Hospital/Care Center Board OK's New AC And Ambulance

Directors hired an administrator, voted to get a heating/cooling central unit for the hospital and okayed preparing specifications for a new ambulance when they met July 13. The called session was held after a regularly scheduled meeting was unable to draw a quorum July 6.

Virginia Box began her duties as hospital/care center administrator July 17. Mrs. Box makes her home in Sweetwater where she was administrator at Holiday Retirement Center for several years.

Following presentation of an air conditioning contingency plan by David Morgan, maintenance supervisor, the board voted to buy a central unit to cool and heat the lobby and two front offices, pharmacy and reception area. The state will have to okay putting a gas unit inside, he said.

Individual window units will be placed in rooms as needed. Morgan said the heating boiler will not be able

to be fired up this winter, and the window units will have to be in place on the hospital side before cold weather.

He also told the board that the cooling unit is out on the kitchen serving table and that plans need to be made to budget for this in 1996.

Approval by commissioners to purchase a new ambulance before year's end was greeted with enthusiasm. Ambulance coordinator Doug Meador outlined costs and necessary equipment for a new unit. He is to prepare final specifications which board president Eddie Moore will review with him before advertising for bids.

A hematology machine has been left at the hospital by Diagnostic Imaging for three weeks trial with no obligation according to interim administrator Ann Fagan-Cook. Action on the lab equipment was tabled pending receipt of specifications.

High School Principal Hired

In their regular monthly meeting that was held on Monday, July 10, members of the Ozona School Board approved the employment of Tanya Sorrells as the new principal of Ozona High School. Ms. Sorrells is currently serving as the eleventh and twelfth grade level principal at Copperas Cove High School. She received her bachelor of arts degree in English and history at Angelo State University in 1986 and her master of education degree this summer from Tarleton State University. She will take the position of high school principal John Curry, who recently accepted the head boys' basketball position at Monahans.

The trustees also approved teaching contracts for Nancy Floyd, wife of Charles Floyd, the new principal of

Ozona Middle School. Mrs. Floyd will teach fifth grade in Ozona Intermediate School. Also approved was the contract of Ms. Vicki Lynn Burson, who will teach special education in Ozona Middle School. She takes the place of Don Stark, who recently moved to Newton.

Superintendent Larry Taylor gave the school board information on the Iowa Tests of Basic Skills (ITBS) achievement test that was given to kindergarten, first and second grade students in the spring of this year and the Texas Assessment of Academic Skills (TAAS) test that was taken by students in grades three through eight also in the spring.

"An analysis of the student norms on the ITBS reveals that, on the average, students in grades kindergarten through two are above students across the nation in all three subjects (reading, language and mathematics) measured by this achievement test," Taylor said. "Overall, Ozona Primary has fewer low achieving students than do most other schools across the United States."

Student scores on the TAAS improved significantly on the statewide test for third through eighth grade students. Scores for students who were in the third grade last year rose from 75% reading mastery to 79% reading mastery, declined from 79.4 to 78.8 on the average of Texas Reading Learning Index, stayed the same (51%) on the Texas Reading Group Percentile, improved from 63% to 65% on math mastery, improved from 71.4 to 71.8 on the average Texas Math Learning Index, and improved from 54% to 55% on the Texas Math Group Percentile.

This year's scores of students in grades five through seven improved in every category when compared to their scores in the prior grade level last year. Improvements were: fifth grade reading mastery 55% to 57%; fifth grade average Texas Reading Learning Index 71.6 to 73.4; fifth grade Texas Reading Group Percentile 34% to 41%; fifth grade math mastery 54% to 70%; fifth grade Texas Math Learning Index 70.0 to 75.0; and, fifth grade Texas Math Group Percentile 50 to 64.

Scores for students in the sixth grade were: reading mastery 63% to 66%; average Texas Reading Learning Index 74.4 to 75.3; Texas Reading Group Percentile 43 to 43; math mastery 38% to 43%; average Texas Math Learning Index 63.1 to 66.7; and, Texas Math Group Percentile 34 to 41.

In the seventh grade, improvements were in the following areas: reading mastery 69% to 80%; average Texas Reading Learning Index 75.8 to 79.6; Texas Reading Group Percentile 43 to 53; math mastery 52% to 76%; average Texas Math Learning Index 66.7 to 76.8; and, Texas Math Group Percentile 40 to 66. In the eighth grade, there were three improvements and three declines. Improvements included reading mastery 77 to 83; average Texas Reading

Learning Index 77.7 to 79.2; and Texas Reading Group Percentile 46 to 51. Declining were math mastery 72% to 53%, average Texas Math Learning Index 74.7 to 68.8, and Texas Math Group Percentile 60 to 44.

Scores for third grade students this year were: reading mastery, 80%; average Texas Reading Learning Index, 78.6; Texas Reading Group Percentile, 49; math mastery 79%; average Texas Math Learning Index, 75.3; and, Texas Math Group Percentile, 62.

During the meeting, Ray Don Myers, school maintenance supervi-

sor, presented information concerning the progress of reroofing the small gym at the high school, the administration building and five school housing units. The trustees approved a tuition contract with Reagan County I.S.D. for student transfers and appointed Veronica Tijerina as the board's delegate to the Texas Association of School Boards - Texas Association of School Administrators' Annual Convention in Houston on Sept. 29 - Oct. 2.

The meeting was adjourned following approval of setting the date and time for the board's regular meeting in August. It will be held on Aug. 15 at 7 p.m.

Administrator Hired For Hospital/Care Center

Directors of Crockett County Hospital and Care Center hired Virginia Box as administrator at their called meeting July 13. Mrs. Box will administer both facilities.

Mrs. Box became a licensed vocational nurse in Sweetwater in 1956. She earned her administrator certification in 1986 and worked for a number of years as administrator of Holiday Retirement Center in Sweetwater.

Since April she has enjoyed being home "playing grandmother". Mrs. Box and her husband, Cleburne, have three grandchildren and are expecting another. Mr. Box is retired from the state highway department.

The new administrator has always worked for a corporation and has "been in Medicare since day one". She believes in making everything convenient for the community, a role the hospital/care center board has taken on with plans to recertify for Medicare in order to make other improvements and extend services at the hospital.

Mrs. Box is most complimentary of the two facilities and the community and is pleased to be working here. She began her duties Monday.

Interim administrator Ann Fagan-Cook will continue her association with the hospital at least through the end of the month. She has also offered to prepare a proposal to see managed health care, skilled nursing facility and trauma center goals to completion through her business, High Plains Health Consultants.

Early Voting Begins In Bond Election

Crockett County voters may begin early balloting in a \$910,000 bond election on July 24 with four issues to be decided upon.

Proposition 1 is for "the issuance of \$695,000 in general obligation bonds for constructing, improving and equipping a county courthouse annex". If the proposition passes, the building will be constructed east of the courthouse on property which was recently purchased by the county.

Proposition 2 is for "the issuance of \$80,000 in general obligation bonds for constructing, equipping and improving a building to be used for public library purposes".

Proposition 3 is for "the issuance of \$80,000 general obligation bonds for constructing, equipping and improving a county services building, to

include facilities to provide services to senior citizens."

Proposition 4 is for "the issuance of \$55,000 general obligation bonds for renovating and improving the existing county courthouse".

Early voting by personal appearance will be in the courthouse during business hours Monday through Friday from July 24 through Aug. 8.

On election day, Aug. 12, voting will be conducted from 7 a.m. to 7 p.m. At that time, Precinct 1 voters will cast their ballots at the courthouse, Pct. 2 at the county road barn, Pct. 3 at the civic center, Pct. 4 at the primary school and Box 36 at the WTU power plant at Girvin.

To request a ballot for voting by mail, write to County Clerk's Office, Dr. C. Ozona, TX 76943, Attention: Early Voting Clerk.

4-H Livestock Projects Begin Soon

The time has arrived once again to begin the 4-H livestock projects for the coming season. If you are interested in showing market lambs, or meat goats, please contact the County Extension Office at 392-2721 as soon as possible since producers are already starting to shop their livestock. Please be sure to let County Extension Agent Billy Reagor know how many head you will need and which type animals you wish to show. 4-H'ers may show both market lambs and meat goats if they wish.

If you are new to 4-H or if you

have any questions, please call or go by the County Extension Office located on the top floor of the courthouse annex building. If you are not a 4-H member and you wish to join, enrollment forms may be picked up at the County Extension Office. 4-H is open to all youth between the ages of 9 (or third grade) and 19.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion, disability or national origin.

Rusty Adams, second place; David Bean and Steve Taylor, third place.

Winning money in the average were: Dennis Clark and Johnny Powell, first place; Dennis Clark and Rod Miller, second place; Bobbie Renfroe and Jessie Banner, third place; Marty Acton and Billy Dell Renfroe, fourth place; Taylor and Mike Kelly, fifth place.

Sculpture Brings Pioneer Heritage To Park

Plans are proceeding for the heritage appreciation sculpture to become a reality. This sculpture, pictured below, will be placed in the center of the downtown park. The steering committee has met periodically throughout the summer in order to finalize plans for this.

The heritage appreciation sculpture, titled "The Tie That Binds", will be sculpted by Judy Black. Judy is a

native of Crockett County, the daughter of Jane Murphey Black and the late Charlie Black Jr. She acquired a foundation in sculpture by studying under qualified sculptors in Mexico, Colorado and Texas. Judy has lived in the prestigious sculpture community of Loveland, CO, where she maintained a studio. She has recently moved back to Texas, where Kerrville is her home. Because of her experiences growing

up on a West Texas ranch, she conveys her knowledge of and love for her heritage through the medium of bronze sculpture.

The committee needs your support in order to launch this program successfully. Among the fund raisers planned is the sale of signed, numbered, limited edition maquettes, or bronze models of this heritage appreciation sculpture. Two sizes are available: 1/16 lifesize, which sells for \$295, and a maquette approximately 23 inches tall that sells for \$2,330. Each will be mounted on a wooden base. The larger maquettes will be mounted on a turntable.

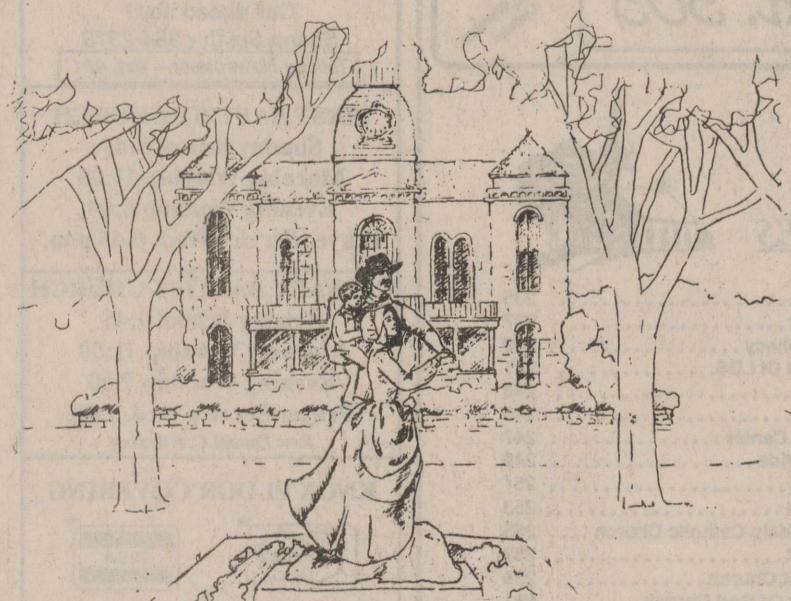

Also available will be a memorial plaque to be placed in another location. Each memorial is \$125.

"The results of these sales will enable us to become more qualified to receive grants that we anticipate receiving," said Marolyn Bean.

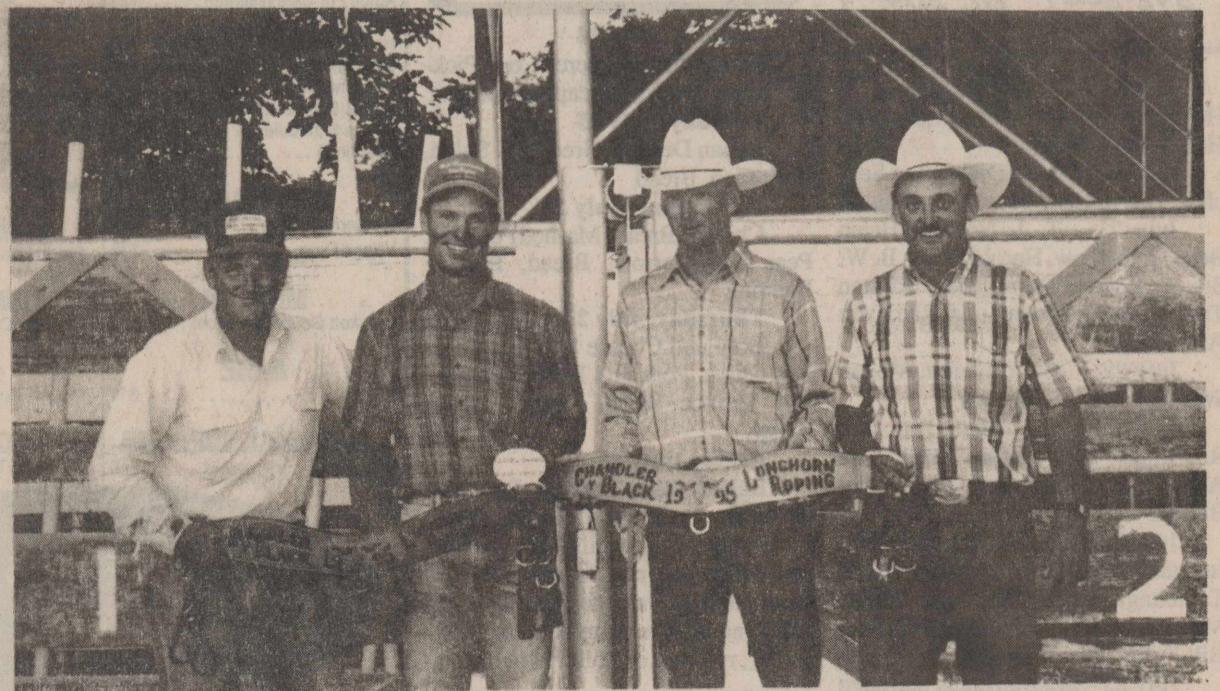

If you would like more information concerning this matter, call Mrs. Bean at 915 392-3279 or Shirley Kirby at 915 392-2283.

Address all correspondence to: Crockett County Heritage Sculpture, P. O. Box 1946, Ozona, TX 76943.

"Any financial support the committee can receive at this time will be very helpful and very much appreciated," Mrs. Bean said.

THIS SKETCH depicts the heritage appreciation sculpture planned for Ozona's downtown park. Titled "The Tie That Binds", the sculpture will be by Crockett County native Judy Black.

DENNIS CLARK (second from left) was high money winner in the Chandler and Black roping held July 8. Clark and Johnny Powell (second from right) received breast collars for winning the average. Making the presentations were Fred Chandler (l) and Will M. Black (r).

Wednesday Service For Mrs. Humphreys

Madye Jo Humphreys, 73, died Monday, July 17, 1995, in Ozona. She was born Feb. 16, 1922, in Ozona to Madye Kersey Bailey and Thomas Albert Bailey. Survivors include a son, John Green of Ozona, and a granddaughter, Shawnica Green.

Churchwell Named WTU Vice President

T. D. "Pete" Churchwell was named vice president of Operations and Engineering at West Texas Utilities Company, Glenn Files, WTU president and chief executive officer, announced. Churchwell, who begins the transition into his new position immediately, replaces Don Welch, who announced he is retiring after 36 years of service at WTU. Churchwell joined WTU in late 1993 to assist in the management of WTU due to Files' then-heavy responsibilities overseeing the transition efforts of WTU parent Central and South West Corp.'s efforts to acquire El Paso Electric Company. Churchwell joined the CSW system in 1978 as a manager of Personnel Resources at WTU's affiliate company, Public Service Company of Oklahoma in Tulsa. He was named vice president of Human Resources at PSO in 1984 and POS vice president of Corporate Services in 1987. In 1989, he was transferred to affiliate Central Power and Light Company in Corpus Christi as Central Region general manager. He joined Central and South West Services Inc. in Dallas in 1991 as vice president of Corporate Services. "Pete is a strong leader with a keen grasp of the mission of WTU as it fits into the larger framework of the CSW Corporation," says Files. "We look forward to using his expertise as he takes over as WTU vice president of operations and engineering." Churchwell is a graduate of the University of Tulsa and Harvard Advanced Management Program. He and his wife, Sandy, have three children, Kristi, Patrick and Arlyn.

LETTER TO THE EDITOR

We spent the past weekend in Ozona and just want to say a special thank you. Our son Tate was in the World Championship Goat Roping and we want to thank all the members of that association for putting on such an excellent roping. There awards were very nice and we enjoyed a well-run show. On this same weekend our other son Deak was in the Little League All-Star Tournament. The tournament, in spite of rain-delayed games, ran smoothly and we felt the umpires did an excellent job, just as they did the previous year. Then to top off a fun-filled weekend, my dad, Thad Morrow, won the gorgeous pickup donated by the Goat Roping Association. Needless to say, it was a weekend that we won't soon forget and we just wanted to express our appreciation to all those involved. Thanks again!
Dean and Deb McMullan

Morning Ceremony Unites Miss Eaves, Mr. Hood

Davelyn Kay Eaves and John Bret Hood were united in marriage at St. Paul's United Methodist Church, Houston, on Saturday, June 24, 1995, at half past eleven in the morning. Reverends Terry Thompson and Ken Farenick officiated the double ring ceremony. A buffet reception followed at the Wyndham-Warwick Hotel. On the eve of the wedding, the bridegroom's parents hosted a rehearsal dinner at Versailles Park Club Room.

The bride is the daughter of Mr. and Mrs. David L. Eaves of Humble. She is the granddaughter of Mr. and Mrs. Sam Daves and the late Mr. and Mrs. David L. Eaves Sr.

The bridegroom is the son of Mr. and Mrs. Gene F. Hood of Ozona. He is the grandson of Mrs. Helen Tamplen and the late Mr. Clyde Tamplen and the late Mr. and Mrs. Chester Hood.

Given in marriage by her father, the bride selected a princess neckline gown of white brocade with Venetian lace applique and a sweep train. The bride's white tulle veil and shoes were accented with her mother's wedding lace. Davelyn carried a hand-tied bouquet of gardenia, dendrobium orchid, stephanotis and lily of the valley.

Lacey Collums Helton served as matron of honor. The bridesmaids were Teresa Batts Tipton, Sherry Coy Eaves, the bride's sister-in-law, and Stacia Elizabeth Jones. The matron of honor and bridesmaids, carrying nosegays of lily of the valley, wore suits of ivory linen accented with embroidery beading and sequins. Catherine Paige Tambunga, the bridegroom's niece, carrying a nosegay of lily of the valley and wearing a white brocade dress by Jessica McClintock, served as the junior bridesmaid. Flowergirl, Sydnee

Elise Houlette, also wore white brocade and carried a lovely white rose circle of love wreath.

Richard Dean Gray of Alvin and formerly of Ozona, served as best man. Groomsmen were Ronald Koerth of Ozona, Andrew Wayne Dews of Ballinger, formerly of Ozona, and Dennis Wade Schreffler of Fort Worth. Joshua Robert Tambunga, the bridegroom's nephew, served as junior groomsman. The ushers were John Richard Foringer of Houston and Shane Pridemore of San Angelo and formerly of Ozona.

Scriptures were read by the bride's brother, Captain Kenneth Scott Eaves, and the bridegroom's sister, Wendy Hood Tambunga.

Special out of town guests associated with Ozona included: Mr. and Mrs. Harold Shaw, Mr. and Mrs. Dale Burger, currently of Austin, Mr. Robert Tambunga and Mr. Eugene C. Hood, Reverend and Mrs. Jim Gray, Linda and Michael, currently of Eddy, and Mrs. Andy Dews and Kaylee of Ballinger. The bridegroom's aunt and uncle, Mr. and Mrs. John Gessick of Plano, were also among the numerous out of town guests.

The bride is a 1989 graduate of Klein Oak High School in Houston, and a 1992 graduate of Texas A&M University where she was a member of Zeta Tau Alpha Sorority. The bridegroom is a 1988 magna cum laude graduate and valedictorian of Ozona High School and a 1992 summa cum laude graduate of Hardin-Simmons University where he was a member of the men's varsity golf team. Both are currently pursuing degrees in medicine at the University of Texas Health Science Center Medical School at Houston.

Following a honeymoon on Hilton Head Island in South Carolina, the couple will reside in Houston.

Lawnmower Races

It's that time again. Time to soup up those mowers for the Third Annual Race for the Gold Lawnmower Race. The race will be held Aug. 5 during the David Crockett Birthday Celebration. Get your mowers in shape to take the title from Keith Olive, reigning champion lawnmower racer.

Circle Bar Cable TV and Circle Bar Motel are our 1995 sponsors, and there will be great prizes for our winners. The rules are simple: 1. Entrants must be 16 years of age or older. 2. Entrants must have a riding lawnmower. 3. Entrants must be ready to race! Men and women racers are welcome, and the entry fee is \$5.00.

Starting time is 8:30 a.m. Saturday, Aug. 5, at the Rodeo Arena Park Raceway. There will be toy lawnmower races for the little ones. Kids can run an obstacle course and race for prizes with toy lawnmowers. Spectator admission to the raceway will be by donation to the Friends of the Library Building Expansion Fund. It's all a part of a super David Crockett Birthday Celebration. Great fun for a great cause! Be there!

Tonya Petty To Be Congressional Page

Tonya Petty, 16-year-old daughter of Brenda and Randy Petty, will attend school in Washington, DC, beginning this fall while serving as a page for Congressman Henry Bonilla. She is one of 66 youths selected from across the nation to become a page during the Sept. 5, 1995 - June 7, 1996 period.

The district including Ozona was not scheduled to have a page this year, Mrs. Petty learned, after responding to an article in the Standard-Times. They pursued the program anyway, hoping the experience would help to secure a position next year, and Tonya was selected.

Among the criteria for selection was a 3.00 scholastic average, recommendations from three people in her community, a composition on why she wanted to be a page and a summary of her extracurricular activities.

Page duties consist primarily of delivery of correspondence, legislative material and small packages within the Congressional complex. A few pages are assigned to answering phones in the member's cloakroom, taking messages for members, calling them to the phone if they are in the House Chamber and preparing the House Floor for sessions. Still others man a telephone bank of incoming requests for page service. A rotation system is practiced so that every page has an opportunity to experience the various areas of service.

Pages report to their supervisors in the Democratic or Republican cloakrooms after classes and work until 5 p.m. or when the House adjourns for the day, whichever is later.

Tonya will attend classes at the House Page School located in the Jefferson Building of the Library of Congress. Classes begin at 6:45 a.m. and include mathematics, English, social studies, science, French and Spanish and a work experience course.

"We will have a prom and a yearbook," said the junior student who is

excited about the opportunities ahead.

To assure each pupil's participation and exposure to the unique educational and cultural opportunities existing in this historical seat of government, the Washington Interdisciplinary Studies Program develops field trips and hosts guest speakers. Final exams are given at the end of each semester.

Among the topics for the 14 weekends of the program are Inner Quest, Native American cultures, Monticello, houses of prayer Gettysburg, Galileo Spacecraft, volunteerism, emancipation, Shakespeare, Mt. Vernon, college search, Shenandoah National Park, Langley's Aerodrome and the Chesapeake Bay.

Tonya is the granddaughter of Mr. and Mrs. J. O. Sanderson of Loraine.

First Place Group Celebrates Loss

The hilltop home of Barbara Malone was the scene for the victory supper celebrated by members of First Place who have completed the most recent 13-week plan for Bible study, exercise and the learning of proper eating habits. Their weight loss and spiritual growth were great subjects of conversation.

Menu for the evening consisted of Family Favorite (also fat free) Mexican Casserole brought by Jeanie Fuller, a crock of pinto beans seasoned with Goya Adobo brought by Rhonda Shaw, a carrot-orange-pineapple sunset congealed salad made by Jean Conner, marinated vegetables brought by Rosalind Williams, and a make it yourself green salad and crotons furnished by Barbara. The desserts to chose from were fat-free apple cobbler and Sugar-free fresh strawberry pie made by Audrey Glynn. Other members, Carla Green and Ruth Ewen, added all the necessities - dressing for the salad and Southwest-patterned paper goods. Three members, Rene Pearl, Helen Wall and Donna Hightower were not able to join in the evening's fun.

A "LIV-IT" bingo game was the entertainment for the evening. This game uses facts, words, phrases, Bible verses, and such pertaining to what is

learned in the First Place program. Members who scored "LIV-IT" (because we don't die, we live-it) were able to pick something from the goodie basket which has small items furnished by all members through the 13 weeks. A gift also was chosen by the member losing the most weight during the sessions, and also the one with perfect attendance.

This Christ-centered health program will not meet again until September. But when the time draws near, there will be notices for any who care to be a part of it to consider joining in. The name, First Place, comes from the desire of those participating to give Christ "first place" in their lives and thus have His help in all their endeavors.

The group meets at First Baptist Church one evening a week for private weight-ins, prayer, Bible study and learning the facts about why one should eat healthy. All are welcome. Do contact one of the above-mentioned ladies for more information. Men, we also have some of you as members, so don't be bashful. A fee is charged to cover cost of workbook materials, a cookbook, and such. Try it - it really works. You will like yourself better.

That which seems the height of absurdity in one generation often becomes the height of wisdom in another.

Sheppard, Calloway Engagement Announced

Mr. and Mrs. Wylie Taff of Ruidoso, NM, and Mr. and Mrs. Billy Hughes of Junction are pleased to announce the engagement and upcoming marriage of their daughter, Susan Hughes Sheppard, to Kevin Calloway, both of Ruidoso. Mr. Calloway is the son of Mr. and Mrs. Phillip Calloway of Sedona, AZ.

The ceremony is planned for noon

on Saturday, Aug. 5, at Marie La Veaux Restaurant located at 1214 Mechum Drive in Ruidoso.

The bride-elect graduated from Junction High School in Junction and attended Angelo State University in San Angelo. She is employed by Hawthorne and Hawthorne law offices in Ruidoso.

Mr. Calloway is a graduate of Hoover High School in San Diego, CA, and attended San Diego State University. He is employed as restaurant coordinator by Marie La Veaux Restaurant and as manager of the Tack Room Lounge.

Following their honeymoon in Las Vegas, NV, the couple will make their home in Ruidoso.

A&M Trains Russians In Agribusiness

COLLEGE STATION - Texas A&M University has signed an agreement with the Russian Ministry of Agriculture to help develop an agribusiness training program throughout Russia - a move aimed at accelerating the country's transition toward a free-market economy.

The \$2 million project will address one of the most fundamental problems facing Russian agriculture: how to manage the change from centralized, government-controlled collectives to farming enterprises that are private, autonomous and market-driven.

Card of Thanks

Ozona is a wonderful place to call home. Our joys and our sorrows are shared by old friends. We are shocked at the sudden loss of our son-in-law, Guy Wells, but friends and neighbors shared our sorrow and the folks from the city, where our daughter lived just don't understand our little town's understanding and support in our joys and in our sorrows. They were over whelmed at the love shown here and we do thank you.

Are You An Idol Worshiper?

Whenever anyone uses the term idol worshiper, or the word idols it usually conjures up images of huge statues or golden images.

Most folks would tell you real quick that they've never worshiped an idol. They would probably even get mad at you. This may shock you, but a lot of people worship themselves. They have figured out their own way and type of eternal life. Some have even designed their own way to heaven. Let me ask you a question. If you lived in a barn for 20 years and ate hay and oats; and you even brayed each afternoon, would that make you a mule? What if you even believed that you were a mule, would you be? Of course not! It's silly I know but many people that because of their tremendous intellect that they can even design their own Heaven. When you think you know more than the Bible, then you are an idol worshiper. God created everything, including your peanut size brain so please don't trust in it. There is still only one way to Heaven and His name is still Jesus. Don't worship yourself so much that you can't bow down to Him and ask Him to save you. Remember, He who bows, won't burn!

Running From God

By Dennis J. Prutow

The story of Jonah is a familiar one. God told Jonah to go to the city of Nineveh and to preach to the people there. Jonah considered these people heathen. They were not Jewish people. They should not have the privilege of hearing God's Word. "After all," thought Jonah, "if I preach to these people, God will turn them around so they will follow Him." Jonah did not want God to bless people outside his own race. As a result, "Jonah rose up to flee to Tarshish from the presence of the Lord" (Jonah 1:3).
No one can run from God. Psalm 139:7 asks, "Where can I go from Thy Spirit? Or where can I flee from Thy presence?" The answer is simple. You cannot escape from God. To show this, "The Lord hurled a great wind on the sea and there was a great storm on the sea" (Jonah 1:4). God controlled the weather. He chased after Jonah. He threw Jonah into the raging sea. "And the Lord appointed a great fish to swallow Jonah" (Jonah 1:17). Now Jonah had to face God and he had to face himself.

God has a way of putting us in a corner when we run from Him. How about you? Are you running from God? Do you want God to teach you the lesson He taught Jonah?

Luncheon Honors Currys

John and Frances Curry were honored with a covered dish luncheon at Ozona United Methodist Church July 9. The Currys are moving to Monahans this month.

During their 12 years in Ozona Mr. Curry has served on the church's administrative board, the finance committee and as lay leader. Mrs. Curry has served as chairperson of the

Missions Committee, was instrumental in reorganizing the U.M.W. and served as president of that organization. She has taught Sunday School, Vacation Bible School, organized the Dare to Care group that helped renovate several homes during past summers, has sung in the chancel choir and worked with the MYF along with her husband.

Aime Loudamy Receives Degree From Northwestern University

EVANSTON, IL - Aime S.Loudamy, daughter of Gary and Georganne Loudamy of Yardley, IL, received a bachelor of science degree from Northwestern University's School of Education and Social Policy at the University's 137th annual commencement exercises June 17.

Loudamy, a graduate of San Angelo Central High School, was a nominee for Glamour's Top 10 College Women and U.S. News and World Report's Best and Brightest award. An organizational studies major, Loudamy was a member of Order of Omega honor society and co-founder of the Northwestern Student Alumni

Advisory Board. She was active in Delta Gamma sorority and participated in Dance Marathon, Northwestern's largest campus philanthropy.

University President Henry S. Biennen conferred 3,545 degrees, diplomas and certificates during the ceremony, and Provost David H. Cohen presented honorary degrees to 10 people in higher education, the arts, science and business.

Northwestern University is one of the nation's leading teaching and research institutions, with 17,500 undergraduate and graduate students enrolled in 12 academic divisions at lakefront campuses in Evanston and Chicago.

Rural Health Info System Being Formed In Texas

TEMPLE - Rural health care sometimes faces a bumpy road in Texas, but information critical to improving such care could soon have its own electronic superhighway.

The Texas Agricultural Experiment Station, part of The Texas A&M University System, is teaming with Scott and White Hospital in Temple and the Texas Department of Health to develop a system that makes health information data available to anyone needing it. They envision the Texas Rural Public Health Information System as accessible statewide through various technologies and at varying levels of use.

That eventually could mean everyone from rural mothers seeking information on health-care providers to legislators looking for statistics on work-related injuries in any geographic area, said the director for the experiment station's Blackland Research Center in Temple.

"We have a gold mine of information here," said Dr. Allan Jones, director of both the Blackland Center and its Center for Natural Resources Information and Technology.

Davee-Anderson Vows Spoken July 4

Nell Davee and Ted Anderson were married July 4, 1995, in Ozona, 50 years after their graduation from Mullin High School.

Although they went to high school together, the two did not start dating until the beginning of their senior year. After graduation, Ted went into the Merchant marines and was stationed in New York. Juanelle went to a telegraphy school in Temple for Santa Fe and married Jack Davee in 1946. After leaving the service, Ted also married.

Ted thought perhaps there would be a 50th high school reunion. After losing his wife in 1994, he made many phone calls to reunite with classmates and to find Juanelle and learn of her marital status. She lost her husband in January of 1973 and had been a widow for 22 years.

In February of 1995, the two were reunited by phone. On March 5, they met and got reacquainted.

Memorial Day weekend there was a 50th high school reunion with 15 of the 19 classmates present. At that time the announcement was made that Ted and Juanelle would be married in the near future.

On July fourth, in a garden wedding at the home of Judge and Mrs. Jim Hearne, the high school sweethearts were married. The bride was attended by her daughter, Greta Cochran, as matron of honor. Best man was the bridegroom's son, Jack Anderson. Tony Davee gave his mother in marriage.

Music for this joyous occasion was provided by Gene Vanlangan-donch of Kelly, LA, who sang "The Keeper of the Stars", and by a band consisting of Jim Wilson, Rev. Bill Fuller, Sandy Stokes, Brock Jones and Fred Baker.

Reception tables were laid with wedding ring quilts. Each centerpiece of bluebonnets was set on a Texas mat with a horseshoe and small bale of hay. The bride's double wedding ring cake had the date 1945 on one and 1995 on the other. The bridegroom's chocolate cake was in a boot design.

Following a wedding trip to Natchez and Vicksburg, MS, the couple attended a reception in their honor at his church, Kelly Baptist, in Kelly, LA.

Juanelle is a court clerk for Justice of the Peace Jim Hearne and will retire Jan. 1, 1996. The couple will make their home in Kelly, LA, following her retirement. He retired in 1992 as head of the sales and management department at Comet Construction after 30 years.

Mrs. Anderson is the mother of three children, Greta Cochran of Midland, Tony Davee of Abilene and Gary Davee who is deceased. She has four grandchildren. Mr. Anderson has four children, Jack Anderson of Louisiana, Jill of Atlanta, GA, Jan of Virginia and Jay of California, and 10 grandchildren.

The two firmly believe that "the Lord meant this marriage to be".

San Antonio Reunion For Montgomery Clan

Descendants of W. H. and Sue Montgomery met July 8 and 9 at the La Mansion Del Rio in San Antonio. This year's bi-annual event was hosted by Mary Annah Hoey-Aleman, Dr. Deborah Aleman and Stacy Dockery Mefford. The beautiful hotel and surrounding River Walk area, as well as the Alamo and other local attractions, kept everyone bustling, and the hospitality room was a great place to catch up on all the family news.

Saturday evening a group photo was taken, then members gathered for dinner at the hotel. At breakfast on Sunday morning, Gaston Boykin recited cowboy poetry. During the business meeting, Dilly Dockery volunteered to host the 1997 reunion in Ozona.

Those attending the 1995 Montgomery Clan Reunion included Dilly Dockery, Bud Meinecke and Shannon Hunicutt of Ozona, Larry Melton of Morton, Stacy and Gary Mefford of Austin, Mary Ann Hoey-

Aleman of San Antonio, Dr. Deborah Aleman, Yago and Bubba of Vermont, Albert and Nancy Boggess and Amenda and Tom Stanley of Boulder, CO, Al Boggess III and friend Debbie Elliott and Albert Boggess IV of College Station, Gerry and Gaston Boykin of Comanche, Marilyn Thomson of Dallas, Judith and Read Smith, Leslie and Merideth of Winston-Salem, NC, Pearl Cotter, Trey and Kathleen of Midland, Beverly Landgraf and Elizabeth of Odessa, Vera Lynn and Terry Nordahl of Olympia, WA, Charlotte Montgomery of San Angelo, Lea Montgomery of Fort Worth, Judd Montgomery of Bedford, Bill and Aileen Meinecke, Jeff Meinecke and Nicole, Susan Lanzini, Ross, Lauren and Neal of Houston, Gerald Meinecke, Mitchell and Melanie of New Orleans, LA.

Following the reunion, Albert, Nancy, Amenda and Tom came to Ozona to visit Albert's Uncle Marshall and Pauline Montgomery.

Out and Around with Judy Reagor

Recently the Dan Flemings were in Mississippi visiting Debbie's mother, Juanita Jenkins. Mrs. Jenkins came home with the family and has enjoyed a stay in Ozona. She especially liked the Fourth of July celebration in the park and seeing her family square dance.

Mary Reeves of Jal, NM, is here visiting June Reeves while Dub is in San Antonio having knee surgery.

Over the Fourth of July the Ybarra had a visit with Edward and Lizzie Ybarra from Fort Worth. Also visiting were Diego Pena and Rose Ramirez of San Antonio. Diego is attending the police academy there. Everyone enjoyed a July Fourth picnic on the Llano River.

Carl Thurman is home after a visit with relatives. Carl and brother-in-law Charlie traveled to see a sister in Ventura, CA. Carl reports that as they drove through Los Angeles and the heavy traffic, Charlie remarked, "Don't any of these people work?"

At the Oregon border it started raining, and Carl said it rained daily at some time during the month he visited. Naturally he thought of West Texas and our need for rain.

Carl enjoyed visiting with his two daughters and their families in their homes in French Town, MT. According to Carl, he wore a coat during the two months in Montana up until the last two weeks when the temperature went to 105 degrees.

Glad you had a great trip, Carl, but it's nice to have you back in Ozona.

Here to spend the summer with Helen and Eddie Wall is their granddaughter, Diana Hays of Carlsbad, NM. The Walls and Diana joined 40 other family members at a reunion June 17-18 in Brady. Among those attending were Diana's mother, Mary Hays, and her friend, Willie Williamson, and George Wall of Cedar Rapids, IA, and his friend, Norda Dunbar. George called his parents July 12 to tell them that the college and public library were closed in Cedar Rapids that day due to 89 degree heat.

Steve and Opal Mobbs have just returned from a week at Camp Paisano. Steve was the director of the boys' camp where a total of 98 campers attended. A missionary from Ghana was one of the highlights.

Beth and Dixie Mercer of Cole-

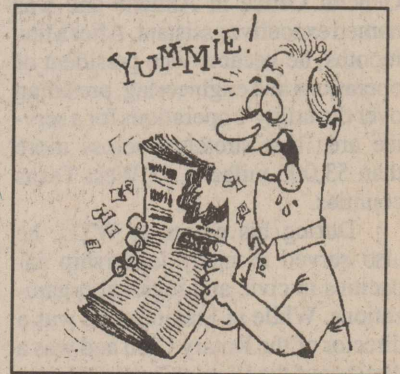

man were in Ozona last weekend visiting friends.

Guests of Helen and Eddie Wall last week was her mother, Pauline Willis from Alvin.

Tommie and Marsha Tomlinson have returned from a 1700 mile trip running around Texas. The two attended church services at Ventura, a small community out of San Antonio, with Brad and Melanie Denson July 9. Monday they went to Lampasas where Tommie fished with son Mike Tomlinson and Marsha visited with daughter-in-law Sandra and her parents, Nancy and Art Guy of Madera, CA. Wednesday found them in McKinney with Tony and Dian Tomlinson and children Zane and Blake. Thursday was Abilene visiting sister and family Jan Banner. There was shopping included on that day (goody, goody, says Marsha). Friday they ventured on to San Angelo to see her parents John and Juanita Bass. The weekend concluded with a trip to Coleman for the 22nd annual Tomlinson reunion. It was a close race on what needed a break most, the people or the car, said Marsha.

Food For Thought

Studies have discovered 75 percent of daily newspaper readers usually read food and cooking sections and 87 percent recalled newspaper supermarket or food ads from the previous week.

Take Back The Night!

Take Part In America's Night Against Crime!

Tuesday, August first, Americans coast to coast will turn on their porch lights in recognition of National Night Out — a special night designed to raise awareness of crime prevention and take back the night. And you can join them.

Take the lead in your neighborhood. Organize a block party or barbecue. Encourage your neighbors to attend. It's a great chance to get to know them better.

Invite local police to come and talk about crime prevention and demonstrate safety procedures. Get your kids involved. Encourage them to make posters and yard signs.

Spend one night out for safety. You'll rest easier year-round.

WTU's Don Welch Announces Retirement

Don Welch, vice president of Operations and Engineering for West Texas Utilities Company since 1982 announced he will retire on Aug. 1.

Welch's distinguished career with WTU spans 36 years from the time he joined the utility as a lineman in Stamford and as he worked his way through the company in various operations and management positions.

Welch served as a local WTU manager in Aspermont, Wellington and Alpine from 1967 to 1976. He then was promoted to assistant district manager at Stamford and later served as district manager at Stamford.

In 1982, he moved to WTU's General Office in Abilene and was named executive assistant. After a few months, he became vice president of operations and engineering, presiding over the utility's operations for a service area that stretches across more than 53,000 miles in 52 West Texas counties.

During his career at WTU, he also served in many leadership capacities in civic and regional organizations. While in Stamford, he was a director of the Rotary Club and was a director of the Lion's Club in Alpine. In Wellington, he was president of the Kiwanis Club.

Welch serves on the board of directors of the Fairway Oaks Country Club in Abilene, the West Texas Rehabilitation Center, the Ben Richey Boys Ranch and Texas Cowboy's Reunion at Stamford. He also served on the Worker's Compensation Task Force of the Texas Chamber of Commerce.

Welch is known in West Texas as a strong advocate for the importance of enhancing and developing the West Texas agricultural economy, and his devotion to the region is seen in his approach to WTU business and providing superior customer service.

He once said in a presentation to employees that, "It comes as no surprise to any of you that our customers have pretty high expectations for electric service. What we have to do is match their expectations for service with our ability to provide service at a reasonable price," he added.

Welch has shown a keen sense of what the customer expects, and he also has recognized that WTU's employees are key to delivering service to meet those expectations.

"Communication is the key. When our customers come in contact with us, they are telling us that something is important to them and we better believe it," Welch told employees recently.

Report Card on TV Violence

It is bad enough that television seems to have changed the American child from an irresistible force into an immovable object. But the level of violence in American TV programming makes this attachment to the TV set even more destructive.

The average American child witnesses 100,000 acts of violence and 8,000 murders on television before leaving elementary school. It is an indisputable fact that this kind of programming not only monopolizes children's attention, but has made American youngsters — like our society as a whole — more cynical, prone to violence and desensitized to its real-life horror. Study after study has shown this to be the case.

I believe Americans are fed up with the violence in their streets, schools and on TV. So I have introduced a bill that would provide parents with the kind of information they need to guide their children's TV viewing habits away from violent programming and toward shows that can entertain kids without corrupting them.

This legislation is simple and involves no government censorship. What it would do is fund the preparation and distribution of a "report card" on TV violence, using current research data which is generated by a variety of universities and private research foundations, as well as the industry itself.

It would be even better if this could be accomplished in the private sector. I hope introducing this bill will spur the private sector to make such information available.

But, bottom line, parents need help. They could use the information to determine what programming they think is appropriate for their children. Exercising such guidance is, first and foremost, a family matter. I oppose direct government interference with television programming decisions, as do many of my colleagues in Congress. I believe we have little Constitutional authority to tell television programmers what to broadcast as we have to tell newspapers what to publish.

But I feel strongly that it is appropriate for government to find ways to help parents use available information effectively so they can make informed programming choices for their children. The bill I have proposed meets that need in the least intrusive way.

We hope the effect of making this information available will be reduced viewership of violent programming, thereby influencing programming content without mandating changes.

My bill would authorize the Secretary of Commerce to award a grant to a university or other not-for-profit organization to gather and analyze research into television programming content and publish its findings in an easy-to-read and easy-to-access format four times a year. These TV violence "report cards" would be publicized and made widely available to the public.

To the fullest extent possible, parents and consumers should be empowered to choose which television programs they consider appropriate for their children — and to turn off the set when programming they consider too violent is aired. With such information, parents could select programs with themes and ideas which reinforce their family's values.

Given the proper tools, parents can make informed decisions that allow them to take charge of their TV sets. And given the proper tools, I believe they will.

Prosperity doth best discover vice, but adversity doth best discover virtue.

Shocking Treatment For Kidney Stones

As anyone who has ever had a kidney stone knows, they can cause agonizing pain. What you might not know is that surgery requiring an incision is rarely used to treat them any more.

Intense back or abdominal pain occurs when a kidney stone — microscopic crystals made mostly of calcium — blocks urine outflow from the kidney or gets stuck in the ureter, a narrow tube connecting the kidney and bladder.

A tendency to form kidney stones can be inherited, but most stones can be prevented or the rate of new stone formation slowed by changes in diet or by medication or both, says Dr. Margaret Pearle, assistant professor of urology at UT Southwestern Medical Center at Dallas.

The most common treatment for kidney stones is shock-wave lithotripsy, a procedure that breaks the stone into sand-like fragments which then can be passed during urination.

Texas A&M Profs Write Accounting Thrillers

COLLEGE STATION - Super sleuth Lenny Cramer is back and Moses McDonald makes his debut in two teaching novels written by Texas A&M University professors.

Cramer, the fictional professor turned forensic accountant, returns as the main character in the book "In Costly Reflections in a Midas Mirror" — the fifth such book co-authored by Dr. Larry Crumbley, aka Iris Weil Collett (IRS Will Collect, get it?). McDonald is the fictitious marketing professor and consultant who makes his first appearance in "The Bottom Line is Betrayal," co-authored by Crumbley and the husband and wife team of Drs. L. Murphy and Kathy Smith.

Crumbley says the accounting thrillers (not an oxymoron, he assures) add spice to ho-hum subjects, dispelling the stereotypical image of accountants as "bespectacled wimps".

The books' combination of fraud, murder, intrigue, collectibles, ethics and business topics helps students better learn complex business issues, Crumbley believes.

AARP Chapter 4774
The Senior Side
By Betty Bullard

Hi. We are about three weeks into summer, and I am tired of the heat already. I like spring and fall, the cooler seasons when the atmosphere invites you to get out and do something active. This year we will be better off outside than inside trying to watch television. The 96 political season will start this fall, and you know what that does to television programming.

I understand the "Texas Tycoon" has not decided about running for office this year.

When he first came on the scene as a politician, I thought "Hurrah", here we have a successful business man, a Texan, a God fearing family man and a philanthropist. You just can't get any better than that.

I watched all of his debates, listened to and believed every thing he said, until he told the tale about five armed, masked men coming on his property to assassinate him. His dogs bit one of the assassins, taking a large bite out of his rear and dropping it on the lawn. You know, I just can't believe anyone would sell their services to take a human life but would not

protect oneself from an attacking dog. He believed what his gardener told him and lost his credibility with me.

I still think he is right about a lot of the things he says and supports, but he let his vendetta against the then president get in the way of good common sense, listening to rumors and tales, drifting further and further from the plausible and ever closer to the fanatic. That's why I will not join his club; I do not want my name (vote) used as leverage, a battering ram, threat or hold over another party's head. My one little vote does not mean a whole lot, but I will put it where I want it to go.

If you are a senior citizen, come on down and join us in AARP and put in your two cents worth.

We Can Promote Good Health Without A Surgeon General

Several weeks ago, the U.S. Senate was the site of a heated debate centered around President Clinton's nominee for Surgeon General, Dr. Henry Foster. While the senators considered the merits of naming Dr. Foster as the nation's Surgeon General, I began wondering why we need a Surgeon General at all.

I asked some questions: What role does the Surgeon General play in developing health care policy? How much duplication and overlap is there in the government's efforts to promote good health? Could the Surgeon General's office be eliminated without causing a backlash in public health?

First of all, I looked at the Surgeon General's function. The Surgeon General is part of the Public Health Service which is part of the Department of Health and Human Services. The Surgeon General's primary responsibility is to tell you that smoking is unhealthy, eating fast food 10 times a week will clog your arteries and make you fat and that unwed teenage girls should try to avoid having babies. The Surgeon General does not actually play a role in public health policy formation, but instead serves as a national spokesperson for health

issues.

Which leads to my next question. Is there duplication or overlap in the area of health promotion? As part of the Public Health Service, the Surgeon General works with the Assistant Secretary for Health, the Principal Deputy Assistant Secretary for Health, the Deputy Assistant Secretary for Health Communications and many, many other people with long titles. I am quite certain that some of the duties in these positions overlap with those of the Surgeon General and can be consolidated.

After studying the Office of the Surgeon General, it's clear to me that Congress should eliminate the Surgeon General and save the taxpayers nearly a million dollars a year. The Centers for Disease Control and Prevention, the agency located in Atlanta, GA, and charged with protecting public health and educating the public about disease prevention, serves a much more important function and could easily take over the public relations aspect of the Surgeon General.

Our nation will continue to promote good health and help families prevent and control disease, with or without a Surgeon General.

Texas Railroad Commission Report

The Texas Railroad Commission issued a total of 996 original drilling permits in June compared to 1,160 in June 1994. The June total included 719 permits to drill new oil and gas tests, 40 to re-enter existing well bores and 237 for re-completions. Total drilling permits issued in 1995 year-to-date is 5,635, a six percent increase from the 5,286 issued during the same period of 1994.

Permits issued in June included 423 oil, 201 gas, 329 oil and gas, 41 injection and two other permits.

In June operators reported 346 gas, 393 oil and 40 injection and other completions, compared to 338 gas, 327 oil and 34 injection and other completions during the same period of last year.

The total of well completions recorded for 1995 year-to-date is 4,242, a six percent increase from the 3,968 recorded in 1994.

Operators reported 540 holes plugged and 86 dry holes in June, compared to 1,484 holes plugged and 126 dry holes reported during the same period last year.

Texas preliminary April crude oil production averaged 1,394,150 barrels daily, down from the 1,477,854 barrels daily average of April 1994.

The preliminary Texas oil production figure for April is 41,824,191 barrels, down from the 44,335,609 barrels reported in April 1994.

Crockett County reported 262,846 barrels produced during April. Texas oil and gas wells produced 455,061,080 Mcf (thousand cubic feet) of gas in April, down 0.39 percent compared to April 1994's gas production total of 456,834,577 Mcf.

Texas gas production in April came from 167,251 oil and 48,104 gas wells.

Crockett County ranked seventh in the state with production of 10,817,099 Mcf.

A Bright Way To Fight Crime

Americans across the country will turn on their porch lights Aug. 1 in support of National Night Out, "America's Night Out Against Crime". Bright lights are one important ingredient in a proven recipe against crime. "National Night Out is a good opportunity for citizens and law enforcement officials to form powerful partnerships in a fight for a safer America," said National Night Out Project Coordinator, Matt Peskin. "This is one recipe that criminals can't stand," Peskin added. National Night Out is a project of National Town Watch which is based in Wynnewood, PA.

WTU supports National Night Out, which is designed to heighten crime and drug prevention awareness and generate community participation in local anticrime efforts. The program also helps strengthen neighbor-

hood spirit and police-community relations. The final ingredient in this recipe against crime is a strong message to criminals, letting them know neighborhoods are organized and are fighting back.

Citizens are encouraged to take the lead and involve their neighborhoods by organizing a National Night Out block party or town meeting. Event leaders should seek participation of law enforcement officers in the form of demonstration of home/neighborhood safety programs and projects. Children could be encouraged to participate by designing posters and yard signs.

National Night Out's menu for success would also include meetings with your neighbors on a regular basis after the Aug. 1 event.

For more information on National Night Out, contact WTU or a law enforcement facility.

Odessa Museum Exhibits Feature On Roosevelt

Theodore: His Life & Times is a feature exhibition on display at the Presidential Museum in Odessa through Aug. 26.

During his lifetime, Theodore Roosevelt was called "the most interesting American", and still retains the capacity to fascinate his fellow citizens. Politician, president, author, hunter, conservationist, soldier, world statesman and exponent of American values - Roosevelt embodied the energy, creativity and social turmoil of the United States in the Gilded Age and Progressive Era.

"There are at least two Theodore Roosevelts: the one mythic, the other the real man of history." In these words, John Gable, director of the Theodore Roosevelt Association, summarizes the challenge of gaining a clear perspective on the dynamic President who

made the nation's first claim to world power. Amidst the challenges of a growing nation becoming an industrial power, President Roosevelt also had the bold foresight to begin protecting the American wilderness. The main attributes of the President called Theodore are revealed at the Presidential Museum. *Theodore* is based on the written words of the 26th President of the United States; it was first incorporated into an educational exhibit format by the Lyndon Baines Johnson Library and Museum. The photo and text panel exhibit is being circulated by the Texas Humanities Resource Center, Austin.

The Presidential Museum is located at the corner of 7th and Lee Streets in Odessa. Admission is free; however, donations are appreciated. Call 915 332-7123 or 1-800-862-7123 for more detailed information.

Sierra Club Promises Tough Election Fights

The director of the Sierra Club Lone Star Chapter promised in early June to target state lawmakers who opposed environmental legislation in the last session. Ken Kramer, Sierra Club director, told reporters that the progress of environmental legislation was not going anywhere "with the personnel we have in the legislature

right now." Several issues were opposed by consumer and environmental groups during the last session, particularly legislation allowing property owners to sue the state government over regulatory actions that may devalue their holdings by at least 25 percent.

Methodist Church Holds Bible School

By Neal Ulmer
Stockman Reporter

Ozona United Methodist Church held its vacation Bible school July 12 with 36 children attending in four age groups.

Vacation Bible School coordinator Becky Childress said, "We were really pleased with the number of children and volunteers that made our Bible school turnout to be a great success."

The four age groups were: 4-5 year olds, first and second grades, third and fourth grades and fifth and sixth grades. Each group went to a different activity.

The theme of the Bible school was "Turn About Paul" which involved the study of Paul on the road to Damascus and his turn around in life. The groups enjoyed the activities of recreation, music and arts and crafts.

New Illegal Drug Moving North

A drug which had previously only been seen along the Mexican Border has now spread northward in Texas.

Manufactured by Hoffmann-LaRoche and a member of the benzodiazepine family, Rohypnol is moving northward in Texas very quickly. It is a legal drug in much of the world, but is illegal in the United States. Although chemically Rohypnol is a "downer" (it is used for short-term treatment of insomnia), it has a paradoxical effect and users can become aggressive and do things like slam dancing, which can be physically damaging since participants do not know when they are hurt.

It produces amnesia and is sometimes known as "The Forget Pill". Rohypnol is also called Rhoopies, Ruffies, and Roche, or in Texas, R-2, Mexican Valium, Rib or Rope.

The number of cases reported by the state police lab on the lower border involving Rohypnol has gone from 31 in 1991 to 53 in 1992, 124 in 1993, to 197 in 1994.

This year, through March 24, there were 64 reported cases. In February, more than 57,000 tablets of Rohypnol, packaged in bubble packs, were seized in McAllen, along with 53 pounds of marijuana. The drugs were

obtained in Mexico and were destined for Florida. Also that month more than 52,000 tablets, packaged loosely in plastic bags and located inside a car door, were seized in Louisiana.

The drug has now become popular in the Houston area, and an Austin area school district reports that it is "all over" the schools.

Reports of Rohypnol abuse in the United States were first documented in June 1993. At that time Rohypnol was seen only in south Florida, where it has now become the fastest growing drug problem. Its use has spread north through Florida and west in Alabama and Mississippi.

Although the use of the drug is relatively new to the United States, it was introduced in Europe in the 1970s.

Use is almost always in combination with beer and other drugs, and experts warn that it could be a gateway to use of a harder drug and other combinations of drugs. Many of the users are involved in gangs.

The agency monitors drug use trends to identify new drugs and different use patterns so state and local agencies can plan ahead to meet changing prevention and treatment needs. TCADA participates in the national Community Epidemiology Work

Group, which is sponsored by the National Institute of Drug Abuse, and sponsors the Texas Epidemiology Work Group.

Once physical dependence has developed, abrupt termination of the drug will result in withdrawal symptoms such as headache, muscle pain, extreme anxiety, tension, restlessness, confusion and irritability.

Higher doses may induce amnesia. Adverse behavioral effects include restlessness, agitation, irritability, aggressiveness, and more rarely, delusion, rages, nightmares, hallucinations, psychosis and inappropriate behavior.

Withdrawal seizures can take place seven or more days after use ceases.

Clients in treatment require medical detoxification with withdrawal consisting of tapering off using other benzodiazepines.

One of the Texas Commission on Alcohol and Drug Abuse's objective is providing information on the incidence and prevalence of substance use, problems and unmet needs across the state.

Education is the best provision for old age.

Cattlemen's College Leads Off Beef Short Course

COLLEGE STATION - For the first time, the Texas A&M Beef Cattle Shortcourse will feature a Cattlemen's College prior to the shortcourse opening.

The Texas Agricultural Extension Service will offer a full range of preconference workshops focused on specific aspects of beef operations. Part of the Cattlemen's College program will include an introduction to Quicken computer short course, Beef Farm Management - 401.

Extension economists Stan Bevers and Ken Stokes will teach both new and experienced computer users the features of Quicken Version 8, a popular checkbook computer program, in a financial record keeping workshop. Scheduled for Monday, Aug. 14, 1995, from noon until 5 p.m. in Rudder Tower, Room 701, the workshop covers the basics of setting up accounts, entering transaction and generating reports.

The class is limited to 50 participants with no more than two people sharing a computer.

"While the pace of instruction will be geared to the new computer user, current Quicken users will discover many features they've been overlooking," said Bevers. Participants

are encouraged to bring their own computers to the workshop.

Stokes and Bevers have taught Quicken and other computer applications to farmers and ranchers across the state for many years. "Vast improvements in low-cost financial software have made them far easier to learn," said Bevers.

"Participants will enter transactions in the register and write check screens. They'll learn to categorize by type of income and expense, to split and memorize transactions and to develop meaningful reports. While features of the DOS version of Quicken will be covered, persons currently using a Windows version will also benefit from this course."

The Beef Cattle Shortcourse begins with registration on Monday, Aug. 14, and sessions will be held Aug. 15-16.

Registration for this workshop is \$40 (in addition to the \$60 Short Course registration). Limited enrollment is on a first-come, first-served basis. To register for Beef Farm Management - 401, contact Larry Boleman, Extension beef cattle specialist, or Jana Pound, Texas A&M University, College Station, Texas 77843-2471, telephone 409 845-2051.

TAMU Beef Cattle Shortcourse Focuses On Producer Survival

COLLEGE STATION - With cattle producers facing tough times, the 41st Annual Beef Shortcourse will focus on strategies for survival. A Cattlemen's College will be held prior to the shortcourse. See related story in this issue.

Held at College Station Aug. 14-16, the shortcourse's official title is Survival 2000: Tough Decisions for Tough Times.

"Everything producers have to buy has gone up while cattle prices have gone down. There were 40 percent fewer cattle operations making a profit in 1994 than in 1993," said Randall Grooms, professor and Texas A&M University Extension livestock specialist.

"Moreover, there's every indication that times will get tougher before they get better," said Grooms, one of the shortcourse's coordinators.

Working on the philosophy that the best way to teach survival is to look at what the survivors are doing, the core of the shortcourse will be presentations by five producers who appear to be making a go of the cattle business despite low cattle prices and higher costs of production. Also on the agenda is a livestock marketing operator.

The five producers include managers and/or owners of large and small operations, both purebred and commercial.

Charles Schroeder, a purebred and club calf producer at Taylor, will tell how he plans to survive the price crunch.

M. J. Florence, a small cow/calf producer at Price, will tell what small cattle breeders can do to adjust to low calf prices.

Paul Genho, a large commercial operator, will tell what he has done to

cut production costs. Genho manages Desert Ranches near St. Cloud, FL. With more than 33,000 cows, Desert Ranches is the largest cow-calf operation in the United States.

Jim Theeck, a commercial producer from Brenham, will give a presentation titled "The Optimum Cow - what should she be to get the job done and make you money?" Theeck is the largest breeder of quality replacement heifers in Texas according to Grooms.

Connie Quinn, South Dakota rancher, will talk about getting back to the basics of managing beef cattle for profitability.

Ken Jordan, a livestock market operator based at San Saba, will describe the type of calf that producers need to raise today to be profitable.

The shortcourse will open at noon on Monday, Aug. 14, with trade shows, workshops and seminars. The shortcourse general session will begin at 8 a.m. on Tuesday, Aug. 15, and finish by early afternoon the next day. The pre-registration fee of \$60 per participant and \$40 per spouse will include a lunch Tuesday, a prime rib dinner Tuesday evening, a barbecue lunch Wednesday, pastries, coffee and refreshments during the breaks.

Participants may preregister by mail, fax or telephone.

Mail registration to: Larry Boleman, 114 Kleberg Center, Texas A&M University, College Station, Texas 77843-2471. Boleman's voice phone is 409 845-2051. His fax number is 409 845-2942.

After Aug. 10, the registration fee will be \$70 per participant and \$50 per spouse.

The Texas A&M University Beef Cattle Shortcourse is the largest event of its kind in the United States. In 1994, more than 1,200 cattle producers attended.

Economic Injury Disaster Loans For Small Businesses

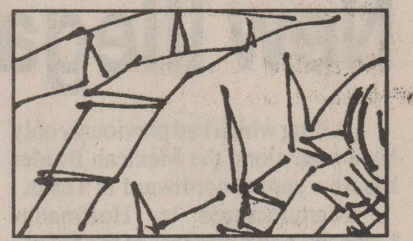

SAN ANTONIO - July 6 - Businesses depending on farmers and ranchers in Brewster, Crockett, Pecos, Terrell and Val Verde counties can now apply for low interest economic injury disaster loans from the U. S. Small Business Administration. These loans are available to help businesses meet normal operating expenses that cannot be met due to the effects of a disaster. Drought which occurred Aug. 19, 1994, and continuing caused many farmers and ranchers to experience reduced incomes which may have had an adverse economic effect on businesses depending upon these producers. Farmers and ranchers are not eligible for this loan program but may be eligible for disaster assistance through other Federal agencies. However, nurseries that are victims of drought disasters can apply.

To obtain an application or receive additional information, interested business owners may call the SBA toll-free at 1-800-366-6303 or TDD 817-267-4688 for the hearing impaired. The deadline for filing applications is Jan. 24, 1996.

Due to the drought, many producers experienced losses and were not able to purchase goods and services at normal levels. Businesses that are dependent upon these producers may have experienced decreased sales, reduced gross profit margins, increased accounts receivable or difficulty in moving inventories at normal levels.

To the extent these problems have caused the business difficulty in meeting its normal obligations, these loans may be of assistance. The loan can help a business meet installments on long-term debt, accounts payable and overhead expenses that would have been met had the disaster not occurred. Refinancing of long-term debt, however, is not eligible under this program. The loan is designed for those businesses with substantial disaster-related needs and is intended to supplement monies the business owner can provide from other sources.

Loans may be approved for up to \$1,500,000 for actual disaster-related financial needs of the business. Interest rates are four percent and terms may extend to thirty years, depending upon the repayment ability of the individual applicant. To qualify, businesses must be small by SBA's size standard. Businesses which can meet their financial needs through other sources are not eligible.

The leaves of the raffia palm tree grow up to 65 feet long and eight feet across.

We'll make your money grow -- right here at home

When you make a deposit we make your money grow by passing it around the community. Your deposits may help finance needed equipment, buy livestock or put up a house. Some of your money may finance a vacation, buy a car or provide for a college education.

We loan money back into our community making it a better place for all of us.
