CROP Sunday To Open Drive

November 19 is CROP Sunday, the date set for Bailey County's CROP drive for cotton to begin. CROP, Christian Rural Overseas Program, is an organization set up to aid the world's hungry and cold people. Farmers and townspeople make this possible through their donations. In the case of Bailey County, cotton is the commodity most desired. It will be shipped to foreign countries, where refugee labor will turn it into warm blankets and clothing. CROP week, beginning Monday, will find canvassers working throughout the county to collect donations for the program. Church workers overseas will supervise the distribution of the cotton.

A goal of 20 bales has been set by the Bailey County CROP committee. Cotton farmers, gins and others will be asked to contribute what they can to help the organization reach this goal before the final report is made December 31. CROP officers in Bailey County are Carroll Pouncey, chairman; Gil Lamb, vice chairman; John C. Kennedy, secretary; Bill Bickel, treasurer; and Rev. Frank Peery, publicity director. The CROP campaign committee is composed of four directors including Joe Smallwood, Ray Sheriff, D. J. Cox and W. W. Couch.

Animal Health Meeting Set

J. K. Adams, county agent, announced today that a meeting will be held in Muleshoe High School Vocation Agriculture classroom at 2 p. m., Friday to discuss the Southwest Animal Health Research Foundation. All cattlemen, hog and sheep raisers are urged to attend the meeting.

W. B. McAdams Tells His Story

Last Saturday was Veteran's Day a day when all veterans are honored in this country. Bailey County's oldest veteran is W. B. McAdams, Muleshoe insurance agent. Here he tells his story. He tells how he was drafted into the service of this country in World War I, was sent to France, of the blockhead he saw there, of his being wounded and rescued. Here he tells of his agony after being wounded. But wait. Let him tell his own story. Then you will know why he was proud to observe Veteran's Day. "I never thought that when I registered for the draft on June 4, 1917, I would become one of the many soldiers in the service in less than a year. I was drafted and entered service as an Infantryman May 25, 1918, being assigned

Determan Rites Held Wednesday

Frederick John Determan, 67-year-old pioneer resident of the Muleshoe area, died here Monday at Green Hospital and Clinic. Mr. Determan had lived in the Muleshoe area since 1920. Services were held at 9:30 a. m. Wednesday at Immaculate Conception Catholic Church here in Muleshoe, with the Rev. Clifton J. Corcoran administering final rites. Interment was in the Sacred Heart Cemetery in Littlefield under the direction of Singleton Funeral Home. Mr. Determan was preceded in death by his wife, Susie Frances Determan. Survivors include one daughter, Mrs. Kenneth Duncan, Muleshoe; one sister, Theresa Determan, Carroll, Iowa; his brother, William J. Determan, Early, Iowa; and one grandson, Michael Eugene Duncan. Pallbearers were Ennis Galyn, Benny Dyck, E. K. Angley, Frank Swint, Allen Haley and W. F. Stewart Jr. Honorary pallbearers were Claude Farrell, Raymond Roubinek, A. S. Walker, John Bickel, B. H. Bickel, Elmo Stevens, Wayne Moore, Mervin Wilterding, Joe Jesko, Art Ryan, Andy Hocks, Matt Jesko, Alex Jasko, Roland James Daniel, Russell Bearden, Howard Carlyle, R. J. Klump and Raymond Gaede.

WHITE CHRISTMAS COMES EARLY to the Muleshoe area this year, as more than six inches of snow were dumped on the South Plains the first part of the week. Forecasts calling for more of the same lead many residents to moan, despite the beauty of nature's white blanket of snow. (Journal Photo and Engraving)

Bracero Changes Noted At Meeting

Future plans of farmers in this area may well be determined by whether the U. S. Department of Labor considers listing and other similar operations to be "cultivation," according to Henry LeBlanc, chief of farm placement of the Texas Employment Commission.

He spoke to a group of farm labor employer representatives a nd farmers in Lubbock November 8.

Farmers consider "cultivation" to be those operations beginning after a crop are up to a stand. The thing that may cause farmers to change plans is a new ruling by the Department of Labor that says the use of braceros for "employment to operate or maintain power-driven, self-propelled harvesting, planting or cultivating machinery (which includes tractors) is prohibited after January 1 except in specific cases found by the secretary of labor to be necessary for a temporary period to avoid undue hardship."

An exception to this is the granting of an exception only with respect to extensions of existing contracts which already permit the contracted Mexican national to operate tractors.

This exception permits the extension of such contracts for such employment only during periods prior to January 1 of 1962.

Wording to the effect that Mexican nationals "may not be used on power machinery" is being stamped on the contracts of all braceros now being processed through Eagle Pass, it is reported.

TEMPORARY REMEDY
Some farmers are now using Jamaicans in farming operations, it is reported, but LeBlanc said, "Rules and regulations on braceros probably will be extended."

Farm-City Week Aids Understanding

Bailey County's 711 farms show according to figures recently released, feed 29,900 people. Bailey County's population is 9,090, including rural and urban residents. Of this figure, approximately 5,000 people live or work on farms. What of the other 4,090 people in the county? They work in business houses. Some, of course, are engaged in agricultural work such as grain elevators, gins, implement sales and repair, feed and seed companies and so on. Still others are in the grocery business, hardware, dry goods, services, other retail sales and a multitude of other endeavors. "All the residents of Bailey County are dependent upon farming for a living," one man says. But how many city-dwellers realize this and live by it every day? Luckily, the rural and urban population of Bailey County have long realized the intense interdependence upon one another.

November 17-23 has been designated National Farm-City Week and will be observed throughout the United States and many provinces of Canada. This week will help bring about "its goal of better understanding between rural and urban peoples and recognition by all of the interdependence of our society," according to the

HAPPY HOLIDAYS!
Muleshoe Schools will be dismissed at 2 p. m., Wednesday, November 22 for the Thanksgiving Holidays.

White Blankets Area As M'shoe Gets Heavy Snow

Snow continued to fall Wednesday in Muleshoe as seven inches lay on the ground to halt farming operations and make traveling hazardous. Snow plows were called out Monday night to clear highways of five inches of snow that had fallen that day. Tire chains became standard equipment for many cars in the Muleshoe area as snow melted and then refroze to make streets slick and dangerous.

MHS Beauty Pageant Here Monday Night

"Mirror, mirror on the wall," the queen asked, and the mirror replied, revealing the identity of the most beautiful and most handsome girl and boy in Muleshoe High School. But no one else will know until Monday night, when the couple will be chosen at the High School Auditorium.

Candidates from each class in Muleshoe High School have been elected for the Beauty Pageant to be sponsored November 20 by the Muleshoe High School Speech Club.

That night, everyone is invited to witness the judging, which will be based upon beauty, poise and personality. Following a theme of the Miss American Pageant, each candidate will have a talent to display.

Candidates elected to represent classes are: Yvonne Hendon, Ronda Johnson, Maria Reed, LaNelle Boothe, Billy Gilbreath, Stacy Lackey, Danny Gunstream, and Nelson Shipman, seniors; Sue Wilman, Barbara Evans, Jerry Hutton, and Keith Stevens, Juniors; Diana Chappell, Sandra Scott, Larry Allison, and Corky Green, sophomores; and Beckie Camp, Beckie Mason, Scott Oliver, and Grady Casey, freshmen.

Buddy Peeler is to be master of ceremonies. Admission will be 50 cents for students and 75 cents for adults, with proceeds going to finance improvements on the stage.

RANDY JOHNSON REPORTS

American Image Needs Improving

"No wonder France went broke," Randy Johnson said upon his return from Paris and a visit to the palace of King Louis XIV, located at Versailles. "A guide said it would take three weeks just to walk through every room in the palace," Johnson continued. "It was one of the most tremendous things I've ever seen. The area covered by the stables alone would almost encompass the city limits of Muleshoe."

Johnson and his wife, who spent six days in Paris, won the trip for outstanding sales for the Nash-Kelvinator Company. They were gone seven days, leaving

Office of the Mayor
CITY OF
MULESHOE, TEXAS
PROCLAMATION

WHEREAS the strength of America and the greatness of Texas was founded and has thrived upon individual and mutual contributions by agriculture, labor, business and industry; and

WHEREAS these groups contribute greatly to the prosperity of this area and to the well-being of consumers throughout the state and nation, and

WHEREAS a greater recognition of the interdependence between agriculture, business, labor and industry will lead to a better mutual appreciation of the contributions of each;

NOW, THEREFORE, I, ARTHUR CROW, Mayor of the City of Muleshoe, do hereby designate the period from Nov. 17 through Nov. 23, Farm-City Week in Muleshoe, to be observed as an integral part of

NATIONAL FARM-CITY WEEK
I request local groups civic clubs, and farm organizations to emphasize the interdependence between the family farm and the city in their programs at meetings; in discussions, exhibits, pageants and whatever other means will strengthen the ties and increase the appreciation of the value of these contributions to the welfare of the City of Muleshoe and the surrounding area by agriculture, labor, business and industry.

IN WITNESS WHEREOF, I have hereunto set my hand at the City of Muleshoe, this 13th day of November in the year of our Lord nineteen hundred and sixty-one.
ARTHUR CROW
Mayor

With cotton and grain still in many fields, the weather posed a cruel threat to the economy of the Muleshoe area.

The onslaught of harsh weather began Sunday, when temperatures fell from a high of 55 degrees to a low of 32. Rainfall that day measured .10 of an inch.

Muleshoe received the real brunt of the attack Monday, when five inches of snow fell on the area, with temperatures of 26 degrees were recorded late in the day. The high Monday was 35.

Tuesday's low dropped to 22 degrees, while the high for the

day was 31 and another inch of snow and precipitation totaling .75 of an inch were dumped on the area.

By press time Wednesday, a low of 22 degrees and another inch of snow had continued the blight of foul weather. Predictions indicated that still more snow lay ahead for Bailey County and the South Plains area.

Joe Shipman reported Sunday night that snow grains the size of small hailstones fell on his place northwest of Muleshoe. In the surrounding area, neighbors reported the cruel hand of the storm.

Chamber Takes On Big Work Program

Muleshoe Chamber of Commerce Monday night adopted what retiring president Robert Alford termed "the most ambitious program of work the Muleshoe Chamber has ever undertaken."

Incoming and outgoing directors met to consider a number of proposals in joint session Monday night. The foremost measures passed pertained to agricultural industry, a new jail and a city park.

The Chamber resolved to work toward securing an industry based on agriculture for Muleshoe in 1962, pledging to concentrate the full efforts of the Chamber toward reaching this goal.

An accelerated program of industrial and commercial development is planned for Muleshoe during the coming year, along with an active program of assistance to existing and future industry, with emphasis on zoning.

The Chamber will also concentrate on working to improve and maintain a sound business climate and increased awareness of the value of agricultural-based industry in Muleshoe.

Planning a training program in customer relations for sales personnel the Chamber will work to strengthen the desirability of shopping in Muleshoe.

The Chamber of Commerce also decided to work toward satisf-

ying the need in the city and county for more "adequate and humane jail facilities." The existing facilities have been termed completely inadequate to handle the needs of the area.

Stepping up the program to secure a new city park, the Chamber will be continuing the program already established.

Other areas of the program of work include tourist promotion, closer liaison between rural and urban residents, continuation of the solicitation control program, fire prevention, education, public and membership relations and celebrations.

Plans are being made to help develop appreciation for the economic importance of agriculture to business and to establish a series of farm dinners.

Journal Publisher Injured In Fall

The Journal's publisher, Larry Hall is in West Pains Hospital as a result of a back injury which occurred at nine o'clock Wednesday morning. He is reported resting satisfactorily, although both legs are in traction.

Doctor's advise four or five days confinement for Hall.

Power failures were reported in Tullia and Dimmitt.

El Paso reported drifts of snow Wednesday five feet tall, with this being called the worst weather there in over 30 years. About 450 hunters were reported trapped by the snow in New Mexico.

For a while Wednesday, 85 appeared that the snow in Muleshoe would start to melt, but shortly before press time, it snowfall became heavier and began again to stick to the ground. As The Journal goes to press, it looks like Muleshoe is in for more of the same for a day or so to come.

Jim White In Fair Condition After Fall Here

Jim White, local employee of Southwestern Public Service Company, was reported in fair condition in Methodist Hospital in Lubbock Wednesday, where he was being treated for injuries sustained in a fall here Monday night.

White, who had been changing light bulbs in the high school gymnasium here, apparently fell from a height, fracturing his skull and breaking a hand in the fall.

Authorities also indicated there were possible injuries to one eye, though this has not been verified.

White was using a long straight ladder to change light bulbs in the ceiling of the gym when the mishap occurred about 8:30 p. m., Monday. His son, Bob, found him when he went to the gym about 8:45 p. m. White was first taken to Green Hospital & Clinic in Muleshoe, and was later transferred to Methodist Hospital, Lubbock, by a Singleton ambulance.

A late report indicated Wednesday night that doctors would x-ray White's leg to check suspected injuries there.

White is a longtime resident of Muleshoe.

Parmer County Farm Bureau News

By Raymond Euler

Notwithstanding published reports of USDA farmers have not "really taken hold" of the emergency feed grain program "benefits" in very large measure.

Actually, 55.1 per cent of those with base acreage did NOT sign the program contracts, and only 44.9 per cent of those with base acreage DID sign program contracts. These figures are, of course, on the national basis, and not local.

Anyway, percentage wise, the grass roots, support is about as small as any program has had in a long time. And USDA, or CCC holdings of feed grains are as high or higher than they have ever been on this date, and those holdings are what usually constitute surplus supplies.

The cost of the program is estimated at not less than \$1 billion with an approximate reduction in production of corn, grain sorghum and soybeans of only about 5.3 per cent.

At the last director's meeting, Vernon Symcox was re-elected as secretary-treasurer of Farm Bureau. Other officers and committeemen have not been named. Mr. Symcox has held this position for several years and has done an excellent job, as expressed by other directors in re-electing him.

A large farmer-rancher in the Central Texas Area is currently feeding gain sorghum to his government and in the open market of grain sorghum on his farm which was placed in the government loan at approximately \$2.14 per hundred.

Taxpayers are paying the difference between the \$1.70 price and the \$2.14 price. This situation is being duplicated locally and everywhere, of course.

Farm Bureau people do not think this is a healthy situation.

Do you? **CONSIDER THIS:** The eyes of the Lord preserve knowledge; and he overthroweth the words of the transgressor. Proverbs 22:12.

Randy Johnsons Tour Many Historical Structures In Paris

Mr. and Mrs. Randy Johnson returned from Paris, France on November 1, bringing with them many pleasant memories of their visit there.

Some of the most interesting things they saw are related by Mrs. Johnson.

"We arrived in Paris at noon October 27 and went to the hotel where we had reservations, Hotel Claridge, located on Champs Elysee Street. The street forms a length between the ancient modern Paris.

"Just a few blocks from us stood Arc De Triomphe, towering atop the hill of Chaillot. It was built in memory of the victory of the Empire. Quite unimpressive sight is the city of Paris from on top of the Arc. It is an excellent place to view the city.

"Touring the ancient district of Paris was wonderful. Notre Dame Cathedral, located on an island of the river is truly a Gothic gem of art. This lovely shrine is noted for its lovely stained glass and marvelous marble in the massive structure. It was built between 1163-1240.

Place De Lourve, where two of the Napoleon's reigned was once a Royal Palace, but is now the Principle National Museum in France.

"Domes des Inalides was very interesting. It is indeed a temple of Military glory for which it is noted. The Napoleon's and Marshall Fox are buried beneath the domes. The structure is of French

SEVENTH ELECT OFFICERS

The seventh grade class of Muleshoe Junior High School elected officers for the year. They are as follows: President, Pat Stovall, Secretary, Verlyon Scoggins; Treasurer, Carol Haire; Parliamentarian, Sam Allison.

We Rely On One Another

Many city-dwellers do not realize the tremendous investment required for farming today, while many farmers do not realize the fact that a store cannot possibly serve him unless he lets his needs be known.

Let's try to better understand each other, beginning with this Farm-City Week, November 17-23. City-dwellers often have the idea that farming is a low-cost investment with high returns. The fact is, the average farm in Bailey County contains 609 acres of land and represents an average investment of \$83,570. In the case of the \$47 irrigated farms in the country, the investment is much higher than this.

While it is true that city people often do not understand farming, the reverse is also true. Farming is a business, just as is drygoods sales. But farmers sometimes fail to realize that town-business is run according to different standards than is farming.

Farming, at least the kind of farming we have in Bailey County,

is often a matter of one big crop. The farmer looks forward to having a good crop that will mean a good year.

Businesses on Main Street depend upon the day-to-day run of business — or the week-to-week returns, in some cases. If a clothing store has a dull day, for example, the owner becomes concerned about the week's receipts. Muleshoe is fortunate, for most residents of the town and of the surrounding area realize the dependence of one upon the other. Farmers depend upon merchants for supplies and services. Merchants depend upon farming for business.

But even the most ideal situation can be improved. Farmers should remember that Muleshoe merchants are here to serve them. Merchants should remember that farming is the lifeblood of business in this area.

Let's all continue to work together to make this an even greater city in an even greater farming area.

FISHING ON SALINE LAKE

Mr. and Mrs. F. H. Davis have returned from a fishing trip on Saline Lake near Winnfield, La. they report fishing was good and the weather the scenery was beautiful.

They also visited relatives and friends in Gatesville, Oglesby, Mt. Pleasant, Texas and Shreveport, Louisiana.

There are 3,511,000 miles of highways and streets in U.S. of this, including rural roads, about 70 per cent of miles are surfaced, while 93 per cent of state highway system mileage is surfaced.

Fifty-two per cent of automobile trips are to work or shop.

survive under such conditions. "German resistance began to weaken and we drove them back about 22 miles, where they made a stand at the Aisne River. There our last commissioned officer was killed by shrapnel.

"This also ended my fighting, since I received a piece of shell casing through my ankle and some small pieces scattered over my legs.

"Two of my buddies who were not hurt finally carried me back about a half mile to a cave. Then they had to leave me, since there were only 15 able-bodied men left of my original company. I spent 10 hours in this desolate place before I was picked up by stretcher bearers and carried some two or more miles to what had been a first aid station. Only

one doctor had been left behind when the station moved out. "The doctor only had tetanus shots, but an ambulance had room for me on the top tier of stretchers. I had a fine ride from 10 a.m. until 6 p.m. without anything to ease the almost unbearable pain.

"Arriving at a field hospital, my wounds were treated and I arrived back at Fort Worth Base Hospital February 22, 1919. I was a physical wreck, having contracted tuberculosis from being exposed to gas also. I was finally discharged April 22, 1919, at Camp Travis, San Antonio."

McAdams then continues, saying the American Legion helped veterans and service men to gain better hospital care and has fought to keep the American way of life.

Mrs. W. T. Andrews Is Hostess For Friendship Sunday School Social

The members of the Friendship Sunday School Class of the First Baptist Church met November 9 in the home of Mrs. W. T. Andrews, with Mrs. Cecil Tate as co-hostess for their monthly social and business meeting.

Mrs. Tye Young, president, presided over the business meeting. The class voted to buy one book for the church library, to be selected by Mrs. Ed Johnson and Mrs. A. W. Crow. They also voted to buy a desk for their class room.

Mrs. Mae Busbie brought the devotional, and Mrs. Bert Mathis entertained the group by reading "Little Williams' Thanksgiving Dinner."

Using small turkey candies as plate favors the hostesses served delicious pumpkin pie and coffee to the 19 members present.

HAPPY HOLIDAYS!

Muleshoe Schools will be dismissed at 2 p.m. Wednesday, November 22 for the Thanksgiving Holidays.

Yule Parade Date Reset For Dec. 2

The annual Christmas parade in Muleshoe will be held on Saturday, December 2 instead of December 9, as originally planned, it was announced by Gil Herndon, chairman of the Chamber of Commerce Christmas committee.

Non-profit organizations are urged to get their entries for floats in to Mrs. Marie White at phone number 3-3700, as soon as possible. Floats will be competing for \$250 in cash prizes including \$100 first prize \$75 second prize, \$50

third prize, and \$25 fourth prize. Five area bands are expected to appear in the parade, adding color and sound to the festive event.

A highlight of the parade will be the appearance of Santa Claus, who will visit with the children following the conclusion of the parade.

Santa Claus will also return to Muleshoe on Saturday, December 9 aboard the Santa Fe railroad's miniature train and again he will visit with children, and will

have treats for them all. A special feature of the Christmas program in Muleshoe this year will be showing of a life size Nativity scene on the southwest corner of the courthouse lawn.

The Christmas decorations will be in place and lighted on November 23, as will the Nativity scene. A home decoration contest is under the direction of John Smith this year, and details of this program will be announced in the Journal next week.

RECIPE OF THE WEEK

Home cooking secrets of Muleshoe is a 41 page cook book recently compiled by the members of the Muleshoe Rebekah Lodge. With the installation of Diana Stewart as their Noble Grand in July, they began work on the cook book as her project for her term of office. Although Mrs. Stewart moved to Lubbock in October, the lodge continued her project, had the book published and credit it's success to her work while here.

It contains over 100 recipes, for relishes, pickles, salads, vegetables, soups, breads, cookies, cakes, pastry, desserts, candy poultry. Also household hints and oven charts.

Each recipe was submitted by members of the lodge or friends upon request of a member.

A letter was written to the President's wife, Mrs. John F. Kennedy, requesting her favorite recipe.

Letitia Baldrige, Social Secretary for the First Lady, sent two of Mrs. Kennedy's recipes with the following letter.

We regret that in the vast quantity of mail your recent letter did not come to our attention until today. However, on behalf of Mrs. J. F. Kennedy we would like to extend our very best wishes for the success of your cook book and send you the enclosed recipes which you requested. With best wishes,

Sincerely,
Letitia Baldrige
Social Secretary

Former Resident Queen Candidate Homecoming At Wayland Baptist College Is To Start Friday

Happy Holidays is the theme for the tenth annual Homecoming at Wayland Baptist College, Plainview, when a full schedule is planned for Friday and Sat.

Reigning over festivities will be the Homecoming Queen chosen from 12 young women from six states and Japan. The student body elects the queen after appearances in talent and style shows.

Among the candidates for queen is Jera Lynn Saul, the former Jera Lynn Wilhite, daughter of Mr. and Mrs. H. L. "Doc" Wilhite, all former Muleshoe residents, now of Fort Collins, Colo.

Jera Lynn is the queen candidate for her senior class and will be escorted by her husband, Glenn Saul. For her part of the talent program, Mrs. Saul, religious education major, played an original composition on the organ. She will ride the senior class float.

Starting off festivities will be the Homecoming play, "Tiger at the Gates," with performances set for Thursday and Friday. The Association of Former Students will sponsor a chapel program Friday with Dr. Boyd Stewart as the feature speaker. During the chapel the queens elected from the honor class of 1941 by her former classmates, will be presented.

Perhaps the most thrilling moment of all, at least for one young woman will be the crowning of the Homecoming queen at the Friday Banquet. Her identity will not be revealed until that time. After the coronation of the Queen and her escort will have places of honor at the play beginning at 8:15 p.m.

Saturday's festivities start with a parade in downtown Plainview

at 10:30 a.m. After the procession of campus floats and bands from nearby high schools, the children of former students will stage a baby parade through "Story Book Land", one of the most popular activities for former Waylanders.

Other activities will be a bar-becue, a concert by Reese Air Force Band, a talent show and reunions of the 1921, 1931, 1941, and 1951 classes at 4 p.m. Saturday.

Climaxing the event will be the Homecoming basketball games between the Flying Queens and the Boosters from Topeka, Kan.

Today's Prayer

Heavenly Father,

We are thankful for your many blessings so richly given to all of us. We are thankful for the invitation to come boldly unto your throne of grace that we may obtain mercy and find grace to help in time of need. Forgive us our sins. Enable us to grow in spiritual strength that we may better uphold the will of Christ. In the name of Christ we pray. Amen

Gunn Bros. STAMPS DOUBLE ON WED.

UP FOR GRABS—Gerry Pierce, Muleshoe Mule fullback, and Ray Ingram, Abernathy Antelope guard, grab for a fumbled ball in the Mule-Antelope battle here last Friday night. The Mules won their final game of the season thrashing the Antelopes 35-6 for one of the most thrilling games of the year. (Journal Photo and Engraving.)

Mules Walk Over Abernathy, 35 - 6

Winding up the season on a note of victory, Muleshoe's Mules walloped the visiting Abernathy Antelopes 35-6, as fullback Gary Pierce scored 22 points.

A hard-charging, gang tackling defense held their offense, as Abernathy managed only one first down the third quarter, and only one the fourth period against the stampeding Mules.

After battling to a scoreless tie in the first quarter, Muleshoe's Gary Pierce opened the scoring for the Mules with a six-yard run in the second stanza. He also ran the extra points.

The Antelopes came back into contention when a pass from quarterback John Kiker to halfback Tom Ritchie covered 36 yards to pay dirt. But the points after try failed.

Pierce, who scored 22 points during the game, scored on a nine-yard plunge in the second period. The points after try failed, and Muleshoe led 14-6, at halftime.

Lockney Eases Past Morton

LOCKNEY - Lockney's Longhorns overcame a band of opportunists from Morton and just plain bad luck here Friday afternoon to upset the Indians 19-15.

The winning tally came in the last minutes of the game when Belt found his brother, Ronnie Belt, with a fourth-down TD toss from Morton's 31 yard line. And Johnson then plunged over left guard for the necessary extra points to push Lockney into the final season's game for both clubs.

Morton ended the ball grid wars with 7-3 season mark and a 2-3 effort in district. Lockney stands 5-4 for the season and has an identical 2-3 mark in district.

It was scoreless in the games initial quarter but Lockney drove 56 yards in 15 plays to the visitor's nine. From the nine, Quarterback Johnnie Belt's fourth down pass fell incomplete, killing the drive.

Each team crossed into pay dirt in the long, long second period. The scoreboard clock wasn't used and the officials kept time. But the man with the clock must have forgotten to watch the time, and it appeared that the teams played a second quarter of at least 17 or 18 minutes.

The Longhorns started a drive near the end of the initial quarter that finally carried 52 yards in 15 plays. Fullback Ronnie Belt did TD honors with a plunge to pay-dirt from the two. Then Johnnie Belt passed to end Ronnie Kidd for the extra points making it 8-0.

Morton got its first TD late in the second quarter and it was a give-away. For, from its own 22, Lockney tried to run a fourth and

The Mules came back determined in the second half, when end Dixon Ray scored on a jump pass from quarterback Kenny Heathington in a 61-yard play. Halfback Billy Gilbreath's pass to Pierce netted the extras.

In the fourth period, Pierce scored from the seven to cap a 43-yard drive, and halfback Jim Young scored from 11-yards out to end a 54-yard drive. Center Bob White kicked the conversion after the second touchdown in the fourth period.

Muleshoe's forward wall out-charged the visiting Antelopes and did a real outstanding job of gang tackling and pursuit. Outstanding on defense for the Mules were Bob and Gerald White, Wayne Malone, Jerry Wright, and Jerry Howard.

Muleshoe had 18 first downs, 17 in the first three quarters, to Abernathy's 12. In total offense, Muleshoe picked up 338 to Abernathy's 240. Both teams ended the year with 3-7 records.

two situation. It failed and Morton took over. Immediately, fullback Wilburn Zuber took a handoff and shot straight up the middle for 22 yards and a score. Steve Middleton's pass for points failed, making the count, 8-6.

But Morton recovered an on-side kick and set up scoring business again on Lockney's 48. The Indians moved the ball to the 14 and then stalled. But Middleton booted a 35 yard field goal pushing the total to 8-8 at halftime.

Sudan Drops To Hale Center

SUDAN (Special) - If they have an atomic war, Hale Center will be safe for they went to the cellar Friday night, when Sudan's Hornets squeaked past, 12-6, in a District 3A game that could have put either team in the "last" position.

Hale Center scored first early in the first period when halfback Perry Ritchey plunged three-yards over center. The play was set up by a Sudan fumble recovered by Hale Center guard Floyd Tiffin on the 12-yard line. A kick for the extra failed.

Sudan romped back to score on a 54-yard pass, lateral and run play. Quarterback Scrapy Wingo passed to end Jim Savage who lateraled to halfback Ramon May. May went the final 50 yards of the play.

In the third period, Sudan scored when Savage, at halfback position, ran one yard. The play was set up when May scampered 53 yards after taking a lateral from Wingo.

Sudan had a first down on the Hale Center two-yard line as the game ended.

Guard Mike Masten and tackle Dale Masten were standouts defensively for Sudan. For Hale Center, linebacker Ritchey and Joe Mack Byrd, end, were standouts.

Lazbuddie Falls To Happy, 20-12

HAPPY (Special) - The Happy Cowboys rapped Lazbuddie, 20-12, here Friday night in a battle to stay out of the cellar in District 2-B.

Lazbuddie scored last in the contest, but still finished conference warfare on a winless note. The victory was Happy's only one in district play.

The winning margin came in the second quarter, when fullback Jim Blackburn rambled 17 yards only to fumble into the end zone, where end Jerry Stevens pounced on the ball for the touchdown.

Quarterback Ronnie Middleton ran off-tackle for 20 yards which

after a two-point conversion by Len Frost, put the Cowboys out front, 14-0.

The Longhorns narrowed the margin to eight points at halftime on a 63-yard scamper by halfback David Koelzer.

Happy iced the victory in the third period on a 29-yard pass play from Middleton to end Jerry Stevens. Koelzer ran around right end for 29 yards and another Lazbuddie score in the fourth and that was the ball game.

Canyon Smashes Friona's Hopes

FRIONA (Special) - The Canyon Eagles dashed all hopes Friona had for winning a football game in 1961 with a 48-8 victory over the Chiefs here Friday night.

Friona finished the season 0-10, while Canyon closed out the year with four wins and six losses. Ronnie Harris Canyon Fullback, scored first with a three yard plunge. A few minutes later, Harris scampered 80 yards for the second marker, then ran a two-point conversion.

In the second period, Robert Cook slammed over tackle post for a oneyard touchdown. Harry Lisle kicked the extra. Moments later, Bill Phillips streaked across the middle of his line from oneyard away for another Canyon score. Canyon led at halftime 27-0.

In the third period Lisle traveled 43 yards for one score, and Gail Cox chalked up another with a six-yard plunge. Lisle kicked an extra after the second score. Friona's Tommy Baxter, halfback, broke loose and moved 60

Hereford Edged By Littlefield

HEREFORD (Special) -The Littlefield Wildcats battled from behind twice here Friday night to nip Hereford 21-20, and take over second place from the Whitefaces in District 1AAA.

The winning touchdown came in the fourth quarter to climax a determined 70-yard drive.

Hereford struck first in the game, quarterback Joe Mack Hale capping an 80-yard march with a 54-yard run. Passes of 27 and 31 yards highlighted the drive.

Littlefield took a 7-6 halftime lead, however, on the strength of a fumble recovery at the Whitefaces' 24-yard line. Halfback Gary Schovajsa went the final three yards, then kicked the point.

The Wildcats strengthened their lead in the third quarter on a quarterback Boots Barker the final yard to paydirt. He also ran the two extra points for a 156 lead.

Hereford came right back however, narrowing the margin to three points on a 70-yard scamper by halfback Mack Cansler-who already had scored 98 points this season-then going ahead on a twoyard run by Hale in the fourth period.

Hale tally climaxed an 80-yard drive and after a twopoint conversion by Dennis Hodges, put the Whitefaces ahead for the last time.

That set the stage for Littlefield's last ditch drive. The victory gave the Wildcats a 2-1 record in district warfare with one game still to play.

The cutting torch taken n in the Francis Implement burglary was believed to have been used in the Farwell robberies.

City police this week arrested one for vagrancy, one for a traffic violation and three for drunk. Highway patrolmen jailed one for speeding and one for no driver's license. They also investigated a number of minor accidents caused by the weather. James Freeman, local highway patrol officer, investigated three wrecks in one hour Monday.

Electric Co-op Good For Farm and City

By Joe H. Harbin, Bailey County Electric Ass'n.

Mr. T. K. Quinn, writing in the Electrical World of June 1934, had this to say, "Let us be sensible about it. The great services of electricity are limited to a relatively small proportion of American homes because the majority cannot afford to purchase them."

Then we quote from Hudson W. Reed, Edison Electric Institute, Bulletin dated June 1935, "Only in the imagination of these, his champions, does there exist any wide-spread demand for electric services on the farm, or any general willingness or ability to pay for it, at the present low averages of farm income. The electrification of all farms, desirable as they may be from a social viewpoint, is clearly an economic impossibility."

In spite of these gloomy predictions, under the R. E. A. act of 1935, Rural America, banding together, borrowed money from the government and built distribution systems to provide them electric service. In fact, by 1960 about 97 per cent of all farms were electrified.

There are 1,087 borrowers in the Rural Electrification Program. As of June 30, 1960, \$4,153,325, 751.00 in loans had been approved to serve 4,750,000 consumers. By October 1961, one billion dollars of this amount has been repaid, plus nearly \$500 million in interest.

Norman Clapp, REA Administrator, said in commenting on the payment of the billion dollar, "This program has been first and foremost a great and productive investment in better living for our rural people. It has been an investment that is producing an ever-increasing return in greater production, efficiency, better use of our human and natural resources, and expanding markets for our industry."

In connection with National Farm-City Week, November 17 to 23, the Bailey County Electric Cooperative Association, representing the rural people in this area, would like to report out that the U.S.D.A. has pointed out that for every dollar spent in rural electric facilities, four dollars or more have been spent for appliances and other electrical equipment.

Since four billion dollars has been used in building rural electric systems, \$16 billion has been spent with "down town merchants" therefore resulting in economic benefits to both rural and city people.

With the coming of electricity on the farm, it has had the effect of raising the capital requirements of the business of farming, but surely the benefits of electrification have out-weighted their cost and reduced the amount of phy-

sical drudgery involved in farm chores. The end of this electric revolution is nowhere in sight. New uses to improve the efficiency of farm production are being developed almost every day.

Hi Plains Corn Test Result Told

Nineteen varieties of corn were tested at the High Plains Research Foundation in the 1961 season. The varieties were planted on April 18 and fertilized at plants in time with an application of 225 pounds of 13-39-0 per acre.

The fertilizer was placed about four inches to the side of an four inches below the seed at planting time. A sidedress application of Urea at 57 pounds or nitrogen per acre was applied on May 12 and an additional 40 pounds per acre was applied on June 9. Five irrigations of 3 1/2 inches each were applied during the growing season.

Dr. Earl H. Collier, Chief Agronomist conducted the tests assisted by Paul M. Belcher. All plots were harvested by hand during the period from October 2 to October 6.

The yields of shelled corn at 14 percent moisture follows: P.A.G. 10185, 168.73; Asgrow, 300, 167.17; Texas 28, 160.25; P.A.G. 485, 158.16; Asgrow 500, 154.23; Texas 26, 150.45; Steckley 30-B, 149.92; Texas Experimental 6006, 148.90; Funks, G-711AA, 148.68; Asgrow 105W; Texas 36, 144.48; Texas 30, 144.19; Steckley 15-B, 141.23; Texas 34, 136.59; P. A. G. 436, 136.36; Texas 17W, 135.77; Texas Experimental 5803, 126.22; and Texas Experimental 5925, 112.37 bushels.

FARM BUREAU NOTES

Producers and leaders of Farm Bureau note that price control will result in the control of the producer. This is very effectively stated by Dean Russell in his article "Price Control is People Control" printed in the Freeman, October 1961, which reads as follows:

"Actually, when you stop and think about it, no government can ever really support a price. Prices don't give a hang about supports; it's not their nature. The nature of all governmental schemes to 'support prices' is this: Some people who control the policy powers of government use them to take money from other people who have earned it, and give it to still other people who have not earned it. That's all it is. Calling it by another name cannot change its nature, for better or for worse."

SOIL CONSERVATION NEWS

by Dale Fischgrabe
Soil Conservation Agent

"Blackwater Valley Soil Conservation District is fortunate in having the Great Plains Conservation program in Operation here, according to those who participate. It makes funds available for conservation cost sharing in addition to the yearly allotment through the ACP. This allows a speed up of conservation work for those who have a lot to do in any one year.

There is much interest in this program so far. To date there are 83 active Great Plains Conservation Program Contracts in the Soil Conservation District and several more are being planned

at this time. The O. D. Campbell farm operated by T. W. Thomas, Houston Hart, Wendel Speck, Richard S. Turner, and George M. Cole are a few of the most recent contracts signed here in the county.

Cost-share is offered on such practices as terracing, waterways, seeding grass on rangeland and leveling, and irrigation pipelines. Up to 80 percent of the cost of grass seed will be paid for under this program. Participants can receive 70 percent of the cost of terraces and up to 50 percent of the cost of such practices as land leveling.

For further information on this program contact your local Soil Conservation Service office.

Meet Encourages Sugar Growers

James Glaze, Carl Bamert and Ernest Kerr were among about 1,000 interested prospective sugar beet growers and others interested in the program who met with Congressmen Tuesday in Hereford.

There, they were told by Rep. Robert Poage, of Waco, who is vice chairman of the House Agricultural Committee, that "Sugar beet growers in the Texas Panhandle, New Mexico or Utah that none of the 3-million tons of sugar once allotted to you might as well quit bickering with that myth and start planning on a solid sugar program."

Poage hammered home his belief that none of the 3-million tons of sugar once allotted to Cuba would ever be given to area growers.

"You're not going to get that quota (Cuban) and move it up here in the Panhandle . . . that sugar is going to foreign markets and you might as well figure on it," he added.

Poage offered no apology for his statements which brought little response from the audience, but hastily added in a booming voice, "there is a way to get you folks started in the sugar beet business. And that is by getting congressional action in your favor on the domestic sugar growth factor when Congress reconvenes in January."

Poage said he definitely is in favor of getting at least 75 per cent of the annual domestic sugar increase (about 150,000 tons) allotted to new growers, "and I see no reason why a good share of

Businesses Here Comply With New Texas 'Blue Law'

Drug store managers and grocery stores in Muleshoe have announced that they will limit Sunday sales as of Nov. 5 in compliance to Texas' new "blue law" but otherwise will remain open for business.

Both drug stores will have pharmacists on duty to serve their clientele during local doctor's Sunday hours, and will be available at other times by telephone. Harry Waddle and Sam Damron said they will comply with the new law and request their customers to assist the drug stores in following the new Texas mandate also.

Ogle Lorraine and Marvin E. Doss said — Under the law, stores are prohibited from selling 42 items on both Saturday and Sunday. Stores will have to close one of the days but can elect which day they intend to withhold sales of the prohibited items. However, items can be purchased by indicating in writing that the article is needed for the "welfare, health or safety of human or animal life."

Articles which must not be sold one day of the weekend are: wearing apparel, footwear, headwear, kitchen utensils, china home appliances, stoves, refrigerators, air conditioners, electric fans, radios, television sets, washing machines, driers, jewelry, precious or semi-precious stones, silverware, watches, clocks, luggage, motor vehicles, musical instruments, toys (excluding items customarily sold or novelties and souvenirs), recordings, cameras, hardware, tools, (excluding non-power-driven hand tools), bed coverings, lamps, draperies, blinds, curtains, mirrors, lawn mowers, cloth piece goods, kitchen ware and home, business, office or outdoor furniture.

COMMUNITY CLUB WILL SPONSOR CHILI SUPPER

A Mexican Supper will be sponsored by the ladies of the Needmore Community Club on Saturday evening November 18, in the Needmore Community Building. They will begin serving at 5:30 p.m. The price is \$1.00 for adults and .75 for children.

this quota couldn't be allotted to you farmers here in the Panhandle. Poage was one of five congressmen who were guest speakers at a special legislative forum called to inform area sugar beet growers where they stand on getting additional sugar beet acreage. A new Sugar Act is scheduled to be proposed before Congress in January or February, 1962.

Directing the program were Benefield and Henry Sears, all of Hereford, members of the Texas Sugar Beet Growers Association's legislative committee. Other guest speakers were Rep. Walter Rogers of Pampa, Rep. George Mahon of Lubbock, Rep. Tom Morris of Tucumcari, (D-N.M.), and Rep. Ancher Nelson, (R-Minn.).

Mahon spoke from another angle: "We were unable to get any sugar acreage for this area this year, but we have certainly brought the issues out from under the table. I think we'll get a new Sugar Act this next year . . . one that will give at least some acreage to new growers."

Mahon pointed out that due to the tremendous interest of area farmers on the sugar program, the entire Kennedy Administration has become concerned. It will not be solely up to officials in the U.S. Department of Agriculture to decide on this problem, but to the whole Administration."

Fifteen sugar beet associations from Oklahoma, New Mexico, Texas and Arizona were represented at the afternoon session, with visitors from Fort Worth, Dallas, Pecos, Denver and some two dozen towns of the Tri-State area.

Lazbuddie News Letter

By MRS. C. A. WATSON

There was a slight mistake in last weeks mentioning of crowning of the Carnival Queens. It should have been Donna Precure escorted by Johnny Haberer. Debbie Engelking was escorted by Rickie Hardage and Jan Mitchell by Trevor Ford.

The Lazbuddie P.T.A. had a real good turn out Monday night at the regular meeting. The talk given by Dr. Kenneth Osborn was thoroughly enjoyed by all. The room count winning the prize for having the most parents present was won by Mr. Ketchums 6th grade room.

The area Farmers Union had their meeting Monday evening of last week. New officers elected were: President T. O. Lesley, Lazbuddie; Vice-president Robert Calaway; Secretary, Sarah Bardley, Lazbuddie. Delegates chosen to go to the State Convention at Waco are: Lee Johnston, Glen Lesley, Wes Young, Wayne Clark, W. M. Bradley, Clyde Weatherly, John Weimer. Alternates are: Leon Grissom and Charles Seals. The Major Resolution adopted at the Monday night meeting was opposition to any further tax on farm equipment, (such as licenses on cotton trailers and etc.) Representatives going will also ask that unemployment statistic be listed by occupations because the present posting methods do not reflect the high employment of farm laborers. Resolutions will be presented by the group going to represent Parmer County asking that layout payment be discontinued for grain fields when the price of grain sorghum reaches party levels.

A large group of 4-H Club members attended the Achievement program held at the Oklahoma Lane Community building Nov. 4, at 7:30. Linda Gleason of Lazbuddie 4-H County Chairman served as Mistress of Ceremonies. Reba Lasley, Gold Star winner girl led the 4-H Club motto and pledge. Guest were introduced by Miss Gleason. Cooper Young of Lazbuddie-District 4-H Council sec-tres. thanked and gave recognition to the ones who supported the 4-H programs in the county. Richard Chitwood of Lazbuddie was presented the Santa Fe Award of recognition. Richard will attend National 4-H Congress in Chicago later this month.

Receiving award medals and completion year pins were: Citizenship-Cooper Yung; Achievement, Richard Chitwood; Beautification of home grounds, Bruce Billingsly; Agriculture, Gerald Foster, Steve Young, Daryl Foster and Danny Miller. Beef, Charles Shulk, Jerry Cass, Terry Parham and Kirby Burch. Garden, Dale Blackston and Frank Hinkson. Leadership, Timmie Foster and Mike Hinkson. Swine Ronald Mayfield, Bobby Gleason. Jack Tractor, Gary Foster and Ronald Broyles. Lyndon Foster, Johnnie Gulley, James Davis, Mike and John Ward received Year Pins. Girls receiving awards and completion year pins are: Clothing, Reba Lasley, Vinane Lesley, Debbie Jarecki, Brenda Woodruff, Nedda Foster. Dress review, Judy Koelzer and Connie Schlenker. Home Economics, Peggie Lesley, Katie Blackstone, Sherri Tannahill, Carol Miller, Janie Billingsley, Marsha Schumann, and Sharon Martensen. Home Improvement, Vicki Kaltwasser

Feeling we should take the time and space to mention these honorees since the greater part of the honorees are students in Lazbuddie school we are not sending much of the local news of visitors usually sent in.

Birthdays this week go to: Kim McDonald, 12th, Maria Rodriguez, 12th, J. J. McDonald, 14th; Bobbie Matthews, 14th; David Lawrence, 15th; James and Judy Koelzer, 15th; Angelo Trevina, 16th; Mrs. T. D. Reed 18th; Debbie Engelking 19th.

All homemakers in the area are invited to a Large Kitchen Appliance program planned for November 30th in the Southwest November 30 in the Southwestern Clovis, N. M. The Program and Public Service Auditorium in Clovis, N. M. ending at 3 p.m. Everyone is asked to bring a covered dish of meat, salad or desert to be served at noon.

TO COTTON PRODUCERS AND GINNERS

We are being asked by many ginnings and producer customers what kind of cotton we think they should put into our POOL and what we think they should sell on the open market. They are also asking at what prices we think they should stop selling on the open market and place into the pool. Of course we cannot give a positive answer but we feel reasonably sure we can make our customers money if they follow the table of grades and prices outlined below on most of this cotton.

We recommend your putting into the pool any of the following cotton that will not bring more than the prices shown on the open market.

SM	15-16 and Shorter	If you cannot sell for as much as 75 points over the loan.
Mid Plus	15-16 and Shorter	loan.
Middling	15-16 and Shorter	
SM	1 Inch and Longer	If you cannot sell for as much as 30 points over the loan.
Mid Plus	1 Inch and Longer	loan.
Middling	1 Inch and Longer	
SLM Plus		All staples that will not bring as much as 75 points over the loan.
SLM		All staples that will not bring at least 125 points over the loan.
LM Plus and LM		All staples that will not bring about 175 points over the loan.
SLMt Spots		All staples that will not bring at least 100 points over the loan.
Mid Lt. Spots		All staples that will not bring at least 150 points over the loan.
SLMt Spots		All staples that will not bring at least 225 points over the loan.

All straight spots, greys and tinges, etc., should bring quite a little more over the loan than the figures shown for the comparative light spotted. The big demand is now, and will be next Spring and Summer, for the SLM-Mid Lt Spots and lower grades.

Our reasoning in arriving at the above figures is that over one-half the crop we will produce in the Plains area will find its way into the loan and the prices will be more or less governed by this fact and also depends to a great extent on the amount of cotton placed with our organization or one of the others of such a nature available to the producers. Another important factor is that some 300,000 acres, more or less, have been contracted in the fields and will not be for sale on the open market. The above, plus the fact we have a small carry over of cotton compared with past years and with no increase in acres for the next crop, we feel will lead to higher prices next Spring and Summer than are now being paid.

We are very happy with the reception our organization has been receiving all over the area and we wish to apologize to those of you who have called and sent word for us to come meet with you and to date we have not been able to get around. We will manage to get around within the next few days, however, as we are visiting with some group most every day.

We have been, and will continue working very hard to make this a well paying organization for you as well as something we ourselves can be proud of.

Communists Concentrate On Psychological War Techniques

EDITOR'S NOTE: Davis Merwin has been editor, publisher and correspondent for some 40 years, seeing combat with all four armed services. He has since World War II devoted his time to National Defense—both stateside and overseas, including two Korean War tours, as a newspaper correspondent.

By DAVIS MERWIN

Unquestionable gain would ensue if the American people and their leaders turned their minds and their tongues from the "nuclear holocaust" panic to positive measures—but first, to recognition of even greater threats to our security.

For some years this column has dwelt chiefly on:
1. The crying need for less of the defensive attitude that has led to investment of vast sums in development of a "Fortress America"—and by contrast, for seizing the initiative and thus the offen-

Parmer 4-H Awards Made

Approximately 200 4-H Club members, parents, and friends attended the Annual Parmer County 4-H Achievement Awards Program Saturday night, November 4, at 7:30 in the Oklahoma Lane Community Center. Eighty-one 4-H Club boys and girls received achievement awards medals and result demonstration completion year pins.

Linda Gleason, County 4-H Council chairman, served as mistress of ceremonies for the program. Reba Lesly, Gold Star girl, led the group in the pledge of allegiance to the United States flag. Gary Foster, gold star boy led the 4-H Club motto and pledge. Guests were introduced by Linda. Those attending were: Judge and Mrs. Loyd Brewer and Mr. and Mrs. Joe W. Jones.

Cooper Young, District 4-H Council secretary-treasurer, thanked and gave recognition to many friends of 4-H who support the 4-H program in the county.

Achievement awards, medals, and year pins were presented to each of the forty-five boys and girls who had the most outstanding project completions. Due to a limited number of achievement medals donated by national industries and manufacturers, other club members who entered their record books received year pins. Presenting these medals and pins were County Judge Loyd Brewer, assisted by Miss Ettie Musil and Deryl L. Coker, county extension agents.

Gold star awards for 1961 were presented to Reba Lesly of Farwell and Gary Foster of Oklahoma Lane Community. Reba is the daughter of Mr. and Mrs. U. L. Lesly and Gary is the son of Mr. and Mrs. Nelson Foster.

Richard Chitwood was presented the Santa Fe Award Honor of Recognition. Joe W. Jones former County Agricultural Agent, presented him with this award stating, "Richard has come a long way in his 4-H Club work." Richard will attend National 4-H Club Congress in Chicago later in November. He was among the four in the state who won a \$400 scholarship by entering his record book in the Santa Fe Railroad Award.

Receiving awards, medals and completion year pins were: Citizenship - Richard Chitwood, Beautification of Home Grounds - Bruce Billingsley, Agricultural - Gerald Foster, Steven Young, Daryl Foster and Danny Miller, Beef - Bobby Redwine, Ricky Coon, Eddie Wood, Larry Gregory, and Kim Buske, Field Crop - Charles Shulk, Jerry Cass, Terry Parham and Kirby Burch, Garden-Dale Blackstone and Frank Hinkson, Leadership - Timmy Foster and Mike Hinkson, Swine - Ronald Mayfield, Bobby Gleason, Jack Walker, James Wilson and Marvin Wilson, Tractor - Gary Foster and Ronald Ashford, Year pins - Charles Morton, Mike Smith, Floyd Schlenker, Curtis Drager, Raymond Drager, Danny Schueler, Wayne Schueler, Johnny Broyles, Jimmy Broyles, Lyndon Foster, Mike Riethmayer, Johnny Gully, Don Hoover, Mike and John Ward, James Schlenker, and Larry Davis.

Girls receiving awards, medals, and completion year pins are: Clothing - Reba Lesly, Viane Lesly, Debbie Jarecki, Brenda Woodruff, Nedda Foster, Dress Revue - Judy Billingsley, Pat Tannahill, Judy Koelzer and Connie Schlenker, Home Economics - Peggy Lesly, Katie Blackstone, Sherri Tannahill, Carol Miller, Janis Billingsley, Marsha Schumann, and Sharon Martensen, Home Improvement - Vicki Kaltwasser and Greta Mears, Food Preparation - Linda Gleason, Leadership - Carolyn Aneer, Receiving year pins - La Nell Christian, Connie Dennis, Kandy Meeks, Rayma Lemons, Deborah Hargrove, Janice Miller, Charlotte Davis, Linda Ashford, Shelia Vaughn, Karene Milner, Crista Evans, Terri Schueler, Shirley Schueler, Vicki Vaughn, Connie Vaughn, Ramage.

sive. That means stressing the mobility of the sea and, through it, the flexible projection of our nation's physical might to distant climes, safe for us but impressively dangerous to the enemy.

2. The competent schooling of the public as well as the members of our Armed Forces, in recognizing the pattern of the Communist conspiracy; in most effectively combating it; and above all, in appreciating the fearsome extent of its presence within our national boundaries.

3. The utter futility of negotiating anything but our surrender with cold-blooded, scheming, treacherous and implacable protagonists and entrepreneurs of our destruction.

4. The power of words, of techniques that add up to brainwashing so refined as to enslave and exploit even the most intelligent by inducing the "conditioned reflex." Communist gobbledygook has subjugated well over one-third of the world's population. It has outfought bombs, rockets and bullets.

The virtually undetected subtlety with which millions of minds have already been twisted by catch-words and phrases and wholly irrelevant ideas is at the very least horrifying to those who have studied the techniques and the resulting extent of demoralization here in these United States.

Recent expert testimony before the Senate Internal Security Subcommittee, recorded under the title "The New Drive Against the Anti-Communist Program," has been mentioned here. It is an understatement, I believe, to say that the full text should be in the hands of every American interested in his personal security and that of his country. Yet, the members of both House and Senate who are showing real initiative in intelligent enlightenment of the people to the vast threat of international communism add up to a very few. Likewise, the objective publicity given the efforts of those few is not only inadequate, but too often defamatory. (Note Life magazine's senseless attack on Dr. Fred Schwarz, of the reputable Christian Anti-Communism Crusade.)

The sole witness at the subcommittee hearing was Edward Hunter, Sen. Strom Thurmond, who has been quoted here as leading the determined effort of the few, observed that Senator Eastland's Internal Security Subcommittee had "performed an invaluable service by making pub-

lic the testimony of Mr. Edward Hunter and the documentation of Mr. Hunter's testimony." Thurmond added that "Mr. Hunter has authoritatively described in detail both the method of operation of communism in the United States today and the circles utilized by Communists to conduct their campaign of psychological warfare."

Need Education
After noting Mr. Hunter's extensive experience and listing his literature on the subject, the Senator commented that "In 'Brainwashing from Pavlov to Powers,' Mr. Hunter... points out the vulnerability of Americans to Communist brainwashing techniques and stresses the need for anti-Communist educational efforts in our country."

Chairman Fulbright of our Senate Foreign Relations Committee doesn't agree. He has chosen unilaterally to pressure Defense Secretary McNamara into directives contravening the still-effective order of the National Security Council issued three years ago, naming the responsible military as essential in the program of anti-Communist education, and requesting their active participation. Fulbright falls for Red lingo when he accuses those who have complied of using "extremely right-wing" methods, "with the probable net result of condemning foreign and domestic policies of the Administration." This should get a laugh, in view of the current lack of any policy except timid, almost-sycophantic attempts at ingratiating the U.S. with an enemy who knows what he is doing and is not to be swayed.

But worse still is Mr. Fulbright's transparent inference that these alerts have erred in emphasizing the primary danger to this country as internal Communist infiltration. In this connection, the Hunter testimony and that of Director J. Edgar Hoover of the FBI will be of interest.

FEED GRAIN PROGRAM
A large farmer-rancher in central Texas area is currently feeding grain sorghum to his feeder cattle bought from the government and in the open market for \$1.07 per hundred. This same rancher and farmer produced a large amount of grain sorghum on his farm which was placed in the government loan at approximately \$2.14 per hundred. Tax payers are paying the difference between the \$1.70 price and the \$2.14 price.

MULESHOE RADISHES — And these are for real! After seeing a picture of a sugar beet jokingly called a "Muleshoe Radish" in last week's Journal, Joe Harbin, educational director of Bailey County Electric, went out to his garden and brought in the real article. The larger of the two shown above weighed over a pound and a half. (Journal Photo and Engraving)

Another New Car Coming

Muleshoe Motor Company has been appointed to sell the Mercury Meteor, a completely new-sized car which will be introduced this month.

Mercury Meteor will be unveiled across the country on Thursday, November 30, at about 2,000 showrooms. Its introduction will climax the auto industry's fall showings of the 1962 models.

The Meteor is regarded by the Lincoln-Mercury Division as a balance between the industry's compact and big cars. Compared to its companions in the Mercury line, the Meteor is nine inches longer than the Comet and nearly a foot shorter than the Monterey.

The new Meteor will be offered in four body styles—two- and four-door sedans in both a standard and custom series.

FARM PRICES — During the month ending October 15, the index of price received by farmers dropped nearly 1 percent (two points to 240 per cent of its 1910-14 average). The mid-October index was less than percent below the income of cash farm wage rates climbed 2 percent in October. Prices paid by the farmers for production goods were off slightly during the month. However, these declines were not sufficient to lower the index of prices paid. At 301 on October 15, the index was the same as in September and about 2 percent higher than the revised index of a year earlier.

The parity ratio remained at 87, the same as in August and September. For the first time since June, the parity ratio was lower than a year earlier. (Texas Crop and Livestock Reporting Service.)

One of five businesses in Texas is in the automotive field.

Average age of U.S. passenger cars in use in 1960 was 5.8 years.

More Students Going To College

H. W. Callan, principal of Muleshoe High School, said recently that their office sent about 40 transcripts to colleges for 1960 graduates.

The following information has recently been compiled from the annual reports for 1960-61 which shows a total of 85,102 high school graduates 1960-1961.

Of these graduates, 57 per cent (42,673) of the white graduates indicated that they planned to enter college during the fall of 1961; and 49 per cent of the colored graduates. This was a 1 per cent increase over the percentage of 1960 graduates indicating they planned a college career.

Comparable figures on the headcount enrollment in the fully

college enrollment for 1961 is the largest increase in recent years. It has nearly doubled in the last ten years.

The University of Texas enrolled 20,396 in 1961; 19,391, in 1960; 18,442, 1959; and 12,707, 1951. Texas Technological College compares with 10,212, 1961; 9,178, 1960; 8,766, 1959; and 4,901, 1951.

Two examples reflect the college rush of high school graduates, as well as serve as a reminder to future graduates who want a college education. Good grades and seriousness in study habits are contributing more and more as the basis for college entry in these days of the college and university population explosion.

Highlights And Sidelights From Your State Capitol

By Vern Sanford
Texas Press Association

With filing deadline for state offices still more than two months away the State Capitol already is taking on that political campaign atmosphere.

Announcements for office, state wide speaking tours, and fund raising dinner plans are setting the stage for the upcoming campaigns.

Only announced candidate for governor, thus far, has been Jack Cox of Breckenridge. Cox will be running in the Republican primary.

As yet, no formal announcement has been made by any Democrat. But the field of probable candidates is growing daily.

Formal announcements by three senators for the lieutenant governor's race assures warm competition for the place left open when Ben Ramsey moved to the Railroad Commission.

Sen. Jarrard Secrest of Temple, Sen. Bob Baker of Houston, and Sen. Preston Smith of Lubbock are the announced candidates. There is likely to be GOP opposition for this post as well as at least one other Democrat.

Only thing certain now is that there will be stiff competition for those primary votes on May 5.

CAPITOL VALUE
For years, the huge red granite State Capitol, which was paid for with 3,000,000 acres of West Texas land, has been carried on the state's books at a value of \$131.50.

Board of Control has appraised the Capitol at \$9,948,391. They valued the land on which it is located at \$5,143,623. It's not for sale for the total of \$15,092,014. But at least it's on the books right, now.

Incidentally the old Capitol is getting a refurbishing. Workmen are replacing cracked and splintered panels in the hallways, and removing the old varnish. It will come out lighter and brighter.

NEW LAWS
Atty. Gen. Will Wilson quickly plugged one possible loophole in the "Blue Law."

He advised Dist. Atty. Henry Wade of Dallas that a corporation owning two or more stores must close them the same day. One can't open Saturday and the other Sunday. Nor can a store accept orders by phone in advance to be delivered on Sunday.

Wilson also is busy interpreting other new laws, among them the one requiring holders of property for others, except banks, to report it to the state when the owner hasn't been around for seven years.

He advised Treasurer Jesse James that an oil company which holds royalties outside Texas on oil produced in Texas does not have to report it to the State of Texas except that amount held for persons whose last known address was in Texas.

The attorney general expects so much work out of this new law that he set up a special division to handle it.

In another opinion Wilson held that wiretapping to record phone conversations is not illegal in Texas.

THIRD ROUND
In the next few weeks, Gov. Price Daniel will have completed his third round of appointments.

Most of the state's operations are directed by 3 or 9-member boards, appointed for six-year overlapping terms.

These appointments are made to more than 140 state boards and commissions.

Latest appointments include: David B. Irons, Dallas; Dr. Horace Cromer, Austin; Mrs. H. E. Butt Corpus Christi, and Howard Tellepsen, Houston, to the Board for State Hospitals and Special Schools; Max Starcke, Austin, and Harry Honby, Uvalde, to the State Parks Board; and Sam G. Wood, Killeen, and Hatton W. Simpson, Tyler, to the State Board of Pharmacy.

WATER POLLUTION BOARD
Governor Daniel named former Rep. Sam Wohlford, Stratford; J. S. Hudnall, Tyler, and C. G. Shigley, Freeport, as public members on the new State Water Pollution Control Board.

Board of Water Engineers Chairman Joe D. Carter, State Health Commissioner J. E. Peavy, M.D., and Game and Executive Secretary Howard Dodgen, or their alternates, will complete the board.

In the future, no one may discharge waste of any kind into or adjacent to the public waters of Texas, or the Gulf of Mexico, without a permit from this board.

Unfortunately this board was handed a big job but no operating money. Governor Daniel will ask the Legislature, at a special session in January, to provide one expense money for it.

SHORT SNORTS
Starting January 1, the State Welfare Department will begin paying medical, hospital and nursing home bills for the 225,000

Stone's Throw

By GARY STONE

(Dedicated to the proposition of throwing rocks at everything.)

Have you tried recently to find a parking place on Main Street here in Muleshoe? I have, without much success.

A short time ago, when the weather was warmer and I would not have minded walking a block or two to a store, I could find a parking place right in front of almost any store in town.

Now, with the icy fingers of winter touching my neck, I have to search diligently for a parking place. Then, after finding one, I am forced to walk to a store. I sometimes, I just say, "Well, since I can't find a parking place, I'll just go on. I didn't need to buy (whatever it is I wanted to buy) anyway."

Some businessman has lost a sale that day. How many other sales has he lost because of the parking situation? Since the customers don't come in, he can't ask them, so he just doesn't know.

Oh, I know why there is a parking problem. Store employees don't like to walk in the cold wind any more than I do, so they park out front the first thing in the morning.

They run into the warm store and stay there all day, awaiting customers who don't come because they can't find a parking place close enough to avoid the cold.

Try to find a parking place right in front of The Journal. Yes, we, too, are guilty of trying to avoid the cold wind.

Someone once said that "Laziness grows on people; it begins in cobwebs and ends in iron chains." In our case, it begins in rationalization of our being cold and may well end in our being hungry.

STONE'S THROW OF THE WEEK—The Sunday opening laws which went into effect last Sunday seem about as ridiculous as the sales tax setup.

Let's say a drug store stays open on Sunday to sell drugs. It can also sell cosmetics but can't sell a mirror. What will they do if a lady wants to buy a mirror? According to the strict letter of the law, the druggist will have to make the mirror out of the compact.

Film can also be sold, but cameras are on the forbidden list. Wearing apparel is not to be sold on Sunday, either. So if you happen to see a beanie in the drug store, children, don't ask Daddy to buy it for you. He would be breaking the law. And, by the way, toys are on the list. If you have a young child who won't take no for an answer, don't let him see a toy on Sunday. He would be thwarted by the law.

Today's Meditation

READ JOHN 4:21-30

"Come, see a man who told me all that I ever did. Can this be the Christ?" (John 4:29 RSV.) During a campaign of evangelism for youth in Sweden, a boy visited one of his friends of the same age to witness for the first time to his belief in Christ. Afterward he gave this testimony: "I have been a confessed Christian for four years, but now for the first time I realize what it really means."

We do not discover how wonderful it is to be a Christian until we begin to share our faith with others. Then our eyes are opened to God's riches which are in Christ. All the time His riches were there to be possessed, but we did not realize it. When we do, we are richer than ever before, for He adds faith to our faith when we begin to tell others of our faith. Christ becomes more important to us than ever before.

Yes, great blessings are to be found in sharing our faith in Christ with others. Thus we spread the good news to those who need to hear the gospel.

PRAYER: O Lord help me this day not to put my lamp under a bushel but cheerfully to profess Thy name and spread the gospel. For the sake of Christ who loves all mankind, and taught us to pray "Our Father who art in heaven.....Amen."

THOUGHT FOR THE DAY
The more you share the gospel with others, the more you receive for yourself and others. Kar! Erik Hellberg (Sweden)

Farm Facts

The number of horses and mules on farms decreased from 11,626,000 in 1945 to 3,089,000 in 1960, according to the U. S. Department of Agriculture.

While horses and mules have been disappearing from the farms, the number of tractors has been increasing at an impressive pace. In fact, tractor numbers more than doubled from 1945 to 1960. There were 2,354,000 tractors on farms in 1945 as compared with 4,770,000 in 1960.

Since about three acres of land are needed to feed one mule, a drop of more than 8,000,000 in the horse and mule population released 24,000,000 acres for other purposes.

Mules, however, are stubborn critters and are making a mild comeback in some areas. Wade Tribble, who operates the last mule barn in Memphis, sold 100 to farmers during the first eight months of 1960 as compared with a total of 80 for the year before.

A Birmingham dealer says

The number of horses and mules on farms is less than 1/3 that of 1945.

he can sell all he can get—as many as 5,000 head a year. In 1957, he wasn't selling enough to meet expenses.

Tribble says farmers with small acreages of cotton and tobacco consider mule power the most economical.

of Lubbock are the proud parents of a baby boy, born November 9. Grandparents are Mr. and Mrs. John Shepard of Maple.

IN HOSPITAL

Mrs. John Speard is having minor surgery Monday morning in the Littlefield Hospital.

SPECIAL MILK PROGRAM

The special milk program accounts for about 5 per cent of all U. S. fluid milk sales. The program provides for the Government paying of a part of milk cost consumed in school lunch programs and other non-profit organizations. Federal appropriations this year for this program amounted to \$195 million.

Serving Farm Families

Dear Farm Bureau Member:

This letter is to introduce to you an addition to our Bailey County Farm Bureau service program.

Mr. Freddie E. Maxcey is now with us here in Muleshoe as a special agent and he will help us serve you better with the Farm Bureau Insurance services.

Freddie has been associated with Farm Bureau since 1957 and prior to moving to Muleshoe, he was associated with the Lamb County Farm Bureau and the Lubbock County Farm Bureau. He received his education at Springlake High School and Texas Tech, and served with the U. S. Navy.

Let's all make him welcome and help him get acquainted.

Sincerely yours,
W. R. Carter

FARM NEWS

Hi-Plains Will Have New Weather Service

Probably the most important single factor determining the annual success or failure of a farmer's crop is the weather. The farmer is unable to do anything about the weather, but he can take advantage of the knowledge of the men who know the most about it. Realizing that this is true, the Plains Cotton Growers Board of Directors has voted to help initiate an expanded weather service for the High Plains.

This service, which will give specific information on dew, soil temperature, rainfall, wind and evaporation (drying conditions), relative humidity and temperature, will begin on a limited basis this fall with a fully implemented project expected by next summer. The full program will also include research on various planting, pro-

duction, quality, and harvesting operations as related to the weather.

All data will be issued on a 24 hour basis from the Lubbock Weather Bureau at Municipal Airport via teletype machines to the area radio and TV stations. For the original four month period, slated to begin around November 1, the PCG will pay the charges for the long distance hot lines to the neighboring towns in order to give all sections of the High Plains the opportunity of hearing these reports. The radio stations in these localities will pay the costs at the local level. When the full program of research and forecasting is begun it will be financed from regular government appropriations.

At this time six area stations have contracted for the expanded service. These are: KMUL, Muleshoe; KFID, Floydada; KVOP, Plainview; KFTY, Brownfield; KZZN, Littlefield; and KUKO, Post. In addition all the Lubbock stations will carry the program.

Stock Feeding Tour Scheduled From West Texas

Plans for a livestock feeding-grain markets development tour into Arizona and California have been announced by Dean W. L. Stangel, chairman of the Agriculture and Livestock Committee of the West Texas Chamber of Commerce.

The tour is set for January 14-20, 1962, and will include the Phoenix, Arizona area, the Imperial and San Joaquin Valleys of California, and also the San Diego region, Dean Stangel said.

A special train will be made up for the tour, with Pullman sections originating in Fort Worth, Lubbock, Amarillo and Clovis, N. M.

The tour will have a two-fold purpose, according to Dean Stangel. The grain market development objective is given added importance by the fact that California already is the largest single user of Texas milk, and tour leaders and participants hope to further encourage that market.

In addition, the tour leaders will have an opportunity to inspect some of the best livestock feeding operations which are so successful in Arizona and California.

"In some of these, you'll see Texas cattle being fed Texas milk and cottonseed products," Dean Stangel said. Thus, Texas producers should get some good ideas for utilizing their own products at home.

Members of the Arizona Livestock Feeders Association will be guests of the tour sponsors at a dinner meeting in Phoenix, and a similar program will have the California Livestock Feeders As-

sociation as guests in Bakersfield.

Cost of the tour for one person, including first class train fare, Pullman, club cars, bedroom facilities, hotels, chartered bus fees, two planned dinners and insurance will be \$246 for all participants originating in Fort Worth will be charged \$256.

All requests for reservations must be made by December 15, Dean Stangel said. Because of limited facilities, reservations will be made on a first-come, first-served basis. Checks payable to the West Texas Chamber of Commerce must accompany all requests for reservations and should be mailed to the Agriculture and Livestock Department, West Texas Chamber of Commerce, P. O. Box 1561, Abilene, Texas.

Joining the WTCC committee in sponsoring the tour are the Grain Sorghum Producers' Association, Texas A&M College and Texas Tech.

HUNTER ACCIDENTS WARNING ISSUED

A warning against hunting accidents during the current season has been issued by T. D. Carroll, coordinator of information and education of the Game and Fish Commission. For the 1960-61 fiscal year there were 59 hunting accidents reported through game wardens for the state. One fatality was a youth drowned while duck hunting, and one was an adult deer hunter who died of a heart attack while in the field.

There were 19 shooting fatalities, 13 of them self-inflicted due to carelessness. There were six persons killed by guns in the hands of other persons.

Thirty-six of the accidents, 15 of them fatal, were reported during the principal hunting season months, September through December.

"A number of these accidents might have been averted through 'Others were the result of plain

Spud Reduction Is Recommended

A cut of 3 per cent in the acreage of 1962 early spring potatoes, and a 10 per cent decrease in the acreage for 1962 late spring potatoes have been recommended by the U.S. Department of Agriculture.

The acreage guide calls for a total spring crop of 149,650 acres, 3 per cent under the 163,500 acres planted in 1961. With average yields, the probable production from the guide acreage would be 27.9 million hundredweight.

Acreage-marketing guides are designed to assist growers in planning production. The USDA said that if production is in line with these guides for the coming season, and if marketings follow a normal time-pattern, supplies should be in balance with requirements at satisfactory price levels.

Recommended acreage decreases include 15 per cent in Arizona, California and the early spring area of Texas. No change in acreage is recommended for the late spring area in Texas.

USDA Chemists Research Feeds

Development of two new products by USDA research chemists may create new markets for soybeans. The new products, made from refined soybean protein, are edible gels and foams.

According to the USDA, these gels and foams can add variety to diets and improve nutrition, especially in countries where meats are less plentiful than they are in the United States.

A combination of the refined soybean protein and cereal products would provide a diet well balanced in amino acids, the researchers believe.

The gels and foams may also prove useful in industry as glues, binders, coatings and thickening agents.

These new gels revert to liquid when heated and thicken again when cooled, while the foams are unusually stable. Both the products are bland in taste and appearance, but they proved compatible with various added flavoring and coloring materials.

Development of pilot-plant procedures for producing the new gels and foams has not yet been attempted. But the simplicity of the laboratory procedures, plus the commercial availability of the soybean protein, indicates commercial production would be feasible.

MILK SUPPORT PRICES - The Government is currently buying the equivalent of 6.8 percent of all milk produced in the United States. The government purchases are approaching the 1953 level. Higher supports for milk do not result in higher milk prices to farmers and only increased government purchases.

BEEF WEEK SET - In tribute to the state's livestock industry, Governor Price Daniel last week proclaimed December 9-9 as "Beef Week in Texas" for 1961, marking the 8th year state-wide recognition has been accorded the Texas Beef Council. The Governor is shown delivering the proclamation to Hugh A. Fitzsimons of San Antonio, president of the Council.

FIGHTING THE COLD WAR

Running your tractor this winter? If you want to avoid starting trouble better remember, then, that as temperatures plunge downward, starting requirements various lubricating oils and greases used, which makes it harder for the parts in the engine to move.

Keep in mind too that the colder the weather, the less efficient the tractor's battery becomes - at zero degrees, for example, the battery is only about 60-percent as efficient as it is during normal summer months.

Tips from a national Champion Spark Plug Company will keep voltage demands on your tractor's battery down during the vulnerable period when the battery loses much of its punch.

Champion engineers also advise a complete check of the tractor's ignition system and spark plugs pointing to the fact that a weak ignition coil, defective distributor points or worn spark plugs can kick starting voltage requirements way up. And, of course, if battery voltage is too low to meet these increased demands, the engine won't start.

'Cotton Saver' Picks Up Cotton Lost On Ground

Sid Thomas, a Lockney farmer, has invented and secured a patent on his Cotton Saver, a machine designed to pick up loose cotton from the ground.

Thomas began work in 1942 on the machine, which is being manufactured by Green Machinery Co., Lockney. He secured a patent in 1955 and has now begun production.

The Cotton Saver is operated as a tractor accessory and is available in one, two or three row sizes. Reports indicate that it is highly successful in picking up cotton lost where fields are up cotton lost where fields are stripped or a spindle type harrow is used.

WORLD GRAIN STOCKS - The four principal grain exporting countries set a new record for the midyear stocks on July 1, 1961, according to preliminary estimates of the Foreign Agricultural Service. Stocks of grain were 10 million short tons above the 1960 record. This is the ninth successive year of record stocks.

The Great Plains has suffered often from grasshoppers. The most spectacular invasion occurred in the 1870s. Successive waves of grasshopper ate grain, vegetables, tree leaves and weeds. When greenery was gone the voracious insects nibbled clothing harness and pitchfork handles.

The Smart Cook Stores Bacon

Bacon, says the October issue of Better Homes & Gardens magazine, "holds its age" best if it is carefully wrapped - in original package, foil or clear plastic wrap. Take out only what bacon is needed and pop rest right back in refrigerator. The smart cook uses a rubber spatula to separate bacon slices.

Dr. Martin Schwarzschild of Princeton University reported recently that gravitation studies indicate there is far more matter in the universe than can be accounted for by visible stars. He believes the unseen matter may consist of "cool" stars whose light is too dim to penetrate the earth's atmosphere.

At various times in history counterfeiting has been punishable by death.

Four-H Community Club Organized Tuesday Night

A joint boys and girls 4-H community club was organized Tuesday evening, November 7 at 7:30 in the Lazbuddie School Auditorium. Forty-four boys and girls from 9 to 17 years of age were enrolled in the Lazbuddie 4-H Club. A total of 73 boys, girls, and parents attended the meeting.

Parmer County Extension Agents, Miss Lettie Musil and Deryl L. Coker, explained to the group the set-up of the joint community club. One joint club meeting will be held each month composed of 10 minutes inspiration, 15 minutes business, 2 minutes program, and 30 to 45 minutes of recreation.

Officers were elected for 1962. They are president, Danny Miller, vice president, Katie Blackstone, secretary-treasurer, Judy Koelzer, reporter, Johnny Mabry, recreation leader, John Gulley, council delegate, Linda Gleason, and alternate delegate, Marsha Schumann.

Mrs. Harvey Blackstone and Freeman Davis volunteered as organization leaders to help the club with their monthly meetings.

Subject matter leaders will be selected later to meet the needs of project interests of the members. Each leader will assist with four to six boys and/or girls in subject matter interest groups. These leaders will be trained by the Extension Agents.

Following the adjourning of the club members, the officers of the programs for 1962. All of the club members set regular date of the club meeting as the third Thursday evening of each month at 7:00 No meetings will be held in August.

For the first meeting the executive committee planned Gift Exchange Christmas Party. Each girl and boy will bring a gift for her or himself. The party will follow a short business meeting on Thursday, December 14 at 7:00 p.m. in the school lunch room. Parents are always invited to attend.

Programs planned for the year are Christmas Party, Record Book Training, Home Landscaping, Practice Method Demonstrations, Table Manners, Driver Sat-

ety, Insect Identification, Picnic, Seed Grooming, Wild Animals of Texas, and Citizenship Responsibility of Citizens Under 21 Years of age.

For 1962...an all-new kind of Ford!

the car that's just right for just about everybody
right size... right price...

You've never seen anything like it, because there's never been anything like it... until today. On the outside the new Ford Fairlane 500 measures a quick 197 inches from stem to stern. A good foot shorter than the cars from which it borrowed its name, it calls the snuggest parking places home. At the same time, on the inside the new Fairlane 500 is every inch as big as some of the biggest Fords ever built.

The new Fairlane 500 is priced way under previous Fairlanes, well under many compacts. But Fairlane economy doesn't stop with a pretty price tag. It runs to amazing gas savings—with the world's first economy V-8 or the nickel-nursing Fairlane Six. Routine service is reduced to a minimum—30,000 miles on many items, only twice a year or 6,000 miles on the rest. And it adjusts its own brakes.

FLOYDADA HOLDS OFF STRON OLTON RALLY IN 7-0 VICTORY

The Floydada Whirlwinds converted a recovered fumble into held off repeated Olton thrusts here Friday night to wrap up the night to wrap up the District 2-AA championship 7-0.

Floydada which will meet Dahart in bi-district play Friday, thus completed the regular season with an undefeated record.

Olton, with a 3-7 season record, threatened to upset their enghighriding Whirlwinds, driving to the 5-yard line late in the game.

Floydada's score came in the second quarter after guard Max Rucker recovered a Mustang fumble on the Olton 21. Even so, it took the Whirlwinds seven plays to move to the Olton 1-yard-line, from where fullback Charles Hernandez plunged over on a fourth-down try.

Charles Christian kicked the extra point.

The Whirlwinds had penetrated to the Olton 25 in the first period, but lost the ball when George Jones recovered a fumble. After the score in the second period, it was Olton which carried the fight.

The Mustangs drove to the Floydada 25 before halftime but David Barnhart intercepted a pass to kill the threat. In the second half, Olton lost the ball by fumbling on the Whirlwind 31, later

drove to the 5yard-line-where Floydada held-then drove to the 25 in the waning moments, where Floydada held again.

Halfbacks Johnny Schneek and James Loveless sparked the most serious Olton drive. The Mustangs gained 126 yards rushing and 39 passing, compared to 125 rushing and 18 passing for Floydada. Each had eight first downs.

Halfback George Jones, who intercepted three passes and recovered a fumble, end James Lawson and tackle Larry Sancher were defensive standouts for Olton.
