Kitty's Korner

By Kitty Montgomery

If you haven't been out to Fort Lancaster lately, you should try to drive out and have a look around. You will be amazed at the progress which has been made in so short a time.

Most of the credit, of course, goes to Lucile Harrell and her committee, The Crockett County Historical Survey Committee. They have worked on the project for years and their effort is certainly bearing fruit.

I had not seen the visitors' center until last Thursday and ake I was impressed with the beautiful building. When you step out the glass doors in the back of the center, you are on the parade grounds of the old fort. and it takes very little imagination to see the old fort as it must have been from 1855 to

The ruins have been marked and there is a brief history of the fort on a lighted podium at the rear of the center. As you look over the rims of the nearby mountains, it's no trouble at all to see smoke signals or a band of Indians with bow and arrow at the

I was really rather disappointed to hear that the most recent group of archaeologists to work on the ruins have determined that the buildings were burned one by one, possibly by travelers taking shelter in the buildings overnight and leaving fires burning. A renegade band of Indians, setting fire to everything in sight makes a better story, but of course, they weregone by the time the fort was

abandoned in the 1880's. I didn't get to meander around as much as I would have liked. I heard Indian war cries and suddenly the skies opened up and a cloudburst sent me scurrying for cover along with members of the committee and the archaeological group.

The entire Little League operation will be shut down next week for Boy Scout camp.

After a week of camp, things will get hot and heavy coming down the stretch. Ozona National won the first half and if they should win the second half, there will be no play off game. Many new books have been received by the sorority as memorials and they solicit such gifts. Anyone wishing to donate to this cause may call Mrs. Al Schmid or Mrs. Oits Holt. All purchases are made by persons trained in children's literature.

4-H DRESS REVUE WINNERS -- Winners in the 4-H Dress Revue held here Friday were Cydnie Jane Whitehead, top left, first place winner in the senior division. Cydnie Jane, daughter of Mr. and Mrs. Ruben Whitehead, will represent the county in the District dress revue. Runner-up and first alternate is Elizabeth Zapata, top right. First place winner in the junior division was Wanda Wilson, bottom left, daughter of Mr. and Mrs. W. J. Wilson. Runner-up in the junior division was Regina Everett, bottom right, daughter of Mr. and Mrs. R. J. Everett. Jr.

## **Archaeologists Complete First Lancaster Excavations**

An archaeological team from the University of Texas at Austin, headed up by Mrs. Desimae Lorraine, finished a League second half play finally month's work on the ruins at Fort Lancaster last weekend. They were honored at a dinner Thursday evening at the Fort by members of the Crockett County Historical Survey Com-

### **Larry Albers** Named To VFW **District Office**

Larry Albers, Post Commander of the Ozona V.F. W., was elected Junior Vice Commander, District 22, San Angelo in a District meeting there Saturday.

Albers expressed his appreciation to Ozonans for making the poppy drive a success in the city and announced that the local post will donate their part of the proceeds of the sale to the Boy Scouts of Crockett County.

Coming events at the V. F. W. Hall include a barbecue dinner and bingo party. The club invites all members of the American Legion, their wives and guests to attend this event Saturday, June 12, at the V.F.W. hall.

Officers for the coming year were elected Saturday night at a regular meeting. Albers was re-elected to the office In past years, at the end of of post commander, Charlie Applewhite was elected senior vice-commander; Martin Harvick, junior vice commander; John W. (Bull) Walker, judge advocate; Perry Hubbard, chaplain, and Al Fields was re-elected to the post of quartermaster by a unanimous vote,

> with Ray Boyd as adjutant. Named as three-year trustees were Janes O'Haire, Jack Williams and Gene Williams. Elected as guard or officer-of-the-day was Pete Pridemore.

During the past month the team of archaeologists has unearthed the foundations of three buildings, the officers' quarters, the hospital building and kitchen and the commisary. The group apparently unearthed the original flag-

pole hole and base. The entire area of the fort is very much the same as when it was occupied from August 21, 1855 until the 1880's, when it was finally abandoned.

The recent excavation determined that the buildings burned, rather than fell into decay. Artifacts from the three recently excavated buildings will be processed in the University of Texas Archaeological Laboratory and the local committee will receive a report on them in the next three to six months.

The excavations have been covered and the foundations secured with plastic sheeting. The next step will be stablizing the ruins and preserving them by various methods.

Long range plans include completely restoring at least

Mr. and Mrs. Lee Wilson, formerly of Ozona where Mr. Wilson had an automobile dealership, have recently sold their motel in Truth or Consequences, N. M.

The Wilsons bought the motel in 1960 and have lived in Truth or Consequences since that time.

Mr. Wilson has been an active civic leader in that New Mexico city and has worked on many projects for community betterment. He has served for several years as treasurer of the Fiesta Board and is a former president and member of the Board of Dir-

ectors of the Rotary Club. The Wilsons plan to do some traveling before retiring, possibly in San Angelo.

In the Eldorado Conserva-. tion Contest at the Walter Pope ranch over the weekend. the Crockett County 4-H team of Cydnie Jane Whitehead, Craig Taliaferro, Ray Dunlap and Regina Everett, placed second

Placing fourth was the junior team of Bill Bissett, Rod Allee and Dean Scott, and sixth was the team of Wayne Bissett, John L. Henderson and R. J. Everett III.

Individual placings were Craig Taliaferro, sixth; Cydnie Jane Whitehead, seventh; Ray Dunlap, eighth, and Regina Everett, tenth.

September closed its books with a total of 2.85 inches of rainfall and that was the last appreciable amount of moisture until April, 1971, when over four inches fell in a two-day period around the middle of

the month. October of 1970 came up with .38 of an inch, November and December followed with zero rainfall. January and Feb-Garland Young, scoutmaster ruary yielded . 07 and . 08 of an inch of moisture respectively hardly enough to settle the dust, and March was another zero month.

April rainfall amounted to 4. 46 inches and May closed out with . 70 of an inch. This brings the total rainfall for 1971 to 5.16 inches for the first five months of the year.

At that, the rainfall has not been general in the county when showers have dotted the rangelands. Up to nine inches fell on a strip of land east of the city during the two-day rainy period in April, while west of the city, a paltry . 10 of an inch was recorded.

### **Crockett Fields Gain Producers**; **Re-Entry Planned**

The V. I. P. (multipay Clearfork oil and gas) field of Crockett County gained its fourth Clearfork gas producer and a  $\frac{1}{2}$  mile east extension to that pay and the Ozona multipay field a 5/8 mile southeast extension to Canyon sand gas . production with dual completion of Monitor Natural Gas Co. ### **EDUCATION HAS FALLEN DOWN**

James Michener, in his recent book Kent State, believes that nothing angered the National Guard more Wool Promotion than the vocabulary of many girl students. Their language was cruder than any the troops had heard from Referendum Set the Army or even the roughest street people. They made obscene insults about the wives of the National Guard and conjectured how they might be spending their time, according to various accounts by men in the Guard.

The simplicity of these students boggles the imagination. It also calls into question the quality of their education. Their simplicity lies in their believing that they can shout obscenities at men and simultaneously enjoy physical immunity. The quality of their education is highly questionable for not having prepared them to expect the logical consequences of their offensive acts, and even more for not teaching them to behave like civilized women.

The studied use of obscenities in current films reflects the policy of the New Left to destroy the sensitivities inculcated by our traditional Judeo-Christian culture. These sensitivities correspond to basic values of Western civilization, which the New Left considers a corrupt, middle-class culture whose taboos must be shattered.

The particular value that comes under fire in the case is respect for the rights and dignity of the individual. ### END THE DOLLAR CRISIS

Many things can be said against the late Benito Mussolini, but he was more right than wrong when he called the great depression of 1929 "a vast bookkeeping error."

People were starving, and many more hungry amid plenty, or the possibility of producing plenty. At the same time, mules were balking at the unaccustomed task of plowing under every third row of cotton. Soon to come was the system of paying farmers not to produce food, which is still being done. The fields, the farmers, the factories, the workers, the managers, and the owners were all there, but something was wrong with the system.

President Franklin D. Roosevelt took the country off the gold standard, but dollars could still be exchanged for gold by foreign holders of our money. Gradually Payroll Savings the United States regained a measure of prosperity. After World War II the United States was the richest and strongest nation in the world. The monetary and economic system could not have been all bad.

But affluent America overdid. We gave away \$178 billion in Lend-Lease, aid, grants and gifts. The economy perked along and no one complained. But one of our Poor John. Why does he now want America out of Europe as well as Asia? Does he really think the cold war is ended? As for you. the Senate majority leader, he owes greater generalship to the people. A hate-business climate is developing rapidly. Ralph Nad er's continuing campaign against business has contributed substantially to this climate. The Nader reports have been published in pocketbook form and are available on book racks around the country. Mr. Nader also lectures widely and appears frequently on TV. His charges and complaints go virtually unanswered. Business needs to organize truth squads to deal with the Nader types. But business is hesitant to get into the fray. There are endless stories about alleged technological failures -inadequate or costly auto bumpers, for instance. But few stories point out the great successes of American technology. Almost every airline in the world uses American aircraft. Why? Because they are safe, dependable and excellent overall. Highly political church groups want General Motors,

It described strategies to be used in curbing corporate actions. A brochure used to advertise the conference referred to the "socially destructive acts of corporations."

The corporation also is under attack on the campus. For example, this year the John Fitzgerald Kennedy School of Government at Harvard organized a study group on "Corporate Power in a Liberal Democracy." The school's announce ment said that "Corporate power is a major public issue once again after two decaded of complacent assurance that the reforms of the Progressive and New Deal periods had sibjected American industry to effective public control."

That's the way it goes these days. And, of course, corporations are under even more direct attack. In California, branches of the Bank of America have been burned to the

S. corporation represents the constuctive force in the nation -- the doers. Thus it is under attack from the Liberal-Left ideologues and from the talkers who speak glibly of "radically restructuring" American society.

What is the alternative to the American corporation? The only alternative is a government agency -- an enterprise controlled by bureaucrats. This isn't a valid alternative. The history of many nations shows that government agencies are; inefficient producers and managers. The move from a free enterprise system to a socialist system is a reactionary, backward step. Yet, that is the direction in which the critics of the U. S. corporation are attempting to move the country. They are determined to turn back the clock to statism. But business must make that fact clear to the U. S. public. Business must speak out and explain how the hate-the-corporation attitude

### WASHINGTON HOSPITAL NEWS **NEWS LETTER**

Congressman O. C. Fisher

A super welfare measure has been reported to the House and is due to be debated within the next few weeks. Similar to the one approved in the House last year, the new version does increase the guaranteed annual income to \$2,400 a year instead of the \$1,600.

By liberalizing eligibility for boarding the welfare train, it is now estimated that, as reported by the committee, the total recipients will be about 26-million. The cost tag will be more than \$5-billion Mike Walter. a year more than welfare is now costing, with a strong likelihood this amount will soon

While work incentives may conceivably cause some recipients to leave welfare, it is equally certain that the attractiveness of the liberal payments will cause many to seek and retain the welfare status.

Already the radical Welfare Rights Organization, the Americans for Democratic Action (ADA), the Southern Christian Leadership Conference, the congressional Black Caucus, and several other militant outfits, are demanding that the \$2, 400 per year for each family of four be raised to \$6,500.

Once the concept of an annual guaranteed income is enacted into law, we can expect a constant battle to increase the handout.

The recent "help Hanoi" demonstrations in Washington cost taxpayers \$5.5 million, according to findings of a congressional committee. This included all extra costs for police and military, and does not include damage to private property and loss of business caused by visitors being scared away from Washington while the protests were going on.

Postman vs. Home Owner -

More often than not, the relationship between postman and home owner is a warm and friend-ly one. But even into this sunny liable—but only if he was someclime a little rain must fall. Such as, when the postman gets hurt and sues the home owner for dam-

guilty of any negligence. For ex- deliver a package, the man opened

from underneath, there was no reasonable way for the home owner to have discovered the danger. By contrast, take the following

A postman slipped and fell in the outer hallway of a home, because an excessive amount of wax Dismissals: Bobby Galbreath, had been applied to the floor. This time, there being negligence on the part of the home owner, the court ordered him to pay the postman's

In terms of sheer frequency, the Number One hazard that the postman faces is a bite by the home owner's dog. Many thousands of on-the-job bites are suffered each year by mail carriers.

.In such circumstances, the home wner is usually liable if the state has a "dog bite law." Under this law, a dog's master may be held responsible for a bite not only when he was negligent but even when he was not negligent in any

If the state has no dog bite law, how to blame for the bite.

In one case, the owner of a vicious dog did take the trouble to post a "BEWARE OF DOG" As a general rule, the home sign on his front door. However, owner is not liable if he is not when a postman rang the bell to the door and permitted the dog A home owner was sued by a to dash outside and bite the post-

# How a minus on your paycheck can be a plus in your future.

Sound confusing? It isn't, really. When you join the Payroll Savings Plan where you work, an amount you designate will be set aside automatically from each paycheck. That's the "minus."

That amount will then be invested in U.S. Savings Bonds. That's where the "plus" comes in. Because you're automatically saving for your future, with one of the safest investments there are: U.S. Savings Bonds.

And, by deducting a little at a time from each paycheck, you don't feel the pinch financially. Before you know it, you'll have quite a tidy sum tucked away.

And now there's a bonus interest rate on all U.S. Savings Bonds-for E Bonds, 51/2% when held to matu-

ity of 5 years, 10 months (4% the first year). That extra 1/2%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds. Put a little "plus" in your future.

Join the Payroll Savings Plan.

Take stock in America. Now Bonds pay a bonus at maturity.
