United Farm Workers Attack Legislation Supported By FB

Farm Bureau has been the target of a nationwide attack by the United Farm Workers National Union in an effort to intimidate the farm organization and force it to cease its efforts to get farm labor legislation passed on Congress.

A documentary film produced by the American Farm Bureau Federation last fall, which consists of interviews with California grape workers who are unhappy at being forced into the United Farm Workers National Union, is currently being shown to civic clubs in Muleshoe and Bailey County. The film, "The Road to Delano" shows how Cesar Chavez and the UFW "attempts to boycott certain farm products and to force farm workers into union membership."

The Chavez apparatus has successfully employed the secondary boycott technique to coerce thousands of farm workers into its ranks. When growers could not market the boycotted products they had no alternative but to sign their workers over the Chavez union. The fact that the United Farm Workers National Union, and AFL-CIO affiliate, had to resort to the secondary boycott is indicative of the coolness of workers themselves toward UFWOC's organizational efforts and their reluctance to join the union voluntarily, pointed out Ernest Ramm, Bailey County Farm Bureau president.

A&M Bass Club vs Muleshoe Bass Club

Sunday, June 4 at Ute Lake, a bass fishing contest was held between representatives of the Muleshoe A & M Bass Club and the Muleshoe Bass Club. Representing the Aggies were Ben Yeager and Jerry Gleason. The Flag bearers for the Muleshoe Bass organization were Richard Engelking, Kenny Heathington and David Engelking.

The hard fought contest took place between 9 and 11:30 a.m. and resulted in the Muleshoe Bass Club, according to reliable reports, being declared the winner. At this time, however, it is anticipated that this decision will be contested. Cont. on Page 3, col. 1

Farm Bureau Announces Marketing Program Meetings

Under Farm Bureau's expanded program for the 70's the Texas Farm Bureau developed a Feed grain Marketing association and also a Livestock purchasing association. These associations will operate under the Texas Agricultural Marketing and Development Association (TAMDA) which is an affiliate of Texas Farm Bureau, reported Ernest Ramm, Bailey County Farm Bureau president.

Ramm stated, "most everyone in agriculture is agreed that we need to do a better job of marketing what we produce. Farm Bureau is an organization of farm people to be used as a tool to obtain goals that as individuals cannot obtain."

"If you are interested in trying to obtain a better price for your feed grains or if you want to purchase some cattle this year, you are invited to attend one or both of the following meetings at which both programs will be explained at each meeting," Ramm further reported.

The meetings will be held Monday, June 12 at 8:30 p.m. meeting room, and Tuesday June 13, 8:30 p.m. at Bailey County Electric meeting room. "The two meetings will be identical. The purpose for having two meetings on consecutive

uniformly, pointed out Ernest Ramm, Bailey County Farm Bureau president.

Farm Bureau will not capitulate to the demands of Cesar Chavez and his sympathizers and stand idly by while farm workers are coerced into unions they do not want," Ramm continued.

Carrying out an ultimatum delivered to the Farm Bureau national leadership recently, Chavez supporters began demonstrating at Farm Bureau offices on May 9. In Texas, they demonstrated at the Bexar, Harris and Dallas County Farm Bureau offices. Only in California did they turn out in force--at four county Farm Bureau offices.

The Chavez group demanded that Farm Bureau desist from its efforts to secure the enactment of constructive farm labor legislation and threatened a massive "inform-We have nothing to hide and will not yield to such pressure," the farm leader said. He emphasized that the Farm

Bureau is not opposing the right of farm laborers to organize and be represented by a union. But the farm organization contends that workers should have a choice in the matter.

The Union obviously is uneasy over the AFBF's legislative proposal in Congress as well as Farm Bureau-backed bills in several state legislatures.

In essence, Farm Bureau's farm labor legislation would provide: (1) Guarantee of secret ballot elections for farm workers on the question of which if any union they wish to represent them.

(2) Prohibition of the secondary boycott in agriculture as it is presently prohibited in industry under the provisions of the National Labor Relations Act.

(3) Protection against the strike at harvest time by specifying a reasonable period for notification before a strike, and by setting guidelines for fair

interrupted use of the new warning system.

Several money making projects have been planned to raise the needed funds. Currently in operation is a flea market in the old Sam's Auto Store building on Main Street. For the next two weeks, the market will be open only on Saturdays and Sunday afternoons. After this time, the market will be open each weekday, Saturday and Sunday afternoon. Mrs. Reeder reports that the market has a good selection of used clothing and other items for sale.

Individual contributions have been made and a drive will be made soon for other contributions. Contributions will be accepted by tellers at the Muleshoe State Bank and put into the Monitor fund which has been set up at the bank. Mrs. Alton Carpenter reports that \$600 had been accumulated in the fund as of June 2.

Mrs. Reeder also stated that the warning system will be utilized even if programming is off the air as the warning system will be maintained on a 24 hour basis. In the event of a power failure in the area, the system will still work as there will be an emergency power system which will work for approximately seven hours to assure un-

Fund Increases For Civil Defense Monitor

A group of interested citizens, including the wives of members of the Bailey County Volunteer Fire Department and wives of the local law officials, are seeking to acquire a Civil Defense Monitor for the benefit of local citizens. The group is being assisted by Gordon (Corky) Green, Civil Defense Director of Bailey County.

A spokesman for the group, Mrs. H.E. Reeder, said the equipment will cost between \$3,000 - \$3,500 and will be attached to the cable connection by the local antenna company. The device will warn of local severe weather or civil defense alerts. In the event of a warning or alert, word will be immediately flashed onto all television channels coming into Muleshoe and will inform watchers.

"This is an alert (or warning) - tune to your local radio station for further developments."

Mrs. Reeder added that the warning system will be utilized even if programming is off the air as the warning system will be maintained on a 24 hour basis. In the event of a power failure in the area, the system will still work as there will be an emergency power system which will work for approximately seven hours to assure un-

MRS. TERRELL OTT, THE FORMER CYNTHIA WRINKLE

Miss Wrinkle, Terrell Ott Exchange Vows

Cynthia Johanna Wrinkle and Terrell Dean Ott were united in marriage in a double ring ceremony performed at the First Baptist Church of Muleshoe on Saturday evening, June 3 at 8 p.m. Officiating was Rev. Charles P. Dunman, minister of the United Methodist Church of Earth.

Parents of the couple are Mr. and Mrs. Roy N. Wrinkle of Muleshoe and Mr. and Mrs. Irvin Ott of Earth.

The altar of the church was decorated with a spiral Swedish wrought iron candelabra holding white candles and accented with leather, plumose, baby's breath and blue satin, flanked by Swedish wrought iron cathedral candelabra with the same accents. The memory candle was the focal point of the setting. It stood on a white pedestal in an arrangement of baby's breath, white carnations and white baby mums. A pair of white hand-dipped candles stood at the left of the memory candle. The arrangement was accented with blue satin.

Hurricane lamps set amidst an arrangement of baby's breath, blue satin, leather and comadore streamers accented the pews.

Special music was provided by Cassie Precure on the French Horn, playing "One Hand, One Heart" and "The Lord's Prayer." Linda Middlebrooks, organist, played "Love Story," "Amazing Grace," "Theme to Romeo and Juliet" and the traditional wedding marches.

Attending her sister as maid of honor was Sharon Wrinkle of Muleshoe. Bridesmatron was Mrs. Jimmy Evans of Wichita Falls. They were attired in formal length dresses of frost blue miriamist featuring Empire bodices and square necks.

The cuffs of the sleeves were banded with Venice lace and blue satin ribbon. A double row of Venice beading laced with blue satin ribbon extended down the fronts of the dresses and bordered the skirts. Headpieces of daisies were worn by the attend-

ants. They each carried a handful of daisies.

Teresa Ott, niece of the groom, from Earth, was flower girl. Her dress was identical to those of the other attendants. She carried a miniature basket of Marguarite daisies and leather leaf. Candlelighter was Gary Wrinkle of Muleshoe, brother of the bride, Scotty Schuster of Stratford, cousin of the bride was ring bearer.

Ushers were Jimmy Evans, Wichita Falls; Tony Keith, Earth; Joe Rivas, Earth; and Randy Morgan, Dimmitt.

Eddie Alair of Earth served as best man. Groomsman was Coy Davis of Pecos.

Presented in marriage by her father, the bride wore a silk organza gown featuring an Empire bodice covered with Venice lace and appliqued with lace daisies centered with tiny seed pearls. The Bishop sleeves of silk organza had deep cuffs of Venice lace with self-covered buttons. Scalloped Venice lace bordered the chapel length train which was appliqued with scattered lace daisies. Her triple layered silk illusion veil was attached to a Juliet cap of lace encrusted with tiny seed pearls.

The bride carried "Simplicity," a cascade of daisies and leather with pearls and accents of blue. For something old, an antique handkerchief, carried by her mother and her grandmother. Mrs. Emma Schuster of Tullia, at their wedding, was carried in the bridal bouquet. Something new was the bride's wedding dress; something borrowed, a gold cross belonging to Mrs. J.D. Small; and something blue, the traditional garter. She also carried a penny minted in the year of her birth.

The mother of the bride wore an aqua blue two-piece chiffon dress with white accessories. The mothers wore corsages of white roses.

A reception followed the ceremony in the fellowship hall. The serving table was covered with a white dotted Swiss cloth with insets of white lace. A

silver candelabra filled with roses, carnations and white daisies and cascading streamers of leather and maiden hair fern centered the table. Three revolving layers formed the base of the three-tiered Lady Windemere wedding cake, which was decorated with pastel blue daisies. Presiding at the serving table were Diana Godwin of Tullia and Cathy Mardis of Muleshoe. Lee Ann Yerby of Muleshoe registered the guests.

Rice bags were distributed by Lisa Schuster of Tucumcari, N.M., cousin of the bride, and Pam Ott of Earth, niece of the groom.

Members of the houseparty were Mrs. L.B. Hall, Mrs. J.D. Small, Mrs. Vic Benedict, Mrs. Fred Mardis and Mrs. Ben Gramling.

For a wedding trip to Denton, the bride chose a white sleeveless knit dress, styled with a fitted bodice and flared skirt with inverted pleat. It was accented with gold buttons. Mrs. Ott wore white accessories and a corsage of white daisies lifted from her bridal bouquet.

The couple will be at Mobile Homes Estate, Rt. 1, Space 5, Denton.

The bride, a 1971 graduate of Muleshoe High School, attended West Texas State University in Canyon. She will continue her education at North Texas State University in Denton as a commercial art major.

An evening out

...at home

...where the charm of a GAS light lets the evening last a little longer

...and the food has an exciting outdoor aroma and flavor, found nowhere else in the World!

A GAS outdoor grill gives food a tangy outdoor flavor without the time and bother of charcoal fire. Char-broiled flavor comes from the smoke of meat juices dripping on hot briquets. Charcoal itself provides no flavor. Permanent ceramic briquets in the gas grill reach cooking heat in a few minutes, and there is no long wait to start cooking. The heat is regulated manually so there is no need to move a grill up or down.

Very Best The best thing that parents can spend on their children is time—not money.

Sour Note More women than you know are in business—everybody's business.

Inflation Many men would keep themselves in the best of spirits if prices were lower.

The Reason "Why is an hour glass made small in the middle?" "To slow the waste of time."

Loyal A conceited person has one good point. He doesn't talk about other people.

CESAR CHAVEZ ATTACKS FARM BUREAU and FARM BUREAU ANSWERS

BAILEY COUNTY FARM BUREAU

A group calling itself the San Antonio Boycott Committee for the United Farm Workers (AFL-CIO) which demonstrated May 9 in front of the Bexar County Farm Bureau office in San Antonio handed out a two page statement entitled "What is the Farm Bureau?" Since the charges made in this statement apparently form the main thrust of the Union's nationwide attack on Farm Bureau, they obviously deserve public scrutiny.

WHAT IS THE FARM BUREAU? By Cesar Chavez
We are picketing the FARM BUREAU because its leaders are illegally using the vast wealth and power of their organization to crush the rightful aspiration of America's migrant workers. We are picketing the Farm Bureau because the Farm Bureau is a strike-breaker, because it organizes company unions, is racist in its policies and breaks the law by illegally using tax-exempt money to attack the farm workers' union, led by Cesar Chavez.

When farm workers strike, the Farm Bureau becomes a professional strike-breaker--recruiting, importing and paying workers to break these strikes.
When farm workers organize and freely choose their unions, the Farm Bureau organizes company unions to frustrate their just demands.

The Farm Bureau attacks our unions because we are a union of minorities-Chicanos, Blacks, Filipinos, poor Whites. The Farm Bureau does not admit to membership nor does it employ Chicanos or Blacks...and has long been committed to the preservation of racism in rural America.

In Idaho, the Farm Bureau bought legislation which outlaws the nonviolent consumer boycott, assures the continued use of dangerous pesticides, protects the labor contractor system, bans most strikes by farm workers, and discriminates against farm workers by denying them the right to run their own organization.

A similar Farm Bureau law has been passed in Kansas. The Farm Bureau is illegally spending hundreds of thousands of dollars in a campaign to secure similar legislation in 20 key agricultural states across the U. S.

In close alliance with the John Birch Society and the National Right to Work Committee, the Farm Bureau promotes legislation in the name of free election and protecting the rights of farm workers. Yet for 50 years the Farm Bureau bitterly opposed all legislation to protect the rights of farm workers--even the right to a minimum wage, unemployment insurance and basic health and safety standards. Farm Bureau legislation is a shame to deny farm workers their rights and to take away the strength they need to bargain effectively with their employers. As for free elections, the Farm Bureau itself does not permit its members free secret ballot elections.

This extreme right-wing organization controlled by greedy rich men has assets of over \$4 billion in 49 states and Puerto Rico. Farm Bureau profits come from its insurance companies, pesticide companies, fertilizer companies, oil companies. Its 55 insurance companies compose one of the largest insurance complexes in the U. S. The Farm Bureau employs over 20,000 unorganized workers. This wealth comes not from representing farmers, but from doing business with them.

But unlike any other business corporation, the Farm Bureau is tax-exempt. Their tax exempt money is being used illegally to destroy the farm workers union.

WE DEMAND that the U. S. Senate Committee on Finance conduct a thorough investigation of the Farm Bureau's tax-exempt status.

WE DEMAND that the U.S. Senate Committee on Labor and Public Welfare secure complete and public disclosure of the incomes of the principal officers of the Farm Bureau and the sources and uses of its wealth as is required of any organization engaged in labor relations.

WE DEMAND that the U. S. Senate Committee on Government Operations secure similar disclosure information because of an obvious conflict of interest between the Farm Bureau and the farmers it claims to represent.

WE DEMAND that the U. S. Senate Committee on Labor and Public Welfare investigate and expose the Farm Bureau for its racist membership and employment policies.

WHAT IS THE PURPOSE BEHIND CHAVEZ'S ATTACK ON FARM BUREAU?
Farm Bureau knows his game, and has sought vigorously to expose it to the public.

Chavez seeks to force farm workers into his organization--without secret ballot elections--when food stores respond to the pressures and harassments of boycotts and refuse to handle specific products. The farmers who produce those products must then sign over their work force to Chavez, or go out of business.

Farm Bureau has fought this concept from the beginning, and tried to explain to the public that Chavez's boycott device is not a means to help "migrant" workers, but to organize and control whole markets and all of the production factors that go into those markets.

WHAT OF THE CHARGE THAT FARM BUREAU IS ALIGNED WITH "RIGHT WING" GROUPS IN OPPOSING CHAVEZ?

Farm Bureau is aligned with its own policy resolutions developed by its members. Farm Bureau is aligned with all those who believe in freedom of choice in the marketplace. Farm Bureau is committed to the right-to-work principle but is not aligned with the National Right to Work Committee on Farm Labor Legislation as is often charged. In fact, the legislation Farm Bureau is supporting is based on Section 14 (b) of the Taft-Hartley Act which validates state right to work laws. The National Right to Work Committee has wanted to use the farm labor bill as a vehicle to establish a NATIONAL right-to-work statute. Farm Bureau recognizes that such an amendment, if adopted, would kill farm labor legislation. The and other groups designated by the press as "right wing" or "extremist" is just name-calling designed to obscure the real issues.

WHAT IS THE REAL ISSUE?

The real issue is coercion in the market. Coercion that forces products off the market; that forces farm operators to sign over their workers to Chavez--without elections. Food markets belong to consumers as well as producers. Consumers should understand this issue as it is, and not as a clever ruse to plead the case for poor people--while food markets are being seized. Consumers should understand that not only their rights of purchase are violated, but that production lapses caused by boycotts severely raise food prices.

WHAT OF THE CHARGE THAT FARM BUREAU OPPOSITION TO CHAVEZ JUST PROVES THAT FARM BUREAU IS ANTI-UNION?

No way. Farm Bureau's position is that farm workers are free to join any union they wish--Chavez's or any other--just so long as it is their choice, and not a decision imposed on the farmers by a coercive boycott. Farm Bureau-supported legislation would protect such a right--even permitting a union shop in agriculture if a majority of workers in a commercial unit vote freely in its favor.

WHAT DOES FARM BUREAU-SUPPORTED FARM LABOR LEGISLATION PROVIDE?

1. Guarantee of secret ballot elections for farm workers on the question of which--if any--union they wish to represent them.
2. Prohibition of the secondary boycott in agriculture as it is presently prohibited in industry under the provisions of the National Labor Relations Act.
3. Creation of an Agricultural Labor Relations Board to administer the act.
4. Protection against the strike at harvest by specifying a reasonable period of notification before a strike, and by setting guidelines for fair arbitration of disputes.

A good question to ask is why Chavez or the AFL-CIO opposes any of these provisions in agriculture, when they prevail in most part for industry?

What is wrong with free elections for farm workers? What is wrong in outlawing secondary boycotts in agriculture just as they are presently outlawed in industry?

What is wrong with legislation that is willing to waive no-strike prohibitions at harvest, while setting up procedures to protect the interests of farmers, farm workers, and consumers in an uninterrupted supply of food?

WHAT OF THE CHARGE THAT FARM BUREAU SPEAKS FOR BIG CONGLOMERATES IN AGRICULTURE, AND IS ITSELF A BIG CONGLOMERATE?

Farm Bureau represents no conglomerates--only individual members. Conglomerates have been Chavez's best friend. The only real organizational gains he has made have come through

conglomerates of the type of Heggblade-Margules-Teneco, United Fruit-Interharvest, Purex-Freshpact, and Coca Cola-Minute Maid, where corporate ownership is outside of agriculture, and where pressures of the boycott, fear of public demonstrations and harassment, reluctance to buck negative reactions in the liberal press have turned over thousands of workers to Chavez--without elections. But for conglomerates in agriculture--though still not an appreciable portion of the entire agricultural plant--Chavez would have made little headway.

Farm Bureau represents family farmers. Membership audits prove this. The overwhelming majority of Farm Bureau members are farm operators, representing every agricultural commodity that is produced in this country.

WHAT OF THE CHARGE THAT FARM BUREAU IS AN INSURANCE COMPANY?

Farm Bureau members own and control insurance companies--their own. In years past commercial companies refused to underwrite farm risks--fire, hail, crop damage, liability etc. So farmers had to form their own companies, taking their own risks. Criticism against them seems to be that they have generally been successful. One of the benefits often advanced for membership in labor organizations is that union-supported insurance programs are available at low cost. Why should farmers be held suspect for seeking the same advantages?

WHAT OF THE CHARGE THAT FARM BUREAU IS DOMINATED BY ITS CO-OPS AND SERVICE COMPANIES?

Farm Bureau-affiliated co-ops and service companies are owned and controlled by Farm Bureau members. They have served to reduce costs to farmers in an area where farm costs have spiraled and farm prices have remained fairly static. They return patronage dividends to members--hardly an indication of non-farmer interest. They operate in a competitive business climate. Inefficient co-ops and service companies are as vulnerable to bankruptcy as business units, and farmer-owners assume this risk.

WHAT ABOUT THE SO-CALLED TAX EXEMPT STATUS FOR FARM BUREAU?

Under Section 501 (c) (5) of the Internal Revenue Code, Labor, Agricultural and Horticultural organizations are exempt from Federal income taxes. So the tax exemption applicable to Farm Bureau units is the same as the applicable to labor unions. However, Farm Bureau-affiliated commercial companies are not tax-exempt. They pay taxes on profits and income under all applicable federal and state laws.

Several years ago the late Congressman Joseph Y. Resnick (D. NY) made numerous charges against Farm Bureau. In a letter dated June 29, 1967 he requested the Commissioner of Internal Revenue to investigate the activities of the American Farm Bureau Federation to see whether its tax exemption status should be continued. He also held one-man hearings throughout the country for the purpose of discrediting Farm Bureau. His efforts failed. On July 12, 1967 the House Agriculture Committee voted 27 to 1 to rebuke Resnick, then Chairman of its Subcommittee on Rural Development, by adopting the following Committee Resolution:

"Resolved, That the Committee on Agriculture of the United States House of Representatives does in no manner endorse, concur, or support the personal attack launched by the Chairman of the Subcommittee on Rural Development upon the American Farm Bureau Federation."

On April 7, 1971 the AFBF received a communication from IRS as follows:

"After reviewing your activities and examining your financial records for the above year (s), we find that your Federal tax-exempt status continues. The return (s) for the year (s) indicated are accepted as filed." (1968 and 1969)

To our knowledge, the IRS has made no further review of the AFBF tax-exempt status.

Farm Bureau has no objections to any review of its tax-exemption under the law and only suggests that any review should be broadened to include tax-exempt foundations and politically-activated church federations, as well as labor unions.

Good questions for the IRS: What about funds checked off tax-exempt union dues by labor organizations--to be used for political contributions? What about Chavez's tax-exempt Robert F. Kennedy Health and Benefit Fund (paid by growers) which has reported income of \$750,000 and payments of only \$35,000--about half of which is listed as administrative costs?

**Panhandle
Stage Drama
Opens June 22**

Palo Duro Canyon's extraordinary terrain is reason enough to visit Palo Duro Canyon State Park. It is, after all, a geological wonder.

But there is a man-made attraction at Palo Duro that has drawn visitors from all over the world. It is the outdoor stage production "Texas", a musical drama depicting early settlement of the area.

"Texas" is held in an outdoor amphitheatre of natural stone. Pulitzer Prize winner Paul Green wrote the script and the music was scored by Hollywood composer Isaac Van Grove.

Some of the cast are students, some are housewives, but many of the feature performers have professional backgrounds.

Lights playing against rugged canyon walls and special sound effects heighten the drama's excitement.

"Texas" is beginning its 12th year in the Pioneer Amphitheater. Performances this year begin June 22 and run every night except Sunday through August 26.

Curtain time for the production is 8:30 p.m. Adult tickets range in price from \$2.50 to \$4.00. Children are admitted for half price.

To obtain ticket information, send a stamped, self-addressed envelope to "Texas", Box 268, Canyon, Texas 79015 or telephone 806-655-2182.

Panhandle nights are cool in the amphitheater, so take a wrap.

The Human Machine
Dr. C.L. Goodpasture, D.C.

You own the most wonderful mechanism that has ever been perfected, your body. If you gave this body as careful attention as the engineer gives his locomotive, or as much care, as the motorist gives his automobile, it would last many, many years without a breakdown. Your physical mileage would be lengthened and your joy as you travel along life's highway would be many times multiplied.

When you notice the first signs of "engine trouble" when you find that you cannot "make the grade" as easily as you used to, have a thorough physical check up. Prevention is always better than cure, and if the cause of your ills is discovered early, much pain and suffering may be avoided.

Spine failure occurs in some degree in the majority of people. The symptoms are seldom ones that lead you to suspect there's anything wrong with your spine. You may simply have headaches, muscular soreness or a generally "run down" feeling. The effects may show up far from the cause. It is always better to be safe than sorry, and thousands of people who never really feel 100% could save themselves still more serious trouble by taking the proper steps to correct spine failure before it becomes acutely dangerous. "It takes backbone to be healthy."
