### PUBLIC SCHOOLS WEEK

## Schools Open Doors To Visitors Next Week

Next week is "Public Schools Week" in Texas, and schools in the surrounding area are preparing to welcome parents and friends who are urged to see the exhibits and programs which will be given.

Muleshoe schools all have special programs planned. Featuring the elementary schools' slate is the annual Science Fair, whose exhibits will be on display at Richland Hills and Mary DeShazo Elementary schools.

The open house at both Muleshoe elementary schools will be from 7:30 to 9:30 p.m. Monday. Students from the fourth through the sixth grades have entered projects, and first, second and third prizes will be awarded in each grade.

**ENTERTAINMENT**  
A program will be presented by Miss Kathy Phillips and the sixth grade band at 7:30 p.m. in the Richland Hills Cafeteria Monday. At the same time at Mary DeShazo, films will be shown in the Cafeteria on the Texas State Teachers Association.

The Muleshoe High School and Junior High School programs have a special open house scheduled for Tuesday night, with special short periods in which the parents may go through their children's "schedules."

The junior high schedule is: first period, 7:30-8:10; second period, 8:10-8:50; third period, 8:50-9:30; fourth period, 9:30-10:10; fifth period, 10:10-10:50; sixth period, 10:50-11:30. The rooms will remain open until 9 p.m. At high school, the schedule will be similar, except that the

### Dimes Campaign Raises \$120 In School System

Jeff Peeler, county chairman of 1962 New March of Dimes drive, announced today that the drive through the Muleshoe school system brought in \$120.45.

The totals broken down were Richland Hills Elementary—\$66.23; Mary DeShazo Elementary—\$21.48; Junior High—\$17.50 and High School—\$15.44.

Dimes officials wish to thank Robert Garlington, Helene Beckert and the MHS Student Council for supervising the campaign through the schools. Peeler said the campaign was to extend to the businessmen this week, and should be completed soon.

"periods" will only last five minutes, with a five-minute break between each.

Between 8 and 8:25, girls and boys P. E. periods will be featured in the gym.

**DISPLAYS LISTED**  
Special displays at MHS include those by the Spanish Club in Room 9, the Speech Club in Room 14, the Future Teachers, in the Student Lounge, Science in Room 2 and one on Counseling.

Tuesday, March 6 is the special visitation day at Lazbuddie High School, with an assembly at 2:30. The PTA is to meet Monday night at 8 p.m.

No special programs were announced by Bula, Three Way or Muleshoe's Hilltop schools, but school officials urged parents and friends to visit the schools during the week to see the exhibits and displays.

### NEXT WEEKEND

## Prize Money Rolling In For Junior Stock Show

The annual Bailey County Junior Stock Show will be held next weekend, March 8-9-10, and directors are trying to complete their fund drive to assure top prize money being awarded the winners.

As of Wednesday noon, two directors had completed their drives, and reported \$540 toward the prize fund. Bud Warren, recently appointed director for the Maple community, was the first to complete his drive, and raised over \$200 for the fund.

County Agent J. K. Adams said he was hopeful that the other directors would be as successful, as they wind up their campaigns. A total of \$2,000 is needed to meet prize money obligations.

The show is sponsored jointly by Bailey County 4-H Clubs and the Future Farmers of America.

### IN BI-DISTRICT

## Mullettes Lose Game But 'Teach A Lesson'

The Muleshoe High School Mullettes will not be in the regional tournament this week, but the team that beat them out of the honor was given such a lesson in basketball that they should be able to go all the way to the state championship.

### RECORD IS CLEARED

## Re-vote Taken After Charges Dismissed

The Muleshoe Independent School District Board of Trustees, unable to back up their charges of two weeks previous, Monday night voted to retract the charges against Bill Taylor, head coach and athletic director, and further voted to offer him the job back, if he would accept it.

Taylor apparently was satisfied with the revote. He had told the board members prior to their vote "I honestly believe that I have been an asset to your school, but the main thing I'm interested in is having my record cleared."

**CHARGES QUESTIONED**  
The Muleshoe Coach had requested the hearing to have definite explanations of the charges made against him when his contract was not renewed: dissension and lack of control of outside groups and the athletic setup.

He challenged the board members to prove their charges, but none came up with a definite instance which could be properly classed as basis for a firing.

Dr. B. R. Putman, president of the Muleshoe School Board, explained Tuesday night that the reason the public was not admitted to the board meeting was because it was a special called meeting, and the board has the right to close a special meeting.

After more than an hour of deliberation, a motion was finally properly introduced to throw out the charges. More discussion followed, as one member wasn't quite ready to vote.

When the vote was made, the motion carried at first by 3-1 but then member Murl Stevenson changed his vote to make it unanimous to dismiss the charges.

Taylor left the school at 11 p.m., thanking the members for their consideration.

One board member suggested that the group take a revote on the contract renewal out of consideration at what had happened, and especially since they at the time had a man fired "for no apparent reason."

**CARRIES 4-2**  
But there followed more discussion before a motion was passed to rehire Taylor. The motion carried 4-2 this time, with Stevenson and Barry Lewis dissenting.

Other action at the special meeting found the board approving the selection of the textbook committee.

### Only One Files As Date Nears

As of Wednesday, only one person had filed for the Muleshoe School Board election. Two seats are to expire, those of Jack Lenderson and Harold King.

John Smith is the lone candidate thus far. The deadline for filing is 5 p.m. next Thursday, March 8 at the School Business Office.

### Spring Weather Was False Alarm

The unusually warm sunny February weather which had started many local plants and trees sprouting, came to a chilling halt last week with a sudden cold front.

The week's low was listed by official recorded R. J. Klump as six degrees on Wednesday.

The official report for Muleshoe for the past week is:

Thursday, Feb. 22	59 35
Friday, Feb. 23	61 31
Saturday, Feb. 24	64 16
Sunday, Feb. 25	50 16

## Observance of World Day of Prayer Scheduled For March 9

On Friday, March 9, Christians in more than 150 areas of six continents and the islands of the sea will participate in the observance of World Day of Prayer. Rejoicing in the remembrance of last year's seventy-fifth anniversary of this important day in the Christian calendar, men, women, and children will gather again this year for services of worship in their own communities.

The First Methodist Church of Muleshoe announced plans today for the local observance. "Ours will be one of thousands of communities in the United States which will be holding a World Day of Prayer service," stated Mrs. Dean Bishop, president of the local W.S.C.S.

"For God so Loved the World" is the theme of the 1962 observance. The service this year comes from Christian women in Uruguay where it was written by Miss Violeta Cavallero and Mrs. Eudoxia Perez de Svetogorski, both of Montevideo. Miss Cavallero is a deaconess of the Methodist Church and director of religious education at Crandon Institute. She is responsible for the Radio Methodist Hour, broadcast weekly in Montevideo, and is the author of various meditation booklets.

The widow of a professor of music and mother of four children, Mrs. Svetogorski is a former president of the Uruguay League of Evangelical Women. She contributed greatly to the development of its work in the Prison House in Montevideo. The service written by these women will be translated into more than sixty languages and one thousand dialects.

In Muleshoe the World Day of Prayer service will be held at the First Methodist Church Chapel on Thursday, March 8, at 7 p.m. All other churches are being asked to participate in this service since it is an interdenominational program sponsored annually by United Church Women, representing 12 million Protestant and Orthodox women.

The day begins at dawn on the Tonga Islands in the Pacific where Queen Salote leads her subjects in prayer. This service has become almost a tradition in observances of World Day of Prayer. Following the sun around the world, the women's prayers will be offered in cathedrals, in churches of brick and of thatch, and out on doors. They will also be conducted by church women in hospitals, schools, business offices, and factories. The final service is held on St. Lawrence Island, Alaska, where fishermen stay home from their nets to observe the Day of Prayer with

their families. Offerings received on World Day of Prayer in this country are divided between the Davisions of Home and Foreign Missions which carry on interdenominational work. In the United States the prayers and gifts help to recruit, train, and supervise staff and volunteers for many and varied types of Christian service.

In the Migrant Ministry, funds are provided for recreation centers, vocational and homemaking schools, day care centers, and programs for responsible citizenship. Help is also provided to pastors in poor rural areas to continue their education.

Religious work directors are provided for Indian American youth and guidance is also given to churches serving Indians moving into industrial centers. In Alaska the World Day of Prayer is furnished specialists in church planning and social welfare, counseling to U. S. service families and Alaskans "in transition" and supporting a chaplaincy service in government hospitals in Anchorage and Sitka.

Overseas the offering helps prepare men and women of many nations for Christian service in home and community through World Day of Prayer support of twelve interdenominational Christian colleges. They are located in Africa, Hong Kong, Korea, Japan, Pakistan, and India. Thanks to these gifts, the Committee on Christian Literature for Women and Children is enabled to provide hundreds of books and magazines helpful to Asian, African, and Latin American countries in developing Christian home and family life, better child care, sanitation, and health.

World Day of Prayer fills the great need for Christians to understand world problems and to work and pray for their solution.

## The Patrick Henry Address Wins Second at Sudan

Larry Allison, son of Mr. and Mrs. Gerald Allison gave his prize winning Patrick Henry address at the talent show Saturday night in Sudan. He was awarded second place and \$35.00 prize. The show was sponsored by the Sudan Jaycees.

Allison, a M. H. S. Sophomore, gave the address at the last July 4 celebration held at the Muleshoe Football stadium and won first place.

## ENGAGEMENT REVEALED

Mr. and Mrs. D. E. Atkins announce the engagement of their daughter, Dianne, to Ronnie Gustin, son of Mr. and Mrs. C. E. Gustin.

Miss Atkins is a graduate of Muleshoe High School, class of 1960 and is presently employed as a dental assistant for Dr. B. Z. Beatty.

Gustin is a 1961 graduate of Lazbuddie High School. He attended T.W.C. College in Ft. Worth and is presently engaged in farming in the Lazbuddie community.

## Girl Scout Troop To Sing on Annual Birthday Program

Girl Scout Troop 375 met Monday at 4 p.m. at the Scout Hut. The project for the afternoon was practicing songs that they will sing at the annual Juelte Lowe Birthday party which will be held March 17 at the Lubbock Municipal Coliseum.

The Troop will sign "Home on the Range," "Star Spangled Banner," "America the Beautiful," "God Bless America," and "Make New Friends."

Both patrols of the troop participated in games played following the business meeting and singing. Refreshments were served by Janie Higginbotham.

## Frank Peery Attends Directors Meeting

The Rev. J. Frank Peery, pastor of First Methodist Church, Muleshoe, was in attendance last week at the Director's meeting of TANE, Inc. (Texas Alcohol and Narcotics Education, Inc.)

This is the state organization that heads prevention and rehabilitation and legislative emphasis against alcohol and narcotics in the state of Texas.

The meeting was held on the campus of Baylor University, Waco.

He also attended the winter meeting of the Texas Methodist Planning Commission which met on Friday at Southern Methodist University, Dallas, reported Alex Foy, Educational Director of the First Methodist Church.

## Muleshoe Jewelry Will Bring New Manager From Big Spring

Mr. and Mrs. Loyd Earl Duncan of Big Springs will be moving to Muleshoe soon, where he will take over as the new manager of Muleshoe Jewelry. The Jewelry store, formerly owned by Mrs. Sallie M. Schuster and Mrs. Anna Mathis has been sold to Vic Alexander and Associates, owner of a chain of jewelry stores

in Texas and Wyoming. Before assuming the new position in Muleshoe, Duncan and his wife, Gloria who is a practical nurse, were active in the Baptist Church and in club work in Big Spring. They have two sons, Dana Allen, age four, and Andrew Charles, age one.

The 32-year-old Duncan, born in San Angelo, is extremely interested in athletics, and in Big Springs, was active in Little League Baseball in bowling and in local gun club. Duncan studies watch making and repair in San Antonio and has had several years experience in that line.

Vic Alexander, new owner of the store, and his partner, Grady Franklin Maples, have business interests in the area and have had the jewelry store in Big Spring for about 13 years. Alexander also has two other stores in Wyoming. He makes his home in Cheyenne, Wyo. and is also associated with the wholesale jewelry business.

Alexander is in Muleshoe for about two weeks getting the business underway and will be visiting in the city periodically.

"We are very pleased to have located a jewelry store here in Muleshoe. We will try to give you a quality store and will be adding new lines from time to time," Alexander also spoke of plans for remodeling the store sometime in the future.

Mrs. Raymond Purdy, a Muleshoe resident for nearly three years will act as bookkeeper and will handle sales. Mr. and Mrs. Purdy, live at 1527 Clovis Road. He is the owner of Purdy Motor Machine Shop. They have three children, Kim, age eight, Kenny age six, and Marla, age four.

Other employees in the store will be Nadine Fret of Bula and Dana Both Orr of Muleshoe.

The store will hold its grand opening Friday and will have free gifts for those attending. Mr. Alexander urges everyone to come by and meet the new manager and the employees.

And  
MRS. H. E. SCHUSTER  
Former Owner  
OF  
MULESHOE JEWELRY  
SAYS . . .

It is with mixed emotions and a heavy heart that I announce the sale of Muleshoe Jewelry to Vic Alexander and Associates. We shall surely miss the many friends and customers we have made during the past 12 years.

Our experiences operating MULESHOE JEWELRY have been pleasant and most rewarding, and we sincerely Thank You for your support and patronage, and we look forward for the opportunity now of having time to just visit with our many FRIENDS.

We urge you to come into the Muleshoe Jewelry and meet the new manager Mr. Loyd Duncan, and hope you will continue to give him the fine support you have given us.

Our Home will of course remain in Muleshoe. Again Let Me Say--

Thank You  
MRS. H. S. SCHUSTER

### Mullettes Lose--

(Continued from Page 1)  
 "I felt we deserved to win the game," said Coach Louis Powers. "Our team seemed to be better prepared for them than they were for us. We carried the fight to them."

But Powers admitted that he was "Real proud" of his team's effort, which he called the best of the season, although saying thought of outplaying a team and then losing was hard to swallow.

Muleshoe took charge early in the game, building up a seven-point lead against the play-off-shaky Hornets, leading 16-9 at the end of the first quarter. Trudy Davis led the first quarter surge and wound up the first half with 18 points.

Tulia began to cut into the lead somewhat late in the second quarter. Behind 27-21, they cut the lead to three points at the half, 29-26. The Hornets scoring was evenly distributed in the first half with Cheryl Culwell hitting 10, Jan Burrows 9 and Carol Loftin 7.

Culwell opened the second half with a bucket to slice the lead to a point, and later after the Mullettes had hit on a basket by Davis and a free toss by Mary Wedel to go out front by five points, she picked up a three-point play to cut it to two points, 34-32.

Ira Inman hit a set shot and Wedel added another free throw to again send Muleshoe out front by 5, and at the end of the third quarter they seemed to have things well in hand with a six-point lead, 41-35.

Then, leading 45-39 with 5:44 left in the game, Culwell hit a jump shot, Loftin followed with another, and then Culwell canned two free tosses to knot the score at 45-45 with 2:51 left.

Loftin was called for holding before the ball was ever thrown in, and Davis hit both free throws for a 47-45 Muleshoe lead. Burrow pushed through a set shot and Culwell hit two free throws to put Tulia out front 49-47, but Loftin picked up her fifth foul in a few seconds.

Davis hit both free throws again to tie the score, with Culwell offsetting them with two of her own for another two-point Tulia lead. With :20 left, Davis had a one and one situation, and missed, but the ball was tied up on the rebound and Wedel picked off the tip and hit a lay up for another tie.

Tulia moved the ball quickly down the court with Culwell attempting to drive, but she was fouled with just :04 left. She hit both free throws, and although Muleshoe called two time outs in trying to get their last chance to tie up the game, they could never get it away, and Tulia was the new bi-district girls champion, dethroning the Mullettes.

Both teams lost valuable players by the foul route in a game played before about 1200 fans who were treated to a fine game.

Muleshoe lost two guards, Donnie King and Brenda Melson. Tulia lost forward Carol Loftin and their top notch guard Lynn Hardee.

The Hornets now move to the regional tournament in Lubbock where they will play Tahoka, a 59-27 winner over Alpine last Monday.

### WTSC Pageant Localites Attend

Selected to go to West Texas State College Personality Pageant last Saturday to represent Muleshoe High School were LaNelle Booth and Robert Garlington. Garlington and Kerry Moore were able to attend the pageant at which all of the Panhandle and South Plains High School's King and Queens were present for the Saturday festivities. A banquet and dance highlighted the evening's program.

**ALL SIX STARTERS** on the Muleshoe High School Mulettes team, who were given all-district honors are shown with their coach, Louis Powers. They are forwards Ira Lea Inman (honorable mention), Mary Wedel and Trudy Davis (first team), and guards Brenda Melson (first team), Kay Thomson (honorable mention) and Donnie Mae King (first team).

### Outsiders Cage Team Loses Hope For Regional Play

The Muleshoe Outsiders basketball team lost its chance to go to the regional tournament in Amarillo when they lost an 82-66 "bi-district" game to Post at Lubbock Monday night.

The Muleshoe five had won the Southwest Panhandle League championship the previous week by beating Hereford, 80-63 and Tulia, 48-46, in the league tournament.

The team outscored Springlake, 100-87 in a special game to assure them the round-robin league title. Every starter was in double figures in this game, led by Warner Lawson and Gordon Wilson, who had 20.

The team had expected to go to Amarillo by virtue of winning its league title, but when the regional meet became too crowded, they were matched against Post in a playoff game.

Fouls hampered Muleshoe against Post, as they played the last few minutes of the game with four players, and finished up with only three players.

### BROWNFIELD NEXT

## MHS Spikers Look Good In First Meet

The Muleshoe Mules track team, after an encouraging showing in their season-opening track meet last week at Fort Stockton, will enter the Brownfield Relays Saturday in their second outing.

The Mules were a pleasant surprise in finishing third in Division II of the Comanche Relays last Friday and Saturday at Fort Stockton, scoring 48 1-28 points.

"We were real proud of the boys last week," remarked Coach Bill Taylor. He hinted that the team might have trouble faring as well this week, since all the schools, large and small, win run together.

### Three Way Falls In Bi-District Playoff Contest

The Three Way girls basketball team lost out in their bi-district contest to strong Cotton Center, 56-36, after winning the first district championship for the school since it has been playing in district round robins.

The district title was achieved by beating rival Bula 48-44 in a playoff game last Friday at Morton. Bula had beaten Three Way for the round robin title after they tied in the standings, but Three Way made another play off necessary by winning the district tournament.

Linda Sims led Three Way's Theresa Hall had 22. The Eagles tied had to come from behind, trailing by one point at the end of each of the first three quarters.

Bula's Teresa Hall scored 22 points. Bula ended its season with a 22-8 record.

Miss Sims scored 22 points in Monday's bi-district game at Littlefield, but that wasn't enough, as Three Way's season was ended on a 25 record.

Coach Sam Mayo at Three Way has hopes of continuing the winning trend with his girls teams, as he had a junior high team which posted a perfect 18-0 record for the season.

### ALL SIX MENTIONED

## Mullettes Dominate All-District Squad

Muleshoe High School's Mullettes, who breezed to the District 2 - AA basketball championship with a 10-0 record, dominated the all-district team with four members being named to the first team.

All six of the Mulettes starters were honored on the team, with two gaining honorable mention, all-district.

Named to the first team at forwards were Mary Wedel and Trudy Davis. First team guards Brenda Melson, Forward Ira Lea Inman and guard Kay Thomson made the honorable mention list.

Four players each from Abernathy and Lockney were named to the team. Morton had three places, and fourth-place Olton had two.

The other girls named to the first team were Betty Johnson of Abernathy and Karen Ashton of Lockney, forwards, and Gladys James, Olton, and Janice Addison, Abernathy, guards.

Other second-team forwards were Gayle Nicholas, Olton, Jan Alexander, Floydada and Nancy Webster, Lockney. Other second-team guards included Juanello, Lockney, Penny Lewis, Morton and Joy Nixon, Floydada.

Besides the two Muleshoe girls named honorable mention were Jim Ramsey, Morton, Lajuanna Rimmer, Floydada, Janie Brown, Abernathy, Peggy Davis, Abernathy, Miki Heilin, Morton and Betty Nelson, Lockney.

### Young Is Selected As First Team All-District Cager

Jim Young, high-scoring Muleshoe High School cager, was named to the first team all-district basketball team, it was announced today, and Wayne Malone was chosen to the honorable mention team.

Young, who set a new one-game school scoring record in the season finale against Olton, joined such stars on the mythical team as Floydada's Rodney Teague, who was unanimous all-state, as announced this week.

Others on the first team included Lavon Baughman and Robert Holland of Lockney and Larry Florence of Abernathy.

The second team was composed of Ronnie Kidd and Ronnie Belt of Lockney, Johnny Schenck, Olton, Darrell Lindsey, Floydada and Steve Middleton, Morton.

Joining Malone on the honorable mention list were Gary Johnson, Jace Miller, Abernathy, Jan Hope, Abernathy, Wilburn Zuber and Dan Trice, Morton and Eddie Davis, Abernathy.

**THE MULESHOE OUTSIDERS** basketball team, which won their district championship and are shown with their trophies are: back row, James Elder, Glenn Watkins, Gene Paul Jarman, Gordon Wilson and Benny Walters. Kneeling are Bobby Nichols, Eugene Shaw and Jerry Don Glover. Not shown are Warner Lawson, Bobby Graves, Gary King and Carl White.

### Sheriff's Report

Bailey County Sheriff's officers reported arresting a suspect during the week in connection with the break-in at the Muleshoe Co-op Gin last October.

Other arrests included one for investigation of car theft, one for drunkenness, and three for worthless checks, and one for felony worthless check.

The highway patrol arrested one for vagrancy. Muleshoe city police arrested one person on a drunk charge.

Amarillo police arrested a man for forgery and passing, and he has been charged with the same offense in Muleshoe.

### Tech Braces For Last Conference Basketball Tilt

LUBBOCK — Texas Tech's last game will be played with Rice University in Houston Tuesday, March 6.

Coach Gene Gibson's Red Raiders won road games with Texas Christian and University of Texas, and returned home to beat Texas A&M, to stay in a tie with SMU for the Southwest Conference leadership. Should a tie for the title by the two schools result, a one-game playoff on a neutral court will determine the conference's National Collegiate playoff representative.

In the playoffs the Southwest Conference school will meet Air Force Academy on the SWC team's court March 12, with the winner going to the Midwest Regional tournament at Manhattan, Kansas.

**WESLEYAN GUILD MET WITH ELIZABETH HARDIN**

### To Attend Area Homemaker Meet

The 1962 Area I meeting of the Future Homemakers of America will be held March 3, 1962 at the Amarillo City Auditorium.

Approximately 60 girls from the Muleshoe F. H. A. Chapter will attend the meeting with their sponsors, Mrs. Herd and Mrs. Bradley.

Sandra Scott will sing in the Area I Chorus and Jeannine Coffman will run as candidate for Area I second vice-president. Both girls are from the Rose Chapter of the Muleshoe F.H.A. Chapter.

## now join the world's greatest V-8 collection

405-HP THUNDERBIRD V-8—Thirty years of Ford experience culminate in this startling V-8. Available in every Galaxie, it puts 405 horses under the throttle, a dazzling level of acceleration that cannot be imagined but must be felt. A super-performance option, it comes only with the four-speed gear box. But, unlike some "special" engines that require delicate tuning and modification, it puts out its potential right off the showroom floor. Even more impressive, Ford skill has made it a docile tiger; it idles smoothly, it is durable, its super capacity does not come at the expense of harshness and noise. Among expert drivers, it is praised as a true high-performance V-8 in America . . . the pace-setter for 9 other V-8's tailored to every driving need.

NEW FAIRLANE CHALLENGER "260" V-8—When the 221-cubic-inch Fairlane V-8 appeared last fall, automotive writers hailed it as a great basic advance, a compact jewel of design. Now, the "260" V-8 proves their prediction. With 164 hp, 19 more than the standard version, Fairlane gains a new brilliance of performance—but it still runs on "regular," still outsaves any standard-size Six. It has the durability of time-tested cast iron, slimmed and lightened by Ford's precision-casting technique. Created by the one maker who has built 30,000,000 V-8's since 1932, it brings the sparkle and smoothness of V-8 power well within the thrifty budget's reach, puts truly sophisticated engineering at the service of truly economical motoring.

## Parmer County Farm Bureau News

By RAYMOND EULER

The third Annual Oklahoma Citizenship Seminar for High School Students will be held on the campus of Oklahoma Christian College, Oklahoma City July 9 through 13. Bureaus in Texas are sending students to these seminars.

If enough interest is shown, we believe directors of this county may find a way to send from one to four students. We hope it develops that way, anyhow. Primary qualifications for candidates to attend are: Character Scholarship, Leadership ability and Public Speaking Ability.

Nominations will be made by the school administrators. We believe this would be one of the most interesting and profitable five days a high school student could spend anywhere.

We will announce soon whether we will announce soon whether Parmer county Farm Bureau will participate in the sponsorship of

### Letters TO THE EDITOR

Dear Folks: Please excuse me for being late in answering your very kind letter, but I was waiting to be sure of getting letters from the Bellers at Sudan, Texas. I'm sorry but I have never had a word from them, but if ever I do I'll surely let you know. I had a letter also from Ladd Pontiac so if you see any of them give them my thanks.

Perhaps you wonder at this loss but the doctors sent us to Rocky Ford, Colorado, in 1905 for my health. My husband, father, and children came later, stayed a short time and went back to Oklahoma, married again and died, leaving four other children of which later were put in Masonic homes. I was adopted and couldn't be found, but in past years I have located the older girl, then married, but have lost contact with her. I am now 79, my husband died last February, then grandmother of Marvin Griffith was killed at Bledo and buried in Muleshoe.

Bill Hamblin of Muleshoe is my nephew and Jink Beller and sisters are Mr. Beller's nephews and nieces. I have two daughters, Mrs. Dorothy Griffith here and Bloye in Denver.

Thanks again to all of you and may God bless you.

Mrs. W. S. Beller Rocky, Ford, Colo. (Editor's Note: Mrs. Beller wrote The Journal after reading accounts of the Jet plane crash 16 miles from Muleshoe, in order to get in touch with the Mac Bellers - either E. C. or Ed Beller on the routes out of Sudan - as possible relatives. She would indeed appreciate any leads from readers of The Journal.)

A resident of Amarillo four four years, she attended school in Snyder and was graduated from Snyder High School.

She is the mother of three-year-old Thersa Kay, and they will reside with her parents, Mr. and Mrs. A. G. Taylor, 107 West Sixth.

some students for the seminar. If it does, it will have to begin soon, because applications are accepted on a first come first served basis. Either boys or girls who meet the general qualifications mentioned above.

Four hundred and seventy five of the nation's 487 Production Credit Associations are now completely farmer-owned. There is only \$475,000 of government-owned stock in the other twelve associations.

We remember several years ago when Farm Bureau was asked to help sever government interest in these associations when they became self sustaining. They had asked and got government aid in beginning, but they wanted their independence as soon as they could operate without that aid. They have done exceedingly well.

Regarding the administration-backed farm labor recruitment bill, Farm Bureau told the subcommittee that the basic concept that the federal government should perform the functions of a crew leader and labor contractor, and engage in writing labor-management contracts is wrong.

Mrs. Davis will appreciate your sending your dues in immediately upon billing because it will save her and other workers time, and your Farm Bureau money which can be put to use in serving you better.

## Scholarship Essay Contest Set By Texas Good Roads Assn.

AUSTIN, Texas — The Texas Good Roads Association announced today it will sponsor a \$400 Scholarship Essay Contest for senior students in Texas high schools as part of the observance of National Highway Week (May 20-26). Callan Graham of Austin, executive vice president of the association, said the contest will "encourage more widespread understanding of the benefits of better highways to our state" and will reward winning students with the following prizes:

First place — a \$250 scholarship to the college or university of the student's choice, plus an expense-paid trip to Austin for the student and parent or guardian to receive the award. Second place — a \$100 scholarship. Third place — a \$50 scholarship.

Funds for the three winning scholarships have been set aside in an Austin bank. Honorable Mention certificates will also be awarded to worthy essays.

The contest is limited to seniors in Texas high schools. Entrants must use the title, "What Better Highways Mean to My Community and Limit the Essay to 500 words or less. Entries must be mailed by April 30 to the Texas Good Roads Association, Suite One, Perry-Brooks Building, Austin, Texas. The essays will be judged by a

committee consisting of Graham; Dr. DeWitt Reddick, director of the School of Journalism at The University of Texas; and D. C. Greer, State Highway Engineer. Winners will be announced before or during National Highway Week in May.

Graham said information on the contest is being forwarded to school superintendents and high school principals, and that anyone desiring information may also write to the T. G. R. A. in the Perry-Brooks Building, Austin, Texas. The sponsoring association has for half-a-century been a non-profit, non-partisan citizens group devoted to the encouragement of sound highway policies and good highways.

### TODAY'S MEDITATION

**THE EVANGELISM OF JESUS**  
Matthew 13:10-17 and Luke 9:51-56  
The supreme purpose of Jesus was to bring persons to God. Jesus was not primarily a mass evangelist, but nearly of His recorded life was spent dealing with individuals.

Jesus reached these people by the following methods. He used the scriptures, he used everyday experiences, He asked key questions, He went straight to the point, He confronted people with responsibility, lossness and judgement, He used the ministry of healing, He associated with all classes of people, He led people into a right understanding of God's will, He enlisted others in planned evangelism and He gave of Himself.

If we are to save the world today from the onslaught of Communism we must become avid evangelists, using the methods of Jesus Christ. The Christian people today who remain away from worship and neglect to support the church, to give their time and talent are helping the communists cause, even to the point that they could be called communists.

These people are aiding Communism in an unknowing way because Communism is a godless way of life and they are not supporting the church, which is the agent of God.

Each of us within our hearts has a hidden revival that could be fired into power and service if we would let go and let God." J. Frank Peery  
First Methodist Church

### Farms Plowed For Neighbors

Friends and neighbors of the Clyde Coffmans and the Jimmy Cunninghams of the Goodland community gathered last week and plowed their fields for them. Nine tractors were used in the operation. Those driving tractors were Carl Pollard, Kirk Holt, Jim Carpenter, Hutch Mitchell, Rodney Jarvis, Ben Gibbs, Woodrow Smith, Louis Henderson and C.L. Taylor.

Both Cunningham and Coffman were injured in accidents and will be unable to do any farm work for some time yet.

### CUREYS VISIT HERE

Mrs. Homer Currey and two daughters of Hobbs, N.M. were visiting in the home of Mrs. Francis Blair and attending to business last week. The Curreys are former Muleshoe residents.

### Animal Comments

By JERRY GLEASON  
Editor's Note: This is the first of a new series of articles—a column—to be written about pets, animals, and their care and health hints, by Jerry Gleason, veterinarian.

#### YOUR PET SELECTING THE PUPPY

Selection of the puppy is the key to a happy owner-dog relationship. The prospective dog owner can slip into many pitfalls, which will result in disappointment, if care is not taken when obtaining this new ball of lovable fur. All puppies are almost irresistible to the dog lover, however, this irresistible puppy will soon become an adult dog that will do everything in its power to remain with its master.

How to look into the task of selecting the new dog.

Consider yourself first. Ask yourself what you want from the new dog. Certainly a game hunter wouldn't select a chihuahua puppy.

You should be equally as careful to select the breed, size, and type to suit your needs. If you are looking for companionship, the chihuahua, poodle, fox terrier, dachshund, Boston terrier, to mention a few are excellent. The German shepherd dog, doberman pinscher, collie and boxer offer very loyal companionship plus protection.

#### HEALTH

Once you have decided on what type dog to obtain, the next factor in selection is the health of the puppy under consideration. Examine the dog carefully. Look at the eyes of the puppy. Are they bright and clear? Look and feel of the skin. Is it soft and pliable? Is any hair absent in any area? Let the puppy down. Is he full of vigor?

#### CHARACTERISTIC

And last but not least, is the puppy characteristic of the breed in which you have selected?

Many people have bought what they thought was a pure bred dog only to discover later the animal was a member of our popular "all-American" variety. Should you be in doubt about the puppy, and perhaps this is a wise move regardless of doubt, ask the seller to allow you to take the puppy to your veterinarian for an examination. Should the seller refuse this request, you should be even more cautious. (NEXT WEEK: Care of the New Puppy)

## Dedication Services Sunday At Presbyterian Church

Dedication Services will be held Sunday afternoon at the First Presbyterian Church, beginning at 3 p.m.

The church building, completed last summer, will be dedicated in a fitting ceremony, to which the community is invited.

Rev. Frank Travis, pastor of the First Presbyterian Church in Plainview, will deliver the sermon. The pastor, Rev. Finis Hodges, will preside.

Also on the program, Rev. Lew Koerselman, Sr., pastor of the First Presbyterian Church, Tulsa, will give the scripture and prayer. Rev. John Hill, of the First Presbyterian Church, Littlefield, will deliver the Litany Dedication and Prayer of Consecration.

Another feature of the dedication will be the presentation of the keys to the pastor by L. R. Dobbs.

A trio composed of Susan Birdsong, Nancy Lee and Jean Hodges will sing "Bless This House."

Special services will continue at the church the remainder of the week. Rev. Travis will be the guest minister, with services each night beginning at 7:30 and weekday mornings through Friday at 10 a.m.

Rev. Hodges, who came to the church in October last year, expressed his gratitude to the people of Muleshoe who have expressed their interest in the church, regardless of their own church affiliation.

"It is an interesting experience to be associated with a new church organization. We have really enjoyed it," says Rev. Hodges.

The Muleshoe church was organized in 1959 by Rev. Don Boles, who is now in El Paso. Boles was invited to attend the service Sunday, but expressed his regrets at being unable to attend.

Church officials include Carroll Pouncey, Sunday School Superintendent; L. R. Dobbs, Clerk of

Session; Julian Lenau, Church Treas., Mrs. L. R. Dobbs, President of Women's Association, Jean Hodges, Moderator of Youth Fellowship and Dr. Charles Lewis, Chairman of Board of Deacons. Susan Birdsong is church pianist.

The church carries on a full program of services, with Sunday School at 9:45 and morning worship at 11 a.m. on Sunday, and Sunday evening activities beginning at 6:45. Included in the evening program is Junior activities for the children, Youth Fellowship and Adult Bible Study.

The church's Women's Association meets once each month for mission and Bible study.

The Hodges family moved to Muleshoe from Henderson, where

Rev. Hodges was pastor of the Central Presbyterian Church. During his stay there, he spent a 15-month period of driving 25 miles to a neighboring town twice a week to help a new church get started.

### GOLFS EVERY MONTH

BRADFORD, Pa. (AP) — Dr. J. E. Woodhouse reports that he's been able to play golf here every month since February, 1961.

The highest paid baseball players in recent years have been Ted Williams and Stan Musial, both of whom received in the neighborhood of \$100,000 in their peak seasons.

## Lebanon Family Man Likes Texas Folks

by Carol Ellis

The family of Hanna Maalouf lives in Lockney. Mr. Maalouf, a native of Lebanon, travels the many miles from Lockney to Mule

shoe every morning to open his new store, The Bargain Center at the location of the old Recreation Hall, 105 Main.

Hanna in translation means John John Malouf is an old hand at the dry goods business. Slightly less than three years ago he was operating his successful department store in his home country of Lebanon. His children (of which he has 10) attended the best private schools. The name Maalouf in Lebanon was synonymous with good character and worldly goods. Why then did Hanna Maalouf pack up his rather abundant family and make the journey to our country? Freedom is the answer.

"The persecution of Lebanese Christians by the Moslems is so terrible," Maalouf stated in broken English learned since he arrived on US shores. "I come to America to be able to worship as I please." This sounds very much like something Mr. Maalouf children are studying in American history books at this very moment.

Maalouf made it very clear that he is "not a Jew, as I am called so often by your people." He emphasized that this is a sore spot for him and his family, as he does not remotely believe as the Jews do.

In talking of the "old country" Maalouf told of the lovely homes and businesses much as in our own Communities. He says the countryside of Lebanon is very beautiful and the school are very good. "My children all speak five or six languages and are making all A's in your schools here."

The Maaloufs lived in Lubbock for a time after arriving in the US and Mr. Maalouf operated a dry goods store there. He now has a store in Lockney as well as the one here in Muleshoe.

"I have to make a good living to support my 10 kids," he states with a smile. "Six of them are in school and one will be ready for college next year."

But the Maaloufs have not been lonesome since coming to our country. They have many friends and relatives living in the immediate area, some of whom are very well known.

Maalouf speaks very highly of our government and is most proud that two of his 10 offspring have been born in this country and are US Citizens. He hopes to be able to move his family to Muleshoe soon and quit commuting from Lockney.

## Testimony Due On Braceros

AUSTIN (AP) — U.S. Labor Department officials will hear testimony about braceros from Texas AFL-CIO leaders next week in Midland and McAllen.

AFL-CIO President Hank Brown and Secretary-treasurer Roy Evans will testify at the hearings, part of a series being held in the Southwest and West.

Labor Secretary Arthur Goldberg said the hearings will "help determine whether the employment of Mexican nationals in Texas may have an adverse effect on domestic workers in the state." He said all interested persons are invited to participate.

The Agricultural Act of 1949 makes Mexican nationals unavailable for employment in any area unless the secretary of labor has certified that:

1. Domestic workers are not available.

2. Employment of Mexican nationals will not adversely affect domestic agricultural workers.

3. Reasonable efforts have been made to attract domestic workers at comparable wages and working conditions.

Tracy Murrell, director of the Bureau of Employment Security, said information now available raises a question whether the that employment of Mexican nationals in Texas will not adversely affect domestic farm workers unless the braceros are paid at least 70 cents an hour.

## State, Local Tax Deductions Explained

John J. Sloan, Administrative Officer, Internal Revenue Service, Lubbock, explained today what state and local taxes may be deducted on federal income tax returns.

"You CAN deduct personal property taxes, state income taxes and real estate taxes, which are imposed on you. You can also deduct state or local sales taxes, and state gasoline taxes if the tax if imposed upon you, the consumer. Auto license fees, and state capitation or poll taxes also are deductible.

"Cigarette taxes are deductible by the consumer or in only a few of the states."

The IRS representative said that cigarette taxes paid after August 28, 1961, are deductible in Texas this year, for the first time, and that Texas state sales taxes paid on and after September 1, 1961, are also deductible.

He added: "If you had State income taxes withheld from your salary, or if you made estimated State income tax payments under a pay-as-

you-go plan, you can deduct such amounts only for the year in which withheld or paid.

### OTHER DEDUCTIONS

"If you are a tenant-stockholder in a cooperative housing or apartment corporation you can deduct your proportionate share of the real estate taxes paid by the cooperative.

"In most cases, you cannot deduct special assessments for pavements or other local improvement including front-foot benefits, which tend to increase the value of your property. Nor can you deduct Social Security taxes paid on the wages of your maid or other domestic help."

The IRS representative said you may not deduct customs duties or federal excise taxes on articles acquired by, or on services rendered to you, for personal or family use, such as automobiles, jewelry, cosmetics, telephone, air rail or bus tickets, etc.

Many questions about federal income tax returns can be answered by telephoning your local IRS office.

## Young Breaks Black's Game Scoring Mark

The 35 points scored by Jim Young in Muleshoe's 75-72 win over Olton in the season finale Feb. 13 is being checked out as a new one-game scoring record at MHS.

Previously considered the record was the 32 points scored by Bill Black, a member of the 1956-57 team, in its bi-district win over Floydada.

Coach Louis Powers said that no one had approached that figure before, since he has coached the Mules.

"We knew Jim was having a good night, but didn't realize he had that many points until after the game. He only played about three quarters of the contest," Powers said.

Only three pitchers have won 25 or more games in one season during the last 10 years. Whitey Ford of the Yankees took 25 in 1961. Don Newcombe of the 1956 Brooklyn Dodgers won 27 and Robin Roberts of the 1952 Philadelphia team won 28.

SANDHILLS PHILOSOPHER SAYS

Conquering Space A Special Problem

Editor's note: The sandhills philosopher on his Johnson grass farm is off in space this week, his letter indicates.

The trouble with conquering space is that I'm not sure it's going to stay conquered.

Like nearly everybody else, I arranged my work so I could watch Col. Glenn take off in that rocket, and I was pulling hard for him although I'll concede Col. Glenn was the one taking all the risks.

Naturally, anybody who stops to think is amazed at what we've done and is proud of the achievement and it gives the Russians something to think about, namely,

Votes Of Texans Are Recorded

WASHINGTON (AP) — How Texas congressmen voted on recent roll calls:

On Randolph (DWVa) motion, rejected 42-58, to bring President Kennedy's proposal for a Department of Urban Affairs before Senate: For motion—Yarborough, D. Against motion—Tower, R.

On passage, 251-144, of bill to raise limit on national debt temporarily to \$300 billion: For—Beckworth, Brooks, Gonzales, Mahon, Patman, Poage, Purcell, Roberts, Thomas, Thompson, Thornberry, Young, Against—Alger, R, Bursleson, Casey, Dowdy, Fish, R, Kilgore, Rogers, Rutherford, Teague, Wright.

On passage 264-150 of resolution rejecting Kennedy's proposed Department of Urban Affairs, thus killing the proposal) — resolution (against proposal) — Alger, Beckworth, Brooks, Bursleson, Casey, Dowdy, Fisher, Kilgore, Mahon, Patman, Poage, Purcell, Roberts, Rogers, Rutherford, Teague, Thompson, Wright, Young, Thornberry, Against resolution (for proposal)—Gonzalez, Thomas.

CHURCHES IN FARM AREAS NASHVILLE, Tenn. (AP) — Eighty-four per cent of the congregations of Methodist Church the nation's largest Protestant denomination, are in rural areas or small town of less than 1,000 population, a study shows.

that this country can do about anything it sets out to do, once it puts its mind to it, and that if you can set an orbiting capsule down in the ocean with a man in it, you can set one down in Moscow with a bomb in it.

And there's more to come, as one of the scientists responsible for the success of the flight said a few years from now the type of rocket ship used to put Col. Glenn into orbit will look about like a modern airplane looks compared with the Wright Brothers' plane.

But here's the thing: people are always talking about conquering space, and I'm all for it, but conquering space may turn out to be about like conquering this Johnson grass farm. You can do it for a while, but if you don't you, and sometimes it'll beat you even when you're trying. I can't imagine a worse job than trying to conquer space when it extends outward forever in any direction you look endlessly, beyond the fringes of the imagination. If I ever heard of permanent employment, that's it.

As I see it, there are two main things wrong with space: there's too much of it, and there's nothing out there to breathe.

For example, I'm all for going to the moon. That is, I'm all for somebody else going, but I think man ought to prepare himself for the possibility that going may be sort of like a trip to the Sahara Desert. The main thing about it is having gone and come back and if anybody brings up the idea of a second trip, you may want to change the subject.

I don't know why man thinks he can make a go of living on the moon, taking his oxygen with him and manufacturing a new supply after he gets there when he hasn't made too good a showing on earth, where the air is free.

Actually, though, conquering space has its interesting points and I'm as eager as you to see what those scientists do next. The fact you can't actually conquer it is no drawback, at least this has never stood in the way of farming.

Yours faithfully, J. A.

Democrats Come Out Against Splitting Vote

AUSTIN, Texas (AP) — State Democratic party leaders took the stand Saturday that Texas voters who cast a Republican ballot in the first primary will not be allowed to vote Democratic in the runoff.

The decision came at a meeting of the legal subcommittee at state headquarters. The subcommittee's recommendation will be presented to the full state Democratic Executive Committee meeting in Austin March 12. If approved by that committee, it will go in the form of instructions to county and precinct officials in the two Democratic primaries.

In its recommendation, the legal subcommittee states that under Article 13.01A of the Texas Election Code, a person who votes in a party primary 'shall remain' a qualified member of that party for the duration of the poll tax period," said the state headquarters announcement after Saturday's subcommittee meeting.

"State Republican leaders have been predicting that many Texans who vote Democratic in the primaries will vote split tickets in the general election, despite the code requirement."

Young County Judge Raymon Thompson, head of the legal subcommittee, issued a statement criticizing recent statements by State GOP Chairman Tad Smith of El Paso.

When a Republican state chairman says Texans will vote in the Democratic primary by habit, he questions the integrity of all Democrats," Thompson said. "He is saying that Democratic primary voters are dishonest, while those who vote Republican in the primary ballots for both parties contain pledges to support the nominees of the party voted for in the primary."

Thompson said he referred to a recent statement by Smith that "I (Smith) anticipate a lot of general election ticket splitting this year by Texans who vote in the Democratic party primary out of habit."

Is America Too Soft To Grow New Heroes?

We used to say that Thermopylae has its messenger of defeat; the Alamo had none. But now the headlines prompt us to say that the Pentagon has its air conditioning; the Alamo had none. And the conditioners will soon be swarming over the symbolic monument of Texas history to put in ducts and circuits and coils and cooling tower. The Alamo is going to be air cooled.

Our age is gadgetizing to the point of absurdity. Pretty soon infantry will be supplied with individual power-hoppers to eliminate foot travel, battlefields will be equipped with hot and cold water for shaving and showers and spies behind the lines will be required by international law to have tail lights and turn-signals to keep from colliding with counter-espionage agents.

How little did our pioneers know of our hardships. Travis never stepped out to the garage on a bitter winter morning to find his battery dead and all bus transportation behind schedule. And D. Crockett never whizzed through a revolving door to find the elevator out of order and his office was up 21 flights of stairs. No wonder we grow no heroes now.

Sen. Tower Hits Watered-Down New Frontierism

WASHINGTON (AP) — Sen. John G. Tower, R-Texas, has urged fellow Republicans not to offer "watered-down alternatives of New Frontier proposals" in a party principles.

Tower, a conservative, is one of a halfdozen GOP Senators named to a Senate-House committee directed to draft the statement.

The Texas Senator said in a statement that he thinks his party image "needs to differ enough from the Democrats to offer the voters a clear choice."

"I am convinced we must proudly state our steadfast loyalty to the preservation of constitutional government, the responsibilities of state and local government, our opposition to the concentration of power in the hands of the President, a tough foreign policy based on the historic successes of Republican administrations in foreign affairs, and our fundamental belief and pride in the free enterprise system."

Mr. and Mrs. O. N. Jennings were in Dawson last week for the funeral of her cousin, Silas B. Davis. Davis will be remembered by many here as a summer vacation visitor, formerly of Chicago, before he moved to Dawson. The Jennings were in Dallas also on the trip, leaving last Wednesday and returning Saturday.

Know Your School — Visit Next Week

The need for the public school never changes, but times and conditions may change or require to be changed methods and practices of public education. This is inherent with anything that grows, for growth is the result of change. Our Texas public schools were created 108 years ago. In 1854 the first law was passed establishing the public school.

It is a healthy thing in our democratic way of life to have intelligent understanding of the important functions of our basic institutions. This is especially true of the schools. The initiative and resourcefulness and the wisdom and leadership that our schools are inculcating in the youth of today are the answer of the problems of citizenship in the years ahead.

Yes, "bring me men to match my mountains." That is the need of our times and must come from the public schools — schools that are strong in virtues required for building strong men and women.

We can be assured of this and do our part in understanding and helping the public schools to fulfill this great obligation to our times by being a participant in the annual Public Schools Week, March 5 through 9, 1962. Schools will hold open house; accept their hospitality, and you will enjoy the experience of going back to school—if but for a day.

R. C. Dearman Conducts C.A. Class Sunday

On March 4, Sunday, R. C. Dearman will conduct the first of a series of classes for Assembly of God Young People. The C. A. S. Christ's Ambassadors, will meet at 6 p.m. for the next four weeks for the study entitled "Commission Into All the World".

Dearman said that the four lessons would be consecutively beginning at Home, Among Friends, The World of School, and the World of Work.

"1962 has been designated 'Year of Mission' for C. A. S.", Dearman said. "The study of mid-twentieth century will be considering the work of the Christian, his calling and purpose."

## Farm Facts

On the average, at least 50 different food items are used in family meals in a week. This is reported by Janet Murray and Ennis Blake in the Yearbook for Agriculture, 1959.

The U. S. Department of Agriculture researchers based their facts on information obtained from more than 6,000 households.

Meals of the average family for a week included about 10 pounds of vegetables and fruit, 4.5 quarts of milk or corresponding amounts of cheese and ice cream, 4 pounds of meat, 7 eggs, 1 pound of fat, 1.5 pounds of sugar, and 3 pounds of cereal products for each person.

In 1955, according to the survey, meat, poultry, fish, or eggs took 35 cents of the food dollar — about 24 cents for beef, pork, veal, and lamb; 5 cents for poultry; 4 cents for eggs; and 2 cents for fish.

Vegetables and fruit accounted for 18 cents; milk and milk products, 14 cents; flour, cereals, and baked goods, 11 cents; and beverages, 10 cents.

**We consume at least 50 different foods in a week.**

The remaining 12 cents were divided fairly evenly among fats and oils, sugars and sweets, and a group of such miscellaneous items as soups, nuts, catsup, pickles and olives, fillings, mixtures, and seasonings.

## AT AMARILLO Hearing Set on Potato Marketing

A hearing on proposed national marketing agreement and order for potatoes has been called by the U. S. Department of Agriculture.

Amarillo has been selected as one of the seven cities where a hearing will be held. It is scheduled April 6 and 7 at the Amarillo Municipal Auditorium, 5th and Buchanan Streets.

First session of the hearing will be held March 12-17, 1962 in the New Commodore Hotel, 42nd St. and Lexington Avenue, New York.

Subsequent sessions will be held in the Secor Hotel, Jefferson and Superior Streets, Toledo, Ohio, March 19-21; Radisson Hotel, 45 South 7th Street, Minneapolis, Minn., March 22-24; Latter Day Saints Hall, 140 North Garfield

Street, Pocatello, Idaho, March 26-31; Bakersfield Inn, Bakersfield, Calif., April 2-4; and the Henry Grady Hotel, 210 Peachtree Street, Atlanta, Ga., beginning April 9.

The national program was proposed and approved by the National Potato Advisory Committee at January and February meetings in Washington. The Advisory Committee was called by Secretary of Agriculture Orville L. Freeman at the request of industry representatives to study marketing problems facing the potato industry and to recommend plans for market stabilization. The national marketing order was one of its proposals.

### IN 48 STATES

The program would include all Irish potatoes grown in the 48 contiguous States. Recommendations to be made by the National Potato Administrative Board, initially composed of 46 members representing seasonal producing groups, processing, chipping, and shipping interests within the industry. Each seasonal group, processors, chippers and shippers would be represented by a seasonal or special committee which would make recommendations to the Board regarding its group or segment of the industry.

The program would authorize grade, size, quality, maturity, pack, container and labeling requirements for potato shipments. It would also include authority which would limit amounts which handlers may purchase from or handle on behalf of producers.

Allotments would be based upon the amounts purchased from or handled on behalf of producers in the two highest years in the base period 1959, 1960, and 1961. Subsequent to 1962 the base period would be the average of the highest two of the three years immediately preceding the year for which volume regulation is contemplated, excluding 1962 from each base period.

The order would include a marketing policy establishing national cull regulations for fresh market and food processing. The cull regulations would be in effect at all times but could be modified, suspended, or terminated upon recommendation of the Board.

Inspection or other forms of evidence may be required on shipments when they are regulated.

If sufficient evidence is presented at the hearing to provide a basis for a program, and if the Secretary of Agriculture approves the proposed order will be submitted to a referendum among growers in the production area.

## Expert Predicts Improvements In Dairy Industry

More mechanization in dairying and improved herd management and feeding during the 1960's are predicted by John C. Thompson, nationally known dairy authority and manager of dairy research for the Ralston Purina Company. Thompson feels that breeding continues ahead of feeding and management in most herds. The rapid development of artificial insemination of dairy cattle has made available the best bloodlines of every breed to all dairy-

men, regardless of where they live according to Thompson. feeding and more mechanization in dairying are already evident, he says. Much recent college and commercial research has led more and more authorities to encourage heavier grain feeding so that the breeder's capacity of today's animals may be utilized.

Experiments with self feeding the milking herd have opened up new possibilities in dairy mechanization. Research is in progress at the Purina Research Farm in Missouri with milking cows eating a complete ration from commercial type self-feeders in dry lot.

They are given no hay, silage or pasture. According to Thompson, early results from this research suggest that this type of feeding program can show significant savings in the cost of producing milk in some areas and under certain conditions. Research in this direction is continuing.

## Program Slated On Fertilizer At Hub Friday P.M.

Deryl Coker, County Agricultural Agent for Parmer County, announces a program on fertilizer which everyone connected with agriculture will be interested in.

Anyone with any questions pertaining to fertilizer, irrigation levels, grass production or cost and returns in crop production, should benefit from the program.

The program is scheduled at the Hub Community Center at 2 p.m. Friday, March 2. Those who will appear, and their topics are:

Bill Gunter — "Rates and placement of fertilizer on cotton and grain sorghum." "Times of applying fertilizer on cotton and grain sorghum," and "What about fertilizer carry-over?"

Dave Sherrill "Irrigation level effect on fertilizer rates," and "Times of irrigation on cotton and grain sorghum."

James Murphrey—"Cost and returns crop production," and George Warner—"Grass production."

## Foreign Interest Is Evident At Research Center

Interest of foreign scientists in the High Plains Research Foundation is in evidence from the contributions they have made of seeds of a number of different crops. The plant introduction nursery of grasses were received from the Central Rainsland Research Station in Anglo-Egyptian Sudan. Several grasses native to the West Texas area were included in the first observation planting. Each strain or variety will be observed for a period of two or three years. Some of the Sudan introductions look very promising. Further tests will determine if they can withstand the winter climate.

New strains of grasses and legumes will be added to the nursery on a continuous basis as they are received from foreign countries and other areas of United States. Dr. Earl H. Collier, chief Agronomist of the Foundation said in releasing his report.

## FARM NEWS

### Results Given In Fertilizer Test With Hail Damage

By J. K. ADAMS  
County Agent

J. G. Aran furnished a small area in his cotton field for an off-station test of 24 fertilizer combinations in 1960. The experiment station found no significant increase in any of these fertilizers.

The fact that this farm was already supplied with 314 pounds of available P-205 per acre and had some early hail damage probably contributed to this failure in 1960.

Mr. Aran worked with his county agent in 1961 on a cotton fertilizer demonstration that started out on the right foot with a soil test by Mr. Jim Valentine. The soil test showed a need for 50 pounds nitrogen and no other fertilizer.

Rex cotton was planted in the demonstration and a bad hail caused replanting June 7th. The late planting made very rapid dressed early with 50 pounds nitrogen and one plot was sidedressed from anhydrous ammonia while a second plot was sidedressed at the same time with 50 pounds nitrogen from Uran and a plot in between was left unfertilized for a check.

Results from anhydrous was 227 pounds lint per acre, from Uran 22 pounds per acre and the unfertilized check was higher with 235 pounds per acre. Adjoining land Mr. Aran's field using Gregg cotton and Ammonium Sulfate to obtain 50 pounds nitrogen yielded 319 pounds lint per acre.

Mr. Aran concludes that Gregg is superior to Rex when June planting is necessary and as for

nitrogen needs, he definitely plans to keep his nitrogen money in his pocket until he has a stand of early cotton growing. He will expect success from following soil test recommendations unless he has June planting or early October freeze. He had both on this demonstration.

### Annual Meet Set March 31 For Plainview PCA

In a recent board meeting the Annual Stockholders Meeting of the Plainview Production Credit Association was set for Saturday, March 31, at the Plainview High School cafeteria and auditorium, beginning with a barbecue lunch at 11 a.m., entertainment by the Stamps Quartet at 1 p.m., follow by the regular association business including the Annual Report of the Board of Directors, the Secretary - Treasurer's Report, and the election of one director.

The present Board is Leroy Durham, President Henry Hayes, Vice President, Grady Shepard, D.S. Anderson, and Don Garrison.

Olan Alexander is Secretary - Treasurer and General Manager; Fred Conner is Assistant Secretary-Treasurer and Assistant General Manager.

## Tests Are Conducted Seeking Control of Sorghum Midge

During the past year, tests were conducted by the Texas Agricultural Experiment Station to find a practical chemical control for the sorghum midge. Since grain sorghum planted early in the season usually does not become infested with sorghum midge, the plants used in the

tests were planted during the late season.

Paper bags were used to cover the terminal of each plant one day before the heads emerged to regulate midge-laying activities. Bags were removed for 24 hours from 10 plants for 10 consecutive days to expose each head to midge oviposition. It was determined that egg laying by midge occurs most frequently on the third day following head emergence. By the end of the fourth day after emergence, approximately 95 per cent of the egg laying is complete.

From this information, it was determined that insecticides should be applied to sorghum heads 1 to 4 days after emergence. In the tests, plants that were treated soon after emergence showed much greater yields than those treated when the heads were in the partial bloom stage.

Several insecticides were tested, and most gave good results. Of those tested, however, only Dibrom, endrin and toxaphene have been approved for use on grain sorghum.

Complete results of these tests are contained in Experiment Station publication PR-2206, "Control of the Sorghum Midge on Grain Sorghum." A copy of this publication may be obtained from the Agricultural Information Office, College Station, Texas. Ask for it by name and number.

## Farmers Informed Of Screwworm Program Progress

"The screwworm eradication program is in its third week of operation in Texas. Five million sterile screwworm flies were released in the lower Rio Grande Valley last week," says County Agent J. K. Adams.

"The first phase of the eradication program, the raising of funds to support the program, is almost complete. The second phase of the eradication program is just beginning. The individual stock owner will play an important part in this phase of the eradication program," says Adams.

"A buffer zone in the Southern portion of Texas along the Mexican border will be maintained," officials in charge of the eradication program say. If the eradication program is to be effective, the individual rancher must inspect his livestock frequently—

treat screwworm cases immediately with a recommended insecticide—collect ten worms from each wound and take to his county agent—do not move animals from any areas unless they all have been treated with a recommended insecticide—not move animals out until they have been reported until the animals have been sprayed with a recommended insecticide—not accept or move animals from other States where screwworms may exist unless the cattle dealer, treats all animals at origin with the recommended screwworm smear or spray—do everything possible to prevent screwworm infested animals from entering his neighborhood.

## Lazbuddie Joint 4-H Has Meeting

The Lazbuddie joint 4-H Club voted to participate in a tour of the Friona Livestock show at its latest meeting Feb. 15 in the Lazbuddie School Cafeteria.

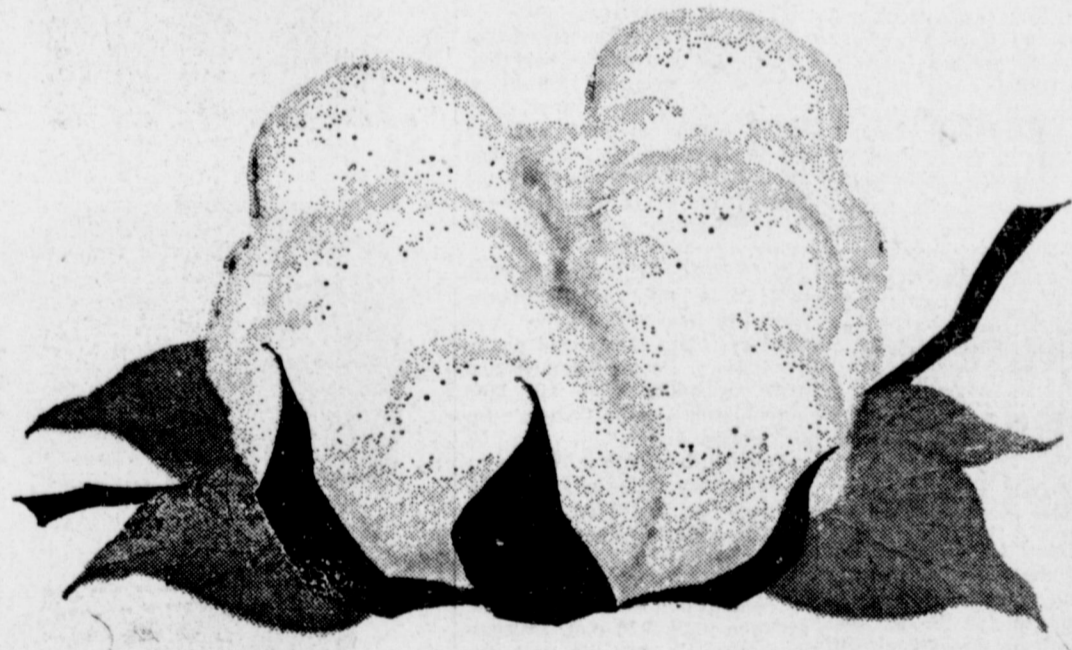

The meeting was called to order by Danny Miller, president, who Hinkson led the group in the 4-H pledge. Minutes of the last meeting were read and approved.

Miss Musil gave a program on home landscaping, after which games were played.

### TEN LED IN 16 YEARS

MIAMI, Fla. (AP) — Ten different jockeys have led the riders in the last 16 seasons at Hialeah Park. Bill Hartack and Ted Atkinson, now retired, each won the crown four times. John Sellers led the reinsmen here last year with 56 winners in 269 months and went on to win the nation's riding championship.

AUSTIN, Tex. — After the labor unions gave Houstonian Don Yarborough their converted COPE "Commendation", some sections of the Political Association of Spanish-Speaking organizations started worrying about joining the largest PASSO unit—which voted for Gov. Price Daniel.

First splinter off the block was Hidalgo County chapter — third largest PASSO unit — which voted 44-16 to make no endorsement in the governor's race.

Yarborough made no comment as he rounded the Gulf Coast area to line up more support.

He's been conspicuously absent from his Austin headquarters, while all other statewide candidates touch base here frequently to counteract the almost constant presence of gubernatorial candidate Will Wilson and the incumbent who dwells in the mansion.

Daniel almost had trouble getting his campaign off the ground when a Department of Public Safety plane nipped its wing while lifting the governor off Austin ground for a Houston appearance. The party changed to a plane and proceeded to the Carla-damaged San Antonio.

Meeting with representatives from the State Board of Control, Building Commission and State Archives.

Former Secretary of the Navy John Connally also suffered aerial setbacks in his search for support. Bad weather prevented him from leading for San Marcos and San Antonio speaking engagements. When the clouds cleared he carried his campaign to Laredo.

Sen. Jerrard Secrest, democratic candidate for lieutenant governor, followed Connally into Laredo to speak to PASSO supporters where champion traveler Tom Reavley joined him to get help for his attorney general's race.

Secrest announced the opening of his Austin office this week with a banner on the avenue leading to the Capitol.

Will Wilson started crowding Daniel's position as a patron of Texas teachers. Wilson stated that Texas needs to take a "long, hard look at the curricula of our more attention to the advise of professional educators instead of well-meaning but ill-informed amateurs." He also suggested higher pay.

Another lieutenant governor contender, Sen. Crawford C. Martin, also started keeping shop in the capital city.

A Friday coffee party served as "house" warming for Waggoner Carr, former Speaker of the House, who's an attorney general hopeful.

Carr's office is just a block and a half from the Capitol grounds. Les Procter, another attorney general candidate, has his headquarters in a long silver trailer, across the street from the Capitol.

**GOP HOPES TO BLANKET STATE** — After State Democratic slung verbal arrows at the Republicans for not holding primary elections in every county and precinct, the GOPs embarked on a

campaign to finance a primary in every county.

Paul Desrochers at Republican State Headquarters said, "We're working like mad to get a primary in every county." Two obstacles stand in the way: Getting funds in about 235 counties where the party has county chairmen, and getting chairmen for the other 19 counties.

have a regional flavor— like the 12 senatorial candidates who hope to represent 67 counties; or the 76 House of Representative hopefuls for 77 counties; and congressional candidates in all but seven districts. Republican party still wants general ballot representation for the winners among it: two gubernatorial candidates, two candidates for lieutenant governor and those seeking posts as center of agriculture, general land office and on the railroad commission.

A step toward solicitations was made by GOP state chairman Tad R. Smith who appointed Dudley C. Sharr of Houston, former US Secretary of the Air Force, chairman of the Republicans' finance committee.

**WATER STUDY REQUESTED** — The Texas Water Commission asked Texas Research League to make a study of the commission's operations and the system of dividing the responsibility for Texas' water development among several state agencies.

The problem of water development and conservation in Texas is so great and controversial that the already-burdened League researchers estimate it will be 1963 before they can begin such a time consuming, comprehensive study.

Judge Otha F. Dent of the Water Commission expressed deep concern about meeting water requirements for 1980. Not only is for constructing dams and reservoirs to fill the expected need, but the business of condemning land and building these projects involves as much as a decade.

One stage of the long-range development plan includes a 75,709,000 reservoir on the lower Texas coast. The problem of excessive chloride content caused by oil field salt water waste disposal—a problem repeated in many Texas streams. John Vandertulip will submit a report on the source of this pollution next week.

**HIGHWAY SAFETY STUDIED** — Top engineers and administrators from the state highway department of Texas, Oklahoma, Arkansas and Louisiana will gather this week to discuss uniform use of highway and street signs, signals and markings in an effort to increase driving safety.

Governor Daniel announced that traffic deaths over the past five years have averaged 230 below the 1956 toll. There were 2,811 traffic deaths in 1956, and the yearly average since then has been 2,581. Daniel credited the joint efforts of groups interested in traffic safety with the preservation of many lives.

**'AIRCADE' DUE IN AUSTIN** — U. S. Chamber of Commerce President Richard Wagner will head the team of national chamber officers, committeemen and staff specialists who will land here March 8 on an "Aircade for Citizenship Action."

This will be the first Texas stop cross-country series of public discussions on legislative matters.

Former Gov. Allan Shivers is chairman of the Austin Aircade which will begin at the Municipal Auditorium at 9:25 a.m. and continue until 3:30 p.m. Delegates from all over the state are planning to wing in for the panel conferences and \$7 luncheon.

**SHORT SNORTS** — Eight hundred high school students invaded Austin Friday for the 1962 State Youth Leadership Conference where they'll compete for \$5,000 in scholarships as representatives of 5,000 distributive education students, working in retail, wholesale and service projects.

Governor Daniel called on the Texas Tourist Council, State Parks Board, Highway Department and Game and Fish Commission to work out a proposal to establish a park and game preserve in the Big Thicket area of East Texas.

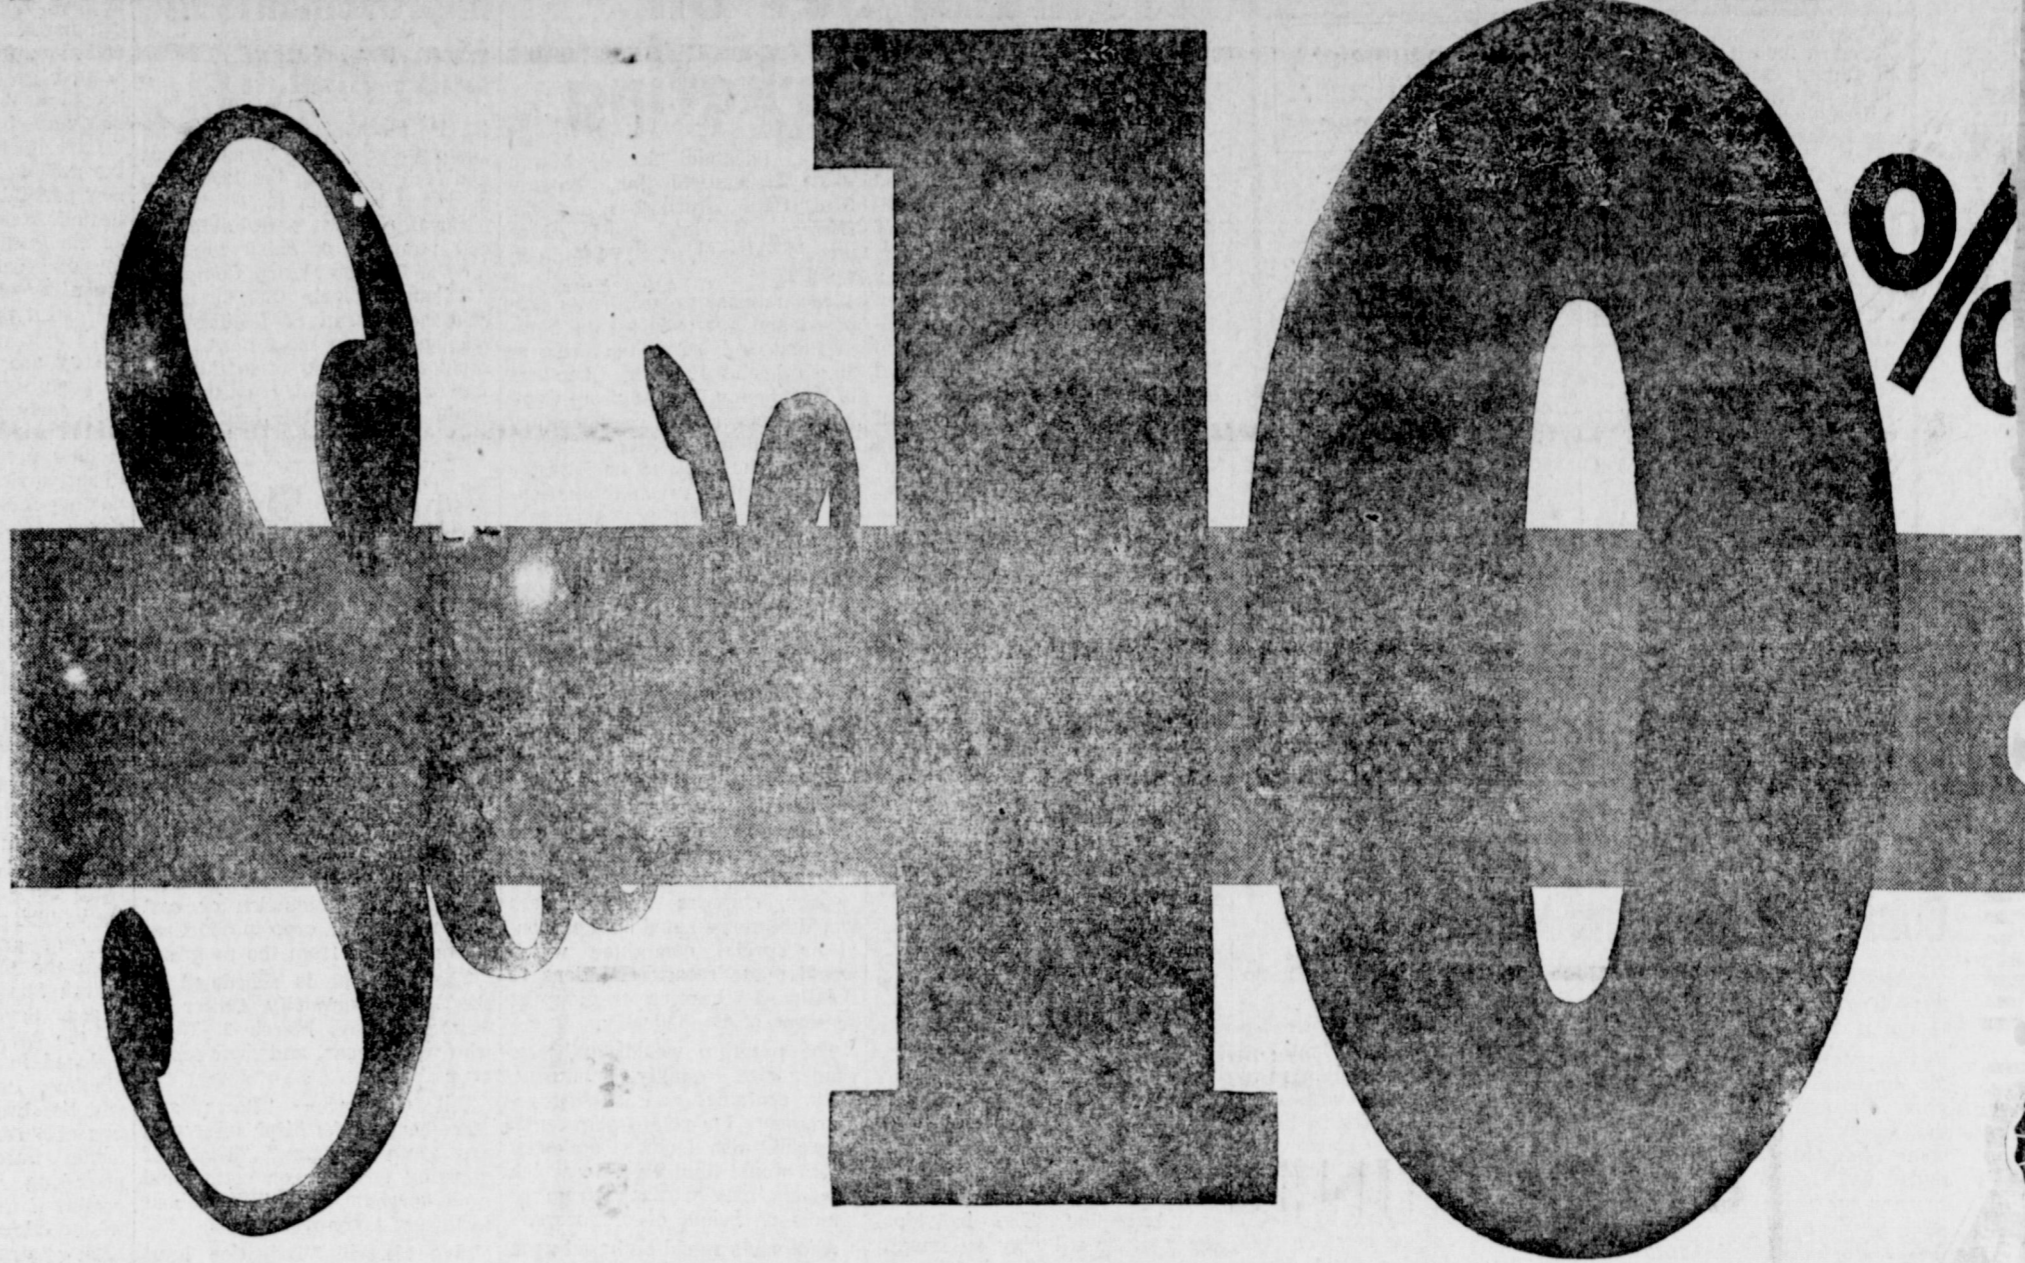

Mrs. Carter Clopton took over as State Coordinator of Aging Services, which is set up to guide organizations interested in care and activities of elderly people.

Alex C. Roberts of Austin succeeded E. H. Dofield of Del Rio as a member of the State Board of Barber Examiners.

The Mathis also saw Ross Goodwin and Mr. Hill of West Camp, Grace and Jess Osborn, and Vornie Town's parents while at Kingsland. And the Daricks sent their best regards back to Muleshoe and Maple folks, especially.

J. H. Sain, 84, was in Lubbock Monday for a checkup. He is the father of Mrs. George Provence. Mr. Provence took Mr. Sain to Lubbock.

**Officers Elected By American Field Service Chapter**

New officers were elected last Friday for the Muleshoe Chapter organization which brings exchange students to the U. S., and sends American students abroad for a year.

Mrs. Jack Lenderson is the new chapter president. Other officers are: Harmon Elliott, finance chairman, Mrs. J. G. Arn, home selection representative, Mrs. Benny Pena, secretary, O. E. Lumsden, counsellor; H. W. Callan, school representative, and student council.

Other new members on the chapter are Horace Edwards of the Lions Club; and James Glaze, Jaycees.

The chapter is anxious to bring another foreign exchange student to Muleshoe for the next school year. Helene Bekeart of Ghent, Belgium, is the exchange student here this year and has made an outstanding impression on the community. Helene is living with the Jack Lendersons while in Muleshoe.

Chapter officials stress that finding a suitable home for next year's exchange student is most important. The chapter president, Mrs. Lenderson or Mrs. J. G. Arn will be happy to supply details of qualifications to those interested.

Service clubs and other organizations wishing to contribute toward the financial part of the program may contact Harmon Elliott. Contributions are welcome from individuals as well as organizations.

Helene Bekeart is filling speaking engagements as her school schedule permits.

## Fiedler, Orchestra Schedule Lubbock Appearance Sun.

Arthur Fiedler and the Boston Pops Tour Orchestra, Civic Lubbock, Inc.'s sixth presentation of the season, will appear in the Lubbock Municipal Auditorium March 4 at 8 p.m. Mr. Fiedler, who appeared with the Lubbock Symphony Orchestra in December 1960, already has many Lubbock fans.

The most popular touring orchestra of its kind in North America, the Boston Pops Orchestra has made five consecutive national tours since conductor Arthur Fiedler first took them on the road.

They have had many best sellers for over 20 years, one of them "Jalousie", the first RCA Victor Red Seal record by an orchestra to pass the one-million sales mark. Their innumerable albums and single records from symphonic to show tunes give Fiedler and the POPS more listings in the RCA Victor catalogue than any other orchestra having 16 different numbers in the "101 All-Time Best Sellers" list.

Tickets are now on sale at the box-office in the lobby of the Auditorium daily from 9 a.m. to 1 p.m. Prices are: Lower floor - \$4.50 - \$3.50 and balcony - \$4.50 - \$3.50 - \$3.00 - \$2.50. For more information call PG 24616.

### IT'S THE LAW in Texas

A public service feature of the State Bar of Texas

#### INCOME SUBJECT TO TAX

Reporting your correct gross income is the first and most important item of business in preparing your federal income tax return.

As a general rule, gross income can be defined as the sum total of amounts received by you for your services, amounts which you receive from others for the use of your property or money and the profit which you realize from the sale of your property.

While your gross income will normally result from cash received in the form of wages or pay for your services, this need not be the case. Money, therefore, is not the sole medium of exchange used to determine the receipt by you of gross income. The fair value of property or services you receive in return for your services and the use of your money or property must also be taken into consideration in determining your gross income. Thus, if your employer provides you with a house in which to live or provides you with food, you must include in your gross income the fair value of these items.

#### OTHER INCOME

A person who receives a prize or contest award or who gambles and wins must include in his gross income the cash received and the fair value of items or services received.

There are some items which would logically fall within the general rule which are specifically excluded from gross income by law. For example, if your employer requires that you be present on a 24-hour basis and provides you with a room or house on his premises, this amount does not constitute gross income. Similarly, if your employer gives you meals and requires that you eat on the premises, this amount would not constitute gross income to you.

Other exclusions are premiums paid by your employer for group term life insurance, group health insurance premiums, the cost of transferring you and your family to a new location or office at the direction or request of your employer and other similar items which are paid to benefit both you and your employer.

Pay received while sick, interest on state and municipal bonds, and the first \$50 of dividends received by an individual also are specifically excluded.

The application of the general rule mentioned will show you why gifts, inheritances and government benefit payments are not included in gross income, and why you must include such items as bonuses from your employer and pensions received from your employer after retirement where you have not contributed to the retirement fund.

# Newsletter From Sen. Yarborough

Dear Fellow Texan:

Recently I enjoyed a visit with fifteen young college students from Chile who stopped at my office here in Washington before going on to study for several weeks at the University of Texas in Austin. They are student leaders of today in Chile and will doubtless be governmental leaders of the young people from South America to be friendly, intelligent, knowledgeable in history and economics, full of questions and thoughtful opinions on the great issues of our time.

Tur grave concern about the threat of Communism and the actions of Fidel Castro, arrogant Communist leader in Cuba, and how to meet that threat to the unity of the Americas was discussed. They expressed great hope for the future of South America and are appreciative of what the United States is doing to maintain sound relations with South America. We discussed the Alliance for Progress and the Organization of American States.

As these young people from Chile make new friends in Texas they are going to continue asking questions and they will take the answers home. The result cannot help but be beneficial in our relations with their country. Exchanges of people are an important element in the conduct of our foreign relations, and when students exchange with students—that is a people-to-people exchange of the highest importance.

In the school year of 1960-61, there were more than 53,000 foreign students from 143 countries, states and dependencies enrolled at 1,600 United States colleges and universities. During that same time, there were more than 15,000 students from the United States at 540 schools in 63 foreign countries. Incidentally, only 1,400 students from Mexico were among those from other countries studying in the United States last year—a very small total that we in Texas should be especially interested in, and that we should be especially interested in seeing doubled and re-doubled. Only about 35 students from Mexico attended the University of Texas last year.

If it's true that the best advertisement is a satisfied customer, we need to encourage more people from foreign countries to see how we in Texas and in the rest of our heritage, and how we are working to develop a better chance in life for all people.

The Russians have opened what they call Friendship University of Moscow where they have 597 students from Asia, Africa and Latin America training to be engineers, mathematicians, doctors and lawyers. And when these students are trained and go back to their countries, they will hold jobs in important places. Many of them will be message-bearers for Communism. We need more message-bearers for Democracy and for the liberties of Western Democracy in all of these places. In the last year for which figures are available 1960-61—1,842 students from foreign countries were studying at 55 Texas colleges and universities. To cite a few examples from this last school year, there were 501 foreign students at the University of Texas, 60 at Baylor University, 269 at Texas A & M, 38 at Texas Women's University at Lamar Tech at Beaumont.

Fellow Texan, what we need are more apostles for the American way of life. The student exchange program is one of the finest efforts for international peace, prosperity and good will ever devised.

We need more message-bearers for Democracy and for the liberties of Western Democracy in all of these places. In the last year for which figures are available 1960-61—1,842 students from foreign countries were studying at 55 Texas colleges and universities. To cite a few examples from this last school year, there were 501 foreign students at the University of Texas, 60 at Baylor University, 269 at Texas A & M, 38 at Texas Women's University at Lamar Tech at Beaumont.

Fellow Texan, what we need are more apostles for the American way of life. The student exchange program is one of the finest efforts for international peace, prosperity and good will ever devised.

isment is a satisfied customer, we need to encourage more people from foreign countries to see how we in Texas and in the rest of our heritage, and how we are working to develop a better chance in life for all people.

The Russians have opened what they call Friendship University of Moscow where they have 597 students from Asia, Africa and Latin America training to be engineers, mathematicians, doctors and lawyers. And when these students are trained and go back to their countries, they will hold jobs in important places. Many of them will be message-bearers for Communism. ## Cancer Films Are Scheduled

Cancer films are being shown during the educational program which is preceding the American Cancer Society drives scheduled for April.

Mrs. Joyce Shafer, educational film chairman for Bailey County Cancer Society, has announced that the first film was shown Tuesday afternoon, February 20 to the Junior High School girls with Mrs. Shafer, Mrs. Eva Alsop and Dr. W. B. McSpadden in attendance, representing the Bailey County A.C.S. unit.

Films were shown on Thursday, February 22 at the Three Way School for the Young Homemakers Club and this Thursday at the First Methodist Church Fellowship Hall. The First Baptist Church is sponsoring a cancer film on March 16 at Seven in the evening for the ladies of the church.

Other films are available for club and church showings. For further information, call Mrs. Shafer at 3-3251 or Mrs. Alsop at 5440.

## MAGANN LAMB WAS HOSPITALIZED AT TECH

Magann Lamb, daughter of Mr. and Mrs. Gilbert Lamb was confined to the Texas Tech Infirmary with a bad infection of the index finger on her left hand. Mrs. Lamb went to Lubbock and spent Wednesday and Thursday with her.

Magann was dismissed and spent the weekend with her parents in Muleshoe.

## Principals Told They Must Set New, Higher Goals for Students

By G. K. HODENFIELD

AP Education Writer  
ST. LOUIS, MO. (AP)—American education needs new and higher goals, and a good start would be to "stop fooling students and the public about what an education is."

Warren G. Hill, state commissioner of education from Maine, had that blunt message for a national convention of high school principals today.

"Education isn't the three Rs, or homework, or unlimited facts, or a Phi Beta Kappa key, or a high school diploma, or a degree from an Ivy League college," Hill said in a keynote speech to the National Association of Secondary School Principals.

"Education is a state of mind, a sense of responsibility, a commitment, a never-ending progression toward the realization of a dream," he said.

Hill said the schools must be more realistic about what America was, and what it could be. "Our students," he said, "will not understand their own country, its potential, its needs or its goals by just reading standard texts or tracing Grant South or drawing datelines."

"They need to know what is being proposed for us by politicians, by statesmen, by philosophers, and by crackpots — they need to be able to distinguish between the four they need to know how to evaluate, they need to be able to come up with their own objective conclusions."

Hill emphasized the need for a commitment to quality, and improvement of standards, and a willingness to accept change. "The new interstate highways are not being built with shovels," he said. "Astronauts are not riding in balloons. Cancer will not be cured with castor oil or aspirin. We need to utilize the best possible techniques, new or old. We need to base our actions on research, not opinions."

Hill said quality education depended on quality teachers. He urged stricter standards of admission to teacher education programs, and more rigorous and extensive teacher training.

About 7,500 high school and junior high school principals from coast to coast were expected for the five-day meeting, which opened today.

## LEGAL NOTICE

### NOTICE OF ELECTION ORDER FOR INDEPENDENT SCHOOL DISTRICT TRUSTEE ELECTION AND APPOINTMENT OF OFFICERS

Be it ordered by the Board of Trustees of Muleshoe Independent School District:

That an election be held in said School District on April 7, 1962 for the purpose of electing two members to the Board of Trustees of said School District.

That said election shall be held at the following place and the following named persons are hereby appointed officers for said election.

At the Library, Junior High School Building in Muleshoe, Texas, in said School District, with Ernest Kerr as Presiding Judge and Clerks appointed by him.

The manner of holding said election shall be governed, as near as may be, by the Election Code of this State, and this Board of Trustees will furnish all necessary ballots and other election supplies requisite to said election.

Immediately after said election has been held the officers holding the same shall make returns of the results thereof to the Board of Trustees of said School District, and return the ballot box to the Secretary of said Board for safekeeping.

The secretary of this Board of Trustees shall forthwith issue a notice of said election by posting copies of this order at three different places within the boundaries of said School District which posting shall be done not less than ten days prior to the date for said election.

Adopted this 12th day of February, 1962.

(s) B. R. Putman  
President, Board of Trustees  
Muleshoe Independent School District

## Substitute For New Farm Bill To Be Offered

WASHINGTON (AP) — Sen. Burke Hickenlooper, R - Iowa, said Saturday he will offer the broad proposals of the American Farm Bureau federation as a substitute for the Kennedy administration's new omnibus farm bill.

Many details of the Farm Bureau plan including proposed removal of 65 to 80 million acres of cropland—went into the record of the Senate Agriculture Committee Friday.

In a sharp attack upon the administration proposals, Farm Bureau plan-including proposed recontended the "administration is determined to go for politically administered farm prices."

Under questioning by Committee Chairman Allen Ellender, D-La., Shuman conceded that removal of 65 to 80 million acres of cropland probably would cost \$1.5 billion or more a year for several years.

"But it is the cheapest way to get from where we are," Shuman said.

Both the administration and Farm Bureau proposals seek ways of getting rid of billions of dollars worth of surplus wheat, corn and other livestock fed grains, and dairy product now piling up under government price supports.

worth of surplus wheat, corn and would give producers of surpluses of these crops a choice of tighter production controls with price supports or no controls without supports.

Shuman and other opponents contend the stiff controls and penalties authorized in the administration bill would regiment farmers and fail to attain the goals.
