Future Water Needs Spotlighted in Muleshoe Area

Hereford Water Hearing Set Saturday Meet Vital to County

Important for Plains Future Water Needs

Bailey County and Plains agri-businessmen interested in learning more about water resource development are invited to attend the legislative hearing to be conducted by Texas Legislative Water Study Committee this Saturday, October 5, in Hereford. Final arrangements have been completed for the water hearing event to be held in Deaf Smith County Bull Barn for the all-day meeting beginning at 9:30 a.m., according to committee chairman Bill Clayton.

The purpose of the hearing is to find out how interested people in the area are in obtaining additional water supplies, Clayton said.

"The problem in West Texas," Clayton emphasized, "is how can West Texas maintain and expand its thriving economy in view of its dwindling

underground water resources?" The agenda of the hearing sets out problems concerning underground water, the cost of imported water, willingness of the area to pay for it, and the need for an agency to contract and distribute the water. In addition, the question is raised as to what territory should be included to receive imported water, and asks specifically, "should your county be included?" Other items relate to water pollution problems and changes in law concerning water district formation.

On Friday, October 4, preceding the hearing date, the water study committee members will tour points of interest in the area related to water conservation and use.

BIG SWEEP--Muleshoe businessmen officially kicked off Clean-Up, Paint-Up, Fix-Up in Muleshoe at 9:30 a.m. Tuesday when they congregated in downtown business streets to sweep down the street in their own business block. The local businessmen pictured, and others, who are participating in the Muleshoe Clean-Up, Paint-Up, Fix-Up campaign are urging local individuals, homeowners and renters to clean up their own yards, alleys and lots. Pictured here as they prepare to sweep down the streets of Muleshoe are, left to right, Gordon Wilson, Wilson Appliance; Jeff Peeler, Southwestern Public Service Co.; Earl Harris, Western Auto; Charlie Isaac, Fair Store; John Crow, Crow Chevrolet; Paul Wilbanks, Western Drug; Roger Albertson, Cobbs; Jim Hartline, Jim's Pay N Save; Harvey Bass, Bass Appliance; Gil Lamb, KMUL; Olin Burrows, St. Clairs; Juan Farias, Econo-Mart and Darrell Oliver, Chamber of Commerce.

Muleshoe Water, Inc. Meet Vital to County

"Water, water everywhere, and..." several water programs are offered Muleshoe and Bailey County area in order that the future importation of water supplies to this area be determined at the local level.

The most important decision of agri-business people is to determine the proper course of action in the importation of water. One main thought in the mind of localities is how to bring water to this plains region from wherever possible as economically and practically as possible.

Possible sources include the Mississippi, the Missouri, Canada, Alaska, and the Sabine for additional water supplies, according to various studies.

Water, Inc. will have an informative, public meeting here Thursday, October 10 according to Chamber of Commerce President Robert Hooten. The local meeting will put the drive for water importation program on a local basis. Parmer County Water Association expressed their need for organized effort this week by an initial meeting in Hub.

The legislative hearing set Saturday October 5, in Hereford will include topics relating to the formation of master water agency to contract for water; whether there should be any change in the private ownership of underground water, and whether there should be state control of underground water. Apparently from all studies being made the most probable source of imported water will be Mississippi River below New Orleans, Clayton said.

This will be determined after current studies are completed indicating whether or not there will be a surplus of water at this point. The study is being made by US Core of Engineers, Bureau of Reclamation in cooperation with Mississippi River Commission he added. The cost of importing water to this area from the Mississippi River below New Orleans will be determined by the cost of fact-

Parmer Forms Water Group

A group of Parmer County citizens, 23 in number, took a step toward local organization to further their drive in the water importation program Thursday, September 26. Parmer County Water Association was organized at Hub Community Center for organized effort on a local level.

Organizers expressed the interest in Bailey County's organization into an active group, to push for a water importation program. They hope Lazbuddie farmers of Parmer County will become interested. For objectives of the new association, the group decided that foremost is to provide local effort in the water importation program and to support Water, Inc., which is the area-wide organization promoting the program.

In forming the water association, the group elected as chairman Bruck Parr; as vice chairman Jim Roy Daniel, and as secretary, Rex Blackburn. A motion was passed to delegate authority to the officers to study the united testimony

Mules to Denver City Friday

"Denver City is tough, and they're fast," said Coach Bob Graves in a scouting report at the weekly meeting of the Athletic Boosters Club on Monday night.

The more than 25 people present for the meeting heard Graves compare Denver City to the rough Olton team the Mules faced last Friday night. He reminded the group that it will be the Denver City homecoming game and that will be

only one of the reasons to win. The other... well, Denver City has now lost two games in a row and they are mad and looking for a win. And, with Denver City usually a tough contender for the Mules to face,

they are expected to be doubly tough this Friday night.

John Powell, 196-pound fullback for the Denver City Mustangs, spearheaded their first win over the Seminole Indians. They won all 15 points on touchdowns by Powell. Mustang Robert Hernandez gained a reputation as a "ball stealer" as stolen balls by him set up

THE LITTLEST SWEEPER OF ALL--Pert little Kimberly Wilson, 3 year old daughter of Mr. and Mrs. Gordon Wilson, was out with her broom Tuesday morning to provide inspiration for her elders at the businessmen's kickoff of Clean-Up, Paint-Up, Fix-Up in Muleshoe. Although she wouldn't join the grown-ups in their picture shown sweeping the downtown streets, the littlest sweeper of all, nevertheless, was right there with her tiny broom, sweeping away.

Where Does Your Money Go? Know Your United Fund

United Fund for 1968 in the Bailey County area will kick-off with an instruction-dinner slated at 6:30 p.m. on Thursday, October 17 at the First Methodist Fellowship Hall.

Following the dinner, instructions will be given the workers on how to conduct the campaign for 1968.

Guest speaker will be Jack Seaman, area manager of Northern Natural Gas Co. in Midland. Seaman is president of the Midland United Fund; past campaign chairman for Midland; one of the originators of United Fund in Midland, and director of the Texas United Fund.

Robert Alford is local vice president and campaign chairman for the United Fund.

Local division chairmen for 1968 are M.D. Gunstream and W.Q. Casey, Advance Gifts; Robert Hooten, Commercial Division; Don Chak, Professional Division; Don Rempe, Employees Division; M.W. Pool

Jr., City Farmers and Joe Harbaine, Rural Division.

The Bailey County Junior Livestock Show received more money from the Muleshoe Area United Fund than any other organization.

Eugene Black, chairman of the Bailey County Junior Livestock Show and the show directors said the show has annually had an increase in the number of participants as well as an improvement in the quality of animals shown. This show provides valuable training and experience for the youth of our area regardless of their future profession.

The Bailey County Junior Livestock Show was organized in 1957 and had approximately 65 entries and in 1967, ten years after its beginning, Eugene Black said 134 entries were made in the show, an increase of more than 200 percent from its beginning year.

The show experienced a slight drop in 1968 with 112 entries,

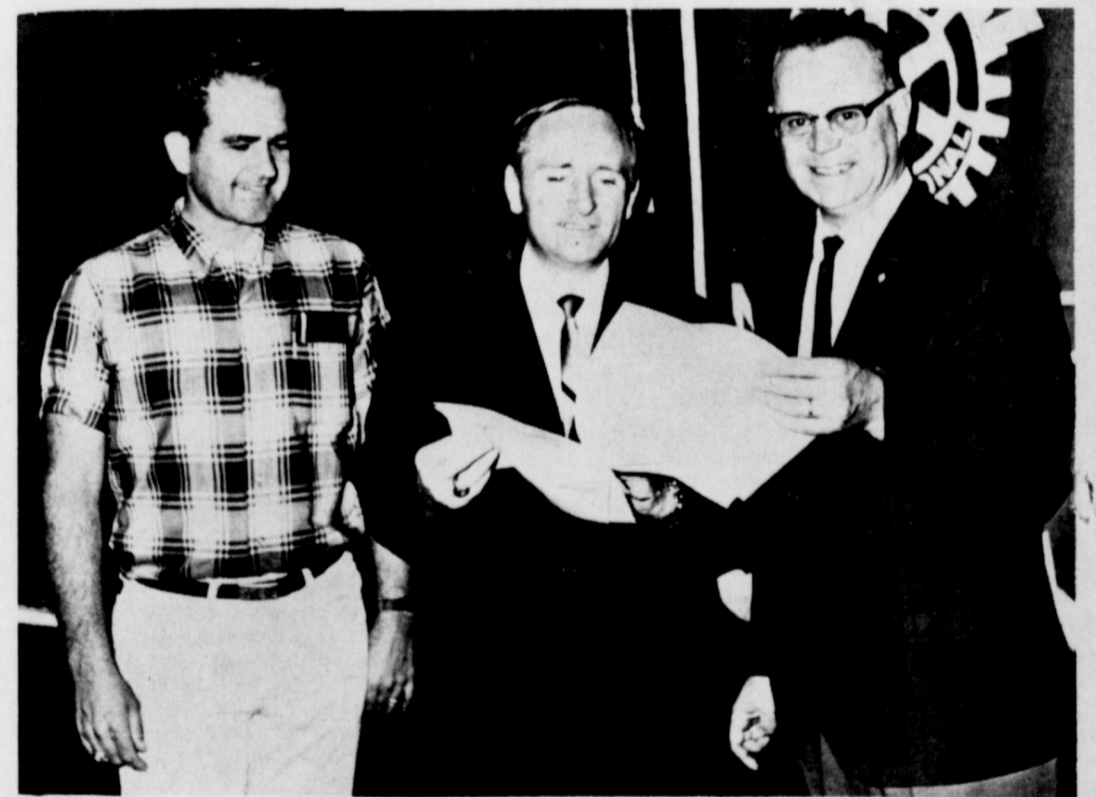

however Black said "we anticipate a large increase this year due to increased activity from youths in the southern part of the county, more boys in FFA this year and several new 4-H clubs in the county."

Local directors of the show, other than Eugene Black, chairman, include Pete Black, secretary and members of the board: Lewis Scoggin, Gordon Murrain, Buford Bates, Carl Pollard, Leon Lewis, Bob Newton, Guy Kendall, Lloyd Throckmorton, Reuel Kirby and Don Harrison.

This agency serves to challenge the interests and abilities of the 500 boys and girls active in 4-H Clubs and FFA Chapters in the Muleshoe Area. Over 100 of these youngsters actually entered the 1967 show, exhibiting animals which they have fed and cared for from four to 12 months.

Football Contest

Fred Wilbanks, Lazbuddie, walked away with top honors in this week's Journal-merchants football contest.

Wilbanks (as did most Texas University forecasters and fans) over estimated the Longhorns strength, as Texas Tech scored a 30-22 football classic victory over TU Saturday at Jones stadium. However, he was the only person who correctly predicted all other winners.

Tied for second place were Terry Burchel and G.W. Chapman, both of Muleshoe. Each contestant missed two games, but had predicted the same score on the tie breaker with a point spread difference of 22 points each.

Mrs. Fred Wilbanks nearly joined her husband with honors, as she missed only two games, but she had a 26 point spread in the tie breaker. Bill Tanner missed two games, but had a 29 point spread in the tie breaker; last weeks winner, Danny Sullivan, came close this week with two misses, but his point spread in the tiebreaker was 30 points; Jim Small also missed two games and had a point spread in the tie breaker of 35 points.

One word of caution to contest participants: Please make an "X" or check in the team winner box. Four persons this week put down numbered scores for each game's teams. Such scoring will be disqualified in future contests; the winners-only, are to be marked plainly, judges' rule state.

Taxpayers Receiving Statements

Taxpayers had a mailbox full of statements Tuesday from city, county and school district's tax assessor-collectors, all mailed before October 1.

Franklin Mann of Muleshoe Independent School District sent out statements in the amount of \$557,200. Mailings included 3,700 separate statements, Mann said.

County assessor Jean Lovelady said her office had mailed approximately 5,000 statements in the amount of \$303,753.93.

Businessmen Hear Many Reports

Businessmen's Activities Committee members heard several reports at a meeting held Tuesday morning at the Muleshoe State Bank community room.

Harmon Elliott, president of MAIF, presented a report of recent MAIF activities. Elliott said personnel from Campbell Soup Co. have been in the Muleshoe area and have made very favorable comments about the bell pepper and to mato crops.

MAIF had sent samples of Bell Peppers to Campbell Soup Co. Elliott also said a major pork packing concern is making an investigation of the Hi-Plains area.

A major utility company is in the process of doing "a feasibility

study of industry suitable for the Hi-Plains area--in order to have a comprehensive study to present to industrial prospects. Elliott said a number of MAIF will be on the Utilities Survey advisory board.

Elliott recited that two farm magazines had contacted MAIF to inquire about farm products as a result of the publicity on the truck load of vegetables delivered to Boys' Ranch.

Elliott said "The Muleshoe image has changed since the passing of the recent bond issues as prospects can be shown what we are going to do and we have a fine town."

Lyndal Murray, city councilman reported to the group on city council activities with respect to water and sewer work

underway, downtown parking, and that work on the city hall could begin possibly by the first of the year.

Harvey Bass, a member of the board of trustees of the West Plains Memorial Hospital, said, "The reason for merging Green Memorial Hospital with West Plains was to keep doctors, medicare and Medicaid for the town.

"There was also a possibility the nursing home would be closed," Bass continued. "The merger was for the good of our area and was not intended to put anyone out of business. We hope to make Muleshoe a medical center that can eventually be expanded into a hospital."

Sixtieth Anniversary To Honor Mr. and Mrs. Scott

An open house and reception honoring Mr. and Mrs. Alfred Scott on their sixtieth anniversary will be given in the home of Mr. and Mrs. Hubert Elliott on Sunday, October 6, from two until six p.m.

The Elliott home is located one mile east and two miles south of Clay's Corner.

All friends of the Scotts are invited to attend.

Mrs. Alfred Scott, the former Lula Stiles, was married to Alfred Scott at Hereford on October 6, 1908. The only attendants for the couple were the bride's sister and husband, Mr. and Mrs. Will Mick. The Hereford Methodist minister, Rev. Story, performed the ceremony. The bride was attired in a floor length gown of white china silk.

Mr. and Mrs. Scott made the trip to Hereford for the wedding by wagon and team and the trip took a full day. The couple planned to return to their newly established home in the Big Square community on the day following the wedding. Due to one of their mules becoming ill, the Scotts were delayed in Hereford for three days.

Both Mr. and Mrs. Scott are pioneer residents of the Plains of Texas. Mrs. Scott was born in Illinois and came to the Plains with her parents, the late Mr. and Mrs. Marcus L. Stiles, who moved to the Plains the later part of 1907 from Guthrie Center, Iowa.

Her father, like most fathers, with the interest of his children in heart, sold land holdings in Iowa and came to Texas where he bought each of his eight children a half section of land.

The land formed a square and on each half section, a square two-story house was built, thus giving the newly pioneered community the name

of Big Square. The last square house was torn down only a few years ago. Only two of the children now survive and reside on the land given them.

Scott was born in Iowa and came to Texas with the Stiles family. He made the trip to Texas by freight train with the family's livestock. The trip took twelve nights and ten days. He made the trip in January, 1908.

Mr. and Mrs. Scott have three children, Glenn Scott, Maxine Elliott and Gloria Elliott. All are residing in the Lubbock community. They have thirteen grandchildren and six great-grandchildren, most of whom live in nearby communities.

Clean-Up, Fix-Up, Paint-Up

We have taken the liberty of revising a story which reminds us of the dignity of labor, while residents and businessmen gird up in the much needed "Clean-Up, Paint-Up" campaign presently being waged on Muleshoe personal and business properties.

Our story is this:
Coming on a man, laboring with a rake while clearing weeds and debris away from his business' lot, a visitor asked: "What are you doing?"
"I'm raking, as the clean-up campaign committee makes me. Can't you see?"
To another who was painting the front of his store: "What are you doing?"
"I'm painting, because the clean-up, paint-up lady suggested it."

To a woman picking up trash in her back alley he asked "What are you doing?"
"I'm cleaning up my yard and alley because all my neighbors are. Can't you tell?"

And to another workman he asked "What are you doing?"
"I'm building a better and more beautiful Muleshoe!"
---The dignity of labor is a beautiful expression.

In resurrecting the beautiful story about work and its importance, we quote from a Plainview Herald-News editorial:
"Pity the man whose daily toil is beneath his dignity. How many work at their jobs, complaining about those in authority in the enterprise for which they work, waiting only a chance to get a better job, but so dilatory that they'll never do it?"

"That attitude toward work crushes a man's soul, robs him of initiative, and makes what should be a job - the daily task - drudgery."

Shall we take that daily task, plus a cleanup attitude, and each do our share (and a bit more) in building a better and more beautiful hometown area?

The dignity of cleaning up those alleys, vacant lots, yards or business properties or painting and repairing in the crisp, clean autumn air makes one feel better physically as well as mentally. The town itself will reflect our crisp, clean, wholesome attitude and pride in a job well-done!

Yes, the dignity of work is a beautiful expression. And Muleshoe will be a more beautiful and better place to live after a successful all-out clean-up, fix-up fall. Let's all join our neighbors in allowing our community pride to show - not only for the Blue Ribbon committee report - but for pleasure and pride in work in our hometown!

Bobwhite, Quail Excellent

SAN ANGELO -- Wildlife biologists of the Texas Parks and Wildlife Department have been hesitant to make other than casual estimates of the bobwhite and scaled quail crop in West Texas, but there's no doubt about it now -- the quail crop is tops this year.

Birds have hatches early and late, and wildlife personnel and sportsmen are reporting large numbers of birds throughout most of West Texas.

Wildlife Supervisor Jack Parsons asserts that although there have been periodic high populations in some spots over the past several years, the 1968 crop, region-wide appears to be as good or better than any during the past nine years.

Washington Report
From Congressman
BOB PRICE 18TH DISTRICT, TEXAS
1323 LONGWORTH OFFICE BUILDING, WASHINGTON, D. C. • 225-3706

The Republican Task Force on Crime on which I serve has analyzed the recently released F.B.I. Uniform Crime Reports.

In my opinion, the incidence of violent crimes is the most meaningful indicator of the trend of criminal behavior in America. The figures cited in the following analysis are, I believe, much more significant than the 88 percent overall increase to which there has heretofore been wide reference:

Some criminologists have taken issue with the validity of the F.B.I. Crime Index as an indicator of nationwide crime increases. Property crimes, theft, year after year comprise the great preponderance of Index offenses and they say that, for a variety of reasons, increases in property crimes do not truly reflect the trend in criminal behavior.

As the Index pertains to violent crimes, however, there is virtually no dispute. Most, if not all, agree that increases or decreases in murders, rapes, robberies and aggravated assaults from year to year present the most accurate measure of the overall crime picture. Moreover, and perhaps more important, it is universally recognized that it is precisely the violent crimes about which the people are most concerned. When one talks of escalating crime rates it should be borne in mind that it is principally the escalation of violent crimes that is truly a cause for concern.

The F.B.I. Crime Index figures for 1967 and the preliminary report for the first six months of 1968 (released September 20) contain some startling revelations concerning the incidence of violent crime in America. Riots and civil disorders have no relation to the evaluation of these crimes and some interesting comparisons can be made with earlier years.

During 1967, violent crimes as a group increased by 16% over the previous year.

During January-June 1968, violent crimes as a group in-

creased an additional 21% over the same period in 1967.

If this rate remains constant until the end of 1968, violent crimes as a group will have increased by 40% in just two years.

During the full eight years of the Eisenhower-Nixon Administration, 1953 to 1960, violent crimes as a group increased by 31%.

During the seven years since 1960, that is 1961 to 1967 inclusive, violent crimes as a group have already increased by 73% and if the last half of 1968 matches the first half, the increase for the comparable eight year period will be 109%.

In the separate categories of violent crimes:
Murder has increased by 34% during 1961 to 1967 and will show an eight year increase of 58% by the end of 1968. During 1953 to 1960, murder increased by 9%.

Forceful rape has increased by 61% during 1961 to 1967 and will show an eight year increase of 85% by the end of 1968. During 1953 to 1960, rape increased by 51%.

Aggravated assault has increased by 67% during 1961 to 1967 and will show an eight year increase of 90% by the end of 1968. During 1953 to 1960, aggravated assault increased by 29%.

Robbery has increased by 88% during 1961 to 1967 and will show an eight year increase of 125% by the end of 1968. During 1953 to 1960, robbery increased by 33%.

Frank Ford On Education Issue

Frank Ford, Republican candidate for State Representative, this week named education as one of the key issues of his campaign. "In 1960", said Ford, "Texas ranked 33rd among the states in per-child funds for education. We have since dropped to 38th. In 1960 we ranked 40th in literacy, and have since dropped to 44th. This is not a record to be proud of, as education is the most important function of state government, and accounts for 45% of state expenditures."

"Anyone who has observed the little children at work and play in our schools across this district", Ford continued, "knows that the light of hope shines in their faces - black, brown and white, and that this hope is the hope of our nation. If the adults in our big cities had the same feeling of brotherhood and understanding as these little children do, America would truly be on the road to greatness."

"The question that our generation has to answer, then, is whether these hopes and dreams are going to be fulfilled, or whether they are doomed to be broken in frustration and dependency. Jobs for the unskilled are disappearing fast, and if many of these children are going to know the dignity of productive work, the time for action in Texas is now."

An honest laborer, when paid for his work, gives himself to his work.

Dear Turnrow Tunkel . . .

O. C. McBRIDE

The Paris peace talks seem to be getting nowhere. Can you suggest anything that might help?

Yes--make the delegates on both sides pay their own expenses. With prices in Paris the way they are, a settlement would be worked out in a hurry.

I read that Hippie leaders are planning a big demonstration at the presidential inauguration on January 20, regardless of who is elected. Do you think it will be possible to avoid disruption of the ceremonies?

Easy. All they have to do is hold the inauguration in Chicago.

Did you know that a French law requires all houses to be constructed to stand for 50 years?

That's not a bad idea. At least a fellow could count on having a roof over his head after his mortgage was paid off.

I see where a psychiatrist says that if children spend too much time watching television, they lose the benefit of a close association with their parents.

He may be right. I'm thinking of limiting television watching at our home, in order to associate more with the kids. This policy will go into effect next Spring, right after the last football bowl game.

What do you think about that U. of T. professor who is calling for an "out right revolution in the U.S. ? I understand his contract will not be renewed.

I think he deserves a new contract, but at a different institution--like, say, Leavenworth.

Did you read that the AFL-CIO credits Hubert Humphrey with a 100 per cent pro-union voting record while he was a Senator?

I'm not against labor unions when they are properly operated, but I don't think they could have been right 100 per cent of the time. If Hubert voted that way, he was either simply after their support, or he didn't understand the issue.

TURKEY PRODUCTION DOWN
The Agriculture Department has predicted the production of issued a November draft call turkeys down 16 per cent from of only 10,000 men for the Army, 1967. The department had asked producers to reduce the turkey of the Selective Service system output to help head off severe market price declines.
