REV. H. R. WHATLEY

Death Comes Monday Night To Rev. H. R. Whatley, Retired Baptist Minister of Haskell

Rev. H. R. Whatley, retired Baptist minister and widely-known evangelist, died Sunday at 9:50 p. m. in the Hendrick Memorial Hospital, Abilene, following a critical illness of six weeks. The Haskell minister, who gave almost three decades of the most fruitful years of his life to the ministry and Bible teaching, observed his 60th birthday last May 21. During his long ministry in Haskell, the First Baptist Church experienced a continued growth in membership, and was materially expanded with several building additions and improvements. Outside his church, Rev. Whatley's influence was felt in many worthwhile civic endeavors and community affairs. The Haskell minister became ill July 12 while conducting an evangelistic meeting in Holliday, Texas. Rev. Whatley, a graduate of Howard Payne College, came to Haskell March 1, 1927, from that school where he was serving on the faculty in the Bible department. Prior to that he had served the First Baptist Church in Pampa, Texas, as pastor for almost five years. Following his graduation from Howard Payne he attended Southwestern Theological Seminary of Fort Worth. During his college years he served as part time pastor for numerous churches. Deceased was born May 21, 1888 at Blevins, Falls County, Texas, the son of Mr. and Mrs. Calvin L. Whatley. He grew to manhood at Lometa, Texas, where he married Miss Elizabeth Rumba December 30, 1906. He had been a member of the Baptist Church since boyhood, and was a member of the Masonic Lodge. Immediate survivors are his widow and a daughter, Mrs. Wilma Adkins, of Haskell; three sons, Herman and Calvin of Pampa; Howard Whatley of Houston; two sisters, Mrs. Bertie White of Brownwood; Mrs. Lois Richardson of Lometa, Texas; and a brother, Arthur Whatley of Goldwaite, Texas. Eight grandchildren also survive. Funeral service for Rev. Whatley was held at the First Baptist Church Tuesday at 3 p. m., with Rev. C. E. Lancaster of San Saba officiating, assisted by Rev. Sam Taylor of San Saba, Rev. W. H. Albertson of Brownwood, and Rev. Allen O. Webb, pastor of the local church. As a tribute of respect to the beloved minister, all Haskell business houses were closed during the funeral service. Interment was in Willow Cemetery, under direction of Holden's Funeral Home. Active pallbearers were Ed F. Fouts, A. C. Pierson, John E. Fouts, Olen Dotson, R. L. Burton, J. W. Gholson and C. G. Burson.

Work Progressing On Project To Widen Highway

Continued progress was reported this week in readying Avenue E for extending paving from curb to curb on Highway 277 which traverses the street north and south through the city. The project is to be done jointly by the city and the Highway Department, city and property owners bearing the cost of curb and gutters on each side of the street. Some delay on the project is expected due to inability to secure cement and other materials, but present outlook is for work on the project to be started within a matter of weeks. Poles carrying telephone and electric transmission lines are being set back to the property line in preparation for the paving, and a West Texas Utilities Company crew expects to complete this operation from the square to the north city limits within the next few days. Street signs and fire hydrants have already been set back on this stretch of the project, City Water Superintendent Rogers Gilstrap reported.

HOW YOU CAN HELP

There are any number of formulae being propounded which would tell the rest of us how to make the better.

You really have a yen to make a permanent contribution to the human race, you can forget all the being propounded and apply yourself to the job of living yourself. The progress of race, and human life, is to be measured by the average individual. Any contribution that you make, in the way of improvement, increases the average. This is a definite contribution.

Advice given above may be considered somewhat generalized in that there are many varying opinions as to what an individual should attempt in order to improve himself, or herself. This is perfectly true because the opinion on the subject varies with individuals and each individual must make his, or her, own line in conformity to self-developed

Public Asked To Check Sanitation Of Eating Places

AUSTIN. — The Texas State Department of Health cannot maintain daily inspection of all eating places and the public is urged by Dr. Geo. W. Cox, State Health Officer to insist on the proper sanitation of the establishment where they eat. If the public is careless in this respect the incentive to maintain clean food service will be lessened and operators will only maintain the level the public is willing to accept. He urged that the public patronize "eating establishments which measure up to a high standard of cleanliness."

The State Health Department is making every effort to improve sanitation of eating places, Dr. Cox said, and there is "no excuse for cafe owners not taking advantage of the food handlers schools which are being offered all over the state." He added that there are laws, rules and regulations which require the use of approved equipment and methods in such establishments.

"The public should be aware of these sanitary rules and regulations and insist that restaurants observe them. Patrons should realize that tables and counters will be many times cleaner than the kitchen and other places out of sight," he warned.

He urged milk appraisal by the patrons also. Texas law requires that a milk bottle cap state the grade of milk, and whether it is raw or pasteurized. "Insist on having the milk served in its original container, with a covered cap and a legal label," Dr. Cox advised.

"Obviously," he said, "the best in sanitation can be had only by close co-operation between the public and the investigators of the State Health Department."

Teacher Shortage Is Grave Threat Facing Schools

Texas must adequately prepare for 150,000 more children in its schools in the next decade or lower its educational standards, Charles H. Tennyson, director of public relations for the Texas State Teachers Association, sounded that warning this week. The huge increase in the birth rate during the last few years will add to the enrollment in Texas schools by nearly 82,000 pupils four years from now and by 152,000 in 1957, Tennyson said.

The vastly accelerated birth rate throughout the United States since 1941 has cheered business men, but is causing great concern among educators, the TSTA official declared.

Texas is no exception. From figures on the annual birth rate provided by the U. S. Bureau of Vital Statistics, we know that birth increased 1,549,601 throughout the U. S. from 2,360,399 in 1940 to 3,910,000 in 1947.

Enrollment started increasing throughout the country last year. In Texas it was up more than 7,000 pupils. The State Department of Education this week estimated an additional 8,000 students would enroll this fall.

That is just the beginning. Enrollment will snowball from then on. The situation will become acute in 1953. An accurate estimate places the hike in enrollment in Texas that year at \$1,568 pupils. Nine years from now we will have 152,004 additional students in our schools, or a total of 1,660,004.

Federal and state bureau and insurance company statistics show that nearly 80 per cent of the children born each year reach school age. Those experience figures make accurate estimates of future enrollment possible, Tennyson explained.

An increase of 80,000 pupils in the short time of four years and 150,000 in nine years does not seem so tremendous until it is realized that we will need 2,719 more teachers by '52 and 5,066 more classroom instructors by 1957, Tennyson declared.

It stands to reason we will have to have that many more classrooms.

Leaders in school districts and state government should take careful note. The situation calls for planning along practical lines in order that adequate provisions be made for education of these children.

That is particularly necessary in more than half of the Texas schools in which children are already over-crowded.

It will call for expenditures of large sums of money. If each of the 5,066 additional teachers was paid only the present minimum salary of \$2,000 annually, that would increase expenditures by \$10,132,000.

No one can hazard a guess as to how much additional money must be spent on classrooms and equipment.

A recent survey disclosed that about 50 percent of students in Texas schools are in over-crowded classes. Educators agree that pupils cannot be given adequate instruction when there are more than 30 or 32 pupils in a class.

Some Texas cities have already recognized the impending situation. A recent survey made by Fort Worth school officials disclosed that by 1953 the district will need 367 more teachers and additional classrooms, according to B. C. Shulkey, assistant superintendent.

Austin this fall is adding 15 teachers to ease the over-crowded classroom situation in the capital city.

County Home Demonstration Agent Texas A. & M. College Extension Service

Chlordane, the new killer for ants and roaches, is proving effective in this area. It is more effective than DDT for these pests.

A small amount of a two or three percent oil solution of the chlordane in the entrance to the ant colony will usually destroy the small household ants. For ants in the lawn a dust of five percent chlordane is good. Red ants can be killed out with a teaspoonful of the two or three percent solution.

In spraying in the home, an ordinary house spray gun may be used. Sprayer attachments on electric sweepers work fine, too. The baseboards, door and window cases, around built-in features and the drainboards should be wet almost to the running point with the spray. Give the cracks an extra dose. An oil solution of the same strength as that used for killing out ant colonies is recommended.

Chlordane is poisonous. Food, dishes and cooking utensils should be taken out of the kitchen—or put where the spray won't reach them—until after the spray has settled. Follow the manufacturer's directions for its use, and it will be safe.

A commercial preparation containing chlordane is being sold as an insecticide for several kinds of garden and orchard insects.

The following home demonstration clubs will meet during the first week of September: Lucky Club on Sept. 1; Center Point Club on the second; Dennis Chapel on the third.

The county home demonstration council will meet Sept. 4th at 2:30 in the district court room for a business meeting and the election of officers for 1949.

At the August meeting of the council, plans for the 1949 year book were presented by the chairman of the committee, Mrs. E. B. Calloway. Phases of work to be carried next year are the second year of the cereal demonstration with the demonstrations to be on cakes and pastries and the first year study of outdoor home improvement with emphasis on landscaping and outdoor furniture.

Exemptions Under Peace-time Draft Law Are Announced

These are the men who are exempt from the draft:

The law passed by Congress automatically exempts war veterans with at least 90 days service between Pearl Harbor (Dec. 7, 1941) and V-J Day (Sept. 2, 1945), or with 12 months service between Sept. 16, 1940 and June 24, 1948 (the date the draft law went into effect.)

Also exempt by law are ordained ministers, students studying for the ministry, and conscientious objectors (from combat service; they may be used in military services in non-combatant activities if they do not protest).

Automatically deferred by the draft law are high school students up to graduation or the age of 20 (whichever comes first) and college students for the rest of the academic year. However, students must be doing all right in their studies.

The law says the President has the right to defer certain others, and he listed them as follows:

I-A—Men involved in study, research or medical, scientific or other endeavors considered necessary to the national health, safety or interest. The deferments will be for one year or less, and may be changed by the President, or by local boards (if the men change jobs).

II-C—Farm workers or men engaged in agricultural occupation. The same deferment period and qualifications govern this group the same as I-A.

III-A—Anyone with dependents. This can mean a married man who maintains a bonafide family relationship, or a man whose induction could mean hardship to a dependent. Dependents are defined as a wife, a divorced wife, a child, parent, grandparent, brother or sister, a person 18 years of age (or older if the person is physically or mentally handicapped) or, in short, anyone who depends on the draft-age man for a living or financial help. Some points probably will be cleared up later, selective service headquarters said. As the ruling stands now, it merely says a married man is deferred, and does not set any specific dates for his marriage. Consequently, men married between now and registration periods would be exempt, draft officials said.

IV-A—A Registrant who has completed service, and sole surviving sons. (A sole surviving son is one of a family of which one or more sons or daughters were killed during the last war.)

IV-B—Almost all public officials elected to office, including the vice president, state governors, any official chosen by the voters of the entire state (congressman, for example), a judge of a court of record, a member of the legislative body of any state or territory or possession.

IV-C—Aliens.

IV-D—Ministers of religion or divinity students. This means any duly ordained minister, or students preparing for the ministry under the direction of a recognized church or religious organization.

IV-E—Conscientious objectors opposed to both combatant and non-combatant service and training. The law says an objector need not serve as a combatant in the armed services, but could as a non-combatant. Today's ruling frees him from either service if he requests.

IV-F—Physically, mentally, or morally unfit.

V-A—A registrant over the age of liability for military service. One clause says that the draft director (Maj. Gen. Lewis B. Hershey) may "direct that eligibility for particular service be disregarded." He may ignore any other provisions of the regulations, if he deems it necessary, and draft or defer men regardless of classification. Just what this means was not explained.

Registration will begin in ten days, and will follow age groups: Men born in 1922 after Aug. 30 will register at local draft boards first of all on Aug. 30. These are men of 25, and it is predicted that few of them will be called into uniform. Next to register will be all born in 1923. Some will be 24, some 25, but all born in 1923 will register Aug. 31-Sept. 1. Persons born in 1924 will register Sept. 2-3; 1925, Sept. 4 or Sept. 7; 1926, Sept. 8-9; Sept. 10-11, 1928, Sept. 13-14; 1929, Sept. 15-16; and persons born in 1930 before Sept. 19 register Sept. 17-18.

W. H. Harrell, farmer in the Foster community who brought in the first bale of 1948 cotton ginned in Haskell, received a premium of \$183.50 from Haskell merchants. The bale was ginned at Haskell Co-Op Gin last Thursday, and was classed 7-8 middling. The gin, of which W. H. Turnbow is manager, made no charge for processing the season's first bale.

The premium was raised by the Agriculture Committee of the Chamber of Commerce, with B. B. Gilmore chairman, and John A. Couch making the canvas.

Miss Jane Richey, Alfred W. Walker Wed Sunday Evening In Baptist Church

Sunday evening at six o'clock, Miss Jane Richey became the bride of Alfred W. Walker. Directing the wedding service in the First Baptist Church of the only daughter of Mr. and Mrs. W. L. Richey and the son of Mr. and Mrs. A. M. Walker of Spur, was the Rev. Allen O. Webb, pastor.

The altar covered in white had a lattice covered in Salal and palms for the background. Tall baskets of white gladioluses outlined the altar that was lighted by white tapers in floor candelabra.

Miss Mary Beth Payne and Allen Harrison of Greenville lighted the candles. Miss Colleen Ward of Tulsa gave the organ music playing "Ave Maria" and "Through The Years," during the reading of the double ring ceremony. Gerry Lemmon of Sulphur Springs sang "Because" and "I Love Thee" preceding the ceremony and "The Lord's Prayer"

as the couple knelt at the altar. The bride, given in marriage by her father wore a bewitching gown of antique ivory moire taffeta. The dress was designed with a tiny pointed collar and a snug fitting bodice buttoned down the front with matching taffeta buttons. The long sleeves were fitted and terminated in deep petal points over her hands. The elongated bodice had a dramatic draped peplum caught up in the back with an enormous double bustle. Worn over an old fashioned hoop, the voluminous skirt billowed into a cathedral length train. A gold brooch over one hundred years old was the traditional something old worn by the bride.

The bridal veil of imported illusion was caught to a demure eolot of petalled illusion centered with pearls, and fell in misty tiers to her fingertips. The bride's bouquet was a white or-

child surrounded by white carnations showered with white satin and maline streamers.

Cousins of the bride were her honor attendants. They were Miss Grace Ann Martin of Houston and Mrs. Don Henley of Waco. Other bridesmaids were Miss Mildred Chapman, Miss Catherine Davis, Miss Pat McCall of Haskell and Miss Ellen Ferguson of Brenham. The feminine members of the wedding party wore identical dresses of Nile green marquisette. These costumes were fashioned with a fitted bodice and full skirt finished with a deep ruffle that was caught up in the back in a bustle. Their picture hats were made of horse hair braid in antique ivory and had green satin streamers. Each girl carried a nosegay of deep purple gladioluses with flowing purple streamers.

The groom's only brother, George Walker, served as best man. Ushers were Mac McCall of Ennis, Billy Ray Burkett, Pete and Mike Dobins of Spur. The bride's mother wore a dress of brown crepe. Her brown accessories included a close fitting hat of maline. The groom's mother wore a similar dress of beige crepe and gloves of identical color. Her other accessories in black included a hat of satin. Talisman roses were worn by the two in shoulder corsages.

Following the wedding there was a reception on the lawn of the Richey home. Three tables covered in chintz clothes were used for serving. The center table was in white and held the wedding cake on a mirror reflector. The all-white cake had roses for decorations and was built around mirrored pillars. A miniature bride and groom and wedding bells topped the cake. Circular tables used on either side were covered with forest green chintz and had bows of purple satin ribbons and asters pinned on them.

Mr. and Mrs. Walker left after the reception on a trip to New Mexico. Mrs. Walker wore a new brown gabardine suit with darker brown accessories. Her small feather trimmed hat was held in place with a veil tied under her chin. On their return they will go to Waco where both will be students in Baylor University.

Prized Keepsake of Rochester Man Is Document Given His Father on Release From Yankee Prison Camp In 1865

A yellowed, 83-year-old document, mute reminder of the bitter struggle between the North and South which was to have as its final outgrowth the stronger linking together of the States into the world's strongest and most enlightened nation, is a prized possession of J. W. Barbee, farmer living on Route 1, Rochester.

The document is a certificate of release of prisoner of war and was issued to his father, the late Clem S. Barbee, a Confederate soldier who was taken prisoner by Union soldiers a short time before the surrender of Gen. Robert E. Lee.

The Rochester farmer, now 79 years old, recalls hearing his father recount the circumstances under which he fell into the hands of Federal soldiers about ten days or two weeks before the end of hostilities. His father, a 22-year-old North Carolinian, was serving with General Lee's Army, and they were near Richmond, Va.

Barbee and five or six other Southern soldiers were foraging for food when they were surrounded by Yankee soldiers and compelled to surrender. They were taken behind the Federal lines and later were included in a group of about 1800 other Confederate soldiers from North and South Carolina who had been taken prisoner, and transported to Maryland where

they were held, along with several thousand other Southern warriors until the conflict ended. Document treasured by the Rochester farmer, and given him by his father, is clearly legible, and reads as follows:

"Certificate of Release of Prisoner of War, Headquarters, Point Lookout, Md. Provost Marshal's Office, June 23, 1865.

"I hereby certify, that Clem S. Barbee, Prisoner of War, having this day taken the Oath of Allegiance to the United States, is in conformity with instructions from the War Department, hereby released and discharged.

"In witness whereof, I hereunto affix my official signature and stamp. A. G. Brady, Major and Provost Marshal."

The oath of allegiance on the reverse side reads:

"United States of America. I, Clem S. Barbee of the County of Nash, State of North Carolina, do solemnly swear that I will support, protect and defend the Constitution and Government of the United States against all enemies, whether domestic or foreign; that I will bear true faith, allegiance, and loyalty to the same, any ordinance, resolution or laws of any State, Convention or Legislature; to the contrary notwithstanding; and further, that I will faithfully perform all the duties which may be requir-

ed of me by the laws of the United States; and I take this oath freely and voluntarily, without any mental reservation or evasion whatever. (Signed) Clem S. Barbee. Subscribed and sworn to before me, this twenty-third day of June, A. D. 1865. A. G. Brady, Major and Provost Marshal." A description of the soldier read:

"The above-named has fair complexion, brown hair and blue eyes and is 5 feet, 10 1/2 inches high."

After his release at Point Lookout, the young North Carolina soldier was provided transportation a part of the way to his home, but often related to his children that he and a companion, a former sailor, walked about 160 miles of the distance in reaching their home state. In after years, the elder Barbee recalled with amusement that his seafaring companion had no sense of direction on land, and oftentimes after making camp at night his sailor friend more than likely the next morning would start in the opposite direction they were to travel in reaching Barbee's home.

Following his return to North Carolina, Mr. Barbee later married, and after living there during the post-war years, moved his family to Texas in 1879, stopping at Waco. The Barbee family and a Dr. Quinn and family came to Texas together, the Quinn's later moving to Ellis County and then to the new territory of Oklahoma.

Deciding to move further West, Mr. Barbee brought his family to Jones County in 1898. The Rochester man recalls that the trip was made in wagons. They left McLennan County Dec. 28 of that year and reached their destination in Jones County in January, 1899, making the trip during one of the coldest winter spells ever experienced in this section, the Rochester man remembered.

In 1903 the Barbee family moved to the section west of the present town of Rochester, where they have lived since. The former Confederate soldier died in 1927 at the age of 84 years, his wife having preceded him in death in 1920.

In the later years of his life, the former soldier of the South attended several Confederate reunions, going to his last one at Memphis, Tenn., in 1922 when he was accompanied by his son J. W. At one of these gatherings, the North Carolina man learned for the first time that two of his brothers, from whom he had never heard since beginning of the War between the States, had been killed while serving in the Southern Army.

In addition to J. W. Barbee of Rochester, the late Confederate soldier has six other children living. They are: Mrs. Maggie Martin of Rule, A. J. Barbee of Odessa, C. S. Barbee, Jr., of Rochester, Mrs. Sue Clute of Rochester, J. R. Barbee of Rule, and a daughter who lives in California.

About Your Civil Appeals Court

- Appeals have been made for the "Eastern" end of the District to have representation on the 11th Court of Civil Appeals.
- A misleading question has been put to you: "Why have all the Judges from the West?"

JUDGE CECIL COLLINGS IS FROM HOWARD COUNTY. HE WAS BORN IN ERATH COUNTY. HE PLEDGES TO SERVE ALL THE 11TH JUDICIAL DISTRICT. HE MAKES NO APPEAL TO SECTIONALISM, BELIEVES IT HAS NO BEARING IN THE REAL TEST OF A JUDGE — THAT OF EXPERIENCE AND PROVEN ABILITY.

2. A misleading question has been put to you: "Why have all the Judges from the West?"

OF THREE JUSTICES ON THE COURT NOW, ONE IS FROM EASTLAND COUNTY, ONE FROM BROWN COUNTY, ONE FROM TAYLOR COUNTY. NONE OF THESE IS A "WESTERN" COUNTY. ELECTION OF JUDGE COLLINGS' OPPONENT WOULD MEAN TWO JUSTICES FROM EASTLAND COUNTY ALONE. LOOK AT THE FORMER JUSTICES: JUDGE PANNILL FROM STEPHENVILLE, JUDGE RIDGELL FROM BRECKENRIDGE, JUDGE HICKMAN FROM BRECKENRIDGE AND DUBLIN, JUDGE LITTLE FROM BIG SPRING, JUDGE LESLIE FROM COLORADO CITY, JUDGE FUNDERBURK FROM EASTLAND. OUT OF NINE PRESENT AND FORMER JUSTICES, ONLY TWO HAVE BEEN FROM A "WESTERN" COUNTY.

CECIL COLLINGS
Is the ONLY JUDGE in the 11th Civil Appeals Court race. He has served with distinction for 10 years as a District Judge. He asks your vote on August 28 on the basis of his ability to serve ALL the 11th Supreme Judicial District.

Uncle Sam Says

Seeding time on the farm calls for the use of strong, pure seed able to meet weather and pest attacks and still come through with a good harvest. United States Savings Bonds are like good reliable seed. They grow a crop which can be left to full, rich maturity in ten years at the rate of \$4 for every \$3 invested. Take a tip from the wise farmer who is storing up a crop of security by investing now in Savings Bonds. He is growing more money, security for himself and his family and security for his country. Your security is America's security.

Funeral Service for W. C. Dumas Held Here Saturday

Funeral service for William Clyde Dumas, 38, of Old Glory, Navy veteran of World War II and son of W. A. Dumas of Haskell, was held at the First Baptist Church Saturday afternoon at 3 o'clock with the Rev. S. D. Smith, Baptist minister of Aspermont, officiating.

under direction of Holden's Funeral Home. Military service was conducted by the Aspermont Harris Hertenberger Post of the American Legion. Active pallbearers were Clyde Grice, Herbert Finn, Hilton Hudspeth, Raymond Hinze, Aaron House, Woodrow Turnbow, Virgil Lewis and Weldon Turnbow.

Mr. Dumas died of a heart attack while swimming in the Llano River, near Junction, Texas, at 6 p. m., Thursday evening, August 19. Dumas, his father, and a brother, Robert Dumas of Haskell, had gone to that section on a fishing trip and outing and had been there only a short time when the tragedy occurred.

He was born Sept. 15, 1910, at Plainview, Texas, and moved to this section with his parents a number of years ago. He married Miss Lenore Flowers April 23, 1933, at Old Glory, Texas. Mr. Dumas enlisted in the Navy in 1927 and served until discharged in 1930. He re-entered the service in 1943 and served through World War II, being discharged in 1946. He saw combat service in the South Pacific, and was wounded at Iwo Jima. He received the Bronze Star, Purple Heart and Presidential Unit Citation.

Survivors are his widow, of Old Glory; his father, W. A. Dumas, and a brother, Robert Dumas, both of Haskell; his mother, Mrs. Ethel Neathery of Little Rock, Ark., and three sisters, Mrs. Dana Hatten, Los Angeles, Calif.; Mrs. Dorothy Colby, Grand Prairie, Texas; Mrs. Virginia Ellyeston, Little Rock, Ark.

Little Classic

Here is a little house with a classic, unhurried spirit — a house for those who mind their manners and sometimes like a touch of formality. The house, as featured in the September issue of Good Housekeeping magazine, is bright, original, and very elegant. It lends itself readily to additional rooms.

Additional Week In Prospect For HHS Indians Football Training Camp If Sufficient Funds Made Available

Additional public contributions have raised the total fund for the current football training program of the local high school to \$475.00. Original plans were to operate the camp for a two weeks period, but the program has been intensified and such satisfactory progress made that it is hoped an additional week can be added, which would carry the program through September 4.

In order to add this extra week \$125.00 above the amount raised to date will be necessary and anyone desiring a part can contact J. A. Byrd, John E. Robinson and Clay Smith, who have been added to the original committee of John F. Ivy, J. E. Walling, Jr., Frankie Tate, Carroll Bledsoe, Alton Middleton, Stanley Furrh, Ern Lowe and Scotch Coggins.

While no drive has been made for funds these committee workers are accepting contributions. The first game of the season for the locals is to be played September 10 on Indian field

against the strong Spur Bulldogs, and due to the training program through the past ten days the home team is expected to be up to full physical strength. This is the first year the local team has had the advantage of pre-school training on an organized basis.

School officials and team coaches have expressed their sincere appreciation for the part the sports-minded citizens of Haskell have responded to this program.

Electric 'Hired Hands' Increasing On Texas Farms

To farmers who make full use of electricity, every season is kilowatt season, say rural electrification specialists of the U.S. Department of Agriculture. The farmer who uses electricity has a full length start in the race with time and the elements in having, harvesting, threshing of small grains, cotton picking, and the storing of these crops.

W. S. Allen and W. L. Ulrich, extension agricultural engineers of Texas A&M College, point out ways in which electricity can be of help to Texas farmers. Take haying, for example. A farmer can equip his barn with a hay drier and snap his fingers at the weather. In parts of Texas, the specialists point out, hay is cured direct from the fields with little or no loss of the valuable leaves. Better feed is obtained!

With properly designed and operated drier units, and these same units can be used to dry grains, peanuts and other crops, usually resulting in higher prices and greater profits. The motor that runs the drier will hoist the hay.

First Baptist Has Record Attendance In Sunday School

A new attendance record was established in the First Baptist Church, when 525 people attended Sunday School last Sunday. The previous high attendance was 492, set several years ago. One hundred fifty-nine were in the Training Union services which was also a new attendance record as the previous high was 152.

High in class attendance was the Business Men's Bible Class with 70 members present. Hubert Sego is class teacher. Next in attendance was the Naomi Bible Class with 55. Mrs. H. R. Whately is teacher. All departments and classes showed increases.

With one Sunday remaining in the Sunday School emphasis month, a goal of 600 has been set for next Sunday and all officers and Sunday School teachers and their workers are urging all members and prospective members to attend. Slightly more than 600 are on the rolls.

The Rev. Allen O. Webb is pastor, and A. C. Pierson is General Superintendent of the Sunday School Department.

The annual Summer Revival of the church has entered its final week and all services in the morning and evenings are well attended. The Rev. Webb is doing the preaching and the music is under the direction of Wilton Davis, student and outstanding athlete of Hardin-Simmons University.

Special messages are to be delivered during the remainder of the revival and the public is cordially invited to attend.

Firemen Called As Grass Fire Threatens Small Structure

Firemen were called Tuesday afternoon to the home of Travis Hadaway, corner of N. 9th and Ave H, when burning grass threatened a small barn in which was stored several articles of furniture. The fire was extinguished with only small damage to the structure and fences along adjoining property.

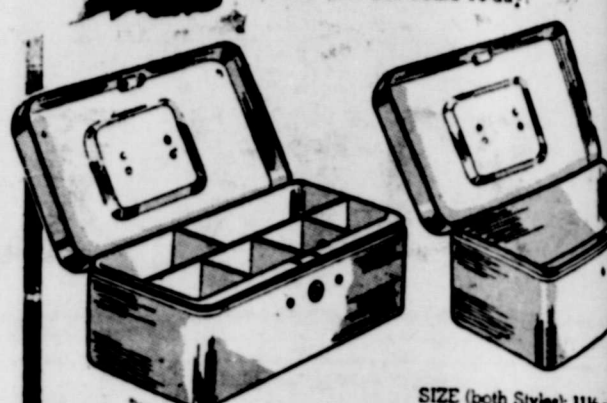

with properly designed and operated drier units, and these same units can be used to dry grains, peanuts and other crops, usually resulting in higher prices and greater profits. The motor that runs the drier will hoist the hay.

In small grains, an electrically operated elevator can save many man-hours where wheat, oats and barley are major crops. An elevator means no shoveling and little or no lifting. Electricity will move the grain after it is in the bin, too, leaving the farmer and his help free for other duties.

Thrifty-minded cooks are turning to poultry for main dishes instead of higher-priced meats and they are especially proud of Roast Duck stuffed with Orange Sweet Potato Stuffing. Combine 3 cups hot mashed sweet potatoes with 1 tsp. salt, 1 cup lightly packed bread crumbs (corn bread if possible), 1 cup peeled diced oranges, 1 tsp. grated orange rind, 3 tsp. melted fat. This is enough stuffing for a 4-5 lb. duck. Lightly stuff neck, fold skin over back, fasten with skewers. Body cavity should be lightly stuffed, closed with skewers, then laced with string or thread. Fold wing tips under and tie ends of legs together. After placing on back in shallow roasting pan, let excess fat escape by pricking skin across back, around legs, wings and tail. Roast uncovered in slow gas oven held at 325° for 2 hrs. Serves 4-6.

Housewives who want leisure, yet must serve tasty meals on time, have learned to plan entire oven meals cooked by clock control. All they do is set the clock which automatically lights the oven burner, then automatically turns off the gas when the meal is done. The clock can be set hours ahead of time so that the cook can walk out of the kitchen and let this mechanical servant do the cooking for her.

The removable drip trays underneath the top burners of your gas range are as easily cleaned as a dish. Just wipe with warm soapy water, dry thoroughly on bottom and top before replacing.

If two tsp. starch are added to the last rinse water for tea towels, there'll be no lint left on glassware or dishes to mar their gleam.
