What people are saying about..

"Electric heat keeps mother so comfortable," says Mrs. Earl D. Tracy of Junction, Texas. Mrs. Tracy's mother, who is 90 years old, makes her home with the Tracys. Caring for her in an electric comfort-conditioned home is much easier, Mrs. Tracy says. "As you get along in years, drafts and varying temperatures in the winter time are bad. With electric heat, the room stays the same temperature, and there is no dryness like from other heating. And individual room controls allow each of us to select the temperature we like best."

Mr. Tracy is a rancher, and is well known in and around Junction. The Tracys really live in

A CLEAN BREAK WITH THE PAST

their home-enjoy it themselves and entertain friends. Mrs. Tracy has cooked electrically for 35 years, and the Tracys have lived in total-electric comfort for two years. The cooling system is ducted-in type, the kitchen total-electric, there is an electric home laundry, water heater and two bath heaters in addition to baseboard heating. The home is of brick construction-6 rooms and two baths-and the average per month cost is only \$26.20. "Electric living is so much less expensive than I ever thought," Mrs. Tracy says.

Why don't you convert to total-electric living and see what you have to say about it?

Make a clean break with the past...convenience and comfort are great in Total Electric Living

When Jack Sinclair retired, he took his wife on a holiday cruise. They'll be home next week, and I'm certainly going to tell them how much they've been missed here at the church.

Like all ministers, I need a lot of help from my congregation to make our church a happy, inspiring place. Sinclair and his wife are just two of the many older members that keep things running smoothly. I depend on them for good ideas, for experienced administration and, very often, for a wise approach to young people's problems. In return, the Sinclairs have often told me how important their church has been in their lives, and how they both enjoy being needed.

That's one of the great secrets of life, I think . . . to be needed. And there isn't a church anywhere that doesn't have a real need for "senior citizens" to help with God's work.

. . . ALL FOR THE CHURCH The Church is the greatest factor

THE CHURCH FOR ALL . . .

on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
