e made in a more southern parallel, has a more northern route. In this opinion I slo not concur being satisfied that when the time for action arrives it will be found assuming patriotic and purely national

from information derived from the most reliable sources. I am convinced that by far the best track will be found to be from Memphis, or some other point below on the Mississippi, entering our State about the 32d degree of north latitude, and pursuing that line to El Paso, or its neighborhood; thence, in the direction of the head waters of the Gila river, and down the same by the most practicable route to San Diego on the Par cific. This is the route that nature indicates by features so apparent that neither party bias nor sectional interests can conceal them. Even in the most rigorous winters there would be no snows nor ice suffi-cient to delay or obstruct the progress of completing the road, or at any time to interrupt its regular communication, nearly the entire route; but particularly that por-

and be shipped to all parts of the commercial world from the great Atlantic and Gulf ports of our Union. Every State would be but to Texas the advantages would be incalculable. Her public domain lying north and west of our present populated limits, now waste, and comparatively worthiess, would, in a short period, be densely inhabited; the value of real estate throughout her whoie length and breadth, would be vastly enhanced, and all the resources of the State, and corress. The Corresponding to making the first twenty tables of their road. This section has been examined by a competent engineer, Rose, Esq., appointed for that purpose, and found to have been exceuted in accordance with the terms of the charter; and certificates for the amount of land to which the Company was entitled have been is suited in their favor. It is understood that another rection of this road is now in a forward state of progress. hanced, and all the resources of the State, agricultural, commercial and mineral be developed with wonderful rabidity. To specify one striking source of revenue of commendation, and it will doubtless have a stimulating effect upon like enterprises in our State. the many which the farming interests of the State would derive from the construction of this road. I will only mention that growing out of the production of wheat.

While I would alvise you to foster and encourage the construction of the production of wheat. It is well established, from successful expersonent that there is an extensive tract railroad enterprises already, or hereafter to be chartered, with the view of connecting the interiof the proposed route, admirably adapted to the cultivation of this, now to be ranked amongst one of the great staple productions; and in a latitude where this grain ripens from three to six weeks earlier than it does in other portions of the Union. It is therefore obvious that Texas could export a vast amount of flour in advance of any other quarter of the United States, and thus to the extent of her capacity to grow and to ascertain the public sentiment in relation to it,

To secure the construction of this great work through the limits of our State nothing more is wanting, in my opinion, than a liberal donation of our public domain to such a responsible company as may be able to give sufficient guarantees of their ability to commence and complete the same within a reasonable percod. And to render the measure as intig discussable as positive. I would suggest that a certain portion of the stock of the company be divided into sand space, and that the privilege of title scribing for the same be secured to the stocks of the exclusion of all references of the State, to the exclusion of all references on the stock of the exclusion of all references to make the same within a reasonable percod. And to render the same within a reasonable percod. And to render the same within a reasonable percod. And to render the same within a reasonable percod. THE PUGITIVE SLAVE LAW. The Washington Union publishes at length an ly given by Mr. Cushing, Atto. seral of the United States, in regard to the seins and powers of the Executive, in the adminration of the fugueve slave law, under certain

The fase was brought up before the Secretary the Interior, by Senator Bright, of Indiana, in chalf of the U.S. Marshal for that State, asking ellof under the following circumstances. A claimant from Missouri arrested, at Indian-nie, one John Freeman, as a fugitive slave, let postponement to obtain evidence, it was wed that Preeman did not owe service in othods, was not the slave demanded and he ne released. He then brought suit against the urshal for denages caused by his arrest and

The application to the Secretary of the Interior to know: It Whether the case could be reored to the U. States courts? and 2, whether he marshal may employ counsel for his defence the cost of the United States? These were regred to the Attorney General, and he answers : That there is no provision by law for the reweal of the case in its present stage to the courts less United States, noth parties being residents Indiana. It may, however, be subject to re-

condly, he is of opinion that it would be proor for the President to authorize the employment of coapsel. He lays down no general rule authorizing the defence, at the public cost, of are but places his decision on the ground that are may arise which are of great public concernment, although involving no property belong to the United States; cases in which the inis officers employed in the execution of the sty of the constitution and the conservation the laws are involved to an extent of more raids and mignitude than the defence of this to os on imported merchandise, wherein this execdiscretion of employing counsel, is often ind. 'An attack upon the public officers for the iministrafign of the law is, in effect, an attack all of which I will sell at the lowest cash prices, the integrity and stability of the Governrepression of the acts of Congress for the interstate extradition of fugitives from service, in the of execution, and to haras those engaged in s regasions suits or other unlawful or unjust grivances, is essential to the peace of the counand the sufery of the Union." The Union, in publishing this opinion, states

UST received in store and for sale 15 barrels Blake's Patent Fire Proof Paint, and 5 barreis Vegetable Paint Oil. The above is a cheap and durable Paint, and excellent article for Buildings, Roofs, &c. Orders promptly attended to. CHAMBERS ETTER & CO.

Indianola, June 7, 1853. READIL D. B. LENT, Esq.—Dear Sir: I have seen an application of "Blake's Metalic Fire Proof Paint" upon the roof of the house in which I reside. said roof was of shingles, in a very haid condition, having, as I have been told, been on over 19 years. It became so leaky that we had to remove out of the attic chambers every rain storm. Since the application of one coat of Blake's Patent Paint (although it has raised several stays upon it) I have had no trunble from it. It has become ery hard, resembling slate, and I have no doubt

t has saved the expense of a new roof for many D. BARTLET. To Stock Raisers and Shippers. THE subscribers have the pleasure of announce that their new and magnificent Wharf, at Powder Horn Bayou, is now completed, so that the largest accampanies and sail vessels entering Matagoria Bay can at all times receive and discharge freight upon it without the trouble, delay, expense, and damage of lightering. They have constructed in connection with it, a large and convenient pen for shipping live stock, with the railroad car running into it, by which cattle, horses, mules or sheep can be supped on to the vessels at the wharf with safety, speed, and great convenience. Grass and water is abundant with

in one and two miles of the wharf.

ECLECTIC SERIES 43

M'Guffey's Eclectic Fourth Reader, for

Linn, smith & Co., Best and Cheapest School Books over Published.

THE Exectioneries of School Books was projected by that well known friend and advocate of popular education. Frof. William H. M'Guffey, of the Eniversity of Virginia, whose life has been spent in the West and South, where his active inbuts as a judicious instructor having gained the approbation of all lovers or a sound, practical and progressive advocation. The Reading Books bearing he name have been graved, by actual trial, and are now more existively used than others, and are daily receiving the adoption and approval of the fund.

By Professor Pinneo, author of the Grammars for an years a Professog in Charlotte Hall Institute, Maryland, has furnished in the Grammars, bearing his name, what are regarded by all who have examined them, as model text books for the English language.
