

The Cotulla Record

VOL 20 NO. 27

COTULLA, TEXAS, OCT. 9 1920.

PUBLISHED WEEK

105,683,108 IS U. S. POPULATION, 14.9 INCREASE.

Washington, D. C. Oct. 7th—The total population of geographical United States is 105,683,108, an increase of 13,710,842 or 14.9 per cent within the last decade.

This figure does not include approximately 12,250,000 people living in the country's outlying possessions. The population of Alaska and the total classed under the military and naval service abroad are yet to be announced.

Director Rogers of the census bureau, in making the announcement of the country's population, said that while the figures are preliminary and subject to correction, the final official population as transmitted to congress in December for apportionment purposes was not likely to be greatly different, although it may be slightly larger through the addition of population for smaller sections of territory claimed not to have been properly canvassed by the census enumerators in January and which are now being investigated.

The large falling off in the rate of growth of the country as a whole as shown by these figures," said Mr. Rogers, "is due mainly to an almost complete cessation of immigration for more than five years preceding the taking of the census in January and in some degree to the epidemic of influenza and the casualties resulting therefrom.

Market conditions picked up the first days of the week, but has been on the decline since Thursday, and conditions appear to be getting back to where they were ten days ago in regard to price.

There are in the United States 6,495,998 farms, an increase of 48,496, a gain of 1.5 per cent over the total number recorded in 1910, the census bureau announced today.

Mexican in Runaway at Harris Valley.

A Mexican laborer was injured in a runaway on Harris Bros. farm at Harris Valley Wednesday evening. He was hauling hay when the team became frightened and started running. He was thrown from the wagon falling just behind the mules the wagon passing over him. Dr. Lightsey was summoned and found that he had sustained a fracture of the pelvis bone and was badly scratched and bruised up. It was not thought that he was seriously injured.

Bitten By Rattlesnake.

Frank Daniel, 4 year old son of Mr. and Mrs. J. H. Daniel, on the Seefeld farm near Big Wells, was bitten on the hand by a rattlesnake last Friday evening. It was some time before a doctor could get there and the little fellow suffered considerably. On examination it was found that the snake only had one fang and it being a small one, did not inject a great deal of poison into the little fellow's hand.

GINNINGS EXCEED FIVE THOUSAND.

The total number of bales of cotton ginned in La Salle county to date exceed five thousand. In round numbers 2,350 have been ginned at Millett, 1,550 at Cotulla, 800 at Encinal, 300 at Harris Valley, and 250 at Woodward. By the middle of the coming week the output of the county for last year will have been passed. Last year's total ginnings were slightly above 5,500. If weather permits this year's crop to be ginned out it will run to approximately 7,000. Millett expects to reach 3,000; Cotulla over 2,000. In fact it is possible that these two gins will turn out a number of bales practically equal to last year's crop in the county.

One thing is evident and that is ginning will not be strung out as it was last year. Three weeks more will practically wind it up. Last year gins run up until January, being frequently delayed by wet weather. This has been an almost perfect fall for gathering cotton, and out of the 5,000 bales that have been ginned to date not more than 300 have been under middling, which has been a very small per cent as compared with average years. Some cotton is being held, but as the farmers of this section sold the bulk of their crop before the price dropped under 25 cents, many are putting the tail end of their crop on the present market.

Market conditions picked up the first days of the week, but has been on the decline since Thursday, and conditions appear to be getting back to where they were ten days ago in regard to price.

Collectors To Get New Suffrage Laws.

Austin, Texas, Oct. 7.—Complying with requests from tax collectors over the state, it was announced by the state department that 5000 copies of the new suffrage election law are now being printed and will be ready for distribution within the present week. To each tax collector in Texas will be sent a few copies of this new law which is now effective.

Lawsuit Compromised.

The \$10,000 suit called in the District Court here Monday styled J. A. Burns vs J. M. Dobie was compromised and the case dismissed. This case has been on the docket for several years, being continued from term to term. The suit originated out of a land deal in Mexico, in which plaintiff claimed a commission on the sale.

Slight Fire at Gin.

A slight fire occurred at the gin Wednesday morning. Very little damage was done as the fire was confined to the conveyor. However, it occasioned a delay of two or three hours.

NOTICE.

I have opened a Tailor Shop on Center Street, and will appreciate a liberal part of your patronage. First class cleaning and pressing. All work guaranteed to satisfy.

MILL WORKERS OFFER TO ACCEPT LOWER WAGES.

Lowell, Mass., Oct. 8—Employees of the Lawrence Manufacturing Company, hoping to make it possible to continue operations at the company's hosiery and underwear mills here, have offered to accept a reduction in wages. Agent Everett H. Walker said today that there is no market at present for the Company's products, because of high prices, and that he is unable to act upon the employers' proposition at this time. Thirty five hundred persons are employed in the hosiery and underwear departments. The underwear machines were shut down today and the hosiery workers will be laid off shortly, the agent announced.

The Bay State Cotton Corporation, employing about 600 hands shut down last night and will not resume operations again until November 1st. The Company, it is stated, wishes to reduce its stock, the production being greater than the sales.

Notice

Beginning with Sunday Oct. 17th my place of business will be closed all day. We have been on the job serving our friends and customers every day and SUNDAYS too, for many years and from now on we will be open six days in the week.

We will appreciate it if you will come around Saturday and supply your needs.

Mexican Woman Bitten.

A Mexican woman was bitten on two fingers of her right hand by a rattlesnake on the Lake Grove Farm Wednesday evening while picking cotton. One fang of the snake sank into one finger while the other fang into the adjoining finger. J. P. Daniel brought the victim to town in his car but both doctors were out of town and she was administered to by Druggist Gaddis until the return of the doctors, and was out of danger yesterday.

Firestone Tire Sale On at Chas. E. Neal's

A sale of Firestone Tires is on at Chas. E. Neal's, and we call attention to the advertisement giving list of new prices in this issue of the Record. A representative of the Firestone Company was here this week and stated that because of a discontinuance of the present type of Tires and the manufacture of a new design in outward appearance, all of the present Tires in stock all over the country would be cleaned out to make room for the new design which will soon appear on the market.

NEFF FAVORS BETTER SCHOOLS IN COUNTRY.

Waco, Texas, Oct. 10.—Hon. Pat M. Neff, Democratic candidate for governor of Texas on being asked for an expression concerning the Educational Amendment to be voted on November 2, 1920, in the general election, made the following statement:

"As a citizen of Texas I always have been, am now, and shall continue to be interested in the promotion of the cause of education. The education of the masses of the people being, in my opinion, our best safeguard against socialism, bolshevism, and anarchy; and our best guarantee of sound, democratic government and industrial prosperity."

"I believe all our public schools, rural and urban, as well as institutions of higher learning, should be adequately financed, and wisely and economically administered. I am particularly interested in the country public schools of Texas, upon which the farm girls and boys are largely dependent for educational opportunities. I want to see Rural High Schools established at suitable points in rural sections of the State, so that our farm girls and boys may attend good high schools in the country, organized and conducted under rural environment. This is one of stopping the rapid movement of the people from the country to the city."

also, be made social centers for all the people, being common property of all the people of the community. I shall vote for the proposed amendment of the Constitution in the general election, because the said amendment will give the right to the people of the rural communities of Texas to provide financially for better support of the Public Free Schools for the education of their own girls and boys."

THE COTTON SITUATION.

There appears to be some little improvement in the cotton situation. It looks like the bottom has been reached in prices and in fact there has been some demand the past week at slightly improved prices over last week.

The holding movement over the South appears to be getting under headway and not as much cotton is being offered consequently what is offered is being taken. The situation has brought the bankers and other business interests of the South to the rescue and it is believed that within three or four weeks time the organization for holding cotton will be advanced to such an extent as to raise the price above 20 cents. There is a general sentiment that values will not increase materially until after the general election and the financial situation is eased up considerably.

Unusually favorable weather has prevailed all over the cotton belt for weeks and this has had a tendency to hold down the price. In some states night riders are posting signs on gins threatening to burn them if ginning is started before January 1st, and country stores are threatened if they attempt to market the cotton.

We believe this situation will result in organization of the cotton producers and that they will control the price of future crops.

FIRE PREVENTION DAY

By proclamation of the Governor today is Fire Prevention Day. It is a day when we should take a day or at least a few hours off and examine the chimney and flues of their dwelling places, have them cleaned out and made perfectly safe for winter. Cold weather is approaching and soon stoves will go up and fires will be started in the fire places. It has been proven by experience that defective flues start more fires than any thing else, but if they are given a careful inspection at least once a year, much of the danger is eliminated.

So, do your part today. Have your chimneys and flues cleaned and if they need repairing, have them repaired. Cotulla has been fortunate in the fire line. This is due mainly to carefulness. Let's don't fall down this winter.

FOR HEADACHE, LIVER TROUBLE

Black-Draught Is The Best Medicine This Lady Ever Used. Says It Is Only Medicine She Gives Her Children.

Cherry Village, Ark.—In telling of her experience with Theodor's Black-Draught, Mrs. Lottie Ellis, R. F. D. No. 1, this place, said: "I used Black-Draught as a laxative, also for headache, torpid liver and indigestion. It is the best liver medicine I have ever used and is the only medicine I give my children."

"I feel like it has saved me a lot in doctors' bills, for when the children complain of feeling bad or have a cold, I just give them a good dose of Black-Draught and they soon get all right. It certainly cleans the liver and clears up the skin and they are soon out, well again. I wouldn't be without it for anything."

Seventy years of successful use has made Theodor's Black-Draught a standard, household remedy. Every member of every family, needs, at times, the benefit that Black-Draught gives in helping to cleanse the system and to prevent or relieve the troubles that come from constipation, indigestion, and a lazy liver.

To keep well, your stomach, liver and bowels must be in good working order. To help keep them that way, take occasional doses of Theodor's Black-Draught. Thousands of homes are never without it.

For sale by all druggists. The genuine has the name, Theodor's, on the label. Insist on getting what you ask for.

Gamblers Threaten South.

Fred W. Davis, of the State Department of Agriculture, sent a telegram this week to the Chairman of the Federal Reserve Board and the U. S. Secretary of the Treasury at Washington, charging that gamblers threaten to ruin the South. The telegram was as follows:

"Your attitude in undue restriction of credit to farm production is causing a desperate economic situation in the life's necessities. Cotton pickers are being dismissed and crops are being left in the fields. If relief is denied the producers the result will be felt as to future needs of the nation. Will you aid the gamblers to rob the producers and restrict production to the danger line or will you help the producer and encourage plenty. Answer clearly."

Stockmen are beginning to get a little uneasy at the dry weather and longingly look for clouds. They fear that a dry fall may be upon us and that there will be a short range this winter. It is getting dry all over this section and now that the cotton crop is about out a good general rain would be welcomed by everybody. With many pastures stocked with high priced cattle and a declining market, if stock fail to fatten for spring, stockmen may experience serious losses, as there is no question but what fifteen or twenty months will see a great drop from the present market level.

According to reports from San Francisco booze flowed freely at the Democratic convention, and that bonded warehouses were entered for the stuff that cheers, on authority of high officials. The Republicans will no doubt make good campaign thunder out of this and it will get them a vote.

NATIONWIDE FIGHT AGAINST DISEASE

American Red Cross Will Have Health Centers in All Parts of United States.

The American Red Cross has launched upon a nation wide campaign of fighting disease and physical defect among the American people. A new and unique health institution has come into being as the result of several months' study by the Red Cross Health Service Department at National Headquarters.

Officials in charge of the department predict that before long this new health activity will be in actual operation all over the country, and that the sign—"American Red Cross Health Center"—will become as familiar to the people everywhere as are now the signs of the telephone companies.

Busy Long Before War.

The interest of the American Red Cross in the fight against disease is not, however, of recent origin. Long before the war the organization began this health service through its medical units in disaster relief work and its Department of Town and County Nursing. During the war and following, the activities thousands of American Red Cross officials have been fighting disease in the war-stricken countries. At the same time tens of thousands of local Red Cross officials have been engaged in home fighting disease, not only during the influenza epidemic.

The American Red Cross has determined that all this valuable experience in health service abroad and at home shall not go to waste. So long as there are a half a million people dying yearly in this country from preventable causes, and so long as more than one-third of the American children and young people are victims of physical defects, the Red Cross recognizes the urgent need for continued Red Cross health service at home.

New Organization Works.

The Red Cross Health Center is governed by business principles, applies business methods, and, in its more simple form, can be established and conducted by lay people.

It proceeds upon the demonstration that health is a commodity that can be bought and sold like broom and soap. Therefore, it establishes a stall in a storeroom in the principal business section of the community, displays its goods in the form of a attractive health exhibits in its show windows. It advertises constantly and extensively. And it uses every business and social device to attract customers.

The Red Cross Health Center is a service to the sick in that it gives reliable and complete information about existing clinics, hospitals, sanatoria and other institutions for the sick and the defective; about available nurses, both trained and practical; about when to consult a physician and why to shun the quack and his nostrums.

Teaching Disease Prevention.

The Red Cross Health Center, however, of even greater service to the well. It teaches people how to prevent sickness and disease. This is done in many interesting and attractive ways—first of all, by the distribution of popular health literature and through health lectures illustrated with lantern slides or with health motion picture films. Then special exhibits are given, one after the other, on various health subjects. Practical demonstrations are made; also health playlets by children to interest and instruct themselves and their elders. Classes are organized in personal hygiene, home care of the sick, first aid and in food selection and preparation. Health clubs, both for younger and older people, are formed; also Little Mothers' League. Nutrition and growth clinics are conducted for children.

Already more than a hundred these Red Cross Health Centers are in actual operation throughout the country. Many of them also conduct medical clinics, but the one chief, outstanding feature of the American Red Cross Health Center is its health education service which teaches well people how to keep well.

FRENCH PRAISE FOR OUR RED CROSS WORK

Lauding the work accomplished by American philanthropy for war-stricken France, Andre Tardieu, former high commissioner from that nation to the United States, in a recent article widely commented on throughout the French press, says:

"The American Red Cross has accomplished a work which calls for the heartfelt gratitude of every true Frenchman. In 1918 this great relief organization spent in behalf of France nearly \$7,000,000 francs, and in 1919 its expenditures on charitable projects in our country attained the tremendous total of 171,000,000. It has recently turned over to the French relief organizations huge stocks of supplies whose value must be counted in the hundreds of thousands of francs. Fifteen million American boys and girls, banded together in the Junior Red Cross of America, are back of the movement to establish the closest ties between themselves and France's younger generation through the charitable works they have financed and are now carrying out among our little war sufferers."

"The bonds of friendship between France and America is cemented with mutual admiration, respect and gratitude."

THE AMERICAN RED CROSS IN PEACE TIME

Disease Prevention

Through its Health Service the American Red Cross has begun a nationwide concentrated effort in co-operation with established organizations to reduce greatly the amount of preventable disease and physical defects found among the country's 100,000,000 population. Education is its most powerful tool. Special attention is devoted to children, and this picture shows a typical Red Cross welfare clinic where little ones are treated and mothers instructed in the proper care of them.

AMERICANS ABROAD IN RED CROSS WORK

United States Citizens Far Away
Enthusiastic Members of the
"Fourteenth" Division.

Among the most enthusiastic and energetic members of the American Red Cross are those citizens of the United States who live outside the continental boundaries of their country—sons and daughters of the Stars and Stripes residing at the far corners of the earth.

These people compose the Insular and Foreign Division of the parent organization, generally known as the "Fourteenth" Division, which has jurisdiction of all territory outside the country proper; that is, Alaska, Porto Rico, Hawaii, Virgin Islands, the Philippines, Guam, and even the island of Yap, which came under our flag as a result of the world war. For the year 1920 this division reported 30,508 paid up members.

The main object of this division is to give our citizens everywhere the opportunity to participate in the work of the organization which stands for the best national ideals. Americans in far places intensely loyal and patriotic, treasure their membership in the Red Cross as the outward expression of their citizenship. It is another tie to the homeland and to each other. There are chapters of this division in Argentina, Bolivia, Brazil, Canal zone, Chile, China, Costa Rica, Cuba, Dominican Republic, Ecuador, England, France, Guam, Guatemala, Haiti, Hawaii, Honduras, Japan, Manchuria, Netherlands, Nicaragua, Paraguay, Peru, Philippines, Porto Rico, Siberia, Spain, Sweden, Switzerland, Syria, Turkey, Uruguay, Venezuela and Virgin Islands.

During the war these scattered members of the Red Cross contributed millions in money, and millions of dollars' worth of necessary articles for the men in service, and sent many doctors and nurses to France. At the same time they carried on an excellent Home Service in their respective communities for the families of those who had gone to war, and in some regions gave large sums of money and immeasurable personal service to the relief of disaster and disease victims.

The division is now establishing service clubs in foreign ports for the benefit of sailors in the American Merchant Marine, making plans to aid Americans in trouble in foreign lands and completing arrangements for giving immediate adequate relief in case of disaster.

It is the Fourteenth Division's part in the great Peace Time program of the American Red Cross.

RED CROSS ASSISTS DISABLED VETERANS

The American Red Cross is carrying on a wide program of service for the disabled World War veterans receiving treatment in United States Public Health hospitals, and those being trained through agencies of the Federal Board for Vocational Education.

In each of the Public Health Service hospitals Red Cross workers devote their time to the general welfare of the service men from the day they enter the receiving ward until they are discharged. After the soldier's discharge the Red Cross continues its friendly service through the Home Service Section in his own community.

The Red Cross maintains a convalescent home at all of the hospitals, where patients can amuse themselves after they are well enough to be up and around. Parties and picture shows in the wards are also furnished, with occasional excursions when convalescence comes.

Great service has been rendered by the Red Cross in mental cases in identifying those who have appeared in state hospitals for the insane, and helping them secure compensation due from the Bureau of War Risk Insurance.

In the Federal Board's various district offices the Red Cross worker, acting with the Home Service Section, makes necessary loans to the men, arranges suitable living conditions, helps collect evidence and supply facts to the Board, assists in "appealing cases" and settles various personal difficulties for the men. The workers also follow up and aid all men who discontinue training.

The Red Cross agents find men "lost" to the Board, help clear up delayed cases and aid the college counselors in their friendly work with the men. Many Red Cross chapters have set up recreation facilities, and in some instances living clubs, so these victims of war may have attractive surroundings and the fun which must go with effective school work.

To the American Red Cross Institute for the Blind near Baltimore, Md., more than half of all the Americans blinded in the World War have come for training. The Institute, through the Red Cross, long ago conducted an exhaustive industrial survey to determine the vocations for which blind men could be fitted. As a result it is putting forth well trained men equipped to meet the social, civic and economic requirements of their respective communities.

Aid for Spanish Red Cross.
The Iberian chapter of the American Red Cross, composed of Americans resident in Spain, has just contributed \$400 to a fund being raised by the Spanish Red Cross and the League of Red Cross Societies for the purpose of fighting malaria.

WHAT you lose thru baking failure must be added to baking costs—it has to be paid for.

Calumet Baking Powder will save you all of that. Because when you use it—there are no failures—no losses. Every baking is sweet and palatable—and stays moist, tender and delicious to the last tasty bite.

That's a big saving—but that isn't all. You save when you buy Calumet and you save when you use it.

It is reasonable in cost and possesses more than the ordinary leavening strength. You pay less and use less. You get the most in purity, dependability and wholesomeness.

In every way — it is the best way to keep down baking costs. That's what has made it the world's biggest selling baking powder — has kept it the favorite of millions of housewives for more than thirty years.

Found can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Sunshine Color Recipe:
1/2 cup of butter,
1 1/2 cups granulated sugar, 3/4 cups flour, 1 cup water, 2 level teaspoons Calumet Baking Powder, 1 teaspoon lemon, yolks of 9 eggs. Then mix in the regular way.

These Rats Wouldn't Eat My Best Grain, Says Fred Lamb.

It's hard to keep rats out of a feed store. Tried for years. A neighboring store sold me some RAT-NAP. It worked wonders. Gathered up dead rats every morning. Bought more RAT-SNAP. Haven't a rat now. They wouldn't eat my best grain when I threw RAT-SNAP around. Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by T. R. Keck and Gaddis Pharmacy.

J. W. Martin, stockman of Powlerton was in the city a couple of days the forepart of the week on business. Mr. Martin said the range was getting somewhat dry and a good rain now would be worth lots of money as it would insure good grass for winter. However, he said that stockmen down his way were in good shape to go through the winter even if it did not rain in time to help grass.

H. H. Landrum, who bought the Pierson place West of Artesia Wells last winter has ginned about 20 bales of cotton this season and as long as the price was above 25 cents sold, but is holding since the price dropped below that point. He says he expects to hold the balance of his crop for that price and thinks if all farmers would do likewise, it would not be sixty days before the market would re-act.

F. O. M. Club.
The F. O. M's met with Miss Addie Soles Friday, Oct. 1st. During the business hour 7:30 to 8:30, much important business was transacted, most important of which was the selection of a Club song. At the close of the hour the Club repaired enmasse to the Picture Show, where they enjoyed Do thy Gish in Boots. After the show they again went to the hospitable Soles home where they were served with delicious ice cream and cake.

The F. O. M's get much fun out of various guesses as to the real meaning of these letters. Among these are: "Fuw old Maids;" "Full of Mischief;" "Figuring on Marrying;" "Fond of Money," etc, but as yet we are discovered.

The next meeting will be with Miss Grace Farver, Friday, Oct. 8.

110 MORE PIECES TO LIVE HARMONY

Dallas, Texas.—State Fair of Texas officials had preliminary arrangements when they planned construction of barracks to house the great Estada Mayor Band from Mexico to take care of one hundred men members of the great band. It now develops that there will be one hundred and seventy-seven pieces of music in this wonderful organization.

The Estada Mayor Band is sent from Mexico City by the Mexican Republic as official recognition by that republic of the great State Fair of Texas, the thirty-fourth annual exposition, which swings its doors October 9 for a sixteen days' show.

Daily afternoon and evening concerts will be given by this remarkable assemblage of musicians.

Persons who have heard this band of over 100 pieces declare the music which it gives forth is in no sense band music. More than that, they declare, it is a combination of band music and orchestra music, bursting forth in one great crescendo of harmony from so many instruments. Inquiries which have been received by State Fair of Texas officials concerning concerts to be given at the state's interest is being taken in its approaching this band show that nationwide thirty-fourth exposition.

THOROUGHbred HATS

THOROUGHbred HATS

A man's responsibility is reflected in his attire. Because we look first at a man's face, the character of his hat largely influences our first impression.
A hat must have more than good style. It must reflect the individuality of the man who wears it.
Every thoroughbred Hat represents the best and newest in style, workmanship, and material. But besides this, you will be able to find in the Thoroughbred line the one hat which will best express your own personality.
I will be glad to help you select your hat.

Ford

THE UNIVERSAL CAR

The Ford Model T One Ton Truck is in reality a necessity to the wide awake retail grocer, not only for the economic solution of the delivery problem, but for the bringing of goods from the docks or stations to his place of business, and for traversing the country and bringing in produce. For years the Ford One Ton Truck with its splendid manganese bronze worm-drive, powerful Ford Model T Motor, strong Vanadium steel frame, has been serving in every line of business activity, and we have yet to hear the first complaint as to rear axle trouble or motor trouble. It has the lowest purchase price on the market, and the cost for operating and maintaining is exceedingly small. In fact, the Ford One Ton Truck has become a business necessity. Leave your order with us without delay. We will give you prompt attention and assure you reasonably prompt delivery, and give you an after service that will insure your continuous operation of the Truck.
