

The Cotulla Record.

VOL 13, NO. 22

COTULLA, TEXAS, AUGUST 9, 1913

PUBLISHED WEEKLY

NO DEVELOPMENT IN MURDER CASE.

There has been no development in the Caudel murder case this week and the affair seems to be as much of a mystery as it appeared the morning after the killing.

If officers have any tangible evidence or clues that they are working on they have not given it out.

Mrs. Caudel, widow of the aged farmer, is very feeble and fears that an attempt will be made on the life of her son, although she probably has no just ground for this fear. As soon as matters can be arranged she expects to move back to Missouri. This is the first white man to be killed in La Salle county for a number of years.

LOCAL OPTION PETITION.

A petition is in circulation today which will be presented to the Commissioners Court Monday asking for a local option election to be called for Justice Precinct No. 1. We understand this petition was prompted by the action of a saloon man who has secured wholesale license and the use of a cold storage place, by which method liquor could be dispensed by wholesale after the closing of the saloons.

ONION GROWERS MEETING.

The annual meeting of the onion growers will be held at Laredo Tuesday, August 12th. Authority for rates will probably not be received in time but those going should take receipts for their tickets and get refund later.

CITATION BY PUBLICATION

J. T. Fulshear, Plaintiff, vs Mrs. Cynthia R. Burris, A. S. Burris, her husband, the unknown heirs of William Clary, deceased, George W. Clary and the unknown heirs of George W. Clary, deceased, Defendants.

In the District Court of La Salle county, Texas, 49th Judicial District.

The State of Texas: To the Sheriff or any Constable of La Salle County, Greeting:

You are hereby commanded that by making publication of this Citation in some newspaper published in the said County of La Salle, once in each week for eight consecutive weeks previous to the return the day hereof, you summons Mrs. Cynthia R. Burris, her husband, The Unknown heirs of William Clary, deceased, George W. Clary and the Unknown heirs of George W. Clary, the residence of each of whom is unknown, to be and appear at the next regular term of the District Court of the 49th. Judicial District of Texas, held in and for La Salle County, to be holden at the Court House of said La Salle County in the town of Cotulla on the 5th. Monday after the 1st. Monday in September, A. D. 1913, the same being the 6th. day of October, A. D. 1913 then and there to answer a petition filed in said Court on the 21st. day of March, A. D. 1913 in a suit num-

bered on the docket of said Court No. 1094, wherein J. T. Fulshear is Plaintiff and the said Mrs. Cynthia R. Burris and her husband A. S. Burris, the Unknown Heirs of William Clary, deceased, George W. Clary, and the Unknown Heirs of George W. Clary, deceased, are defendants, said petition alleging substantially as follows, to-wit:-

That the plaintiff is the owner in fee simple of the following described lands and premises, situated in La Salle County, Texas, and was such owner on the 1st. day of November, A. D. 1912, to-wit:-

All that certain tract, parcel or survey of land known as Survey No. 86, Cert. No. 121, Rusk Transportation Company, containing 640 acres of land more or less, being the same land awarded Dan DeSpain by the State of Texas by virtue of purchase and actual settlements as required by law in such cases made and provided, and being the same property conveyed to L. B. Haines by J. D. Abney by deed dated December, 24th, 1909 and recorded in book "V" on pages 438-9 of the Deed Records of La Salle County, Texas, said tract being situated on the waters of La Raices Creek a tributary of the Nueces River, beginning at a stake and mound set for the S. E. cor. of Sur. No. 85; thence N. 1900 to a stake and mound set for the S. W. cor. of Sur. No. 65 and S. W. cor. of Sur. No.

62; thence E. crossing Elm Creek 900 vrs. to stake for S. W. cor. of Sur. No. 62; thence S. crossing and Elm Creek 900 vrs. to a stake for S. E. cor. from which a mesquite 8 ins. in dia. brs. N. 10 vrs. a mesquite 10 ins. dia. brs. S. 23 1-2 E. 30 vrs. thence W. 1900 vrs. to place of beginning. That on or about the 1st. day of November, A. D. 1912, the defendants unlawfully entered upon said premises and ejected plaintiff therefrom, and unlawfully withheld from him the possession thereof, to his damage, ten thousand dollars.

Plaintiff sets out his title to said land and premises as follows:-

Application by Dan DeSpain to purchase said land address to the Commissioner of the General Land Office, accompanied by obligation to pay to the State of Texas \$936.00 on or before forty years from date, with interest payable annually at the rate of three per centum per annum, and with cash payment of one-fortieth of the purchase price, said application and obligation dated December, 6th. A. D. 1897 at Cotulla, Texas, indorsed by General Land Office as received December, 7th. 1897 and awarded April, 30th. 1898 by Baker, Commissioners General Land Office.

Quit Claim Deed executed by Dan DeSpain and wife, Ellen 14th day of Jan., A. D. 1902, conveying this tract as an undivided whole to W. D. Lee and Mrs. M. Clary.

Claim deed executed by W. D. Lee and Mrs. M. Clary, 12th day of Jan., 1902, conveying undivided one-half interest in said tract to R. A. Gilmer.

Quit claim deed, executed by Robert A. Gilmer, December Tenth, A. D., 1902, conveying to John H. Coleman his undivided one-half interest in said tract, and retaining vendor's lien to secure payment of one note for \$280.00 due six months after date dated Tenth day of December, A. D. 1902 signed by John H. Coleman, payable to Robert A. Gilmer and bearing eight per cent interest.

Release of said Vendor's lien by Mrs. Inez M. Gilmer, executrix, and B. Wildenthal, executor, of the estate of Robert A. Gilmer, deceased, executed by said parties sixteenth day of July, A. D. 1906, said parties having duly applied for probate of the last will and testament of Robert A. Gilmer, deceased, in the County Court of La Salle County, Texas, twenty seventh day of April, A. D., 1906, and said application having been granted by C. C. Thomas, County Judge of La Salle County, and said Mrs. Inez M. Gilmer and B. Wildenthal having been duly appointed by him executrix and executor respectively of said estate on the ninth day of July, A. D., 1906.

Warranty Deed executed by John H. Coleman and wife, M. E. Coleman, Twenty-seventh day of May, A. D., 1905, conveying to S. R. Anderson one-half undivided interest in the tract herein sued for.

Special Warranty Deed, executed by M. E. Clary, a feme sole, the twenty-seventh May, A. D., 1905, conveying to S. R. Anderson all of her undivided one-half interest in said Section 86, and warranting, "against every person whomsoever claiming or to claim the same or any part thereof by through or under me."

Warranty deed executed by S. R. Anderson and wife, Mary Anderson fifth day of July, A. D., 1906, conveying to J. D. Abney executor of the estate of N. T.

Abney, deceased, all of Section 86, retaining vendor's lien to secure payment of one note of even date due one year from date, for twelve hundred dollars (\$1200.00), signed by J. D. Abney, executor, payable to S. R. Anderson or order.

Transfer to Cotulla State Bank of said lien, executed by S. R. Anderson, twenty-third day of January, A. D., 1907.

Release of said lien executed by Cotulla State Bank to J. D. Abney, executor, fourth day of February, A. D., 1907.

Decree of partition, rendered in Dist Court, Hill Co., Texas, fourteenth day of February, A. D., 1908, setting aside to John D. Abney as his own individual property said Section 86, Certificate 121, Rusk Transportation Co., La Salle County, Texas, (besides other property) said decree being in conformity with the provisions of the will of Mrs. N. T. Abney, deceased, as recorded in deed records of La Salle County, Texas, Vol. "F-1," pages 386-389, and in conformity to report of commissioners of partition duly appointed in Cause No. 8056, District Court, Hill County, Texas.

Warranty deed executed by J. D. Abney twenty-fourth day of December, A. D. 1909, conveying to L. B. Haines all of section 86, Certificate No. 121, Rusk Tr., Co., La Salle County, Texas.

Warranty Deed executed by L. B. Haines and wife sixteenth day of October, A. D., 1912, conveying to J. T. Fulshear of the County of Guadalupe, State of Texas, all of section 86, Certificate No. 121, Rusk Tr., Co., La Salle County, Texas.

S. R. Anderson paid Mrs. M. E. Clary at the time he purchased from her the one-half interest in said section 96 owned by her, the full reasonable cash market value of said one-half interest at that time. At the time she sold such half interest the community estate of Mrs. M. E. Clary and her deceased husband, William Clary was hopelessly insolvent. J. D. Abney paid S. R. Anderson, at the time he purchased the section from him the full reasonable cash market value of same at that time. L. B. Haines paid J. D. Abney at the time he purchased the section from him the full reasonable cash market value of same at that time. J. T. Fulshear paid L. B. Haines at the time he purchased the section from him the full reasonable cash market value of same at that time.

The claim of the defendants so far as known to plaintiff is as follows:- they assert title to this land as the heirs of William Clary deceased, who was the father of George W. Clary and of Mrs. A. S. Burris, and was the husband of Mrs. M. E. Clary at the time that a one-half undivided interest in such land was conveyed to her; or in the event said George W. Clary is dead then his unknown heirs assert title by inheritance from or through him. William Clary died on the 28th. day of June A. D. 1903, intestate and said George W. Clary was at that time living. The deed of conveyance to Mrs. M. E. Clary failed to recite that it was conveyed to her as her separate property and, taking advantage of this omission, defendants would represent that it was community property of Mrs. M. E. Clary and William Clary, and that they are thereby entitled to the community interest of William Clary, deceased.

Plaintiff shows unto the court that section 86, Certificate 121, Rusk Transportation Company, La Salle County, Texas, nor an undivided interest therein, nor any interest, right or title whatever, legal or equitable, therein

was ever part of the community property of Mrs. M. E. Clary and William Clary, her husband, now deceased, but that in truth the one-half undivided interest in and to such tract conveyed to Mrs. M. E. Clary by Dan DeSpain on the fourteenth day of January A. D. 1902, was by them conveyed to her as her own sole and separate property, to be held forever by her for her own sole and separate use and benefit free from any other right, title or interest in any other person whatever, was bought by Mrs. M. E. Clary herself in her own name for herself for her sole and separate use and benefit, and was paid for entirely by her out of her own separate property.

If it should appear to the court that any of the separate funds of William Clary or any of the community funds of William Clary and Mrs. M. E. Clary were used in paying for said tract, plaintiff shows that such funds so used were a gift by William Clary to his wife, the said Mrs. M. E. Clary.

It is expressly or impliedly agreed and understood by and between Mrs. M. E. Clary and William Clary and the heirs of said William Clary and all other parties having an interest therein, that the interest in said section 86 conveyed to Mrs. M. E. Clary, whether purchased with separate funds of William Clary or community funds of William Clary and Mrs. M. E. Clary, or any other funds whatever, was to be and remain the sole and separate property of Mrs. M. E. Clary. The failure of the deed to recite or mention entirely to mistake or omission of one of the parties preparing said deed.

Plaintiff shows unto the Court that he and those in privity of estate with him, viz: his grantors have held peaceable and adverse possession of all the land and premises herein described since on or about the twenty-seventh day of May, A. D. 1905, during which period they have been cultivating, using and enjoying the same and have paid all taxes assessed against them; and that during this period they have been claiming under deeds duly registered in La Salle County, Texas.

Wherefore plaintiff prays judgement of the court that defendants be cited to appear and answer this petition and that plaintiff have judgment for the title and possession of said above described land and premises, and that writ of restitution issue, and for his damages and costs of suit, and for such other relief, special and general, legal and equitable as he may be justly entitled to in the premises.

Herein fail not, but have you before said court on the said first day of the next term thereof, of this writ, with your return thereon, showing how you have executed the same.

Witness: G. H. Knaggs, Clerk of the District Court of La Salle County, Texas.

Given under my hand and seal of said Court, at my office in the town of Cotulla, County of La Salle, State of Texas, on this the seventh day of August, A. D. 1913.

G. H. Knaggs, Clerk District Court, La Salle County, Texas.

Came to hand August 7th, 1913, at 4 o'clock p. m. and a publication of the above citation ordered made in the COTULLA RECORD.

Boy Gagged and Murdered.

Tied up like a trussed fowl and with a bullet hole in the head, the body of a boy about 14 years old was found in a clump of bushes in Morgan Park, a suburb of Chicago. In a pocket of the boy's trousers was a school certificate giving his name as Bernie Holstein, son of Daniel Holstein, a vegetable peddler. The boy is believed to have been murdered several days ago. The Holstein boy had been missing from his home for about a week.

MISS ZACHRY HOSTESS

Miss Zachry was at home to the Presbyterian Society and a few other friends, Thursday afternoon the last day of July. Fourteen members and two visitors responded to Miss Zachry's invitation, and were greeted with that charming natural manner, that soon makes the most timid guest feel comfortable, and at home. The house was inviting and cool, the large rooms being arranged with an idea for comfort. Soon the guests were busy with their regular work.

Miss Zachry was assisted with the devotions by Miss Burwell (the president) Miss Zachry reading the beautiful 107 Psalm and Miss Burwell conducted the regular Bible lesson, in a most able manner; showing preparation and ability.

The short talk on Heredity or the sins of the fathers given by Mrs. Graham was interesting, and appreciated. Practical pointed talks such as this, are very helpful in bringing out the main issue of each lesson. The social hour in this hospitable home was most delightful, every one enjoying themselves; completely forgetting the intolerable heat. The hostess served good cheer, ice cream and two kinds of cake, of her own making. Her Aide-de-Camp in serving was Mr. Elton Cox who has also mastered the fine art of pleasing.

The guests other than members were Mrs. Graham, Miss Mae Sullivan and Mr. Elton Cox.

The Baptist Ladies enjoyed a most profitable meeting, Tuesday afternoon, with Mrs. Jessie Talbot as hostess.

Fourteen of the members, responded to the Roll Call; and two visitors were cordially welcome. The visitors were Mrs. George Copp, and Georgia Jay.

The devotional period was enjoyed, with Miss Ophelia Shaw as leader. The regular Bible lesson was ably conducted by Miss Dossia Shaw. Everybody enjoyed the lesson, as each member knew the lesson perfectly.

After a short business session, Mrs. Talbot served Fruit Ice and delicious cocoa-nut, and caramel cakes.

The next meeting will be with Mrs. Will Tarver.

Telephone and Find Out

What was the weather report?
What is the market price of cotton?
Has my team left town?
Is there any freight for me?
Do you want to buy any butter or eggs?
When is the meeting?
Who was elected?

The telephone answers these and many other questions for thousands of farmers every day.

The cost of a telephone on your farm is small. The savings great. Our nearest manager will tell you about it or write to

THE Southwestern Telephone and Telephone Co. DALLAS, TEXAS

Miss Myrtle Rowland left Wednesday for San Antonio where she will remain with her brothers, until school opens in Asherton, where she will teach next year. Miss Rowland taught in the schools of Cotulla for 3 years, where she made a fine record as a teacher. She has also been very popular in social circles here, and her many friends bid her good bye with regret.

PAINT?

There are two good reasons for painting often-enough or even too-often. One, to look prosperous; two, to be so.

Nothing does one more credit or gives one more credit than paint, supplemented of course by what goes with it; and paint costs nothing.

True, the first cost is \$5 or \$6 a gallon put-on; but it saves more than that in the property; saves it from slow going-down-not always slow-it drops with a jump when water gets in on wood and iron.

Dry wood and iron costs nothing, kept dry by paint.

Better paint when it needs it. Paint never goes-down in the sense of being more profitable next year.

DEVOTE.

D. A. Walker of San Antonio was here during the week making arrangements for planting of another onion crop on the Bermuda farm.

"LIV-VER-LAX" FOR

SICK HEADACHE.

It is Your Inactive Liver and Clogged Bowels. Liv-ver-Lax is the Panacea For all Liver Troubles and Constipation.

You are bilious, your thirty feet of bowels become clogged up, poisonous gasses are generated in the bowels and thrown out in the system, your headaches, you have chills and fever, you are nervous and ill tempered, your system is full of bile not properly passed off, your disordered stomach and biliousness cannot be regulated until you remove the cause.

It is not your stomach's fault. Your stomach is as good as any.

Try Liv-ver-Lax, it is purely vegetable, do not resort to harsh physics and calomel which ruins the system and softens the bones. Liv-ver-Lax acts gently, yet positively on the liver, stomach and bowels, it is pleasant to take, and does not gripe or sicken.

It is recommended for grown ups and babies alike.

You will be surprised at the amount of bile a bottle of Liv-ver-Lax will clean out of your system.

Buy a regular 50c or \$1.00 bottle from N. C. Windrow's and be convinced on our guarantee.

Manufactured by Lebanon Co-operative Medicine Co., Lebanon Tenn.

None genuine without the likeness and signature of L. K. Grisby.

R. O. Gouger returned Sunday morning from San Antonio.

For Sale—Hay Press, all steel, capacity 450 bales per day. Call on H. G. Foster.

STRAYED—17 head of goats, one belled goat in bunch. Notify W. B. Gates, Loma Vista, Texas

NOTICE.

I beg to announce to the public that I have opened a garage on Front Street an am prepared to handle all kinds of automobile repair work, and solicit your business. All work guaranteed.

H. E. Plummer.

Kaffir Makes Best Ensilage

Kaffir ensilage, fed in connection with cotton seed meal, returned the largest profit in the calf feeding experiment just finished by the Kansas Agricultural College at Manhattan. Next in point of profit was the sweet sorghum ensilage.

The results of the feeding experiment were described in the college live stock pavillion to several hundred cattle feeders and members of live stock exchanges in Kansas City, St. Joseph, Chicago, and Omaha. It is the largest experiment previously conducted in this country in the winter maintenance of steers.

Five lots of high grade Hereford calves, ten to the lot, were fed one hundred days on the following rations:

Lot 1—Corn ensilage, according to appetite. One pound of cotton seed meal daily to the calf.

Lot 2—Kaffir ensilage, according to appetite. One pound of cotton seed meal.

Lot 3—Sorghum ensilage, according to appetite. One pound of cotton seed meal.

Lot 4—Corn ensilage according to appetite. Alfalfa hay according to appetite.

Lot 5—Alfalfa hay, according to appetite. Corn stover, according to appetite, and ration of 1.89 pounds of shelled corn daily.

The cost of feeding, including labor, was: Lot 1, \$55.05; lot 2, \$54.96; lot 3, \$54.94; lot 4, \$57.45; lot 5, \$59.56.

The profit by the lot was as follows: Lot 1, \$47.05; lot 2, \$60.46; lot 3, \$51.03; lot 4, \$48.04; lot 5, \$49.30. The calves are year old.

A Valuable Suggestion to Our Young Men

Don't spatter a pint of brain over the vast field of art, science and literature. Don't think a smattering of Greek and Latin Analytics and college yells make one a learned man or fits him for business, and don't hitch a business brain to a Greek lexicon. Many a man becomes nothing by trying to become all. The shot gun uses much more ammunition than the rifle, but it isn't half as effective except on little game.

The professions are all over crowded; it requires half a life time for one to succeed in them, and half a fortune to begin success. With business it is not so.

Get busy; do things; life is so short for business men to spend effort on dead languages and other things two thousand years old, when living issues and golden opportunities are calling them on.

The things that business men want you to know are taught in a university. They must be learned in a practical business training school like the Tyler Commercial College of Tyler, Texas. A school that has for years studied the demands of the business world, and with its own special prepared text books and "learn to do by doing" methods of teaching, are meeting them.

Their course of business administration and finance, Book-keeping, Shorthand and Telegraphy are thorough and complete and meet the demands of the business office. Young friends, there is no walk of life that you can pursue as successfully without a business training as with it.

Next week this paper will publish statements from many of American's greatest statesmen and business men as to the value of a business training.

Oh; You calomel, get out of the way and let LIV-VER-LAX do the work, purely vegetable.

LOCAL AND PERSONAL.

WHETHER YOU USE CALOMEL OR NOT

You Will Realize How Much Better for You This Safe Vegetable Remedy Will Be.

The liver is such a delicate organ that most people have learned from experience the danger of flogging it into action with the dangerous drug calomel. Gaddis' Pharmacy sells and recommends Dodson's Liver Tone, a pleasant-tasting, harmless vegetable liquid that encourages the liver, relieves constipation and biliousness without resolution of habit or diet.

There are no bad after-effects from taking Dodson's Liver Tone. It does just what it is intended to do and no more. Dodson's Liver Tone cannot harm either children or grown-ups and is an excellent preventive of chronic liver troubles.

Gaddis' Pharmacy sells Dodson's Liver Tone for 50 cents per bottle and every bottle sold is

guaranteed to give satisfaction, and you get your money back without a question if it fails you. Some remedies are sold in imitation of Dodson's Liver Tone—look out for them. Remember the guarantee.

For Sale—2 pair mules and harness; 1 iron wheel wagon, guaranteed to carry 10,000 pounds; smoke stack for 35 hp boiler, new, at half price.—Matt Russell.

When in need of Coffins, Caskets, Burial Robes, Complete Stock.

**ANOTHER MAN ARRESTED
 ON KIDNAPPING CHARGE**

Says He Threatened Her and Sent Velled Woman, Who Frightened Her Into Faint.

CHICAGO—A weird story related by a 17-year-old girl has resulted in the arrest of Frederick S. Mordant, a well known Chicagoan, on the charge of abduction. He will be given a hearing Aug. 5.

Josephine Selwood is the girl. About six weeks ago she was employed by a 17-year-old girl who was pretty enough to attract the attention of customers. One of these customers was a good looking young man whom she came to know as Jack Randolph. He invited her to lunch and took her to theaters. Finally he proposed marriage and she accepted him.

The marriage was performed, but the girl says she discovered it was a fake ceremony. She made efforts to break off her relations with the man and quit working at the store. The man began to write appealing letters, fifteen of which are now in the possession of the authorities. She answered none of them and he threatened her. One day a veiled woman stopped at her counter, persuaded her to go to the dining room, the girl says, and there she learned that unless she left the store with her she would kill her. She reinforced this threat by showing a pistol. Miss Selwood fainted. When she returned to consciousness the veiled woman with the pistol had disappeared.

Corroboration of the girl's story was difficult to obtain and the case probably would have been dropped had not Miss Selwood one day received a telephone message demanding she return the letters Randolph had written her. She told the person who made the demand the letters had been turned over to the Rev. C. Schmidt, pastor of the Church of the Sacred Heart.

That same day Father Schmidt received a telephone call asking for the letters. The day following the same person again telephoned the clergyman. This time he offered \$400 for the letters. The offer again was refused. On subsequent days new offers were made by telephone. The final offer for the return of the missives is said to have been \$600.

Then, Miss Selwood told the officers that one day when she was with Randolph in an automobile he ordered the car driven to an elevator building. She remembered the building. The man had gone to the top of the elevator. Without being seen by the man the girl had followed. She says she traced Mordant's office.

Detectives in charge of the case decided to take Mordant into custody. First, however, they sent the girl to identify him. She was veiled and accompanied by a woman detective. The detective asked "Is this the man?" The girl gave him a glance, murmured "Yes" in a whisper and burst into tears. Mordant and the officers immediately left Mordant under arrest.

"I never saw the girl before," says Mordant, who is out on bond. "So far as her story affects me it is a complete falsehood. For months I haven't been inside the store where she worked. I haven't been automobile riding with any woman for a year. My opinion is that the girl is just plain crazy."

**SING SING PRISON
 QUELLS FIRE PLOT**

OSNING, N. Y.—Following the removal of many of the unruly prisoners to Auburn comes a startling revelation of a plot to destroy the prison and liberate 1400 men. Four convicts told of the plot. Ten other prisoners were immediately locked in dark cells and 500 others were placed indefinitely on a diet of bread and water as a result of the disclosure. Sixty-five of the most desperate of the convicts will be removed to Auburn.

A fire was discovered in the cell house when Warden Clancy was preparing for the investigation. The smoke was traced to one of the cells, where a quantity of rags had been ignited. Cocaine and morphine, smuggled into "dope fiends" in the prison, were largely responsible for the outbreaks.

AT WORK ON MONEY BILL.

House Committee Approves Gatesville Training School Proposition. Austin.—The House Committee on Appropriations approved the estimates for the Gatesville Juvenile Training School after hearing a brief talk from Superintendent A. W. Edging. J. C. Neale, who was chairman of the board of water engineers September 1, also appeared before the committee with a request for sufficient funds to carry on the work of this new department.

The committee decided to eliminate an item of \$113,500 from the appropriation for the department of insurance and banking for the coming year, it having already been provided for by the regular session. The definition of the word "fire-proof" to be used in designating the kind of construction required by all buildings provided for in the pending bill, was adopted in the exact language used by the general basic schedules of the fire-rating board.

Hunt's Cure rapidly destroys Itch, Ring-worms, Itching Piles, Eczema, Tetter and like troubles. Under its influence the diseased cuticle scales off, leaving a smooth, white, healthy skin in its place. A wonderful remedy and only 50 cents a box.

**SOUTHERN PACIFIC R. R.
 ASKS FOR MEDIATION**

Appeal Is Sent to Commissioner Chambers by the Railroad.

Washington, D. C.—Commissioner Chambers of the Federal Board of Mediation today received a telegram from William Sproule, president of the Southern Pacific Railroad, asking the board to mediate a threatening strike of its conductors and trainmen.

The commissioner replied that he would be engaged for a time in the mediation of trouble brewing between the employees of the Chicago and Western Indiana Railroad, but would come to San Francisco as soon as he disposed of these cases.

The difficulties between the trainmen and the Southern Pacific are over the question of seniority of the men who are already employed and those who may be transferred to certain properties of the main railway that have been and are being electrified.

**AMERICAN TELLS OF
 BALKANS STATES WAR**

Ex-Senator Young of Iowa Reaches England From the Balkan Fighting Zone.

London, England, Aug. 2.—Former United States Senator Lafayette Young of Iowa arrived here from the Serbian army headquarters at Nash, which he left last Thursday. He told of weeks spent with Maddin Summers, United States consul at Belgrade, in the war zone, traveling in freight cars, sleeping on the ground because of a lack of tents, and eating black bread.

Young said that from the number of wounded men he saw the war in the Balkans must be the most brutal ever fought. Americans, he said, could not appreciate the intense hatred existing between the Bulgarians and Serbians and Greeks.

Beyond a report from Sofia that Turkey has expressed readiness to open peace negotiations with Bulgaria, there were no fresh developments in the Balkan situation today. It is officially announced from Bucharest that the advance guard of the Roumanian army has halted close to Sofia on the east.

RAISES FARM MORTGAGE

Government Spending \$8,000,000 for Water Under Loan Arrangement With Farmers.

WATERDOWN, S. D.—Viggo Eckstrom, who is living on a farm near here, is a widow of a victim of the Titanic disaster and recently received \$2,827.33, which is the amount apportioned to her and her six children from a fund collected in New York for those dependent on lost passengers of the ill-fated steamer. Mrs. Eckstrom's husband left her 360 acres of land but this was heavily encumbered and she was unable to pay off the mortgage and assist in the education of her children.

COLQUITT ORDERS OPOSED.

Objection to Convict Labor on Railroad to Be Made. Austin.—News from Sugarland is that 500 State convicts have been put to work at building a railroad from the State farm there to a connection with the Gulf, Colorado & Santa Fe Railway. This is the project Engineer Parker of the railroad commission was sent to investigate at the request of the prison board.

Governor Colquitt confirms the report that he directed Prison Commissioner Brahan to proceed with the work. Mr. Parker returned to Austin. He says his report will embrace only the number of ties required, cubic yards of dirt necessary to be moved, etc.

There is every probability, members of the Legislature say, a resolution to stop work will be offered. It is another phase of the prison system that is likely to engage attention and, possibly, be productive of overgrown politics.

**U. S. GOES AFTER
 "PHONE TRUSTS" GOAT**

Breaking Up Giant Monopoly on Pacific Coast Is Sought by Government.

PORTLAND, Ore.—The United States government has struck its first blow at the telephone trust by filing a suit here by which the Attorney General hopes to break up the giant monopoly on the Pacific coast held by the American Telephone and Telegraph Company (Western Union).

The government charges the company with absorbing independent telephone companies to destroy competition and asks for the restoration of competition. The court is asked to dissolve the combine and to enjoin any of the independent companies, Bell companies, by reducing rates below a paying basis, by giving free service and by threats, it is alleged, have forced independent companies to violate their contracts for connections and to give their business exclusively to Bell concerns.

Other suits are to be brought in the Middle West and elsewhere, in an effort to break the power of the trust.

MORE DYNAMITERS JAILED

CALUMET, Mich.—Dynamite became a factor in the copper mine strike tonight, arrests of eight alleged plotters being followed by rumors that the Portage Lake bridge connecting Hancock and Houghton was to be an object of attack. Guards of militiamen were posted at both ends of the structure and traffic was suspended.

The sheriff's office investigated reports that a considerable shipment of high explosives had been sent into the district, but the identities of persons suspected were not disclosed.

The eight arrests were made at the Red Jacket shaft near Calumet. Search of the prisoners revealed a capped and fused stick of dynamite. The officer who arrested this man said the prisoner had tried to apply a match as the party approached the guardhouse. It was believed the man intended to hurl the dynamite into the quarters of his captors.

Sheriff Hepth of Keweenaw County tonight made his first direct request for military aid to Colonel Heckel, in command of the Mohawk district. The sheriff said a powder house there was in danger of attack.

PRAYING PASTOR PINCHED

DAYTON, Ohio—With a Bible in his hands and in the act of delivering the invocation at the evening services in a local church, Rev. Virgil B. Slater of Youngstown, Ohio, was arrested by detectives on the charge of nonsupport of his wife and two children. Rev. Slater has been sought for several months by the Youngstown authorities. He came here about a year ago.

HUERTA WILL NOT BE RECOGNIZED

ARGUMENTS OF AMBASSADOR WILSON DO NOT SWAY PRESIDENT WILSON.

WILL ATTACK NUEVA LAREDO

Washington Hears Constitutionalists Are Mobilizing For That Purpose. Do La Barra Will Not Be Received If He Comes Representing Any Faction.

Felix Diaz to Return. City of Mexico, Aug. 3.—Reports received here tonight say Felix Diaz will abandon his "special mission" to Japan and will return to Mexico to oppose Huerta for the presidency.

Washington, D. C., Aug. 3.—President Wilson made it clear to those who discussed the Mexican situation with him today that he had not been swayed in the least degree by the arguments of Ambassador Henry Lane Wilson in favor of recognition of the Huerta government.

The coal bill for one of the largest Atlantic liners for one trip was \$25,000, or more than \$15 for each passenger.

GIRL UNDER BED MAN CALLS POLICE

NEW YORK—A reversal of the old story—that of an old maid finding a man under the bed—occurred here when Myer Kersch was horrified, on returning to his bachelor quarters after a day's work, to find a dainty little boot protruding from beneath his bed. He grasped it and pulled out a girl who says her name is Anna Weinstein. The police believe she is a clever burglar. She got into the room with a skeleton key.

HOUSE WANTS "NIX" ON MEXICAN AFFAIR

After Sharp Debate Amged Secession Disorder, the Burges Resolution Is Lost.

Austin, Tex., Aug. 3.—The House this morning declined to commit itself to any suggestion to the National Government about the Mexican situation by voting down both major and minority reports of the committee to which the Burges resolution had been referred. The resolution, which called for the enforcement of the Democratic platform demands for protection for American citizens abroad, was defeated by a vote of 154 to 102.

Other members were equally vehement in their effort to be left out of the Burges resolution. The minority report, recommending the defeat of the resolution, was beaten, Speaker Terrell casting the deciding vote, and the majority report in favor of the resolution was defeated, 54 to 62.

When Representative Harris of Paso the morning session began, he announced that he was going to propose some action on the Burges resolution, which has been before it more than a week. He refused repeated efforts by Mills, Long, Coffey and others to interrupt him with questions and at the close of his address moved the previous question. Wortham, in the chair, for the moment, sent in haste for Kennedy.

Twenty or more members were crowding down the aisles, all loudly demanding to be heard, and in the flood of contending claims Kennedy took heroic steps to straighten out the snarl. He finally obtained consent to allow the introduction of the minority committee report as a substitute for the majority report, and the debate assumed a more orderly character. The frequent use of the gavel and the authority of the sergeant at arms was necessary to keep down inopportune disturbances.

CHINESE REBELLION IS LOSING STRENGTH

Nanking and Cities of Soo Chow and Chinkiang Return to the Republic.

Washington, D. C., Aug. 3.—State Department reports today indicated that the rebellion in China is nearly ended. Gen. Huang Hsing fled on Monday from Nanking, which has returned to the allegiance of the North as have the cities of Soo Chow, Chinkiang and other districts in Kiang Su province. The southern forces North of the Yangtze River are reported to have resumed allegiance to the Peking government.

The legations at Peking reported that Hsiung Ling was confirmed by the national assembly as premier yesterday and that a new cabinet would be chosen.

Shanghai.—Everything was quiet here today and also at Chapel. The rebel forces in this district have dwindled to 1600. The Kiang Nan arsenal has been relieved by the arrival of 1000 government troops overland and it is believed that negotiations are in progress with the rebels for the cession of the Wu Sung forts.

SECRETARY GARRISON WANTS VOLUNTEERS

Secretary of War Garrison Outlines Some Plans in San Francisco Speech.

San Francisco, Aug. 3.—A big volunteer army to back up the regulars and the training of every enlisted man in a time, which will make him a useful citizen when his enlistment expires, were among the plans outlined by Secretary of War Garrison, speaking here today at a luncheon given in his honor by the Chamber of Commerce. Secretary Garrison and his party left tonight for Portland.

References by the secretary to the possible necessity of another "crisis" to wake up the people of the country, aroused much interest, but he refused to discuss the subject at luncheon.

FOUR FOUND MURDERED

MAN, WIFE AND THEIR TWIN CHILDREN DEAD.

Rumsey, Canada.—George Robinson and his wife, Maggie, and their two children, Alice and Matthew, both aged 12, were found dead at the Robinson farm home near here. All four had died from the effects of bullet wounds.

NO EXPENSES FOR MURRAY?

Comptroller Lane Thinks Law Will Not Allow Payment of Salary.

Austin.—Comptroller Lane expressed himself as having serious doubts that the law will permit the payment of salary and traveling expenses of Senator W. O. Murray, who has been appointed by the Governor as fiscal agent of the prison system, whose duties are to supervise the purchasing of supplies for the system.

ST. MAURICE, Switzerland—A

terrible sight was seen from Salvan. Three Alpine climbers were observed to be in difficulties and then to drop 3500 feet off the Salieres tower of the Dent-Du-Midi. They are believed to have been Frenchmen who ascended the peak without a guide.

VITALIZED MINERAL ORE

A NEW DISCOVERY—THE GIFT OF LIFE—A MONUMENT OF HEALTH—A HOOP TO THE SICK—A MINERAL SPRING AT YOUR DOOR.

An old miner digging away, day in and day out, year after year, in a dark, dreary, gloomy mine in the bowels of John's Mountain in the State of Georgia, accidentally discovered a mineral ore more valuable to him than the most dazzling, sparkling diamonds that ever glittered, for it gave him health.
This man was cured of rheumatism, stomach, kidney and bladder troubles of 19 years' duration by drinking the water which came from the ore bed from which this great mineral is taken.
Our object is to introduce to the afflicted this great natural mineral, which when used as directed, is an absolute cure for the diseases named in this article.
Send for testimonials of Texas people who have been cured of these troubles by using this Mineral Ore.
A month's treatment package sent postpaid for \$1.00.
Address all orders and money orders to

MISS BROWN'S MURDERER

Identity of Girl's Slayer Still Unknown and Apparently Has Escaped.

Dallas, Tex., Aug. 3.—Apparently baffled in every effort to run down the slayer of Miss Florence Brown, police detectives and deputy sheriffs who have been working on the case since the horrible murder in Dallas' business district last Monday morning have so far been unable to make an arrest on whom there lies a suspicion of guilt.
Jeff D. Robinson, uncle of the slain girl, in whose office she was murdered, reached Dallas Thursday morning from Colorado, where he was spending a brief vacation. He offered no testimony, so the detectives say, that will shed any light on the murder. Not an arrest has been made since the slaying of the girl, and all those suspicioned on that day were released.

The funeral of Miss Brown was conducted Thursday afternoon. It was one of the saddest affairs that Dallas has experienced. Many of the young woman's associates in church work attended the services in a body at the McKinney Avenue Baptist Church. Burial followed in the Oakland cemetery.

The floral offerings were without doubt the most beautiful ever offered here. Various rumors regarding an arrest are afloat. This is denied by the officers. Other rumors are that the officers are closing in on the slayer with a view of detention.

FI. ALLY GOES TO WORK

"Box Car" Riley Performs First Labor in Twelve Years.

Lima, Ohio, July 29.—"Box Car" Riley, Grand High Priest of the American Cult of Never Swear and King of the American Hobo, is performing his first manual labor in twelve years. Fascinated by the sight of race horses, the hobo left his cushion on the dumpers and took employment as a horse caretaker during the Lima meet prior to the Ohio Racing Circuit. Riley was a follower of the race track.

THE SILO.

An experiment recently concluded at the Agricultural & Mechanical College of Kansas has demonstrated that kaffir corn makes the best ensilage, sorghum coming next and corn third. The test was made in feeding one hundred calves, ten to the pen and ensilage made from different products fed in the different pens. The calves were fed one hundred days and in addition to the ensilage each calf was given one pound of cotton seed cake. The profit on the pen that was fed kaffir ensilage was \$60.46, against 51.03 for the sorghum ensilage and \$47.05 for the corn ensilage. This is no doubt good information for the farmers of this section of the country as a greater tonnage of kaffir can be grown with less moisture than any other crop, sorghum coming next.

One farmer told us this week that he had weighed up acre of this year's crop on his place and it ran 24 tons green. He was of the opinion that the average would easily go 20 tons per acre.

J. G. Childers, the man who introduced the silo in La Salle county, has made a contract with C. A. Goeth, a contract which we are told is to run ten years, agreeing to pay \$2 per ton for green kaffir, sorghum or corn, delivered to the silo, which is to be erected on the farm. The farmer is to cut and deliver the crop; the purchaser to cut it and put it in the silo.

and the product will be fed to steers right on the place. Mr. Woods, manager stated to the Record this week that one silo would be filled this fall and next year one hundred acres of kaffir would be planted. At least two cuttings can be figured on with at least an average of fifteen tons to the acre. The expense of growing this crop is very little. There is absolutely no loss in the harvest.

Mr. Childers thinks there will be a demand for all the ensilage that the farmers along the Nueces valley can put up. If they have not the stock to feed it to themselves and thereby get all the profit they should have, then traders and stockmen will utilize it and will be glad to get it. The maximum value of a ton of ensilage as placed by the government is \$6.

Along the Nueces valley we expect to see many silos erected even before the first of the year. The farmers are getting enthused over the matter and have been informing themselves on the subject recently. The first silo to go up in the valley was erected this week by Vick & Son and is now being filled with corn ensilage.

Let more silos and less onions be the slogan for this fall.

The news of the "resignation" of Ambassador Wilson was not a surprise to anyone. The events of the past few months have demonstrated that the Ambassador was out of harmony with the administration, and when he was called from Mexico City for a "conference" it was freely predicted that it was for the purpose of giving him his walking-papers, and so it turned out to be. If the Huerta government hoped the influence of the Ambassador would gain something for it, there has been been disappointment.

The RECORD acknowledges receipt of a vest-pocket directory of the sixty-third congress sent to us by Hon. Jno. N. Garner. The directory contains much information.

WHAT, WHEN AND HOW TO EAT

The Importance of Selecting, Combining and Proportioning Food.

By EUGENE CHRISTIAN, F. S. D.

(Copyright, 1913, by American Press Association.)

There are three common laws that govern all forms of animal life—namely, nutrition, motion, oxidation, or, in other words, eating, exercising and breathing. Both exercising and breathing are automatic processes; therefore they are done in accordance with nature, but it is different with our food.

Man has put into his stomach in some form or other nearly everything on the face of the earth, and his efforts have been crowned with a series of mistakes that are largely responsible for a condition of universal disease and a woeful shortening of life.

As this series of articles will deal largely with these mistakes and how to correct them, I will first take up the subject of nutrition—man's food. I will subdivide this subject into three parts—selecting, combining and proportioning.

In order to get the best results the diet must be selected so as to contain all the elements of nourishment the body needs. It must be combined so as to be chemically harmonious when mixed in the stomach, and it must be proportioned so that one is not overfed on some things and underfed on others. In other words, the diet must of should be balanced.

Man's Life is Too Short.

Man has existed a long time on this earth, and he thinks he has done fairly well without knowing or caring anything about these laws, but when we examine the mortality tables of all civilized countries we realize that there is something radically wrong.

The life period of mankind, reckoning from an age of six, is only a little over thirty-eight years, and if we take him from his infancy it brings his pe-

ing energy, while work is a process of expending energy, and we should make these two accounts balance. When they are balanced we are healthy; when they are unbalanced we are diseased.

Health is our natural condition, and the nearer we obey the laws of nutrition as above subdivided the more perfect our health will be and the more automatically all functions of the body will work. Correct eating, exercising and breathing, therefore, cure disease by establishing normal conditions, by removing its causes, thus permitting nature to give us our birthright, which is health.

Results of Wrong Food Combinations.
There are hundreds of chemicals so opposed to each other that they produce violent action when mixed together, and so it is with food. Every article of food we eat is composed of a definite chemistry; therefore to get the best results or the highest value (energy) out of what we eat our meals must be composed of things that are chemically harmonious.

The stomach serves two purposes—first, a mixing and testing crucible; second, a storehouse or depot.

It is estimated by the highest authorities that about 90 per cent of all human disease originates in the stomach; therefore if people knew how to select and combine their food so that every article composing the meal would be both nutritious and chemically harmonious it would do more to promote health and raise the standard of life than any other one thing known to science.

When several foods are eaten at the same meal that are not chemically harmonious nature pours into the stomach a large amount of hydrochloric acid, which produces fermentation. This is nature's way of neutralizing and getting rid of these opposing elements. Then we say the foods did not agree with the stomach when the facts are they did not agree with themselves.

Cause of Heart Trouble.

When there is too much hydrochloric acid in the stomach foods digest too quickly. This causes congestion in the upper intestines. The food, being supercharged with acid, undergoes a process of fermentation which generates gas. This gas accumulates in the transverse colon, and the pressure in this distended colon often causes an insufficient blood flow into the heart, hence the faint heart action, now and then skipping a beat. At other times it causes an excessive blood flow of arterial overflow, and then we have palpitation, dizziness and sometimes complete heart failure and death.

In addition to congestion and irregular heart action the excess acid causes irritation of the mucous membrane of intestinal lining, and the millions of

little nerve fibers that lead out from these irritated surfaces to every part of the body also become irritated and cause what we call nervousness.

The brain and the stomach bear the same relation to each other that a balloon bears to a basket. They are connected by thousands of nerves and capillary vessels; therefore when the stomach becomes irritated by acid the brain is the first organ to suffer. Then we have insomnia, nervousness, melancholia, lack of concentration, etc.

Results of Autointoxication.

There are only a few of the conditions caused by the wrong selections and combinations of food which, named in the order of their importance, are rheumatism, Bright's disease, gout, lumbago, diabetes, hardening of the arteries, enlargement of the liver, etc.

Autointoxication causes innumerable symptoms, such as anaemia, languor, drowsiness, impure blood, indicated by pimples or acne; melancholia, a lack of interest in things. That is, where we should be normally cheerful we are melancholy. Instead of being mentally bright and quick to comprehend, our mind is disturbed, wandering and dull, and we undergo a sort of general mental and physical let down.

There are a number of other conditions caused by the wrong selections and combinations of food which, named in the order of their importance, are rheumatism, Bright's disease, gout, lumbago, diabetes, hardening of the arteries, enlargement of the liver, etc.

Inasmuch as the true remedy for all diseases must be found in the field of their cause, it is obvious that the cure for these disorders lies in food. When I say cure I mean that scientific feeding will remove the primary causes, and nature will do the curing.

Disease is the Penalty.

Just as the state punishes a people who violate her criminal laws, so all disease is merely the penalty for violating natural laws. Nature, however, is more merciful than the state. She will forgive and cure if you will turn and obey her laws. This is the reason why the greatest thing toward the food question to find the causes as well as the cure for a majority of human disorders.

In this series of articles I endeavor to point out the combinations of food that common diseases and show causes can be removed and by the scientific use of food.

Health is the one thing we all desire, and, as this great prize of obeying or disobeying laws, let us examine man and if possible ascertain some of these causes.

Scientific feeding does not mean simplicity or dieting. It means simplicity, good living, clean food; it means knowledge of the natural laws governing and maintaining the body, which are overlooked on account of their simplicity.

Neglected wounds produce old sores and these in time develop ulcers which eat away the vitality.

Ballard's Snow Liniment

Is a Healing Remedy for All Ailments of the Flesh of Man and Beast.

The speed with which this splendid liniment heals up a bad wound or sore has surprised and pleased those who were accustomed to the slower and uncertain effect of less powerful remedies. It mends the lacerated flesh so quickly that there is but little time lost from work. In relieving rheumatic pains, neuralgia, sciatica, it has done and is doing a wonderful work. Many chronic victims of these diseases have found to their great satisfaction that it cures an attack in a fraction of the time required by the ordinary treatment.

It is equally effective in the flesh ailments of animals. Owners of blooded stock value it highly for two reasons: It heals sores and wounds quickly, and leaves no disfiguring scars.

This remedy is needed in every home. If its great power and efficacy was generally known, no family would be without it.

Price 25c, 50c and \$1.00 per Bottle.

THE BON-AVON SCHOOL

A Resident School for Girls Situated in One of the Most Beautiful Parts of Picturesque San Antonio.

Bonn-Avon derives its name from Bonn, Beethoven's birthplace, and Avon, (pronounced Avon) the historic river associated with the name of Shakespeare. This is significant, in that the school combines both musical and literary features.

The object of Bonn-Avon is to inculcate the highest ideals of womanhood and to provide for its pupils a refined home, where they may be developed into true gentlewomen, fitted for the best home and social relations. The constant aim is character building. Individual attention is the key note of the school which is made possible by the limited number of pupils taken. The pupils may devote themselves to any special line of study, pursue a regular course, or one preparatory to University.

The Building.
The building is fire proof, screened throughout, of solid brick and concrete, centrally located on a quiet residence street within walking distance from center of city, but easily accessible to the car. It consists of a basement, containing servants' and janitor's quarters, heating plant and coal bins; a first floor, comprising a spacious reception hall, two stair halls, with broad and easy stairs, parlors, music room, library, laboratory, art room, lavatories, cloak rooms, dining room in mission style, two pantries, kitchen, four large well equipped class or recitation rooms, which may be thrown into one large assembly hall by means of the latest improved rolling and folding partitions, and two extra or special class rooms. Front entrance loggia is tiled with large sized Spanish pattern tiles, and is approached by three sets of stone steps. Second floor contains a sitting room and quarters for the students, toilet rooms and an infirmary for sick pupils.

San Antonio.
Historic and beautiful San Antonio, which has poetically been called the "City of Missions and Memories," is well known for its delightful climate and many excellent schools, a fact which will appeal to parents who desire to send their children away for educational advantages.

It is also noted for its beautiful parks. The largest, Brackenridge park, in addition to the grand old trees draped with Spanish moss, is made especially attractive by an abundance of tropical and semi-tropical trees, shrubs, palms and flowers. San Pedro park is another attractive feature of the city. A large and well equipped Carnegie library is another advantage.

Lectures and Operas.
San Antonio affords many excellent opportunities for hearing good music, lectures, operas, etc. Among the attractions last season—were the following: Bohemian Girl; Madame Butterfly; Lucia di Lammermoor; Carmen; Il Trovatore; Tales of Hoffman; Lohengrin; Prof. Carter Troop's Lectures on Modern Dramatists; Dr. Banks' Lectures on the Far East; Ganz; Elena Gerhardt, Nordica, Bisham, Marsh and Bonel in Song Recital; Miss Noyes in reading from Poe; Woffington; Charlotte Walker in Trail of the Lonesome Pine; Every Woman and San Antonio Symphony Orchestra. Only the best plays will be attended. Art Exhibits.

Academic Department.
The Academic work is a twelve year course; Lower School, Primary and Intermediate, four years each; Upper School, four years.

We urge all pupils to take the prescribed course of study, but each one must enough work to occupy her time. Idle pupils are neither contented themselves nor do they exert a good influence on others.

Diplomas are given to those who complete the prescribed course and certificates to those who complete any one or more subjects, not branches of a subject.

Four years of language work is required. This may be two years of Latin, and two years of a modern language; two years German and two years French or Spanish, or four years of only one language. Conversation work is emphasized.

For those wishing to enter a University four years of Latin and two years of modern languages are required.

The English course is so planned, from the fifth grade on, that the pupil at the end of her work possesses a well selected student's library.

Our system of marking is as follows: Pupils making an average of 90 or over in each study for the entire year have their names entered on the honor roll.

The passing grade is 75. Between 65 and 75 the study can be made up by extra work. Below 65 denotes failure.

A grade of 80 in each study, in senior year, is necessary in order to obtain a diploma or certificate.

All conditions of seniors must be made up before February the first. Reports will be sent to parents or guardian at the end of each school month.

A note from parents is required in explanation of tardiness or absence; and, as the school sessions are brief, parents are urged to have their daughters prompt for all school duties.

Method in disposition of time, promptness and neatness are insisted upon as absolute essentials in the formation of a girl's character.

The possibility of gaining from instruction the greatest benefit must depend upon the clearness with which principles have been understood, and the thoroughness with which foundations have been laid. Towards clearness and thoroughness the methods are directed. To this end a system of frequent reviews has been adopted, by means of which the teacher constantly tests the ac-

curacy of the work done, and the pupil realizes, while her work is still fresh in her mind, where she has succeeded or where she has failed in mastering the underlying principles of her subject. Not only is the work, just completed, tested, but also its relation to previous study, and essentials are accumulated point by point. Note books are required in all class work.

Originality is encouraged, and in this school has been quite successful, as is shown by the fact, that the five senior plays given have been written by Bonn-Avon students.

School of Expression.
The course of instruction includes physical culture, as preparation for spontaneous gesture, voice training for purity, control, quality and strength; responsive drill, developing self-possession and power in expression through the cultivation of the imagination, and literary interpretation. The system of physical culture aims at the highest condition of health and beauty through such exercises as are authorized and required by the laws of the human economy.

A beautiful voice, the knowledge and the use of correct English, are of equally great value in conversation and in public speaking. The cultivation of the voice assures placing, focusing, purity and projection of tone, breath control, attack, flexibility, power, brilliancy, enunciation, pronunciation and tone phrasing.

To read aloud at sight from the world's great literature is, of itself, a rare training for the eye and mind, and the service of this ability in the home circle or among friends is not to be lightly estimated.

Drawing and Painting.
Pupils are taught drawing and painting in all mediums; charcoal, water colors, pastel, and oil, from still life, out of doors or from the living model.

In the beginning great stress is laid on correct drawing, construction and modeling, with breadth and simplicity from whatever the model may be. Pupils are not required to use charcoal alone in learning to draw, but a brush is put in their hands as soon as possible, as it becomes much easier for some to draw and construct that way, than with the point.

Color and composition, the two component parts of art, are from the first to the last continuously kept in mind, but without good workmanship the full charm is lost.

Mr. B. J. Onderdonk, an artist of note has charge of the department. His work is well known and he has studied with Wm. M. Chase, Carol Beckwith and A. H. Wyant (landscape). His work has been exhibited in the Pennsylvania Academy of Fine Arts and is represented in the permanent collection of the Dallas Art Association.

The San Antonio Art League holds several excellent exhibits a year, which aid the pupils in their work, and in an appreciation of art.

Home Life and Social Training.
It is our purpose to make the home life especially attractive, and with the co-operation of the pupils this can be accomplished. Each pupil is expected to use her accomplishments, musical and otherwise, in making the home life bright, cheerful and refined. We desire our students to improve their opportunities for social culture and refinement, and the rules and laws which govern the social world are carefully observed. We consider the cultivation of the social quality as necessary to the success in life as the cultivation of the intellect.

The recitations, recitals, etc., are planned to occupy the students' recreation hours and unoccupied evenings, and do not interfere with study and practice, as hours for these are carefully fixed and observed.

These social affairs are, of course, limited; for the elementary and secondary years are the years when capital is being accumulated—capital of health and of capacity for a sane and genuine enjoyment of life.

There is a social half hour every evening in the parlors after dinner, following evening prayers. Impromptu recitals are frequently given during this time, which stimulate an interest in the daily practice and contribute grace and ease in appearing in the more formal recitals.

Organizations.
There are two debating societies in the school to which all pupils in the Academic department belong. Joint debates are held once a month which teach the pupils parliamentary rules and alertness of thought and speech.

The interest of the Bonn-Avon pupils in children less fortunate than themselves, was shown three years ago when they organized a branch of the San Antonio Humane Society.

The students have manifested a most active interest in the work and the Sunday school collections are for this purpose. Besides this a donation is given to the Associated Charities at Thanksgiving and a Christmas tree for the poor children the week before the holidays. As far as possible the members make the presents for the tree.

Library.
The Nadine Grinnan Memorial Library was founded in December,

San Antonio

TEXAS' LEADING EDUCATIONAL CENTER

This page of announcements shows that San Antonio is supremely endowed with schools for your boy or girl will find a pleasant and cultured environment. Every care and influence is exercised conducive to correct, moral, mental and physical development. These are long established places of learning, from which many of our most prominent people have acquired the foundation of their success. Here Commercial, Musical and Classical education may be had under the most "out-of-the-state" schools. Send your children to San Antonio for their nearness; where you can closely watch their progress and keep within

J. T. CURRY, W. J. MOYES, F. L. RAMSDALL, Principals.

1910, in memory of the first graduate of Bonn-Avon school and president of its Alumnae. Her remembrance of her Alma Mater in her will has made it possible to add much to the efficiency and comfort of the library.

We have now a collection of one thousand volumes, to which new books are constantly being added. The Alumnae have decided to make as their annual gift, sections of the Wernicke book case, and the senior class either books or furnishings for the library.

Church Relations.
In Bonn-Avon there is a wholesome and invigorating atmosphere of scholarship, culture and true religion, without sign of sectarianism, and pupils attend the church of their parents' choice. The home is within walking distance of churches of all denominations, and pupils will be required to attend services once on Sunday. In case there are only two or three students attending a church, a suitable chaperon must be provided. Instruction in the Bible and its history is given. Morning and evening prayers are held daily.

In addition to the regular Sunday morning services, occasional vesper services are held on Sunday afternoons, which are conducted by ministers of different denominations. Among those preaching helpful and instructive sermons during the past year have been Rev. V. A. Goodbey, Travis Park Methodist church, Dr. Frederick Bowen, Madison Square Presbyterian church and Rev. Philip Cook, St. Marks Episcopal church.

Suggestions for Boarding Pupils.
The winter uniform is a tailored suit of dark navy blue serge and black Oxford cap. In the early fall and spring a plain tailored white corded blouse skirt is worn. With these skirts, plain tailored, long-sleeved shirt waists of linen or

lawn are worn. Adjustable standing white linen collars with black bows are worn with winter uniforms. A Dutch uniform collar is permitted with white suits during warmer season. Black gloves are worn with winter uniform and white gloves with white uniforms. Black high topped low heeled shoes will be worn with winter uniforms, white shoes or white Oxford ties with spring uniform. These uniforms are worn on all occasions except for school recitals and home receptions. One simple white lingerie dress is required for recitals, etc. No elaborate or expensive dresses will be allowed, as they are unnecessary and not in keeping with the conditions of school life. Winter uniforms will be purchased here after arrival of pupils. As far as possible we wish all dentistry work, dressmaking and shopping, except uniforms, to be attended to before reaching school. All spring and commencement dresses must be made and ready for wear before April the tenth. There must be of some soft white cotton material, made simply and with Dutch necks—cut no lower than the base of the neck.

As our number is limited, applications for rooms should be made at an early date. These will not be reserved until application is signed by parents or guardians responsible for payment of all dues.

The boarding department accommodates thirty-three pupils. Each year from six to eight younger girls have been received into the boarding home, some as young as eight years. These children receive special care and training and are among our most happy and contented pupils.

Urial Jones, Ezekiah Brown and John Peter Smith all say that Hunt's Lightning Oil stops Neuralgia, Rheumatism and other pains. Just try a 50c or 25c bottle from your druggist.

FEAR STEAMER LOST DEAD LETTERS AUCTION

Started From Baltimore April 5th Loaded With Dynamite—Last Seen on April 15.

London.—The British steamer Wynecric, which left Baltimore April 5, and Barbadoes April 15, for Guayaquil and Portland, Ore., before reported overdue, has now been posted at Lloyds' Underwriting Association as missing.

Baltimore, Md.—The Wynecric loaded fifty tons of dynamite at this port and sailed April 5, twenty-nine days after the dynamite ship Alumachine blew up in Baltimore Harbor. Captain Wilson of the Monadnick, which arrived here June 27, talked to Captain Bonner of the Wynecric at Barbadoes.

Captain Bonner had a crew of over thirty men and officers. His course after leaving Barbadoes was down the South American coast and around Cape Horn. The Wynecric was a steel screw steamer of 4921 tons gross, 393 feet long, 48 feet 7 inches beam and 28 feet molded depth.
