Soil Stewardship Week Celebrated

In observance of Soil Stewardship Week which began Sunday, May 16, local ministers and other special guests attended a breakfast hosted by the local Soil Conservation Service Friday morning. Henry Stoneham, manager of the local office, welcomed the guests and introduced guests before Royce Clay, minister of the Muleshoe Church of Christ spoke to those at the breakfast.

"Saving soil and saving souls is closely related," said the minister, as he gave facts and statistics citing the fact that agriculture changes fast, and you read or see something new daily.

Soil Stewardship Week, which is a week of dedication set aside for a reminder of good soil conservation practices, was first instituted in Texas 25 years ago.

A spokesman for SCS said, "The wealth of natural resources entrusted to us by our Maker has, from our beginnings as a nation, undergirded our

growth. Always vital, it now becomes now more so.

"Extraordinary population growth at home and abroad provides substance for mounting demands on the land-and on the resources associated with the land. The forecasts of human increase project figures of such magnitude that they are hard to comprehend.

"During the next 35 years, the population of North America is expected to increase by 64 percent to 350 million; Latin America by 157 percent to 630 million; Europe by 15 percent to 780 million; Africa by 151 percent to 775 million; and Asia by 89 percent to 3,400,000,000. The total number of people on our planet is expected to rise to six billion by the year 2000-an increase of 2,900,000,000 in just 35 years.

"At home, more Americans will want more products of the land more often. Food, which has been in 'surplus' may never again be in that category. Nevertheless, all prospects indicate that we can increase food production to meet our domestic needs for the foreseeable future. With good stewardship, we can produce more per acre and we can farm more land more intensively."

The spokesman concluded, "The steward of the soil, aware of his responsibilities to his Maker, seeks the counsel of God and relies on it. We must all work together to keep our nation the richest on earth."

Water Amendment Approved By Area

One-Seventh Of Registered Voters Cast Ballots In Election Tuesday

Approximately one-seventh of the 3,129 registered voters went to the polls in Bailey County Tuesday to turn down the first three of four proposed amendments to the constitution. The only amendment approved was the clean water amendment.

The 470 voters in this county turned down Amendment One by a vote of 102 for and 359

against the ethics and legislators' pay amendment; voted 103 for and 355 against submitting amendments during special sessions; 152 for and 312 against raising the ceiling on welfare and cast 246 votes for the clean water amendment and 216 against the water amendment.

County voters, in a straw poll included on the ballot, also voted by a wide margin to take their chances on natural weather and turned down the hail suppression project, voting 77 for the program and 346 against it. Ten counties included the question on weather modification on their ballot, and with eight of the ten counties completing the count of vote, all counties turned down the proposal.

Attempts have been made to block the weather modification program and although the permit was granted earlier this year by the Board of Water

Congressman Price Honored At Dinner

Bailey and Parmer County residents honored 18th Congressional District Congressman Bob Price at a dinner in Muleshoe Saturday night at the First United Methodist Church Fellowship Hall.

More than 125 persons attended the dinner and heard Congressman Price speak about three areas of government of concern to persons in this vicinity.

Congressman Price said that he plans to introduce in the near future a "tax-sharing act" instead of the "revenue sharing act" suggested by the President. He said, "I plan to introduce this legislation as an alternate to the general revenue sharing measure proposed by the Nixon Administration. However, I still intend to support some of the special revenue sharing proposals of the Administration."

The 18th District Congressman pointed out that the bill he will introduce will allow individuals a credit for the state and local income taxes they pay. Price noted that a tax credit is different than the tax deduction presently allowed.

"A tax credit is a direct deduction from the amount of tax due. A tax deduction is the amount you deduct from gross income to determine taxable income. Consequently, since

the tax liabilities are determined in general categories, a tax credit is worth much more in dollars and cents to an individual than a tax deduction," he explained.

The tax credit in Price's proposed bill will be in addition

to the deduction already provided for state and local taxes. "The tax sharing comes from the fact that state and local government could then be increased without increasing the total tax burden of the individual." Cont'd on Page 3, Col. 3

Bayless Feted At Law Center On Birthday

Bailey County Constable Roy Bayless fetted and fussed Friday afternoon while waiting for radio dispatcher Mrs. Forrist Williams to come to work at 5 p.m.

Mrs. Williams had sent word for Bayless to stay right in the radio room and wait for her as she needed to talk to him. Bayless was puzzled, as Mrs.

Williams was late and he couldn't understand why, after all, she was always early, everyone knew that.

What the constable did not know was that Mrs. Williams was already in the Bailey County Law Enforcement Center. She had sneaked in a rear door and had gone to the basement of the Law Center. But . . . so had a lot of other people, around 40 other people, in fact.

And what was all the mystery? The only mystery to it was to keep the popular constable at the Law Center until everyone could get ready for a special 'surprise' party on the occasion of his 75th birthday. They decided that keeping him right in the radio room would be the best way, so devised the little subterfuge to keep him still until the salad supper was on the large table in the basement of the Law Center and he could be called to the basement.

Development in Austin, opponents of the program hint now that they may seek an injunction to keep the Atmospherics, Inc. from operating in the area this year. Opponents contend that the cloud-seeding program designed to suppress hail also suppressed rain in the area.

Ten counties of 33 area counties voting on the amendments turned down the fourth amendment, the clean water amendment, and one of the counties, Deaf Smith, approved amendment one. Deaf Smith County was the only county approving the second amendment and Deaf Smith and Castro Counties approved the third amendment which would raise the welfare ceiling.

In the 33 area counties, a total of 30,119 persons went to the polls Tuesday to cast their ballots.

30 years ago, and need to let people solve their problems at home where they know what the exact problem is and what solution will be needed to solve it."

He also spoke on a proposed welfare reform program. Price commented, "I am for changing the eligibility standards to where a physically fit person on welfare is required to register for work and job training or be dropped from the welfare rolls. Adding more welfare funds available creates a cycle of poverty and depression which leads to the creation of welfare ghettos. I also advocate that the federal government should go ahead and

completely take over the welfare program and administer it in its entirety, but I am afraid the welfare bill will get into politics before it is passed. "One thing I do know," he added, "is that I will not support a welfare reform program unless it requires people who are physically able to accept a job of some kind."

On government reorganization, Congressman Price advocates consolidating some of the 180 educational programs scattered in 29 agencies into one agency; the 38 federal groups on water resources into one group; and the eight cancer research groups under one department.

He said that Congress has trouble determining what is going on in the different areas because each department did not know what the other department was doing in the same field of work or endeavor.

He said President Nixon had proposed the government reorganization and added, "I agree, we must reorganize the government and have more power in the hands of the people in regional and local offices, and bring government back out to the people where you, the local people, can operate it and try to solve your own problems."

Congressman Price concluded, "We are reaping today

the type of nation we have sown, and if we don't change our ideas, both monetarily and militarily, we are a doomed nation. It is your government, only you can change it."

Preceding Price's talk, the guests dined to music provided by Cassie Precure, Alta Ramm, daughter of Mr. and Mrs. Ernest Ramm, did "I Am Your Flag" and Mrs. Ramm led group singing of patriotic songs. Jim Allison, son of Mr. and Mrs. Harold Allison led the pledge to the flag.

Among out of town guests recognized were Mr. and Mrs. John Get of the State Line Tribune, Farwell; Mr. and Mrs. Nelson Lewis, Friona Star,

Friona; Karen Wright and James Jester, Lubbock Avalanche-Journal; Jeffrey Wentworth, Texas Tech Law School Student Body President; Mr. and Mrs. Gil Patschke, Radio Station KZOL, Farwell; Mr. and Mrs. Charles Flynn, major of Bovina; and Mr. and Mrs. Bob Anderson of Farwell. Also recognized was Glen Lust, Parmer County Republican Chairman and Clarence E. Mason, Bailey County Republican Chairman.

Frank Hinkson, who is a member of the State ASCS office, introduced Congressman and Mrs. Price then spoke briefly prior to the Congressman's talk.

In Fashion

Little folk's clothes have many features of those of older people. For instance we see many combinations of red, white and blue.

The dress may be of blue, sleeveless and with pleats in the skirt. The low belt will be of the three colors, red, white and blue.

Capes are good for the youngsters. Capes and dresses of solid colors may have bindings of a different color or white from the neckline and around the hem line. Tams are smart with capes.

Study Club Hears "Status Of Women"

The Muleshoe Study Club met Thursday, May 13, at 4:00 p.m. in the Corral Restaurant with Mrs. Walter Bartholf as hostess. The president Mrs. G. L. Splawn, called the meeting to order. Mrs. Barry Lewis led the group in saying the Pledge of Allegiance. Mrs. Mildred Neely, secretary, called the roll which was answered with "My Ideal Woman". Mrs. Splawn reported that the club's scholarship to a graduating senior went to Betty and Bonnie Chandler. Mrs. Bartholf, director, introduced Mrs. Horace Blackburn who spoke on "Status of Women".

Some points she brought out were: "The Status of Women Division of General Federation of Women Club's chief goal is to prepare women for leadership and service in government roles, as volunteers, in appointive positions and in elective offices. "Too few of us today choose to run. Too few of us today seem to want our political rights and responsibilities. Too few of us today seem to want to use our special talents to improve the quality of local or federal government. "Fifty years ago women won the right to vote. In 1959 a survey was made on Women in Public Service. Comparing recent 1969 figures to those of 1959, shows a decline of women in office except for women mayors which has jumped considerably. In view of the erosion of women serving in government, we must be neglecting politics. "A woman can earn as much satisfaction and personal reward by helping another woman as she can by gaining political success herself by being the candidate. "There are still many laws which discriminate against women and only an equal rights amendment to the constitution can change the status quo. Unfortunately there are those who do not believe in equality. These opponents are voicing strong disapproval and raising many objections to the Amendment-objections which in reality are without basis. The opponents claim women can be drafted if the amendment passes. The truth is that women can already be drafted in Texas! In 1957 the Texas legislature passed Article 5765, Vernon's Revised Civil Statutes, 1958 Supplement. Article 5765 provides that "all able bodied citizens, male and female . . . shall

constitute the militia and be subject to military duty." Furthermore there is nothing to prevent Congress from passing a law giving either husband or wife or both alimony with or without the Equal Rights Amendment. The opponents say if the amendment passes the mother will no longer have superior rights to child custody. The truth is the mother does not now have such a right! Neither Texas or any other state in the Union gives the mother preference by law in child custody cases. Legal equality enacted into our constitution - the basic law of our land by passage of the equal rights amendment, is a matter of simple justice for all citizens!" Those present were Mrs. Walter Bartholf, Mrs. Horace Blackburn, Mrs. Joe Costen, Mrs. R. O. Gregory, Mrs. George Johnson, Mrs. LeVina Pitts, Mrs. Mildred Neely, Mrs. Barry Lewis, Mrs. Sena

Stevens, Mrs. G. L. Splawn, Mrs. Mervin Wilterding and Mrs. Wilson Witherspoon.
