May 22 Primary Runoff Election early voting begins Monday

Early voting for the May 22 Primary Runoff Election begins Monday, May 14, and ends Friday, May 18.

Crockett County Voters can cast their ballots from 8 a.m.-5 p.m. at the courthouse annex.

Election Day voting on Tuesday, May 22, will be from 7 a.m.-7 p.m. with Precincts 1, 2 and 3 at the courthouse annex and Precinct 4 at the Ozona Chamber of Commerce Visitor Center.

Locally, there is only one race. In the Democratic Primary incumbent Eligio Martinez is facing Michael Medina Jr. for the Crockett County Commissioner, Precinct 4 position.

State and federal races that will also appear on the Democratic Primary ballot are:

- U.S. Rep. District 23 - Gina Ortiz Jones and Rick Trevino

- Governor - Lupe Valdez and Andrew White

If you voted in a party primary, you're eligible to vote in that primary's runoff. According to the Texas Election Code, if you haven't affiliated with a particular party during the same voting year — by either participating in a party's primary or convention — you can vote in any party's primary runoff election as long as you're registered to vote for that race, according to the Texas Election Code.

"So if, for example, a voter who participated in the Democratic primary wants to vote in a Republican primary runoff, he or she will not be accepted to vote in that Republican primary runoff race," said Sam Taylor, a spokesman for the Texas Secretary of State's Office.

If you voted in your party's primary and choose to vote in the runoff elections, you don't need to re-register to vote, Taylor said.

The same form of ID that's required to vote in a primary is needed for a runoff.

The forms of approved photo ID are:

- Texas Driver License
- Texas Personal Identification Card
- Texas Concealed Handgun License

Looking back while looking forward, both are important

Have you ever tried to drive down the highway and keep your vehicle in your lane just using your rear view mirror? It doesn't make a lot of sense does it? It's downright dangerous.

Sure, you can see where you have been and you may be able to "keep it between the lines."

But, it only works long-term if the road is straight and you are the only vehicle on the road. It is important to check

your rear view mirror to watch for traffic and emergency vehicles coming up behind you, but you don't want to focus on it too long.

The business owner that is looking forward is able to see

down the road and adjust to the road conditions and other drivers on the road. It is important for business owners and managers to monitor their financial statements on a regular basis. This the business's rear view mirror. It is a view the road that has already passed. The "traffic" they are looking for are problems in cash flow, profit versus loss, and effective asset use. Again, it is important to look back, but the dan-

ger comes when the business owner becomes too focused on the financials and fails to look ahead.

Looking forward to business means paying attention to the traffic around you - you competitors. What is driving (selling)? Watching traffic also means watching the industry. What new products or services are out there that you can capitalize on? What new technology can enhance our performance? How can you learn

this? Subscribe to industry magazines and organizations. Research it.

Looking forward also means looking for obstacles and dangers. Look for the warning signs. This means paying attention to what is happening in government. With each congressional and legislative sessions of the federal and state government come new regulations and policies. Some of them are good for you and some them can harm

you if you fail to be informed about them and adjust. Such mistakes can be costly.

Business owners need to look back while looking forward, just like driving down the highway. What's ahead of them is just as important as what's behind them.

Winging it

I have a T-shirt that basically sums up my life at this moment: "to be honest I'm just winging it. Life, motherhood, my outfit, everything."

Yep, that's me. I'm just winging it.

Let's face it Moms, we're all just winging it.

Like most moms when a problem arises, illness strikes, temper tantrums hit, where do I go...to Google.

Yes, in this day and age we moms take to the internet in search of hope, answers and, let's face it, reassurance that we aren't losing our minds and that someone else has been through this.

A friend of mine recently went through sleep training with her child. She posted a photo on Facebook of her little one asleep on the floor under the door because that is where he collapsed after, I'm sure what seemed like forever, cries of wanting mom and dad to come get him.

Do not judge my friend. We've all been there. We've all had had the nights of "I want my mommy, I want my daddy" coming over the baby monitor at 3 a.m. We've all been through midnight and 5 a.m. feedings and we are tired.

As I told my friend, I've done sleep training times two, and both times it wasn't easy. Why do we do it? Because, let's face it, we want sleep and we want our kids to sleep so we can sleep, so we don't fall asleep in the middle of our workday.

Just ask Prince William who was caught dozing off during an event after the birth of his newborn son. See, even the royals do it.

We've also been hit with driving to San Angelo on a Sunday night with a sick little one in the backseat who has another ear infection. This will test your patience and your marriage.

Thanks goodness for

WHAT'S ON MY MIND

grandparents keeping the other one.

Hang in there Mom. This too shall pass. At least that's what I keep saying to myself as I hear my son recite every verse of "Wheels on the Bus" from his room as

he tries to go to sleep.

People ask me, as a mother of two 14 months apart, how do you do it?

First of all, yes I'm permanently tired. Don't ask me if I'm tired. Don't ask any mother if they are tired all the time. Yes we are. It's part of the job.

Second, when it comes to all those internet websites we all like to read. I firmly believe the majority of these so-called "experts" have never had children.

You tell my daughter she has to have her sippy cup instead of her bottle as she is sitting on the kitchen floor screaming her head off.

I'll let you come to my house when my son decides to throw a fit in the middle of my bedroom floor because I told him no.

I don't even remember why I told him no, but with a two-year-old you never know what to expect.

Yes, there are the joyous moments and we treasure those every day. We enjoy the funny sayings, the giggles, the tickles and the laughs.

When the owies and boo-boos happen, when they are scared, happy or just need a hug, here they come running to mom. That's what we are there for, no matter how old they are.

So, how do I do it?

I'm just winging it. Life, motherhood, my outfit, everything.

The Rumor Ranch

IT'S THE PITTS

LEE PITTS

I'm not one of those greenies who believes that humans are a cancerous growth destroying the planet, but I'll admit it's getting a little too crowded in my neck of the woods. The old sale yard is gone that had been there so long it became an archeological dig when they tore it down. There's houses there now where I took a lot of bids and walked lots of alleys.

We've been invaded by a horde of rich tech gazillionaires who are buying ranches, kicking off the cows and planting grape vines and olive trees. The sale yard was our church and our social hall and now that it's gone all us ancient geezers hardly see each other any more. And I seriously doubt a bunch of crippled old cowboys are all gonna start going to wine tastings.

I'm told that the techies like our lifestyle because, "it's stress-free." HA! Evidently they have never had a calving season where the neighbor's 3,000 pound, double muscled, Full French exotic bull broke in and shacked up with the six-weight heifers for two months. Or lived through a seven year drought, have a banker breathing down their neck and have to sell cows at hamburger prices that they paid \$3,000 apiece for last April.

Nah, there's no stress.

Some of the newbies are friendly and we welcome them to the neighborhood. They come to our brandings, we go to theirs and we like them because they buy great range bulls that breed our cows because no one has fixed any fence around

here since The Great Trich Epidemic of 1973. We are more than happy to continue this arrangement but eventually they end up fixing the fence. Either way, we win because they pay for it. And we're grateful that they've driven up the value of ranch real estate to the point any 20 acre rundown ranchette is worth a million bucks.

Some of the newbies are rich snobs who move in and build 20,000

square foot fortresses so we can't snoop on them. Because they're so secretive we don't know much about them and this we cannot tolerate.

There's a law in physics that states that any vacuum of information will be filled with scandalous scuttlebutt. I know from experience that all you have to do is tell someone in a normal tone of voice in the coffee shop that you have hemorrhoids and by nightfall everyone in town knows you have brain cancer.

A filthy rich mysterious heiress who moved in a few years ago is a good example of how rumors get started. I heard it from Bill who heard it from Frank that the source of her money is either from drugs, Microsoft, automobiles, Apple, tires or oil. Although we may not know exactly where

she got her money we do know she's got a lot of it because she's buying up ranches like cattle feeders are buying jars of Tums.

I've heard the heiress has some strange ideas about how to run a cow ranch. She doesn't brand because it might hurt the calves and doesn't put an ear tag in their ear because it's dehumanizing. Rumor has it the heiress thinks it's wrong to enslave a horse by riding one and that she gives no vaccinations, which would explain how she's able to hog all the buzzards in the general vicinity. About the only people not spreading rumors about the heiress are ranchers who might want to sell their 60 head cow ranch to her for twenty million bucks and don't want to be caught speaking ill of her. But they're no fun.

We all assume the heiress must run some cows because at the last bull sale ever held at the old sale yard she left a very generous order for an Angus bull. A month later that same bull showed up in the slaughter run at the last weekly auction ever held at the market. A couple different explanations are heard on the street as to why she got rid of the bull so fast. One is that the bull shockingly deflowered an innocent young heifer in the presence of the heiress, and the other rumor is that the bull got snuffy and put her over a fence.

Normally, I wouldn't believe such scandalous gossip if I hadn't started both rumors myself.

Paxton leads multi-state lawsuit challenging DACA program

AUSTIN — Texas Attorney General Ken Paxton on May 1 filed a lawsuit against the federal government to end the Deferred Action for Childhood Arrivals program.

The attorneys general of Alabama, Arkansas, Louisiana, Nebraska, South Carolina and West Virginia joined Paxton in the lawsuit.

Paxton and the other attorneys general urged the U.S. District Court for the Southern District of Texas to declare DACA unlawful and to stop the federal government from issuing or renewing any DACA permits in the future.

Paxton noted the suit does not ask the federal government to remove any alien currently covered by DACA, nor does it ask the Trump administration to rescind DACA permits that have already been issued.

"Our lawsuit is about the rule of law, not the wisdom of any particular immigration policy," Paxton said. "Tex-

as has argued for years that the federal executive branch lacks the power to unilaterally grant unlawfully present aliens lawful presence and work authorization. Left intact, DACA sets a dangerous precedent by giving the executive branch sweeping authority to ignore the laws enacted by Congress and change our nation's immigration laws to suit a president's own policy preferences."

U.S. District Judge John D. Bates of the District of Columbia on April 24 ordered the Trump administration to accept DACA applications, but stayed the order for 90 days to give the Department of Homeland Security an opportunity to make its arguments contesting the legality of the DACA program.

REVENUE TOTALS HIGHER

Texas Comptroller Glenn

Hegar on May 2 announced that state sales tax revenue totaled \$2.7 billion in April. The amount is 13.4 percent more than reported in April 2017.

April state sales tax collections grew significantly across all major economic sectors, Hegar said.

"While the strongest growth was in remittances from oil and gas-related sectors, tax receipts from retail trade and restaurants also grew briskly," Hegar added.

Total sales tax revenue for the three months ending in April 2018 was up 9.8 percent compared to the same period a year ago.

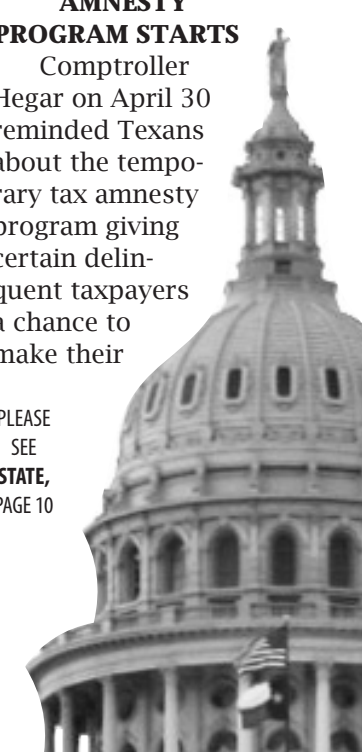

Sales tax revenue is the largest source of state funding for the state budget, accounting for 58 percent of all tax collections. Revenue from other major taxes on motor vehicle sales and rentals, mo-

tor fuel and oil and natural gas production also rose in April 2018.

AMNESTY PROGRAM STARTS

Comptroller Hegar on April 30 reminded Texans about the temporary tax amnesty program giving certain delinquent taxpayers a chance to make their

Kay Stewart Awarded Woman of Distinction

BY KIMBERLEY MEYER
DEVIL'S RIVER NEWS

Kay Stewart was saluted by the Girl Scouts of Central Texas during a special banquet honoring Women of Distinction Thursday, April 5, 2018, at the McNease Convention Center in San Angelo.

Stewart is the Sr. Vice President of the Sonora Bank where she serves as the branch manager as well as a loan officer and member of the management team for the past 15 years.

Stewart has contributed to a variety of organizations in Sonora as well as her home town of Ozona including Sutton County Food Pantry and Resource Center, 4-H, and the Ozona Chamber of Commerce as past president. She has also served as a leader and mentor to her peers and youth in both communities.

In addition to her career

and community service, Stewart remains active in the family's ranch in Crockett County where she was born and grew up raising Angora goats, fine wool sheep, cattle and American Quarter horses.

She is also proud to be a former Girl Scout herself.

While working in Sonora, Stewart lives in Ozona with her husband of 37 years Eddie Stewart. Together they have two children, Lana Wagner and Jake Stewart as well as two grandchildren, Patton and Lorelei Wagner.

Stewart began her banking career in 1986 at Crockett National Bank in San Angelo before moving to Sonora Bank in 2003. She has spent a to-

tal of 32 years taking care of the banking needs of individuals. Stewart said she is passionate about banking and her goal is to make everyone feel welcome and comfortable no matter their financial situation or need.

Stewart is a graduate of Texas A&M University with a Bachelor of Science degree in Agricultural Journalism.

Although banking seems far from her educational training, Stewart says it in fact plays a significant role in her career every day. She believes good verbal and written communication is one of the most important skills in any career.

In appreciation of being awarded the 2018 Woman of Distinction, Stewart said she hopes she can set a good example for today's girl scouts as well as all young people.

"It is nice to be recognized for hard work and contributions," Stewart said.

LEVIS AND LACE SQUARE DANCE NEWS

MELISSA PERNER | THE OZONA STOCKMAN

LEVIS AND LACE SQUARE DANCE CLUB held their 32nd Anniversary Festival on April 28 at the Civic Center.

32nd Anniversary Festival held

BY CAROL ADCOCK
LEVIS AND LACE SQUARE DANCE

It was a great, fun-filled day on April 28 as Levis and Lace Square Dance Club celebrated their 32nd Anniversary Festival.

The festivities began with a challenging workshop called by Tracey Dowell from McCaulley, Texas. Tracey taught some old and new calls from the past that were lots of fun.

A few of the calls, like double grand and double weave, were not hard calls to learn, but lots of fun to dance.

A barbecue lunch of brisnet, sausage, beans and potato salad was served with all the trimmings. Homemade peach cobbler with whipped cream topped the meal off as dessert.

That afternoon the square dancers lined up to do the Grand March with three squares plus extra participating.

Boy Scouts from Troop 153 presented the flag and led the flag ceremony. Colt Sorrell and Nikolas Villarreal

presented the colors and did an excellent job in leading the Pledge of Allegiance. Melvin Conner, Scout Master, and Linda Conner, assistant Scout Master, participated in the flag ceremony also.

Tammi Monzingo, of Levis and Lace, led everyone in the singing of the National Anthem.

Mark Fricke, pastor of the First Baptist Church of Ozona, offered the prayer.

Allen Williams, director of the Crockett County Civic Center, gave a wonderful welcome speech for all attending.

Tracey made it lots of fun to dance with tips like progressive squares and plus tips. The day of dancing ended with lots of smiles, hugs and "see you in 2019" for the next festival.

Dancers attending from Wagon Wheel Squares in Abilene were: James and Vickie Kemp.

Dancers from Promenade Squares in San Angelo were: Wynn Alston, Marilda Johnson, Mickey Lanty, John Geen and Randy Kennedy.

Also from San Angelo were Sally and Ernie Wolfe.

From High Sky Squares in Midland were: A.J. Wachsmann, Marilyn Wachsmann, Chris Wachsmann, Barry Stoute, Martha Stoute, Ann Ewbank and Ed Ewbank.

From Camping Squares were: Bob and Marilyn McVey, Bill Prichard, Elia Prichard, June Kohlman, Jim Connally and Kathy Connally.

Members from Levis and Lace Square Dance Club were: Frank Fred, Raul De La Rosa, Nell Wester, Mary Williamson, Carol Adcock, Robert Pena, Karen Heffelfinger and JoAnn Babbitt.

Everyone is welcome to come watch the dancing and enjoy the fellowship with Levis and Lace whenever they have a square dance. There is no charge to come watch the fun and fellowship set to music.

My Campaign Promises are as follows:

1. I will ask for raises or a retention stipend for ALL county employees during our budget workshop in June 2018.
2. I will immediately petition to revert the I-10 project back to a 2-way upon its completion if that is what Precinct 4 wants me to do.
3. I will implement a 15-20 mph speed limit on Pecan Street with the appropriate signs and work with commissioners court and the sheriffs department to help control the traffic. No speed bumps.

Commissioners Court & the Sheriff's Department have agreed to help me keep Precinct 4 safe. Outgoing traffic will still use the same route on Willow Drive. Interstate traffic will not have to use Pecan or any other street.

What you should know about your pH

The human organism is comprised of interdependent assortment of organs and processes that are largely regulated by precise levels of acidity. Each of our bodies is an integrated organism that functions by way of the combined efforts of the organs and the biological environment within. It is by this means that the body's tissues and fluids maintain a proper pH (power of hydrogen).

"In chemistry, pH is a logarithmic scale used to specify the acidity or basicity of an aqueous solution. It is approximately the negative of the base 10 logarithm of the molar concentration, measured in units of moles per liter, of hydrogen ions... The proper balance between the acids and bases (i.e. the pH) in the body's extracellular fluid is crucial for the normal physiology of the body, and cellular metabolism. The pH of the intracellular fluid and the extracellular fluid need to be maintained at a constant level." - Wikipedia, the free encyclopedia.

Our pH acidity and alkalinity is measured on a scale of 0 - 14, where 0 is most acidic and 14 is most alkaline. The ideal pH level is about 7.4, slightly on the base (alkaline) side of neutral (7.0). When the pH varies too much either way, it becomes difficult for enzymes to function as intended.

"Preferential pH regulation is a strategy of acid-base regulation that allows vertebrates to maintain pH homeostasis during severe acute acid-base disturbances under conditions in which compensation through the coupled pH regulation would be limited...The role of preferential pH regulation during development and vertebrate evolution are areas for research that remain largely unexplored, and experiments addressing these issues will

HERE'S TO YOUR HEALTH

JIM FISH

2235-2244; doi: 10.1242/jeb.126631,

The body is very adept at regulating pH levels and if the foods we eat are conducive to a beneficial way of eating, they aren't going to affect our pH balance to any great extent. For those who claim that apple cider vinegar will play a significant role in overall health are simply, mistaken.

Most of it would most likely be eliminated in the urine. We would need to consume quite a lot of apple cider vinegar to affect our body's acid - base ratio.

In the digestive system, most issues like indigestion, nausea, bloating and gastric reflux are caused by excess acid in the gut. If the circulatory system is acidic, it can lead to inflammation and heart disease. In both systems, consuming good fats daily along with a healthy way of eating is essential for optimum performance; and can help alleviate the inflammation that causes arteriosclerosis in the cardiovascular system.

When the tissues and organs of the respiratory system become acidic, the transport of oxygen is stifled. The body's cells can't breathe properly and wastes in the form of mucus, infections and viruses build up in our lungs; leading to colds, bronchitis, asthma, etc.

If the body's pH is out of balance, the buildup of acid

causes inflammation and the skin becomes less effective as a barrier against infection. It can develop lesions, sores and eruptions that occur as pimples or rashes.

The urinary system, kidneys and other organs, filter and excrete fluids, and purify our blood. Proper hydration is essential, as well as cultivating a healthy gut flora with beneficial prebiotics and probiotics. The body's pH balance is regulated more by the urinary system than elsewhere in the human organism.

When acidity increases in the muscle tissues, it will disrupt the process of energy metabolism, and our muscles will not regenerate and perform properly.

There's been a lot of research done to find the link between sexual dysfunction and infertility, and acidity. Some health experts even claim that acidity relates to decreases in male and female arousal, lack of sexual enjoyment, diminished fertility and increases in the tendency to miscarry.

A pH measurement that is found to be too far off neutral is evidence that something is amiss and needs correcting. Our best defense is being aware of all facets of our body's wellbeing, mindful of what we ingest and insure our immediate environment is conducive to good health. In most cases, knowing your pH balance is not critical, your body will naturally regulate it at beneficial levels.

Here's to your health.

TEA PARTY

The Mother's Day Party will be 2-4 p.m. with Maria-chi's performing and snacks being served.

In May we are having another tea party with volunteer from Interim on May 14 at 3 p.m.

Friends and family are invited to attend the parties and any activities they would like to participate in.

Students wanting community service hours please come in and let us set you up some hours.

We would like to have copies of a picture of your mother to put on our bulletin board and guess which woman is in the picture for Mother's Day.

We welcome volunteers who would like help with activities or would like to provide items for bingo prizes.

We would also like copies of a picture of your father for Father's Day to guess who is

OZONA SENIOR HAPPENINGS

Bingo every Thursday afternoon

BY BRENDA NEWTON
SENIOR CENTER DIRECTOR

for the Wesley Nurse Program.

What a beautiful weekend we had. I spent a lot of time just admiring the beauty of the trees and flowers. Of course I had a lot of things I needed to do in the house, but they are still there.

I got some new games for the center to exercise your hands and minds. Come on out and try them. You can play them standing up or sitting down. Remember, if you don't use it, you loose it.

Please use the next exit on the south side of the center. This is the crossing that is across from Avenue D. It has been paved so it is really smooth. The exit in front of the center is dangerous because of the truck traffic. There will be signs put up on this new entrance in a few days. The road department has told me they will install the signs, so I expect them any time. There is talk of taking the front entrance completely out, but it has not passed commissioners' court at this time. We do not want any of you to be in an accident when leaving this facility. Please pay closer attention to the traffic leaving from town. There is a curve there that blocks the vision until it is too late.

There will be no Bingo Social during May because of the busy schedule all you parents and families will have to celebrate the graduation of our Class of 2018.

Niki will not be here for the next two weeks with her exercises, but will return May 22. We will miss her but she has to continue her training

We will have afternoon bingo this Thursday at 2 p.m. Bring your nickels and play as many cards as you can handle at a nickel a card per game. If you bingo for that game, you get all the nickels. We serve Cokes and popcorn and have a good time. Then we have a blackout bingo for a little prize for the lucky winner.

The center will open at 8:30 a.m. and close at 4:30 p.m.

Monday, Wednesday and Friday - 9 a.m. Exercise
Wednesday - 1:30 p.m. Mexican Train; 3 p.m. Prayer Group

Thursday - 9:30 a.m. Balance Exercise; 9:30 a.m. Quilting; 2 p.m. Bingo

Come on out, the coffee is on.

MOTHER'S DAY

Next Sunday will be mother's day and let's do something special for them. I am so saddened to see the lack of respect and honor for women and mothers in our culture today. When men fail to fulfill their role that God created them for, that is to love, respect and care for women, this leads to the breakdown of the family and many other problems, (Ephesians 5:25, Colossians 3:19). God created us with the ability to know Him and love Him and others, (Deuteronomy 6:5). We are to keep ourselves in that Love (Joshua 23:11, Jude 21). God's word tells us, love your neighbors (James 2:8) love your enemies (Luke 6:27), love parents, (Exodus 20:12). Years ago, I found myself empty and missing something in life and really just having a love for myself. I realized I had never accepted Jesus Christ as my Lord and Savior and I got on my knees and asked Jesus Christ to forgive me of my sins and to come into my heart, immediately a flood of peace and joy and a new kind love came into my heart, (John 1:12, 2 Corinthians 5:17, John 3:16-18). I could love others and especially my wife and family with this new love. I think it is good that we have a special day we honor mothers but I also think we need to treat them special all the time. See You in Church next Sunday.

DPS urges motorists to stay alert, use caution around motorcyclists

AUSTIN - The Texas Department of Public Safety (DPS) is reminding drivers to use extra caution around motorcycles on roads and highways in conjunction with Motorcycle Safety and Awareness Month, which occurs annually in May.

"Whether you're in a car or on a motorcycle, it is important to always drive safely and follow all traffic laws," said DPS Director Steven McCraw. "By also following some simple but important safety tips, both vehicle drivers and motorcyclists can share the road, increase overall safety and prevent traffic crashes."

DPS recommends that all drivers "Share the Road: Look Twice for Motorcycles," which is a motorcycle safety public awareness campaign launched by our partner agency, the Texas Department of Transportation (TxDOT).

Based on the fact that motorcycles and their operators are more exposed and can easily be overlooked due to their size, motorcyclists are inherently more vulnerable while on the road. According to TxDOT, 501 motorcyclists were killed and more than 2,100 seriously injured in Texas crashes in 2017. In many cases, these fatalities were the result of crashes between a motorcycle and a car or truck. Collisions with a motorcycle commonly occur at intersections and while changing lanes, so all drivers should use extra caution during these situations.

Drivers and motorcyclists can significantly reduce their chances of being involved in a serious or fatal crash by adhering to basic safety measures, including:

- Perform a visual check for motorcycles by checking mirrors and blind spots before entering or exiting a lane of traffic, and at intersections.

- Always signal your intentions before changing lanes or merging with traffic.

- Allow more following distance - three or four seconds - when traveling behind a motorcycle, so the motorcyclist has enough time to maneuver or stop in an emergency.

- Never tailgate. In dry conditions, motorcycles can stop more quickly than cars.

- Wear protective gear when driving or riding on a motorcycle.

- Never drive while distracted.

- Don't drink and drive when operating a motorcycle, or any vehicle.

Motorcyclists must be properly licensed to operate a motorcycle in the State of Texas. Currently more than 1.1 million individuals possess a Texas Class M (motorcycle) license. Proof of successful completion of a DPS-approved basic or intermediate motorcycle operator training course is required for licensing. Licensed motorcyclists can also take a refresher course to reinforce safe riding techniques. Each year the DPS Motorcycle Safety Unit trains approximately 35,000 motorcycle operators.

The Motorcycle Safety Unit coordinates training courses at 202 locations around the state for both basic and experienced riders. For more information on motorcycle training or to find a training location in your area, call 1-800-292-5787 or visit www.dps.texas.gov/msb/.

TEXAS PECOS TRAIL NEWS

Partners Event and Board Meeting May 17 in Odessa

BY MELISSA HAGINS
TEXAS PECOS TRAIL

The Texas Pecos Trail Region Board of Directors invite you to join us at 10 a.m. Thursday, May 17, for our May Partners Event/Board Meeting at Big Daddy's, 1121 E 42nd Street, in Odessa.

Attendees will tour the Historic White-Pool House

and the Anne Hathaway cottage at the Globe Theater.

Lunch will be at Big Daddy's for \$10 a person with Board meeting to follow.

The Historic White-Pool House was built in 1887, in what is now considered South Odessa, by Charles and Lucy White. The Whites, a Quaker Family, had come to barren West Texas from Indiana in the mid-1880s. The White's grain business in Indiana had suffered heavy losses in the post-Civil War era and this, combined with Lucy's need for a dry climate, led the family to load their belongings on a railroad car and begin their journey west, attracted by the railroad land company's offer of property in Ector County.

The Anne Hathaway Library next door, a replica of the cottage in which Shakespeare's wife lived, houses displays of special interest to Shakespeare fans.

RSVP to Melissa Hagins at (432) 262-1927 or info@texaspecostexas.com by Monday, May 14.

Lions Baseball, Lady Lions Softball seasons end

The OHS Lions Baseball and Softball seasons came to an end last week. The Lions Baseball Team lost their Bi-District Playoff series to the Charlotte Trojans. In Game 1 on May 3, Ozona lost 6-0. In Game 2 on May 5, Ozona lost 9-3. Both games

were played in Ingram. The Lions ended the season 13-11 overall and 6-6 in district play. The Lady Lions Softball

Team lost to Albany, 19-2, in an Area Playoff Game on May 3 in Coahoma. The Lady Lions finished 5-7 in district play.

Youth Range Workshop

The Texas Section Society for Range Management will host their 62nd Youth Range Workshop from June 17-22 at the Texas Tech University Campus in Junction. The workshop is open to youth who are 14-18 years old and have completed the eighth grade but have not graduated from high school. Cost is \$400 and includes all meals, lodging and educational materials needed during the week.

Participants are encouraged to seek out sponsorships from various sources, including soil and water conservation districts or local ranches, and are then asked to go back after the workshop to present what they learned to those sponsors.

At the workshop, participants gain useful knowledge and skills in the areas of ecology, inventory practices, management and evaluation of resources.

Experts from across the state are recruited to teach the participants in fields ranging from watershed management, to prescribed burning, to soil health and many areas in between.

For applications, visit tinyurl.com/2018YouthRangeWorkshop or Facebook at www.facebook.com/TSSRMYouthRangeWorkshop/

Property Tax Protest and Appeal Procedures

Property owners have the right to protest actions concerning their property tax appraisals. You may follow these appeal procedures if you have a concern about:

- the appraised (market) value of your property
- the unequal value of your property compared with other properties
- the inclusion of your property on the appraisal roll
- any exemptions that may apply to you
- the qualification for an agricultural or timber appraisal
- the taxing units taxing your property
- the property ownership
- the change of use of land receiving special appraisal
- failure of the chief appraiser or appraisal review board (ARB) to send a required notice
- any action taken by the chief appraiser, county appraisal district (CAD) or ARB that applies to and adversely affects you.

Informal Review

Crockett County Appraisal District
PO Box 1569 - 909 Ave D
Ozona, TX 76943
(325) 392-8258

Review by the ARB

If you cannot resolve your problem informally with the CAD, you file a notice of protest requesting to have your case heard by the ARB.

The ARB is an independent board of citizens that hears and determines protests regarding property appraisals or other concerns listed above. It has the power to order the CAD to make the necessary changes based on evidence heard during the ARB hearing.

If you file a written request for an ARB hearing (notice of protest) before the deadline, the ARB will set your case for a hearing and send you written notice of the time, date and place of the hearing. If necessary, you may request a hearing in the evening or on a Saturday or Sunday. You may use Comptroller Form 50-132, *Property Appraisal - Notice of Protest*, to file your written request for an ARB hearing.

Prior to your hearing, you may ask to review the evidence the CAD plans to introduce at the hearing to establish any matter at issue. Before a hearing on a protest or immediately after the hearing begins, you or your agent and the CAD are required to provide each other with a copy of any materials (evidence) intended to be offered or submitted to the ARB at the hearing. Evidence may be submitted for any hearing type either in paper or on a small portable electronic device (such as a CD, USB flash drive or thumb drive) which will be kept by the ARB. Do NOT bring evidence on a smart phone. The ARB's hearing procedures regarding all the requirements to properly submit evidence on a small portable electronic device must be reviewed.

To the greatest extent practicable, the hearing will be informal. You or a designated agent may appear in person or you may by telephone conference call or submission of written affidavit to present

your evidence, facts and argument. If you decide to participate by telephone conference call, you must provide your evidence to the ARB with a written affidavit before the ARB hearing begins. You may use Comptroller Form 50-283, *Property Owner's Affidavit of Evidence to the Appraisal Review Board*, to submit evidence for your telephone conference call hearing or for hearing by affidavit.

You and the CAD representative have the opportunity to present evidence about your case. You may cross-examine the CAD representative. The ARB will make its decision based on the evidence presented by both parties. In most cases, the CAD has the burden of establishing the property's value by a preponderance of the evidence presented.

In certain protests, the chief appraiser has the burden of proving the property's value by clear and convincing evidence. You should review ARB hearing procedures to learn more about evidence and related matters.

You should not try to contact ARB members outside of the hearing. ARB members are required to sign an affidavit saying that they have not talked about your case before the ARB hears it.

Review by the District Court, an Arbitrator or SOAH

After it decides your case, the ARB must send you a copy of its order by certified mail. If you are not satisfied with the ARB's decision, you have the right to appeal to district court. As an alternative to district court, you may appeal through binding arbitration or the State Office of Administrative Hearings (SOAH) if you meet the qualifying criteria.

If you choose to go to district court, you must start the process by filing a petition with the district court within 60 days of the date you receive the ARB's order. If you chose to appeal through binding arbitration, you must file a request for binding arbitration with the CAD not later than the 45th day after you receive notice of the ARB order. If you chose to appeal to the SOAH, you must file an appeal with the CAD not later than the 30th day after you receive notice of the ARB's order. Appeals to district court, binding arbitration or SOAH all require payment of certain fees or deposits.

Tax Payment

You must pay the amount of taxes due on the portion of the taxable value not in dispute, the amount of taxes due on the property under the order from which the appeal is taken or the amount of taxes due in the previous year.

More Information

You can get more information by contacting your CAD at

Crockett County Appraisal District
PO Box 1569 - 909 Ave D
Ozona, TX 76943

You can get Comptroller forms and additional information on how to prepare a protest from the Comptroller's website at comptroller.texas.gov/taxes/property-tax/.

Deadline for Filing Protests with the ARB*

Usual Deadline

Not later than May 15 (or within 30 days after a notice of appraised value was mailed to you, whichever is later).

Late protests are allowed for good cause if you miss the usual deadline. The ARB decides whether you have good cause. Late protests are not allowed after the ARB approves the appraisal records for the year.

Special Deadlines

For change of use (the CAD informed you that you are losing agricultural appraisal because you changed the use of your land), the deadline is not later than the 30th day after the notice of the determination was delivered to you.

For ARB changes (the ARB has informed you of a change that increases your tax liability and the change did not result from a

* The deadline is postponed to the next business day if it falls on a weekend or legal, state or national holiday.

protest you filed), the deadline is not later than the 30th day after the notice of the change was delivered to you.

Crockett County Appraisal District
PO Box 1569 - 909 Ave D
Ozona, TX 76943

If you believe the CAD or ARB should have sent you a notice and did not, you may file a protest until the day before taxes become delinquent (usually Feb. 1) or no later than the 125th day after the date you claim you received a tax bill from one or more of the taxing units that tax your property. The ARB decides whether it will hear your case based on evidence about whether a required notice was mailed to you.

Mesothelioma

may occur 30 to 60 years after exposure to asbestos. Many workers were exposed from the 1940s through the 1970s. Industrial and construction workers, along with their families (second hand exposure) are among those at risk for mesothelioma, lung cancer or gastro cancer (throat, stomach, colon). Even if you or your loved one settled an asbestosis case in the past, this may be a new claim, so call now.
