Balloting to begin next week

By Roger Estlack, Clarendon Enterprise

Early voting by personal appearance begins Monday, April 29, for four local governments holding elections this spring.

Balloting for the City of Clarendon and Clarendon ISD will be at the Donley County Courthouse Annex. Howardwick residents can vote at the City Hall there, and early voting for the Hedley ISD Board of Trustees will be at the school office.

In all 24 candidates are seeking elected offices this spring.

Clarendon Mayor Larry Hicks is being challenged by Alderman Tommy Hill, and four people are running for two positions on the board. Alderman Debbie Roberts, who was appointed in December, is seeking a full term, and she is joined by former alderman Janice Knorpp, Sandy Skelton, and Trevor Leeper.

Clarendon ISD has four candidates for three positions on the Board of Trustees. Current school board members Robin Ellis and Jim Shelton are seeking re-election and challengers Linda Rowland and Chuck Robertson are also running.

Six candidates seek two positions on the HISD Board. Incumbents Bonnie Brown and James E. Potts are being challenged by Michele McCann, Kevin Smith, Aaron Harper, and Lana Ritchie.

The City of Howardwick leads the candidate count at eight with David P. Cafferata and former alderman Mike Rowland running for mayor; William R. Jordan, Gail Leathers, and Jim Cockerham running for two vacant full terms on the Board of Aldermen; and Alderman Gene Rogers, Cory Longan, former mayor H.L. "Buster" Baird, and Sandy Sanders vying for two unexpired terms.

Early voting by personal appearance runs through May 7. Election Day will be Saturday, May 11.

Keep shining the light on local officials

One of the duties of a newspaper is to serve as a watchdog and a check on the government, and for this newspaper, it has been a busy month in terms of standing up for open records and open meetings.

Last week's column was given over to the explanation of the Texas Open Meetings Act in light of the behavior of the Clarendon Board of Aldermen; and

while we were busy speaking out against an improper closed meeting of that board, we neglected to report on the results of the previous week's editorial.

Readers will remember that in the April 11 issue, this column reported that the ENTERPRISE has filed a formal open records request with the Hedley Independent School

District. In a letter dated April 9, we requested copies of all board agendas and minutes (whether approved by the board or not) as well as a list of contracts renewed during the contentious March 19 meeting in which the athletic director, Darrell Wallace, was not renewed.

editor's

by roger estlack

commentary

After the paper went to press that week, there was a brief back-and-forth between the district and the ENTERPRISE. Ultimately, we submitted a legal opinion from the Texas Attorney General's office to the district, and by Friday afternoon, April 12, we were in possession of all that we had requested.

Subsequently, when we called the school this week to ask for copies of upcoming agendas and last week's minutes, they were faxed to our office in less than 24 hours.

It should also be noted that following last week's meeting, board members thanked the paper's representatives for coming and voiced their continued support for open records. They have also begun audio taping their meetings to add even more sunshine to the process.

We applaud that effort and expect that Hedley ISD will continue to cooperate on future open records requests. We also hope that all involved understand the importance of operating above board, without hidden agendas, and in the best interests of the taxpayers and the children of the Hedley school district.

The Enterprise is still pouring over the minutes obtained by our request, but we have learned a few things. The board actually took two votes on Mr. Wallace. The first was to renew his regular contract, but that failed on a 3-4 vote. There was then a brief executive session, which was followed by a second vote to extend him a probationary contract for one year, but that also failed 3-4.

The minutes also reflect what appears to be an ongoing schism between the board - or some board members - and the school administration with several references to board members wanting more and more information on a variety of topics.

What this all means is still unclear, but the board will hold its next regular meeting April 25, and we intend to be there. We would recommend that other interested parties attend as well to observe for themselves prior to the upcoming school board election.

Meanwhile...

Taxpayers in the Clarendon Independent School District will have a chance to find out more about a proposed tax increase next week during a public meeting on Tuesday, April 30, at 7 p.m.

School officials are proposing increasing the district's ad valorem tax rate from \$1.04 per \$100 valuation to \$1.17. Because the state has capped the district at the \$1.04 rate, the increase would have to be approved by voters in a June 1, 2013, election.

If approved, the new rate would increase taxes on a \$50,000 home by \$65 per year.

School officials say they need this increase because of a deficit they are facing due to declining enrollment and cuts in state funds, but do they really need it? Superintendent Monty Hysinger says the district will have to "cut programs" if voters don't approve the measure, but which programs?

Clarendon ISD needs to lay it all on the table before voters go to the polls. What are all the options? Are we really doing all we can to trim spending? Maybe. Maybe not. We don't yet know the answers to all those questions, but they need to be addressed. Next week is as good a time as any to start looking for answers.

We need to vote in this election

Donley County is blessed with many hard working, creative, talented, and intelligent people. Unfortunately, with a few notable exceptions, that vast reservoir of talent and intelligence is not adequately represented on two of our most important boards, namely the Clarendon Board of Aldermen and the Hedley ISD Board of Trustees.

Currently, with one or two exceptions, both boards are blessed with a mixture of arrogance and naiveté. For the most part they seem to have a unique ability to crank almost every problem they address into a mind-bending crisis. Additionally, both boards could be characterized as rowdy, raucous, ill mannered and ill tempered. Changes in both boards need to be made and pronto!

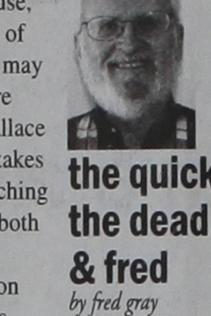

Let's start with our Board of Aldermen. They have, usually with a static 3-2 vote, made several decisions that are not in the best interest of personal angst against Lambert Little to negatively affect their evaluations of how well he was performing his job. Secondly, they dismissed him without first checking with the city attorney. Thirdly, they fired him without cause, thereby costing the city more than \$30,000. Finally, they fired him in a before Christmas. We are better people of fairness and compassion.

Moving on, let's review the Hedley ISD Board of Trustees. That board has lost contact with reality. Again with a few exceptions, they have behaved in a disgusting and ill-mannered way. When the board didn't renew Coach Darrell

News Flash:

Wallace, it was not for cause, regardless of what they may claim. Sure made mistakes the team, both in regards to tactics on the field as

well as in his interactions with his players. All coaches make mistakes. If they aren't making mistakes, then they aren't trying. If they aren't trying, then they are useless.

However, when they fired Coach Wallace, they also forced the resignation of his wife, Suzanne, who also happens to be a first rate teacher. Both of the Wallaces represent values and ideas that are far superior to the values and ideas that were represented by the majority of the board that voted to get rid of them. He was a good man who was treated with disdain and disrespect by people who don't have a clue about grace and good manners. As importantly, they ran off two really good teachers. Good people are hard to find, and I find it abhorrent that a board could run off such talented people so callously.

As the Enterprise goes to press,

performance, a group hug will not follow the meeting. Again, the board appears to skilled administrator, an administrator who cares first and foremost about his students and his staff. Bill Sanders is a man of great skill, integrity, and emotional stability.

Lastly, the board, in a surprising and insensitive manner, removed Ted Wright as its president, again without cause. Ted Wright served Hedley with distinction, honor, and integrity. He deserved to be treated better - much better.

The Hedley ISD Board of Trustees has apparently not learned a vital element of success. Namely, that you nurture and do everything you can to retain good teachers and staff. Any organization is only as good as its people.

Luckily, we have elections coming up soon, with early voting starting next Monday, April 29, a great day to be a Texan. We, the people, can make the necessary changes in these boards by exercising our right to vote. In the big picture, local elections are vital to maintaining our way of life, remaining true to our values, and nurturing a strong democracy. So let's all get out and vote. These elections may be the most critical elections we've held in a very long time.

Therefore, we need to go the extra mile, and learn about the candidates and the issues - then vote! The future of Donley County, Hedley, and Clarendon will largely be determined by the decisions we make in the upcoming elections.

THE COUNTRY

Courage and grace in West, Texas

Last week, the small town of West, Texas suffered a terrible tragedy when an explosion at a fertilizer storage facility ripped through the community. Approximately 200 people were wounded, and at least 14 lost their lives. Among these are many of the volunteer first responders who bravely sacrificed their own lives in order to protect the lives of others. I traveled to West last Friday to meet with local officials and make sure the community was not wanting of anything in the ongoing relief effort. The devastation was heartwrenching and the images of destruction will be with me forever. Yet I will also carry with me the uplifting scenes of grace and humanity that I witnessed in West.

Make no mistake: the people of West are resilient. The town traces its roots to the 1840s, as settlers migrated from the east across the young Republic of Texas. Blessed with fertile soil and fresh spring water, the community grew. Like many Texas towns, West has thrived through the years because of a citizenry that emphasizes both self-sufficiency and the importance of community. I can report that these traits are alive and well, and they have been on full display to the world in the wake of last week's tragedy.

feeling the explosion and seeing the mushroom cloud billowing into the sky, people's immediate concerns were not for

by sen. john cornyn themselves, but for others. We saw this both in the actions of first responders and ordinary citizens, who instinctively ran towards the danger, not away. Residents could be seen loading their cars with victims and making trip after trip to the hospital. At the local nursing home, located just a couple of blocks from the site of the explosion, the quick-thinking and heroic disregard for personal safety demonstrated by the staff saved the lives of scores of elderly residents.

In the aftermath, businesses stayed open around the clock and neighbors threw open their doors to help support victims. Restaurants and cafes refused to charge for meals, and people from all over descended on West with food, supplies, and a simple question: "How can I help?"

In the face of devastation, the

people of West and countless other Texans from the surrounding area have come together in a truly awe-inspiring outpouring of goodwill and community strength. We are commanded to love our neighbors, and the people of West are showing us how.

I know I join all Texans in mourning the tragic loss of life in West. We pray for comfort to come to the grieving and for healing to come to the wounded. For those wishing to contribute to the relief effort, I encourage you to visit my website for information on ways to help.

I have no doubt that West will recover from this tragedy. The abundance of love, faith, and selflessness that exists in this town would sustain it through any disaster. The best of the Texas spirit is embodied by the people of West. As one resident put it to me, "Being a Texan doesn't describe where you're from, it describes who your family is."

Let us strive to embody these words. Let us not forget West in her time of need. And when we find ourselves in our time of need, may we be blessed with the same courage and resolve that this small town has shown the world.

TO ALL CITIZENS WHO FAVOR CIVIC IMPROVEMENT:

This past year, there have been several decisions made that many felt were not in the best interests of our city.

We now have a situation where four aldermen are in control, and one alderman attempts to make our city better. The mayor only votes in a tie.

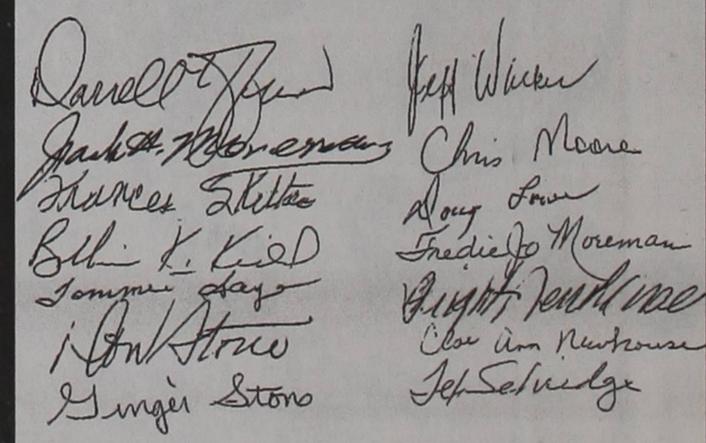

With this election, if the following candidates are elected, the board will change to a 3-2 situation where we will have discussions about city issues instead of just "follow the leader." That will be much better for the taxpaying citizens of Clarendon. We need the following slate elected:

LARRY HICKS FOR MAYOR **SANDY SKELTON FOR ALDERMAN** JANICE KNORPP FOR ALDERMAN

The most important requirement is for every person who reads this memo to make sure they get out and vote. If you don't vote but intended to, that won't help improve our city.

Early voting at the Courthouse Annex begins Monday, April 29, and ends at 5 p.m. on Tuesday, May 7. **ELECTION DAY AT THE ANNEX IS SATURDAY, MAY 11.**

PLEASE REMEMBER TO VOTE!

Merry Quilters met March 28

The Merry Quilters met on Thursday, March 28, at the Burton Memorial Library. The group met at 10:00 a.m. in the Burton Library. President Mary Lynn called the meeting to order. MaryRuth Bishop read the minutes, and they were approved.

This month's program was taught by Dortha Reynolds. She presented on the Fan pattern. Dortha showed how to make the basic parts of a fan and then how to add the center. She had several blocks made of the fan pattern and the group used those to layout different ways to lay out a quilt. It was fun to see the various patterns and layouts that we came up with.

Remember there is no cost it is free to attend and make blocks. You will be using your own fabric. "We will be hearing his name We hope to increase the attendance of this group and this lost art. Come and bring a friend! The Festival of Freedom quilt show will be May 25 in Hobart, Okla.

ONE ENERGY COMPANY DEDICATED TO SAFETY...SMART DIGGING **MEANS CALLING 811 BEFORE EACH JOB.**

Whether you are planning to do it yourself or hire a professional, property owners often make risky assumptions about whether or not they should get their utility lines marked, but every digging job requires a call - even small projects like planting trees and shrubs. Digging without calling can disrupt service to an entire neighborhood, harm you and those around you and potentially result in expensive fines and repair costs. Calling 811 before every digging job gets your underground utility lines marked for FREE and helps prevent undesired consequences.

Once you've made the smart call to 811 and waited for your underground utility lines to be marked, you are now officially ready to dig. Don't forget that with time, erosion or root structure growth may shift the locations of your utility lines, so remember to call 811 again, each and every time you are planning a digging job. Visit call 811.com for more information about 811 and the call-before-you-dig process.

ONEOK supports April as National Safe Digging Month.

in 2007, the Federal Communications Commission (FCC) implemented 811 as the national three-digit number for "Call Before You Dig." With this new process in place, many One-Call Centers across the U.S. began to rebrand themselves with their state name followed by 311. This helped excavators living sear state lines confirm they were talking to the One-Call Center in their state, as well as for excavators calling from out of state. Texas 811 is still stalled by the employees of Texas Excavation Safety System, and you can expect the same service you are accustomed to, simply with a new logo better suited for the future.

Watson finishes 17th in Regional Tourney By Sandy Anderberg

Clarendon sophomore golfer Zach Watson, who was the District Champ, competed in the Regional Golf Meet held in Lubbock last week. Although he did not advance to the next level, Watson made a good showing finishing 17th out of 96 golfers.

"Zach did a good job of battling throughout the two day event," coach Gary Jack said. "The golf course was very tough with water or out of bounds on every hole, including . sand traps. This was a very good experience for Zach and should prepare him for a chance in the next two years to advance."

Hedley does well at Regional UIL

South Plains college hosted the Regional Academic UIL contest on Friday. Competing form Hedley were Clay King-Social Studies; David Bell-Social Studies; Miles Patton-Science; Diego Souza-Science; Kassie O'Dell-Social Studies; Kristen Liner- Social Studies. Although the participants didn't place high enough to qualify for state, they all worked really hard. "We were very proud of our kids for their hard work. Making it to Regionals- many for the first year in the contest is something to be commended." Said Kari Lindsey, UIL Sponsor from Hedley High School.

experience to use to benefit other colleges."

Shirley's retirement becomes effective December 31, 2013; but before he steps down, another key college employee will leave CC.

Darlene Spier, who has served as the Assistant to the President for the last six presidents of CC, announced to the board that she will retire effective August 31, 2013.

"It has been a blessing and an honor for me to serve Clarendon

College for 33 years," she said. Shirley said Spier made it

possible for him to do his job. "Darlene has been my righthand person, a confidant, an inspiration, a historian, and the most knowledgeable person about Clarendon College who exists," he said. "She has been an outstanding employee."

Local student presents report at SWOSU event

Students in an ecology class at Southwestern Oklahoma State University will be displaying posters for an Earth Day celebration April 22-26 on the Weatherford campus.

Everyone is invited to visit the display that will be stationed in the Memorial Student Center lobby throughout the week.

According to Professor Dr. Peter Grant, the students have explored 11 environmental problems to present to students and area residents. Information about the causes of each problem is presented as well as potential solutions.

Among the topics and their presenters are Derrick Shelton of Clarendon and his presentation on pesticides and water pollution.

No Reason to Stop Statin Medication

Recent research published in the medical journal Annals of Internal Medicine indicates that mild side effects from cholesterol medication may not be a reason to stop the medication permanently. This research focused on the most commonly prescribed class of cholesterol medications, commonly referred to as "statins". Examples include Simvastatin, Atorvastatin, and Lovastatin. People who stop taking a statin due to mild side effects such as muscle pain can safely be started on a new statin or the same statin at a lower dose. Ninety percent of those studied with mild adverse events who tried the same statin at a lower dose or a new statin continued the statin without return of side effects for over a year. Those who experience mild side effects should not stop taking the statin. Instead, they should contact their physician about possible medication changes.

Increased cholesterol levels are associated with an increased risk of heart attack and stroke. Statins work to lower LDL (so called bad cholesterol) and provide protection against heart attacks and stroke.

Clarendon Church of Christ

If we ask that question in the world of religion, we know that the answer is no. There are many doctrines in the world or there wouldn't be THOUSANDS of different denominations. If you ask the question about one doctrine to God through His word, the answer is YES. Yes, there is only one doctrine taught in the Bible. We must all diligently seek God as He will reward us for doing so (Heb. 11:6).

IS THERE ONE DOCTRINE?

Why is it important to know the one and true doctrine? Let Christ answer: John 8:51 "Most assuredly, I say to you, if anyone keeps My word he shall never see death." Or: John 12:48 "He who rejects Me, and does not receive My words, has that which judges him--the word that I have spoken will judge him in the last day." On the last day, the Lord isn't going to pull out thousands of different sets of denominational creeds and judge everyone by their chosen set of doctrines. There is one word and one meaning for it. That should comfort us, but many should be afraid. "Am I living by the word that Jesus gave me, or I am I living by a misinterpretation of the Lord's word?" That's a pertinent question.

Go to the Bible for your answers. I know that sounds simple but let the Book be its own commentary. It was written for non-college educated and simple people to understand. When someone studies with you, make sure the things he or she says agree with the Bible. Its kind of like the commercial when buying a car, "Show me the car fax!" When someone brings you a doctrine or studying your own, go to the Book!

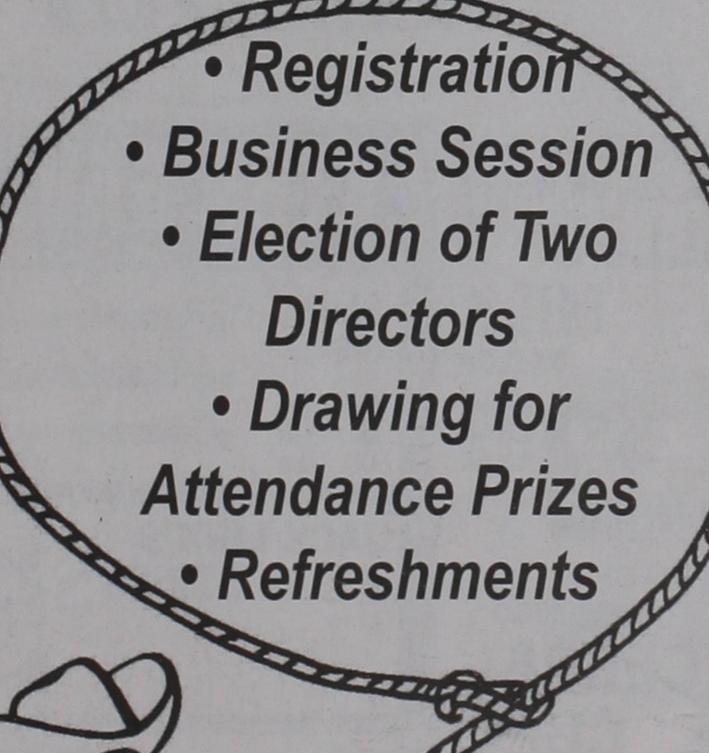

Be careful of false teachers. There are many who will tell you what you believe is fine. They want to remain popular or make a buck. Some have lost the moral courage to tell you the truth or they never

If you have the truth, then don't compromise it. Don't "tweak" it to make it more pleasing to others. There is only One we are to please and He's the judge of us all. Make sure you have His words that you will be judged by. Be assured, there is one doctrine or God is a liar. God would not give us doctrine that changes or can't be understood. There may be 3,000 religious groups with their different doctrines. The fact is, only one could be right and it could be all 3,000 are wrong, but it isn't logical that all 3,000 are right and acceptable to God.
