SEC. 17. That the council shall have power to assess and collect, for the use of the city an annual licence tax upon all persons pursuing any trade, occupation or profession, upon which a license tax may be imposed by law, and shall have power to assess and collect a tax upon all public shows, circuses, or other exhibitions for money.

The corporation shall present a petition to the Chief Justice of the county in which such land or lands may be situated, describing what lands are required for the use of said road or roads, and stating as near as can be ascertained, who are the owners or claimants of said land. Whereupon the Chief Justice then appoints a day not less than twenty days nor more than forty days from the time of filing said application, for the parties interested to appear before him, to ascertain the value of such lands and the amount of damage to which the owner may be entitled. Such appraisement shall be returned to and recorded in the office of the county clerk of the county court, in which the land is situated. Upon payment of the amount of such appraisement to the owner of the land appraised, or to the county treasurer of the county, in which the land is situated, for the use of the owner or claimant, said land shall be considered as condemned and appropriated to the use and benefit of said corporation, for the purpose contemplated by this act. Should the majority of the jury not be able to agree on an appraisement, other jurors shall be drawn and subpœned, and proceed in like manner as the original jury, until an appraisement is made. ☞ We have had the pleasure of making the acquaintance of Lysle Smith, Esq., editor of the Chicago Sentinel, who is now on a visit to our city. His reputation as an advocate and prominent leader of the whig party, as well as editor, is too well known to the public to need any comment. We are glad to find that Mr. Smith is pleased with the appearance and prospects of Galveston, which, he says, so nearly resembles what Chicago was a few years ago, that the two places could scarcely be told apart, except that the one is on a fresh, and the other on a salt water bay. But Chicago, within the past ten or twelve years, has grown with a rapidity almost without a parallel, and is now one of the largest cities of the Union, enjoying a vast amount of trade, both inland and by Lake navigation. But the question presents itself: are the commercial advantages of Chicago superior to those of Galveston? And can we hope for a similar rapid growth for this city? We know that in attempting to look into the future, we are always prone to keep in view the bright side of the picture; but with all due allowances for any disadvantages we may labor under, we cannot see what is to prevent Galveston from rivaling Chicago in population and the extent of its commerce, *provided only its inhabitants exert the same degree of energy and enterprize.* Chicago is the best port in Illinois, and Galveston is the best in Texas. Chicago has a large and fertile back country; but Galveston has a back country still larger in extent, fully equal in fertility, and with a climate far more congenial and inviting. But Chicago has railroads of vast extent, and her roads are still being extended and multiplied with a degree of activity and public spirit almost unrivaled any where else. This makes the difference. The first railroad from Galveston will be the commencement of our commercial prosperity. Even a road connecting our city with the main land, and not costing over fifty thousand dollars, would surmount the only serious obstacle that has ever existed to the rapid advancement of this city. Can we do this much? No, the only question is: *Will* we do it?—*News.*

JUDGE DOUGLAS.—Judge Douglas on the 14 Feb., made a most able and statesman-like expose of the history of the Monroe doctrine, and the manner its application had been shirked, as often as it was brought practically in some tangible form before the Government. He alluded especially to the infraction of the doctrine, when forty-nine degrees were accepted by Mr. Buchanan, as the northern limit of Oregon, by which means a territory more than eight times as great as the territory of Pennsylvania, was, by treaty, opened to British colonization, and to the Clayton-Bulwer treaty, every clause of which, Mr. Douglas insisted, was a practical violation of the Monroe doctrine, and an invitation to European Governments to come and interfere in the affairs of this continent. He had been opposed to every clause in that treaty, and to the whole of it as well as the preamble; and time had only confirmed his judgment as to the object and consequences of that fatal document. Judge Douglas' speech was very able and argumentative, and entirely free from all claptrap or appeal to the passions. He spoke as a statesman, calm and with deliberation, and his words produced a visible effect on the Senate.—*Cor. N. O. Picayune.*

LITERARY WAR AMONGST THE WOMEN.—Mrs. Stowe's Uncle Tom's Cabin induced the re-publication of Mrs. Hale's Northwood, and sympathy for the imaginary Uncle Tom aroused the Duchess of Sutherland and a host of Mrs. Jellybys in England, to whose tender sensibilities Mrs Tyler, lady of ex-President Tyler, has applied some rough truths that have created considerable agony. Mrs. T. hits her English sisters very severely, and as a proof of her ability she has aroused the ire of Horace Greely. It is now suggested, that this controversy should be left to the women to settle.

BUSINESS AND RELIGION.—A layman in Providence who occasionally exhorted at evening meetings, thus explained his belief in the existence of a Deity: "Brethren, I am just as confident that there is a Supreme Being, as I am that there is flour in Alexandria; and that I know for certain, as I yesterday received from there a lot of three hundred barrels of fresh superfine, which I will sell as low as any other person in town."

TAX TITLES—DECISIONS OF THE UNITED STATES COURT.

At the present term of the United States District Court for Illinois, the following important decision was made in favor of *tax titles*:

THOMAS J. TURNER, vs. SARAH STARR } Ejectment.

The second section of the law of 1839 to quiet possessions and confirm titles to lands, (to be found in the revised statues of 1845, title, conveyances, section 9,) provides that whenever a person having color of title made in good faith to vacant and unoccupied land, shall pay all taxes for seven successive years, such person shall be adjudged to be the owner according to his title.

The plaintiff in this case deduced a regular title from the United States, and it was admitted that the defendant claimed title to the premises so as to authorize an action of ejectment to be brought under the statute. The land was timber land, lying in Adams county, and was vacant, unoccupied and unimproved. It appeared on the part of the defendant, that there had been some acts of ownership, by cutting timber and by looking after and taking care of the land. The title of the defendant was a tax title under the revenue laws of 1827 and 1829, being a deed from the Auditor of State, dated January 12th 1833, on a sale that took place on the 11th of January, 1830 for the taxes of 1829.

The deed through which the defendant claimed, was a title apparently good, and made *prima facie* evidence of title by the laws of 1829.—Nothing in the case indicated there was any want of good faith in acquiring it. The taxes had been regularly paid by the defendant, or those through whom she claimed, for seven successive years before the commencement of the suit.

Under this state of facts, the Court held that the plaintiff could not recover; deciding that the second section of the law of 1839 was constitutional; it being within the power of the Legislature to require the payment of the taxes regularly assessed; and in case of non-payment for a series of years, to create a divesture of the title to land, by causing a title which was imperfect in itself, to ripen into a full and perfect title. Therefore, although the plaintiff might show in this case that the defendant's title was originally invalid in consequence of some of the provisions of the law not having been complied with, still that would not change the rights of parties. If it had been a deed void on its face, or if being in proper form, when taken in connection with the law, it appeared without independent proof, to be void, the rule would be different; but in this case the defendant, and those through whom she claimed had paid the taxes, holding a title which was, under the law, apparently good—a "prima facie" title—and the court held that the defendant had the same protection, under the second section of the act of 1839, as the Court had previously held a party had, under the first section of the same law, which provides for the case of a person in the *actual possession* of the land and who has paid the taxes for seven years in succession.

A GALE.—On Tuesday morning, about 3 o'clock, A. M., quite a severe gale set in at this place from the N. W. It moderated through the day, but towards evening it sprung up with tremendous fury, when some slight damage was done to our city. The large new store of Messrs. St. Cyr & Co. had its metal roof partially blown off. The new wharf of Mr. Parsons, at which several vessels were lying, was carried away, and some two hundred tons of railroad iron, now belonging to the Harrisburg Company, and other merchandize lying on the wharf was precipitated into the water. Those interested have been actively employed in recovering the property, and it is presumed that none will be lost.

The steamer Farmer was blown sternwards on the flats, where she has since remained, as the low water consequent on the Norther, left her nearly high and dry.

We also learn that this violent gale extended to the head of the bay, the schooner Jenny Lind being compelled to throw some 17 bales of cotton overboard. We are anticipating to hear of losses on the Gulf.—*Galveston News.*

EDITORIAL LIFE.—Mr. Locke recently retired from the editorial department of the Savannah Republican, a paper which he had edited for thirteen years. He thus speaks of his daily duties: "The incessant mental and physical labor demanded to produce every morning a sheet that perishes ere night-fall, can never be appreciated by those who view the circle of varied operations. It is symbolised in classic story by the stone Sysiphus, and the wheel of Ixion, while I fear the fable of Tantalus might be superadded to illustrate the fortunes of many of my brethren of the quill in the United States, for too often the promised cup of enjoyment never comes near enough to be tasted. This picture has its reverse, however. With all its drawbacks, there is much that is cheering in an editor's life, and he is a poor philosopher, as well as editor, who cannot return every morning to his labors with renewed energy and determination.

OUR MOSES.—Our fashionable young men are no longer required to labor under the double duty of supporting a moustache and a long-tailed coat at an evening party or ball. Willis says that frock-coats have been legitimatized and taken into favor. Black neckerchiefs are also recognized as a moral necessity of our present fashionable epoch. We rejoice that the day of tapered-tails is at length at an end, and that our young birds are allowed to spread themselves in raiments becoming the dignity of their being. We have ever looked upon swallow points with fear and trembling, especially if the "unmentionables" happened to be made rather scant athwart midships. Morality and decency have triumphed over mantua making, and uncovered posteriors. The Lord be praised.—*Empire City.*

TELEGRAPH TO THE PACIFIC.—The proposition of Mr. Henry O'Reilly, for a line of telegraph from St. Louis to San Francisco, is before Congress, and, if be accepted, it will remedy, to a great extent, the inconveniences which will be suffered by the delay of the Pacific railroad. Mr. O'Reilly's plan is for the Government to establish a chain of stockade from St. Louis to the Pacific, twenty miles apart, and protected by U. S. dragoons. The soldiers will convey the U.S. mail and protect the emigrant trains. A line of telegraph is to be constructed on this route by Mr. O'Reilly, without any compensation from the Government, either in land or in money. This project can be completed in a twelvemonth.

RAILROAD MEETING.

At a public meeting of the citizens of Jackson county, held at the Court House, Texana, on the 1st of February, it was

Resolved, That the immense tide of emigration which is yearly pouring into our State—the great increase in our agricultural productions, and in the consumption and demand for merchandise brought from other States, are producing important changes throughout Texas, that must be apparent to all.

Resolved, That the rapidly increasing travel and trade carried on between the shipping points on the coast of Texas and the interior, and other portions of the State—the immense amount of merchandise and home products now dragged across the prairies and streams by sluggish ox-teams, and every year making a louder demand for cheaper, more expeditious and convinient arrangements for the general trade and travel of the country.

Resolved, That the general absence of navigable streams in the State, and the peculiar character of the country present to the people of Texas the necessity of adopting either the railroad or ox-team system of communication, for the general trade and travel between all the important commercial points;

Resolved, That the ox-team system is expensive and inconvenient, and should only be regarded as a temporary arrangement, resorted to from necessity, to be abolished as soon as better plans can be carried into effect.

Resolved, That a railroad connecting Austin city and the town of Texana, is at the present time more necessary, and would be of more importance to Western Texas than the connection of any other two points, of the same distance, in the State.

Resolved, That on account of the favorable surface and soil over which the road would pass, the directness with which it would run without the impediment of a single stream larger than a mere rivulet, the abundance of live oak on its lower extremity, the choice harbor and landing at Texana, the fine navigable waters between Texana and Lavaca Bay, admitting at the present time steamers drawing three and four feet water, and susceptible by a few thousand dollars expense on the bar, of admitting steamers as large as can pass from the gulf to Port Lavaca, at low water; all go to prove that the proposed enterprise has fewer impediments in its way than that of any railroad movement yet started in Texas.

Resolved, That we respectfully invite the citizens of Austin city, and all other citizens of Travis county, and all others in that section of the State, and along the whole proposed line that have an interest in the construction of this road, to unite with the the citizens of Jackson county in this important enterprise.

Resolved, That a memorial be prepared, praying for the Legislature to grant a charter for a railroad from Texana to Austin, and the following gentelman are hereby nominated as Trustees for the memmorialists: A. L. Owen, G. Sutherland, D. Dennett, F. F. Wells, A. T. Gayle, and O. A. Isaacs.

Resolved, That a copy of these resolutions be sent to Austin, La Grange, and Indianola papers.

LOUIS NAPOLEON AND THE JEWS.—The circumstances accompanying the decoration of the Grand Rabbi Mons. Marx, of Bordeaux, with the legion of honor, makes that occurrence a matter of general importance. He had received an invitation to breakfast, and after breakfast the Prince President (now Emperor) handed the Grand Rabbi the Order of the Legion of Honor, in the presence of his cortege, the municipal officers, &c. In expressing his thanks for the distinction conferred upon him, the Grand Rabbi added, "It is again a confirmation of the principle of religious liberty, which your Highness has already promised us to maintain and defend." "You may rely on that," answered the Prince General d'Hautpoul, Grand Referendar of the Senate, who emphatically announced that the rights and the liberties of the Jews shall never be infringed. All the inhabitants of Bordeaux sympathized with the Grand Rabbi, and even the Cardinal Archbishop paid a congratulary visit to Mons. Marx.

From the Maysville Eagle.

HARD TO BEAT.—In 1812, after the declaration of war, the President of the United States called on the Governor of Kentucky for her quota of men. At that time, I belonged to a company of Light Infantry, commanded by John McKee. The whole Company volunteered, and we marched from Mayslick on the 27th day of August, to join Gen. Harrison in the North-western army. At that time, six of us made up a mess, to wit: John Morris, Abraham Johnson, John Vancamp, Pressley Day, Morgan Day, and the writer of this note; and strange to say, we are all still living.

Maysville, Feb. 4th, 1853.

"COL. DAVIS.—It is rumored here, on what purports to be reliable authority, that this distinguished gentleman has been tendered the post of Secretary of War by General Pierce, and that he has left home for Washington City.—*Natchez Free Trader, 16th.*"

We find the same report current in several of the Mississippi papers. Great reliance seems to be placed upon it. Col. Davis possesses the capacity and experience to make a most efficient head of the War Department."

There is no politician in the South who commands so much respect and confidence, on the score of qualifications, intellectual and moral character, as Jefferson Davis. Many honestly disagree with his political views; but, except the Washington correspondent of the Picayune,—and we rejoice to say he is no Southerner,—no one has yet been found to impugn his lofty character and eminent abilities.—*N. O. Delta.*

☞ The following amusing circumstance is stated to have occurred at a fancy ball given in Washington city, recently. It was understood that every person was to dress in character, and an usher was stationed ot the door of the saloon, to announce to the company within, the different characters as they entered. Two young ladies appeared at the entrance.

"Your characters?" asked the usher in a whisper.

"We do not appear in costume to-night," said the two young ladies.

"Two ladies *without any characters*," bawled out the usher in at the top of his voice.

☞ "Vat you make dere?" hastily inquired a Dutchman of his daughter, who was being kissed very amorously. "Oh, not much—just courting a little—dat's all." "Ohe, dat's all, in by tam, I tought you vash fighting."

INTERESTING REMINISCENCES.

The narrative, and other papers, of the late Col. Peter E. Bee, have been placed in our possession, from which we ext act the following account of the Battle of Nacogdoches, fought on the 2d of August, 1832.

'Arrived at Nacogdoches on the 2d of August, in time to join the Americans in subduing the Spaniards. The fight commenced at 11 A. M. and continued without ceasing until dark. The Americans having got possession of the store house, where they fortified themselves; the Spaniards having got possession of their ordinary quarters, which they evacuated in the night, and were pursued next morning by about sixty Americans, a part of which attacked their vanguard, about 14 without doing any injury. They still continued on a circuitous route, and a part having returned, what few remained, continued on and got ahead of the enemy, and fired on them as they were crossing the Angelina River, 20 miles from Nacogdoches, when they killed about six, and wounded as many more. The next day we had a flag of truce sent us, and on the following day settled all affairs, and took the Col. prisoner to town.—Delivered the Spanish soldiers in possession of Col. J. Bowie, who proceeded to the Brazos with three hundred and ten ax prisoners of war.

August 12th 1832.

Left Nacogdoches, in possession of Col. Piedras, for Anahuac, for the purpose of delivering him up to Col. Mexia, a Spanish officer, belonging to the Santa Anna party. Got information on the way, that he had left that post, for Matamoros, having left orders for Col. Piedras to be conducted to San Felipe, on the Brazos, thence to be delivered to Col. Austin, and sent from thence to Tampico; which was all effected.—*Nacogdoches Chronicle.*

CHANGES IN THE BEDS OF THE RIVERS OF TEXAS.—The Mexicans and Indians have a tradition that the Brazos, Trinity, Colorado and other rivers of Texas were, about eighty or a hundred years ago, comparatively small streams, and in dry seasons their beds became almost dry, and the water stood in holes instead of flowing in their channels. They say that the beds of these streams have been wearing deeper and deeper, and that countless springs have been laid open, as the channels of the rivers are now more abundant than in former periods. In ancient times, when the beds of these rivers were more shallow than they are now, they were liable to overflow their banks much more often than now, and the freshets spread far out into the prairies. These are many circumstances that confirm these traditions. Some of the old settlers still living on the banks of these streams can point to many places where rocks were formerly in the bed of the rivers, are now raised several feet above low water mark. Col. Wallace, who resides at Columbus on the Colorado, shows near his plantation a rocky ledge that 20 years ago was over six feet below the surface at low water mark and it is now as many feet above low water mark: thus showing that the bed of the Colorado at that place is nearly twelve feet lower than it was twenty years ago. The various bordering Cummings creek and other tributaries of the Colorado, have worn deeper and wider, and the quantity of water flowing in these streams after heavy rains seems to be much greater than in former years. They have extended farther up in the country, and their banks now drain much more extensive tracts than they did twenty years ago. These streams which were formerly dry in dry seasons, are now perennial, and their channels have worn deeper, springs have been opened which now furnish a constant supply of water. Between San Antonio and the Nueces a new river has been formed within the last twelve years. Fifteen years ago only a small brook flowed where the Leon now pours down a large and unremitting current. This river has been formed within the recollection of the oldest Mexicans, and it promises to become, within the next half century, as large as the San Antonio itself. Most of the rivers of Texas, however, have not been formed thus suddenly. They have been gradually wearing deeper and extending further and further into the country, through successive centuries, and as they have worn deeper and deeper through successive strata of rocks, they have operated like Artesian wells, to bring to the surface subterrapean currents that had for ages been flowing far down in the caverns of the earth. If any accurate calculations could be made, respecting the number of feet in depth that the channels of the rivers wear each year, or the distance which the branches wear upwards, some approximate estimate might be made of the period of time that has elapsed since the level and undulating regions of Texas were uplifted from the bed of the sea.—*Telegraph.*

☞ The discovery of the precious metals in Australia has suddenly presented to a wondering world a spectacle it previously could never have dreamed of beholding, namely, an extensive emigration from the United States to the British possessions.—Ten or twelve first class vessels are up at N. York for the new country.

☞ Some editors say that the destiny of the world often hangs on a trifle. A little miff between Charles Bonaparte and his love, Letitia, might have broken off a marriage which gave birth to Napoleon and the battle of Waterloo. To which the Chicago Advertiser says: "Yes, that is a fact. Suppose a little miff had taken place between Adam and Eve! What then?"

KATE HAYES, the distinguished Irish Songstress, was not murdered in San Francisco as reported a few days since, but on the contrary was married to Col. Jack Hays—the celebrated Texan Ranger—quite a difference between getting married and being murdered.—*Ky. Paper.*

What a lie!—*Bulletin.*

☞ Said a preacher once, "Fellow sinners, if you were told that by going to the top of those stairs yonder, (pointing to a rickety pair at one end of the church) you might secure your eternal salvation, 'really believe hardly any of you would try it. But let any man proclaim that there was five hundred dollars up there for you, and I'll be bound there would be such a 'getting up stairs as you never did see.'"

COLORADO NAVIGATION COMPANY.—The meeting of the Commissioners and Directors of this company, which was called to take place at Columbus on the 16th ult., has in all probability been defeated by the unprecedented heavy rains and overflow, which is known to have occurred in the valley of the Colorado in the early part of the present month. John W. McCamly, Esq., and Capt. John Duncan, (Directors from this county,) left here some two weeks ago, for the purpose of attending the meeting, but were finally compelled to return home from the high stage of water. Mr. McCamly informs us that although they had, after strenuous efforts, reached a point within a short distance of Columbus, they found it impossible to cross the swollen streams, and were compelled to abandon the journey.—*Matagorda Tribune.*

Matagorda Sugar.—The sch't Magnolia, from Caney river, last week, brought down 25 hogsheads Matagorda Sugar, and 40 barrels molasses to Mr. Aug. Fromme, which we find to be a superior article. See advertisement.

☞ By an advertisement in to-day's paper, it will be seen that Mr. Thomas A. Campbell, as administrator, offers for sale some valuable real estate.

☞ We invite attention to the card of the Eutaw House, by Mrs. L. Jones.

School Books.—We are indebted to Mr. James Burke, of Houston, through Messrs. C. Etter & Co., of this place, for copies of various school books, embracing McGuffy's popular Eclectic Series. It is designed to make these works known and adopted in Texas, which has been done already to a great extent, in order to produce uniformity in our schools. We have heard McGuffy's series highly mentioned for several years. The advertisement will be found in the Bulletin.

The books are for sale by C. Etter & Co.

Thanks.—To Gen. Sam Houston for sundry public documents.

To Gen. Rusk for a copy of his Pacific Railroad bill.

To Mr. Alfred Da Costa, steamship Texas, for late papers.

Dinner to Capt. J. Smith.—A complimentary dinner was given on the 3rd inst. at the Alhambra Hotel, by the citizens of Indianola, to Capt. Jeremiah Smith, senior, of the Steamship Louisiana. William H. Woodward presided, assisted by Jno. Henry Brown as vice president. About forty gentlemen sat down to a sumptuous feast: sentiments and good feeling abounded and the best evidence given of the high esteem in which Capt. Smith and his officers are held in this community.

The Turnpike.—A meeting of the citizens of Indianola was held at the court house on Friday night, for the purpose of laying the Turnpike charter before them, and of opening the books for subscription, John Henry Brown presiding and Doctor Hughes acting as Secretary. Messrs. Peiser, Etter, Huck, Thielepape, Varnell and others of our citizens, and Mr. T. Storne of Victoria offered remarks. A second meeting was held Saturday night, Henry Runge in the chair, H. J. Huck Secretary. The result is, that the people have taken hold of the matter in good earnest; enough of the stock has been taken to insure the success of the work, which will be commenced as soon as the contracts can be let.

Grand Raffle.—Mr. L. H. Woods, Jeweller, Main street, Indianola, has gotten up a grand scheme for a raffle on the 4th of April. The scheme embraces—

One Chinese Clock, 1st prize,	$100 00
One double cased Hunting Watch,	80 00
One extra Music Box,	75 00

and divers smaller prizes to make a total of $1,000. There are 500 chances of $2 each. The scheme and prizes may be seen at Mr. Woods' establishment, and offers tempting inducements to those disposed to take an interest in such matters. The articles are guarantied to be of a superior order.

☞ We have received the proceedings of a meeting of what purports to be the "Hiterbeltexians," but the society will excuse us for declining their publication, as it would be in violation of the course we have and wish still to pursue towards the matters and things therein pitched into.

☞ Supreme Court will adjourn at Galveston on the 12th March.

☞ To be eligible as a Director in the Indianola and Victoria Turnpike Company, which election comes off to-morrow night, requires that the candidate shall have taken 5 shares or $250 of the capital stock.

☞ The District Court will commence its spring session in Indianola on Monday the 21st March, and hold for two weeks.

☞ The steamship James E. De , arrived at this place on yesterday morning. To Mr. Wakefield, her accommodating clerk, we are indebted for late N. Orleans papers.

☞ The steamship Texas, Capt. James Lawless, arrived at Indianola from New Orleans, on Tuesday, with dates to March 4th, from which we make extracts.

District Judge.—The impression generally prevails that the election for Judge of this the tenth district, will come off at the election next August. We learn that this is probably a mistake. The act creating this district was passed in the spring of 1848, to take effect on the first of August of that year. Judge Jones was commissioned for six years for the same district, which will run to August, 1854. Or should his time run from the date of the commission, (which could not be as the law creating the district did not take effect till August,) he would still get through the spring courts of 1854, and the August election following would occur before the fall term of the courts. This, we learn from a member of the bar, is the true state of the case, and if so there will be no election this year.—If there is to be an election, however, the people should know it at an early day.

Steamer Colorado Sunk.—We regret to learn by the LaGrange Monument and the Matagorda Tribune, that the steamboat Colorado run on to a snag a few miles below LaGrange, on the 28th Feb., and sunk in three feet water. The machinery and a part of her cargo will be saved. The loss is a great one to her owners, Messrs. Powell & Coon of Matagorda, and to the Colorado Valley generally, and we sincerely lament so sad an accident to men of great enterprize in a good work.

Texana.—On our first page we publish the proceedings of a railroad meeting in Texana, by which it will be seen the people of that place are endeavoring to attract enterprise and attention to the advantages of their town. That Texana has an advantageous position cannot be doubted, and it only requires enterprise to develope the fact. The appropriation to clear out the Lavaca will redound greatly to the advantage of Texana, if the law should be approved by the people, of which there is no doubt.

Matagorda.—The schooner Anthem, Capt. Burrows, cleared at Matagorda, March 7th for New York, with 352 bales cotton and 45 hogsheads of sugar. The Reindeer, Cathcart, was loading for the same destination.

Cuba—Vice President King.—Late arrivals from Havana announce the rapid convalescence of Mr. Wm. R. King. He was staying in a sugar house, near Havana, from which he experienced almost instantaneous relief. He is attended by two nephews and two nieces. The nation will rejoice to learn of his recovery.

The authorities of Havana forcibly broke open and searched the United States mail on the steamships Empire City and Crescent City, to detect if possible who were the patriots of Cuba. Consul Sharkey had sent a manly protest to the Captain General.—Those Cubanos are determined to heap one insult upon another, till brother Jonathan shall get angry and drive them where the Devil drove the hogs, and there will be an end of despotism on that fair Island.—"Whom the Gods will destroy, they first make mad."

Great loss by Fire.—On the night of March 2nd, the Alabama Cotton Press of New Orleans, with 20,000 bales of cotton, was consumed by fire. Loss said to be about $1,000,000. The True Delta says—

"At the lowest computation, 20,000 bales were burned, which, at $40 per bale, will amount to $800,000. A great portion of this cotton was held on foreign account, leaving the probability that the loss will be divided among a great number of Insurance Offices, domestic and foreign.—The loss on the offices in this city, will, from all we can learn, fall most heavily on the "Home Mutual," the "Crescent," and the "Sun Mutual."

The loss of our worthy fellow citizen, John M. Bell, the proprietor of the press, will be from 20,000 to $25,000, he being entirely uninsured. We could not learn whether the sheds and buildings were insured or not, and cannot therefore say on whom the loss will fall."

River Improvement.—The bill appropriating money to clear out our rivers, after many contradictory statements, did actually become a law; but has to be submitted to a vote of the people in August. It appropriates $21,000 to the Lavaca river, sufficient to make it the finest navigable stream in Texas, as high as Texana.

New York Vessels.—At N. York on the 23d February, the schooners Telegraph, Louisa and E. De Russy were advertised for Indianola and Matagorda bay.

Our Districts.—The new law makes a decided improvement in the arrangement of our Senatorial district, which is now composed of the counties of Calhoun, Jackson, Lavaca, DeWitt, Goliad and Victoria, all contiguous territory having a community of interest. Calhoun and Jackson constitute a representative district, which is also a good arrangement, as the two counties have an identity of interest and feeling.—Victoria and Goliad, also, elect one representative.

To get fees.—There is a certain magistrate within our acquaintance who has been often called upon to swear men to vouchers and divers other papers wanting that kind of authentication; but who found that men generally obtained his services and walked off without paying his legal fee. To prevent this, he has adopted the following form of oath: "You do solemnly swear that the matters and things set forth in this instrument are true *and that you will pay me four bits forthwith*—so help you *God*." He says this form of the oath yields him a nett revenue of $2 50 per day.

Texian Anniversaries.—During the past week, two of the great anniversaries in Texian history have past—the Declaration of Independence on the second, and the fall of the Alamo on the 6th of March. No true son of this proud young State can recur to those events without feelings of pride—an inward glow of manly gratulation that *he*, too, belongs to the State and people by whom and among whom those illustrious achievements were wrought. "*Remember the Alamo!*" was the war cry rung by our invincible van at the charge of San Jacinto. The foe were overcome by the one word "*Alamo*," and hundreds of them on the suppliant knee, exclaimed "*me no Alamo!*" The patriotic Poster had already prophetically said—

"And 'Alamo' shall hereafter be,
In bloodier fields, the battle cry."

The blood of the heroes of the Alamo, hallowed by a righteous cause, ascended to Heaven as holy incense, an offering from the martyrs for their bleeding country.—That holy sacrifice was answered on the field of San Jacinto, where the over-ruling power of God was displayed in the fall of the blood-stained, barbarian hosts before a handful of brave men, battling in defence of their homes and firesides.

Commodore Moore.—Through the kindness of a friend, we have been placed in possession of the report of the survey of Matagorda Bay, made in October, 1841, by Com. Moore, of the Texian Navy, to Dr. Branch T. Archer, Secretary of War. We shall publish the document in a week or two, as one possessing much interest, not only to Matagorda Bay, but to all of middle and western Texas. Com. Moore, both then and in 1848, declared in unequivocal terms the practicability of deepening Matagorda Bar to 20 feet, by which the largest class of ships could enter the Bay, and thus we should possess the best port south of Charleston, and, when taken in connection with our peculiar position with regard to the great empire west and north-west of us, and to the Pacific Railroad, we may claim in all sincerity, that our Bay, as the seat of a great commercial city, would be unrivalled south of Baltimore. This, to some, may doubtless seem visionary; but to those who have carefully investigated the subject, it will appear as the natural sequence to an improvement of the bar as above, and the developement of the vast region to which we have referred as tributary to this Bay. It is unnecessary to say that after crossing the bar, the water is 25 to 30 feet deep for several miles, and 12 to 13 feet deep up to the harbor of Indianola.

VERY LATEST NEWS.

By the Perseverance we have N. Orleans dates to the 5th. Gen. Pierce was inaugurated on 4th: he unofficially announced his cabinet thus—Marcy sec'y state, Guthrie of Ky. treasury, Cushing att'y general, Jeff. Davis war, McClelland of Mich., Dobbin N. C. and Campbell of Penn., to the other posts. Cotton dull in Europe. The insurrection in Milan suppressed and its leaders hung: martial law proclaimed in the city.

No Fair.—The Fair which was to come off at Corpus Christi next May, has been abandoned, in consequence of the formation of a State Agricultural Society at Austin this winter, which has taken charge of the subject of State fairs. They will at a proper time designate the time and place for such exhibition. We should suppose La Grange or Austin would be a desirable place on many accounts. We hope to see the thing encouraged, as well as every other measure calculated to encourage agriculture and stock raising, the foundation of our prosperity as a State.

The Steamship Perseverance, Capt. Thos. Forbes, arrived from New Orleans yesterday. Thus we have had three Steam-ships to arrive in two days—the Texas, Day and Perseverance. Our thanks are due each for late papers.

☞ In the new charter of the city of Brownsville, on the Rio Grande, it is provided that all persons wishing to vote in the city elections shall register their names with the proper officer three months before the election. This is to prevent the permanent citizens of the place from being overrun by the importation of Mexicans across the Rio Grande on the day of election, and is a wholesome check to frauds. A well-informed gentleman told us that he had no doubt but that if the American population on the Rio Grande were united among themselves, Mexican voters could be bought and brought over the river sufficient to control our State elections, as the Mexicans in immense numbers had no just appreciation of the right of suffrage and could be swayed by intrigue or money.

☞ The roads are again dry and in good order.

Apportionment.—Under the new apportionment the following districts are established:

Calhoun and Jackson, counties one representative.
Victoria and Goliad, one representative.
Lavaca and De Witt, one representative.
Gonzales, one representative.
Guadalupe, one representative.
Caldwell and Hays, one representative.
Calhoun, Jackson, Lavaca De Witt, Goliad and Victoria, one Senator.
Gonzales, Guadalupe, Caldwell, Hays and Comal, one Senator.
Galveston one Senator.
Matagorda, Wharton, Brazoria and Fort Bend, one Senator.
Bexar, one Senator.

Correspondence of the Bulletin.

New Orleans, Feb. 27, 1853.

Dear Sir—The question of Free Banking is much agitated here at this time and projects have been presented to the Legislature for their incorporation, but such features exist in each as to render them objectionable, even to the best friends of the institution. One gives as a basis of Capital bonds of the General or State Government, Corporation or bonds of any Railroad Company bearing 6 per cent. interest. Although full confidence in all railroad stocks exists still it affords too great a latitude, and opens such a field for fraud and speculation that it has few friends.

One of the first aims and ends of the late Convention was to still the clamour from this hot bed of enthusiasm for Banking facilities, but it is a matter of extreme doubt whether the present Legislature will create any enactment for such a purpose, and it is a matter of still greater doubt whether the people are as eager for such a law as formerly.

The practical operations of Free Banking in N. York, where it has been in existence several years, seems not to have borne the test or to exhibit in its returns so handsome a report as its theory promised; in consequence of which, and a desire to "butter their bread on the right side," the hard monied old fogies would rather hold off until others too have given it a test. This is all very well!—"It is better to bear the ills we have than fly to those we know not of."—high rates of interest and great depreciation of produce at times consequent upon the stringency of the money market are evils which it was hoped would be arrested by this new system, and there is but little doubt in my mind, that if it is properly bolstered, it will be highly popular and successful. As the example is set in the Empire State however, it is not calculated to win over new friends. The Governor's last message is rather caustic in its comments on the system and declares that "the Banks evade the law requiring them to do their business in a certain place and circulate their notes through brokers in distant cities." "Further legislative restraints he says are necessary to save the public from frauds and losses. In some instances bills have been obtained upon insufficient security by fraudulent representations."

The State of Massachusetts three years ago passed an act establishing Free Banks, but I do not believe any have yet been incorporated. The reason is simply that the banking facilities of the State are sufficient for the transaction of all the wants of business; but in New York, the great accommodations of Banks and the millions of sound currency in circulation there, was inadequate to the wants of the stock-jobbing, intriguing financiers,—he wanted a more extended latitude for his brilliant operations and the free banking law supplied it. The late reports however of the banks is no proof against the success of the institution, for there it has had to contend against a large surplus of capital, and the accredited safety and liberality of the best chartered institutions in the world; besides which, it has fallen into hands who have better use of their legitimized shin plasters than the depreciated securities they have deposited in lieu of them. It will be conceded on all sides eventually that a general banking law is much better adapted to the requirements of trade than special charter and many now regard the basis of Federal or State stock security more safe than specie.

Illinois and Indiana have both adopted the new system, and in the articles of the first but little stringency could have been observed, for in one of its towns there exists a banking institution having for its capital certificates of deposite of Page, Bacon & Co., private bankers of St. Louis, men though of great reputed wealth and doing a heavy exchange business with California, would be "swamped" if a San Juan steamer was lost, or a crisis in commercial affairs occurred.

Your Legislature I see has rejected by a vote of the chair a bill for the incorporation of banks.—Though boasting of Democratic rule it is to be hoped that it will become wiser at its next session and have its eyes more clearly opened to the wants of the community. The Bank of Commerce at Galveston cannot and does not afford facilities for the west or east. The west I know is now suffering in consequence of a want of these facilities and commerce and trade is much retarded on the same account. Inconveniences and losses are thus daily sustained in all the largest towns and it is a matter of surprise that greater exertion was not made for a passage of the bill. It is an undeniable fact that you cannot get along at present without employing foreign State paper which is much more liable to subject you to losses than if the Bank was in your own midst.

What do you know of the solvency of the Hartford, (Conn.) Bank? I expect there is no less than $100,000 of it circulating in Texas, and I infer this much on that account, that if the Bank cannot find at home sufficient proportionate circulation to its capital that it is no worthy reflection on the institution that its paper is sent so far abroad. Take Sam Slick's classic advice "mens tuus ego." The Metropolitan Hotel of N. York city has a Bank connected with it situated in the western part of the State, gotten up solely with the view to furnish notes to the Hotel. Its stock is chiefly held by the Messrs. Leland's, after whom it is called and the notes are used for their convenience in furnishing change to travellers and paying for marketing and servants hire, a mode of circulation which guarantees their being long kept afloat.

The designed issue of circulation so far away from a Bank's place of business is no evidence of its solvency and should be regarded more with suspicion than otherwise. Discard such paper from your State. Do not attempt it as Mississippi did in 1847 by a special enactment of the Legislature, but let public opinion rule it out and let institutions with a safe basis be established, amongst you.

The steamship Albatross arrived here on the 21st bringing intelligence of the conclusion of a contract by A. G. Sloo, Esq., for right of way across the Isthmus of Tehuantepec, with the exclusive privilege of navigating the Coatzacoalcos, of which it is believed is susceptible to a greater length than has yet been attempted. The same steamship brought a California mail via Mexico and Vera Cruz, seven days quicker time than has been made. A mail contract has been made with our Government for its regular transmission. I learn Mr. Samuel Morgan, of N. York, has that part of the line from this to Vera Cruz, which I suppose will be executed by our friends Harris & Morgan. Yours, SAND-BAR.

Honey Locust.—We were not aware till now that the honey locust grew wild in western Texas. We are now informed that it is occasionally found in the Guadalupe bottom.

DIED,

At New Orleans, Feb. 13th 1853, Col. Geo. W. White, aged 32 years.

Col. White was, during the Republic of Texas an officer in her Navy.

When the war broke out with Mexico, he raised a company, joined the Washington Regiment La. Volunteers, under Gen. P. F. Smith. Gen. Scott ordering home the six month men, he returned to New Orleans, raised a batallion and joined the army under Gen. Scott.

When Yucatan asked for help he raised a Regiment and went to her assistance. After his return he went to California. Hearing of the butchery of Col. Crittenden's party, he returned to the *States* to join the liberating party of Cuban despotism; but learning that he could be at that time of no assistance, waited to bide his time. He was a true Republican of the Stamp of 1776. *Peace to his remains.*

In Gonzales, March 2d, 1853, of consumption, Mr. RODERICK D. McCULLOCH, aged about 39 years, formerly of St. Clair county, Mo., and late of the McCulloch House, Indianola. Mr. M. was a consistent christian and died full of hope.

Messrs. Editors—You will please announce Alexander G. Coffin as a candidate for the office of City Marshall.

☞ We are authorized to announce W. G. WOODMAN as a candidate for Constable of Precinct No. 2.

The State of Texas,
County of Calhoun.

To the Sheriff of Calhoun county Greeting.

Whereas Casimir Villeneuve, and Matilda, his wife, have this day filed a petition in the district court of Calhoun county, as plaintiffs, vs. James Lumbard, or Lewis L. Lumbard, as defendant, charging said defendant with having executed his certain promissory note to Matilda Villeneuve, of date the 17th day of October, 1850, and payable two years after date, for the sum of four hundred dollars, and to secure the payment of said note mortgaged to the said Matilda Villeneuve a certain ten pin alley in the town of Indianola, and that said note has since become due and is unpaid, and the said note has been lost or mislaid.

And whereas plaintiffs have filed an affidavit, stating that James or Lewis L. Lumbard is a transient person, &c. These are therefore to command you to cite the said James or Lewis L. Lumbard, by publication in the Indianola Bulletin, a newspaper published in the county of Calhoun, for four successive weeks, to appear at the next term of the Hon. district court of the county of Calhoun to be holden at the court house in the town of Indianola on the second Monday after the first Monday in March, 1853.

The Turnpike.—A meeting of the citizens of Indianola was held at the court house on Friday night, for the purpose of laying the Turnpike charter before them, and of opening the books for subscription, John Henry Brown presiding and Doctor Hughes acting as Secretary. Messrs. Peiser, Etter, Huck, Thielepape, Varnell and others of our citizens, and Mr. T. Storne of Victoria offered remarks. A second meeting was held Saturday night, Henry Runge in the chair, H. J. Huck Secretary. The result is, that the people have taken hold of the matter in good earnest; enough of the stock has been taken to insure the success of the work, which will be commenced as soon as the contracts can be let.

Grand Raffle.—Mr. L. H. Woods, Jeweller, Main street, Indianola, has gotten up a grand scheme for a raffle on the 4th of April. The scheme embraces—

One Chinese Clock, 1st prize,	$100 00
One double cased Hunting Watch,	80 00
One extra Music Box,	75 00

and divers smaller prizes to make a total of $1,000. There are 500 chances of $2 each. The scheme and prizes may be seen at Mr. Woods' establishment, and offers tempting inducements to those disposed to take an interest in such matters. The articles are guarantied to be of a superior order.

☞ We have received the proceedings of a meeting of what purports to be the "Interbeltwians," but the society will excuse us for declining their publication, as it would be in violation of the course we have and wish still to pursue towards the matters and things therein pitched into.

☞ Supreme Court will adjourn at Galveston on the 12th March.

☞ To be eligible as a Director in the Indianola and Victoria Turnpike Company, which election comes off to-morrow night, requires that the candidate shall have taken 5 shares or $250 of the capital stock.

☞ The District Court will commence its spring session in Indianola on Monday the 21st March, and hold for two weeks.

☞ The steamship James E. De , arrived at this place on yesterday morning. To Mr. Wakefield, her accommodating clerk, we are indebted for late N. Orleans papers.

☞ The steamship Texas, Capt. James Lawless, arrived at Indianola from New Orleans, on Tuesday, with dates to March 4th, from which we make extracts.

District Judge.—The impression generally prevails that the election for Judge of this the tenth district, will come off at the election next August. We learn that this is probably a mistake. The act creating this district was passed in the spring of 1848, to *take effect* on the first of August of that year. Judge Jones was commissioned for six years for the same district, which will run to August, 1854. Or should his time run from the date of the commission, (which could not be as the law creating the district did not take effect till August,) he would still get through the spring courts of 1854, and the August election following would occur before the fall term of the courts. This, we learn from a member of the bar, is the true state of the case, and if so there will be no election this year.—If there is to be an election, however, the people should know it at an early day.

Steamer Colorado Sunk.—We regret to learn by the LaGrange Monument and the Matagorda Tribune, that the steamboat Colorado run on to a snag a few miles below LaGrange, on the 28th Feb., and sunk in three feet water. The machinery and a part of her cargo will be saved. The loss is a great one to her owners. Messrs. Powell & Coen of Matagorda, and to the Colorado Valley generally, and we sincerely lament so sad an accident to men of great enterprize in a good work.

Texana.—On our first page we publish the proceedings of a railroad meeting in Texana, by which it will be seen the people of that place are endeavoring to attract enterprise and attention to the advantages of their town. That Texana has an advantageous position cannot be doubted, and it only requires enterprise to develope the fact. The appropriation to clear out the Lavaca will redound greatly to the advantage of Texana, if the law should be approved by the people, of which there is no doubt.

Matagorda.—The schooner Anthem, Capt. Burrows, cleared at Matagorda, March 7th for New York, with 352 bales cotton and 45 hogsheads of sugar. The Reindeer, Cathcart, was loading for the same destination.

Cuba—Vice President King.—Late arrivals from Havana announce the rapid convalescence of Mr. Wm. R. King. He was staying in a sugar house, near Havana, from which he experienced almost instantaneous relief. He is attended by two nephews and two nieces. The nation will rejoice to learn of his recovery.

The authorities of Havana forcibly broke open and searched the United States mail on the steamships Empire City and Crescent City, to detect if possible who were the patriots of Cuba. Consul Sharkey had sent a manly protest to the Captain General.—Those Cubanos are determined to heap one insult upon another, till brother Jonathan shall get angry and drive them where the Devil drove the hogs, and there will be an end of despotism on that fair Island.—"Whom the Gods will destroy, they first make mad."

Great loss by Fire.—On the night of March 2nd, the Alabama Cotton Press of New Orleans, with 20,000 bales of cotton, was consumed by fire. Loss said to be about $1,900,000. The True Delta says—

"At the lowest computation, 20,000 bales were burned, which, at $40 per bale, will amount to $800,000. A great portion of this cotton was held on foreign account, leaving the probability that the loss will be divided among a great number of Insurance Offices, domestic and foreign.—The loss on the offices in this city, will, from all we can learn, fall most heavily on the "Home Mutual," the "Crescent" and the "Sun Mutual."

The loss of our worthy fellow citizen, John M. Bell, the proprietor of the press, will be from 20,000 to $25,000, he being entirely uninsured. We could not learn whether the sheds and buildings were insured or not, and cannot therefore say on whom the loss will fall."

River Improvement.—The bill appropriating money to clear out our rivers, after many contradictory statements, did actually become a law; but has to be submitted to a vote of the people in August. It appropriates $21,000 to the Lavaca river, sufficient to make it the finest navigable stream in Texas, as high as Texana.

New York Vessels.—At N. York on the 23d February, the schooners Telegraph, Louisa and E. Dellussy were advertised for Indianola and Matagorda bay.

Our Districts.—The new law makes a decided improvement in the arrangement of our Senatorial district, which is now composed of the counties of Calhoun, Jackson, Lavaca, DeWitt, Goliad and Victoria, all contiguous territory having a community of interest. Calhoun and Jackson constitute a representative district, which is also a good arrangement, as the two counties have an identity of interest and feeling.—Victoria and Goliad, also, elect one representative.

To get fees.—There is a certain magistrate within our acquaintance who has been often called upon to swear men to vouchers and divers other papers wanting that kind of authentication; but who found that men generally obtained his services and walked off without paying his legal fee. To prevent this, he has adopted the following form of oath: "You do solemnly swear that the matters and things set forth in this instrument are true *and that you will pay me four bits forthwith*—so help you *God*." He says this form of the oath yields him a nett revenue of $2 50 per day.

Texian Anniversaries.—During the past week, two of the great anniversaries in Texian history have past—the Declaration of Independence on the second, and the fall of the Alamo on the 6th of March. No true son of this proud young State can recur to those events without feelings of pride—an inward glow of manly gratulation that *he, too*, belongs to the State and people by whom and among whom those illustrious achievements were wrought. "*Remember the Alamo!*" was the war cry rung by our invincible van at the charge of San Jacinto. The foe were overcome by the one word "*Alamo*," and hundreds of them on the suppliant knee, exclaimed "*me no Alamo!*" The patriotic Potter had already prophetically said—

"And 'Alamo' shall hereafter be,
In bloodier fields, the battle cry."

The blood of the heroes of the Alamo, hallowed by a righteous cause, ascended to Heaven as holy incense, an offering from the martyrs for their bleeding country.—That holy sacrifice was answered on the field of San Jacinto, where the over-ruling power of God was displayed in the fall of the blood-stained, barbarian hosts before a handful of brave men, battling in defence of their homes and firesides.

Commodore Moore.—Through the kindness of a friend, we have been placed in possession of the report of the survey of Matagorda Bay, made in October, 1841, by Com. Moore, of the Texian Navy, to Dr. Branch T. Archer, Secretary of War. We shall publish the document in a week or two, as one possessing much interest, not only to Matagorda Bay, but to all of middle and western Texas. Com. Moore, both then and in 1848, declared in unequivocal terms the practicability of deepening Matagorda Bar to 20 feet, by which the largest class of ships could enter the Bay, and thus we should possess the best port south of Charleston, and, when taken in connection with our peculiar position with regard to the great empire west and north-west of us, and to the Pacific Railroad, we may claim in all sincerity, that our Bay, as the seat of a great commercial city, would be unrivalled south of Baltimore. This, to some, may doubtless seem visionary; but to those who have carefully investigated the subject, it will appear as the natural sequence to an improvement of the bar as above, and the developement of the vast region to which we have referred as tributary to this Bay. It is unnecessary to say that after crossing the bar, the water is 25 to 30 feet deep for several miles, and 12 to 13 feet deep up to the harbor of Indianola.

VERY LATEST NEWS.

By the Perseverance we have N. Orleans dates to the 5th. Gen. Pierce was inaugurated on 4th: he unofficially announced his cabinet thus—Marcy sec'y state, Guthrie of Ky. treasury, Cushing att'y general, Jeff. Davis war, McClelland of Mich., Dobbin N. C. and Campbell of Penn., to the other posts. Cotton dull in Europe. The insurrection in Milan suppressed and its leaders hung: martial law proclaimed in the city.

No Fair.—The Fair which was to come off at Corpus Christi next May, has been abandoned, in consequence of the formation of a State Agricultural Society at Austin this winter, which has taken charge of the subject of State fairs. They will at a proper time designate the time and place for such exhibition. We should suppose La Grange or Austin would be a desirable place on many accounts. We hope to see the thing encouraged, as well as every other measure calculated to encourage agriculture and stock raising, the foundation of our prosperity as a State.

The Steamship Perseverance, Capt. Tho. Forbes, arrived from New Orleans yesterday. Thus we have had three Steamships to arrive in two days—the Texas, Day and Perseverance. Our thanks are due each for late papers.

☞ In the new charter of the city of Brownsville, on the Rio Grande, it is provided that all persons wishing to vote in the city elections shall register their names with the proper officer three months before the election. This is to prevent the permanent citizens of the place from being overrun by the importation of Mexicans across the Rio Grande on the day of election, and is a wholesome check to frauds. A well-informed gentleman told us that he had no doubt but that if the American population on the Rio Grande were united among themselves, Mexican voters could be bought and brought over the river sufficient to control our State elections, as the Mexicans in immense numbers had no just appreciation of the right of suffrage and could be swayed by intrigue or money.

☞ The roads are again dry and in good order.

Apportionment.—Under the new apportionment the following districts are established:

Calhoun and Jackson, counties one representative.
Victoria and Goliad, one representative.
Lavaca and De Wit, one representative.
Gonzales, one representative.
Guadalupe, one representative.
Caldwell and Hays, one representative.
Calhoun, Jackson, Lavaca De Witt, Goliad and Victoria, one Senator.
Gonzales, Guadalupe, Caldwell, Hays and Comal, one Senator.
Galveston one Senator.
Matagorda, Wharton, Brazoria and Fort Bend, one Senator.
Bexar, one Senator.

Correspondence of the Bulletin.

New Orleans, Feb. 27, 1853.

Dear Sir—The question of Free Banking is much agitated here at this time and two bills have been presented to the Legislature for their incorporation, but such features exist in each as to render them objectionable, even to the best friends of the institution. One gives as a basis of Capital bonds of the General or State Government, the corporation or bonds of any Railroad Company bearing 6 per cent. interest. Although full confidence in all railroad stocks exists still it affords too great a latitude, and opens such a field for fraud and speculation that it has few friends.

One of the first aims and ends of the late Convention was to still the clamour from this hot bed of enthusiasm for Banking facilities; but it is a matter of extreme doubt whether the present Legislature will create any enactment for such a purpose, and it is a matter of still greater doubt whether the people are as eager for such a law as formerly.

The practical operations of Free Banking in N. York, where it has been in existence several years, seems not to have borne the test or to exhibit in its returns so handsome a report as its theory promised; in consequence of which, and a desire to "butter their bread on the right side," the hard monied old fogies would rather hold off until others too have given it a test. This is all very well!—"It is better to bear the ills we have than fly to those we know not of."—high rates of interest and great depreciation of produce at times consequent upon the stringency of the money market are evils which it was hoped would be arrested by this new system, and there is but little doubt in my mind, that if it is properly bolstered, it will be highly popular and successful. As the example is set in the Empire State however, it is not calculated to win over new friends. The Governor's last message is rather caustic in its comments on the system and declares that "the Banks evade the law requiring them to do their business in a certain place and circulate their notes through brokers in distant cities." "Further legislative restraints he says are necessary to save the public from frauds and losses. In some instances bills have been obtained upon insufficient security by fraudulent representations."

The State of Massachusetts three years ago passed an act establishing Free Banks, but I do not believe any have yet been incorporated. The reason is simply that the banking facilities of the State are sufficient for the transaction of all the wants of business; but in New York, the great accommodations of Banks and the millions of sound currency in circulation there, was inadequate to the wants of the stock-jobbing, intriguing financiers,—he wanted a more extended latitude for his brilliant operations and the free banking law supplied it. The late reports however of the banks is no proof against the success of the institution, for there it has had to contend against a large surplus of capital, and the accredited safety and liberality of the best chartered institutions in the world; besides which, it has fallen into hands who have better use of their legitimized shin plasters than the depreciated securities they have deposited in lieu of them. It will be conceded on all sides eventually that a general banking law is much better adapted to the requirements of trade than special charter and many now regard the basis of Federal or State stock security more safe than specie.

Illinois and Indiana have both adopted the new system, and in the articles of the first but little stringency could have been observed, for in one of its towns there exists a banking institution having for its capital certificates of deposite of Page, Bacon & Co., private bankers of St. Louis, men though of great reputed wealth and doing a heavy exchange business with California, would be "swamped" if a San Juan steamer was lost, or a crisis in commercial affairs occurred.

Your Legislature I see has rejected by a vote of the chair a bill for the incorporation of banks.—Though boasting of Democratic rule it is to be hoped that it will become wiser at its next session and have its eyes more clearly opened to the wants of the community. The Bank of Commerce at Galveston cannot and does not afford facilities for the west or east. The west I know is now suffering in consequence of a want of these facilities and commerce and trade is much retarded on the same account. Inconveniences and losses are thus daily sustained in all the largest towns and it is a matter of surprise that greater exertion was not made for a passage of the bill. It is an undeniable fact that you cannot get along at present without employing foreign State paper which is much more liable to subject you to losses than if the Bank was in your own midst.

What do you know of the solvency of the Hartford, (Conn.) Bank? I expect there is no less than $100,000 of it circulating in Texas, and I infer this much on that account, that if the Bank cannot find at home sufficient proportionate circulation to its capital that it is no worthy reflection on the institution that its paper is sent so far abroad. Take Sam Slick's classic advice "mens tuus ego." The Metropolitan Hotel of N. York city has a Bank connected with it situated in the western part of the State, gotten up solely with the view to furnish notes to the Hotel. Its stock is chiefly held by the Messrs. Leland's, after whom it is called and the notes are used for their convenience in furnishing change to travellers and paying for marketing and servants hire, a mode of circulation which guarantees their being long kept afloat.

The designed issue of circulation so far away from a Bank's place of business is no evidence of its solvency and should be regarded more with suspicion than otherwise. Discard such paper from your State. Do not attempt like Mississippi did in 1847 by a special enactment of the Legislature, but let public opinion rule it out and let institutions with a safe basis be established amongst you.

The steamship Albatross arrived here on the 21st bringing intelligence of the conclusion of a contract by A. G. Sloo, Esq., for right of way across the Isthmus of Tehuantepec, with the exclusive privilege of navigating the Coatzacoalcos, of which it is believed is susceptible to a greater length than has yet been attempted. The same steamship brought a California mail via Mexico and Vera Cruz, seven days quicker time than has been made. A mail contract has been made with our Government for its regular transmission. I learn Mr. Samuel Morgan, of N. York, has that part of the line from this to Vera Cruz, which I suppose will be executed by our friends Harris & Morgan. Yours, SAND-BAR.

Honey Locust.—We were not aware till now that the honey locust grew wild in western Texas. We are now informed that it is occasionally found in the Guadalupe bottom.

DIED,

At New Orleans, Feb. 13th 1853, Col. Geo. W. White, aged 32 years.

Col. White was, during the Republic of Texas an officer in her Navy.

When the war broke out with Mexico, he raised a company, joined the Washington Regiment La. Volunteers, under Gen. P. F. Smith. Gen. Scott ordering home the six month men, he returned to New Orleans, raised a batalion and joined the army under Gen. Scott.

When Yucatan asked for help he raised a Regiment and went to her assistance. After his return he went to California. Hearing of the butchery of Col. Crittenden's party, he returned to the *States* to join the liberating party of Cuban despotism; but learning that he could be of that time of no assistance, waited to bide his time. He was a true Republican of the Stamp of 1776. *Peace to his remains.*

In Gonzales, March 2d, 1853, of consumption, Mr. RODERICK D. McCULLOCH, aged about 40 years, formerly of St. Clair county, Mo., and late of the McCulloch House, Indianola. Mr. M. was a consistent christian and died full of hope.

Messrs. Editors—You will please announce Alexander G. Coffin as a candidate for the office of City Marshall.

☞ We are authorized to announce W. G. WOODMAN as a candidate for Constable of Precinct No. 2.

The State of Texas,
County of Calhoun.

To the Sheriff of Calhoun county Greeting.

Whereas Castaic Villeneuve, and Matilda, his wife, have this day filed a petition in the district court of Calhoun county, as plaintiffs, vs. James Lumbard, or Lewis L. Lumbard, as defendant, charging said defendant with having executed his certain promissory note to Matilda Villeneuve, of date the 17th day of October, 1850, and payable two years after date, for the sum of four hundred dollars, and to secure the payment of said note mortgaged to the said Matilda Villeneuve a certain ten pin alley in the town of Indianola, and that said note has since become due and is unpaid, and the said note has been lost or mislaid.

And whereas plaintiffs have filed an affidavit, stating that James or Lewis L. Lumbard is a transient person, &c. These are therefore to command you to cite the said James or Lewis L. Lumbard, by publication in the Indianola Bulletin, a newspaper published in the county of Calhoun, for four successive weeks, to appear at the next term of the Hon. district court of the county of Calhoun to be holden at the court house in the town of Indianola on the second Monday after the first Monday in March, 1853.
