Free Gifts, Bargains, Santa Claus Due Friday

Tahoka's seventh annual Moonlight Madness Sale is scheduled for 6 to 9 p.m. Friday, with 15 businesses planning free gifts and special sale bargains during that period.

Santa Claus is coming to town, riding on a fire truck, and will appear in each of the participating businesses briefly before settling at Paris Cafeteria.

Gary McCord, president of the sponsoring Tahoka Chamber of Commerce, said he had talked with Santa by phone this week and that Santa will have candy to give to the small children.

"If the weather stays reasonable, we should have a good crowd of people downtown Friday, because nearly every one of the participating businesses is giving away something free and they also have made some special

effort to offer good sales bargains during the three-hour period," McCord said.

Tahoka Chamberettes will be placing some new decorations downtown on the courthouse square near the community Christmas tree, and a new lighted Nativity scene donated by Mrs. Nora Autry also will be in place.

In most businesses, those who come in during the three-hour period may sign up for a free gift, provided they are at least 18 years old. Most stores will draw the names of their winners at the close of the sale period, and the winners will be notified later. The winners do not have to be present to win, nor do they have to buy anything.

Many good bargains are detailed in advertisements in this issue of the News, however, for those who want to take advantage of

the lower prices in effect just during the Moonlight Sale.

Businesses which will be open from 6 to 9 p.m. for the special event include Genny's, Tahoka Drug, Aunt Becky's Place, Jennings of Tahoka, Paris Cafeteria, Furniture Ole', Thriftway, the Lynn County News, Murray's Tahoka Flowers, the Tahoka Daisy, Dayton Parker Pharmacy, Balloons & Flowers, Glenda's Sweet Shop & Cafe, the Cake Palace and the Mirror.

\$486 Raised In Turkeywalk

The Annual Lynn County Turkeywalk, sponsored by the American Heart Association, was held Nov. 12 at the Tahoka football field. There were seven participants who walked (or ran) a total of 83 miles and 1,000 yards to raise \$486 for the American Heart Assn. Sylvia Chapa raised the most money—a total of \$201.00.

The top money raisers in each division were Crystal Curry (1,000 yds.), Preschool division; Tracie Cole (11 miles), 4th-6th grade; Sylvia Chapa (15 miles), adult division; and Mrs. John Hill (10 miles), Senior Citizens division. Each of these were given a turkey, donated by Thriftway.

The Lynn County Division of the American Heart Association wishes to express appreciation wishes to Steve Sanders and Thriftway for donating the turkeys. Appreciation is also expressed to MacDonald's for providing juice during the Turkeywalk. A special thank you goes out to those who participated in the Turkeywalk.

NEW CHRISTMAS SCENE — These figures in a Nativity Scene will be in a lighted display on the Lynn County courthouse lawn this season, and will be in place by Friday night's Moonlight Sale and Christmas kickoff event in downtown Tahoka. The set was donated by Mrs. Nora Autry of Tahoka, who said "I think this is a way for us all to be reminded to keep Christ in Christmas." The scene will be arranged by Tahoka Chamberettes. GO BULLDOGS

Mustangs Down Leopards In Quarterfinal Playoffs

The New Home Leopards came within eight points of tying the game Saturday night with 3:22 remaining in the fourth quarter at Wink but Fort Hancock Mustangs intercepted a screen pass and ran it in for a touchdown that enabled them to earn a state semi-final berth opposite Christoval with a hard fought 68-46 win.

New Home had trouble adapting to the wide-open spread offensive attack as Mustang quarterback back Jamie Aguilar passed for

214 yards and four touchdowns for a 36-16 lead at halftime.

The second half opened with two quick scores by Fort Hancock including a 72-yard touchdown run on the first play and another six points occurred just two plays later as Leopard quarterback Coby James was tackled in his own zone, and the ball was dropped and recovered by the Mustangs to take a commanding 48-16 lead.

Then the Leopards showed a lot of poise and came back strong as James threw two TD passes to Gaylon Paul that narrowed the Mustang's lead to 48-32 with 75 seconds left in the third quarter. Then it was Darrell Paul's turn to excite Leopard fans as he broke up the middle for a 26-yard score early in the fourth quarter. Then with 5:07 left in the game, he intercepted a Mustang pass and took it 60 yards for another Leopard score. New Home's rally made the score 54-46, but then they were stopped with a Mustang interception which was one of seven costly turnovers the Leopards' worst enemy. Leopard coach Dickie Turner, whose team finished 11-1 overall, said "Turnovers was what made the difference. That long run and then we drop the ball on a scramble...I guess without those 12 points and everything else the same we'd have gotten the lead."

James had six passes completed for 116 yards and three TD's for New Home. Darrell Paul had 21 carries for 117 yards and three TD's and Gaylon Paul had six passes receptions for 105

yards and two TD's. Shane Thompson caught a 17-yard pass from James for a Leopard touchdown in the first half.

OUT OF THE WOODS

By Juanell (Wood) Jones

TIMES HAVE changed. Do you know what the difference is between a child's birthday party 20 years ago and one today? No? Let me enlighten you.

First of all, there are the invitations. When I was a child, we invited our friends to our birthday parties the easy way: we walked up to 'em at school and said, "Come over to my house for a party." You can't do that nowadays. You must invest in invitations with cartoon characters on the front, at a cost of about \$3.95 for 8. After painstakingly printing in all the information, a child can then take these important cards to school, hand them to his friends, and say "Come over to my house for a party."

Be careful when choosing these invitations, because whatever motif is on the front of the card must, repeat must, be carried out in all other decorations. I'm talking about napkins, paper plates, paper cups, balloons, and paper tablecloths. White paper plates and napkins are not acceptable, and I assume the partygoers (and possibly even the

dog) will not eat off anything so repulsively plain.

Now you must choose the party favors. Any child who is invited to party these days expects a party favor bag filled with little plastic gadgets that don't do anything. These are considered important to a child, who may then take it home and add it to his collection of other useless plastic doo-dads in the toy closet.

A word to the wise here: never invite more than 8 to a birthday party. All party favors and decorations come in groups of 8. If you make the mistake of having 10 children at a party (I found this out the hard way), then you must buy 16 of everything in order to have enough doo-dads to give away. Then you have extra useless doo-dads at home with which to deal with. Mothers have been known to wander around the house for days after a party, trying to decide what to do with these extra doo-dads. I may have a doo-dad sale sometime soon.

If you think you are finished with buying preparations for the party, think again. A homemade chocolate cake is, once again, socially unacceptable these days at a birthday party. One must have a professionally decorated cake to carry out the motif of the party, one which the child can proudly display to his friends before Mom mutilates it by trying to cut out the one piece in the center of the cake that the birthday boy claims is his piece.

What have I forgotten? Oh yes...the presents. I spent an afternoon and half my life's savings at the toy store shopping for our son's 7th birthday gifts. Just one toy is considered poverty level gift-giving these days, so parents must comply with somewhere between 2 and 12 gifts so the child won't have an inferiority complex.

Kids these days can rip open gift-wrapped packages at super-sonic speeds. As parents, it is our responsibility to hone this talent to a fine edge by providing dozens of packages for them to practice on. Who knows, some day there may be olympic package-ripping competitions.

Anyway, back to the question I raised at the beginning. If you haven't guessed by now what the difference is, let me spell it out for you:

M-O-N-E-Y...

Gobs and gobs of it. Mountains of it. I figure I'm out at least a full week's pay with this birthday party.

Children are worth it, though. What's money compared to a child's happiness? Maybe I should invest in savings bonds which I can cash in periodically to provide doo-dads at the next party.

Free Glaucoma Tests Offered

The sheets Eye Foundation will be conducting free glaucoma tests Wednesday, Dec. 7 between 10 a.m. and noon at The Tahoka Senior Citizens Center 1600 S. 3rd, Tahoka.

Glaucoma is one of the leading causes of blindness in the United States. There are no symptoms and only with the finding in increased intra-ocular pressure is the diagnosis made. The high pressure in the eye causes damage to the optic nerve. This damage causes changes in the peripheral or side vision known as "visual field defect."

The central vision is not affected until very late in the disease, so the patient may look, see, and feel completely normal until it is too late.

The key to preventing blindness or visual loss is to seek periodic testing like the one being offered free at The Tahoka Senior Center by the Sheets Eye Foundation.

Glaucoma is not curable, but may be controlled with lifelong therapy. The primary treatment is medical, using eye drops, and only late in the disease, if eye drops fail to control the pressure, surgery is performed.

BREAST CANCER

The risk of getting breast cancer before menopause is only half as great among women who have ever breast-fed as among women who have not, reports the Fred Hutchinson Cancer Research Center, Seattle. The study covered lactation histories of 329 women, aged 25 to 54, diagnosed with breast cancer. These were compared with histories of women without the disease who were matched in age to the patient group. Long term breast feeding seemed to offer some protection against postmenopausal cancer as well.

The 9th grade girls lost to the

Idalou Wildcats, 18-43, on Nov. 14. Betsy Huffaker had 10 pts.; Lana Parker 5 pts.; Alicia Handley 2 pts.; and Misti Lobban had 1 point.

On Tuesday, Nov. 15, the JV Lady Bulldogs faced the Wilson girls. The Bulldogs came out on top, 20-14. High point scorer was Terri Solomon 9 pts.; Mary Roberts 5 pts.; JayJay Wiseman, Joyce Vega and Shelly Martin each had 2 pts.

"I'm glad we won. It was a big lift to the girls. I think we can be successful. We had very few turnovers and we played good defense," said Coach Qualls. "It is early in the season and our shooting needs work, this win will bring back a little confidence."

The boys' JV Bulldogs consisting of 11 players this year are being coached by the new head boys' basketball coach, Charles Jurden. "If my JV doesn't win every game this year, I will be very disappointed," said Coach Jurden. Lana Parker and Tasha Lawson got things going for the home team in the second quarter to take on a 7 point lead at halftime 25-18.

The third quarter belonged to Cooper as they had a 2 point lead, 40-38. Lawson scored 5 points and a three-pointer at the sound of the buzzer to tied the score. The Lady Pirates won the game 50-48 in an overtime contest.

On Nov. 19, the Jayton Ladybirds came to town and won the game 71-51. "Jayton has a real good team with a lot of playing experience. Last year they had a 27-5 record and lost one player, who is playing college ball," said Coach Qualls. The Ladybirds jumped out to a 21-5 in the first quarter lead. The offense picked up in the second quarter but the Lady Bulldogs defense could not stop the Jaybirds and halftime score was 42-16. Coming out for the third quarter, the Lady Bulldogs settled down and played basketball and the defense played better for a 57-31 score. The fourth quarter final score was 71-51.

"They outscored us by only 4 points in the second half, but the 26 point lead we gave up in the first half was too much," said Coach Qualls.

The Freshman girls traveled to Brownfield Monday night and got off to a great start. The first half had the Lady Bulldogs in the lead at 20-19. The second half belonged to Brownfield outscoring Tahoka 27-7. Coach Qualls said, "We couldn't make a

basket in the second half. It really was frustrating to sit and watch that happen. With our poor second half defensive showing on top of that made for even more worst ending." The final score was 46-27.

Tasha Lawson and Lana Parker each had 10 pts.; Misti Lobban had 4 pts.; and Betsy Huffaker had 3 pts.

The Lady Bulldogs' next Freshman game is at Shallowater on Dec. 5.

Better Business Bureau Of The South Plains, Inc. (806) 763-0459 - Lubbock, Texas

BBB Initiates New Program To Address Needs Of Senior Consumers

The number of scams and marketplace problems experienced by senior consumers is growing at an alarming rate. The Federal Trade Commission estimates that there is a five percent increase per year in the number of such scams.

This fact along with the growing number of seniors has prompted the Better Business Bureau of the South Plains to initiate a new Senior Consumer Counseling Program. The new program is made possible through a grant from the Junior League of Lubbock.

The grant has enabled the Bureau to employ a senior consumer project manager to develop and implement the program. The program basically provides three services: public education, individual counseling and investigations of scams. The Junior League is providing volunteers to speak to any and all senior citizen organizations about protecting themselves in the marketplace.

In announcing the program, Bureau Chairman of the Board Robert Clark stated, "The Bureau and the South Plains are tired of seeing our seniors abused in the marketplace and now, thanks to the Junior League, we have a program to address the problem."

Holiday Stress For Non-Traditional Families

The Thanksgiving and Christmas holidays can be a source of joy- and of stress- for single-parent and step-families.

The divorce and remarriage statistics tell us that there are a high percentage of non-traditional families in every com-

munity. Thirteen percent of all children under 18 now live in a stepfamily; 17 percent live in single-parent families.

Even on television sit-coms, non-traditional families are now the norm. Yet parents and children in these families often feel "different," especially around the holidays.

One reason is that most of us have strong, idealized images of the holidays, with mom roasting the turkey, dad fixing a fire and the whole family happily gathered together at grandmother's house. These images

have been reinforced through decades of advertisements, songs, movies and television. Children in step-families or single parent families may see this as sharp contrast to their own situation.

Children should not feel like they are alone or the only person experiencing this stress. One of the best antidotes is simply to talk about it. For younger children, check the library for books about non-traditional families that you can read together. This will give you a common ground for discussing feelings.

Well in advance of the holidays, decide where and how children and stepchildren will spend their time without placing them in the middle of disagreements among ex-spouses, parents and stepparents.

Remember that the bonds in step-families often grow to be very strong. As a result, a child may miss stepbrothers or sisters and feel sad about missing the family celebration when he or she spends the holidays with the noncustodial parent.

Parents and stepparents may need to talk with children and

Blood Drive To Be Held

The Ladies Auxiliary of Lynn County Hospital in cooperation with United Blood Services will sponsor a Blood Drive on Wednesday, Dec. 7 from 5-8 p.m. at the First United Methodist Church Fellowship Hall.

If you have any questions, call Nadine Dunlap at 998-5135.

help them deal with these feelings. Sometimes, the non-custodial parent will recognize that children want to be at home over the holiday itself, and will make arrangements for a visit before or after their child's step-family celebration.

If necessary, remind relatives that children and stepchildren should be treated similarly. These courtesies should extend to gift-giving, family celebrations and ceremonies, family pictures on Christmas cards and other activities.

Homemaking Trends

It is estimated that nearly 80% of U.S. households will have a microwave oven this year. This versatile appliance has captured the hearts of homeowners because of its quick cooking capability and easy operation.

One of the best features a microwave oven offers is easy cleanability. A simple wipe-up with a soft cloth or sponge takes care of most spatters. But, even more important than just keeping the appliance looking nice, is the fact that frequent cleaning also helps ensure the best cooking performance.

According to KitchenAid home economists, food soils in the oven absorb microwave energy that should be used to cook the food. In addition, unpleasant odors may develop if food soils build up on the interior surfaces. The home economists suggest you keep a roll of paper towels handy near the oven to wipe the oven's interior when you notice a spillover. If more than a quick wipe-up is needed, use a soft cloth dipped in mild detergent and rinse with warm water. For stubborn soils, boil a cup of water in the oven for two or three minutes. The steam will soften the soil for easy removal.

Retirement Homes
For people who'd like to retire to a warm climate but still have enough money left over to take a couple of trips back to the old neighborhood each year, there's an affordable option in Ajo, Arizona.

The 1984 closing of Ajo's copper mine left hundreds of miners' houses vacant. Beginning in 1986, they were put up for sale. Today, over 300 homes have new owners, and dozens of empty houses are available from about \$25,000 to \$40,000. As word of the low prices has spread, the rate of sales has increased: 66 homes sold in 1987 and 117 homes were sold in the first eight months of 1988.

Many retirees like Ajo because it embodies an American tradition of small-town neighborliness. Crime is virtually nonexistent in Ajo, people smile and say hello, and fish fries, club meetings and school events are popular.

Ajo is loveliest in winter—a typical January day is 60 degrees under sunny, clear skies. This winter, visitors can linger at Ajo's RV parking area or new bed-and-breakfast inns while choosing a retirement home.

For free information about this scenic community, write the Ajo Chamber of Commerce, P.O. Box 507, Ajo, AZ 85321.

After some time in Methodist Hospital, Jean Ray was able to return home Monday. Vicki, Bubba and Krystal are with her.

Roy, Pauline and Bryan Smith from Tokyo, Japan came Nov. 10 to visit his father, Don Smith and family, his sons, Gary and Greg, and his grandparents, Wayman and Alice Smith and other relatives and friends. All the family were together for Thanksgiving. They are returning to Japan early this week. Wayman and Alice observed their 64th Wedding Anniversary Tuesday.

Wayman says he has lived in New Home longer than any other person living today.

Joe and Faye Armontrout from Granite Shoals are here for about 6 weeks with their daughter, Jolene Barnett and family and visiting with friends.

GTE Southwest Customers Subject To Price Increase

In accordance with recent Federal Communication Commission action, all single line business and residential telephone customers across the nation, including those served by GTE Southwest, will be subject to an increase in their interstate Subscriber Line Charge from the current \$2.60 per month to a \$3.20 per month.

This 60 cent increase in the interstate subscriber line charge is effective Dec. 1 and is the third phase of a federally mandated process that is intended to gradually eliminate the practice of charging customers more for long-distance service in order to keep local rates artificially low.

Business customers with more than one line have been paying \$6 interstate subscriber line charge since May 1984. This interstate subscriber line charge for business customers will not change.

Under the Federal Communications Commission plan for implementation of the interstate subscriber line charges,

the total revenues of the local telephone companies will not increase since the FCC in turn will reduce by an equivalent amount charges to long-distance carriers for use of local facilities and equipment. It is the intent of the FCC that this decrease in long-distance carriers' expense will be passed through to consumers in the form of reduced interstate long-distance rates.

GTE officials said the interstate subscriber line charges are designed to shift from long-distance users to local customers, a larger portion of the actual costs of providing the line from their residence or business to the telephone switching equipment.

Depending on the amount of interstate long-distance calling, the reductions for interstate rates could offset the \$3.20 interstate fee for many customers, especially high volume users.

The \$3.20 interstate subscriber line charge applies to all residential and single line business customers of all exchange telephone companies providing local exchange service.

NOTICE TO POKA-LAMBRO SUBSCRIBERS END-USER CHARGE INCREASE

Effective December 1, 1988, the interstate subscriber line charge will increase by 60¢. This charge is mandated by the Federal Communications Commission. This 60¢ increase will be followed by the final increase of 30¢ in April, 1989, and will complete the \$3.50 cap set by the FCC in 1985. This \$3.50 has been phased in over a 5 year period as required by the FCC.

The end-user charges are designed to recover a portion of costs of connecting telephone customers to the Nation-wide telephone network that in the past were recovered through interstate long distance charges.

Due to the changes in the telephone industry and increasing competition in long distance telephone service, the FCC determined that it is no longer appropriate to recover certain local network costs through long distance charges, thus the end-user charges were implemented. 48-1tc

Grazing Management For Winter Pastures

Because of the dry fall weather this year, proper management of winter pastures is more critical than ever.

Winter pastures must be used efficiently, that means some type of grazing management, said Cypert, county agent.

Which system is used dictates the degree of management required.

A simple rotation grazing system with two or more pastures is easy to implement, said Cypert. All animals are put on one pasture while the other pastures grow more forage. When the first pasture has been fairly well grazed, the herd is moved to a second pasture for grazing, and so on. With total rest, grazed pastures should produce some regrowth for later grazing.

For a more intensive grazing management system, a type of limited grazing may be a good choice, Cypert said. Dry cows can be grazed for two to four hours every other day on winter pastures. Some other forage like hay would be necessary while animals are off the pasture. In effect, winter pastures would be the protein supplement for these animals.

Wilson School Menu

DEC. 5-9
BREAKFAST

Monday- Cereal, toast, orange juice, milk.

Tuesday- Honey bun diced pears, milk.

Wednesday- Malt-o-meal, toast, pineapple juice, milk.

Thursday- Pancake with butter and syrup, grapefruit juice, milk.

Friday- Cinnamon toast, applesauce, milk.

LUNCH

Monday- Chicken strips, broccoli and rice, casserole, black eye peas, biscuits, peach half, milk.

Tuesday- Pork chops with gravy, cream potatoes, English peas, pink applesauce, hot rolls, milk.

Wednesday- Cheeseburger with fixings, tator tots, chocolate chip cookies, milk.

Thursday- Polish sausage, pinto beans, spinach, cornbread, cherry cobbler, milk.

Friday- Steak with gravy, cream potatoes, green beans, hot rolls, orange jello with pineapple, milk.

Cows with calves, steers or growing heifers should be allowed to graze high quality winter pasture every day, for about two hours.

With such a system, weight gains will not be great but should occur, said Cypert. The important feature is that grazing days per acre can be increased by limited grazing.

According to Cypert, livestock will become trained to the type of grazing management selected. Under rotation grazing, livestock will be more than willing to change pastures once the pasture they are in is grazed down.

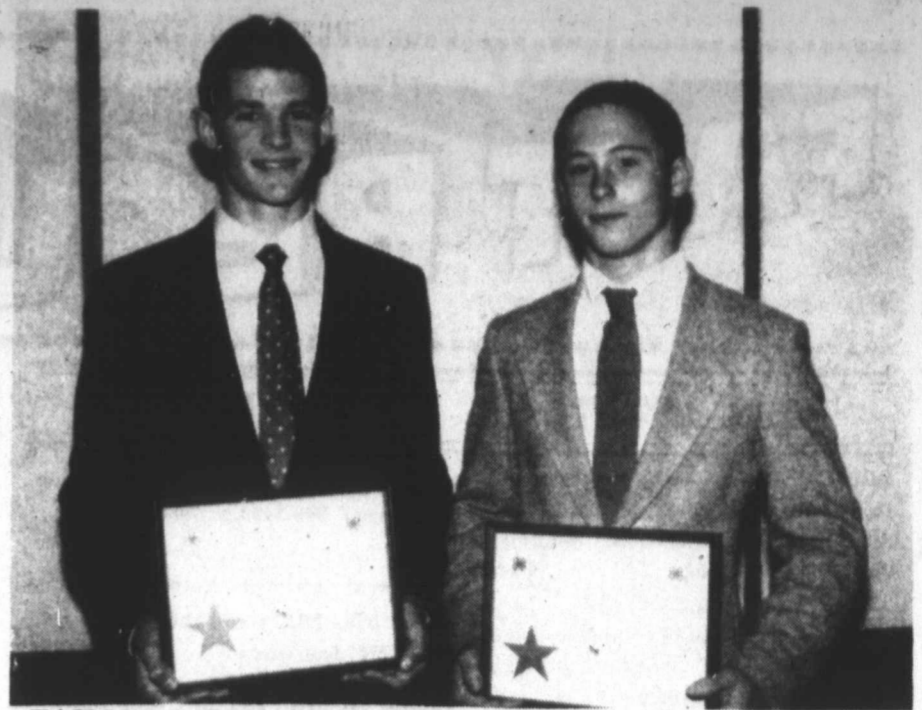

Under any form of limited grazing, livestock becomes trained in about two weeks. After being herded off the pasture regularly for several weeks, they become trained and start leaving on their own accord. Thus, actual work involved becomes minimal.

Between rotation grazing and several variations of limited grazing, some type of grazing management can be adapted to anyone's use, said Cypert. It may stretch winter pastures enough to last the season.

Turkey Dinner To Be Held
