

The extra session of the U. S. Senate has closed.

The impeachment trial of Land Commissioner McGahey began yesterday.

Cotton still goes booming down, scoring a decline of nearly a half cent this week.

They are putting up another canning factory at Jacksonville, and two at Rusk.

SETH SHEPARD, a Clark leader, has been appointed by President Cleveland, Associate Justice of the Supreme Court, Dist. Columbia.

A. W. TERREL gets the appointment as Minister to Turkey. He can show the Turks a new trick or two that they never dreamed of.

President Cleveland and Secretary Carlisle are said to be preparing a tariff bill to be presented to congress when they meet in extra session next fall.

Post Master General Bissel says that the endorsement by a congressman of a certain man for a post-office does not mean necessarily that such man will receive the appointment.

The House Committee formally filed articles of impeachment against McGahey on Monday. The indictment consists of twenty five separate counts. The trial has begun.

IF THE ravages from cyclones continue to increase as they seem to have done during the past few years, a storm-proof dug-out will become as important to a home, as a corn crib or smoke house.

The railroads entering Chicago refuse to consent to but very little reduction in rates to the World's Fair. The result is that round-trip tickets will cost nearly as much as the regular tariff.

A SPECIAL road bill for the counties of Houston, Anderson, Cherokee, Angelina and Trinity, has passed the legislature. As we have not seen a copy of the bill, we are not able to speak of its provisions.

The Travis county Grand Jury is said to have indicted some thirty odd members of the Legislature for playing poker. We are proud to hear that the names of the senator and representatives from this district will not appear on the list.

ACCORDING to books of insurance agent six to eight thousand dollars annually go out of Crockett for fire insurance. Waterworks would probably cut down this amount at least a third which in four or five years would build and pay for a first-class water works plant.

When the impeachment trial comes off and the time arrives for McGahey to take the floor in his own behalf and close the case which he has the right to do and will do, it will be worth going a long way to hear it. He may not be a land-law expert or learned in unravelling the conflicting intricacies of that department, but he is sui generis on the rostrum and his appeal on own his behalf will be exceptionally brilliant, unique and powerful.

LETTER FROM AUSTIN.

What the Legislature is doing—Events of the Past Week at the Capital.

The 23rd Legislature is still in session. I note what you say. The land Commissioner may be discharged by defect in the law. We would like to quit law making and come home, but the work is upon us. We will make the best of it possible. When Uncle Jake hears the final judgment of the senate, he will know he has been investigated.

It is true we have been here a long time, and it will go down in history that the 23rd legislature, stayed in session longer than any legislature ever did since Texas was a state, and it can be stated that fewer laws have been enacted, but the people are not worried by the 23rd Legislature passing so few laws. We have more laws now than are executed.

Unfortunately for the 23rd Leg-

islature, we are without a leader. Had we a leader and we as directed by the leader we might make greater haste. But unfortunately, each member is his own leader in this body. We don't know when we will get through. The commissioner may ask for time to get up his defense. Should he do this, we may take a recess until the 15th of June or 1st of July.

The attorney general has notified the commissioner officially that various sales of school land made by the commissioner were not made as the law directs, and suits will be brought to cancel said sales.

Now Mr. Editor, what shall we do? Shall we whitewash the official acts of some of our high officials when the official is in direct violation of the law, or shall we protect the interest of the progress of the state, as we promised to do when we took the oath of office. Our effort to correct wrong may prove fruitless, the trial of the commissioner may be a farce, but we are in it and will make the best of it possible. Should we find we have no law to protect the public against losses by the misapplication of law, it is time laws should be enacted that will protect the public at large.

We are now working on the appropriation bill. When we are through with this bill I hope we will adjourn. It takes \$52,000 to support the railroad commission annually. I find a disposition on the part of some to suspend payment until the law is operative. The case is now in the supreme court of U. S. where it will likely rest for the next two years.

The railroad commission has been enjoined. The appropriation as shown by the bill, coming from the finance committee, amounts to \$2,733,028.58 annually for the support of the state government. Some of us feel that the bill is extravagant to some extent and in the absence of a leader to tell us what to do, we will oppose the bill and expect to knock out some items, but will not cut the clerks' salary. We have uniformly opposed cutting down the salaries of clerks, but we think the force in some of the departments might be reduced. We think \$20,000 is sufficient for frontier protection, yet \$40,000 has been asked for. We will try to cut it to \$20,000 and make other similar cuts if we can.

I expect to leave here next Saturday—by that time we will be through with all important business coming before the legislature. Should the land office investigation go on, the House will have nothing to do during the investigation.

TRINITY RIVER NEWS.

THE WORK OF LOOKING IT UP COMMENCED AT ONCE.

Preparing to Locate the Locks and Dams. The Kind of Locks and Dams That Mr. Thatcher Suggests.

The directors of the Trinity navigation company decided to at once commence looking the Trinity river in order to make its navigation certain the year round. The completion of the work will give Dallas the longest canal in the world, but nothing is to big for the metropolis of Texas. To-morrow, or Monday next at furthest, Mr. J. S. Thatcher, formerly city engineer, will proceed down the river to locate the points for the locks and dams, and the company expect to go to work immediately with the hope of completing the improvement this summer. When the resolution of the company became known on the streets yesterday the public applauded, believing that no more important enterprise had ever been undertaken by any city in this country, and that no other enterprise undertaken in this country meant more for its founders. The proof that the Trinity river from Dallas to Galveston bay could be made navigable seven months in the year was looked upon by the people of Dallas as the opening up of a new era of prosperity, and the assurance now that the river is to be made navigable at all seasons, thus making tributary to Dallas the valuable woods and iron of the country through which it flows, has made the new era aforesaid appear bright beyond all expectation.

GRAPELAND.

The dry weather continues, and the farmers are beginning to show some alarm. The Church of Christ of Houston county had a conference here yesterday. The following churches were represented: Weches by J. Alexander, Lovelady by J. H. Gant, Nevil's Prairie by Ben Spner, Crockett by Jno. Brightman and J. B. Sheridan, Pleasant Hill by W. M. Sheridan and H. Power. Many other brethren were present and much interest evinced. The next meeting will be at Lovelady on the 4th Sabbath in

May when arrangements will be completed for placing an evangelist in the county for the year. The Lovelady church invites all brethren to meet with them at that time. Mr. Wyatt Williams' son, Jake, is very low from consumption. Mr. Doolittle of Nacogdoches, was in town Sunday attending the Christian meeting. Mr. and Mrs. Neil's little "Willie Bell" has been quite sick. Considerable sickness lately but health is growing better.

Deplorable Accident.

On Friday afternoon, about 2 o'clock, Mr. P. D. Zachary, residing on the West Christian place, about 3 miles west of Crockett, brought word to our justice of the peace, that Alex. Anderson had been killed instantly on the above named place, by the falling of a tree. County Attorney Duren, Constable Waller, Messrs. I. W. Marchison, Dave Nunn Jr. and Sol Bromberg proceeded to the scene of the accident, where they found Messrs. Sam Rooks, Wiley Craiger, Johnson Phillips and some other gentlemen awaiting the arrival of the Coroner. An examination disclosed the fact that the deceased had felled a large post oak tree, and in some way had been caught by it. He was lying on his face, his head and one arm under the tree, and his body and legs stretched out at full length. The tree had evidently struck him on the back of the head and death was instantaneous.

Deceased was well and favorably known by our citizens, having had charge of Mr. John Foster's Beef Market for several months. He had no relations here. He was a native of Scotland, and his mother still lives there. He came here from Marlin with Mr. Zachary. He was a sober, honest, industrious boy, only 19 years old, and in the full vigor of life. He expected to marry shortly, and had purchased a piece of land from Mrs. Shelton, intending in a few weeks to build a house, and bring home a bride. He was clearing a place on which to locate a house, and it is sad to think that all his hopes and expectations should have had such an untimely ending.

Deceased had many friends and was highly esteemed by all who knew him. Mrs. Shelton, (with whom he had been living) could not have shown more sincere grief, had deceased been her son. Since the death of Mr. Shelton, the deceased had won the gratitude of Mrs. Shelton by numerous acts of kindness, which showed the disposition of deceased.

Although he died in a strange land, it will be some consolation to his poor mother to know that he did not die among strangers. He received such attention and such burial, as only true hearted Texans can give him. And our entire community join with me in the words of comfort and sympathy, that I will send across the ocean to her.

Prof. Cody's writing school closed last night with a public examination. A large audience was present to witness the progress made by the students in penmanship. Prof. Cody first gave a short lecture upon the principles of penmanship and his method of teaching after which the examination began and we must say the students seemed to be perfect in their understanding of these principles showing the superior ability of Prof. Cody as a teacher. A prize was offered for the one who had made the greatest progress in penmanship during the school. G. M. Hollingsworth, F. C. Woodard and J. Meriwether were selected as a committee to award the prize which was an excellent gold pen and holder. After a careful and diligent examination of all the specimens before and after the lessons the prize was awarded to Master Hosea Anthony. Master Hosea was called upon the stage and in the presence of the audience was presented with the pen which he received with evident joy of delight and appreciation. Mr. Walter Kolb was judged the second best in progress and received a pound of "sugar." Miss Eujanna Herod was awarded the position of honor as presenting the "most elegant" specimen of penmanship. After the writing school examination adjourned the young people repaired to the residence of Mr. J. M. Selkirk where they whiled away the time until 12 o'clock in pleasant social conversation, music, games etc.

Engineer Braxton has been running street lines this week. Dr. Hall says that all of his block left him are the lines of a ditch. Quite a number of stables, corn cribs and fences were found on the streets and one citizen complained that the surveyor cut a cow out of his premises.

In the matter of straightening and widening the streets the City Council are unanimous in their desire to give all who use fences are on the street ample time in which to move in. Their object is not to harass or injure any one. The ordinance will probably be framed so as not to be compulsory under six months.

Mr. Goodwin has sold his store house here to Mr. Leathers who moved it to Guy's Store. The saw mill has been moved below Weldon. H. W. Bathrop will move to West Texas. Creek has some four or five Notaries Public. We need them as no one is able to attend to his own business. School is doing finely as we have a teacher who is competent to manage same. There are some however, who would object to going to heaven if they were started there. Cattle buyers have struck Creek but are paying too little. The lakes in the bend are fenced up and posted and we understand we will have to pay for fishing now.

Strayed from the undersigned on or about the 15th day of March A. D. 1893 from Dalys Tag, one dark mouse colored mare about 3 years old, in drum size, no brand. Any information from any one leading to the discovery of said mule will be thankfully received.

The Bank Directors have purchased a new burglar proof safe for the new bank building. It cost \$1200 and works with Yale time-lock attachment.

If land were scarce in Crockett and worth a thousand dollars a square foot, we could understand why a person should not want to move back his fence.

Col. W. W. Davis will occupy his new residence about the first. F. F. Fifer will move into the one now occupied by Col. Davis and J. B. Clark the one purchased of Fifer.

More goods, cheaper and finer goods and we are glad to know that our trade is increasing faster than ever.

Racket Store.

The City Council did an eminently correct thing this week in levying a poll tax of one dollar to pay some of the current expenses. Better be paid in this way than to have levied an additional ad valorem.

Messrs. LIPPMAN BROS., Savannah, GA.

DEAR SIRS—I wish to give my testimonial in regard to your valuable medicine, P. P. P., for the cure of rheumatism, neuralgia, dyspepsia, biliousness, etc. In 1861 I was attacked with bilious muscular rheumatism, and have been a martyr to it ever since. I tried all medicines I ever heard of, and all the doctors in reach, but I found only temporary relief; the pains were so bad that I did not care whether I lived or died. My digestion became so impaired that everything I ate disagreed with me. My wife also suffered so intensely with dyspepsia that her life was a burden to her; she would be confined to her bed for weeks at a time; she also suffered greatly from giddiness and loss of sleep. Some time in March I was advised to take P. P. P., and before we (my wife and I) had finished the second bottle of P. P. P., our digestion had begun to improve. My pains subsided so much that I have been able to work; and am feeling like doing what I haven't done before in a number of years. We will continue taking P. P. P. until we are entirely cured, and will cheerfully recommend it to all suffering humanity. Yours respectfully, J. S. DUPRISS.

foaled Leander, late Searcher, the first horse to run in 1:41.

Isaac Lewis comes from a good family and should make a good sire. During his racing career he has beaten some of the best horses in training such as Demuth, the Tray, Riley, Banquet, and Tony. "All who have seen Isaac Lewis pronounce him, beyond question, a race horse of the highest order. His late performances conclusively prove the fact that he has not only speed, but endurance."—The Times of the Times.

Isaac Lewis is a splendidly bred horse, and Mr. Nelson, as well as the Lone Star State, is to be congratulated on getting such good blood down in that great commonwealth. He was also a good race horse, and the guide book will show many a good winning to his credit. He won at all distances, from 50 furlongs up to a mile and a half, his best performance being a mile in 1:41, with an impost of 115 lbs as a three year old.—The Lone Star Stock Record.

Isaac Lewis will be permitted to serve a limited number of mares at \$12.50 the season—cash in advance, or \$15.00 for insurance.
