YOUR COUGH

Has not yielded to the various remedies you have been taking. It troubles you day and night, breaks your rest and reduces your strength. Now try Ayer's Cherry Pectoral, before the bronchial tubes become enlarged or the delicate tissues of the lungs sustain fatal injury. As an anodyne and expectorant, this preparation has no equal. It soothes the irritated membrane, promotes expectoration, and induces repose. The worst cough

Can Be Cured

by the use of Ayer's Cherry Pectoral. Dr. J. G. Gordon, Carrol Co., Va., writes: "I use Ayer's Cherry Pectoral in my practice, and pronounce it to be unequaled as a remody for colds and coughs."

"After the grippe—cough. This was my experience—a hacking, dry cough, with an incessant tickling in the throat, keeping me awake nights, and disturbing the household. I tried a great number of 'cough-cures,' but they gave me only temporary relief. At last I concluded to take Ayer's Cherry Pectoral, and before I had used half a bottle, I had my first all-night sleep. I continued to improve, and now consider myself cured."—A. A. Sherman, Cocymans, N. Y.

By Using

Ayer's Cherry Pectoral, E. D. Estabrooks, Canterbury, N. B., says: "In the winter of 1809 I was a surveyor of lumber in Sacramento, Cal. Being considerably exposed, I took a bad cold accompanied with a terrible cough. I tried several remedies, but they falled to cure me, and it was thought I was going into a decline. On the advice of a friend, I began to use Ayer's Cherry Pectoral, and less than half a bottle

Ayer's Cherry Pectoral

does little to advance accurate cal profession as bleeders.

THE CAUSE OF DOCTORS' MISTAKES. This is where the arterial system In medicine, as in every thing else, things are assumed from existing conditions as facts which a little further increase in knowledge will make appear ridiculous. It knowledge is progressing all the What is it? Where is time, and what we have commenced in to-day may to-morrow be shown to have no value. This, is the greatest cause of all the mistakes that are made in medicine. Physicians come to conclusions to quickly and without a proper in vestigation of the cause. There are no two cases of the same disease exactly alike, although it is given the same name and is treated the same. There are hundreds of different conditions in the lives of every one who appear on the outside to be nearly alike, and which have an incalculable influence on the body

when it is afflicted with disease. It is said that every known poison has an antidote, but while the poison is known, the antidote many poisons is not. The human race suffers because of the ignorance on this subject:

COULD CHARM A BATTLESNAKE. There is a case at the Woods Is land Hospital that has attracted wide-spread attention in the medical profession, because it has prac-It Jumped Off the Ta- tically discovered a new remedy for the poison of the rattlesuake. There those in authority to inquire well intelligently and in a way to show their most sacred charge. manding the election of R. Q. Mills reasons for it too. This is the way pelled to rely on a key to get one of them puts it and it is done through his work passably, is neatly and cogently

As you ask for farmers' ideas; I kludly scholarship, further discussion un submit mine: 1. In reference to the alien land law it is generally thought that the real statesman is he that looks and again when the governor's vig but to the farmer never, and is it the each after the beer-guzzlers in I think not. If thoroughly investigated This writer hits the nail plump when he says it is not the farmer who is causing the kicking for its repeal but the speculator, the bro-THESE "jawjy" editors who ex- ker and the town-boomer. There press no regret at the defeat of are exceptions of course but the most of those kicking against the boys together, they and Crisp were law belong to the very class spoken of. But the law has been killed off "doodle bug" on the red hills of by the decision of the supreme court. It will however come again in some form. It may not, and probably should not be as harsh in some of its provisions as the defunct one, but it should be strong and comprehensive enough to protect the masses of the people from a system of alien-land lordism which has accomplished the ruin of Kansas and a lew other states.

THE COTTON MARKET. That the New Orleans "future" manipulators are bearing the mar ket and heading a systematic movement to get the present crop of cotton out of the hands of the planters at a low price caunot be gainsaid. The Appeal Avalanche rarely presumes to give advicwith regard to the probable prices of cotten or any other product of the country, but the present condition of the cotton market impels it to show what we believe to be a shrewd effort on the managers of the New Orleans cotton market to use the "future" market scheme to assist the spinners of England and other portions of the world to get the cotton crop at a rumously low figure. Within twenty-five years there has never been such a flood of letters and telegrams to Memphis cotton men, all tending to bear the market. Many of these dispatches are from New York, but the greater part from New Orleans. They tell of large fields unpicked and scarcity of labor, all of which is ridiculous enough. They point with suspicious emphasis to the receipts of the past few days as indicating that this crop will be larger than, or at least, regal to that of last year. They r ceipts with those of the same the Southwest. day last year. These New Orleans Next School Year Begins Oct. 7 men know as do all other well in- 1891. f med cotton men, that the recoints of last year at this time * remarkably small on account Creckett Texas. of the money panic over the whole e maercial world, and while they hori up these receipts as indicating a large erop, the truth is that the receipts of the past days are about in be plug with those of former years when we had a crop of five or six million bales. To prove this we give below the receipts for first five days in December for the past ten years and the total amount of the crop for those years, which will show that the receipts at the ports now are such as we had when the total crop was five or six million bales. Of course,

Banana Peel on the Sidewalk. The street car had passed, but to catch it he reckoned. So he ran like a deer, and shouted

no one predicts so small a crop now, but we mention this to show

that these New Orleans and New

York in anipulators are gamblers in futures and in the interests of the spinners. Memphis has no future board in her cotton exchange, as has New Orleans, and

the result is cotton is bringing

1@dcents more in Memphis than in New Orleans. Years ago New York received and sold an im-

mense amount of cotton from the

planters and merchants, but the future business was inaugurated then, and in a few years New York received no more cotton from

Inducements

Its advantages and Attractions for the Man of apital and the Home-seeker.

The Banner County of East Texas,

For variety and fertility of soils.

A vast foof native woods, adapted to the manufacture of all grades and styles of furniture, vehicles and agricultural implements. Walnut, ite Oak, Linn, Ash. Hickory of every variety, Post Oak. Cypress, Long and Short Leaf Pine, Curley Pine. Holly. Beach, Cherry, Magnetia and every other for cies of tumber found in the woods of East Texas.

Houston County Took the Gold Medal

at the Fort Worth Spring Palace in 1890 for its magnificent display of timbers. The North-eastern, Northern and North-western sections of the County are rich in tron o Soils of every variety to be found in the state are to be found in Houston County, from the black waxy to the light sandy.

The Ralroad Facilities of the CountA

are splendid. The International & Great Northern runs through it directly North and South. The Trinity & Sabine belts it on the South, the Houston, East & West Texas on East and the Kansas & Gulf Short Line on the North, thus affording to every section of the County easy and rapid means of transportation to an from market. Besides these ther lines are surveyed and projected through the County, running in a North-vesterly and South-casterly direction, Rivers, Creeks and streams of living water abound, furnishing through the dryest summers an abundance of pure, fresh water. The Trinity River is the County's boundary of the West and the Neches on the East.

The County School fund is perhaps

reaching the splendid sum total of \$70,000, from which is annually derived for available use in maintaining the schools of the County from four to five thousand dollars. The added to the amount raised by local taxation and that bestowed by the State furnishes the princely sum of thirty thousand dollars spent annually on the free schools of the Countries p ulation of the County is

-20,000 AND LARGELY WHITE .-

All denominations of Christians have organizations in the County.

FRUITS AND VEGETABLE

of every kind are produced here and the County yields to none in the State in adaptability of soils to the growth for market of peaches, pears, figs, plume suricois, grapes and

The-:-Climate

and soil combine to make the growing of early fruits and vegetables for market easy and profitable. The proximity of large cities joined as they are to us by rapid transportation conveniences encourages the belief that in the near future the soils of Houston County along and adjacent to the I. & Gt. N. R. R., will be in great demand for early vegetable a fruit raising.

-: The Schols of Houston County: --

are unsurpassed by any in the State, in respect of efficiency and competency of teachers, standard of scholarship and duration of free term.

Its own unsurpassed permanent School Fund supplemented from other sources enables us to come nearer fulfilling the constitutional requirements of a six-months term the any other county. The debt and tax-rate of the County are almost nominal.

Its climate is mild and healthful, the temperature never reaching extremes in either Summer or Winter.

Its water supply for both domestie use and manufacturing purposes is unexcelled. Springs and streams of never failing water are to be found in every section of the County. Running through the County in every direction are ever-flowing streams of water of the finest kind, and of such volume and power as to be very valuable for mannfacturing purposes. No County in Texas can boast of as many such streams. The medical qualities of some of these springs are highly prized by the invalid and health-

The area of the County embraces nearly seven hundred thousand acres of land, of which not more than one hundred and twenty-five thousand are in cultivation.

as stated above every kind of soil to be found in the State. The black waxy, the chocolate, the red the loamy, the sandy and quite a number of others.

... The Products Of the County - ...

are cotton, corn, oats and other small grain, sorghum, ribbon-cane, fruits and vegetables of every vriety, hay, and in some places, rice&c. &c. &c.

The County produces on an average every year fifteen to twenty thousand bales of cotton, #amillion bushels of corn, a hundred thousand gallons of ribbon-cane syrup

Crockett the County Seat

of Houston County, is situated on the L. & G. N. R. R. It has a population of 2000. The people of the town have recently voted to take charge of its schools and support them by taxation, nine months in the year. The City Council have assumed control and established graded schools for both white and black. Handsome and commodious brick school buildings with all the modern appointments will soon be under construction. The town is destined to become the educational center of East Texas The society of the town is excellent. The town has two weekly newspapers and churches of nearly every denomination.

on the I. & G. N. R. R., is an enterprising town of 500 people, good society, several churches and a splendid-High School maintained all the year in on of the finest high school buildings in Eastern Texas. The country surrounding this town is fine and thickly settled.

is another enterprising town of several hundred people, fully alive to the demands of the hourand supported by a superior section of country. They have in course of erection a very fine high school building in which the public spirited citizens of that place propose to sustain during the entire year a high school second to none in the Country. The country to the East of Grapeland is noted for its
