# \$50,000 street paving project planned by City Council here

The Muleshoe board of City Aldermen met Wednesday afternoon to discuss plans for calling a \$50,000 bond election for the purpose of paving approximately 10 city blocks and re-surfacing most of the existing blocks of paved streets. J. M. Barker, representing First Southwest Investment Co. of Plainview was present to explain the procedure for calling such a bond election. They state that this method will make the actual cost per front foot to each lot owner about 25 per cent less than it would if the city did not participate. They explain that the general contractor, knowing he will not have to collect from each land owner for the paving fee,

can lower his overall price by 25 per cent. Whereas, say, members of the city board, if each land owner were assessed the full amount, the contractor would not be able to collect all the assessments and would have to include this possible loss in his original fee of charges. To Re-surface Also, point out the board members, the city will spend an equal amount for re-surfacing streets already paved, as it will spend for new paving, thus allowing property owners who have already paid for their paving to realize some benefit from the new project, and more or less equalizing the benefit to all concerned.

In most cases they stated, blocks will not be paved where there is concerted opposition to it. In other action the Aldermen voted to accept plats of the Morrison Number 2 subdivision and the Country Club subdivision. New Streets Named Engineer Ralph Douglas was present at the meeting and showed the group a new map of the city with the changed names of streets on the north side of the Santa Fe tracks. On the north side of the tracks, streets going east of First Street will bear the names of cities. Beginning with Austin, Boston, Chicago, Dallas, and so on in alphabetical order. Cross streets,

### Retail sales top \$11 million in Bailey county during year 1954

Scoop Sez  
By J. M. FORBES

Old Claude Locke takes off for the far east for an assignment with the Air Force and this reminds us that he used to hang around our plant to try to get on the force; he was too young, for an after school worker, he made tracks rapidly. In our 11 years here we have been fortunate to have lots of school kids work with us, some still working as full time employees. So that pretty frequently we hear of one of our former associates who has a better job, has another baby, or is making good in college. Pretty thrilling to us.

The Department of Commerce, Bureau of Census in Washington this week released figures on retail sales in Bailey county for 1954. Although retail establishments have increased, both in number and in business volume, the following figures are an indication of how retail trade went during 1954:

Retail sales in 1954 of 105 stores in Bailey County totaled \$11,213,000, according to preliminary 1954 Census of Business figures announced by the Bureau of Commerce. This was an increase of 66.6 percent over sales in 1948 of \$8 stores at \$6,729,000. Stores with payroll in 1954 numbered 63, had 421 paid employees in November 1954, reported payroll of \$896,000, and accounted for sales of \$10,183,000. Proprietors of unincorporated business number 118. The number of stores and their 1954 sales, grouped by major kinds of business were:

Food stores, 32, \$2,489,000; Eating, drinking places, 6 \$218,000; General merchandise group, 12, \$1,156,000; Apparel, accessories stores, 4 \$296,000; Furniture, home furnishings, appliances, 5, \$476,000; Automotive group, 10, \$2,195,000;

Gasoline service stations, 10, \$350,000; Lumber, bldg., mtl's., hdw., farm equipment, 10, \$2,339,000; Drug stores, proprietary stores, 4, \$287,000; Other retail stores, 10; Nonstore retailers, 2, \$2,195,000;

Funeral services for Chester Vernon Raney, 49, who passed away suddenly at his home in the Progress Community Sunday, were conducted from the Progress Baptist Church at 2:00 p. m., February 14.

Mr. Raney, a farmer, had been a resident of the Progress Community for the past nine years. He had been a member of the Progress Baptist Church since February of 1950. He was born December 10, 1906, at Duffaw, Texas.

Survivors include his wife and five children, all of the home, Lee, 14; Wayne, 12; Glenn, 8; Johnny, 4; and Joyce, 3. Five sisters; Mrs. Alice Beard, Portales, N. M.; Mrs. John Vineyard, Melrose, N. M.; Mrs. J. W. Williams, Alexandria, Egypt; Mrs. Jim Wise; Raymondsville; and Mrs. Alice Cooper, Brownfield. Three brothers; Charles, of Brownfield; George, of Progress; and Albert, of Cleburne.

Survivors include his wife; five children; Lewis Dennis and Forest Williams, of Muleshoe; Dorris Williams, Odessa; and Mrs. Mary Talley, Dimmitt; three sisters, Mrs. Ollie Williams, Los Angeles, Calif.; Mrs. Sarah Weaver, DeQueen, Ark.; and Mrs. Nora Bowlin, Ada, Okla. Four brothers; Arthur Williams, Plainview; Pete and Oscar Williams, Ardmore, Okla.; and Willis Williams, Portersville, Calif. Also, nine grandchildren.

Funeral services were conducted at 3:30 p. m., Tuesday, February 14, from the Church of Christ with W. R. Tuttle officiating, assisted by Jack McCormick. Interment was in the Muleshoe Cemetery, with Singleton Funeral Home in charge of arrangements.

Mr. Williams was born March 19, 1876, in Coleman County, Texas. He had been a member of the Church of Christ since 1896.

### Road bond and ad valorem tax elections are re-called

NEW AIRPORT OFFICE

A \$50,000 road bond, and an addition to the ad valorem taxes of Bailey County will be the two topics to be voted on in a county wide election to be held March 12. The election is on the same two issues as an election previously scheduled for February 4, at which no one voted due to the snowstorm and impassable roads. The commissioners court then met Friday of last week and re-called the road bond election and on Monday they met and called the ad valorem tax election again.

Because no one was able to get to the polling places, including the election officials, no votes were cast. All authorities could not recall such an incident ever happening before, so the Court sent out new petitions to be signed, asking that the election be called at a later date. This was done, and 139 names were secured for the petitions, a sufficient number to call the election the second time.

The road bond election calls for issuing bonds totaling \$50,000. The money would be used to secure right of way for making a four lane highway out of part of U. S. 84 in Bailey county from Muleshoe to the Lamb county line, and for farm to market road. Half of the \$50,000 would be used for maintenance and construction of farm to market roads in Bailey county.

The ad valorem tax vote would enable the Commissioners Court to add to the ad valorem tax not to exceed 30 cents per each \$100 evaluation for the purpose of constructing and maintaining roads and bridges within the county confines.

Central Investment Co. will handle the sale of bonds, if the election carries. Election Judges Named In other action Monday, the Court named election officials for the general election to be held November 2, 1956.

Election judges and alternate judges include Ernest Kerr and Mrs. Walter White, precinct 1; Muleshoe; Partin Austin and W. E. Meyer at West Camp; Bert Seales and J. U. Dawson, Mays; J. G. Arnn and George Tyson, Three Way; Howard Ashley and W. R. Underdown, Baileyboro; H. A. Gore and W. R. Damron, Circleback; and Jim Claunch and L. L. Walden at Bula.

The tax levy for Bailey county for the year 1956 was set by the Commissioners as follows: County tax 95 cents; road district 1-A, 50 cents; and Circleback common school district, \$1.00. The rates are for each \$100 evaluation. The commissioners also voted to accept plots of the Morrison Number 2, and Country Club additions to the city of Muleshoe.

Bill Millen and Joe Sooter of the Bailey County Farm Bureau met with the Court and discussed the employment of an assistant county agent.

Representatives of the Federal cotton insurance program appeared before the Court and explained the program to the commissioners.

A number of routine matters, including approval of current bills, were taken up by the Commissioners before they adjourned.

Spelling bee to be February 24 in junior high here The Bailey County Spelling Bee will be held here Feb. 24, in the junior high school with Fred Johnson, veteran "word giver" acting as pronouncer for contestants. Winner of the Bee will be eligible to enter the District Bee at Lubbock March 17, and possibly represent the entire area at the National Bee in Washington, D. C., in May of this year.

The Muleshoe Journal sponsors the Bailey County Bee, and teams are expected from Three Way, Bula, and Muleshoe. First place winner in the county Bee will receive a plaque which will be presented by the Lub-Avalanche-Journal, sponsor of the regional Bee.

Schools to observe Education Week Public Education Week in Muleshoe will be celebrated in Muleshoe schools March 5-12, according to school officials here. A full announcement of the program and events for the public will be published next week in the Journal.

# June Wagnon Home Constructed Of White Brick

MR. AND MRS. "JUNE" WAGNON AND SHERRY pose in the living room of their new brick home on Avenue "C". The home was built by Willson-Sanders Lumber Co. and is of white brick with pink trim. (Staff Photo)

BEDROOM OF THE WAGNON HOME features these lovely drapes which Mrs. Wagnon made herself. Here she is with Sherry and the large four poster bed in the master bedroom. (Staff Photo)

WAGNON KITCHEN features built-in cabinets with early American copper fittings and harmonizing cafe curtains. The counter top and inlaid floor feature a gray and pink flecked pattern. (Staff Photo)

near the entry way serves as a foyer or divider, and opens into a spacious living room which is 28 feet long. The walls of the living room are done in a quiet tone which harmonizes with the brown and gold threaded living room furniture. Matching drapes, which Mrs. Wagnon made herself, hang at the windows.

The floors throughout the house are lustrous hardwood, finished in a natural color.

All draperies throughout the house, with the exception of the ones in Sherry's room, were made by Mrs. Wagnon.

A cozy atmosphere prevails in the kitchen, which has walls of sun-tan, highlighting a fleck of pink in the gray inlaid linoleum floor and counter top. Birch cabinets in a natural finish with bright hardware accent the informality of the room. Gay figured cafe curtains hang at the window looking out over the sink and work top. A dining area is located in the kitchen and Sherry's high chair occupies a prominent place at the table.

The two bedrooms are located at either end of a hall which abounds with storage closet space.

Sherry's bedroom has a light blue wall, and the furniture is a soft shade of pastel yellow. Curtains harmonize with the two colors and the overall appearance

is of bright charm.

The other bedroom is in a neutral shade, and features a lovely mahogany four poster bed and matching dresser. Harmonizing drapes are at the windows. Two large closets of the walk-in type are here.

The bath features a built-in dressing table with covered counter top.

June is the proprietor of Wagnon's Grocery, and the house was built by Sanders Lumber Co. It has an attached garage, with access from the kitchen.

A phenomenal use of floor space is demonstrated in the Wagnon home. There is only about 1,000 square feet of floor space, but all the rooms appear spacious, and there is no evidence anywhere of crowding or cramping of space.

## Demonstration Given At Lucky Clover Meeting

Lucky Clover 4-H Club met last Friday following school at the home of Magann Lamb. Officers present were Charlene Coulter, Margaret Durham, Jo Ann Austin and Bernice Clark.

The girls wish to express their appreciation for the presence of adult leaders, Misses D. N. Coulter and Gilbert Lamb.

President Bernice Clark conducted the business session, during which the girls decided to purchase a going away gift for the Home Demonstration agent, Mollie Stinson, who is leaving soon to make her home in Amarillo.

Charlene Coulter gave a demonstration on making cheese sauce, and served it on potatoes and toast with tuna salad and coleslaw, which were the refresh-

ments served by the hostess. Next meeting will be on March 9, at the home of Pat Barnett, after school.

# Johnson's Furniture Opening Sale Begins Today

**JOHNSON FURNITURE Co.** new building located on main street opposite Johnson-Pool. The new store will be the scene of a grand opening sale this week end with representatives of leading furniture companies on hand to demonstrate their products. (Staff Photo)

Johnson Furniture Co. grand opening in their new building started today (Thursday) with free prizes to be awarded this weekend.

The new store which is located on Main Street opposite Johnson-Pool, is of modern design, and offers plenty of well lighted display space to adequately display the many new lines of beautiful furnishings Johnson features.

During the grand opening, representatives of several major fur-

niture manufacturers will be present to demonstrate and explain the virtues of their products to visitors and customers.

Raymond Daniel will be on hand representing Springair bedding manufacturers; Bill Fritts will demonstrate the new Profile group furniture by Drexel; George Mitchell will explain the Pullman line; Bill Dial will be here to talk about Basset furniture and Johnie Ertel will demonstrate Unique and Huntley bedroom furniture groups.

One of the major free prizes to be given away is a genuine Springair mattress to be given today.

Red Johnson, proprietor of Johnson Furniture invites all his friends to come in and see his new store and the many fine lines of furniture on the floor.

He has been in business in Muleshoe for six years, and only recently moved into the new building from his former location near St. Clair Dept. Store.

**BILL FRITTS, JR.**, who will assist Johnson Furniture in their grand opening this weekend. Fritts represents Drexel Furniture Co.

**BILL DIAL**, representing Basset Furniture Co., will also be here to help Johnson Furniture Co. celebrate their grand opening in their new building.

## Ivy and Thompson to open store in Lazbuddie soon

A new mercantile store is opening soon in the Lazbuddie community, it was announced today.

The store, to be known as Ivy & Thompson, is owned by D. B. Ivy and Denton Thompson. They will feature a general line of merchandise and will give S&H Green Stamps.

Their formal opening announcement will appear in The Journal next week.

## Makeup schedule for schools here told by Kirk

Muleshoe schools will make up time lost during the snow by holding classes on two more Saturdays and adding two days at the end of school, Superintendent Jerry Kirk announced this week.

Classes were held last Saturday and will be held again on March 3 and March 24, Kirk said.

The regular schedule of year and activity will be held with school closing out on May 24.

Easter holidays will be March 30 and April 2.

Children taking dancing lessons on Saturdays will be excused on the two Saturdays while school is in session, Kirk said.

## Committee to hear cotton allotment appeals Sunday pm

The West Texas Chamber of Commerce announced this week that a meeting will be held in Abilene Sunday afternoon for the purpose of reviewing the appeals filed by county farmers concerning cuts in their cotton allotments.

About 100 Bailey county farmers filed such appeals, and a representative group of four or five is asked to be present at the Sunday afternoon meeting in the Wooten Hotel in Abilene.

The Review Committee will hear appeals in meetings at Haskell, Snyder, Lamesa and Littlefield.

Prior to the committee hearings, the attorneys representing the individual farmers who protested, want to meet with farmers and discuss in detail procedures for handling the ap-

## Car inspection deadline April 1; only few are done

April 1 is the deadline set by the State for motorists to obtain inspections and safety stickers for their cars.

Authorities here said this week that so far only about 12 percent of the motorists have obtained the inspections and stickers.

The remaining 88 percent of motorists are warned to get their inspections done now to avoid the last minute rush.

## OFFICIAL MEMORANDUM

By  
**ALLAN SHIVERS**  
Governor of Texas

### GREETINGS:

The greatest source of assurance for the future of the American way of life is our Public School System, which enables our youngsters to become familiar with the magnificent history of men and events which has made our Republic the most powerful, respected and favored country the world has ever known.

The public schools provide the tools of knowledge which will equip our young men and women to become constructive and responsible citizens in this land of freedom.

We have a great responsibility to maintain and advance the ideals and standards which our people have come to expect of their public schools. We must keep pace with the growing needs of our schools by providing new classrooms, improved methods and by encouraging loyal, able, qualified men and women to adopt teaching as a lifetime career.

NOW, THEREFORE, I, as Governor of Texas, do hereby designate the week of March 5-10, 1956, as PUBLIC SCHOOLS WEEK in Texas, and urge every citizen to visit at least one public school during this period and to become personally acquainted with the programs and accomplishments of our educational system.

In official recognition whereof, I hereby affix my signature this 10th day of January, 1956.

ALLAN SHIVERS  
Governor of Texas

**HEROIC ACTION BY A TRUCK DRIVER** was recognized and rewarded Feb. 7 at an Austin banquet honoring W. Denney (third from left), 1955's "most representative Hobbs Knight of the Road." Denney holds the program's "1954 Shield", presented in appreciation of his heroic rescue of six-year-old Johnny Murray (second from left) from a dog that mauled him badly last August 18 in Dallas. Johnny and his parents were brought to Austin especially for the dinner, at which Colonel Homer Garrison (left), director of the Texas Department of Public Safety, was the principal speaker. Denney also received a Frigikar air-conditioner for his car or truck, shown at center. At right is W. E. Grace, general manager of Hobbs Trailers, which together with the Texas Safety Association and the public safety department's License and Weight Division sponsors the program that singled out 99 truck drivers for courteous acts on Texas highways last year.

### Wildlife Refuge Function Is Told

Members of the Rotary Club and guests dined on succulent Red Snapper fish fresh from the Gulf of Lower California, when they met Tuesday. The fish were furnished by Murl Wilson, who with Mrs. Wilson have just returned from a fishing excursion to Guaymas, Mexico. Leigon's Cafe prepared the meal served in the Legion Home.

Rotarian Wilson told of his attending the Rotary Club there, which turned into quite an experience.

Bob Darnell, manager of Muleshoe National Wildlife Refuge, located in the southern part of the county brought an interesting and informative report of the functions, aims and objects of the refuge and the service of which it is a part.

There are 5,600 acres in the Refuge; about 500 of this is in lakes, although the lakes not always have water in them; and there are about 160 acres of farm land. The farm lands grow grain for the wildfowl to feed upon and keep them off neighboring farms.

A large population of ducks, sandhill cranes, and geese have been guests on the Refuge, but there're gradually leaving, and by March 15, Darnell estimated there will be very few birds left. Ducks seldom nest in this territory, he said. Senn Siemens had charge of the program.

### Wayland Prexy Praises Bristow

Wayne Bristow, a former school boy reporter for The Journal, and during one summer a steady performer for the paper, has been commended most highly by Dr. A. Hope Owen, president of Wayland College, Plainview where Wayne is a student. Wayne is sports reporter for the college publication and writes a sports column. Wayne is a son of Mr. and Mrs. Clinton Bristow, of Muleshoe. Dr. Owen's letter:

Dear Wayne: I want to tell you what a splendid job you are doing on writing the sports articles for our various publications. You have done a very unusual piece of work and I wanted you to know how much I appreciate it.

You have added much to our campus and we are glad you chose Wayland.

If I can help you in any way, please feel free to call on me. Sincerely yours, A. HOPE OWEN.

### Wilcy Moore Is Back At Dallas

DALLAS — Wilcy Moore, the fleet veteran outfielder has been returned to Dallas of the Texas League by Minneapolis, Business Manager Bob Bozman said.

Moore has been the property of the Millers for the past two seasons and played with Dallas on option. This year Moore requested that the Minneapolis club sell his contract to Dallas in order that he could play closer to home. Moore hit .284 last season.

His return gives Dallas three veteran outfielders from the pennant-winning club of 1955 — Moore, Eddie Knoblauch and Art Dunham.

### Boy Scout Week Observed Throughout Nation By Scouts and Dignitaries

National officials in Washington, D. C., many governors at their state capitals, and heads of local communities throughout the nation will help four million members of the Boy Scouts of America launch their Four-Year Program known as "Onward for God and My Country" in ceremonies during Boy Scout Week.

Boy Scout Week marks the 46th anniversary of the organization. Since 1910 more than 100,000 mark with a total of 104,500,000 American boys and adult leaders have been identified with Scouting. Members now stand above the 24,100,000 mark with a total of 104,000 Scout units.

The new program will provide for an increasing number of the boys of the nation experiences and values that help them to meet their future more adequately prepared.

"As Scouting influences the lives of three million boys today," says Dr. Arthur A. Schuck, Chief Scout Executive, we must help them to the realization and

acceptance of God as the guiding power of the universe. We must interpret and find additional methods to help a Scout in his own religious life to fulfill his obligation to God as stated in the Scout Oath and Law.

"Scouting experiences," he continues, "must help the boy to understand his country and its ideals, its opportunities, and its customs, and to understand the values of our democratic system and what it has meant to the people of America. It must give him such opportunities that he can help to carry out those ideals and character traits expressed in the purpose of this, 'Onward for God and My Country program'."

## REDDY'S Farm Report

FROM THE AGRICULTURAL DEVELOPMENT DEPARTMENT  
SOUTHWESTERN PUBLIC SERVICE COMPANY

A few junk parts and considerable ingenuity is all it took for Harold Dunson of Seagraves, Texas, to make an automatic electric water trough cleaner. This unit makes cleaning the water troughs in his caged layer house an easy silent job. Mr. Dunson finds this advantage important in caring for his 1,140 laying hens.

For the power unit he used a discarded portable ironer. After removing the ironer roll and cylinder, he mounted a 12" squirrel cage blower from a discarded evaporative cooler.

To make the cleaner unit, he took a 10-inch bolt on which he mounted three cubes of sponge by forcing the bolt through the centers. To separate the sponges he used a one-half inch water pipe cut in lengths of about 1 1/2 inches for spacers between the sponge cubes. Also, as an additional aid to cleaning, he placed a one-half inch wide square steel wool at the forward end of the center sponge.

One length of fishing string connects the forward end of the bolt to the drum on the power unit. The other length of string connects the opposite end of the bolt to the rewind reel. When the power is turned on, the electric motor silently and efficiently pulls the bolt cleaner through the trough by winding the string around the drum. When the cleaner has travelled the length of the trough, it is removed; and the two strings are tied together for rewinding. The rewind reel simply pulls the fishing string back through the trough to the starting position, where they are then in position for the next cleaning operation.

Advantages of the system are:

1. Time and effort saved
2. Low cost of the system
3. Low operating cost
4. Silent operation does not disturb or excite the hens

Mr. Dunson exhibits his automatic trough cleaning machine. The laying hens are not disturbed in any way when this equipment is in operation.

This hand operated rewind reel keeps the fishing string from tangling and keeps it ready to be used again. One length of the string remains in the trough between cleanings.

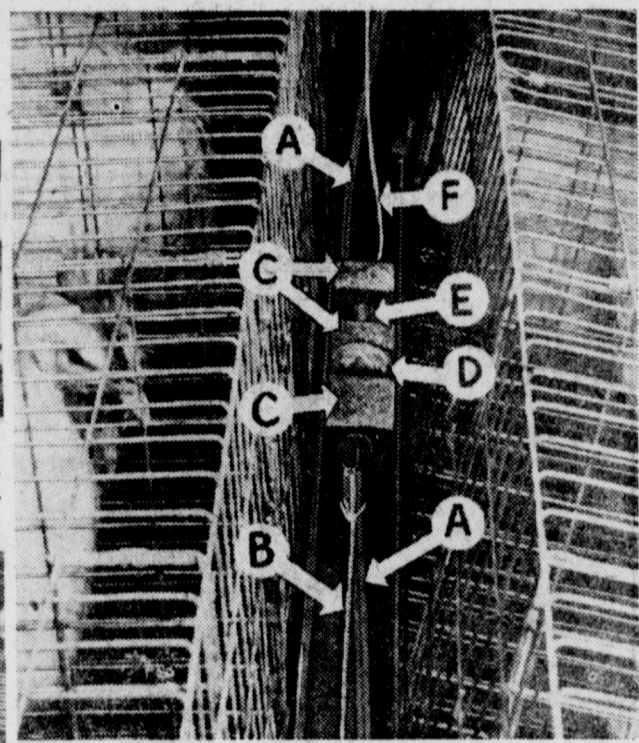

As the strings are wound around the drum, the cleaner bolts are pulled through the water troughs. The ironer provides slow, steady power for the cleaning operation.

By placing the power unit in line with the center trough, additional troughs can be cleaned by duplicating the cleaning bolts and strings. The ironer motor has enough power to pull several cleaners at one time. Mr. Dunson cleans three troughs at one time.

Advantages of the system are:

1. Time and effort saved
2. Low cost of the system
3. Low operating cost
4. Silent operation does not disturb or excite the hens

A. Heating cable B. Fishing string on pull side C. Sponge D. Steel wool E. Spacer F. Fishing string on rewind side

## To The People Of Bailey County

On March 12, 1956 you, the tax-paying voters of Bailey County will be called on to go to the polls and vote on two (2) propositions that should be of vital interest to everyone. Feeling that you should be well informed on these propositions, we, the Commissioners' Court desire to make the following explanatory statement:

About 18 months ago the Texas Highway Department submitted a proposal whereby they would spend \$250,000 widening and four-laning U. S. Highway 84 from the Muleshoe City Limits east toward Sudan to the Lamb County Line, provided that Bailey County would secure and clear the right-of-way. It is estimated that this right-of-way would cost about \$20,000 and the County has not entered into a contract because the County does not have the money.

Approximately \$25,000 would be used on Highway 84 and the remaining \$225,000 on Farm-to-Market roads only. This is designed to make the rural people feel that they would be participating in the Program as well as those in and around town. None of the money if voted, could be used for any purpose other than acquiring rights-of-way. It is not the policy of the County to start buying right-of-way for Farm-to-Market roads, but this money would be used for clearing rights-of-way, such as moving REA Lines, telephone lines, fences and irrigation wells and for re-imbursing land owners where they sustain excessive damages. It is thought that until needed, this money could be re-

### VIAS RETURNED HOME

Mrs. Sam Ghoslon has returned home from Wellington this week, where she has been undergoing treatment for the past several months. She reports she is feeling fine and is very happy to be home.

When adequate residues are not available to protect the land from blowing, emergency tillage should be done to give the surface roughness to supplement the effectiveness of the crop residue.

The District Supervisors would like to remind you that the snow now has melted the surface soil and thereby caused the soil to be very susceptible to wind action when the surface becomes dry. The supervisors urge you to be prepared to combat this hazard.

invested so that it would draw as much interest as it would be costing. Passage of this proposition would necessitate a tax increase of about six or seven cents per one hundred dollars (\$100) valuation.

The other proposition, if voted, would authorize the County to levy a special road tax not to exceed 30 cents per one hundred dollars (\$100) valuation, subject to homestead exemptions to supplement the Road and Bridge Fund. This is a tax that once collected by the State but since the State does not need it any more, the legislature, realizing that the County's expense of building and maintaining county roads is constantly becoming greater, made it possible for Counties to collect it if approved by popular vote of the people. The continuous growth of the County, necessitating the opening of more new roads, together with the increased cost of machinery, repairs, fuel and labor has made the cost of working the roads far greater than it was a few years ago. This tax rate could vary from nothing to 30 cents from year to year as the needs of the County might require and the money could be used only for the construction, maintenance and operation of Farm-to-Market and County roads.

We want to personally encourage you to study these propositions very carefully and then go to the polls and vote your convictions.

## SOIL CONSERVATION DISTRICT NEWS

Monday afternoon, February 6, a short study was made of fields in the Muleshoe area, to determine which fields held the most moisture from the snow which fell over the weekend.

Fields studied included sorghum stubble which had been chiseled across the rows, listed sorghum stubble, listed cotton stubble and flat-broke land. It was determined that a tall thick sorghum stubble field the most moisture.

The chiseled sorghum held 7 inches of snow; listed sorghum held 6 inches of snow; listed cotton land held 4 1/2 inches; and the flat broke land held 4 inches of snow.

Advantages of the sorghum stubble are that the field moisture was more uniform, and the fence row drifts were not as high as in other fields.

The local Soil Conservation technicians are encouraging the farmers in the district to use residues for another reason. They would like to see the wind erosion decreased from these crop residues.

WASHDAY Sweetheart

YOUR ELECTRIC CLOTHES DRYER!

... And what a Sweetheart. An electric clothes dryer gives even the finest of fabrics loving care every washday. And for you? It ends the long walk out to the lines, the stretching to hang, the stooping to lift, and the waiting on the weather. Cuts your ironing time in half, too. Take the lift out of laundry and get a lift out of life with the modern clothes dryer... of course, it's electric.

- ECONOMICAL...**  
You have less clothes to buy... and they last longer... when you dry your clothes electrically.
- AUTOMATIC...**  
Set it and forget it. There's a heat and a time for almost every fabric that you wash.
- CONVENIENT...**  
Any time is a good time to dry... electrically. You make drying fit your schedule, not the weather.

### ASC affairs

Applications for new growers cotton allotments must be filed in the ASC office in Muleshoe on or before Friday, Feb. 24, farmers were reminded this week. In other developments at the office this week it was learned that:

**Wheat Measurement**  
Measurement of wheat acreage in Bailey County will be started this month. If a farmer has a wheat allotment, he will be contacted to assist the reporter in arriving at the correct acreage.

If the farmer has overplanted, he will have until May 15 to plow up the excess acreage to get within his allotment. If the farmer has some wheat acreage and does not have an allotment, and plans to harvest the wheat, he should contact the ASC office in Muleshoe so that the wheat can be measured by May 15.

**650 Applications**  
For January and February of the current year, 650 applications were made to carry out approved practices: 275 in January and 375 in February. During the two months of 1955, 372 applications

were made, an increase of 278 in the period and an indication of a greater and increasing interest and need for conservation practices.

**Office To Close**  
The ASC office in Muleshoe is to be closed next Wednesday, February 22, in observance of Washington's birthday anniversary.

**RETURN FROM FLORIDA**  
Mr. and Mrs. Dick Willman have just returned from a three week vacation trip to Florida. They toured the Cypress Gardens, Silver Springs, Key West, Palm Beach, Miami Beach and various other points of interest and reported a very enjoyable trip. Read the Journal want ad's.

# For 1956 Whirlpool gives you TWO SEPARATE WASHING ACTIONS

**NORMAL SPEED, 1**  
time and action for regular washing

In a Whirlpool, you can choose the correct and safe washing, rinsing and damp-dry spinning action for each type of fabric. The top portion of the dial controls the fully-automatic cycle for washing cottons, linens and all regular fabrics.

**LOW SPEED, 2**  
short time and extra gentle action for sheerest fabrics

Now... only Whirlpool has a shorter time plus a lower speed for washing, rinsing and damp drying your nylons, sheerest lingerie and daintiest things. It's a separate, fully-automatic cycle to wash delicate fabrics thoroughly clean yet with hand gentleness.

**PLUS ALL THESE ADVANTAGES:**

**SUDS-MISER**  
saves over half the cost of soap and hot water

Exclusive, built-in, fully-automatic Suds-Miser is the big "extra" that only Whirlpool gives you. It saves many gallons of hot water every washday by letting you re-use hot, sudsy water for several loads of clothes.

**3-LEVEL WATER SELECTOR**  
saves water on partial loads

Here's another brand new feature! Now, you can wash any size partial load in just the right amount of water and do it automatically!

- Beautiful, double-illuminated, Guide Lite control panel.
- Ultra-Violet germicidal lamp helps sanitize clothes.
- Dual Cycle-Tone signal when wash is done.
- 3-Temp water selector with fabric guide.
- 7 Rinses assure complete rinsing yet use less water.
- 5-Year parts warranty on transmission.

**FREE SERVICE FOR ONE YEAR EASY TERMS**

## Farm Bureau Asks Aid Against House Bill Number 7225

The Bailey County Farm Bureau, through its president, W. T. "Bill" Millen, has gone on record as being opposed to House Resolution 7225 concerning the social security program, and also as being opposed to compulsory social security for farmers. Millen last week addressed letters to Senators Lyndon Johnson and Price Daniel, voicing the objections of the county Farm Bureau organization to the two matters.

Millen's letter follows: "Bailey County Farm Bureau wishes to secure your help concerning the social security program. We believe we should not have to pay social security on workers who work less than 60 days, and that the present exemption should be \$200 instead of \$100.

"We would object to a Mexican labor program on a unilateral basis so that social security taxes would have to be paid on Mexican Nationals.

"We would go along on the National Farm Bureau program of coverage of farmers to be optional.

"We are strongly against H. R. 7225 as we believe if it is once established that the social security program will be changed from a pension to an all embracing welfare program."

Yours truly,  
W. T. MILLEN,  
Pres., Bailey Co.-Farm Bureau.

### Three Breed Pig Sal To Be Held At Lubbock Sat.

The Poland China Breeders Association Sale will be held this coming Saturday, January 18, at Lubbock, in connection with the Duroc and Chester White Breeders Association Sales, according to a statement this week by Sherman Inman.

Inman, a local Poland China breeder, said the sale was to have been held the past Saturday at Plainview, but was postponed because of the snow storm. He said the three-breed sale should be a good one. He will sell one or maybe two Poland Chinas he related.

The Fair Grounds in Lubbock will be the scene of the sale.

### CARD OF THANKS

I wish to take this opportunity to express my gratitude to all my friends and neighbors, and to the patrons and employees of the Pleasant Valley and Lariat Gins, who sent flowers, cards, and candy, and were so very kind to me during my stay in the hospital following my accident.

Especially too, I want to express my heartfelt thanks for those of you who so willingly gave blood.

One of the greatest searches in our time is for health . . . many seek fruitlessly failing to find the CAUSE . . . many try to speed recovery of health by stimulants and nerve-deadening sedatives which are merely temporary relief measures . . . Nothing is greater than NORMAL FUNCTION and NATURAL body resistance. The CHIROPRACTIC objective and realization is to locate the point in the spine where nerve pressure exists, due to a vertebral misalignment, and thru proper adjustment, to restore the misaligned vertebra to its normal position thus releasing the pressure on the nerves involved, thereby removing the cause of disease in the body. Normal function is restored to the body, and resistance to disease is the natural result.

**LET CHIROPRACTIC SOLVE YOUR HEALTH PROBLEMS**

— as it has from the following cases from our files:

**Sciatica and rheumatism**

Woman, age 52, had been suffering untold misery with rheumatism and sciatica as well as sinus, bronchitis, gall bladder trouble (which had prevented her eating normally for years), chronic colds, and almost to the breaking point with her nerves. Two weeks after deciding to come to the Clinic where we made our usual spinal and X-ray examinations, this woman had almost miraculous relief from sinus congestion. In a short time, she was eating almost anything with no pain—no gall bladder attacks. She was almost blind without her glasses, and most amazing of all to her, she was soon able to go four or five hours without her glasses. Such amazing results prompted her to terminate service in less time than had been recommended . . . Some time later when the rheumatism returned to such a degree that sedatives and malnutrition had paralyzed one hip and leg, she returned to Chiropractic service, a wiser and better patient. She said, "Sciatica may not kill you, but it makes you walk on the ceiling." Recommended Chiropractic service and patient cooperation has restored this woman to good health and the good health has remained in force for the past two years.

**Herniated Disc**

Man, age 41 years, suffered lower back pain into left hip and leg for 15 years. When he was finally unable to be up and around at all for a six-week period in severity and pain, he was medically diagnosed "slipped disc" and slated for a spinal fusion operation.

**Nervous Exhaustion**

Woman, age 67 years, came to the Clinic with a condition of extreme nervousness (5 nervous breakdowns in 15 years) history of headaches, nervous indigestion, rheumatism in shoulders and lower back and legs, catarrhal drainage, and complete exhaustion. She had tried to keep going on vitamin B12 stimulation to no avail. After a spinal nerve analysis and spinographs at the Clinic corrective Chiropractic adjustments were begun to allow restoration of normal energy and body repair. Frequently at the beginning of service this woman would call to say she lacked the strength to come to the Clinic— with our encouragement and her desire to get well, she followed our recommendation and now walks to the Clinic.

With gain in weight, color in cheeks, freedom from entrance ailments this woman at 67 is enjoying life . . . Consider what Chiropractic has to offer for younger people.

He who has health has hope; He who has hope has everything.—Arabian Proverb.

**Premeasurement service offered**

Again in 1956 the ASC will offer their cotton premeasurement service. Lonnie Bass, administrative officer announces.

If the farmer wants his cotton ground measured before planting time, he can make request to the ASC office here in Muleshoe before March 15. Charge for this service is \$9 for the first plot, plus \$2 for each additional plot over one per farm.

If the farmer does not wish to pay for this pre-measuring, the cotton will be measured by ASC after it comes up the first time without charge, as has been the custom in the past. But if premeasurements is desired, application and payment will have to be received before March 15, Bass said.

## County Agent Tells How Freddie Carter Won Crop Contest

(Editor's Note: Here is a brief account of how Freddie Carter won the irrigated cotton contest this past fall, harvesting 1591.8 pounds of lint per acre. The story is by the county agent.)

By J. K. ADAMS  
Mr. Carter's farm is a mile due south of Maple. It is a deep fine sandy loam somewhat deeper and lighter than average for Bailey County. Cotton burrs were applied and it was put under irrigation in 1954 growing cotton again in 1955 on this same ground.

No early fertilizer was applied. Ground was broke 16 inches deep by government measure. Broke ground was drag harrowed twice then bedded for pre-irrigation. Pre-irrigation started March 3, using three hour sets on one-eighth mile rows. Beds were chopped with stalk cutter and knifed, then irrigated a second time before planting.

Second pre-planting irrigation was also three hour sets and ground was harrowed. Ground temperature was taken daily in the hope of a sixty five degree reading. On April 28 the ground was 60 degrees, eight inches deep so Mr. Carter planted.

The seed was Georgia Empire sent to Maple by mistake. The seed was meant for Naples, Texas and first tried by Mr. Richardson and Mr. Carter bought seed from Richardson for his son. Cotton was planted with disc opener planter throwing up very little bed. Cotton was given a quick watering down row thirty days after planting, using only one hour per set. Rotary hoe followed and cotton was dirted as soon as possible so second and more thorough watering could start. On July 20 Freddie Carter did a very unusual thing. He had a commercial operator come out and apply 195 pounds of Nitro Phosphate liquid fertilizer. This was about 16 pounds nitrogen and 48 pounds phosphorus (P205) per acre and was applied six inches below base of cotton plant and ten inches on each side of cotton plants. Second watering followed immediately and cotton was cultivated. Third watering was August 20 and was a good three hour soaking. Fourth irrigation was Sept. 10 and was very light fast watering.

Insecticide program totaled eight sprayings Early Season Control started June 1 followed by three more sprayings at ten day intervals. Bellworms hit and four more sprayings were necessary August 1, 7, 14 and 21.

Factors to consider relating to high yields:  
Cotton burrs in 1953 and 16" deep plowing in 1955.  
Never watering long sets that leach plant food.  
Watered often enough during hot summer to prevent long stress period.  
High phosphate fertilizer was applied July 20 to cotton root zone, this permitted plant to use phosphate before lime in soil tied it up.  
Insects didn't have a chance.

## Big and Small Babies

**KING-SIZE BABIES**—Here's a couple that would make any weighing scale groan. The man on the left tipped the scales at 388 pounds and the gal weighed in at 328 pounds. This combined weight of 716 pounds made this couple winners in the Annual Fat Folks Feast at Cavour, Italy.

**HURRICANE BABIES**—Any fisherman would be proud to pose with a catch of striped bass such as these, Angler James Golon, 13 years of age, named the 21 and 18 pounders he recently caught, Connie and Diane after the recent hurricanes that swept through Long Island Sound.

**DAVY CROCKET BABY**—It still remains to be seen if this Davy Crocket will get himself a 'B'ar. But he seems husky enough to face all critters—even people. His full name is David Cyril Crocket Jr., and he was a recent arrival at Papa Crocket's home in Newport News, Va. (Wide World Photos)

**TIMBER-CUTTING BABY**—This baby, a 200 hp International TD-24 diesel crawler tractor weighs in at slightly more than 20 tons. The unusual front end is a V-shape cutter 13 ft. long, 14 ft. wide, and is made from 1 1/2" steel that acts as a saw-tooth to cut off timber and brush at ground level. It's being used to help clear 23,000 acres of timber for a new reservoir at the Buford Dam site near Atlanta, Ga.

## Letters To The Editor

**LETTERS SUGGESTED AS WAY TO CREATE GOODWILL**

Muleshoe, Texas Feb. 14, 1956

Dear Editor:  
In this world of strife and bickering, do you, and your subscribers ever wonder if just one person can do anything to help the world toward peace and understanding between nations? There are several things that any individual can do. One of these is to exchange letters with another individual in another country. The housewife in Eng-

land, the teen-ager in Japan the child in Germany all have much in common with those of similar ages in this country. The English language is studied in these and other countries so that you will have little difficulty in writing to someone overseas.

And each person can build friendship for our own country. Does it surprise you that many Europeans and Asians think that Texas is inhabited solely by gangsters, millionaires, and cow-boys?

If you are interested in being a goodwill ambassador, in learning more of foreign countries and their customs and in having a rewarding friendship, overseas, please let us know

Contact either: Mrs. Elmer Wolfe, Rt. 2, Box 226, Muleshoe or me: Mrs. Ruth Cooper, Rt. 2, Box 286, Muleshoe. Housewives and teen-agers are especially urged to write. Sincerely,  
**MRS. RUTH S. COOPER.**

## Farm Land Value Up Farm Income

Factors other than farm income have been keeping farm land values high during the past 2 years.

In the past, according to John G. McHaney, extension economist, the value of farm land and buildings has risen when farm income rose and dropped when farm income declined, showing a definite relation between the two.

Since 1953, contrary to the usual pattern, farm land values have slowly and steadily risen to a new record-high peak, despite declining farm income. U. S. Department of Agriculture figures, based on regular reports from 16,000 farmers and 10,000 real estate reporters, show this to be

## W. R. Heathington Services Conducted Monday At Lubbock

W. R. Heathington, retired building contractor, passed away at his home, 3202 Bates St., Lubbock at 9:30 p. m. Saturday, following an extended illness. He was 76.

Heathington, a resident of Lubbock for thirteen years, is survived by his wife; two sons, Floyd of Lubbock and Ferris of Muleshoe; three daughters, Mrs. Walker Leonard, Muleshoe; Mrs. French Fletcher, Plainview; and Mrs. Thurman Lewis of Roswell, N. M.; three brothers, A. A. of Abilene and W. W. and J. S. of DeLeon; three sisters, Mrs. J. A. Elliott of Ft. Worth; Mrs. Margaret Kennedy, of Clovis, N. M. and Miss Erin Heathington of Abilene; six grandchildren and four great grandchildren.

Funeral services were held Monday afternoon at Lubbock. McDonald Funeral Home was in charge of arrangements.

a nation-wide trend. McHaney cites these important developments as probable causes for this unexpected strength in land values:

Farmers themselves are strong bidders for additional land to enlarge their farms. Caught in a cost-price squeeze, many farmers see increased use of machinery and more land as a means of increasing their production efficiency.

Too, credit to finance farm purchases has become more readily available. Several large lenders reduced interest rates and raised appraised values for loan purposes in 1956, and a booming nonfarm economy has encouraged investment in farm land by urban people.

Despite the influence of these three factors on land values during the past few years, the specialist believes that over the years farm land values will depend, as they have in the past, upon the general level of farm earnings. Some current investments in farm land may be inspired by the expectation that it will develop "scarcity" value as our population continues to increase. McHaney discounts this possibility on the basis that technical advances in prospect for agriculture over the next 20 years will make it possible for us to meet all foreseeable needs from present farm acreage.

## Safety Reason For Good Housekeeping In Farming Shops

If the farm shop is crowded and cluttered, it is probably a hazardous place to work. When the spring rush begins, the farm shop takes on added importance for there are always hurry-up jobs needed to keep machinery and equipment in operating condition. Haste here, says the Texas Farm and Ranch Safety Committee, can mean an accident unless the shop facilities have been put in order.

Now while there is time, the committeemen suggest that the shop be given a good housecleaning. Clean the work benches and floors and provide a scrap box for metals and other materials. Put hand tools in neat order by assigning a place for every tool.

Clean and check machines and power tools for repair needs and safety precautions. Go over the entire shop for fire hazards. Check all wiring for wear and possible "shorts". If a fire extinguisher isn't available, better make a purchase. If an extinguisher is available, check to be sure it is filled with the proper solution and is in working order.

Good lighting and plenty of ventilation are musts in the farm shop, say the committeemen.

Finally, after the housecleaning and checking jobs have been completed, the operator is advised to give himself a safety quiz on shop work habits. If the methods and habits now used aren't safe, change them, for the hand that may be saved will be needed in performing other vital farm jobs during 1956 and there-

## Grain Drying and Storage Conference To Begin Tomorrow On Tech Campus

More than 300 persons are expected to gather at Texas Tech, Feb. 17 for a Grain Drying and Storage Conference.

Eight speakers will discuss designs for storage facilities and latest methods of fumigation and heat control.

Tech's agricultural engineering department is sponsoring the conference for farmers, commercial grain men, county agents, farm storage builders, and manufacturers and distributors of aeration and grain handling equipment.

Speakers will include Fred Rabe, F. W. Rabe and Company Engineers, Dallas; Earl Lutz, Dow Chemical Company, Midland, Michigan; Robert I. Paine, McRan Company, Houston; W. S. Allen, Texas A & M College, J. W. Sorenson, Texas Agricultural Experiment Station, and Jack Braishaw, Agricultural Stabilization and Conservation Service, College Station.

### FROM TECH

Sue Aetkinson was home from Texas Tech over the weekend visiting her parents, Mr. and Mrs. Troy Aetkinson.

### VISITED BROTHER

Mr. and Mrs. Wiley Baker and children visited two days last week near Slaton with her brother, F. H. Griffin and family.

### FROM LUBBOCK

Mr. and Mrs. Calvin Brown, of Lubbock visited over the weekend here with her parents, Mr. and Mrs. M. L. Jackson and family.

and Ira L. Williams, who is in charge of meeting arrangements. F. N. Robinson, Steel Bilt Products Company, Lubbock, will preside at the morning session, and Dr. Donald Ashdown, Tech entomologist, at the afternoon session.

A panel discussion closing the conference will be moderated by R. C. Davidson, Panhandle Steel Buildings, Inc., Amarillo.

Conference headquarters will be the Tech Student Union Ballroom. A meeting feature will be miniature displays of grain storage and handling equipment. Prof. Williams said.

## Whitharral Man Loser In Water District Suit

District Judge Victor H. Lindsey, returned his decision February 7th in the case of the High Plains Underground Water Conservation District No. 1 vs. F. J. Bryson, Whitharral farmer, ruling in favor of the Water District.

Judge Lindsey permanently enjoined Bryson from producing a disputed irrigation well in excess of 100,000 gallons per day. The well in question was drilled without a permit and contrary to the rules of the Water District.

The defendant's attorney, R. H. Munsterman, immediately announced plans to appeal the ruling to the state supreme court. Attorneys for the Water District taking part in the case, were Joe Greenhill, Austin; Sam Aldridge, Farwell; and John Aikin, Hereford.

## Jack Obenhaus Says

You solve all your irrigation problems when you install a MATTHIESON SPRINKLER SYSTEM

Mr. Obenhaus is irrigating 130 acres with this system installed by D. H. Sneed Supply Co. of Muleshoe. It consists of 3680 feet of movable aluminum pipe with 88 sprinkler heads delivering 8.07 GPM per head.

"No more ditching, setting tubes, or worrying about tail water when you have a MATTHIESON SYSTEM."

Jack's place is 10 miles on the Plainview highway and a half south. He is growing cotton and grain. The ease of operation of the Matthieson System; plus the fact that he gets complete water coverage with no waste on his hilly soil makes Jack Obenhaus a satisfied booster of the MATTHIESON SPRINKLER IRRIGATION SYSTEM.

"I sleep nights during Irrigation Time, because I don't have to worry with changing tubes or tail water or waste with the new MATTHIESON SPRINKLER IRRIGATION SYSTEM

**FARMER COUNTY Farm Bureau News**

By **RAYMOND EULER**

If you haven't already, be sure and look at the pictures of two Farmer County Farm Bureau personalities in your last Texas Agriculture. These two men have gained State recognition for their outstanding abilities. One is your president, Gilbert Kaltwasser, who was elected by other county presidents to serve as chairman of the "Service to Members Activities" committee at the President's Conference held in Waco

January 9-11. It is a distinct honor to have our local president recognized by other county presidents as a likeable man of leadership. The other man is Jack Patterson, director from Rhea, and a member of the commodities committee who was a winner in the finals of a Public Speaking contest held at the Winter TFB Institute in San Antonio January 22-25. Those who know Jack are not surprised at his accomplishment, but are pleased to see him gain state recognition of his enthusiastic ability. He had plenty of competition, too. Kaltwasser also rated high in this group. From what we have heard, we believe it would be safer for us to recognize here that the wives

of these two men deserve honorable mention in the accomplishments of their husbands. They have served patiently as coaches and listeners at home, as well as providing nourishing hot biscuits and other things necessary to their ultimate success.

Esides a number of dairy and livestock associations and feed manufacturers, all Texas farm organizations have been asked to send representatives to a conference at College Station on February 17 where a proposed feed control law for Texas will be developed. The three farm organizations are the Texas Grange, Texas Farmer's Union and Texas Farm Bureau. TFB representatives will be A. R. Grauer, executive director and Gene Leach, legislative director. Farm Bureau tried unsuccessfully to obtain passage of such a bill last year. Another attempt will be made next year.

Farm Bureau directors met in regular session Monday night, giving most of their time to preparation for the spring drive, which is headed by Vice-president E. T. Ford. The state slogan this year is "75,000 or Bust". If all counties will do as well as those in this immediate area, that will be well exceeded.

**Today's Meditation**

Read Luke 10:29-37. Go, and do thou likewise. (Luke 10:37).

The cartoon I have in mind pictures a father who has just entered his home after the day's work at the office. He shouts joyfully to his family, "I have a ten percent increase in salary!" The cartoon shows the son dreaming of a new bicycle; the mother, a fur coat; the daughter, a new wrist watch; the father himself, a set of golf clubs. Not one member of the family is thinking of the other members.

I sat at supper one evening with a Korean pastor. The pastor's little son toddled into the room. I reached into my pocket and handed him a coin. I asked, "What is this?"

He answered, "That's the collection!" This little chap had never had money for candy or toys. The only time he had seen money was when he was given money as when he was given an offering. When he saw money, he did not think "That's for candy," but "That's for God."

How greater intelligence and wisdom can be gained through scientific understanding of God. Divine Mind, will be brought out in Christian Science Services Sunday.

The Lesson-Sermon entitled "Mind" will include the following selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy 128:4-11: "The term Science, properly understood, refers only to the laws of God and to His government of the universe. Inclusive of man. From this it follows that business men and cultural scholars have found that Christian Science enhances their intuitive and mental powers, enlarges their perception of character, gives them acuteness and comprehensiveness and ability to exceed their ordinary capacity."

"In my book, it is the best dollar investment on the highway today!"

We can't tell you how many times we've heard it. In fact, Cadillac's value and economy have become favorite topics of conversation among Cadillac owners everywhere.

And their sentiments are based on some very substantial facts about the "car of cars."

First of all, there's the economy of buying a Cadillac. Many models are actually priced competitively with the "medium-priced" makes.

Then there is the economy of operating a Cadillac. Cadillac's gasoline mileage is simply phenomenal for a car of its size and stature

... and its dependability is truly extraordinary. And, finally, there is the economy that comes from Cadillac's great value. In resale markets all across the land, the Cadillac car traditionally returns a higher percentage of its original cost than any other automobile built in America.

And consider what generous dividends Cadillac owners receive from their investments.

... Cadillac's superlative beauty and luxury ... Cadillac's magnificent performance and comfort ... and Cadillac's wonderful reputation among the world's motorists.

We suggest that you pay us a visit soon and investigate the latest and finest Cadillac investment of them all.

**NOTICE OF ROAD BOND ELECTION**

THE STATE OF TEXAS COUNTY OF BAILEY TO THE RESIDENT QUALIFIED ELECTORS OF BAILEY COUNTY, TEXAS, WHO OWN TAXABLE PROPERTY IN SAID COUNTY, AND WHO HAVE DULY RENDERED THE SAME FOR TAXATION:

TAKE NOTICE that an election will be held on the 12th day of March, 1956, in Bailey County, Texas, to determine whether or not bonds shall be issued by said County to the amount of \$50,000, for the purpose of the construction, maintenance and operation of macadamized, grav-

eled or paved roads and turnpikes, or in aid thereof, in Bailey County, Texas, and whether or not ad valorem taxes shall be levied on all taxable property in said County, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity, in obedience to an ELECTION ORDER passed by the Commissioners' Court of Bailey County, Texas, on the 10th day of February, 1956, and which order is in words and figures as follows, to-wit:

**ORDER FOR ROAD BOND ELECTION**

THE STATE OF TEXAS

**COUNTY OF BAILEY**

ON THIS, the 10th day of February, 1956, the Commissioners' Court of Bailey County, Texas, convened in special session, at the regular meeting place thereof in the Courthouse at Muleshoe, Texas, the following members of said Court, to-wit: Glen Williams, County Judge, Presiding; and Tom Morgan, Commissioner, Precinct No. 1; W. W. Couch, Commissioner, Precinct No. 2; R. R. Kindle, Commissioner, Precinct No. 3; R. P. McCall, Commissioner, Precinct No. 4;

being present and participating; there came on to be considered the petition of Alex Reid and 138 others, for an election to be held in said Bailey County, Texas, to determine whether or not bonds be issued by said Bailey County, Texas, to the amount of \$50,000, for the purpose of the construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof, in Bailey County, Texas, and whether or not ad valorem taxes shall be levied on all taxable property in said County, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity; and

IT APPEARING to the said Court that said petition is signed by more than Fifty (50) qualified property taxpayers voters of said Bailey County, Texas; and IT FURTHER APPEARING that the amount of bonds to be issued will not exceed one-fourth of the assessed valuation of the real property of said Bailey County, Texas;

IT IS, THEREFORE, CONSIDERED AND ORDERED by the said Court that an election be held in said County on the 12th day of March, 1956, which is not less than thirty (30) days from the date of this order, to determine whether or not the bonds of said Bailey County, Texas, shall be issued in the amount of FIFTY THOUSAND DOLLARS (\$50,000), in conformity with the Constitution and laws of the State of Texas, for the purpose of the construction, maintenance and operation of macadamized graveled or paved roads and turnpikes, or in aid thereof, in Bailey County Texas; said bonds to bear interest at a rate not to exceed THREE AND ONE HALF PER CENTUM (3 1/2%) per annum, and to mature serially over a period of years not to exceed Ten (10) years from the date thereof; and whether or not ad valorem taxes shall be levied

annually upon the property in said Bailey County, Texas, subject to taxation, for the purpose of paying the annual interest on said bonds and to provide a sinking fund for the redemption of said bonds at maturity.

SUBJECT to the authorization of said bonds by the qualified property taxpayers voters, \$25,000 of the proceeds of said bonds will be used to acquire and purchase lands for rights-of-way in respect of Texas State Highway No. 84 and farm-to-market roads in said County; and \$25,000 of the proceeds of said bonds will be used to acquire and purchase lands necessary for rights-of-way in respect of farm-to-market roads in said County.

THE SAID ELECTION shall be held under the provisions of the Acts of the Thirty-ninth Legislature, First Called Session, Chapter 16, as amended.

ALL PERSONS who are legally qualified voters of said Bailey County, Texas, who are registered property taxpayers of said County, and who have duly rendered their property for taxation, shall be entitled to vote at said election.

THAT THE BALLOTS for said election shall be prepared in sufficient number and in conformity with V. A. T. S. Election Code, adopted by the Fifty-second Legislature in 1951, and that printed on such ballots shall appear the following:

"FOR THE ISSUANCE OF BONDS AND THE LEVY OF AD VALOREM TAXES IN PAYMENT THEREOF"

"AGAINST THE ISSUANCE OF BONDS AND THE LEVY OF AD VALOREM TAXES IN PAYMENT THEREOF"

AS TO THE foregoing proposition, each voter may mark out with black ink or pencil one of such expressions, thus leaving the other as indicating his vote on the proposition; or in the alternative, each voter may vote on the proposition by placing an "X" in the square appearing on one ballot beside the expression of his choice.

THE POLLING PLACES and presiding judges of said election shall be, respectively, as follows:

- Precinct No. 1—Polling Place, The Election House, Muleshoe; Presiding Judge, Ernest Kerr.
- Precinct No. 2—Polling Place, Baptist Church, West Camp; Presiding Judge, Partin Austin.
- Precinct No. 3—Polling Place, Longview Church, Mays; Presiding Judge, Bert Seales.
- Precinct No. 4—Polling Place, Schoolhouse, Threeaway; Presiding Judge, J. G. Arnn.

Precinct No. 5—Polling Place, Baileyboro Gin, Baileyboro; Presiding Judge, Howard Ashley.

Precinct No. 6—Polling Place, Schoolhouse, Bu1a; Presiding Judge, Roy Young.

Precinct No. 7—Polling Place, Schoolhouse, Circleback; Presiding Judge, C. G. Damron.

**SPECIAL CANVASSING BOARD:** Barry T. Lewis, Johnnie Johnson, Mrs. Elizabeth Woodley.

THE COUNTY CLERK of Bailey County, Texas, is hereby authorized and directed to cause said notice of election to be published once each week for three consecutive weeks prior to said election in a newspaper of general circulation published in Bailey County, Texas, and, in addition thereto, by posting notice of such election at four public places in Bailey County, Texas, one of which shall be at the Courthouse door of said County, for three consecutive weeks prior to said election.

A COPY of this order, signed by the County Judge of Bailey County, Texas, and certified to by the county clerk of said County, shall serve as proper notice of said election.

THE ABOVE ORDER having been read in full; it was moved by Commissioner Morgan and seconded by Commissioner Couch that the same be passed and adopted. Thereupon, the question being called for, the following members of said Court voted "AYE": Commissioners Morgan, Couch, Kindle, and McCall; and none voted "NO".

PASSED AND APPROVED, this the 10th day of February, 1956.

Glen Williams, County Judge, Bailey County, Texas.

Tom Morgan, Commissioner, Precinct No. 1.

W. W. Couch, Commissioner, Precinct No. 2.

R. R. Kindle, Commissioner, Precinct No. 3.

R. P. McCall, Commissioner, Precinct No. 4.

IN WITNESS WHEREOF, I have hereunto signed my name officially and affixed the seal of the Commissioners' Court of Bailey County, Texas, this 10th day of February, 1956, pursuant to authority given by law and the above order of the Commissioners' Court of said County.

GLEN WILLIAMS, County Judge, Bailey County, Texas.

For 1956; the longest, lowest, most powerful Lincoln ever

Never before a Lincoln so long... and so longed-for

This longest, lowest of all Lincolns is total newness. In every distinctive line it says: this is the one and only completely new fine car of the year. There is a fresh newness here... of beauty, of power, of performance... that has won instant acclaim from those who instinctively recognize the finest.

Lincoln Beauty! Its essence is the clean line... the uncluttered sweep of Lincoln's

breath-taking length. Here is good taste that speaks with quiet authority.

Lincoln Power! A mighty, new 285-horsepower engine... teamed with the incomparably smooth Turbo-Drive transmission... delivers more usable power than ever. Laze through traffic with incredible agility... leap around highway slow-pokes... float up the steepest mountain grade and you'll know at last how a fine car can step.

Lincoln Performance! Here's roadability you've never dared imagine. Unique ball-joint suspension, married to Lincoln's scant 5 feet of lowness, looks you sure-footed and safe to the sharpest of curves.

America's motoring trend-setters have taken Lincoln to their hearts... in truly marvelous numbers. Are you, perhaps, denying yourself an experience that should be yours... the adventure of Lincoln?

Modern Minute Man

FEBRUARY 22nd IS U.S. ARMY RESERVE DAY in Texas

Why We Need A Ready Reserve

The Army's all-important mission is to uphold the interests of the United States, in a shooting war, in cold war, or in peace. During times of peace its major mission is to deter aggression. To successfully deter aggression, its ability to fight and win must be so convincing that any potential enemy knows in advance that aggression on his part would not pay.

This ability is not measured in terms of weapons, equipment, and active forces alone. It is also based to a very great extent on the existence of a trained, fully equipped and manned Ready Reserve. One cannot over-emphasize the need for a trained Reserve. We must at all times recognize that the tools of war, however vital a role they may play in any conflict, are useless without men who are trained to use them.

The very nature of global war decrees that the Army becomes increasingly flexible and mobile. It also decrees that a state of preparedness exist at all times in both our active and Reserve forces. Our Army, like the age it is a part of, is constantly changing. It is forever developing new tools and new techniques, and its men must know how to use and apply them. No longer can we afford to spend long months after a conflict begins in preparing our Reserves for their vital role. This training must be timely and continuous. Those of us who have shared life on the battlefield know all too well that it is neither fair to the individual nor his country for a man to enter combat without adequate training.

Today—through the Reserve Forces Act of 1955—we have a means of assuring our country of a strong, reliable, and Ready Reserve. This act offers the youth of this country a means of discharging their military obligations without disrupting their careers or education—an unprecedented opportunity that every young man should seize.

To the employer who cooperates in the training program, it offers among other things a better satisfied labor force, more responsible employees, and fewer men required to be away from the job for thirty to forty-five days of annual training. To the United States it offers the assurance of a fully manned, well equipped, and adequately trained Ready Reserve.

The size of our active Army and the future of this Nation rest upon the success of our Reserve program. To insure posterity the same blessings of democracy which we cherish, it is necessary that the youth of America be aware of their responsibility to their government, and meet it faithfully.

SAND HILLS PHILOSOPHER UNSURE ABOUT GOVERNORS ON CARS, BUT THINKS IT'D WORK ON TRACTORS

Editor's note: The Sand Hills Philosopher on his Johnson grass farm discusses speed this week, something he has only theoretical knowledge of.

Dear editor:

I don't have too much faith in public opinion polls, mainly because it's hard to say what a nation thinks when most of the individuals in it haven't made up their minds yet, and also because they raise so often, except when they report on something you can't really check up on, like whether 63 per cent of the women favor a new style or 59 per cent of the men believe the winters aren't as cold as they used to be, but I read one the other night that got me interested.

According to it, 70 per cent of the American public is in favor of putting governors on cars to hold them down to 60 miles an hour.

Now I am not disputing the accuracy of this poll but if 70 per cent of the drivers think they're going too fast, why don't they slow down? And if anybody thinks keeping all cars from going faster than 60 miles an hour will stop all accidents, my advice to him is to stay off the streets the next time he goes to town, and in the meantime check up on his hospitalization insurance.

Of course, I know speed is the cause of lots of accidents, but speed is no fixed thing. If you're going 40 miles an hour and somebody meets you on top of the hill going the same speed,

you've got an 80 mile an hour wreck and science hasn't invented the gadget that'll prevent it.

Personally, I don't have the answer to the wreck problem, and if anybody else has, he's hiding it. I don't think about it except when I get on the highway, and when I get on the highway I'm so busy avoiding cars to do any clear thinking.

But this idea of a governor interests me. Not for cars, but for tractors. It's not that tractors go too fast going up one row and down another, it's just that they go too often. That's one thing that's causing the surplus.

What this country needs is a governor which will allow you to run a tractor only three days a week, although here again a gadget is no substitute for thinking. I thought of slowing down my tractor work long ago, and while it hasn't made me rich, can't anybody pin any part of the surplus on me.

Yours faithfully,  
J. A.

Babson Answers

FOUR INVESTMENT QUESTIONS

Babson Park, Mass., Feb. 16 — As I travel about, there are four questions which I am most commonly asked. Let me discuss them this week.

Question No. 1 — On Stocks In General

Would This Be A Good Time For A Small Investor To Sell All His Securities, Even Though The Market May Go A Bit Higher, and Wait For The Anticipated Bargain Levels?

This question implies the natural desire in all of us to want to get out of the market at the top, before a downturn occurs. Scarcely a day goes by, when the market looks relatively high, that most of us do not feel like selling all of our securities. Then the next day we hesitate to sell any in the hope they will go a little higher. There is a distinct danger in selling out all of one's holdings and then later becoming discouraged about that decision if the stocks rise to still higher levels. If this happens one can create the double error of selling too soon and then buying back too high.

The best way, I believe, to avoid being "whipsawed" is not to depend upon a policy of selling all of one's stocks at any particular time, but rather to sell a few stocks from time to time as they advance and as very substantial profits have been made in them. Anyone who carries into a market "slump" stocks amounting to only 25 per cent of his investment funds certainly has no real worries. The investor who is dependent upon income and who is not price-conscious might carry a larger amount of sound dividend-paying stock issues into a market slump. I suggest therefore that rather than selling out all of your stock-holdings and then sitting back and waiting for bargain levels, it would be better for you to keep a few stocks, but at the same time hold a backlog of reserves, that would be available for the repurchase of stocks later on.

Question No. 2 On Utility Stocks

Do You Think Utilities Would Suffer With Another Democratic Congress?

Many investors associate a Democratic Congress with the unscrapping of various utility holding companies prior to World War II, which adversely affected their stocks. Also the Democrats have led the movement toward public ownership of various hydro-electric developments. Now, however, that the utility industry is organized and capitalized on a straightforward basis, and since new hydro-electric developments may be limited in scope, I believe the Utility Stocks present perhaps the best combination of security and yield.

Because the utilities have had to raise tremendous amounts of new capital during the last ten years, it has been necessary for the various state regulatory commissions to take a somewhat more generous attitude in the establishment of rates in order to permit a fair return on the invested capital. In view of the fact that still further expansion is anticipated in the industry, we should expect a continuation of this favorable rate policy to make it possible for the utilities to raise money through the sale of stock. This should assure a continuation of present dividends, but does not give the holder of utility stocks much opportunity for appreciation.

Question No. 3 On Inflation

Would You Expect Greater Inflation Under A Democratic Congress? Also, Greater Foreign Aid?

I assume that the idea of inflation which prompts this question refers to a rising real estate and commodity price level and a rising cost of living. Actually, the great inflation of the last fifteen years has arisen because of the monetary inflation of World War II and because of the subsequent debt expansion of all kinds and the heavier borrowings by the general public to buy on installments. After prices have become fully adjusted to the present inflated monetary base, I doubt very much that even a Democratic Congress would create sufficient additional monetary inflation beyond what would be needed to hold prices at present levels.

In the matter of foreign aid, there might be a somewhat greater tendency on the part of a strongly Democratic Congress to grant heavy expenditures for such purposes in order to keep employment high in the United States. However, it is likely that even in this matter there would not be too much difference, regardless of which major party controls Congress. I think that long-term promises of aid (more than two years at a time) will

Income Tax Facts No. 4

EXEMPTIONS CUT YOUR TAX BILL

This year's redesigned tax forms make it easy for you to indicate the personal exemptions to which you are entitled.

Every taxpayer is entitled to one exemption, which means a deduction of \$600. Those 65 or over have a double personal exemption, and blind persons of all ages have an extra exemption. These rules apply to both husband and wife on joint returns.

In addition, you are entitled to one exemption for each dependent, but the extra exemptions for age and blindness cannot be taken for dependents.

Rules for Dependents

1. Have received more than half his support from you, unless you file a Multiple Support Agreement (see below). In figuring support, scholarships received by your child do not count.

2. Have less than \$600 gross income unless he is your child and under 19 or a student.

3. Not file a joint return.

4. Have been either a member of your household or closely related to you, as defined in the official instructions. Although "relatives" for tax purposes, a cousin receiving institutional care for a mental or physical disability who lived with you before going to the institution would qualify.

5. Have been either a citizen of the United States or a resident of the United States, Canada, Mexico, Panama the Canal Zone or, in some cases, a serviceman's child living in the Philippines. Your exemptions usually de-

Then Abe got up and in his unattractive voice read those 14 sentences, almost like a sonnet, and probably the crowd was restless, and began talking and moving about like erbwds will. And the papers carried the other man's speech word for word, and he lived for a moment in glory, but the words of Lincoln have become an indelible part of our history and heritage.

We are quick now to seize on the utterance of our leaders to preserve them for posterity, but none have even approached the artful simplicity of the words of Abraham Lincoln.

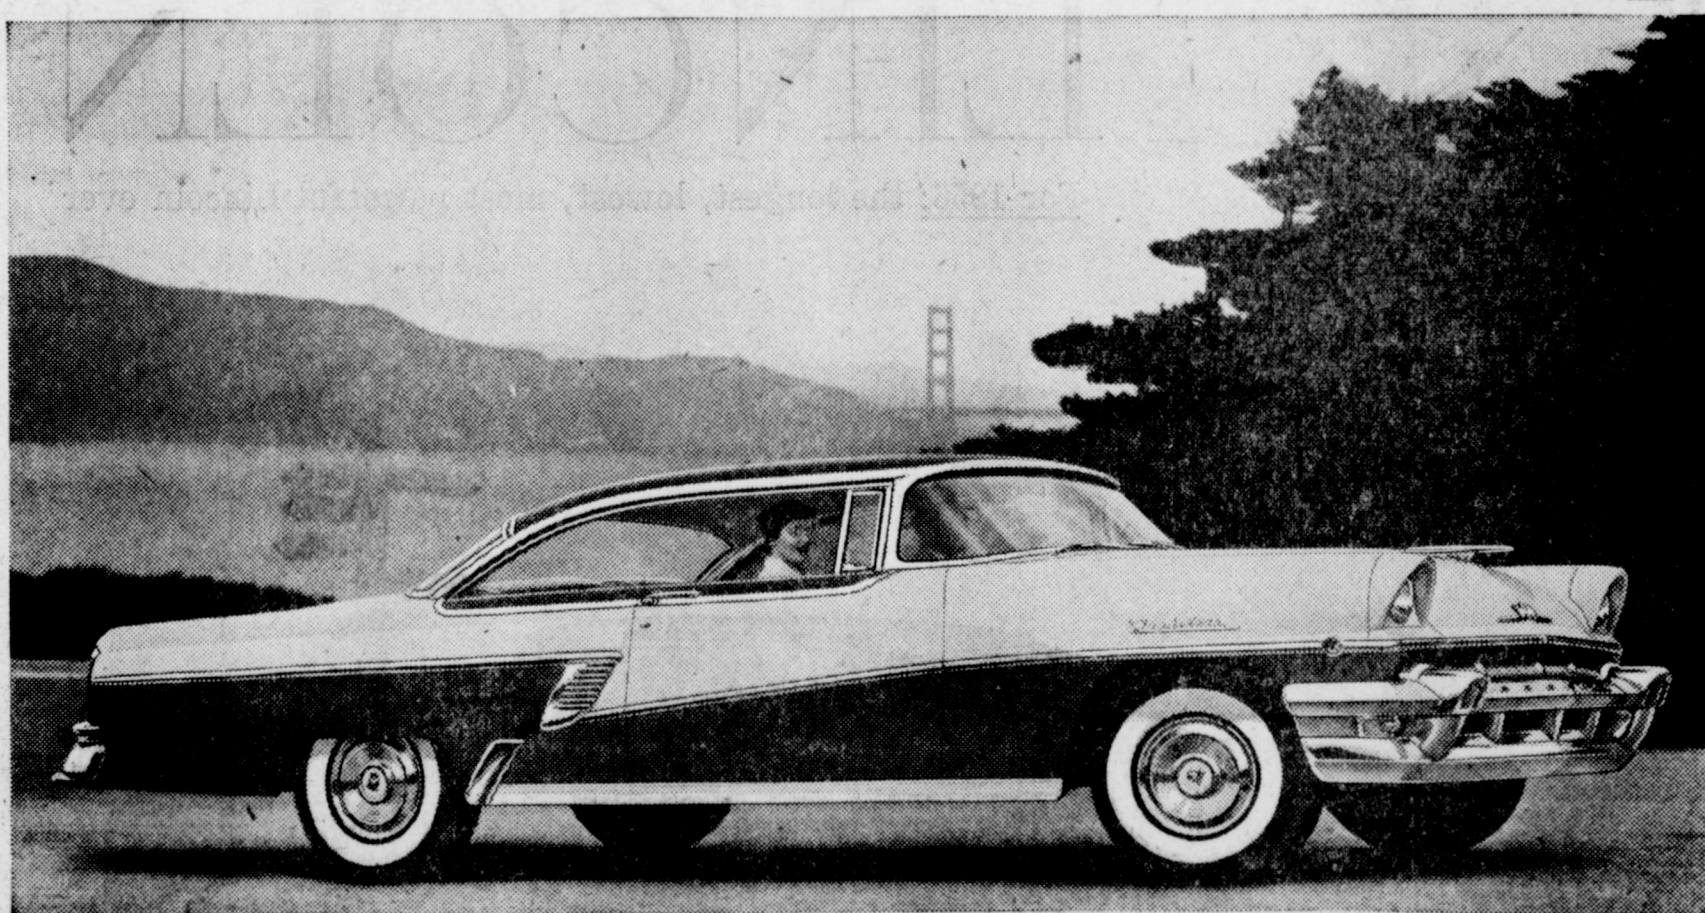

And one last word about the snowstorm. I can hardly wait for year 2056 so I can lean back in my rocking chair on the porch of the poorhouse and tell the young fellers all about the "blizzard of nineteen nought fifty-six".

And in our wanderings over the village we note the blossoming interest in art on the part of some of our citizens. A local gasateria is displaying the paintings, and I do mean paintings, of Howard Watson, a local farm boy.

Put the emphasis on paintings these because Howard uses regular house paint for lack of oil colors. Such a desire to paint should certainly be encouraged. The boy is good, and his work shows considerable promise as a feeling for depth and handi-

### Miss Lovelady Installed As Worthy Advisor

Miss Vickie Lovelady was installed as worthy advisor of Temple Assembly No. 28, Order of the Rainbow for Girls, for the ensuing four months term in a ceremony Saturday evening at 7:20 p. m.

A sophomore in Temple High School, Miss Lovelady is the daughter of Mrs. Lois A. Lovelady of Temple, and Karl Lovelady, of this city.

Installing officers were: Martha Davlik, Evelyn Whitley, Penny Adams, of Austin, Ann Allison and the mother of the newly installed officer, Mrs. Lovelady.

Vickie has dedicated her term of office "to the obtaining of love, forgiveness and understanding in the hearts of all." Her theme is charity, her colors red and white, and her chosen flower is the red rose.

fluence", taking scripture from II Timothy 1:5-6. Alternate for the devotional will be Morton church.

The first topic of the day will be given by the Sunset Church of Lamesa, with the Fifth Street Church of Loveland as alternate. The talk will be on "The Evil Influence of Parents". This will be followed by a special song by the Loveland group.

Bro. B. C. Wilkins will bring a message at 11:00 a. m., with Bro. Austin Steadman as alternate.

A lunch and fellowship hour will be held beginning at 12:00 noon, and continuing until 1:15 p. m., when a song service will open the afternoon session. "Parental Responsibility" will be the title of topic two, which is to be given by the Bethel Church of Amarillo. Scripture readings will be taken from Deuteronomy 6:7; Proverbs 22:6; Corinthians 12:14, and Titus 2:24. This topic concerns teaching, training providing and love. Alternate church for this topic is the "Zuni Park Church, of Lubbock."

Topic three, "Parental Duties As To Correction of Children", will be given by the Central Church of Lubbock. First part of the talk will be "To Control", and scripture will be taken from I Timothy 3:4. The second part of the topic "To Correct and Chasten" will be based on scriptures from Proverbs 29:15-28-7. Alternate church will be the Missionary Church of Paducah.

At 1:55 p. m. the Muleshoe ladies will present a special song and skit, and at 2:05 p. m., a business session will be held to close the meeting.

### District W. M. U. Meeting To Be Held In Muleshoe

March 8 has been set as the date for the District W. M. U. meeting, which this year is to be held at the Main Street Baptist Church in Muleshoe.

Theme of this year's meeting will be "The Need Of Christian Parents."

Schedule for the meeting, tentatively, is as follows: At 10:00 a. m., the Muleshoe ladies will be in charge of a fifteen minute song service, which will open proceedings. This will be followed by the welcome address, also to be given by ladies of the Muleshoe church.

Response to the welcome will be given by Littlefield, with Anson as alternate. At 10:25 a. m., Muleshoe church will give the devotional on "Christian In-

## Get a record-breaking run for your money!

Only Chevrolet puts you in charge of the dynamite action and sure-fire handling qualities it takes to break the Pikes Peak record! Better try it before you plank down your dollars for any car at any price.

Almost everybody likes a real road car. And nowadays you no longer have to pay a king's ransom to own one. They're going at Chevrolet prices!

For the new Chevrolet is one of the few truly great road cars being built today! It has to be to hold the stock car record for the Pikes Peak climb. It has to have cannonball acceleration (horsepower now ranges up to 225!) and nailed-down stability on turns. It has to have easy, super-accurate steering, too—

The Bel Air Sport Sedan—one of 19 new Chevrolet beauties. All have directional signals as standard equipment.

FEB. 22 IS U. S. ARMY RESERVE DAY IN TEXAS!

UNCLE SAM needs young men for his peacetime Army of Reservists. YOUNG MEN need what Uncle Sam has to offer.

Strong nations seldom are attacked. It is only when a nation becomes weak, when its military strength is at a low ebb... when its men are untrained for battle... that an enemy strikes. To keep peace — keep strong. For a nation to maintain military might it must have a large, well-trained Ready Reserve — well versed in the latest in military know how and equipment.

It is up to the young man of America to provide this manpower. Under the Reserve Forces Act of 1955 American youth may continue in school with a minimum of interruption, while serving in the U.S. Army Reserve.

Investigate. Contact your nearest U.S. Army Reserve Unit.
