SCHOOL BOOKS

DP Profesor Pinneo's new works are model class

books on the subject of English Grammer. This study usually dry and animteresting to learners, is rendered in these volumes attractive and interesting. They are strikingly simple, progressive and thorough in their plan and arrangement, and enable pupils to become good grammarians. They are the cheapest works of the kind published.

ARITHMETIC.—Ray's Arithmetic, part first; simple leaves for little children. ple lesons for little children.

progressive, methodical and thorough the subject ever before offered to American beachers and they are at least twenty per cent, cheaper the other arithmetics of like size, and of an equal amount are the result of a pre-

other arithmetics of like size, and of an equal amount of matter. These volumes are the result of a practical experience in teaching; and they are prepared in compliance with the solicitation of many friends of education, who were cognizant of the marked success of their author as an instructor.

Augusta'—Ray's Algebra, part first; for common schools and agademies; a simple, progressive and elementary trealise. Ray's Algebra, part second; for advanced studen a academies, and for colleges; a progressive, luci

and comprehensive work.

The great excellence of Ray's Arithmetics warranted the expectation that an Algebra by the same author would be an improvement on all similar treatises. Ray's Algebra has the approbation of the most judicious educators, and is superseding all others in many of the best schools in the U. States:

1.7 Each part of the Arithmetical Course, as well as the Algebraic, is a complete book in itself; and is sold separately:

All the foregoing books have been compiled ex-

All the foregoing hooks have been compiled expressly for the Electic Educational Series. Their authors are practical teachers—men of acknowledged ability and learning, who have long been identified with, and have constantly labored for the advancement of the cause of education. The several books embraced in this series are admitted, because of their ment, the excellent style of their manufacture, and the quantity of matter contained in them, to be the cheapest class books published in the United States.

In Virginia, Maryland, Carolina, Kentucky, Ten-tessee, Georgia, Alabama, Louisiana and other states, the entire Electic Series is being adopted in States, the entire Electic Series is being adopted in the best schools, in preference to other books. In Texas they are being adopted as an excellent, economical, and uniform series of class books.
