"Auction Day" Is Friday In Muleshoe

"Auction Dollar Day" will be held in Muleshoe Friday, with a community auction of merchandise which can be bought with "auction dollars" being given by many Muleshoe merchants.

The prizes which are to be offered for auction have been on display at Cobb's Department Store all week. The auction will be held at 6 p.m., and no actual money can be used.

To help make the bidding a little more equal, a limit of \$100 was set on the amount a person could receive on any one person.

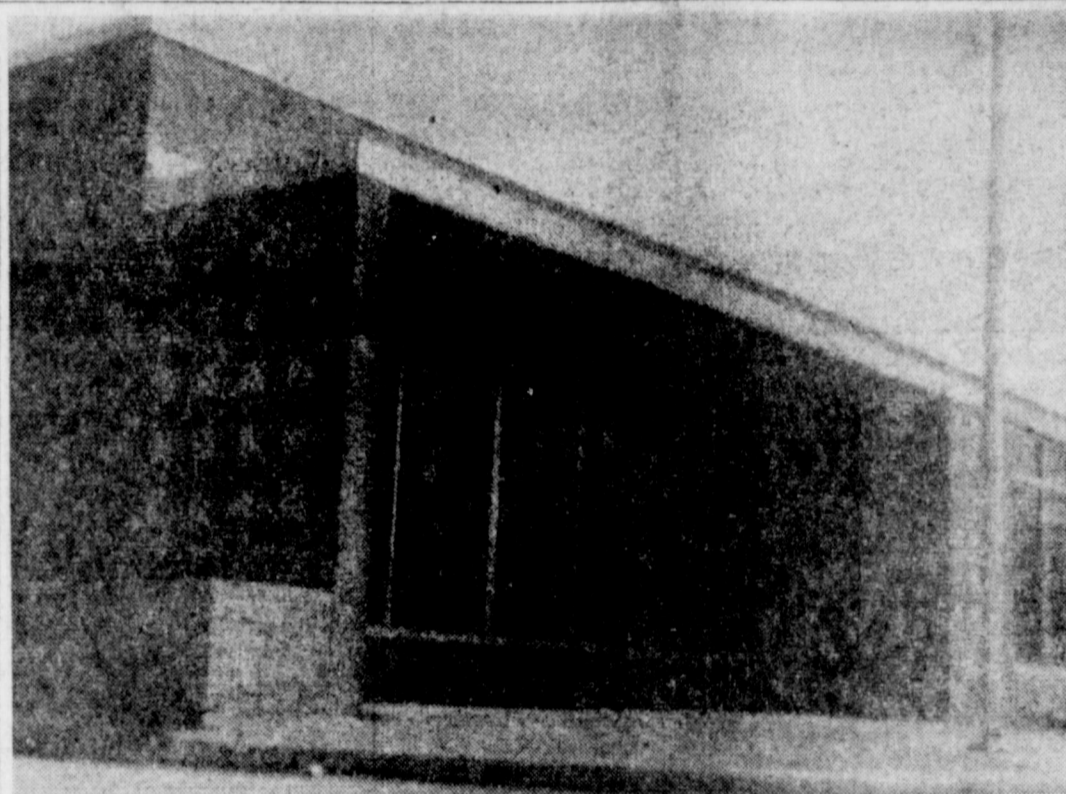

Supplementing the auction will be two western variety shows, at 4 p.m. and at the 6 p.m. drawing.

Crowd Enjoys Candidate Talk

Approximately 200 people attended the candidate speaking in Muleshoe last Friday, at which 12 candidates appeared, briefly stating their platform and then participating in a question-and-answer session.

The program, jointly sponsored by the Congressional Action committee of the Chamber of Commerce and the Bailey County Democratic and Republican committees, and all who attended called it an enjoyable and informative session.

Candidates were given a five-minute limit to state their platform, after which individual candidates were given questions written for them by members of the audience.

Buccaneer Trading Stamps arrived this week in Muleshoe and Bailey County, and the redemption center in Muleshoe, according to an announcement by Wagon Brothers.

A building is to be built on Avenue B, across from Bovell Motor Company by Wagon Bros. who will rent the building to Buccaneer.

The building is to be of brick and tile construction. The stamp company will install all-new and modern fixtures, and will feature top line of new merchandise to offer for redemption.

Fred Becker of Waco is president of the Buccaneer Stamp organization, and will appoint a manager of the local store in the near future.

The building will be completed within 30 to 45 days, said June Wagon.

In addition to Wagon's, Beene Country Store of Needmore will offer the trading stamps.

Two Primaries In County This Year

Area voters are expected to stream to the polls in near-record numbers Saturday, as the Democratic and Republican primaries are held in Bailey County and across the state.

Polls will open at 8 a.m., and close at 7 p.m. in each case. Voters are reminded to bring their poll tax receipts.

For the Republicans, it will mark the first time in county's history for the GOP to hold a primary. The maiden effort shows 18 names on the Republican ballot.

Sixty-five names appear on the Democratic ballot, with several races hotly-contested, especially on the state and district level.

The state governor's and lieutenant governor's race are particularly well-contested. Eight names appear on the governor's ticket, six on the Democratic ballot and two on the Republican.

Seven names appear on the lieutenant governor's contest, five Democrats and two Republicans. For attorney general, six names appear on the Democratic ballot. Seven Democrats are seeking the nomination for congressman-at-large, and three Republicans are in the race.

BOTH PARTIES

Voting Places Told For Primaries

Poll locations for the Democratic and Republican primaries were announced this week by the respective party officials.

The polls will open at 8 a.m. and close at 7 p.m. Election judges and their assistants also have been announced.

The voting places, and judges are as follows:

(DEMOCRATIC)

Precinct 1—County building on corner west of courthouse, Ernest Kerr, judge; Precinct 1A—City Hall; Carl Bamert, judge; Precinct 2 (West Camp) - West Camp School; Tom Watson, judge; Precinct 3 (Mays)—Longview Baptist Church; Bert Seales and J. U. Dawson, judges.

Precinct 4—(Three Way) at Three Way School; George Tyson judge.

Precinct 5 (Circleback) at Circleback Gin; Ves Garner, judge.

Precinct 6 (Bula)—Bula School; Vern Weaver, judge.

Precinct 7 (Baileyboro)—Baileyboro Gin; Kelly Joe Barnett, judge.

Precinct conventions in all the Democratic precincts will be held at 7:30 p.m. at each voting place.

(REPUBLICAN)

Precinct 1—American Legion Hall; Alex Williams, judge, Earl Ladd, Sr., assistant.

Precinct 1A—Morrison Building, North First Street (former location B&C Motors); Byron Griffith, judge, D. L. Morrison, Jr., assistant.

Precinct 2 (West Camp)—John W. Thomson garage, of 1 1/4 miles east of Gammon store; Clancy Mason, judge.

Precinct 3—If no box is located by Saturday, those in the precinct will be provided a voting place at the American Legion Hall.

Precinct 4—Needmore Community Building, J. W. Layton, judge, M. H. Poteet, assistant.

Precinct conventions will be held at 7 p.m. at each voting place.

Absentee ballots will be counted for the Democrats by Ernest Kerr. Members of the Republican absentee ballot canvassing board are W. B. McAdams, Carl Case and Gil Wollard.

Local political interest is expected to center on the county judge's race, and state representative for the 91st district.

Incumbent Judge Glen Williams and opponent Geirge Hicks are each waging a spirited campaign for the Democratic nomination to the top spot in the county government.

The race for Democratic nomination for state representative is a three-way fight. W. T. (Bill) Millen of Muleshoe, Bill Clayton of Springlake and B. M. Nelson of Dimmitt have all campaigned vigorously for the seat being vacated by Muleshoe's Jesse O-born.

Whoever emerges with the Demo nomination will then face a dogfight with Frank Ford of Hereford, who is unopposed in the Republican primary, and has proven to be quite a campaigner, especially to be the "youngster" of the group.

None of the other county-wide races offer voters an opportunity to choose, but two Bailey precincts will elect commissioners. W. W. Couch seeks re-election in Precinct 2, while R. P. McCall will attempt to unseat W. E. (Woody) Goforth in Precinct 4.

Only one precinct has a contest for Democratic precinct chairman. That is Precinct 2, West Camp, where Joe Sim-nacher and T. W. Watson seek the office.

Voters will likely give more than passing interest to the Democratic race for Associate Justice of the Texas Supreme Court, place 1. There, a former District Attorney for Bailey County, Meade F. Griffin seeks election against Jesse Owens of Potter County.

In place three, Willard G. (Bill) Street of Littlefield seeks nomination against Zollie Streakley. Keith Wheatley battles veteran Ben Ramsey for the un-expired term for Railroad Commissioner.

About the top race on the Republican ballot will be for the nomination for U.S. representative-at-large, where Desmond A. Barry of Houston runs against Joe B. Phillips of Lubbock and Giles Miller of Dallas.

Statewide, the governor's race shapes up to be one of the most interesting in recent years. Five Democratic candidates seek to wrest the nomination away from Governor Price Daniel.

Daniel should get a lot of opposition locally from West Texas

MHS Band Enters Enid Contest

The Muleshoe High School Band left at 6 a.m. Wednesday morning for Enid, Okla., where it will compete in the Tri-State Music Festival.

The band is travelling by chartered busses, and will be staying at the Oxford Hotel while in Enid. Besides the band director, Kathy Phillips, other sponsors making the trip with the band are W. O. Coltrane of the high school faculty, Mrs. Bill Millen and Mr. and Mrs. Paul Scott.

Funds to finance the trip were earned by the band early in the year through the sale of magazines and birthday calendars.

The MHS band will enter every area of competition offered at the Festival. On Thursday, the band will have twenty-five soloists and ensembles performing. Thursday night the entire band will compete in the precision marching contest.

Friday, concert and sight reading competition will be featured, and Friday night the band will attend a concert by the Phillips University Band and Chorus, featuring cornet soloist, Byron Autrey, of Michigan State and flute and piccolo soloist Harry Moskowitz of New York City.

Also featured on the Friday night program are Yvonne Chouteau and Mirela Turechov, ballet artists from Oklahoma City, and the "Strolling Strings" of the U.S. Air Force Symphony Orchestra.

Saturday morning, the band is to march in the "Million Dollar" parade through Enid, and Saturday night will attend the Grand Finale Concert presented by the Tri-State Band, Chorus and Orchestra.

These groups are made up of the most outstanding students from competing organizations. Five members of Muleshoe's band were chosen to the Tri-State Band. They are Kathy Gray, clarinet, Kenneth Evins, cornet, Karan Bragg, French horn, and Jim Thomson and Don Finn, trombones.

There is to be over 10,000 students competing in the Tri-State Festival, points out Miss Phillips.

"When we are not actually engaged in competition ourselves, we will be attending clinics and concerts by other groups, so I feel that it will be a marvelous musical experience for our band members," Miss Phillips said.

The MHS band will leave Enid today morning, and will arrive in Muleshoe at approximately 6 p.m. Sunday.

ATTENDING THE Honor Court for Troup 620 Tuesday night were (back row) Owen Jones, Bill Elrod, and Charles Elrod. In the front are Bruce Purdy, George Haskins, Jr. and Irvin St. Clair. (Journal photo and engraving)

Parents of the couple are Mr. and Mrs. R. E. Scott of Sudan and Mr. and Mrs. Carroll Heffington of Littlefield.

A greenery archway highlighted with baskets of white glads and candleabra bearing white tapers formed the background for the double ring ceremony performed by the Rev. Wayne Perry, pastor of the First Baptist Church in Ropesville.

Escorted down the aisle by her father, the bride wore a gown of chantilly lace fashioned with brief sleeves. The fitted bodice featured self covered buttons extending to a point in the back. Accents of sequins and seed pearl highlighted the gown and the full skirt was enhanced with a wide ruffle that ended in a sweep.

Her fingertip veil of silk illusion depended from a crown of seed pearls.

Wearing brief white gloves she carried a white bride topped with a white orchid nestled in stephanotis and tapered with white streamers.

Jane Newman sang traditional wedding selections accompanied at the organ by Dyanne Curry.

Lighting the candles were Jackie Heffington, brother of the groom, and Brenda Hickman of Plains, cousin of the bride.

Mrs. Jimmy Owens of Littlefield Matron of honor, and the bridesmaids, Jane Meeks and Joy Beth Vinson, wore identical dresses of pale yellow, taffeta designed with a moulded bodice, short sleeves and a bell shaped skirt. Highlighting the neckline and skirt were inserts of lace trim. They

wore dyed to match shoes and head pieces of yellow tulle attached to yellow flowers.

For the ensuing reception held in the church parlour the white covered table bore an arrangement of yellow roses and white tapers.

Serving the three tiered wedding cake, decorated with a miniature bride and groom, and the yellow punch were Jeanne Seymour, Sherilyn Maxwell, Loretta Burnett and Mrs. Joe Don Parrott.

Others in the house party included Mesdames Bill Curry, Hubert Dykes, Hugh Preston, Lloyd Seymour and Harlon Reese. For her wedding trip to points in South Texas and the coast, Mrs. Hefington chose a white suit and wore the orchid corsage from her bridal bouquet.

The couple will make their home in Spade where is a gin at the W. O. Hampton gin. Mrs. Hefington is employed with the ASCS office in Littlefield.

Mrs. Frank Hinkson, Mrs. T. R. White and Mrs. Gilbert Lamb were hostesses at a seated tea Friday afternoon in honor of Mrs. G. N. McDaniel of Borger, vice-chairman of the Republican Party of Texas.

Some forty women attended the afternoon affair honoring the state chairman at the Lamb home, 1011 West Third Street.

clarifying many laws and their origins.

She noted that this is the sixth primary held by Republicans in Texas. Others were held in 1958, 1954 and in the thirties in Texas.

"The rise of a more conservative thought I have noted all across the state. The man-on-the-street says he is going to vote Republican to preserve his constitutional, conservative government."

"My advice to conservatives is to consider the national picture. Texas' votes at the grass-roots local level affect the overall picture in Washington", Mrs. McDaniel said.

IT'S NOT LENGTH OF SERVICE BUT TYPE OF SERVICE THAT COUNTS

To complete his program for Texas and our people, Governor Price Daniel is asking only for a total of eight years as Governor — no more than is permitted for most officials from County Judge to President and Vice President if they are elected to two four-year terms.

Thirty-four States have four-year terms for Governors, and 19 permit re-election to a second term or a total of eight years.

All Texas County and District officers, except House members, are elected for four-year terms.

The two-year term for Governor is an out-moded relic of the past—31 States having gone to four-year terms.

The people should not be denied the right to re-elect a Governor who is fighting for their best interests simply because he has served two or three short two-year terms, for

It is not the length but the type of service that counts.

Primaries--

Marshall Formby or youthful Don Yarborough, Edwin Walker, John Connally, and Will Wilson are the other candidates.

Jack Cox of Stephens County and Roy Whittenburg of Amarillo are the Republican gubernatorial candidates.

In the race for lieutenant governor, Democrat James Thurman, successful speaker of the house, has made a strong campaign. His opponents are Robert Baker, Crawford Martin, Jarard Secrest and Preston Smith.

Republicans seeking the lieutenant governor's nomination are Karris Dibrell and Bill Hayes.

In addition to the balloting for representatives, voters will have a chance to voice their opinions on various propositions. They will be asked to vote for or against submitting to the people an amendment to legalize pari-mutuel betting on horse racing.

Another referendum is for or against the state legislature submitting an amendment abolishing the payment of poll taxes as a prerequisite for voting.

Republican voters will vote on the question of establishing a state or national park on Padre Island.

Post Office Appreciates Your Patience

"We very much appreciate the cooperation we've had from our patrons during our re-location," said Acting Postmaster Spencer Beavers this week.

"We are requesting those people who were given new box numbers or changed to home delivery to please notify their correspondents as quickly as possible, in order to help facilitate the change," Beavers continued.

Beavers said he hoped the people would continue to bear with them during the "interim" period. A public dedication service is planned for the building sometime in the future. (See pictures, page 1B)

Pre-Registration For First Grade Scheduled Friday

Superintendent of Schools, Neal Dillman, reminded parents of preschool children to bring those who are to enter the first grade next fall to either Richard Hills or Mary DeShazo Elementary Schools Friday, May 4, for pre-registration.

Dillman emphasized the importance for having every single child enrolled for next September's first grade, so that the school may make plans, and receive its full allowance of state funds.

Those attending the pre-registration, both parents and children are invited to eat the noon meal at the schools' lunchrooms, for the regular rate, 40 cents for adults and 30 cents for children.

While birth certificates and immunization records are required for the students before they enroll next September, these are not necessary for Friday's pre-registration.

RE ELECT
JUDGE
GLEN WILLIAMS
COUNTY JUDGE
AND
SCHOOL
SUPERINTENDENT

TO THE PEOPLE OF BAILEY COUNTY

Saturday, May 5th, you will go to the polls and choose the man who will most likely serve as your County Judge and Ex-officio School Superintendent during the calendar years 1963-64-65-66. That will be a very important decision because this is a high office and it affects every person in the county. The County Judge is the executive head of County Government. It is the highest office in the county and perhaps the most responsible. Among the fundamental duties of the County Judge are the following:

- HE IS — Superintendent of the Schools.
- Presiding member of the Commissioners' Court, the governing body of the county.
- Judge of the County Criminal Court.
- Judge of the County Civil Court.
- Judge of the County Probate Court.
- Judge of the County Juvenile Court, and
- Director of Civil Defense.

In addition to these he has other duties and is called on for other services too numerous to mention.

Therefore, the County Judge should have a thorough knowledge of School Law, and an understanding of the structure and operation of our school system. He should be a man of proven business ability. He should have a knowledge of Criminal Law, of Civil Law, and Probate Law (this is extremely important). He should understand juvenile proceedings, and be gifted in working with children to help mold them into useful citizens.

In connection with these matters I have carefully trained myself for this type work, and have had years of experience. For years I have worked for better schools, for better roads, highway improvements and other betterments for the people of Bailey County. I have helped to build practically every mile of Farm-to-Market Road that there is in the County — and we have more coming. We are always happy to help folks with their notary work, birth certificates, filling out forms, letter writing, etc., without assessing any charge for our service.

I have worked hard for the past several years. So naturally I would like to have more time with my family, and with the churches I serve. This is one thing that prompted my early announcement. But when many of the people of the county wanted me to continue in office I decided, after prayerful consideration, to offer my services again. I do not consider that to be a dishonorable act, but rather a manifestation of a willingness to serve — made in the spirit of Peter of old who, many years ago, at the gate of the Temple called Beautiful, said, "SUCH AS I HAVE GIVE I THEE".

Now, as this campaign draws to a close I am justly proud of the fact that I have never at anytime tried to discredit the other candidate. But rather, I have campaigned upon my own merits, upon my own qualifications, upon my own record as a private citizen and as a public servant. I have made no promises to any individual and therefore I am under obligation to no one except to the people of Bailey County. I will not stoop to personalities or personal abuse. I have something better to offer. I BELIEVE I CAN RENDER A REAL SERVICE TO THE PEOPLE OF BAILEY COUNTY. It is not my purpose to hurt people. It is my purpose to help people. My purpose is not to tear down and destroy. My purpose is to build up, and to save. I want to build a better Bailey County. I would like to elevate the affairs of government above personalities to the high and honorable position that it should enjoy. Our government is about the most important thing we have. It is greater than any individual. I believe in economical, yet progressive government. I like to see good will and cooperation among the officials and employees of the county, so that government will function in harmony and efficiently, as it should.

I want to help build still better schools, better roads, better people, so that we can leave to our children and their children the same precious heritage that our parents left to us.

This briefly stated, is my program, my platform and my prayer. These are the principles in which I believe. These are the principles upon which I have campaigned. Upon them I stand and earnestly invite your cooperation.

Sincerely yours,
Judge Williams

Baptists Set Men's Luncheon Friday Noon

The revival continues through Sunday night. Bob Watts, music and educational director at the church, is in charge of revival music.

The public is invited to attend, according to Rev. Don Murray, pastor.

During the troubles that led to the war of 1812, Henry Clay of Kentucky called for the capture of Canada from the British. He said this could be done by the Kentucky Militia alone.

A men's brotherhood luncheon at 12 noon in the First Baptist Church dining hall Friday is a highlight of the church's spring revival this week.

All community men are invited to attend the luncheon, after which Rev. Ed Crow of Brownfield, evangelistic speaker for the revival, will deliver a sermonette.

Writer Gives Tips About Primary Vote

Dear Editor:

There seems to be an unusual amount of confusion about the Primaries to be held Saturday, May 5th. If I can, I would like to try to clear up some of the confusing issues.

The question has been asked: "Can you split your ballot in this primary election?" The answer: You cannot. You will have an opportunity to vote in either the Democratic Primary or the Republican Primary. You cannot vote in both primaries. None of the Democratic candidates will be on the Republican ballots; nor will the Republican candidates appear on the Democratic ballot. You cannot split the ballot in any Primary election; that can only be done in the General Elections.

In the General Elections, you can split your ballot any way that you wish. You can also vote in one party's primary and then vote for the opposing Party's candidate in the General Election.

If you do not know the candidates and cannot be sure that you can make a correct choice, it would probably be a very good idea to scratch out all of the candidates; thereby, voting for no candidate. You could then leave the voting for those candidates, of which you are unfamiliar to those voters who are familiar with those candidates' records. In that way, those voters who know the candidates can be more effective in casting their votes. Their knowledge of the candidates would give them the ability to make a wise choice. Your lack of knowledge of the candidate might cause you to make an unwise choice.

If the ballot lists only one candidate for an office; and if, you do not wish to vote for the can-

didate; mark through the candidate's name. This will mean that you have not voted for him. If you do not mark through the candidate's name, you will be casting a vote for him.

Be sure to scratch out every candidate that you do not wish to vote for. This may seem useless advice. Yet, many ballots are not counted because the voter failed to do this.

If you do not understand your ballot, don't hesitate to ask the election officials to explain it to you.

Most important of all, DON'T FORGET TO VOTE!

Very truly yours,
Mrs. Morris McMillip

(Editor's note: Thank you for your interest, Mrs. McMillip. And on the same line, here are a couple of other points:

Voters may NOT write in a Democratic party candidate's name on the Republican ballot, or vice versa, according to the election code. This has been in effect since 1956.

Also, if voters cross out any material on the ballot, other than referendums being voted on, their ballots will be declared void.)

VOTE FOR EDWIN A. WALKER FOR GOVERNOR OF TEXAS

Subject to Democratic Primary May 5

Platform of Edwin A. Walker

I Stand on the Constitution

My Platform is the Constitution of The State of Texas. I quote the Preamble and Sections 1 and 2 of Article 1:

"Preamble. Humbly invoking the blessings of Almighty God, the people of the State of Texas do ordain and establish this Constitution.

"ARTICLE 1. — BILL OF RIGHTS. That the general, great and essential principles of liberty and free government may be recognized and established, we declare:

"Sec. 1. Texas Free and Independent — Texas is a free and independent State, subject only to the Constitution of the United States; and the maintenance of our free institutions and the perpetuity of the Union depend upon the preservation of the right of local self-government, unimpaired to all the states.

"Sec. 2. All Political Power is Inherent in the People — All political power is inherent in the people, and all free governments are founded on their authority, and instituted for their benefit. The faith of the people of Texas stands pledged to the preservation of a republican form of government, and, subject to this limitation only, they have at all times the inalienable right to alter, reform or abolish their government in such manner as they may think expedient."

I interpret the foregoing in the light of Amendment X of the Constitution of the United States, which reads as follows:

"Amendment X. The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people."

The Governor of Texas is at the National Level

The Governorship of the Sovereign State of Texas is a national position, as is the Governorship of every State of the Union. By the Constitution of this State and that of the United States, all powers not delegated to the Federal Government (by far the major portion) are retained by the people within their sovereign States.

The Governor is the Executive representative of these powers retained by the people — at the national level.

As Governor I Will Keep My Oath of Office

As Governor I will keep my oath of office and uphold the Constitution of Texas and of the United States, defending both against all enemies, foreign and domestic. I defy equally the force of open enemies and the fraud of secret enemies, however highly placed.

The New Danger of Communism

As a veteran of thirty years' service in the United States Army, I still

bear true faith and allegiance to our country. I recognize that in a new age we are endangered by a new kind of enemy — Communism — which threatens the personal freedom of all citizens, the rights of every State of the Union, and the survival of the nation itself. We have reached a time of crisis in which the Armed Forces cannot defend CIVIL Government unless a neighboring country is increased by the flaccid policies hitherto chartered the Armed Forces against subversion.

The Example of Cuba

Three years ago the neighboring island of Cuba was seized by Communists for the Soviet bloc of nations, while U. S. military power which could easily have deterred such action without a shot, was neutralized by incompetent policies of the civil governments in Washington and the capitals of the several States. Aid to the enemy Castro was sent from Texas, as well as from Florida and New York. At present, Communist power threatens to overthrow the existing Constitution of Mexico, and this danger is inherent in the people, and all free governments are founded authorizing not only our national but also our State governments.

My Pledge

I pledge myself to fight to the death for NATIONAL SURVIVAL, STATES RIGHTS, and INDIVIDUAL LIBERTY.

Strategy of World Communism

The strategy of the World Communist movement is to encircle the United States through a campaign of fictitious design — "anti-imperialism" "anti-colonialism" — to convulse the nations of Asia, Africa, and Latin America, while undermining the social structure of the nations of Western Europe and of the United States. Distinctions between "external" and "internal" threats of Communism are often artificial, but if there is a national boundary along which Communism confronts the United States immediately, it is the Rio Grande.

U. S. Defense Pivots on Texas

And if there is a region of the United States which more than any other must be vigilant to prevent a paralyzing pincers movement of assault from without and subversion from within, it is the whole Southern tier of States of which Texas is the pivot. The proximity of Latin America, where false propaganda against "Yankee imperialism" has made headway (helped by policies of recent Administrations in Washington); the location of most of the major military, naval, air, and atomic installations of the country; and the presence of racial situations which are actually a source of unique cultural benefits, here and world-wide, but which Communists traditionally regard as an area for destructive exploitation — all these factors combine to make Texas a prime target of Soviet attention.

EDWIN A. WALKER

Candidate for
Governor of Texas

At the same time, the tradition of Texas, to fear God and nobody else, to love our homes and fight for our rights — the tradition of the Alamo and San Jacinto — means that Texas is a bulwark against Communism, both for herself and for the whole United States.

Three Points

Again I pledge my life with God's help to
NATIONAL SURVIVAL
STATES RIGHTS, and
INDIVIDUAL LIBERTY.

I ask you to support me, and the Sovereign State of Texas, with your prayers, your efforts, and your vote.

VOTE BILL CLAYTON---YOUR VOICE IN STATE GOVERNMENT
FOR STATE REPRESENTATIVE, 91st DISTRICT

FOR TEXAS' SAKE VOTE AGAINST GAMBLING

AREA CITIZENS SPEAK:

Promoters of race-track gambling in Texas through their chief exponent, V. E. (Red) Berry failed to inaugurate race-track gambling in Texas by Legislature. They are making a last minute attempt to force the legislature to provide local option on horse race gambling.

The greatest danger that faces Texas is indifference. This is a time for us to be heard. We must rise up in a great force for righteousness to oppose race track gambling. The great moral decline which accompanies gambling and the increased crime problem should stir every Texan to vote against race track gambling in Texas. Let's defeat this proposition and keep Texas clean and free of the undesirable trash that accompanies race track gambling.

Our conscience will lead us to treat this issue more as a moral one than a political one and we the undersigned are against Proposition No. 1 and Proposition No. 2. (See propositions on sample ballot below.)

This is a partial list and only includes a very small percent of the people of Muleshoe and Bailey County who are in favor of Texas free of the vices that accompany legalized gambling. Thousands of others will voice the same opposition at the polls.

● WE CONTINUE TO STAND with all citizens of Texas who are concerned about basic morality in vigorous opposition to the efforts of the gambling interests to legalize pari-mutuel betting at horse races in this state. The evil effects of this type of gambling upon individual morals and economic sanity have been demonstrated over and over in other states. Crime commission investigations have established the fact that legalized gambling in the opening wedge for illegal gambling and all manner of corruptive influences. The only element needed to defeat this proposed onslaught upon public morals and sound economics in the awakening of our people to the facts involved. This is a responsibility which each one of us, as Christian citizen, must accept and fulfill.

● TOM JAMES, Chairman, Legislative Investigation Committee and Representative from Dallas County, told his fellow Jaycees that legalized betting is like inviting the fox into the henhouse.
"It will bring corrupt powers to Texas," he said, "and these same forces control prostitution, narcotics, and every other avenue of crime." . . . "There is nothing I like better than horse racing. Yet, we are only now finishing paying off the price of Arlington Downs" (a race track near Dallas during the 1930's).
— Dallas Morning News
Thursday, April 5, 1962, Sec. 4, P. 1

● "TO LEGALIZE race track gambling would establish a beachhead which would be utilized by syndicated crime, stimulate an epidemic of gambling sap the economy, ravage the families of small income, and incite a wave of immorality."
Dr. W. R. White, Chancellor
Baylor University

● DON'T BE DECEIVED at the ballot-box by high sounding terms of pari-mutuel. Recognize it by its proper name — wholesale gambling — and destroy it if you can. For pari-mutuel a better name would be pari-murderer, for gambling kills both the winner and the loser."
Most Rev. James E. Cassidy
former Bishop of the
Roman Catholic Diocese
of Fall River, Massachusetts

HIT IS NOT A QUESTION OF RACING THE HORSES: It is a moral question — A QUESTION OF GAMBLING ON THE HORSES: The following article appeared in a bulletin of the University Baptist Church of Fort Worth, Texas. "REMEMBER HORSE RACING IS NOT ILLEGAL IN TEXAS. Pari-mutuel gambling is illegal. There is no law against horse breeders racing their horses in a sporting event. But advocates of horse racing do not want their sport without legalized gambling with all its attendant evils."

It is hoped that each one will see there is nothing to be gained from legalizing something that will bring all the vices that so disgustingly accompany all gambling. This is a tremendous price to pay to raise money that will only fatten the pockets of the organized and professional gamblers while in many cases taking from children in need of food.

● THE \$2 BET helps finance the narcotics traffic, prostitution, bootlegging, labor racketeering, the bribery of police, the corruption of public officials and the degradation of entire communities . . . In the last analysis, people in every community must come to realize that the vicious activities of organized crime will be seriously cramped when the racketeers and hoodlums no longer can depend on the \$2 bettors to bankroll their activities."
—Robert F. Kennedy, U. S. Attorney
General
From The Houston Chronicle
Sunday, Oct. 29, 1961, Sec. 4, P. 7

● BOTH MORAL AND ECONOMIC reasons compel thoughtful Christians to oppose race-track gambling. From the economic standpoint the most pitiful victim is the low-income earner whose dreams of easy money make his family the victims of his greed. The parasite of legalized gambling also drains the total economy. Far more devastating, however, is the moral decline which accompanies legalized gambling.
Surely the people of our state will refuse to "sell our birthright" of wholesome community life for the promising "mess of pottage" of easy money proffered by proponents of race-track gambling.
Dr. James H. Landes, President
Baptist General Convention of Texas

● "RACE TRACK GAMBLING would be bad for Texas both from a business and moral standpoint. It would foster business irresponsibility on the part of thousands and break down personal and family responsibility in even more cases. I hope that we defeat this proposal by such an overwhelming majority that the matter will be settled for generations."
Don H. Morris, President
Abilene Christian College

● JOHN MCKEE, president of the Dallas Crime Commission, said . . . the group is opposed to the return of pari-mutuel betting on horse racing in Texas. "We find by studies that the followers of horse racing and the people who would come into our state as a result of horse races would bring into our community an element that is uncontrollable, as far as crime is concerned," McKee said.
McKee also pointed to the direct and indirect effects horse racing would have on the lives of "our families, particularly the children and teen-agers."
"For these reasons we (the commission) oppose and hope that the people of Texas will vote against the proposal," he said.

Muleshoe Woman Receives \$500 For Short Story

Mrs. W. E. Stewart of Muleshoe has just received a five hundred dollar award for a short work of fiction. Her story was accepted by a New York publisher and will be published in the Anthology of Short Fiction.

Her award was for the "Most Memorable" short story received by the Anthology publishers for 1961. The Anthology, which is published in book form, will contain Mrs. Stewart's prize winner and about thirty other outstanding works of fiction by, as yet, unknown authors. It will go to press late this year.

Although Mrs. Stewart has had several poems accepted by other publications, and once sold a short skit to a Los Angeles radio program, this is her biggest prize to date.

Her work has been viewed by a famous Chicago author and he has offered to co-author a book with her. She plans to meet the author in Denver this summer, to discuss plans for the book.

Mrs. Stewart says when she isn't helping her husband with his Fish and Seafood business, she tries to write.

WITH IRRIGATION

Fertilizer Method Results Are Given

Four different irrigation methods and four fertilizer treatments on cotton were tested to determine the effect on the efficiency of cotton production at the High Plains Research Foundation in 1961.

James C. Valliant, recently promoted from Assistant to Associate Water Engineer, stated that the tests were designed to determine

method and fertilizer treatment which would produce the greatest net return and the highest irrigation efficiency in the production of cotton.

Four irrigation methods combined with four fertilizer treatments and three varieties of cotton were used. The irrigation methods were: (1) First bloom only, (2) First bloom plus mid-bloom, (3) First bloom, mid-bloom and September 5 compared with (4) dryland cotton. Full details of the test are in the complete High Plains Research Foundation Report No. 45, issued in April, 1962.

The three varieties of cotton were Gregg, representing early maturing; Lockett 88-A, representing mid-maturing, and Paymaster 88-90, representing late maturing as well as the open-poll type cotton.

Mr. Valliant concluded from these tests that "Results from the 1961 cotton irrigation test indicate that in early and mid-maturing cotton, response to fertilizer is directly related to the rate of irrigation water, while response to fertilizer in late maturing cotton could be due to the period of time the plant demands nutrients."

The 1961 results indicate that applying irrigation water at early stages of growth, first bloom or first bloom and mid-bloom and a low rate of fertilizer will produce the highest practical irrigation efficiency. Balancing time of irrigation and amount of fertilizer can increase lint cotton, net return per inch of irrigation water and net return per acre.

Fertilizer applications on a per acre basis were: 40 pounds of nitrogen and 60 pounds of phosphorus; 80 pounds of nitrogen and 60 pounds of phosphorus; 120 pounds of nitrogen and 60 pounds of phosphorus, compared to the nonfertilized plots.

This type of research was conducted in 1960 as well as 1961 and will be continued in 1962.

Government Would Give Workers All-Expense Paid Tour of U.S.

How would you and your family like to take a free, all-expense paid trip to almost anywhere in the United States? You might have to work a couple of days upon your arrival but that's all.

After quitting your job you would be given transportation and other traveling costs back to your home, and no questions asked.

And who is offering such a See America First travel opportunity? Nobody... yet. But that's what Senator Harrison Williams, Jr., of New Jersey is proposing in his national farm labor recruitment bill (S.1129) now before Congress.

And who would pay for these family package tours? The American taxpayers and farmers. That's who! The Williams bill would set up a nationwide "travel agency" under the Secretary of Labor to recruit farm workers, furnish them and their families transportation to and from distribution centers, provide them with food, housing and medical care while awaiting placement. Farmer employers are required

in this bill to guarantee the workers... in advance of employment... wages and working conditions approved by the Secretary of Labor, and at least 160 hours of work in every four-week period. They also are required to provide family housing of a type to be approved by the Secretary.

Workers, on the other hand, are required to do nothing but show up for work. They are free to quit whenever they please, and leave the farmer holding the bag for travel costs.

For those and many other reasons, the National Farm Labor Users Committee is urging defeat of the bill in Congress.

Ed Dean, Lubbock, Texas, who is Secretary-treasurer of the Committee, has this to say about the Williams bill:

"After taking his all-expense paid tour to his place of employment, the recruited worker is free to quit his job without advance notice to his employer and request a free ride back to his home. In many instances, however, such free-loading types of workers most likely would remain at their destination to live off the

various welfare agencies. "Suppose the employer is a farmer with a ripening crop that must be harvested within a matter of days. If free-loading workers quit in the middle of his harvest, the Williams bill provides that the Department of Labor will furnish him with replacements. But, by the time replacements arrive, the farmer could lose a whole year's income in a spoiled crop."

Dean charged that the Williams bill not only would increase welfare chiseling, but more important to farmers, it would NOT provide a reliable work force.

"This is a welfare state bill, written by people with good intentions but no knowledge of agricultural needs, and it must be defeated," concluded Dean. "Write or wire your U.S. Congressmen and Senators immediately and urge that they vote against it."

WINS AREA CONTEST

F.F.A. Judging Team Earns State Meet

The Muleshoe High School FFA Livestock Judging Team will compete in the state judging contests this weekend at College Station, as a result of winning the Area I contest last Saturday. The team, composed of Dean

Ethridge, Jerry Harrison and Myke Murrah, won out over approximately 125 teams which entered the contests at Texas Tech. Bill Bickel, vocational agriculture teacher and coach of the team, praised the team for its showing against teams from the giant West Texas area, which includes all of the South Plains and the Panhandle.

Also, the boys competed against schools of all sizes and classifications, and were not grouped according to enrollment. As a team, the Muleshoe entry scored 1279 points of a possible 1650 for top honors. Murrah was high point man, scoring 438 of a possible 550.

The other scores by Muleshoe FFA entries included 422 by Ethridge and 413 by Harrison.

In competition against teams from both Area I and Area II, the Muleshoe team finished second.

Muleshoe FFA entered four other teams in the contests at Texas Tech. They judged in crops, grass, meat and dairy contests.

The livestock team placed second in sheep judging, with a score of 384 out of a possible 450.

The team and its coach were scheduled to leave Thursday afternoon for the state FFA contests.

POWER OF POLITICS

WESTERNPORT, Md. (AP) — Politicians campaigning in Western Maryland for the state's primary election accidentally wound up in Keyser, W. Va., the other day, instead of in Westernport.

It turned out the driver of the campaign bus failed to make the right turn in the highway because he was busy listening to Comptroller Louis L. Goldstein, one of the candidates aboard.

Off The Runways

GUESTS FLY IN

Mr. and Mrs. Billie Don Barbour and children, Donnie, Kayla, Angela and Brent flew to Muleshoe for the last weekend in their Beech Bonanza. The Barbours were guests of his parents, Mr. and Mrs. H. O. Barbour. They returned to their home in Farmington on Monday.

FOUR STUDENTS SOLO

Don Bryant and H. C. Elliott made their solo flights Friday at the Muleshoe airport followed by Sam Damron making his on Monday. The trio have been running quite a race to solo within a short time of each other and all three have been attending ground school classes in the same session flying daily and studying hard to try for the top spot on their written and flight tests for private license. Bryant, Damron and Elliott grew up and attended school here together.

Bryant soloed with a total of 12 hours of dual, Damron 12½ and Elliott 11 hours and 50 minutes.

In keeping with an old pilot tradition, Griffith went to work with a dull pocket knife and cut off Bryant's shirttail to be photographed by other pilot and friends and hung on the airport wall. Returning from his flight, Elliott was cut off by Bryant and Fred Boyd of the Muleshoe Flying Service revived Damron of a large portion of his shirt.

They have finished their basic training in aerial maneuvering, landings and take-offs needed for their student license, have finished pre-flight in ground school and are now studying weather, which Elliott said was a big help to a farmer as well as a pilot.

Commenting for the group on their soloing, Damron said "Well we're mighty glad to get that four dollar kick out of the back seat (instructors fee) as long as flying is smooth, but if something were to go wrong, sure would be nice to have that ole boy along. All three of the men have received their instruction under Morgan Locker.

NIGHT FLYERS

Instructor Fred Boyd has checked out two students for night solo flying. They are Kenneth Briscoe and Dewitt Precure who fly their own plane, a Piper Cub.

COMPLETES INSTRUMENT

Willard Heathington and Hugh Yeates have completed the hours required for their Private Pilot's license under the hood in simulated bad weather flying by instrument.

This qualifies them to take their flight tests as soon as an appointment can be arranged in Amarillo with the Federal Aviation Examiner, instructor Fred Boyd said.

PAWNEE SAFETY FEATURE

The wings of the Pawnee airplanes at the Muleshoe Flying Service have been equipped with new safety steel hinges which are replacing the aluminum ones that first were put on the relatively new Piper creation for the commercial field of aviation.

The aluminum hinges were not strong enough to endure the load and vibration of spraying operation and in compliance with the

recently released bulletin to this effect, A&E mechanic Fred Boyd installed the new type hinges.

JOE MILSAP SOLOS

Joe Milsap soloed in the Super Cub Monday afternoon. Milsap began as a student in 1960 under the instruction of Harold Locke former Flying Service pilot, and resumed training recently. He made the flight after 9 hours aloft on a brush-up course, in addition to the hours he had logged previously.

SKIMMER ON DEVIL'S LAKE

Leaving the Muleshoe airport at 10 a.m. Friday morning, Morgan Locker, accompanied by his sons, Don and Freddie and Printis Griffiths, son of Mr. and Mrs. Herb Griffiths flew to Devil's Lake in the Skimmer for an outing.

Devil's Lake, located north of Del Rio, is situated in a valley between cliff walls approximately 200 feet high. They found the air somewhat rough as they dropped down over the walls to land on the water, which is about a half mile wide and 6 miles in length.

After camping in a Bermuda grass spot among groves of pecan and sycamore trees along the lake edge the boys boarded the Skimmer and were taxied to the middle of the lake and using the wings and top as a diving board, enjoyed swimming in the warm water. The lake is fed by 45 springs and empties into the Rio Grande. Late in the afternoon they went on a hike, scaling the wall to the top of the mountain where they spent considerable time exploring ancient buildings which had been started and many dollars had been spent on the high structures. Locker said they were built of native stone and apparently many years ago. Locker said that young Griffith was extremely well educated for his young age on the identification of rocks, trees and animals.

Leaving there Saturday afternoon for the flight home, they landed at San Angelo for lunch and a crowd gathered to see the Skimmer. Many said that they had never seen a seaplane before.

Don Locker, flying co-pilot, took over the controls after Locker set it on the correct heading and piloted it enroute with Locker taking over only for landing and taking off.

CHARTERED AIRPLANES

During the weekend of April 19-20 both the Tri-Pacer and Comanche were chartered for private flights.

Ray Daniel of the local ASC office and Walter McManis area farmer, made a flight to El Paso on business. McManis piloted the Tri-Pacer.

H. H. Neuenchwander, Littlefield dairy operator, came to Muleshoe and made flights in the Comanche and was approved to fly the craft solo cross country and left on a flight to Salt Lake City, Utah on Saturday morning. He returned Sunday afternoon.

STUDENT FROM HART

Doyce McAdams of Hart took his first flight lesson Sunday with Morgan Locker instructing. McAdams is flying the Piper J-3. He said this was his third trip in a plane and Locker said his control of the craft was excellent for first lessons and he was a very promising student.

HAROLD LOCKES VISIT

Harold Locke, former Muleshoe Flying Service pilot, and his family spent three days in Muleshoe last week visiting old friends and pilots with whom they were associated until December of 1960

when they moved to Marlin.

Locke was one of the first pilots to become interested in Sailplanes and along with Neal Everett of the Goodland Community went to Elmira, N.Y. and trained in the Schweizer one and two place planes and obtained his instructors rating prior to the Sailplanes being purchased by the Flying Service. He gave instructions here.

Flying the Sailplanes on his visit here, Locke made an early morning flight and stayed aloft 30 minutes by skill of maneuvers as thermals were weak.

On an afternoon flight, Locke released at 3,000 feet, found strong thermals under cumulus clouds building rapidly to the west and stayed under them at 10,000 feet for the duration of the flight. He used the spoilers to reduce altitude and land.

Locke is associated with the Huff Spraying Service in Marlin and says the spraying there is somewhat different. The more rugged terrain and trees create more difficult conditions, but more surprising is the fishing pole which they carry in their spray planes and in the event the wind becomes too high, they land on a small runway beside the Brazos River and fish.

M'shoe Chamber Is Engaged In Membership Drive

Frank Ellis, president of the Muleshoe Chamber of Commerce said, "A new industry in a Texas community makes a vitally important change in the business climate."

"If a new industry adds 100 workers to the local labor force, then the community gains 295 more people," said Ellis.

Broken down into statistics, this means 112 new households, 51 more school children, 107 more passenger cars registered, \$590,000 more personal income per year, \$27,000 more bank deposits, and \$360,000 more retail sales per year.

He went on to add that these figures, compiled through a study made by the Texas Industrial Commission, pointed up a dramatic economic consideration: the additional local and state taxes paid by the new plants, and the additional workers employed by local business establishments favorably affected by the revenue

from the new industry.

The only organization devoting full-time planning and effort to the job of attracting new industry and other advantages for the community, the Muleshoe Chamber of Commerce is presently engaged in a membership drive.

Ellis said, "Without the support of an active membership, a Chamber of Commerce cannot serve the community effectively."

He cited a current billboard message: "In Texas, Business Is A-OK — All Chambers of Commerce Report GO! Join and Be Active!"

LETTERS TO THE EDITOR

Dear Sir:

In these pre-election days we are hearing much about constitutional rights and the return to a constitutional form of government. I asked myself just what this term meant as defined by words, for I thought I knew in my own mind and heart, so this morning I took volume "C" from my reference books and here is what I read. "A Constitution is the basic set of rules by which a country is governed."

"The Constitution of the government usually provides for the

form of government, limits the government's powers, and assures the rights and liberties of the citizens." What a flagrant mockery of this definition we, the people of the United States, have allowed to be perpetrated by our apathy and indifference. Yes, and our ignorance too.

"Suddenly I realized just how long it has been since I read any part of the Constitution of the United States! I wonder if many of your readers won't find themselves guilty of this, too. Far too many, I'm afraid, and without a doubt most of them are earnest, civic minded persons who have paid their poll taxes and will certainly vote in the coming elections."

Isn't it high time we enlighten ourselves on how much power our government should be LIMITED to? Political figures on every hand are asking for more and more power. With many of these powers we (sometimes inadvertently) give them, they are propelling us deeper and deeper into the cesspool of a socialized system of government. Should not we ask every candidate who solicits our vote exactly how he feels about these mortal issues, and how he will stand on designation of further powers to higher officials who request them? No request is so small as to merit less than the deepest consideration.

I would resent someone telling me how to rear my children, yet their minds are conditioned by their environment, and they are surrounded by the demoralizing influence of "Something for Nothing" promises and the polluted propaganda that only those in "higher" governmental positions are capable of assuring their rights and liberties and even of solving their problems. Public school teachers cannot instill the spirit of independence in a student who has never been taught

that he can do for himself, and that in so doing he will build self respect and gain the respect of others. This teaching must be done at home, by understanding, informed parents.

Fear not to ask any man what he intends to do TO your opportunities, and do not be misled by what he promises to do FOR you.

The opportunities have been there since our Constitution was adopted in 1789, but for the past thirty years so many misinformed and misled officials have misapplied the term of "government for the people" to the extent that their idea of FOR the people is far out of proportion to the OF the people and BY the people. I would urge your readers to learn if the candidate of his choice really wants to be chosen OF him and instructed BY him to do FOR him ONLY those things which our Constitution intended he should. The carelessly cast vote could become a bill of sale for the liberties of our children. WE must not sell them short.

I was fortunate enough to obtain a copy of the Constitution of the United States. I would like to see it in print a little at a time in your newspaper. Many would not have the time to read it through at once, but in smaller quantities time for meditation of the wisdom and the full meaning of the articles and amendments of this vital document might encourage us all to take a second look at what is happening to us and to what has already happened in so many parts of the world to those who were not fortunate enough to be able to question the motives of their leaders.

How will we be able to determine if the platforms and promises of political parties and political candidates point to the return of Constitutional government if we do not know what the term really means?

Sincerely,
Mrs. D. O. Burelsmith

Practical Politics

Precinct conventions are scheduled for May 5, 1962. The hour is late, but there is still time for the American public to take charge of the political system. This is done by electing leaders that believe in America's constitutional government in the political party of your choice in the precinct convention.

The American government is currently supporting agrarian land reforms and other socialist programs in foreign countries. For example, the State Department in a bulletin entitled "American Republics Establish an Alliance for Progress" on Page 6 makes the following statement:

"To encourage, in accordance with the characteristics of each country, programs of comprehensive agrarian reform leading to the effective transformation, where required, or unjust structures and systems of land tenure and use, with a view of replacing latifundia and dwarf-holdings by an equitable system of land tenure so that, with the help of timely and adequate credit, technical assistance and facilities for the marketing and distribution of products, the land will become for the man who works it the basis of his economic stability, the foundation of his increasing welfare, and the guarantee of his freedom and dignity."

American people do not believe in land reform programs, but unless they are successful on the political party of their choice, this program will ultimately produce a one-world socialist government.

Resuming Nuclear Tests

In recent weeks, we have been concerned with Dean Rusk's willingness to continue to negotiate with the Russians even after there appeared to be nothing about which to negotiate. Our reason for concern was our awareness of the fact that the Russians would not yield in their position and our fear that Dean Rusk's willingness to negotiate might be interpreted as American weakness.

Now that the Geneva talks have ended and the three big foreign ministers have departed, it would appear that our nation has come out of the talks successful from the political and propaganda viewpoint.

Now, after three weeks of negotiations at Geneva, it is obvious to everyone that the Soviet Government is absolutely opposed to any form of inspection at all. The prevailing public opinion to be that in view of the Soviet stand, President Kennedy had little choice other than to carry out his commitment to test nuclear weapons.

Chamber Works For All of Us

Remember the story of the old man who called his seven young sons to explain the strength of unity? He gave them seven sticks tied in a bundle which none of them could break. But when he loosened the bundle, and gave one twig to each son, they broke it easily. One hundred years ago, Abraham Lincoln summed up the wisdom of this parable when he said, "United we stand, divided we fall."

In a sense, your Chamber of Commerce serves the function of the string which held the bundle of sticks together. Without a unifying organization

working for the good of the community, we would seldom see the completion of Muleshoe's most cherished business, civic, and cultural projects.

The Chamber of Commerce is the only full-time organization in Muleshoe which devotes its entire time and energies to working for each of us all of the time.

Its primary goal is the advancement of Muleshoe on every level and in every area. The Chamber is motivated by enthusiasm and hope for better things all about us, better things for a better life, a better life for our children, and our children's children. But without our help—yours and mine—the Chamber of Commerce would cease to exist.

It isn't enough to pay your membership fee. We must work together as a collective force to achieve common goals for the

Medical Aid Fight

The United States has now reached the stage when an overall, government-financed medical aid bill for everyone over 65 is being pushed hard by the administration in power and has a substantial chance to be enacted.

The point which is too often overlooked in the shuffle, and in the wide variety of arguments on this subject, is that we have a program inaugurated only in 1960, and this program certainly has not been given an adequate test. This program is the Kerr-Mills law, which provides federal support to all states which take advantage of its terms.

The present law, the Kerr-Mills bill, allows the states to set the exact terms of the program but, basically, aid (most of it footed by the federal government — from 50% to 80%) is available to those couples with income under \$2,800 a year. It is true that those receiving this aid must be unable to pay their costs themselves.

Proponents of the administration bill make a lot over this — and claim that their bill would not embarrass anyone and not affront anyone's dignity.

In short, this concept — to give medical aid to all whether they can afford it or not — and whether they really want government care or not, runs counter to the traditional American heritage, our spirit of individual responsibility, pride and thrift.

It is true, of course, that medical care is very expensive these days. Drugs and medicine in the United States are too high — in comparison to prices in other countries. But it would seem that the remedy, if the Kerr-Mills bill does not accomplish the task (and this is not yet proven) is to liberalize the terms of that medical care law — which is already on the books. As a matter of fact, the benefits provided under this law are wider than under the administration bill. It covers the cost of physicians and dentists' bills, which the administration bill does not.

The administration bill would mean still another increase in social security taxes, which are already high. It would raise from 6% to 7% this tax, and also make it applicable to the first \$5200 dollars of everyone's income, rather than the first \$4800.

The Kerr-Mills bill has not had a fair chance to do the job yet, and the disadvantages of the new medical care plan should certainly be avoided. If time proves the Kerr-Mills bill inadequate, then it can be amended, and changed, to meet the needs of the aged. That is the sensible, economical way to accomplish the goal.

SOME PEOPLE ARE NEVER SATISFIED

AKRON, Ohio (AP) — An elderly man complained to the Wayne County dog warden recently that dogs roaming loose near his home were bothering him.

The obliging warden personally knocked on doors in the neighborhood asking residents to cooperate in keeping their pets from bothering the complainant.

The neighbors heeded his plea. A few days later the elderly gentleman called the warden again. "Now I'm besieged with rabbits because all those dogs are tied up," he unhappily reported.

Santa Fe's Net Income Shows Season Increase

"Net income of the Santa Fe Railway System for the first three months of 1962 amounted to \$7,352,335 compared with \$8,095,711 in the first quarter of 1961, a decrease of \$743,376 or 9.2 per cent Ernest S. March, president, told stockholders at the 67th Annual Meeting in Topeka last week.

"Operating revenue for the first three months of 1962 was \$144,302,099 compared with \$139,796,250 in the same quarter last year. The decline in net earnings was attributed to several factors." (1) Far more severe weather conditions during the first quarter of 1962 which caused substantial added expense on account of interference with efficient train and yard operations and necessity for removal of snow and ice from switches, platforms and other facilities; (2) an increase in wage costs approximating 2 per cent effective March 1, last year; (3) increased payroll taxes effective January 1, 1962 under amendments to the Federal acts for railroad retirement and railroad freight car repairs to improve freight car supply for increased loadings anticipated in the spring and summer of 1962."
