## FOREIGN TERRITORY.

### Supreme Court Puts Isle of Pines Outside.

Washington, April 8.—That the Isle of Pines is not American territory was judicially declared today by the supreme court of the United States. The decision was rendered in the famous case of Edward J. Pearey vs. Nevada N. Stranahan, collector of the port of New York, and the opinion was announced by Chief Justice Fuller, who said that upon the Paris treaty the Isle of Pines had been considered as an integral part of Cuba and that it could not be held to be covered by article 2 of that treaty, which included islands in the vicinity of Porto Rico only.

The case originated in connection with the importation of a few boxes of cigars by Pearey in September, 1903, but its hearing by the court was from time to time postponed in the hope that the status of the island might be definitely fixed by legislation or diplomacy. The cigars were made in the Isle of Pines of tobacco grown there and when they arrived Pearey refused to pay duty on the ground that they were of domestic origin. The collector thereupon seized them and Pearey appealed to the United States circuit court, where he secured no

relief, as that court sustained a demurrer filed by the government and dismissed the case. He promptly brought the case to the supreme court, by whom the decree of the lower court was affirmed today.

### Ruef Wanted Editors Fined.

San Francisco, April 8.—The trial of Abraham Ruef for extortion was today continued by Judge Dunne until tomorrow owing to the illness of Henry Ach. The defense applied to the court for an order requiring that Mr. De Young, proprietor of the San Francisco Chronicle, and John P. Young, editor of that newspaper, to show cause why they should not be punished for publishing an editorial reflecting upon the conduct of Ruef's counsel during the trial. The order was refused.

### Caught Cold While Hunting a Burglar.

Mr. Wm. Thos. Lanorgan, provincial Constable at Chapleau, Ontario, says: "I caught a severe cold while hunting a burglar in the forest swamp last fall. Hearing of Chamberlain's Cough Remedy, I tried it, and after using two small bottles I was completely cured." The remedy is intended especially for coughs and colds. It will loosen and relieve a severe cold in less time than by any other treatment and is a favorite wherever its superior excellence has become generally known. For sale by Murchison & Beasley.

## TYLER FIRE LOSSES.

### It is Figured That It Is About \$33,500 Net.

Tyler, Texas, April 7.—This morning at 12:30 o'clock fire was discovered in the opera house and in an hour and a half this costly structure was in ruins. The flames spread to the Durst and Bergfield building, one of the handsomest buildings in the city, and in a short time it was almost a wreck. The lower floor of this building was occupied by the Tyler Commercial Club, W. M. Ponder's grocery store and John Durst, land agent. The upper floors were occupied by the Elks. The Durst & Bergfield building was erected several years ago at a cost of \$22,500 and the opera house, including furniture, cost over \$35,000, and was one of the most modern playhouses in the state. There was \$12,500 insurance carried on the Durst & Bergfield building and \$7,000 on the opera house. The Elks furniture and fixtures were valued at \$3,500, with only \$1,500 insurance.

The stock of groceries of Ponder was partly insured, as was the office of Durst. The office furniture of the Commercial Club was not insured and its loss is put at \$700. A conservative estimate of the property losses is placed at

\$63,500.

The loss on the two buildings, not including insurance, is \$57,000, and the loss to the contents of the buildings easily reaches past the \$6,000 mark. The insurance carried on all the houses is about \$26,000 and the salvage may reach \$4,000, therefore the total loss by the fire may be placed at \$33,500. The origin of the fire is a mystery, as it had been several days since the opera house was used.

The loss of the opera house is a sore one to the people of Tyler and doubts are expressed if it will be replaced within a decade. It was one of the prides of the city and all public gatherings were held in it.

### Rheumatism Makes Life Miserable.

A happy home is the most valuable possession that is within the reach of mankind, but you cannot enjoy its comforts if you are suffering from rheumatism. You throw aside business cares when you enter your home and you can be relieved from those rheumatic pains also by applying Chamberlain's Pain Balm. One application will give you relief and its continued use for a short time will bring about a permanent cure. For sale by Murchison & Beasley.

Chamberlain's Salve is good for any disease of the skin. It allays the itching and burning sensation instantly. For sale by Murchison & Beasley.

## BAILEYITES IN ARMS.

### Objected to Holsey's Measure Concerning Employment by Corporations.

Austin, Tex., April 4.—The first business in the Senate this morning was a resolution sent up by Senator Holsey, instructing the Senate Committee on State Affairs to make some report on Senator Holsey's bill prohibiting public officials, from United States Senator down, from serving corporations while holding public office.

Senator Looney jumped to his feet and dramatically moved to table the resolution, and Senator Terrell, another Baileyite, with much emphasis, moved that the resolution be postponed until July 4th.

The Chair, however, ruled that the morning call had not been concluded and the resolution went to the table subject to call. In the meantime the Bailey Senators gathered in two little groups and in whispers animatedly discussed the matter, one of them afterwards privately remarking that, "When we get our men here we will bury that resolution."

## A DARK CONSPIRACY.

HARRIMAN AFTER ROOSEVELT'S SCALP.

### PLOT DIVULGED AT A DINNER

\$25,000,000 to Down Him—How the Plotters Plan—Hearst-Harriman-Rockefeller.

Washington: It was said on authority at the White House Thursday that there is ample evidence at hand for the claim that the president holds that there is a movement afoot to defeat his policies in the next congress and the next national convention.

It is declared that the Hearst-Harriman-Rockefeller combination has already a fund of \$25,000,000 with which to carry on its campaign in opposition to the president. It was further said they are gathering up the loose ends, but the movement will flatten out. It is apparent in Ohio and Pennsylvania, in fact it extends across the entire continent. The scheme was thoroughly divulged at a recent dinner and reached the White House through a friend of the president. The scheme of the people behind the movement is to buy newspapers, public men and others who may assist the opponents of the president in their work.

It was also stated authoritatively at the White House Thursday that part of the plan to encompass the defeat of the president's policy is the election of state delegations to the national convention from those states known to favor the president, these delegates to be instructed for President Roosevelt, notwithstanding knowledge in advance that the president would not be a candidate for renomination.

### CAN COURTS RESCIND?

Capt. McDonald's Campaign is Bringing Him Many Revelations.

Austin, Tex.: Two questions have been propounded by the Attorney General's Department by Senator Watson and Representative Crockett which materially affect the tax problem which confronts the assessors and members of the commissioner's courts according to the demands of the State Revenue Agent that all property must be assessed at its full valuation.

The two questions are:  
1. Can a commissioner's court which has by order fixed the tax rate, rescind its order and reduce the rate?  
2. And if so, up to what date may it rescind?

In nearly every county the commissioner's courts have fixed the tax rate. The rate was based on the supposition that property would be assessed at values considerably below the actual value. If the same rate is maintained and if the property is assessed at its full value a surplus is likely to result.

State Revenue Agent McDonald is receiving letters from commissioner's courts of nearly every county in the state. One received from an extreme western county told him of an irrigated farm which was held at \$55,000, but which was assessed at less than \$2,000. In the same county, the letter said, the assessment of cattle had been reduced by the commissioner's court at the suggestion of one of the largest cattle owners in the county. Certain lands, he thought, were assessed at about one-fourth of their actual value.

### COTTON WAREHOUSES.

Company Organized to Build Them in Various Parts of the State.

Dallas, Tex.: The Texas Cotton Warehouse Company was organized here Tuesday with a capital of \$2,500,000. The object is the building of cotton warehouses in various parts of the state, and charter will be applied for this week. Houston will be headquarters and Dallas will be the main office in North Texas. The directors are Dave H. Shapiro of Houston, Stanley H. Watson of Brenham, F. V. Evans of Fort Worth, N. C. Murray of Kingston, Hardy Dial of Nacogdoches, John T. Garner of Winfield, Geo. T. Hume of Austin, O. F. Dornblaser of Cleburne and J. D. Adamson of Whitney.

### Pistol Toter Taxed \$200.

Cuero, Tex.: Saturday in the county court Lum Steen, once a negro deputy at Yoakum, was convicted of unlawfully carrying a pistol and was fined \$100 and costs, amounting to \$200. Steen claimed to still have authority as deputy, but failed to prove it.

A. W. Smith was fined \$50 and two hours in jail for misdemeanor theft.

### Hailstorm in Alabama.

Letohatchie, Ala.: A terrific hailstorm, accompanied by wind, passed over this community late Sunday. Hail fell for fifteen minutes and in drifts eight to ten inches deep. Shrubby and small trees are stripped, and crops that are out of the ground will be at total loss.

### TIRED BACKS.

The kidneys have a great work to do in keeping the blood pure. When they get out of order it causes backache, headaches, dizziness, languor and distressing urinary troubles. Keep the kidneys well and all these sufferings will be saved you. Mrs. S. A. Moore, proprietor of a restaurant at Waterville, Mo., says: "Before using Doan's Kidney Pills I suffered everything from kidney troubles for a year and a half. I had pain in the back and head, and almost continuous in the loins and felt weary all the time. A few doses of Doan's Kidney Pills brought great relief, and I kept on taking them until in a short time I was cured. I think Doan's Kidney Pills are wonderful."

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

### WOMEN IN NEW FIELDS.

British Smart Society Takes to "Hopping"—Woman Veterinary.

Work in the hop fields is the latest "rest cure" fad for London's smart set, and the luxurious society "hoppers" claim that a week's hopping is far better and more pleasant than a rest at any well-known health resort.

The tents of these well-to-do pickers are expensively furnished, and easy chairs, soft beds and up-to-date camping outfits are among their hopping appliances.

In Berlin there is a woman veterinary surgeon who is an official inspector of animals. She rides through the streets on the lookout for animals suffering from any disablement, and before reporting a horse as unfit for work, she examines its injuries and whenever possible applies remedies to alleviate its pain. She carries a leather case filled with bandages and other surgical appliances.

### Curious Maps.

Maps for military and general field use are produced by Dr. O. H. F. Vollbehr, of Halensee, Berlin, as microscopic transparencies, each about one and one-half inch by two inches in size. These form slides for the micro-photoscope, a special instrument having a hand-mirror-shaped frame, to which is attached a slide-holder, with a movable lens over it. The lens slides in two directions; about 70 square miles being shown in each position.

### Do Not Suffer.

No use suffering from Itching Piles when one box of Hunt's Cure is absolutely guaranteed to cure any case. One application will convince you of its merits.

It's so much easier to tell a lie than it is to make people believe it.

Fruit acids will not stain goods dyed with PUTNAM FADELESS DYES, and the colors are bright and fast.

He enjoys much who is thankful for little; a grateful mind is both a great and a happy mind.—Secker.

### Use It Once.

For Itching Piles Hunt's Cure has no equal. One application relieves—one box guaranteed to cure.

### Chinese City Waking Up.

Nankin, China, is to have an electric light system of the most modern kind; also a new water works.

### Kill the Flies Now

before they multiply. A DAISY FLY KILLER kills thousands. Lasts the season. Ask your dealer, or send 20c to H. Somers, 149 De Kalb Ave., Brooklyn, N. Y.

You must make it quite clear to your own mind which you are most bent upon, popularity or usefulness—else you may happen to miss both.—Sterne.

Garfield Tea, the Mild Laxative, is a pure, practical household remedy; good for young and old. To be taken for constipation, indigestion, sick-headache, colds and diseases arising from impure blood. It clears the complexion.

### Wander Fever.

Have you never felt the longing that it were possible to step quietly off your accustomed path in life and strike out into fresh fields and pastures new? There are few of us so contented as never to be troubled with such a wish.

### Peers' Queer Privilege.

Two British peers, Lord Forester and Lord Kinsale, enjoy the curious privilege of being allowed to wear their hats in the presence of their sovereign. This quaint right, granted centuries ago, is only exercised on rare and entirely formal occasions.

### Great City's Derelicts.

A prominent clergyman at the head of an East Side and Bowery mission is authority for the statement that the men who line up for free bread at the distributing places around one o'clock every morning—men who have no place to lay their heads for a single night's lodging—are nearly all from the interior of the United States.—Van Norden's Magazine.

### A Police Force of Widows.

The Ghent communal council have a proposal before them to include women in the police force. According to the scheme the policewomen will not wear a uniform. "They will be recruited from women between the ages of 40 and 50, and they must be widows or splinters. It is intended to try the experiment with a dozen women.

### Arizona's Copper Production.

In 1906 Arizona had the largest increase in production of copper of all the copper states. The output was 284,228,252 pounds, against 239,843,000 pounds in 1905.

## Women Avoid Operations

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure.

The strongest and most grateful statements possible to make come from women who by taking

### Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N. Y. She writes:

Dear Mrs. Pinkham: "Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

### Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

MISS ROSE MOORE

## W. L. DOUGLAS

\$3.00 AND \$3.50 SHOES BEST IN THE WORLD

W. L. DOUGLAS \$4.00 GILT EDGE SHOES CANNOT BE EQUALLED AT ANY PRICE.

SHOES FOR EVERYBODY AT ALL PRICES:

Men's Shoes, \$3 to \$1.50. Boys' shoes, \$3 to \$1.25. Women's Shoes, \$4 to \$1.50. Misses' & Children's shoes, \$2.25 to \$1.00.

W. L. Douglas shoes are recognized by expert judges of footwear to be the best in style, fit and wear produced in this country. Each part of the shoe and every detail of the making is looked after and watched over by skilled shoemakers, without regard to time or cost. If I could take you into my large factories at Brockton, Mass., and show you how carefully W. L. Douglas shoes are made, you would then understand why they hold their shape, fit better, wear longer, and are of greater value than any other makes.

W. L. Douglas name and price is stamped on the bottom, which protects the wearer against cheap imitations and inferior shoes. "Take No Substitutes." Sold by the best shoe dealers everywhere. Fast Color Effects used exclusively. Catalog mailed free. W. L. DOUGLAS, Brockton, Mass.

## CRESCENT ANTISEPTIC

GREATEST HEALER KNOWN TO SCIENCE.

Non-poisonous, Non-irritating. Alays inflammation and stops pain from any cause. As strong as carbolic acid and as harmless as sweet milk. Cures burns instantly; cures old and chronic sores—cures sores and inflammation from any cause on man or beast. For fowls—cures cholera, sore head and roup. Satisfaction positively guaranteed.

For Sale by all First-Class Dealers. Mfgd. by CRESCENT CHEMICAL CO., Ft. Worth, Texas

### Dandruff

Get rid of that dandruff before it destroys your hair. These tiny little scales on your scalp are a sign of dryness. A dry scalp cannot nourish your hair.

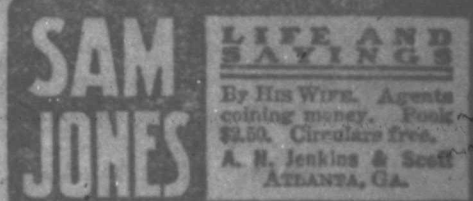

### Barry's Tricopherous

Is especially prepared to cure dandruff and to build up dry, thin, starved scalps.

30 cents per bottle at your druggist's, or by mail postpaid. BARRY & CO., 25 Stone St., N. Y.

AGENTS WANTED to sell hosiery and underwear. A possible buyer in every family. Omit free.

VICTORIA KNITTING CO., Dallas, Tex.

McCANE'S DETECTIVE AGENCY, Houston, Texas, operates the largest force of competent detectives in the South; they receive written opinions in cases not handled by them. Reasonable rates.

W. N. U., HOUSTON, NO. 15, 1907.

## Home Treatment

You naturally would prefer to treat yourself at home, for any form of female trouble, wouldn't you? Well, it can be done. No reason why you should not be able to relieve or cure your suffering, as thousands of other women have done, by proper use of the Cardui Home Treatment. Begin by taking

## Wine of Cardui

the well-known female tonic. For sale at all drug stores.

Joe Moorhead, of Archibald, I. T., writes: "My wife had suffered for years from female trouble. On your advice, I gave her the Cardui Home Treatment, and now she hardly suffers at all." Sold by druggists.

### WRITE US A LETTER

Write today for a free copy of valuable 64-page illustrated book for women. If you need medical advice, describe your symptoms, stating age, and reply will be sent in plain sealed envelope. Address: Ladies Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

### Carpets from Paper.

The proprietors of an Austrian carpet factory at Maffersdorf are stated to have acquired German patents which embody a method of manufacturing carpets or floor coverings from paper. The new material can be made in all colors, is washable and will probably prove itself a rival to linoleum.

### The Timely Time.

Last spring our entire family took a few weeks' course of Simmon's Sarsaparilla and its effects were extremely gratifying. We enjoyed better health all summer than usual, which we attribute to its timely use.

Very gratefully yours,

SAMUEL HINTON,  
De Kalb, Miss.

Friendship is the only thing in the world concerning the usefulness of which all mankind are agreed.—Cicero.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. See a bottle.

An aim in life is the only fortune worth pursuing.—Adnah.

### Mrs. Partington Notices.

"It's a burning shame, but nevertheless a cold fact," said Mrs. Malprop, in an interval of gossip at a card party the other evening. "My dear," said Mrs. Partington, from the other side of the table, "you seem to be getting your reservoirs mixed."

### No Others.

It is a class to itself. It has no rivals. It cures where others merely relieve. For aches, pains, stiff joints, cuts, burns, bites, etc., it is the quickest and surest remedy ever devised. We mean Hunt's Lightning Oil.

### Increase in Savings Deposits.

In 1906 the resources of the savings banks of the state of New York reached \$1,465,000,000, an increase of \$59,000,000 in only one year.

Garfield Tea—the indispensable laxative! Take it in the Spring; it purifies the blood, cleanses the system, eradicates disease. It is made wholly of simple herbs. Guaranteed under the Pure Food and Drugs Law.

Sweet are the thoughts that savor of content; a quiet mind is better than a crown.—Greene.

## Alabastine

THE ONLY Sanitary Durable WALL COATING

ALABASTINE comes in dry powder form, ready for use by mixing with clean pure cold water. Safeguards health and makes homes beautiful and livable. Easy to mix. You can apply it yourself with an ordinary flat wall brush.

Insist on goods in packages labeled "ALABASTINE" and that your workmen bring Alabastine in unopened packages and use on job. If your dealer does not have Alabastine we will supply you. Write for free color suggestions and send us 10 cents for book "Dainty Wall Decorations."

ALABASTINE COMPANY, Grand Rapids, Mich., New York City.

## You Look Prematurely Old

Because of those ugly, grizzled, gray hairs. Use "LA CREOLE" HAIR RESTORER. Price, \$1.00, retail.

# THE CROCKETT COURIER

W. W. AIKEN, Ed. and Proprietor.  
CROCKETT, TEXAS.

## PROPER MANNER OF READING.

Writer Sees Much Harm in Multiplicity of Books.

It seems to me that with the multiplication of books we are losing all sense of literature. Leisure and three books, a Bible, a Shakespeare, a Walt Whitman, might make a man truly wise if the seeds of wisdom were in him. I do not know even a wise man whose instinct for wisdom would not be deadened by the frequentation of the Encyclopaedia Britannica. Books should be taken in doses no bigger than music or pictures; they are even harder to digest. There is more drunkenness in a book than in all the vineyards of France. A book may make a man's soul. Books should be treated with reverence or cast out as dirt. They are in danger of passing out of the service of the temple into the "garcel delivery" of the grocer.

## SARSAPARILLA TIME.

Make Your Own Sarsaparilla or Spring Blood Medicine.

Mix one-half ounce Fluid Extract Dandelion, one ounce Compound Kagon, three ounces Compound Syrup Sarsaparilla. Shake well in a bottle and take one teaspoonful after meals and again at bedtime. Any good drug list can supply these ingredients.

This is said to be a splendid Spring Blood Tonic and system renovator because of its gentle action in restoring the kidneys to normal activity, forcing them to filter from the blood all impure matter and acids, destroying micro-organisms which produce ill health and sour blood.

Everyone should take something to cleanse the blood at this time of year, and the above simple prescription is the most highly endorsed of the hundreds of home remedies generally used. Mix this yourself, then you will know what you are taking.

## Carnegie Fund Participants.

The report of the Carnegie fund for the advancement of teaching shows that already 339 institutions have applied for a share of the proceeds, and that of these 52 have been placed on the accepted list, having met the conditions in regard to undenominationalism and academic standards. In the accepted institutions 45 professors have received more than \$69,000 and the widows of some professors have been assisted. One-half the accepted colleges are in New England, New York and Pennsylvania, and, with one exception, the entire list lies in the northern belt of states.

## Refuges on Mont Blanc.

Losing one's self on Mont Blanc will soon be counted among the vanished industries. In recent years a number of fine refuges have been built in various parts of the mountain by the Alpine clubs of England, France and other countries and by private individuals. These have made it almost impossible for a man having a bump of locality of average size to be lost, in spite of heavy mists and blinding snowstorms caused by sudden changes of temperature.

## King Edward a Pigeon-Fancier.

It may not be generally known that King Edward is fond of pigeon-racing, and has participated actively in it. His majesty has a big loft full of pigeons at Sandringham, where they are regularly and specially trained for long-distance races. Some years ago one of his birds won the biggest race of the year, the "Pigeon Derby," to a magnificent flight home from Lerwick.

## FIND OUT

The Kind of Food That Will Keep You Well.

The true way is to find out what is best to eat and drink, and then cultivate a taste for those things instead of poisoning ourselves with improper, indigestible food, etc.

A conservative Mass. woman writes: "I have used Grape-Nuts 5 years for the young and for the aged; in sickness and in health; at first following directions carefully, later in a variety of ways as my taste and judgment suggested."

"But its most special, personal benefit has been a substitute for meat, and saved dry with cream when rheumatic troubles made it important for me to give up the coffee habit."

"Served in this way with the addition of a cup of hot water and a little fruit it has been used at my morning meal for six months, during which time my health has much improved, nerves have grown steadier, and a gradual decrease in my constipation has been given by Nature's Great Food, Grape-Nuts. Buy them from the little store, 'The Road to Wellville,' in your 'Fruit & Veggie' shop."

## THE LURE OF SPRING.

## GREENE AND GAYNOR

CASE CALLED FOR ARGUMENT IN U. S. CIRCUIT COURT.

## A SEVEN YEARS' LEGAL BATTLE

The Defense Argues Demurrer to the First Indictment for Conspiracy.

New Orleans, La.—Entering its eighth year of legal battle, the case of Benjamin D. Greene and John F. Gaynor, convicted of defrauding the government of over half a million dollars in Savannah harbor improvements, was called for argument Monday in the United States circuit court of appeals upon a writ of error from the federal court at Savannah.

The demurrer to the first indictment for conspiracy was argued by the defense. It was pointed out that when this indictment came up before Judge Brown of New York he condemned the first eight out of ten counts, while later when the same indictment came up before Judge Spear of Savannah, the latter condemned the two counts which Judge Brown had sustained, while sustaining the eight counts which Judge Brown had condemned.

It was argued that Greene and Gaynor were extradited from Canada for participation in fraud by an agent or trustee. In Savannah, however, the attorney said they were tried upon a charge of conspiracy and this amounted to trying them for a different offense than they were extradited for.

As for the indictment for embezzlement, it was claimed that the proof in the Savannah court showed that the alleged payment of money for their use had been made in New York.

The argument for the defense had not been concluded when court adjourned for the day.

## SIX HUNDRED STRIKE.

But Later Half of the Men Return to Work.

San Francisco—All the union men employed on the Hotel Fairmont were called off Wednesday by order of P. H. McCarthy, president of the Building Trades Council. Six hundred obeyed the order, but after excited meetings had been held on the street, more than half of them returned to work, declaring the order of McCarthy to be tyrannical and unjust. The men will take the matter up with their respective unions. McCarthy's order grew out of his controversy with the independent union of electrical workers, which was formed here some time ago in defiance of his orders.

## 25,000 Molders Get Raise.

Chicago, Ill.—At a joint conference here between the Stove and Heating Apparatus Foundrymen's National Defense association, representing the majority of the manufacturers throughout the United States, and the Iron Molders' Association of North America, an advance of 5 per cent in the wages of the molders was agreed on. The new scale is to run for 21 months and affects 25,000 molders.

## Laundry Workers to Strike.

San Francisco—Twelve hundred laundry workers here and 600 in Alameda county voted to go on strike when their employers refused to meet them an eight-hour day and an increase of wages. Nine laundries were closed down. Only three laundries agreed to the terms proposed by the union.

## ALL OVER TEXAS

Samuel Young, aged 22 years, died from injuries received by a sawlog falling across his legs at Nacogdoches.

As a result of a stroke of paralysis, Philip Freitag, aged 84, died at the home of his son-in-law, William Buck, in Taylor. Deceased moved to Taylor about five years ago.

The people at Bardwell, on the Texas and Brazos Valley Railroad, seven miles west of Ennis, have made up a fund of \$2,700 to be expended in boring an artesian well. The work of boring has already begun.

The Senate has accepted an invitation to attend in a body the Battle of Flowers and other celebrations at San Antonio on April 20. The invitation was presented by the people of San Antonio.

Pat Barry, a retired capitalist and contractor, and former alderman of Galveston, is dead there, aged fifty-seven. He went to Galveston many years ago and was identified with the city almost a quarter of a century.

Records of the Dallas postoffice show the receipts for the month of March to have been \$45,509.09. This is an increase of more than 11 per cent over the receipts for March, 1906, which amounted to \$40,955.50.

The Governor Friday signed the bill permitting the Penitentiary Board to borrow \$100,000 from the permanent school fund for the purpose of extending the State's railroad at Rusk. Having the emergency clause, the act is effective at once.

One of the grading contractors who will work out of San Angelo on the Orient, is Mrs. S. C. Hooker, who is believed to be the only lady grading contractor in the entire country. She recently completed a grading contract at Tennyson.

The comptroller of the currency has authorized the establishment of the First National Bank of Lorena, Texas, to be capitalized at \$30,000. E. Rotan is named as president, Ed. McCullough as vice president and L. J. Dodson as cashier.

Just as the railroads of the State were able to see daylight ahead, the stock rash came along, and conditions are getting as bad as they were during the winter congestion. The railroads are at the absolute mercy of the stockmen.

Harry L. Pennawelly, a switchman in the Katy yards at Greenville, was killed in an accident in the west yards Friday afternoon. He was making a coupling between two freight cars, when he was caught between them and crushed to death, dying instantly.

Britton Bros. of Dallas, Tex., have purchased the flour mill of the Bridgeport Mill and Elevator Company for \$10,000. The mill will be enlarged to a capacity of 200 barrels a day. Britton Bros. are also figuring on installing an ice plant and cotton compress there to cost \$50,000.

L. D. Cobb, H. H. Cobb, W. H. Cobb and two Eastern men will soon begin the construction of a brick plant on the O. K. Dairy farm, south of Fort Worth, which will have a capacity of 20,000 brick a day and which will be modern in every respect.

Lee Brothers have struck oil in their well one-half mile south of Justin.

The Star and Crescent furnace is again in operation at Rusk, having made the initial run Friday morning, which was witnessed by prominent citizens of Rusk.

Major A. A. Stephens of Wolfe City died Saturday at the home of his son in Celeste. Major Stephens was major of the First Texas Regiment, U. C. V., and a leading ex-Confederate of that county.

The business men of Sulphur Springs and Hopkins County have concluded to build a cotton mill of their own. The committee who visited Bonham on a tour of inspection of the cotton mill there has made a very favorable report.

A street railway company has been organized in Abilene, with \$100,000 capital stock, and purposes to immediately take steps toward installing a complete system of street railways here.

A charter has been granted to a company which is to establish a seed growing farm near Tyrrell. The company has a capital stock of \$200,000. This, it is said, will be the first effort ever made in the South to grow seeds on a large scale.

## OCCUPATION MAY BE BRIEF

Troops to Be Withdrawn from Oudja Gradually.

Lalla, Marria, Algeria.—At present, although it is impossible to see how long the occupation of Oudja will be continued, it is not probable that the entire force of 3,000 men will remain for long on Moroccan territory. As soon as the power of France has been established the greater portion of the column of occupation will be withdrawn gradually, leaving at Oudja only the few hundred men who are necessary for the preservation of order.

Col. Reidel, chief of staff, who already has taken over the administration of Oudja, said yesterday that everything led him to believe that the occupation would have a widespread and salutary effect upon Morocco. All the Moroccan chiefs of the region are coming in and today Col. Reidel will explain the circumstances of the occupation to them.

## FOR IRRIGATION PURPOSES.

Interior Department Grants Water Privileges to L. L. Nunn.

Washington—Secretary of the Interior Hitchcock has granted the application of L. L. Nunn to use the waters of Bear and Mud lakes in Utah for irrigation and power purposes. The matter has been held up for a long time because Mr. Nunn's plans were believed to interfere with the government project for the utilization of the waters in Bear lake in its own land reclamation projects. In the decision reached the government agrees to get out of the way temporarily, but it will retain the right to proceed with its own work if Mr. Nunn should fail to keep his engagement. Bear lake is claimed to be the largest natural reservoir suitable for irrigation purposes in the world.

## Telegraphers May Strike.

Wheeling, West Va.—Telegraph operators in West Virginia threaten to strike if their wages are reduced when the new eight-hour law enacted by the recent legislature, goes into effect. The railroad companies have given notice that there will be a proportionate reduction in wages as soon as the act takes effect, May 1. At a meeting Sunday the operators representing every division in West Virginia adopted resolutions to accept nothing less than they receive now for 12 hours.

## Awful Explosion in Transvaal.

Johannesburg, Transvaal—Fifty natives and four white men were instantly killed and three, whites and 16 natives-injured by the unexpected explosion Thursday night of two cases of dynamite at the Driefontein mine. One of the white men killed was an American named William Harvey. The explosion occurred at a time when the mine owners were mustered preparatory to going to work. A native tampered with the dynamite which exploded.

## The Stork to Royalty.

Madrid.—The physicians who are in attendance upon Queen Victoria have reason to believe that she may be confined sooner than has been anticipated, and it has been recommended that King Alfonso curtail his visit to Cartagena.

All the preparations for the advent of the new member of the Spanish royal family have been completed. A nurse has been brought out from England.

Let the People know you're on earth, and why.

If for business, say so; get acquainted with the people and stay that way by boosting your business constantly.

Your home paper is the best medium to bring satisfactory results.

Of course Capt. Daring may have reached the north pole in his airship, but he does not mention whether or not it was a hot airship.

A New Jersey farmer owns a goose which he says is 72 years old, and yet there are boarders who claim to have eaten all of that vintage.

## A 300-MILE TORNADO.

THROUGH SOUTHERN LOUISIANA, MISSISSIPPI, AND ALABAMA.

## TWENTY LIVES BLOTTED OUT.

Disturbance Began at Alexandria, La., Killing Four Persons—Four Towns Destroyed.

New Orleans, La.: Probably twenty lives were blotted out Friday by a tornado which swept across points of three Gulf States, which was distinctly traceable for a distance of 300 miles and which took about eleven hours in crossing this zone. The tornado moved from west to east, crossing the southern extremities of Louisiana and Mississippi and striking into Alabama for a short distance. Portions of four towns were devastated and damage probably exceeding half a million was done in addition to the places in which the tornado manifested fatal violence. The disturbance did general damage to property, crops and telegraph wires throughout its 300-mile course.

The tornado began at Alexandria, La., soon after 1 o'clock Friday morning, instantly killing four persons there, probably fatally injuring three and seriously injuring thirteen others. Soon after daylight it neared the Mississippi river, instantly killing five persons at Jackson, La., while at Bayou Sara, La., at least half a dozen others are reported killed.

There was one fatal injury at Jackson. The tornado next appeared at Carson, Miss., where great property damage was done, and the last heard of it was about noon near Selma, Ala., where the inhabitants saw whirling clouds rise into the air as they crossed the river. One death, a negro, was reported near Selma.

Alexandria, a town of about 16,000, had a fearful experience. When the storm struck it the electric lights went out, the cracking of the buildings could be heard above the noise of the wind and vivid lightning showed such sights as an empty Iron Mountain passenger train rolling over and over. About a score of houses were completely wiped out, fifty were damaged and altogether about 100 buildings were seriously wrecked, including several business houses. The Iron Mountain Railroad lost its roundhouse.

In the woods about the town the tornado cut down trees and small cabins in a narrow line about nine miles long. Several houses were blown down at Pineville and many injuries are reported. The hail did much damage to crops.

At daylight Alexandria began the work of clearing the debris, Mayor Turner organizing a relief movement at noon. The damage was estimated at \$200,000.

Details are meager from Jackson, La. The insane asylum there was almost wholly wrecked, with a loss of about \$20,000. In addition to three female inmates, many others were injured. Two negroes were killed on a nearby plantation, while reports from surrounding country indicated there was heavy loss of life among negroes, whose cabins tumbled in on the heads of their occupants.

At Carson, Miss., the next point the tornado struck, the Mississippi Central railroad depot blew down; also a school house and two business buildings and several cabins. Here the storm's path was but 200 yards wide and the wind blew from the southeast.

From Carson the storm crossed the state line into Alabama, where it began to lose much of its destructive power. Peculiar weather conditions prevailed all day throughout South Louisiana and Mississippi. Sudden rains were followed by clear skies and gusts of wind were incessant.

The death list from Friday's tornado will reach twenty and the injured will number fifty in Louisiana according to late reports.

### Old Furnace Started at Rusk.

Rusk, Tex.: The Star and Crescent Furnace is again in operation, having made the initial run at 10 o'clock Friday morning, which was witnessed by prominent citizens of Rusk. The start, while being under some disadvantages, promises well for the future. The managers are well pleased with the outlook and are hopeful of a profitable run.

### Crops Not Promising.

Davilla, Tex.: Crops in this section are not very promising, owing to the long drouth. Very few people have planted any gardens at all. The corn that is up looks very well after the rain that fell a few days ago. No cotton planted in this section yet. The McCormick Oil Company held a meeting here last Saturday to raise money to start boring again.

### Milam Land at \$67.50.

Cameron, Tex.: Mrs. Tennie Boykin of Ben Arnold sold to A. Hasselmann sixty-three acres of land near Ben Arnold for \$67.50 per acre. The deal was closed Thursday.

## A NEGRO KILLED TWO.

SHOT MOTHER-IN-LAW AND ANOTHER NEGRO NEAR WHARTON.

Fired Twice at a Third Negro Whom He Missed, and Who Gave the Alarm in Town.

Wharton, Tex.: Late Saturday evening about three miles from town, on a place rented by Sam Brawley, Sonny Jones, a negro, aroused by jealousy of his wife, secured a shotgun and started out on a wholesale slaughter, which resulted in two negroes being killed and his wife being fatally wounded. Sam Brawley was also shot at twice at close range, but was not wounded. Drs. Davidson and Davidson went out at once to administer medical attention. Sheriff Koehl also repaired to the scene and captured the negro, who had hid in the loft of a nearby farm, and was at once placed in jail.

The substance of the trouble was that Sonny Jones had gone to see his wife, who was living on the place managed by Sam Brawley. After some conversation between them he shot her. His mother-in-law, on coming into the room, received the contents of the other barrel of the gun and lived only a short time. Harry Higgin, an uninterested party, realizing the situation, started to town after a doctor and was shot down, surviving only a few hours. Jones then fired twice at Brawley, but missed him, and he managed to escape and get to town and tell the news.

## POOL ROOMS CLOSED.

Like the Arabs, They Folded Their Tents and Silently Stole Away.

Houston, Tex.: There was a good deal printed in the local press Sunday morning to the effect that the pool room had been ordered by the authorities to close, and would do so, or was going to obey—in other words, going to carry out the instructions to close. There was much more written on the court proceedings in the matter. As a matter of fact the writing and printing were all unnecessary, because the pool room closed last night and the men employed there took their little belongings and moved away for good. The blackboards, a few pieces of chalk, a small platform, a step ladder and a racing record are the only signs left behind.

The proprietors of the establishment stated that there would be nothing more doing in that line. After it was all over one of them stated he was satisfied that the room was violating no state law, but had no inclination to oppose the local authorities in any way whatever, nor would they do so.

## LEITZ KILLED HIMSELF.

While Discussing Business Affairs with His Wife.

San Antonio, Tex.: Charles M. Leitz, residing at 313 North street, killed himself at 3 o'clock Sunday morning by shooting himself in the head with a revolver.

Mr. Leitz was in bed with his wife. They had been discussing his business affairs for several hours. Suddenly Mr. Leitz reached under his pillow, got his gun and blew out his brains before his wife could interfere.

Leitz came to this city in January from Sandusky, Ohio, and had just opened a pool and billiard parlor. He was 32 years old and is survived by a wife and two small children.

## NEGRO STABBED TO DEATH.

Morgan Smith Killed and Bennet Polk Arrested.

Eagle Lake, Tex.: In a difficulty which occurred at Matthews, about four miles south of this place, Sunday evening about 7:30, Morgan Smith, a negro of that section, was stabbed and died almost instantly. Deputy Sheriff H. S. Vineyard was notified of the affair and repaired to the scene at once and arrested Bennet Polk, who is charged with the killing. No cause is assigned for the deed. Bennet Polk was taken to Columbus to jail at noon Monday.

## Markham Bank President Resigned.

Markham, Tex.: Col. F. J. Hardey, president and organizer of the Markham State Bank, has resigned and is succeeded by W. A. Furber as president. Col. Hardey's numerous enterprises elsewhere demanding his attention.

## Child Died from Drinking Kerosene.

Kept, Tex.: George, the 3-year-old son of M. L. Haynie of the firm of Haynie Bros., Sunday afternoon found a can containing kerosene on the porch and drank a quantity of it. The child became ill instantly, and though physicians were summoned at once, the child died within an hour.

## Killed by Well Damp.

Thornton, Tex.: Bob Kennedy, a young man 21 or 2 years of age, living about two miles southeast of Thornton, lost his life from damp in a well Thursday morning.

# THE OPPORTUNITY OF A LIFE TIME

95,000 acres in the "Garden Spot of the World," is now being opened up to the American People.

## DR. CHAS. F. SIMMONS'

Atascosa County (Texas) Ranch now on the Market.

Opportunities like this seldom occur. \$210, payable \$10 per month, without interest, buys two lots for a home or business in town and a farm of from a 10-acre truck farm to a 640-acre farm in balmy South Texas.

President Roosevelt said: "TEXAS IS THE GARDEN SPOT OF THE WORLD."

Investigation will show that this 95,000 acres comprises one of the finest bodies of Agricultural and Truck Farming land in the entire state, commencing about 36 miles south of San Antonio and about two miles south of Pleasanton (the county seat of Atascosa County), and extending through Atascosa and a part of McMullen Counties, to within 17 miles of my 60,000-acre Live Oak County Ranch, which I in four months last year, sold to 4,000 Home Seekers, on liberal terms, without interest on deferred payments, which gives the poor man, from his savings, a chance to secure a good farm and town lot for his home in town. I will donate and turn over to three bonded Trustees, \$250,000 from the proceeds of the sale of this property to the purchasers, as a bonus to the first railroad built through this property on the line which I shall designate.

This property is located on that middle plain between East Texas, where it rains too much, and the arid section of West Texas, where it does not rain enough.

Its close proximity to San Antonio, the largest city in the State, with a claimed population of over 100,000, enhances its value as a market for Agricultural and Truck farm products far beyond the value of similar land not so favorably located.

### Topography.

Level to slightly rolling. Large, broad, rich valleys, encircled by elevations suitable for homes; 90 per cent. fine farming land, balance pasture land.

### Forestry.

Ash, Elm, Gum, Hackberry, Live Oak, Mesquite, Pecan, abundant for shade, fencing and wood.

### Soil.

About 60 per cent. rich, dark, sandy loam, balance chocolate or red sandy loam, usually preferred by local farmers, and each with soil averaging from 2 to 4 feet deep, with clay subsoil, which holds water.

### Climate.

Mild, balmy, healthy, practically free from malaria, few frosts, no snow, no hard freezes; continuous sea breeze moderates extremes of heat and cold, producing warm winters and cool summers. Average temperature about 62 degrees.

### Rainfall.

From the Government record, it is safe to assume that the rainfall on this property has been fully 35 inches per year, which is more than some of the old States have had, and is plentiful for ordinary crops properly cultivated, and for Grass Growing.

### Improvements and Water.

This property is fenced and cross-fenced in many large and small pastures, with four barbed wires, with posts about 12 feet apart. Also a number of fine shallow wells.

Also, a number of fine Lakes and Tanks.

Also, a number of fine flowing Artesian Wells, whose crystal streams flow for miles and miles down those creeks, whose broad, rich valleys, irrigable from these continuously flowing streams, make it the ideal place for the Marketing Gardener who desires to raise from two to three crops of marketable produce on the same ground every year.

### Farming and Truck Farming.

Seasons never end. This land is adapted to profitable culture of Beans, Cabbage, Celery, Cucumbers, Lettuce, Tomatoes, Beets, Carrots, Onions, Radish, Squash, Strawberries, Cauliflower, Okra, Oyster Plant, Peas, Raspberries, Turnips, Apricots, Cantaloupes, Grapes, Irish Potatoes, Olives, Sweet Potatoes, Bananas, Dates, English Walnuts, Figs, Melons, Peanuts, Barley, Blackberries, Broom Corn, Lemons, Plums, Tobacco, Alfalfa, Rye, Oranges, Peaches, Pecans, Corn, Cotton, Oats, Wheat, Apples, Pears.

Page 63 of the book entitled "Beautiful San Antonio," officially issued by the Business Men's Club of San Antonio, dated May, 1906, says:

"It is readily conceded by all those who know anything about Texas that the most prolific agricultural section is that which recognizes San Antonio as its logical center, particularly that portion directly south of San Antonio, with the Gulf of Mexico bordering on the southeast and the Rio Grande bordering on the south and west.

"Within the last four or five years, in the territory named, special attention has been given to growing vegetables, they maturing at a time when they secure the maximum prices on Northern markets, which markets they virtually invade without a competitor. The profit in growing vegetables in this territory will be seen by an examination of the following figures, secured from reliable sources, showing

### Net Earnings Per Acre:

"Watermelons from \$75.00 to \$200.00.  
"Cantaloupes from \$40.00 to \$75.00.  
"Cabbage from \$125.00 to \$225.00.  
"Cauliflower from \$75.00 to \$225.00.  
"Beans and Peas from \$100.00 to \$125.00.  
"Potatoes from \$125.00 to \$400.00.

"Potatoes from \$60.00 to \$150.00.

"Onions from \$150.00 to \$300.00.

"Tabasco Peppers from \$500.00 to \$900.00 per acre.

"The Chicago Record Herald publishing the following individual experiences in South Texas:

"Men who came here with \$500 and \$600 a few years ago are now independently rich.

"A young man who came to this country for his health, bought 18 acres and in one year cleared over \$6,900 from it, which was \$333.33 per acre.

"Another man, 65 years old, from 79 acres, sold \$5,000 worth of produce, from which he realized \$63.29 per acre and then raised a Cotton crop on part of it, which made him \$35 per acre, which made the same land net him \$98.29 per acre for that year.

"Another man from 80 acres in 1904 realized as follows: From Onions, \$2,226.91; from Cotton, \$1,800; 200 bushels Corn; 12 tons Hay; 5,000 pounds Sweet Potatoes.

"Another made \$3,200 from five acres of early Cabbage, which was \$640 per acre, and grew a second crop of Corn and Peas on the same ground that year.

"Another realized \$27,000 from 90 car loads of Cabbage, averaging \$300 per car, which was \$207.69 from each of the 130 acres he had planted.

"Another netted, above all expenses, \$60 per acre on Potatoes, and planted the same ground in Cotton that year from which he realized \$35 per acre, which made that ground yield him \$95 per acre.

"Another realized \$32,966 from 230 acres in Melons, which was \$143.33 per acre.

"Another netted \$21,000 from 35 acres in Onions, which was \$600 per acre.

"Another netted \$17,445, or \$79.25 per acre from nine cuttings of 220 acres in Alfalfa, which yielded in one year 2,475 tons and sold at \$11 per ton.

"Another received \$900 from one acre in Cauliflower; sown in July, transplanted in August, and marketed in December."

The same authority quotes the following statement from the Hon. Joseph Daily, of Chillicothe, Ill., who owns thousands of acres in the Illinois Corn Belt. He says:

"I am one of the heaviest taxpayers on farm lands in Mason and Tazewell Counties, Illinois, and I have been familiar with the conditions around San Antonio for 12 years. Any thrifty farmer can get rich, and make more money off of this cheap land, acre for acre, than any land in the State of Illinois, that sells from \$150 to \$225 per acre."

"Come to the land of beautiful sunshine and almost perpetual harvest.

Where the people are prosperous, happy and contented.

Where the flowers bloom ten months in the year.

Where the farmers and gardeners, whose seasons never end, eat home-grown June vegetables in January, and bask in mid-winter's balmy air and glorious sunshine.

Where the land yield is enormous and the prices remunerative.

Where something can be planted and harvested every month in the year.

Where the climate is so mild that the Northern farmer here saves practically all his fuel bills and three-fourths the cost of clothing his family in the North.

Where the country is advancing and property values rapidly increasing.

Where all stock, without any feed, fatten winter and summer, on the native grasses and brush.

Where the same land yields the substantial of the temperate and the luxuries of the tropic zones.

Where the farmer does not have to work hard six months in the year to raise feed to keep his stock from dying during the winter, as they do in the North and Northwest.

Where there are no aristocrats and people do not have to work hard to have plenty and go in the best society.

Where the natives work less and have more to show for what they do than in any country in the United States.

Where houses, barns and fences can be built for less than half the cost in the North.

Where sunstrokes and heat prostrations are unknown.

Where sufferers with Asthma, Bronchitis, Catarrh, Hay Fever and Throat Troubles find relief.

Where, surrounded by fruits and vegetables, which ripen every month in the year, the living is better and less expensive than in the North.

Where the water is pure, soft and plentiful.

Where the taxes are so low that the amount is never missed.

Where Public and Private Schools and Churches of all denominations are plentiful.

Where, peace, plenty and good will prevail.

Where it is so healthy that there are few physicians and most them,

to make a living supplement their income from other business.

\$1,000 Reward will be paid to any one proving that any statement in this advertisement is not true.

C. F. SIMMONS,  
215 Alamo Plaza, San Antonio, Tex.

Solid Food at Least.

An old South Carolina darkey was sent to the hospital of St. Xavier, in Charleston.

One of the gentle, black robed sisters put a thermometer in his mouth to take his temperature. Presently, when the doctor made his rounds, he said:

"Well, Nathan, how do you feel?"  
"I feels right to'ble, boss."  
"Have you had any nourishment?"  
"Yassir."  
"What did you have?"  
"A lady done gimme a piece of glass ter suck, boss."—Lippincott's.

Rabbits Learning to Climb.

A new characteristic of the rabbit is alarming the Australian farmer. A landowner at Albury announces that he has actually seen rabbits climbing over "rabbitproof" wire net fencing. The animals were making their escape from ground inundated by heavy rains, and, according to the witness' story, they scaled the wire on the posts and so easily surmounted the enclosure.

Thousands of miles of wire net fencing may prove useless if rabbits have learned to climb.

Veteran English Singer.

Charles Santley, the celebrated English baritone, will soon celebrate the fiftieth anniversary of his appearance as a public singer. He was born in 1834. Mr. Santley never muffled up his throat in the manner almost universal among professional vocalists, contending that such a course simply would make him all the more susceptible to cold. His theory was vindicated by a career of half a century on the concert and operatic stage, during which long period he never disappointed an audience.

Boston Well Guarded.

"Boston is one of the most strongly fortified harbors in the world. The forts are so located that they can train their guns to make it almost impossible for any warship or fleet of war vessels to get within striking distance of the city," said Brig. Gen. J. Franklin Bell, chief of the general staff. He had made a tour of the forts of the harbor in company with Brig. Gen. Arthur Murray, chief of artillery.

Beware of Ointments for Catarrh that Contain Mercury.

Mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surface. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Testimonials free. Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

Goldfinch Twenty-Two Years Old.

The longevity of ravens, geese and several other birds is well known, but it does not often fall to the lot of a cage bird to live to a great age. A goldfinch belonging to Mr. W. Godwin, of Victoria Park, Dorchester, England, furnished the exception to the usual rule by living till it was over 22 years old. The bird lately died from sheer old age.

Dog Tenacious of Life.

Twenty-nine days after it was lost a Skye terrier was found on a landing stage 50 feet from the top of a disused well at Eastery, near Sandwich, England. It was very thin, and one leg was badly hurt, but it picked up after lapsing some egg and milk. The man who rescued it was affected seriously by the gases in the well.

In a Pinch, Use ALLEN'S FOOT-EASE.

A powder. It cures painful, smarting, nervous feet and ingrowing nails. It's the greatest GOUTTODT discovery of the age. Makes new shoes easy. A certain cure for sweating feet. Sold by all Druggists, 25c. Accept no substitute. Trial package, FREE. Address A. S. Ochsner, Le Roy, N. Y.

An Impossibility.

"The unwritten law may prevail in our courts, but there is one thing which will never follow in its wake."

"What is that?"  
"The unfed lawyer."—Baltimore American.

It is vain to be always looking toward the future, and never seeing toward it.—J. F. Boyce.

Crockett, Texas

### Ear Corn

On hand all the time. 4t  
CROCKETT GRAIN & FEED CO.

The Woman's Home Mission society of the Methodist church gave a reception last Friday evening at the parsonage that was declared to have been one of the most enjoyable social events of the season. The purpose of the reception was to bring together the friends of the church and to cultivate among them more of the spirit of Christian sociability. The guests began to arrive at 3 o'clock in the afternoon and by 11 at night the last callers had departed. The ladies of the society served a salad course, followed with cream and cake, during the afternoon and evening, which was greatly enjoyed. Invitations were general and were not confined to members of the Methodist church, but to all. The attendance was especially large during the evening.

### Good Judgment

is the essential characteristic of men and women. Invaluable to good business men and necessary to housewives. A woman shows good judgment when she buys White's Cream Vermifuge for her baby. The best worm medicine ever offered to mothers, who write expressing their gratitude for the good health of their children, which they owe to the use of White's Cream Vermifuge.

### Presbytery.

The Presbytery of Eastern Texas is to meet at the Presbyterian church in this city next Tuesday night at 8 o'clock. The sessions will be opened with a sermon by one of the visiting ministers. The Presbytery will probably be in session Wednesday and Thursday, and there will probably be preaching Wednesday night and perhaps also on Thursday night. About fifteen or twenty delegates are expected.  
S. F. TENNEY.

### No More C. O. D. Whiskey.

The late law now in effect cuts out all C. O. D. liquor shipments. All orders must be accompanied by express or postoffice money orders, or you can deposit the amount in the bank to my credit and send me the deposit slip with the order. I will prepay all charges on 4-quart shipments of \$3.50 per gallon and upward.

Write me for price list, order blanks, etc. Address  
HYMAN HARRISON,  
Palestine, Tex

Mrs. Mary E. Mills died at the residence of her son-in-law, Mr. Tony Gossett, Saturday morning last, after an illness of about two weeks' duration. Mrs. Mills, who was an elderly lady, spent the last six years of her life with her daughter, Mrs. Gossett. Before coming to Crockett to live, she was a resident of Rusk, where her husband died. The funeral services were held at the residence Sunday afternoon at 3 o'clock, where a last sad tribute of respect was paid to the life of this good woman. The sorrowing concourse followed the remains to Glenwood cemetery where the obsequies were completed with the interment. Rev. J. W. Downs of the Methodist church conducted the services.

### Why

have a torpid liver when Herbine, the only live regulator, will help you? There is no reason why you should suffer from Dyspepsia, Constipation, Chills and Fever or any liver complaints, when Herbine will cure you. F. C. Waite, Westville, Fla., writes: "I was sick for a month with chills and fever, and after taking two bottles of Herbine am well and healthy." Sold by Murchison & Beasley.

You Owe It

Do Yourself

To see our large line of Woollens and get prices on the best there is in Tailoring. We say best, because our work is positively guaranteed to be as good as the best. We can best demonstrate the above statement to you by doing some work for you.

Because we have no competition for our high-grade work in our County does not mean that we charge advance prices. Our prices are NEVER higher, but are often CHEAPER.

We do everything in Tailoring and appreciate your patronage

W. W. AIKEN, Editor and Proprietor

## PUBLISHER'S NOTICE.

Obituaries, resolutions, cards of thanks and other matter not "news" will be charged for at the rate of 5c per line. Parties ordering advertising or printing for societies, churches, committees or organizations of any kind will, in all cases, be held personally responsible for the payment of the bill.

Senator Culberson is being very strongly spoken of as a candidate for the presidency in 1908. Texas is for him.

Roosevelt says Hearst is behind the movement to discredit him in the eyes of the American people. That man Hearst is a terrible fellow. If he does all he is accused of doing, he can do more things to bring to light the misconduct of public officials than any other man on earth.

The house has amended the election law giving to conventions the right to nominate on a plurality vote of the primary. This is the plan advocated by the COURIER last summer. It does away with convention manipulations, the candidate getting the highest number of votes getting the nomination. It is the blanket primary perfected.

The anti-nepotism law, if it does not do so, should be made to cover state, county and city officials in the matter of giving out work and purchasing supplies. Many a man in business has profited at the expense of the people by having a relative in office. This is one of the most dangerous features of nepotism and one that is practiced with impunity.

Official information was given out last week in Muskogee, I. T., at the office of the commissioner of the five tribes, to the effect that there were 104,799 Indians and freedmen on the final rolls which closed March 4. In the Cherokee nation there are 43,169; Creek, 18,791; Choctaw, 26,459; Chickasaw, 11,610; Seminole, 3,124; Mississippi Choctaws, 1,646.

The best way for the home merchant to "down" the mail order houses, is to advertise his goods in his local paper—fight the devil with fire. It is an acknowledged and indisputable fact that mail order houses depend almost entirely on advertising to bring them business. Almost any first-class local store can beat the prices of mail order establishments—quality of goods considered—but the buying public is not aware of the fact.

Never, perhaps, in history did the average wage-earner have as much money to spend as now. And if he will only be prudent and wise, he will use his surplus in buying a little land with a house on it. Then, should hard times overtake him, and employment fail, he will find that he has "taken a hostage from fortune," and with the aid of the products of his land he can live even if he can put in only half time at other work.

The Bosque County Mercantile Co. recently bought 246 turkeys at eight and one-half cents per pound, which netted the parties who sold them \$248.05. The farmers thus realized neat sums from these sales and demonstrated to themselves and to others that it pays to raise poultry. By a little attention and a small outlay these "side lines" can be profitably carried on by almost every farmer. And right here we are reminded of the fact that poultry raisers

are no longer compelled to ship their fowls to distant markets and accept whatever commission dealers see fit to give for them, as there are now buyers operating regular cars on several railroads who purchase all the poultry, eggs and butter that can be had, giving fair prices for same; and even today there is such a car and buyer right here in Crockett, a mention of which was made in our advertising columns last week.

An exchange has observed that it is impossible to rope a whole herd of cattle with one throw of a lariat, but that you can rope the entire herd one at a time. It is just the same way with getting results from advertising. One ad. may not bring the desired results, but keeping persistently at it and calling the attention of the public to the articles desired to attract attention, will eventually prove the value of judicious advertising. You can rope a whole herd of buyers if you will only stay with the COURIER a reasonable length of time.

All indications point to the nomination of Bryan as the leader of the democratic ticket of 1908 and the nomination of Taft as the leader of the republicans. It will be Bryan against Taft. Bryan will have better chances of beating Taft than he would of beating Roosevelt. Bryan's government ownership ideas are going to be his greatest drawback in 1908. The democratic party of the south, and it is the larger part of the party, does not favor Bryan's government ownership policy. They do not want the management and operation of the railroads put into the hands of politicians. They do not want the trains on which they ride to be handled by civil service men. They do not want negroes for conductors and engineers. That may appeal to the democrats of the north and west, but it does not to the democrats of the south. Democrats of the north and west are a different set from those of the south. They hold entirely different views as to the best forms of government. The democrats of the south do not believe in a centralized government. They do not believe in government ownership, but they do believe in government regulation.

## WHAT IS SUCCESS?

A Boston business man recently offered a valuable prize for the best definition of what constituted success, and a Kansas woman was awarded the prize. This was her answer:

"He has achieved success who has lived well, laughed often and loved much; who has gained the respect of intelligent men and the love of little children; who has filled his niche and accomplished his task; who has left the world better than he found it; whether by an improved poppy, a perfect poem or a rescued soul; who has never lacked appreciation of earth's beauty or failed to express it; who has always looked for the best in others and given the best he had; whose life was an inspiration; whose memory a benediction."

Mr. E. H. Harriman, president of the Southern Pacific, Union Pacific and other railroads, has written a letter in which he stated that President Roosevelt sent for him in 1904 and asked him to contribute to the republican campaign fund and that he went to New York and raised many thousands of dollars for that fund, besides his own large contribution, which amounted into the thousands. Judge Alton B. Parker attributed his defeat for the presidency in 1904 to the big corporations, which he claimed had contributed

large sums to the republican campaign fund. Since the insurance investigation and the publication of Mr. Harriman's letter, it is apparent that Judge Parker was right. Roosevelt denounced at the time Judge Parker's statement as being untrue, as he has since denounced Mr. Harriman's statement. Judge Parker and Mr. Harriman stand by their statements and claim to have abundant proof of all they have charged. Roosevelt, elected by the corporations, has made a big bluff at trust busting, but in the meantime the trusts are flourishing as they have never done before. All of which should enhance the chances for the success of the democratic party in 1908.

## Poultry-Raising for Profit and Pleasure.

Probably no industry in the state is growing faster in proportion than that of poultry-raising. Poultry shows are being held from time to time throughout the state, and new associations of growers are being organized almost every day. In a number of counties there are county associations, as well as district and interstate shows. Last week at a meeting in Clarksville temporary organization of the Red River County Poultry Raisers' association was formed with H. M. Kelley as chairman. Committees were appointed to draft by-laws and arrange other matters necessary to permanent organization of the county at large. A meeting for this purpose will be held at the city hall in that city Saturday morning, April 6th.

The people of Texas are fast disposing of their "scrub" chickens, geese and turkeys, and in their stead are raising the finest and best breeds of the purer strains. They realize that it costs no more to raise a thoroughbred of any kind, be it chicken, turkey, cow, horse or hog, than it does to raise those of inferior breeds, and that the returns are far more satisfactory. There are very few farmers who are not displacing the "scrubs" with the later and best breeds.

The products of the poultry yard during the last year, according to the report of the Secretary of Agriculture, were worth \$500,000,000, while the wheat crop was worth only \$450,000,000, potatoes \$150,000,000, and oats \$300,000,000. And the best of it is that those products, poultry and eggs, are always in demand; are staple and bring the cash. Only a day or so ago spring chickens (fryers) were worth \$6 a dozen, according to the statement of a restaurant keeper, who had occasion to know, and he said there were none to be had at that price. The News has received many articles from farmers and their wives, which show that during the last year their poultry and eggs had brought them from \$100 to \$300—enough to pay all the expenses of supplying their homes with the necessities of life that they could not raise on the farm, and many of the luxuries.

If the man of the house, not only the farmer, but men in other callings as well, will only give a small part of his time to assisting the good woman in preparing for and taking care of the modest little hen, he will find that it is probably the most remunerative effort he has made, while the capital required for the work is comparatively small. Aside from the financial feature of the business, it is a pleasure to be engaged in this work. A flock of beautiful chickens is admired even by artists, who are always on the lookout for the beautiful. There is no possible question as to the

beneficial results that are certain to flow from the small investment of time and money that is devoted to the raising of fine poultry. Try it as a diversion, no matter if you live in the city. It requires very little space in which to keep a score or so of chickens. If you will give them the proper attention they will not disappoint you in results.—Galveston News.

Waco Times-Herald: There must not be lack of appreciation of the splendid recognition accorded Brazos Navigation by Congress. And it is proper to state that Brazos Valley people are just as proud of the recognition accorded the Trinity. Every appropriation given to the Texas projects was merited and will prove splendid investments. The railroads can not now haul the abundance of our forests, farms and ranches, and we need every facility for transportation to meet the rapidly growing demands. The improvement of our rivers will open new resources and this will call for more railroads and more people, more business and more energy and more wealth and happiness. Oh, we are going some.

That is the spirit which will secure the improvement of waterways in Texas. It is broad and it is right in every sense. Heretofore there have been jealousies which have prevented a harmony among localities in Texas, which harmony is required for strength in fighting for this most necessary of all things to the progress of the State, the improvement of her rivers and harbors. Some of that jealousy yet exists. Lately an effort was made to fan it by Senator Bkiley, but as long as the people who are not in politics, and who have the interest of the State at heart more than they have their own personal safety or advancement, act together, so long can we hopefully look to the future. If any river in the State is improved the State is benefitted in two ways. First, it demonstrates the necessity of improvement of waterways by the fact that it benefits its locality; and, in the next, it puts more force behind other localities in their efforts to secure improvements of their waterways. While it probably should not be said that the Texan who opposes the improvement of Texas waterways is always moved by a desire to keep the State in the thralldom of the railways, it can be said that such person is certainly working to that end.—Galveston News.

## Don't Put Off

for tomorrow what you can do today. If you put off buying a bottle of Ballard's Snow Liniment, when that pain comes you won't have any; buy a bottle today. A positive cure for rheumatism, burns, cuts, sprains, contracted muscles, etc. T. S. Graham, Prairie Grove, Ark., writes: "I wish to thank you for the good results I received from Snow Liniment. It positively cured me of rheumatism after others had failed." Sold by Murchison & Beasley.

## The Presbyterian Church.

Services every Sabbath. Sabbath school meets at 9:50 a. m. Preaching at 11 a. m. and at 4 p. m. Prayer-meeting at 4 p. m. on Wednesday.

The Sunday afternoon preaching service and the Wednesday afternoon prayer meeting do not conflict with services at the other churches, so that members of other churches can attend these services with us and we will be glad to see them. Also the general public, including strangers and visitors in the community, have a standing invitation to be with us at any or all our church services. The Sunday afternoon service and the prayer-meeting last only three-quarters of an hour. Come and bring your children. S. F. TENNEY, Pastor.

## Grip Quickly Knocked Out.

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable symptoms," says Mr. J. S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip." Sold by Murchison & Beasley.
