#### He Wasn't Hurt-Couldn't Kill 'im!

Dr. L. F. Taylor, dean of Haskell doctors left here early last Thursday morning for the hill country and a shot at some prize deer, but was delayed momentarily in Anson.

The story reaching Haskell is that the doctor was thinking too much of his proposed hunt, and tried to rush things a bit. When a cattle truck got in his way, he pulled out to pass and was met by a car from the other direction. Rather than hit the car head-on, the congenial doctor pulled into the truck and almost demolished the front of

Dr. Floyd Taylor, son of the local physician who lives in Abilene, was notified of the accident and hurried to his dad's rescue. The young doctor treated the accident victim for cuts and bruises and taped him securely, then accompanied him in the Abilene man's car as far as Coleman to be sure the elder Taylor wasn't hurt more than he would admit.

A local friend of the Taylors checked on Dr. Taylor's condition with his report: "Hurt? You couldn't kill 'im!'

### **Bond Promotion** Set-Up for County Given by Treasury

R. C. Couch, Haskell County Savings Bond committee chairman, has been informed that this county's quota in the current campaign has been set at \$48,000. This figure is considerably under former goals, and the Treasury Department has announced that ho special organized effort will be made to reach this quota, but that the government hopes to raise its overall quota of eight billion dollars during this calendar year through voluntary purchases. Texas' part of the total has been set at \$35,000,000.

As a curb on inflation, means of building up future purchasing power for individuals, the Treasury Department is asking individuals to "Protect your future, buy extra bonds now during the remainder of this year, and especially from now until December ." Emphasis will be on "E" view of the government's immediate needs solicitation for F & G

JATO ASSURES TURTLE RECORD

Official Navy photographers made a pictorial record as the Truculent Turtle, a Lockheed Neptune P2V land based patrol bomber powered by two Wright Duplex Cyclone engines, took off from Perth, Australia, in October to establish a nonstop record of 11,236 miles to Columbus, O., in 55 hours and 18 minutes. Com. T. D. Davies, of Cleveland, O., ordered the plane equipped with four Jato units (jet assisted take-off) which enabled him to take off with a 85,500 pound load, the greatest load ever airborne by a two-motor airplane. The above pictures show the Turtle taking off at Perth. It had Jato units, manufactured by the Aerojet Division of The General Tire & Rubber Co., attached to both sides of its rear fuselage, and with each unit developing thrusts equivalent to 330 hp., the big bomber was helped to rise easily into the air for its record-preaking trip. Ascent of the plane is quickly ascertained by noting the trees in the right of the sictures. The biggest thrill of the trip was the take of Com. Davies and the control of the plane is quickly ascertained by noting the trees in the right of the sictures. The biggest thrill of the trip was the take of Com. Davies and the control of the plane is quickly ascertained by noting the trees in the right of the sictures.

# Everything Happens To Me!

Are you like this fellow? Does everything happen to you? Well, one thing we can do about it is to take part of the load and worry off your mind, if you will do one thing. Bring that FORD back

home to us and let us give it a Bill Wilson special. We will check it from bumper to bumper and guarantee it to suit you when it leaves our shop.

Winter is on us now and will get pretty rough before it is over, so get prepared now, by having us check your car over and do the necessary repairs to ho'd it until you can get a new one.

### Duncan is out of the dog-house!

Mas. Duncan has just finished her Fall housecleaning, and Duncan is welcome in his own home again.

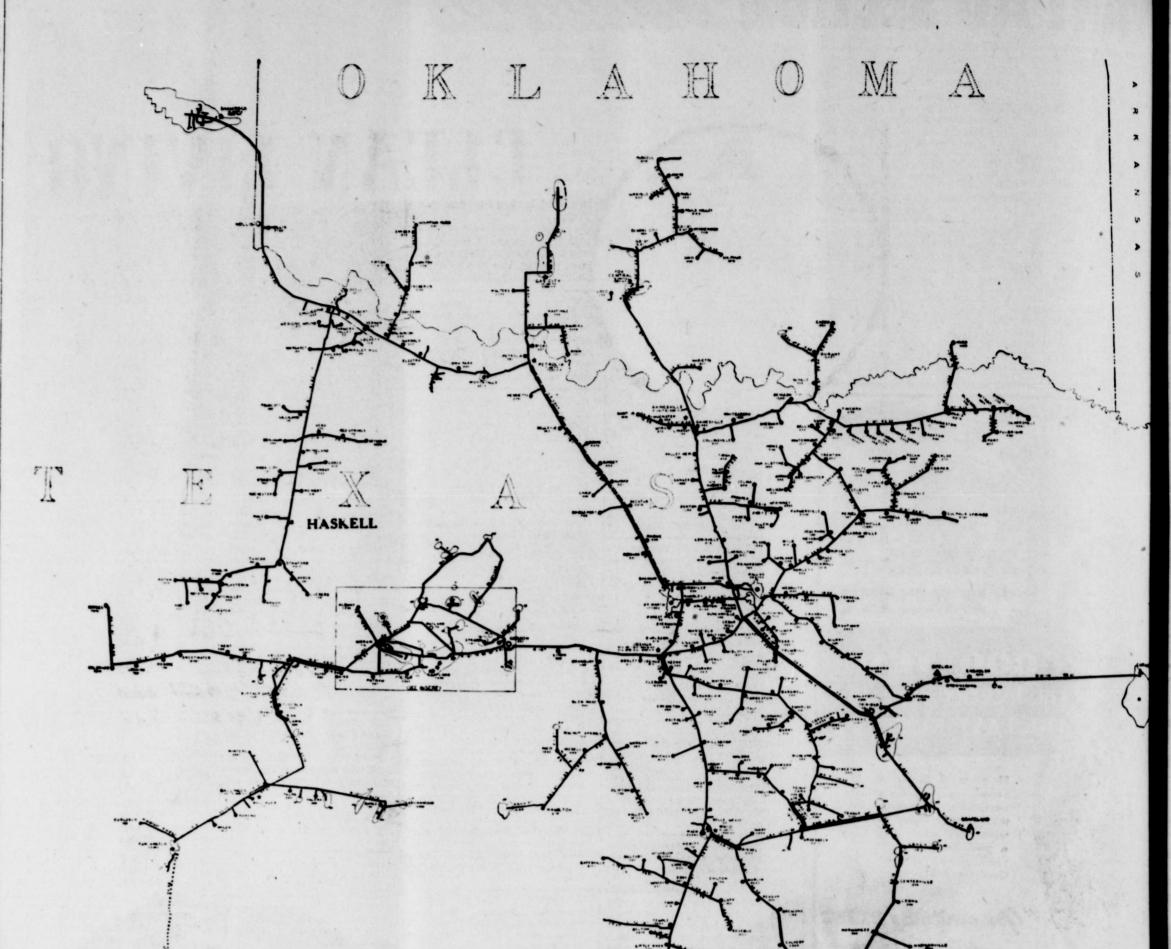

Curtains, crisply ironed, hang at the windows. Rugs are bright an dclean. Blankets, sweetened by sun and suds, loll contentedly on the beds. Everything's fresh and shining. Mrs. Duncan is tired, but happy. Mr. Duncan is happier. The dog is happiest

Once housecleaning was the housewife's horror. Now, with modern electric gadgets, the semi-annual cyclone is finished in half the time with half the effort.

And not only housecleaning - but all household chores - are easier, simpler, when electricity lends a willing hand. This versatile servant cooks, cleans, washes and irons, brightens the home, guards health, scoops entertainment from the very air - and all for the cost of a bar of soap daily.

This greatest of household bargains comes to you through the practical experience of your friends and neighbors in this company, under sound business management.

West Texas Utilities Company

# The Location of Haskell on Above Map Is Important to You and Your City's Future

The map pictured above is the pipeline system of Lone Star Gas Company. Because the people of Haskell, we believe, recognize the fact that a gas service without dependability is not worth its cost no matter how low the rate, appreciate the significance of the city being located on it.

If the history and experience of Lone Star Gas Company prove any one single fact, it is that gas service is too vital for a community to depend on one local source of supply. Throckmorton is an example.

This is why Lone Star up through a third of a century has continuously searched for and developed new sources of supply until today it has available to its customers gas from over 1.000 wells in 75 different and widely scattered gas fields. And it is why the above map of Lone Star's pipeline system is important ir your considerations for Haskell's future. (Encircled areas are gas fields.)

At best, providing a natural gas service is a hazardous business requiring experience and a highly trained organization

of many skilled, technical people. Such an organization isn't put together over night. Lone Star's is recognized throughout America as outstanding.

A modern city is so dependent on natural gas service that its people at all times should know about the men behind the company providing that service—their experience and ability. The people should know the financial condition of the company; where its production is and how much; something about its equipment and pipeline system; if the gas has sufficient heat value for the rate charged; how long will it be able to serve and will the company make customers appliance adjustments, etc? These are important questions:

It has been a pleasure for Lone Star Gas Company to serve Haskeli since 1930. We have lowered rates considerably with two voluntary reductions. We have built up the company and made service available to many more customers. This dependable service is the lowest priced fuel service available, and it is one of the lowest items in the household budget. On our record we hope to continue serving the people of Haskell.

LONE STAR GAS COMPANY

I most humbly confess that the testimony given here is not an occasion of pride nor idle show. It shall be my desire to relate some of the most profound influences in my scheme of living. I have been called upon to speak these words for the specific purpose of assisting some of you young people to find yourselves in time to avoid embarrassment.

Let me begin by saying that it was a happy privilege of mine to have a good home. My parents spent many hours directing me and how well I remember now those good times together. I was taught the curse of drink and its companionate sins and consequently have never to this good day indulged. Sure I am the picture of health and good morals. The very reason I don't look dissipated is—I do not dissipate my energies like many of my tired looking friends do. I am a regular attendant of my church and contribute much to her program. Be sure to attend your church Sunday.

#### Puerto Rican Coed at TCU

First girl from Puerto Rico to study medical technology in an American university is Senorita Dora Villafane, now enrolled in Texas Christian University, Fort Worth. She admits to a bit of homesickness for her parents and two brothers and three sisters back in Mayaguez, Puerto Rico, but says: "Texas is so wonderful and people are so nice to me, I'd really like to stay here!"

#### State Tractors Seen Numbering 200,220 By 1950

Texas may have as many as 200,220 tractors rumbling over its farm lands by 1950 under the impetus of a vigorous nation-wide drive toward complete agricultur- cents a pound, buyers remained al mechanization.

This number would be the state's quota of the 3,000,000 tracin the Middle Atlantic states.

'The demand for farm machinery, particularly tractors, is the heaviest in history," said C. W. Mocre, market analyst for the in 48 hours after the advertiseball and roller bearing company. "Tractors are sorely needed to help the farmer to offset lost manpower and increased acreage and to continue to meet high food production goals."

Texas farms had an estimated 158,066 tractors on July 1, the study disclosed. Of these, between 20,307 and 26,981 are past their normal junking period and 7,003 more are wearing out an-"The farmer is in the best fi-

nancial condition he has ever known," Moore said. "The demand for, and supply of, farm equipment are expected to continue a profitable relationship for some time," he added, pointing out that the state had a record gress farm income last year of \$1,189,301,000 from crops and live-

Moore said tractors and other farm machinery now in production or on drafting boards would enable the farmer to stretch his income dollar.

Not only will this equipment be lighter in weight, but it will have better resistance to wear and corrosion," he said. "It will be equipped with anti-friction bearings that require fewer repairs and less frequent lubrication, and it will be easier and less expensive to operate.'

#### Check of Priority Certificates Planned

To reduce to a minimum the number of veterans' priority certificates in the active files, Harold Gish, chief of the Veterans Division, WAA, announced that a survey of all veterans of the WAA list will be made to determine their interest in the future purchasing. A letter will be sent to each veteran, asking whether or not he wishes to buy surplus property. All who answer in the negative or who do not answer within 20 days will have their certificates removed from the WAA

THE DALLAS MORNING!

### ment appeared. WHO IS HE? As a business succeeds and grows, it more complex system of manager often, more widespread ownership. Allis-Chalmers has grown and pro 99 years. Just who is Mr. A-C? I answer to a guestion like that is con easy for people to pick up mistaken in

#### WHO IS CAPITAL?

Capital doesn't wear a silk hat at Allis-Chalmers. "Capital" consists of 23,100 stockholders who own an average of less than 110 shares each. Mr. Capital might be a grocer, a farmer, a widow, a school teacher, or YOU. He might be a company employee in the office or shop or an officer of the company.

No one individua! or family owns more than 1/2 of 1 percent of the total stock of Allis-

This is an example of democratic ownership distinctive in the history of large corporations.

#### WHO IS MANAGEMENT? Management is the guiding hand

(or head) hired by the owners to make an organization tick - and Who is Mr. Management at Allis-Chal-

mers? Not just the officers and division heads of the company. Management is the block manager in the territory, the foreman in the shop.

Management is every employee from errand boy to president who contributes by word and deed to the progress of the company.

Mr. Management doesn't wear a high wing collar at Allis-Chalmers. Neither does he have any monopoly on his job.

#### WHO IS CABOR!

For the sake of the record, let's to

aport and see who he really is.

The man who works in the shop is spoken of in the newspaper as

Actually he may be a part of Management by reason of some suggestion he has made to impro

or a product. Actually he may be a part of Cap ownership of company stock.

The fact that he works wit makes him no less a part of All than the man or woman who desk. The terms "Capital," "Ma and "Labor" are indefinite and Many a man who works in the ally a part of all three groups.

Introducing Who then is Mr. A.

#### R. L. Vicks Observe Golden Anniversary

With six of their seven children present, Mr. and Mrs. R. L. Vick of Rule celebrated their Golden Wedding Anniversary at home on Monday, November 18. Family members attending

were Dr. and Mrs. Lester J. Vick and son George, of Amarillo: Miss Jessie Vick of Dallas; Dr. M. M. Vick and son David of Loveland, Colorado; Mrs. T. J. Browder of Crawford, Texas; Dr. and Mrs. R. L. Vick of Tulia, Texas; and Mrs. Raymond Alexander and two children, Vicki and Raymond Jr. of Dallas. Other relatives who came to call were Mr. and Mrs. Lloyd Waldrip and children of Knox City, and Mrs. Charles Mc-

Beath of Amarillo. The celebrating couple married firty years ago at Troy, Texas. The minister who performed the ceremony-the Rev. B. H. Simpson, an uncle of the -was among the numerous friends and relatives who sent messages of congratulations on the present occasion.

For the family dinner at 1 p. m. the long table was centered with large two-tiered wedding cake decorated with white and gold icing and topped with wedding bells. Greenery placed about it ed the gold and white, and he streamers of a large gold satir how nointed to the places of the onorees. Flower arrangements of gold and white mums about

the rooms added a festive air. Residents of Rule for forty-odd years, Mr. and Mrs. Vick educated their children there, and saw each of them graduated from Rule High School. They had sons n the first and second World Wars, and at present have a grandson in the Army Air Corps. All their children are still living, and they have thirteen living grandchildren.

#### AAA Farm News

Committeemen to represent Haskell County farmers in administering the Farm Program for 1947 will be elected November 30, 1946 at polling places which will be located in all the communities in Haskell County.

Annual elections of committeemen give farmers the opportunity to make their voice heard in the development and administration of farm programs, John W. Brock, chairman of the 1946 county com-

mittee, said today. Since every farmer has an interest in seeing that the national programs are fitted to local needs he owes it to himself to vote for the man he feels will best carry out their responsibilities.

Each of the eleven farm communities in Haskell County will elect three committeemen and two alternates, as well as a delegate to the county convention where three-man county committee will be elected

Mr. Brock estimated that there were about 2600 farmers in Haskell County eligible to vote in these elections, and urged every man to go to the polls and cast his vote so that representative farmers will be chosen. Because of the community property law in Texas, wives of farmers may also

#### Santa Claus Comes To Haskell

A trip around the Haskell square these days will rereal to folks that they don't have to go beyond the city limits to find Santa Claus. Merchants here have brought to light innumerous gifts for both young and old, and F. L. Daugherty farm sold a bunch ty to the district court of this many of them are at prices belying days of post-war inflation.

"Born five years too soon" or "married five years too late" won't hold true come December 25, 1946. Children \$104.00. born about the time the war started are due to have their first metal toys without Santa Claus having to pay black Haskell Telephone Company at co to work in a silver mine. The market prices for them. Dozens of youngsters don't know what toys that will last look like, and are due to see some play-things that will thrill their little hearts after Saint Nick has made h.s annual call to this area.

Brides of the past few years haven't had all their young ambitions yearned for either. Home appliances, furnishings, fixtures and clothing have been as scarce as open Nov. 15. the proverbial hen's teeth since 1942 and many young couples are beginning to get their first taste of many items that make for a "home beautiful."

It doesn't hurt Haskell County babies or brides to be denied things that babies and brides of a few years previous had in abundance. But they are not the only ones who are happy to see items that were wartime casualties back on the market. Doting parents and friends will get as much joy in giving and sharing as youngsters and oldsters get in receiving scarce articles.

And there are several young businesses around Haskell which are getting their first allotments of hard-to-get merchandise that will take on new hope and confidence too. Veterans who came home to establish themselves in business have had rough sledding trying to get their customers things of a permanent nature. Other merchants have almost shame-facedly told their customers "we just can't get 'em' when asked about hundreds of articles.

The days of scarcities haven't passed, but buyers and sellers alike are beginning to see hope for better things to come. Store windows and shelves are a good indication.

#### Thanksgiving, 1946

". . And therefore I, William Bradford (by the grace week. He informed us that the of God today and the franchise of this good people), Gov- rails are laid on the Wichita Valernor of Plymouth, say-through virtue of vested power ley to within three miles of An--ye shall gather with one accord and hold in the month of November, Thanksgiving unto the Lord.'

America, the land of plenty, looks ahead gratefully to another Thanksgiving, regardless of shortages, substi-three more 4-room cottages in the tutes and other difficult situations. The observance of west part of town on Ballew this holiday cannot be dampened by these material prob- Street. He says he had the houses lems when we compare them with the high spiritual values rented before the foundations had that mean so much to all of us today.

William Bradford and his small band of colonists pecters here from Williamson suffered untold hardships at Plymouth in the 1620's, but County this week, and we underwith the aid of the Indians and faith in God, they survived made and soon began to prosper. So, in commemoration of the Lord's bounty, they chose a day in late November as their their day for thanksgiving, and, in accordance with Governor Bradford's proclamation, each succeeding year the Pilgrims gathered together to publicly express their thanks. Their children continued the custom, and thus it has been throughout the years until now Thanksgiving Day is as much a part of the American way of life as turkey is a part of our Thanksgiving dinner.

Today we are grateful for our right of free worship, no matter our race or creed, and we pray that this heritage, fought for so courageously ever since the Pilgrims landed on the bleak Atlantic shore, will be ours till the end of time. War and privation may bring physical suffering, but we are confident and secure in the knowledge that the spiritual ideals of the American people will always be the same. Therefore, on this Thanksgiving Day, let us thank God for the right to continue to express and acidulous liquid mixed with pieces protect these ideals.

The reason we constantly discover new truth in Shakespeare is that his complete understanding of the stant irregular bowel action. Toparticular includes the universal.-Austin O'Malley.

Let us learn of the real and eternal, and prepare for the reign of Spirit, the kingdom of heaven, the reign and rule of universal harmony, which cannot be lost or remain eating. She is also free of headforever unseen .- Mary Baker Eddy.

# hy Ask for a Referendum the Proposed Gas Franchise?

October 8th, the attorney for Mr. M. E. presented the Haskell City Council with a a gas franchise with a very urgent request ediate approval. The Council had no ge of the gas distribution system, and, at ment, did not have in mind the volume of gas in Haskell.

attorney had evidently given it some and he estimated that the gas users of would have a saving of possibly \$15,000.00 under the terms of the franchise, which continue for a period of twenty-nine years

r Council was immediately and immensely d. We asked for two weeks time to make lions and study the proposal. The attorney saying that the proposal was presented as gency and must be approved or withdrawn nment of that session of the Council. We that he, being our attorney, could not with-He then advised us that he was Mr. Trapp's Trapp for the following reasons: and using the pressure for Mr. Trapp. was convinced that we would not approve thise without some study of it, he agreed to two weeks for this purpose.

Mayor appointed a committee. Some of points of our findings stated briefly, are

Onference with a Mr. Miller, who introducas a representative of Mr. Trapp, he told by held some mineral leases in Haskell which were producing gas. Mr. Miller admitted that they had had no experience stribution of gas, and that he did not know value of gas for fuel purposes was deterthe B.T.U. (British Thermal Unit) conefore, he did not know that (should the approve the requested franchise, and gas which he is now producing in Has-

cell County be delivered to the consumers of Hascell under the wording of his agreement for the period of twenty-nine years) the citizenship of Haskell would suffer a loss of more than \$100,000.00 instead of the saving suggested.

The gas now being distributed in Haskell has a B.T.U. content of 1040 per 1000 cubic feet. Gas being produced in Haskell County varies in B.T.U. but none of it has more than 770 B.T.U. per 1000 cubic

The present gas system of Haskell is a connection of main lines from East Texas to Southwest Texas to Northwest Texas, giving us the greatest assurance of a continuous and abundant supply of

The Railroad Commission of Texas told us that the wells of Haskell County vary greatly, both in B.T.U. content and pressure, and that this does not indicate a dependable supply of gas.

We have declined to grant the franchise to Mr. He does not have any gas competitive with that

which we are using. He does not have any experience in production and distribution of gas.

He has consistently, through his attorney, re-

fused to meet with the City Council. He has refused to submit a financial statement.

The very careful wording and phrasing of the proposed franchise does not incur any legal liability

We who have opposed the granting of the franchise believe that the housewives of Haskell had rather continue using a high quality gas at the price they are now paying, than to enter into an agreement with a man who has had no experience, in the hope of saving less than one penny per day

# he Haskell Natural Gas Situation

About six weeks ago, Mr. M. E. Trapp of Oklahoma City made a proposal to the people of Haskell and Haskell County that if he could procure permits to distribute and sell natural gas in the town of Haskell, he would undertake an investigation of the quantity and quality of the Haskell County gas. (Mr. Trapp is a former Governor of the State of Oklahoma.)

On October 14th the Commissioners' Court of Haskell County adopted the resolution reproduced below as follows:

THE STATE OF TEXAS COUNTY OF HASKELL.

WHEREAS. a considerable amount of natural gas has recently been discovered in Haskell County and may be of commercial quantity and quality; and

WHEREAS, it is desirable and to the best interest of Haskell County and to the citizens and inhabitants of the County that a test be made of the quantity and quality of such natural gas abounding in Haskell County; and

WHEREAS, M. E. Trapp is willing to undertake the commercial development of such gas if found in commercial quantity and quality and to make tests of the quantity and quality of the same which may be available in Haskell County, provided he may secure the commercial distribution and disposition thereof

NOW THEREFORE, BE IT RE-SOLVED by the Commissioners' Court of Haskell County, Texas, duly assembled in regular session on this the 14th day of October, 1946, with a quorum of all members of said court being present, that M. E. Trapp, his heirs, suc-

cessors and assigns, is hereby given the right, privilege and permission to lay gas mains along the public roads and highways of Haskell County insofar as said Commissioners' Court may legally grant such permission and privilege, for the purpose of supplying and distributing natural gas for light, fuel, power and heat for and to the residents or inhabitants of said County and to other persens and firms outside Haskell County, as speedily as the said M. E. Trapp shall find it practical

The main pipes of grantee shall be laid along any such road or highway in accordance with the lines or grades now or as may hereafter be established by said County and shall be placed outside the grade or bar ditches of any such road or highway and laid at a minimum depth of twelve inches below surface.

to do so.

Grantee shall cause no unneccessary injury to any such road or highway and shall repair and replace any disturbance of any road or highway in such good condition as the same was prior to any such disturbance and for the purpose of determining any such repair or replacement the Commissioners' Court of Haskel County reserves the right to require the same to be done under the supervision of a competent engineer of its own choosing.

Should Haskell County at any future time deem it necessary to widen any road or highway along which the grantee may at such time have any such pipe line, if necessary for such widening of such road or highway grantee will at his own expense move such pipe line so as not to interfere with the grading or widening of such road or highway.

Adopted on motion of Commissioner Bill Fouts and seconded by Commissioner Turnbow, by a vote of 4 Ayes and 0 Nays, this the 14th day of October, A. D.

John F. Ivy, County Judge, Haskell

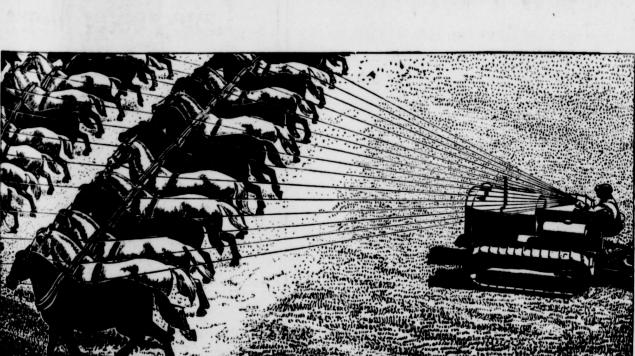

County, Texas

Attest: Hettie Williams,

County Clerk, Haskell County, Texas

Elsewhere in this issue of The Free Press is printed a copy of the proposed franchise giving Mr. Trapp a right and privilege of piping natural gas to the residents of Haskell and the price for which the same will be distributed to citizens of Haskell. On Dec. 6th, 1946, the voters of the town of Haskell will have the say with a vote "FOR" or "AGAINST" the issuance of such franchise by the City of Haskell.

> CALVIN HENSON, Attorney for Governor Trapp.

# Tilling with a Hundred Teams of Steel

More power on the farm means more food ... more jobs.

If a farmer had three teams of horses twenty-five years ago he was well equipped. Now, with over two million tractors and thousands of other power producers, most farmers command the equivalent of . . . a HUNDRED TEAMS.

Wise use of their power, which can be packed into a few tons of steel, is enabling U.S. farmers to keep abreast of unprecedented food requirements. It is one of the secrets of national progress.

Steel horsepower does more than produce higger crops with less labor. It has released, for production of human food, millions of acres once needed to feed horses and mules,

and has created thousands of new jobs for town and city people who process and sell the increased harvests.

The benefits of farming with steel are the result of teamwork between farmers and industry. The farmer knows what he needs; industry knows how to supply it at a price he can afford. This teamwork must continue if America is to remain a land of abundance.

Farmers need still more power. The country needs still more food. Uninterrupted industrial production will permit industry to catch up with the pent-up need for more farm

#### 'Site Sale' of Surplus Property at Fort Worth Nov. 25

Veterans of World War II are be given a double-barreled buying opportunity starting Mon-day Nov. 25 when \$2,500,000 worth of surplus property will be offered at the Fort Worth Q. M. Depot. It has been originally planned that War Assets Adminstration would hold two separate 'site sales" but in order to give veterans a better buying opportunity, samples of all surplus goods at Camp Bowie, which were to have been offered a week later will be on display at the Fort Worth Q. M. sale and veterans may buy from two "site sale" sam-

ple rooms at the one location. Certified veterans will be waited on in order of oldest dated certificates for the many items of textiles, hardware, housewares and other surplus to be offered.
