PRECINCT CONVENTIONS.

Crockett Precinct No. 2 Defeats Resolutions.

CROCKETT PRECINCT NO. 2.

Pursuant to call of County Chairman J. E. Downes for precinct conventions to meet and select delegates to the county convention, Mr. J. E. Monk, chairman of Crockett voting precinct No. 2, called convention to order at 11 o'clock, at the court house, July 5, 1902.

First in order was election of officers for ensuing two years. Officers were elected as follows: A. H. Wootters, Chairman; John F. Rains, Vice Chairman; W. W. Aiken, Secretary.

On motion chair appointed committee of five to select delegates to county convention. Committee was appointed as follows:

J. W. Hail, Geo. Allbright, W. J. Mathews, C. H. Tabb, Joe Adams.

Committee, after retiring to make selection, reported as follows, which report was adopted:

To the Chairman and convention of precinct No. 2, Houston county:

We, your committee to select delegates to the Democratic county convention to be held at Crockett, July 10th, 1902, respectfully submit the following as the list of delegates from this precinct:

A. H. Wootters, W. B. Page, J. W. Hail, W. A. Norris, A. A. Aldrich, W. J. Mathews, D. A. Nunn, Jr., Joe Adams, D. A. Nunn, Sr., Dr. J. B. Smith, G. Q. King, Dan McLean, J. W. Young, Jno. E. Monk, C. H. Tabb, Mose Bromberg, J. L. Hazellett, Walter Richardson, Sid Smith, F. H. Bayne, J. G. Matlock, C. W. Newberry, George Allbright, John F. Rains, W. A. Wooley.

Respectfully submitted.

J. W. HAIL,
W. J. MATHEWS,
C. H. TABB,
G. W. ALLBRIGHT,
JOE ADAMS,
Committee.

The following resolutions were offered by Hon. A. A. Aldrich:

Whereas, the democracy of voting precinct number two of Houston county, believes in the time honored principles of the democratic party, and believes that those principles are embodied in the last national democratic platform promulgated at Kansas City, and whereas we believe that an effort is being made to depart from those principles, and under the guise of a movement in the name of harmony, to reorganize the democratic party on a basis at variance with said principles; therefore, resolved by the democracy of precinct No. 2 in convention assembled:

1st, that we reaffirm our allegiance to the democratic party as at present organized, and reaffirm and endorse the principles of democracy as expressed in the last national democratic platform.

2nd, that we hereby instruct our delegates to the county convention to urge the passage of these or similar resolutions in the county convention.

3rd, that we hereby instruct

our delegates to the county convention to support a resolution instructing the delegates from the county convention to the state and congressional conventions to support and urge the adoption of a plank in the platforms of said convention endorsing the last national democratic platform.

The Aldrich resolutions were opposed by Messrs. J. W. Hail and W. B. Page.

On motion the Aldrich resolutions were tabled, there being three votes only in the negative.

Mr. J. W. Hail was put in nomination for county chairman of the democratic executive committee for the next two years and was unanimously endorsed by the convention of Crockett precinct No. 2.

On motion the delegates to the county convention were instructed to vote as a unit on all questions coming before said convention.

The convention then adjourned.

A. H. WOOTTERS,
W. W. AIKEN, Chairman.
Secretary.

CROCKETT PRECINCT NO. 1.

The Democratic primary convention for precinct No. 1 was called to order by G. M. Waller, chairman, July 5, 1902.

J. M. Crook nominated Dr. J. L. Hall for chairman, seconded by I. W. Murchison, who was unanimously elected.

John LeGory was unanimously elected secretary and M. M. Baker vice chairman.

On motion of J. M. Crook a committee of five was appointed by the chair to select delegates to the county convention.

The chair appointed the following: I. W. Murchison, I. A. Daniel, N. B. Barbee, Joe Long, Geo. Grounds. By motion of N. B. Barbee vice chairman M. M. Baker was added.

The committee selected the following delegates: N. B. Barbee, Joe Long, W. W. Davis, J. E. Downes, Geo. Grounds, Jeff Hill, J. M. Crook, A. LeGory, I. A. Daniel, I. W. Murchison, J. T. Harrison, S. T. Beasley, C. C. Stokes, J. Z. Brister, Rev. J. M. Herd.

By motion of W. W. Davis, chairman J. L. Hall and vice chairman M. M. Baker were added.

It was moved by J. E. Downes that the delegates of this precinct be instructed to support in the county convention a resolution for the Galveston relief bill, which carried unanimously.

J. M. Crook made a motion that the delegates vote as unit on all questions before county convention, which carried unanimously.

A motion for adjournment carried. JNO. LEGORY,
Secretary.

AUGUSTA PRECINCT.

Augusta, July 5, 1902.

Convention met at 3 o'clock and was called to order by Chairman J. S. Newman, who stated the object of the convention. W. H. Wall was elected chairman and S. H. Kyle secretary. The following resolutions were made and adopted unanimously:

1. Resolved, that we, the democrats of precinct No. 2, Houston county, in convention assembled, do hereby condemn and disapprove of long tenure in office and recommend that it be

adopted and approved that four years of office be considered the limit for any office-holder and after such time that he either withdraw or seek some other office.

2. Resolved, that we do hereby oppose the disfranchisement of the Democratic negro vote and recommend that the county convention allow them the privilege of suffrage. They have stood by us in time of need and we should respect their feelings as a matter of courtesy, if nothing more.

3. Resolved, that we do hereby condemn the course of our Senators, Messrs. Culberson and Bailey, in their action of opposing our county nominee for congress, Hon. D. A. Nunn. We consider their course unwarranted and beneath the dignity of men in possession of such high offices of trust.

4. Resolved, that we favor the holding of uniform primaries throughout the state on the same day and instruct our delegates to the state convention to support a measure providing for the same.

5. Resolved, that our delegates be instructed to vote for Hon. J. W. Hail for permanent county chairman.

Committeemen W. H. Holcomb, H. P. Almond and J. C. Kennedy reported the following delegates and alternates. Delegates: Jno. Kennedy, S. H. Kyle, J. S. Newman, Jake M. Sheridan, J. S. Long, H. P. Almond, W. L. Douglas, T. C. Lively, E. Wilcox. Alternates: H. Holcomb, S. N. Johnson, T. J. Chambers, J. W. Young, J. A. Richardson, C. W. Kennedy, Wm. Kirkpatrick, C. H. Long, W. H. Lively, and same were approved by the convention.

6. Resolved, that the COURIER and Messenger each be furnished a copy of the proceedings of the convention.

No other business being called the convention adjourned sine die. S. H. KYLE, Sec'y.

GRAPELAND PRECINCT.

In obedience to the call of the chairman of the Grapeland precinct the democracy of the precinct assembled at the school house in Grapeland on the 5th inst. The meeting was called to order by the chairman, Dr. F. C. Woodard. The chairman then stated the meeting had been called to elect a precinct chairman and select delegates to the county convention to assemble in Crockett on the 10th inst. The first thing in order was the selection of precinct chairman and secretary for the ensuing two years. The name of F. C. Woodard was placed in nomination; there being no other nomination Dr. Woodard was declared the chairman for the next two years. J. F. Martin was then selected as secretary for two years.

A motion was then made and seconded to appoint a committee of three to select delegates to the convention. The chair appointed the following committee to select a set of delegates: H. C. Leaverton, F. H. Parker and B. R. Eaves. While the committee were out selecting the delegates, the following resolution was unanimously adopted: Resolved that the democracy of Grapeland election precinct tender to J. E. Downes, county chairman, our sincere

thanks for the efficient manner in which he has discharged his duty as county chairman for the past two years.

The committee returned and reported as their selection the following list of delegates to the county convention, to-wit: Jesse Eaves, John Bridges, T. H. Leaverton, William Warner, Dr. L. Meriwether, Dr. F. C. Woodard, J. E. Bean, W. H. Caldwell, John Parker, Henry Musick, Dock Guice, Will Campbell, Sam Duitch, Doc Weisinger, Jake Lively and Jim Lively. The list as above selected was unanimously adopted. On motion the committee, H. C. Leaverton, F. H. Parker and B. R. Eaves, were added to the list of delegates.

Nominations were then in order for the endorsement of this meeting for first choice as county chairman. J. E. Downes and J. W. Hail were placed in nomination, which resulted in the endorsement of J. E. Downes as our first choice.

The name of J. W. Madden was then placed in nomination for second choice. There being no other nomination, he was declared as our second choice for county chairman.

There being no other business the meeting adjourned, subject to the call of the chairman.

The Same Old Story.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and re-told by thousands of others. He says: "Last summer I had an attack of dysentery and purchased a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by B. F. Chamberlain.

DONE BY THE HUMORIST.

He Has Accomplished Reforms That Ponderous Editorials Couldn't.

Independent.
Humanity has the newspaper joke-writer to thank for the relief from the once numerous "stolen jewel" stories of the actresses who yearned for publicity. He was quick to see the fun of the trick, and prompt to write jokes about it.

He has lifted the almanac from its antediluvian style of humor by first writing jokes about it, and then writing them for it.

He has punctuated the pretensions of gaseous politicians, and nipped demagogic schemes in the bud.

He has roused henpecked husbands to a realization of their manhood.

He has guided the new woman past the shoals of silliness by his flaunting signals of sarcastic glee.

He has heated the street cars—in some cities—and has compelled the conductors to be more polite.

He has cured the country cousin of the green goods habit, and has led him to that point where he does not respond to the invitation to inspect the place where the river caved in.

He has caused the cowboy to cease shooting up the town, and has ridiculed begging until organized charity is in existence.

He has remodeled the restaurant system of the country, and has given the world a new form of boarding house—pruneless and almost hashless.

He has frightened fortune-hunting foreign noblemen until Americans have an occasional opportunity to wed an heiress.

He has driven the "bright child"

from the parlor, and the Curfew-shall-not-ring-to-night elocutionist from the rostrum.

He has done what he could to overcome the bargain-hunting propensity of woman, has relieved society of much of its folly, has lifted golf from a fad to a sport, has made the polar explorers do more exploring than lecturing, has made hysterical novels less hysterical, has forced sensational preachers to seek other methods of advertising themselves, has ridiculed Congressmen until it takes more than a high forehead and a Prince Albert coat to constitute a statesman. He has introduced the purse-proud parvenu to grammar, has resisted all efforts of aggrieved mental scientists to think him out of his business, and has checked the habit of shooting guides in Maine.

He has done other things. The list of his achievements is well-nigh endless. Ponderous editorials have been written, and great orators have thundered against evils, but his shaft of sarcasm has found the weak joint in the armor against which astute argument was merely wasted air.

No False Claims.

The proprietors of Foley's Honey and Tar do not advertise this as a "sure cure for consumption." They do not claim it will cure this dread complaint in advanced cases, but do positively assert that it will cure in the earlier stages and never fails to give comfort and relief in the worst cases. Foley's Honey and Tar is without doubt the greatest throat and lung remedy. Refuse substitutes. J. G. Haring.

Good Health

and pure blood are inseparable. If your blood is bad, your health must suffer. Poor blood allows the body to lose vitality just as a poor fire under the boiler allows the steam to run down. From poor blood to impure blood is but a step, and impure blood is mother to a large percentage of human ills. Dr. Harter's Iron Tonic is an antidote for both poor and impure blood, for it is both a builder and purifier—a food and a medicine. It is the best combination of the kind known to medical science, and its success for nearly half a century has led to its endorsement by thousands of medical men who have been unable to find a substitute.

Dr. Harter's Iron Tonic

will insure you against the many evils resulting from impure blood. Scrofula, pimples, blotches, kidney disorders, rheumatism, gout, dyspepsia, female weakness, anaemia, chlorosis, etc., are a few of them; but the greatest evil, the greatest danger, is the general weakening of the whole system, which affords an opening for every passing disease.

The following is only one of the thousands of testimonials we have received:

Detroit, Mich., Jan. 10, 1901.
"I commenced using Dr. Harter's Iron Tonic when prostrate from a severe attack of rheumatism. After using three bottles all traces of this disease were completely eradicated from my system, and my general health was restored. As a blood purifier Dr. Harter's Iron Tonic has no equal, and I most sincerely recommend it to all persons suffering from indigestion, fatigue, rheumatism, and the many weakened conditions of the system produced by impoverished blood."
Margaret F. Yeasli,
No. 640 Second Ave.

Our Weekly Letter From the Capital

REPRESENTATIVE CANNON, who has a friend whom he hopes will be appointed a judge on the district bench, told the President a story the other morning in order to hasten the appointment. "Out in Danville," he said, "I went to see a friend, and after a pleasant visit I asked him to come and see me. 'Bring your little boy, also,' I said, 'for I have a pony on my farm which I will give him.' 'The gentleman thanked me, but the little boy pulled at his father's coat-tails.  "Oh," said the startled doorkeeper, "I know you now, but I did not recognize you at first. The loss of your beard makes a big difference."
 Mr. Babcock smiled and disappeared into the house, where the members looked searchingly at him, many failing to recognize their colleague because of the absence of his whiskers.

Ex-Senator Carlisle, of Kentucky, came up to the capital yesterday wearing the most remarkable "till" seen during the present generation. It was a tall, white, stovepipe of the "Tippecanoe-and-Tyler-too" brand. Mr. Carlisle had it on his head as he started to enter the senate chamber. At that moment some one swung the door outward and the broad-brimmed white hat came into collision with it and then went rolling along the lobby like a barrel of flour.

Miss Blanch Grey, 174 Alabama street, Memphis, Tenn., a society woman of Memphis, writes:
 "To a society woman whose nervous force is often taxed to the utmost from lack of rest and irregular meals I know of nothing which is of so much benefit as Peruna. I took it a few months ago when I felt my strength giving away, and it soon made itself manifest in giving me new strength and health."—Miss Blanch Grey.
 Mrs. X. Schneider, 2409 Thirty-seventh Place, Chicago, Ill., writes:
 "After taking several remedies without result, I began last year to take your valuable remedy, Peruna. I was a complete wreck. Had palpitation of the heart, cold hands and feet, female weakness, no appetite, trembling, sinking feeling nearly all the time. You said I was suffering from systemic catarrh, and I believe that I received your help in the nick of time. I followed your directions carefully and can say to-day that I am well again. I cannot thank you enough for my cure."
 Peruna cures catarrh wherever located. Peruna is not a guess nor an experiment—it is an absolute scientific certainty. Peruna has no substitutes—no rivals. Insist upon having Peruna.

Dr. Llewellyn Jordan.

A free book written by Dr. Hartman on the subject of catarrh in its different phases and stages, will be sent free to any address by the Peruna Medicine Co., Columbus, Ohio.

Catarrh is a systemic disease curable only by systemic treatment. A remedy that cures catarrh must aim directly at the depressed nerve centers. This is what Peruna does.
 If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.
 Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

DR. LLEWELLYN JORDAN, Medical Examiner of the U. S. Treasury Department, graduate of Columbia College, and who served three years at West Point, has the following to say of Peruna:

"Allow me to express my gratitude to you for the benefit derived from your wonderful remedy. One short month has brought forth a vast change and I now consider myself a well man after months of suffering. Fellow sufferers, Peruna will cure you."
 Peruna immediately invigorates the nerve-centers which give vitality to the mucous membranes. Then catarrh disappears. Then catarrh is permanently cured.

DR. MOFFETT'S TEETHINA (TEETHING POWDERS)
 Rev. J. W. Berry (of Arkansas Methodist Conference, writes): "Enclosed find fifty cents for which please mail me two packages of 'TEETHINA.' We wonder how we have raised children without it. The other day a lady in Missouri sent us a package and it came at a most opportune time; our babe was in a serious condition; his bowels had been in bad condition for days, and nothing that we gave did any good; the second dose of 'TEETHINA' gave perfect relief and he has had no further trouble. Other members of the family have used it and every dose has been a perfect success."

WEALTH OF TEXAS

GOVERNMENT ESTIMATES THE VALUES AT A BILLION.

HALF OF THIS IS IN LAND.

Area Covers Eighty Per Cent of the State Domain—Over a Million and a Quarter Acres.

Washington, July 8.—In the census year of 1900, according to the bulletin issued today by the census bureau, the value of farm lands and farm property in Texas amounted to \$962,486,273. There were 352,190 farms in the State, covering an area of 125,807,017 acres, or about 80 per cent of the total area of the State. Of the total value of the farming interests, the farm lands themselves were reported as worth \$595,550,802; the improvements, \$100,222,811; implements and machinery, \$30,125,705 and live stock, \$240,576,955. The value of animal products for the year 1899 amounted to \$166,970,711 and of crops \$72,852,533. The total value of farm products for 1899 exceeds that for 1889 by \$128,123,814, or 114 per cent; but a part of this gain is attributed to a more detailed enumeration in 1900 than in 1890.

The bulletin further shows the average size of Texas farms to be 357 acres, but only a little more than 15 per cent of the farm land is improved. The largest body of land in the State classed as a farm embraces 450,000 acres. Of the farm lands of the State 65,472 acres were held by negroes. The total value of the land in the State devoted to live stock is \$391,788,647, and of land devoted to cotton, the next most important agricultural interest, \$381,138,388. The average size of the live stock farm is 2115 acres and of the cotton farm 98 acres.

Washington, July 8.—According to a bulletin issued today by the census bureau the total value of farm property in the Territory of Oklahoma on June 1, 1900, was \$185,343,818. Of this sum \$123,941,235 represented the value of farm lands and buildings, \$54,829,568 the value of live stock and the remainder the value of machinery, etc. In 1899 the farm products of the Territory were valued at \$45,447,744, including \$18,582,351 for animal products. The farms numbered 62,495. In 1890 there were only 8826 of them. The report shows that there are 915 Indian farmers in the Territory, against 2256 negro farmers.

Washington, July 8.—A bulletin giving the status of the agricultural interests of Louisiana, issued today by the census bureau, places the total number of farms in the State at 116,969 and their value at \$141,130,610. Adding the value of livestock and farm implements, the total is increased to \$198,536,906. The total value of farm products for 1899 was \$72,667,302. The average size of a farm in the State is given at 95 acres. About 50 per cent of the farms are operated by negroes.

Thunderbolt Killed Five.

Offerman, Ga., July 8.—Three white men and two negroes were killed and one white man and one negro injured in a severe thunderstorm here yesterday. The men were all employed in the construction department of the Southern Bell Telephone Company and were stretching wire when struck by lightning. The construction forces were working in two sections about five miles apart. Three white men were killed and one injured in one section, two negroes killed and one injured in the other.

One lightning bolt killed the five and injured the two.

Nine Negroes Drowned.

Shreveport, La., July 8.—Five bodies were found floating in different parts of Red River yesterday, the victims of drowning on Saturday. Nine negroes from Pandora plantation started out for a picnic and owing to carelessness in overloading the boat it was capsized and only two saved. Those drowned were: John Edwards and wife, Mollie Edwards, two Edwards children, Rosa Rivers and grandson and another unknown party. Two little children of a man named Leroy were saved by clinging to the boat as they came to the surface.

Manila Cholera Record.

Manila, July 8.—The cholera record Sunday for Manila was fifty new cases and thirty deaths. For the province the record was 460 new cases and 235 deaths.

T. & N. O. SHOPMEN STRIKE.

Their Demand for 10 Per Cent Increase in Wages Refused.

Houston, Texas, July 8.—Yesterday morning at 11 o'clock nearly 700 employees of the Southern Pacific shops walked out on strike because their demand for a 10 per cent increase in wages was not met by the company. The men who struck included the employees of the machine shop, the coach shop, the paint shop and the freight car shop, the workmen in the boiler shops and the molding departments continuing at work, having lately received an increase in wages.

The demand of the striking workmen as presented to the company several days ago was for a general increase of 10 per cent in the wages of the employees of the departments mentioned above as having walked out, and after consideration of the matter the following terms were agreed upon by the company:

A raise of 6 per cent in all departments except that of the machinists, who were receiving 32 cents an hour, and they were offered 33 cents an hour instead.

The demand for a nine-hour day was waived by the employees and the hours are to remain the same as before, viz., ten hours per day.

This concession by the company was not satisfactory to the men, so a meeting was held among the men and a committee of the shopmen appointed who were to wait upon Manager W. G. Van Vleck and present him with an ultimatum and get his answer.

A conference was held Sunday afternoon at Manager Van Vleck's office between the committee and the above official, but after considerable discussion of the matter the committee left without receiving any further concession than that already stated.

Manager Van Vleck stated to the committee that the road could not see its way to yield to the demand for a 10 per cent increase and that they were perfectly willing to give the men a 6 per cent increase, except the machinists, who would receive 33 cents per hour.

The committee after another consultation delivered to Manager Van Vleck their final ultimatum, which was that a strike would be ordered Monday morning, July 7, at 10 o'clock unless their demands were agreed to. Manager Van Vleck took the matter under advisement and told the committee he would communicate with them.

When the appointed time came yesterday morning no word had been received from headquarters, so after waiting an hour the employees walked out.

Body Not Yet Recovered.

Galveston, Texas, July 8.—The recent sad tragedy which resulted in the loss of three men while bathing in the gulf has caused considerable comment regarding the danger of surf bathing and the necessary means of protection. While it is a fact that there were no life savers on duty at the beach when the accident of last Friday occurred, it is only just to state that the men were all outside of the ropes. There is very little if any danger in bathing in the Galveston surf unless bathers venture too far out. The slope is so gradual that bathers may go out a considerable distance before reaching the danger point. Ropes are stretched to protect those within and to guide them regarding the depth of the water. This arrangement should be sufficient for cautious persons, and while accidents have occurred in the surf the fact remains that the danger is as slight as in any bathing place in the world. Neither of the missing bodies has yet been recovered.

The Texas Peach Crop.

Tyler, Texas, July 8.—The Elberta peach crop is beginning to move in earnest from this vicinity, twenty-two cars having been shipped today and thirty cars are expected to move daily this week, and a proportional increase to near the close of the season.

The refrigerated cars are iced from here with ice received from Tyler, Waco, Houston, Dallas and other points in the State. The yield of this variety is almost unprecedented and the prices are as good as in previous years.

Willemstad, Curacao.—President Castro left Caracas Sunday not for Valencia, as had been previously announced, but for LaGuayra, taking with him his private guard.

Davenport, Ia.—The North American Turnerbund decided not to hold the next National turnfest until 1905.

A TERRIFIC STORM.

WESTERN NEW YORK VISITED BY DISASTROUS FLOODS.

THE DAMAGE IS IMMENSE.

Dams Were Washed Away, Reservoirs Broke, Carrying Everything Before the Raging Waters.

Buffalo, N. Y., July 7.—A terrific wind and rain storm swept over Western New York early yesterday. Rivers and creeks rose rapidly, overflowing their banks and sweeping away houses and barns and livestock. The loss will reach into the hundreds of thousands. Telegraph and telephone wires are down and communication with small towns in Wyoming, Niagara and Cataraugus counties is difficult to establish. This city was not in the path of the storm.

A dispatch from Arcade says the flood at that point claimed one victim and did damage to the extent of \$100,000. Minnie Loper, who kept a bakery on the bank of the creek, was drowned. The downpour and the cloudburst above the village turned the creek into a torrent. The water rose rapidly and was several feet deep on the lowlands before any one realized the danger.

Miss Loper's bake shop was swept out into the stream and fell apart. Miss Loper's body was recovered. There were many narrow escapes. At Yorkshire, two miles below Arcade, the approaches to the bridge were washed away but the bridge is standing. Miles of roadway are so gullied or buried in debris that they will have to be rebuilt.

At Sandusky, a few miles from Arcade, it is reported that two houses were washed away. From everywhere come reports of livestock killed. The loss to individuals will be very high and the local loss to the town from the destruction of bridges and roadbeds will be high.

At Batavia the heavy rains for the last six days have swollen Tonawanda creek to a degree never before known, even in the worst spring freshets. A torrential downpour fell at midnight, making the situation perilous for persons living near the river. At 3:30 p. m. the flood came over the banks of the creek which are fifty feet high. Hundreds of acres of farm lands are under water and the damage will be heavy.

Scores of houses on West and South Main streets were entirely surrounded by water and row boats were plying in the thoroughfares at 9 o'clock tonight. Both the Erie railroad and the Attica branch of the Central are under water most of the distance between Batavia and Attica and are badly washed out.

Race Riot Among Miners.

Connellsville, Pa., July 7.—A race riot between Slavs and Polish miners and coke workers occurred Saturday night at the Paul mines of the Rainey company near Vanderbilt, three miles from here.

Mike Zovetchin, a Slav, was killed instantly, and Victor Hengel, a Slav, will not live. Thirty Slavs, men and women, were all more or less injured in the fight that took place. The participants were covered with blood after the fracas, but their injuries will not prove fatal. Joseph Welik and Peter Panik, two Poles, are charged with the murder of Zovetchin and the wounding of Hengel. They were all taken to jail at Uniontown. The others were heavily fined. Some of these will also be held for witnesses and perjury accomplices. Saturday night a big christening was held at the home of Frank Letkey, a Slavish boarding boss. Beer and other drinks flowed freely and at 11 o'clock the trouble started.

King Growing Stronger.

London, July 7.—King Edward's progress last night continued good. It is said that if his progress proceeds at the present rate he will probably by the end of the month be well enough to be transferred to the royal yacht at Southampton waters. A bulletin posted at 9 o'clock yesterday morning said: "The king's progress continues to be in every way satisfactory."

Unknown Man Killed.

Texarkana, Texas, July 7.—The body of an unknown man was found on the track of the Kansas City Southern railroad near Winthrop, thirty miles east of here yesterday. The clothes bore the name of "Montgomery" written with ink. The man is supposed to have been struck by an engine.

BIG FIRE IN CHICAGO.

Several Large Buildings Destroyed, Loss \$325,000.

Chicago, July 7.—Fire yesterday destroyed the buildings at 305, 307 309 and 311-313 Wabash avenue, causing losses aggregating over \$325,000. For a time the fire threatened widespread destruction, as it was only through the utmost efforts of the firemen that the flames were prevented from spreading to the department store of Siegel, Cooper & Co., fronting on State and separated from the burning buildings only by a narrow alley. Much excitement was caused among the guests of the Auditorium Hotel, directly across Wabash avenue from the burning buildings, and at the Auditorium Annex. The guests were aroused from their slumber at 7 o'clock in the morning, when the fire had gained such headway that it threatened other buildings in all directions. On the Wabash avenue side the flames belched out into the avenue so fiercely that it was considered unsafe for trains on the elevated loop to pass, and for over two hours all traffic on the structure was suspended.

The fire originated in Bosch & Co.'s basement and had burned up to the second floor before an alarm was turned in. Explosion followed explosion shutters were blown from their position in this building and many of the awnings and fell into the streets.

Following a severe explosion that occurred at 9:10 o'clock the side wall of the building at 307-309 Wabash avenue toppled over on the Kuntz-Remmler company building, crushing the smaller structure.

Aguinaldo Fears Assassination.

Manila, July 7.—As a result of the proclamation of amnesty July 4, the guard of American soldiers has been withdrawn from the house where Aguinaldo lives in Manila and Lieutenant Johnson, Aguinaldo's custodian, brought the Filipino yesterday to see General Chaffee. It was the first conversation between the American general and the leader of the revolution. Lieutenant W. E. McKisley of the Ninth cavalry acted as interpreter.

Aguinaldo was told he was free to go anywhere he pleased and General Chaffee asked him if he had any complaint to make of American discourtesy or harshness. Aguinaldo replied that he had no such complaint to make. He told General Chaffee that he was going to visit friends and inquired what protection the American authorities would afford him. He seemed afraid to venture out. General Chaffee replied that Aguinaldo would get the same protection as any other citizen. He then asked General Chaffee to prevent the courts from requiring him to testify in civil suits. The general replied that he had no authority to grant this request and advised Aguinaldo to make a social call upon Acting Civil Governor Wright. This Aguinaldo said he would do, but that he would go at night as he was timid about appearing on the streets in daylight.

Woman Convicted of Forgery.

Waxahachie, Texas, July 7.—A scene quite out of the ordinary was witnessed in the district court room Saturday night. For the first time in the history of the county a woman was arraigned before the court to answer a felony charge. She was a modest looking young woman, whose age was not more than 20. The charge against her was forgery, it being alleged that she affixed the signature of a young woman friend to a draft for \$20, which was cashed by the Citizens' National Bank of this city. The defendant gave the name of Mary Strayhorn, alias Mary McShe-She. She claims to be a Choctaw Indian. A plea of guilty was entered to the charge against her and the jury gave her a term of two years in the State penitentiary. She wept bitterly while Judge Dillard was passing sentence on her.

Cattle War Feared.

Ardmore, I. T., July 7.—Grave trouble between cattlemen and Indians in the Choctaw Nation is feared because of the killing during the past week of nearly 400 cattle, supposedly by Indians. The trouble arises in the violation by the cattlemen of the law providing that non-citizens shall possess no more than ten head of cattle a piece. It is asserted that the cattle raisers have violated the law with impunity and aroused the hostility of the Indians.

Clarksville.—A large amount of pasture fence has recently been cut in Red River county.

TRIPLE DROWNING.

THREE MEN OF HOUSTON, ONE OF GALVESTON.

UNDERCURRENT STRONG.

Body of Mr. Rust Recovered but the Remains of the Other Two Have Not Yet Been Found.

Galveston, Texas, July 5.—A triple drowning occurred in the gulf near the bathing pavilion about 5:30 o'clock yesterday afternoon. Two unfortunate, Captain E. G. Rust and his son-in-law, Mr. Walter Chandler, were residents of Houston, and the third was James N. Davis, night editor of the Galveston News.

The body of Captain Rust was recovered, but those of Mr. Davis and Mr. Chandler had not been found at a late hour last night.

Mrs. Chandler, formerly Miss Maud Rust, of Houston, was here and at the bath house when the drowning of her father and husband occurred, and Mr. Davis had a son in the water with him when he lost his life. A treacherous current and a desire to save a young man in distress was the cause of the sad affair. Only three were drowned. Had it not been that one of those who went to the rescue was Prof. Herman Berneau, a trained athlete and an expert swimmer, it would have been six instead, as three of those who went to aid the drowning man were unable to make their own way back to shore without assistance. Two clung to the corpse of Captain Rust and another held to the neck of Mr. Shannon, who was also one of the rescuers.

Chandler was being carried out to sea by the by the current and Mr. Davis and Captain Rust went to save him. Both perished in the attempt. The water where they were drowned, according to Prof. Berneau, was about ten or twelve feet deep. It is the opinion of Prof. Berneau that Captain Rust died of heart disease, as he insists that he was not in the water long enough to drown after his cry for help was heard. There were several bathers in the vicinity and, as stated, five went immediately to the aid of the men, and of this number only two were able to make their way back to shore without assistance. While the body of Captain Rust was being carried to shore two other bodies disappeared from view.

Every effort was made to resuscitate Captain Rust, medical attention being secured at once, and work was continued for nearly an hour. Finally it became evident that further efforts were useless and the order to remove his body to the undertaking parlors was given.

Officers are patrolling the beach and expect to find the bodies of the two missing men. Usually the bodies of drowned people come ashore after a time on the east end of the island. There is, of course, no certainty regarding this, however.

The three men went bathing from the roller bath houses, accompanied by the little son of Mr. Davis. They had been bathing some time when the drowning occurred, but there were many conflicting statements made about exactly how long they had been in the water.

Another Drowned.

Galveston, Texas, July 5.—Henry Nichols, aged 40 years, fell overboard from a boat at pier 29 about 5 o'clock this afternoon and was drowned before assistance could be rendered. Coroner Barry was summoned and held the inquest over the remains, pronouncing a verdict of death due to accidental drowning.

New Gusher at Sour Lake.

Sour Lake, Texas, July 5.—Another of the Atlantic and Pacific gushers is in, and the well as good as any of those which preceded it. The field is not enlarged very much, as it is close to the gushers which have heretofore been brought in. The well cleaned itself out and threw a stream of oil fifty or sixty feet over the derrick. Another gusher is expected in tomorrow.

Fearful Holiday Ride.

Utica, N. Y., July 5.—On an electric railroad near Gloversville there was a collision between two cars crowded with passengers, by which fifteen persons were killed and twenty-nine injured.

DRIVEN TO DESPERATION.

Convict Harry Tracey Shoots Down His Pursuers.

Seattle, Wash., July 5.—Convict Harry Tracey has just passed a red letter day in his erratic career. He killed Policeman E. E. Breeze and fatally wounded Neil Rawley in the city limits after having murdered Deputy Sheriff Charles Raymond of Snohomish county and probably fatally wounded Deputy Sheriff John Williams of King county, early yesterday. In his hopeless fight for safety, with no consideration for human life, Tracey has probably covered sixty miles. He was first encountered by a Seattle posse near Bothwell at 3:30 o'clock in the afternoon. Evidently the convict caught sight of his pursuers before they saw him. He had taken a commanding position in a clump of huge firs and opened fire before he was discovered. He fired five shots in all. Raymond was instantly killed by one of the Winchester rifle balls. Another struck the raised rifle held by Williams, splitting it in four parts, and entered the deputy's breast. It is believed he will live.

Philippines Liberated.

Manila, July 5.—President Roosevelt's amnesty proclamation was read at noon today in English and Spanish from a flag-draped stand on the Luneta, after a parade of 6000 Americans and Filipinos.

Arthur Ferguson, secretary to Governor Taft, read the proclamation in the presence of a small gathering. The prisoners freed by the proclamation to the number of 600 were released without ceremony. Aguinaldo remained in the house which has sheltered him since his capture. He is expected to visit friends briefly and to depart on a trip. His destination is not announced.

The exiles on the island of Guam are expected to return home on a special steamer. The observance of the National holiday is general. The city is decorated and the ships are flying all their flags. The celebration was typically American, even to the firecrackers. Acting Governor Wright and General Chaffee reviewed the procession and Captain Crossfield delivered an oration. He defended the American policy in the Philippines, predicted the ultimate and complete acceptance of American institutions by the Filipinos and denounced the critics of the Philippine policy. There were athletic games and racing in the afternoon and fireworks and illuminations at night.

Trust Among Farmers.

Kansas City, July 5.—Kansas farmers are to be formed into a milling trust to eliminate the middlemen if a project being launched by Walter Vrooman of the Western Co-operative association is successful. In a circular letter just issued the farmers are invited to attend a conference at Topeka on July 7 to consider a plan to "organize a milling and grain shipping industry of Kansas, including the farmer producing the grain."

The call is signed by C. B. Hoofman, one of the heaviest grain dealers in Kansas; John W. Breidenthal, Walter Vrooman and other prominent Kansans.

"We expect to handle the fall output of wheat and to squeeze the speculator," said Mr. Vrooman, who has just returned from a trip through Kansas.

Southern Negro Congress.

Galveston, Texas, July 5.—The Southern Negro congress adjourned this afternoon and will meet next year at Shreveport, La. The greater portion of yesterday's session was consumed in receiving committee reports. Among the reports received was that of the committee on constitution, in which is contained the following paragraph, which is said to outline the purpose of the organization: "The object of the organization shall be to urge our people to continue working along industrial lines. To become identified with the soil by owning homes and other property. To regard the home as sacred. To look for happiness and prosperity mainly through their own efforts and not through the channel of politics. To be patriotic and to live in peace with all. To condemn the criminals and to encourage our people to establish business enterprises and to do whatever will conduce to the moral, social and financial upbuilding of the race."

McKinney.—The 5-year-old son of Mrs. E. P. Dean, or near Wynnewood, I. T., was run over by a cab near the depot and seriously injured.

AN AWFUL CRIME.

I. T. KILGORE, OF BOWIE, SHOT HIS WIFE TO DEATH.

GENERAL NEWS BREVITIES

A Fishing Party Caught by a Flood—Young Man's Suicide—A Trying Experience—Rice Will Contest.

Fort Worth, Texas, July 3.—A telephone message tonight from Bowie gives particulars of a tragedy enacted in that town between 2 and 3 o'clock this afternoon and as a result J. T. Kilgore and his wife are dead.

The tragedy took place just as the funeral of Dr. D. C. Mitchell, the family physician of Kilgore, was being preached across the street from the scene.

Two pistol shots rang out in quick succession, and there was a stampede of the attendants of the funeral, who rushed into the Kilgore cottage. In the rubbish room in the rear of the building was found the bodies of Kilgore and his wife lying in pools of blood. The woman had been shot through the head while the husband had sent a bullet through his brain by placing the muzzle of the gun in his mouth. A portion of the head was torn away. No cause is assigned for the deed. Mrs. Kilgore was arranging to leave for Chattanooga, Tenn., their former home, next week, the family having come from there some time ago. Kilgore was at one time chief of police of Chattanooga. Two grown sons were the only other members of the family.

Compromise Accepted.

Sherman, Texas, July 3.—The matter of the estate of Mrs. Elizabeth Rice, deceased, wife of the millionaire, William M. Rice, deceased, is out of court. Hon. O. T. Holt, mayor of the city of Houston, was the executor of the estate of Mrs. Rice. He sought to make a settlement with the executor of the estate of William Rice by compromise, and S. W. Baldwin and others under the will of Mrs. Rice met before Judge Bryant and secured a temporary writ of injunction, restraining said compromise from going into court.

A motion to dissolve the injunction came to Sherman to be heard in chambers. This morning Hon. O. T. Holt made his appearance and brought with him a dismissal by Baldwin et al. of their effort to enjoin and Judge Bryant entered an order dissolving the injunction and the compromise sought by Executor Holt will go into effect.

Suit Against Lipton.

New York, July 3.—The basis of suit brought against Sir Thomas Lipton by D. N. Barrie, who acted as the baronet's personal and business representative in this country during the cup race, was made public today by William S. Gilbert, counsel for Mr. Barrie.

"Mr. Barrie's suit against Sir Thomas," said Mr. Gilbert, "is simply an attempt on the part of Mr. Barrie to recover from Sir Thomas compensation for services rendered in the last series of races for the America's cup as his business and personal representative. His services extended over a period of two years or more and he seeks to recover \$11,115."

Roosevelt's Rapid Record.

Washington, July 3.—The records at the capitol show that every bill presented to President Roosevelt was signed by him before congress adjourned. This is exceptional, as it generally happens that some measures are overlooked or forgotten in the hurry.

The total number of bills introduced in the house during the recent session was \$15,330.

Terrific Heat in Atlanta.

Atlanta, Ga., July 3.—The maximum temperature in Atlanta today was 98 degrees, but a thunderstorm late in the afternoon brought considerable relief. This registration so early in the year has been equalled once before, on June 30, 1890.

Expensive Seed From Holland.

Corpus Christi, Texas, July 3.—An invoice received today from the United States consul at Rotterdam, Holland, states that several hundred pounds of cabbage and cauliflower seed had been shipped from there and is now en route to a Corpus Christi merchant. The varieties are expensive ones.

A TRYING EXPERIENCE.

A Fishing Party Caught by a Flood Monday.

Tenaha, Texas, July 3.—A fishing party, composed of J. N. Fulsom and wife, Johnnie Fulsom and wife, Alva Fulsom and wife, Nute Ford and wife, John Lebo and wife and nine children, had been on Sabine river at a place known as the Old Shanty. They hitched their teams and started for home early Saturday morning and had only gone 200 or 300 yards from camp when they met a volume of water about ten feet high, which completely enveloped them, wagons, teams and all. The men were all good swimmers and by desperate exertion saved the women and children. They saved three wagons, one horse, six mules, and lost four mules, all their provisions and bedding. They suspended a wagon bed to trees by ropes above the water and put the women and children therein. The men then swam to higher ground and secured logs and made a raft on which they carried the women and children to the highest ground they could find and made a kind of scaffold to trees above water for them. There they remained from Saturday morning until Monday morning without food, with five feet of water under them. Monday morning Nute Ford and Johnnie Fulsom swam more than a mile to the hills and reported their condition, when teams and a boat was sent from Tanaha and rescued them. They were brought to Tenaha this morning, with three sick children.

Hugh New Battleships.

Washington, July 3.—The navy department has its plans practically completed for the four big warships just authorized by the new naval law and to bear the names of Louisiana, Connecticut, Tennessee and Washington. The distinctive features of the new ships are the strength and the arrangement of their batteries and a greater thickness in armor. The battleships are to have a displacement of 16,000 tons and will be built for a speed of eighteen knots. Their batteries will consist of four 12-inch guns, eight 8-inch guns, twelve 7-inch and twenty 3-inch guns and a large number of smaller weapons scattered over the ship.

The armored cruisers are to have a displacement of 14,500 tons and a speed of 22 knots. Their batteries will consist of four 10-inch guns, sixteen 6-inch guns and twenty-two 3-inch guns and a large number of smaller ones.

Has a Clear Title.

Washington, July 3.—Attorney General Knox has given an opinion to the secretary of war to the effect that the United States has a clear and perfect title to the land at the eastern end of Galveston island now occupied in part by government fortification and also by the state quarantine station. The opinion of the attorney general holds that the land is, dispute was a military reservation within the meaning of the articles of annexation of 1845 and was transferred to the United States by the terms of those articles.

Young Man's Suicide.

San Antonio, Texas, July 3.—Felix Poisick, aged 25 years, who was to marry a pretty young girl tomorrow night, put an end to his life in quite a sensational manner at 3 o'clock this afternoon.

He was driving along Taylor street and stopped his buggy. Alighting from the vehicle, he walked to the shade of a big tree on the sidewalk and taking a pistol from his pocket, blew his brains out.

He was a member of the Knights and Ladies of Honor and had paid his dues a few hours before his death.

Isthmian Canal Project.

Washington, July 3.—Secretary Hay yesterday by appointment had a conference with Senators Lodge, Hanna and Spooner, the subject being the Isthmian canal act. The discussion turned on the steps to be taken to give effect to that important measure, and as the senators named were largely instrumental in creating the legislation under which the canal is to be built, Senator Hay acquainted them with the substance of what had been outlined in the cabinet sessions. It is believed he has their full approval.

Caldwell to Issue Bonds.

Caldwell, Texas, July 3.—An election was held at this place yesterday to decide whether or not the city should issue \$8000 in bonds to build a school house. The bond issue carried by a majority.

FARM AND FLOCK.

Prairie hay finds ready sale.

Peaches continue abundant. Oranges are in steady demand. Kansas oats are in fine shape. Georgia corn suffers from drouth. Cotton looks fine in Wood county. Kansas will raise a large corn crop. Rains have benefited Alabama crops. Mulberries were numerous in Texas this year.

Red River county has raised many watermelons.

Corn around Troupe was cut 30 per cent by the drouth.

Wood county will raise more corn than was anticipated.

Recent rains insure plenty of feed stuff in Wood county.

Farmers around Rising Star report success with Kansas corn.

Corn around Dublin, Erath county, will be about one-third of a crop.

Freestone county farmers are hopeful of raising a fair amount of corn.

Rains around Alto have greatly benefited pear, potatoes, grass, corn, etc.

Rice prospects are better since head waters forced back salt water in Louisiana bayous.

In Red River county, except in a few localities, a magnificent crop of corn is assured.

Rip Robinson of Gonzales has placed a large drove of cattle on feed in Jackson county.

The Wynnewood fruit farm near Wynnewood, I. T., will ship 10,000 Elberta peaches.

A bunch of 2-year-old black cattle sold at Kansas City last week for \$3.35 per 100 pounds.

Dr. Pierson of Amarillo sold fifty cows to John L. Sullivan of Moore county for \$30 per head.

Farmers in that section of Ellis county around Ferris are planting sorghum, Koffie corn and millet.

A number of Abilene country farmers have planted considerable June corn and hope to realize a good yield. June apple crop in the Denison section is about all gathered. Owners of the trees have realized about \$150 per acre.

Corn that was planted late in Anderson county has been greatly benefited by the splendid rain and cotton saved.

Houston received her first bale of cotton of this season on the 1st inst. It was grown in San Patricio county. It was auctioned off for \$180.

Most farmers around Mabank planted northern corn the past spring. It has matured early, resulting in there being more corn made than last year.

It is claimed that if mesquite beans are gathered and preserved they will equal as a feed for stock one-half the value of the corn crop of southwest Texas.

Two cars of cattle, bound for Chicago, were shipped from Corsicana by Ed Burns of Angus. The same day Edens Bros. of Corsicana shipped four carloads to St. Louis.

A Haworth of Tulsa, I. T., has contracted for 16,000 Elberta peach trees, and C. D. Orcutt of the same place for 8000 of different varieties. The trees are to be set out this fall.

Cuero's new creamery is getting about 2000 pounds of milk daily from farmers in the vicinity of that city and the merchants are now enabled to supply their customers with home-made butter of fine quality.

J. K. Zimmerman, owner of the Shoebar ranch, has sold to Adair & Walsh for delivery at Timber Lake 5000 yearling steers and heifers, half and half, at \$19 for the former and \$15 for the latter.

The fruit prospects are fine in that portion of the Panhandle around Higgins. Peaches, apples, pears and plums are excellent, and it is thought a great many more fruit trees will be set out next fall and spring.

Congressman Beidler of Ohio has a fine dairy farm nine miles from Cleveland and daily serves 4000 families of that city with milk. He raises a variety of crops, and his property is considered one of the most valuable Buckeye state possessions.

Manley Stevens, living near Cleburne, planted five acres in what is known as "Oklahoma big-bearded" wheat. It made forty-four bushels to the acre. He sold the wheat to other farmers for seed at \$2 per bushel. This is certainly a nice profit.

FEMALE WEAKNESS CURED.
I was troubled with severe female weakness for over six months. I was treated by six very prominent physicians without any marked benefit. My last doctor was a skilled specialist, and he told me the only hope lay in an operation. I heard of Smith's Sure Kidney Cure, and after using it for one month I find myself cured, and even the doctor who last treated me now pronounces me well.

Magnificent New Cathedral Being Erected in London

Structure Costing Nearly One Million Dollars

The new Roman Catholic Cathedral in London, which will be opened by Cardinal Vaughn on Sunday, June 29, three days after the coronation of King Edward VII, is one of the most superb church edifices erected since St. Peter's at Rome, or St. Paul's in London. It stands in the heart of Westminster, on the site of the old Tothill Fields prison, about half a mile from Hyde Park Corner, and quite near to Victoria street. The area in which it rises, and which it adorns, embraces

the houses of parliament, the royal palaces, the government offices and other great buildings. In dimensions it compares favorably with the other great cathedrals of the world. Its entire length is 350 feet. Its greatest width is 156 feet. Its height is ninety feet. The nave is an inspiring and spacious place, 240 feet in length, sixty feet wide, with traditional transepts, aisles and side chapels. On the raised floor of the apse is the monks' choir, and in the sanctuary the canons' stall. Over the

high altar a magnificent figure of the crucified Christ strikes the visitor who first enters the great nave, and other inspiring images lead to the interior the beauty and awesomeness of the great and architectural decorations temples of the Roman faith in many lands. In style the sacred edifice is Byzantine. The total cost of this superb pile was £150,000, or, in American money, the equivalent of \$750,000.

Bad grass does not make good hay.

CHURCHGOERS OF TO-DAY.

Statistics Show Increased Attendance at Places of Worship.
Statistics published in the Church Economist seem to disprove the statement that has been made that church membership is on the decrease in this country. Indeed, these statistics demonstrate a most astonishing increase of strength of almost every denomination during the last forty years. During that period they show that the growth of church membership stands to the increase in population in the ratio of 16 to 5. The Economist's statistics also show that people are giving more, both proportionately and collectively, to religious purposes than they ever have before. More old churches are paying off their indebtedness, and more new churches are being built. More than \$38,000,000 will be expended on religious edifices during the coming year. People may be joining churches and giving their substance to their support, but do they go to church as much as they did in past years? A few statistics on this question would be of even greater interest than those which we have quoted.—Harper's Weekly.

RUSSIA'S STRATEGIC RAILWAYS.

Much Money Spent to Facilitate Mobilization of Troops.
Russia has recently spent about 100,000,000 rubles in the construction of strategic railways, designed to facilitate the transportation of troops in the direction of the German and Austrian borders.
There are three such lines already under construction. The most important of these is the line from Bolognoe,

half way between St. Petersburg and Moscow (on the St. Petersburg-Moscow road), to the southwest into Poland, following the route Bolognoe, Ostashkov, Weliki, Luki, Poltsk, Valeika, Lida, Wolkovisk, Seidice.
This line leads directly from the interior to the wedge of Poland projecting into Germany and between Germany and Austria, an area of the greatest importance strategically. The terminus is in the center of the area, and is protected on the north (against East Prussia) by the fortified Narew line, and against the west and south (Silesia and Galicia), by the fortified towns of Warsaw, Ivangorod and Brest-Litovsk.
It is evidently of great value as a line of advance in the strategic deployment of the army. The country presents no difficulties to construction and it is expected that the line will be in operation in 1904. It will also serve as a connecting line for the transportation of troops for the lines crossing it—namely, the Smolensk-Dunaburg line, the Minsk-Wilna line, and the Rovno-Wilna line.

Real Pate de Foie Gras.
Consul Tourgee, at Bordeaux, writes to the state department to deny a story that has been going the rounds of American papers to the effect that goose livers have been replaced by beef and pork in the manufacture of pate de foie gras. He says that the pate de foie gras of commerce consists of the cooked liver of the goose packed in tin boxes of a standard size which the liver is roughly cut to fit. The space not occupied by the liver is filled with the trimmings of the liver or pork finely hashed and pressed in. Over this is poured the melted fat,

sometimes of the liver and sometimes beef suet.

The Fool Questioner.

It was during the heavy storms of snow and sleet February last that a young woman on the way from the railroad station to a friend's house tripped and plunged head first into a formidable snow bank. A fellow traveler, witnessing her mishap, hastened up and, man-like, felt foolish and awkward as he stood over the temporary grave of the fair damsel. "Pardon me, madam, but did you fall?" he asked lamely. "Oh, no," she answered, smiling sweetly. "I just went under that drift to look for four-leaved clovers."—New York Sun.

Mummy as Salt Junk.

M. Croiset of the French Institute tells of a savant, his countryman, who was on his way home with the mummy of an ancient Egyptian king. Intercepted by a custom-house officer on the German frontier, the professor tried to explain the nature of his baggage. This was a matter of considerable difficulty, but in the end the officer took a practical view of the situation, for he said, quite gravely: "Well, let it go as salt junk."

Scholar Changes His Faith.

James N. Rogers, prominent in Baptist circles in Sallinas, Cal., has after much study and correspondence with learned Moslems embraced Mohammedanism. He says he expects nothing but ostracism as a consequence of his change of faith.

While 100 tons is a load for an English freight train, an average load on one of our railroads last year was 540 tons. On two British railroads it costs from 48 cents to move a ton of freight one mile, while the cost on a leading New York road is 23 cents a mile.

Two Weddings Sunday.
There were two marriages in Crockett Sunday. One of the couples was Mr. Fred A. Lovell and Miss Willie Beeson; the other Mr. V. B. Tunstall and Miss Emma English.

Miss Willie Beeson was born and raised near Crockett and has many admirers. She was living with her mother in Crockett at the time of her marriage, the family having moved to town last year. Mr. Lovell has only lived here a few months and is employed as superintendent by the Crockett light and ice company. Rev. W. H. Sowell performed the ceremony.

The bride of the second couple mentioned, Miss Emma English, is a niece of Lace and Crockett English and has been living with them. The groom is a son of "Uncle Tommy" Tunstall and was raised in Crockett. Rev. E. A. Lederer performed the ceremony that made this couple man and wife.

The Perfect Liver Medicine.
Mrs. M. A. Jolley, Noble, O. T., writes: "I have used Herbine for a number of years, and can cheerfully recommend it as the most perfect liver medicine, and the greatest blood purifier. It is a medicine of positive merit, and fully accomplishes all that is claimed for it." Malaria cannot find a lodgment in the system while the liver is in perfect order, for one of its functions is to prevent the absorption of fever producing poisons. Herbine is a most efficient liver regulator. 50c at J. G. Haring's.

Swapping Lies
Is practiced, but don't swap off Hunt's Lightning Oil for a worthless article. Ask your druggist or merchant for a free sample bottle.

Repulsive Features.
Blackheads, pimples, greasy faces and muddy complexions, which are so common among women, especially girls at a certain age, destroying beauty, disfiguring and making repulsive, features which would otherwise appear attractive and refined, indicate that the liver is out of order. An occasional dose of Herbine will cleanse the bowels, regulate the liver and so establish a clear, healthy complexion. 50c at J. G. Haring's.

Snowstorm on the Fourth.

Leadville, Colo., July 4.—A feature of the local celebration here to-day that was not duplicated anywhere in the United States was a snowstorm that lasted half an hour. The day had been quite cool and suddenly, at 3 o'clock, large flakes of snow came down for a time, and then the sun came out brightly. At the baseball games and other sports overcoats and furs were to be found in profusion. The thermometer during the day did not go above 50 degrees.

A COUNTY HOG LAW.

The matter of prohibition isn't the only one in which the laws recognize the principle of local self-government. There is the stock law or the hog-law. They are parallel questions just now. Any district or precinct can vote on the hog-law and adopt or reject it. What would the people in those districts which have rejected the hog-law have to say, what would they do, if those people who favor the hog-law would ask for an election all over the county in order to force the hog-law on a precinct or a district which had voted against the hog-law. Wouldn't they rebel against the county's interfering with their right of local self-government which they had exercised by voting down the hog-law proposition? When there was a hog-law election all over the county some eight or ten years ago the COURIER openly and vigorously fought the question. We did so because such a law would be an injustice to those sections and precincts which had voted on the hog-law and rejected it; and because the law recognized the right of local self-government in each precinct to decide for itself by local-option whether they wanted the hog-law or not. The COURIER opposed the county hog-law then as it opposes the proposed county prohibition election now. There are quite a number of places in the county, districts and precincts, which have voted on the hog-law and rejected it. We submit to the voters in those precincts if they think it would be fair treatment for the rest of the county by an election to force the hog-law on them after they had voted not to have it. That is exactly the situation in the Crockett precinct with reference to the prohibition election. The Crockett precinct has voted against prohibition. Is it right, is it fair, is it just for that precinct to be outraged in this matter of prohibition now by the votes of those who favor prohibition in other precincts. The whole question before the people in this election is one of fair treatment to precinct 1.

Hardly a year ago there was an election in the Crockett precinct on the question of prohibition. The people said they did not want

it. There had been elections in other precincts of the county in which the people said by their votes that they wanted prohibition. They got it, in theory at least. The Crockett precinct had no voice in determining the question in the other precincts of the county. Each passed on the question for itself under the principle of local self-government or "Home Rule." The Crockett precinct claims the same right of local self-government, claims the same privilege to say whether it shall or shall not have prohibition. We exercised that right a year ago and defeated the question. Now it is proposed to wipe out the principle of local self-government in the Crockett precinct by using the outside precincts. We feel sure that such unfair method of carrying a question does not strike the conservative prohibitionist, the man who believes in fair treatment, as right and proper.

President Roosevelt is taking a rest at Oyster Bay. A newspaper account says: "The President spent a restful night at Sagamore Hill. Even the howling of the family dog, which was kept up continually, did not disturb his slumbers. He rose early and attended services at Christ Episcopal church. In his carriage were Miss Carew, his son Archie and Lieutenant Ferguson of the Rough Riders, who is his guest. While waiting for Mrs. Roosevelt and the rest of the family the president stood outside the church and greeted his friends. To a newspaper man he laughingly remarked that Mrs. Roosevelt and the children were coming along in an express wagon." It will be seen from the newspaper account that the president has a family dog that howls at night just like any other man's dog, and that the president stops in front of the church to wait for his family just like any other man, but that he jokingly refers to his wife being late, which is not altogether like all other men.

There are quite a number of men in Precinct 1 who have always voted the local option ticket but who will not vote it this time. There are others who may vote it but who are supremely indifferent as to the outcome. Reason for this change is that they are tired of this everlasting agitation. A further reason is that they consider it an outrage on precinct 1 and the doctrine of "Home Rule" to call on outside precincts to aid in settling a local matter.

Assistant Attorney General Charles W. Russell is going to Paris to investigate the ability of the Panama canal company to give the United States a satisfactory title to concessions and property on the isthmus. When the preliminary work has advanced to a certain point, the attorney general himself will probably go over and look into the matter and has invited Senator Spooner to go along with him.

If every precinct in the county was on the same footing, that is, if no precinct had prohibition, then a county election would be a fair thing. But when every precinct in the county has prohibition except one or two, a county election for no other purpose than to force something on those two precincts which they do not want is not a fair thing.

The same old fight is on in Houston county. Nominally, it is known as an election on prohibition. Really, it is a contest between the parsons and the people. The former to increase and broaden their power, the latter to preserve

their rights; the former to invade the domain of individual and personal liberty, the latter to preserve that same liberty.

The hog-law and the prohibition law are the same in principle. Both have the local option features. Both recognize the right of local self-government. Both concede to each district and each precinct the right to say whether or not hogs shall run at large and whether or not there shall be prohibition. Those precincts and districts which have by their votes decided that they do not want the hog-law should accord to Crockett precinct the same right to say whether it shall have prohibition or not. We have said. We voted against prohibition. All we ask of the other precincts in the county is to help us maintain the same right of local self-government which they claim and enjoy in this matter of both the hog-law and prohibition.

About a year ago there was a hard contest in precinct 1 on the question of prohibition. The pros were sharply defeated. They were not satisfied with that expression of public opinion. The preachers and the deacons began an agitation at once for another election. They spent money to get petitions before the people asking for another election. The preachers of Crockett are the ones who are behind the movement as all know who have read the local papers for a year. It is the same old fight between the churches on one hand grasping for more power and the people on the other fighting to preserve their individual and personal rights.

Sections of the county like the Antioch, Weldon and others, voted against the hog-law. How would they like for the whole county to vote on the question of forcing the hog-law on the Antioch and Weldon sections? Let the fair-minded people in all those sections think of this. Who knows but that some of these extreme hog-law agitators may ask for a county election in order to force the hog-law on those sections which have rejected it.

Readers of the COURIER will recall how earnestly we fought the hog-law election for the entire county a few years back. We did so because the hog-law is a local option law, respecting the rights of districts and precincts. Some sections of the county had voted on the hog-law and voted against it. Then an effort was made to fasten it on those districts by calling on outside precincts. It was not a fair thing and we opposed it.

If one or more precincts are to have prohibition forced on them by outside precincts, why shouldn't those sections and precincts of the county which do not want the hog-law and have said so, have the hog-law forced on them by outside precincts through a county election?

Are the precincts which have prohibition willing to repeal the law in those precincts so that all precincts may go before the people of the county on the same footing? Then it would be a fair thing. As proposed it is not a fair thing.

When every man in the county has a muzzle on his mouth, a padlock to that muzzle and the key to that padlock in the pocket of some little self-important parson, then we shall have the mullennium all over the county.

The eastern parts of this county do not want the hog-law. How would the eastern parts of this

county like to have the hog-law forced on them by the votes of the other precincts of the county?

If it is fair by a vote of outside precincts to force prohibition on precinct 1, it is also fair by the vote of outside precincts to force the hog-law on those precincts which do not want it?

An artesian well flowing 1000 gallons a minute has been struck near Corpus Christi. Thousands of dollars are now being spent in artesian wells in that section.

The COURIER would oppose any effort on the part of precinct 1 to force prohibition on any other precinct or to defeat prohibition in any other precinct.

Just as it was in 1887, and has been since, a fight between the parsons and the people.

The Boss Worm Medicine.

H. P. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. 25c at J. G. Haring's.
