Bailey Co. Cotton Begins To Trickle In

Bailey County's cotton harvest is slowly gathering momentum and it is expected that the gins will be running full tilt very soon. According to County Agent J. K. Adair the harvest was about 15% through on Tuesday afternoon. Muleshoe gins have reported 4,399 bales at that time.

Dryland farmers in the southern part of Bailey County are quite well satisfied on the whole with this year's crop. Moisture was right and the crops good.

Farmers who irrigate are a little less pleased with this year's cotton crop especially in the areas most heavily hit by hail earlier this year. Much cotton was set back either by hail or disease resulting in a second growth. The set back re-

sulted in conditions similar to a late planting therefore freeze losses were comparable to a mid-October freeze.

W. T. Miller who has a farm in the area hit by bad weather earlier said he made a bale and a quarter an acre last year but he would jump and shout if he made a bale this year. This seems to be indicative of farmers in that area. Farmers in the northern areas are just beginning to get their crop in, according to the local gins, while most of the cotton reported so far has been brought in from the western and southern parts of the county.

Samples of the hard hit cotton have proved to be of fair quality and a lot better than it was thought they would be earlier in the year.

TSTA Members Hear Galyean

"We need to check up on what we're doing, check up on ourselves," said E. L. Galyean, State Representative of the Texas State Teachers Association, at a TSTA Charter presentation banquet held last Thursday evening at Richland Hills School. Galyean praised the Muleshoe school system, teachers, and board as well as the community itself. He does not, however, feel that education is nearly as good as it should be or could be in the state as a whole. A great deal of effort must be put forth to improve our schools.

"The most deadly conflict we now face involves no shooting, it is the battle for the minds of men." It is necessary that we win this battle that America might survive and the school is the battleground on which this battle is now being waged.

There are many reasons why we must worry about our schools, according to Galyean. For one thing, the schools are not attracting enough teachers from the colleges nor are they able to hold many teachers of high caliber. There are now in the state 5800 teachers holding special teaching permits because there are not enough qualified teachers. Many of these people only have a high school education and none of them are equipped with the necessary background in psychology and the handling of children.

Galyean presented an outline of the program being presented to the State Legislature this year by the TSTA. The program, which stems from the Hale-Aikin Report, is a comprehensive program presenting improvements in teachers' salary, administration, teachers, facilities, and every other element involved in the schools. Most of all the program is interested in improvement for the student and future teachers.

The program includes proposed teachers pay raises with a minimum of \$4,000 per year for beginning teachers, \$5,000 for teachers with 13 years experience, and \$6,000 for teachers holding a Masters Degree. At the present time Texas rates 32nd among the states in teachers pay and 34th in money spent on education. We rank 44th among the states in State School Tax load per family unit.

"We must strengthen Democracy and the school is the very foundation of our society," says Galyean. "America is in the hands of people. It will be as you will."

WILCY MOORE, Assistant Superintendent of the Union Compress, looks on as workers take samples for grading. The 140 acre grounds are expected to receive 40,000 or 45,000 bales before the season is over. There were approximately 5,000 bales on the grounds Tuesday afternoon.

City To Annex Several Areas

The Muleshoe City Council took the first decisive steps Tuesday afternoon to make use of the Home Rule Charter approved and filed by the Secretary of State, according to Arch March, Muleshoe City Manager.

The annexation ordinance was authorized to be published in this paper this week. The ordinance will be considered by the Council on December 20. The ordinance proposes to annex several areas of the city which are developed but outside its actual boundaries. The area includes the Harvey-Gatlin addition, Pool Addition,

an area across the tracks, an extension on the east side of town, and about a block extension on the south side of town. Exact measurements of the annexation are contained in the Ordinance printed inside this paper and a map will be published next week showing the areas to be included.

A hearing, although not required by law, will be held on Tuesday, November 29, at 2 p.m. in the City Hall. People for or against the ordinance will be heard individually at that time.

Rites Conducted For Mrs. Busby

Funeral services were held for Mrs. Jessie Busby Saturday, Nov. 5 at 3:30 p.m. in the Wheeler Funeral Chapel at Portales, N. M.

Mrs. Busby had been a resident of Fairview community for several years having moved to Portales in 1938. She died in a nursing home in Las Vegas after a prolonged illness.

She was born in Morris Town, Tenn., June 4, 1884. She was married to Alvin Busby May 13, 1906 in Cross Plains. He preceded her in death.

Mrs. Busby is survived by four sons, Milton of Amarillo, Clinton of Muleshoe, L. D. of Los Alamos, N. M., and Earl of Portales, and three daughters, Mrs. Pearl Elmore of Rockford, Ill., Mrs. Ruth Allison of Clovis, and Mrs. Rosie Henderson of Dallas. She is also survived by four sisters, one brother, 25 grandchildren and 30 great grandchildren.

Bond Issues Discussed By C of C Board

The Board of Directors of the Muleshoe Chamber of Commerce met Monday, Nov. 14.

They discussed the proposed widening of Highway 84 and 77. Carroll Pouncey reported that it would be spring 1962 before the Highway Department will consider widening the highways. The cost of the right of way has risen 25% above the original estimated cost. The board therefore concluded that petitions calling for a bond election should be circulated as soon as positive figures could be provided.

It was proposed that the road bond election be combined with an election for a new Court House on a separate ballot. The present Court House has been partially condemned by the State. The jail does not meet minimum requirements set up by the State. This was tabled until more facts could be gathered.

Boundaries of the proposed city annexation were explained to the board.

It was proposed that instead of a man and women of the year the Volunteer Firemen should be named "Men of the Year". A formal announcement will be made at a later date.

Dr. Mary Bubliss To Speak At Joint P-TA Meet

The public is invited to attend a joint meeting of the Muleshoe Parent-Teacher Association on Monday, Nov. 21, at 4:15 p.m. in the Richland Hills School Cafeteria. Dr. Mary Bubliss, Assistant to Dr. Snyderman, of the Plainview Hospital and Clinic, will speak on "Mental Health."

Dr. Bubliss received her BA Degree from Washington University, St. Louis and interned one year in St. Louis City Hospital. Since that time her professional experience has been research for Texas State Health Department in Temple, Texas, consultant for neuropsychiatry to Bell County Health Unit, and also consultant in psychiatry to Scott and White Hospital, staff psychiatrist, Veterans' Administration Hospital and private practice of psychiatry in Temple.

Dr. Bubliss moved to Plainview Sept. 1, 1957, and at present is conducting "Group Therapy" for Parents with Problems and has a part time private practice of psychiatry.

A question and answer discussion period will be held following her speech. Room count will be taken and a nursery will be provided. A hospitality committee from the three units, Mary DeShazo, Richland Hills and Junior High, will serve spiced tea and cookies.

Methodists Hold Weekend Revival

A weekend revival will begin at the Muleshoe Methodist church on Wednesday, Nov. 16. The pastor, Rev. M. Horace Brooks will do his own preaching. Mr. M. D. Shepherd will conduct the singing with Sonja Bass at the organ console. Services each evening at 7, except Saturday.

There will be no Saturday services. You are invited and urged to attend.

Accident Fatal To Muleshoe Man

Odes Alton Pruitt, 33 year old Muleshoe implement dealer, was killed shortly before noon last Sunday in a motor-scooter-car accident.

Pruitt was trying out his son's newly repaired motor scooter on north FM 2079 while his family followed behind in a pickup. According to investigating officer, John Bentley the truck was followed by a station wagon.

Apparently Pruitt decided to make a U-turn and retrace his path south and while looking over his shoulder at the pickup the scooter headed toward

the center of the road and the oncoming station wagon.

On seeing the station wagon Pruitt attempted to swerve back into his lane and lost control of the scooter. The scooter slid down the road and hit a crack throwing Pruitt into the grill of the station wagon.

William Ellis, 64, Rt. 3, Muleshoe was driving the station wagon and stated that he was driving slowly.

Pruitt was brought to the West Plains Hospital by Singleton Funeral Home Ambulance and died shortly thereafter.

Funeral services were held Tuesday at the Oklahoma Lane Baptist Church with the Rev. Vance Zinn, Lubbock, and the Rev. E. E. Houlette, Plainview, officiating. Burial was in the Oklahoma Lane Cemetery under the direction of Singleton Funeral Home.

Survivors include his wife, Betty; a son, Robert; a daughter, Melissa; his parents, Mr. and Mrs. J. M. Pruitt, Muleshoe; two sisters, Mrs. Corrie Merriman, Grand Junction, Colo., and Mrs. Wanda Coston, House, N. M.; and two brothers, Elma and Harold, both of Muleshoe.

The active pallbearers were Curby Brantley, Joe Garcia, Willard Parker, Gene Parham, Perry Bowers, and S. L. Carter.

The honorary pallbearers were Jim Morphey, Melvin Morrow, Herschell Parker, J. B. Young, Dee Whitlow, Frank Disher Jr., Bill Christian, Bob Gulley Pete Rundell, Ben Gulley, and E. C. Armstrong.

7 DAY FORECAST

As Muleshoe's mild and sunny November stretches into its third week, the 7-day outlook calls for continued mild West Texas weather.

Thanksgiving Day promises to be generally sunny, but on the cool side. Pesky clouds may mar the two days prior to Thanksgiving.

The only chance for rainfall appears to be bound up in the possibility of light showers and cloudy skies November 22. These clouds may linger into Wednesday, November 23, but will clear for the festive holiday.

Muleshoe's November precipitation to date is unmeasurable as only a trace has been recorded. This is something novel to West Texas after being deluged by a tremendous 5-inch splasher in October.

A brief look at the 7-day outlook forecasts:

Date	Lo	Hi	Precip.
18	32	75	0
19	36	28	0
20	38	60	0
21	29	60	0
22	30	55	chance
23	29	56	chance
24	22	55	0

Of all the organizations to which he belongs he is most proud of his membership in Delta Psi Omega, honorary dramatics fraternity, and in the Sons of the Republic of Texas.

Brents already has been attending local public meetings and is available to go anywhere that there is promise of a story or a picture.

It will be erected on land selected at the northwest corner of the intersection of East 3rd and Avenue C, and the land has been valued at \$5,000. The successful bidder will be required to furnish at 100 per cent performance bond in the amount of \$85,000, and a labor and materials bond in the amount of 50 per cent of the performance bond.

Bids will be opened in Room 200, Post Office Building, Lubbock.

Junior Class To Present Play December 16

The Junior Class of Muleshoe high school will present their annual class play, "Design For Murder", Friday, December 16. The matinee performance will be given at 2 p.m. and the night performance at 8 p.m. in the high school auditorium.

The cast includes: George Nieman as Mores; Jerry Don Coulter, David; Jim Bryant, Carlin; Larry Hartsell, Brent; Sylvia Pool, Celia; Rhonda Johnson, Kathy; LaNelle Boothe, Martha; Janie Gulley, Louisa; Yvonne Hendon, Nora Taylor; and Juanita St. Clair, Mrs. Hamilton.

The stage hands are Marvin Knowlton, Shirley Henry, Donald Peel, Gwen Roberts, Billy Roming, Calvin Sellers, and Travis Creamer.

The ushers for the evening performance are Linda Wingo, Dianne Rainwater, Julia Hollis, Maria Reed, and Geraldine Cooper.

The public is cordially invited to attend.

Oklahoma Lane Sale Dec. 15

An auction sale will be held at the Oklahoma Lane Community Center, located northwest of Muleshoe, on Dec. 15. Farmers are invited to list surplus or unwanted farm implements for the sale, which will begin at 10 a.m.

Col. Dick Doshier, Farwell auctioneer, will be assisted in the sale by other auctioneers of the area.

Circulars listing the many items to be offered or sale will be in the hands of the public a few days before the sale. Circulars and placards will be distributed this weekend, and there will be sheets of paper attached to the placards for names, addresses, and the listings. All listings must be in the hands of the committee in charge by Dec. 7.

Vegetable Production

Man Visits County

John Seibert, Farm Management Specialist with the Texas Extension Service, visited in Bailey County Wednesday. The purpose of his visit was to discuss with local farmers the management problems involved in vegetable farming. The information will be used to better advise farmers of the entire Plains area in planning for vegetable production.

C of C Banquet Speaker To Be Ben H. Wooten

Ben H. Wooten, chairman of the board of First National Bank in Dallas, will be the principal speaker at the eleventh annual membership banquet of the Muleshoe Chamber of Commerce on January 12, 1961. It was announced today by president Lindal Murray.

Mr. Wooten is a native of East Texas, and a graduate of North Texas State College in Denton. He received an honorary Doctor of Law degree from the University of Arkansas in 1950.

He was named Dallas' top spokesman for 1950; was Dallas' Headliner of the year in 1952, and served as president of the Dallas Chamber of Commerce 1952-53. In June of 1952, Mr. Wooten helped organize the Texas Research League, a citizen-supported agency devoted to research into programs and problems of Texas government, and served as chairman until October, 1954.

Mr. Wooten is vice-president of the National Bank division of the American Association, and in addition to serving as chairman of the board of First National in Dallas, he is Trustee of Baylor University, director of Dallas Federal Savings and Loan Association, director of GC & SF Railway, the Murray Co., Great Southwest Corp., State Fair of Texas, Cotton Bowl Association, and numerous other organizations.

In announcing Mr. Wooten's acceptance of the invitation to speak here, Murray expressed his gratification and said, "I am sure our people will hear a great message from the speaker."

Tickets, at \$3 per person, will be available to Chamber members and the general public in December.

Muleshoe Floral To Present Special Christmas Showing

The staff of Muleshoe Floral has created a special "Christmas Spectacular" to be presented in the Country Club Sunday, Nov. 20, from 1 to 4 p.m.

The public is invited to drop in for Christmas punch and cookies and view the many beautiful and artistic arrangements. Door prizes will be presented.

Self-Service Taken Literally By Yeggs

Thieves or a thief had a field day Wednesday morning at Cashway Grocery.

The thief entered through a hole cut in the roof and descended on stacked boxes of merchandise.

According to investigating officers the job most likely was not done by a professional. This assumption was based on the fact that a great deal of meat products were taken along with approximately \$100 from the cash registers. No cigarettes or other easily disposed of merchandise was taken. The yeggs took all the bills and half dollars they could find leaving all the smaller change.

According to T. R. White, owner of the store, the robbery had to occur after 1:30 a.m. because he was in the office until that time. The office file cabinet and desk drawers were broken into and contents strewn about the floor.

White stated that he had

THE ABOVE GROUP, after completing a year of study at West Plains Hospital & Clinic in Muleshoe are pictured after passing their examinations at Austin where they were licensed as L. V. N. (Licensed Vocational Nurse). Their instructor here was Mrs. Wenonah Dudgeon, formerly superintendent of nurses at the hospital.

In the group are left to right, Mrs. Linda Stovall, Mrs. Lucille Harp, Mrs. Lee Kimbell, Mrs. Arlene Welch, Mrs. Susie Whatley. There is the third such class to graduate here.

The local school holds a fine record not only in their ability to do good bedside nursing, but has had 26 students in the past three years to take the State Board and never has had a failure. The school, Mrs. Dudgeon writes The Journal, consists of one year of class work along with the bedside nursing. We are striving for better patient care, she said.

LINCOLN CONTINENTAL

So brilliantly engineered,
so carefully built it is dealer-warranted
for two full years or 24,000 miles,
whichever occurs first*

"Classic beauty in a smart new size." Here is the first fine car that is truly luxurious to drive in today's traffic. Thoughtful engineering has created a superb six-passenger automobile that is 14 inches shorter—yet as heavy or heavier than other American luxury cars, to provide the solid ride you expect. It also has devised center-opening doors that make entrance far more convenient, contour-zoned seats that are cushioned with nearly three times the usual amount of foam rubber, vacuum-locked doors that bolt shut at a flick of the driver's finger, silent, hydraulic windshield wipers with 50 per cent more power, a quality program that puts every car through a 12-mile road test and brings high precision standards of construction to America's largest V-8 engine. A glance reveals the character of this tremendously advanced car, the enduring beauty of true classic design, the excitement of America's only four-door convertible. But it is only at the wheel that you begin to understand the real significance of the new Lincoln Continental, the brilliant blend of sensible size and total luxury. Why not make that discovery yourself, this week? Lincoln-Mercury Division, Ford Motor Company.

*The terms of the extended warranty provide that for 24 months or for 24,000 miles, whichever comes first, free replacement, including related labor, will be made by dealers, of any part with a defect in workmanship or materials. Tires are not covered by the warranty; appropriate adjustments will continue to be made by the tire companies. Owners will remain responsible for normal maintenance service and routine replacement of such maintenance items as filters, spark plugs, ignition points and wiper blades.

See this remarkable car at your Lincoln Continental dealership today!

Muleshoe "Outcasts" Gathered In Ozarks In Big Bull Session

The Neosho Daily News of Neosho, Mo., in its issue of November 14 told of a gathering of Muleshoe expatriates on the C. U. Grandy farm near that city. Mr. Grandy formerly was superintendent of schools here. There are names of many more former residents of Bailey County and Muleshoe vicinity, and if you have missed someone and didn't know where he was, you'll probably find him in the following story:

Tell Texas tales took attention yesterday afternoon as a group of former residents of the small Texas town bearing the unlikely name of Muleshoe, all now living in the Ozarks, gathered on the C. U. Grandy farm southwest of Neosho.

The group, who describe themselves as "renegades," claim to have left their former home town just one jump ahead of the posse but since settling in the Ozarks have mended their ways.

Among those attending the buffet dinner and afternoon session of "bull-shootin'" was Marvin Grandy, son of the host, who during weekdays is superintendent of Pineville schools, and Donald Barnett and family. Mr. Barnett is

Before entering the Navy in October 1959, Ens. Roberson graduated from Texas Tech College in Lubbock.

ALPHA CLASS MEETS
 Johnnie Parker was hostess for the meeting of the Alpha Class of Trinity Baptist church recently.

The new yearbooks were presented to the members. Plans were discussed for the next social and Christmas party which will be held Dec. 13.

Refreshments of hot speed tea and rolls were served to Dorothy Bowers, Jean Banyard, Evelyn Smith, and Johnnie Parker.

Others who attended were Mr. and Mrs. Dee Warner, Mrs. Barbara Covert, Mr. and Mrs. Allen Stancell, Mr. and Mrs. Johnny Johnson, Mr. and Mrs. M. H. Ottwell and Mr. and Mrs. Bill Jeter.

Mr. Barnett this morning reported that "counting the kids, which was mighty hard to do, there were 37 in attendance."

Parents Show Interest In SRA Program

The Muleshoe Junior High School, Richland Hills Elementary School and Mary DeShazo Elementary School has instituted a new reading program called the S. R. A. Reading Laboratory. The junior high school has used the program for three years, but this is the first year that the elementary schools have used the program to any extensive degree. Several classrooms in the elementary schools used the program as a pilot experiment last year.

The Junior High School has observed much improvement in students that enter high school here in Muleshoe. The S. R. A. Reading Laboratory is credited with this improvement. The elementary school S. R. A. reading labs will strengthen junior high school students.

Since reading is more important than ever before, each one of us needs to know more about more things just to get along in life. Reading is more important than ever as a means of keeping up with the fast moving world today.

The S. R. A. Reading Laboratory method grew out of six years of preliminary work by Science Research Associates, Inc. During this time several thousand students were trained with multi-level materials. In a carefully controlled experiment 465 seventh grade students, the group using multi-level materials showed 112 per cent greater gain than a matched group using one-level materials.

The S. R. A. Reading Laboratory permits the slow learner, the emotionally retarded, the average learner, with the superior student in the same class to find success at their

present levels and stimulate them to greater achievement. The student starts "where he is" in independent reading and is allowed to master the skills of that level "at his own rate". A sequence of material is provided of gradually increasing difficulty so that the student can seek and attain progressively higher reading levels.

The S. R. A. Reading Laboratory presents the SQ3R methods of approaching new material. The SQ3R means survey, question, read, review and recite. This valuable reading and study formula is a method used in the United States Air Force to train officers and men to read more efficiently.

The S. R. A. Laboratory method includes power builders to help comprehension and vocabulary rate builders to increase speed, and listening skills for practice in picking up valuable information.

The fourth, fifth, and sixth grades of Richland Hills Elementary School conducted demonstration classes in the S. R. A. reading laboratory for parents during American Education Week. Parents of the junior high pupils saw SRA in action during school visitation night on November 8.

Any time parents and friends of the Muleshoe Schools would like to see the SRA Reading Laboratory in action, they may visit either of the two elementary schools or the junior high school.

Ladies Golf Club Enjoys Luncheon Nov. 16

Mildred Lambert won the door prize at the Ladies Golf Club luncheon held at the Country Club Wednesday, Nov. 16. The Thanksgiving motif was used in the table decorations.

The Clovis Ladies Golf Club were special guests. A Style Show on sports clothes was presented by Mrs. Lee of Clovis.

The afternoon was spent playing bridge and golf. The bridge winners were Matilda Stiemmons, Reba Barrett, and Oberita LeVeque. The golf winners were Mary Furgeson and Lois Lenau, blind holes and Mary Frances Holt won on low putt.

Sixty-five ladies attended the festivities.

Royce L. Garth Is Awarded Health Department Citation

AUSTIN — An official State Health Department citation was awarded this week to R. L. Garth, Muleshoe city water department employee, for proficiency in water plant management.

The impressively designed certificate of competency, signed by the state commissioner of health and authorities of the Texas Water and Sewage Works Association, credit recipients with having demonstrated "skill and knowledge" of water treatment plant management and an understanding of the public health importance of the work.

Teachers and Guests Enjoy Banquet

Frank Ford, president of TSTA, presented the charter of the local unit to Neal Dillman, superintendent of schools, at the Public Relations Banquet sponsored by the Texas State Teachers Association and Classroom Teachers Association of Muleshoe Thursday night, Nov. 10, in the Richland Hills Cafeteria. Mrs. O. G. Killingsworth, president of CTA, introduced the special guests, E. L. Gaylean of Austin was the guest speaker.

The guests attending were as follows: members of the School Board and their wives, Dr. and Mrs. B. R. Putman, Mr. and Mrs. W. F. Bartley, Mr. and Mrs. E. V. Bartlett, Mr. and Mrs. Muri Stevenson and Mr. and Mrs. Robert Blackwood.

Ministers of local churches: Rev. Clifton Corcoran, Rev. Tommy Gleaton, Rev. Lively E. Crawford, Rev. Gene Welch, Rev. J. M. Moore, Rev. Troy Walker, Rev. Ray Vinson, and Judge Glen Williams.

Other special guests were Carroll Pouncey, Manager of the Chamber of Commerce; Mrs. Frank Ellis, President Mary DeShazo P-TA; Mr. and Mrs. Eugene Black, President of Richland Hills P-TA and her husband; Mrs. W. Q. Casey, President of Muleshoe Study Club; Mrs. Joe Mack Wagon, President of Los Planos Study Club;

Arch March, City Manager; Lindal Murray, President of the Chamber of Commerce; Robert Alford, Incoming President of the Chamber of Commerce; Delmer McMillan, President Jay Cees; Cherry Hoybook and Brents Davis, Muleshoe Journal; Buddy Peeler, Radio Station KMUL; and Miss Zeffie Childress, retired teacher.

Lozan Moore, and M. D. Shepherd, teachers, played several saxophone and piano duets.

Approximately 135 members and guests attended.

Under the State Health Department operator certification program, operators are carefully examined on their technical ability and on their knowledge of their work's influence on community health. Each must pass a stiff written test to qualify for certification.

The Texas general sanitation law requires that at least one plant operator per shift be certified by the state health agency, but other plant personnel and persons in related fields frequently seek certification on their own time and at their own expense to advance themselves professionally and to increase their efficiency as vital public servants.

"The recipients of these certificates owe a credit to their profession and to their communities", sponsors of the certification program said.

Points toward certification are earned through actual work experience and by attendance at annual district and state short schools sponsored and conducted by the Texas State Department of Health, the engineering extension service of Texas A & M College, and the Texas Water and Sewage Works Association.

Mrs. Celia Matthiesen and Mrs. Vera Engelking of Muleshoe and Mr. and Mrs. Henry Landers and Nickie of Morton, were guests of Miss Linda Landers and attended open house and dedication services of Frazier, Strand, and Spencer Halls at South Plains College, Levelland, Sunday Nov. 13.

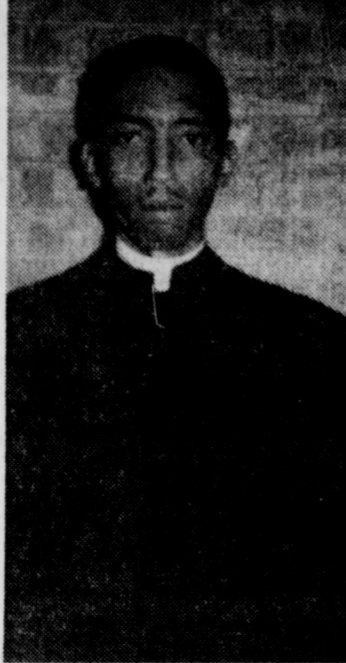

Miss Landers is a sophomore student and sang in the college choir which preceded the dedication address by the Hon. George Mahon, Congressman from the 19th Texas District, who was introduced by Preston Smith, senator for the 28th Texas District. After the ceremonies a reception was held in the Student Center.

Doings At Muleshoe Airport Reported by Mrs. Noah Kinser

TO JUMPING CONTESTS AT ALAMOGORDO

Morgan Locker and Jack Wright attended the Parachute Jumping Contests at Alamogordo, N. M., Saturday.

Sky Diving Clubs from Santa Fe, Las Vegas, Los Alamos, and Alamogordo participated in events of team jumps, delayed action jumps, and spot jumps. The delay in pulling the ripcord in a delayed action jump is determined by the use of an altimeter and stop watch panel which is attached to the reserve chute in front of the parachutist. The spot jumps are scored on the basis of landings made closest to the target.

During the delayed action event an Alamogordo Instructor trainee made his exit from the plane at an altitude of 4,700 feet, lost control of his body and came spinning thru the air. After the 15 second delay, the diver pulled the ripcord, but the chute failed to open.

Then at an altitude of approximately 1,000 feet, he pulled the ripcord on the reserve chute and it opened. One leg had become entangled in the shroudlines, but he managed to kick free just above the ground and landed safely.

Bob Allen, Clovis businessman, made his first Sailplane solo flight here Sunday afternoon at the Muleshoe Airport after 9 instructional flights in the craft.

Allen has a real fascination for gliders as he grew up at Cornig, N. Y., the site of many glider meets which he watched as a youth and later was employed at the Schweizer plant finishing, covering and painting the sailplanes.

VFD Answers Call At Snow Home

Volunteer Firemen answered a call last Tuesday afternoon at the home of Willie D. Snow, aged 65 and almost totally blind.

Snow, who lives on Birch St., was heating his home with an open grate wood fire when a coal popped out onto the bed. When he smelled smoke Snow felt around the bed to locate the fire and then called the fire department.

Damage was estimated at \$100 including \$30 in cash.

Sailplanes, I came over immediately and began my training. I don't expect to win any prizes at the National Soaring Meet, but I, very much, enjoy soaring", said Allen.

Allen has an interesting life in both the artist and aviation fields. He made his first solo flight in 1937 in New York State in an old time Taylor Cub. Later in Casper, Wyo., he purchased a Taylor craft and became widely known as the "Flying Painter", flying to 437 different airports in 26 states to paint airport signs. He has 750 hours flying time logged, most of it is cross country.

Allen operates the Allen Loan Company in Clovis and does Air Brush paintings when time permits.

Delmo Sims Passes Test

Delmo Sims, 21 year old employee of Wagon Grocery, flew to Amarillo Tuesday morning in the Muleshoe Flying Service Tri-Pacer and took a flying test for his Private License. Sims passed the test given him by examiner Robert Wisner and reviewed his license.

Sims, who has approximately 45 hours of flying time logged, has been training at the local airport under Instructor Harold Locke for several months.

Livestock Survey Cards Will Be Delivered By Route Carriers

Rural mail carriers from the Muleshoe post office will leave some livestock survey cards along their routes beginning November 16.

"Information reported on these cards is used to set the yearly inventory of livestock and poultry on Texas farms", Postmaster Slemmons explained.

Shornhorn Bull Sale Date Set

OMAHA, NEB. — Beaumont, Texas, will be the scene on January 21 for the largest sale of Shornhorn-Polled Shorthorn bulls of recent times in the Southwest.

Featuring over 100 top red-white and roan animals, the sale will follow the annual meeting of the Coastal Cattleman's Association. Members of the association will meet in the morning, hold a bar-b-q at noon and have an opportunity to attend the sale in the afternoon.

Shornhorn breeders from six states have combined forces to present a strong consignment of bulls in best possible working condition.

All bulls will be fertility tested and graded to insure soundness and quality.

Under the sponsorship of the American Shorthorn Association, the Southern Shorthorn Bull Sale was designed to provide a reliable source for breeding bulls.

Methodists Announce Visitation Plans

The First Methodist Church of Muleshoe will conduct an every member canvass Sunday, Nov. 20, to underwrite next year's budget. According to W. B. LeVeque, campaign chairman, the visitation will take place between the hours of 1 and 4 p.m. If it is inconvenient for church members to be home at this time, it will be appreciated if they would make arrangements to be counted.

Capt. Porter Aids In Operation Flashback

Mannheim, Germany—Army Capt. Edward Porter, son of Mr. and Mrs. John D. Porter, Farwell, Texas, recently participated with other personnel from the 8th Infantry Division in Operation Flash Back in Europe.

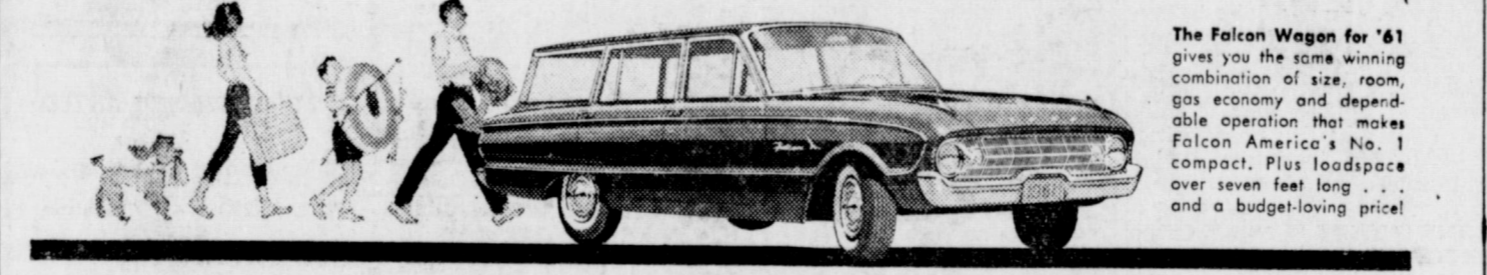

The 12-day exercise tested the efficiency of Seventh U. S. Army Support Command units under actual field conditions, and involved NATO land, sea, and air forces.

Captain Porter, an aviator in the division in Bad Kreuznach, Germany, entered the Army in 1951 and arrived overseas on this tour of duty last February. Porter attended New Mexico Military Institute in Roswell. His wife, Bunkie, is with him in Germany.

Gin Worker Injured Here

A workman was injured last Tuesday while working at the Muleshoe Coop Gin. According to Earl Richards, manager of the gin, the man, Jesse Rodriguez 23, was turning the press when he was caught between the press and a brace and mashed his head.

Rodriguez was taken to West Plains Hospital where he was found to have a skull fracture. According to hospital officials, Rodriguez will be hospitalized for several weeks.

ARE YOU ONE OF THE 3 TYPES OF WOMEN WHO DOESN'T USE A GAS CLOTHES DRYER?

MRS. SEMORE CASH
Money means nothing to her. Has a wealthy husband who pays all the bills without batting an eye. She just buys... and, of course, uses nothing but the most expensive, whether it's automobiles or appliances. (What else can a woman of her social position do?) She's not concerned with the phenomenal savings in operating costs of a Gas Dryer. Twenty-five dollars a year? Trivia, my dear Cavendish!

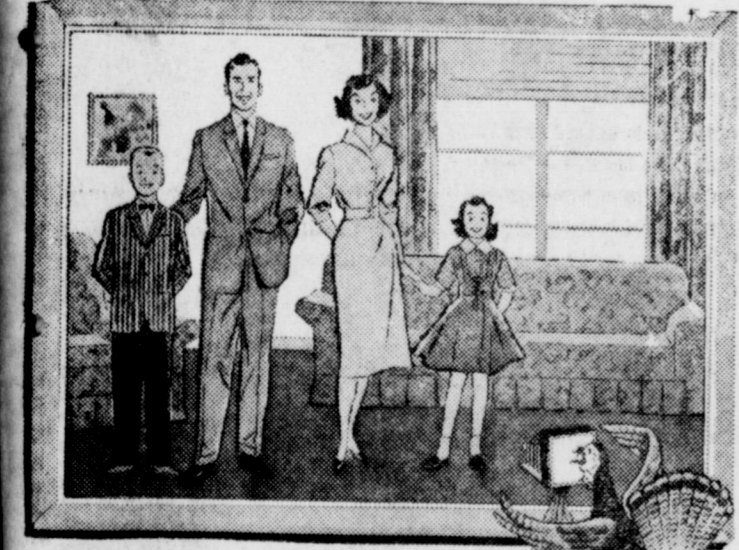

MRS. I. M. CAREFREE
Time means nothing to her. No kids to keep up with... belongs to no clubs or organizations... doesn't have to fit her hours to any particular schedule. She's not impressed by the fact that the faster performance of a Gas Dryer provides precious minutes to the harried homemaker with an over-crowded schedule.

PRUNELLA HARDTACK
You can't convince HER that the clean, live flame in a Gas Dryer is completely isolated from the clothes... that National Fire Underwriters statistics prove Gas near the bottom of the list as an accident cause... that the low heat—high air flow principle of Gas Drying is completely safe for even the daintiest of synthetic fabrics. No matter how valid the advantages, she'll stick with her prejudices.

BABSON DISCUSSES

Taking Tax Losses

Babson Park, Mass., Nov. 17. Readers who are clients of investment counselors, or who have active banking houses or brokers attending to their affairs, probably have already been notified of the possible advantage that can be secured by taking tax losses.

No Lower Taxes In 1961

Both Mr. Kennedy and Mr. Nixon promised greater expenditures, due to increased defense needs, larger welfare payments, and perhaps unemployment aid. We cannot wait for the official statements of the winning candidate, Mr. Kennedy. But we can assume that anything he recommends will be to the interest of the many millions who hold no securities—funds for said payments to be raised through inflationary measures or increased taxes. Both could work a hardship on investors.

In deciding what to do, divide your 1960 sales of securities into two groups: (1) Those held longer than six months; (2) those held less than six months. Next, figure out what will be your net long-term gain or loss, and what will be your net short-term gain or loss. Then offset these net figures, remembering that one dollar of short-term loss can wipe out one dollar of long-term gain, and one dollar of long-term loss can offset one dollar of short-term gain.

More Details Regarding Long-Term Gains

Of course, to take advantage

of tax losses one must sell the securities, and it may not pay to do this. If an excess of long-term capital gains results you may reduce this gain by 50% before figuring your tax; and if the tax on long-term gains should exceed 25% of the gains, you may use an alternate method of computing and thus hold down your tax.

In the case of most readers, the capital gains tax will be under 25% of the profits realized. The alternate tax method is used only for net taxable income of more than \$18,000 for a single person, \$24,000 for the head of a household, and \$36,000 for a joint return.

What About Short-Term Gains?

The above advantages apply only to long-term gains; they do not apply to the short-term sales cited in item No. 2 of the third paragraph of this column. Therefore, there may be a real tax advantage in letting your profits run over the six-month period, even if it brings you into another year. The government permits you to carry any unapplied capital gains losses forward for the next five years. Of course, securities should not be sold merely to take a tax loss. If the stock is one about which you are still optimistic, the improvement in price may later provide you with a greater gain than you could get by taking a tax loss now.

Disposing of Your Poorest Issues

Personally I give little attention to taking tax losses if I believe my securities are all good. On the other hand, here again one must decide whether we are in a bull market or in a bear market. If you believe we are in a bear market it is better to take tax losses than it would be if you believed we were still in a bull market. This is another reason for seeking the help of an investment counselor.

Certainly, this is a good time to clear up your list and eliminate the poorest investments. Keep your stocks in the order in which they are rated, and sell one or more of the poorest each year. Ordinarily, it is better to sell these in September or October before the crowd rushes to sell, as they may be doing this time of year. On the other hand, most investors may have already taken their capital gains or losses. If so, the market may work up from now to the end of the year rather than continue to decline until the deadline of December 30, 1960.

Waiting Thirty Days

Most investors seem to feel that if they sell stocks to take a tax loss, they cannot buy this same stock back again. This, however, is perfectly possible if you will wait thirty days. If the stock is fundamentally good, I am inclined to buy the same stock back even though, due to some special nonrecurring event, it may have advanced in price.

Au Revoir

With this issue of The Muleshoe Journal the publication comes out under new ownership and new management, it having been sold to C. S. Holland and R. L. Jones, both well and favorably known to citizen in and around Muleshoe. They have been residents of this growing little city for several years, and it was from Mr. Holland that the undersigned purchased this publication 10 years ago.

We do not part with The Journal publication through choice, but under doctor's orders and for health reasons only. We shall continue to make our home in the countryside a few miles northwest of Muleshoe and shall always have at heart the very best interests of Muleshoe and Bailey County.

Recharge Wells Conserve Water

Conserving water for future irrigation by draining the plays lakes into the underground Ogallala sand through recharge wells is an increasing practice on the High Plains. The surface water drained by gravity into the sand is thereby stored for future use rather than being lost by evaporation if permitted to remain in the lake.

One of the problems encountered in recharging is the silt in the lake water. Several filtration systems are being tested at the High Plains Research Foundation to determine the most efficient and economical method of silt removal, James Valliant, water engineer, announced.

One system will use 13 sections of porous concrete pipe capable of taking up to 5,000 gallons of water per minute. Each section is 12 inches in diameter and 36 inches long with an intake rate of 385 gallons of water per minute. Sand and gravel covers of different thickness will be used to cover the porous pipe to study the effects of silt in clogging the microscopic holes in the porous pipe.

The second filtration system will use perforated well casing 16 inches in diameter, eight feet long wrapped with fiber glass filter one inch thick.

A third method to be used for silt removal will be an eight foot circular cage of ¾ inch expanded metal with a 7 foot cylindrical cage inside. Plastic screen will be placed inside the 8 foot cylinder and outside the 7 foot inner metal circle with 6 inches of gravel between the two cylinders.

The use of chemical flocculant will be continued to precipitate silt in the lake before the water enters the recharge well. A new chemical, M-1883, designed for use in soft water produced by the Dow Chemical Company, is now being tested. This testing will be continued through 1961.

COMMITMENT SUNDAY OF PROGRESS METHODIST

Sunday, Nov. 13 was Commitment Sunday for the Progress Methodist Church. This special day completed the program on stewardship. Following the morning services, lunch was served at the church. The youth and some adults attended a Methodist Youth Fellowship meeting at Sudan during the afternoon.

After the evening services, coffee and cake was served in the Fellowship Hall. The Progress Methodist church will begin its Financial Campaign Nov. 20; also the church will begin the alcohol study at this time too. This study will be concluded with a play, "The Criminal", presented by the youth on Dec. 11.

Census Bureau Conducts Survey

The 1960 Sample Survey of Agriculture will be conducted in Bailey County during the next several weeks, it was announced today by the Bureau of the Census, U. S. Department of Commerce.

The 1960 Sample Survey of Agriculture will collect information on ownership and size of farms, acreage and harvest of crops, and livestock production and inventories. Information will be collected also on farm equipment, farm income, construction of new farm buildings, farm contracts, and farm operator debts. This survey will supplement information collected in the 1959 Census of Agriculture.

Farms in the county which will be covered in the 1960 Sample Survey of Agriculture were selected at random under the Census Bureau's scientific sampling program to provide a representative cross-section of all farms in the county. Information collected locally will be combined with that collected in other areas of the coun-

SANDHILLS PHILOSOPHER PROVES

A Stumbling Block In Very First Step Toward Moving Forward

Editor's note: The Sandhills Philosopher on his Johnson grass farm seems to be dragging his feet on a new idea, his letter this week indicates.

Dear editor:

Here it is only a week after the country has elected a new President and some things have already moved forward.

For example, the mail service generally, it's about where it always was and I don't have any complaints about it, but a particular idea for the mail service.

machines can deliver a letter from New York to the Muleshoe post office, it won't be long before somebody wanting to move even further forward will figure out how to have it delivered electronically to my mail box, and I'm having trouble enough keeping my present mail box propped up without having to maintain an electronic brain machine alongside it.

In the second place, I don't ever remember having received a letter on any day that I'd have been any better off or more informed if it had gotten to me two days earlier. Very few people have any thoughts or messages to convey to me that are that important. And I don't know of anybody, congressman, governor, sheriff, newspaper editor, who would be any better off or any more informed finding out what I think two days earlier than he can find out now. I take the position that if it takes me a week to think up an idea, anybody waiting on it can wait an extra day and not be hurt. In some cases he could never hear and be just as well off. And this thing works vice versa.

It may be important to get

Today's Meditation

Read Luke 1:76-80.

The dayspring from on high hath visited us, to give light to them that sit in darkness and in the shadow of death, to guide our feet into the way of peace. (Luke 1:78, 19.)

While marking pupils' compositions one day, I was thrilled to see that a little girl had written: "If all the people in all the countries of the world loved the Lord Jesus, there would be peace."

If our hearts are filled with love for our crucified and risen Saviour and with gratitude for redeeming us, there is no room for hatred or hurt feelings. His love and peace will flow thru us to others.

At one of our seaside services a man fiercely abused a guided missile to its destination in thirty minutes, but very few thoughts are that devastating.

I think this country ought to move forward, even if it has to go around me to do it, but electronic mail service may not be in that category. I'm not interested in this country's spending money to get my monthly bills to me two days earlier than I'm getting them now.

Yours faithfully,
 J. A.

CEMETERY SERVICES HELD FOR MARINEZ INFANT

Marcario, infant son of Willie and Carlota (Garcia) Marinez, died here in Muleshoe Wednesday, Nov. 9, with the cemetery funeral services Thursday, Nov. 10 in the Muleshoe Cemetery at 1:15 p.m. The Rev. (Fr.) Clifton J. Corcoran, the Immaculate Conception Catholic Church, Muleshoe, officiated.

The Singleton Funeral Home was in charge of the funeral.

TAKES PART IN RECITAL

In a recital of string and my husband for preaching, but we prayed frequently for him with Christian love. Day after day he stood just within sound of the gospel. He listened solemnly at first, but finally gave his heart to God.

Christians may meet with persecution, especially when trying to spread the gospel, but nothing can really disturb the peace of God garrisoned in their hearts.

PRAYER

Heavenly Father, we thank Thee for giving us peace thru Thy dear Son's redeeming love. May His peace be so manifest that it may spread to all we meet. In His holy name we pray. Amen.

THOUGHT FOR THE DAY

Our Saviour's peace in our hearts will guide others to Him.

Church Announces Thanksgiving Service

A special Thanksgiving service is announced by First Church of Christ, Scientist of Clovis, N. M., for 11 a.m. on Thanksgiving Day.

Open to the general public, the service will be held in the church edifice at 900 Mitchell St., Clovis, N. M.

No collections of any kind are to be taken at this service. Expressions of praise and gratitude to God will be read from the Bible and also from "Science and Health with Key to the Scriptures" by Mary Baked Eddy in a Lesson-Sermon for the day entitled "Thanksgiving."

The Golden Text is from Revelation (7:12): "Blessing, and glory, and wisdom, and Thanksgiving, and honour, and power, and might, be unto our God for ever and ever."

The latter portion of the service will be devoted to voluntary expressions of gratitude by members of the congregation for God's goodness shown in spiritual growth, healings, and other blessings.

Area Soil Chemist James H. Valentine, A&M College Agricultural Extension Service, has completed preparations for the formal opening of a new Soil Testing Laboratory in Lubbock. Above, he is making a final check of the delicate chain balance which is used to measure the minute quantities of chemicals required in running a soil analysis.

A native of Willis Point in Van Zandt county, Valentine is a former Future Farmer of America. He received both his B. S. and M. S. degrees from Texas A&M College with a major in Agronomy and minor in Plant Physiology. The overseas veteran of World War II served for 5 years as Soil Scientist with the Soil Conservation Service and for the past 9 years has been director of the Soil Testing Laboratory at Stephen F. Austin College at Nacogdoches.

Valentine says the new laboratory, which he heads, will devote full time to fertility problems of farmers in the Panhandle and High Plains areas of Texas.

County Agent J. K. Adams urged local farmers, home gardeners and others with fertility problems, to take advantage of the laboratory's facilities. The cost per sample is only \$2. Vocational Agriculture Teachers and Soil Conservation Service technicians, as well as the county agent, will be glad to assist in obtaining samples.

NOW! THE GREATEST SHOW ON WORTH!

Bel Air Sports Coupe. There's up to 2 inches more head room in this trim new hardtop; more leg room, too—front and rear.

NEW-SIZE YOU-SIZE SIXTY-ONEDERFUL CHEVY

This '61 is built on the principle that the place you want space is *inside*. We put it there, too. Actually trimmed the outer size to give you extra inches of clearance for parking and maneuvering, and still worked wonders with inner space. Door openings are as much as 6" wider. Seats as much as 1 1/2" higher. We've thought of everything. Increased rear foot room by slenderizing the driveshaft tunnel. Worked in sensible new ideas all the way back through that huge bin of a baggage compartment. See how thoughtful this one is! Full of good new things. Full of good old things, too, like Chevrolet's well-known thrift and dependability. See it soon.

Brookwood 9-Passenger Station Wagon. One of 6 for '61. Each features a cow-size cargo opening and a new concealed compartment.

Biscayne 4-Door Sedan—with the same sensible design you get in all the likable '61 Chevys.

For big-car comfort at small-car prices Biscayne—6 or V8—give you a full measure of Chevrolet quality—yet they're priced down with many cars that give you a lot less!

Mules Skim Past Antelopes In Last Game of Season, 22-20

The Muleshoe Mules ended their 1960 gridiron wars on a sweet note of victory as they slipped past the favored Abernathy Antelopes 22-20 Friday night in a bang-up game played in Abernathy.

The Mules took the opening kickoff and immediately started rolling. Taking the kick on their own 10, Curtis Walker brought the ball out to the Muleshoe 41. From there the Mules rolled down to the Antelope 26-yard line in five plays. Trying for a fourth down situation, the Mules failed to make the necessary yardage and the 'Loes took over on the 26.

At this point the Antelopes struck quickly for a TD. Tom Ritchie, halfback, found a hole on the Mules' right side and galloped 39 yards to set the Abernathy eleven up in business on the Muleshoe 30. After driving down to the Muleshoe 15, Stanley Joy, halfback, rammed over for the first touchdown of the night. Mike Ritchie booted the extra point conversion.

After receiving the kickoff following the TD, the Mules found themselves in a hole after ramming the ball out to

their own 30. From that point, they drew a 15-yard penalty, which set them back to their own 15-yard line. They were forced to punt out punting to their own 49. From the Muleshoe 24, John Brown hit Mike Ritchie with a TD pass. Ritchie again kicked the extra point.

In the second quarter of play the Antelopes dropped back to punt from their own 33-yard line. The Mules put on the rush and Bob White broke thru to block the kick. Jerry Wright, Muleshoe guard picked up the pigskin and raced over for the first Muleshoe TD. Pierce rammed over for the extra two-point.

After holding the Antelopes for downs just before the half, the Mules began to roll. With Abernathy 49. From that point the Mules begin to roll. With ground plays and short passes, the Mules drove down to the Antelope 3. At that point Billy Gilbreath did a beautiful job of faking and ran into the end zone untouched for the Mules' second TD.

Jerry Gilbreath saved an Antelope TD early in the third quarter with a tremendous pass interception. After working the ball down to the Mule 5-yard line, Brown threw to his left end in the end zone. Both Gilbreath and the end leaped for the pass. Both men grabbed it and came down. After falling to the ground, Gilbreath came up with the ball in his possession.

After recovering a fumble on the Muleshoe 37, Johnnie Adams rambled 37 yards for the TD, putting the Antelopes ahead 20-14. The try for extra point failed. Taking the ball on the middle for 10 more yards. From there Jim Young threw long to Curtis Walker, who was on the dead run. An Abernathy defender just barely tipped the ball, which fell into Walker's outstretched hands. Gathering in the pass on the Abernathy 40-yard line, Walker outdistanced the Antelope defenders for the Muleshoe TD.

With the score tied 20-20 Muleshoe ran for the two extra points. Billy Gilbreath plowed through the 'Lope line for the extra 2-point.

Outstanding for the Mules on defense were Jerry Gilbreath, Ronald Julian, Kenny Splawn, Bob White, Malone, and Leigon.

BAND BOOSTER MEETING
Everyone is urged to attend the Band Booster meeting to be held Thursday night, Nov. 17, in the band hall.

Lazbuddie Takes District 2-B Crown

The Lazbuddie Longhorns were too wild for the Happy Cowboys Friday night, as they beat them 26-6. Lazbuddie ended its regular season with a 7-1 record and a 4-0 conference record.

Lazbuddie's line did a great job of opening up holes long enough for its speedy backs, Bradshaw, Savage, and Hardage, to break through for several nice runs. Bradshaw had three TD's for a total of 18 points, while Savage was picking up one and two points conversions for a total of 8. Jim Broadhurst was outstanding on defense, making 12 tackles, while Brantley and Gustin had 8 each.

This game was homecoming, and during the half time Patsy Marrow was crowned Football Sweetheart, and the Pep Squad Hero was Odis Bradshaw.

Congratulations to Coaches John Bond and Bobby Crooks for a splendid job well done.

Tips On Driving

by Dianne Chappell
One of the many things which is important as well as necessary to know before driving is your signs. Signs have a special importance and are made for the benefit of all.

In order to know which speed to choose, your roads rely the signs to tell you of the dangers of going too fast or sometimes too slow. If you observe these signs and know their meanings, accidents would be greatly reduced.

For our safety, the rectangular signs give us instructions or information. These signs are very helpful in directing people who aren't used to the driving situations in other parts of the country.

The octagon sign always spells out "Stop". You should, in observing and obeying these signs, you will prevent enforcement of stricter laws of driving.

Warnings of hazards in or near a roadway are given to us by the diamond shaped signs. Be forever on the alert for fast acting to prevent an accident.

The warning of a train is foretold by a round sign which means there is a railroad crossing ahead. In this area always be prepared to stop as they might not have time to stop for you.

Another essential thing for good driving is the rules we have to drive by. Without these rules, the world of drivers would be so jumbled up, we would be foolish to start out anywhere.

In our United States, the rules have been made similar so as not to confuse the driver. But still there are many changes we need to learn about if we drive in an unfamiliar place.

The people who obey these rules are the ones who have the most liberties and privileges of driving. If a person takes driving for granted and is irresponsible, he may have accidents and cause his license to be suspended. Understanding the rules make people have confidence in your driving and will trust you in your skill of handling the car.

To educate people in obeying and observing these rules, we could plan safety programs such as: panel discussions, radio advertising, television programs, newspaper articles, and a driver education course.

As you have often heard, rules are made to be kept and not broken. I think this especially applies to driving. If you abuse your driving privileges you may lose it.

If we are fit physically and mentally, I think we can reduce the traffic death and injured totals to a great extent. To live as long as we could ordinarily without accidents, obey your signs and rules.

MULESHOE REBEKAHS MEET NOVEMBER 15

Past Noble Grand Ruby Green presided at the regular meeting of the Muleshoe Rebekahs in the absence of Noble Grand Grace Morgan Tuesday night, Nov. 15, at the hall.

voted for the Noble Grand to be responsible for the selection of team dresses.
The Lodge wishes to thank everyone who helped make the rummage sale a success.

GINS IN THREE WAY

Gins in the Three Way community have ginned 4014 bales of cotton as of Monday, Nov. 7. Stogall Gin has ginned 628, Maple Co-op, 1610 bales, Nichols Gin 869, Casey .Gin 219, and Shafer Gin, 648.

A very interesting program of instruction was held by Lodge Deputy Ruby Green.

Refreshments of sandwiches, pie and coffee were served to 13 members and four guests.

During the Nov. 8 meeting of the Rebekahs, the members

Phone with the built-in switchboard

Here's a phone designed to play a big role in business offices. Right in this single instrument are all the conveniences of a telephone switchboard. Six push buttons give you complete control over all incoming and outgoing calls. You can select any of five lines - talk on one while holding calls on others - "buzz" your secretary - or use the phone as an office intercom. Lights in the buttons tell you which lines are busy, which are free.

Our "phone with the built-in switchboard" is another example of how General Telephone works to make the telephone a more convenient and valuable instrument of communications for everyone. Call or visit our Business Office and learn how little it costs to have the "switchboard" service of a push-button phone.

What Makes You The World's Best Shopper?*

*** IT'S THOSE CLIPPINGS IN YOUR HAND!**

It's a fact that American women are the most qualified shoppers in the world. Because of the intensity of newspaper advertising, American women have more information about more products, and so can compare value and price to get the most for their money. The largest single advertising voice in our country is the local newspaper. And what's more, take it with you when you shop. Or you can clip the ads out, as reminders to you to take advantage of the bargain you read about.
