FIRST MEETING OF CITY COUNCIL IN NEW COUNCIL CHAMBER--Councilmen Kenneth Heathington, left, Lindal Murray, Mayor W.B. LeVeque, Councilmen Alex Williams and Frank Ellis and City Manager Albert Field are pictured at the first meeting held by the City Council in their new meeting room

at the newly opened City Hall Tuesday morning. Although moving into the new building has not been completed, business is going on as usual. The doors opened on Muleshoe's newest addition Monday morning.

New Facility Opened Monday, October 27

Perhaps the beaming faces you see around Muleshoe this week belong to City Manager Albert Field, City Secretary June Smallwood, City Tax Assessor Harold Weyer or Maurine Hatchett, receptionist.

Or, the smiles could be on the faces of any of the four city councilmen or the mayor. A stray beam or two just might come from Chamber of Commerce Manager Jerry Hutton or C of C secretary, Mrs. J.W. Coppedge.

And, just what is the big occasion? Why, the new city hall is open for business!

Monday, October 27, amid packing crates and enormous boxes of paper and supplies, the new city hall opened officially for the first day of business at their new location.

This culminated months of anticipation since a bond issue in the amount of \$105,000 for the new building was authorized by voters.

On March 28, bids were opened for the new construction and Lampe Construction Co. of Lubbock was awarded the contract for construction of the city hall at the corner of South First and Avenue C.

Incorporated in the new building is a total of 5,052 square feet. Included in the 4,103 square feet on the ground floor are offices for the city manager, city secretary, a large business office, tax office, tax business office, record vault, council meeting chamber, public restrooms and three offices for the Muleshoe Chamber of Commerce.

A total of 949 square feet is included in the basement area. This space holds a coffee room, storage and mechanical equipment. The coffee room can be utilized as a small meeting room.

Dark paneling, carpet and vaulted ceilings in the chamber meeting room highlight the beautiful building. City Manager Albert Field feels that Muleshoe does not have to take a back seat to any community as far as having a lovely, useful building.

Open house will be set at a later date. The moving process continues this week, with normal day to day activities being carried out.

Tuesday morning, the Mayor, W.B. LeVeque, and the four Muleshoe City Council members, Lindal Murray, Kenneth Heathington, Alex Williams and Frank Ellis, met for the first time in the new chamber meeting room.

Discussed was the proposed new city park, the proposed library, and other items. Under lengthy discussion was the proposal by Pioneer Natural Gas Co. asking for a rate increase. Officials in Muleshoe had received copy of a resolution contesting the increase. The group protesting the action asked Muleshoe to join with them in being represented at the hearing before the Texas Railroad Commission to decide on a possible increase.

No action was taken at the meeting as councilmen asked Cont. on Page 3, Col. 7

Community Action Begins in County

Approximately 50 people attended a meeting which was held in the district courtroom in the Bailey County courthouse Monday night.

The group heard Howard Maddera, chief planner for the Lubbock-South Plains Regional Planning Commission of Hockley County present the program.

Maddera explained the functions and purposes of the Community Action Committee. According to Maddera, the Community Action Committee is for human resource development.

He stated that CAC develops programs which will help these people make a better adjustment in their own community.

The planner explained that CAC had been invited by the County Commissioners Court to come to Bailey County to make a study of the feasibility of establishing Neighborhood Centers in the County.

He said the format of CAC is to go to Commissioners Courts and tell them the nature of the desired action and ask for permission to work in the county. Emphasizing that it is on a 'permissive' basis only, the Commissioners do not 'run' the Centers once they are established, he added, the commissioners courts only allow the CAC to exist in the county.

In order for CAC to come into a county to operate, Maddera said interest and desire of the people who would be aided must be prevalent, as extensive studies will be made. He cited the fact that disadvantaged, or poor, people were not participating in the all youth in the area are cordially invited to join in the fun.

He said the CAC program helps with social, moral and citizenship of disadvantaged persons.

"CAC is best administered where these people are," he commented. "These Centers can help mold the people as they see their needs."

He said that such Centers stress Day Care for workers; children, adult basic education, pre-school or Head Start programs, citizenship instruction, sewing instruction, driver's education, and as a by-product, the Center seeks out problems and helps solve them.

Maddera said the Center Workers encourage education. They call on school drop-outs and encourage them to continue their education.

Other areas are helping with paying programs, handling abandoned property and working with the city and county on drainage problems, said the planner.

"People learn to express themselves in city councils and commissioners courts," he said.

"Before the CAC can operate," stated Maddera, "the com-

After Game Festivities Set By Church

Mack Moore, youth director at First Baptist Church has announced that the First Baptist Church will sponsor aftergame activities at the church Friday night.

Centered around the theme of "Spooksville" and carrying out the Halloween theme will be an autopsy room, House of Horror and a Fortune Teller. There will also be apple bobbing and other activities.

Moore said the celebration will end at all p.m. and that the all youth in the area are cordially invited to join in the fun.

With the football season for 1969 approaching the end, just four more games to be played, Girls' Varsity Basketball Coach Kerry Moore is preparing his high school girls' team for the upcoming season.

With regular season play beginning next Tuesday night at Cotton Center, a scrimmage has been set for Saturday afternoon in Muleshoe. At 2 p.m., the B team will play Farwell, and immediately following that game, the A team will play the Farwell A team girls.

Coach Moore has six starters back for his varsity team this year. Forwards are Ann Douglass, Debra Hays and Gayetta Gable, all seniors. Returning guards are Arlene Brown and Diane Washington, both seniors and Ricki Richardson, junior.

Another forward is Karen St. Clair, senior. Guards include Janis Head, junior; Sharon Davis, junior; Charlotte Wagon, senior and Brenda Scott,

community must justify the need before any action can be taken."

He said that at the present time, \$9,000 in Federal funds is available for Bailey County to open a reasonably good Neighborhood Center or to operate two part-time centers. A question and answer session followed, with several of those present commenting on the proposal. Pro and con statements were heard from those present before a vote was taken on whether or not to continue the study toward acquiring such Cont. on Page 3, Col. 7

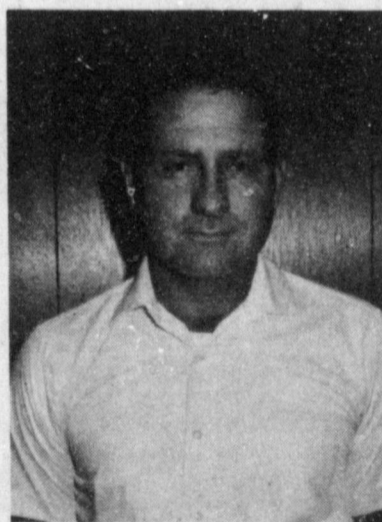

New Names Show In Football Contest

Duain Wheat, area farmer, edged out other contestants to take first place in the weekly football contest. He missed three games; Colorado-Missouri, the Stanford-UCLA tie and guessed SMU to de-

feat Texas Tech. His tie-breaker score was Tech 14, SMU 21, thus he was off 16 points on the tie breaker.

In second place was Paul Scott, also of Muleshoe. These two names showed up in the winners columns of the weekly contest for the first time this week. Scott missed four games; Colorado - Missouri, Stanford - UCLA, Oklahoma-Kansas State and Miami Florida-TCU. He was six points off on the tie breaker having shown Texas Tech as winner over SMU 24-21.

Others who missed four games and their tie-breaker scores are as follows: Tony Perez, seven; Ashley Davis, seven; Alton Epting, 10; Jim Young, 10; Danny Blaylock, 10; George Washington, 12; Mike Perez Sr., 12; Jim Small, 13; Gary King, 14; G.W. Dear Editor

Dear Sir,
On Sunday, October 26, you put a Dear Editor letter in the paper from a former Muleshoe High Student that had a lot to say but not the nerve to put a name. Let me say if everybody felt as this person does the U.S. would be in bad shape. I have a brother in the Army and I have volunteered about ten times and as for the small child that watches his father march off to war, when he or she is old enough to understand, can stand and say that their father was not one to stand and say the war is not right and that their father fought for a very good cause, The United States of America. Yes, there are a few people who care nothing for the U.S. and make their own use of the war.

From A Soldier In Vietnam Wondering. ---

(Note: Below is part of a letter received this week from SP/5 Roger Dale Williams who is serving in Vietnam. The 18-year old infantryman is the son to Mrs. Clea Creamer Williams of Muleshoe. He has been in Vietnam since March 1.)

by SP/5 Roger D. Williams

The sun is setting in this lonely, war torn land. It is time for evening and night to take over and to take a rest if possible. You have been on edge every day waiting for the enemy, wondering if they are going to strike.

The mighty sun is a blood-red color and it has tinted the clouds orange. Is it possibly for the blood shed that has happened today? Lord knows who has been wounded or killed in these bitter conflicts! It is pretty in one respect but very, very sorrowful in another. You must prepare for the night shadows and the dangers that lurk out there. Wondering-are they out there?

Now it is time for the night crews to come on. It is their job to keep the area safe from

the enemy while the day crews rest. It is a lonely feeling at night. You wonder what dangers are lurking out there in the dark. You are straining your eyes and ears for the smallest movement and sound. The almost quiet is everywhere and it makes it lonelier. You can hear an air strike or cannons in the distance, but no matter. They are far away from you. Occasionally, you hear shots fired from another bunker but no worry unless they are returned. Wondering if this will be the big fight or is it just a harassment trick?

It gives you time to sit back and think about home, your family, friends (if they aren't protesting), and especially that one special one; your girlfriend or wife. Lord, how you miss her so very much. You never knew how much you loved her until you came over here. Your love grows stronger every day and you can almost see and touch her in your dreams. Oh, what a lovely sight, her eyes, here smile, her hair. You remember the things you did together. The times when you went to the show, the times she cooked for you, or when you watched TV all night. Especially the time when she cried when you left. You had a job to do thousands of miles away. You know she is worried about you night and day, afraid that you might be hurt. How I look forward to coming home! Now the dawn is about to come

around and once-sleepy eyes are starting to open. The changing of the guard takes place and night crews are getting relieved by day crews. It is a time for rest and a prayer that nothing happened during the night and all is well. At last peaceful sleep is crawling upon you and you shower and shave then retire. Wondering will they hit while I am in bed undressed and half awake?

The day starts all over as the day before and all is running the same as before. What will happen during the days to come? Tonight? Tomorrow? That is the question that only God can answer! The only thing you can do now is wait, sleep, dream and wonder. What is man's destiny? I am pursuing my destiny where ever it leads me! Time is a forever thing and that is an everlasting thing! I am wondering what will happen next?

SOGGY STATE

Uncle Sam Can't Borrow Back What He Gave Away

PAUL HARVEY

When our output exceeds our income the upshot may be our downfall.

Our President has declared his intention to curtail extravagance--but, in foreign aid for example, spending decisions are being made by third- and fourth-echelon bureaucrats.

During fiscal 1970, you will still be "foreign aiding" 99 nations and 5 territories.

You are financing 4,408 projects and subprojects catered all over the world.

Many similar projects in the United States were closed down in fiscal 1969 for lack of funds--but not a single foreign-aid project was reduced by as much as \$1.

Many members of Congress were spared criticism during their summer vacation. Many, traveling abroad, were flattered and wined and dined by State Department personnel, each eager to perpetuate his share of the big handout.

Senators and congressmen who did visit their own constituencies found homefolks mollified by President Nixon's good intentions and thus less inclined to criticize.

The fact that President Nixon has asked a lesser appropriation than heretofore for foreign aid has obscured the fact that--with no new money appropriated--there'd still be almost \$19 billion in the pipelines headed that-way.

And new budget requests now before the Congress would add an additional \$11 billion.

Louisiana's Rep. Otto Passman, chairman of the foreign operations subcommittee on appropriations, recognizes the magnitude and effect of this continuing dollar drain.

You and I see and feel the effects of federal extravagance in cheaper dollars, higher prices.

Congressman Passman sees our nation threatened with bankruptcy.

Already the United States is borrowing money from 30 foreign nations. Example, Thailand. And you'd better sit down for this: We have sent Thailand more than a billion dollars in foreign aid of one sort or another.

While we were thus aiding Thailand, that country created for itself a surplus of more than \$1 billion.

Now Uncle Sam is in a bind, needs help, Thailand, after much diplomatic wrangling, finally agreed to loan us \$100 million--for 4 1/2 years at 6%.

I know that figures are not very entertaining. A wife doesn't like to listen when a husband reads off the check stubs and a husband resents hearing about household bills. Yet the responsible administration of our affairs requires an awareness of these economic facts of life, however unpleasant.

You see, short-term dollar claims against the United States now total \$35.67 billion. Short-term IOU's due now, if we should be called upon to pay what we owe, we couldn't.

Theft...

Cont. from page 1

Completing the list of a busy weekend was a car theft from a local church Sunday night.

When Narssia Otwell, daughter of Mr. and Mrs. Jerrell Otwell, left church Sunday night, she discovered her 1962 Falcon Fordor was missing.

Her car had been filled with gasoline earlier in the afternoon and she had her billfold and driver's license in the glove compartment.

At 12:45 a.m. Monday, the car was recovered at Sudan by the Sudan City Marshal. Taken into custody were three boys. One was a fourteen year old from Mulleshoe and the other two were 19 year old Sudan boys.

Allegedly the boys had taken the car from Mulleshoe, had driven to Lubbock to visit the father of one of the boys who had been injured in an accident a few hours earlier. After leaving Lubbock, the boys drove the car back to Sudan where they were apprehended by the Sudan officer.

Arrangement was held for the trio Monday afternoon in the office of Justice of the Peace Joe Vaughn.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, Texas-- A new 50-member governor's committee has launched an historic effort to improve relations among Texas ethnic and racial groups.

Governor Preston Smith called on Governor's Committee on Human Relations at its initial meeting last week to document the problem of discrimination "warts and all" and recommend a solution.

Secretary of State Martin Dies Jr. of Lufkin is chairman of widely-representative panel, which includes whites, blacks and Mexican-Americans and a diverse economic cross-section. Former Secretary of State Roy Barrera of San Antonio was named vice chairman and Mrs. M.J. Anderson of Austin, secretary.

"Racial blindness and intolerance in state government, local government, private industry and business and in every other place in which people come in contact with people must be overcome," Smith told the Committee. "Human relations problems do exist in Texas. That is why this committee is necessary." Smith pledged "any reasonable step" to help bring about "real and measurable improvements," and he called on all state agencies to "re-examine their employment practices, with a view to this worthy end."

Governor identified as obvious problem areas education, housing, employment, administration of justice, public facilities and services and consumer protection. Special subcommittees will be set up in most of these categories to begin study and investigation soon.

NEW STATE PARK AUTHORIZED--A sales contract was signed last week for a scenic new 4,775-acre state park in Blanco County.

Parks and Wildlife Commission agreed to pay \$200 an acre for land it once was offered free by Mr. and Mrs. C. A. Wheatley of San Antonio. Legislature in 1963 did not provide \$250,000, which the Wheatleys specified should be spent for development of the beautiful area, and state lost title to land.

Money for development now will come from the \$75 million parks bond issue and federal aid. Park is the second financed under the bond program. First was Dinosaur Valley in Somervell County. New area probably won't be open for a year, PWC indicated.

Air Control Board: William P. Hobby Jr. of Houston and Fred Hartman of Baytown; Herbert Wood Whitney of Corpus Christi was reappointed.

State Depository Board: Wallace H. Scott Jr. of Austin, Good Neighbor Commission: Dorrance Herbert Guy of El Paso.

Coordinating Board, Texas College and University System: Sam D. Young Jr. of El Paso and Wayne E. Thomas of Hereford.

University of Houston Board of Regents: Travis Camp Johnson.

School Land Board: Roman J. Bartosh of Taylor.

TRAIN HEARING SET--December hearings have been set by Texas Railroad Commission

on Missouri Pacific Railroad's request to eliminate the St. Louis Eagle which runs from Texarkana to Laredo, via Jacksontonville, Palestine, Austin and San Antonio.

Laredo hearing will be held December 1, San Antonio session December 3, Austin hearing December 5, Palestine hearing December 8 and Texarkana windup December 10.

AG OPINIONS--In giving notice of meetings of school boards and all other public agencies as required under the open sessions of law passed by the 61st Legislature, commissioners courts should itemize agenda topics, Atty. Gen. Crawford Martin has held.

In related opinion, Martin said county clerks may charge "a reasonable fee" to school districts for posting the required notices of their meetings.

In other recent opinions Martin held that: School districts cannot legally pay more to a teacher who is head of a household than to an identically-qualified teacher who is not.

State's basic law against speeding is constitutional.

District Attorney Hollis Garmon of Greenville is out of a job as d.a. because his home county (Hunt) was removed by the Legislature from the Eighth Judicial District and placed in the 196th.

A judge lacks the power to probate or suspend the automatic suspension of a driver's license following a conviction for driving-while-intoxicated unless the entire judgment of conviction and sentence are ^{not} vacated.

Resolutions of a junior college district board of trustees must be adopted by affirmative vote of a majority of all members.

State may pay premiums for property damage insurance coverage for Texas Highway Department employees within the limits of the new tort claims act.

A county-wide day school program cannot be paid for by the state during fiscal 1969-70.

Tax collectors and deputies are liable on bonds for loss through fraudulent or negligent issuance of a tax certificate.

EDUCATION -- Coordinating Board, Texas College and University System postponed action on a controversial staff recommendation to require needy students applying for Texas Opportunity Program Loans to produce co-signers of notes.

Proposal followed a report that some 40 per cent of students who have borrowed from the state bond fund since 1966 have skipped at least one payment. In all, \$2.6 million is delinquent of the \$6.5 million allocated since the loan program began. Opponents charged that requiring co-signers would cut very needy students off from aid.

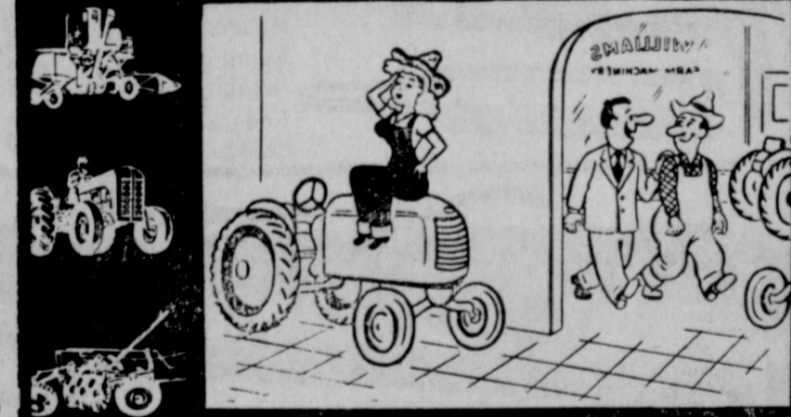

In other action, Board gave go-ahead to Scurry County for election on creation of a junior college district and a \$3.2 million bond issue in late November.

Board received a report showing that Texas college and university enrollments reached an all-time high of 399,599

Plans were made for the annual Thanksgiving dinner to be held the fourth Monday of November, the 24th. This meal is furnished for Senior Citizens each year by United Fund, Board members and their wives will be guests.

Berrys Have Great Grandson

Mr. and Mrs. Larry Sacra of Hialeah, Florida are parents of a seven pound, three ounce boy. He is the first great-grandchild of Mr. and Mrs. T.W. Berry of Muleshoe.

Richard Floyd Ray Sacra arrived October 25 at 2:45 p.m. His other great grandmother is Mrs. John Sacra of Lexington, Ky. Grandparents are Mr. and Mrs. Glen Berry of Richardson, Texas and Mrs. Fred Verge of Liverpool, Nova Scotia, Canada.

October is really a birthday month for the Berry family: Mrs. T.W. Berry, October 6, her son Glen, October 27; T.W. and son Allen Berry October 26; Bob Berry, Allen's son, October 29 and the little great grandson, October 25.

Mrs. T.W. Berry received a phone call from Florida saying little Ray, his mother Rose, and father Larry were all doing fine and would visit Muleshoe as soon as possible.

Never underestimate your own ability; others will do it for you.

Square Thru News

BY NELDA HUNT
Muleshoe Square Thru's feel there is no better time to square dance than when it is rainy weather and too wet to do anything else, Monday night, despite the weather and to the surprise of several members who braved the muddy roads, all but one couple of the Square Thru group were present, with several visitors also present.

Supermarket Credit Cards?

In a year or two, credit cards may be found in supermarkets if the present try-outs are successful, say Linda Jacobsen, Extension home management specialist at Texas A&M.

Two major chains are experimenting with them. Trials are to determine if shoppers prefer or like to use credit cards instead of cash in the supermarket and if the consumer will pay his bill after the food has been taken home and consumed.

This plan may be convenient, but similar to most plans, an 18 percent interest charge is added to bills not paid within the month.

the best and always look forward to their second and fourth Monday nights dancing.

Sherman Presley was wearing a lucky charm, I suppose, because both door prize numbers were in his hand when called. His refreshment time partner, LeAnn Gunnels, received the ladies' gift of square dance earrings and Sherman kept the man's gift, a square dance hand towel.
