Pay property taxes by Jan. 31 or face additional interest fees

Lynn County property owners who have not yet paid their 2012 property taxes have a few days left if they plan on getting by with no additional fees, interest or penalties tacked on their original bills.

January 31 is the deadline to pay property taxes. After that, the late payment fees, penalties and interest begin to add up quickly.

Those who wait until February will pay an additional seven percent in penalties and interest. Every month following that, the penalties and interest go up by two percent through June when the penalty fee remains at 15 percent.

Property owners who want to pay their taxes in person have until 5 p.m. Thursday, Jan. 31 to pay their

taxes (without additional interest) at the Lynn County Appraisal District office, located at 1615 Main Street in Tahoka. If paid by mail, taxes must be postmarked by Jan. 31 to avoid penalties.

There is an option for homeowners over age 65 or disabled, to pay their taxes in four installments instead of a one-time full payment. To make the installment payments, the homeowner must notify the Appraisal District before the end of January, by phone or in person, of their intent to pay their tax bill in this method. The first payment is due by the end of January, with the other three payments due in March, May and July. For more information, contact the Appraisal Office at 561-5477.

New Home man one of two killed in Jones Co. wreck

Eric Keith Alaniz, 23, of New Home was one of two men killed, and two other persons were injured Sunday morning as the vehicle they were in left the highway, struck a guardrail, then went airborne before smashing down on a concrete embankment.

Also killed was Bobby Lynn Beavers, 24, of Denver, CO.

Injured and last reported in stable condition at Hendrick Medical Center in Abilene was the driver of the 2013 Infinity LL (Suburban), Christopher Ryan Alaniz, 16, also of New Home. A fourth passenger in the vehicle, Pete Alaniz, 47, of Graham, was listed in serious condition Monday at Hendrick Medical Center. An investigating

Highway Patrol officer said Pete Alaniz is the father of Eric and Christopher, and that Bobby Beavers was a cousin.

The DPS report said the four had attended a funeral in Seminole and were traveling east on U.S. 180 about 1:45 a.m. when Christopher fell asleep and the car left the roadway.

A Wolforth man, Jason Case Johnson, 43, has been arrested on a 106th District grand jury indictment in Lynn County for theft of materials, aluminum, bronze, copper or brass.

Lynn County Jail was holding 19 inmates early this week, with four held for Andrews County and two for Gaines County. Two persons were jailed last week on theft charges.

Food Pantry blessed with donations

The members of the Food Pantry in Tahoka were delighted and blessed to have Mrs. Liz Tew, family, friends and the Girls In Action at The First Baptist Church bring in more than 1,000 pounds of canned goods on Wednesday, Jan. 2nd, collected from the recent community food drive. She also donated much needed food to the Lynn County Pioneers Senior Citizen's Pioneer Center.

Liz says that she feels that "Those who are blessed should help those who don't have enough to eat."

She remembers the late Roy Riddle as her inspiration for all the selfless work he did in feeding the hungry. Anyone wishing to help Liz in future food drives may call her at 561-9994.

The Lynn County Pioneers Senior Citizen's Center also welcomes any donations, and anyone wishing to donate to Tahoka's Food Pantry can go to either bank and ask to make a deposit to the "Food Pantry" accounts there.

School board members honored for service to public schools

January 2013 is School Board Recognition Month, a time to spotlight the service of locally elected leaders who deeply care about Texas children and public schools. More than 7,200 men and women serve without pay on local boards across Texas. Each year the Texas Association of School Boards (TASB) encourages education and community leaders to show appreciation to these people for their unflinching commitment to the students in their charge.

"Please join me in applauding the dedicated service of local boards as they strive for

excellence in our schools and shoulder enormous responsibilities," said James B. Crow, TASB executive director. "So often the long hours and challenges of school board service are not visible to those who may not fully understand the many issues facing public education. Yet, these local trustees embrace hard work as they demonstrate compassion and concern for the success and well being of Texas students. They work closely with parents and educators to develop sound education policies in their districts and set high standards for student success."

"In these times of financial need, school board members willingly step forward to solve myriad problems, balance the district budget, and still provide excellent education experiences for all of our children. We hope every community will express thanks to local board members and support them as they tackle this important job. Recognize them for making the time to care about the future of Texas schoolchildren, their local communities, and this state," he said.

Following is a list of Lynn County school board members, and the number of years each has served on the board.

Woodwork

Last week I read about a controversy involving one medical researcher's claim that being slightly overweight could help a person live longer than the average person of "normal weight."

Although the woman scientist who directed the study did point out that being grossly overweight still could shorten one's life, other medical researchers said the study was flawed, and besides, it is not a good idea to tell people it's okay to weigh more than what is considered normal.

The study also said that using the BMI system of determining how fat a person should be (or not) is perhaps not the best barometer of healthy weight. BMI means body mass index, or how much a person should weigh according to their height.

I never paid much attention to that. I just know that on a chart showing how much a person should weigh according to how tall they are, I usually find that I am about a foot too short.

(I still like the cartoon showing a hefty guy standing on a scale reading his fortune card, which says, "You have a long memory and like peanuts.")

I remember reading about one guy's problems losing weight on diet programs. He said, "No matter how hard I try, I can't lose any weight on any diet plan, including the one I'm on now." When asked what he was eating, he said:

"For breakfast, one piece of dry toast and black coffee. For lunch, watercress and about three ounces of cottage cheese. About 2 o'clock in the afternoon, I usually eat a little snack—a one-pound bag of M&Ms and a half gallon of Rocky Road ice cream."

Arrow marker ...

A stone marker has been placed at the tip of the arrow at the Tahoka Pioneer Museum, designating the area as part of the Quanah Parker Trail. This area was a favorite campsite for Quanah Parker and nomadic Indians in earlier years. The marker, from Texas Plains Trail Region, is one of approximately 50 designated sites for the Quanah Parker Trail.

Lynn County resident Charles A. Smith designed and sculpted the arrows throughout the region, including arrows at the Tahoka Pioneer Museum and in New Home and O'Donnell.

O'Donnell FUMC introducing 'Letters from Dad' ministry

First United Methodist Church of O'Donnell will host a kickoff BBQ event from 6-7:30 p.m. on Sunday, Jan. 20, to introduce *Letters from Dad*, a new men's ministry, to the community.

"The BBQ kickoff will be held in the Fellowship Hall at 612 5th Street in O'Donnell. Admission is free and anyone is welcome. And, bring a friend!" says Monty Barnett, Pastor of O'Donnell/Draw UMC.

"*Letters from Dad*" is a national men's ministry that is expanding into the O'Donnell area. It is helping fathers to learn to leave a legacy by saying the things they've always wanted to say but just didn't know how. "I love you," "You're the treasure of my life," and, "I'll always be there for you," are things every child wants and needs to hear from their dad. Endorsed by the likes of Ken Canfield, National Center for Fathering, Steve Farrar, best selling author, Dr. H. Norman Wright, renowned author of *Marriage and Counseling* books and videos, Dave Dravecky, former San Francisco Giants pitcher and many others, *Letters from Dad* has helped to restore family communication, produced healed marriages and reconciled parent-child relationships, all through the "lost art of letter writing."

Greg Vaughn, author of the best selling book, *Letters from Dad*, recalls "I was in my garage, cleaning up after the death of my father when I found his rusty tackle box. I realized that he died without leaving me a note or a signature, only this rusty tackle box. Then it dawned on me, what if I were to die today, what would I leave for my wife and children? I concluded that I would be leaving nothing but a rusty tackle box too! That's how *Letters from Dad* was born. From there I recalled 14 other fathers and we started on a journey to leave a legacy to our family. That group birthed a group of 130 men that turned into a group of 350 men and then a group of 700 men. It

is now in over 700 churches and nearly 13,000 men have participated."

Letters from Dad teaches men to open up their hearts and put into words their love for their wives, children and parents. It not only teaches men "Why" to write letters, the men also learn the mechanics of letter writing and how to keep them preserved for posterity.

For additional information about the ministry, call Mark Royce at (806) 759-9896, or O'Donnell Methodist Church.

From Abraham to Exile
Matthew 1:2-11
Not every ancestor of Jesus trusted in the God of Abraham, Isaac, and Jacob. Still, the Lord's grace overcame what could be called "impossible" odds in working through the sinful sons of David to bring about our salvation. This grace seeks out even the most wicked person and calls God's chosen to repentance, even if they are as vile as Manasseh or as lost as Rahab. Our status as Christ's brothers and sisters (Heb. 2:11) comes only by such almighty grace.

PUBLIC NOTICE

NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN AIR QUALITY STANDARD PERMIT REGISTRATION

PROPOSED AIR QUALITY REGISTRATION NO. 107267L001

APPLICATION SUPER MIX INC., has applied to the Texas Commission on Environmental Quality (TCEQ) for an Air Quality Standard Permit, Registration No. 107267L001, which would authorize construction of a portable Concrete Batch Plant located at the intersection of FM 1210 and FM 1054 in O'Donnell, Borden County, Texas 79351. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=32.94&lng=-101.650277&zoom=13&type=r>. The proposed facility will emit the following air contaminants: particulate matter including (but not limited to) aggregate, cement, road dust, and particulate matter with diameters of 10 microns or less and 2.5 microns or less.

This application was submitted to the TCEQ on November 20, 2012. The application will be available for viewing and copying at the TCEQ central office, the TCEQ Midland regional office, and the Borden County Courthouse, 117 East Wasson, Gail, Borden County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review in the Midland regional office of the TCEQ.

The executive director has determined the application is administratively complete and will conduct a technical review of the application.

PUBLIC COMMENT/PUBLIC MEETING You may submit public comments, a request for a public meeting, or request a contested case hearing to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. The deadline to submit public comments is 15 days after newspaper notice is published. After the deadline for public comments, the executive director will prepare a response to all relevant and material, or significant public comments. Issues such as property values, noise, traffic safety, and zoning are outside of the TCEQ's jurisdiction to consider in the permit process.

The purpose of a public meeting is to provide the opportunity to submit comments or ask questions about the application. A public meeting about the application will be held if the executive director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

If only comments are received on the application, the response to comments, along with notice of the executive director's action on the application, will be mailed to everyone who submitted comments or is on the mailing list for this application.

The executive director will complete the technical review, issue a preliminary decision on the application, and a Notice of Application and Preliminary Decision will be published and mailed to those who are on the mailing list for this application. That notice will contain the final deadline for submitting public comments. If a hearing request is timely filed in Response to this Notice of Receipt of Application and Intent to Obtain Air Permit, the time period for requesting a contested case hearing will be extended to thirty days after the mailing of the executive director's response to comments.

After the final deadline for public comments following the Notice of Application and Preliminary Decision, the executive director will consider the comments and prepare a response to all relevant and material, or significant public comments. If any comments are received, the response to comments, along with the executive director's decision on the application, will then be mailed to everyone who submitted public comments or who is on a mailing list for this application, unless the application is directly referred to a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING You may request a contested case hearing. The applicant or the executive director may also request that the application be directly referred to a contested case hearing after technical review of the application. A contested case hearing is a legal proceeding similar to a civil trial in state district court. Unless a written request for a contested case hearing is filed within 15 days from this notice, the executive director may approve the application. If no hearing request is received within this 15 day period, no further opportunity for hearing will be provided. A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on those issues raised during the public comment period and not withdrawn.

A person who may be affected by emissions of air contaminants from the facility is entitled to request a hearing. To request a hearing, a person must actually reside in a permanent residence within 440 yards of the proposed plant. If requesting a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number, and fax number, if any; (2) applicant's name and Registration Number; (3) the statement "[I/we] request a contested case hearing;" (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; and (6) a description of how you use the property which may be impacted by the facility. If the request is made by a group or association, the one or more members who have standing to request a hearing, and the interests which the group or association seek to protect, must also be identified. Requests for a contested case hearing must be submitted in writing within 15 days following this notice to the Office of the Chief Clerk, at the address below.

Following the close of all applicable comment and request periods, the executive director will forward the application and any requests for contested case hearing to the Commissioners for their consideration at a scheduled Commission meeting. If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact relating to relevant and material air quality concerns raised during the comment period. Issues such as property values, noise, traffic safety, and zoning are outside of the Commission's jurisdiction to address in this proceeding.

MAILING LIST In addition to submitting public comments, you may ask to be placed on a mailing list to receive future public notices for this specific application mailed by the Office of the Chief Clerk by sending a written request to the Office of the Chief Clerk at the address below.

AGENCY CONTACTS AND INFORMATION Public comments and requests must be submitted either electronically at www.tceq.texas.gov/about/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. If you communicate with the TCEQ electronically, please be aware that your email address, like your physical mailing address, will become part of the agency's public record. Applications for conservation programs now accepted at local NRCS office

USDA Natural Resources Conservation Service (NRCS) District Conservationist Kerry Weinheimer announces applications for funding opportunities with the Environmental Quality Incentive Program (EQIP) are currently being accepted at 1602 S. Second Street in Tahoka.

NRCS in Texas has received its initial allocation of EQIP funding in 2013 and will begin ranking and obligating EQIP contracts after February 15. All agriculture producers interested in submitting a contract application for 2013 should do so before this ranking deadline.

EQIP — one of the largest programs in the Farm Bill — is a voluntary conservation program that promotes environmental quality and assists producers to meet local, state and federal regulations.

"EQIP is a valuable tool to help Lynn County's agricultural producers implement conservation practices that provide environmental benefits to help sustain agricultural operations," says Weinheimer.

EQIP is a continuous sign-up program that allows landowners or operators to apply for financial and technical assistance for the application of specific conservation practices; but the deadline for the first 2013 funding is February 15, 2013. Contracts are offered periodically depending on budgetary allocations. Applications made after the deadline will be considered in the next funding cycle. Higher priority will be given to those applications that address national, state and local priorities and provide higher cost efficiency.

EQIP offers technical and financial help to install or implement structural, vegetative, and management practices that can benefit the soil, water, air, plants, livestock, and wildlife. Each county in the state is funded yearly to assist producers financially with these land management practices.

Last year, NRCS in Texas funded over 4,000 EQIP contracts with \$76 million to accomplish conservation practices such as irrigation efficiency, minimum tillage, brush management and more on 2.1 million acres across the entire state. In addition to helping our environment, Farm Bill conservation program funds support rural communities. In Texas, it is estimated that each dollar of NRCS and private matching expenditures on NRCS conservation programs generates an additional \$2.54 in sales of goods and services.

For more information, including eligibility requirements, call the USDA Service Center office in Tahoka at 806-998-4507. Service center locations and program information can be found on the Texas NRCS Web site at www.tx.nrcs.usda.gov.
