

## HERE AT HOME

By J. M. FORBES

Senator Price Daniel writes:

### Texas Cotton Allotments

Texas has 42% of the entire cotton allotment for the nation. This is because of the fact that our State has grown about this percentage of the cotton produced in the nation for many years.

Texas cotton farmers are both large and small. In Central and East Texas we have 18,000 farms with less than 5 acres allotted to cotton. In West Texas we have nearly 2 million acres of irrigated cotton land, with farms ranging from a few hundred to a few thousand acres. When a special increased allotment was proposed for irrigated lands in four western states, California, New Mexico, Nevada and Arizona, it was discovered that West Texas has more irrigated cotton lands than all of these four states put together.

### ALEXANDER MERRIWEATHER SCREWDRIVER, MULESHOE

Herb Griffiths, the grain man, who wants to be president (of the Jaycees), found this juicy item, an AP dispatch from Tulsa, and fetched it in:

"What's your name?" Detective Capt. Harry Stege and Detective Bob Forche asked the man in a routine check of taverns.

"Alexander Merriweather Screwdriver and I'm from Muleshoe, Texas," was the reply.

The disbelieving officers took the man to police headquarters for a further identification check. The man was released after his Social Security card, driver's license and other identification showed he was Alexander Merriweather Screwdriver of Muleshoe, Texas.

## Trailer Court Ready By April 9

Installation of a modern trailer court here, which will have room for 50 units, is being announced this week by Mr. and Mrs. Ollie Jones, proprietors of Muleshoe Courts.

Mr. Jones said the court will fill a great need. Many persons who are members of construction crews these days use trailer houses and require a place with proper sanitation and with other conveniences, where they may live during their stay in the town.

The court will be completed by April 9 or earlier. It is located two blocks east of the West Plains Hospital. Mr. Jones said good sewer facilities are available and the court will have electricity; it will be floodlighted at night.

Mr. and Mrs. Jones have owned and operated the Muleshoe Courts, which they built since 1948.

## MHS Takes Dist. 5-A Drama Competition

Muleshoe High School's dramatic department ran away with virtually all honors at the District 5-A one-act play contest held at Littlefield last Friday night.

"Circumstances Alter Cases" the local production placed first and four out of five MHS players were placed on the all-star cast. Bobby Nelms was named Best Actor and Bettie Collins Best Actress. Mary Alice Baker and Keith Burman were on the supporting cast. Second place Littlefield rounded off the honor group.

This year's play was under the direction of MHS speech coach Charles D. Clair and student director Darla Myers. Costumes were by Barbara Douglass and Ginger Gaede. Make-up by Mary Lou Lambert and the completed cast included Karolene Towns.

Regional competition will be at Odessa on the 16th of April.

## Senior Play Set For Next Friday

"We Shook The Family Tree", the Senior class production for 1955 will be presented next Friday night at 8:00 p.m. in the local High school auditorium.

A delightful three act comedy, the play promises to send a laugh a minute the audience's way. Starring as a crazy mixed up teenage girl will be Wanda Cherry. In her role of Hildegarde, Wanda proves just how little it takes to start the rumors to flying.

Billy Ellis will portray Freddie, a boy who is old enough to go to the Junior prom, but is still wearing short pants. It wouldn't be so bad but Hildegarde's mother, played by Mona Mitchell, thinks he would make the ideal date for her daughter.

To really top the whole thing off, Hildegarde has the whole town thinking that her father, played by Wayne Bristow, is a drunkard who beats his wife and children.

You won't want to miss seeing all the above students and a supporting cast including: Bettie Collins, Sut Actkinson, Barbara Douglass, Wanda Joyce Clements, Clinton Dillard, Keith Burman, and Jimmie Wilkerson as the play unfolds at a hilarious whirlwind pace.

Admission will be one dollar for reserved seats, general admission will be 75c for adults and 50c for children.

## Cooperation On Bus Law Asked

Sheriff Hugh Freeman has asked the cooperation of all the people in observing the law against passing a school bus when it is stopped to let children on or off.

He said he has had several complaints about the matter. Mr. Freeman pointed out the law requires that a motorist come to a complete stop and then he may proceed "with caution." "Close cooperation and observance of this law will be greatly appreciated by all concerned," the sheriff said.

Letters To The Editor:

## Jaycees Endorse Article On Needs Of Community; Will Work To Get Them

Mr. J. M. Forbes, Editor  
Muleshoe Journal

In regard to your article in a recent edition of the Muleshoe Journal concerning some of the pressing problems and urgent needs of our town. We would like to tell you and the people of Muleshoe that the Muleshoe Junior Chamber of Commerce wholeheartedly agrees with your statement. We feel that the people of Muleshoe realize the great need for immediate action on someone's part to carry these things out.

The Muleshoe Jaycees are proud of our town but we want to make it a better town and we feel that it is our obligation to work toward that objective and the Board of Directors of the Muleshoe Junior Chamber of Commerce have been authorized to state that the Jaycees, starting a new year April 1, 1955, will dedicate the coming year to make our main projects Civic Improvement. By this we mean that we will work untiringly toward seeing that Muleshoe in the near future can have:

1. A modern labor camp to house sufficient numbers of migratory farm workers.
2. A large full scale paving project.
3. A modern sewage disposal plant.
4. The necessary ordinances required to eliminate the highly unsanitary conditions here, such as — outdoor toilets; open garbage cans; stray dogs; the keeping of cows, hogs, etc., in the city limits. Also the elimination of our No. 1 disgrace . . . the filthy conditions of our alleys and streets.
5. Building, electric, and plumbing codes. This is the only town of this size that we know of where anyone can go into any part of town, even in the business section and build or move in any type of building or business they so desire. As far as we know under the present ordinances any one could operate a glue factory or put in a wrecking yard right on main street if they wished to.
6. The extension of city limits and the extension of water and sewer mains to those areas adjacent to Muleshoe proper where there are enough people to warrant such action.
7. A large housing project. This we think is most important to the growth and development of Muleshoe. There is no doubt a serious shortage of houses here, particularly in rental units. We hope to encourage some builder with the foresight and the means to develop some type of such a project.
8. Recreation Center. This perhaps is the most important of all; certainly our children need this and we can think of no better way to help our community than through the development of such a center.
9. An annual published audit of city books and financial transactions.

We realize that all this will cost money, lots of money. In fact we can already hear the anguished screams of those who think only of taxes. We also realize that this will cause extra work on the part of city officials and all others concerned but we believe that this is their job and if they are unwilling to do this they should step aside and let someone help who IS willing.

We're young men who live and work here, own homes and businesses here and we intend to stay here the rest of our lives. It is the young men of this town who will have to pay the taxes that will be required in the future and we the Jaycees are certainly willing to pay our part in making Muleshoe as clean, modern and progressive as we possibly can.

We would be grateful for your support and everyone else's support in these projects that we intend to commit ourselves to. We think we're doing the right thing and in the right way and we hope that the future will prove it so.

SIGNED: BOARD OF DIRECTORS  
Muleshoe Junior Chamber of Commerce

## Rotarians Plan For Conference

Dr. Kenneth McFarland

Dr. Kenneth McFarland, Educational Consultant and Lecturer for General Motors Corporation, is one of the featured speakers on the Golden Anniversary Conference of District 183 of Rotary International, to be held in Midland April 10, 11 and 12.

An airline official recently described Dr. McFarland as America's No. 1 Air Passenger. "Dr. McFarland sees more people in more different places in the United States and Canada than any other American," he said.

Muleshoe Rotary Club is making preparations to send a good delegation to the Rotary 183rd District Golden Anniversary Conference, to be held in Midland, April 10, 11, and 12. Ralph Mardis has been named chairman of the conference committee.

Some likely will go down for the entire convention, others will attend at least some of the sessions.

THE WALLS CAME TUMBLIN' DOWN: Charles Moses, barber, and Bob Burkett, real estate, both next door neighbors seem interested in the adobe blocks that made the walls of old buildings on Main Street razed to make a modern new brick building for the Moeller Estate. Adobe walls served a purpose in the early days of the Plains but now are pretty well passe.

## MHS Track Team Wins Clovis Meet

Coach Bill Taylor's MHS Mules chalked up their first field-track victory of the '55 season at Clovis, N. M., this past Tuesday afternoon. While totaling the winning 37 points the locals made a brilliant showing against teams from Floyd and Clovis, N. M., and Farwell, Texas.

Gaylord Tate led the Mules to victory, scoring 16 1/2 points for his share of the day's work. Tate won the 100 yd. dash in 10.9, the 220 in 24.6, the 440 at a 56.6 clip and ran as anchor man on the first place mile-relay team. The relay team timed 3:53.5.

Next man behind Tate on the 440 yd. run was Muleshoe's Louis Wimberley, who clocked 58.7.

Doyle Henry also made his presence known by winning the 880 yd. run and taking a leg of the mile relay. Henry ran the 880 in 2:15.8, and was followed by Eddie Wilt of Muleshoe who managed to edge third place Goff of Floyd, N. M.

Charles Jennings came up to place third on the mile run with Clovis' Davis taking the long distance honors with a 5:16.6 time. Jackie Tidwell was consistent placing third in the high and low hurdles. Jimmy Allison settled for the third notch in the discus throw.

This Saturday the boys will face perhaps their toughest competition thus far when they journey to the "relays" at Panhandle, Texas.

## New Construction In Business Dist.

Progress continues its march in Muleshoe with major changes taking place in the business district of the town. Three buildings constructed of adobe brick in 1922 have been wrecked on the north end of Main St., and the Moeller Estate is now planning to construct in their place two modern new business houses.

Buildings previously on the property housed Hunke's Electric, Sanitary Barber Shop, and Spence Radio. Remund-Wilson Dry Goods will occupy one of the new constructions, the other at this date remains vacant.

Each of the new constructions will feature a very modern 40 ft. front and will be 120 ft. deep. Hunke Electric will reopen soon in a new location across from King Bros. Elevator, north of the tracks.

## Band Choir Tours Surrounding Area

Muleshoe High School's band and choir made a tour of rural schools in and around Bailey County Tuesday which included Bula, Threeway and Lazbuddie. The excellent program in two parts was received enthusiastically by each audience.

Bula was the day's first stop, the group was served dinner at Threeway, and rounded off the day at Lazbuddie.

Under the direction of Norvil Howell the MHS band will go to contest at Plainview on the 30th of April.

### Letters To The Editor

#### BLAINES TO VISIT HERE

Dear Editor:  
We have missed The Journal so much these three months. Enclosing check for renewal. We love it here in Sherman—no sand and lots of rain. We are

enjoying our church here and we love the friendly people here. We are all looking forward to our visit there on May 8 for the First Baptist Church Dedication Day.

THE A. W. BLAINES.

#### LONESOME FOR PLAINS

Mrs. Hugh Bayless, now living at Ennis, writes to have her address changed. They long for the Plains, it appears from verses she penned but which we could

not print at this time. The Blaines still seem to be enjoying the rains; but Mrs. Bayless' verses indicates she might enjoy a nice Muleshoe sandstorm as a change from the "dreariness and dampness."

### Don't Drag Your Feet

By Rev. Carrol M. Jones

For the past several weeks The Muleshoe Journal has carried an inspiring invitation to its readers to renew their faith and find spiritual strength in regular worship at the church of their choice. This weekly invitation (see the attending reminder) is characteristic of the Journal's generous support of every worthy endeavor.

We need also to know that this weekly message picturing the tall spire of the church is part of a nationwide church attendance crusade extending from January first to Easter. It goes with the message you have seen on the bill boards along the highway, "Light Their Lives With Faith".

"Not by might nor by power, but by my spirit sayeth the Lord," is the wisdom of the ages. No institution has contributed more to American life and Christian culture than the church. No fair minded individual can deny that he is to a large degree the product of the culture in which he lives. Every true value held dear by American people is nurtured and sustained by the church. Even the much prized U. S. dollar says, "In God we trust".

In one way after another the future of the race is bound up in the church. Many can criticize it, but none can take its place. It represents God in our society as no other institution can. Surely we do not suppose that our many problems—world peace, crime, a fair distribution of the world's produce, equality in social and economic opportunities—will be solved outside of God's will. Only as we find His will in such matters and do it can we hope for any lasting solutions. We shall not succeed contrary to His will but in accordance with His will. Surely our hope is in this direction.

Then let us not drag our feet

in the matter of church attendance and church support. Just as everyone shares in the good things the church represents, let everyone share in the responsibilities that so necessarily follow. May we all accept the invitation

of the church to find strength and courage and faith Sunday by Sunday in its sanctuaries in the worship of God. GOD IS OUR STRENGTH. May we so order our lives. See you in church Sunday.

### Professional Wrestling Bill Again Offered Local Fans Here Saturday

Muleshoe's Junior High Gymnasium will again be the scene of a professional wrestling match

Saturday night, with a double main event bringing in four well known athletes.

Bob Clay of Muskogee, Okla., meets veteran Ray "Big Train" Clements of Lubbock, Texas, in the top match of the evening.

Billy Weidner of Amarillo, formerly of Boston, Mass., where he was known as one of the "Boston Strong Boys", goes against Tough Tony Ross, a three-quarter Chippewa Indian from Salem, Oregon, in the first of the two twin features.

Each match is scheduled for two best falls out of three or one hour.

First of the two main events brings Billy Weidner, formerly one of the "Boston Strong Boys", a title given to a group of wrestlers in Boston, Mass., who specialized in muscular strength, against Tough Tony Ross, a three quarter Chippewa Indian from Salem, Oregon.

Ross, big, strong and unscrupulous, may get a lesson in wrestling science from veteran Billy Weidner. On the other hand, Ross' youth and speed may be more than the strong arm artist can handle. It's apt to be an interesting match.

Bulldog Clements, as the "Big Train" is sometimes called since he sort of resembles a bulldog's features in his ring appearance, is a veteran in professional wrestling and still one of the toughest. He was brought up in the old school of "might makes right", but he may have to reconsider when he meets reliable and tough Bob Clay of Muskogee, Okla., in the feature match of the twin event.

### Twenty Members Attended Lodge

Twenty members and two visitors were present as the Needmore Rebekah Lodge met at the hall Tuesday evening.

Mrs. Lillie Alexander, president of the Rebekah Assembly of Texas was unable to attend the meeting as had been planned, but will attend the meeting next Tuesday evening.

Following a business hour, refreshments of salad, cake, and coffee were served.

Those present were the visitors, Mr. and Mrs. Powell of Levelland, and members, Marie Allen, Thursie Reed, Maxine Ragsdale, Ruby Faubus, Betty Hopper, Ida Givens, Gertrude Broyles, Anna Surratt, Ruby Brashier, Dorothy Westerman, Adele Thompkins, Laura Martin, Jane Harris, Jessie Waldrop, Sarah Griffith, Mary Shackelford, Maude Young, Juanita Busby, Roy Brashier, and Alex Green.

#### BLAZER STRIPES

A group of cotton separates by Jo Collins of St. Louis shows the influence of the young look of the twenties fashion era. Designed in a new, non-wrinkling cotton, the midly top of this smart outfit is done in blazer stripes, while the skirt is solid. Wrinkle-resistant cottons are favorites because they are as practical as they are pretty, National Cotton Council fashionists say.

### Brown-Watkins Motor Co. Opens

"Sikie" Watkins, previously a Bailey County farmer and Murrell Brown, formerly employed by Fry and Cox Co., of this city, recently formed a partnership and opened Muleshoe's newest automotive dealership (Lincoln and Mercury).

Watkins says the firm under the name of Brown-Watkins

Motor Co. plans to keep a large stock of new and used cars so that the customer will have a wide choice of color and body styles.

Their specialty will be irrigation motors and repair work. Both "Sikie" and Murrell have lived around Muleshoe most of their lives and for a good many years have been active in the local Junior Chamber of Commerce. Brown is a past president of the Muleshoe JayCees and Watkins is now on the State Board of Directors.

Both men are married. Brown has a girl, Kay, and his wife, Doris, teaches in the Muleshoe public schools.

"Sikie" was graduated from MHS in 1943. His wife, Elaine, is a former Muleshoe school teacher.

For the past ten years Brown has served Fry and Cox, as manager. He is a member of the local Church of Christ. Watkins is a member of the First Baptist Church here.

If you want to do business with Brown-Watkins, phone 6640 or drop by their offices south of the cross-roads on the Morton highway.

### Instruction In Local Schools Being Appraised

A study and appraisal of the program of instruction in Muleshoe schools currently is underway. It's a self-appraisal, Jerry Kirk, superintendent told the Rotary Club in a talk before the group Tuesday.

He said teachers and administration personnel are conducting a "grass roots" study of revisions which might be made in the curriculum. "I, for one," he said, "would like to see less required subjects, more vocational instruction." But, he said, much of the policy on curriculum is made at the state level; however, local school people can influence the general trend.

He would like to see more

children taking subjects in which they show a definite interest, rather than to be required to study subjects in which they have only an academic interest.

Mr. Kirk gave those present a briefing on the situation in the schools as regards housing. Construction on the new junior high school and on the lunch room addition is proceeding satisfactorily. The sixth, seventh, and eighth grades will be included in junior high, leaving the two older buildings for the first five grades. There has been an increase of 122 in scholastics over last year, and teachers for next term may number as many as 70.

Wanda Cherry of high school gave her declamation which she will give in district contests Saturday. She was accompanied by Maxine Peugh. Woodie Lambert had charge of the program.

### George O. McCool In Norfolk, Va.

George O. McCool, boatswain's mate first class, USN, son of Mr. and Mrs. E. R. McCool of Muleshoe, and husband of Mrs. Sarah J. McCool of Newton Center, Mass., arrived in Norfolk, Va., March 21 aboard the landing ship USS Casa Grande, after participating for the past two months in Atlantic Fleet amphibious training exercises in the Caribbean.

Under realistic battle conditions calling for defense procedures against submarine, aircraft and atomic attack, the Casa

Grande transported Marines to the Caribbean area and made three assault landings on the island of Vieques, Puerto Rico.

### Ag. Workers Hear Conservationists

The Bailey County Professional Agriculture Club met at 7:00 a.m., on Monday, March 28, in the "club room" of Legion's Cafe.

Government soil conservation workers in this district, Duane Bartee and Jack Douglas, presented a very interesting program that was well in keeping with the aim of this newly organized club.

Before breakfast was served to the group, Douglas pointed out in a short talk the purpose of the Government Soil Conservation Service and outlined the organization of districts like our own "Blackwater Valley" Soil Conservation District. One of his main points was that these districts are subdivisions of the State of Texas just like a school district or township, excepting the fact that they lack the power to tax or vote bonds.

This, the second meeting of the club since its organization, was well attended. These men, who make their living serving the

farmers of Bailey County in many different ways, are doing an excellent job of coming to understand the other man's work better through the "Pro-Ag Club".

### CARD OF THANKS

We would like to take this means of expressing our most sincere and heartfelt appreciation to each and every one of our father's friends and loved ones. Each and every act of kindness and sympathy shall ever be cherished and revered.

A special thanks to the staff of doctors and nurses of the West Plains Hospital and Clinic for their untiring efforts and acts of courtesy extended to our father during his recent illness.

A thought comes to mind while striving to express our appreciation; may it all be summed up by these expressions: "All good things are eternal and are never forgotten"; and "May God bless each and every one of you."

Mr. and Mrs. Major Wood, of Muleshoe, are announcing the engagement and approaching marriage of their daughter, Venette, to Preston Sechrish, son of Mrs. Robert Martin of Floydada. Vows will be exchanged Sunday, April 3, at Floydada.

In nothing be anxious; but in everything by prayer and supplication let your requests be made known unto God. — (Phillipians 4, 6)

Since God — good, love, mercy, wisdom—is always and ever present within and around us, He is interested in our every thought and act, and none is too small or apparently unimportant to take to Him in unceasing prayer.

BABSON ADVISES—

### Opportunities For Retired People

Babson Park, Mass., March 31. This time of year I get many letters as to the best place to live in people about to be pensioned. They seem to favor Florida, California, Arizona, and other southern States. They appear to be tiring of cold winters.

**WHERE TO GO**  
Localities which are attractive and have good business during winter months may be unpleasant and unprofitable during summer. The reverse is also true. Certainly no state or county community has all the advantages or disadvantages. The reader learned this after millions of years' experience! I selected winter headquarters in New England and winter headquarters in Florida—even before man had joined the birds in air transportation.

A warm climate would doubtless be desirable for an older couple; but it may not be wise for a young couple with children. There is something debilitating and enervating in climates that are too warm, especially when the heat is of long duration. Statistics published by Yale University show that the most energetic and intelligent people develop under marked contrasts of climate. The "terrible weather changes" of New England may have created the energy which financed so many farms and cities and built railroads across the United States.

**IMPORTANCE OF INCOME**  
The much-advertised growth of such states as Florida, California, and Arizona does not stem from new babies, or agricultural production. "Newcomers" are moving

in to retire and take it easy. They must be sure a check will come from the North each month to use as a nest egg or backlog. I refer to pension money, insurance, rents on northern property—or dividends on stocks or interest on bonds or mortgages. Social Security checks are a help, but they will not pay all the bills in any state to which people are now flocking.

Don't expect a big dip in living costs in these delightful winter climates. You may not need so much fuel or electricity or clothing, but food and rents costs as much, considering what you get. There is no reduction in doctors' or dentists' or hospital bills; while beauty-parlor bills are reported to be higher! Florida does give homestead tax exemption on property up to \$5,000. Different states and cities have different ways of collecting taxes, but in the end they add up to about the same.

**A JOB OR A BUSINESS?**  
Many retired men get restless after a while. If you want a job, get work in something in which you are trained. If considering a business of your own, work on salary before buying. Caretakers' Service, Collection Agencies, Tree Nurseries, Diaper Service, Frozen Food Deliveries, Clothes Repairing and Pressing, Manufacturers' Representatives, Spraying, Shopping, Typing, and Real Estate look best to me.

What about buying a home? This is not a bad idea but there are certain qualifications you should consider: Near stores and churches; with land for a vegetable garden and possible future sales of an extra lot; and in a section which is improving and not declining. Better live in a community a year before buying real estate, to get the feeling! Real estate values are determined by feelings and not figures.

**FINAL ADVICE**  
You can select a state on which to move by studying maps, real estate booklets, and other propaganda. Then write to the State Chamber of Commerce located at the capital of the state that you are thinking of moving to. Tell them you would appreciate information regarding different localities, climate, and opportunities. But do not select any locality of that state without first visiting it, even if you need a leave of absence from your job in order to do this. In closing, just a word of financial advice: if you are looking for acreage, buy land adjoining some owned by the United States Agricultural Department and used as an experiment station. This should be good land and easy to dispose of if you ever wish to sell at a profit. This applies to all states.

**THE OLD TIMER**  
The proper way to turn a child in the way it should go, is to go that way yourself.

"The proper way to turn a child in the way it should go, is to go that way yourself."

### SAND HILLS PHILOSOPHER—

### Puzzled Over Politician's Fight On Bill Bringing On Only Double Taxation

Editor's note: The Sand Hills Philosopher on his Johnson grass farm has his mind on taxes this week, his letter indicates.

I'm not so much at listening to the radio for news, on account of you have to listen when the announcer is talking, which is regementation, while with a newspaper if you don't feel like reading it now you can put it in your pocket and take a nap and come back to it later on, but the other night my light bulb burned out and cut me off in the middle of my newspaper so I switched the radio on just to be doing and got to listening to either a congressman or a state legislator. I couldn't tell which, talking about a proposed tax bill. I never did find out what bill it was, but what I was interested in was the reason he gave for opposing it.

According to him, the bill would bring on "double taxation," and he said he was opposed to it.

This struck me as odd and I'm still wondering where he came from.

I'm opposed to double taxation

### CHRISTIAN SCIENCE SERVICES

How spiritual understanding of God brings freedom from the futility of materialism will be brought out in the Lesson-Sermon entitled "Unreality" at Christian Science services Sunday.

Selections to be read from the King James Version of the Bible will include the following from Jeremiah (2:5): "Thus saith the Lord, What iniquity have your fathers found in me, that they are gone far from me, and have walked after vanity, and are become vain?"

"From 'Science and Health with Key to the Scriptures' by Mary Baker Eddy the following passage will be among those read: 'The perfect Mind sends forth perfection, for God is Mind. Imperfect mortal mind sends forth its own resemblances, of which the wise man said, 'All is vanity' (239:29)."

The Golden Text is also from Jeremiah (4:14): "O Jerusalem, wash thine heart from wickedness, that thou mayest be saved. How long shall thy vain thoughts lodge within thee?"

### Photography Is Topic As M'Shoe Study Club Meets

Members of the Muleshoe Study Club enjoyed an interesting talk on photography by Mrs. A. S. Stovall when they met Thursday, March 24. Mrs. Stovall gave the highlights in the life of Eastman, and compared the old and new methods of photography. To climax the program each member had brought a baby picture of herself and a contest was held to see how many pictures could be identified. Mmes. Harold King, Buck Wood and Julian Lenau were winners of the contest.

Mrs. Julian Lenau brought her camera and pictures were taken of the members. These pictures will be put in the scrapbooks. The home of Mrs. Sherman Sweetman was the scene of the meeting with Mrs. Beavers serving as co-hostess.

Pie and punch were the delicious refreshments served by the hostess to Mmes. Buck Wood, J. M. Forbes, Pat Bobo, A. J. Gardner, Jerry Kirk, Harold King, Buck Ragsdale, Homer Sanders, Sr., Mary Hart, John Watson, T. M. Slemmons, Horace Blackburn, Julian Lenau and A. S. Stovall.

## Impressive Double Ring Ceremony Unites Anita Broyles and D. L. Morrison, Jr.

MR. AND MRS. D. L. MORRISON, JR.

Anita Carole Broyles became the bride of D. L. Morrison, Jr., March 18, at 8 p. m. in an impressive candlelight double-ring ceremony read by the grandfather of the bridegroom, Rev. J. M. Morrison of Lubbock, at the First Baptist Church in Muleshoe.

The bride is the daughter of Mr. and Mrs. Edgar Broyles of Muleshoe, and the groom is the son of Mr. and Mrs. D. L. Morrison, Sr., also of Muleshoe.

The rites were read in front of an archway of white candles in candelabra with the altar centerpiece of white gladioli and white mums with a background of ferns. Candles tied with white satin bows and greenery decorated the pews and the windows held candles in crystal holders.

The bride, given in marriage by her father, was gowning in a pink crystal and silk ballerina length dress with princess style bodice, scalloped boat neckline, with matching bolero and lace hat. She carried a white Bible, topped with bride's bouquet of white orchids and stephanotis with white satin streamers. For the traditional something old, new, borrowed and blue, she wore pearls belonging to a sister, her dress was new, the Bible was borrowed and the blue garters were a gift of a friend.

Patricia Broyles, a sister of the bride, was maid of honor. She wore a princess style pastel green antique taffeta dress, with white gladioli corsage. Bridesmaids were another sister of the bride, Mrs. LaVonne McKillip, of Muleshoe and a friend, Miss Glenna Rutherford of Earth. They wore identical ballerina length princess style pastel blue antique taffeta dresses with white gladioli corsages.

Best man was Billy Joe Morrison, brother of the groom. Ushers were another brother of the groom, Duane Morrison, and Jimmy Dale Black.

Keith Gaede sang "Because", "Indian Love Call", and "The Lord's Prayer" as benediction. He was accompanied at the organ by Karoline Towns, who played the traditional wedding music.

The bride's mother, Mrs. Broyles, wore a two-piece suit of gold faille with white glamelia corsage and navy accessories. The groom's mother was dressed in a two-piece suit of brown and white cotton silk, with white glamelia corsage and white accessories.

Immediately following the ceremony a reception was held in the church dining room. The refreshment table was laid with hand drawn white Irish linen over pink satin, with centerpiece of white candles and pink carnations. The pink and white three-tiered cake was topped with miniature bride and groom, and was served with punch, mints and nuts. Presiding at the refreshment table were: Carolyn Kirk of Midland, Mary Ann Smith of Lubbock, Ofelia Wood of Eagle Pass and Patricia Inman of Muleshoe.

Ann Broyles, sister of the bride, presided at the registry table, which was covered with hand drawn white linen cloth, with a centerpiece of pink carnations.

For traveling the bride wore a pastel blue cotton silk jumper with matching duster and white orchid corsage from her bridal bouquet. The couple left immediately following the reception for Carlsbad, N. M., and other places of interest in New Mexico.

The bride graduated from Muleshoe High school class of '53 and attended Tech college at Lubbock where she majored in business.

The groom is a graduate of Muleshoe High school class of '54. He attended Tech college at Lubbock, where he majored in agricultural engineering. He is now engaged in farming.

The couple will make their home on the Friona highway, near Muleshoe.

## Miss Dorothy McDonald Becomes Bride of Walter C. Pond In Afternoon Ceremony

Mr. and Mrs. Walter C. Pond

YN/3 Dorothy McDonald, USN, of San Diego, Calif., became the bride of Walter C. Pond in a ceremony at 2:00 o'clock in the afternoon, March 20 at the West Camp Baptist Church.

The bride's parents are Mr. and Mrs. J. A. McDonald of Gainsville, Fla., and parents of the bridegroom are Rev. and Mrs. T. L. Pond of West Camp.

Rev. Pond officiated as vows were exchanged before an archway of greenery, plumosa and white gladioli, centered with silver wedding bells tied with white satin ribbon.

Given in marriage by Lt. W. D. Powell, uncle of the groom, of San Diego, Calif., the bride was lovely in a street length dress of white shantung designed with a sweetheart neckline and full skirt. ## Farm Bureau Elects New Directors

The Bailey County Farm Bureau held its annual meeting in the Bailey County Courthouse Monday, March 28. An interesting and informative program was given to those who attended.

Musical entertainment was furnished by Mr. Earl Darsey, Wayland Ethridge, Dub Ragland and Ikey Bayless.

Dr. Wiess gave an interesting discussion and showed colored slides on Bind Weed and Johnson grass control carried on at the Bushland Experiment Station near Amarillo. He emphasized the necessity of keeping the bind weed top growth cut off during the growing season. Keeping the weed from growing on

top will eventually kill the plant. There are several good herbicidal killers and ground sterilant on the market, but they have to be handled with caution both from a personal standpoint and from your neighbor's standpoint.

Bruce Parr gave an interesting talk what Farmer Co. is doing to control and eradicate bind weed and Johnson grass. They have the cooperation of the State Highway Department and County Commissioners in helping to control the bind weed along the barrow ditches and right of ways. The Highway Department has put salt on all patches of bind weed along their right of way. The County Commissioners have assisted in purchasing Sodium Chlorate for farmers who would sign contracts to put it out and continue the program. He pointed out the need of strict cooperation of all farmers for the program to be a success.

Rev. Carrol Jones brought before the group the plans to send a ship load of breeding stock of all kinds to Korea. This venture is being sponsored by the people of Texas through CROP. A drive will be made in the near future to secure breeding stock of hogs, dairy cattle, beef cattle, rabbits, sheep and bees. Also needed are hoes, rakes, shovels, needles, thread, sewing machines, grain sorghum for seed, castor beans for seed, flower seed and bulbs, print feed bags, walking plows and any tool that can be used by hand can be used in Korea.

Joe Sooter gave a report on the finances of the Bailey County Farm Bureau, he also gave a report on some of the

many activities. The Bailey County Farm Bureau took part in last year. The organization sent some local boys to the State F. F. A. and 4-H Club conventions, sponsored a Queens Contest, sent Delegates to the State Farm Bureau convention at Galveston and participated in many district meetings.

O. C. Thomson gave a report of the nominating committee. He presented a list of Directors to be elected and asked for a nomination from the floor. Horace Hutton and Jack Lowe were elected for one year filling the unexpired terms of two directors who resigned. W. T. Parker, Marvin Skinner, Pete Black, Truitt Smith, Loyd Stephens, Ralph Ethridge, Jimmie Wedel, and Lester Howard were elected for two years.

Door prizes were won by Gordon Murrah, Herbert Meads, A. R. Floyd, G. A. Jacobs and Rudolph Moraw.

Boots that were given by the following Gins: Edwards, Co-op, Progress, Purdy, Stegall, Paymaster, were awarded to Lewis Scoggin, J. W. Gore, W. T. Parker, Cass Stegall, Earl Darsey, and W. F. Bartley, who worked hard in the membership drive. Jack Lowe won the Heart for getting the most members.

Bailey County Agent J. K. Adams said that Sodium Chlorate can be bought for \$8.75 per 100 lbs. C. O. D., at the dock in Columbus, Miss., in 23,000 pound lots. The Farm Bureau is now taking orders to get a truck load of at least 23,000 pounds.

Donuts and coffee were served following the close of the meeting.

## "Shorty" McCall Elected Chairman Blackwater Soil Conservation District

E. N. (Shorty) McCall, newly elected chairman of the Soil Conservation districts board of supervisors, is shown above looking over a number of his fat Whiteface cattle grazing on his fine pastureland south of Muleshoe.

"Shorty" and family at home in Enochs, Texas. Pictured with his wife Louise are daughters, Delores, age four, and Brenda, age 16.

Editor's Note...In the regular meeting of the Blackwater Valley soil conservation board on March 21, E. N. (Shorty) McCall was elected as the new chairman of the board of supervisors. If you don't know the man already here's your chance to meet "Shorty".

E. N. (Shorty) McCall owns 645 acres of land located 25 miles south of Muleshoe. 415 acres of which is excellent pasture land. At the present time he is feeding about 20 cows (approximately 20 acres to the cow).

Cotton, grain sorghums, and wheat, cover the dry-land soil tilled by Shorty. He follows a

unique strip-crop pattern. Over a ten year period of experience he has found that he is able to cut loss to a surprising minimum by planting strips averaging 32 rows in width.

All of McCall's land is farmed on the contour and all of his wheat land is terraced. He is a man that is very aware of the benefits of moisture conservation.

As mentioned earlier, Shorty owns a great deal of pasture land and is very muchly sold on the value of his livestock. To illustrate: In 1950 he harvested maze off 165 acres, and barely made enough to pay for combining and hauling; but that same year he made \$1800 on his calves. So while livestock are down now, there have been and will be times when they will be a very valuable asset.

Shorty moved to Bailey county from Sabine County in East Texas, in 1926.

At the present time McCall and his wife Louise make their home at Enochs, Texas, where, besides farming, he manages the Gardner and Hankins Gin.

The McCalls have two girls, Brenda age sixteen, and Delores age four.

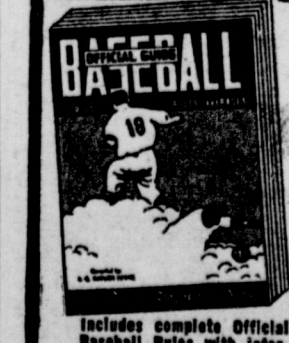

Shorty served three years on the school board in his district and has been on the soil conservation board for almost four years.

#### WATCH-DOGS OF THE TAX DOLLARS

One important item to every Texan is the make-up and operation of the 54th Legislature's finance committees — that body of senators or representatives who make appropriations and spend the taxpayer's dollars.

As Commissioner of Agriculture, I have been very much impressed this year by the constructive attitude of these committee members. Dividing up state money among the various agencies is a tremendous chore for those people. They sit in conference hour after hour, day after day, listening to people who come in on an average of every half hour wanting money for their particular project or group.

It is a min-killing job. Certainly, after only a few days of hearing the same arguments over and over, the senses can become dulled to the point that any decision is a strain.

Under the circumstances, I was surprised and extremely pleased with my hearing before Sen. William Shireman of Corpus Christi recently. As a subcommittee chairman of the Senate Finance Committee, Sen. Shireman proved to be so interested and so effective in his suggestions that I believe it was the finest hearing I have ever had in the past four years.

When I came before the House Committee, I was the last member of state executive branches to appear. Those men were dog-tired. They had listened to hundreds of thousands of words concerning millions of dollars.

They knew that as soon as I had finished, they could relax these hearings and go about other legislative tasks. But they

sat there and gave me all the time I wanted. They discussed my appropriations bill and asked me searching questions about it.

I was extremely pleased when I left. That does not mean that the Texas Department of Agriculture got all the money requested. It did NOT. But on those items they refused to approve, I felt I had received a fair hearing on them, and that the members understood what I wanted.

In their refusal, I also felt like the members knew enough about the bills to feel justified in turning them down. I could not ask anything more than that — and the members are to be complimented for their fairness.

A member of the Legislature can come to Austin, sit down at his desk and vote when told to vote and still draw his pay without undue effort. This is not the procedure of the vast majority this session. They are working day and night — and they don't get paid a cent more than if they just took life easy.

To me, it proves that the democratic form of government is not dead among the individual members of our House and Senate.

## Rotarians Are Proud Of Foundation Which Finances Exchange Students

The Journal is printing here parts of the talk made recently before the high school PTA and before the Rotary Club later by Rotarian James Todd, Muleshoe Christian minister.

This year is the Golden Anniversary of Rotary International. The Rotary Club is the oldest of all service clubs, and has many achievements to its credit of which they are justly proud.

By far the most outstanding and universally known is Rotary Foundation, made possible largely by individual contributions from members of Rotary Clubs in the 89 countries in which Rotary International has gone.

In 1917 the Rotary Club of Kansas City, Mo., made a contribution of \$26,500 for the establishment of the Foundation. Today Rotary Foundation has \$3,365,000.

Of this amount, \$126,000 came from the estates of eight deceased Rotarians. The two largest amounts were \$50,020 and \$20,000. The remainder came from the other six Rotarians. The remainder of the \$3,365,000 came from individual members of Rotary Clubs who made these contributions one of their projects in the fourth objective of Rotary International—International Relations.

Rotary Foundation grants Rotary Foundation Fellowships to honor graduates of colleges and universities in the 89 countries represented in Rotary International. In 1947, the first year of the operation of Rotary Foundation, 18 Fellowships were granted.

At the close of 1954, 606 Rotary Foundation Fellowships had been granted to 493 men and 113 women. Thirteen Research Fellowships have also been granted to scientists from 10 different countries. The Fellowship to graduates have been to those from 57 countries who have gone into 36 other countries for study in the colleges and universities of those countries and for travel during time out from study. The Fellowships cover all expenses of study and travel for one year. Upon returning to their home countries these young men and women are urged to use their knowledge and experience in the furtherance of a better understanding of international relations.

The ten highest major fields of study of these 606 honor graduates are: international relations and political science, engineering, literature, education, history, economics, social science, theology, agriculture, chemistry.

The largest number of graduates studying under Rotary Foundation Fellowships are in the United States, next England, Canada and Australia.

The 13 countries from which Rotary Foundation Research Fellowships have been granted are Australia, Austria, Finland, Formosa, Greece, Korea, Netherlands, Pakistan, Philippines, and Poland.

The Muleshoe Rotary Club, which is one of the youngest clubs in West Texas has just recently made their contribution to Rotary Foundation of \$10 per member.

AN ELECTRIC CLOTHES DRYER

**"MY ELECTRIC CLOTHES DRYER IRONED OUT MY IRONING PROBLEMS!"**

says Mrs. C. T. Shropshire,

"The dryer changed my method of buying clothes for my five children. Now, I just buy the kind of materials which need no ironing."  
"I remove the clothes from the dryer before they are completely dried out, and hang them on a hanger. They need no ironing, as all the wrinkles fall right out."  
Any time you can save ironing time is a good time, especially when you have five children, and want to spend as much time with them as you can. Try the convenience of electric clothes drying and reap the dividend Mrs. Shropshire enjoys — more time with her family.

**Keith Gaede To Sing A Leading Role In Opera**

Keith Gaede, sophomore music student from Muleshoe, will appear in one of the leading roles in Puccini's short opera, "Gianni Schicchi", one of two to be presented Thursday and Friday, March 31 and April 1 at 8 p.m., by the West Texas State College Opera Workshop.

Young Gaede, son of Mr. and Mrs. R. C. Gaede, 509 West Second in Muleshoe, is appearing in the second opera role since coming to West Texas State. Last year he held a part in "Singin' Billy". In "Gianni Schicchi", pronounced Johnny Skeek, Keith will sing the tenor role of Rinuccio.

A comedy, "Gianni" is the story of a "mourning" group of greedy relatives, who scheme to change the will of a rich uncle. Rinuccio is one of the relatives, and it is he who devises the scheme.

The second short opera, both of which will be presented on the two nights, is "Sunday Excursion", a contemporary comedy

by Alec Wilder. Admission is \$1 for adults and 50c for students. The operas are directed by Royal Brantley, assistant professor of music. This is the fourth year that opera has been produced at WTSC.

Gaede is a member of the WT A Cappella Choir, the Varsity Quartet, and Alpha Sigma Xi fraternity. He has appeared on a number of programs as a tenor soloist.

**FARMER COUNTY Farm Bureau News**  
By RAYMOND EULER

A bill regarding surface water rights was passed by the Texas Senate last week. The bill was along the lines approved by Texas Farm Bureau members, with one exception: that was the inclusion of an additional three-cent ad valorem tax, state wide, to finance development of the program. Legislative chairman, Ralph Miller wrote, and urged others to write letters opposing this portion of the bill last Friday. The attitude of Farm Bureau members, and county officials, too, is that ad valorem taxes should be left open for county and district assessment when local needs warrant them. State assessments of this nature limit the ability, in many cases, of counties to raise necessary funds for local projects. Disposition of the bill is not yet known.

We have just read a pamphlet called, "It's Your Money". It contains results of studies made by the Department of Economics, Agricultural and Mechanical College of Texas, relative to public roads financing. Their answer to the great problem of how truck lines should be required to pay for their use of such roads is the "weight distance tax". This is a system successfully employed in several other states, according to the booklet. Texas is far behind in this field of road maintenance financing. We agree that this proposed system would be a great improvement over the present fuel and registration tax system employed in Texas. R. G. LeTourneau, however, has presented a much simpler and more workable idea, in our opinion. His system, would require nothing more than an accurate tire pressure gauge to check road limits. It would require a mixture tire pressure of, say 30 pounds. Then, any weight load could be hauled without penalty so long as enough, or large enough tires were used to prevent damage to the roads. It would be hard to improve on this idea, so far as we can see. It may be too simple for legislative approval, however.

We hope you will encourage your pastor, and your church members to take an active part in loading the Texas Friendship for Korea within the next couple of months. This is a project for Christian people, helping those in need.

Consider This: Wisdom is the principal thing; therefore get wisdom; and with all thy getting get understanding. Proverbs 4:5.

### FB Church Honors MHS Seniors of '55

Muleshoe High School's graduating class of 1955 was honored by the Women's Missionary Union of the local First Baptist Church last Thursday night with a spectacular "Dutch Garden" Banquet.

Seniors, their sponsors, and members of the high school administration dined and were entertained in the church dining room which was decorated with Dutch windmills, dikes, and gaily colored tulips all in the foreground of a star filled Holland sky.

Pastor of the First Baptist Church, Rev. E. K. Shepard, served as master of ceremonies for the evening. Mrs. E. K. Shepard, vice-pres. of the WMU, gave the welcome, and Keith Burman, president of the Senior class responded for those present. The invocation was given by Rev. J. E. J. L. "Red" Hardin, business manager of Wayland College at Plainview, Texas, highlighted the night's program with a very timely message to today's young people. Rounding off the night's entertainment was a song by Barbara Douglass and Jean Montgomery, and a reading by Wayne Bristow.

## Today's Meditation

**RULED BY GOD'S LOVE**  
Read I John 5:15-21.

God is love, and he that dwelleth in love dwelleth in God, and God in him. (I John 4:16.)

Is she Jesus?" my three year old son asked, as a Bible teacher walked out after a short visit in our home one day. This is how a child thought of a devoted woman who always closed her visits with a prayer—prayer while on her knees.

Everyone who is ruled by God's love expresses that love in one way or another. Among a crowd, one can usually point out those who possess the light of God's love, often expressing itself in a winsome smile, in gentley word or look. Those who dwell in God's love reveal peace in their minds, self confidence, trustworthiness. They find happiness when God's love rules in their lives.

In these days of Lent, we need to be numbered among those men, women, and young people in whom dwells the love of God. We need to humble ourselves in prayer in our homes, asking for God's love to rule supremely in hearts, minds and lives.

### PRAYER

Almighty, heavenly Father, we praise Thy name, for Thou art of infinite mercy and Thy great love is forever and ever. Grant us to dwell in accord

## Hybrid Sorghums Expected To Increase Yields

Hybrid grain sorghums which are expected to increase yields 30 to 40 per cent will be grown commercially in Texas this year. It marks the first such production anywhere in the world.

Production during the 1955 growing season, however, will be limited to one-acre crossing plots on several selected farms. Foundation seed stocks will go to seed growers in 1956 and the new hybrids will be available for large scale planting in 1957.

Development of grain sorghum hybrids has been underway since 1927 at the Chillicothe substation of the Texas Agricultural Experiment Station by J. Roy Quinby and J. C. Stephens. Dr. N. W. Kramer and R. E. Karper of the Lubbock substation also have contributed to the research. There is one oddity in the new hybrids. Due to the percentage of hybrids farmers will plant white seed but harvest red grain.

with Thy holy will by accepting Thy redeeming love, for we would be counted as children in Thy kingdom. In the Lord's name we ask. Amen.

**THOUGHT FOR THE DAY**  
To be ruled by Christ's love creates in us the desire to be obedient to His will.

Elvira F. Olivarez (Tex.)
