All Buildings Progressing.

Work on the big department store building, under course of erection by M. Bromberg, is progressing rapidly. The Courier has information to the effect that this is to be a really big department store and that it will be occupied by a big concern, utilizing all the space from the basement to the roof. This building, constructed of plateglass and imported brick, will have two stories and a basement.

The six store buildings under course of erection by W. E. Mayes are making rapid progress toward completion. Some of them must be ready for occupancy by certain dates.

The Hail & McLean two-story brick is ready for occupancy. A concrete sidewalk is being laid in front of this building, which will be extended to the west line of the McConnell Hardware Company. From this line the McConnell Hardware Company will lay a concrete walk to Court House square.

Smith Brothers have laid a concrete walk in front of their new building which they will extend to a connection with Main street.

The Tax Tragedy.

In no age of the world, so far as known, have the people ever liked to pay taxes. There has always been a hatred for the tax gatherer. In many countries this feeling was justified—is yet justified. The extremes to which people will go to avoid paying a small tax would be funny if it did not possess so many elements of tragedy. Some will spend five dollars indirectly to avoid paying fifty cents tax. The tax of bad roads on any community is far in excess of what the tax for good roads would be. But it is paid indirectly and not called tax, therefore it is not so disliked. Take the case of the man who breaks the tongue out of his wagon while try-

ing to pull out of a mud hole. The bill he pays for repairs, the time he loses, the disagreeable work, all are bad road tax, but he puts it down to the unavoidable expense account and goes on. The extra wagon or buggy he must buy in the course of a few years is also a bad road tax. The time he loses coming to town in good weather when he could be at work at home, the many vexations and delays caused by bad roads, the inability to haul produce to town when prices are good and roads are bad, all of these are bad road tax and the farmer and business man pay them with patience that is truly wonderful, when they could at so much less expense have freedom and good roads.—Mt. Pleasant Times-Review.

Arrested for Mule Theft.

Sheriff Gilbert of Parker county was here Tuesday to take back with him a man named Langley, accused in Parker county of mule theft. The arrest was made by Sheriff Phillips of this county at the request of the Parker county sheriff. The mule was stolen and disposed of in Parker county, after which Langley was traced to Houston county and apprehended. Langley is a cripple, using crutches to get about. When the information to arrest him arrived, Langley had gone out into the country, but on his return was arrested by Sheriff Phillips and held for the Parker county officer.

Rheumatism and the Heart.

Don't overlook the grave fact that rheumatism easily "settles in the heart," and disturbs the valvular action. The cure consists in removing the cause. Foley Kidney Pills so tone up and strengthen the kidneys that they keep the blood free of poisons and uric acid crystals, that cause rheumatism, swollen joints, backache, urinary irregularities and disturbed heart action. Try them.—I. W. Sweet.—Adv.

CROCKETT'S FIRST COTTON BALE

Arrived Wednesday Night and Ginned Thursday Morning—From the River Farm of Cowart & Rucker.

First bales in the coast country have become numerous, but we have heard of none north of here. The first bale of the 1913 cotton crop reached Crockett Wednesday evening and was ginned by Daniel & Lemay Thursday morning. This bale was grown on the Trinity river farm of Cowart & Rucker and brought in by Mr. Rucker. It weighed 535 pounds when ginned or 1500 pounds in the seed.

The cotton was sold to Daniel & Burton for 12c. a pound Thursday morning and as the Courier went to press a premium was being made up for Messrs. Cowart & Rucker. These gentlemen have been getting the first bale to Crockett for a number of years—in fact, for so long a time that they are now looked to to bring in the first bale. Cotton is early this year and the crop is good, but is needing rain.

We are informed that W. B. Cochran, whose plantation adjoins that of Cowart & Rucker on the river, delivered the first bale at Lovelady.

A Good Show at the Airdome.

The Wood-Ray Stock Company, playing at the Airdome this week, are giving the people some good shows and drawing large crowds nightly. The play Tuesday night, "Lena Rivers," proved no less popular than the opening bill, "The Pride of Virginia," Monday night. The bill Wednesday night, a western comedy, "When Cupid Comes to Town," drew also a full house. "A Henpecked Husband" will be presented to-night and on Friday night, if you have not yet laughed, you will have your inning when "A Pair of Liars" is to be the bill. The week's engagement will close Saturday night with another comedy, "Lost in Society's Whirl." Between acts the "Comedy Masons" give clever vaudeville stunts. This is one of the best stock companies playing Crockett since the days of the old opera house and its repertoire is proving popular.

Legislative News.

Austin, Texas, July 28.—Senator J. C. McNealus, Dallas, declared that he would introduce a resolution to call a constitutional convention in Texas.

Former Senator W. O. Murrey, Wilson county, has been appointed business manager of the state penitentiaries by Governor Colquitt. His salary is set at \$3,000 per year. Representative Williams of McLennan and Senator Darwin both have blue sky law bills to introduce as soon as the governor submits the subject.

The house has rushed the judiciary appropriation bill to the senate, the final passage being 113 to 3. The bill carries more than \$1,000,000 a year in appropriations.

The administration bill by Kirby has been reported unfavorably, while the Kennedy bill, relating to the same subject, has met with approval. The Kennedy bill provides that the winning candidate for senator must get a majority of votes cast, and his expenses shall not exceed \$5,000.

The resolution by Westbrook to

allow the members of the senate to work in shirt sleeves was lost by a vote of 18 to 3.

Speaker Terrell is in favor of an appropriation that will provide for at least \$150,000 to build a new home for the blind at Austin.

According to the Fort Worth Record, Governor Colquitt will be a candidate for United States senator to succeed Culberson in the event Culberson retires. It is also reported that J. W. Bailey will be a candidate for governor, opposing Lane and Hanger who have already announced.

Judge Callier Performs Ceremonies.

Justice of the Peace Callier of the Crockett precinct is not being retarded by the hot weather in the performance of marriage ceremonies. Monday morning he united in marriage Mr. E. O. Barnes of Palestine and Miss Elizabeth Norton of this city. Mr. Barnes is an International and Great Northern conductor and is popular in railroad circles. His bride is the second daughter of Mr. and Mrs. W. S. Norton of this city. Mr. Norton being also an I. & G. N. employe. She is of the blonde type and attractive.

Justice Callier's second marriage for this week was on Tuesday morning when he pronounced Mr. F. A. Dawson and Miss Mamie Barbee man and wife. This last couple was from the western part of the county. The Courier extends congratulations and best wishes.

Lost.

A pointer dog shipped from Henderson, Texas, escaped from Wells-Fargo Express Company's office in Houston, on June 21, 1913. Think he will try to make his way back to Henderson. The dog is white and liver colored, more white than liver. Ears, eyes and head covered with liver colored specks, with a bunch of liver colored spots on one of his hips. The dog is medium sized, rather blocky built and about five years old.

When lost he wore a collar set with small smooth brass buttons. There was a place on the collar where a brass plate had been set, but this plate had been lost off.

Will give a reward for his recovery, or information leading to his recovery.—Address Lock Box 15, Houston, Texas. 2t.

Training for Citizenship.

In childhood is when we learn lessons of kindness, when we acquire a sense of equity and form habits of respect and deference to our fellowman. Only those who have been taught kindness, sympathy and respect to the will of others in childhood may expect to practice these principles of good citizenship when they reach the age of accountability. The early life of man should be largely spent in training, in preparation for good citizenship so when that ripe old age is attained he may be a "shining light" for those good and noble deeds that young people emulate.

To insure the protection of birds, kindness to animals and sympathy for oppressed and misguided people, children should be taught these things in their youth. Children are naturally sympathetic, their hearts are susceptible to equity and love and they only need training. Parents and teachers may easily guide the course of children and induce them to cultivate sympathy, honesty, equity and love. These are the fundamental principles of good citizenship.—Farm and Ranch.

THOUSANDS WILL VISIT TEXAS ON WAY TO THE GREATEST OF WORLD'S EXPOSITIONS.

Huge Agricultural and Live Stock Displays a Part of Marvelous Universal Exposition in 1915

The whole world is interested in the United States' great Panama Canal Exposition, the Panama-Pacific International Exposition, to be held in San Francisco in 1915. More than a year and a half before its opening the Exposition is assured as the greatest celebration in the history of the American people.

Thousands of visitors from all parts of the earth will attend the Exposition. Each one of the eight transcontinental railroads terminating upon the

will be on exhibition during the entire course of the Exposition from Feb. 20 to Dec. 4, 1915.

The Panama-Pacific International Exposition will represent an expenditure of many millions. According to a recent statement gathered from the comptroller of the Exposition, the total outlay for the big show on the day of its opening will be \$80,000,000, and this will not represent the enormous amount represented in the exhibits of the world. Some of the exhibits will represent outlays of \$250,000 to \$300,000.

The exhibit buildings will be grouped along San Francisco bay not far from the famous Golden Gate, the entrance to the superb harbor of San Francisco. Indeed, the buildings may be seen to best advantage by any one entering the Golden Gate. Even now a splendid idea of how the complete Exposition will appear at a distance may be gained from a view of some of the palaces now arising.

The tallest structure at Harbor View, the Exposition site, will be 428 feet. Around this will be grouped huge domes, minarets and towers, which from a distance of four or five miles

THE OFFICIAL EMBLEM OF THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION, SAN FRANCISCO, 1915.

Pacific coast will issue low round trip rates. Undoubtedly hundreds of thousands of travelers will see Texas for the first time, and great numbers of them will take advantage of stopover privileges to see Texas either on their way to the Exposition or else upon the return trip.

From foreign lands will come multitudes to America for the first time. Twenty-seven of the world's great nations are preparing to make governmental displays, and from each foreign country delegates will attend to see the part their native land is taking at America's Panama exhibition.

The opening of the Panama canal marks a new epoch in the world's trade. The shifting of trade routes that have endured for centuries and the opening of new fields of commercial expansion to the nations of the earth are anticipated in every financial center in the world. Many of the greatest manufacturers of the world will bring their wares and display them upon an elaborate scale at San Francisco.

The United States is shortening the sea voyage between the Pacific and Atlantic coasts by 8,000 miles. It is providing markets in South America for the products of hundreds of thousands of farms, ranches, factories and great industrial plants in the United States. It is opening up to the profitable commerce of the European nations the Pacific coasts of North and South America and is rendering possible direct commerce between the orient and the Atlantic coasts of North, South and Central America. Every state, territory and colonial possession of the United States will share in our increased national prosperity. Every country in the world will profit. The nations of the world are preparing to participate in the Exposition upon a vast scale.

The Panama-Pacific International Exposition will be unlike any great world's exposition ever held. In the first place, it will not commemorate a past achievement, but one that is making history today and which holds out almost unlimited possibilities for the future. As the Exposition will be educational, all exhibits will be shown in action wherever practicable. It is planned among other exhibits to present the greatest displays ever made of the processes of cotton manufacture. The most modern cotton gins ever shown will be exhibited. The heaviest exhibits in the world will unload directly on the Exposition grounds from the ferry slips and thence be carried by train into the exhibit palaces.

Of particular interest to the citizens of Texas will be the wonderful live stock displays. These will, it is now known, surpass any ever made at the greatest of world's expositions. They will indeed be comparable to a tremendous state fair at which are shown the most valuable prize winners from half a hundred states as well as from dozens of great foreign countries. Prize live stock from Holland, Belgium, England, the Argentine, China, France and other lands will be shown side by side with the greatest live stock animals of America. Texas, with its vast herds of range cattle and its thousands of head of high grade dairy stock, is in position to make a showing that will rival that of any part of the world.

The sum of \$175,000 has been appropriated by the exposition management for prizes and premiums in live stock, and \$225,000 has been set aside for harness racing. An unusual feature of the live stock exhibit is that the cat-

will seem like the great domes of Constantinople, only upon a far greater and more impressive scale.

The center of the Exposition grounds will be devoted to the huge exhibit palaces in which exhibits from all parts of the world will be displayed. There will be about fourteen exhibit palaces covering a hundred acres. A single building, Machinery hall, will be 967 feet long, 367 feet wide and 135 feet high. This gives an idea of the huge size of the structures.

To the west of the main exhibit buildings and immediately adjoining them will be the vast space reserved on the picturesque Presidio reservation for the great pavilions to be built by the foreign nations and by the different states. It seems certain that every state will be at the exposition, more than \$2,000,000 having already been set aside for state exhibits.

CURIOUS CLOCKS.

Ingenious Schemes by Which They Mark the Passing Hours.

A Grenoble clockmaker, Antony Jacques, is responsible for the ingenious clock which he has named "Les Heures Bacchiques" ("The Hours of Bacchus"). One of the two drunken individuals is drowning in a glass of colored water simulating wine, while his equally helpless companion is barely able to hold out to him, by way of stupid drunken greeting, the bottle which they have emptied between them. In the body of this figure is secreted a magnet, which is attracted by the steel hand of the drowning disciple of Bacchus.

The two figures remain stationary, but the wineglass, with the hours painted in black on it, revolves so that while the floating figure remains suspended in the water, but motionless, the hours and quarters are marked off by the revolution of the glass, which is made to turn on a circular place actuated by the mechanism secreted in the base of this strange but attractive clock.

"The School" clock, by M. A. Poitel, constitutes a particularly attractive object for the shop window. It is made to represent the old type of schoolmaster, who, with his stick in hand, used equally for teaching and chastisement, is instructing an urchin in what appears to be a sum in arithmetic, but the figures really represent the hours, to which the teacher automatically points as the movement impels his arm to indicate the passage of time.

"La Mappemonde" ("The Map of the World") is another ingenious mechanical device, the invention of a modern French clockmaker of Bethune. The movement is in the interior of the globe and causes it to revolve and so mark off the hours on the equatorial band by means of a locomotive, which, by the way, has a separate mechanism of its own, whereby, if the globe is made stationary, it may make a circuit on its own rails of the equator in twelve hours.

If the clock is used for show purposes the stationary locomotive with revolving globe is possibly the best method to employ, as the locomotive may then be kept always in view of the public. But as an ingenious and useful clock for private use the circuit made by the locomotive is more interesting.—From the Watchmaker, Jeweler, Silver-smith and Optician.

Saws Without Teeth.

An explanation of the manner in which a soft steel disk revolving at high velocity cuts hard steel has recently been sought with the aid of microscopic inspection. The result corroborates the view hitherto held that the material acted upon is heated at the place of contact to the fusing point and then brushed away. The high temperature appears to be confined narrowly to the point of contact, so that a thin gash is cut. The temperature of the revolving disk does not rise so high because of the large surface area of the disk. The part of the disk in contact is continually changing, while the frictional energy is concentrated on a very small area of the material subjected to its action.—Saturday Evening Post.

An Offending Egg.

"Waiter!" The voice of the elderly man rose in accents of wrath from his table by the window.

"Yes, sir," replied the waiter, bustling forward. The customer swallowed several times quickly before he could command his voice. "Here, take—take this egg away!" he roared with an effort.

"Yes, sir," said the waiter obligingly as he approached the offending article. "And what shall I do with it, sir?" The elderly man rose menacingly in his chair.

"Do with it?" he bellowed. "Do with it? Wring its neck!"—National Food Magazine.

A Life Saver For Some One.

It was their first quarrel.

"What," demanded the young wife angrily, "have you ever done for humanity? I don't believe you ever did anything to save one of your fellow men from suffering, did you?"

"Yes," said the young husband. "I saved at least one man from a terrible fate."

"What did you do?"

"I married you."—Philadelphia Ledger.

The following advertisement of a Tokyo bookseller is worthy of the most progressive venter of printed wares:

"The advantages of our establishment: 1, prices cheap as a lottery; 2, books elegant as a singing girl; 3, print clear as crystal; 4, paper tough as elephant's hide; 5, customers treated as politely as by the rival steamship companies; 6, articles as plentiful as in a library; 7, goods dispatched as expeditiously as a cannon ball; 8, parcels done up with as much care as that bestowed on her husband by a loving wife; 9, all defects, such as dissipation and idleness, will be cured in young people paying us frequent visits, and they will become solid men; 10, the other advantages we offer are too many for language to express."

Looking Ahead.

A charming young woman walked into a store in the village and asked to see some typewriting paper. After making her selection she hesitated for a moment. "Do you make any reduction to clergymen?" she inquired.

"Yes," replied the merchant promptly. "Are you a clergyman's wife?"

"No," she answered.

"A clergyman's daughter, probably," said the man as he tied up the package.

"No," was the young woman's hesitating answer. "But"—and she leaned over the counter and spoke in a confidential whisper—"if nothing happens I shall be engaged to a theological student as soon as he comes home from college next month."

A Story With a Moral.

A schoolmaster in the country delivered an address to the scholars, of which the following passage is an example:

"You boys ought to be kind to your little sisters. I once knew a bad boy who struck his little sister a blow over the eye. Although she didn't fade and die in the early summer time, when the June roses were blooming, with the sweet words of forgiveness on her pallid lips, she rose and hit him over the head with a rolling pin, so that he couldn't go to school for more than a month on account of not being able to put his hat on."—London Tit-Bits.

Rudyard Lake.

In the Staffordshire district of England is Rudyard lake, which gave its name to Rudyard Kipling, for it was on a picnic there that Lockwood Kipling, a designer in a pottery factory at Stoke, met to marry Miss Macdonald, daughter of the Wesleyan Methodist minister at Burslem. From the place of their meeting came the novelist's Christian name. The two other daughters of the Methodist minister in the potteries married the artists who were to become Sir Edward Burne-Jones and Sir E. J. Poynter.

Blair, deceased, the unknown heirs of Mrs. L. J. Blair, deceased, the unknown heirs of Ruby J. Blair, deceased, John Blair, Mrs. A. L. Porter, Mrs. Emma Brown, Addie Cox, Perron Cox, Berta Taylor and Shell Taylor are defendants, the cause of action being alleged as follows:

Suit to remove cloud from title to the following described tracts or parcels of land to-wit:

All that certain tract or parcel of land, situated in the county of Houston and State of Texas, about two and one half miles west of the town of Crockett, being a part of the Daniel Harrison survey and bounded and described as follows: Beginning at a rock for corner in the Halls Bluff road, a red oak 48 in mkd X brs S 69 E 14 varas. Thence N 13 1/2 E 163.1 varas. Thence N 33 E 136.8 varas. Thence N 30 1/2 E 250.6 varas to a stake for corner, a post oak 12 in mkd X brs S 88 1/2 E 6.1 varas, a black jack 10 in mkd X brs S 84 E 1.8 varas. Thence East 1078.4 varas to a stake for corner. Thence S 15 W 590 1/2 varas to a stake for corner. Thence S 27 W 694.2 varas to a stake for corner on above mentioned road. Thence with said road as follows: N 58 1/2 W 108.4 varas, N 54 W 344.2 varas, N 51 W 281.2 varas, N 44 1/2 W 370.1 varas to the place of beginning, containing one hundred and seventy nine and two tenths acres. (Magnetic variation 8 degrees East.)

2. All that certain tract or parcel of land, situated in Houston County, Texas, about two and one half miles west of Crockett, being a part of the Daniel Harrison survey and bounded and described as follows: Beginning at the S E corner of the tract of land of twenty acres owned by George Leroy out of said Daniel Harrison survey, a stake for corner in the Halls Bluff road N 77 E 250 varas from Buchanan's S E corner. Thence N 20 E with the E B line of said 20 acres tract to the N E corner of same, corner on Pine 20 in dia. Thence S 77 W with the N B line of said 20 acres tract, 250 varas corner on the E B line of said Buchanan tract, a pine 20 in brs East 3 varas, being

the N W corner of said 20 acres. Thence N 20 E with the East line of said Buchanan tract at 926 varas corner in Navarro road at N E corner of Buchanan tract a red oak 20 in mkd X brs S 20 W 16 varas. Thence N 62 1/2 W with said Navarro road to where the N line of the said Harrison survey crosses said road. Thence E with N line of Harrison survey to N E corner of same on S B line of White league a P O brs S 30 W 10 4-10 vrs. do brs S 33 E 10 6-10 vrs. Thence S with the W B line of the A. E. Gossett headright at 950 vrs. corner on N W line of F. Johnson league. Thence S 55 W with N W line of F. Johnson league corner where said line crosses Hall's Bluff road. Thence with the meanders of said road in a westerly direction to the place of beginning containing 110 acres of land, more or less.

Plaintiff claims title to said land under certain deeds, conveyances, and orders of court which are fully set forth and described in plaintiff's said original petition.

Plaintiff further alleges that he and those under whom he claims title to the land above described, have had peaceable, continuous and adverse possession of said land, under deeds duly registered, cultivating, using and enjoying the same, and paying all taxes due thereon for a period of more than five years before the commencement of this suit, and he claims title to the said land under the five years statute of limitation.

Plaintiff further alleges that he and those under whom he claims title to said land have had peaceable, continuous and adverse possession of same, cultivating, using and enjoying the same for a period of more than ten years before the commencement of this suit, and he claims title to the said land under the ten years statute of limitation.

The fact that there is no conveyance from Daniel Harrison or from the heirs of Daniel Harrison to any one and no conveyance from I. D. Adams, Isaac Adams, S. E. Loeb, Lem Haas, S. Frank, Henry Bur, Ferdinand Bur, M. W. Ellis, L. J. Crow, S. D. Drennan, L. D. Drennan, Jacob Allbright, Benjamin Ellis, Joel D. Leathers, I. W. Burton, S. B. Lacy, Isaac Adair, R. J. Blair, John Blair, Lizzie J. Blair, Mrs. L. J. Blair, Ruby J. Blair and that the probate proceedings in the guardianship of John Blair, Berta Blair and Addie Blair are defective and that the defendants are setting up and asserting some kind of title or claim to the above described premises the nature of which is unknown to plaintiff, creates a cloud upon the title of plaintiff to said land.

The plaintiff further alleges that having sold and conveyed portions of the above described land to J. L. Hall, and H. A. Baughman by deeds retaining an express vendor's lien upon the land sold them, sues as well for the benefit of the said J. L. Hall and H. A. Baughman as for himself to remove cloud from the title thereto as he has obligated himself to do.

You are further commanded to serve this citation by publishing the same once in each week for eight successive weeks previous to the return day hereof, in a newspaper published in your county; but if no newspaper is published in said county, then in the nearest county where a newspaper is published.

Herein fail not but have you before said court on the said first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness John D. Morgan, Clerk of the District Court of Houston County.

Given under my hand and seal of said court in the City of Crockett this 12th day of July A. D. 1913.

John D. Morgan, Clerk District Court, Houston County, Texas.—Adv.

A Torpid Liver is a fine field for the Malarial Germ and it thrives wonderfully. The certain result in such cases is a spell of Chills.

HERBINE

Is a Powerful Chills Tonic and Liver Regulator.

It puts the liver in healthy, vigorous condition and cures the chills by destroying the disease germs which infest the system. Herbine is a fine anti-periodic medicine, more effective than the syrupy mixtures that sicken the stomach; because it not only kills the disease germs, but acts effectively in the liver, stomach and bowels, thus putting the system in condition to successfully resist the usual third or seventh day return of the chill. Herbine is a cleansing and invigorating medicine for the whole body.

Price 50c per Bottle.

The Difference Between "The Summer Girl" and "The Summer Woman."

While the former is having a "good time" the latter is too often dragging around nervous, run down, tired out, with aching back and weary limbs, sleepless and wretched. Often it is kidney trouble and not female trouble and Foley Kidney Pills are a direct and positive help for the condition.

If a substitute is offered you for Foley Kidney Pills, it means a cheaper medicine is pressed upon you for the dealer's profit, not yours. Foley Kidney Pills may cost the dealer more than a cheap substitute, but they give better results than any other kidney and bladder medicine. Ask for Foley Kidney Pills.—I. W. Sweet.—Adv.

Take Herbine for all disturbances in the bowels. It purifies the bowel channels, promotes regular movements and makes you feel bright, vigorous and cheerful. Price 50c. Sold by I. W. Sweet.—Adv.

NATURE'S WARNING

Crockett People Must Recognize and Heed it.

Kidney ills come mysteriously. But nature generally warns you. Notice the kidney secretions. See if the color is unhealthy—If there are settlings and sediment, Passages frequent, scanty, painful.

It's time to fear serious kidney trouble.

It's time to use Doan's Kidney Pills.

Doan's have done great work in Crockett.

James De Daines, Crockett, Texas, says: "Disordered kidneys bothered me and I had a lame and weak back, together with pains across my joints. The kidney secretions were irregular in passage and unnatural. I got Doan's Kidney Pills from Sweet's Drug Store and they relieved the pains and aches, in fact, did me more good than any other medicine I had used in years."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

The Best Medicine in the World.

"My little girl had dysentery very bad. I thought she would die. Chamberlain's Colic, Cholera and Diarrhoea Remedy cured her, and I can truthfully say that I think it is the best medicine in the world," writes Mrs. William Orvis, Clare, Mich. For sale by all dealers.—Adv.

UNITED STATES' GREAT PANAMA CANAL CELEBRATION WILL BE MARKET PLACE OF WORLD.

Texas Leads Union in Agricultural Production and Can Make Vast Exhibit of Its Wonderful Resources.

IN what measure and to how great an extent is the state of Texas to benefit from the opening of the Panama canal?

Figures and statistics will not suffice to tell at this date, because, apart from the inevitable beneficial results which must accrue to all countries blessed with a coast line bordering one of the extremities of the new waterway, the ultimate good that Texas will reap from the canal will be culled from the action taken by Texas herself.

Upon cotton Texas builds her main hope. She is the greatest producer of that necessity in the world. Her exports are largely to the orient and to the west coast of South America, where are the greatest consumers of cotton cloth. The Panama canal will bring those customers of Texas nearer by several days' time and by leagues of distance, thereby creating a quicker and more expeditious supply to a demand that is continually increasing. The rich corn and the full crops of wheat, the multifarious fruits and the ever widening supply of cattle which Texas is producing year by year—these, in addition to its command of the cotton industry, are commodities for which the Lone Star State will find new markets upon the opening of the Panama canal. The demand will be brought into closer touch with the supply. But how is Texas to secure that demand to herself?

She must find the opportunity that will present her products to the new markets and emphasize them before the old markets.

Such an opportunity will be provided by the Panama-Pacific International Exposition, which will be held at San Francisco in 1915.

This gigantic festival of commerce is by decree of the United States government the official celebration of the completion of the Panama canal. The Exposition has a purpose which reaches even higher than a national assertion of a nation's success in establishing a means of revolutionizing the commerce of the world. The purpose of the Exposition is to bring the nations of the world together, that all may see what all have done in their industries and in their commercial enterprises, that one may compare with the other and so determine upon the best sellers and the best buyers.

To put the situation even more practically, the Panama-Pacific International Exposition is to be the shop window of the world in 1915. It is to be the general department store, the universal bazaar of a new era. And to that department store or bazaar every buyer and seller in the world will come to look upon the newest product, the most modern means of manufacturing the product into the salable article and to learn the reason why one thing is better than another and why one way is more advantageous to the benefit of the consumer, to the credit of the producer and to the welfare of the community.

Briefly, then, that is the boon that the Panama-Pacific Exposition offers to those who participate. It proposes to establish sounder trade between states, between countries and among the peoples of the world. The Exposition is a peace movement of the most definite compass. Its compass is the binding of nations, because commerce is the surest tie of friendship.

And the one tremendously moving principle of the Exposition is that the participants in this international festival shall reap its benefits practically for the mere asking. The space for exhibits is extensive, but is nevertheless limited. Those who come first are the first served. It is not a question of who pays the biggest price. It depends upon who grasps the opportunity most firmly. The race is to the swift. The battle is to the strong. If Texas runs Texas will win; if Texas strains and strives Texas will be the victor.

It costs nothing to win. There is no charge to the victor. Exhibit space is absolutely free to all exhibitors at the Panama-Pacific International Exposition. All the capital which has been put into the great Exposition and all the millions who will attend are at the disposal of the exhibitor, without any cost whatever to him, except the cost of transportation, installation and maintenance.

There are those who are in the race already—those who have caught the meaning of the opening of the Panama canal and understood the expression of that meaning in the Panama-Pacific International Exposition.

Many of the nations of Europe and China and Japan in the orient already have officially accepted the invitation

of the president of the United States to take part in the United States celebration of the nation's grandest achievement. A more complete representation of the Latin-Americas in an Exposition has never before been made. Of the western countries which have realized that they will find markets at the Exposition are Bolivia, Chile, Costa Rica, Ecuador, Guatemala, Mexico, Nicaragua, Panama, Peru and Salvador. All of those countries will be at the Exposition, represented by exhibits of their resources, displayed in a manner that will impress and convince, assuring other countries of the world of their natural and industrial power.

Half the advantage of a good shop window is the manner in which the goods are set out. A well arranged store will always sell more than a store which is a jumble of effects thrown together in unmethodical profusion. America has determined that the universal department store of 1915 shall be the best looking store that has ever been opened to the world.

It is costing \$80,000,000 to complete. California, chosen as manager of the store by national approval, has devoted \$17,500,000 in hard cash to the equipment of the Exposition, and her total investment, when the appropriations of the counties are considered, will exceed the magnificent sum of \$20,000,000. So that the Panama-Pacific International Exposition is not going to be an ordinary exposition. It celebrates an event which is very much above the ordinary. The opening of the canal is an event of supreme significance. The Exposition which celebrates the completion of the canal will be of such an extraordinary kind that it will fittingly express that tremendous significance.

San Francisco is making ready for the reception of the nations of the world which will visit the great bazaar in 1915. She has begun to build. The site of the Exposition at Harbor View, San Francisco, where the waters of the bay of San Francisco narrow down to the channel of the Golden Gate, is now taking shape rapidly. Giant structures of truly massive grandeur are being erected.

In all there are fourteen palaces of exhibits to be erected by the Exposition Company in the middle section of the World's Fair. The other two sections are to be occupied on the west by pavilions of foreign nations, of which twenty-four have accepted the invitation to participate, and on the east by an aggregation of amusement concessions which are to be of the most novel and entertaining kind.

The fourteen main exhibit palaces will house the displays of eleven departments, which have been classified into 156 groups, subdivided into 800 classes. The departments consist of the following: Fine Arts, Education, Social Economy, Liberal Arts, Manufactures and Varied Industries, Machinery, Transportation, Agriculture, Live Stock, Horticulture and Mines and Metallurgy.

Texas will find its particular appeal in the palaces of Manufactures and Varied Industries, Agriculture, Live Stock, Horticulture and Mines. In those palaces will be found the competitors of Texas in the industries there represented. All the great cotton growing states will have their exhibits to show to the world, while the countries which want cotton to manufacture into cloths and textures will visit those displays and choose their markets.

The palaces in which the displays will be arranged are of an unprecedented beauty, set in a picture which no previous Exposition has had for its natural surroundings. California's climate permits of floral extravagance if there ever could be such a joy as a superfluity of charm. The Exposition will be a garden in which the efforts of man will stand among the results of nature's own working.

America is the hostess of the world in 1915, and she wants to see that her own household is properly represented at the international "at home." Not to be fully represented is to offer a slight to the guests who are going to be there in their best clothes.

Texas has much to show. She has much to smile for. She has much to give, but infinitely more to receive. And she receives with no outlay whatever.

Obedient.

Policeman (to street musician)—Have you a permit to play on the streets?

Musician—No, sir.
Policeman—Then accompany me.

Musician—Certainly, sir. What do you wish to sing?—New York Times.

The Sundial.

Among the ornaments of lawn or garden the sundial is one of the most interesting. It is interesting not merely from its novelty, few persons having ever seen one, but from its antiquity as well. The center of the garden may be the most convenient position in which to place it. In plowing the garden the part on which it sets can be taken up and afterward replaced. If on the lawn a location must be selected that is free from shade. While it "numbers only sunny hours," it may recall sunny remembrances of some friend whose skill may have fashioned it or is in some way connected with it, though he himself has passed in to the enduring light of the better land.—National Stockman and Farmer.

Finely Sarcastic.

Some time ago a lady went into the library of her home, where a servant girl was dusting an ornamental bookcase. For awhile she watched the maid and then crossed the room to examine the work.

"I want to tell you, Jane," said the mistress, "that we are going to have company. Mr. and Mrs. Smith are going to call and stay for dinner."

"Yes, ma'am," quietly responded the servant girl, continuing her work.

"And since Mr. Smith is a trifle over six feet tall, Jane," resumed the mistress, "I think you had better dust the ornaments on the top shelf."—Philadelphia Telegraph.

His Cast Off Suit.

A bachelor who lives in a hotel decided to clean out his wardrobe, the result being that the maid on the floor got among other things a suit of clothes which, she was sure, her brother would be glad to wear. A week later the bachelor asked the maid if her brother could wear the suit.

"Oh, I was just going to speak to you about that," said the maid. "It had to be fixed over, and it cost me \$2.50, which I think you should pay me."

"No," said the bachelor in telling the hotel manager, "I did not give her the \$2.50, and hereafter I shall sell my discarded clothes to the old clo' man."—New York Sun.

Replied to the Thunder in Kind.

A jolly group of traveling men had just got comfortably seated in the hotel lobby when another knight of the grip arrived.

"Mighty glad to see you fellows," he exclaimed enthusiastically, shaking hands all around.

"Sorry we can't say as much for you," was handed him by one of the group.

"Oh, you could, all right, if you'd lie as I do," replied the newcomer.—Kansas City Times.

Easing His Grouch.

Life, liberty and the pursuit of happiness and health had their origin on the farm.

He that riseth late must trot all day and shall scarce overtake his business at night.

The fair should be made to accurately reflect the agricultural achievements of the community and state.

The Sixth Annual Fair held at Rockdale recently broke all previous records for attendance. The exhibits were fine and caused much favorable comment.

The solution of the problem of a better money return from the soil and of a fuller social return from the country life is one of the most pressing tasks before the country.

Having for its purpose the building of a railroad line from Lobo, in Culberson county, to a point in New Mexico, crossing the state line at Crow Flat, a distance of ninety-five miles, the Van Horn Valley railway company, with principal offices at Van Horn, was recently granted a charter with a capital stock of \$100,000.

ROOSEVELT AND THE RAILROADS.

Ex-President Roosevelt, under the head of "The Living Wage and the Living Rate," makes a few pertinent remarks in the Outlook of July 5th concerning the duty of railroad commissioners. The ex-president said in part: "It is just as much the duty of the commission to permit rates to be raised when the raise is justifiable as to permit them to be lowered if the lowering is justifiable." It takes a brave thinker to discuss the possibility of a raise in rates, but the ex-president is very clearly including the railroads in his doctrine of a square deal. The rule laid down by the ex-president has, however, so far been worked only one way. The cost of most every commodity known in commerce has advanced except that of transportation, and, like beasts of burden dulled by blows, the railroads have hardly dared to do more than hope for creature comfort, and inviting dividends have long been considered a golden impossibility.

FLIES FORERUNNERS OF PESTILENCE.

The fly is the undertaker's traveling salesman and it is an able servant of the grim monster, death. This is the fly season and eternal vigilance is the price of health. Every house should be well screened and a vigorous war of extermination should be waged on every fly that crosses the threshold. It has been estimated that if every person would kill ten flies per day for thirty days there would be no flies upon the face of the earth. A swarm of flies hovering over the table and contaminating the victuals with slime and filth is disease entering the home.

Flies are the forerunners of pestilence, the advance agents of the doctor and they make business for the undertaker. There are many ingenious devices for trapping the fly and for protection against their entering the house and all effective

agencies should be employed in fighting this arch enemy of health. Every day should be fly day at the home. Kill the fly; remove all filth; destroy decaying vegetation and stamp out the breeding ground of the fly.

MERCHANTS AS EDUCATORS.

The merchant has one of the highest and most useful callings. He is a builder and an educator as well as a dealer. As a rule he does more to promote the general welfare of the community and to support its public institutions than any other class of citizens. Through the columns of the press the merchant teaches us how to live economically and keeps us informed of the progress of modern business and science in providing means for our care and comfort. The merchant is an indispensable business educator and he diligently studies our needs.

A merchant who has no message for the public is not keeping abreast of the times. The prosperous merchant must create the desire to buy goods and then supply it.

STAMPING OUT TUBERCULOSIS.

Nevada, Utah, Wyoming and Mississippi are the only states in the United States which have made no hospital or sanatorium provision for consumptives, says the National Association for the Study and Prevention of Tuberculosis in a bulletin issued today. At the same time the Association asserts that, while there are 33,000 beds for tuberculosis patients in other states, this number is very inadequate, hardly more than one for every eight or ten needy patients being provided. Some states have less than 30 beds, and in not a single one is there a sufficient number available.

The bulletin points that, although the death rate from tuberculosis has declined steadily for the last twenty-five years, a marked increase in hospital and sanatorium beds must be made before a rate of even 4 or 5 deaths per 1000 population can be reached. At the present time the city death rates in this country range from eight or nine per 1,000 living to as high as 35 or 40, with the average around 15 or 16, according to the latest reports of the Census.

The National Association estimates that there are over a million consumptives in the United States, of whom probably at least one-third are unable to provide for themselves the necessary treatment at home. Most of these cases are a menace to the health of their families and associates, and should be in special hospitals. At the present time, however, even if every case were known, it would not be possible to provide accommodations for more than one in eight or ten. The removal of these foci of infection demands more and better hospital and sanatorium provision.

to said land by the defendants or any of them.

Plaintiffs claim title to said land under certain deeds, conveyances and transfers, which are fully set forth in plaintiff's original petition.

The fact that there is no deed or transfer out of Martin Lacy to any one of any part of said 1-3 of a league of land, that the records do not show any authority in the Adm. of C. L. Wall's estate to make deed to Milton Gary, that there is no authority shown in the Adm. of the Estate of W. F. Wall to make deed to Milton Gary, that there is no authority shown in D. M. Coleman and H. W. Beeson to make deed to James F. Ford guardian of Mary E. F. Jacobs after the death of said Milton Gary, that there is no deed or order of court transferring the legal title from James F. Ford to his ward Eliza F. Heard (nee Jacobs), that the deed from Eliza F. Heard to Mattie Hopkins is not signed by S. A. Heard husband of the said Eliza Heard, and that the acknowledgement to same is defective, that there is no release of the deed of trust from G. A. Floyd to C. T. Burtis, that there is no deed or transfer out of G. A. Floyd to any one of said tract of land, that there is no judgment, order of sale or sheriff's return to support the sheriff's deed from A. D. Roper to H. W. Brown, that there is no deed from H. W. Brown to any one of said tract of land, that the acknowledgments to deed from W. R. Brown, J. Q. Brown, and Amelia Musson and John Q. Musson to Bettie Erwin, Jim Erwin, Birdie Allee and S. T. Allee is defective, and that the claims of all others of the defendants are unknown to plaintiffs, create and cast a cloud upon plaintiff's title, which plaintiffs would show should be cancelled and held for naught.

Plaintiffs would show that none of the defendants have any right, title or interest in said land.

Plaintiffs would show that there has been no deed of partition between plaintiffs of the interest of each in said land and that they are authorized to join herein as plaintiffs.

Plaintiffs pray that citation issue, and for judgment for the title and possession of said land, quieting plaintiffs' title to same, removing all clouds therefrom, substituting all missing links, and for such other and further orders and decrees, both in law and in equity, as plaintiffs may be entitled to, for costs, and for special and general relief.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, John D. Morgan, Clerk of the District Court of Houston County.

Given under my hand and the Seal of said Court, at office in Crockett, this the 28th day of July A. D. 1913.

John D. Morgan, Clerk,
District Court, Houston County.

The agonizing discomfort and sense of suffocation that accompany hay fever and asthma may be greatly alleviated by the use of Foley's Honey and Tar Compound. It has a soothing effect on the mucus linings, and relieves the gasping and tickling sensation in the throat and bronchial tubes.

Don't use a cough medicine containing opium or morphine. They constipate the bowels and do not cure, only stifle the cough. Examine the label and if the medicine contains these harmful opiates refuse it. Foley's Honey and Tar Compound contains no opiates, is healing and soothing.—I. W. Sweet.—Adv.
