RAIN INTERFERED WITH CELEBRATION.

FORCED CHANGE OF PROGRAM BUT BARBECUE WAS A SUCCESS.

Hundreds of Visitors Here and Day Was One Merry Round—Artesia Won Ball Game—Grand Ball at Night.

Rain interfered with the Fourth of July celebration at Cotulla and there was a forced change in the program, but the barbecue was a success, nevertheless.

All arrangements for the day had been perfected for holding the festivities on the river grounds, but early on the morning of the Fourth rain set in and fell for more than an hour, filling up the pit and putting out the fire where the meat was being barbecued.

The grounds were in a fearful muddy condition and it was decided to move to the onion sheds, the use of which was kindly tendered by Agent Keeton. It was quite a job, but men was secured and the sheds cleared and tables put up and a short time things were sailing smoothly. The meat was hauled up in wagons from the river.

Col. W. A. H. Miller delivered an eloquent address at eleven o'clock and was listened to attentively by 500 people for an hour and a half. He was introduced by Rev. T. G. Woolls.

Dinner was served from one to two-thirty o'clock and there was an abundance to eat for everybody.

Everybody joined hands to make the day pass pleasantly and it did. As a usual thing, on such occasions, there are always some dissatisfied people, but on this day if there was a kick registered, we failed to hear of it.

After the rain in the morning it rained off and was extremely pleasant the balance of the day.

Visitors Won Ball Game.

The ball game between Artesia and Cotulla was called at 4 o'clock and the greater part of the crowd turned out to see it. Moynahan was in the box for Artesia and Davis for Cotulla. Both pitchers did good work. Wild base throwing let in most of the runs that were made on both sides. Cotulla scored first in the second inning. Artesia got in two runs in the third and one in the fourth. Cotulla also scored in the fourth. In the fifth each side scored twice, and after that it was a shut-out game. The score was 5 to 4 in favor of the visitors.

The line up was as follows:

Artesia, Cotulla,

Sinclair, c Neely,

Moynahan, p Davis,

Rowland, 2b Powell,

Dudley, 3b Armstrong,

Grand Ball at Court House.

The young men of the city gave a ball at the Court House at night that was a brilliant affair. An immense crowd was present and the affair passed off in a very pleasant manner. When the ball was at its height as many as one hundred couples were on the floor gliding to the time of the sweet music discoursed by Santollo's Mexican Band.

Poole's Side Wins Gun Shoot.

Immediately after the ball game there was a gun shoot, in which T. H. Poole's side carried off the prize, and Mr. Poole himself made the best record of the day.

considering the fact that of the participants had practiced in two years, some good shooting was done. The sides were as follows and out of a possible 24 pigeons each man broke as many as is designated below.

Ft. Worth, Texas, July 5.—

Our market this week has been in very bad condition on all classes of cattle except the prime good ones, which have sold steady to ten lower; but medium cattle are

25 to 40 cents lower than the close of last week and the trade on them is very slow, buyers not wanting them at all and it is almost impossible to get anything like a descent price for any class of steer cattle unless they are fat.

Top steers weighing from 1100 to 1300 pounds are selling from \$3.85 to \$4.40, but they must be fat; medium weight and fat \$3.25 to \$3.65; plain and half fat cattle \$2.75 to \$3.25; bulk of the butchers cows are selling from \$2.00 to \$2.40; cappers and cutters \$1.35 to \$1.85; veal calves, tops \$4.00 to \$4.50; mediums \$4.50 to \$4.00.

We would be glad to have you

write us at any time we can be of service to you in the way of giving you market information, etc.

The Fourth is past, and the people can now settle down to quiet life.

Col. C. G. Brewster of Laredo has been appointed United States Marshall of the Southern District of Texas to succeed W. M. Hanson, who resigned a short time ago.

The Glorious Fourth has gone down in history once more and the cannoncracker and small boy played as prominent a part in the great celebration as ever before.

Mr. B Weevil has got to do business mighty fast now to cheat Southwest Texas out of a cotton crop. It's mighty hard for even the boll weevil to keep Southwest Texas down.

In this issue of the RECORD is published three Amendments to the State Constitution to be voted on at the November election. Read and study them carefully so as to be able to vote on them intelligently when the time comes.

Rain came very near breaking up the barbecue at Cotulla, but where there's a will, there's a way, and despite the proposition that confronted the managers early in the day, everything was pulled off nicely. On account of the mud, the barbecue was not held on the river grounds, but under the onion sheds in town.

It is a curious coincidence that while the Armours were being denounced, Mr. Longworth, the President's new son-in-law, was the guest of Allison V. Armour on his yacht at Kiel, Germany. The family of Armour understands Mr. Roosevelt too well to think ill of him or members of his family on account of a little hocus pocus about the packing houses.

George Salmon Announces For Assessor on Independent Ticket.

G. G. Salmon, of Encinal, announces in this issue of the RECORD as a candidate for election to the office of Tax Assessor of La Salle county. Mr. Salmon is an independent candidate and is the first to come out on that ticket.

Everybody knows George Salmon. He has lived in La Salle almost since the county was organized and asks the voters to give his candidacy their consideration. He promises, if elected, to fulfill the duties of the office in a fair and square manner.

Panama to Date.

Congress with many misgivings has at last allowed the President to have his way and has voted for the lock type of canal. So there can be no further excuse if the work is not pushed with vigor. As the account stands to date there have been millions spent during the last two years and little if anything to show for it, as far as the work on the canal is concerned. The highest authority has told us, more than once, that the Republican party "does things," but all it has done at Panama is chiefly to spend money. Official reports from the isthmus show that the canal force has been merely "marking time." Up to March 31, 1906, there has been expended \$17,245,396, of which vast sum only \$2,071,36 has been paid for labor. The pay of the officials has been much greater than the man who really make the dirt fly.

Letter to Will Tarver,

Cotulla, Texas.

Dear Sir: There's twice as much horse in one horse—it may be a mare—as there is in two or three others together.

So with paints too. If a painter can do your job with 10 gallons Devoe for \$50; it'll take 12 15 or 20 of other paints; and the cost of a job is about \$5 a gallon, whatever the paint may be.

There are paints adulterated three-quarters—only one quart of paint in a gallon—he's got to paint four gallons of rubbish to get one gallon of paint. The worst horse you've got is as good as that paint, and he'll go as far.

The less-gallons paint is the paint, as the most-horse horse is the horse.

Yours truly,

WILLIAM HUTTON STEELE.

The subject of this sketch was born in Edinburgh, Scotland, May 11, 1842.

He was well educated and graduated at the University of Edinburgh at the age of 15. After that time, he travelled with his father in Germany and, later visited Canada and the United States but returned to Scotland and sailed for Australia where he was engaged in the sheep business for ten years with an uncle. He then returned to Scotland and sailed for America, landing at Galveston about 35 years ago.

After a time he invested in sheep and settled on Rancho Palo Alto, La Salle Co.

In May, 1877, he was married to Mrs. Jane Stuart Taylor, then living at Santiago, Dallas Co., but originally from Aberdeen, Scotland.

The Rancho Palo Alto, on which Mr. and Mrs. Steele live, was in the path of the Mexican and Indian raid of 1878.

Mr. Steele was away from home when the raiders came through but his brother, Mr. Jno. Steele and two of Mrs. Steele's children, George and Richard Taylor were killed and Mrs. Steele was shot but escaped in the brush with three little children.

After this raid, in which Mr. Steele lost many sheep and horses, he removed with his family to McMullen county where he bought a large sheep ranch. A few years later he visited his old home in Scotland but continued his ranch life till 1889 when he joined his family at Cotulla, to which place Mrs. Steele had come with children six years before for school privileges.

He became sick early in April this year and, in spite of medical skill and the tenderest nursing passed peacefully away about 9:30 p.m., Thursday, June 28th.

He was a man of sterling character, great industry and patient endurance and of the

integrity and kindness of heart.

His death is mourned by a host of friends all over this section of country. He was a member of the Presbyterian church here and gave testimony before and during his last illness to his love for the Bible and trust in Christ.

His wife, two daughters, Misses Christine and Mary, and three sons, William, James R. and Percy survive him.

His mother and four sisters also survive, the mother and three sisters in Scotland and one sister in New Zealand.

A Quick Acting Laxative.

Don't go to bed with a headache.

If you are suffering from Constipation, and your head throbs like a bass drum, take a dose of SALTE-NA, and get results inside of an hour. Then you can sleep peacefully, and get up in the morning refreshed and ready for a big day's work.

If you take cathartic pills at night, your sleep will be fitful, and you will dream of hobgoblins.

Cathartic pills are loaded with croton oil, and their harsh action on the bowels leaves you weak and exhausted.

SALTE-NA is a natural laxative that acts gently on the bowels.

It's an ideal cure for Headache, as it is entirely harmless, and unlike headache tablets and powders doesn't depress the heart's action.

Our local druggists tell us that SALTE-NA is the most popular remedy for Headaches and Constipation they have ever handled, and sales are growing by leaps and bounds.

It's sold in 10, 25 and 50 cent bottles.

All druggists keep it and recommend it.

Lecture at Court House.

Hon. J. P. Cranke of Laredo lectured at the Court House last night on "The American Citizen in Peace and War."

Owing to the stormy appearance of the weather the crowd present was not as large as it would have been. Early in the evening heavy rumblings of thunder could be heard in the West and frequent lightning flashes indicated rain, which began about 9 o'clock, and kept many away.

However, those who braved the weather were well repaid as the lecture was an eloquent and scholarly production. Those who failed to get there missed a rare treat.

Mr. Cranke represents the Laredo district in the Texas Legislature and is the editor of the leading Democratic paper on the border—The Laredo Daily Times. He is also Captain of the Milmo Rifles of the State Guard.

Returned From New York.

Matt Russell returned yesterday from nearly a month's absence in the East. Mr. Russell went to the dedication of the First Church of Christ Scientists at Boston, thence to New York City where he spent two weeks attending to some business matters and seeing the town. He also visited Plymouth Rock, Bunker Hill and several other points of interest, the Brooklyn Navy Yard being among them. Mr. Russell said from here he saw thirteen men of war and it was an inspiring sight. While he was doing the city he took in the underground and elevated railways and everything else that we don't have down here in Texas. Said he went to the top a 26 story skyscraper and expected that he could reach up and touch the little twinklers in the sky, but they looked just as far away as ever and to his surprise he saw another building towering higher still. It was 32 stories. Mr. Russell said some hot weather prevailed while he was there and it was easy to see why so many people fell victims to the heat. The tall buildings and narrow passage ways prevented the least circulation of breeze close to the earth. Naturally feeling interested Mr. Russell visited a number of commission houses to see how the onion market was. He said that Allen & Heard, leading commission men told him that Texas would almost put the Bermuda island growers out of the business, from the simple fact of the superior quality of the Texas grown onion. Onions were retailing there at ten cents a quart.

Mr. Russell said he was never treated finer in his life and he knew no reason for such special courtesies shown him, unless it was the fact that he was from Cotulla, Texas.

KILLED BY HORSE
FALLING ON HIM.

STEVE WALKER OF ENCINAL MET TRAGIC DEATH YESTERDAY EVENING.

Steve Walker of Encinal met a tragic death yesterday by his horse falling on him.

He was taking a bunch of steers out to the Buckley ranch and when about three miles from town he started to put one of the steers back in the herd that had ran out, and his horse fell, catching him underneath. He was picked up and at first it was thought that he was not seriously hurt. He was driven to town in a buggy and Dr. Motheral of this place sent for.

The young man rapidly began to get worse however, and blood ran from his mouth and nose. At four o'clock, just three hours after the accident happened he died. He was conscious up till almost the last.

Dr. Motheral stated to us that the young man's lungs were badly torn up and he was injured around the heart.
