

Highlights From Bula

By MRS. JOHN BLACKMAN

Mr. and Mrs. R. E. Black attended to business in Lubbock, Monday of this week.

Mr. and Mrs. Ray Spence and girls visited Sunday at Southland in the home of Mr. and Mrs. C. E. Spence.

Don McCord left Sunday for Panhandle to work in the wheat harvest for a few days.

The Olen Powell family and Mr. and Mrs. Dale Middelbrooks were dinner guests Sunday in the J. H. Powell home at Littlefield.

Mr. and Mrs. T. L. Harper and Mrs. E. E. Harper of Circleback spent the first of the week visiting with Mrs. Don Moore of Bayfield, Colorado, a niece of Mrs. Harper.

James Boen of Raymondville is visiting his sisters Ruby Cash and Sue Johnson and other friends.

Mr. and Mrs. Gene Bryan and Mr. and Mrs. B. Claunch visited Sunday afternoon in the Neel home in Friona.

Miss Sue Johnson returned Thursday after a 10 day visit in Glenn Rose with relatives.

Mrs. P. M. Lancaster is home after spending five weeks in the home of Mrs. C. C. Peterson of Lovington.

Mr. and Mrs. J. C. Hague and children of Pasadena, spent the weekend in the Clyde Hague home.

Mrs. Dale Coleman of Hereford spent Sunday with her brothers R. E. and Cecil Jones.

Mr. and Mrs. Jack Jaetsen attended the funeral of J. P. Jackson at Borger Wednesday.

Mr. and Mrs. Clifford Walden and boys of Lubbock spent Wednesday night in the Luke Walden home.

NEW GRANDSON

Mr. and Mrs. W. B. Adams are rejoicing over the birth of their first grandchild. The young lady, Debra Kay, was born to Mr. and Mrs. Bobby Adams Monday night at the Morton hospital, and she weighed six pounds, nine ounces.

Misses Doris and Lenn Stroud are visiting with their grandfather, John Smith, of Heaton, Okla.

Mrs. Eva Earnhart of McAlester, Okla., and Miss Gladys Setliff, of Hollis, Okla., are visiting Mrs. B. S. Setliff.

Mrs. Marie Aaron and children left Thursday for several days visit in Victory, Calif.

Mr. and Mrs. Marvin Skinner of Friona, and Mr. and Mrs. John Aduddell of Pleasant Valley visited Sunday with Mrs. Ruby Reid and children.

Sunday guests in the C. L. Cannon home were Mr. and Mrs. Garton Cannon of Amarillo.

Donna Spence is spending this week as a guest of her grandmother, Mrs. Batlett in Lubbock.

Bible Schools

A week long vacation Bible school will begin Monday at the Baptist Church. Because of the small attendance expected, the Baptist and Methodist churches are holding a joint Bible school. The school will be under the supervision of Rev. G. W. Fine, with Loretta Locker as pianist.

Farm Bureau Queen Contest Is Underway

Seven Bailey County Farm Bureau ladies met Tuesday evening to discuss plans for this year's Farm Bureau Queen contest. Those present were Mmes. D. O. Burelsmith, Lewis Scoggin, Louis Henderson, W. T. Parker, Robert Blackwood, J. D. Black and J. P. Traweek.

Purpose of this contest is to give beautiful and talented farm and ranch girls recognition. There is nothing personal in the project. It is anticipated that through the institution of this contest, more farm and ranch girls, and other young people may become better acquainted with the principal of Farm Bureau organization.

The girls will be judged on grace, poise, charm, vivaciousness, and other qualities that go to make up winsome Texas future homemakers. The three main points on which they will be judged are appearance, poise and personality.

All farm and ranch girls between the ages of 16-22 are urged to enter this contest. Entry blanks may be picked up at any Farm Bureau office, or by contacting any one of the ladies named above. Each contestant will receive a nice gift for her time and effort spent in the contest.

Those eligible are: daughter or sister of a Farm Bureau member actually engaged in agricultural production—membership should be in county participating; single; age 16-22; sixteen by Sept. 1, 1956; and not over 22 by that date; Exceptions are daughters of state directors, all employees, county presidents and secretaries, and previous state winners are not eligible to enter. Appropriate awards will be made in the queen contest. They will be announced at a future date as will the time and place the contest is to be held.

Please watch your Muleshoe Journal for more information.

Mrs. Fred Locker and Mrs. Kyle will have charge of the primary group; Mrs. Fine and Mrs. L. H. Medlin, the beginners; Mrs. Tiller and Mrs. Latham, the juniors and Mrs. Paul Young and Mrs. B. McCord, the intermediates.

Mr. and Mrs. Pete Hubbard of Lubbock were supper guests Monday night of Mr. and Mrs. Arnold Archer.

Mr. and Mrs. David Clevenger of Morton attended services at First Baptist Church Sunday and visited the C. H. Clevengers.

Miss Pearl Jesko James Acker Plan July 10 Wedding

Mr. and Mrs. Joe Jesko, of Friona, are announcing the engagement and approaching marriage of their daughter, Pearl, to James Acker, Mr. Acker is the son of Mr. and Mrs. Andrew Acker, of Nazareth.

Wedding vows will be exchanged at 9:30 o'clock in the morning, July 10, in St. Anthony's Catholic Church at Hereford.

There will be a reception from 5:30 until 8:00 p. m. in the Parish Hall. All friends and relatives are invited to attend both wedding and reception.

ELEVATOR CO-OP ASS'N. MEETING IS SCHEDULED

There will be a meeting of farmers and stockholders of the Farmers Cooperative Elevator Association June 15 at 8:30 p. m. in the Bailey county courtroom.

At this time permanent directors will be elected and the by-laws approved. Interested persons are invited to attend.

Home-Ec Girls Summer Project Is Underway

Twenty-nine girls enrolled in the summer Homemaking course last week at Muleshoe high school. The girls have planned and are carrying out such interesting projects as: yard improvement, gardening, interior decorating, clothing construction and wardrobe planning, child care, meal planning and preparation, food preservation and others.

Five students, Sandra Allison, Bonnie Wood, Jerre Kemp, Neil Moore, and Pat Braune, are working on a department improvement project. Included in this project will be making attractive sewing machine covers, rearranging equipment for more efficient use, and restyling curtains.

An Achievement Day program has been planned for June 28, and at this time, students will show samples of their projects and give an oral and written report. The students are working in committees to prepare for Achievement Day and will serve refreshments and present a program for entertainment.

Mrs. Butts Hosts Wesleyan Members

Mrs. Buford Butts was hostess in her home Monday evening at 8:00 o'clock for the Wesleyan Guild members. This was the first meeting since the recent installation of new officers.

Margaret Slemmons, president, was in charge. The program was opened with the group singing the "Guild Hymn".

Helen Ingle was in charge of the program, and spoke on the topic, "Our Community and The World". She was assisted by

Marilyn Stevens and Hazel Gilbreath. Following this topic, Mrs. Ingle reviewed the article, "What A Woman Can Do", by Toynebee. The article recently appeared in the Ladies Home Companion.

A committee was appointed to register guests and assist with the tour of the new parsonage, during the formal opening June 24.

After the singing of "God Be With You 'Til We Meet Again", refreshments were served by Mrs. Butts to: Mmes. A. S. Stovall, Jesse Wright, Betty Burkhead, Hazel Gilbreath, Margaret Slem-

mons, Pearl Stephens, Helen Ingle, Bess Edwards, and A. C. Leveridge.

"My MATHIESON irrigation system is GREAT!"

says Mr. Coomer who is farming near the VVN Ranch land.

Mr. Coomer farms grain and cotton in sandy land, and he has found that parts of his land can be irrigated with the Mathieson gated aluminum pipe system that could not be watered any other way. He has 60 feet of six-inch aluminum gated pipe, with which he can safely irrigate 18 rows at one setting. The canvas tubes and burlap tube ends prevent washing the rows and erosion of the soil.

If you have an irrigation problem on sloping or hilly land, if you are interested in water conservation a low cost, see us today about a sprinkler or gated pipe irrigation system.

P. H. Coomer
12 Miles west and 5 south of Muleshoe

With his MATHIESON aluminum gated pipe irrigation system

Why just hope you're getting the best truck buy?

Your best buy is DODGE... and we can prove it!

When you go to buy a new truck, you owe it to yourself to stop... look... and think—to think about this, among other things:

FROM PICK-UPS

AND PANELS...

TO BIG BRUISERS...

DODGE LEADS IN VALUE

DODGE TRUCKS
WITH THE FORWARD LOOK

How can you possibly know you're getting the best value if you sign up for a new truck without first taking time to stop and look at today's big, husky-muscled DODGE? The answer, obviously, is you can't be sure; you're just hoping you're getting the best buy!

Wouldn't you be wiser to get at least a few facts about DODGE? For instance, such easily proved facts as these—that Dodge trucks give you:

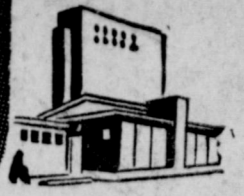

- Greater gas economy. Dodge's exclusive Chrysler-engineered Power-Drive V-8 engines deliver more miles per gallon, full power on regular gas!
- Maximum payloads. Dodge trucks are built extra rugged—will haul up to 35% more.
- Lower upkeep costs. Dodge short-stroke V-8 engines maintain like-new performance far longer than truck engines of standard design.
- Shortest turning. Dodge sharp turning angle and shorter wheelbase design make parking and wheeling through traffic much easier, save you both time and effort.
- Rock-bottom prices. Today, many Dodge models cost less than any other make!

Dodge gives you more in other ways, too. So, before you buy, why not get the full Dodge story? Unless you do, we honestly believe you'll end up paying more and getting less.

Philathea Circle Installs Officers

Philathea Circle began its fifth year and new officers headed by Sammie Allison were installed in a meeting last Thursday at the home of Theresa Edwards.

The candlelight ceremony, conducted by Mary Nell Chapman, presented all incoming officers with miniature shoes and asked them to return them at the end of their serving year with a list of the successes and failures that might guide and inspire the next year's officers to "wear their shoes well."

Combined with the installation program was a pledge service led by Mrs. Arnold Morris and Bill Moore. Money pledged by the members will be used, along with that contributed by the W. S. C. S. and the Wesleyan Guild, for foreign missions.

At the business meeting preceding the installation pledge service, the circle voted to honor its founder, Mrs. Lucy Hanks, by dedicating the carpet in the recently completed First Methodist Church here, to her. The carpet was donated to the church by the Philathea Circle.

An Honorary Baby Membership, for children under six, was awarded to Stanley Bickel, son of Mrs. Charlene Bickel. The membership was presented by Mae Wilterding on behalf of Mrs. Hanks.

Mrs. Allison is the fourth president to be elected by the circle since its organization. Other officers installed were: Pat Nichols, vice-president; Jeannie McVickers, recording secretary; Dorothy Weyer, corresponding secretary; Bonnie Adcox, treasurer; and Texas Dryden, reporter.

Others present at the meeting were: Betty Murray, Joy Whitt,

Your Child's Friend

Mrs. Ruth Dunn, second grade teacher here, has written the following poem and dedicated it to school nurse, Mrs. Lula Gorell. We thought you might enjoy it.

"YOUR CHILDS FRIEND"
Skinned up knees, bloody nose
Dirty hands and broken toes,
Sewed up clothes and goodness knows,
How many more of all their woes
But she doesn't mind, She's their friend.

Banker's son or transient child
Always mannered, sweet and mild,
Hurry here and hurry there,
Working with her loving hands,
Anything your child demands,
She's their friend.

Awards! No, not a one,
As far as eye could see,
But the smile from a child
A story to be shared,
Or just a silent plea,
She's their friend.

I've watched her for many a day,
And not once did I hear her say
An angry word, or even frown
When her lunch she'd have to put down.

Lucky are you to have such a one as
"Your Child's Friend."

Bailey County Farm Bureau News

BY LONNIE M. BASS

The Bailey County Farm Bureau Directors met Tuesday evening, June 5, in the Farm Bureau office in Muleshoe. Those present were: Joe Sooter, Carl Barnert, Morris McKillip, Robert Blackwood, T. R. Smallwood, Ed Little, J. K. Adams, county agent, Oran Gregory, W. T. Parker, D. J. Cox, Pete Black, Lester Howard, W. T. Millen, W. R. "Ray" Carter, and Lonnie M. Bass.

Fred Doherty and Carl Cagle, of Doherty weed killer, met with the board to discuss bindweed control. The bindweed committee met again Thursday, June 7, to make plans for controlling bindweed in Bailey county.

As soon as arrangements can be made, Mr. Doherty will hold a bindweed demonstration in the county. Please watch the paper for time and place.

Joe Sooter and J. K. Adams were appointed to get more information on the Reener Founda-

tion seeking an experiment station in this part of the country. The board of directors voted in favor of the station being put in Bailey county, because it is felt that other experiment stations are too far away to be of help here.

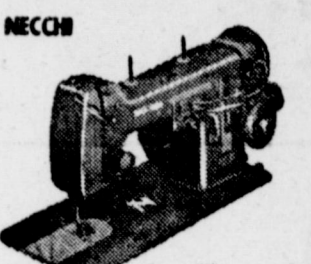

T. R. Smallwood met with the board of directors seeking help to sell stock in the proposed Co-Op Elevator to be constructed in Muleshoe.

MULESHOE CHIROPRACTIC CLINIC

PHONE 6090
Located Across From Courthouse
CLINIC REPORT SEVERE PAINS IN LOWER BACK

Case History, Lady: Age 56; Symptoms and Case History; Patients statement: "My lower spine and hip joints hurts me very bad. Occasionally, the pain is so bad, it is unbearable. Also, my leg gets numb and hurts very much hindering me from doing my work."

After an examination in the Chiropractic Clinic, Where the So-Called Hopeless DO Get Well," the primary cause of her condition was found. The X-ray pictures of her spine showed misalignments, distortions and displacements of vertebrae. The nerve test analysis determined the amount of pressure on nerves in her spinal column. She decided to take a series of Chiropractic Health treatments to correct the cause of her disorders.

Ruptured Discs

Case History: Man age 31, came to the Chiropractic Clinic after reading an ad describing a condition similar to his. He had been confined with extreme back pain which was aggravated by a spinal tap which in turn started terrific headaches. He was medically diagnosed "ruptured discs" and was told it would take a year or more to recover. In an effort to avoid an expensive and dangerous spinal fusion operation, he consulted us. After an examination consisting of nerve analysis and spinal X-ray at the clinic, this man began corrective spinal adjustments. His pain was lessened from the first adjustment. His condition continued to correct rapidly until in less than six months he was doing heavier mechanic work than before having trouble with his back. He urges everyone to TRY CHIROPRACTIC FIRST to correct the cause of their disease or ailment.

Three-Way News

Mrs. Frank Griffith

Visiting in the home of Mr. and Mrs. Frank Knox last week were their children and grandchildren, Mr. and Mrs. Billy Knox and daughter, Mr. and Mrs. Jackie Knox and daughter, all of Lubbock, and Mrs. Donald Knox and daughters of Brownfield.

Fractures Collar Bone

The little daughter of the Billy Knox suffered a fractured collar bone when she leaned backward in her mother's arms. Mrs. Knox grabbed her arm to keep her from falling and the weight of the child caused the bone to snap. She is reported to be improving rapidly.

* K. K. Krebs has been on the sick list.

* Mr. and Mrs. L. W. Chapman of Goodland attended the Chapman reunion at Vernon recently.

* Mr. and Mrs. Ira Griffith of Shallowater and Grady Griffith of Lubbock, visited in the Frank Griffith home recently.

* The 1956 graduates of Three Way high school are scattering to the four winds. H. C. Brashers has gone to Ft. Worth, Elizabeth has gone to California to work this summer, Charles McCafferty enlisted in the U. S. Army, He will be stationed either in Arkansas or California, Peggy Underwood has gone to Lubbock.

* Mrs. Tommy Galt reported the Monument Lake Methodist Vacation Bible School to be a very interesting study. Six teachers and 20 pupils attended.

Former Resident Killed

Leonard Baker, son of H. E. Baker of Meadows and formerly of Goodland, was killed last week in an automobile accident near Ropesville.

Attending the funeral at Slaton from this community were Jack Lowe, Cecil Cole, Dolly Arnn, and C. L. Taylor.

* J. H. Fowler cut the fingers on his left hand in an electric saw while working in his shop at Goodland Thursday.

He was treated at West Plains Clinic in Muleshoe and released.

Wedding Shower

A wedding shower honoring Miss Donita Jordan, bride-elect of Gaylon Weaver of Slaton, was given in the home of Mrs. Baker Johnson Friday, June 8 from 3 to 6 p. m.

The receiving rooms were decorated with arrangements of gladioli.

The serving table was laid with a lace cloth over blue centered with a styrofoam miniature altar complete with bride and groom. Blue streamers with

TO JOHNSON CITY

Mr. and Mrs. Rudolph Wiedebush and children, Jerri and Terri, are visiting his mother and other relatives in Johnson City and Blanco County this week.

BACK FROM TRIP

Mr. and Mrs. H. K. Thornton and Margaret have returned home after a two weeks trip in various parts of East Texas and Arkansas.

Indoor Rodeo At New Coliseum To Open On June 20

A new era in South Plains sports will be inaugurated June 20-23 with the unveiling of the annual ABC Rodeo in Lubbock's new \$2,000,000 Municipal Coliseum.

The Rodeo, featuring many of the nation's top rodeo hands, will be the first sports event to be held in the 10,000 seat oval-shaped building on the Texas Tech campus.

Kicking off the four day show on June 20 will be a 2:30 p.m. parade through the heart of Lubbock by several hundred riders, including members of South Plains area sheriff's posses and other riding groups.

The rodeo itself will afford fans their first opportunity to see an indoor rodeo anywhere in this region.

"You haven't seen a rodeo until you've seen one indoors," Bill Pittman, general rodeo chairman, said. "Inside, you can hear the leather slip. Also, in the new coliseum, every seat is a good one — and the weather is no problem either."

Tickets for the show are on sale now at \$3 for reserved seats, \$2 for general admission and \$1 for children. All prices are plus tax. Mail orders are being accepted care of "ABC Rodeo, Caprock Hotel, Lubbock".

FROM TENNESSEE

Mrs. Lillie Morton, of Memphis, Tenn., is here this week visiting Mr. and Mrs. J. W. Fowinkle. Before coming here she visited in Ft. Worth and Austin.

Mr. and Mrs. Dan Bray, of Lubbock, were here Friday evening of last week to visit his parents, the Clyde Brays, and to attend the Eastern Star Installation service.

FRIDAY GUESTS

Mr. and Mrs. Dan Bray, of Lubbock, were here Friday evening of last week to visit his parents, the Clyde Brays, and to attend the Eastern Star Installation service.

the letters "Donita & Gaylon" in silver ran from the center piece. Blue heart shaped sandwiches, punch, and mints were served. Miss Gwendolyn Lee Parker and Miss Kay Cole presided. All appointments were in crystal.

Hostesses were Mesmes. Johnson, Cecil Cole, J. G. Arnn, Jack Lowe, Horace Hutton, John Shaekelford, Tom Franklin, Frank Griffith, W. T. Parker, Bob Sandlin, Millard Townsend, Bob Kindler, Haskel Kirby, and Pete Tarlton.

Junior hostesses were Kay Cole, Paula Kindle, Nan Johnson, Gwendolyn Lee Parker, Lynda Lowe, Betty Arnn, Betty Hutton, Bernice Kirby, Virginia Pollard and Mrs. Jimmit Bateas.

About thirty guests called or sent gifts. Nan Johnson registered the guests.

* Mr. John Abbe was feeling worse Friday. He has been in ill health for several months.

* Wheat Harvest

Wheat harvesting is under way over the community. Most fields of wheat will have a very low yield due to the drought.

* Bible School Ends

Commencement exercises for Bible School was Sunday evening. A good school was reported with sixty nine enrolled and an average attendance of 64.

* Mr. and Mrs. J. G. Arnn visited their daughter, Betty and Gail in Lubbock Sunday.

* Guests this week in the Claude Sanders home was her sister, Mrs. Pierce Goss and son, Royce, and Mr. Sanders' cousin, Mrs. Everett Barton and daughters, Patti and Karon, of Fresno, Calif. The group planned to visit in Ft. Worth before returning home.

STEVENSON WINS IN CALIFORNIA — Adlai Stevenson displays some of the many telegrams and congratulatory messages he received as a result of his smashing victory over Estes Kefauver in the California primary last week. He grinned broadly as he said, "The results exceeded my wildest expectations." Mr. Stevenson's victory has greatly enhanced his probable election as the Democratic Party's candidate in the November Presidential contest.

The Muleshoe Journal

DEDICATED TO THE PROGRESS AND DEVELOPMENT OF BAILEY COUNTY AND THE GREAT MULESHOE COUNTRY

VOLUME 35, NUMBER 24

THURSDAY, JUNE 14, 1956

F. B. Committee On Bindweed Control Is Appointed Here

The Bailey County Farm Bureau has appointed a bindweed committee to try to get farmers and others interested in controlling bindweed.

The bindweed committee consists of Bill Miller, Carl Bamert, Oran Gregory, Robert Blackwood, Morris McKillip, Ed Little, Burrell Black, and Ross Goodwin. Several members of the committee met last Thursday to discuss necessary action.

Texas has a noxious weed law, which if the county voted in favor of, would levy a small tax on land to cover administration, and force the control of noxious weeds. The committee felt that farmers are conscious of the need of this control without a law. The committee suggested that the farmers voluntarily take care of their own farms.

It was suggested that commissioners take care of the county right of ways. In talking with one of the commissioners Thursday night, he stated that he did not have the money to help with such a project. Everyone having bindweed on the road right of

Enochs Events

* Mrs. T. A. Thomas is on the sick list.

* Jimmie Zed Robinson and children of Littlefield spent Friday night with Mr. and Mrs. Zed Robinson.

* Mrs. Leroy Ramburg and her two daughters from Shreveport, La., were recent visitors in the W. R. Adams home.

* Mrs. Ramburg is a cousin of Mrs. Adams.

* Mr. and Mrs. Travis Brumfield, Dewitt, Betty Lynn, and Terry Lee of Abernathy, spent the third and fourth of June with Mrs. B. M. Short.

* Ruby Cash spent Tuesday and Wednesday with Nancy Aron of Bula.

* Mrs. H. H. Snow and D. T. Johnson went to Lubbock Thursday to meet Sue Johnson, who has been visiting an aunt in Ft. Worth for ten days.

* Mrs. E. Harry of Lubbock, spent last week visiting her daughter and family, Mrs. Roland Gibson.

* Mrs. Dutch Cash, Ruby, Beverly Simmons, Mrs. Setliff, Mrs.

Gene Bryan, spent the day at the childrens' home in Portales, N. M.

* Mrs. W. B. Browning of Buffalo Springs, Mrs. A. B. Beasley and children of Bowie and Peggy Sue, Larry, Mrs. James Tune and son Jimmie, Bowie spent Wednesday and Thursday with the B. M. Shorts. Mrs. Browning, Mrs. Beasley and Tune are sisters of Mrs. B. M. Short.

* Mr. and Mrs. Bob Newton and boys visited Sunday with Mr. and Mrs. Bennie Frey.

* Jimmie John and Jimmie Zed of Littlefield are spending the week with their grandparents, Mr. and Mrs. Zed Robinson and attending the Vacation Bible School at the Enoch's Methodist Church.

Babson Discusses

POSSIBILITIES OF WORLD WAR III

Babson Park, Mass., June 14. I meet many interesting people, especially when in Florida, where during the winter, brilliant minds gravitate. As I have just returned to Massachusetts, I wish to mention five such men.

WHAT ABOUT WORLD WAR III?

One of these men is an international oil expert who has just returned from Arabia. He states that a small area in the Far East contains more oil than all other sections of the world. He doesn't believe that World War III will happen during our lifetime; but if it does, the war will be for the control of this fabulous wealth of oil. He says: "Arabia is where the United Nations Headquarters should be located!"

Another very interesting man, one of the nation's greatest "fundamental physicists," is interested only in studying atoms. He thinks that our banks, factories, and stores are mere "peanuts"; and that I should not waste time studying them. He talks of the marvelous possibilities from rearrangement of atoms so as to make anything cheaply -- perhaps life itself -- and the securing of free power from it through the air.

ARCHEOLOGISTS MAKE YOU THINK

Another interesting man is one who has just returned from excavating the great city of Carthage in Northern Africa. Here are found seven layers of cities, averaging some seventy-five feet, one below the other. All were once rich and powerful; all but the last have been destroyed. This man would not own any property in any vulnerable large city. He says: "The safest investment is a small, fertile, well-watered farm in the center of the United States." Based on all previous history, he foresees within one hundred years a complete collapse of our "experiment with Democracy," to be followed by a Dictatorship and later a Monarchy.

My next choice is a famous parapsychologist from a leading university. He is studying the most advanced methods of psychic communication, including clairvoyance, telepathy, and other extrasensory powers. He hasn't much use for telephone wires or even present methods of broadcasting. To hear him talk, you would think we were still living in the "Stone Age," with little realization of our powers to think or communicate.

WHAT IS BEAUTY?

My last visitor was a shabbily dressed man who had traveled over a thousand miles to discuss "Beauty," which to him included architecture, paintings, music, jewelry, and even perfume. "These," he said, "are the few things which we find in the oldest tombs of the wealthiest Egyptian Pharaohs." He believes these are the best investments today. To enjoy these things, he claims that they do not need to be heard, or seen, or touched; but that Beauty is something we enjoy through our thoughts and that, like gravity waves, it can penetrate any enclosure.

When I praised certain rich men like Andrew Mellon for buying famous paintings and establishing great art museums, he considered me very materialistic and frowned upon the thought that Beauty could be "purchased." His parting words were: "Read your Bible, especially the twelfth chapter of Ecclesiastes and the thirteenth chapter of First Corinthians."

LOOKING CENTURIES AHEAD

The actual Bible which I read was published in 1549 by my ancestor Reverend John Rogers, who later was "burned at the stake" in London for looking ahead. After reviewing these five visitors, I wonder if there may not be a time ahead of us when the possessing of something not now considered of value may be recognized as the only true wealth. The Old Testament Prophets may have had it in mind when they talked about "JEHOVAH"; Jesus, when He talked about "LOVE"; and the Early Church leaders when they wrote of the "HOLY SPIRIT." Most religions now use these words in their creeds; but very few of their followers, including those of us who call ourselves "Christians," treat these unseen forces as wealth. This is not surprising, as it took our ancestors a million years to awake to the power of electricity. It is even possible that the atoms of the physicists may also be "peanuts." I don't know.

I am inclined to believe that too many of us are wasting our lives in things that do not really help to give us health, happiness, or power. Perhaps real wealth is something that cannot be touched, or seen, or even deposited in a bank or kept in a safe-deposit box. I do, however, forecast that the time will come when it will be recognized that wealth is not what nearly everyone now considers "wealth" to be.

Ride Him!

Sand Hills Philosopher SAYS HE'S READY TO JOIN SOIL BANK

Editor's note: The Sand Hills Philosopher on his Johnson grass farm will get about as far with his idea this week as he does with a lot of others he's had.

Dear editor: Since Congress was nice enough to provide us farmers with a soil bank, I have been studying every angle I can find to figure out a way to get in on it. It's not going to look right if we sit back and drag our feet.

Therefore, I've been reading everything I can lay my hands on in this connection, and last night I believe I ran on to the idea I've been looking for.

It was a statement by Sec. Benson, who I guess you'd say is president of this bank and is the man to look to. According to him, he is going to be as generous as he can in getting the bank going and will even let a farmer put some land in it this year that's already been planted provided "the crop isn't too far advanced."

Now I haven't got time to take this to the Supreme Court to find out what "too far advanced" means, but if Sec. Benson will place a generous, liberal interpretation on it, he and I can do some business.

For example, I've got some crops not only this year that aren't too far advanced, I've got some from 1955, 1954, 1953, 1952, and 1951 that could be classified in the same category. What I would like to do is put 50 acres of not too far advanced crops in the bank this year and also for the years just mentioned, using the same 50 acres multiplied by five years, after all, this big surplus payments for six years. After all, this big surplus we've got staring us in the face wasn't created in one year, and a man ought to be entitled to payment not only for not contributing to it this year but for past years too.

A long-range, far-sighted program ought to have the virtue also of looking back as well as forward. Of course, I understand to get land in the bank with a crop that's not too far advanced, you'll have to plow it up, but the payment is not for plowing up, but for dodging a surplus, and what difference does it make to Sec. Benson when I plow up this 50 acres six times, one for each crop that never got too far advanced since 1951, or just once?

If something can be worked out along this line, let me know. I'm a specialist in producing crops that never get too far advanced.

Yours faithfully,
J. A.

MAP REVEALS LOWERING OF WATER LEVELS

A recently published map of Bailey county has been released by the Texas Board of Water Engineers, showing the decline of water levels in the county from January, 1955 to January, 1956.

The report of water draw down is based on a study of 27 observation wells within the county, and the draw down on each well.

The average decline during the 12 months observed, reveals a drop in water levels ranging from a high 7.9 feet, to a minimum of .7 feet, for an average of 3.7 feet for all the observation wells for the year.

The map indicates that the observation wells are mostly concentrated in the northern one-third of the county from east to west, with five wells being in the central section of Bailey county. No observation wells are indicated in the extreme southern sector of the county along the Cochran county line.

Copies of the map may be obtained at the office of the county agent.

These figures bear out further the immediate need of strict water conservation within this county.

and in fact all over the Plains. Many farmers and well servicing concerns locally have reported lowering wells annually to reach the dropping water table.

As with all natural resources, water may be exhausted through waste. Just as the once vast forests that covered the many parts of this country have been denuded by eager and greedy men, so can our last precious drop of water be allowed to run unchecked into the barrow ditches or evaporated through over-pumping.

It appears to be only common sense to try to make our underground water last as long as possible. For the sake of our own livelihood and economy, as well as for the generations to come after we are gone. We cannot, and must not leave them a wasteland as a heritage.

The natural dropping of the water levels, plus the almost certain further dropping when the vast pumping begins by Lubbock, point up the seriousness of the emergency.

It's time to stop talking and start taking some conservation action to save what we have left.

HAVE NEW DAUGHTER

Mr. and Mrs. Bill Jeter, of Springdale, Ark., are the proud parents of a new daughter, who was born Monday morning. At this writing the young lady had not been named.

Mrs. Jeter is the former Miss Billie Collins, daughter of Mr. and Mrs. Bill Collins. Mrs. Collins has been visiting in Springdale for the past two weeks.

Mrs. Earl Jeter, of Springdale is the paternal grandmother.

TO BROWNWOOD

Mr. and Mrs. M. L. Jackson and daughter Neoma were planning to leave Wednesday of this week for Brownwood for about a week's visit there with relatives and friends.

Mrs. Dunn to HELP WITH INSTALLATION Mrs. Wynnie Dunn was in Friday on Monday evening of this week to help with the installation of new officers in the Eastern Star Lodge there.

VISITED IN LUBBOCK Mr. and Mrs. Bill Hunt were visiting with relatives over the weekend in Lubbock.

FROM ANDREWS Bill Whitley was visiting here with his parents, Mr. and Mrs. R. Q. Whitley over the weekend. He is from Andrews.

WEEKENDED IN LOVINGTON Mr. and Mrs. L. L. Estep visited the past weekend in Lovington, N. M. with their son and daughter-in-law, Mr. and Mrs. Kenneth Estep and children.

CLEMENTS HAVE GRANDSON Mr. and Mrs. Olen D. Clements, of Albuquerque, N. M. are announcing the arrival of their son, Kevin Dee, who was born June 1, at Albuquerque. He weighed 7 lbs. 12 oz. They have two other children, both girls.

Mr. and Mrs. Dee Clements of Muleshoe are the proud paternal grandparents.

VISITED IN HOBBS Mr. and Mrs. Vernal King spent the past weekend in Hobbs with their daughter and son-in-law, Mr. and Mrs. Bobby Gene Nickels.

TO CALIFORNIA Mr. and Mrs. Sylvan Robinson and sons were leaving this week for California, where they planned to visit relatives and points of interest for about ten days.

WEEKEND GUESTS Mr. and Mrs. C. A. Clark and Mr. and Mrs. Glenn Kenney were weekend guests here in the C. A. Campbell home.

ATTENDED FUNERAL Mr. and Mrs. C. A. Campbell were in Lubbock Friday to attend funeral services for Mr. C. A. Bennett.

Today's Meditation

READ ROMANS 6:8-13. Yield yourselves unto God, as those that are alive from the dead, and your members as instruments of righteousness unto God. (Romans 6:13.)

Much of man's activity in the present world concerns itself with the attainment of conformity to standards of society. Paul admonished the early Christians, however, to use God's gifts for His purpose. This was to be accomplished by a renewing of the mind rather than by attempting to conform to the world.

As present-day Christians, we can likewise fulfill God's purpose by a presentation of our bodies as living sacrifices. In realizing that such is our reasonable service, we become aware of our being a vital part of the world. However, our being in eternity is dependent upon the fulfillment of our reasonable service upon earth and under earthly conditions.

In His birth, earthly ministry, and physical death on the cross, Jesus qualifies as a child of our world. As the Son of God, Christ has made that other world obtainable for us who put faith in Him.

PRAYER Father, help us to be ever mindful of our Christian obligations. Amen.

THIS WEEK

-In Washington
With Clinton Davidson
Now that Congress has passed a new farm law the big question in Washington is: What does it mean?
Political candidates and farmers are asking that.
Political observers are convinced that neither party gained any considerable advantage out of the long farm debate. Democrats, they say, fumbled their opportunity to lead a farm belt revolt.
They give President Eisenhower credit for having out-manuevered this opposition by a quick retreat from low price supports for this year only. Farm problems will become less of a political campaign issue than had been expected generally.
About the only thing new for farmers in the law is the Soil Bank. And that is intended more as a payment to farmers to reduce production still further than anything else. About the only difference is that farmers who choose to do so can get some of their income directly from the government rather than through growing crops.
The Soil Bank is in two parts. For taking some acres out of cotton, wheat, corn, rice, tobacco, barley, oats or grain sorghums and allowing it to lie idle, the government will make payments out of the \$1.2 billion a year fund provided for in the law. That's the acreage reserve program.

gations. As children of this world...

gations. As children of this world, we transform our lives that we shall willingly present them as living sacrifices to Thy purpose. We pray in our blessed Saviour's name. Amen.

THOUGHT FOR THE DAY By living in obedience to Christ in this world, we have hope of eternal life. George C. Roberts, U. S. Army (Germany)

STRENGTH FOR THESE DAYS From The Bible

And though I have the gift of prophecy and understand all mysteries and all knowledge; and though I have all faith so that I could remove mountains, and have not charity, I am nothing. — (1. Corinthians 13, 2.)

Any one of us, through a life of righteousness, devotion and prayer, can win to the whole faith that rewards us with inner peace and strength. But we will not be wholly acceptable in the sight of God until we unflinchingly extend a loving heart and helping hand to all our less fortunate brethren.

The payment rate, generally, will be half, or a little more than half, the average gross income of the same acres in the past 5 years. That part of the Bank is operative only through 1958.

The second half of the Bank plan is called - conservation reserve. Farmers who take a portion of their land, in addition to the acreage reserve, out of cultivation and put it into conservation practices will get payments.

Payments will be made to cover most of the initial cost of seeding conservation acres to grass, trees or other so-called cover crops. Then each year, starting with the first, an annual "rental" payment averaging \$10 an acre will be paid by the government.

Farmers also can get payments for building dams, ponds and other water conserving practices. The whole idea is to store fertility in the soil for future use rather than using the land now to produce surpluses.

The Agriculture Department figures there are somewhere between 30 and 40 million acres now being cultivated that need to be put into the Bank, to be drawn on when there is need for added production. On most of the "excess acreage" corn, cotton, wheat and rice are being grown. Those are the "surplus" crops. Supporters of the Bank idea say by reducing the number of acres in cultivation we can gradually cut down on surpluses. And, they contend, when surpluses have disappeared the price of farm products will rise, without the need for government supports.

TO THE SCHOOL CHILDREN OF MULESHOE:

Since the close of school I miss you very much, and I am looking forward to seeing you at the City Park during the summer months. As you probably know, I keep the City Park during the summer and you are welcome to come down any day and play on the swings and etc.

Through your cooperation we did not have an accident around any of the ward schools during the school year just ended. The people who drive by the school during school hours observed the traffic laws and as such protected our school children.

The City Park is open for all persons, as well as children, to come play, have picnics, play on the swings, see-saws and etc., and relax under the trees. This is your park so use it. You can do most anything in the way of play and recreation, you so desire except play ball on the grass as we must protect the grass to keep our park beautiful. Come and see me. Your Friend, J. J. REDWINE

THE BOBOS OUGHT TO BE IN SWITZERLAND

Mr. and Mrs. Pat Bobo, on a tour of Europe, ought to be on the train from Berne to Inter-laken, Switzerland, about the time this is being written. Their literary calls for a night stop at Biezn, also in Switzerland, tonight.

They left here June 3 and are to return home June 27, according to their schedule. Meantime, anyone wanting to reach them can do so by going through American Express Co.

FROM LITTLEFIELD

Mr. and Mrs. Calvin Brown, of Littlefield, were Sunday guests in the home of her parents, Mr. and Mrs. M. L. Jackson.

ATTENDED WEDDING

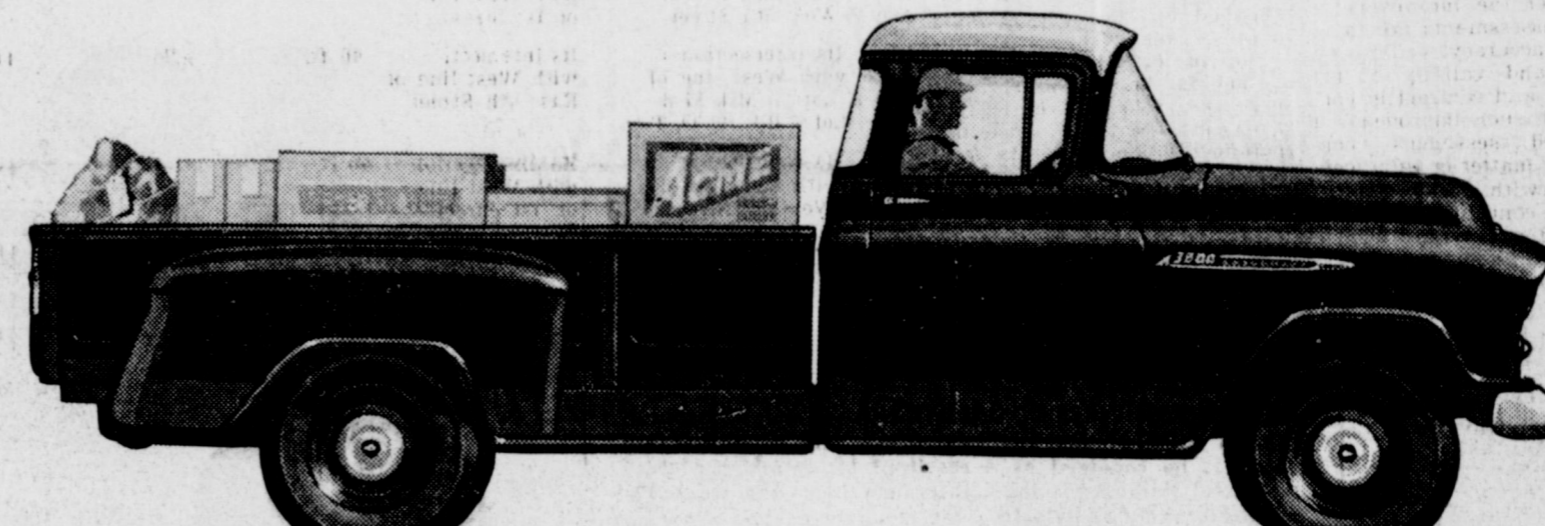

Paula Provence was in Santa Anna recently to attend the wedding of her friend, Beverly Gilbreath to Bill Day. Beverly is a former resident of Muleshoe, and is the daughter of Mr. and Mrs. Byron Gilbreath.

WEEKEND VISITORS

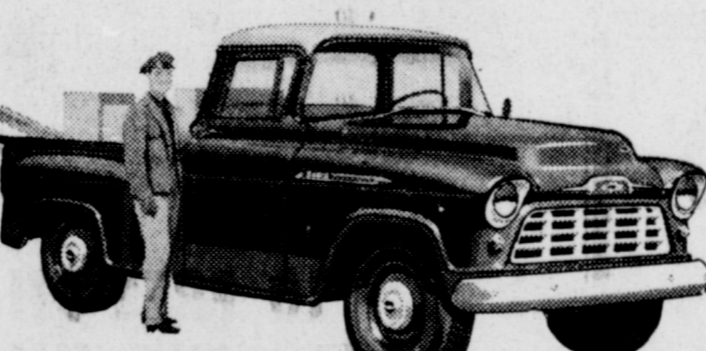

Mr. and Mrs. Donald Moore, of Lubbock, were weekend guests in the homes of the: parents, Mr. and Mrs. S. O. Workman and Mr. and Mrs. Seaborn Moore. They also visited other relatives and friends.

MOVE TO ALBUQUERQUE

Mr. and Mrs. Ed Bynum visited here one day last week in the Roy Bayless home. They were on their way to Albuquerque, N. M. to make their home. They have been residing in Amarillo.

KEEPING THE PINKIES DOWN

Cotton losses from pink bollworm infestation may show a marked drop this year if early-season bloom inspection results are a good barometer.

Findings in an annual inspection of lower Rio Grande Valley cotton blooms indicate a significant decrease of infestation both in number of fields and density of bloom attacked.

Out of four counties checked—Cameron, Willacy, Hidalgo and Starr—only Willacy got a clean bill of cotton health, although infestation was down in all counties. In Willacy, no bloom infestation was found, compared with 35 pink bollworms per 100,000 blooms and 33 per cent of fields infested in 1955. Part of the Willacy County cotton was not as far advanced as during the 1955 bloom inspection, however.

In the other counties, infestation was less than half the degree recorded in last year's inspection.

This noted drop in early bollworm occurrence is probably due in part to slightly shortened planting periods in the areas checked. Eleven days were pared off the permissible planting period in the Lower Rio Grande Valley pink bollworm control zone. Resultant suicidal emergence of pink bollworm moths where there are no cotton squares up have a marked effect on local infestation.

Strict compliance with planting and plow-up rules are invariably our best means of preventing pink bollworm build-up, and it is through such cooperation as that given by the valley farmers that this pestilence will eventually be safely controlled.

NO SHADE TREE AT THE END OF THE ROW?
They're liable to start a resolute.

Tips For Harvest Of High Quality Cotton Given

Tips on how to "Harvest Cotton for Top Quality" are given by Fred C. Elliott, Texas Extension cotton work specialist.

Here are seven suggestions given by Mr. Elliott:

Leave a 2½ to 3 inch furrow in the middle of the last cultivation. This allows leaf trash to roll away from base of the row and collect in the middle where it will not be gathered by the picker or stripper.

Follow through with late insect control.

Control late grass and weeds.

Defoliate. Boll rots can be checked or prevented by defoliation.

Keep machines clean, serviced and in adjustment. A daily wash down to remove grease, dirt, and twisted up lint is essential.

Handle cotton to preserve quality. Use trailers with sufficient capacity.

Do not use asphalt-coated pick sacks. Even the smallest of tar spots in lint are serious.

tion among the farmers' kids if what I hear is true. They say the fence row shade tree is on its way out.

If there was ever anything pleasant about chopping cotton under the hot July sun, it was the water jug hanging from the lowest limb of the mesquite at the turnrow. Talk about incentive! Nothing could make a boy hitch up his overalls and bear down on the hoe so much as sighting the promise of a moment's repose under the shade of a big mesquite.

The boy never cared, not even noticed, that the cotton didn't grow up under the tree. And he didn't realize that the water jug took to hold up all that beautiful green foliage could produce nigh on to another bale.

But, with water being hard to come by and money even harder, many farmers are taking the practical viewpoint and poisoning their fence row thieves.

So I expect the young man in the striped overalls will get practical too and go modern -- with a beach umbrella and a thermos of cracked ice and water.

Verney Towns' Featured In Farm Magazine

The Verney Towns family, Ballew County, is featured as a Master Farm Family in the July issue of The Progressive Farmer magazine.

The articles "A Real Good Farmer" and "She Welcomes New Ideas" tell of the farm and home life of this progressive family.

The Towns family operates 533 acres of irrigated land on which there are three good wells. Cotton, grain sorghums, alfalfa and sheep have been put together to make a winning combination. Towns has stepped up acre yields until he averages 1¼ bales of cotton, 3,000 pounds of grain sorghums, and 8 tons of alfalfa. To round out his operation, he has 300 Rambouillet ewes and 5 Hampshire rams.

Towns tests his soils and gives his crops the plant food they need. Alfalfa provides both feed and nitrogen for the soil. He has at least 100 acres of alfalfa each year.

Towns has also rented 1280 acres near Farwell, where he grows wheat and maize.

Mr. and Mrs. Towns with their daughter, Karolene, and son, James Edward, live in a modern, beautifully decorated and well equipped home. Mrs. Towns is outstanding as a homemaker, church worker, and citizen.

VISITED IN KNOX CITY

Dorothy Giles spent the past weekend in Knox City with her parents, Mr. and Mrs. R. C. Giles and brother Robert. Mr. Giles returned home with her and visited with friends here until Tuesday.

WEEKENDED AT TURKEY

Mr. and Mrs. H. O. Logan and daughter, Betty, spent the past weekend visiting relatives and friends at Turkey.

VISITED MOTHER

Mr. and Mrs. Homer Long and children visited Sunday in Melrose, N. M., with her mother, Mrs. Henry Allmond and Mr. Allmond.

WAYNE BRISTOW NAMED WAYLAND SPORTS WRITER

Wayne Bristow, of Muleshoe, has been re-appointed writer for the public relations staff, Wayland College, Plainview. He has served in this capacity during the past college year.

Bristow was elected president of the sophomore class and is a member of the Baptist Student Union Council.

MARSHAL TITO IN MOSCOW — Marshal Tito of Yugoslavia salutes from his special train as he leaves with his wife for his Moscow visit. He has toured portions of Russia for the past week, however this will be the Yugoslav President's first visit to Moscow for talks with the Russian leaders since he broke with Soviet Communism. Controversial debate is now in process in our own Congress because of this apparent renewal of comradeship. The debate concerns the advisability of continued Foreign Aid to Yugoslavia.

WEEKENDED AT TURKEY

Mr. and Mrs. H. O. Logan and daughter, Betty, spent the past weekend visiting relatives and friends at Turkey.

WAYNE BRISTOW NAMED WAYLAND SPORTS WRITER

Wayne Bristow, of Muleshoe, has been re-appointed writer for the public relations staff, Wayland College, Plainview. He has served in this capacity during the past college year.

Bristow was elected president of the sophomore class and is a member of the Baptist Student Union Council.

FARMER COUNTY Farm Bureau News
By RAYMOND E. JLER

We made a mistake, and told you that Mrs. Rickerd would be out of the office several weeks ago. We are right this time, in telling you that she will be gone to Waco Monday through Wednesday, attending secretary's school.

Your directors urge you to watch with diligence any news items relating to minimum wages legislation. We have been prone to say that organized labor does not bother the farmer, but reading of the present proposals for new legislation, and a look at the powerful groups supporting them gives a different view of the situation. We have yet to talk to a farmer who says he could operate on a minimum scale of \$1 or more per hour for any and every man he hires, particularly if he could only work him eight hours before

going up to time and a half. If you think this is important to you, you will have ample opportunity, at the right time, to express yourself to the right person in opposition to any such imposition upon your freedom. Watch your local papers.

Farm Bureau Roundup is, in our opinion, one of the best statewide farm report radio programs on the air. If you have not been listening to it, look at your Texas Agriculture paper to select one of the 107 stations that carry it each Saturday. You can get it early in the morning or at noon. It is entirely non-commercial.

If you sixty new Farm Bureau members have been wondering when you would get your metal gate signs, we believe you will have them within the next two weeks.

We plan to devote this column to a write-in about Gilbert Kaltwasser, county president sometime soon. We believe that you will agree that if one hundred farmers in the county devoted as much time to working on farm problems and seeking a solution

to them as he, there would be many fewer problems.

Consider This: Suggest thou a man diligent in his business? He shall stand before kings; he shall not stand before mean men. —Proverbs 22:29.

Livestock Pests Controlled Best With Chemicals

Meat and milk production can be cut by insect pests which attack livestock during this time of the year, says C. F. Garner, assistant extension entomologist. The worst insect offenders are hornflies, spinose ear ticks, and stable flies. Unless controlled, they will rob Texas meat and milk producers of several million dollars, warns Garner.

These pests can be controlled by pesticides applied as smears, dips or sprays. But, points out the entomologist, chemicals alone are not enough. Breeding center, such as manure piles, strawstack bottoms and the like should be eliminated. All water

outlets and pools of accumulated water should be drained and low places in the lots filled with soil.

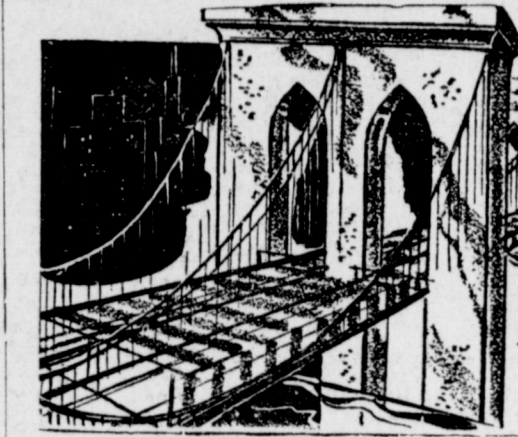

Garner says DDT should not be used for lice, tick or fly control on cows producing milk for human consumption. Neither should this material be used for spraying the inside of dairy barns and buildings. He advises using only recommended insecticides for treating livestock and barns and urges care in mixing and applying the materials.

A good livestock pest control program depends on correct diagnosis and medication.

For complete details on the amount of pesticides to use, Garner suggests a visit with the local county agent. Ask him for a copy of L-256, Guide for Controlling External Parasites of Livestock and Poultry or write to the Agricultural Information Office, College Station, Texas for a copy.

VISITING UNDERDOWNS

Mr. and Mrs. Pete Davis, of Brownsville, are visiting here this week with Mr. and Mrs. Watt Underdown and other relatives and friends.

In case you buy the Brooklyn Bridge

POWER STATION SLIDES INTO NIAGARA — Three earth-jarring slides left most of the giant Scholckopf power station in Niagara Falls, N. Y., in complete ruins. It was the largest Hydroelectric power facility in the Niagara Mohawk system. One man is dead and the damage will run into the millions. The industrial city of Niagara Falls, with its population of 100,000, was without electrical power for two hours. The spectacular collapse was caused apparently by seepage of water and "earth movements" in the area.

Protect Poultry From Heat For Higher Production

As summer temperatures climb above 85 degrees, many poultry flocks will drop in egg production. Feed consumption will decrease and water consumption increase. Texas poultrymen should begin now to plan for adequate protection of their flocks during periods of high temperature, says Ben Wormell, extension poultry husbandman.

Increased water space, more effective ventilation systems, water sprays and shade are all being employed in an effort to thwart old man sun.

Normal body heat of a chicken is about 107 degrees. Chickens have no sweat glands and therefore cannot depend upon evaporation for body cooling. This makes it necessary to take precautions during the summer to provide the birds with shade and ventilation.

About 85 percent of the sun's heat enters a poultry house as radiated heat through the roof, says Wormell. It is important, therefore, that roofing material be light colored material that will reflect a large amount of sun rays, reducing the amount of heat absorbed by the roof. The roof should be 8 feet high at the walls and 12 to 15 feet high at the gable. This provides space for roof heat to dissipate in the ceiling area without reaching the chickens. Proper ventilation will carry heated air from the house before it reaches floor level. Roof overhang should be sufficient to keep direct sunlight off the floor and prevent radiated heat from that source.

It is wise to keep outside areas of the house free of tall grass allowing free air movement for ventilation, says Wormell. Keeping outside ground around the poultry house covered with short grass that is well

watered helps prevent the warming of air moving into the poultry house.

Tall slot fences are being used to protect the northwest corner of the poultry house from the late afternoon sun. Heating of this corner of the house is reported to be a major cause of death loss during extreme heat.

Some poultrymen are using sprinkler systems or a garden hose to spray and carefully wet birds a few minutes of each hour during periods of hundred degree temperature. Good air movement is a must when the birds are wet. Otherwise stifling humidity can develop which is harder on the birds than dry heat.

Poultrymen who are now providing facilities to give maximum protection against extremes of summer heat, will maintain a good rate of feed consumption and performance that will provide the summer profits needed for good year round earnings, says Wormell.

Insect Reports Begun This Week

This Cotton Insect Survey is the first one this year. Others will be made each week throughout the growing season and will be released each Thursday at 5 p. m. All individuals or organizations who receive this report are on our mailing list and will receive one each week.

Rainfall has been spotted, with only showers in part of Bailey, Cochran, Hockley, Lamb and Lynn counties and in other scattered areas. Other areas have had moderate to heavy precipitations. Such rainfall has affected the progress of cotton and the abundance of some early season pests such as aphids, thrips, and spider mites.

Thrips have recently appeared in medium to heavy infestations in many fields throughout the area. While heavy rains have tended to materially reduce in-

Extension Service Instructions For Checking Insect Infestation

The "Cotton Insect Situation in Texas" report will be more dependent on information from individuals this year than ever. Survey crews, as used last year to inspect individual fields in the principle cotton growing areas of the State, will not be available; therefore, we must have the help of all people interested in cotton production over the State in order to continue to make the report effective.

The "Cotton Insect Situation in Texas" report will be released on Tuesday of each week beginning the first week in May; cooperators are urged to begin mailing their reports as soon as cotton is up to a stand. Special reports will be released for the Rio Grande Valley area and for the Plains area each week as in the past. These reports will be continued as long as necessary.

Self-addressed cards requiring no postage will be furnished all cooperators. These cards will serve for early season as well as late season infestation reports. Infestations may be recorded as light, medium, or heavy on all insects; however, actual counts on fleahoppers, bollworms, and boll weevils will be more helpful if you can give them. When the

infestations the constant heavy movement of the insects into cotton fields has often resulted in rapid increases in infestations following such reductions by the rains.

Many fields have thrips infestation which indicates a need for control. In such cases treatments should be started at once. Thorough coverage of plants with the insecticide is very necessary and treatment should be timed at no more than seven days intervals. Where the insects are migrating into the fields, it may be necessary to reduce the time between applications to five or six days. Three insecticidal applications will likely be needed. Such a schedule should reach over into early fruiting of cotton so it will control any early fleahopper infestations. A careful and frequent check should be made in order to secure good control of both pests.

Spider mites have appeared in scattered infestations on cotton near weeds or some legumes. Such infestations are more prevalent in areas where rainfall has been light. Light fleahopper infestations have been observed on scattered early planted cotton. As cotton reaches early squaring, fields should be checked and control effected as numbers reach damaging proportions.

The 1956 Cotton Insect Control Guide gives information on the proper insecticide and its application for the control of all our cotton insects. These guides are available at County Agent's offices, ginners, insecticide dealers, and other places.

Information contained in the cotton insect situation release has been compiled from reports received from county agents, vocational agricultural teachers, personnel of the Texas A. & M. College System, various branches of the U. S. Department of Agriculture, commercial cotton inspectors, chemical companies and others.

insect situation is found to be about the same over a given area, general conditions for one or more counties may be given on this card. When general conditions are given, indicate in remarks the area covered and the number of fields inspected.

The following suggestions are given so that the reports will be based upon common standards.

THRIPS: Walk diagonally across the field, inspecting many plants at several representative places, using the following as a guide:

Light — When the newest unfolding leaves show only a slight brownish tinge on the edges with no silvering on the underside of these or older leaves and only an occasional thrip is seen.

Medium — When the newest leaves show considerable brown- ing along the edges and some silvering is evident on the underside of most leaves and thrips are found readily.

Heavy — When silvering of leaves is readily noticeable, the terminal buds show injury, general appearance of plant is ragged and deformed and thrips are numerous.

FLEAHOPPERS — While walking diagonally across a field for other insect records, inspect 33 terminal buds approximately 50 feet from each of the 2 corners and 24 terminal buds at the center of the field, or inspect 100 terminal buds at several representative spots over the field for the fleahopper record. Count both adults and nymphs found in the top 3 or 4 inches of the cotton plants and record the total number. When using light, medium, and heavy, use the following as a guide:

Light — Estimated 1 to 10 fleahoppers per 100 terminals.

Medium — Estimated 11 to 25 fleahoppers per 100 terminals.

Heavy — Estimated 26 or more fleahoppers per 100 terminals.

BOLLWORMS — Examine the terminal buds (upper 3 to 4 inches of the plant) of 100 cotton plants and record the number of worms found as the percent bollworm infestation or examine 100

consecutive squares and bolls at each of several representative points in the field and record the number of damaged ones as the per cent damage.

When using light, medium, or heavy, inspections should be made in several representative points in the field using the following as a guide:

Light — When only a few small squares show injury.

Medium — When injured squares and bolls are readily noticeable over most of the field.

Heavy — When numerous injured squares and bolls are noticed over the field.

BOLL WEEVILS: Reports of boll weevils on cotton before fruiting begins should be made on the basis of the number of weevils per 1000 feet of row. After plants are squaring freely or have produced as many as 3 squares per plant, boll weevil reports should be based on punctured squares. The 100 squares examined should be 1/3 grown or larger and an equal number should be picked from the top, middle and lower branches of the plants while walking diagonally across the field or from several representative spots within the field. Squares from the ground or dried up squares hanging on the plant should not be counted. Both feeding and laying punctures should be counted and the percent of punctured squares recorded in the proper space.

When using light, medium, and heavy, the following should be used as a guide:

Light — When only an occasional green square is found to be punctured. (Less than 25%.)

Medium — When flared squares are readily noticeable while walking through the field. (25 to 40% infestation.)

Heavy — When numerous flared squares are noticed over the field. (Over 40% infestation.)

LEAFWORMS: Inspections should be made in several representative points in the field and the following used as a guide:

Light — When 1 or only a few larvae are observed per field.

Medium — When 2 or 3 larvae are partially destroyed by ragging, with 2 to 5 larvae per plant.

Heavy — When ragging of leaves of extensive with 6 or more larvae per plant, or if defoliation is complete.

OTHER INSECTS: Observations

Muleshoe F.F.A. NEWS

The regular meeting of the Muleshoe FFA was held June 4 and plans for the FFA summer trip were discussed. The group present voted to take the trip the first week in August and further

should always be made for insects such as spider mites, aphids, stink bugs, pink bollworms, grasshoppers, lygus and other plant bugs and others as field inspections are made. This information should be put on the blank for "Other Insects or Remarks" on the card.

Do not go to excessive trouble to find out whether or not the field has been poisoned, the poison used or when, but this information will be helpful if it is known.

plans and details were referred to the trip committee. Before the meeting there was a film shown about Alaska. This was the first monthly meeting held this summer and all regular monthly meetings will be held the first Monday of each month throughout the summer. The next regular meeting will be July 2 and all members are urged to be present.

The group present last week decided to give a prize to one boy that was present at all summer meetings. The boys present at all summer meetings will have their name put in the hat and one name will be drawn out for the prize.

The committee that is to work on the summer trip plan is to meet at the agriculture building Friday night. Jerry Blaylock, who sold the most subscriptions to the Farm and Ranch magazine in the

chapter, won a trip to Nashville, Tenn., and the Grand Ole Opera, left June 13, and will return June 18.

The chapter wishes to encourage all boys who purchased livestock for the State Fair to try to produce the top animals of the show and this can only be done by constant attention to the animal as to ration, fitting, and training of the animal. The State Fair will be held from October 6-21, but the Junior Livestock Show is October 15-21. The fat lambs will show on October 17, market steers, pig show on October 18. The steers sell on Friday, October 19, and lambs and barrows on Saturday, October 20.

VISITORS FROM COLORADO
Mrs. Joe Smith and sons, of Evergreen, Colo., are here visiting Mr. and Mrs. Tom Smith and other relatives and friends.

Pleasant Valley News

Ken Angeley, son of Mr. and Mrs. E. K. Angeley was taken to Muleshoe hospital Monday morning for treatment. Ken was hurt Sunday afternoon while roping in Muleshoe.

Mr. and Mrs. Charles Bucks and sons David and Jimmy left Sunday via plane to their home in Denver, Colorado. The Bucks came Friday for their sons who have been spending the last two weeks visiting in the home of their grandparents, Mr. and Mrs. Doyle Turner and family.

Mr. and Mrs. C. E. (Hap) Bearden left Monday morning for their home in Ellenburg, Washington. They were Sunday over night guests in the E. K. Angeley home.

Mrs. Bonnie Haberer, and Mr. and Mrs. Doyle Turner and Sherri attended the wedding and reception of Austin (Bob) Hane Jr. and Miss Clarabeth Thedford in Littlefield Sunday afternoon.

Mr. and Mrs. Alton Taylor and Gail are visiting in Minnesota with Mrs. Taylor's relatives.

Visiting in the home of Mr. and Mrs. Claude Hendricks is their daughter and family Mr. and Mrs. Walter Maloney of Sweetwater, Texas.

Mr. and Mrs. Roy Shoemaker and family were Mrs. Shoemaker's parents Mr. and Mrs. Otis McMillen of Lorenzo, Texas.

Mr. and Mrs. Gerald Inglis and baby and Miss Virginia Bearden were Friday evening callers in the Leroy Hicks home.

Mr. and Mrs. Edgar Broyles and family attended commencement exercise of their daughter Patricia at Texas Tech in Lubbock recently. "Pat" received her degree in art.

E. K. Angeley, Mrs. Bonnie Haberer, and Jarvis Angeley all of Pleasant Valley, O. K. Angeley of Amherst, Mr. and Mrs. W. E. Angeley of Morton and Mr. and Mrs. C. E. Bearden of Ellenburg, Washington were in Lipan, Texas last week end. Mrs. Bearden is a sister of Mrs. Bonnie Haberer, E. K. and Jarvis Angeley.

Mr. and Mrs. Roy Taylor were hosts to a family reunion held at their home Sunday June 3rd, for Roy's mother Mrs. A. V. Taylor (Jones).

Those attending the reunion were Mrs. A. V. Taylor, cousins; Mr. and Mrs. Albert Jones, Vernon, Tex., Mrs. Earl Claunch, Albuquerque, New Mexico; and Mr. and Mrs. Bill Davison of Stephenville, Texas.

Others attending were Mr. and Mrs. Wesley Sherrin, Tokio, Tex.; Mr. and Mrs. Warren and Judy of Andrews, Tex.; Mr. and Mrs. Otho Briscoe of Peterburg, Tex.; Mrs. Bob Gregory of Lubbock, Mr. and Mrs. W. E. Lovelace of Knox City; Mr. and Mrs. H. E. Carmichel, Fluvanna, Tex.; Mr. and Mrs. W. G. McDonald of Brownwood, and Mr. Heywood Smith and his mother both from Dimmitt, Tex.

A very enjoyable day was enjoyed by all.

Leroy Hicks and Harold Faulkner were Friday evening callers in the Billy Free home.

The P. V. Home Demonstration Club sponsored a "County Fair" on Thursday afternoon June 7. Guests were the P. V. Social Club members; Home Demonstration Clubs from Sod House, Yellow house, Muleshoe and Progress.

Projects were on display such as rugs, aprons, basket-weaving, quilts, lamp shades, crochet pictures, cup towels, magazine racks, envelope holders and various others.

A wonderful afternoon was enjoyed by the fifth people attending.

Mr. and Mrs. J. H. Angeley were hosts of a chicken fry and ice-cream supper Sunday night June 10, in honor of Mr. and Mrs. C. E. Bearden.

Those enjoying the occasion were: Mr. and Mrs. W. E. Angeley of Morton; Mr. and Mrs. Ted Haberer and sons, Mr. and Mrs. Jerry Angeley and sons, Mr. and Mrs. Rex Angeley and Tony, Mr. Ross Middleton and son, Mr. and Mrs. Jack Angeley and family all of Earth; Mr. and Mrs. O. K. Angeley and Judy, Mrs. Frankie Marphus and daughter all of Amherst; Mr. and Mrs. E. K. Angeley and family, Mr. and Mrs. Russell Haberer and daughters, Miss Susan Allison, Mrs. Bonnie Haberer all of P. V. Community; Mr. and Mrs. Bearden the honor ee's of Ellenburg, Washington and the host and hostess Mr. and Mrs. Jarvis Angeley and family.

Mr. and Mrs. Milton Crowe and sons of Stony Point, New York visited in the home of his sister Mrs. Alice Angeley. The Crowes left last Friday to spend two

Leonard Haught of Pampa, is visiting in the home of Mr. and Mrs. Ted Treider.

Mrs. Truman Taylor, Joe Bob and Susan are visiting Mrs. Taylor's parents, Rev. and Mrs. C. K. Roberts. They are from Houston.

Wilma Hill, small daughter of Mr. and Mrs. Bob Gandy, underwent an appendectomy in West Plains Hospital and Clinic last Wednesday. She is recovering nicely.

Kirby Wayne Carrell, son of

Mr. and Mrs. Thomas Carrell, was dismissed from West Plains Hospital on Sunday after a severe stomach upset.

Mrs. R. C. West of Dimmitt, visited Sunday in the Thomas Carrell home. Peggy Ann Carrell went home with her to visit this week.

Mr. and Mrs. Rudolph Pyritz had as their guest over the week end their daughter and family, Mr. and Mrs. James E. Haran and daughter of El Paso, also visiting in the Pyritz home on Sunday were Mr. and Mrs. Ed Steinbock.

Louise Ham is in Odessa spending the summer where she is attending the first session at Odessa Junior College.

Mr. and Mrs. C. H. Carpenter of Houston, spent the week-end in the H. W. Carpenter home.

Jimmy Frank Carpenter, a student at Tech in Lubbock, is at Camp Kiwanis near Amarillo, where she is acting as counselor at the Girl Scout camp.

Barbara Hinkson, daughter of Mr. and Mrs. Frank Hinkson, is working at the Methodist camp in Ceta Canyon this summer.

Mr. and Mrs. John Agee and children were in Lubbock Sunday.

Commencement exercises for

the Vacation Bible School held at the Methodist Church last week were Sunday night. They report 80 children enrolled with an average daily attendance of 60. Mrs. Clavin Embry acted as principal of the school.

Janie Delmer of Coleman, is visiting her grandparents, Mr. and Mrs. Luther Ham.

Mrs. A. P. Ingram is visiting her granddaughters this week in Lorenzo and Plainview.

After church Sunday, Mrs. Perry Barnes and four of her children and their families enjoyed an old fashion picnic in the park at Clovis. Those present were Mrs. Barnes, Mr. and Mrs. Wesley Barnes and children, Mr. and Mrs. Jimmy Seaton and children from Lazbuddie, Mr. and Mrs. J. S. Menefee and children from Corpus Christi, and Mr. and Mrs. Jerry Barnes and children of Clovis. Also attending were Mrs. Barnes' sister and family, Mr. and Mrs. Lawson Edwards of Clovis, N. M.

Carolyn Hinkson left Sunday for Houston to attend her Grand Assembly of Rainbow. The girls traveled by chartered bus with 22 girls going from Muleshoe.

Baptist Bible School Commencement exercises for Vacation Bible School will be at the Baptist church Friday night at 8:30, with each department having a part on the program. The average daily attendance has been 115. C. K. Roberts has

Spending the summer in the home of Mr. and Mrs. Leroy Hicks are Mrs. Hicks mother Mrs. E. E. LaMunyon and a nephew Stanley Black, both from Laverne, Oklahoma.

The regular community meeting was held Tuesday night June 5th with Billy Free, the presiding officer in charge of the business meeting.

Leroy Hicks volunteered to be responsible for obtaining a program for the next meeting which will be July 3rd.

The president appointed the chairman for each of the four divisions of the Rural Neighborhood Progress Contest.

Gene Brown and Dutch LaRue of Earth showed films on International trucks and equipment.

The meeting was adjourned.

Mrs. Alice Evans returned home Friday after spending a few days visiting relatives in Floydada.

acted as principal of the school. The people of the Baptist church wish to express their appreciation to the Methodist for permitting them to tie on to their water line so Vacation Bible school could be held as scheduled while the well at the Baptist church is being drilled deeper.

FAMILY REUNION
Over the weekend the home of Mr. and Mrs. Jack Hicks was the scene of a family get-together. The first time the five brothers and their father had been together in 23 years. Those present and family of Mrs. Bill Hicks and family of Brady; Mr. and Mrs. C. W. Hicks and family of Ft. Worth; Mr. and Mrs. Otis Hicks and family of Douglas, Arizona; Mr. and Mrs. H. L. Hicks of Ft. Worth, and Mr. and Mrs. Billy Hicks of Midland also their father, Mr. B. M. Hicks of Lubbock.

George Mahon Letter Reviews New Farm Bill

To Farm Organizations, Farm Groups, Farmers, etc.:

As you know, we have had a lot of difficulty this year trying to enact a reasonably adequate farm bill. In addition to other difficulties, there was a Presidential veto. The Agricultural Adjustment Act of 1956, which finally became the law, is defective and inadequate in many ways, but it does offer some possibilities of assistance to the people of West Texas. As soon as copies of the new law were available, I sent them to the offices of the ASC and the county agent in each county. As you know, the administration of the law is based upon the regulations of the Secretary. I have been urging officials of the Department of Agriculture to notify as soon as possible the county ASC offices and producers just what the regulations would be. Finally, on June 8 the Department announced to the press some of the regulations which are to be followed. State ASC offices are being sent instructions but it will be several days before these instructions will be received by State and County ASC offices. I think that it is most important that our people avail themselves of authoritative information at County ASC offices as soon as such information becomes available. Theoretically, the soil bank is good, but I still feel that the farmer would prefer to receive his income in the market place or through a support program.

Safe 'n Sound

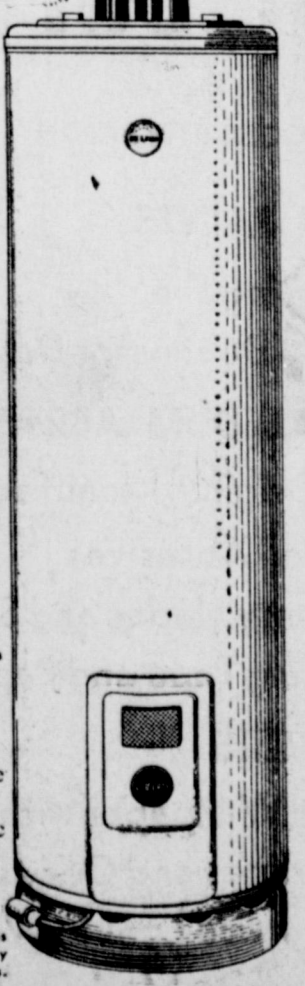

BY LEE POOL

The chances are about 50-50 that you or someone in your family will be hospitalized by sickness, or by accident this year. Out of a clear sky most accidents strike without the slightest warning. Maybe it's a good thing we don't know in advance about these things, but it's a good thing to know that if they do happen to you or a member of your family that you'd know where the money's coming from to pay for these unexpected expenses. We have an excellent Hospital Insurance that will put your mind at ease and take care of all these expenses should misfortune strike you. CALL —

Safe... Dependable... Economical Naturally... It's Gas

Documented proof, compiled by The National Fire Protection Association, shows Natural Gas as the safest fuel. The safe and dependable operations are just two of many reasons why homeowners prefer automatic Gas water heaters. One other good reason for this preference is the economy of operation. Be sure that your next water heater is safe, dependable and economical to operate... naturally, it's Gas.

MINIMUM RECOMMENDATIONS FOR NORMAL HOT WATER REQUIREMENTS		
Number Bathrooms	Number Gallons	Storage Cap. Gallons
1	1 or 2	20
1	3 or 4	40
2	3 or 4	40
2	4 or 5	50
2	3	50
3 or 4	4 or 5	70

NOTE: Use next larger size with automatic clothes washer or automatic dishwasher.

To help you choose both wisely and well... study the chart above. Call your plumber or Gas appliance dealer and let him solve your hot water problems with an automatic Gas water heater... sized to the needs of your family.

Illustrated at right is a Day & Night automatic Gas water heater. This water heater is approved by the American Gas Association testing laboratories.

Nevertheless, I think the soil bank program may possibly be attractive to some of our people, depending upon weather and crop conditions, etc.

I do hope that West Texas producers may be able to get information in time to take advantage of any provision in the present law which offers any benefits. (The benefits in some cases as announced by the Department will be very meager indeed.)

Best wishes to all.
Sincerely,
GEORGE MAHON

VACATIONED IN COLORADO
Mr. and Mrs. Lonnie Merriott and son Gary vacationed and fished last week in New Mexico and Colorado. They visited at Ruidoso and Farmington, N. M., and visited her brother and sister-in-law, Mr. and Mrs. Leon LeBlew at Longmont, Colo.

The road to Estes Park, where they visited Thursday, had just been cleared on Wednesday, and Mrs. Merriott reported that snow was banked higher than the car on both sides of the road. Another point of interest visited included the Red Rock Theatre at Morrison, Colo.

WEEKEND GUESTS

Mr. and Mrs. Good Harden and son Joy Lynn, of Port Neches; Mr. and Mrs. W. H. Bethany, Amarillo, and their daughter, Mrs. W. B. Mason, Jr., and sons Bill and Jeff, of Dallas, were guests the past weekend in the homes of Mr. and Mrs. Buford Butts, Mrs. I. W. Harden, Elizabeth Harden, Mr. and Mrs. Delma McCarty, and others.

FROM LUBBOCK

Visiting here over the weekend in the home of his parents and other relatives were Mr. and Mrs. Fuston McCarty, of Lubbock. They were accompanied by Mrs.

Weldon McCarty and children, LaLauri and David, who visited in the McCarty home and in the home of her parents, Mr. and Mrs. F. H. Davis.

FROM ARKANSAS

Mr. and Mrs. E. J. Gulley, of Cave Springs, Ark., are here this week visiting with relatives and friends.

HOME ON LEAVE

Bobby Gulley and family are here visiting for a few days with relatives. Bobby is stationed in Washington with the U. S. Armed Forces.

HERE'S PROOF
dieldrin treatment kills thrips and fleahoppers... pays off in higher cotton yields

Photograph shows results of test performed at Texas A. & M. (1954). In this test, the dieldrin-treated plants produced almost three times (2.84 times) as many blooms in a three-week period after treatment as did the untreated plants injured by thrips and fleahoppers. Photo courtesy of Texas A. & M.

Results of this test prove without a doubt that treatment with dieldrin really pays. Dieldrin controls thrips, fleahoppers and other sucking insects. Cotton gets a good early start... you get better quality cotton and earlier harvest... less chance of heavy loss due to early frost.

Dieldrin provides long-lasting protection. Days after application dieldrin still has lethal effect. Two to three applications at the recommended dosage—1/10 lb. of actual dieldrin per acre—does the job. Dieldrin dusts are smooth-textured, free-flowing. In a spray, dieldrin forms top-creaming emulsions... eliminates nozzle clogging.

Profit from this conclusive test. Use dieldrin early this year. Your insecticide dealer has dieldrin formulations and information on latest methods of application best suited for your use. Don't delay—get dieldrin now!

Col. Inez Haynes On Tour of Bases And Hospitals

GOVERNORS ISLAND, N. Y., June 6. Colonel Inez Haynes, Chief of the Army Nurse Corps since October 1955, arrived at Governors Island today from West Point where she had visited the U. S. Army Hospital. She is making a two weeks tour of all First Army installations where Army Nurse Corps officers are assigned.

Her visit to Governors Island included calls on Lt. General Thomas W. Herren, First Army Commanding General, and Maj. General Ralph C. Cooper, First Army Chief of staff, and conferences with Brig. General Harold W. Glattly, First Army Surgeon.

She will visit Fort Devens and the Boston area June 6 to 9, the New York City area June 11, Fort Dix, N. J. June 12 and 13 and Fort Monmouth on June 14 before returning to Washington.

Colonel Haynes comes from Muleshoe, Texas. She graduated from the Scott and White School of Nursing in Temple, Tex., and entered active duty at Fort Sam Houston in 1933. She served overseas in the Philippines, the Pacific Theater and in Europe during and after World War II. In June 1955, just before coming to Washington, she graduated at the University of Minnesota with a Bachelor of Science degree in nursing education. She is a member of the American Red Cross Nursing Service, the American Nurses Association, the National League for Nursing, Sigma Theta

Hiway Accident Tolls Mount In Summer Season

Take safety with you and enjoy your vacation. Toss caution to the winds and there may never be another vacation trip, warns the Texas Farm and Ranch Safety Council. For they point out as motor travel booms, traffic accidents, especially in rural areas, also zoom upward.

The Council offers a few suggestions for cutting the summer accident toll. Give the car a thorough check-up before starting on the trip and watch for signs of trouble along the way. Don't block vision by improperly loading the car for good vision is a must for safe driving.

Be prepared for emergencies. A first aid kit, maps, permits if needed, identification, a flashlight, a tool kit and maybe a few spare parts should be carried along.

Much of the responsibility for a safe trip rests with the driver. Fatigue greatly reduces his efficiency. Plan the trip, urges the Council, to allow for rest stops during the day and a good night's sleep each night. Don't they caution, try to drive and take in the sights at the same time.

Know the laws of the states in which you expect to travel for ignorance of the law is only an excuse. Use traffic signs as a guide for safe driving. They are for your protection.

Traffic will be a problem during the vacation season in all parts of the country. Don't get in a hurry nor drive faster than conditions justify, warns the experts. Be adaptable and fit your driving to the peculiarities and conditions that exist in the areas where you drive. Respect the rights of others and remember, if safety rides with you, you and your family can look forward to next year's vacation.

ATTENDED CONVENTION
Clyde Bray was in Lubbock Tuesday, where he attended the T. R. E. A. Convention.

Mercury Contest Features \$425,000 In Cars and Cash

A \$425,000 contest which offers 80 new Mercury Phaetons, 200 television sets and 2,400 other prizes is announced by Joseph E. Bayne, general sales manager of the Mercury Division. A separate contest will be held each week for eight weeks beginning June 11 and ending August 4, Mr. Bayne said.

More than 3,000 Mercury dealers throughout the nation are co-operating in launching the contest. Official entry forms may be obtained from any Mercury dealership free.

Special provision is made for a cash bonus of \$1,000 to each of the top ten weekly winners who bought a new Mercury during the contest period.

Prizes are the same for each of the eight weeks. In addition to a 1956 Mercury Montclair Phaeton, first prize winners receive an all-expense trip to New York City for two and will be special guests at the Ed Sullivan television show. The second to 10th prize winners each week receive Mercury Monterey Phaetons. All three cars include Merc-O-Matic Drive, radio and heater, flo-tone paint, white sidewall tires, directional indicators and windshield washer. All Federal excise taxes, state and local sales taxes will be paid.

A General Electric portable television set with 14-inch screen will be awarded each week to each of the next 25 winners. And the next 300 weekly winners will receive an Elgin American cigarette lighter autographed by Ed Sullivan and bearing the winner's initials.

A special award of \$10,000 cash in lieu of a new Mercury Phaeton will be given as a special award to any winner of one of the top ten prizes in any of the eight weekly contests who purchased a new 1956 Mercury from an authorized dealer after June 10 but not later than August 4, provided the purchase is made prior to being advised he or she is a winner.

Another special award of \$2,000 cash in addition to a new Mercury Phaeton will be made to any winner of one of the top ten prizes in any of the eight weekly contests who purchased any used car from an authorized Mercury dealer after June 10 but not later than August 4, provided the purchase is made prior to being advised he or she is a winner.

Contestants will be required to complete the fourth line in a rhyme which praises the power and style of the Mercury Phaeton four-door hardtop sedans.

Contestants must be 18 years of age or older.

RETURNS HOME FROM TWENTY DAY TRIP

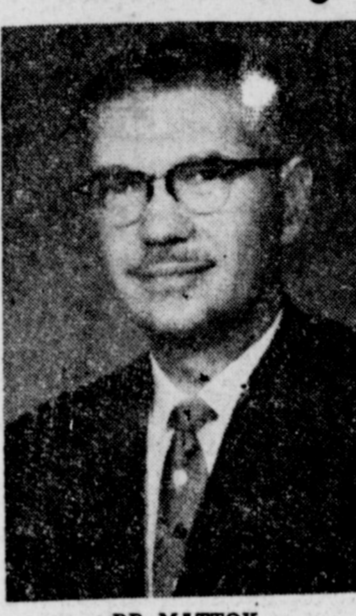

C. L. "Happy" Dyer, returned home this week from a twenty day trip during which time he visited his son Hershel and family in Lincoln, Neb. He later visited in Springdale, Ark., with former Muleshoe people, Mr. and Mrs. Bill Jeter, Mrs. Earl Jeter, Mr. and Mrs. Chick Otwell and Mr. and Mrs. Roy Howard.

He reported a very nice trip.

U. N. PUSHES PEACE AS ARABS RAGE — East and West support of a U. N. Security Council proposal commending U. N. Sect's. General Dag Hammarskjold and calling for further compliance with Israel-Arab armistice pacts was angrily opposed by the Arab delegations. Shown above, Egypt's Omar Loufi (left) and Syrian Ambassador Ahmed Shukairy confer on the measure. The resolution asked Hammarskjold to continue his good offices in Palestine.

Heads New College

DR. MATTOX
F. W. (Billy) Mattox, for ten years the dean of students and assistant to the president at Harding College, Searcy, Ark., has been chosen to be the first president of Lubbock Christian College, now being established in Lubbock.

OVERSEAS DUTY

Chester B. Johnson left Muleshoe last week, enroute to a New Jersey base, prior to being transferred overseas. He will be stationed in Europe, and Mrs. Johnson will join him as soon as he is permanently stationed.

Social Security Representative To Be Here June 21

A representative of the Lubbock social security office will be in Muleshoe on June 21, at 10: a. m. at the courthouse in the court room and will be glad to assist in all matters pertaining to Social Security.

It is a good business to check

your social security account at least every three or four years, John G. Hutton, manager of the Lubbock social security district office, reminds all persons covered by the social security law by checking your account, you can be sure that all your earnings that count toward old-age and survivors insurance were reported and credited correctly. If you find that all wages or self-employment income that can be are not credited, you should then notify the local social security office and the necessary action will be taken to correct your account.

Since all survivor and retirement benefits are based on your covered earnings, it is important that all wages and self-employment income are correctly credited through the years.

Hutton pointed out, however that the earnings statements for the year 1955 are not available at this time since the postings of wages is not completed until six or nine months after the wages were paid. Therefore, a record of wages paid through the last week in December, 1955 will not be available before July, 1956.

Hutton stated that the local social security office, located at 1616-19th St., has available postcard form for those who wish to obtain a record of past earnings credited to their social security account.
