NEW LEFT CONVENTION

A call has gone out to something like 200 peace, civil rights and left-of-the-left organizations in this country to participate in a conference in Chicago beginning August 31. When we use the term left-of-the-left we really mean it. The Communist Party of the USA has not been invited. In the language of the conference leadership it is considered "too conservative." However, the Communists will be permitted to send observers, which means supervisors, really.

If it surprises you to know that there are 200 organizations in this country which are to the left of the Communist Party, relax. That's talk for the newspapers. The Communists are the moving force behind this conference, and if even a few people can be persuaded to believe that the Communist Party is "too conservative" to be invited, that's a plus for the behind-the-scenes financiers.

How many delegates and observers are expected? Well, the big-wind organizers say 2,000. And the purpose? The primary intent, say the organizers, is to discuss ways and means of defeating President Johnson in next year's election. To that end they'll consider a third party, a Peace Party, if you please, with The Rev. Dr. Martin Luther King, Jr. heading the ticket. And who do you think is to be the keynote speaker at this five-day convention? The Rev. Dr. Martin Luther King, Jr.

There are other possible candidates, of course, and the conference organizers drool on the linoleum when they speak of Adam Clayton Powell as a prospect, either at the head of a national ticket, or as a favorite son candidate in New York.

The theory of the New Left's third party is that it would attract sufficient leftist and Negro votes to preclude President Johnson's winning the electoral votes of certain States.

The "call to convention" says, in part:

"We intend to end the destruction of Vietnam . . .

"We intend to end poverty fear and despair at home . . .

"We intend to end the bribery and subversion of our private associations, unions and churches by the the secret agencies of 'our' government . . .

"We will not be trapped inside the old parties; and we will not be trapped outside of them . . .

"We intend to make the election process meaningful again . . ."

The organizers say that it will take them only five days. It took the Founding Fathers 16 weeks to adopt the Constitution.

NATIONAL DEBT NONSENSE

Not only is it utter nonsense, it is patently dishonest to decry criticism of our astronomical national debt as unwarranted concern because "we owe it to ourselves." However one interprets that facile and cryptic phrase, it simply isn't true.

First and foremost, of some \$326 billion in funded national debt outstanding on 30 November 1966, \$15.3 billions were owned by foreigners. It so happen that foreigners can claim payment in gold, and US gold holdings on that date barely exceeded \$13 billion.

The statement that "we owe it to ourselves" naturally implies, and the unregenerate spenders want us to believe, that it will never have to be repaid. We may be able to send rockets to the moon, but it is improbable that we

can talk those foreigners out of their \$15.3 billion. Moreover, it will be a bit difficult to squeeze \$15.3 billion out of our \$13 billion gold supply. Unquestionably, those commercial bankers will not sit quietly by and see their depositors' funds delivered in irredeemable paper.

We hope, for the sake of insurance policy holders, depositors in mutual savings and savings and loan associations, pension fund beneficiaries, etc., that their managements also take a dim view of the idea that US government bonds are not redeemable. We doubt seriously that those millions of Americans who own \$79.9 billion will take kindly to the idea that what was sold them as a loan to their government is something that they "owe to themselves."

And where is the money coming from for social security since the "trust fund" for that agency is comprised entirely of government bonds?

If "we owe it to ourselves," why has the Congress appropriated some \$120 billion just to pay the interest over the past dozen years? And why will the Congress appropriate more than \$14 billion — an amount in excess of total government revenues in any year prior to 1943 — just for interest for the current year?

Indeed, if "we owe it to ourselves," we all can retire, and live out the remainder of our days in style, needing only to endorse the drafts the government sends us in repayment. If the theories of the new economists are valid, such a luxurious leisure for all our citizenry would be possible. But the reality is that the repayment funds have to be collected from us, and our children.

Mr. and Mrs. James H. Joslin and children, Travis, Mark and Lyndon, of Lake Charles, La., returned home Sunday after a week's visit with Mr. Joslin's parents here, Mr. and Mrs. Harry Joslin.

HIGHLIGHTS AND SIDELIGHTS

From Your State Capitol

Austin, Texas — Texas Railroad Commission has turned up the oil allowable to a record high 48 per cent of potential — retroactive to July 1 — to meet demands created by the Middle East shoot-out.

Commissions extraordinary mid-month emergency order was the third of the kind since the Arabian oil cutoff. It boosted the allowable to 3,830,560 barrels a day — higher than during latter part of the 1957 Suez oil crisis and probably the highest since wide-open production days of 1948 when producers were encouraged to build up war-drained crude supplies.

In addition to the major effect on the state's general economy, a steadily climbing allowable appears likely to increase Texas' governmental tax income substantially. It has been estimated that the July 1 order would mean a \$53,617 a day increase in state tax income — or a total of \$1,600,000 through this month. Obviously, the increase now will be greater.

Farm Market Expansion — Agriculture Commissioner John White announced the initiation of what he called "the most aggressive market expansion campaign in the history of Texas agriculture."

White said the marketing drive will include efforts to present the true quality image of all Texas food and fiber-products as well as specific programs to bolster markets for Texas-produced and processed commodities.

Hurricane "Warnings" Out — The 1967 hurricane season has arrived, and coastal residents had better not forget it, warns Department of Public Safety Director Col. Homer Garrison, Jr.

Pamphlets on hurricane precautions are being distributed to local civil defense offices in coastal counties.

Three major hurricanes have hit the Texas coast this century, including Carla in 1961.

Short Snorts — Lieut. Gov. Preston Smith will become acting governor while Connally is on his African safari.

State Supreme Court agreed to review question of weather a home for the aged affiliated with the Methodist Church is a property tax-exempt charity (Lower Courts said the facility — Hilltop Village Inc. — is not).

Texas Water Rights Commission warned of acute summer water shortage in Guadalupe River and tributaries above Comfort. There have been 221 known rabies cases in Texas this year, according to Texas Veterinary Medical Association.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Pictures are made by fools like me. But it took an architect-friend to help me appreciate this one.

"I'm always impressed," he said, "when someone puts beauty and meaning where otherwise there would have been nothing. That's what God did when he made this tree!"

Photographers like to pretend they're philosophers. So I titled my picture *Where There Was Nothing . . .*

Next Sunday my architect-friend invited me to church. A bit overwhelmed by this sudden solicitude for my long-neglected spiritual welfare, I went. And there a remarkable discovery awaited me!

It is a drab expanse of broad, flat years which I call my life. And only God seems able to put beauty and meaning where otherwise there was nothing. Every Sunday a new truth grips me. Every Sunday I discover a new tree!

Crowning of Miss Mohair Postponed

"The Miss Mohair of the Universe Coronation originally scheduled for July 22nd has been postponed due to conflicting dates," Mrs. J. W. Adams, President of Texas Angora Goat Raisers Association Auxiliary announced today. "The coronation will be held in the latter part of September or first of October at a date to be confirmed later."

The postponement was necessary when unavoidable conflicts in the schedule of some of the principals involved became apparent.

Miss Fern Mikeska, sixth grade teacher in North Elementary for the past several years, has resigned her position in the Ozona School system and will leave New York for Germany August 10, where she will teach children of Army personnel.

Texans To Match Zealand Clippers With New Zealand Shearers

A sheep-shearing contest between two New Zealand champions and a couple of Texans will provide a sidelight to the 52nd annual Texas Sheep and Goat Raisers' Association convention in San Antonio July 24 to 26. Convention will be at the El Tropicano Motor Hotel.

A widely-varied slate of speakers includes a South African mohair marketing specialist, a water rights specialist, a rural sociologist, the associate dean of agriculture of Texas Tech, and Speaker of the Texas House, Ben Barnes.

The two New Zealanders, touring this country under auspices of Merck and Co., are scheduled to appear on NBC's "Today" television

program the morning of Monday, July 24, then fly to San Antonio to demonstrate their skills against Texas shearers Tuesday afternoon.

Howard Derrick of Eldorado, president of TS&GRA, said ranchmen will study proposed legislation which may face them in coming months, as well as review recent new legislation including a minimum wage law for agriculture. The 6,000 mem-

ber organization has its headquarters in San Angelo.
