SOME NEWS OF THE CROCKETT OIL FIELD

The Courier told last week of the efforts that were being directed toward getting the bailer out of the Porter well on the Austin farm near Crockett. That bailer was gotten out in two pieces, but not until Wednesday of this week was the last piece gotten. Reaming around the packer was being done Wednesday afternoon and it was announced by Mr. George L. Porter, the operator, that both the packer and the strainer would be gotten out to-day (Thursday). The strainer, packer and casing will then be reset and bailing started. As to how long it will take to bail the well depends on how much water is in it. Bailing was in progress when the bailer was lost three weeks ago. Reaming around a thing in a well, as the Courier understands it, is digging around the thing until a good hold may be had on it. The Porter well is 3550 feet deep, which is more than two thirds of a mile.

The Driskill well is standing still at about 1500 feet, the Grapeland well is doing the same at about 750 feet and the Porter Springs well has shut down at 480 feet, its water reservoir having broken.

For County Superintendent.

Mr. Anson L. Macanliss announces this week as a candidate for the office of county superintendent of Houston county schools, subject to the action of the democratic primary election to be held July 29, the last Saturday in July. To those who may not know Mr. Macanliss we will say that he was born and reared in the country between Crockett and Kennard and is well known as a young man of fine character and other sterling qualities. He has the intellectual, moral and physical capacity to fill the office. When asked by the Courier editor as to his platform, Mr. Macanliss said that if elected he would, as the law requires, spend four days each week working in the schools of the county. His office would be open to the trustees and patrons of the schools as a meeting place to discuss school problems. In dealing with problems and difficulties which may arise, he would not let personal whims and selfish motives, but the people's wishes and desires, govern his decisions. He is opposed to the creation of any new offices of supervision or anything that would cause an unnecessary expenditure of the school funds. He believes in a square deal to all and special privileges to none and promises a faithful performance of duty. He would be governed by the convictions of the public in promoting and encouraging any and all issues pertaining to the advancement of education and the diffusing of that knowledge so essential in a democracy. It may be stated incidentally that Mr. Macanliss was a student in Sam Houston Nor-

mal Institute previous to enlisting in the world war, in which he served two years and six months in the navy. Since the war he has been principal for two terms of the Hare High School in Williamson county, but is now making his home at Grapeland.

For County Commissioner.

Mr. J. G. (Gid) Webb announces this week as a candidate for the office of county commissioner in commissioners' precinct No. 2, lying west of Crockett and west of the railroad north of Crockett. Mr. Webb is now living at Porter Springs and has lived in the section around Porter Springs for many years. He is one of the best known men in his section and there is nothing the Courier could say in his favor that is not already known by his neighbors. Mr. Webb, in placing his announcement, asked the Courier to say for him that he proposes to make his campaign on a platform of "letting the people know what the commissioners' court does." He says he has no promises to make as to what he will be able to accomplish himself, as he realizes that he will be only a member of the court and that his vote will count only as one, but that he proposes to let the people know what the court does and what it spends the people's money for. He says he proposes to keep the people advised as to the creation of tax funds, the use of funds heretofore created and the transferring of money from one fund to another. He says that at the end of his term, if he is elected, the people will know what has been done and whether or not he has made them a good commissioner. His candidacy is subject to the action of the democratic party, he having never affiliated with any other party, and he will appreciate the support of all other good democrats, both men and women, in the primary of July 29.

Big Cotton Crops.

This county will not raise big cotton crops until it gets back to using high grade fertilizers, such as we produced before the war.

Believing this, we are manufacturing in a small way some of our old high grade brands as follows:

Crockett Cotton Standard.
Crockett Compound.
Crockett Phosphate-Meal Mixture.
Crockett 16 per cent Acid Phosphate.

Since rains have delayed planting, it is doubly important to use a fertilizer made to force quick maturity, and we have it.

We also have excellent maize heads for sale. Houston County Oil Mill & Mfg. Company. 2t.

The wire screens in the front of a new helmet for sand blasters can be taken out for cleaning or renewal.

A thread of spider's web will support a weight about 50 per cent heavier than a steel thread of the same thickness.

JUST A WORD WITH OUR SUBSCRIBERS

Callers at this office report the recent rains to be the hardest that have fallen in many years. The bayou north of Crockett was said to be at its highest "since the flood." Farmers say that the woods and the fields are boggy for the first time in a number of years. Crops will have to be replanted in many places when the ground gets dry enough for planting. The south ends of the Trinity and Neches rivers have overflowed the bottoms, the Trinity being reported as six miles wide at Liberty. In the soft lands of Houston county many cattle have been found bogged and dead.

In spite of the unfavorable, wet weather the Courier's list of subscription renewals is larger than it was last week, and last week's list was thought to be a good one. The Courier's smallest renewal lists are when the people are busiest with their crops.

Among the number calling to renew or subscribe or sending in their renewals and subscriptions since last issue are the following:

- E. C. Thompson, Lovelady Rt. 1.
Jonathan Harrison, Kennard.
J. E. Payne, Duncanville, Texas.
M. E. Darsey, Grapeland.
James Owens, Grapeland.
C. C. Hill, Grapeland.
Clifford Kennedy, Crockett.
C. D. Graham, Crockett Rt. 1.
T. F. John, Kennard Rt. 2.
C. M. McMichael, Lovelady Rt. 2.
J. G. Webb, Crockett Rt. 2.
J. B. Morrow, Lovelady Rt. 2.
J. B. Womack, Weches.
J. B. Allen, Lovelady Rt. 1.
G. W. Harrison, Kennard Rt. 1.

- Mrs. R. O. Calvert, Crockett.
J. D. Bynum, Grapeland Rt. 2.

For County Superintendent.

In offering for the office of County School Superintendent I submit the following, relative to my qualifications:

I was born and reared in Houston county and received the fundamentals of my education in the rural schools of this county. I have taught eleven years. Eight years of this time has been spent in the rural schools of my home county. Having for so long been in active touch and so closely identified with the public schools, I feel that I am in position to understand their condition, and know their needs.

I advocate the elevation of schools in an economical, practical manner, and in conformity with the financial condition of the times, but in a way that will be conducive to the general welfare of our boys and girls.

Believing that cooperation and friendliness between county superintendent, teachers and other interested parties is essential to a well organized and efficient system of public schools, I do not favor a dictated administra-

tion, but rather one that promotes a congenial feeling between the superintendent and all concerned as far as is possible, and duty allows.

If elected I will discharge, to the best of my ability, every duty that devolves upon me, not only in the office, but in the field work as well.

(Signed) Mrs. Gertie Sallas.

Mrs. Gertie Sallas, in announcing for the office of county superintendent of schools for Houston county, subject to the action of the democratic party, hands the Courier the above statement, which needs nothing added.

For Constable.

Edd Frizzell, who lives on a farm a few miles east of Crockett, called at the Courier office Monday and left his announcement as a candidate for the office of constable in precinct No. 1, the Crockett precinct. Edd was born, reared and educated in the community in which he now resides, and is too well known to our people to need much of an introduction by the Courier. Except for the eleven months spent in the army, seven of which were in France, he has resided in this community continuously and he is now 26 years old. At the outbreak of the world war, he enlisted with the national guard company organized at Crockett and received his military training with the 36th Division at Camp Bowie, Fort Worth. After about four months in the training camp, he went to France with his division and engaged in active service until the armistice was declared. Receiving an honorable discharge at the close of the war, he returned to the old home near Crockett and again took up the occupation of farming. He is young, active and capable, and would no doubt make a fearless peace officer. He has never offered for public office before. His candidacy is subject to the action of the democratic party, and he will appreciate the support of all good, democratic men and women in the primary election of July 29.

Rangers May Have Long Sojourn in Cass County.

Fort Worth, Tex., March 30.—State rangers in Cass County are checking violent opposition to tick eradication and it is expected that no more dipping vat dynamiting will be reported, according to word received from Dr. O. Horstman, who is assigned to work in the county by the bureau of animal industry.

Twenty-three vats have been dynamited. The rangers have given owners fourteen days to repair the vats and dip their cattle, Horstman said. It is expected the county will retain the rangers during the entire season, he said.

REVIVAL AT THE METHODIST CHURCH ATTRACTS CROWDS

Rev. Maness, pastor of the Methodist church, has secured Evangelist R. L. Flowers and wife of Dallas to conduct the revival at his church. The evangelists were a little delayed on account of their last meeting being prolonged some. Rev. Mr. Flowers is one of the general evangelists of the Southern Methodist church. During 1921 Mr. and Mrs. Flowers had 3000 conversions. They have been in the evangelistic work eight years and during that time have had 15,000 people forward in their meetings.

The revival is making good headway. The crowds are fine and the people are delighted with the work of the evangelists. Mr. Flowers is a good preacher. He speaks his mind and uses

Crockett English so any one hearing him need not mistake what he is driving at. Mrs. Flowers' message is most unusual. Hardly has Crockett ever heard a woman speaker who has a message comparable to her message. Mr. Flowers has gotten together a great crowd of folk to sing. The singing of the young people is a very attractive feature of the meeting. Next Sunday the Methodist people are trying to have every enrolled member of the Sunday school present. They plan for a great service at 11 o'clock Sunday morning. Evangelist Flowers has been speaking to men only at the picture show building each morning at 10 o'clock. Great crowds are in attendance at the meetings.

The sleeping car operated by the Southern Pacific between Palestine and Dallas has not been discontinued, according to telephone messages received at Crockett by Hon. J. W. Young, G. Q. King and others who have been using the sleeper. Word had reached Crockett that this sleeping car service, which had proved very convenient for travellers between Crockett and Dallas, would be discontinued with last Friday night's train. The sleeping car is still running and will not be discontinued for the present.

Mistake in Age.

Mr. J. H. Rhoden, living east of Crockett, called at the Courier office Saturday to say that we had made a mistake in the number of his years. He is 63 years old instead of 73, as stated

by the Courier. He says that he has decided that if he becomes a candidate for any office it will be for that of sheriff, and that if he finally decides to make the race his announcement will appear soon in this paper. A number of his friends have asked him to run for this office, but he has not yet consented, on account of losing so much time from his crop.

Mrs. Porter Withdraws.

Mrs. Karl (Winnie) Porter has authorized the Courier to announce her withdrawal from the race for county clerk. Mrs. Porter regrets having to withdraw at this time, especially so when she has had so many promises of support, but she is of frail constitution and she believes the condition of her health, which is anything but robust, will not permit her entering actively into the campaign this year. While announcing her withdrawal she desires to express a feeling of gratefulness and appreciation for the many promises of support from her friends. 1t.*

"Uncle Joe" is Dead.

"Uncle" Joe Taylor, an old-time darkey more than eighty years old, died at his home in north Crockett Wednesday of last week and was buried on Thursday following. For many years "Uncle" Joe had delivered packages from the postoffice and was well known to the most of our people and as well liked as he was known. His age was somewhere in the eighties and must have been close to the nineties, as his beard and hair were almost white and he walked only with a stick and a limp.

His politeness and general appearance were characteristic of a day and race that are fast passing. May his ashes rest in peace!

Rivers Overflowed.

All east and central Texas rivers are overflowed, and Houston county river farms, along both the Trinity and the Neches, are partly submerged. Overflows along the line of the M. K. & T. railway between Houston and Dallas were the cause of M. K. & T. passenger trains between those points being detoured over the I. & G. N. through Crockett Tuesday night and Wednesday. All Neches, Trinity, Navasota, Brazos and Colorado river bottom lands will have to be replanted when the water recedes. Most of the uplands in many counties, including Houston county, will have to be replanted, entailing a tremendous loss in both seeds and labor.

Sunday Marriage.

Sunday afternoon at 2 o'clock, at the home of the bride's parents in this city, Rev. S. F. Tenney officiating, Miss Gladys Harrison, daughter of Mr. and Mrs. J. T. Harrison, was married to Mr. J. B. Minor, a former citizen of Crockett now residing at Troup. Mr. and Mrs. Minor left on the 2:45 afternoon train for Troup to make their home. Only the immediate family of the bride was present at the ceremony. Both the bride and the groom are popular young people. The bride was reared in Crockett and the groom made his home here since the war until recently, his family having come here from Indiana, but having

MANY PAY TRIBUTE TO LUCIAN PARRISH

Wichita Falls, Texas, March 29.—The body of Congressman Lucian W. Parrish, who died here Monday as the result of injuries sustained in an automobile accident March 15, was buried this afternoon at Henrietta. Hundreds of Wichita Falls and Wichita county people attended the services, as did practically the entire population of Henrietta and of Joy, a community in Clay county, where Mr. Parrish formerly made his home. Friends from other parts of the State also were present.

What the Commissioner of Agriculture Says.

In the year 1915, the crop of 11,192,000 bales brought \$82,424,000 more than the 16,135,000 bale crop of 1914 brought.

In the year 1917 the crop of 10,949,000 bales brought \$295,263,000 more than the 11,450,000 bale crop of 1916 brought.

In the year 1919 the crop of 11,420,000 bales brought \$1,091,198,000 more than the 13,439,000 bale crop of 1920 brought.

Of course this great fall in prices in 1920 was caused largely by financial conditions in Europe and the deflation policy

of the Federal Reserve Board, which caused a great slump in the price of all agricultural products, threw labor out of employment, reduced the purchasing power of the Nation 40 per cent and paralyzed business generally.

The general proposition holds good, however, that the smaller cotton crop will bring a higher price and more money to the farmer than the larger crop.

Why should the farmers spend more money and waste more energy and labor to raise a large cotton crop when the smaller crop will bring more actual cash? It is true that the present supply of cotton will be practically used up by the time the new crop is made, but the United States only consumes about half of our cotton and the financial condition of the foreign countries that consume our cotton is not such as to justify the belief that they will be able to buy half of a normal crop at a profitable price. Therefore it is the part of wisdom to grow a small crop and receive 20 cents or 25 cents for it rather than grow a large crop and receive 10 cents for it, which is less than the cost of production.—George B. Terrell.

How Ironized Yeast Fills Out Figure

And Puts New "Pep" and Energy in Thin, Nervous, Rundown Folks

Hundreds of thousands of people all over the country are now taking IRONIZED YEAST tablets for health with results which in many cases are actually astonishing. For thin folks to gain five pounds or more on the very first package is not unusual. Complexions blotched with pimples, etc., are very often entirely cleared up within 10 to 14 days. As for increasing "pep" and energy, apparent "miracles" are reported by folks who were formerly run-down, weak, and lacking in physical and mental vigor.

FREE! Mail coupon below for Amazing Three Day Trial Treatment of IRONIZED YEAST. Watch the Results!

Here Is The Secret!

Nature intended that you should have a well developed figure, with the clear skin, sparkling eyes, strong nerves and rugged strength that goes with it. And if you are now thin and run-down it is because certain of Nature's laws have been disobeyed. Nature requires that you get a proper amount of vitamins and iron in your system. But these two essential elements are lacking in the modern diet. That is why so many of us are thin and run-down.

Yeast Best When Ironized

The thing to do is to supply this lack by taking with each meal two tiny IRONIZED YEAST tablets which contain in highly concentrated form, a specially cultured yeast grown under the strictest supervision for medicinal purposes—a yeast unequalled for its richness in the essential Water Soluble B vitamins. In addition it contains the correct amount of the two other vitamins—Fat Soluble A and Water Soluble C—which are equally important to health. These three vitamins bring excellent results even if taken alone—but when taken with a proper amount of easily assimilated organic iron, as in IRONIZED YEAST, these results are secured often in just half the usual time!

Watch The Results!

Note how IRONIZED YEAST immediately increases your appetite—how it enables you to get real joy out of every morsel of food you eat. See how quickly it drives away pimples, blackheads, etc., and how your newly acquired "pep" makes hard work or play a pleasure instead of a task. Try IRONIZED YEAST today! Pleasant to take—will not cause gas or in any way upset the stomach. Each IRONIZED YEAST tablet wrapped air-tight in waxed sanitape when made, thus assuring 100% purity and strength. Special directions for children. Go to your druggist or mail coupon today—NOW!

WARNING!

Not all yeast will give the desired results. There are certain types of yeast which have absolutely no value medicinally. By insisting on the genuine IRONIZED YEAST, and refusing cheaper imitations or substitutes you can be sure that you are taking a vitamin-iron treatment which is unsurpassed in effectiveness, convenience and genuine health-building value.

Note:—IRONIZED YEAST is sold at all Drug Stores on our guarantee of complete satisfaction from the first package or your money refunded.

COTTON MILL STRIKE AFFECTS 7 PLANTS ESTIMATE 9000 IDLE

Lawrence, Mass., March 28.—The strike in the cotton mills here, begun yesterday, gained strength today. After a canvass of the situation at the seven mills affected, it was estimated that three quarters of their aggregate working forces were absent. In figures this would be approximately 9000 persons, as compared with 7500, the number estimated as out when the mills closed last night.

Several plants were so badly affected by today's defections that it was indicated they might close before night.

After picketing at the opening hour, in which there was no disturbance, the striking operatives went to the common for a mass meeting.

Indigestion

Many persons, otherwise vigorous and healthy, are bothered occasionally with indigestion. The effects of a disordered stomach on the system are dangerous, and prompt treatment of indigestion is important. "The only medicine I have needed has been something to aid digestion and clean the liver," writes Mr. Fred Ashby, a McKinney, Texas, farmer. "My medicine is

Theford's BLACK-DRAUGHT

for indigestion and stomach trouble of any kind. I have never found anything that touches the spot, like Black-Draught. I take it in broken doses after meals. For a long time I tried pills, which griped and didn't give the good results. Black-Draught liver medicine is easy to take, easy to keep, inexpensive."

Passover Feast at Jerusalem, First in 2,000 Years.

New York, March 22.—For the first time in nearly two thousand years the sacred custom of going up to Jerusalem for the Passover Hoil Days will be observed this spring when a party of well-known Jews from America will participate in a Palestine pilgrimage that began with the sailing of the White Star liner Arabic from New York.

The party will land at Alexandria, and after leaving the "fleshpots of Egypt" will tour the entire Holy Land by automobile, arriving in Jerusalem for Passover as in the days of the ancient temple. The initial Palestine pilgrimage will be the forerunner of other parties to visit Palestine for the other of the three great Jewish holy days in the spring and fall of the year.

Those sailing in the Arabic pilgrimage party are planning to help in the rebuilding of Palestine as well as to visit the land as tourists. Morris Lurie, one of the party, is actively interested in the Palestine Development Council, of which Supreme Court Justice Louis D. Brandeis is president. Mrs. Lurie is taking her eighty-four-year old father, a retired Canadian farmer, who wishes to spend the rest of his days in one of the Palestine colonies. Joseph Shickler, a leader in the Keren-Hayesod campaign, is going with the party to Palestine on his honeymoon, and Mr. and Mrs. Samuel I. Andron are going to settle there.

WIVES AND WIDOWS GET PREFERENCE

Civil Service Commission's Ruling in Examinations for Postmasterships.

Washington, D. C., March 30.—Widows of honorably discharged soldiers, sailors and marines who served in the world war, and wives of injured soldiers, sailors and marines of that war who themselves are not physically qualified to hold positions in the civil service, but whose wives are qualified, will be given the same preference in examinations for postmastership at first, second and third class postoffices that is given to the men themselves, under the Civil Service Commission's interpretation of the executive order of October 14, 1921, it is said in a statement issued by the commission today.

In other words, the commission states, under its interpretation it will apply the executive order to the same classes of world war veterans, their widows and wives, that is provided for positions in the classified civil service by the veteran preference act of July 11, 1921.

Postmasterships at offices of the first, second and third classes are not classified under the civil service law, although filled through competitive examination under executive order, and such military preference as is allowed in examinations for such offices is also provided by executive order.

SATTERWHITE TO BE CANDIDATE FOR SPEAKER

Austin, Texas, April 1.—While not making any formal announcement, State Representative Lee Satterwhite of Amarillo, who was in Austin Saturday, in answer to questions stated he would be a candidate for speaker of the lower house at the next session of the legislature.

When asked for his views regarding a called session of the legislature, he said that he did not think the governor would call a special session.

Congressman Satterwhite represents the One Hundred and Twenty-fifth congressional district and has been a member of the house three terms, the twenty-seventh, thirty-sixth and the thirty-seventh. He is chairman of the house appropriations committee.

While speaking of matters pertaining to the legislature, Representative Satterwhite stated that he had abandoned the idea of filing mandamus proceedings to test the constitutionality of the representative redistricting bill which was passed by the thirty-seventh legislature. He gave as reason for abandoning the idea that it would cost too much to contest it.

It is generally known that the constitutionality of this law has been questioned because Swisher county was omitted from the measure. Representative Satterwhite said, however, that he hoped a test would be made before the democratic primaries were held in July.

In speaking of the calling of special elections by the governor for the purpose of filling vacancies in the house and senate, he said that it is impossible to legislate a man out of office and was of the opinion that the governor was only doing what was necessary "to fill vacancies occasioned by the death of Senator Hall and the resignation of two members of the house."

HENRY FORD BUYS BURROUGHS' HOME

Kingston, N. Y., April 1.—The farm on the mountainside near Roxbury, where John Burroughs was born, where he lived many of his years, and where last April his body was laid to rest, has been purchased by Henry Ford, long a friend and vacation comrade of the naturalist and author.

On Monday, the first anniversary of the burial of Burroughs, the farm will be dedicated to his memory.

Mr. Ford, it was learned Saturday, bought the place on March 10 from Julian Burroughs the naturalist's son, to whom it was bequeathed, and established a fund for its preservation as a memorial.

The John Burroughs' Memorial association had been formed to buy the place to preserve it, but when that organization met difficulties in raising funds, Mr. Ford volunteered to see the plan through, it was said Saturday by Judge A. T. Clearwater, through whom the purchase was consummated. Judge Clearwater said Mr. Ford paid \$15,000 for the farm. His added gift will be used to preserve the spots that Burroughs made known to the world through his books—the time-darkened house in which he was born; Woodchuck lodge, the retreat in which he wrote of nature, and in whose quiet shelter he was host to intimates; the rock upon which he played as a boy, and that now marks his resting place; the spring that inspired many pages of his works.

Mr. Ford and Thomas A. Edison and Henry S. Firestone, who used to go on vacations with Burroughs, are expected to attend the memorial service on Monday, along with a host of others who loved and admired the naturalist.

GREAT STEEL PLANT ON NECHES REALIZED

Beaumont, Texas, April 1.—R. W. Ford, manager of the Beaumont company, announced the Petroleum Land company of Ohio had officially taken over the plant of the Beaumont Shipbuilding and Dry Dock company, the largest yard on the Neches river.

As previously announced, the yard eventually will be converted into a steel fabricating plant, for the construction of oil tankers, oil tank cars and other oil refinery equipment. Mr. Ford stated that no physical changes in the plant are to be made immediately. Plans to this end are to be carefully worked out.

The Beaumont yard was purchased from the Kirby-Bonner-Link interests, and plans of the new owners contemplate carrying out the dream of J. W. Link; when he stated, three years ago, or soon after the business of war shipbuilding was over, that it was his desire and his belief that it was practicable to convert the yards into a great steel fabricating plant. The consideration in the purchase recently made by the new owners is said to have been \$300,000.

WILL BRING BODY OF CARROLL HOME

Washington, March 31.—B. Harvey Carroll of Houston, Texas, son of the late Dr. B. H. Carroll of Waco, Baptist minister, died early this morning at an English hospital at Gibraltar, according to a cablegram received by the department of state. Mrs. Carroll is visiting the family of her brother, Walter J. Crawford at Beaumont, and prepared to sail from Galveston Wednesday. Mr. Carroll was taken ill about two weeks ago at Cadiz, Spain, where he was stationed as American consul.

Arrangements are being made by the government to bring the body to America following the funeral, which is to be held in Cadiz tomorrow.

Mr. Carroll was a native of Waco, where he was born March 3, 1874, and had been in the consular service since January, 1914. His first assignment was at Venice. His education was received at the Chicago University, Baylor University, University of Texas, Southern Baptist Theological Seminary and the University of Berlin. He received degrees from all of the institutions, those from the University of Berlin being Magna Cum Laude. Mr. Carroll entered the ministry, having been pastor of Baptist churches in Colorado City, Weatherford and other Texas cities, also was pastor of churches in Kentucky. During the Spanish war he served as chaplain of the First Texas Volunteer Cavalry stationed at Fort Sam Houston. Later he held the chair of history and political science at Baylor University, following which he left the ministry and joined the editorial staff of the Houston Chronicle, later becoming publisher of the Stylus in that city.

FORMER AUSTRIA RULER DIES IN HIS EXILE HOME

Funchal, Madeira, April.—Former Emperor Charles of Austria-Hungary died here Saturday.

The former ruler's death occurred at 11:30 o'clock Saturday morning. Former Emperor Charles was taken ill at his home in exile on the island of Madeira slightly more than a week ago. His condition became so serious Wednesday that extreme unction was administered.

There was some improvement in the former ruler's condition Wednesday night, but he failed to maintain this gain, and Friday's advices were that he was growing rapidly worse.

The illness of the former ruler created widespread sympathy among the monarchists in both Vienna and Budapest. One of the former court physicians started from Vienna in the hope of reaching Funchal and attending the former monarch, a subscription of several million crowns being raised to defray the expense, while in Budapest it was reported that Count Julius Andrássy had sold a famous Rembrandt for 300,000 francs to assist the exile.

Former Emperor Charles of Austria-Hungary and his wife, Zita, were sent into exile by the entente allies after he had made two spectacular attempts to regain the thrones either of Austria or Hungary. Thereafter he was kept a political prisoner on the Portuguese island of Madeira, 400 miles off the African coast.

jury recessed until April 10. The grand jury in asking for an extension of the term said that additional time was necessary for completing the investigations which the quizzing body has in progress, the most important of which is the probe of the activities of the Ku Klux Klan in Austin and Travis county. Had the term of court not been extended the present grand jury would have automatically dissolved when the term ended tomorrow, and it would not be in session when the court of criminal appeals has passed finally on the Ku Klux Klan contempt case. Motion for rehearing in this case is to be filed between now and April 13.

LARGEST APPORTIONMENT OF SCHOOL FUNDS MADE

Austin, Texas, April 1.—The largest single apportionment ever made by the state school board was announced Saturday afternoon by S. M. N. Marrs, assistant state superintendent of education. The amount of the apportionment was \$5 and this, based on a scholastic census of 1,290,000, makes an amount of \$6,450,000 which will be paid the school teachers of the state.

The \$5 apportionment announced Saturday makes a total apportionment of \$9.50 already paid by the state board of education. The total amount for the scholastic year of 1921-22 is \$13 and with the amount already paid leaves only \$3.50 yet to be paid.

It was explained that the money is in the state treasury

PETTY GRAFT IN SEEDS.

The house of representatives has yielded once more to the free seed graft. It has put an item of \$360,000 in the agricultural appropriation bill to pay for another distribution of the little parcels of seeds.

It is the general opinion that these free seeds do nobody good. However, the congressman thinks that they help him by calling his constituents' attention to the fact that he is still alive. They are free advertising.

Your real farmer, of course, has no use for the seeds. When he wants seeds he wants those of which he is certain and he goes or sends to his seedsman. A good farmer declines to take the chance of wasting his labor on doubtful seeds.

As for the cost, what's \$360,000 when legislators long since stopped talking or thinking in millions and are using billions generally? An item of \$360,000 for seeds is such a little thing when you compare it with \$40,000,000 for the pork barrel bill or \$5,000,000,000 for a bonus.

The waste of \$360,000 a year in this free seed advertising for congressmen means just the burning up of a \$1000 bill every day for 12 months.—New York Herald.

A CITY'S CHIEF ASSET.

The value of the newspaper was never emphasized as forcibly as it was during the printers' strike of 1919 in New York, when thirty-two great magazines were suspended for four to twelve weeks. When the publishers announced that their magazines would not be published until the settlement of the strike, their subscribers accepted the ultimatum calmly and the public was not inconvenienced to any appreciable extent.

Someone then wondered what would happen if thirty-two great newspapers had been forced to suspend. A vote was taken and the unanimous verdict was—"It would be a calamity—the newspaper is a necessity."

A live and progressive city invariably has one or more progressive newspapers, and it is equally true that the sleepy, poky and untidy city usually has a newspaper of the same general character, and both the city and the newspaper drive along together without getting anywhere.

It is a momentous fact that the red-blooded and aggressive newspaper does more for the development of its city and county than any other one thing. It is the newspaper that exposes corruption and inefficiency in every walk of life. It is the

newspaper that prods, spurs, and whips every worthy element of community life into greater activity.

THE MEAT IN DUTY.

It is the duty of every citizen to vote in the primaries, and also at election time.

But duty does not begin or end there.

Going along with our party is not enough. It is not the way to insure good government.

Just "going along" enables the wrong element to secure control of the party, and that means poor government when the party is in control. It also aids in putting the party out of control.

Our greatest care should be exercised in nominating our candidates.

We should study both the past and the present of each person who is up for nomination. If his past is not clean we should not consider him for a moment. If his present does not offer prospects of satisfactory achievements while in office he should be passed by in favor of a better man.

The ability to make pleasing and enticing noises with his mouth does not necessarily indicate that a man would be successful as a public official. It requires brains and integrity, as well as words, to make good.

It is not so much what I know, what power or ability I possess, as it is how much knowledge, power and ability I put into intelligent and practical use. I may possess the highest degree of power, but if I do not use it what does it profit me? It is not what we know, or what we possess, but what we use that shapes our lives, molds our character and conditions our circumstances and environment, as well as determines the measure of success which shall come to us. I would emphasize this one point; consider it well—it is not so much the knowing as the doing. And knowledge comes only through experience. On the material side of life, we can only know through the doing. All else is belief, which at times may amount to conviction, but until we actually do a thing, we can not know it. When we know a thing through doing, that knowledge becomes absolute, in its degree. Then we know. Belief has merged into knowledge and knowledge becomes power. First you have belief. Then through doing, belief merges into knowledge and knowledge into power—then what? Apply that power intelligently in the working out of the whole problem of life. Unless used, it deteriorates. The only way you gain physical strength is through proper exercise. The same is true here. Using the knowledge and power you have increased both. If you would have, you must use, and using you will have the more. "To him that hath shall be given"—Edward Cowles.

There are some people who go through life with a smooth serenity that is seldom ruffled. It is not ruffled because they do not trouble to go deeply into affairs and conditions around them. They do no harm in the world, and sometimes exert themselves to the extent of doing a little good. We like them, but they command no great amount of admiration. There is another class, and they are in the majority, who are not averse to speaking their minds. Generally they are fair students of men and conditions, dig down

after facts, make up their minds after a careful analysis, and then stand by their convictions. They give praise where it is due, but do not hesitate to censure when it becomes necessary. They are the constructive citizens of this country.

FILIPINO PROVERBS.**Bravery:**

A hero fears no death. A brave man does not hesitate though the match be uneven.

Caution:

There is a snake in every forest. It is safer to meet a drunkard than a man who has just awakened. Nothing will be gained when repentance comes at last.

Character:

It is easy enough to be born a man, but hard to be a man. A beautiful character is a vault of wealth. Where the tree inclines there it falls. A spoiled child oftentimes becomes morally naked.

Choice:

He who flirts much selects the worst.

Courtesy:

A gentle word is like a melting pot; it softens the heart.

Cowardice:

In a brawl, as a rule, the one who wrangles is the coward.

Determination:

There is no place that is far to one who wants to reach it. If you are afraid of every dog bark you will never reach your destination.

Disdain:

You may dislike, but never despise. There is nothing bad which belongs to him and nothing good which belongs to another.

Embarrassment:

A person in a hard fix will grasp even a sharp blade.

Forcing the Will:

When you force a person to do that which he dislikes you plant roses on a stone.

Friendship:

To always tell the truth is to have long comradeship.

Gossip:

A whisper is louder than a cry. Gossip has wings and can fly. The tongue cuts better than the sword because it does not need to be sharpened.

Gratitude:

Kindness must be paid with kindness, not with money.

Word of Honor:

The drinking cup of the Filipinos (cup used for toasts) is in the fulfillment of their word. The nobility of the Filipinos is in their word.

Hope:

What muddy water does not ultimately become clear?

Hospitality:

My home is for you; all that I have is for you. Hospitality is not measured up in the size of the homes nor in the quality of the dishes.

Love:

Do not paddle your boat in two rivers. A bitter vegetable is like honey to the one who likes it. Although you lock your daughter in the trunk love will find her. Love is like a fire; whoever makes a joke of it burns his fingers.

Liar:

A liar loves to take an oath.

Merit:

The test of the steel is in the fire.

Promise:

What is the use of fodder when the horse is dead?

Prestige:

The greater the prestige, the greater the criticism when one falls.

Purity:

Purity is dearer than life. What is the use of life without purity? The purity of a woman is like a mirror which once broken can never be repaired.

Respect to the Old:

Do not be rude to the old; remember youth does not last and we all grow old.

Servility:

A dog has more character than a servile.

Self Conceit:

The fly that rests on the back of a carabao (water buffalo) thinks it is bigger than the carabao.

Commas.

This one has been going the rounds for many years, but will be new to many:

During an examination in an English school the inspector began to question the pupils on punctuation when the mayor, a pompous individual, interrupted with the remark: "It is foolish to bother about commas and such like." The inspector flushed angrily, and turning to one of the boys he bade him write on the blackboard: "The mayor of Cheesington says the inspector is a fool. Now," he continued, "put a comma after Cheesington and another after inspector." The boy did so, and the mayor kept quiet after that.

There is an imitation Kasch cotton sold. Ours is the real pedigreed seed direct from the grower and originator, Ed Kasch at San Marcos.

Ill of Influenza.

Tom Aiken of the Courier force is ill of influenza and confined to his room. Mr. Anderson from the Palestine Printing Company is assisting the Courier during the former's illness.

Damaged by Water.

The Times office and printing plant, over which a new roof was being placed, was considerably damaged by the rain storm of Monday night and Tuesday morning. It is not thought the publication of the paper will be delayed, however.

Closed Doors.

J. D. Blair, doing a confectionery and cold drink business in Crockett, closed the doors of his store Tuesday. We are also informed that Mitchell Satterwhite, doing a general mercantile business at Lovelady, closed the doors of his store Tuesday, also.

May Make Another Test.

Dr. G. L. Locke of Shreveport, who drilled a test well for oil near the Trinity river west of Crockett a number of years ago, is in the city this week. He says he may put down another test well in this county if he can secure sufficient acreage in a block. His former test was abandoned, although the indications were good, because of insufficient funds to complete it. Since that time Dr. Locke has been a successful operator in the Humble and other fields.

City Election.

In the city election Tuesday, the only contest was in the mayor's race, in which Mayor Edmiston was re-elected. The vote was 174 for C. L. Edmiston and 85 for N. B. Barbee.

Two aldermen, John C. Millar and G. D. McClain, were re-elected without opposition.

Captain N. H. Phillips, recently appointed by the city council to fill the unexpired term of John Spence as city attorney, Judge Spence having resigned, was elected as city attorney without opposition.

To Arrive from France.

Mr. J. M. Carlton of the Arbor community called at the Courier office Saturday to advise us of the contemplated arrival of the remains of his son, Shade Carlton, who gave his life in France during the world war. Mr. Carlton had just received a telegram from New York, advising him of the arrival of the remains there and asking for information as to shipment. Mr. Carlton immediately sent a telegram in answer and is expecting another message this week, advising as to time of arrival of the remains at Crockett. On arrival at Crockett, the American Legion will take charge and assist in the last tribute to a departed comrade in arms and fellow citizen. Interment will occur in the community cemetery southeast of Crockett.

A Card.

As my eighty-second birthday was an unusual event, and coming on Sunday, I thought the sane and becoming way to observe it was to preach a sermon suitable to the occasion. I did not expect birthday presents. To my surprise a number of individuals voluntarily sent presents. Also the Presbyterian Ladies' Aid Society gave a nice social entertainment accompanied by a shower of good things for their pastor. Included with these presents were kind gifts from a number of individuals who are not Presbyterians, among them some whose names I do not know. Therefore I take this way of thanking my many friends of Crockett and Houston county who have been so appreciative of my spiritual service to the community and coun-

BERMUDA GRASS ON THE FARMS.

There are different views as to the presence of Bermuda grass on the farms. A large majority, no doubt, hold to the view that it is a menace to be dreaded as the greatest pest of all the vegetable kingdom. It is only a question of a few more years when it will have spread over most of our farms, and it will have to be reckoned with. According to the law of adaptation it is now late in the winter when it yields to frost, and it is up and growing early in the spring. It used to be so sensitive to cold in the spring and fall that it failed to mature seed, but now its seed is maturing each year long before it succumbs to the frost in the winter. In its native habitat it is a perennial and in accordance with the law that vegetable and animal life is constantly adapting itself to the climate in which it happens to find itself, so is Bermuda rapidly becoming a perennial, as it is in the tropics. Its value as a grazing grass and for hay is far superior to all other grasses that have been found to grow here.

If half our land were in Bermuda, and could be confined to the area where most desired its value would be almost incalculable. It is claimed by some farmers that it is no disadvantage to have it in the farms cultivated annually to crops. They claim that it is a soil builder and a soil saver. It acts in many ways as a soil builder, and prevents erosion, or washing as it is termed. It is no longer a question about cultivating the land where it grows, even where it has become thoroughly sodded. The right kind of tools and heavy teams will soon put the Bermuda sod in a fine state of cultivation. But little plows and light teams will never faze it. Its tenacity is wonderful, and one of the strange and yet commendable things about it is the fact that corn and cotton are not in the least injured by it, so long as the grass is well cut to pieces and kept stirred until the plants are large enough to shade it. Last year we saw cotton on land that had been thoroughly sodded with Bermuda make a half bale of cotton per acre, without any fertilizer, and it was infested with boll weevils the same as other land. And that cotton never had but one hoeing, which was lighter and easier than if it had been crab grass. Most of the cultivation was had before the cotton was planted. We know one good farmer who used

ty—many with their congratulations and words of encouragement, telling me that I have been a valuable help to them and their families and to the community—and then accompanying these expressions with many helpful gifts. These all unexpected demonstrations of love have cheered me, and have renewed my youth, as far as eighty-two years could be renewed. I am reminded of an expression of the Psalmist, "The lines have fallen unto me in pleasant places." S. F. Tenney.

it years ago in finishing up his terraces and filling up the wash-outs all over his farm. He says it is a blessing to our East Texas farms in many ways. This same farmer has a meadow of a few acres that nets him two or three hundred dollars per acre each year. But Bermuda has come, like many other blessings, against the solemn protest of the farmers, and has established itself as firmly as the laws of the Medes and Persians, and its uses Nature has taught us by experience, and more it is appreciated as its wonderful flesh producing qualities are understood. Somebody in the Bible said: "All flesh is grass," and the time is coming, it seems, that in Eastern Texas, all grass will be Bermuda.

THEY WOULD KILL HIM AGAIN.

Many of these fellows who are running up and down the land slobbering over the name of Abe Lincoln, almost worshipping him in a way, would crucify him if he were on earth preaching the doctrine he preached while here. Listen to the great Emancipator:

"I warn the American people not to permit a repetition of the crimes of history. Following great periods of inflation, if drastic artificial deflation is attempted, disaster must follow. I warn them not to permit the money powers to take advantage of the condition of the people. I warn them not to permit high and usurious interest rates, contraction of the currency, or any change in the circulating medium that will affect the debt contracted until it has been discharged.

"Any movement to artificially deflate before the debt can be paid, to change the medium of circulation upon which the debt was contracted, would be a crime."

And yet that is precisely what the Federal Reserve Board has done. Any one just a few degrees removed from a fool knows that to cut down the circulation of money upon which debts were contracted means disaster to those who owe the debts, and that is what every honest man, if he is informed, is denouncing the money power for doing. The results of a crime like that are so far reaching that it is beyond calculation. It will take this country a decade to recover from the disaster, and multiplied thousands of people will never recover from it. While the servants of the money power are denouncing the candidates for office for criticizing the Federal Reserve Board, the people should denounce any candidate who is not intelligent enough and brave enough to present the question and call on the people everywhere to rise up and condemn the crime. And then they should ask the voters what is their opinion of a press that upholds and defends crime and criminals in high places and condemns it in low places? Or in other words, what is the difference between a lot of men who will conspire to rob millions by playing into the hands of a few great financiers, and a bunch of toughs who conspire to rob a store? We can never expect to have a just government as long as the crime of injustice is defended by men and papers of influence.

New in the musical instrument line is a whistle with two tubes that is played like a slide trombone.

PRAYER OF A KNOCKER.

Lord, please don't let this town grow. I've been here for thirty years and during that time I have fought every public movement. I've knocked everything and everybody. I have done all I can to keep this town from growing and never have spoken a good word for it. I have knocked hard and often. Whenever I saw any one progressing or enjoying himself, I have started a movement to kill the business or stop the fun. I do not want the young folks to stay in this town and I will do all I can by law, rule and ordinance to drive them away. It pains me, O Lord, to see that in spite of my knocking this town is beginning to grow. Some day I fear that I will be called on to put down sidewalks in front of my property and who knows but that I may have to keep up the streets that run by my premises? This, Lord, would be more than I could bear. It would cost me money, tho all I have made has been right here in this town. Then, too, more people might come if the town begins to grow, which would cause me to lose some of my pull. I ask, therefore, to keep this town at a standstill, that I may continue to be chief. Amen.—Exchange.
