Civic leaders in North Texas toay announced the plans for the first Santa Rosa Roundup and Livestock Exposition to be held in Vernon, Texas, May 29 through June 2, indicating that it will be one of the largest and most colorful events ever designed or produced for North Texas, Southern Oklahoma, and New Mexico. It was revealed that a master plan for the undertaking has been prepared which includes grandstands, rodeo arena, stock barns and pens, exhibition buildings, carnival or circus grounds, swimming pool, airplane landing strips, and all other facilities in keeping with an undertaking of this magnitude.

The opening production will be a 5-day rodeo beginning May 29, and running through June 2, including three evening performances with matinees on Memorial Day, May 30, and the following Sunday, June 2. This show will be produced by Earl and Jack Sellers of Del Rio, Texas, prominent as leaders in rodeo productions of the United States. Both professional and amateur events are being planned, and only the firest exhibition or specialty acts will be featured.

The rodeo and exposition site consists of approximately 150 acres located on the beautiful slope of Paradise Creek, one mile south of

### HOME FOLKS INFLUENCE H. S. STUDENT THINKING

High school students says that he family exerts the strongest influence on their thinking. Second strongest influence is magazines and newspapers. These facts are revealed in the latest survey of the Institute of Student Opinion, a national polling organization composed of 1555 high school newspapers and sponsored by Scholastic

Magazines.
The survey question, voted upon by 101,548 high school students and the percentage results, are as We were really proud of our exfollows:

"In your opinion, which of the following influences your thinking to the greatest extent?"

Parents and other members o my family (38%); my school teathers (5%); my close friends We are more than grateful to (11.5%); community and student opinion (7%); magazines and newspapers (17%); radio (10.5%); movies (3%); school books (1%) church (5%); don't know (3%).

After the poll had been taken 5,000 student voters as to the reasons for their choices. According to the interviews, the largest number named their families as the greatest influence on their thinking, beopinion (%); magazines and cause of home discussions and the their parents' judgment most. ## Candidates Are People. Too

The action of candidates in Haskell County in de eiding not to attend political rallies this year brings to mind that the public has not been very fair with the men and women it is asking to run the affairs of government. We are all only too familiar with the old American custom of squeezing the public man for all he is worth.

There really is no justification in issuing special invitations to political candidates to attend various social functions at which their purses are artfully drained of hard-earned cash. No doubt such things as box suppers and cake sales furnish a lot of fun, but we may as well be honest about it and admit the principal purpose of such things is strictly mercenary.

Most candidates have accepted such impositions be cause they have found it difficult to refuse gracefully. But men and women who ask for public office do enough to earn their money as it is. It is pretty lame reasoning that says they have any obligation to be jilted of their money In the first place, there are usually enough candidates in a contest so that there will be more losers than winners. The losers, then, have incurred considerable expense already in campaigning for the office they will not get.

We do not think a public office should be regarded as a prize. We think it is a position of trust and service, and beyond the obligation of discharging duties efficiently, we see no further indebtedness to the public. Most of us have an unwarranted tendency to impose ourselves upon office-holders. Aside from the fact that their jobs are in jeopardy at election time, they seldom are better paid than are such positions in the business world. Naturally one who holds office should be friendly, but the public should not try to make him feel that he should fick its boot tops

Most public officials are first class citizens with a deep sense of obligation toward discharging their duties and toward civic betterment.

It is about time that the rest of us respect them as such and let them have the privacy to which they are entitled.

### The National Pastime

If the sport pages had not already told us so, the April, A. D. 1946, at or before 10 recent weather would have given us a fair warning that o'clock A. M., before the Honor- 1946. I'M SOLD ON FLAME COOKERY WITH GAS-IT'S FASTEST, CHEAPEST AND EASIEST TO REGULATE!

Practically unanimous is this opinion. And it's little wonder that the modern homemaker hugs to her belief in gas cooking—flame cooking. She values it for the time and money it saves her. She praises it for its ease of control. She understands that a flame is necessary for successful broiling.

# The FLAMB cooks it better

Instant heat controlled to the exact degree required for any cooking job is possible only with the clean blue flame of Natural Gas. This is the basic reason why practically all cooking in this Natural Gas area is done with Gas. Is it any wonder that modernization plans specify: "A New Freedom Gas Kitchen?"
