GARNER OUT ON "STILL HUNT."

Congressman Visits All Parts of His District Looking After His Political Fences.

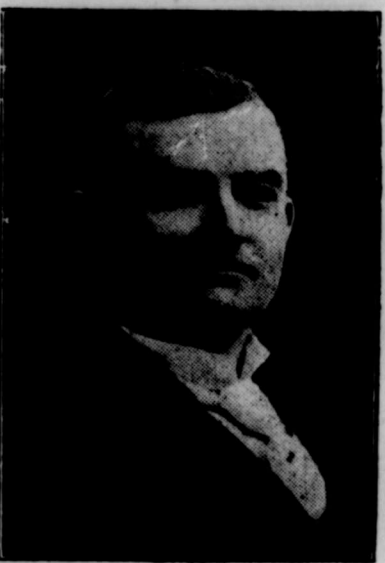

CONSTITUENCY PLEASSED.

John Nance Garner, Fifteenth District Congressman, in his rounds over the big slice of Texas that he represents in the National Capitol, spent a few hours in Cotulla Thursday. Mr. Garner made the trip from Laredo to San Antonio with Mr. and Mrs. T. A. Coleman, in Mr. Coleman's automobile. Accompanying the party from Encinal to Cotulla were Sam J. Jordan and Ralph Eads. Learning of the party's coming some ten or twelve of the Uvalde man's ardent supporters and friends ordered lunch at the Gilmer Hotel and met the party there on arrival.

Judge Garner is not on a speech making tour but "just patching up his fences" and doing a little still hunting, so to speak. In fact about this season of the year, he is in the habit of taking to the woods in quest of the fleet-footed and big antlered buck, but this year Col. Mason Maney up at Pearsall, is responsible for a change of plans, and he is out after different game. Mr. Maney has not yet announced for Congress, but has intimated that of late there has been a

large buzzard under his classification of Judge Hudson, by a Congressional bee. Mr. Garner says if he to have opposition, it might as well be Mr. Maney as any other good man, and since his recent tour of their

greater part of the district he is certain that his constituency appreciates his work in Congress and will so record it at the ballot box when the time comes.

While here Mr. Garner met scores of his friends. In fact, if the ballot of past years is taken as a criterion, pretty near every man in Cotulla is John Garner's friend, and they all met him Thursday with that cheerful "we are still with you John" smile, although some of them reminded him that they would like to see him in Cotulla more often.

Mr. Garner stated that he was uncertain as to the date when he would return to Washington.

Speaker to be in readiness to return at any minute. He declined to discuss the Mexican situation, further than to say that it was looking rather serious.

COUNTY VALUATIONS SHOW INCREASE.

Commissioners' Court Met Monday in Regular Session--Local Option Election Ordered

ASSESSOR'S ROLLS CHECKED

The November term of Commissioners Court convened Monday morning with the following present: Covey C. Thomas, County Judge, R. C. Sutton, J. W. Baylor, Commissioners, G. H. Knaggs, Clerk, B. Wildenthal, Deputy Sheriff.

The petition asking for local option election in Precinct No. 1, which laid over from the August term, was the first thing acted on by the Court. It was ordered that election be held Dec. 9th, with the following judges: John Sutton, Presiding, R. F. Knaggs, L. W. Gaddis and G. F. Jackson, associate judges.

The Assessor's Tax Rolls were examined and approved. They showed the total valuations of La Salle county to be \$4,852,624.00 an increase of about \$450,000.00 over last year: The total amount of taxes to be collected on current year's rolls is \$57,749.55, the county part of said amount being \$31,520.00.

Marketing Agreement Not Yet Reached.

W. A. Kerr, Director of the Southern Texas Truck Growers Association, representing the Cotulla district, returned home this week after attending a meeting of the board at Laredo to determine a method of marketing the next crop. Mr. Kerr stated that no agreements had yet been reached.

Some two weeks ago there was a meeting of the onion growers of Laredo held and about 85 per cent of the acreage was represented. After much discussion at this meeting, it was decided to submit the propositions for marketing the next crop to three bankers, and adopt the plan which in their judgement was the best. When the directors met they culled out the propositions until only four remained of ten. These four they submitted to the bankers who have the matter under advisement. Another meeting of the directors will be held next week and at that time it is expected that the bankers will have a recommendation to make.

National Representative Inspects Highways.

L. Westgood, vice-president and director of Highways, returned from Washington, D. C., accompanied by Maso Maney, president of the San Antonio-Laredo Highway Association passed through here yesterday evening on an inspection of the road between San Antonio and Laredo.

It was late when they arrived at Cotulla and remained here only a few minutes. They expected to make the run to Laredo and cover as much of the road before dark as possible.

Serious Charge Against Wealthy Operator.

Last evening at 6 o'clock at the conclusion of an examining trial which began at one o'clock Thursday evening, Justice Stedham bound over W. H. Millikin to await the action of the grand jury on a charge of criminal assault on a German woman.

Millikin's bond was placed at \$2,000 which was promptly made, being signed by his attorneys as sureties.

The accused is reputed to be a millionaire oil operator in Oklahoma and Mexico, and is the owner of 23,000 acres of land in La Salle county known as the Black ranch. The charge was filed Monday by a German tenant on Millikan's farm, the husband of the woman who is alleged to have been attacked.

Milliken, in a statement in his own behalf stated that he was a citizen of Ohio, a resident of Tampico, Mexico, and the owner of what is known as the Black ranch in La Salle county. He has been operating the ranch and farm here since about the first of the year.

The woman's testimony was supported by three other witnesses who alleged they were attracted by her cries for help. Millikin denied being present at the place where the assault is alleged to have been made.

B. Y. P. U. LECTURES AT BAPTIST CHURCH.

Rev. Jas. R. Magill, Field Secretary Began Work Sunday that Ended With Good Results.

45 MEMBERS ENROLLED

Sunday, Rev. Jas. R. Magill, Field Secretary of the Baptist Young Peoples' Union of Texas began a series of lectures at the Baptist church on the various phases of the B. Y. P. U. work. For the first services there was little interest shown, other than by the young people, but soon the fame of Rev. Magill as a speaker, became known, and he was then greeted with congregations far above the average for this time.

The work of the Manuel as used by all B. Y. P. U. organizations was covered thoroughly, and at various times considerable work of the Sunday School was injected in the lectures. The program of the meeting was to continue till Thursday, but on account of other engagements calling Rev. Magill he was compelled to close at Wednesday evening's service, at which time was had the ceremony of presentation of certificates of recognition, to a class of 45 who had been regular attendants at all services.

Rev. Magill stated that the B. Y. P. U. will mean much for the development of and advancement of the Baptist denomination in this section, and is planning to have every few months a series of lectures on young peoples' work similar to this, feeling that the development of the youth means much for the church and community in the future.

In spite of the dissatisfaction over the incorporation at Cotulla, the election held their last week showed that better judgment prevailed, and that instead of going backward the town will continue to move forward. Knocking out the incorporation would have given Cotulla a black eye.—Pearsall Leader.

THE BIG SALE!

The Big Sale put on Wednesday Nov. 12th by the Texas Mercantile Company, and which will close November 24, is everything that we hoped it to be. The first day we could hardly handle the people although our force of salesmen and salesladies was considerably increased. More help has been added and we want to say to you that you can get prompt attention. We want to thank the people of Cotulla and the surrounding country for the patronage given us and we are sure we have saved you money in the bargains we have given you.

Let us call your attention to the fact that the Sale lasts another entire week, and if you want your money to go farther than it ever went before in the purchase of every day needed merchandise, come here and see what we have to offer. Positively a Great Reduction in every line in the store. One of the great reasons we are making these great inducements is to get you to our store and get acquainted with you. We handle what you want, and the best way to impress that fact upon you is to get you here to see with your own eyes. In the future when you want anything you will come here to get it because you will know that we have it and that we will treat you right.

JACK RABBITS DOOMED

Texas County Votes to Exterminate Crop Destroyers.

Lubbock, Texas, Nov. 11.—The jack rabbit must go. Lubbock County has just held an election to decide whether to exterminate all the rabbits or not. Not having the right to vote, the rabbits lost by a large majority.

The county commissioners are preparing for the biggest rabbit "drive" ever held in the West. The pests have been destroying crops until the farmers complained emphatically that either the rabbit or the farmer must go.

WOULD BE A WISE STEP

Why Not Enable American Farmer to Double His Crops Every Year?

On some railroads it takes twelve years for a man to learn to run a limited express train. It takes three or four years to become a doctor, or \$10,000,000 to be used in the next ten years for teaching folks how to farm. Our lady of the snows never took a wiser step than this one and lawyer or preacher, after first having at least a fairly good education, tailors and even barbers must go through a long apprenticeship before they become the real thing.

But heretofore anybody has been good enough to be a farmer. The greatest of all American industries and the most vital one is open to any novice. If a man could pay for "forty acres and a cow," it was nobody's business if he derived only a third of the possible revenue from either.

Things seem to be changing. Here comes Canada with an appropriation Uncle Sam could as well spend \$250,000,000 in the next decade.

If good seed corn will produce on the same ground three times as big a crop as poor seed corn, it would look as if money spent in teaching farmers how to tell good from poor seed before planting it, could be fruitful of immense results.

Where can you find a chance for a bigger dividend-paying proposition than in teaching farmers how to double their crops? Since the consumer is more vitally concerned in this question than the producer, one might expect even compulsory education for farmers advocated by the cityites who pay so dearly for his food.—Philadelphia Ledger.

"The real issue is that the farmer will produce cattle as soon as he finds it a profitable business. He is not on the farm from charitable motives, but from business motives. The great question with him is: Will it pay? As long as crops are more salable than cattle, he will raise and sell crops. Once he is convinced that cattle are more salable than crops, he will raise both crops and cattle, and then sell the latter."

"We are doing many things such as have been suggested at the Chicago convention of beef packers. Chief among them is to increase the beef production by small farmers. The time has passed when this country can depend on the large ranches of the west for its meat supply. In the future we shall have to look to the small farmer—by whom I mean the farmer with average sized farms in New England, the middle Atlantic states, the south and the middle west. There is abundant opportunity in these sections to increase the number of cattle raised annually and the department is ready to assist."

"The cattle tick is being eradicated in the south and as soon as it goes entirely I look for that part of the country to find cattle raising most profitable. We now have 10,000 square miles in which the tick goes."

"The supply of hog meat, though not decreasing so rapidly as beef, leaves it has found a way in which to increase the supply materially. That is by the development of boy's corn clubs all over the country, and now have over 200,000 boys raising corn each year."

"Hard work is beneficial," says a physician. Of course it is—if the other fellow does not charge us too much for doing it.

The difference between an art, a profession, and a trade is that a man is nearly always able to make a living at a trade.

A Painless Headache.
Is there such a thing as Painless Headache, Painless Neuralgia, Painless Rheumatism? Hunt's Lightning Oil will make the pain go away, and the suffering cease. That's why Hunt's Lightning Oil is so popular, and so much so. Ask your druggist. (Adv.)

FUNK SAYS HE NEVER

KNEW MRS. HENNING
Repeats Sensational Lorimer Statement as Motive for Attack. State Rests Case.

Chicago, Nov. 11.—The State today rested its case against Daniel Donahoe and Isaac Steifel, the lawyer and detective, charged with having conspired to defame Clarence S. Funk.

Funk put the finishing touch today on the testimony for the prosecution by taking the witness stand and declaring that he never had seen Mrs. John C. Henning before she testified in this trial and disclosed what the State alleged to be the motive for the attacks on Funk by repeating a portion of his testimony in the Lorimer investigation.

The court would not allow Funk to testify that he had been watched by detectives, one of whom told him that he was in the employ of Edward Hines. The names of Hines and Lorimer were introduced when Funk reiterated his sensational statement before the Lorimer investigating committee, in which he declared that Hines had asked him for \$10,000 toward a \$100,000 fund that had been used to "put Lorimer over."

The reference to the Lorimer case was brief. John C. Henning, the former bell boy, and his wife, Josephine O'Reilly Henning, had testified on previous days that they had conspired to accuse Funk that they had B. H. Hennin, and they had accused Donahoe of directing the conspiracy. The Hennings had told of their flight an alibi in hiding and the collapse of the suit of Funk. Other testimony was given by hotel bell boys, who said they were hired to testify falsely.

An attempt was made by counsel for Steifel to have the charges against him dismissed on the ground that he was insufficiently implicated by the testimony. The motion was denied.

The defense was not ready to proceed this afternoon and will open its case tomorrow.

Investigation was begun into an alleged attempt to tamper with the jury. It was reported to Judge Pam that a man had approached an air shaft opposite the jury's hotel apartments an dtried to attract their attention.

400 TO WILSON WEDDING
Two Hundred and Fifty Invitations Sent to Washington Residents.

Washington, D. C., Nov. 11.—White House messengers were busy today distributing invitations to the wedding November 25 of Miss Jessie Wilson and Francis Bowes Sayre. About 400 invitations were sent out, approximately 250 of them being directed to residents of Washington. The Washington invitations were delivered by messengers from the White House, while the others were mailed. The invitation list is necessarily a long one, where the wedding will take place. The ambassadors and ministers in the diplomatic corps, members of the Cabinet and Supreme Court of the United States and prominent officials constitute the greater part of the invitation list, although many personal friends of both the Wilson and Sayre families are coming from various parts of the country.

PATTERSON'S CHANGE.

Malcolm R. Patterson, ex-governor of Tennessee, made a remarkable speech at Columbus, Ohio, the other day before the Anti-Saloon League National Convention. It was the first speech of the kind he ever made in his life. Patterson, as leader of the "wets" was elected governor of Tennessee two terms and during his administration tragedies that attracted nation wide attention were enacted. Patterson was the bitterest of the whiskey crowd leaders and in his executive capacity, there was no limit to his methods to gain and maintain supremacy, which makes all the more remarkable the complete change of front and the position he assumes today. Following is some extracts from the ex-governor's speech before the convention.

"The Anti-Saloon League and I have not always been friends. The paths we traveled were wide apart. They seem so parallel so that it looked incredible that they should ever meet. But they have met. The path I traveled turned in its course. It ran into the other, and we found ourselves in the same road, marching in the same direction, under the same flag, actuated by the same desire to destroy the traffic in liquor and redeem a nation from its curse."

"I am aware that to have suddenly changed the views of mature manhood, which I once asserted and proclaimed from one end of Tennessee to the other, has created surprise and comment. But I am sure to a world of change. Stagnation is decay and progress is the command of the age and the hope of morality. I am neither ashamed or abashed to stand before this great audience and acknowledge the wrong when I once advocated policies which would have made legal a trade which I have come to look upon as having no rightful place in the scheme and economy of Christian civilization."

"I say to you, fully conscious of the meaning and responsibility of the declaration, that if this message has encouraged lawlessness or ever been sought as a refuge for violators of the law, if it has to stand as my last expression for the liquor question, I would consume it in the living fire and erase it forever in the minds and memories of men," exclaimed Mr. Patterson. "My life has had deep sorrows. My soul has been tossed on the waves of angry seas. My nature has been profoundly touched and stirred."

"I have seen the trail of liquor in the criminal courts, where I have prosecuted crime. I know and have been a participant in its paralyzing and corroding influence in the social and public life of our national capital. As the Governor of Tennessee I have seen it a veritable and raging center of storm, around which gathered its defenders and assailants and from which sprang divisions in parties, disputes in families and dissensions in churches."

"Going through life I have seen it drag down many of the associates of my boyhood, blasting their hopes and consigning them to untimely graves. I have seen its forked lightning strike my first-born—the child of my young manhood—and I have borne with him the suffering and tried to help him in his brave, but sometimes melancholy struggle for redemption: At

last I have felt its foul and stealthy blow as it turned upon me in its deadly and shaming wrath—upon me, who had pleaded before the people for its very existence.

Men have called me strong; and while I could see its harm in others I thought myself immune, as thousands before my time have thought, and suffered for the thought.

"All this I know and felt without a revelation of the deep pathos and meaning of it all. I needed help, for I was groping and my feet were stumbling in the dark."

"When logic failed and reason gave no answer, I cast aside pride of opinion, all thought of what the world might say or think, and went to the throne of Almighty God, and there on bended knees, I asked for light and strength—and they came. The curtains of the night parted and the way was clear. I arose a much changed man."

"The saloon cannot produce one veracious witness in its favor as it stands indicted before the bar of public opinion."

"It stands a convicted felon and must receive the sentence of the law. It must go, never to return, and, with the going of the saloon, liquor itself should go."

"I favor prohibition in any form that will either reduce or destroy the liquor traffic. I favor it personal-wide, town-wide, state-wide, nation-wide and world-wide."

Asherton and Cotulla both vote on the disincorporation question this week. In both instances the proponents of the disincorporation idea claim dissatisfaction with the regime in power, or the work done by them, which amounts to the same thing. To the Javelin man that seems the flimsiest of the grounds. If inefficient officials are in power, put out the officials. It is easy

as disincorporate the city, and the bad results of the latter course much outweigh any advantages to be obtained. If the form of government adopted by the city is not satisfactory, it is not necessary to disincorporation to change, but the change to a commission form may be made direct from the present form of government. We don't live either in Asherton or Cotulla, but both are mighty nice places and we would dislike much to see a move made that would be a backward move in either town. Disincorporation is always a backward move, and we would persist in looking at those who desire to disincorporate a town where we live as being opposed to the best interests of the city, sincerely or otherwise.—Javelin.

'LIV-VER-LAX' FOR SICK HEADACHE.

It is Your Inactive Liver and Clogged Bowels. Liv-ver-Lax is the Panacea For all Liver Troubles and Constipation.

You are bilious, your thirty feet of bowels become clogged up, poisonous gasses are generated in the bowels and thrown out in the system, your head aches, you have chills and fever, you are nervous and ill tempered, your system is full of bile not properly passed off, your disordered stomach and biliousness cannot be regulated until you remove the cause.

It is not your stomach's fault. Your stomach is as good as any. Try Liv-ver-Lax, it is purely vegetable, do not resort to harsh physics and calomel which ruins the system and softens the bone. Liv-ver-Lax acts gently, yet positively on the liver, stomach and bowels, it is pleasant to take, and does not gripe or sicken.

It is recommended for grown ups and little children.

THE YOUTH'S COMPANION IN 1914.

Seven college presidents and a number of college instructors, including ex-President Taft, will contribute to The Youth's Companion during 1914.

Then there is Gene Stratton Porter, whose stories of Indiana woods and swamps have made her famous, and Kate Douglas Wiggin, who never wrote a dull line in her life, and Mrs. Burton Harrison, who remembers when conversation was really an art as practiced in Washington and in the manor houses of Virginia. And this is just a beginning of the list.

If you know The Companion, you have a pretty clear idea of what is in store for next year's readers. If you do not know, ask us to send you sample copies—for instance, those containing the opening chapters of Arthur Stanwood Pier's fine serial—"His Father's Son." Full announcement for 1914 will be sent with the sample copies.

For the year's subscription of \$2.00 there is included The Companion Practical Home Calendar for 1914, and all the issues of the paper for the remaining weeks of 1913, dating from the time the subscription is received.

GOOD BREEDING IMPORTANT

Live Stock Industry of Texas Built Up by Improved Blood.

The Fat Stock Show at Fort Worth, November 22-28, is one of the most potential agencies that is working for the upbuilding of the Texas livestock industry. It points out the pathway of progress to feeders and breeders and presents living lessons of profits and actual demonstrations of the advantages of higher types in classes and breeds. The scarcity of the world's meat supply has brought the livestock industry to the limelight and the necessity for increasing the herds and improving the grades is one of the

of the day. The Texas steer of a quarter of a century ago, compared with the present thoroughbreds, presents the most convincing argument in favor of good breeding the world possesses. From wild, dangerous and worthless beasts of the plains, they have become cultured, docile and profitable. These dumb brutes have so completely mastered the science of breeding that they have remodeled their shape, reformed their habits and rebuilt their character. Each generation has contributed toward the uplift of the breed, until today the cattle have more purple blood in their veins than any other family of the animal kingdom.

They can teach the human race many lessons in the science of improved lineage. By carefully conforming to the laws of nature, they have bred out deformities of flesh and blood. Their blood, which once made weak and scrubby stock, now produces rich and powerful thoroughbreds. Each breed is known by the color it keeps, by its distinct type and purpose in life.

This work has been accomplished largely through the instrumentality of the National Feeders' and Breeders' Show, which holds its Eighteenth annual meeting at Fort Worth on November 22-28, and new models and higher standards will be brought to the coming convention. During this time each annual meeting has gauged and registered the advancement of the livestock industry of Texas and it is here the leaders of all classes and breeds assemble to report progress to the management. Each year has been one of glorious triumph but, none will eclipse the present aggregation of thoroughbreds.

MANY NEW CLASSES.

Grass and Feeder Cattle and Jerseys Will Have Inning at Fort Worth Show From November 22 to 29.

Every livestock producer in Texas will find something to interest him at the National Feeders and Breeders Show, which will be held in Fort Worth November 22 to 29. Beginning on a comparatively small scale some eighteen years ago, the show has grown rapidly until today it is representative of every class and type of livestock that is produced in Texas.

More improvements have been made within the past year than ever before in its history. Many classes in all divisions have been added.

Prominent among the new classes are those for grass and feeder cattle.

These previous "youth" classes, National Feeders and Breeders' Show has specialized on fat cattle—the marketable kind—but it has been brought to the realization that the other classes had a right to substantial recognition. During the past two years, Fort Worth has leaped into prominence as the second greatest feeder market in the world. These added classes are expected to bring a host of new exhibitors and feeder buyers from all over the Southwest—in fact, the entire country—are being appraised of the exhibit and are expected to flock to Fort Worth by the hundreds during the show.

Realizing the growing importance of the Jersey industry in the Southwest—particularly in Texas—the management of the show has created classes for this kind of cattle this fall for the first time. Already, a number of entries have been received and it is expected that the exhibit will be the finest in the Jersey line ever witnessed in Texas. The Laster prize-winning herd, which has swept like wildfire through the shows of the North, will exhibit at Fort Worth alone of the big Texas shows this fall.

More than \$17,000 in prizes will be awarded at the great livestock exposition this fall, to say nothing of a prize list of more than \$8,000, which will be offered in the night Horse Show. This is the largest premium list yet issued and the exhibitors throughout the State are showing their appreciation by sending in their entries earlier than ever before. Despite the fact that the change of date from spring to fall will interfere at first with the bull sales of the producer, the step has met with almost unqualified approval.

SILLO.

The expressions of a farmer after having filled one silo of his own and helping the neighbors fill three more, finding silage all over the house after the hands and himself had eaten dinner.

Silage in the silo,
So very great and tall;
Silage in the kitchen,
Silage in the hall.

It goes up the blow pipe,
Like a shooting rocket;
And before you know what you're doing
The silage fills your pocket.

Silage in your whiskers,
Silage in your hair;
In fact, we have
Silage everywhere.

Now, where all this silage comes from,
I'll not undertake to tell you now;
We've nowhere else to put the silage,
So we'll put it in the cow.

Silage! Silage! Silage!
Until I hardly think I'm sane;
I really think I have
Silage on the brain.

The rest I've said is foolishness,
But it is facts I'll tell you now.
The salvation of the Nueces farmer,
Is silage and the cow.

They thought that we were joking,
When they heard it far and near,
But it's a fact the irrigation farmer raises
Three good feed crops a year.

SOCIETY
Mrs. C. B. Jones, Editor.

Miss Zachry and Mrs. Edd Traylor were hostess to the Wednesday Card Club, their substitutes, Mrs. A. Armstrong and Miss Mae Sullivan, and the following men, Friday night: Mr. Zachry, Mr. Traylor, Dick and Albert Knaggs, Jno. Wildenthal, Del Ballard, Orville Carr, Green Bobo, Mr. Childs, Dr. Wichman and Mr. B. Wildenthal. Six tables were played and the game of 500 was enjoyed until a late hour.

The score cards were white card board clubs, bearing the inscription 500: Mrs. B. Wildenthal, Jr., won the ladies prize, a drawn work handkerchief, and Mr. Ballard won the mens' prize, a pocket card case and cards. The hostess served sandwiches, pickles, cheese, nuts and dates, hot chocolate and whipped cream.

The Wednesday Afternoon Card Club met last week with Mrs. B. Wildenthal Jr. The visitors to the club were, Misses Alice and Jessie Copp. Three tables, and seven games were played. Miss Jessie Copp won the prize, a nail buffer. At the close of the games, the hostess passed Crab Salad in the shell, sandwiches and ice tea.

The Philathea Girls enjoyed a delightful social hour with Miss Imogene Lacy last Friday afternoon: After the lesson and business, Miss Lauretta Binkley and Miss Lacy gave several piano duets. The hostess served hot chocolate and sandwiches.

Mr. and Mrs. Henry Fullerton entertained at 6 o'clock dinner last Friday evening the boys of Mr. Fullerton's Sunday School Class. The boys who enjoyed their teachers hospitality were: Vernon Widener, Armstrong Poole, Vernon Widener, Frank and Miller Claunch and Clarke Jones.

A large crowd of the Presbyterian ladies enjoyed the drive to the pleasant home of Mrs. Arthur Riddle last Thursday.

The social hour was delightful, and the dainty lunch, and divinity candy delicious.

Mrs. Vernon Smith and little daughter spent last week's end with Mrs. Jno. Maltsberger at the ranch.

Farm Telephone Saved Child's Life

One of the Children fell into a water tank and was rescued unconscious and apparently lifeless.

The frantic mother telephoned to the doctor six miles away, and he started at once. In the meantime his assistant telephoned instructions and the mother restored the child to consciousness before the doctor arrived.

The Philathea Class met last Friday the 7th with Miss Imogene Lacy.

There were ten of the members present. Miss Lacy conducted the devotions. The class are anxiously awaiting the return of their leader, Mrs. Wichman, who is in El Paso, to assist them in developing their plans for a big Xmas candy sale.

The Methodist Ladies Society had their regular business meeting at the church Wednesday, the 5th. Mrs. T. R. Keck the President, conducted the devotions, also the business session. The heads of the different departments sent in good reports and the dues were collected.

The Presbyterian ladies enjoyed a pleasant time, and a very interesting meeting last Thursday afternoon with Mrs. Arthur Riddle and her mother, Mrs. Weldon.

Mrs. Weldon conducted the devotions reading the 24th Psalm. Mrs. J. H. Gallman taught the regular Bible lesson. This class are now studying in 1st Samuel. During the business period the society decided to send their Thanksgiving box to the Files Valley Orphanage at once. A nice contribution of money, new wearing apparel, etc., was contributed.

The society still have under discussion plans, for public entertainments this winter, and hope to succeed in getting 1 or two high class musicals.

Thursday the 20th, this society will give a Program on Christian Education, followed by a program on Ministerial Relief, on Thanksgiving day, Thursday, the 27th. Every member is requested to begin getting ready for a liberal contribution for Thanksgiving, a contribution for the aged and worn out ministers who have given the best years of their life in the service, and are now disabled, some of them sick and most of them very poor. Remember the contribution for Thanksgiving.

Program—"Christian Education," to be given by Presbyterian Society, Nov. 20th.

NEW DEPT. FOR S. S.

During the last month the Presbyterian Sunday School has added to its regular work two new Departments., that is Supts. for special work along the Missionary and Temperance line have been installed. The duty of these Supt's. will be to see that the children receive special instruction in both Temperance and Missionary work. The first program of the Temperance Dept. was held last Sunday and it proved interesting and instructive. We hope much good to come of these two moves.

The La Salle County Sunday School Association holds its closing meeting for 1913 at Millett on Friday 21st inst. This will make the fourth rally during the year and it will mark a year of progress for all Sunday Schools in La Salle County.

The association officers claim the work has reached a point where perfection should be the key word. Ideas have been advanced, plans have been made, new thought has been injected into the work all over the county. Now comes the hour to perfect plans, to work them out on a safe, sound and sane basis.

So far during the year each succeeding rally has been the best, therefore Millett is expecting the best for 1913. Much interest is being manifested among their local people and great preparations are being made.

The program will be full and of much interest to all Sunday Schools. There is to be considerable "new blood" (to La Salle Co.) used some of which bids fair to mark a new epoch in this closing meeting. The first session opens at 10:00 a. m. with one Round Table in the forenoon and five in the afternoon beginning at 2:30. Everybody is invited and will be made welcome.

DAMAGE CLAIMANT REPORTED MISSING.

According to report received here O. A. Arnold, alias R. L. Arnold, who was suing the I. & G. N. Railway Company for alleged personal damages, in the sum of \$60,000, is missing from Waldo, Ark., to which place he was carried from Palestine, following a district court trial here in which the jury failed to agree.

Perhaps no case ever tried here attracted more attention. Arnold was employed in the train service by the defendant company, and while at Grapeland, Dec. 10, 1912, alleged he was struck on the head by a falling door from a freight car and injured about the head. He was brought to the hospital here, and remained from Dec. 10 to Dec. 25, and was under observation by Dr. Jaameson, chief surgeon, and the other hospital doctors. Dr. Jameson reported that from his observation the man was faking. He was removed to his home in this city, and Attorneys Greenwood and Greenwood were employed by the wife of Arnold to bring suit for permanent injury, resulting in paralysis; it was alleged that the man had no feeling in his right side, could not see or talk. He was brought into court in July, and a week was spent on the trial, and it was a hard fought legal battle. He was brought to court on a stretcher, and all sorts of tests were applied to him. The case was diagnosed by his doctors as major hysteria, produced from injury to the brain. Drs. Jameson, Nash, Converse, H. R. Link, Colley and Glover of this city, testified that according to all the tests and in their judgment, there was nothing the matter with the man. But he maintained a condition that showed wonderful nerve and determination of purpose, if his assertions were true. The jury failed to agree and soon thereafter the man was taken to Waldo, Ark., where he had relatives. He was carried from the city on a stretcher.

But the railroad company did not lose sight of him, and last week Claim Agent O'Flynn for a small stipend paid to Arnold in cash, and a promise on the part of the railway company not to prosecute him, made compromise with Arnold, and it is alleged that he left Waldo as soon as he got the money, and his whereabouts is not now known.—Anderson County Herald.

U. S. IS READY FOR WAR IMMEDIATELY

Army and Navy Awaiting Word to Move on Mexico.

HUERTA COMPELLED TO RESIGN

President Wilson Demands That He Quit—No Aide Can Succeed Him.

Washington, D. C., Nov. 11.—For the first time in history, the United States is on a war footing in time of peace.
After many months of secret work, this country is in readiness for an immediate war, and at a moment's notice can arm and equip 500,000 men. The war plans of the army ordnance department have been worked out by Lieutenant Colonel J. T. Thompson. They call for the increasing of the regular army to its maximum limit and the mustering into regular service of the entire militia. Thompson has supplied the various locations of supply depots, letters and various orders that need only to be dated and signed to set the machinery of the ordnance department into motion. Other departments, such as engineers, signal corps and medical departments, are preparing similar systems. Instant mobilization is now possible, in the opinion of the general staff of the army.

Washington, D. C., Nov. 11.—General Victoriano Huerta, dictator of Mexico, must resign the presidency which he obtained by treachery and assassination. He must retire immediately and he must not leave as his successor General Aureliano Blanquet, his minister of war, or any other member of his official family or of the faction which he might be expected to control.

President Wilson conveyed this ultimatum to Huerta through Nelson O'Shaughnessy, the American charge d'affaires at Mexico City. The positive demand evidently took Huerta by surprise. He delayed his reply. The ultimatum left him two alternatives—refusal to comply or the elimination of himself officially.

The ultimatum is regarded by official Washington as the first step in the American program for which the United States had asked all nations to wait before they formulated any new policy toward Mexico.
Rebels Ask United States Aid.
President Wilson received a request from the Mexican revolutionists to obtain arms and ammunition in the United States. The request came from General Carranza through Dr. Henry Allen Trupper of the International Peace Forum, who is at Nogales, Arizona.

General Carranza asked that the embargo be lifted against the revolutionists obtaining arms in the United States. He asserted that with this help the revolutionists would be able to encompass the downfall of Huerta. A request also was received from Carranza through the same source asking that he be allowed to send a report of the revolutionists' progress to the United States.
The demand that Huerta resign was sent before he had made a report on the result of the farce election in Mexico. The general belief is that the step taken by the President was occasioned by alarming services of Huerta's plans with which the public had not been acquainted.
Has Prepared for War.
During the last few weeks the War Department has been preparing for possible strife. An unusually large number of specifications have been and are being sent out inviting bids for supplies of all kinds, particularly quartermaster's stores. The ordnance department has closed contracts recently for big supplies of powder. For some time the quartermaster's department has been making up a list of the merchant vessels and other privately owned vessels that can be converted into transports without much expense or delay. In fact the War Department and the Navy Department are not only ready to go into Mexico, but they have worked out plans, they have made arrangements to carry out those plans, and they are beginning to move inside of a half hour.

JAIL RUNAWAY HUSBANDS

Charities Conference Head Wants Measure Similar to Mann Act. Blames Wives for Many Desertions.

LaCrosse, Wis., Nov. 11.—"Some of the homes I have seen almost justify the husband in running away from them," declares Mrs. Catherine L. Van Wyck of Milwaukee, president of the State Conference on Charities and Corrections today. "The wife who does not know her job," she said, "must take her share of the blame for the many cases of wife desertion."
To teach woman her work, the teacher advocated compulsory domestic courses in the public schools.

Mrs. Van Wyck argued strongly for a federal fugitive husband law similar in operation to the Mann white slave law. She would have the government pursue the runaway husband and send him into the penitentiary whenever he crossed a state line. She urged legislation aimed to wipe out the practice of traps riding on trains. In practically every tramp, she said, was to be found a runaway husband.

Arkansas Minister Has Thirty-three Year Record.

Charleston, Ark., Nov. 11.—Elder J. N. Pennington has married 1,084 couples since entering the ministry in 1880. He wants to run his list to 1,100 before the close of the year.
Turn about is fair play—except when applied to a hand organ.

OLD CRIME MYSTERY IS FINALLY SOLVED

FATE OF RICH YOUTH LEARNED AFTER THIRTY YEARS.

New Yorker Who Inherited \$50,000 Went to Black Hills, Joined Outlaws and Was Lynched.

Sioux Falls, S. D., Nov. 11.—Through a visit just made to western New York City, representing the Children's Aid Society of that city, the mystery which for nearly thirty years enveloped the fate of Harry Tuttle, or Tutill, a young man from New York City, who had inherited the sum of \$50,000 from his parents, has been solved.
Tutill got into bad company, became a member of a notorious gang of horse thieves, and, after the members of the band had been killed or captured by a posse of officers, was taken from a hospital and lynched by men whose identity never was discovered.

The investigation reveals an interesting series of episodes in Western history. Tutill was a bright young man, absolutely lacking in any of the instincts which usually were associated with the "bad men" of those days, and must have drifted into such associations heedless of possible consequences and with a desire for excitement alone. He had the advantages of a good education and was the possessor of a fortune, but a desire to see and be a part of the Wild West led him into a life which could have only one ending.

Was Notorious Band.

The Exelbee gang was, perhaps, the most notorious of the many bands of outlaws which infested the Black Hills region. It was composed of such men as John Campbell, Billy McArthur, better known as "Billy the Kid," Charles Brown, or "Broncho Charley," and Alex Gray, with George Exelbee as chief. In the winter of 1883-84 the curtain finally dropped on the long and bloody career of the Exelbee gang. The outlaws in their extended raids had visited the Indian reservations on the Missouri River and stolen a lot of Indian ponies. This brought them into direct conflict with the authorities of the United States and proved their undoing. A warrant was placed in the hands of Deputy United States Marshal Raymond of Deadwood, who at once summoned a posse and started on the trail of the desperadoes. The outlaws, doubtless having been forewarned of the danger of being caught by the representative of Uncle Sam, packed their personal equipment and started toward Miles City, Montana.

One of the posses, composed of Fred A. Willard and Jack O'Harra of Spearfish, and Captain A. M. Willard of Deadwood, overtook the five mounted bandits at Stoneville, Mont., where a desperate battle between pursued and pursuers occurred, resulting in the death of one of the officers, Jack O'Harra, and the mortal wounding of each member of the gang except Exelbee, who escaped unscathed.

Upon discovering the quarry the officers circled around to the northward and climbed a little eminence where they could command the situation. Willard called to Exelbee, "I have a warrant for your arrest." Instantly the outlaws turned and faced the officers and the shooting began on both sides. Willard's first shot struck Campbell, who threw up his hands and fell from his horse. About the same time O'Harra was heard to exclaim, "I guess I am killed."

Die's Cursing Officers.
About the fourth shot Exelbee was seen to throw up his hands and fall from his horse. He was shot through the groin and dragged out a miserable four days' existence at a deserted cabin before surrendering to death. With his dying breath he cursed the officers who had surprised and outwitted him.

The officers soon discovered Billy McArthur, who had taken refuge near by, from which point he had shot and killed O'Harra. During the fight in addition to the wounding and killing of the outlaws, the three pack horses and two saddle horses were killed by stray bullets, two saddle horses being captured by the officers.

Tutill, who had sustained a shattered arm in the fight, was captured an taken to Spearfish, where he was placed in a crude frontier hospital. A physician examined his wound and decided that amputation of the shattered arm was necessary to save his life. The operation never was performed, for during the night a band of six masked and armed men entered the hospital where the sufferer lay, bound and gagged him and car-

ried him away, groaning with pain. The next morning his rigid body, clad only in a thin cotton shirt, was seen swinging like a pendulum from the limb of a tree.

WAR OF ALLIES A CRIME

Former Minister to Greece Schurman Lays the Blame at Door of Bulgaria.

Ithaca, N. Y., Nov. 11.—Speaking tonight in public for the first time on "The Situation in the Balkans" since his return from Athens, where he was formerly United States minister to Greece, President Jacob Gould Schurman of Cornell University characterized the Balkan war between the allies as a blunder and a crime.

"Bulgaria refused to arbitrate and resorted to force," he said. "It was a crime because she refused to recognize the rights of or to meet her allies in a friendly conference, and if necessary to submit their differences to arbitration. It was a blunder because the exposed enormous advantages already secured by Bulgaria to the arbitrament of the sword."

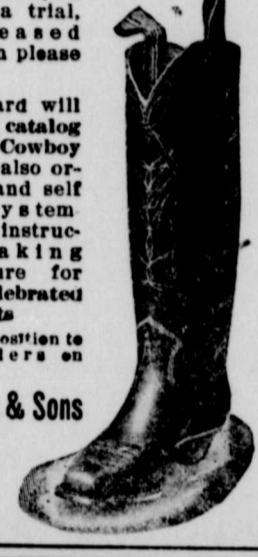

When a man begins by saying you are too wise to get caught for a sucker, look out! He is going to try a new kind of bait.

AWARD PRIZES IN DEC.

TEXAS INDUSTRIAL CONGRESS WILL AWARD PRIZES IN DECEMBER.

The fifth annual convention of the Texas Industrial Congress, at which prizes aggregating \$10,000 in gold will be given to the contestants who have obtained the largest yields of field crops per acre at the least expense, will be held at Dallas on December 13, in the convention hall of the Chamber of Commerce. At this meeting of members of the Congress and delegates from the State at large, besides awarding the prizes, a report will be made of the year's work, and the officers of the Congress will be elected for 1914. The railroads of the State are expected to grant reduced rates to the convention as heretofore. The Congress began the contest at the commencement of the growing season with 10,869 contestants located in 215 counties. Reports of yields and expense of production will be received until November 15, and are being tabulated and checked up as fast as they come in. The following is the list of prizes to be awarded:

Class A—Four-Crop Model Demonstration Farm.
For the largest combined yields of merchantable crops, cost of production considered, produced on four-acre plots cultivated in cowpeas (the vines to be plowed under at maturity), kaffir or milo, cotton and corn, \$3,000 in 25 prizes. First prize, \$1,000; second prize, \$500; third prize, \$250; fourth prize, \$150; fifth prize, \$100. Twenty prizes of \$50 each for the twenty next best results.

Class B—Boys' and Girls' Texas Corn Club.
For the largest yields of corn grown on one acre, cost of production considered, \$2,500 in 25 prizes. First prize, \$500; second prize, \$300; third prize, \$250; fourth prize, \$125; fifth prize, \$75; fifty prizes of \$25 each for the fifty next best results.

Class C—Boys and Girls' Texas Cotton Club.
For the largest yields of middling cotton grown on one acre, cost of production considered, \$2,500 in 55 prizes. First prize, \$500; second prize, \$300; third prize, \$250; fourth prize, \$125; fifth prize, \$75; fifty prizes of \$25 each for the fifty next best results.

Special Combination Prize.
To any contestant entered in both Class B and C, winning first prize in each class, a special award of \$500.

Class D—Unirrigated Forage Crops.
For the largest yields, cost of production considered, from two acres of either kaffir or milo, \$1,000 in 12 prizes. First prize, \$300; second prize, \$200; ten prizes of \$50 each for the ten next best results.

Class E—Irrigated Forage Crops.
For the largest yields, cost of production considered, from two acres of kaffir or milo, irrigated, \$1,000

TWO KINDS OF PEOPLE

Everybody Either Likes or Dislikes Cats With Absolute Positiveness.
Seattle Post-Intelligencer.

If any occasion arose for a sudden division of the world, it could be achieved by the introduction of the subject of cats. Either one likes or dislikes cats. There seems to be no middle ground of tolerance in matters feline, but it would be hard to say which party is in numerical supremacy, although cat shows are always well attended. The cat, all things considered, is perhaps the most wonderfully effective of all the animals that man has brought into companionship with himself. The cat has gone further on less than has even the dog, man's best friend, and the horse, his one-time servant. The cat makes no concessions to man, gives him no affection, no sign of intelligence, and will perform no duty or service, yet lives in luxury and by all accounts thrives. Once upon a time cats caught mice and rats, and to a limited extent this is their avocation at present, but even in the days of their greatest usefulness their value to man was only an accident of appetite.

Disdainful and selfish, the cat was worshipped back in the comparatively early Egyptian days, and, showing the same wild bred contempt for humanity today, the cat accepts such tributes as are paid as a matter of divine right, with a ready claw for any disrespect.

Some people doubt the intelligence of cats, but feline history is one of the keenest intelligence. Anybody may become popular by putting himself to pains as does the ever-faithful dog. That does not require brains, merely a sort of soft, easy-going affection and a tendency to obedience. The cat has never stooped to any of the common arts of popularity. She caught her mice and ate them because she was hungry, and not to accommodate man, and on the strength of this service she has boarded with men ever since as an equal. Never has she recognized man or woman as master; never has she flattered or cajoled; never has she lowered her dignity to human being, and yet she sleeps inside, behind the warm stove, while the willing dog shivers outside in the rain. To do this requires brains and tact of a high order, and these attributes must be conceded to the cat. She is the only animal smart enough to impose on man.

In 12 prizes: First prize, \$300; second prize, \$200. Ten prizes of \$50 each for the ten next best results. In addition to these cash prizes, nineteen scholarships, offered by University of Texas, will be awarded to successful contestants. Every time a man loses money he loses a little more confidence in humanity.

FINDS GOLD; LOSES ON FLIP OF A CENT

ALASKA PROSPECTOR BEATEN BY HIS PARTNER.

Ground All Staked Within Three Weeks After Strike at Marshall City, on Yukon

Seattle, Wash., Nov. 11.—How two Alaska prospectors flipped a cent for discovery claim at the new gold diggings near Marshall City, on the Yukon River, is told by W. T. Ogler, a California mining man, the first arrival in Seattle from the reported new strike. Ogler is on his way south for the winter.

"Too little work has been done so far to warrant a statement on the diggings," said Ogler, "but if nothing else it may develop into a good dredging proposition. The strike was made by a man named Rhodes, but he flipped a cent with his partner, 'Shorty' Gletchen, for discovery claim and lost it.

"The only gold has been found eight miles from Marshall City on Wilson Creek, where the creek has washed into a gravel bank. About six feet of gravel showed at this point. The discovery was made too late to do much work this year and when I left only about 6 cents a pan was taken out at this point."

Three weeks after the discovery was reported the entire locality was staked, according to Ogler. Marshall City is a little more than 300 miles from Nome. Wilson Creek is about twelve miles long. W. W. Johnson, a dredge owner of Nome, has sent men in with a test drill, expecting to put in a dredge next spring if it seems worth while.

4 AGES LEAD TO MADNESS

Man Bets All Money, Is Fleeced and Goes Insane.

Bottineau, N. D., Nov. 11.—Four ages that were dealt him in a poker game at Minot when he was the victim selected by a trio of card sharps are believed to be responsible for the insanity of John A. Hahn, placed in jail here when he became violent. When Hahn received the four ages he bet all the money he had and wanted to wager more. It was agreed that the several hands should be sealed up until he could get the additional cash. Hahn wired here for \$175, which was sent him. After the receipt of the money, which, it is said, the sharps took, together with his original \$19, Hahn notified the authorities that he had been drugged. The men got away with the cash.

RAILWAY REACHES MATHIS

Mathis Celebrates Entrance of San Antonio, Uvalde & Gulf Line.

Mathis, Texas, Nov. 11.—The San Antonio, Uvalde & Gulf Railway completed tracklaying into this place Wednesday. The event was celebrated with appropriate ceremony by a large crowd of citizens headed by a brass band.

The advent of this railroad marks the beginning of an era of rapid development for this section, and when the line is completed to Corpus Christi, in a few weeks, Mathis will have excellent transportation facilities and fine prospects for rapid and substantial growth.

FREAK LAW IN TENNESSEE.
Error Prohibits Owners of Cattle From Running at Large.
Nashville, Tenn., Nov. 11.—An error of engraving that was not discovered by either the Speaker of the House, Speaker of the Senate or the Governor has placed a law upon the statute books of Tennessee prohibiting the owners of live stock in Lawrence County from running at large. The law was intended to apply to live stock and not to their owners.

FINDER OF \$2,000 OUT 6 CENTS.
He Has to Pay Postage to Return It to the Stingy Owner.

Cheyenne, Wyo., Nov. 11.—A month ago Andrew Mandanis found a purse containing \$2,000 in cash at the railroad station. Since then he has conducted a nation-wide search for the owner. He received a letter from W. J. McCleary of San Bernardino, Cal., stating he was the owner of the money and asking that it be sent to him. McCleary inclosed 4 cents in stamps. Mandanis contributed 6 cents and sent the money by registered mail.

BUSCH FORTUNE IS \$75,000,000.
Believed to Have Left \$2,000,000 for Public Purposes.

St. Louis, Mo., Oct. 21.—The will of the late Adolphus Busch, the brewer, who died in Germany on Friday, is not expected to be made public until after the funeral here on October 25. It is estimated the will bequeaths \$2,000,000 for charitable, educational and public purposes. The estate is estimated at \$75,000,000.

But there is seldom anything wrong with a man's home if he is willing to pay the freight and let his wife run it.

Many a man gets to be conceited by thinking he isn't.

No, Alonzo, a woman never loses her temper. If she has one to begin with, she retains it as long as she lives.

No matter how good a figure a woman may have, she never overlooks an opportunity to change some of the outlines.

WINS BIG PRIZES WITH LITTLE FARM

"TWENTY ACRES ENOUGH FOR ME," SAYS MARTIN.

Started Eighteen Years Ago in Nebraska, With Nothing—His Place Now a Model.

Pawnee City, Neb., Nov. 11.—Arnold Martin, farmer near here, who won well over \$1,000 in prizes at the National Dry Farming Congress at Tulsa, Okla., came from Switzerland to America penniless eighteen years ago. He worked three years as a farmhand in this vicinity and managed to save \$272. With this he started out for himself.

"Twenty acres is enough for me. That is plenty for any man to farm if he farms it right," said Arnold. So he bought twenty acres not far from Pawnee City, a rock tract for which he paid only \$12.50 an acre. Yet Arnold, who has a veritable genius for farming, made that twenty acre yield crops that surpassed by far those of his wealthier neighbors who were farming quarter and half sections. He farmed every acre of his little tract and farmed it intensively.

Some years ago the United States Department of Agriculture sent an expert to view Arnold's farm, termed it a "model" farm and declared its owner to be the most successful farmer in the country. His methods in raising crops, and he raised many kinds on that little tract, have been sent far and wide by the department as among the most scientific and successful found.

He far exceeded any other entrants at the dry farming congress, winning double the number of prizes of any other exhibitor.

NAMES AGAIN RESTORED

No Longer to Be Numbered in the Atlanta Penitentiary.

Atlanta, Ga., Nov. 11.—Prisoners at the Atlanta federal penitentiary hereafter will be known by names, instead of by numbers, and their uniforms no longer will bear the letters "U. S. P."

Ever since the establishment of the prison convicts have lost their identities immediately on entering, being designated only by registration numbers. They also have been required to wear on their clothing the prominently displayed letters branding them as United States prisoners.

Half the women in the world want to get thin; the other half want to get fat.

Why a woman can't remember her husband's name when he proposes because she did the proposing.

A man can love a woman as much as a woman can love a man, but he thinks she ought to be admired.

Wants Information.

EDITOR COTULLA RECORD: I take this from the Iran County, (Mo.) Register. "That currency bill, lets see goes sorter this way. You want to establish a National Bank, you deposit say \$100,000 with the Government and they issue you \$100,000 bonds and pay you 6 per cent interest and on the 100,000 bonds you issue \$90,000 bank notes; these you loan to the people at 10 per cent. If we 'figer' right that is 16 per cent and the banker gets interest on \$90,000 of his own debts which he has loaned to the people. Great scheme isn't it?"

The democrats were going to fix it right and we have taken the Aldrich system and worked it over and made a dozen central banks instead of one and thats the difference between the Republican plan and the Democratic plan; just change the label on the can and hand out the same goods."

Now Mr. Editor, I am not familiar with the Currency Bill and know very little about financial matters, but it seems to me that Mr. Henry's plan should have been incorporated in this bill. I have always been in favor of the Government issuing a currency direct to the people and let the bankers get hold of it like other people by sending an equivalent.

Does changing the label on the can make the fruit taste any better?"

I would like to see this matter discussed by some of your well informed readers through the columns of the Record. What is the difference between the present plan and the one now before Congress?

W. J. Coleman.

J. R. Bell and family were in town from the ranch this week.

TO BE TRIED AT JOURDANTON.

The Mexican slayers of Ike Hill at Fowlerston, which occurred two weeks ago, and who were indicted by the Tilden grand jury will be tried at Jourdanton Monday. The cases were sent to Atascosa on charge of venue. Torres, the man that killed Hill was lodged in jail here by Sheriff Poole, but when the McMullen county grand jury returned the indictment, Judge Mullally instructed the sheriff here to turn the prisoner over to sheriff Holland of McMullen county. Judge C. C. Thomas will go to Jourdanton tomorrow to defend the Mexican Salie, indicted for conspiracy to kill and also for 'the murder.

HUNTING NOTICES.

POSTED—My pasture is posted and no hunting will be allowed therein. Anyone caught hunting or trespassing will be prosecuted to the full extent of the law.

J. R. Bell, Jr.

POSTED—The Cartwright and Black pastures and what is known as the "Hodges trap" have been posted according to law and all trespassing therein is positively forbidden. This applies to all. Do not ask for permission to hunt.
