In the were rigidly adhered to.-New York United States the eagle has always | Times. been regarded as the emblem of patriotism. As such, its outlines have been freely stamped on the coins of the Republic, and no for yer country and there's mity American schoolboy needs to be doggon few looking fer the job, even told that the engle is a fighting at them figgers. bird, dangerous when ruffled, vigorous in conflict, sleepless, patient bin created, the Garden of Eden lusty and game. There are no would have been a patch of weads. LOYELY COMPLEXION flies on the eagle, and his voice is

not musical. The Democrats of Ohio last Wednerday selected as their emblem the barnyard rooster, a domestic animal of strident lungs but unpretentious manners, and not equipped by nature, science or training successfully to encounter the eagle at short range. But the rooster is a game bird, undiplomatie and intrepid, always ready for an antagonist of his own size or larger, and accustomed to have his supremacy acknowledged or to know the reason why.

The eagle suggests patriotism: the roster suggests utility. The former is a patrician, living in an evrie away from human habitation and little concerned with mundane matters. The latter is a Dem crat, always to be found pretty cl se to the granary and taking a hu-tling part in all farmyard affairs. The rooster is a born home ruler and therefore a true Democrat, whereas the eagle represents nobody in particular, and is least popular where he is best known.

For the first time the electors of Ohio this year will have an opportunity of expressing their political preferences according to bird em- ver .- Sold by French & Chamberblems, a new device in American lain. voting, and probably better suited to Ohio than to New York. Here, be so quickly cured by Shiloh's THE OLD happily, man is still the noblest type of honest conviction, lofty aspiration and patriotic endeavor among voters of common kinship and similar destiny. A man's last day of school.

The destiny is a said the tired school teacher, in the last half of the closing hour of the last day of school.

For variety and fertility of soils.

A vast foof native woods, adapted to the manufacture of all grades and styles of furniture, vehicles and agricultural implements. Walnut, ite Oak, Linn, Ash, Hickory of every variety, Post Oak, Cypress, Long and Short Leaf Pine, Curley Pine, Holly, Beach, Cherry, Magnelia and every other fap cies of timber found in the woods of East Texas.

# Houston County Took the Gold Medal

at the Fort Worth Spring Palace in 1890 for its magnificent display of timbers. The North-eastern, Northern and North-western sections of the County are rich in iron ores of the

#### Soils of every variety to be found in the state are to be found in Houston County, from the black waxy to the light sandy. The ailroad Facilities of the County

are splendid. The International & Great Northern runs through it directly North and South. The Trinity & Sabine belts it on the South, the Houston, East & West Texas on the East and the Kansas & Gulf Short Line on the North, thus affording to every section of the County easy and rapid means of transportation to an from market. Besides these tw other lines are surveyed and projected through the County, running in a North-westerly and South-easterly direction. Rivers, Creeks and streams of living water abound, furnishing through the dryest summers an abundance of pure, fresh water. The Trinity River is the County's boundary or

the West and the Neehes on the East.

The County School fund is perhaps

# The Largest in the State,

reaching the splendid sum total of \$70,000, from which is annually derived for available use in maintaining the schools of the County from four to five thousand dollars. The added to the amount raised by local taxation and that bestowed by the State furnishes the princely sum of thirty thousand dollars spent annually on the free schools of the County

-20.000 AND LARGELY WHITE.—

#### All denominations of Christians have organizations in the County. FRUITS AND VEGETABLES

of every kind are produced here and the County yields to none in the State in adaptability of soils to the growth for market of peaches, pears, figs, plams anricots, grapes and

# The-:-Climate

and soil combine to make the growing of early fruits and vegetables for market easy and profitable. The proximity of large cities joined as they are to us by rapid transportation conveniences encourages the belief that in the near future the soils of Houston County along and adjacent to the L. & Gt. N. R. R., will be in great demand for early vegetable and

# -: The Schols of Houston County: --

e unsurpassed by any in the State, in respect of efficiency and competency of teachers, standard of scholarship and duration of free term. Its own unsurpassed permanent School Fund supplemented from other sources enables us to come nearer fulfilling the constitutional requirements of a six-months term than any other county. The debt and tax-rate of the County are almost nominal.

Its climate is mild and healthful, the temperature never reaching extremes in either Summer or Winter.

Its water supply for both domestic use and manufacturing purposes is unexcelled. Springs and streams of never failing water are to be found in every section of the County. Running through the County in every direction are ever-flowing streams of water of the finest kind, and of such volume and power as to be very valuable for manufacturing purposes. No County in Texas can boast of as many such streams. The medical qualities of some of these springs are highly prized by the invalid and health-

as stated above every kind of soil to be found in the State. The black waxy, the chocolate, the red the loamy, the sandy and quite a number of others. ... The Products Of the County-...

The area of the Count y embraces nearly seven hundred thousand acres of land, of which not more than one hundred and twenty-five thousand are in cultivation. We have

re cotton, corn, oats and other small grain, sorghum, ribbon-cane, fruits and vegetables of every vriety, hay, and in some places, rice&c. &c. &c. The County produces on an average every year fifteen to twenty thousand bales of cotton, a million bushels of corn, a hundred thousand gallons of ribbon-came syrup

# Crockett the County Seat

of Houston County, is situated on the L. & G. N. R. R. It has a population of 2000. The people of the town have recently voted to take charge of schools and support them by taxation, nine months in the year. The City Council have assumed control and established graded schools for both white and black. Handsome and commodious brick school buildings with all the modern appointments will soon be under construction. The town is destined to become the educational center of East Texas The society of the town is excellent. The town has two weekly newspapers and churches of nearly every denomination.

## LOVELADY TO THE SOUTH.

on the L & G. N. R. R., is an enterprising town of 500 people, good society, several churches and a splendid High School maintained all the year in on of the finest high school buildings in Eastern Texas. The country surrounding this town is fine and thickly settled.

# GRAPELAND TOTHE NORTH

is another enterprising town of several hundred people, fully alive to the demands of the hourand supported by a superior section of country. They have in course of erection a very fine high school building in which the public spirited citizens of that place propose to sustain during the entire year a high school second to none in the County. The country to the East of Grapeland is noted for its

# Extensive Beds Of Green Sand Marl.
