Rock=a=Bye Baby

These are sweet words, but how m pain and suffering they used to mean. It's different now. Since Mother's Friend has become known expectant mothers have been spared much of the anguish of child-birth. Mother's Friend is a linkment to be applied externally. It is rubbed thoroughly into the muscles of the abdomen. It gives elasticity and srength, and when the final great strain comes they respond quickly and easily without pain. Mother's Friend is never taken internally. Internal remedies at this time do more harm than good. If a at this time do more harm than good. If a

Ha ing's.

Sores and Ulcers never become chronic unless the blood is in poor condition - is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy been executed by Nicholas Lynch to life would follow should it heal before, the blood has been made pure and healthy and all impurities eliminated from the system. S.S.S. begins the cure by first cleansing and invigorating the blood, building up the general health and removing from the system A CONSTANT DRAIN all morbid, ILDON THE SYSTEM effete matter. UPON THE SYSTEM. forgery and for damages in the When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some extent alleviate pain, cannot reach the seat of the trouble. S. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish the debilitated, diseased body.

Mr. J. B. Talbert, Lock Box 245, Wisons, Miss., says: "Six years ago my leg from the knee to the foot was one solid sore. Several physicians treated me and I made two trips to Hot Springs, but found no relief. I was induced to try S. S. S., and it made a complete cure. I have been a perfectly well man ever since."

is the only purely veg-etable blood purifier known --- contains no poisonous minerals to ruin the digestion and add to, rather than relieve your sufferings. If your flesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and any ordinary sore is apt to become chronic

RATES ARE REASONABLE.

The Weekly

Col. Mosby Reappears.

President McKinley, of Col. John S.

Mosby as special agent of the General

Land Office, with headquarters in the

west, has brought into prominence one

of the picturesque figures of the civil

war-a man admired by the south for

his dash and brilliancy and reviled by

northern soldiers because his warfare

was of the guerilla type. A Virginiar

by birth, he is now approaching his

79th birthday. While in the University

of Virginia he shot and seriously

wounded a fellow student who had as-

saulted him and, during his confine-

ment for this offense, he studied law so

thoroughly that soon after his release

he was admitted to the bar. At the

beginning of the war he fought with

Joseph E. Johnston and later with

Stuart, but after two years he organ-

ized, in northern Virginia, a force of

irregular cavalry and during the re-

mainder of the war he harassed the

Federal troops by cutting on communi-

cations between the armies and des-

troying supply trains. His partisan

rangers, when not on a raid, scattered

COL, JOHN S. MOSBY

for safety and remained in conceal-

but friendly neighbors always kept

him informed of the enemy's approach

Mosby held rank in the Confederats

army and reported to Gen. Stuart and

after his death, to Gen. Lee. His par-

tisans received the same pay from the

Confederate government as the regular

At the close of the war he resumed

False Impression Corrected - Pan-American Exposition Railroad Fares and Hotel Rates Low as Could be Expected.

Buffalo, N. Y., July 30.-A joint meeting of railway passenger agents, hotel and newspaper men was held this afternoon with the view of adopting some means for correcting so far as possible the impression that appears to prevail at distant points that railway rates to the Pan-American Exposition are high and that hotel rates in Buffalo are excessive. The conference revealed the fact that Buffalo can accommodate two hundred thousand visitors in its private houses and hotels at rates ranging from fifty cents to two dollars per night, and that no one need pay more than one dollar for a first-class lodging in a private house. It was also shown that the railroad rate is lower than for any passing boats as one of the curiosities former exposition for a five, ten or fifteen day ticket, according to distance, being at the rate of one fare plus one dollar for the round trip, from all parts of the country. The Niagara Falls cheap, one-day special excursions of former years, when trains were overcrowded and everyone subjected to great discomfort, are remembered only so far as the low rate is concerned, and this is quoted as showing what might be done. The passenger agents assert that the present half rates are as low as can reasonably be expected. An extension of the present limit has been looked for, as it gives too short a time for anyone to see the big exposition, but it has not yet been modified. Other points which the representatives of the publishers' association will lay stress upon are that the Exposition is completed in all details and that both Buffalo and the Exposition are well policed and as free from dangerous characters as any city in the country. A joint committee was appointed to deal with questions affecting the Exposition and the proper welcome and care of guests. The Exposition has had in operation for some time a free bureau of information for the convenience of intending visitors.

Trust Has the Best of It.

Pittsburg, Pa., Aug. 13.-The struggle for mastery between manufacturers and men in the steel industry is now fairly launched and on the first show of strength advantage is with the former.

The general strike order issued by President Shaffer of the Amalgamated Association has so far been obeyed by only about 14,000 men, according to the best figures obtainable. The first two preliminary calls were answered by about 45,000 men, so that the total number now is in the neighborhood of 60,000 men.

The strikers made gains here today over the showing of last night and their prospects for further accessions both at McKeesport and Wheeling during the week are very favorable.

Importing Men Successfully.

Cleveland, Ohio, August 13.-Sixteen imported men were successfully landed at the Cresent Tin Plate mills tonight. A crowd of 500 strike sympathizers jeered the newcomers, but there was no untoward action. District Manager Bamfield said tonight that four out of six mills would be running in the morning and that the entire plant may be in operation within a few days.

Killed by Lighteine.

Meet After Fifteen Years.

New York, August 13 .- A special to the World from Atlantic City, N. J., says that Robert Wilson, a wealthy Texas oil operator, discovered at that resort his brother, Henry, from whom he had seperated fifteen years before in Nashua, N. H., and of whom he had heard nothing during that time. Mr. Wilson and his bride of two weeks were passing a booth when the strains of the music reached their ears. Mr. Wilson induced his wife and a friend to go in and there found his brother and his wife. The recognition was mutual. Fifteen years ago the brothers were in the marble business in Nashua, N. H. As a result of a misunderstanding Robert Wilson left his home. He went to Reading, Pa., and from there to Galveston, where he became interested in ranches and oil properties in company with "Joe" Davis. Henry Wilson is now a business man in Boston.

Is the Monroe Doctrine to Stand? New York, August 13 .- A dispatch to the Journal and Advertiser from Paris says: Germany certainly, and probably France also, are striving to upset the Monroe doctrine by trying to purchase Cayo Romano and Cayo Cruz, two of the islands of the Great-

of Cuba. Both islands are very fruitful. They are the property of Prudencio Ebanez y Vega, a rich Spaniard living here.

er Antilles, just off the northern coast

Neither country seeks to buy the islands directly. Germany seeks to gain control through a German syndicate, the chief of which is Baron Adolf Oppenheim of Paris.

Cayo Romano is the third largest Spanish island of the Greater Antilles and both islands, being the nearest to the United States coasts would give foreigners power, through their commanding position.

Terr tory Oil Beom-Fort Sill, August 13 .- Oil companies with fabulous sums announced for their capital stock are being organized hourly in the new town of Lawton near here. Twenty or more "promoters" and "oil experts" had bottles of President Shaffer said: "We have oil in display today. No gushers have no official information about the situa- been brought in. The excitement is not confined to any particular district. Evidences of oil can be found in all directions, but what is known as the oli district is about eleven miles north of Lawton. Oil locaters have plastered pens of the trust have not enough the entire company with mineral claims and an Ottumwa, Iowa, company has 2000 acres staked in one body. Tragedy Near Austin. Austin, Texas, August 13 .- A crowd of Mexicans tried to kill Constable Sellers at McNelll Saturday night. A big Mexican, accompanied by three or four pals, walked into a saloon and tional Tube company the plate and the constable, and told him to throw possibly the steel department. Al. yet on Spindle Top. One of them is up his hands. Peputy Constable ready we have taken into membership Brooks was also in the saloon, and in the Amalgamated 650 of the 800 when the Mexican made this demand | skilled men of the Riverside, and the both officers drew their guns and remaining 150 workers in the steel deopened fire. The Mexican shot first, partment have asked us to call a meetand it is a mystery how he failed to ing, at which they may organize a kill Sellers. Brooks fired just after lodge, which will be done. We have the Mexican, and the leader of the succeeded in tying up the Bellaire gang fell to the floor mortally wound- plant of the National Steel company, ed. The other Mexicans fled.

Bloody Tragedy Near Eigin. Austin, Texas, August 13.-A bloody tragedy in which two boys 15 years old, participated, occurred yesterday afternoon at Plesant Grove, four miles from Elgin. The boys are the sons of William Owens and George church while services were in pro- closed. gress, when the Owens boy stabbed

CLAIMING VICTORY.

CHICAGO, JOLIET AND BAY VIEW DECLINE TO QUIT WORK.

Iron Masters Are Jubilant--Strike I raders Deny These Claims-Are Disappointed, but None of the Leaders Would Discus the Western Defection.

Pittsburg, Pa., August 12 .- The iron masters are claiming victory in the great steel strike. They base their claim upon the refusal of the Amalgamated men at South Chicago, Jollet and Bay View to obey the general strike order of President Shaffer and their success in maintaining operations In other plants where it was anticipated there would be serious trouble. The strike leaders meet the claims of victory with the assertion that their house commanding the posse to recause is making satisfactory progress. and that they will show themselves masters of the situation before the contest has progressed much further. They do not conceal their disappointment at the refusal of their Western brethern to strike, but none of the leaders would discuss the defection.

President Shaffer refused to meet the newspaper men who sought him, and kept within the seclusion of his home. The other leaders who were seen intimated that there would be developments today and throughout the week that would materially change the situation. It was said they were counting upon strong aid from the American Federation of Labor and other organizations of union labor, but those bodies have not yet given any public indication of what they will do. The Amalgamated association has developed great strength in the Wheeling district and has made gains in some of the Pennsylvania districts, but it will be this afternoon before the lines of cleavage will be marked with sufficient clearness for a count of the men.

The steel officials were in communi-

cation last night with their superintendents and district managers, and at 11 o'clock made public the results of their reports, which showed that South from their description it is evidently Chicago, Joliet and Bay View, at Milwankee, had voted to stay in; that the Ohio works of the National Steel compan at Youngstown and the King, Gilbert and Warner plants of the National Steel company at Columbus had resymed without trouble; that the Homestead, Edgar Thompson, Dequesne, Upper and Lower Union and Howard Axle Works of the Carnegie group, employing more than 15,000 men, had resumed work without trouble; the converting creek. Mr. Lindsey was out with a and blooming mills of the National Tube company 'at McKeesport had started without difficulty and that Bellaire had been only partially crippled. They were also advised that the men of the Boston Rolling Mills at Mcpressed confidence of speedy victory over the Amalgamated Association.

National Vice President Walter Larkins of the Amalgamated Association, discussing the situation in the Wheeling district, said:

"At the Riverside plant of the Na-We organized 250 of the skilled men Saturday and at a heeting this afternoon athere were more accesssions. The Labelle plant of the American Tin Plate company is closed, as are the Aetna-Standard mills of the Amerlcan Sheet Steel and American Steel Hoop companies. The Mingo Junction plants of the National Steel and Amer-Carter. The boys met in front of the lean Steel Hoop companies are also

union labor people of Wheeling to vote against the acceptance of the \$75,000 offered Wheeling for a library build-

Secretary Williams gave out an interview last night, in which he placed the blame for the strike on the refusal of the officials of the United States Steel Corporation to arbitrate. and declared that before the strike was over thousands of men in other trades would be drawn into it to save the Amalgamated Association and the principles for which it stands.

Fight With Desperadoes.

Jacksboro, Texas, August 12.-News: reached here yesterday that there was two desperadoes in a house six miles north of town. Sheriff Maddox immediately took three men and went out to the house, reaching it about 6 o'clock in the afternoon, and surrounding it, when a voice came from the treat or be killed, followed quickly by a volley, which was answered by the posse. Twenty or thirty shots were fired in all. The first shot killed G. M. Leftwich of the sheriff's posse, and the officers then fell back and kept guard around the house, but during the night the men got away and have not been seen since. There is a \$1000 reward for one of the men, and the other is wanted in several different places. The scene of the killing is a rocky. mountainous district, and offers every opportunity for the desperadoes to escape.

Unknown Wild Beast. Pittsburg, Texas, August 12 .- Considerable excitement has been occasioned in the eastern part of this county over the appearance of some wild beast. No one has ever seen such an annimal before, and whether it is a cougar, a Mexican lion or some other vicious wild animal cannot be determined until it is killed. The beast inhabits thickets and jungle on Cypress bayou, and goes forth in the evening seeking what he may destroy. One farmer, it is reported, has lost twentyfive head of sheep; others have lost hogs and young calves. He has been seen by several reliable citizens, and an enormous cougar. Parties are organizing to hunt the animal. Abernathy Bros., of this place, have offered a reward of \$25 for the animal.

Drowned While Bathle g.

Lometa, Texas, August 12.-Word over the frontier telephone came here yesterday that a Mr. Lindsey from De Leon, Texas, was drowned in San Saba river near the mouth of Brady party fishing and hunting. They all went bathing in San Saba river. Mr. Lindsey could not swim, but with a chunk of wood ventured out into deep water, lost his hold and drowned.

British Purchases.

Kansas City, Mo., August 12 .- Colonel Skinner of the British army, one of the English officers who has been stationed in the United States since the outbreak of the Boer war buying horses and mules, returned to Kansas City from New Orleans yesterday. He said that approximately 100,000 animals have been shipped from this vicinity through the port of New Orleans during the past three years. The average paid for these animals was \$50 a head, making the total expendi-

The Outlook for Oil.

Beaumont, Texas, August 12 .- It is probable that the Alamo Oil company's well on block 38 will come in tomorrow, at any rate this will be the next gusher unless some one springs a surprise. The prospects for the next week seem as full of promise as the past week was of wells. Of course the majority of the new ones will be on the Hogg-Swayne tract, but there will threw a six-shooter into the face of tube mills be off Monday morning, and also be others outside of this tract,

Charged With Moonshining.

Texarkana, Texas, August 12 .-Elisha and William Bagwell were arraigned before United States Commissloner Sommerville Saturday afternoon charged with moonshining whisky in Pike county, Arkansas. The bond of each was placed at \$500, and in default of which they were sent to jail at Fort Smith to await the action of the next Federal grand jury.

New Cotton. Quinlan, Texas, August 12,-The first bale of new cotton was received here Saturday. The bale weighed 498 pounds and was raised by two boys, Rufus and Lucian Nelms, llying two miles north of Quinlan. It was ginned by C. A. Puckett and bought by Gibson & Teague, It was classed as strict rades and Labor Assembly this after- midling and sold at 8 cents. A premSompers Says the Contest Is One of Principle on the Part of the Strikers and All Branches of Union Labor Must Stand Up for Fair and Right.

Pittsburg. Pa., August 16,-There were gravely important developments in the strike situation today. The United States Steel corporation moved decisively in its strike campaign order directing that the great De Wees Wood removed to the Kiskiminetas valley. President Compers of the American Federation of Labor, after a two days' conference with President Shaffer and his associates, issued a formal statement tonight specificially pledging the federation to the moral and financial support of the .. malgamated association.

His written review of the train of events leading to industrial quarrels sustains the course of the Amalgamated association and decides that nothing remains but to battle for the cause of unionism.

The official announcement of the order to dismantle the De Wees Wood plant was a great surprise, and Mc-Keesport received it at first with doubt. Actual preparations were made later in the city for the dismanteling and there is little room for doubt that it will be torn down. The strikers heard the order in a spirit of defiance. They simply said that it showed the Steel corporation was convinced that it could not reopen the plant in the face of the opposition of the Amalgamated association. Strike leaders here said that the order was a bluff that had been worked unsuccessfully before and declined to take it serious-

The steel officials declined to give any reason for the order, but it is openly stated here that the pronounced sympathy of citizens and city officials at McKeesport with the strikers is responsible for it. It is also said that the plant of the National Tube company at McKeesport will be abandoned and the old Carnegie plan for a tube plant at Connaught, Ohio, revived.

The De Wees Wood plant was foundall about forty years ago and is one of the best known plants in Pennsylvania. Its yards and mills cover between twelve and fifteen acres; it has employed 1200 men at its busiest times and its cost is placed at \$5,000,000 by officials of the Steel corporation.

Test Comes Tonight.

Pittsburg, Pa., August 10.-Less than twenty-hours must elaspe before the general strike order of President Shaffer becomes effective, but in well informed quarters there is still doubt as to the men and properties that will be affected by the order. The mill managers say that the final showing on Saturday and Sunday will be far under the claims that are being made by the Amalgamated association. President Shaffer would not talk figures today, but his associates were posttive that their first claims were correct. The final appeals to the men will be made at a series of meetings to be held tomorrow at which President Shaffer and the other leaders will be apeakers.

Contributions for Strikers.

Muncie, Ind., August 10,- Tomorrow the first contributions from iron mill employes of Muncie will by sent to Pittsburg to aid the steel workers' strike fund. Like contribution packages will also be sent from Anderson, Mogion, Elwood and other Indiana gas-belt towns. The four lodges of the Amalgamated association in Muncie will send about \$6000. About \$30,000 all told will be sent from he gas belt. This controut on is made in advance of any call for help. The donators are employes of the Republic fron company and the American Rolling Mill company.

Bad Smash Up.

Houston, Texas, August 10 .- The Katy Flyer, arriving in Houston at 10:30 o'clock each morning, was wrecked this fornnoon five miles out of Houston, at Eureka station, along with a freight train on the Houston & Texas Central. The passenger ran into the freight, which was making the crossing. It struck two flat cars, about the middle of the freight train. Each of the cars was loaded with sand and they were unturned in the ditch. Two or three freight cars were also ditched. The passenger engine clung to the rails and went through the train. The tender and the mail car, however, were derailed and turned plant at McKeesport be dismantled and over. No one was killed and no injuries have been reported.

> It appears that the passenger train had slowed down for the crossing, but the train failed to come to a standstill and ran into the freight. The passenger engine, having passed through the wreck, came on to Houston, bringing the mall, and a relief train was at once sent out to convey the passengers to the city. The wreck was a similar one to that on the Galveston ,houston and Henderson at Sap crossing in this city last week. The cause of it has not been ascertained by local interested officials, but it is believed to have been due to partial failure of the air brakes to perform their duty.

Two Women Shot to Death. Dallas, Texas, August 10.-Two white women, Willie Casey and Sallie Walker, were shot to death in a house at which they were staying on Camp street, near Griffin, at 9 o'colck last night. Willie Casey was shot through the head and died instantly; Sallie Walker was shot through the body and lived two hours. She made an official ante-mortem statement to a notary public, on the strength of which a white man was arrested and locked up at police headquarters. His ciothing was very bloody and he had a bad scalp wound. The Walker woman, in her dying statement, declared that he did the shooting in a fit of jealousy during a quarrel with a saloonkeeper. The saloon man has not been arrested. Both had been paying attention to the women.

who was shot last night and who was reported dead, rallied somewhat and at 1 a. m. is still alive. The chances are greatly against her recovery. The police have arrested the saloonkeeper in the case.

A Hard Time to Hold It.

Fort Sill, O. T., August 10 .- Three additional contests have been started against James R. Woods, the first winner in the Lawton land district lottery, who, in choosing his claim, shut Miss Mattie Beals out from filing on a tract next to Lawton. Last night a local townsite company staked off Wood's entry and stretched ropes to indicate alley and lots and gave notice of contest. These Woods displaced dith the aid of an axe, but during the uight 200 squatters took possession and say they will contest to the end. Wood's attorneys have warned the squatters to move within ten days. A fourth contest was inaugurated today when a placer miner claim based on the alleged discovery of oil in the Woods nomestead was filed with the registerer of deeds.

Do bot Want Non-Union Men-

New York, August 9 .-- A committee has been appointed by the building trades union to wait upon Archbishop Corrigan with the request that he use his influence with the contractors on the extension to St. Patrick's cathedral, on Fifth avenue, to prevent the employment of non union workmen. Complaints have been made that nonur ion rock drillers, engineers and blacksmiths are at work. A similar request will be made to Bishop Potter with regard to the new Episcopal cathedral of St. John the Divine. The delegates say they believe the matter can be settled without resort to a strike.

The Old Law Prevails. Austin, Texas, August 10,-Sheriff Flay of Gonzales county was here today and trought his fee bill to the comptroller for approval and payment. Mr. Love approved the bill under the Chief Morrissey of the Brotherhood of old law, but not under the new one, Rallroad Trainmen today denied that as the speaker of the house falled to the trainmen were in consulation with | sign it in the presence of the house. the Amalgamated association officials | This was the first bill presented to the quo warranto proceeding the anti-trust | comptroller since the passage of the new law, and he told Sheriff Flay that he could mandamus him if he liked, but onder the circumstances ne could Tien Tsin, August 10 .- General Mei | not approve the bill to comply with a returned here and professes to the new law. It is more than likely have killed or dispersed a hundred that the special session will take up and again pass the sheriff's bill

RAILWAY ACCIDENT

THE SABINE PASS TRAIN FELL THROUGH A BRIDGE.

Several Passengers Were Injured, Most Serious Bruises Were Received by T. C. Stribbling-The Fireman Was Scalded Quite Severely.

Sabine, Texas, August 9 .- The Sabine train due here at 11:45 a. m. was completely wrecked at Keith Lake gully, seven miles above Sabine Pass. The train, consisting of nine cars and the engine, was on the tresle over the gully when the tresle gave way, precipitating the entire train into the water.

The engine turned three-quarters over and in some miraculous way both the engineer and fireman got out, but the fireman was badly scalded and his back wrenched. There were seventeen passengers on the train, who escaped with a few brusies and a good ducking. The worst injured of passengers was T. C. Stribling, who crawled out of one of the windows.

The tug Ernest, Captain Wood, was up the Port Arthur canal in the vicinity of the wreck fishing and those on board the tug saw the train as it went over. They went to the rescue and only by their efforts were the conductor, newsboy and the negro passengers saved, as the water was in their car up to their necks and the top of the roof. They would soon have suffocated or drowned, but the tug's crew went with axes and cut the roof off the car and pulled out its occupants. The hind end of the white people's coach did not get entirely in the water and the passengers crawled out of the windows.

The wreck was caused by the tresle piling having been entirely eaten up and honey-combed by the terredo. This stream of water is connected with the pass by the Port Arthur canal and the tide ebbs and flows in it and has been very salty the last two months, which fact it is likely the railroad officials had overlooked and were not aware of the condition of the piling.

Superintendent De Young came Lake, where the tug Ernest met it with mail and passengers. This boat will meet the trains each day until the tresie is repaired, which should not be later than Sunday. All the freight, express and mail will be gotten out of the gully tomorrow by the wreck train.

Manhattan Welt Is In. Beaumont, Texas. August 9 .- The long delayed Manhattan well is at last a gusher. It spouted about 5 o'clock yesterday afternoon, making the twenty-second gusher in the field.

This well was reported to have come in about three weeks ago, but it was In reality only a gas pocket that had been pierced and the blow-out damaged the machinery and caused delay. When the work was resumed it was found that the force of gas had left the hole in a bad condition and after trying for several days to bring in a six-inch well the dirilers had to reduce the pipe, bringing in a four-inch gusher. Owing to the nearness of such a large number of rigs the Manhattan was shut off as quickly as possible after it began spouting, but it gushed sufficiently to show that the big reservoir had been tapped.

The new gusher adds only a few feet to the proven field, but since the demand for oil is growing very rapidly the bringing in of each well gives the public greater assurance of a practically inexhaustible supply of oil.

The Darragh well on the Hogg-Swanye purchase is being bailed and is expected to spout tomorrow.

Aragua's New President. says: Francisco L. Alcantara, who has just been elected president of the State of Aragua, Venezuela, was graduated from the United States military academy at West Point, four years ago. Young Alcantara's father was president of Aragua and later was president of the republic. Francisco was a special cadet, admitted to the academy by President Cleveland on the request of President Andueza Palacio. Since then he has fought on the government side in one of the country's rebellions. For the ability he displayed, Alcantara was promoted to the rank of general, though he is only 27 years old.

El Paso.-Six of the ten victims of the Mexican Central wreck who were sent to the hospital here have been discharged, and the physicians think the others will be in a few days.

Wisconsin in Readiness.

Washington, August 9 .- The navy department has sent an order to Captain George C. Reiter of the battlethip Wisconsin, now at Anacortes, near the Puget Sound naval station. to proceed to San Francisco, from which point the battleship will be dispatched to Panama in case the State department requests the presence of a war ship on the Pacific side of the

This action was taken after Acting Secretary Hackett had received from the state department a communication J. Edward Simmons of New York, president of the Panama Railway company, setting forth the seriousness of the situation on the isthmus and suggesting that warships be sent, both to the Atlantic and Pacific sides. So far the state department has asked for no ship beyond the Machias, which has been ordered to Colon, on the Alantic side. The Wisconsin is one of the finest ships of the new navy, and if she should be sent this will be practically her first active duty, as she has been in commission only a short time. She has a displacement of 11,500 tons, is heavily armored and has a main battery of four 13-inch breech-loading rifles and fourteen six-inch rapid-fire guns, which, with her secondary battery, makes one of the most formidable ships affoat. Her complement is 500 officers and men, including about seventy-five marines.

Chicago Mosquitoes Must Go.

Chicago, August 9 .- Mosquitoes, according to the Chronicle, are to be banished from the Chicago parks if a recommendation recently made to the commissioners by Prof. Frederick Starr of the University of Chicago is carried out. All that is necessary to drive the pests away, says the Professor, is castor bean plants. This discovery was made by Prof. Starr while he was traveling in tropical countries. He was supposed to be studying anthropology during these travels, but the exigencies of the situation forced him for a time to study the best method of driving off the clouds of mosoultoes which made life a burden. "One night," said the professor, "I was annoyed more than usual. Thousands of the little insects hummed and which to brush them away. soon found that I did not have to brush. The mosquitoes had disapnight. The plant from which I had torn the branches was that of the casit with the same success."

Faith Healers Roughly Handled. Chicago, August 9.—Bespattered with decayed eggs and pursued by a shouting, argry crowd, two followers of Dowie, the faith healer, fled through the streets of South Chicago last night, and only by the aid of a friendly motorman of the Calumet electric line were they able to escape. The supposed recognition by the crowd of one of the men as Henry Christensen caused the hostile movement on the part of the throng. It was Christensen's wife who died without medical attendance a few weeks ago, of injuries received in a fire, the prayers of the faith healers failing to save her. The throng remembered the published accounts of her deathbed sufferings as depicted at the official investigation, and they were in no humor to give the faith healers a cordial reception when they attempted to preach their doctrine on the street corner.

Pipe Line for New Orleans. New Orleans, La., August 9 .- The Lone Star and Cresent Oil company today offered the city of New Orleans a bonus of 1-2 cent a barrel for every barrel of oil sold in the corporate limits for the privilege of constducting a pipe line system in the city for the distribution of fuel oil. The proposi-New York August 9.-The World tion was accepted by Mayor Capoeville and the city council committee and an ordinance was ordered drawn granting the franchise. The council will pass it at the next meeting and work on the pipe line will immediatly follow.

> Austin, Texas, August 9.-President W. B. Wortha mof the First National bank, accompanied by Receiver Yerkes, arrived in town late last night. Mr. Wortham, the receiver and the bank examiner have been at work at the

Bank May Resume.

bank all day and affairs are moving along in perfect harmony. It is the general impression that the bank will resume within the next ten days or possibly sooner. It was learned today that State Treasurer Robbins has \$358,208.89 of the State's funds deposited with the First National bank, which was in course of collection...

PETROLEUM RATES

COMMISSION MADE THEM THE LOWEST IN THE WORLD.

Twelve Cents Flat and in Reality Only 10 1-2, as the Weight of a Gallon Is Placed at 6.4 Pounds Against 7 4 Pounds Under Previous Ruling.

Austin, Texas, August 8 .- The railroad commission this afternoon issued its new tariff on crude fuel petroleum in carload lots. The new rate is the lowest of any rate in the world and is even lower than the freight rates on sand for long distances. It is a heavy reduction on the former joint line rate, as the maximum rate is now 12 cents flat per 100 pounds, as against the old tariff of 15 cents. The extreme short line haul is reduced 1-2 cent in some cases and the commission established the weight of a gallon of oil to be 6.4 pounds, as against 7.4 pounds as per testimony taken at the hearing. This in reality places the rate at 10 1-2 cents instead of 12 cents. The 12-cent flat rate practically reaches all consuming territory, taking in Dallas, Fort Worth Waco, and Austin and points between. The new rates go into effect on the 29th, as the law requires a twenty-day notification.

Twenty-first Gusher In. Beaumont, Texas, August 8.-The Cox & Josey well, situated on block 36 of Spindle Top Heights, spouted about 8 o'clock to-night, making the twenty-first gusher in this field.

This well could have been brought in several days ago with a four-inch pipe, but the owners and Messrs. P. M. Lee & Son, who drilled the well, were after a six-inch gusher, and they got it. When the drill had been sent eight feet into the oil sand the flow of oil came with great force and when the drilling pipe was removed a sixinch column of oil shot 200 feet into the air. The well spouted for a few minutes before it could be shut off and demonstrated that it is one of the best in the field. The new gusher is on the southern portion of block 36. buzzed about me. Finally, in despera- about 150 feet south of the Ground-Later-Sallie Walker, the woman down with a special train to Keith tion, I tore some branches from a plant floor well, adding that much territory

The well is situated in the midst of the mass of derricks on the Hoggpeared and did not come back that Swayne tract and the moment oil began spouting the other rigs very promptly extingushed their fires as for bean. The next evening I tried a precaution against a conflagration. Messera. Cox & Josey, owners of the new well, are two young men who have been quite successful in this field, and theirs is the only gusher not owned by a chartered company.

> New Rumor of Peace. New York, August 8 .- The Commerclal-Advertiser says: As far as can be learned no communication has been received by J. Pierpont Morgan & Co., or by any steel officials here from the labor officials since the conference on Saturday last. Peace, however, may not be far away after all. It is learned that important influences are at work which may surprise everybody within the next few days. Mr. Morgan will not say a word, but it is believed in some quarters that he has received important communications from persons strong enough and important enough to bring about a settlement before Shaffer's order to strike takes effect. Neither will Mr. Morgan say that he will welcome any move that will hasten the end of the controversy, providing the fundamental objections ba urged on Saturday last are respected. That something is being done in the direction of amity is apparent from the manner of the steel men bere and the course of the steel stocks on the

> > Still No Clue to the Robbers,

exchange.

San Francisco, August 8 - There is still no clue to the identity of the men who robbed the Selby Smelter company or the whereabouts of the \$280,000 gold bullion they secured. The smelting company holds itself responsible for the entire loss and states that none of its employes are suspected of being implicated in the crime.

SHAFFER LABOR, COLOSSVS.

Should the steel workers' strike assume the worst form that it possibly could nearly one million men would quit earning wages. When one comes to a full realization of what such a condition might bring about the prospect is nothing less than appalling. Suppose that a million men should take it into their heads to reopen the mills on their own account, it might be a long time before they could be dispossessed. Or suppose they should organize into an army. As a Chicago paper says, the result "might stagger humanity." Thus a difference between capital and labor that is trivial in its intrinsic merits as related to the masses of the people in general, in the absence of compulsory arbitration machinery, might lead to conditions so far-reaching that all would suffer from its effects.

President Shaffer of the Amalgamated association says that the question to be settled is "whether unionism is to stand or fall." To the extent that that is the issue in the present contest it is one of his own making.

It is alleged by him and by other members of the organization at the head of which he is, that the men who control the great steel companies have long been determined to undermine and finally destroy the Amalgamated association, and that the demands made by that association were in the nature of self-defense. Those who make these statements presumably believe them to be true, but they have presented no evidence to show that they are true. They have called attention to the fact that in dull times union mills are closed while non-union mills are kept running. This has been complained of as discrimination. It so happens that the non-union mills were the better equipped ones and goods could be made more cheaply in them.-Chicago Tribune.

REDISTRICTING.

The Legislature is making some progress with the matter of redistricting the State. Quite a number of bills have been introduced dividing the State into congressional districts. No two are alike in hardly a single respect. In all probability they are proposed mainly with the view of furthering the ambitions of candidates for Congress. But they have all been thrown into a kind of "general pot." The committee is working on them. The latest report at this writing is that a House Sub-Committee has agreed on the basis of a bill for congressional districts. Under this bill Houston county is grouped in a district tive lines, seems to have worried with Anderson, Cherokee, Ange- not a few of our prohibtion lina, Trinity, Polk, San Jacinto, friends. We had a long letter Liberty, Chambers and Galveston. from an old friend at Lovelady, As Judge Aldrich, the representa- honestly over-enthusiastic on the tive from this county, said before proposed county election. His a committe at Austin, "In organ- pluck and perseverance are to be izing these districts, counties with admired but his judgment is away an identity of interests should be off. When we think of the zeal grouped together." This is a and energy some of our prohibisound principle to follow in this tion friends are displaying in an kind of work. This standard does effort to stir up a whirlwind of not seem however to have availed excitement in this county we can much in the formation of the dis- but regret that all this energy can trict just named. Cotton seems to be adout there just as an individual Whichever way it may end, it will general and specific forms of hy- vancing steadily as the period for ords and supplies. We buy dimember may want. Each wants be a victory for a grinding mo- poerisy which these "joints" determining the extent of the rect from factory. No secondthings his own way and it is rare nopoly. that any two want the same thing. All wise legislation comes from trict bill by which it is proposed the conflict and compromise of to bunch Houston county in a disantagonizing views. And the old trict with Walker, Brazos, Grimes, axiom of "give and take," and Leon and Madison will not suit generally "give more than you our people at all The experiences get," holds there as it does in other this county had thirty years ago affairs of life. As we said last and six years ago with Mongrel by the crew of agitators who sign It would be hardly wise for week, the best way to proceed in Judges is not entirely forgotten. this work of arranging districts is This is not the only sound objecto go at it with an eye single to tion to this proposed district but broad, deep, and far-reaching one, cotton crop. In a large majority the highest interests of all the peo- this is enough. We hope our repple of a county, ignoring the sel- resentatives will scotch this measwho may want a district so cut out mittees that they may slide into congress ut a contest for the nomina-

We are told that the Senatorial istrict will likely remain as it is

creased nor decreased. And when we consider the great increase in population in Texas since the last census, and especially in East Texas, the present Senatorial district would certainly contain very many more than the Senatorial unit of population would call for. It would seem that in view of this dullness of its style, its want of increase that the present Senatorial district should be reduced in the number of counties. Then again would'nt Houston county be entitled to a representative and a flotorial interest with Anderson in one more instead as it is now? It will be well for our representative to watch the county's inter ests in these matters too.

The Trinity river bottoms

"AN APOSTOLIC TWELVE."

purports to be a reply to a Courier editorial of last week. It is from a round dozen prohibition agitators. The document is remarkable for quite a number of things, some of which are, the length of it, the snap and spirit, its loose jointed construction, its illogical reasoning, its vindictive bitterness, its appeal to passion and prejudice, its wilful misrepresentations and the lofty spirit of Pharisaisn and can't which runs through it. There breathes through it that same old spirit of bitterness which was born of the contest of '87. It clings to them like the rank vapor of the poisonous vine clings to the tree from which it has been torn. It warms and animates their being. With a smile, and a suavity of manner, that would make Uriah Heep blush they will protest that there is none of it, that they have long since forgotten it. But it still lives in the spirit and flesh and memories of this clattering, rub-adub dozen whose signatures are affixed to the article in question. There are dishonest, sinister insinuatives and references cropping out all through it. Let the public contrast the article which we wrote last week with the article this ruba-dub dozen of agitators publish this week. There is much said or rather there are many references to political and other matters in this article. We invite the public to look at the names of these agitators and self appointed reformers who sign this wail of disappointment. When they do so it will be seen that there are those there who have been in the reforming business of one kind or other for nearly fifteen years. Some of them have tried their talents at several different kinds of political reform; some at reforming the morals of the The great steel strike is nothing country, some at one kind and

JOHN B. SMITH,

natures as the puddle is to the poly-wog. What an unhappy spectacle it is to see all this turmoil and turbulence stirred up. Ministers of the gospel leading the list of signatures! Men commissioned to preach the gospel of peace and to invoke the influences of the "Still small voice" for purposes of reforming and elevating mankind, abandon in part the divine instruments, and appeal to those of man. Instead of following the divine injuction of inculcating "peace on earth, good-will to men" they join in or lead a propaganda of hate and presume to show people the path of civic duty. Carlyle tells us that Old Frederick the Great, on one occasion rapped an officious parson across the back and told him to go and mind his flock. The officious parson was venturing suggestions are the most fatal of all disas to how affairs of State should cases. be conducted.

Cotton.

Crockett received a bale of new damage and the probable yield They say "the writer is spoiling draws near. The indications are counts. for a fight." Far from it. We that cotton will, during Septemsincerely hope never again to be ber, rule in the local market engaged in another campaign. If somewhere between seven and we were really "spoiling" for one eight cents with a tendency up or we certainly would'nt expect to be down as the season from now on is
