L. E. Holton Is Found At El Paso

Mrs. L. E. (Ed) Holton received a letter from her husband, missing for 11 days, on Wednesday morning saying that he was in an El Paso Ward and remembered nothing about leaving home.

Mr. Holton, age 46, walked away from the family home in west Tahoka at 9:30 a. m. Saturday, July 29. He cashed a \$10 check at South Side Service Station at about 11 a. m. He was reported seen in O'Donnell later that day, but otherwise nothing had been heard of him since.

Sheriff "Slick" Clem inaugurated a search for the man, which included a hunt by airplane made by Joe Robinson over the T-Bar pasture and other pastures and fields. Many thought his body might be found in some remote place.

Mrs. Holton believed from the first that he had had a lapse of memory, since he had been "mentally and physically a sick man" for several days and was terribly depressed the day he left home.

Mr. and Mrs. Holton have been married 25 years, have never had any family trouble, and the couple had never before been away from each other over two days at a time. Mrs. Holton told The News. They have three daughters, Mrs. Beryl (Mona) Dillard, Juanita, 15, and Stella, 13.

Area Farmers Organize To Fight Cotton Acreage Bill

South Plains farmers, ginners, and business men met in Lubbock Wednesday to protest proposed cotton acreage cuts in West Texas and to form an organization to help protect the interests of the cotton farmers in this area.

Protests are being entered to Texas Senators on the Pace cotton allotment bill, HR 9109, which has passed the house, and which is to be acted on by a joint congressional committee next week before going to the Senate.

The bill seeks to radically cut cotton acreage in West Texas and to benefit the old cotton producing counties.

Wilmer Smith of New Home has been named committeeman for Lynn county. Roy Davis of Lubbock is chairman of the set-up, and W. O. Fortenberry, New Deal, now is in Washington to testify against the bill.

Cooperation of all farmers, cotton men, and business men is sought by the new organization being formed.

Junior Rodeo In Progress At Post

Large crowds are attending the annual Southwestern Championship Junior Rodeo being held in Post this week end. Three more performances remain, Friday night, Saturday afternoon and night.

Crime Wave Sweeps Lynn County

Tahokans Are Victims of "Cold" Checking Wave

John W. Arbor, Negro from Gause, Texas, is in jail, and Irwin Ross, Tahoka, has been released on \$2,000 bond, on forgery charges filed here last week end.

Arbor is alleged to have cashed checks of \$33.00 each at three different places of business in Tahoka on the night of Saturday, July 29, bearing the signatures of R. W. Fenton, Jr. Ross is alleged to have carried Arbor to the places of business in a taxi, and Arbor claimed he was acting for Ross.

Sheriff "Slick" Clem apprehended the Negro in the Postoffice Building at Lubbock, and as the result of prolonged questioning received his confession.

Juanita Morrison, 28, of Carlsbad, N. M., is in jail here on failure to make a \$2,000 bond on a forgery charge, having passed a forged \$55.00 check at a business house here on L. R. Mason. Sheriff Clem, on being notified by Mr. Mason and the business man of the lady's suspicious actions, called Seminole and had her picked up while she was evidently en route back to Carlsbad.

The lady, a former patient in a mental hospital, told local officers a story in which she claims to have killed her husband in self defense in a house near Carlsbad on August 1. Officers there are investigating the story, but up until Wednesday had found neither the house she described nor the body.

The sheriff recently picked up a Negro, O. M. Jones, of Hobbs, N. M., after the latter had sold an adding machine here, the buyer becoming suspicious. After questioning, the Sheriff found that the Negro was wanted for theft of the car he was driving, a 1948 De Soto, and the adding machine in Hobbs. Officers from that city have him in jail there.

A lady with a carnival which showed in Lubbock about six weeks ago, Carolyn Ann Fritz, is in jail after having been picked up in Kermit for forgery. She is said to have admitted passing two worthless checks in Tahoka for \$38.50 each.

County's Crop Prospects Good

Lynn county crop prospects continue excellent, with both cotton and feed promising large yields this fall.

Rainfall last Thursday, Friday, and Saturday totaled exactly one-half inch in Tahoka, and there were scattered showers over the county, but no report of hail. Since the week-end, the skies have been clear and the weather warm.

Biggest threat to the prospective bumper crop is worms. Most farmers are keeping alert to this threat, however, and are poisoning when they think it necessary.

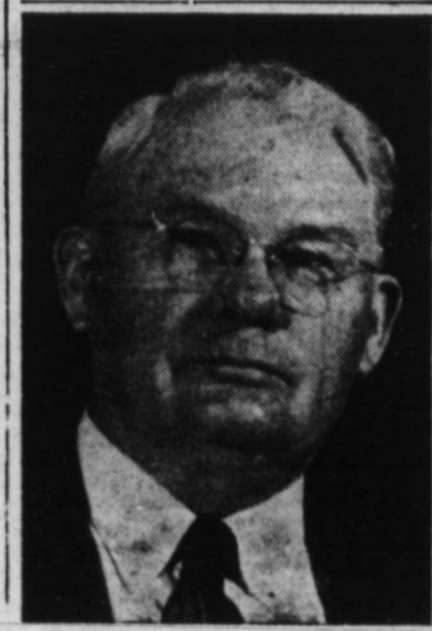

County Agent Bill Griffin reports that leafworms are building up all over the county, with (Cont'd. On Back Page)

Three Lynn county test wells were nearing possible pay depths this mid-week.

Pay, if any, was expected at 8,900 to 8,900 feet, where the company hoped to pick-up the strata of the Magnolia discovery well six miles southeast of it, where pay was found at 8,615-30 feet.

Magnolia's No. 1 W. W. Caswell offset, located a quarter mile west of the Magnolia No. 1 Garza discovery, was unofficially reported to be nearing 8,000 feet.

Humble's No. 1 W. C. Dulin, northwest offset to the No. 1 Garza, was reported at a depth of 6,080 feet. Slightly gas cut (Cont'd. On Back Page)

Man Charged In Shooting Scrape

Floyd Davis, well-known local citizen, was charged Monday of assault with intent to murder as a result of a shooting on Main Street in Tahoka at about 2:30 p. m. Sunday. He was immediately released on bond of \$750.

A few minutes previous to the shooting, Davis and a local Latin-American, John Gonzales, had engaged in a fist fight. Mr. Davis is alleged to have "hit up" Gonzales to pay him \$5.00 Davis had loaned him on a bill of groceries. An argument and a fight followed. Bystanders pulled the pair apart.

Davis went some distance, got in his pick-up and returned to the scene of the fight, in front of the W. M. Harris store. He is said to have gotten out of the pick-up and fired five or six shots from a .38 revolver in the general direction of Gonzales and a group of Mexicans who had gathered. One shot went into the Harris store but none of them hit any person.

The grand jury will likely further investigate the case when it meets on August 23.

Two Percent Of Taxes Delinquent

County and State tax collections for 1949 have been about 98 percent to date, according to J. E. (Red) Brown, Lynn County Tax Assessor and Collector.

About 2 percent remain delinquent, and now is drawing penalty and interest. Those owing this two percent of property should pay their taxes as soon as possible, Brown says, to economize on the necessary extra charge for penalty and interest.

Eight Baptisms Result From Revival At Baptist Church

At the First Baptist Church Wednesday night, eight persons, most of them being mature men and women, were baptized into the fellowship of the church by the pastor, Rev. Lee Ramsour. They had made professions of faith at the ten meeting held last week at the Sweet Street Mission, in which Pastor Ramsour did the preaching.

Rev. W. H. Scantling is the new pastor of the Mission and is doing a good work there. Youthful Layman McMahan conducted the song services in the revival. L. D. McKee is superintendent of the Mission Sunday School. Good sized crowds attended throughout the revival.

Absentee Voting Is Now Possible

Though Sunday, August 6, was the first day for absentee voting in the Second Primary of August 26, no votes could be cast until Wednesday, when they were delivered to County Chairman C. H. Cain.

Absentee ballots may be cast by contacting Beulah Pridmore, county clerk, either in person or by writing her. Such absentee ballots must be returned to her by August 22.

Printing of ballots was delayed over the state due to the fact that the State Democratic Executive Committee did not meet until Monday to certify the votes. Lynn county's ballots were printed by The News on Tuesday.

Mr. and Mrs. Rollin McCord spent last Thursday, Friday, and Saturday in Fort Worth on a combination business and pleasure trip, and attended the Shriners' convention while there.

"BULGE" FIGHT RECALLED—Maj. Gen. Anthony C. McAuliffe, Chief of the Army Chemical Corps, is being paid signal honor by the people of Belgium commemorating the heroic defense of Bastogne in December, 1944, and at the same time his portrait by Jes Schlaikjer, a well known American artist, has been placed in the Grand Central Art Galleries in New York. Both events stem from the enthusiasm of the Belgians in conferring honorary citizenship on the American officer commanding the "Screaming Eagles" (101st Airborne Division) in the memorable action at Bastogne in the Battle of the Bulge.

In the little city of Bastogne the entire population joined in the gala ceremonies in Place McAuliffe. The American general received a certificate of honorary citizenship and he replied in an address in French, placing a wreath on the monument to the memory of Ernest Glessner, first American soldier to fall at Bastogne, September 10, 1944.

WHAT IS THE MOST POPULAR TYPE OF AWNING FOR SUMMER HEAT PROTECTION?

AMERICAN HOMEOWNERS PREFER CANVAS AWNINGS OVER ALL OTHER TYPES, ACCORDING TO A SURVEY RECENTLY CONDUCTED BY A LEADING NATIONAL HOME IMPROVEMENT MAGAZINE.

The first pencil factory in the United States was established in 1861. About 1,000,000,000 pencils are manufactured from American wood every year, representing a total value of approximately \$50,000,000.

Planning, maintenance and repair plus good operation on the part of the ginner should result in better prepared cotton for the spinner and higher grades for the producer.

A mine prop may mean a few dollars to the man who sells it, but it may mean the difference between life and death to miners hundreds of feet down in the earth.

Method Of Voting In Elections Is Discussed By County Chairman

In view of the fact that there seems to exist some misapprehension as to the right of a voter, under certain conditions, to vote, on election day, at some place other than at and within the voting place, I desire to make this statement.

"Continuously since the passage of the Terrell Election Law in 1905, it has been unlawful for any voter to cast his vote, on election day, at any place other than at and within the voting place. In order to relieve voters who are absent from the County and invalids from the burden of this general law, an absentee voting law was passed many years ago, which permitted absentee voting by persons so situated, under the conditions and within the time therein stipulated.

In 1949, the Secret Ballot Law was passed, and I quote the fol-

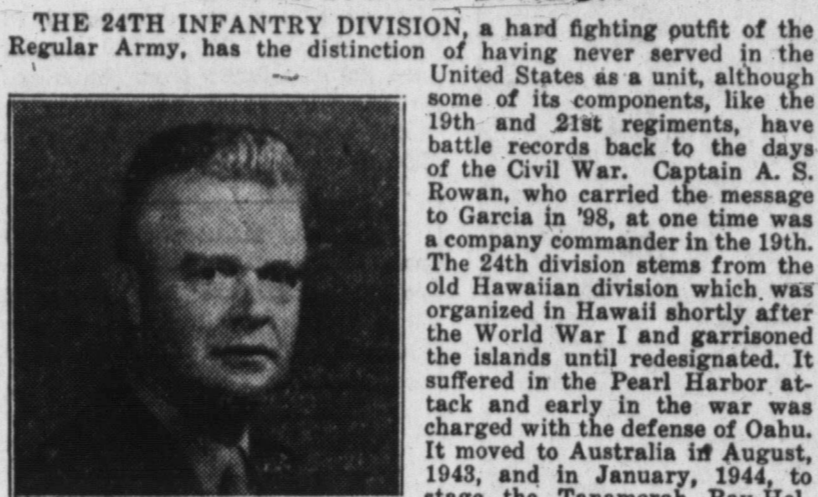

lowing from Article 3012 of our Civil Statutes, as amended, to-wit:-

"The voter shall then fold the ballot so as to conceal the printing thereon and so as to expose the signature of the presiding judge on the back of the ballot, then deposit the ballot in the proper ballot box, and unless the ballot is deposited in such ballot box and the stub in the stub box by the VOTER IN PERSON, the same SHALL NOT BE COUNTED as a vote in such election."

"It is obvious that the above quoted portion of the Statute makes it unlawful for any voter to vote on election day at any place other than at and within the voting place and in the regular manner provided.

"If you will be absent from the

24TH INFANTRY DIVISION

MAJ. GEN. DEAN

THE 24TH INFANTRY DIVISION, a hard fighting outfit of the Regular Army, has the distinction of having never served in the United States as a unit, although some of its components, like the 19th and 21st regiments, have battle records back to the days of the Civil War. Captain A. S. Rowan, who carried the message to Garcia in '98, at one time was a company commander in the 19th. The 24th division stems from the old Hawaiian division which was organized in Hawaii shortly after the World War I and garrisoned the islands until redesignated. It suffered in the Pearl Harbor attack and early in the war was charged with the defense of Oahu. It moved to Australia in August, 1943, and in January, 1944, to stage the Tanamerah Bay-Hollandia operations.

In April, 1944, the 24th landed in Dutch New Guinea for a perfect tactical operation. In five days the division smashed through an important airfield and by June 6 had killed 1,771 Japs and taken 502 prisoners. Action continued through the summer and in October the 19th and 24th Infantry regiments landed at Leyte and spearheaded the advance to Pinamopan. At Breakneck Ridge the 21st Infantry regiment relieved the 34th and subsequently took the ridge. On Leyte the division suffered 2,340 casualties. It was awarded numerous unit citations.

In the Philippines elements of the division were in the earliest landings. The 3rd battalion of the 24th regiment made an amphibious assault on Corregidor in support of paratroopers, and the 2nd and 3rd battalions of the 19th regiment were sent to Mindoro in driving on Manila from the south. In April, 1945, the division hit at Parang on Mindanao and ultimately stormed into Davao. Upon completion of mopping up operations the division went to Japan where it remained on occupation duty.

Major General William F. Dean has commanded the 24th since October, 1949, having previously served as military governor of Southern Korea. He is a native of Carlyle, Clinton county, Illinois, and began his career in the Regular Army as a second lieutenant of infantry. In operations in France he commanded the 44th Infantry division.

The shoulder patch of the 24th is a green taro leaf bordered in yellow superimposed on a red circle which is bordered in black. This was the symbol of the old Hawaiian division. The taro is a native plant of Hawaii and from it is extracted certain food concoctions and a drink called poi.

News that he now is a Midshipman in the U. S. Naval Academy at Annapolis, Maryland, where he hopes to complete a four-year course preparatory to making the Navy a career.

Randall is the son of Mr. and Mrs. Marvin Hinkle of Portland, Oregon, formerly of Tahoka, while a student here, Randall was a popular member of the student body and a star center on the football team.

Another former Tahokan, Billy Travis Hanes, son of Mr. and Mrs. Travis Hanes of Cameron, also is a student in the Naval Academy.

Randall's address is: Midshipman David R. Hinkle, Room 3016, Bancroft Hall, U. S. Academy, Annapolis, Maryland.

NEUTRALIZATION OF FORMOSA—A study of the map of the Far East, in the light of Communist methods of operation and the lessons of World War II, will show the importance of the decision to neutralize Formosa. Airfields on that island are only 400 miles from targets on Okinawa, a little farther from targets in the Philippines, and less than 800 miles from targets in Japan. Along with these points and Indo-China, Formosa might be in the first line of defense against Communist aggression in the Far East. If the Communists should seize Formosa now, they would not only break that line but also pave the way to conquest of the other points. Remembering the long years of costly, bloody island-hopping in World War II, it is easy to picture the hard road back that the forces of freedom would face.

Formosa is separated from the mainland of China by a strait from 90 to 200 miles wide. An island about 235 miles long and from 70 to 90 miles wide, it is about as large as Massachusetts and Connecticut combined and has a population of 7,000,000.

Plans Are Being Made For Big Celebration At Wilson This Fall

Wilson is planning a big "to-do" sometime this fall in celebration of the many improvements that have been made in the little city, according to Pat Campbell, Mayor, and others of that town.

The celebration will include a rodeo, barbecue, carnival, and possibly other features. The date has not been set as yet, pending completion of the new school plant.

A beautiful new high school building and a roomy cafeteria were completed last Spring. The old school building is being rebuilt into a modern grade school building.

Among the other improvements are the new paved roads and streets and the new water reservoir, wells and distribution system.

Senior Editor Returns Home

After an absence of about seven weeks, the senior editor of this newspaper returned to Tahoka last Friday afternoon. He will be here until Saturday of next week, when he will return for a period of ten days or two weeks visiting in Central Texas and vacationing probably in East Texas piney woods. Unless needed at his brother's bedside in Waco, he will probably then be back in Tahoka for keeps. His brother, 79 years of age, is now slowly recovering from a fracture of the hip sus-

tained on January 6 of this year when he slipped and fell on icy streets. All together, the senior editor has spent sixteen weeks down there since the first of March, which accounts for the fact that ODDS & ENDS have had so much to say about Central Texas. Next Sunday afternoon, the senior editor expects to attend the regular annual meeting of former Bell County residents in MacKenzie State Park, Lubbock, and invites other former Bell county residents to meet him there. Lubbock Votes To Remain Dry

In the hotly-contested wet-dry election throughout Lubbock county last Saturday, the county voted to remain dry by a vote of 9,863 dry against a vote of 5,376 wet. The City of Lubbock itself voted dry by a vote of 7,145 to 4,314. The rest of the county voted dry by a vote of 2,718 to 1,062. Of the 17 voting precincts in the city, only two gave wet majorities. Precinct No. 1 containing most of the Negro population of the city and heading up at the court house voted wet by the overwhelming majority of 470 to 198. Precinct No. 3, which also heads up at the court house and extends back northwestward, gave a slight wet lead of 381 to 324. All the other 15 precincts in the city voted dry, some of them by very heavy majorities. Outstanding among these were the Dupre, 248 wet to 739 dry; the Wilson precinct, 258 wet to 731 dry; the Bean precinct, 241 wet to 521 dry; and the Senior High School precinct, 169 wet to 444 dry. Some others rolled up dry majorities of almost 2 to 1. All of the remaining 16 precincts in the county voted dry except Posey, where there was a tie vote, 35 to 35. The Lubbock Morning Avalanche, in publishing

the first returns of the election, inadvertently got the figures reversed for Estacado and for Wolf-forth. Estacado voted 23 dry and 4 wet, and Wolf-forth voted 147 dry and 62 wet, instead of the reverse of these figures as published by the Avalanche. All four of the Slaton precincts are included in these 16, and all of them voted dry, the total vote there being 638 wet to 1,146 dry. The last local option election in Lubbock county preceding this was held in October, 1946. The proposal at that time was to legalize the sale of beer containing not more than 4 per cent of alcohol. The vote on that occasion was 4,040 for beer and 7,989 against it.

A capacity crowd of 25,000 recently attended a concert by the Texas Tech Glee club at the Lion's club international convention at Chicago.

by Laylan McMahan. J. F. Maxey of Garza county pronounced the invocation, and President A. M. Bray of the Tahoka Chamber of Commerce gave the welcoming address.

Elmo Osborne of Austin, manager Texas Power Reserve Cooperative, spoke on State cooperative activities.

The business session was presided over by John Heck of Wilson, president of Lyntegar since its inception, and G. Q. Hensley of Draw was on duty as the secretary.

Reports made by the President and Secretary indicate that the co-operative is constantly growing and is meeting all obligations, including repayment of loans from the REA.

Lyntegar was serving 6,392 members when the books were closed on December 31, 1949, a gain of 975 during the year 1949. In 1940, there were only 1,602 members.

Miles of line have been increased from 660 in 1940 to 2,900 in 1949.

Gross operating revenue during the 1940-1949 period has risen from \$44,320 to \$370,286. Annual net revenue has risen from \$8,436 to \$71,804.

The cooperative has total assets of \$3,653,418.54. It has borrowed a total of \$2,627,906.74 from the REA, of which it has paid back \$378,055.47. Of this latter figure, \$200,000.00 represents advance payments made that were not yet due. It still owes \$2,249,851.27.

Following the program Tuesday, prizes were awarded, with J. Archer of Dawson county drawing the master prize, an electric range.

Other prizes won were as follows: C. G. Ingle, C. A. Myer, O. K. Oliver, C. E. Campbell, V. W. Andrews, G. C. Aten, all getting clocks; Earl Houx of Sundown, a radio; Vernon Whitaker, W. L. Balch, W. J. Moss, O. E. Warren, electric irons; G. E.

NEW COACH . . .

(Cont'd. from front page)

the couple has one child, Bob, age six months.

This summer he has been in T. C. U. doing graduate work, and last week he attended the State Coaching School in Austin.

He succeeds Coach Jim Foust here, Mr. Foust having retired from the local position to become High School principal.

Associated with Mr. Turner in the local physical education pro-

gram will be Coach Jake Jacobs and Coach Tom Bartley.

Jacobs, who has been here three years, is the basketball coach. This summer he did graduate work the first semester at Greeley State, Colorado, and this semester is attending Texas Tech. He is a graduate of West Texas State, where he was basketball captain in his Senior year.

Bartley, whose wife already was a member of the Tahoka faculty, several weeks ago was named Junior High coach to succeed Wayne Pipes, who resigned to go to Post.

Coach Bartley is a spring graduate of East Texas State at Commerce. He graduated from high school at Ladonia, following which he attended Paris Junior College and Austin College two years each, playing football at each school.

mud was recovered on a drill-stem test at 5,951 to 5,996, considerably short of the Canyon reef pay horizon of the discovery well. Operator deepened to 6,080 feet, the report said, and was preparing to run another test in the lime and sand.

Three miles south of the discovery, the MPC Corporation of Levelland No. 1 Garza was reported to be making hole, but The News was unable to get a report on the depth. The test is in the extreme southeast corner of the county.

Several other tests, not in this county, have been announced recently that are of interest to people in Lynn County.

A location was staked and the derrick was being erected this week for a 9,500-foot test 3 1/2 miles west and a mile south of O'Donnell, just over the line in Dawson county on the Mrs. M. Smith farm.

British American Oil Producing Co. has announced location of a 9,000 foot test, the No. 1 W. T. Shockley, section 5, block 1, E. A. Gleghorn survey, in the extreme northwest corner of Borden

county, seven and one-half miles north and slightly west of the one-well Borden Ellenburger pool, and about the same distance southwest of the Lynn County Magnolia discovery in the field now officially designated as the "O'Donnell Field," three miles east of Draw.

heaviest infestation in the New Lynn, Grassland, Edith and Bethel Church communities.

Heaviest bollworm infestation reported so far is around Wells, where some damage has been done.

Lice are reported from all over the county, but damage is being done only in isolated cases, principally where cotton had previously received hail damages.

A new poison, parathion, is being used by some farmers in the county this year. Mr. Griffin warns that farmers should be very cautious in handling this poison since it is a very dangerous threat to the health of humans.

With favorable weather, however, it is believed that farmers will be able to keep the worms under control.

Mr. Gray moved with his family to Iowa Park, Texas, in 1901, and they moved on to Lynn county in October, 1915. He lived on his farm in the Joe Stokes community until 1943, when he retired from farming and he and Mrs. Gray moved in to Tahoka, where he had bought a home. He was a member of the Church of Christ.

He had a great host of friends in Tahoka and over Lynn county and the South Plains.

1-A Registrants Should Report Status Changes

AUSTIN, Aug. 4.—Young men of draft age with a change of status which might defer them got a warning this week to report the change or lose their deferment right.

Brig. Gen. Paul L. Wakefield, state Selective Service director, said failure of men classified as 1A to report changes as status was jeopardizing Texas' filling its 2,513 men September quota.

Many of the men ordered up for physical examinations are now married. If they had notified local boards promptly they would not have been ordered up for physical examinations.

General Wakefield said Selective Service wants to be "reasonable about this situation." But he gave this stern warning:

"We just want to point out that it is not mandatory under the law that married men be re-classified into IIIA under such circumstances.

"Such men who fail to report change of status, such as marriage or a change of address, are eligible to be declared delinquent for failing to comply with the law. A delinquent can be inducted immediately ahead of all others.

Portales, N. M., and Bill of Wilson; four daughters, Mrs. Elsie Case of Syracuse, N. Y., Mrs. Wayman (Alice) Smith of New Home, Mrs. Jessie Fee of Wichita Falls, and Mrs. Arlie (Goldie) McNeely of Tahoka; 24 grandchildren, and eight great grandchildren.

New Home Schols To Open Sept. 4

September 4 has been set as the opening date of the New Home schools, according to James F. Vaughn, superintendent.

The buildings and grounds are now being put in readiness for the opening, and the faculty is being completed.

Mr. and Mrs. W. O. Thomas left Wednesday for the Uvalde area, where they expect to fish a few days.

ers under this law, and if we are forced to do so in order to meet our calls, we will comply with the law to the letter."

It is the individual duty of registrants to notify in writing their local boards of changes of status, General Wakefield pointed out.

Every man and every woman
who is qualified to vote and is
sufficiently interested to vote,
goes to the polls and marks his
or her ballot just as he or she
may choose, and it is dropped in
to the box and counted just as
it is marked. There may be rare ex
ceptions now and then but that
is the general rule—so general

that the announced result is not
often questioned.

There is no rioting, no com
pulsion, no excitement, no com
pelling places, and after casting
his or her ballot deliberately and
quietly each voter returns to his
home, his farm, his shop, his
office, or his place of business,
or congregates with others on
the street corners or elsewhere
to hear the election returns as
they begin to come in. Even at
these gatherings there is rarely
ever so much as a fist fight re
sulting from political differences
or dissatisfaction on the part of
voters. The voters almost unani
mously accept the results with

pleasure or with quiet resignation
to the will of the people as ex
pressed at the ballot boxes. This
is the American way and the well
nigh universal rule in this coun
try. It is only when there is
strong evidence of fraud that the
people express dissatisfaction and
demand an investigation or a re
count. The people are strong for
the preservation of fair elections
and a fair count.

That is the reason why we be
lieve that neither communism
nor any other form of totalitarian
ism will ever become popular in
this country, not, at least, dur
ing the lifetime of any of us now
living. The worst that the com
munists can do is to indulge in
espionage and furnish information
to the enemies of our country or
to engage in sabotage here and
there whenever war comes or
threatens to come to our shores.
The more either of these prac
tices is indulged in by these
treacherous scoundrels, the more
watchful and the more intolerant
of their activities will all patri
otic Americans become, and the
more surely impossible will it be
for them to overturn our govern
ment: by force or violence. We
have full confidence in the abili
ty of the American people to per
petuate a democratic form of
government and the American

versive assaults. We can not for
a moment believe that the Ameri
can people, armed with a free
ballot, will voluntarily surrender
their long-cherished freedoms to
any system of government or any
school of thought that would en
slave them or make them vassals
of any autocrat, political or re
ligious.

Of course, democracy in action
has its weaknesses. One of these
is lack of information on the part
of the voters respecting the can
didates whose names appear on
the ballot. The voters are fairly
well informed usually respecting
the leading candidates for the ma
jor offices; but usually they are
only meagerly informed respect
ing the candidates for the second
ary or minor state offices. Thou
sands of the voters in Texas com
ing to the polls each biennium know
ing practically nothing respecting
many of the candidates. They
have heard little about them and
consequently know little about
them. In a state as large as Tex
as, it is practically impossible
for many of the ablest and best
qualified men to get their candi
dacies adequately before the pub
lic. Paid publicity costs a lot of
money, and if the candidate is
not unusually well-to-do he must
get the financial backing of some
wealthy man or some of the fi
nancial interests, otherwise he
will scarcely black the board on
election day.

This makes it practically im
possible for a poor man to win a
state office without making pre
election commitments to some big
financial or commercial interest.
Yet, not only should the able
man of small means have a fair
opportunity to present his claims
to the people, but the people
themselves, it would seem, have
a right to find out something as
to the qualifications and the fit
ness of all the candidates.

To meet this situation, it has
been suggested occasionally that

the State should pay for a certain
amount of truthful publicity for
each candidate for a state office,
hedged about, of course by certain
conditions and requirements. All
such publicity should show that
it is being paid for by the state
and should be limited to a cer
tain fixed amount; all other paid
publicity respecting any candidate
should show who is paying the
bill.

By some such method, every
voter would have the opportunity
to inform himself in some meas

ure respecting every state candi
date and his vote would therefore
be more intelligent and not mere
ly a matter of guess-work.

Another guaranty against the
encroachments of any foreign
ideology or "ism" is to be found
in the ever-watchfulness of our
people to maintain unimpaired
the freedoms set forth in the Bill
of Rights in our Federal Consti
tution: Freedom of speech, free

First of the Fine Cars in Value

YOU can see this man has made
his mark in life, and while his
heart's still young.

You can tell he likes action for his
money—that he knows a fine car
needn't be the most expensive to
give the greatest value.

Yes, such are the things you know
of any man, when you note that
his car is a ROADMASTER.

Follow him on his spirited way
as he pilots this lively motorcar
through traffic. Even the light
weights are no match for this
road-steady husky—not with the
152-horsepower straight-eight
Fireball engine that purrs be
neath its bonnet.

Maneuver beside him at the next
stop light. Then just try to get
away as smoothly, swiftly and
silently as Dynaflo Drive gets
his ROADMASTER going—and
keeps it rolling without shifting,
even automatically.

But don't waste time merely en
joying the man in this great car!
Why not emulate him?

With all its outside room, interior
luxury and exterior grace—with
all its front-rank prestige, rare
performance and matchless ride—
a ROADMASTER can be yours for
less than some smaller cars cost.

In fact, even if you had a fortune
to spend, you couldn't make a
more fortunate buy in the fine-car
field.

So we suggest you try a few
minutes behind the wheel. We're
confident they will convince you
that ROADMASTER has everything
you could ever ask for in any
motorcar—although your Buick
dealer asks a good bit less for
ROADMASTER than you might pay
for other top-line cars.

ligious worship, freedom of assembly and petition; and furthermore the rigid separation of church and state.

Now, we believe that we should be alert along another line. That pertains to the proper education and training of our youth.

All of us remember how Hitler made the German masses solid for Nazism, or Hitlerism, by taking charge of the German schools and teaching the infamous doctrine to the children from the first grade on up. In a dozen years, he had all the children, all the youth, and well nigh all the grown-ups of Germany goose-stepping, marching, flashing their guns, bragging on their power, and yelling wildly at every suggestion that their destiny was to control the world.

Now, Russia is doing a similar thing. She has trained the major portion of her youth to believe

that their only salvation lies in the promotion and spread of Communism; that the individual is nothing; that there is no God except Stalin and the other autocrats of the Kremlin; and that Uncle Sam is the chief of all devils and must be destroyed. And that's why our soldiers are fighting against Communist-crazed Koreans next door to Japan today.

Now what is the thing we need to do? We need to be teaching the virtues of liberty and democracy in our public schools today, from the first grade on up, and especially in the higher grades. We need to be teaching it in our State University and in every State College in Texas. We need to be teaching it in every denominational school in our state. And what applies to Texas applies to every other state in this Union.

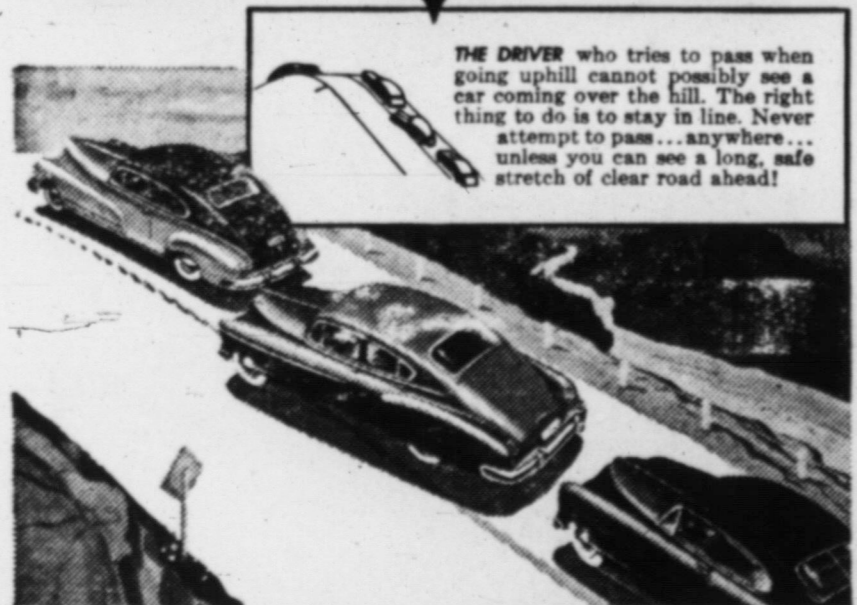

And we need to be teaching also the fallacies and the evils inherent in Communism and

every other form of totalitarianism flouting their hateful and diabolical flags over people everywhere whom they have subjugated and enslaved.

There can be no compromise; there can be no quarter. These hateful "isms" have already begun the fight, and it is a fight to the death of one ideology or the other.

It is a fight of Autocracy against Democracy; of Communism against the Rights of Man; of Atheism against Christianity; of Barbarity against Civilization itself.

It is needful that our children should know this. We should teach it to them in our schools, in our homes, in our churches.

And believing that God is still on his throne, we believe that the forces of Right are going finally to prevail.

Now another word. While we believe that complete separation of Church and State should be maintained and perpetuated in this country, we do believe also that this is the time of all times when we should be careful to elect to public office in state and nation men of the highest Christian character. It takes a strong character to stand up under the temptation and the strain.

David was a man after God's own heart and yet the king business came very near ruining him. Solomon started out in a fine way with God's blessings upon him, and he soon gained the reputation of being the wisest man that ever lived, but he indulged in much national extravagance and certainly made a mess of his domestic affairs.

Yet, as a whole, David was a great and a good man, and among the numerous other fine things that he wrote, he penned this truth that the ruler of every nation even today should read daily and ponder: "Happy is that nation whose God is the Lord."

And his son Solomon, although his personal conduct seems to have been open to much criticism, yet in one of his more serious moods he wrote this immortal truth that our President, every Cabinet member, every Senator, every Representative, and every person in official position in Washington should peruse daily: "Righteousness exalteth a nation, but sin is a reproach to any people."

Just the other day I asked a friend why his former Congressman, whom I will not name here, had voluntarily retired after serving two or three terms in Congress. He said that the Congress-

man, who was his fellow-townsmen and friend, told him that it was because he could not play the hypocrite; he could not go out and drink with his fellow Congressmen and their friends on Saturday night and then go to Sunday School and Church on Sunday morning as it was his custom to do at home. Yet he could not be influential or even popular with his fellow-Congressmen without going the gaits with them during the week. So, he decided to quit the drive at the end of that term and did so.

We need more leaders in Washington and throughout the country who, like Caesar's wife, must and do keep themselves above suspicion with respect to their
