COTULLA, TEXAS, APR 12, 1919.

PUBLISHED WEEKLY

New Standards Of Weights and Measures In Effect.

Austin, Texas, April 4.—Under the new law defining standards of weights and measures a person taking or giving as a unit less than the number of pounds specified by the law with intent to gain advantage shall be liable to the party injured for double the amount of property wrongfully taken and in addition shall be guilty of a misdemeanor with a fine not to exceed \$200.

The law also says these weights shall be net and shall not include the weight of the container. All contracts involving weights and measures hereafter made shall be according to the legal standards, unless there is an expressed provision to the contrary. This act, which carries the emergency clause and is now in effect, applies only to stocks of goods purchased after the act became effective, and it applies to parties outside of the State selling goods within the State, as well as to those within the State.

All measures for measuring dry commodities shall not be heaped, but shall be leveled full. The standard of weights used by the United States is declared the legal standard for Texas, and in addition, standards for various commodities are fixed. The Governor has the power to fix a standard for any commodity which has been overlooked in the written law.

The following standards for various commodities are fixed: Wheat flour, per barrel, 200 pounds; corn meal, per bushel, 50 pounds; alfalfa seed, per

per bushel, 50 pounds; apples, dried, per bushel, 28 pounds; barley, per bushel, 48 pounds; beans, green or string, per bushel 24 pounds; beans, white, per bushel, 60 pounds; beans, castor, per bushel, 46 pounds.

Beets, per bushel, 60 pounds; blue grass seed, per bushel, 14 pounds; bran, per bushel, 20 pounds; buckwheat, per bushel, 52 pounds; carrots, per bushel, 50 pounds; charcoal, per bushel; clover seed, per bushel, 60 pounds.

Coal, anthracite, per bushel, 80 pounds; coke, per bushel, 40 pounds; broom corn seed, per bushel, 48 pounds; corn meal, unbolted, per bushel, 48 pounds; corn in the ear, per bushel, 70 pounds, after December 1; corn in the ear, new crop, per bushel, 75 pounds, before December 1; corn, Kafir, per bushel, 56 pounds; cotton seed, per bushel, 32 pounds; corn, shelled, per bushel, 56 pounds; Indian corn or maize, per bushel, 56 pounds.

Lime, unslacked, per barrel, 180 pounds net; lime, hydrated, per sack, 100 pounds net; lime, agricultural, per sack, 100 pounds net.

Oats, per bushel, 32 pounds; onions, per bushel, 57 pounds; onion sets, tops, per bushel, 30 pounds; onion sets, bottom, per bushel, 32 pounds.

Peaches, per bushel, 50 pounds; peaches, dried, per bushel, 28 pounds; peanuts, green, per bushel, 22 pounds; Georgia or Virginia, Spanish, 24 pounds per bushel, roasted, 20 pounds; pears, per bushel, 58 pounds; popcorn, in ear, per bushel, 70 pounds; popcorn, shelled, per bushel, 56 pounds; potatoes, Irish, per bushel, 60 pounds, sweet, 50 pounds.

Rye, per bushel, 56 pounds; rye meal, per bushel, 50 pounds;

4th Proved Worth In July Counter.

In the July counter-offensive, the least fortunate of the American divisions, as a divisional unit, was the 4th. Having arrived in France at a comparatively late date and having never been in an engagement or even under fire, its preliminary training was only partly completed in the middle of July.

But though it was put into the great attack only in smaller units attached to French divisions, its troops then gave such a good account of themselves that never after was there any doubt of the ability of the 4th to take its full share of whatever work might be in hand.

The above was taken from Stars and Stripes, the A. E. F. newspaper. Two La Salle county boys belong to the 59th Infantry in the 4th Division, Sidney Moffett and Victor Sauls. In the battle referred to above the 59th Infantry lost more than one half of its men, killed, wounded and gassed. The 59th is now at Bremen, Germany, engaged part of the time guarding a section of railroad crossing the Rhine.

NOTICE

Some people have been disregarding the ordinance regarding the running at large of live stock within the corporate limits of the town, and have been turning their cows and horses out under cover of darkness. These animals have done much damage to unfenced yards and gardens lately, and notice is hereby given that every animal caught

Re-Elected Sovereign Delegate.

At the Head Camp Convention of the Woodmen of the World held at Dallas this week, C. E. Manly was re-elected Sovereign Delegate, being one of the forty from Texas to attend the Sovereign Camp Convention to be held at Asbury Park N. J., next July. Texas has the largest representation in the National convention of any State in the Union.

North Texas Storm.

A severe storm swept North Texas last Tuesday night, killing probably more than a hundred people and doing millions of dollars damage. The damage seemed to greatest in Wood and surrounding counties. Aid was sent out from Dallas, to the stricken sufferers.

Judge G. A. Welhausen went to San Antonio yesterday to attend a meeting of Liberty Loan Chairmen. He reported that the County quotas had not been fixed yet. The sentiment among the men present at the meeting was that this loan was going to be easy to raise.

Tomatoes, per bushel, 50 pounds; walnuts per bushel, 50 pounds; wheat, per bushel, 60 pounds.

The weights prescribed for flour will not become effective until October 1, 1919, and weights prescribed for corn meal and foodstuffs will be effective immediately.

WOMB SAGE TEA IN LIFELESS, GRAY HAIR

Look young! Common garden Sage and Sulphur darkens so naturally nobody can tell

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

NOT STRONG ON NAVIGATION

Records Show Weakness of the Spanish Sailor in That Highly Important Matter.

The Spaniards of early days were most adventurous explorers, but, for all their discoveries of distant lands, very poor navigators.

The water supply of their ship was kept in big earthen jars. As it was impossible to provide in this way enough to drink for a long voyage, they took to sea many large mats, which when it rained were spread to catch the drops.

Probably it was no fault of Columbus, but his first voyage to America, which occupied two months' time, was mainly a drift.

Less than 100 years ago Spain still claimed ownership of the whole Pacific ocean, declaring it a Spanish lake on the strength of Balboa's discovery in 1513.

JUDGED BY SKILL AT POKER

Business Man Estimated Another's Qualifications by His Actions at the Card Table.

After all, there is something to be learned from cards, even if the average gambler, who plays for the passion of the game and for the money he expects, does not always learn it.

Familiar Quotations.

The quotation worthy of the high title of "familiar" must have stood the test of time and passed unharmed through the shifting tides and fashions of centuries.

Neutral Nations in War Time.

James Mill, the English economist, as early as 1821, almost a century before ruthless submarine warfare was introduced by Germany, advocated a commercial world traffic under free tariff rules, so far as concerns the property of individuals in time of war.

WANTED to sell, 10 acres of and in Section 22 of Altito lands. What will you give? Address, P. O. Monsey, 401 Wilson, St., Tyler, Texas.

FAMOUS ROCK OF GIBRALTAR

Great Britain Has So Strongly Fortified It That It is Rightly Considered Impregnable.

Since the day, more than 200 years ago, when the flag of Great Britain was flung out over Gibraltar, the strongest fortress in the world, that country has won many triumphs in commerce and has become mistress of the seas.

The rock of Gibraltar is 1,400 feet high and across the narrow bay may be seen the coast of Africa only nine miles away.

The only possible approach to the rock is by land from the north, or from the sea on the western side. As viewed from the ocean the Rock of Gibraltar is impressive, strong, gloomy and forbidding.

JEWS NOT EASILY CONVERTED

Sermon to Which They Were Annually Forced to Listen Failed of its Purpose.

In John Evelyn's diary of January 7, 1645, there is a notation of a peculiar ceremony which seems to have been of annual occurrence at Rome. It was a sermon preached to a compulsory congregation of Jews, with a view to their conversion.

The Zionist movement, which has gone on for years and received a new impetus by the changes made in middle Europe as a result of the world war, was outlined in a poem written by Robert Browning during his residence in Italy, probably about the middle of the nineteenth century.

"Father of the Short Story."

The father of the short story was Giovanni Boccaccio, an Italian novelist and poet, who died at Certaldo 543 years ago.

Duty.

It has been asked what is at the present day the Duty of which we have spoken so much? A complete reply would require a volume, but I may suggest it in a few words.

To North Pole by Airplane.

An expedition to be led by Capt. Robert A. Bartlett, explorer and navigator of Peary's ship Roosevelt, will be sent to the polar regions next June to survey the North pole by airplane.

Bartlett is a Newfoundlander, forty-three years of age. He began explorations 22 years ago, wintering with Peary in the Kane basin in 1897.

QUESTIONNAIRE

ANSWERS WHICH WILL SOLVE PERPLEXING PROBLEMS OF THIS RECONSTRUCTION ERA.

Query.—The government has launched an educational campaign to encourage building in order to put more men to work. Would not a similar movement to show how the old structures can be best and most economically repaired and made good as new also help?

Answer.—It is learned that such a plan is in effect and is linked directly with the Washington propaganda.

Industry must be turned back from works of war to the ways of peace. Employment must be found, in the meanwhile, for those whose occupation has been interrupted.

Government restrictions, imposed by the necessities of the war program, have for many months past retarded or altogether prevented construction, improvement and repairs.

That is not logical. No matter what it costs to repair, the cost is less than the cost of neglect.

Query.—What do you think of paint as an investment, aside from the appearance it lends? Does it really PAY to paint a house regularly, say, every three or four years?

Answer.—Good paint properly applied when needed is the main thing in making a house last long and well.

"PAINT PAYS FOR ITSELF."

Query.—I have a quantity of old paint on hand. Can I use it for the first coat in repainting my barn?

Answer.—On no account should old paint which has become fat be used for priming either old or new work.

If I Invents Anti-Rust "Dope."

Incident to the war, the government has faced the problem that has so long proved baffling to commercial concerns of protecting iron and steel from rust.

EFFECT OF COLOR UPON THE DURABILITY OF PAINT.

Property owners who may have under consideration the painting of dwellings and other structures should remember that more durable results are obtained when tinted paints are used.

PRETTY COLOR COMBINATIONS.

Table with 3 columns: Ground Coat, Stencil Coat, and Stencil Color. Lists various color combinations like White, Light Gray, Yellow, etc.

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness.

Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

SALTS IS FINE FOR KIDNEYS, QUIT MEAT

Flush the Kidneys at once when Back Hurts or Bladder bothers—Meat forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority.

When you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, or regular of passage or attended by a sensation of scalding, get about four ounces of Salts from any reliable pharmacy and take a tablespoonful for a glass of water before breakfast for a week.

PAINT AS AN ASSET.

Bankers Say They Lend More Money on Property When Buildings Are Well Painted.

AN INDICATION OF THRIFT.

One Concern Advances 25 Per Cent. More if Repainting is Done Every Five Years.

Does it pay to paint carefully farm buildings? Does it add to the selling value of a farm when buildings are properly kept up and regularly painted? A careful inquiry of a number of leading bankers in the Mississippi valley, including such states as Iowa, Illinois, Michigan, Ohio, Indiana and Missouri, reveals the fact that in nearly every case the bankers did not hesitate to say that they would lend all the way from 5 to 50 per cent more on land where farm buildings were well painted and kept in good condition. They maintain that well kept-up and well painted buildings and fences are an indication of thrift and that the thrifty farmer is a good client, and to him money can be safely loaned. An average of the returns from these bankers shows that the increased loan value because of painted buildings is around 22 per cent.

Some of these bankers make interesting comment. A Michigan concern says that, while not especially prepared to advise definitely in response to this inquiry, the officers would loan more money on farms where buildings were painted than where they were not so treated. This bank also holds that, where houses, barns and fences are well taken care of the farm is a profitable proposition, and bankers in general consider the farmer a good client. Another Michigan bank says "farm buildings out of repair and peeling paint indicate that the owner is slow pay." Such farms are rated at about one-third of the assessed value for loans. Where the farm buildings are in good shape the rating is one-half. The president of a middle western bank says that when real estate loans are considered, painted buildings are always taken into consideration in making an estimate. The general appearance of the property surrounding the house and barn and also the fields and fences would be carefully observed. He further says that he has no hesitancy in saying that he would absolutely refuse a loan on farms where the buildings were not kept up and well painted. In his judgment, unpainted farm buildings would reduce the loan value at least 25 per cent.

A Minnesota banker says that he is much more willing to loan money where the buildings are well painted. In his particular case he believes that he would loan 20 per cent more than if the buildings were not properly taken care of. A farmer who with

alms takes a his work, than one who does not. Another Minnesota bank says that well painted buildings have resulted in securing from his bank sometimes as high as 25 per cent more money than where the buildings are not painted. An Ohio concern says that it will loan 25 per cent more money on a well kept farm where buildings are painted at least once every five years. A southern Illinois bank says that it has no fixed rule about this, but it does make a decided difference when owners of farm lands apply for loans. If the buildings are well painted and thus well preserved the loan rate would not only be cheaper, but the amount of money borrowed would be larger. A northern Illinois bank does not hesitate to say that it would loan fully 50 per cent more on a farm where buildings were well painted and in good order than where they were not. The vice president, who answers the inquiry, goes on to say: "There probably are many farmers good financially and morally who permit their buildings to remain unpainted, but as a rule the most substantial people who live in the country keep their buildings well painted."

An Iowa bank, through its vice president, states that it would make a difference of at least 25 per cent in favor of the farm with painted buildings. Another Iowa concern says that it would make a difference of at least 20 per cent.

All this being true, it is perfectly evident that it is a good business proposition to keep the farm buildings well painted. They not only look better and are more pleasing to the owner, but the farm would sell to better advantage, the loan value of the property would be greatly increased and the buildings themselves would last much longer and need less repair.—The American Agriculturist.

PAINT AND ILLITERACY.

Curious Fact Comes to Light That Localities Least Using Books Avoid Paint Also.

Washington, D. C.—A curious fact has been brought to light by the Educational Bureau and the Bureau of Industrial Research here. It is that in the states where illiteracy is most prevalent paint is least used. The paint referred to is the common or barn variety, of course, for the backwoods countries have no need for the finer pigments or facial adornments. It is true, though, that in the sections of all states where white illiteracy is highest painted homes are rare and unpainted outbuildings and barns are practically unknown. Probably the illiterates do not use paint on their buildings because they do not understand its value as a preservative.

Catarthal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarthal deafness, and that is by a constitutional remedy. Catarthal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition hearing will be destroyed forever. Many cases of deafness are cured by Catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. F. J. CHENEY & CO., Toledo, O.

There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a humming sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc.

F. J. CHENEY & CO., Toledo, O.

Sherwin-Williams Paint

None Better on the market and but few brands its equal. Now is the time to paint up. Harmonize your home with the beauties of Springtime.

Gaddis Pharmacy

"I won't pay that bill!"
 "But, Mr. Jones—the goods were delivered—you sold them and made a good profit on them."
 "I know all about that, but I'm not going to pay for them."
 "But—but—"

Just imagine such a conversation between some responsible merchant and a collector.
 The collector would have a right to be astonished and to doubt the merchant's sanity—wouldn't he?
 Well, here's a bill the United States Government is presenting to you for goods delivered, accepted, and profited by your security, your peace and happiness.
 As an honest business man and good citizen—pay your bill with

CLASSIFIED.

Pryor were here first part week. They came in re- to a message telling them serious illness of their son, Travis Lann.

Everything points to bumper crop in the Millet country year. Practically all of the is in cultivation, and if a yield of cotton is made it tax the gin there to gin it.

Efforts is being made to get located here for the cotton this year. A gin located would have approximately 10,000 acres of cotton to draw from.

Rev. W. A. Manley has given his charge here as Pastor of Methodist Church, because ill health, and his place has been filled by Rev. C. B. Har- ar, who will occupy the pulpit Sunday. Rev. Harbour is, from forgettown. Rev. Manley had severe case of Spanish Influenza early in the year and has not recovered, his health being very bad. His friends here regret that he was compelled to give up his work.

Jess Rock is sticking his feet under the family table three times a day now, and he is over-joyed at the opportunity of getting back to God's country again. He has been France with Uncle Sam's boys since last July. He was attached to the 1st Artillery of the 36th Division, and the fact that the war ended before they saw service made the stay seem unusually long, more so, than if they had got to trim up the Boche a little or have been out in the army of occupation. Instead they were confined in one camp during their entire stay in France. This of course became tiresome. But the boys can forget all that now, since they are back at home. Jess reports a splendid voyage returning.

black and white. \$500 reward for goat. J. G. Childers, Cotulla, Texas.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.
 F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, etc.
 Hall's Family Pills for constipation.

THE STATE OF TEXAS.

To the Sheriff or any Constable of La Salle County, Greeting:
 You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said La Salle County, a copy of the following notice:

The State of Texas:

To all persons interested in the Estate of W. H. Fullerton, deceased, M. J. Fullerton, has filed in the County Court of La Salle County, an application for the Probate of the last Will and Testament of said W. H. Fullerton, Deceased filed with said application, and for Letters Testamentary which will be heard at the next term of said Court, commencing on the Second Monday in April, A. D. 1919, the same being the 14th day of April, A. D. 1919, at the Court House thereof, in Cotulla, Texas, at which time all persons interested in said Estate may appear and contest said application, should they desire to do so.
 Her-in fail not, but have you before said Court on the said first day of the next term thereof this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Cotulla, Texas, this 28th day of March, A. D. 1919.

C. H. KNAGGS,
 Clerk County Court, La Salle County Texas
 A true copy I hereby certify
 T. H. Poole, Sheriff
 By C. O. Hill Deputy.

The State of Texas,

To the Sheriff or any Constable of La Salle County, Greeting:

You are hereby commanded to cause to be published once each week for a period of twenty days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said La Salle County, a copy of the following notice:

THE STATE OF TEXAS.

To all persons interested in the estate of John Hoepfner, deceased, M. L. Rone, administrator has filed in the County Court of La Salle county an application for an order to sell the following property of said estate, situated in La Salle County Texas, to-wit:

One 10 acre tract of land known as tract No. 34 in Section 773A of what is known as he Subdivision of the Altito ranch lands, also one 10 acre tract No. 97 in Section No. 769 of what is known as the subdivision of the Altito ranch lands, also Lot 34 in Block No. 2 and Lot No. 97 in Block No. 5 of the Altito townsite as per map of said townsite recorded in the Deed Records of La Salle County, Texas.

Which will be heard at the next term of said Court, commencing on the second Monday in April, A. D. 1919, the same being the 14th day of April, A. D. 1919, at the Court House thereof, in Cotulla, Texas, at which time all persons interested in said estate are required to appear and show cause why such sale should not be made, should they choose to do so.

Herein Fail Not, but have you before said Court on the said first day of the next term thereof this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court at office in Cotulla, Texas, this 14th day of March, A. D. 1919.

G. H. KNAGGS,
 Clerk County Court, La Salle County, Texas.
 A true copy I hereby certify.
 T. H. Poole, Sheriff.
 G. O. Hill, Deputy.
