The Bailey County milo and corn harvests could hit their peaks within ten days if the weather cooperates, said J.K. Adams, county farm agent, Tuesday.

### Alfalfa Growers Should Watch Parasitic Weed

Dodder, a parasitic weed, can cause serious trouble for alfalfa unless it is controlled. The weeds show up as a straw colored, tangled mat of vines around alfalfa and certain weeds, said Robert B. Metzger, said Extension Service area agronomist.

J.K. Adams, Bailey County agent, said he had noticed some dodder along road rights-of-way in the county and one rancher had contacted him for identification of the weed.

"Dodder is a parasite, and must live on a host plant to survive," Metzger says. He explains that the emerging seedlings are rootless and leafless with a fine yellow thread-like stem about one to three inches long. The seedlings rotate slowly until they find an object to vine on. It is the object is the stem of a suitable host plant, the parasite twines around the host and sends suckers into it.

"The seedling in direct contact with the soil then withers and the dodder thrives at the expense of the host plant," the agronomist adds. If it fails to reach a host plant, the seedling will die.

After becoming attached to the alfalfa or other host, the dodder produces many stems in a tangled mass and grows as much as three inches per day. A single plant may spread ten feet or more in a year.

Metzger warns against buying "bargain" alfalfa seed, because it may be contaminated with dodder.

"This bargain seed can be extremely costly in terms of yield loss and later control expenses," he emphasizes.

Junior classmen are selling tickets, as are members of the sponsoring Business Activities Committee, to the two performances scheduled for the country and western singer who rocketed to stardom on the strains of "Harper Valley P.T.A."

## An Old Hindu Legend

**AN OLD HINDU LEGEND**  
 An old hindu legend says that there was a time when all men were gods, but they so abused their divinity that Brahma, the chief god, decided to take divine power away from men and hide it where they would never find it. Where to hide it became the big question.  
 When the lesser gods were called in council to consider this question, they said, "We will bury man's divinity deep in the earth." But Brahma said, "No, that will not do, for man will dig deep down into the earth and find it." Then they said, "Well, we will sink his divinity into the deepest ocean."  
 But again Brahma replied, "No, for man will eventually explore the depths of every ocean and will be sure some day to find it and take it up again for himself." Then the lesser gods concluded, "We do not know where to hide it, for it seems there is no place on earth or in the sea that man will not eventually reach."

Then Brahma said, "Here is what we will do with man's divinity. We will hide it deep down in man himself, for he will never think to look for it there."

Ever since then, the legend concludes, man has been going up and down the earth, climbing, digging, diving, exploring, searching for something that is already in himself.

Two thousand years ago a man named Jesus found it and shared it's secret.

#### Must File Claim

People over age 65 who have the doctor bill part of Medicare should plan now how their claims should be filed according to John G. Hutton social security manager for this district. If your doctor doesn't take assignments you must file for reimbursement yourself.

As soon as your doctor bills to over \$50 in a year, you need to file a claim. Begin now to put all your doctor bills in order. This way you can be sure of filing a claim on all your doctor bills. You'll need more than just a receipt. You'll need the bill itself. It should show which doctor treated you, when he treated you,

### Congressman

#### Lloyd Bentsen

Senator Lloyd Bentsen and Congressmen Wright Patman and John Young, today introduced legislation concurrently in the Senate and the House to extend flood insurance and disaster relief to residents of Texas communities damaged by hurricanes in recent years.

Many Texans are ineligible for such assistance because of a failure to register for federal flood insurance during a one year period allocated under previous legislation. Senator Bentsen and Representatives Patman and Young contend the federal government failed to allow for sufficient notice of residents qualified for the insurance.

The proposed legislation would amend the present Flood Insurance Program and Disaster Relief Act to offer financial aid to those not currently covered by either of these federal programs. It would assist those individuals with a financial burden incurred in reconstruction of homes and small businesses.

The legislation would extend the sign-up period for two more years and make available loans under the provisions of the flood insurance program.

The Texas sponsors of the legislation said that inadequate notice by the federal government was responsible for the low numbers of residents initially registering. The proposed legislation would require an intensive information program to notify residents of its availability.

what he did for you, and how much he charged.

Hutton said filing a claim is easy. Tear out the blank Form 1490 from your Medicare Handbook. On the form show your name and claim number just as it is on your Medicare card. When you write in what your condition is, don't try to say it like the doctor. If you have heart trouble and that's what the doctor treated you for, simply show 'heart trouble'. If you were treated for arthritis, show that. Don't forget to sign the form before you drop it in the mail. If you don't have a Medicare Handbook or a blank, your social security office will be glad to furnish one and help you file your claim. Your question can probably be handled by phone, so if you need help phone first. It might save you a trip and a lot of time. The number of your social security office is 747-3711.

After the blank is filled in, where do you send it? This is also in the Medicare Handbook. As a rule, you send claims for payment to the state in which you were treated. If all your treatment was in Texas, for example, you would send your doctor bills to: Medicare - Part B, P.O. Box 22147, Dallas, Texas 75222.

You really shouldn't hold your doctor bills. As soon as you get more than \$50 in doctor bills, send them in for payment.

pas through an animals digestive tract and still germinate later. The seed can remain viable in the soil and produce seedlings over a prolonged period of time, which makes control even more difficult.

Do not spread manure suspected of containing dodder seed on clean fields. Be sure to clean foreign equipment thoroughly before moving from a dodder-infested field to a clean field. Metzger says to use compressed air and water to clean the equipment.

The agronomist says there is very little danger of spreading viable dodder seed if the forage is harvested before the parasite matures, and the alfalfa is made into alfalfa meal, silage or even feed grain.

"Don't let dodder grow along irrigation ditches, because the water may carry the seed from field to field," the agronomist warns.

Any equipment that thoroughly stirs the surface soil and exposes it to drying will give good control on small dodder seedlings.

Dodder can also be controlled by mowing or shredding the host plants below the point where it is attached. It is important to control dodder before it has time to produce

seed. Chlorpropham (CIPC) can be applied in a granular form at six pounds of active chemical per acre on moist soils. This will control the parasite for about four weeks. Application should be about five days before irrigation when the alfalfa is at least four inches tall.

Burning is another control method that will prevent dodder seed production, but flaming will not kill dormant seed buried in the soil. The agronomist advises watching for emergence of the dodder seedlings and then staking the area so these spots may be identified for follow-up control.

If the fields are severely infested with dodder, Metzger says the most effective and economical control measure may be to rotate to a non-host crop. The parasite will still survive, but the plants cannot germinate in sugar beets, corn, cotton, grain sorghum and most vegetable crops.

Boyd Lowery, presiding minister of Muleshoe congregation of Jehovah's Witnesses, announced today the group will be hosting Circuit Supervisor, R.J. Schlegel, during the week of October 3.

This special week of activity will begin Tuesday at 7:30 p.m. with a model Theocratic Ministry School. Men, women and children of all ages are enrolled in the school which features a progressive development of public speaking for the congregation. Each week assigned students prepare and deliver short Bible talks and model door-to-door sermons. Students develop two or three elements of good public speaking practices in each assignment. The school conductor counsels each student on his progress toward becoming a better minister and public speaker.

Following the school there will be another regularly scheduled meeting that provides weekly instruction on teaching methods to be used in the field of ministry and in the free home Bible study service. After this session Schlegel will review the effectiveness of both meetings and offer helpful suggestions for improvement. In conclusion he will speak to the group on "Do You Give Encouragement".

"The three annual visits of the special representative help the congregation in all features of the ministry," Lowery said. "We look forward to these visits and everyone has scheduled his time in order to participate in this week of special activity, as additional emphasis is placed on the door-to-door ministry and home Bible study work. Schlegel personally works with as many ministers in the congregation as possible, analyzes their teaching methods and offers constructive counsel," he added.

Sunday, 9:30 a.m. Schlegel delivers a public Bible lecture on the subject, "Is The Truth Transforming Your Life?". His concluding talk for the week is, "Be Loyal Like Samuel". During this week Jehovah's Witnesses will be inviting persons who show interest in the Bible to these special sessions which will be at the Witnesses Kingdom Hall, Friona Highway. ## The Journal's Files

TEN YEARS AGO  
OCTOBER 1961

Muleshoe area crops were damaged to some extent by freezing weather Tuesday morning, October 3, as a hard freeze hit the city and light frost touched other portions of the county.

Tomatoes in low-lying areas were hard hit by the freeze, while the grain sorghum was damaged slightly and cotton survived without any significant damage whatsoever, according to County Agent J.D. Adams and a horticulturist from the state experimental station at Lubbock.

THIRTY YEARS AGO  
OCTOBER 1941

Over a score of Muleshoe merchants and businessmen have already signified their intention to participate in the Fall Economy Festival to be staged here November first, second, and third.

This is the vanguard of a line up that is expected to total 75 or more business establishments that will combine their efforts and advertising to promote Muleshoe as the outstanding retail trade center in the four county area combined of Parmer, Cochran, Lamb and Bailey counties.

The stores will be uniformly decorated for the event carrying out a blue, orange, black and white color scheme. Windows and store fronts will be specially decorated, free movie matinees will be provided on Thursday and Friday afternoons and other crowd attracting features are expected to be added before the final program is announced.

Guy Shelley, district manager for Southwestern Associated Telephone Co., has announced that the cutover of the Muleshoe telephone exchange to dial operation will be completed at seven a.m. on Tuesday, October 16, 1951. "For a split second," Mr. Shelley said, "all telephones at Muleshoe will be silent as the switchboard men disconnect the old switchboard and put the new system in operation."

Shelley has reminded all telephone subscribers to wait for the hum of the dial tone when making calls after the new dial system is in operation. No longer will an operator answer

"Number Please" when you lift the receiver. Instead, the dial tone is the mechanical way of saying that your call is ready to be made.

It is important also that all subscribers look up the number they are calling as every telephone number will be changed with installation of the new dial system.

THIRTY YEARS AGO  
OCTOBER 1941

Although conditions were unusually bad this season, Bailey County exhibits at the Amarillo Tri-State Fair won seven first places, five seconds, two thirds and four fourth places.

Excessive rain and lateness of crops had handicapped the securing of desirable products for showing, but even with these drawbacks, our products did exceptionally well.

The Bailey County AAA has received four consignments of cotton parity checks in the amount of \$55,779.91. Bailey County will receive approximately \$158,200 in cotton parity payments according to J.C. Smith, AAA administrative of-

ficer.

The AAA officials also advise that Bailey County producers and landlords have received \$8,207.50 in cotton order stamps.

estimated that producers in Bailey County will receive approximately \$15,000 in cotton order stamps.

A crowd estimated at 500 persons was present at the annual Bailey County Singing Convention held Sunday at Circleback.

New officers for the ensuing year were elected as follows: S.E. Morris, president; Cecil Davis, vice-president; and Mrs. Sam Simms, secretary.

All seats in the school building were filled and many stood up throughout the day to enjoy the singing.

### BLACKS & BENEFITS

A study prepared for a Senate committee has suggested that blacks be given Social Security benefits at an earlier age than whites. The study showed that the mortality rate was approximately twice as great for Negro women and 10 per cent higher for black men in the 55-to-64-year-old group.

# STATE CAPITAL Highlights AND Sidelights

By Bill Boykin  
TEXAS PRESS ASSOCIATION

AUSTIN, Tex.--The State Legislative Redistricting Board, ordered by the Supreme Court to reapportion the House of Representatives as well as the Senate, is in the process of writing its bill under deadline pressure.

Finding of the Court that the Board should take over the unfinished legislative reapportionment task was doubly significant.

Aside from setting a precedent as to responsibility of drawing new district lines, the decision eliminated the necessity of an early special legislative session. This pleased both House Speaker Gus Mutscher and Gov. Preston Smith.

Mutscher, under bribery indictment, escaped an early showdown with legislators who want to force him to step down as speaker and replace him with another.

Although speculation was widespread he would hand his duties to a speaker pro tempore, he announced four days after the Court's decision he had decided to stay on the job, confident he will be found innocent of charges.

Governor Smith applauded the Court's decision. He said he wants to wait "as long as possible" to call a special session on budget matters so the Legislature will have full advantage of data on available revenue which might curb the tax bill.

Indications are there will be no special session now until June, 1972, after the primary elections.

The five-member Redistricting Board held a hearing September 30 and heard only testimony of big-city residents debating the merits of single-member vs. multi-member (or countywide) House districts.

Apparently, the Board is divided two-and-two, with Atty. Gen. Crawford Martin undecided on the metropolitan district issue, whichever way it rules, another lawsuit challenging the decision seems likely.

The Board has only until October 23 to complete its work. GOVERNOR'S RACE WARMS-- There is official competition in

LISTEN TO PRESIDENT . . . Some of the 100 plus participants in the All-Texas Air Tour are shown listening to E.M. Anderson, on the platform, president of the All Texas Air Tour Association, as he gives directions for proceeding from Muleshoe to Tradewinds Airport in Amarillo. The Air Tour was welcomed by a delegation of Muleshoe redcoats Tuesday morning, October 5, as they made a 45 minute coffee stop in Muleshoe.

the governor's race with the entry of Uvalde rancher and banker Dolph Briscoe, Lt. Gov. Ben Barnes announced last June he would run.

Briscoe made clear the stock-loan scandals (which resulted in three statehouse indictments September 23) will be a major issue in his campaign.

He focused attention on quick passage by the Senate of the same bank deposit insurance bills which figured in the indictments of Mutscher, Rep. Tommy Shannon of Fort Worth and S. Rush McGinty of Austin. And, he maintained, Barnes "helped push them (the bills) through the Senate."

Barnes declined to reply. He said there will be "plenty of time to set the facts straight" within the next seven months before the election.

Briscoe also emphasized need for innovations in mass transportation and further environmental protections.

ETHICS COMMISSION COMPLETE--A new Ethics Commission to police behavior of public officials is now complete, though top state judges have expressed doubt as to its effectiveness.

Three members elected by the Senate are Sens. A.M. Aikin of Paris, Charles Herring of Austin and Oscar Mauzy of Dallas. House members elected Reps. John F. Boyle Jr. of Irving, Clyde Haynes Jr. of Vidor and

James E. Nugent of Kerrville. Court of Criminal Appeals Presiding Judge John F. Onion Jr. appointed Rabbi David Jacobson of San Antonio and University of Texas Law Professor John Sutton Jr. of Austin.

Supreme Court Chief Justice Robert W. Calvert earlier designated Baylor University Law Professor Mrs. Margaret Harris Amsler and Houston Attorney Alf Roark.

First Court of Civil Appeals Chief Justice Spurgeon Bell picked Dallas Attorney J.W. Hassell Jr. and retired Houston newspaperman William H. Gardner, now of Austin, for the Judicial Qualifications Commission.

APPOINTMENTS -- Governor Smith named Dr. William L. Anderson of Dallas to the Texas Animal Health Commission for a six-year term.

Frank Hildebrand of Austin was selected state travel director of the year as the result of a nationwide poll of travel promoters.

Lubbock Mayor J.H. Granberry was appointed to the Board of Directors of the Texas Law Enforcement and Youth Development Foundation.

Governor's appointments of the last week include: Richard (Cactus) Pryor, Austin, to Texas Tourist Development Board.

Jack B. Dale of Houston and John T. Bean of Fort Worth to

the Board of the Commission for Rehabilitation (reappointments).

Lee D. Herring of Grand Prairie to the Texas Commission on Alcoholism.

Mrs. Eunice M. King of Amarillo (reappointment) and Sister Mary Vincent O'Donnell of San Angelo to the State Board of Nurse Examiners.

Dan E. Strooper of Waxahachie, Ralph S. Abel of Dallas, Vernon E. Walter of Harlingen and Norman L. Maderer of Houston to the Structural Pest Control Board.

Mack C. Adams of Dallas will join the staff of the Coordinating Board, Texas College and University System as head of the division of student services October 15.

AG OPINIONS--Texas Air Control Board must keep "confidential information" label on data it collects in investigation of air pollution matters where parties insist, Attorney General Martin has held.

In other recent opinions, Martin concluded: \* In proceedings in eminent domain in Cass County, petitions should be filed with the Fifth district judge, and he will appoint special commissioners, receive awards and enter judgments.

\* Deer hunting with dogs is lawful in San Augustine County during open season provided in a 1971 game bill.

\* Laws requiring additional water safety equipment on boats and specifying that children 12 or under aboard motorboats must wear life preservers must be enforced.

\* Texas Optometry Board may use written exams made available by international associations if they meet state requirements.

\* State Comptroller can require proof of authorization for Parks-Wildlife Department employees to sign vouchers in reference to deposit, expenditure and investment of department funds in the state treasury.

\* Fifty dollar license fee for mobile home manufacturers is no longer required to be paid to Bureau of Labor Statistics. ROAD EMERGENCY DECLARED--Governor declared a state emergency in 21 South Texas counties with respect to highway conditions resulting from hurricanes Fern and Edith winds and rain.

Smith said immediate reconstruction is vital in Aransas, Bee, Brooks, Cameron, Chambers, Duval, Goliad, Hidalgo, Jim Hogg, Jim Wells, Jefferson, Karnes, Kleberg, Live Oak, Matagorda, Nueces, Refugio, San Patricio, Starr, Webb and Wilbacy counties.

QUAIL SEASON EXTENDED--Enlarged Parks and Wildlife Commission voted to extend the closing date of quail season statewide to February 15. Action provided two additional weeks for most counties, but in some areas the season is still two weeks shorter than last year.

At the same meeting, the Commission voted unanimously to reopen the Canadian River bed to free public hunting under an attorney general's ruling of September 16.

SHORT SNORTS Cities levying local option sales tax will be \$40.1 million (combined) for the last quarter.

October 1 deadline has been extended 45 days for disabled veterans to get special free license plates (which also carry exemptions from parking fees.)

Governor has urged Treasury Secretary John Connally to investigate the federal interpretation of wage-price freeze order which refused to allow increases in state employee travel allowances and insurance premiums.

Office Green of Lubbock resigned as Governor Smith's top aide, increasing speculation as

to whether Smith will run again or not, Governor said Green's move is linked to his plans, but wouldn't say how.

"Real" income of Texans rose about four per cent from August 1970 to August 1971 in spite of rapid price inflation, University of Texas Bureau of Business Research reports.

Agriculture Commissioner John C. White warned of a pink bollworm infestation in North Central Texas and said it is spreading in North and East Texas as well.

Governor headed a delegation to Mexico City to open the new Texas international trade promotion office there last weekend.

Texas Aeronautics Commission approved 19 grants totaling \$374,812 for airport improvements.

## NIXON ON ECONOMY

President Nixon has urged Congress to help him build a stable economy when he ends the 90-day wage-price freeze in mid-November. He said the current freeze would be followed by some other system of wage and price stabilization to be worked out later.

Emery Dixon  
**Choir Teacher Interviewed**

We have a new teacher at Mulshoe Jr. High School. His name is Mr. Emery Dixon, he gave us this interview.

"I teach music, grades six, seven, eight, and High School music. Also sixth grade geography and sixth grade science. I attended Stephen F. Austin State University. I received my B.A. degree in 1963. I have 15 hours of graduate work. I am a graduate of Lufkin High School where I was active in Future Teachers and Choir. I enjoy composing music, writing stories, plays, and poems. Many of my poems have been published. I enjoy teaching piano and singing, and for many years I taught piano and singing to private students.

I enjoy collecting old and unusual bottles, rocks and I enjoy studying the Architecture of the United States. There is much music talent in Mulshoe, and I look forward to a good year with my students in Mulshoe."

## Two New Colleges Appear In Top 20

The ice has finally been broken. After operating for the past two weeks as a closed corporation "Top Twenty, Inc." has made a couple of changes. Two old members of the board lost their seats and have been replaced by two new faces. Duke jumped into the #13 spot after upsetting Stanford, and twice-beaten Purdue is 18th.

Again this week the teams shuffled for position, a few climbing the national ladder and some dragging their feet just a bit. Stanford and Southern California skidded to 15th and 19th respectively, while Alabama climbed to the #4 spot and Oklahoma moved into 6th. Michigan held the post position again, but there is really almost no daylight between the first four teams.

A couple of barn-burners are on the docket Saturday as members of the Top 20 again meet face to face. In one of the great rivalries in the Southwest—and in what must rate as one of the top games of the year—Texas, rated second, meets Oklahoma. Both teams have rolled over three opponents to come into this game undefeated. To have to pick a winner is really placing one's neck on the chopping block. However, the Longhorns will win this 66th match-up between the two by five points.

The power struggle on the West Coast comes to a head with the Indians of Stanford being challenged by the Huskies of Washington. Stanford has a power quotient of 105.9... Washington, 105.8. So, since our paper figures seem to be correct about 75% of the time... the Indians will take a long stride toward the Pacific Coast championship and a return to the Rose Bowl by clipping the Huskies by just that point.

Top-ranked Michigan faces intra-state rival Michigan State in a Big Ten Conference game. The Wolverines have been careening rough-shod over all opposition, and they aren't about to be side-tracked by the Spartans. Michigan will win by 21 points. Third ranked Nebraska and 5th ranked Notre Dame will continue undefeated. The Cornhuskers will whip Missouri by 28 points in a Big Eight Conference battle, and the Irish will muscle by tough Miami Friday night by twenty-two.

Also in the Big Eight, the powerful Colorado Bugaboos, #8 in our ratings, run into what can be a tough bunch of Iowa State Cyclones. Two weeks ago, the Cyclones scrambled a good New Mexico team. However, their best probably won't be good enough... Colorado by 23 points.

### Choir Students Interviewed

Three Mulshoe Jr. High choir students gave us the following interviews, of their thoughts about choir.

"I am an eighth grade choir student, Sherril Rasco, I attend the sixth period Junior High choir. We sing many popular songs in our class. I think that we will have a good choir this year, if we all work hard. I enjoy this years choir very much. I hope to learn more and more about choir and singing."

"I am a seventh grader, my name is Billy Donaldson, I like Mr. Dixon as a choir teacher. I also like all of the songs we sing."

"I am a sixth grade choir student, my name is Shirley Burris. It is fun in choir. You learn many new songs. Mr. Dixon is very funny. I enjoy choir because I like to sing."

Carey Sudduth

Carey Sudduth the Eighth Grade A team quarterback plays golf as a pastime. Carey has played golf for four years. He won a trophy this summer in a golf tournament. Carey wants to play golf professionally.

Carey plays almost every day during the summer and as often as he can during school. Carey's average was 89 on eighteen holes this summer. Carey's average was 103 on 18 holes last summer. Carey wants to be able to have an average of 84 on 18 holes next summer.

### Seventh Grade Intramurals

This year the Seventh grade athletic boys are in the midst of a learning period. They are having an intramural football program. They are divided up into four teams and will play every week. At the end of their season they will be divided into two teams and will play in a Super Bowl. The names of the four teams are the Colts, Vikings, Rams, and Lions.

### MJHS Historical Society Makes Plans

Last year, the seventh grade class of Mulshoe Jr. High started the Jr. High Historical Society. They participated in a few events, such as a social at the XIT Steakhouse, and a field trip to Lubbock, where they visited the Texas Tech Museum.

The Historical Society is an honor society, participated in only by students with averages of 80 or above. The society's sponsors are Mrs. Dorothy Beddingfield and Mrs. Carrol Johnson. They have both done a fine job, and will continue to do so. The Historical Society will be Official Sponsors of the History Fair to be held during the Open House. The members will be in charge of setting up displays, decorations, and greeting guests.
