The following resolutions were offered and adopted:

The democrats of Houston county, in convention assembled, professing loyalty to the democratic party and its time-honored principles, and believing that in the perpetuation of these principles, depend the safety and well being of this republic, hereby adopt the following resolutions, viz:

First: We oppose the administration of President Harding as weak, unwise, incompetent and unstatesmanlike, and believe the same has been in favor of the classes as against the masses, and declare it to be our candid opinion that the republican party deserves to be retired from power at the next general election.

Second: We hereby heartily endorse the administration of Governor Pat M. Neff, and, without meaning to disparage the claims of his opponents in the recent primary election, congratulate him on his nomination for a second term, and trust that he will be re-elected and that his further administration of the state government will be conducted with that spirit and in that course that may redound to the good of all the people of Texas.

Third: That, while we bow with submission to the will of the people of Texas, in their retirement of Senator Charles A. Culberson, as one of our United States senators, we hereby commend his course in the senate

for the last twenty-four years, as being of that wise and statesmanlike character becoming one who holds that exalted office, and assure him that he shall ever have our confidence and good will in the walks of private life, free from the burdens of official cares, all of which he has borne with credit to himself and with the greatest loyalty and fidelity to his constituents.

Fourth: We also endorse the official record and conduct of the Honorable Morris Sheppard, the junior United States Senator from Texas, as able, wise, sound and patriotic, consistent with the best traditions of the democratic party and the United States senate.

Fifth: We hereby renew our pledge to support the democratic nominees of the democratic primaries throughout the state, and appeal to all democrats to do all in their power to carry success to the polls in the November election.

Thereafter the following resolution was adopted:

Resolved, that we, the democrats of Houston county in convention assembled, are opposed to any repeal or revision of the Volstead act, and especially declare ourselves opposed to the insidious attempt to legalize the sale of light wines and beer, which would be but a step in the direction of entire nullification of the Eighteenth Amendment.

We further declare ourselves as being in favor of such additional legislation as will tend to the more rigid enforcement of the Volstead act.

The county democratic executive committee then submitted to the convention reports of the results of the recent primary election in Houston county, and said report was by the convention in all things ratified and adopted.

After which, there appearing no further business, the said convention adjourned, sine die.

A. A. Aldrich, Chairman.
Correct attest: N. H. Phillips, Secretary.

SOME NEWS OF THE CROCKETT OIL FIELD

The drill in the Porter well at Crockett has struck rock and a close-down for two weeks has been made. The rock is of such hardness that the tools now in hand will not penetrate it.

A different drilling tool will be ordered and operations will be again started when the new tools arrive, which will be in about two weeks. In the meantime Mr. Porter will take advantage of the close-down to attend to some business matters at other places in and out of the state. No statement has been given out by the operators as to the depth of this well, but it is estimated to be around 2300 feet. The indications are that something good will be found under the rock which has been reached by the drill.

Operations at the Driskell well are to be resumed this week. Col. Otis has returned from Philadelphia and New York where he completed arrangements for the resumption of the work. This well was down to 1500 feet when operations were stopped. Col. Otis thinks he will be able to complete the well under present arrangements.

The Courier has no report from the Weldon well, the Porter Springs well or the Grapeland well.

Negro Fair.

The agricultural exhibits gotten up and exhibited by the negro farmers of Houston county at the court house in Crockett Friday was a most creditable undertaking. The negroes should be encouraged in all such commendable enterprises. Agricultural industry and thrift are desirable among all races and especially so at this time among the negro race in Houston county.

SOME RESOLUTIONS PASSED BY HOUSTON COUNTY TEACHERS

Because of an erroneous report having been circulated in Houston county regarding our attitude toward the county superintendent's race, we teachers of Houston county composing the "Houston County Club," in the Sam Houston State Normal, contribute the following resolutions which were passed unanimously at our last meeting:

1. Resolved that since we are in closer touch with the country schools and country children than any other element of our citizenship, we are in position to know for sure what ought to be the attitude of those officers administering the affairs of those schools. Since we are intimately acquainted with and related to the country schools of our county, we can choose intelligently and fearlessly and respectfully in recommending our leadership.

2. Resolved that we commend the candidates for county superintendent in their recent race for their genuine personal pride and professional ethics, and that we bitterly censure those who should not have been seriously interested for attempting to inject bitterness into it. We urge that the two candidates who engage in the second primary devote themselves to that high degree of courtesy which has characterized them up to this time.

3. Resolved that the country school business of our county is the biggest and most vital agency in the country for good or for bad, and that inexperienced, unqualified or doubtful leadership at this time would be extremely venturesome, expensive and dangerous.

4. Resolved that the independent districts in our county are composed of intelligent people, and people who as a whole are interested in education and scholastic prosperity, and that we commend them in their wisdom in choosing their superintendents, but who we believe may not get always the rural viewpoint of the situation and that many of them may, out of human sympathy and personal preferences or for other undue reasons, exercise an unsafe influence in choosing our superintendent.

5. Resolved that we stand for executive skill, firmness and honesty as opposed to official vacillation, brilliant sociability and petty politics. We stand for an open, correct and direct interpretation of duty and the proper application of the law, because any other attitude is dangerous to the real educational advancement of our country schools and people.

6. Resolved that we stand for growth and for the brighter outlook which we hope will come to Texas and to our county and that we solicit all good people to scholastic optimism and pride.

7. Resolved that we unqualifiedly endorse the administration of our present county superintendent. We are prepared to say that he has been our fearless leader and our reliable counselor and trustworthy friend. He has at all times looked through and beyond us to the genuine interest of the children whom we have taught and has never hesitated or dodged any issue wherein the child's welfare was involved. He

has been always courteous without being profuse and has always advised without leaving us in doubt as to how to interpret his advice.

8. Resolved that the adverse criticism of him has not come from his professional attitudes which have been the most genuinely honest motives and honest efforts. We desire business methods in a business and we know that this desire has been met in our present leader.

9. Resolved that we have a high regard and supreme sympathy and respect for any other aspirant to the county superintendency of our county, but that we respectfully and emphatically endorse the candidacy of Mr. Rosser as being better qualified by far in every essential respect for the arduous duties than any available candidate.

10. Resolved that these unsolicited resolutions issue from a genuinely respectful and honest motive. We are not politicians, but we desire real scholastic leadership, politics or no politics.

SAYS WAGE CUT IS IMPOSSIBLE

THINKS JOINT MEETING TO END WALKOUT WILL CONVENE.

Philadelphia, July 27.—Standing in the lobby of the Bellevue Stratford hotel, where he has been conferring with district presidents of the union from Pennsylvania, Ohio and Indiana, Mr. Lewis dictated the following statement to newspapermen.

"It is undoubtedly true that to all purposes and effect the mine workers have won their present strike, and it is most universally recognized in industrial and financial circles throughout the country that no wage reductions can be applied to mining industry.

"It only remains for an interstate joint conference to be convened in order to permit of the immediate negotiations of a new wage agreement. This is the only way by which a settlement can be made. There will be no district or separate settlements.

"I have every reason to believe that an interstate joint conference of the central competitive fields will be arranged within a few days. Such an arrangement will permit a resumption of mining, a relief to embarrassed industries and a suffering public."

It was pointed out by union leaders that all district presidents of the central competitive fields, which include Illinois, Indiana, Ohio and western Pennsylvania, are here except Frank

Farrington of Illinois. When newspaper men asked Mr. Lewis upon what developments he based his belief that an interstate conference will be held in a few days, the miners' chief replied he would not add another word to which he had said.

It was understood that the conference would be called as soon as there is an assurance that sufficient tonnage would be represented to make a basic wage scale possible. This has been the attitude of the miners right along, it was said.

Mr. Lewis in his conferences with the district presidents has been receiving reports of conditions in the bituminous and anthracite fields. It is believed the union leaders have been assured that certain soft coal mine owners who have been holding out for district wage settlements are now willing to enter an interstate conference. The amount of tonnage has been gone over and has influenced Mr. Lewis in his belief that a conference is imminent. He would not discuss the amount of tonnage that would have to be represented.

Whether coal operators will go into conference with a tacit understanding that they are not to press for a reduction in wages could not be learned.

FORMER TEXAN TO RUN FOR SENATOR

John B. Kendrick Will Be Candidate for Re-Election in Wyoming.

Washington, July 22.—Senator John B. Kendrick, one of the early day Texas cowboys, recently issued a statement that he would be a democratic candidate to succeed himself as United States senator from Wyoming. Senator Kendrick is a native of Cherokee County, Texas, but soon after his birth, in 1857, his family went into the cattle country of West Texas, settling not far from Georgetown. His father and grandmother were among the early Texas pioneers.

The Kendrick family continued stock raising, and the present senator made frequent trips over "the old cattle trails" to the Northwest. Soon after the organization of Wyoming he settled there and was engaged in stock growing, which he has continued until today he is one of the largest producers of his state. He was elected to the state senate and then governor, which office he resigned in 1917 to take his seat in the United States senate for a six-year term. Senator Kendrick also served as president of the American National Livestock Association.

The republican candidate opposing him will be Frank W. Mondell, now completing his twenty-second consecutive year in the house of representatives from that state, and serving from the state at large. Mr. Mondell has two additional years to his credit, but left congress for a term to be assistant commissioner of the general land office. Since republicans came into power two years ago, Mr. Mondell has been the majority floor leader of the house. He is one of the strongest debaters on the republican side.

Wyoming is normally a heavy republican state, Senator Kendrick being its first democratic senator. The campaign against Mr. Mondell will be pitched upon the failure of the republican legislative program since the party came into power, the high tariff. Senator Kendrick's friends are appealing to stockmen to re-elect him. Both candidates have supported the rates in the tariff bill which seek to protect the Western producers.

REMINISCENCES OF EARLY PALESTINE

Mr. C. A. Sterne, perhaps the oldest living citizen of Palestine, was honor guest and main speaker before the Rotarians today, giving many interesting reminiscences of Palestine and Anderson county. Mr. Sterne is 92 years of age, and when 17 years old rode this section—from old Fort Houston, near the present site of Palestine, to Nacogdoches—carrying the mail back and forth; afterwards locating in Palestine. He kept hotel here for a great number of years, and is owner of the hotel property now known as the Batty Hotel.

Uncle Charlie reviewed the early settlement of this section, and the establishment of Anderson county in 1845. It was part of Houston county, until made a separate county. He said more than 20 families came to make up the population of Palestine on its organization as a county seat. He detailed how, in the early days, before the coming of the railroad, the cotton grown here was hauled to points on Red River, and then carried via steamboats to New Orleans. The goods brought to Palestine took the same route. Then steamboating was established on the Trinity river, and the head of navigation was Magnolia, at the point now known as Magnolia crossing, ten miles west of the city. A great business was carried on via boats from six to nine months of the year. He told of the establishment of the first telegraph line, something new and experimental. He said that the first church built in the county was old Pilgrim church, built by the Parkers at Elkhart; the settlement of the various colonies—Tennessee, Colony, Kickapoo, etc. Then came the civil war,

and the terrible four years strife, with the passing of many of the men who volunteered and served for their country. The thirteenth legislature—the carpet bagger legislature—granted the charter to build a railroad from Hearne east, and Palestine gave a \$50,000 bonus and much land to have that road built to Palestine. Then the International was built from Houston north. The intention was to build to Rusk and Henderson; but the citizens of the city and county here, by voting bonds in the sum of \$150,000, induced the road to build to Palestine, connecting here with the other line. Its offices and shops were built here, and the two roads

afterwards consolidated. He told of the first street car line built in Palestine, and operated for a time, between the new and the old town; because the advent of the railroad, with its depots, etc., located a distance from the old town, created a new town. This street car equipment was afterwards sold to Dallas, and became Dallas' first street car line.—Anderson County Herald.

WHO IS FINANCING PUSSYFOOT THIS TIME IN ENGLAND?

London, July 22.—William E. Johnson, the American prohibition advocate, has caused another stir in London and as a result pertinent questions are being asked as to what he is doing here and who is financing him, and certain newspapers who are pushing a campaign against him say that he is cornered.

Johnson declared that he was the invited guest of British patriotic organizations, but thus far none has come out to support him in his claim that he is not paying his own expenses. Meanwhile his activities are confined to office work and not to dramatic meetings such as marked his former visits here. He is regarded here as the personification of American prohibition and many organizations, including saloon keepers, distillers and brewers, are hot on his trail and boast that they will run him out of the country.

John, as amiable and smiling as ever, wrote a letter to one of his critics saying: "British organizations have been employing lawyers in America to fight the prohibition law. It is not resented in America—our lawyers need the money. I will be glad indeed to have you come to America and explain to us benighted people the benefits which are derived from exploiting the vices and weakness of others. We will listen to you and will invite you around for a cup of coffee and then we will do as we please about taking your advice. I have given the British no advice about anything and do not intend to."

Missouri Lady Suffered Until She Tried Cardui.—Says "Result Was Surprising."—Got Along Fine, Became Normal and Healthy.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me. "I saw after taking some Cardui . . . that I was improving. The result was surprising. I felt like a different person."

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night, I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me . . . My doctor said I got along fine. I was in good healthy condition. I cannot say too much for it."

Thousands of women have suffered as Mrs. Williams describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui if troubled with womanly ailments. For sale everywhere. R.33

is visiting England. This was denied by the secretary, who said that the society neither contributed to his expense nor invited him. The Scottish Permissive Bill Temperance Association also denies that it is financing him. A wide discrepancy is apparent in the statements of Johnson and of the British temperance organizations, and the scandal is making it plain, according to the newspapers, that Johnson cannot figure seriously in the British temperance fight in the future.

Johnson said: "The only fault I have to find is that the people have the idea that I am here to start a rough house and an intensive campaign. They are on the wrong track. I came solely to look after routine affairs and to confer with our organizations regarding the international convention at Toronto in November before proceeding to New Zealand."

Johnson is taken far more seriously here than in America, being constantly watched by the liquor interests, who say confidentially that they will not permit him to get away with his temperance crusade much longer.

Anti-Klan Candidates Are Defeated in Harris County

Houston, Texas, July 22.—The so-called Ku Klux Klan slate swept the democratic primaries in Houston today.

The following, all of whom were opposed to avowed anti-klan men, were apparently elected at midnight tonight, with from 42 to 56 of the 106 county boxes tabulated: J. Dixie Smith, for district attorney, with 4,482, against E. T. French, the incumbent, 3,519, and Bracewell, 608; T. A. Binford, for sheriff, re-elected, 5,061, Ed Carr, 3,003; Chester H. Bryan, for county judge, re-election, 4,731, against Jim Reeves, 3,200. O. M. Duclos for civil district clerk, re-election, 3,427, against McHugh, 1,959; Murray B. The new Goodyear Cross-Rib Tread Cord

Discounting the "Discount" in Advance

You don't have to be a shrewd bargainer to get the bottom price on the new Goodyear Cross-Rib Tread Cord.

Instead of listing it at a high price, to enable the dealer to attract you with a so-called "long discount," we list it as low as we profitably can.

You can see from the figures below that its advertised price is lower than the net price you are asked to pay for many "long discount" tires of unknown value.

We believe the average man would rather buy tires on this frank and open basis, and assure himself a product of recognized worth.

The new Goodyear Cross-Rib Tread Cord is made of high-grade long-staple cotton, and it embodies the patented Goodyear method of group-ply construction.

In design, materials and manufacture it is a representative Goodyear product, built to safeguard the world-wide Goodyear reputation.

It has a different tread from the famous All-Weather Tread Cord—a new tread with a deep, clean-cut, cog-like pattern—and it sells for from 20% to 25% less.

You can get the new Goodyear Cross-Rib Tread Cord now, as well as the famous All-Weather Tread Cord, from any of the Goodyear Service Station Dealers listed here.

GOODYEAR

ISSUES OF RUNOFF RACE ARE VARIOUS

Railroad Problem and Prohibition Paramount, Says Mayfield.

Dallas, Texas, July 27.—Cato Sells, who was commissioner of Indian affairs under the Wilson regime, will support Earle B. Mayfield, candidate for United States senate, in the August runoff with former Governor James E. Ferguson, according to a telegram received this morning at Mayfield headquarters in Dallas. Full support and commendation of the attitude of Mr. Mayfield in the transportation acts, the Volstead act and his adherence to the Wilsonian policies, are voiced in the telegram from Mr. Sells.

"I look for one of the hottest political campaigns in the history of Texas, and am primed for the battle. My second campaign will be opened with an address at Fort Worth Tuesday night," Mr. Mayfield declared in discussing the contest for the democratic nomination to the United States senatorship today.

Before going to Fort Worth this morning for a conference with supporters there, the following statement was issued by Mr. Mayfield:

"I desire to express my heartfelt thanks to my loyal friends throughout the state who exerted their best efforts in behalf of my candidacy for United States senator, and to the thousands of democrats who voted for me in the Saturday primary I wish to say that I shall never be guilty of any act, official or personal, that will cause them to regret having given me their active support.

"A careful analysis of the returns shows that my support was general throughout the state, and undoubtedly indicates that the people of Texas are more interested in preserving the life of their railroad commission than they are in any other great economic question. The 'farm bloc' in the senate has on its program the proposi-

tion of restoring the ratemaking powers to the state commissions. Republican states of the West are nominating as their candidates for the United States senate men who are pledged to make a fight for the repeal of the Esch-Cummings transportation act and for the restoration of the ratemaking powers to the state commissions. My candidacy for the senate is dedicated to the undertaking, and I shall continue through the second primary the same earnest campaign upon this question that I waged through the first primary.

"The United States Brewers' Association has for its program the repeal of the Volstead law and its candidates for the senate and house of representatives throughout the country have pledged themselves to an amendment of the Volstead law that would permit the sale of light wines and beer. This would mean the nullification of the eighteenth amendment, the return of the open saloon on the corner and complete undoing of the work of the prohibition forces of the nation for the last fifty years. The candidacy of my closest opponent, James E. Ferguson, was pitched upon that issue, he being the only candidate for the senate favoring the sale of light wines and beer. I am unalterably opposed to such prohibition. It is therefore clearly evident that the two outstanding issues before the people of Texas to be passed upon in the second primary are the repeal of the Esch-Cummings transportation act and the amending of the Volstead law would permit the sale of light wines and beer.

"The slight cuts and scars received in the first round have all healed, and I remember only the pleasing incidents of the campaign that has passed."

FIVE COMPANIES TEXAS INFANTRY IN CHARGE DENISON

Denison, Texas, July 26.—The railroad districts in Denison passed under martial law at 5 o'clock this morning, pursuant to the proclamation of Governor Neff, and the supervision of the shopmen's strike is in the hands of five companies of the one hundred and fortysecond infantry regiment, Texas National Guard, arriving this morning on a special train from Austin, Colonel Nimon of Gainesville in command of the battalion. Upon their arrival the troops detrained from the Katy yards to Forest Park, where they are camped. Without protest the strikers moved their picket lines back one thousand feet from the railroad property, the boundary of military control.

The rangers who have been doing guard duty were ordered to proceed to Childress and Sherman, where the railroad districts have been placed under operation of the "open port" law by Governor Neff to keep open the traffic lanes in Texas and instructed to see that railroad property and workmen are not molested. Other rangers will be sent to Cleburne, Temple, Amarillo, Marshall, Lufkin, Kingsville, DeLeon, Waco and other places, where state protection is necessary.

RANGERS ARRIVE IN SHERMAN

Sherman, Texas, July 26.—Captain Nichols of Company C rangers and three of his men arrived here today to guard railroad property and workmen under the "open port" law. About four hundred shopmen are on strike here. This is said to be the first time in the history of Sherman that rangers have been sent here for duty.

Harding to Maintain Dignity of the Law.

Washington, July 25.—The Railroad Labor Board remains the only agency through which the government can deal with the strike situation, although President Harding is continuing to hold himself in contact with all actions which the board has taken, it was announced at the White House. The administration in the railroad strike as in the coal controversy, it is asserted, intends to proceed in fairness to all interests involved with a determination to maintain the dignity and majesty of the United States government.

Cotton Damaged.

Word comes to Crockett that cotton is being damaged by worm depredations. Poisoning with Paris green is being resorted to by many farmers. Where poisoning has not been done the stalks are being stripped of their foliage by the worms, which injures the production of the stalk. Paris green has been used successfully heretofore in killing the worms.

News reached Crockett last week of the death of Judge Henry McConnell at his home in Haskell. Judge McConnell was born and reared in Crockett, but had lived for many years at Haskell, where the remains were laid to rest. He was a brother of our fellow townsmen, Messrs. J. A. and Dan McConnell, besides whom he leaves other relatives and numerous friends to mourn his death. He also leaves a family at Haskell.

Sunday School at 9:30 A. M. Men's Bible class needs you. Will you come? There will be no services at night in the Methodist church next Sunday, so if you want to come at all, you will have to come in the morning.
It looks like every member ought to come to church once a week, so be sure and come Sunday. Public cordially invited.

Bears in Crockett.
Several citizens have reported to the Courier that they have seen bears hiding in the tall weeds on the vacant lots in Crockett. One citizen who had occasion to come to town early in the morning saw a bear as it concealed itself in the tall weeds after having no doubt been out for a night of it. The only reason that these weeds have not already been cut is that the owners of the lots are afraid of the bears hiding in the lots. Just as soon as they can assure themselves that the bears have gone they are going to cut the weeds.

Ladies and Gentlemen.
Please accept my sincere thanks for your support in the recent primary. I enjoyed the association with old friends and the forming of

new acquaintances. I appreciate the many courtesies extended me, and I trust my conduct was such as would warrant nothing but pleasant and friendly recollections on your part. The second primary will be on the 26th of this month, and I have no doubt you will confirm my faith in you with a continuation of your loyalty and friendliness in my behalf.
Yours sincerely,
A. B. (Poor Albert) Smith.

Commendable Road Work.
The negroes of the community known as Germany, on the Crockett road just west of Belott, are to be commended for their enterprise in fixing up that portion of the San Antonio road passing through their community. For several days they have been hauling gravel in their wagons and spreading it over the road, after filling up the holes with clay. The Courier's understanding is that the work is the result of the interest taken in scientific agriculture by the negroes of that community. The white people have been giving them valuable assistance and cooperation in the work and it is hoped that this is but the beginning of a new order of things. Now is the time, since the crops are laid by, for the people of every community, whether white or black, to improve their roads.

Crockett Cotton Oil Mill Will Operate Electric Gin

Having acquired with the Oil Mill at this place Cotton Gin, known as the Electric or Oil Mill Gin, wish to make the following statement to the public:

First: This gin will be operated this season.

Second: We do not expect to have any riders or street solicitors for cotton.

Third: We have employed W. M. Bumgarner, formerly of Belott Community, but now living at Ratcliff, as ginner. Mr. Bumgarner comes to us highly recommended as a first class ginner and a thoroughly reliable man, which we believe is sufficient assurance that your cotton will be properly ginned and that you will receive courteous treatment.

Fourth: As to the Oil Mill, we earnestly solicit your patronage. We want to buy your cotton seed and we want to sell you meal and hulls. This is a home institution; we pay local school tax, City and County taxes and we will probably have the largest pay roll of any industry in the County, and for these reasons, all things being equal, we feel justified in anticipating your patronage.

How The Master Driver Became Master Tire Builder

IN 1903, driving the "999" racing car, Barney Oldfield started his career of victories that later earned him the title of "Master Driver of The World." To overcome the tire weaknesses that made racing difficult and dangerous, he studied tires—specified materials—supervised construction.

American tires that have ever taken first place in the French Grand Prix. They have won for three consecutive years in the 500-mile Indianapolis Sweepstakes. So far in 1922, Oldfields have lowered four World's Records and seven track records.

Today, Barney Oldfield is known as the "Master Tire Builder." Starting with the crude tires which carried the "999" one mile in sixty seconds, Oldfield gradually developed his famous Cords—a set of which covered 500 miles at eighty-eight miles an hour without a change.

The Wichita Test Run gave evidence of Oldfield superiority in touring—when a set of four Cords covered 34,525 miles over rutted, frozen, winter roads—a performance attested by the Mayor of Wichita.

In three years Oldfield tires have won every important race on American speedways. They are the only
