It's Fun To Be A Cub Scout

Cub Scouting is a home-centered program of boy-activity, boy-achievement, boy-health, and boy-helpfulness developed through much scientific research and testing by the Boy Scouts of America. The Minor League, in which developed especially for parents of eight, nine, and ten year old boys to use with and for their sons. In Cub Scouting the whole family, mother, dad, and Jimmy, has a chance to enjoy things together in the home. It's the way a family is meant to operate.

The Cub Scout learns to respect God, his country, his home, and his fellow men. The ideals and activities of Cub Scouting contribute in the best possible way toward the fullest appreciation of American citizenship.

Cub Scouting helps parents answer that eternal question: "What can I do now?" posed by every youngster. Too, it provides opportunities for dads and sons to do things together. It's the aim of Cub Scouting to help the parents help the boy.

DRILLING STATISTICS

Eight drilling permits were issued in March in Bailey County by the High Plains Underground Water Conservation District, and there was one new well drilled. Three re-placement wells were drilled

Twenty-five hundred persons in Bailey County are qualified to cast a ballot Saturday (provided they're Democrats) and everybody is hoping for a 100 per cent turnout of the electorate.

Seems trite to mention it, but Mr. Average hasn't always been permitted to vote or even to have an opinion; and it is only in the recent history of mankind that a vote of the people was even dreamed of. In some of the dark corners of the world, Mr. Average has no say whatsoever about who runs the country and how; if permitted to vote, and he isn't everywhere, the election results may be rigged.

Here in America, we can vote and our vote counts as much as the one vote of Mr. Big. So, it may be trite, but it still seems appropriate to urge everyone who has a vote to exercise the privilege.

Electing A President

Some fail to remember that in the precinct conventions to be held after the voting ceases Saturday in each voting precinct of the county, the voters will begin the long route to nominating a candidate for President of the United States. As the precincts go, so goes the county, the state, and perhaps the nation.

The Journal editor has queried many about the delegates that will go from the precinct to the county convention a week later, at 2:30 p.m., in the courthouse here. He is certain that delegates favorable to Lyndon Johnson will go from the precincts to the county meeting, and that Johnson delegates will represent Bailey County at the state convention.

No opposition to this course of events is foreseen by The Journal's political advisers, but if any develops it will be met.

King And Queen Are Crowned At Banquet
by Kay Wilson

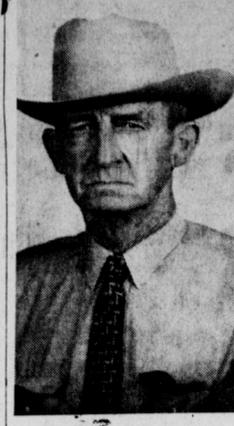

Junior and seniors at Mardi Gras, the Junior-Senior Banquet, became loyal subjects of King Tommy Thomson and Queen Sharon Evans, April 30. Tommy and Sharon, both seniors at MHS, were selected by the junior class to be the king and queen of the annual Junior-Senior Banquet. Lynda Gillis and Derrell Lancaster crowned Tommy and Sharon in behalf of the Junior class. This gala celebration was held at Leigon's Cafe. The banquet was elaborately decorated by Muleshoe Floral, just like the real Mardi Gras in New Orleans. The walls of the banquet hall were decorated to exemplify a typical street in downtown New Orleans during the Mardi Gras season. The ceiling was decorated with balloons, large brilliantly colored fans, huge purple carriage

lanterns, and smaller lanterns of various colors. Serpentine confetti draped from the ceiling covered every vacant space. The banquet tables were decorated with festive keepsakes, such as carnival horns, serpentine confetti, and programs of glittered lace French masks. The head table was accented with beautiful arrangements of orange and yellow flowers. The servers for the banquet were sophomore girls, selected by the junior class. These girls were costumed as typical masquedancers in the Mardi Gras parade. The program began with the invocation by Rodney Blackwood. Todd Wilt, junior class president, welcomed everyone to the annual Junior-Senior Banquet and Lynda Black, senior class president, gave the response. Next Pat Brown entertained by singing "Some Enchanted Evening", accompanied by Coraly Hicks on the piano. Dr. Leon Hill, Baptist preacher from Amarillo, was the speaker for the night. Members of both classes stood to close the banquet by singing "Auld Lang Syne", led by Jean Gray. After the banquet, at the Muleshoe Country Club, the Senior class mothers were hostesses to a party for everyone attending the banquet. The Country Club was decorated with black graduation caps, glittered pennants for the juniors and seniors, and large silhouettes of a girl and boy in graduation caps and gowns.

Modern crop dryers, such as the Model 750 from New Holland Machine Company, above, dry fast and evenly to provide quality hay so important in beef and dairy production.

Ike Stinson In Statement To Precinct Voters

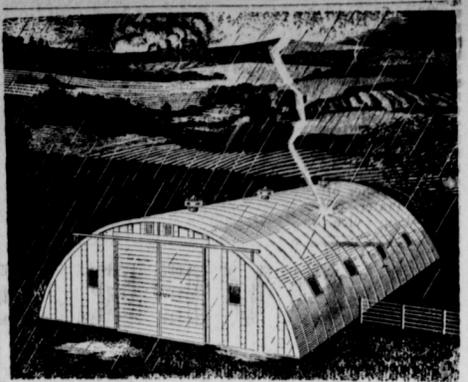

I. M. STINSON

I. M. (Ike) Stinson, a candidate for Commissioner, Prec. 1, Bailey County, subject to the Democratic Party Primary May 7, has issued the following statement to the voters: I am taking this opportunity to solicit the vote and influence of anyone whom I might have failed to contact in my house to house canvass for Commissioner of Prec. 1, Bailey County.

I want to remind you also of the privilege every American enjoys, but does not always exercise—the right to cast his ballot for the candidate of his choice. If every man and woman would pause for one moment and think what this privilege means to them and their way of life, there would be a 100 per cent turnout at the polls May 7, 1960. Let's make it just that.

The safest place in a lightning storm is your LOK-RIB Building

You enjoy peace of mind in stormy weather when you own a LOK-RIB Steel Building. It's all steel—it won't burn—and if lightning strikes, the easily grounded steel panels dissipate the charge. The extra strength of LOK-RIB's exclusive V-rib design gives you that same safe feeling when winds are high. The factory-engineered, mass-produced LOK-RIB Steel Building goes up easier and faster. There are no high framing costs. Every part is pre-punched and matched to fit. Four widths—24, 32, 40, and 48 feet. Call us for an estimate today.

Calvert Is Only Candidate With Court Experience

One of the important races to be decided in Saturday's election will be for Chief Justice of the Texas Supreme Court. Associate Justice Robert W. Calvert of Hill County is one of the two candidates for this position. Judge Calvert has been on the Supreme Court since 1950, and is the only member of the court who is a candidate to succeed the present chief justice, who is retiring, and is the only candidate for chief justice with Supreme Court experience. "Judge Calvert has served with great distinction as associate justice for almost ten years," Gaynor Kendall of Austin, state campaign manager, said. "He therefore knows from actual experience the additional administrative duties which he must assume as chief justice, and he has demonstrated by his service with the other judges his ability to furnish the leadership the court requires."

Tips on Touring

By Carol Lane Women's Travel Authority

Plan A Picnic
Next time you plan a picnic, don't settle for the usual fare of sandwiches and soda pop. Make the meal a feast—and without any fuss or bother in the kitchen beforehand.

It's easy. The secret is to pick foods from your grocer's shelves or frozen food lockers that can be tucked right into the picnic basket and savored when you arrive at your open-air dining room.

Start your feast with a frozen shrimp cocktail packed in its own tasty sauce. Frozen chicken à la king or beef stew can be heated over a fire or on an outdoor grill. Or, canned cold meats such as ham, tongue or chicken can be opened and sliced so that everyone can have his choice.

Although the frozen foods defrost en route, you can buy a canner chemical freeze that'll keep them cold for hours.

Mark '60 "Living" Luxury Styling Conceals Home's Modest Cos

Selected by Living for Young Homemakers magazine as a house that sets the pace for better homebuilding performance, this version of the Scholz Mark '60 hides modest cost behind pioneering luxury features. It's designed in two models.

In the Deluxe version, a living-dining-family-room-kitchen center is grouped around a service core containing heating and laundry and around the periphery of this "living center" are wrapped a quiet formal entertainment and dining patio; plus a family-living patio with luxurious pool; a three-bedroom wing with luxurious master suite; and integrated garage that can be located to fit lot width requirements.

The Custom model retains in their entirety many of the deluxe features and appointments—like optional Oriental escutcheons on the Sargeant locks, and Virden lighting in Oriental motif. In effect, other features are carefully scaled down to reduce costs while keeping maximum livability.

All of the ideas, elevation views, floor plans, the design, appointments and better-living features of the Mark '60 Living house are included in a new four-color Design Collection book, available for \$1, or write for free information to Don Scholz Design Associates, Dept. 118, 2001 North Westwood, Toledo 7, Ohio.

Dee Clements In Statement On Sheriff's Race

I wish to take this means to thank each and every one of you in the County for the help and support you have given me for the past 3½ years as your Sheriff. Realizing without the help and support of the citizens of the County we would have a hard time enforcing the law.

Due to the carrying on the duties of my job, I have been unable to contact many of you, so I hope you will take this as a personal plea for your vote. To all of you voters, I sincerely hope that you will go to the polls Saturday and cast your vote for Dee Clements, for another term as your Sheriff, and if re-elected, I shall continue to give you the best that is within me; keeping in mind that not only has a Sheriff the duty of enforcing the law, keeping the peace, but also the duty of trying to help our young people back to the right path, when they have gone astray.

I sincerely thank each and every one of you for the support in the last election and solicit your vote for reelection. When you go to the polls Saturday, May 7, vote for Dee Clements for Sheriff, of Bailey County.

Bill Jim St. Clair

Candidate for Commissioner, Precinct 1

In the May 7 Democratic Primary Election, issued this Statement to the Voters this Week:

"As the campaign draws to a close I just want to remind the voters of this precinct that I have not bothered anyone at their places of business or at their homes, begging for their vote, due to the fact that I have lived in this precinct all my life and feel that I am acquainted with everyone personally within the district.

"I sincerely hope you will cast your vote for me for Commissioner of Precinct 1 in the election Saturday. But if you do not feel you can vote for me, I hope you will vote, casting your ballot for the

candidate of your choice.

"I am 30 years of age, married and have four children. I am presently farming, but was raised in business and turned to farming several years ago.

"I plan to live in this precinct the remainder of my life, regardless of whether I am elected your Commissioner or not, and hope I may call all of you friends regardless of the outcome of the election."

BACK JACK COX FOR GOVERNOR!

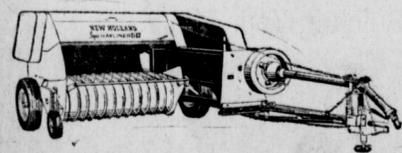

WHAT COX STANDS FOR:

- LIMITATION OF THE GOVERNOR'S TERM IN OFFICE**
Jack Cox advocates a State Constitutional amendment which would limit a Governor's term of office to two 2-year terms as he believes the writers of our Constitution intended.
- THE PROTECTION OF FARMERS TAX REFUND**
Farmers should not be asked to "donate" one fourth of their gasoline tax refund from fuel used for farm tractors and agricultural machinery. Cox states that this is an obvious flagrant discrimination against one particular group of taxpayers.
- ADHERENCE TO STATE CONSTITUTION**
Jack Cox will act to get Texas out of debt and keep our State on a sound pay-as-you-go basis in accordance with the State Constitution.
- UTILIZATION OF UNTAPPED TALENT AND ABILITY**
There are many jobs Texas senior citizens are capable and qualified to perform that would benefit them and in turn keep them off the State Welfare rolls.
- 2% EDUCATIONAL TAX...**
with reasonable exemptions for such items as food and medicine. A few pennies a day will guarantee our children the kind of education they deserve.

Read Colossians 3:12-17
Put on then, as God's chosen ones, holy and beloved, compassion, kindness, lowliness, meekness, and patience, forbearing one another and, if one has a complaint against

another, forgiving each other. (Colossians 3:12, 13. RSV.)

During "Family Week" a mother and father lost the only happiness they possessed—their daughter, seventeen years old. The parents did not live harmoniously, and in the home there was no peace or security of love. The daughter took her own life.

What a difference it would

have made if the parents had dedicated themselves to Christ and lived harmoniously! What a difference if this daughter had been encouraged in the home to love God and had experienced the many benefits of daily family worship!

As in that home, in many other homes parents are guilty of the moral, intellectual, and spiritual defeat of their sons and daughters. Great is the responsibility of parents and of supreme importance their example to their children. A home where God is revered and daily worshipped does not have room for serious conflicts and deep-rooted misunderstandings.

PRAYER: Eternal Father, help us as we try to make our home a house of prayer and worship. Help us as we worship there, that we may receive power to overcome evil and to do good. We ask in Christ's name. Amen.

THOUGHT FOR THE DAY
A home where God is revered does not have room to harbor conflicts and misunderstandings.

LONE STAR AGRICULTURE

MIXED-QUALITY COTTON BALE LOSSES

Well in advance of the beginning of another ginning season, it might be well for Texas cotton growers to consider and remember the results of a recent study on money losses resulting from mixed-quality cotton bales.

The study was made by the Agricultural Marketing Service of the U. S. Department of Agriculture, and showed that in a single season cotton farmers lost an estimated \$2,400,000 because of mixed quality bales.

The AMS found the situation basically to be this: When cotton is sampled for grading, a small amount of lint is taken from each side of the bale, and both parts are classed. If the quality is different on the two sides, the farmer is paid on the basis of the lower quality—even though most of the bale may be higher.

Cotton shippers also lost money in payments to warehousemen for special handling of the mixed bales. Some warehouses reopened the bales, resampled, and rebaled them with the low-quality lint removed. Usually, the benefits were not enough to defray the costs.

The AMS reported that most frequently it is the ginners who get the blame for mixed bales because they often combine cotton from two different growers, but the study showed actually that it is the farmer who is most often responsible. It was found that 61 per cent of the mixed-quality bales was brought to the gins as mixed seed cotton, with only 39 per cent being mixed by the gins.

The problem of mixed-quality cotton, of course, can never be entirely eliminated because it is impossible for farmers always to bring in loads with the same quality of cotton throughout. Weather causes certain differences, and cotton from two different fields may have to be combined to make up a load.

However, the AMS made two principal suggestions: First, farmers can be more careful to reduce mixing cotton of different qualities, and, second, ginners in starting anew bales should see to it that their presses are not turned before all of the cotton from one farmer's load has been baled.

During one recent season, it was estimated that nearly half a million bales of cotton were of mixed quality. About 70 per cent of these came from Texas, Oklahoma and Arkansas, where only 37 per cent of the year's production was ginned. All other states showed considerably less than the national average of mixed-quality bales, which amounted to only 3.4 per cent of total gin-ning.

Parmer County Farm Bureau News

100 tons of Texas sugar beets were sold through the Port of Rotterdam, Holland where Farm Bureau maintains a Foreign Trade Office. The beets were to be shipped to France. This is just one of many export transactions completed through the efforts of this office, established by AF-BF about a year ago. One out of eight U. S. Harvested acres were produced for export in 1959. You can see from this figure that a continued improvement of our export program is important to you and every other American.

Beets again: We just read a report stating that the Director of the AFBF Rotterdam office recently wired the Texas citrus and vegetable growers of Harlingen in regard to an additional 100 tons of sugar beets for the United Kingdom and France.

Labor Secretary Mitchell said last month that a minimum wage for hired farm workers is both feasible and desirable. He stated that it would apply to large farm op-

erators only and would not apply to the small "family farmer."

But we believe you should consider the difficulty of hiring a man to work on a "family farm" for \$1.00 per hour or less when his friends, cross the fence are, because of a federal law, being paid \$1.25 per hour for the same type work on a large farm. Farm Bureau is, and always has been opposed to the extension of minimum wage laws to agricultural areas.

A tip to high school students: "Two thirds of all alcoholics began their drinking habits in high school days." (Quoted from the Yale School of Alcohol Studies.)

Is speed the principal killer on our highways? Paul Kearney, in May Popular Science says "No." Many authorities disagree with him, but he points out many interesting facts on the subject. The U. S. Bureau of Public Roads reported in Congress last year that there were fewer traffic deaths reported at speeds of approximately 65 mph than speeds below 65 (or above).

Farm Bureau was successful just a few years ago in getting Texas legislation setting pickup speed limits up to the same rate as passenger cars. Drinking drivers appar-

ently account for more fatal accidents than are generally reported. For instance, in Texas drunk driving is not reported when the DWI is killed in the wreck.

CONSIDER THIS: Be not wise in thine own eyes; fear the Lord, and depart from evil. Proverbs 3:7.

CHRISTIAN SCIENCE SERVICE

Ability to resist and overcome temptation is available to all mankind today. This is the theme of the Lesson-Sermon entitled "Adam and Fallen Man" which will be heard Sunday at Christian Science services.

The stirring account in Matthew (ch. 4) of how Christ Jesus met and mastered temptation will be featured in the Bible readings.

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include this (393:12): "Rise in the strength of Spirit to resist all that is unlike good. God has made man capable of this, and nothing can vitiate the ability and power divinely bestowed on man."

The Golden Text is from Matthew (26:41): "Watch and pray, that ye enter not into temptation."

Fewer College Trained Teachers in Texas Grade Schools Noted

AUSTIN—In five years, Texas has dropped from second to fifth place in the percentage of college trained teachers in its elementary schools, latest national rankings show.

Oklahoma now leads the nation with 99.6 of its elementary teachers having four or more years of college. Arizona, Florida, and New Mexico also lead Texas, which is fifth with 95.6 per cent.

Both the border states of Oklahoma and New Mexico, as well as nearby Arizona, have higher average teacher salaries than Texas.

In 1953-54 Texas was second. At that time, Arizona was first and Oklahoma was down in seventh position.

By 1958-59, the latest figures available, Oklahoma had vaulted to first place on the strength of higher requirements and better salaries. Only 80 of Oklahoma's 21,400 teachers do not have at least a bachelor's degree.

In Texas, records of the Texas Education Agency reveal that 1,772 out of the 82,088 total public school personnel did not have a college diploma in 1958-59. The majority of those were in the grades one through eight, where 1,509 teachers out of 49,828 failed to have degrees.

National rankings deal only with elementary teachers and with those having four or more years of college preparation, irrespective of degrees.

Did You Know

By Susan Birdsong

Seven C saw two programs last week in the high school auditorium. A very talented comedian from Norway entertained us by playing the piano, violin, and guitar. He also sang and could make any number of noises with his mouth. Everyone liked him so much, they practically tore the house down with their clapping and cheering.

Also the A Capella Choir from Wayland College came on Thursday and sang for us. They dressed in the costume of different countries and walked down the aisles while a man called out the country each person represented.

Mrs. McSpadden had a program for the P-TA last Monday. She decided she would have seventh graders in our class do the program. Zela Boles, who isn't in our class, Mike Sanders, Mike Pite, Beckye Mason, Rebecca Camp, Sherry Billingsley, Donna Phipps, Shirley Richards, Johnny Dalton, Judy Bell, Tonye Welch, and David Luna all made speeches about what had happened in P. T. A. this year.

On Tuesday 7-C didn't have us left when school was put band because the high school After this week is over, they or contests. They practiced will be only two more weeks to listen to them, but most of of school, and when they are to love, "Gangway!"

Do not let a minority group take the right to vote or judges away from the people.

Judges are elected by your vote so that the people may control the development of the law.

Some politicians and a few lawyers are proposing that judges ought to be appointed. I am opposed to such a proposition.

The people know as well as lawyers if a candidate is qualified to be a judge.

My finance is too limited to do a lot of advertising in this campaign. However, advertising does not add to a candidate's qualification.

I often wonder where so much money comes from in expensive campaigns for public office.

When I am elected I will be obligated only to the people as a whole.

NEW TROP-ARTIC
offers you what no motor oil ever could before

New Trop-Artic brings to the aid of your motor a new lubricating formula that cleans, protects, and preserves smooth performance under the most severe engine tests for automobile oil.

The secret of Trop-Artic's exceptional performance is a revolutionary super-cleaning element called PDA, made only by Phillips Petroleum Company. In hundreds of thousands of miles of testing, typical car owners reported these important benefits from new Trop-Artic with PDA:

- Less oil consumption
- Less engine knocking
- Less mis-firing
- More miles per gallon of gasoline
- Cleaner oil filters

Change to new Trop-Artic Motor Oil and see if you don't notice these improvements in the performance of your car!

NEW FLITE-FUEL
the new gasoline that gives you the "Sweetest Rhythm on the Road!"

Today, discover a new concept of motor fuel performance. Test drive a tankful of new Flite-Fuel, the gasoline with "the sweetest rhythm on the road."

New Flite-Fuel is a blend of super-high performance components perfectly matched to the natural rhythm of today's high compression motors. It vaporizes quickly... fires with split-second accuracy... delivers a mighty thrust of power without roughness or ping. It can quiet your motor as it increases your car's power and responsiveness.

You'll really like driving with new Flite-Fuel. Fill up at any station where you see the Phillips 66 Shield.

Enjoy "the Sweetest Rhythm on the Road!"
