Elder Lauderdale of the Christian church came over from Breckenridge last Saturday to fill his regular appointment here, but finding a revival going on at the M. E. church he and his flock joined in and heartily co-operated with the preacher there.

For an elegant pattern of Scrim go to **JEWELL'S.**

County attorney, B. L. Adams, left Monday to visit his relatives at Bonham. He will be away about two weeks.

If you want Colony land call on C. P. Benson and get price and terms direct from the owners.

It is gratifying to the man of any breadth of mind and liberality of opinion to see how the various churches of Graham have united with one accord to work for the salvation of sinners here during the revival at the M. E. Church. They all realize that they are soldiers under one banner and they come together in spirit and in truth, laying aside all petty differences of creed and church government. This is the sort of religion the world admires but it laughs with scorn at the sort which gives rise to petty jealousies and lens.

Col. R. C. McPhail left last Friday on a trip to Ft. Worth and Sherman.

Mr. Ellis Sherrill, of Haskell, was in Graham last week. His old friends here were delighted to see him.

Cash for Work.
We the undersigned hereby agree that we will not do any new wood-work, horse-shoeing, vehicle work of any description whatever on credit from and after Saturday April 22, 1893.

McCARVER, McCATN, & Co. BRYAN & BRO. Graham, Texas, April 18, 1893.

L. D. Brannon went to Ellis county last week and brought his mother to Graham to live with him.

Call for Diamond brand shoes—the best shoe in the market. Every pair guaranteed at.

SHUMAKER BROS.

Mr. A. C. White, formerly a citizen of this county but now of Snyder, Curry county, paid the LEADER a pleasant and substantial call yesterday.

From Salt Creek.

Among many other things, we had put off writing our letter until it rained, but have changed our idea and will send in a few items.

The wheat crop will be almost a total failure and the oats will go the same way without rain soon. Corn looks very well, and some have planted cotton.

Bro. Higgins preached a very interesting sermon at Needmore Sunday. He seems to be very much displeased with something we have said in regard to persons in some of our letters. Now Brother, what is the use of kicking? If the shoe don't fit, don't wear it.

—There was a large attendance at the singing at Mrs. Mayes Sunday evening.

We think we made a mistake when we said the trustees were going to seat the school house. At least the seats have failed to materialize.

Will Heard (Gale of Georgia) thought there was a round up the other day and quit his plow and went to see it, but came to find out it was three cow boys after one yearling, and he says they made fuss enough for twenty.

Mr. Jackson, late of Dallas county, was up on the creek this week prospecting. He is talking of buying on the creek.

Jason and George Mayes went to Weatherford last week.

We think we will have a wedding to report in our next letter.

April 25, 1893.

Staple and fancy groceries, cigars and tobacco, and as a side line a fine lot of tinware, at

Mrs. SADDIE PARKER'S.

If all reports be true our young county attorney is very liable to bring a party back with him when he comes. We don't mean a law partner, however.

Negligé shirts are still in great demand and G. B. Jewell is showing a most complete line of laundered, in puff bosoms, dots, hair line, stripes and lace effects, all new and desirable.

A petition is being circulated asking the city council to amend ordinance No. 20 so as to exempt men over forty-five years of age from its provisions—to reduce the number of days from five to two and asking them to levy an ad valorem tax for general purposes. This would probably give general satisfaction. We believe the city government ought to be run as cheaply as possible to make it effective and we think property should bear its part of the burden.

The Wadley Implement Co. is here to stay with a full line of implements.—The Walter A. Wood Harvesting Machines a specialty.

Dr. McDaniel returned to Graham last week.

Dr. J. N. King, the cancer specialist, returned from Marble Falls last week.

New Barber Shop.
I have opened a first class barber shop in the Belknap Bank building and respectfully solicit a share of patronage in my line.

W. J. BERRY.

Mrs. W. P. Beckham of Memphis, Texas, is visiting relatives in Graham this week.

Pie Peaches, assorted fruits, from J. Lusk & Co., at 20 cents per can—2 for 35 cents, at

FORD BROS.

Matrimonial.
Married on yesterday by Judge N. J. Timmons, at the residence of the bride's parents, Mr. Derwin Brown and Miss Laura Summers, daughter of Mose Summers.

We understand that Mr. William Davis and Miss Addie McNabb, of Upper Tonk valley, are to be married by Squire Starrett this afternoon.

The LEADER extends congratulations.

The white goods department at Jewell's contains the latest novelties in Point d'Irlande in white and two-tone, also the latest thing in black and cream silk laces.

Foster Bids Wanted.
It is ordered by the Commissioners Court that bids be advertised for, for the keeping of the shops of Young county—said bids to be received and opened at the regular term of the Court on the second Monday in May, 1893. The Court reserves the right to reject any and all bids.

N. J. TIMMONS, N. J. County Judge.

Judge R. E. Arnold went off on a business trip to Henrietta and other points this week.

To the Front.

From Farmer.
As I have not seen anything lately from our neck of the woods I will give you a few items.

We are fearfully dry up this way. Everything is needing rain. The tanks are going dry, and the stock are having to hunt water for themselves. This part of the county looks very much like it did in 1886, and we are still in hopes that we will get rain in time to save our crops. We had a small shower on the night of the 22d, but it did not amount to anything.

Spring fights have opened at last in our little town. Mr. James Mandeville and the mail carrier were the combatants.

Madam Rumor states that one of the Hawkins Chapel boys will soon take unto himself a life partner.

While one of the Chapel boys was spending a few delightful minutes with his best girl last Sunday she threw a knife at him and inflicted quite a painful wound on his hand. We would like to know what he thinks now.

Rev. Burks preached Sunday at 11 o'clock a. m. and at 3 p. m.

Program.
Teachers' Institute, Graham, May 13, 1893.

1. Prof. Davis, Elinsville. A system of compulsory education.

2. Prof. R. Lindsey. How to deal with fault-finding parents.

3. Prof. Fowler. What should be taught in the public free schools? 4. Query box.

The Institute meets promptly at 10 o'clock p. m., in Graham, Texas. All are invited. Arrangements will be made for all teachers.

R. LINDSEY, Pres.
J. N. JOHNSTON, Sec't.

WATER WORKS NOTICE.
TO THE PEOPLE OF GRAHAM:—While the weather remains dry I will supply you with clear, pure well water. If you want a tank load to put in your cistern for household use call on me.

Mrs. SADDIE PARKER.

Miss Nettie Short was on the sick list last week but is now up again.

Miss Birdie Burkett, of Weatherford, is visiting friends and relatives in Graham this week.

Capt. Y. M. Edwards, of Elinsville, was in Graham on business yesterday. He informed the LEADER reporter that Elinsville is still booming in spite of dry weather.

Col. J. M. Kirby, of Baylor county, formerly a citizen of South Bend, in this county was in Graham yesterday and paid the LEADER a pleasant call. Col. Kirby has spent the last four years in Florida, but returned last fall to Texas.

Mrs. V. F. Gorman has gone to Dallas on a visit to relatives.

John B. Crain took a journey to Weatherford last week.

Taxation.
Ever since the foundation of civilized governments the question of levying taxes has been very vexatious. That able statesman and finished scholar, Henry George, would have nothing taxed but land, and he has quite a number of followers. The four-aldermen of this new city, Graham, are not in harmony with this system of taxation, and levy taxes only on privileges and polls. Three of the four aldermen are large dealers in bank stock, horses and cattle, and the fourth member of the board has for his occupation the real estate business. Our aldermen are looked upon by the people of our new city as men of intelligence, hence their election to high office. These aldermen are very well aware that whenever a financial crisis occurs the dealers in bank stock, horses, cattle and real estate find that their property has greatly decreased in value, but no pressure in the money market has any effect on the value of privileges and polls.

If the wisdom of Graham's aldermen should be adopted by all municipal, county and state governments (and what is good for one ought to be good for all), it will certainly be a great relief to our prosperous business men, dealers in land, bank stock, horses and cattle, and will add a big red feather in the cap of those who first discovered a simple system of taxation that throws all the burden of supporting a government on privileges and polls.

Make a small cash payment on certain fine prairie lands and I will divide the balance into annual installments, running for ten years, if desired.

C. P. BENSON.

Will Henry, of Antelope, was in Graham Monday and left a financial remembrance with the LEADER.

The Wadley Implement Co. are selling the farmers Walter A. Wood Harvesting Machines. The merit of these machines are well known in this county.

The persistent borrower is a nuisance in a community, especially in the rural districts. The fellow who borrows his neighbors' horses, plows, cultivators, planters, and other implements, is just simply borrowing the same as cash and should pay legal interest as well as damages by wear and tear. Many a fellow is able to ride in a buggy, smoke cigars and drink whiskey when he comes to town, but year after year depends upon his neighbors to furnish him with farming implements through courtesy. Neighborly courtesy is a fine thing and a proper thing, but it is often imposed on by the thriftless and negligent.

D. M. Howard, of Mineral Wells, keeps the largest and best selected stock of Dry Goods and Groceries in that town. He solicits both the wholesale and retail trade. Give him a call when you happen to be at the Wells.

Inch on human and horse and all animals carried in 30 minutes by Woolf's Saniatory Lotion. This never fails. Sold by The R. G. Graham Drug Co.

Graham has listened to some of the best and most earnest preaching she ever heard during the past.

Walter Edwards was in Graham last week representing the Penn. Mutual Insurance Co. His father, A. N. Edwards, lives at Fort Worth now.

Hon. J. M. Carlisle, superintendent of public instruction, Austin, Texas, says in a circular letter that no applications for Summer Normals will be sent applicants till the legislature makes appropriation, if any and till the Peabody trustees give assistance, if any, for the purpose of said Normals. In either event, assistance or no assistance, Graham must make arrangements for a live Normal this summer.—Graham Educational News.

That right Bro. Johnston. Don't let the subject die.—Let us all pull together and we will get a Summer Normal.

NOTICE.
Mrs. E. E. Johnston has received her New Spring Stock, of fine Millinery and Dress Goods, and cordially invites all to call and see them before purchasing.

April 15, 1893.

Sheriff Joe Powell and a party of friends from Archer were in Graham last night.

Olney Items.
Well, we will make a poor attempt to give you—our paper a few of the happenings around Olney. We don't know much news this week. But will do the best we can.

Mrs. G. C. Wells has been quite sick and isn't much better yet. Grandpa McIntire is real bad off. He fell off of a horse and a brush ran over him and broke some of his ribs, so we understand.

Quarterly meeting was held at Olney Saturday and Sunday. The Presiding Elder Rev. Jerome Anis preached for us Sunday at eleven o'clock. He made a good talk.

Rev. Goode, of South Bend, delivered a sermon Saturday night. Made a good talk.—There was a large crowd but Sunday at eleven o'clock. Pres. Lindsey called the house to order, and after singing by the pupils of the school, and prayer by the President the meeting was declared open for business. A declamation, "That polished Son," was then given by Paul Compton. The regular programme was then taken up. A paper on Etymology was read by Prof. Compton introducing that subject. Prof. Johnston followed, showing the importance of this subject as a short route to the definition and true meaning of a great number of words. His talk was very interesting, and the manner of teaching the subject clearly set forth. Prof. Lindsey followed with some well timed remarks, when the subject was passed. "Grading Country Schools" was then taken up. Neither Prof. Hinz nor Prof. Gant, to whom the subject was assigned, being present, the discussion was opened by Prof. Lindsey, Prof's Fowler, Johnston and Compton made short talks on the subject; the drift of opinion seemed to be that while Grading was very desirable, it was an impossibility to make anything like a close system of grading. A kind of flexible plan consisting of 3 or 4 departments, or grades seemed the best that could be done at this time. The hour for dinner being already passed and after frequent talking from Prof. Johnston to the effect that there was, very near to him, "An aching void" that nothing but jam, chicken, biscuit, pie and cake could fill; it was announced to all that the good people of Belknap and vicinity had prepared dinner for everybody. Mr. Editor, it is needless to say that there was an abundance of every thing good known to the culinary art. Dinner was spread in a small Live oak grove near, and all partook. Prof. Johnston fully sustained his "rep." at the table.

It was near 2 P. M. before the programme was resumed. The "Query Box" brought a number of pertinent questions before the Association. Extending the school age to 18, was sharply discussed by Prof. H. G. and Lindsey for, and Johnston and Fowler against. I believe the "Query Box" had it. "Uniformity in Text Books" gave Prof. Johnston an opportunity, and he fairly out-did himself, convincing the most radical "State Uniformist" that it was a bad thing and tending to Stagnate legislation, District or County Uniformity was spoken as best. Another query, "How do you break up courting in school?" elicited much fun. Ask Prof. Lindsey to tell you about it. Miss Milling, Miss Huey and Mrs. Johnston all asked to be excused, and three interesting subjects were thereby necessarily passed. Prof. Horton being absent, to whom "How I teach Decimals" was assigned; that was also, passed. The committee on "A Summer Normal at Graham" reported that in correspondence with Supt. Carlisle, that that officer could not now tell any thing about "Summer Normals," and gave good and sufficient reasons for the statement. A ballot was then taken for an Instructor for our "Summer Normal," and Prof. Johnston was unanimously elected. The Prof. responded in a very neat little speech. A vote on places for the next meeting was then taken, and an invitation of Prof. Fowler to come to Graham, ballot was not had, and all accepted the Prof's generous offer. On motion of Prof. Fowler a vote of thanks was extended Belknap and vicinity for hospitalities shown. Time of next meeting May 13. Place Graham. Nothing further appearing on the programme, adjournment was taken, and all went away feeling that they had had a pleasant and profitable time. The house was crowded in the afternoon. We trust the interest in the meetings will continue to grow, and parents will feel that they too need to come together and discuss with the teachers questions of importance to their children. We hope to have the teachers of Olney county to come again at some convenient season, and again revive us educationally. President, April 17, 1893.

Straw Hats from 10 cents up. All kinds, sizes and styles at G. B. JEWELL'S.

Mollie Bailey, with her "new show" took in Graham on the 20th. She was quite liberally patronized and those who attended say that it was an honest show.

Guaranteed Cure.
We authorize our advertised druggists to sell Dr. King's New Discovery for Consumption, Coughs, and Colds, upon this condition. If you are afflicted with a Cough, Cold or any Long, Throat or Chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at the R. G. Graham Drug Co's drug store. Large size 50c, and \$1.00.

The enforcement of city ordinances depends largely upon their justice and equality to all. A bad law and one which public sentiment condemns can hardly ever be enforced to the letter. The council should remember this and try to represent the ideas and wishes of the people at large and not any certain class.

TELEGRAMS FROM WASHINGTON indicate that the naval authorities have not decided whether to permit Uncle Sam's warships green or black. If they can't be painted red, as the young officers would prefer, let them be green, by all means, to please the majority of the crews.

A NEW ORLEANS doctor cured upon a \$1,000 fee in case of curing the patient. The patient died, and the doctor sent in a bill for \$2,500. Complaint has been made, and the doctor is now looking for a way to get out of the predicament. But what can laymen presume to know of matters so purely professional as this?

As Oakland gentlemen, anxious to raise chickens, shot at a neighbor whom he suspected of being disposed to discourage the effort. Apparently a dozen eggs, as old hen and a recipe for curing pip no longer constitute capital enough to start in the poultry business. One needs an armory, too.

The Manufacturers' Record of Baltimore is responsible for the information that by a secret process bones of city refuse are now being made in that city from cotton seed. The process is said to be simple, and the patent could be obtained for it, so that the only protection of the manufacturers is in secrecy.

KEPPEL is said to be a fugitive. The possibility that he may have climbed his own tower seems to have been overlooked by the police. If he has, some cunning engineering device may be expected to pull the tower up after him, and the French justice do then? True, it might convict De Lesseps some more.

THE impression is popular that Chicago leads the world in the number of divorces granted in proportion to population. This is not altogether wrong according to W. E. Wilcox in Political Science Quarterly. San Francisco is the unmarried business takes the lead. Chicago places second and Cleveland is a close third.

It has cost Edison \$1,000,000 to prosecute infringement suits on his patents, and not one of his lawyers has been compelled to go to the poorhouse. A resident like this is something for a man who a few years ago was a poor telegraph operator to be proud of. He is believed to have saved a few millions out of the wreck to pay his own housekeeping expenses.

THE Geographical club of Philadelphia has decided to take an expedition east in promoting the expedition of Lieutenant Peary toward the north pole, and has agreed upon a plan for raising \$8,000 or \$10,000 of the \$20,000 or \$25,000 which will be required. In return Mr. Peary, professor of geology in the University of Pennsylvania, will give up all his other collections of scientific value he may make in the arctic region.

IS IT the newspapers or the theaters that have changed the character of provincial amusements? Lectures are not very popular in small towns any more, because the people are pretty well informed by the papers on topics that lectures used to treat. The old program of a single half a mile of painted canvas, with the old diagrams with moving figures, seem to have lapsed into absolute desuetude.

POSSIBLY as good a way to visit Chicago during the fair as can be devised is to rent houses in the suburbs. Building has been very active in anticipation of the rush, and many of the citizens of Chicago think to economize by renting their houses, and visiting other places while the rush of visitors continues. As a result, rents of desirable residence property are likely to be nearly so dear as was expected.

OF Michigan's notorious murderer, Latimer, the remark is made that he is generally in department. Latimer's first wife, he says, was killed by his father, and rounded out his criminal career by feeding prussic acid to a guard. A person capable of doing all this, and emerging from the experience with his reputation for decency and deportment unscathed is certainly an extraordinary man.

ANOTHER danger now threatens the man who writes love letters to a girl and then doesn't marry her. The world already knows what the consequences are to get into print and what keep interest the public takes in their personal. Gentlemen of New York, and others of Chicago, have from time to time entertained the country with remarkable productions in this line. Now a young lady of Philadelphia, a teacher of education, who is using a gentleman for a beach of promise, has won over the jury to her side by reading his letters in open court with all the skill of her art.

THE pleasant, kindly and jovial character of the French peasant is the creation of the opera-buffet writer. A mob of French workmen and workmen a day, or so ago, stoned a young German lady nearly to her death simply because her father was the correspondent of a Berlin newspaper which had handled the Panama affair with great skill. The journalist's family were leaving France by order of the authorities when this outrage occurred, and these same authorities refused them protection.

IT is popularly supposed that it is civilization that increases and aggravates nervous diseases, but Dr. Britton says it diminishes them. Among the lowest African races, which might be supposed to be devoid of nervous diseases, he found such diseases very common.

WITH his microscope a Washington doctor found on a one-dollar bill a trio of microbes representing as many distinct diseases. The kind of microbes is comparatively rare. The finding of the one-dollar bill, which is supposed to be of a platiplasia which once so familiar.

THE spring style of bank robbery in Kansas does not differ greatly from the one in vogue last year. The point where it was customary for the citizens to kill the entire gang. From that point onward the change is entirely for the worse.

THE output of spring poetry this year is not equal in volume to other years, and a number of the papers have fallen back on old Herrick and a lot of that class of people who are apparently deficient in a platiplasia which once so familiar.

A WIFE'S FRANTIC LOVE.

Her Husband Having Died, She Shoots Herself and Falls Across His Corpse.

NEW HAVEN, Conn., April 22.—Standing over the body of her husband, Frances Danyko-Harris shot herself through the heart. Her case was a pathetic one. Some months ago Miss Danyko, a beautiful society woman of Brooklyn became Mrs. Oscar Harris, and the couple after a short honeymoon removed to this city, where the husband became the manager of Snow, Church & Co.'s commercial agency. A fortnight ago Mr. Harris was attacked by an illness which at once assumed a serious phase. Physicians determined that the only hope of saving his life was by recourse to the operation of laparotomy. His young wife was made acquainted with the desperate nature of the operation.

"Do the best you can for me," said she. "for if I die I shall die too, for I believe were you positioned transposed he would do the same for me." Harris died. His wife was nearly crazed with grief. Yesterday the servant went into the kitchen and while the other in the house were in their room they were startled to hear a pistol shot. Blood was flowing from a wound in her breast. She was breathing lightly. Messengers were dispatched for physicians of Snow, Church & Co., who reached a doctor's office, however, Mrs. Harris was dead.

Fatal Explosion.
LEADVILLE, Col., April 19.—At Beck's livery stable, on the line of the Colorado and Northern, a terrific explosion occurred yesterday. The explosion shook the earth for quite a distance around. It was due to the accidental discharge of a blast which, it is said, communicated to the other powder. Five men were killed and several seriously injured. The extent of the damage at this time cannot be told. An employe who came in from the mine says that the explosion was a terrific one. The direct cause was the igniting of powder by turning on a current of electricity which communicated to the powder. The dead are George Young, John Collins, E. Kelley, W. McGovern and the miner. Four others are fatally hurt.

Chained Her.
NEW YORK, April 22.—A Covington, Va., special says Little Cole, daughter of John Cole, was found to be chained to the door of her room and was released by Officer Kehr. It is said her father chained her there two weeks ago to prevent her eloping. Her lover complained to the authorities during her father's absence and Sergeant Kehr was instructed to free her, which he did against the protests of her aunt and mother, who were guarding her in her room. A staple was driven in the floor under the bed to which a trace chain was attached to the door of her room and around the girl's ankle. Great indignation is felt in the community over this cruelty.

Forger Lamb.
CLEVELAND, O., April 20.—A special from Akron says: Lyman L. Lamb came to this city last fall and began operations as a promoter of industries. He carried a bank account ranging from \$200 to \$300. A check signed by him for \$200 was cashed at the First National bank of Akron and he took a real estate deed, taking with him a letter of introduction, to Lawyer Newman. It appears that Lamb presented a draft for \$35,000 on the City National bank of Akron and Newman indorsed with him. On this \$35,000 was drawn, which Lamb has in his possession wherever he may be. Yesterday the City National bank received notice from the New York correspondent that the draft is a forgery.

Fatal Explosion.
DETROIT, Mich., April 20.—A shocking disaster, resulting in the death of two men, the probable fatal injury of a fourth and the severe scalding of a fourth, occurred at Lake St. Clair yesterday. The steamer Schoonmaker, Capt. Smith, coal laden, from Cleveland to Milwaukee, entered the lake, when her cylinder head blew out. Nelson Chambers, the cook, standing on the deck, was scalded. The engineer, who died in ten minutes. C. Jones, fireman, died after being taken to the hospital. F. F. Thompson had his arm badly burned, swelled and inflamed. Engineer F. Smith is badly but not dangerously scalded.

Stychnine Victim.
LITTLE ROCK, Ark., April 21.—Solomon G. Morton of this city suicided yesterday. He was well known in this state and Texas, having been a prominent contractor-architect builder in the southwest. He came here from Dardanelle several years ago. R. Smith and John Walker, both prominent in the city, had a quarrel which resulted yesterday morning and said he believed he would join the boys on the other side and took an overdose of strychnine. Smith and Walker died by the same means.

Fatal Quarrel.
FAIR HAVEN, Wash., April 17.—Charles Schmidt, aged 40, shot and killed Henry Horn, aged 44, and then killed himself Saturday night. The men were running a chicken ranch in partnership and quarreled over a division of the profits.

Ship and Crew Lost.
SAN FRANCISCO, Cal., April 21.—The British ship Cowanbank from New Castle, New South Wales, sixty-four days since, for this port has been lost with a crew of twenty-eight. Her figure head has been picked up at sea.

GEORGE HAYWORTH ACCIDENTALLY SHOT.
A Hotel Drummer Waylaid and Horribly Beaten by Unknown Parties—A Slave Burglarized in Red River County.

KERRVILLE, Tex., April 22.—Yesterday evening Wm. Hollman went into the saloon of Charles Boleman, and upon seeing Thos. Carson pulled his six-shooter and fired three shots at Carson just as he was going out of the saloon door. Two shots took effect, killing Carson almost instantly. Hollman at once surrendered to the city marshal and is now in jail. The cause of the shooting is said to be an old feud of several months' standing. It seems that each party had sworn to shoot on sight. Hollman got the drop and Carson is dead. Both men live in Junction City.

Death Penalty.
DANGERFIELD, Tex., April 21.—In the district court in the case of Harry Graham, colored, charged with killing F. M. Leadster, a constable in the north end of the county several months ago, the jury after being out about fifteen hours brought in a verdict of guilty and assessed his punishment at death. Harry, who for the first time in his life, undertook to be perfectly indifferent when the jury brought in the verdict. Harry Graham was charged in this county with shooting a negro near the line of the county and he came over into this county and made his threats that he would kill him. He was arrested by F. M. Leadster, constable, and Mr. Carson, deputy sheriff, and taken to a farm house near here. They gave him a chance of several miles. Leadster came upon him in a negro house and told him he was his prisoner, when the negro, who had his belt and a pistol, raised the pistol and fired at every step. As the result of having a little fun the boys were arrested for malicious mischief, while the professor is charged with carrying a pistol.

Fatal Stabbing.
PARIS, Tex., April 19.—On Saturday a party of nine men came to this city from near Togerbone, which is about 25 miles northwest of this place. They started for the city late in the evening. When about nine miles from here a quarrel arose between S. J. Mullinix and S. E. Fisher in which Mullinix was stabbed to death. After the killing Mullinix jumped out of the wagon and ran off. The body of the dead man was carried to the residence of W. R. Hunter and the officers were notified. About 4 o'clock Fisher appeared on the scene and was arrested and taken to jail. The trouble arose over a whisky bottle. Fisher claims that Mullinix assaulted him with a stick and he hit him in self-defense and had no intention of killing him. Mullinix was about 30 years of age and had a family. Fisher is about 21 years old and came here about three years ago from Kentucky.

Found Hanging.
WEATHERFORD, Tex., April 17.—Saturday evening a man came in from a physician to attend the 15-year-old daughter of John Parsons, a farmer of this county. The messenger stated that she was found hanging but the discovery was made before she was dead. Mr. Parsons was in the city when the messenger came and the shock to him was very great. He stated that his daughter had always been in good health and was cheerful.

Charged With Arson.
HILLBORO, Tex., April 21.—Monday night a tenant house on the farm of J. P. Conway, eleven miles south of Hillboro, was burned and the cause of the burning is pointed to an incendiary. An affidavit was filed charging Jeremiah Bell, colored, with arson. He has been bound over in the sum of \$300 to answer before the grand jury.

Swallowed Nickel.
LONGVIEW, Tex., April 19.—Otto F. Lane, county attorney, accidentally shot off two fingers of his wife's hand. It seems a double-acting pistol was in her work basket and she requested Mr. Lane to put it away. He took hold of the weapon and his wife caught hold also, causing it to discharge. The ball ploughed through two fingers on her right hand and struck through the left palm and struck her shoulder.

See for the Lungs.
HOUSTON, Tex., April 18.—Attorney General Culbertson yesterday filed sixteen suits in the land in Harris county, which were taken by Commissioner McLaughlin during 1892 in violation of the law of 1887, as set forth in the article of impeachment now before the senate. The lands sued for aggregate 2350 acres.

A Mistrial.
DALLAS, Tex., April 17.—The jury in the case of Major L. G. Randly, charged with the murder of Ed S. Randall last December, failed to agree upon a verdict and was discharged Saturday morning at 11 o'clock. They stood seven for acquittal and six for murder in the first degree.

For Killing a Woman.
LOCKHART, Tex., April 21.—The district court in a second eight months' session to date, all minor felonies except Ross Miller, charged with the murder of a negro woman about a year ago. She was permitted to plead guilty to manslaughter and was given two years in the penitentiary.

What is Being Done of the State Capital by Our Law-Makers.

SYNOPSIS OF IMPORTANT MEASURES.
A Bill Providing for Five Courts, Agreed to by the Free Conference Committee—Provisional Land Commissioner Appointed.

AUSTIN, Tex., April 22.—The free conference committee on the court bill has agreed upon a five-court bill and recommended the fifth court at San Antonio. There may be some skirmishing in the house on the adoption of the report.

Another Session.
AUSTIN, Tex., April 19.—During the morning session of the house yesterday Mr. Truitt told what he has learned about the Geological Bureau. Among other things after reading numerous accounts, he said: "I have devoted much time to investigating other departments. The other departments may show up looseness, but this one is not except to the parties in it. I have found enough to convince me that there is nothing standing between state officers and a great scandal except their own integrity." Mr. Rogers said in reply to Mr. Truitt: "If reports be true that I have heard, and you will investigate other departments, you can eventually condemn them. A gentleman, an official of honor in the government, told me of accounts paid by the state for everything from boots up to barrels of whiskey. If this be true I don't understand why at this late day you single out the geological department for attack." Mr. Flack asked for time, and the house adjourned till to-day.

Senate Qualifies.
AUSTIN, Tex., April 18.—On yesterday's articles of impeachment against W. L. McLaughney were received in the senate, and that body qualified as a court of impeachment by taking the following oath: "Do you solemnly swear that in all things pertaining to the trial of the impeachment of W. L. McLaughney, commissioner of the general land office of the state of Texas, you will do impartial justice according to the law, so help you God?" On motion 300 copies of the articles impeachment were ordered printed.

There was once a crane in the zoological gardens that taught an impudent sparrow a lesson in god manners. The sparrow kept on teasing the crane while the latter was at dinner. No one likes to be annoyed during a meal, and we cannot be surprised that the big bird took a cruel revenge. Pretending to take no notice of the sparrow, the crane allowed it to come within striking range, and all of a sudden drove its beak into it. Falling to kill the little thing, however, the passionate crane then held it below the water in its tank, and but for the help of the sparrow's rescuers, the sparrow would have been drowned.

In a North Rising village lived an elderly man who had been married three times, but had been as often bereaved. After the death of his third wife a rumor was circulated as to a fourth wedding. On being questioned he replied in the following decisive manner: "Nay, my wife what will marry on 'em, it's what will bury 'em, it's over expensive. Ah can't afford it no more."

Affection is the organizing force in the human constitution. The word "syndicate," which is of American origin, is now used in the British house of commons to characterize combinations by which a number of members having a common object in view unite for balloting purposes. The students of Yale college divide the scholastic year into four seasons: the football season, the base ball season, the training season and the book season. The latter comes in March between the training season and the baseball season.

QUEER TRADES IN PARIS. Money Making and Improbable Method of Securing a Living Told.

M. Rogissol, the well-known Parisian police officer, has just compiled a list of some of the extraordinary "trades" exercised in Paris, of which the following is a selection. First, the bird market, bird "profession," where he captures living rats and sells them to exhibitors of various beasts, collectors who gather sewer grubs, stamper, who breed crabs, which they sell again; and egg collectors, who take their gatherings on Sundays to the bird market, bird "profession," who offer their services at the market as trainers of blackbirds, canaries and parrots; "sensors," who are none other than the commissioners of the sewer market; and merchants for the sale of night shelter numbers, who stand in a line and recall their tickets to their more fortunate brethren.

The Little Innocent. Gertie's parents have staying with them on a visit as usual whose charms are chiefly of an artificial character.
