not required to do so. Anyone who wishes to intervene in this proceeding or comment on the relief sought by Southwestern Bell Telephone Company should contact the Public Utility Commission of Texas, 7800 Shoal Creek Blvd., Suite 400N, Austin, Texas 78757 or call the Public Utility Commission Information Office at (512) 458-0010 or (512) 458-0221, teletypewriter for the deaf. Motions to intervene in this proceeding must be filed with the Commission's filing clerk by April 12, 1989.

An old fashioned Fourth of July complete with a visit from Davy Crockett, entertained those attending open house at Ozona Intermediate School March 16. Standing are Dana Bishop, Eli Hernandez, Casey Upham and Brandon Adams.

Photo by Scotty Moore

### Intermediates stage play for open house

Strains of "Davy Crockett, King of the Wild Frontier", greeted citizens and visitors to the frontier town of Maysfield as they gathered for a big Fourth of July celebration Monday night in the Intermediate cafeteria. A cast of 40 students entertained family and friends as they romped through the musical featuring Congressman Davy Crockett played by Casey Upham. Old fashioned oratory by Judge Swayne, played by Brandon Adams, was interrupted by a visit from Mike Fink (David Browne) and a house fire

caused by exploding fireworks. "Thank the Lord we have democracy... We'll do the best with what we got," sang Davy as the play neared its end. Additional cast members were: Patrick Sanchez as Georgie Russell, Dana Bishop as Carrie Ann, Eli Hernandez as Gurney Ledbetter, Zack Harrison as Harley, and members of Mike Fink's crew, John Childress, Samuel Fuentes, Slate Williams, Adam Carol, John Usener, Scottie Killiam, Ray Fierro, Chad Bruns and Robert Gill.

The parts of townspeople were played by: Jessi Alvarez, Cristina Cervantez, Chrissy Keith, Stephanie Madris, David Martinez, Martin Martinez, Nathan McCarley, Erica Moran, Lori Tambunga, Sandra Tijerina, Vanessa Tobar, Tara Wilkins, Dana Berry, Lynn Haire, Cody Landon, Lupe Lianas, Josie Montemayor, Joyce Perez, Sandra Perez, Paul Perner, Chuck Preddy, Emily Stewart, Jessie Turner and Sylvia Yruegas. The play was performed under the direction of music teacher Sarah Hignight.

### Junior high boys place at Iraan meet

by J. L. Tucker  
STOCKMAN SPORTS

The Ozona Junior High boys traveled to Iraan March 10 to compete in their first track meet of the year. The seventh grade placed fourth while the eighth placed third. Micheal Fay ran the 110 meter intermediate hurdles in 20.56 good enough for first. Fay high and long jumped taking second in both events. The 440 relay team consisted of David DeLaRosa, Fay, Sammy Hinostraza, and Keith Miller who ran to a third place finish in 52.92. DeLaRosa, Fay, Hinostraza, and Gerold Ortiz captured fourth in the 1200m relay. Miller ran the 110m intermediate hurdles and low hurdles placing sixth in both events. Bringing home two more ribbons Hinostraza placed second in the 200m dash and sixth in the high jump. Ortiz captured first in the 1200m run while Gabriel Perez took sixth in the same event. Perez also took fourth in the 1200m run. DeLaRosa

placed fourth in the 200m low hurdles. Finishing with 76 points, the Cubs placed fourth overall. Mike Kenison threw the discus far enough to claim second place. Kenison ran with Aaron Carroll, Chad Upham, and Jason Yeager to a fourth place finish in the 1200m relay. Running in the 200 low hurdles, Kenison finished sixth. Running in the 300m dash and the 110m intermediate hurdles, Raul Rico was third in both events. Andy Borrego, Mark Perez, and Eric Sanchez ran with Rico in the 1200 relay to a fourth place finish.

Finishing third in the 600m run Sanchez was proud to bring that ribbon home. Carroll ran to a third place finish in the 110 intermediate hurdles and fifth in the 300m dash. Running in the 200m dash and the 100m dash, Steven Leal brought home a fifth and a sixth. Alonzo Hernandez brought home a fifth in the shot put. Both fellows placed sixth in their event which were Borrego running in the 1200m run and Chad Upham in the 200m dash. The Cubs placed third overall with a total of 58 points.

**Texas A&M arrange a high-technology for toxic cleanup**  
COLLEGE STATION — Offspring from a high-technology "marriage" arranged by matchmakers in the Texas Engineering Experiment Station (TEES) here could help solve a billion-dollar toxic cleanup problem for Texas industry. Funds supplied by the Denver-based Captiva Capital Ltd., will allow the Texas A&M researchers to develop their experimental reaction into an industrial-scale process. Currently, chemical incineration is the only effective way to dispose of PCBs. The new reaction uses superoxide ions (oxygen molecules with an additional electron) to convert the PCBs into harmless substances. "Disposal of PCBs and other hazardous wastes represents not only a health benefit, but also a major new industry for Texas," said Dr. Donald Sawyer, research group head and Texas A&M chemist.

### Lions advance in district golf play

The Ozona Lion golf team picked up five shots on the Stanton Buffalos in Big Lake last Saturday to inch ever closer to second place in the district after two rounds of play. The Lions put together a five-man total of 351, which outplayed Stanton's total of 356. Ozona was led by the duo of Copie Davis and Shane Pridemore, both of whom shot rounds of eight over par 80. Following Davis and Pridemore were Daun Williams with 92, Wade Cypert and Fleet Worthington with 99, and Bryan Hensley, playing as an individual medalist, with 84. In the medalist race, Davis' total of 158 puts him in third place, while Pridemore is 10 shots back in sixth. Hensley's total of 185 has put him in ninth place. Leading the tournament in team standings is McCamey, who also has the individual medalist leader in Tim Segura who stands at 147. Behind Segura is Forsan's Bryan Stone at 150. The next round of district play will be March 30 at Stanton. There will be no tournaments this weekend due to several schools in District 6-2A taking their spring break.

**Crockett County Public Library**  
by Louise Ledoux

Crockett County Public Library will be closed Friday, March 24, for the Easter holiday.

**MAGAZINES AND NEWSPAPERS ON MICROFICHE**

Crockett County Public Library now has 30 magazines and four newspapers in hard copy and on microfiche to keep you on top of all the latest news. Our magazines range from *Business Week* to *U. S. News & World Report* and everything in between. We have the *New York Times Current Events* and *USA Today* newspapers on microfiche. This system is very time saving and space saving. The collection is all indexed for ease in finding any information you may be interested in. We have a microfiche reader and a copier available for our patrons to use. The copier can print out a hard copy of any article quickly and easily. Please come by the library for a demonstration of how the microfiche issues and readers work.

Come Check It Out!

**Home business shortcourse set at Tarleton State April 7-8**

A Home-Based Business Shortcourse will be held at Tarleton State University in Stephenville on April 7-8.

The shortcourse will begin Friday afternoon with a tour to several home-based businesses in the area with a reception following the tour. Saturday's program will include a keynote speaker, luncheon, concurrent sessions dealing with the aspects of home-based business by a variety of speakers, and a summary session. The shortcourse is sponsored by the Texas Agricultural Extension Service, Small Business Development Center and the Home Economics Department of Tarleton State University.

Tetra Ulmer, County Extension Agent, or Glenda Trimble, District Extension Director, Rt. 2, Box 1, Stephenville, TX 76401, (817) 968-4144.

Remember: Kite flying should be fun, please keep it safe.

Sandy Stark and Grace Williams arrange a display of dolls for a Women's League program. Mrs.

Williams' collection has been accumulated over a span of years. Dolls brought for the program by

Mrs. Stark belong to the collection of her daughter, Melody.

Photo by Linda Moore

## Doll hobby brings lifetime enjoyment

by Jacquelyn Shacklette

Most little girls like dolls, and Grace Williams was no exception. Throughout her life she has maintained her love for dolls, building a collection any little girl would envy.

"It's not a second childhood," Grace said. "It's just an extension of the first." She laughs when she says it.

Grace still has her first doll, a beautiful toddler with bisque head and hands. The doll's body is made of kid leather with joints neatly provided by little guessets. Her hair is golden and she has "Germany" and a number embossed across the back of her shoulders.

"I've always loved dolls, but as a child I didn't have many," Grace said. "A neighbor would sometimes allow me to hold her doll if I would sit in a chair."

Then for her fifth birthday the beautiful, golden haired doll came, a gift from her parents. One day Grace, with her doll in her arms, ran to greet her father as he was returning from work. She fell and the doll's head was shattered.

Although the family did not have much money for frivolities the doll was replaced with another just like it. That doll now occupies a prominent position in Grace's collection.

Grace's husband, Ben, also contributed to what was to become more than 60 dolls when he brought back two dolls from New Mexico, solemn Indians about 11 inches high carved from solid blocks of wood.

Her children did not escape their mother's love of dolls just because they happened to be boys. Stan, now of Pittsburgh, PA, and Jim, who lives in Lancaster, TX, both had dolls to play with when they were preschoolers. Ben objected to the boys receiving new dolls as they grew to school age.

After a couple of cloth dolls were literally worn out, the boys received toddler dolls to play with. These dolls were boys, of course.

Years later when Jim and his wife, Kathleen, had a daughter, Grace was more able to indulge her love for dolls.

"When I bought my little granddaughter a doll, I bought one for myself," Grace said. "Twenty years ago I saw a Snow White by doll designer, Madam Alexander. I thought she was so pretty I bought her."

She continues to add to granddaughter Karlyn's collection and to the collections she has helped some of her nieces begin. Now Stan and his wife, Judy, also have two small children and Grace is looking forward to buying dolls for them too.

When Jim and Kathleen's son, Neil, was very small, Grace took the old boy doll belonging to Jim and told Kathleen to take it to a doll hospital in Dallas and have a tear in its body repaired. Then Neil would have his daddy's doll to play with.

Later Kathleen reported that the proprietor of the doll hospital said "don't you dare let a child play with

that doll." Its value had increased over the years.

Most of Grace's dolls are 15 inch Madam Alexander designs. The daughter of Russian immigrants who lived in Germany for a few years before coming to the United States, Madam Alexander is in her 90s now, but still designing new dolls.

Madam Alexander's interest in doll designing came about through her father's doll and bric-a-brac repair business where she learned an appreciation for dolls.

Some of Grace's dolls are made by the Effanbee Company. This company was founded by two Germans who immigrated to the United States.

One of the most unusual in the collection is a three-faced doll who is a life-sized babe wearing a christening gown and cap. The cap covers two of the faces. The head can be twisted to show awake, sleeping, or crying faces. That doll was a gift from daughter-in-law, Kathleen.

"My family and friends have added to my collection by giving me dolls on my birthday and for Christmas," Grace said.

Changes occur in the doll world too. Some series are discontinued while others are begun each year. Several by Madam Alexander will be discontinued this year.

"Some I have, and some I don't," Grace said. "It's challenging to try to find dolls that have been discontinued."

Effanbee dolls are being manufactured in China this year instead of in the United States.

"I think there's a difference in their features," Grace said.

Sixty-plus dolls take up quite a bit of space. An etagere is home to some of the dolls. A hall linen closet was converted to a dolls' home by adding more shelves and putting glass panels in the doors.

Grace's advice to beginning collectors is to collect the small eight inch dolls. Then one wont have to consider adding on another room to accommodate them.

"I don't collect them as an investment," said Grace, although some of them have increased in value through the years.

Her pleasure in her hobby is apparent when she says simply, "I just love dolls."

### Happy Birthday

March 23 - Mark Sellers, Brian Cooke  
March 24 - Vicki Stokes, T. C. Tucker

March 26 - Steve Hubbard, Pife Berrogo, Juan Molina Jr.

### Happy Anniversary

March 24 - Mary and Len Hillman  
March 28 - Billy and Judy Reagor

### Card of Thanks

Words are inadequate to express our appreciation for the many acts of kindness shown to our family since my illness began in February.

Thank you so very much for all

the food, flowers, cards, calls, visits (and non-visits) and especially your prayers.  
Thanks again.  
Sandra, Pleas, Martin and Julie

### Card of Thanks

We would like to say thanks to each and everyone who helped celebrate our wedding day and thank you all for all the gifts we got.

May God bless each and everyone who came from Ft.

Worth, Rocksprings, Leakey, San Antonio and all our family and friends from Ozona.

Thank you,  
Jerry and Viola Perez

### Card of Thanks

Members and leaders of Girl Scout Troop 24 would like to thank Circle Bar 76 Auto/Truck Plaza Inc., Ozona Floral, Crockett County National Bank, Crockett Funeral Home and

Elizabeth Upham Insurance Agency for making possible their donation of cookies to Helping Hands for the Elderly and Ozona Day Care Center.

## High school lists honor roll

The following students made the honor roll for the fourth six weeks of the 1988-89 school year. Grades for band, P.E., athletics, photography, driver education, office and library aides do not count toward the semester average. A student must have a 90 or better academic average to be on the honor roll, and must not have any grade below an 80.

### 12th Grade

Travis Burks, Julie Carson, Elaine Casey, Shane Cooper, Kriss Corley, Shannon Curry, Copie Davis, Javier Dominguez, Idalia Fierro, Oscar Galindo, Dottie Gonzalez, Jose Gutierrez, Regina McCollum, Blanca Quiroz, Benjamin Rios, Rita Rios, Woly Rutherford, Summer Shacklette, Cody Sutton, Robby Tambunga, Tommy Tucker, Cindy Villar-

real, Adrian Wilson, Stacie Winkley

### 11th Grade

Tammy Arrott, Bruce Beasley, Richard Burger, Scotty Burks, Janina Carrizales, Marisol Castillo, Chris Denman, Judy Fierro, Amy Graham, Margaret Jones, Jacob Marroquin, Robin Pesson, Andrew Stokes, Terry Vargas, Daniel Vasquez

### 10th Grade

Selena Galindo, Angel Hernandez, Lonnie Martinez, Domingo Perez, Kelley Porter, Gilbert Rico, Elva Vasquez

### 9th Grade

Adam Alba, Haley Carson, Cullen Curry, Erika Kenison, Mario G. Mendoza, Willie Perez, Mark Ramirez, Katie Sellers, Ami Sewell, Randel Wilson

### Notice of REWARD

I am offering

**\$500 Reward**

for apprehension and conviction of guilty parties to every theft of livestock in Crockett County - except that no officer of Crockett County may claim the reward.

**Jim Wilson**  
Sheriff, Crockett Co.

**KYXX seeking replacement transmitter**

Ozona's own KYXX radio station should be back on the air within a month if a replacement transmitter can be found.

"The KYXX transmitter was an old model," said Walton Foster, president of Foster Communications in a telephone interview last week. "It just decided to give up the ghost."

The cost of repairs to the present transmitter would exceed that of replacement, according to Foster.

"We are looking for another transmitter right now and hope to have it

back in operation in a month or so," Foster said. "My intention at this point is to go ahead and replace the transmitter."

The KYXX transmitter failed during the first week of March. It was removed by station engineers March 6.

Foster Communications also owns KIXY-KAYJ radio in San Angelo and KHOS AM-FM in Sonora as well as KYXX in Ozona. The San Angelo radio stations are presently in the process of moving to much larger facilities.

**Nursing homes may maintain status**

Nursing homes are "under no immediate threat" from a pre-admissions screening requirement aimed at Medicaid applicants/recipients says an Austin attorney.

Jim Martin, representing The Texas Health Care Association, filed suit in January requesting temporary injunctive relief based on a complaint that both the Secretary of Health and Human Services and the State of Texas have failed to fulfill their responsibilities under 1987 statutory amendments to Medicaid laws affecting the nursing home industry.

U. S. District Judge James R. Nowlin issued an order granting an injunction upholding the plaintiff's motion February 21.

Pre-admission screening as required by the Omnibus Budget Reconciliation Act passed by Congress in 1987 was designed to end inappropriate placement of mentally ill and mentally retarded individuals in nursing homes not equipped to meet their special needs.

Provisions of the act require that the Secretary develop minimum pre-admission screening criteria no later than Oct. 1, 1988, for states to use, and that states have a screening program in effect by Jan. 1, 1989, whether or not the Secretary develops the minimum criteria.

Failing to fulfill these responsibilities has resulted in "chaos and confusion" within the nursing home industry, argued the plaintiffs during the hearing.

Lack of development of more than draft criteria circulated to the states, no period for public comment and absence of publication in the Federal Register were pointed out by plaintiffs in requesting the injunction.

Although the State claimed during

the Jan. 27 hearing that it has complied with OBRA by retroactively publishing a one-page restatement of the statute, and by circulating more recent, unpublished drafts and making amendments to nursing home admission forms, plaintiffs argued that "they should not be forced to rely on unpublished, unofficial (and probably unenforceable) assurances they receive from the State defendants."

Cited among inconsistencies

within the draft rules and current criteria was the example that "the Secretary has taken the position that the screening rules apply to all potential nursing home patients, and not just to Medicaid beneficiaries (Despite the fact that the statute is an amendment to the Medicaid laws)"

Louisiana and Arkansas have also filed lawsuits, and the American Health Care Association is considering expanding the suit nationwide according to Martin.

**Genetic defect may provide clues to aging process**

TEMPLE — The first reported genetic defect in a complex protein that helps the body rid itself of old or damaged cells may provide important new clues to understanding how and why our bodies age, scientists say.

Medical researchers in Texas A&M University's College of Medicine here have identified for the first time a genetic abnormality or mutation in a critical protein known as "band 3" found on the surface of red blood cells and other cells.

Damage to band 3 initiates a physiological housekeeping process that marks old or damaged cells for disposal

by generating another chemical, senescent cell antigen (SCA), so called because it appears on old cells.

Dr. Marguerite M. B. Kay first discovered this protein and the mechanism of red cell removal 13 years ago.

Band 3 triggers the cell-disposal process by producing SCA as the cell breaks down because of age or damage. Appearance of SCA on the surface of a cell begins the complex process that ends with the disposal of the cell.

Understanding how the mutant protein behaves should provide important clues to how aging affects individual cells and the whole body, said Kay, head of the Texas A&M research team.

**What's happening**

**Field and Stream set meetings Mar. 23, 30**

Meetings for the 5th and 6th grade 4-H Field and Stream members will meet March 23 and 30 at 7 p.m. in the Ozona Fire Station.

This is the last chance to sign up. Those wishing to join the program must attend one of these meetings.

For more information contact Elliott Barrera at 392-2749 or Eddie or Della Moore at 392-3384.

**MADD to hear guest**

Anne Sledd of Austin, coordinator for Texas Victims Assistance, will be the guest speaker at Mothers Against Drunk Driving Thursday evening. The 7 p.m. meeting at Crockett County Public Library will include short reports on interviews.

**Schools dismiss for Easter holidays**

Students in Ozona schools will be dismissed at the regular time Thursday, March 23, to begin the Easter holidays.

Monday, which had been designated a bad weather day, will also be an Easter holiday.

Classes will resume at the regular time on Tuesday, March 28.

**West Texas A&M Club to offer scholarship**

The West Texas A&M Club of San Angelo will award a scholarship to a freshman student enrolling in Texas A&M University for the 1989 fall semester.

The \$4000.00 scholarship (\$500.00 per semester) is awarded primarily on the basis of academic achievement and involvement in school and community activities. Financial need is considered, but is not necessarily the determining factor in selecting a recipient. The student must be from one of the following counties: Tom Green, Coke, Runnels, Crockett, Concho, Schleicher, Irion, Sterling, Sutton or Reagan.

Interested students should contact their high school counselor or Jonathan Davis, P.O. Box 1122, San Angelo, Texas 76902, (915) 653-3291. Applications must be received by Mr. Davis no later than March 31, 1989.

**Official Memorandum**

WHEREAS, the hard work and ingenuity of Texas family farmers and ranchers have contributed to a heritage that has won acclaim for the Lone Star State as the second largest producer of raw agricultural commodities in the country; and

WHEREAS, the lifestyle that these agricultural producers cherish is now being sacrificed in favor of foreign markets and massive corporate-owned operations that stress fencepost-to-fencepost cultivation of a single crop; and,

WHEREAS, continued emphasis on high yields increases dependence on synthetic chemicals with little regard for the negative impact on our natural resources that are being depleted in alarming amounts; and,

WHEREAS, Sustainable Agriculture, an alternative system of farming, utilizes crop diversification and rotation, integrated pest management and biological control to limit the overuse of chemicals and protect our soil and water while emphasizing ecologically sound food production;

BE IT THEREBY RESOLVED that the Texas Department of Agriculture wholeheartedly endorses Sustainable Agriculture as the key to protecting the family farm as the optimum unit of efficient agriculture production and stewardship of the land.

BE IT FURTHER RESOLVED that the Texas Department of Agriculture will help develop, promote and implement Sustainable Agricultural practices as a means of reducing costs, enhancing profits, protecting our natural resources and providing a healthful, reliable food supply for consumers.

THEREFORE, I, Jim Hightower, Texas Commissioner of Agriculture, support the movement that seeks to sustain agriculture into the next century through the sensible use of our farmland that safeguards our natural resources and preserves our family farmers while meeting consumer needs, and do hereby proclaim the week of March 19-25, 1989, to be

TEXAS AGRICULTURE WEEK

In official recognition whereof, I hereby affix my signature this 10th day of March, 1989.  
Jim Hightower  
Texas Commissioner of Agriculture

"Texas Agricultural Extension Service"

### Health fair date set

The 1989 Crockett County Health Fair is coming soon. Many of you have attended this event in the past, and we want to invite you back for the '89 version!

The event will be held on Thursday, April 27, from 1 p.m. to 7 p.m. at the Ozona Civic Center. We're sticking to pretty much the same format as in past years, with plenty of free testing. The free testing is important, as many of you can attest. The old saying, "An ounce of prevention is better than a pound's worth of cure," is certainly true when it comes to health care.

By offering screenings for diabetes, anemia, cholesterol and other easily-hidden health problems, we can save you hundreds of dollars and a lot of time and effort!

"Why, I'm healthy as I can be," you say. That's what most of us think, but some health problems can slip up on you and really become a problem before you even know there's anything wrong.

The information provided at the health fair is invaluable in helping you take control of your own health care. Becoming informed is the first

step to becoming healthy.

We're asking several area providers of treatment for drug and alcohol abuse, mental illness and family problems to be at the health fair this year. If you've been wanting some answers to your questions about these vital issues that - nowadays - affect almost every family, then this is a great time to ask them.

So circle your calendar for Thursday, April 27, from 1 to 7 p.m. and join us at the Civic Center for the annual Crockett County Health Fair. You'll be glad you did.

For more information about the health fair, human health and nutrition, or any upcoming program sponsored by the Texas Agricultural Extension Service, call the Crockett County Extension Office at 392-2721 or come by the office located on the second floor of the courthouse annex.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages, regardless of socioeconomic level, race, color, sex, religion, national origin or handicap.

### Dates to remember

**Monday, March 27** - County Record Book Workshop, 6:30-8:30 p.m., County Extension Office. Bring any materials you have on hand that would help in filling out a record book: project records, photos, news clippings, etc.

**Tuesday, March 28** - Junior High 4-H Meeting, 7 p.m., Junior High Cafeteria

**Saturday, April 1** - Field and Stream "Boat Show" and 4-H Highway Cleanup. Meet at 10 a.m. at the Show Barn for the cleanup. Wear sturdy jeans and boots or shoes.

**Monday, April 10** - All 4-H Round-up Entries due at County Office. Method Demonstrations and Share-the-Fun groups need to fill out entry forms and turn them in.

### Range team qualifies for state

Ozona High School's FFA range and pasture judging team placed third in area competition last week to qualify for state competition. The Sweetwater judging contest held March 18 saw Ozona's Jimmy McCary ranked as fifth high individual and Angie Marshall as 10th high individual. Other team members are: Valerie Perez and Randel Wilson.

They will participate in the state meet at Stephenville April 20 under the coaching of OHS ag teacher

Brent Pool.

The OHS wool judging team ranked fifth in area competition. Cody Sutton was 10th high individual of the contest. Other team members are Randy Judd and Chris Denman.

Competing for the livestock judging team were: Shane Cooper, Tooter O'Bryan, Clay Harris and Keith Fowler.

Livestock and wool judging teams from Ozona will enter contests at Angelo State University April 1.

### Health concerns major for elderly

More than 40 percent of elderly people have more than one illness. These individuals respond more slowly to treatment and to a lesser degree. Among the elderly there is less resistance to stress, and one major illness lowers resistance allowing other illnesses to appear.

**Hypertension:** High blood pressure (above 140/90). Top number, systolic, means the greatest pressure of the blood (intermittent) against the wall of the blood vessel. Bottom number, diastolic, means the least pressure of the blood (constant) against the wall of the artery.

**Incidence:** 5-15 percent of the population.

**Onset:** Early 30s. But because there are no symptoms it is usually untreated for at least 20 years.

Another form (milder) may appear in middle-aged and older persons.

**Cause:** Unknown.  
**Danger:** Untreated hypertension is related to development of arteriosclerosis. This leads to stroke, heart attack, congestive heart failure, kidney failure.

**Treatment:** Medication, diet (low salt).

**Congestive Heart Failure:** Failure of the heart to pump an adequate amount of blood to the body.

**Symptoms:** Congestion of fluid in lower extremities. Swelling of feet and lower legs. Elevate feet when setting. Congestion of fluid in lungs. Shortness of breath.

**Medication:** (1) Digitalis - slows and strengthens heart beat. Check pulse before giving and if below 60 beats per minute, check with doctor. (2) Diuretics - "water pill". Decrease the amount of blood volume. Give early in the day. If not taking potassium, give food potassium source daily such as orange juice, bananas, or pears.

**Diet:** Low sodium.

**Angina:** Short periods of chest pain due to insufficient blood flow to the heart muscle.

**Cause:** Cause is usually due to hardening of the arteries of the heart with some obstruction in a major blood vessel of the heart (arteriosclerosis).

**Symptoms:** Mild to severe chest pain which may radiate to the neck or shoulders, usually lasting less than three minutes. (If more than one-half hour, suspect heart attack.) Brought on by exertion, cold, eating a heavy meal, or excitement.

**Treatment:** (1) Nitroglycerin - tiny tablet placed under tongue to dissolve. Works in one-half to three minutes. Should be used as prevention with known stress. (2) Other drugs to lessen frequency of attacks - Cardilate, Peritrate, Isodil, and Inderal. (3) Weight reduction. Stop smoking. Minimize stress situations.

**Arthritis [Osteo]:** Ninety-seven percent of all people over 60 have some degree of osteoarthritis.

**Cause:** (1) Wear and tear. Elastic tissue (cartilage) becomes soft and wears away, sometimes exposing underlying bone. (2) Heredity.

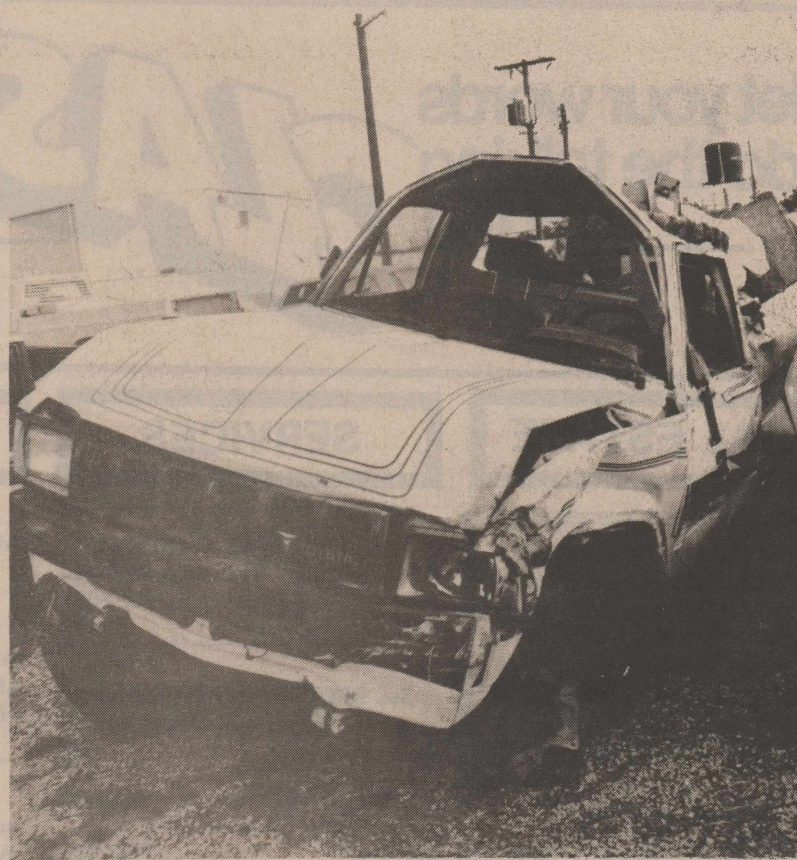

**Symptoms:** Localized pain and stiffness (especially in A.M.) of joints. Enlargement of joints. Most commonly affected joints are hips, knees, spine, fingers and big toe.

**Treatment:** (1) Drugs - aspirin, large doses with caution (ringing in the ears, nausea indicates too much). (2) Exercise and rest - balanced to keep joints flexible. (3) Heat - to relieve pain. Increased humidity has a definite effect on arthritis. Attacks often occur during times of stress.

**Helps:** Velcro fasteners and large zippers or buttons, elevated toilet seat, tub stool and rails.

**Diabetes:** Disease in which the body cannot use the sugars and starches in a normal day. The result is that glucose accumulates in the blood and may appear in the urine.

**Types:** (1) Juvenile. (2) Adult onset - over 40, with a slow inconspicuous onset. There is usually some insulin production. (3) Heredity.

Jose Eliseo Rosales of El Salvador died when his Toyota 4x4 pickup overturned in Crockett County March 16.

Rosales, who was not wearing a seat belt, was thrown from the vehicle as it overturned three times.

Photo by Susan Sheppard

### Texas A&M archaeologists find 1,400 year-old graffiti linked to ancient battles

COLLEGE STATION — Scholars have finished copying examples of graffiti — not the subway variety, but markings almost 1,400 years old — found on more than 100 jug-like Byzantine amphoras recovered from a shipwreck off Turkey.

The ship sank in the late 620s, probably near the end of a struggle between the Byzantines and the encroaching Persians, said a Texas A&M University nautical archaeologist.

The graffiti, usually representing an owner's name or allusions to the Christian faith, were first discovered by chance on one of the jugs in 1980 and most of the graffiti-containing jugs have been raised since then, explained Texas A&M professor Dr. Frederick van Doorninck Jr., a researcher with the Institute of Nautical Archaeology (INA) at Texas A&M.

Inscriptions range from common ones such as Gergios and Sergios to the rather unusual name of Olypius, while religious inscriptions include "belonging to God," "He is victorious" and a brain-teasing monogram that can be read "Christ God has risen," he said.

At least a quarter of the marks per-

form some other function, such as an identifying single-digit number or even a date of use, he added. Some abbreviations merely indicate the contents, such as lentils and olives.

### 4-H trains future leaders

4-H'ers involved in agricultural projects will provide some of the leadership for necessary food increase that must occur before the year 2000.

"Many young people in the 4-H agricultural program will choose careers in agriculture based on 4-H training and experience," said Billy Reager, county 4-H program coordinator with the Texas Agricultural Extension Service.

By the turn of the century, there will be an estimated two mouths to feed for everyone mouth being fed today, Reager said.

Future agriculturalists must en-

gage in research and technology, more efficient use of land and energy, and improved crop protection methods, Reager said.

Projects that prepare 4-H'ers for agricultural careers range from animals to plants and soils, energy, machines and equipment, ecology and natural resources.

The 4-H program is open to all youths from the third grade through 19 years of age, said Reager. Information on 4-H and what the program has to offer in helping youths develop leadership and life skills is available at the county Extension office.

### Texas A&M scientist says 'safe' lead levels adversely affect children

COLLEGE STATION — Newly detected size changes in the brain cells of young guinea pigs suggest that low levels of lead now legally safe may be harmful to the immature mammalian brain, says a Texas A&M University scientist.

Effects of lead exposure on star-shaped cells called astrocytes had not previously been explored by health researchers, said Dr. Evelyn Tiffany-Castiglioni, who led the first major study using guinea pigs to simulate the effects of low-level lead on children.

"It's pretty clear that children are af-

ected by low levels of lead," said Tiffany-Castiglioni.

Children who live or play near industries that smelt lead or near power plants that burn lignite in unfiltered furnaces risk exposure to lead, as do people drinking water from pipes soldered with lead.

The study also seems successful in establishing the guinea pig as a research model closer to representing humans in lead poisoning studies than widely used rats, which can become tolerant to lead, said Tiffany-Castiglioni.
