JUST A WORD WITH OUR SUBSCRIBERS

The Courier's list of subscription renewals is very light this week. It ought to improve when the rush of the campaign is over. Some callers report too much rain while others report that they haven't had enough.

Among the number calling to renew or subscribe or sending in their renewals and subscriptions since last issue are the following:

Galveston News, Galveston.
Jones M. Smith, Lovelady.
Albert Douglas, Crockett Rt. 5.

Frank G. Edmiston Dead.

The people of Crockett were shocked Tuesday morning to learn that Frank G. Edmiston was dead. Death had overtaken Mr. Edmiston at 7 o'clock Tuesday morning, following a very brief illness, through which his recovery was hoped for and looked for.

Mr. Edmiston was in his usual health Monday. In the late afternoon, in the company of Mr. John LeGory and some other friends, he drove out to the lake of the Crockett Country Club with the view of taking a swim, being a good swimmer and very fond of swimming. While in swimming, friends close by noticed that he seemed to be in trouble and rushed to his aid. He was rescued from the water in an unconscious condition and rushed by automobile to his home in town, where medical attention could be given. It was found by the doctors that Mr. Edmiston had ruptured a blood vessel of the heart, but he seemed to improve during the night and hopes were entertained for his recovery. Improvement was apparent until a few moments before the end. At 7 o'clock Tuesday morning Mr. Edmiston rallied slightly but relapsed into unconsciousness and expired.

He had only recently returned from a visit with his wife and daughter to relatives in San Antonio, but had returned alone to his business in Crockett and left his family to finish their visit. They were notified Monday night of Mr. Edmiston's condition and reached Crockett by train Tuesday afternoon. Relatives and friends in other parts of the state were notified and many came from a distance to attend the funeral.

Frank G. Edmiston was forty-seven years of age. He was born in Crockett, acquired the foundation of his most liberal and broad education here and loved the town in which he was born and the people amongst whom he had always lived. His education was liberal and broad in terms of religion, morality, literature and commerce. He possessed a marked ability as an executive and his advice was sought in all affairs relating to community improvement or private commerce. He found pleasure in assisting the needy and was a

ready contributor to every enterprise having for its object the relief of the suffering. It may be truly said of him that he was public-spirited in the fullest sense of the term.

During the war he was prominent in Red Cross and other work in the interest of charity. He was liberal in dealing with his fellowman and his strict rule of honesty was the comment of all. He had been prominent in church affairs since early in life, and his fine executive ability made him a leader in these as well as in other affairs. He was a member of the Baptist church, loyal to the church of his choice and liberal in supporting its institutions. Funeral services, conducted by the Baptist pastor, Rev. A. S. Lee, were held in the Baptist church Wednesday afternoon at 4 o'clock and the church was filled to the outside steps, many standing with bared heads under the shade of the trees in the churchyard, such being the esteem in which the deceased was held.

Mr. Edmiston was prominent in Masonic affairs and the Masons had charge of the burial obsequies. Many brother Masons from Grapeland, Palestine, Lovelady and Trinity and elsewhere were present to attest the worth of their deceased brother. He was high in Masonic work and understanding and a member of the Noble Order of the Mystic Shrine.

Following services at the church the remains, under Masonic escort, were followed by a long procession of automobiles to the new Crockett cemetery where the Masonic rites were administered. When all that was left was tenderly laid to rest, the newly made grave was hidden with flowers by loving hands as a last earthly tribute to a fellowman of whom it is said, "He was truly a good man."

The deceased leaves the wife and daughter, Frankie and Janie Elizabeth Edmiston; the brother, C. L. Edmiston, and many other relatives in the state. He was the second son of F. G. Edmiston and Janie Collins, both of whom were members of pioneer families in Texas and among the oldest families in Crockett. He was a member of the firm of Edmiston Brothers, who have been engaged in the wholesale grain and grocery business in Crockett since 1896, and was one of the founders of the business. Besides the wholesale grain and grocery business, in later years he has been engaged extensively in other business enterprises, some of these enterprises being the Edmiston Motor Company, the Edmiston Hardware Company and the new oil mill organization.

The world's largest paper machine makes a roll of paper 327 miles long and over 12 feet wide every 24 hours, using 110 cords of wood.

The furnace for the manufacture of iron in Ohio was established in the Mahoning Valley in 1804.

ABOUT THE LATEXO VOTING PRECINCT

Editor Courier:

In my statement of last week addressed to the "officers of the primary elections" to be held in this county on next Saturday and August 12, I called attention to the requirement of the law that the said officers must have a list of the poll tax payers for reference in passing on the qualifications of any voter to cast his vote.

In that list I included the Latexo precinct, but I find that it will be impossible for this requirement to apply to this precinct for the simple reason that it is a recently established voting place, coming after the poll taxes were all paid, and hence the tax collector could not prepare a separate list for that precinct, the poll tax payers of such precinct being included in the Crockett and Grapeland precincts.

There is now no way of segregating the voters of that precinct from voters of the other precincts named, and the officers of election at that box can only exercise all due caution in reference to this matter so as to as nearly comply with the law as possible. The law will not require an impossibility, and there is no danger of the election there being held invalid for the want of a poll tax list. I can only ask the election officers to do the best they can under the circumstances and comply with instructions heretofore given.

J. W. Madden,
County Chairman.

John Hooks Dead.

Mr. J. A. Hooks died at his home in southeast Crockett Sunday morning at 4 o'clock. Sunday afternoon at 4 o'clock the remains were laid to rest in the Crockett cemetery, following funeral services conducted by the Methodist pastor, Rev. E. A. Maness, at the Methodist church, of which Mr. Hooks was a long-time member. The deceased is survived by wife and children. Besides other members of his family he leaves a brother, Richard Hooks, at Pennington, and another brother, Warren Hooks, living near Crockett. Mr. Hooks was a splendid type of citizen—of an optimistic nature, he met all difficulties with a smile and patience that were the object of comment by all who knew him. Even in his last days, when paralysis had curbed his accustomed activities, it is said that he continued to wear the smile which had been his custom all through life. The community will feel deeply the loss of this worthy citizen. He was 62 years old.

A Good Time Had By All.

Mr. and Mrs. W. F. West royally entertained a crowd last week with a house-party at their country home fifteen miles west of Crockett. If you care for a good time there is the place to

go. Tubb's lake and Trinity river is just a wonderful place for fishing and bathing as well as boat-riding on moonlight nights.

The old colonial-style home just seemed to say "welcome" with its beautiful cedars that scattered the moon-beams each night on a bunch of hungry fishermen enjoying watermelons.

An Edison furnished plenty of music that kept everyone full of pep.

Never before did we catch so many fish, have so much to eat, get up so early and have such a grand and glorious time.

Those fortunate enough to be there were Misses Ina and Vera Quarles of Elkhart, Mr. and Mrs. Tom Moore and daughter, Virginia, and Messrs. Harry Beasley and Ross Lee Allee.

The only thought we had of home was when we came from the lake Friday morning and were told that we were to go home that afternoon. Forever will we remember the good times shown us by Mr. and Mrs. West.

All I can say is "a good time was had by all."

A Lucky Guest.

August Examinations.

Crockett, Texas, July 18, 1922
Editor Courier:

Permit me to announce that the examinations for August will be on Friday and Saturday the 18th and 19th instead of the first Friday and Saturday as is the case in all other months of the year.

I wish to urge all parents who contemplate transferring from one district to another to attend to the transfer before the first day of August as the law prohibits the granting of transfers after that date. Transferring for high school purposes only may be made at any time but the ordinary transfers must take place before August.

The State Board of Education has ruled that a school which engages a teacher with a county second grade certificate shall not be eligible to receive state aid this coming year. It is provided, however, that if the contract was made with such teacher before the 10th day of July and if the trustees did not know of that ruling prior to that date this requirement shall not obtain.

Teachers and school boards are urged to promptly file their contracts when they are made. Teachers are urged to see that their certificates are duly recorded as the law requires, otherwise their contracts can not be recognized. Yours truly,

J. H. Rosser.

Date of Meeting Changed.

Editor Courier:

Allow me to say to your readers that it is necessary to make a change as to date of the protracted meeting of the Presbyterian church. It is to begin October 11th instead of September 24th. This change is made to suit the convenience of the evangelist and to prevent conflict in the other work.

S. F. Tenney.

SOME NEWS OF THE CROCKETT OIL FIELD

Contrary to expectations, it is said that the formations being passed through in Porter well No. 2 on the Austin farm at Crockett are entirely different from the formations passed through by the drillers in the Porter No. 1 well. The artesian water strata is an exception. At the same depth as in the first well a strata of artesian water was encountered in the second. The drill has passed the 1500 foot level and is going down toward 2000 feet. A great deal more gumbo has been gone through in the second well than in the first, which is said to be a very favorable indication. Some boulders also have been encountered. The operators are very hopeful of the new well and are of the belief that the indications are even better in this second well than in the first. They say there is no reason to doubt but what they will open up a new oil field.

The Courier has no report from either the Weldon, the Porter Springs, the Driskill or the Grapeland wells, except that the Weldon well is the only one drilling.

Farmers' Short Course.

The Farmers' Short Course at the A. & M. College begins Monday, July 24, and closes Saturday, July 29. This course of study of agriculture and live stock is open to any one interested in these subjects, both men and women, and the only charge while in attendance is your board and lodging.

Make your preparations and join one of the parties that are going from Houston county, by automobile or by railway, and spend your week's vacation at the A. & M. College where you can have, without cost to you, all the facilities of this most excellent college to assist you in the problems of agriculture or live stock you are interested in.

For any additional information you desire see your county agent, R. R. Morrison.

Married Monday.

Mr. D. H. Charles of Phelps, Ky., and Miss Juanita Hatchell of this city were married at the home of the bride's parents in this city Monday afternoon at 1:30 o'clock. Mr. and Mrs. Charles left on the 2:45 afternoon train for Phelps, Ky., where they will make their home, and to which home they carry the congratulations and best wishes of all our people. The bride is the daughter of Mr. and Mrs. Ben Hatchell of Crockett and was brought up among our people, among whom she has many admirers. The marriage ceremony was performed by an uncle of the bride, Rev. W. F. Hatchell of El Paso. The bridegroom comes of a prominent Kentucky family.

A WELCOME

Awaits you when you enter our store. We are genuinely glad to have you pay us a visit whether you make a purchase or not, for we appreciate your friendship as well as your patronage. We are here to serve you in any capacity to the best of our ability. If you are not acquainted with us and the policy of our store, we refer you to any of the best citizens of Houston county. We are willing to abide by what they will tell you. Come to see us—it will mean friendship, and friendship is the base of a mutual feeling that holds the world together.

SOOTHES AND HEALS THE BOWELS

Arrests and Relieves Most Obstinate Cases of Watery Diarrhoea, in Adults and Children, Harmless and Tasteless

Dr. James Ware's Red Powder is a tried and true prescription for that very painful, debilitating and dangerous disease—Watery Diarrhoea.

Taken as directed, it promptly stops the discharges, soothes the irritated bowels and lets the healing processes begin at once. It is harmless and tasteless—you can't take enough of it to hurt you and even children do not object to taking it.

Formulated by Dr. James Ware, a famous Southern physician, in use for over 40 years. It gives relief in all acute and chronic cases of Diarrhoea, Cholera-Infantum and such kindred ailments of adults and children.

Ware's Red Powder, Ware's Black Powder or Tablets; Ware's Baby Powder—standard family remedies. Price 50c and \$1.00 a package. Send for booklet on stomach and bowel troubles—free. The Ware Chemical Co., Dallas, Texas.—Adv. 5

A New Tread—a Lower Price Reliable Goodyear Quality

Here is a new Goodyear Cord Tire—a big, sturdy, long-wearing tire—that sells at a price lower than you are asked to pay for many "long discount" tires of unknown value. It has a different tread from the famous Goodyear All-Weather Tread Cord—a new tread with a deep, clean-cut, cog-like pattern—and it sells for from 20 to 25% less.

It has in it the same high-grade long-staple cotton, the same Goodyear patented group-ply construction, the same liberally oversize dimensions. When you buy the 4½-inch size, for example, you get a tire whose actual measurement is nearly 5 inches.

Don't confuse this Goodyear Cross-Rib Tread Cord with other popular-price cords which sell at the same price or for slightly more.

In many cases, these other cords are made of inferior materials, with short-staple cotton as a foundation.

Get the tire that is good enough to carry the Goodyear name, that is built to safeguard the world-wide Goodyear reputation.

All of the Goodyear Service Station Dealers listed here have the Goodyear Cross-Rib Tread Cord, as well as the famous All-Weather Tread Cord, ready for you now.

Compare these prices with NET prices you are asked to pay for "long discount" tires

30 x 3½ Clincher \$13.50	32 x 4 Straight Side . . . \$25.45	33 x 4½ Straight Side . . \$32.15
30 x 3½ Straight Side . . 15.85	33 x 4 Straight Side . . 26.80	34 x 4½ Straight Side . . 32.95
32 x 3½ Straight Side . . 19.75	34 x 4 Straight Side . . 27.35	33 x 5 Straight Side . . 39.10
31 x 4 Straight Side . . 23.50	32 x 4½ Straight Side . . 31.45	35 x 5 Straight Side . . 41.05

These prices include manufacturer's excise tax

Goodyear Cross-Rib Tread Cord Tires are also made in 6, 7 and 8 inch sizes for trucks.

PRECINCT CHAIRMAN—

Former Congressman of Second District Dies.

Kerville, Texas, July 13.—Hon. Martin Dies, former congressman from the Second district, died at the Sector hospital here this morning at 3:15, following an operation for appendicitis last Saturday afternoon. The funeral will be held in Houston at 5 o'clock tomorrow afternoon. Mr. Dies was born in Jackson parish, Louisiana, March 13, 1870, and moved to Texas with his parents in 1876. He was elected to the office of county judge of Tyler county in 1894 and also served as district attorney for the First Judicial District of Texas in 1898. He was elected to congress in the Second dis-

trict for the sixty-first congress and was re-elected for each succeeding term until the sixty-sixth, when he was not a candidate for re-election.

He moved to Kerrville two years ago to recuperate and was successful in regaining his health when stricken with an acute attack of appendicitis last Saturday, which necessitated an immediate operation from the effects of which he died this morning.

He is survived by his wife, one son, Martin Jr. of Orange, Tex.; three daughters, Mrs. John Burns, Center, Tex.; Mrs. Eron Howard, San Antonio, Tex.; Mrs. Melza Burge of Beaumont; three brothers, Tom, Jack and W. W., all of Houston, and three sisters, Mrs. H. C. Shell, Mrs. Amos Rich of Houston, and Mrs. S. B. Pedigo of Beaumont. Funeral services will be held at the residence this afternoon, after which the body will be shipped to Houston, where interment will take place tomorrow afternoon.

Some Postscripts.

An exposition to demonstrate the natural resources and inventive possibilities of the British empire will be held in London next year.

The riders sit beside one another and each has a pair of handle bars to guide a two-seated, foot-propelled bicycle of German invention.

For mountain climbers a Frenchman has invented portable radio apparatus that withstands the atmospheric changes of high altitudes.

Silver Dollar Coinage Ordered Speeded Up.

Philadelphia, July 15.—Orders to speed up the coinage of silver dollars to replace part of the \$300,000,000 sold during the war as bullion to England, have been received at the Philadelphia mint. Fifty thousand are to be coined daily and shipped to Washington for deposit in the treasury vault. Silver certificates will be issued against them.

The Japanese government is planning to amalgamate all electric enterprises to stabilize the industry and save money in developing water power.

Hot Weather Saps Vitality

Ironized Yeast Will Restore it Quickly

Do you feel all "dragged out"? Can't sleep? Appetite poor? Does ordinary mental or physical exertion leave you exhausted? Do you wake up feeling "all in"? These are dangerous symptoms. For they indicate that the heat is sapping your energy, strength and resistance, and leaving you easy prey for all sorts of sickness.

The thing to do, if you want to overcome fatigue, and build energy at once—is to take two Ironized Yeast tablets with each meal. Then watch the results. Before you know it that exhausted feeling will have completely disappeared. You will be able to tackle all kinds of hard work—and actually enjoy it. You will be amazed at the wonderful change it will bring. Get it today. To try Ironized Yeast entirely free simply mail postcard for Famous 3-Day Test. HENRY HAGEMEIR KILLED BY SPECIAL AT CADDO MILLS

Rev. Henry Hagemeir, pastor of the First Christian church at Terrell, was instantly killed last Sunday at Caddo Mills, Texas, when the Katy Special hit the auto he was driving.

Following is the news dispatch telling of the sad accident: Caddo Mills, Hunt county, Texas, July 2.—The Rev. Henry Hagemeir of Terrell and C. J. Gingham, a farmer residing three miles from this place, were both instantly killed and the Rev. Homer Paine, a student preacher at Texas Christian University at Fort Worth and pastor of the Christian church here, was seriously injured about 1 o'clock this afternoon, when the southbound Katy passenger train crushed into an automobile occupied by the party.

The Rev. Mr. Hagemeir had come to Caddo Mills to open a revival meeting and had just concluded his first service at the Christian church. The two preachers had accepted an invitation for dinner at the home of Mr. Bingham.

Mr. Hagemeir was driving his own car when the accident occurred. The two ministers occupied the front seat of the automobile and Mr. Bingham sat in the rear seat.

Payne's right shoulder was broken and he received a number of severe cuts on the head and face. The train crew picked him up and carried him to a sanitarium in Dallas. He was accompanied by T. C. Welch of this place. Mr. Payne is unmarried. Both Mr. Bingham and the Rev. Mr. Hagemeir are survived by families.

Eye witnesses of the accident claimed that it happened so quickly that for a moment it was impossible to comprehend exactly what happened. The car was hit broadside and was completely demolished. The force of the impact scattered the three occupants of the car at intervals of about fifty yards.

Hagemeir's head was crushed and his right arm cut off while several deep cuts appeared on the body. Every bone in Bingham's head was broken. These two bodies were very badly mangled.

CITATION BY PUBLICATION.

The State of Texas.
To the Sheriff or any Constable of Houston county—Greeting: You are hereby commanded to summon the unknown heirs of Nancy A. Edens, deceased, and the unknown heirs of D. H. Edens, deceased, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the Third Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said District, to appear at the next regular term of the District Court of Houston county, to be holden at the court house thereof in Crockett, on the second Monday in October, A. D. 1922, the same being the 9th day of October, A. D. 1922, then and there to answer a petition filed in said cause on the 22nd

day of June, A. D. 1922, in a suit numbered on the docket of said court No. 6004, wherein W. L. Moody, Jr., and Sealy Hutchings, executors of the estate of W. L. Moody, deceased, are plaintiffs, and the unknown heirs of Nancy A. Edens, deceased, and the unknown heirs of D. H. Edens, deceased, are defendants, said petition alleging that the plaintiffs are the owners in fee-simple of 823.45 acres of the James Sanders survey of land situated in Houston county, Texas, and described by field notes.

That plaintiffs, and those under whom they claim, have had and held the peaceable, continuous, and adverse possession of the land claimed and described in their petition, claiming the same under deed and deeds duly recorded, cultivating, using, and enjoying the same each and every year continuously, and paying the taxes thereon for a period of more than five years after defendants' cause of action accrued, if any ever accrued, and before the commencement of this suit.

That plaintiffs, and those under whom they claim, have had and held the peaceable, continuous, and adverse possession of the land claimed and described in their petition, using, cultivating, and enjoying the same each and every year for a period of more than ten years continuously after defendants' cause of action accrued, if any ever accrued, and before the commencement of this suit.

That the defendants are asserting and claiming an interest in and to said land which clouds the title of plaintiff, and praying that on proof being heard they have judgment for the land sued for, quieting the title thereto, and removing all clouds therefrom.

Witness, V. B. Tunstall, Clerk of the District Court of Houston county, Texas.

Given under my hand and seal of said court in the city of Crockett, Texas, the 22nd day of June, A. D. 1922.

3 MILE LIMIT MAY BE EXTENDED TO 18 BY AMENDMENT

Washington, July 6.—The 3-mile limit will be extended to eighteen sea miles for prohibition purposes, according to an amendment to the general tariff bill today offered by Senator Sterling, republican, of South Dakota. The provision would give authority to the coast guard, the prohibition navy and others charged with the enforcement of the eighteenth amendment and Volstead law, to apply for that distance the legal remedies against intoxicating liquors as a means of breaking up the rum running along the coast lines.

This character of operations is said to be the greatest impediment to proper enforcement of the anti-liquor laws. The three-mile limit for sea operations from the American shores have been fixed for many years. Beyond that point it has deemed that the government held no power to enforce its laws. Senator Sterling's provision would extend the operations as indicated for a distance of six marine or sea miles, which would treble the present distance of authority. A sea mile is slightly more than a land mile.

Law Violation Is Great Problem, Says Lenroot.

Ocean Grove, N. J., July 4.—Disregard for the law is the greatest problem that a man now faces, constituting a menace which, if unchecked, spells anarchy and ruin, declared United States Senator Lenroot, Wisconsin, in an address made Tuesday at Ocean Grove Independence day celebration.

Senator Lenroot urged observance of the Volstead law. Declaring his belief in the rights of labor to organize, he said: "The shocking occurrences re-

"111"
cigarettes

10c
They are GOOD!

cently in the coal strike region in Illinois should arouse us to action. To quit work is a right, but labor must understand that the right to work is just as sacred. Neither tyranny of capital nor tyranny of labor will be tolerated in America."

Senator Frelinghuysen, New Jersey, presided at the celebration and also made a patriotic address.

EDITORIALS BY COL. R. T. MILNER

What the Former A. & M. President Writes in the Rusk County News.

In 1870 the population of France was 40,000,000, and that of Germany was about the same. When the late war broke out France still had only 40,000,000, and Germany's population was 75,000,000. Has France reached the top of its strength?

What has become of Secretary of Agriculture Houston whom the farmers charged as having aided in destroying a remunerative price for cotton? Some time ago he was connected up with one of the big telephone companies of the country, residing in New York City.

Of all the foolish arguments that have yet been brought forth, the weakest and most foolish is the contention that the emergency tariff law that placed a duty on certain raw materials did not affect the prices of said raw materials, but that a tariff on manufactured goods does affect their prices. Can any man harmonize a logic like that?

We should not despair. These are trying times it is true. Strong men are discouraged. Hope is almost dead among certain groups of our fellowmen. But God, in His own good time, will bring about a glorious change, if the good people will only be firm and faithful. It is of all the times in generations, the only one when every man who knows his duty should do it or die.

SOUR STOMACH INDIGESTION

**Theford's Black-Draught Highly
Recommended by a Tennessee
Grocer for Troubles Re-
sulting from Torpid
Liver.**

East Nashville, Tenn.—The efficacy of Theford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Theford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Theford's.

of Alabama, complimented each other in language as follows: Mr. Glass: "Mr. President, I deny absolutely that there is a single inaccuracy in the speech to which the Senator refers. I am getting very tired of these utterly false accusations by the Senator from Alabama."

Mr. Heflin: "If the Senator charges me with making a false statement, he is a liar."

Both of the above gentlemen were willing to go to "kingdom come," with Mr. Wilson for his peace treaty.

Our good friend, Mr. Cullen Thomas, has about settled down on the League of Nations and prohibition as the paramount issues in the campaign for the United States senate. He might also, with some advantage to himself and the country at large, include a discussion of the Flood and the Destruction of Jerusalem. Ancient history contains no more interesting events than those two things.

If any impartial student will take the debates in congress since the war, and after a most careful investigation, be able to find, upon a general summing up of the whole matter, anything higher than low politics, he certainly will be a pleasing diplomat. There have not been a dozen perfectly wise and sober speeches made by so-called statesmen since the armistice was signed. They all bear the stamp of unrest, excitement, intolerance and moral weakness.

The Federal Reserve Board which is the victim of the harshest and bitterest criticism is a product of the democratic administration, and the strangest thing about it is the fact that none but democrats have criticized it. The law under which that board acts was passed by a democratic congress, the board was appointed by a democratic president, and still not a republican has ever said a word against it. Some strange things have taken place at Washington in reference to the federal banking law and the federal reserve board. The able author of the bill, Senator Owen, has said some mighty harsh things about the way in which the board has acted. Senator Glass is the only man of any party who has come to the rescue of the law and the board.

Whether we have a high tariff or a low tariff profiteering goes on all the same. For instance, we are now operating under a democratic tariff law which was enacted during Mr. Wilson's administration, and many things made in Europe come into our country under a low tariff. It was shown in the senate the other day that linen towels, including duty are brought here for \$19.90 per dozen and sold for \$65 per dozen. Cheaper towels, such as the ordinary family would use are landed at a cost of \$4.87 per dozen and sold for \$24 per dozen. Shotguns that are made in Germany and sold to the importers for \$1.80 and the retail price over here is \$15.00, or 1556 per cent profit. Clocks that run 400 days, made in Germany, cost the importer, duty and all \$2.21 and sell for \$30. This list goes on including many articles, and the robbery never ends.

The country is tired awful tired, of that gone-to-seed element in the senate of these United States. The discussions of the present tariff bill that go

on daily in that distinguished body are so devoid of high and dignified statesmanship, so destitute of logic and reason, that they alone are enough to turn the voters against any one of the gang that offers for re-election. Time is consumed in talking about non-essentials, every foolish advantage is sought that might give one party a few more votes this fall than the other, and days go by while the people look on with disgust, and as fast as the primaries take place in which any one of the tribe, on either side, is out for re-election down he goes in defeat.

Prairie Grove News.

Editor Courier:

Most of the farmers in this section are about through with their crops, after the many weeks of pretty weather.

Miss Bertha Holliday spent Sunday and Monday at home from the Sam Houston Normal at Huntsville.

Mrs. F. H. McPhail is visiting her parents, Mr. and Mrs. J. B. Sowers.

GERMANY MUST PAY INDEMNITY ON TIME

COMMISSION DECIDES 32,000,000 GOLD MARKS DUE SATURDAY.

Paris, July 18.—Germany must pay without delay 32,000,000 gold marks due Saturday as an installment on her war indemnity, the reparations commission has decided.

This is the answer made today to the tearful plea of the German representatives here that the payment be suspended because of the serious financial situation in Berlin.

The reparations commission took under advisement the German request for a moratorium on further reparations payments until 1924, promising a decision within a month.

Reparations Promise.

While the reparations commission promise the Germans to study their note with all care which the gravity of the situation described demands, they add that they are convinced that the reparations payments constitute only one and not even the most important of the causes of the present depreciation of the mark and that nobody can definitely re-establish a stable situation except by the immediate adoption of financial reforms which the reparations commission has for a long time demanded.

Germany is reminded that the installment July 15 has been already reduced by 18,000,000 marks through credits applied to her account for delivery of coal and dye-stuffs. In view of this reduction the commission says prompt payment of the balance is expected.

The commission insists it will make no further concessions or promises pending a report from

the guarantees commission now in Berlin investigating Germany's ability to pay. M. Dubois, the French member of the reparations commission is understood to have drafted the reply and to have been largely responsible for the firm tone taken.

The commission was under strong pressure from Premier Poincare, who effectually prevented the pen picture of Germany's plight painted by Herr Fischer in his recent memorandum from softening its feelings unduly.

HUGE TARPON ON LINE PULLS BOY INTO GULF

Galveston, Texas, July 15.—Fighting for his life, entangled in a fishing line with a huge tarpon at the end of it, Jim Ellis, Galveston boy, had a narrow escape from drowning Saturday morning.

Ellis was fishing at the pier at the foot of Twenty-first street, when a huge "silver King" hit his lure. In attempting to land the fish he lost his balance and fell into the gulf, becoming entangled in his line. A fight to keep above water and disentangle himself occurred, and when almost completely exhausted and help some distance away, Ellis fought clear and made his way to shore.

Ellis suffered no ill effects from his battle in the water and treated the matter as "fisherman's luck."

With a larger tone chamber than usual and a sound box resembling the body of a guitar, a phonograph has been specially designed for broadcasting concerts by radio.

MORAL TRAINING IN OUR SCHOOLS.

America has a wonderful public school system, and the teachers deserve great credit for their effort in training American children, for they are a very independent race.

Our present courses do not, however, include teaching of any definite code of ethics or, code of morals, if you please, and it is a serious shortcoming. There is no country in the world where children are so free from religious influence as here, but neither is there any other country where they receive so little definite

instruction in how to behave as they do here.

The Ten Commandments would serve as a mighty good code of morals and while it is true that these commandments are found in the Bible, it cannot be said that they refer to any particular religion or creed. They are a sound basis for conduct and are well worth teaching our young Americans.

If this code is not satisfactory then let us formulate another code which we all can accept as fit to teach our children and let us incorporate that in the regular public school instruction.

We can afford to devote a definite period in the regular curriculum to giving them instruction in truthfulness and honesty, as well as other details of the moral code. We cannot too strongly impress upon the growing minds the abhorrence of lying and stealing. As it is we only refer to these things when special cases come up.

It is a fact that children pay more attention to instruction given them in the school than they do to what their parents tell them. Of course our teachers everywhere do teach them some ethics, but only through their personal conduct and an occasional lecture.

If we taught grammar and arithmetic in that manner very few of our children would learn much about these branches, and since we acknowledge this fact by teaching them diligently it seems logical to do the same with respect to morals and ethics.

We all acknowledge the necessity for thorough training in any of the different studies such as mathematics, language, etc., in fact we know that unless our children attend school regularly covering all grades and the high school, they will not be equipped to take good care of themselves. If this is true concerning such things, is it not equally true concerning morals and does it not indicate the necessity for a more definite training in a code of morals?

Let us teach our children, in the public schools, a simple, straightforward, but definite code of morals, just as we now teach them mathematics or other subjects. Then they will become better citizens and will be able to promote a better civilization.—Contributed.

ABOUT KILLING THE BOLL WEEVIL

Senator Dial of South Carolina received the following letter from one of his constituents and had the same published in the Congressional Record:

During the past few days many farmers in this section have made tests with various mixtures of calcium arsenate and molasses and in every instance with which I am familiar they are delighted with the results. On our own plantations we have experimented with several mixtures and are now using a mixture of one-half gallon of warm water in which is thoroughly mixed one pound of calcium arsenate and added to one-half gallon of black molasses. We have found a convenient way to apply is to use a quart bottle which is filled three-quarters full of the mixture. Cut a trench out of one side of the cork, reverse the bottle and apply to the bud of the cotton by shaking or plunging motion, dropping two or

three drops in the bud of the plant. This method requires less of the mixture per acre and keeps it thoroughly agitated all the time. We find that none of the mixture should be carried overnight as it is hard to mix the next morning. No more should be mixed than can be used during the day, and it should be thoroughly stirred before pouring into the bottle (or buckets if the mop is used.)

Mr. Randolph Gillespie applied the molasses mixture to three different fields on the 12th, 13th and 14th. This morning (the 16th) he spent more than an hour in these fields searching for weevils. He found no live weevils and no recently punctured squares. There were many weevils in the fields before the poison was applied.

Mr. J. L. Jordan was picking about 50 weevils per acre from his fields before poisoning. He poisoned on the 8th and 9th, and on the 12th and 13th he sent hands into the fields to pick weevils and the hands could find no weevils. Mr. Jordan and Mr. Middleton went into the fields themselves and looked for some time and could find none.

On Monday, the 12th instant, we poisoned the field near the Pedigreed Seed Co.'s gin and warehouses in which numerous weevils had been observed. On Wednesday we sent about 20 hands into this field, offering them 2 cents for each live weevil. A few quit pretty promptly on not finding any weevils. About 15, however, kept looking for some time, but none found a weevil after going over about 7 acres. Mr. Sharpe, who was in charge of the gang, raised the

price to 5 cents per weevil, but still failed to find any. Later the price was advanced to 10 cents per weevil, and not a single hand found a weevil after searching two hours.

I have two letters from G. M. Norris, of Vance, Orangeburg county, who last year applied on or about June 10, a mixture of 1½ pounds of calcium arsenate and 1 quart of hot water mixed with 1 gallon of molasses. He stirred the water and arsenate for 30 minutes before mixing with the molasses and applied with a mop. He says one man or boy can apply to 4 acres per day. He gathered 900 pounds of seed cotton per acre and only made 200 to 400 pounds per acre on the balance of the farm. He stirred the water and arsenate for 30 minutes before mixing with molasses and applied with a mop. He says one man or boy can apply to 4 acres per day. He gathered 900 pounds of seed cotton per acre and only made 200 to 400 pounds per acre on the balance of the farm. He does not consider this test positively conclusive, owing to the fact that he had no untreated cotton. He is confident that the poison was responsible for his comparative success in a section which was almost wiped out by the weevils last year. The cost of the mixture, Mr. Norris says, was 20 to 26 cents per acre.

All the farmers who have reported on the use of the mixture in this section agree that the cost is between 15 and 25c for materials. Mr. Norris reports that most of the farmers in his section are using the molasses-calcium arsenate mixture this year, and so far as he has heard

they are pleased with the results.

I can not be certain that by the use of calcium-arsenate-molasses treatment any farmer will make a crop of cotton, and I can only be sure that under the weather conditions we have had here since May 30th that the vast majority of the weevils have been killed and that few weevils are left in the treated fields and few punctured squares are appearing. The cost of the application is so slight and the results appear so manifest that I feel that every farmer can ill afford not to invest 20 cents per acre per application for this treatment, and apply it several times at intervals of a week or 10 days. There is not the slightest question that millions of weevils have already been killed by this treatment during the past 10 days, and it stands to reason that this has done some good.

SUCCESS.

Success is an elusive quality. Sometimes it is measured in dollars; sometimes in deeds. Often the millionaire is not particularly successful and often the comparatively poor man is distinctly so.

In every case success means accomplishment in some form, and in greater than the average measure.

Success is always the result of persistent, consistent and conscious effort. Result obtained without conscious effort do not constitute success.

Finally then, success is achievement as the result of consistent, conscious effort.

Tell him that you saw his ad in the Courier.

Unexpected!
a New "USCO"—
Better, Heavier, Longer Wearing
30x3½ - \$10.90 No Tax added
on Sale Now

USCO set the high value mark for 30 x 3½ tires when it originated the \$10.90 price last Fall.

USCO today betters that mark with a new and greater **USCO**—an **USCO** improved in many important ways.

For instance, a thicker tread—with a surer hold on the road—thicker side walls, adding strength and life to the tire.

And the price is \$10.90—with the tax absorbed by the manufacturer.

Men have always looked to **USCO** for the biggest tire money's worth on the market.

They always get a bigger tire money's worth than they expect.

Having completed her course at S. H. N. I., Mrs. F. D. Webb of Goose Creek is visiting her parents, Mr. and Mrs. S. A. Cook. She will be joined by her husband the latter part of the week.

Error Corrected.

In the advertisement of the Crockett National Farm Loan Association published in the Courier last week, an error was made that shortened the life of a loan thirty-one years and constituted a considerable item. The advertisement read that the loan could be made "at 5 1/2 per cent interest with 3 1/2 years time to pay," when it should have read 34 1/2 years time to pay in. Correction has been made and the advertisement reproduced in another place in this paper, to which your attention is called.

Money to Loan to Actual Farmers.

For the purpose of taking up and extending purchase money debts against farms.

To purchase lands needed by actual farmers.

To purchase livestock, equipment, etc.

To liquidate indebtedness incurred for agricultural purposes.

This money can be loaned to you at 5 1/2 per cent interest, 34 1/2 years time to pay.

If you have a farm for sale, let us know and we will find you a buyer.

If you wish to purchase a farm, we can assist you in paying for it.

Call or write to John H. Ellis, secretary and treasurer of the Crockett National Farm Loan Association, Crockett, Texas. 1t

Women of "Experience" Cast Wear \$100,000 Worth Furs.

Probably the most costly array of furs ever seen in a Paramount picture is worn by the principal woman character in "Experience," which was produced under the direction of George Fitzmaurice and which

"Service With A Smile"

comes to the Crockett theatre. Arrangements were made with a prominent Fifth Avenue furrier for \$100,000 worth of fur coats, wraps, stoles and scarfs for use in the picture.

Yvonne Routon, as "Fashion"; Nita Naldi as "Passion"; Lilyan Tashman as "Pleasure," and Edna Wheaton who plays "Beauty," appear gorgeously attired in furs that will give those who see the picture a glimpse of the latest style in fur pieces. In one scene "Pleasure" wears a \$3,500 Russian sable stole and in another a \$30,000 chinchilla coat. "Passion" appears in an ermine coat valued at \$20,000; "Fashion" displays several fur pieces of great value and "Beauty" is attired in an evening cloak of manor velvet, embroidered in crystal and trimmed with Russian sable.

Dance Wednesday Night.

As a compliment to the city's visitors, some of the young men of Crockett sponsored a dance in Eichelbeger hall Wednesday night of last week. Among the visitors attending were Misses

Mary Jane Upton and Grace Revelle of Paris, guests of Miss Hilda Burton; Miss Eleanor Eby of Pennsylvania, guest of Miss Ruth Warfield, and Mr. Pace McDonald and party of Palestine. The music was by a combination of Crockett and Trinity talent. About twenty couples including chaperones were in attendance, and the event, in spite of the hot weather, was declared a most pleasing success.

Made Short Speech.

Hon. James E. Ferguson, former governor of Texas and now a candidate for United States senate, spoke from the bandstand in the court house yard at Crockett Wednesday afternoon at 3 o'clock to a good sized crowd of voters. On account of the funeral of a prominent Crockett citizen which was to be held at 4 o'clock, Mr. Ferguson made only a brief talk, giving only a synopsis of why he is in the race. He was scheduled to speak at 2 o'clock, but his train did not arrive until 2:45, hence the delay in speaking.

W. W. AIKEN, Editor and Proprietor

County Convention Called.

To the Democrats of Houston County:

I hereby call a county convention of the democrats of Houston county to convene at the court house in Crockett on Saturday, the 29th day of July, 1922, at 10 o'clock a. m., for the purpose of selecting delegates to the state and district conventions of the democratic party, and for the transaction of such other business as may come before the convention.

To this end, I hereby request that the democrats at each and every voting precinct hold their precinct conventions next Saturday, the day of the first primary election, and elect a chairman for such precincts for the next two years, and select their delegates to the above-mentioned county convention.

I also request that I be furnished with the name of the chairman for the precinct in each voting precinct in the county. The law requires that this be done, and that the voters at each box elect an executive committeeman as well as a precinct chairman.

J. W. Madden,
County Chairman.

"WINNERS OF THE WEST" Chapter 6.

Buried Alive and the Deputy's Double Cross. And the Touch Down. Special Music.

AN APPEAL TO THE DEMOCRATS OF HOUSTON COUNTY

It is important that you should know that there is a deep-laid, under-handed and dangerous plot and scheme to defeat Governor Pat M. Neff in his race for a second term.

This situation has just become apparent, and it behooves all lovers of law and order, good morals and fair dealing to rally to the active and energetic support of the Governor on July 22.

Of course, some good citizens are opposing Governor Neff, but the liquor interests and their sympathizers are all combined against him, and the larger program is to subvert the prohibition amendment, nullify its enforcement, and lead back to the control of our party machinery by the old liquor interests.

Let us not be deceived, nor be too sanguine, but be on the alert, and work hard for Governor Neff's re-election. "Eternal vigilance is the price of liberty," so let's put the people on guard, and urge every voter to the polls next Saturday, vote for Governor Neff, and save our state from the disgrace of a possible defeat, or even a small majority. Houston County Neff Campaign Committee.

(Political Advertisement.)

Dance Monday Night.

Some of the young men of Crockett gave a dance in Eichelberger hall Monday night, in which the following visitors participated: Misses Mary Jane Upton and Grace Revelle of Paris, guests of Miss Hilda Burton; Miss Eleanor Eby of Pennsylvania, guest of Miss Ruth Warfield; Misses Lorine and Mae King of McKinney, guests of Miss Katie King, and Misses Elizabeth O'Connell of Palestine and Helen Scowden of Conroe, guests of Misses Marjorie and Sue Morrison. Good music was supplied by the local orchestra known as the "Pine Bur Foot Warmers." Including chaperones about thirty couples participated and a good time is reported.

NEFF AND MEXIA.

If Governor Neff's action in Limestone and Freestone counties was usurpation, as one of the speakers before the Texas Bar association charged, it is high time that the laws of the State should be changed to make such action within the law. "Although I would not enlist the aid of one state ranger or one unit of the national guard to do a thing for Texas if I had to go beyond the law to do it," the governor said in an address given by invitation before the association, "yet as long as I am governor of the state and as long as a ranger can pull a trigger, no lawless element or institution will control a county in Texas as the outlaws of Mexia and Freestone counties endeavored to do." And the people of Texas, particularly those having some knowledge of the outrageous conditions in the Mexia oil field, will applaud that stand, because it got results that drove out 2,000 thugs, highjackers, bootleggers and other criminals who had overawed the officers and the lawful citizens, and corrected a condition that was a disgrace to Texas and a positive menace to the lawabiding people of the affected area.—Denton Record.

HENRY SAYS NEWS NOT PRO-CATHOLIC

Candidate a Klansman, Denies Charge of Religious Affiliation.

Gainesville, Tex., July 13.—Denunciation of Cullen F. Thomas and Earl B. Mayfield, the former for "delving into past history" for campaign issues, and the latter for his "continued pussy-footing on the klan issue," featured the address of Robert L. Henry of Waco, delivered from the courthouse steps of this city last night.

In the course of his address, Mr. Henry also took up the position of the News toward the klan and defended it from the charge of being inspired by pro-Catholic motives in the fight it is making against this clandestine organization.

"Being a klansman myself," said Mr. Henry, "I can speak with authority. I am in a position to tell you that the charge that the great newspaper, the News, is pro-Catholic, is false in every sense of the word. And because of this it is a great mystery to me why this newspaper takes the attitude it does toward the klan.

"It is well understood, or should be, that the management of the News is composed of men who could not possibly be pro-Catholic. The News is, in fact, honeycombed with men in its business and executive departments who entertain sentiments and have affiliations with 100 per cent Americanism. And by 100 per cent Americanism I do not mean klanism, but simply what I say—real 100 per cent Americanism.

"I personally have come into contact with many of the heads of their business and executive departments in ways that make me surely know that the institution can not be pro-Catholic."

In speaking of Mr. Mayfield, Mr. Henry said: "The outstanding marvel to me in this campaign is why for four months Earle B. Mayfield has refused to defend the klan and why he still refuses to do it."

Mr. Henry also attacked Mr. Mayfield vigorously for his failure to resign from the railroad commission before seeking the office of United States senator.

ANTI LYNCHING BILL.

Favorable report of the senate committee on the Dyer anti-lynching bill is no doubt connected with recent outbreaks of lawlessness. A Tuskegee institute report gives the number of lynchings for the first six months of the year at thirty, twelve of which were perpetrated in the one state of Texas.

The significant thing about the situation is that lynchings are even more numerous than in a period about a decade ago. For twenty years after 1892, when as many as 208 lynchings occurred, there was almost steady decline in the annual number of outrages. The number fell below one hundred in 1914 and has not since reached that figure in any year. In 1913 and again in 1914, lynching of the country totaled only fifty-two. But in 1919 the lives of eighty-three persons were taken by mobs; in 1920 the figure was sixty-one, and last year sixty-four.

The national measure is aimed directly at this condition. It

provides penalties in three important directions, and is calculated to arouse the sense of responsibility of communities, as well as legal authorities, for lynching outrages. In addition to the penalty of life imprisonment of lesser punishment for persons who participate in mob action and for officials who neglect their duty of quelling mobs, the bill provides a heavy fine for the county in which a lynching occurs or in which a mob seeks to take the life of an individual. The objection that the rights of the States are infringed upon in this piece of legislation is not likely to be sustained, in view of the very obvious fact that the

States have not acted to prevent lynchings and do not appear on the road to such action now. Lynching, like child labor and the use of liquor, is a national evil and it can be best dealt with by the federal authority.—Kansas City Star.
