FILIBUSTERING AGAINST THE BLAND BILL.

Vote of 32 to 41-The Senate Sub-Committee on the Wilson Bill to Grinding Away.

WASHINGTON, Feb. 17 .- Yesterday Mr. Bland began his coercive tactics to compel a vote on the seigniorage bill. The bulk of the Republicans and Democratic opponents of the measures inaugurated a filibuster coal duty are, on the contrary, quite heavily loaded with passengers and the bill to pass it and the entire day was consumed in roll calls. The with the intention of forcing .him to was consumed in roll calls. The highest number of votes Mr. Bland given especial attention to this subject, expresses himself as feeling very train, but could not, and the engine his demand for the previous question little doubt that lead will be taken and two cars of oranges went into the on the motion to close debate. Of these 145 were Democrats, 9 Populists and 9 Republicans. Mr. Page of Rhode Island and Mr. Ryan of New York refused to join the filibuster, but voted against the motion. At 4 o'clock Mr. Bland abandoned any further attempt to secure a quorum, and after passing a resolution instructing the it is so, but the prevailing opinion to open the car and the whole among senators not members of the side was blown off. After gathering entees, a recess was taken until 8 o'clock, the evening session being devoted to the consideration of private pension bills. Mr. Bland expresses the opinion that he will have a quo rum present to-day, but the general impression is that he will not be able to secure a quorum until Monday.

Clearing the Way. WASHINGTON, Feb. 12. There will be an effort on the part of the senate during the present week to clear up the calendar as far as possible prior ent depressed condition of business, to taking up the tariff bill, which, is absolutely necessary to them. when it is reported to the senate, is expected to exclude the consideration 85,000,000 gallons of whisky in most other subjects. The bill to compel railroads operating roads in taken out under the Wilson bill within rode together to the above point and the territories over rights of way the next three years, much of it withgranted by the government to estab- in the next year or two. This, even ish stations at all town sites established by the interior department, is the unfinished business on the cal-endar, and when it is disposed Senator Voorhees, chairman of the provide additional accommodations for the government printing office will be taken up and acted on as soon as practicable. There will also be a general importance taken from the alendar and passed. It is believed closeted with the sub-committee for a eigners are concered. The American that the committee on judiciary will dispose of the Peckham nomination | the day. to-day and if so, in all probability there will be at least one day during the week devoted to executive session

for the purpose of passing upon this nomination No Vote on Peckham. WASHINGTON, Feb. 16 .- The senate went into executive session yesterday Monday, that the revolutionists were and remained in such session till after dependent on the United States minis-6 o'clock, about three hours, and then clusion. hurting the Democratic party. Against Free Wool. WASHINGTON, Feb. 13 .- In the senate yesterday a petition, signed by 30 .-000 wool growers of the United States, owning 6,000,000 or one-seventh of all the sheep in the United States, protesting against the free wool clause of petitioners were the Navajo tribe, who own 1500 sheep and are prospering by this industry. Senator Cullom said hoped the committee on finance would give this petition due consideration, as it was of an extraordinary character and represented an extensive industry. Petitions against free iron ore and free lumber were presented by Senator Faulkner, and similar petitions protesting against the Wilson bill as a whole were presented by Senators Cockrell and Gallinger.

Income Tax. WASHINGTON, Feb. 17 .- The senate ubcommittee on tariff is sitting alost constantly now, not only through the day but well into the night, and is holding frequent conferences with the full democratic membership of the ommittee. The subcommittee has almost completed its work on the minor details of its bill, but the more important questions which have puzzled them from the baginning, unless it be the income tax, are still giving them worry, and many of them do not appear to be any nearer settled now than they were when the bill first reached the senate. There no longer appears a disposition to change the ome tax in any way, and it may be accepted that it will be retained.

Will be Ready Tuesday. WASHINGTON, Feb. 14 .- The Democratic members of the senate comnittee on finance now tell the Repubto the full committee at the regular meeting next Tuesday. It had been hoped that the report could be made could not the chairman of the finance

Given a Hearing on Sugar. WASHINGTON, Feb. 13 .- The senate mmittee engaged on the Wilson bill was again at work yesterday morning. The members have made considerable progress with the bill, but they have not succeeded in putting it in shape to permit its being reported to the senate as soon as had been hoped would be the case. Senator White of Louisiana was given a hearing on the Louisiana was given a hearing on the sugar schedule by the sub-committee bad begun the preparation of his re-

Peckham Defeated. WASHINGTON, Feb. 17 .- The senate adjourned a few minutes past 4 o'clock yesterday afternoon, after spending the better part of two days in consid justice of the supreme court. The vote taken on a motion to confirm the omination resulted in a rejection by vote of 32 to 41. Senator Coke voted against and Senator Mills for

Washington, Feb. 16 .- The senate soon to work on the Wilson bill. will probably be taken.

NO QUORUM ALL DAY. The members of the committee dengs, saying when questioned that southern Pacific Train ROBis known, however, that the members have been giving consideration to the representations of other senators as to making changes in many of the schedules of the bill. The iron ore men are not as confident of securing a duty as they were a few days since, and there is little question that if the members of the committee do not change their minds between this and next Tuesday the iron and steel portion of the this and next Tuesday the Southern Pacific train No. 60 was fron and steel portion of the robbed at Roscoe station yesterday bill will remain as at present. The morning at 1 o'clock. The train was lead ore men and the advocates of a delayed in leaving here. It was care of. He believes that a duty of ditch, the engine turning over and from 1 to 11 cents per pound will be burying the unfortunate fireman placed on lead silver ore, and is also hopeful that the provisions in the Wilson bill which are objectionable will and commenced a fusilade. A few be stricken out. The sugar question seconds later a couple of dynamite seems to remain unsettled and the bombs were placed under the members of the committee insist that express car. The messenger refused committee is that a duty is likely, together their booty the robbers though of smaller amount than the placed it in gunny sacks, and mount-Louisiana senators ask.

Representing Whisky Men. Washington, Feb. 12. — Senators Blackburn and Lindsay of Kentucky were before the senate finance committee Saturday in the interest of the whisky distillers of Kentucky. Their time was devoted almost exclusively to the extension of the bonded period which the distillers say, in the pres-ent depressed condition of business, crushed. Sheriff Cline states that his bonded warehouses which must be all the party implicated in the affair without the increase of the tax, would be a hardship, and with the increase

Ha Wall Once More. WASHINGTON, Feb. 14.-The Hawalian resolution was again the subject for discussion in the senate yesterday. Senator Gray resumed histargument in support of the president's policy and reiterated his charges made on ter and the United States forces for adjourned without coming to any con- support of their movement, and that thereafter the provisional government their seclusion, but they were very States force and the flag for proreticent as to what occurred. It is tection and for the maintenance of parent that the sides are very even-balanced and no one can tell who The full significance of the present will win. The Republicans have the Hawalian situation came out at the nation was caused by a boy handing It looks diplomatic, to restore the queen were he threw the package on the table. co

Debate Continues. WASHINGTON, Feb. 15 .- All effort to agree upon a time for closing the debate upon the Bland bill has so far failed and the debate is still proceeding without limit. Mr. Bland will probably permit this to go on until to-night, as there are quite a number the tariff bill, was presented by Sen- of gentlemen who insist upon their ator Cullom of Illinois. Among the right to be heard. The opponents of the measure have decided that they the attendance necessary to bring the bill to a vote.

WASHINGTON, Feb. 15 .- The sober econd judgment of both parties to the Behring sea arbitration discloses the fact that the agreement reached by the arbitrators is not entirely satisfactory to either the United States or Great Britain. It appears, however, that the dissatisfaction is based rather upon matters of detail than Luckenwalde in Brandenburg a facupon any objection to the broad princause of some concern to the two nations an for months past there has factory chimney was also blown down been much correspondence and many at Rintelu in Cassel and caused the interviews between Secretary Gres- death of two persons and the injury ham, Sir Julian Paunceforte and Min- of several. Boy Thrashed. BIG SPRINGS, Tex., Feb. 16 .- Prof. Matthews thrashed on the street a boy whom he expelled from school several months ago. The boy has since made a practice of insulting Prof. Matthews when they met. Prof. Matthews was tried for an assault and discharged.

A Long Chase. SULPHUR SPRINGS, Tex., Feb. 15 .-Sheriff Sherman has returned from Arkansas with W. A. Bee, charged with swindling. Bee led the officers a thirteen mile chase and they had to walk back to the railroad station in

Royal Buckwhea

over from one morning to raise the

If kept too warm or promptly, this batter becomes excessively sour and objectionable. Buckwheat cakes raised by this means are more often sour or heavy than light and sweet. If eaten daily they distress the stomach and cause skin eruptions and itching. Instead of the old-fashioned way we

kave been making buckwheat cakes this winter with Royal Baking Powder, mixing the batter fresh daily, and find the result wonderfully satisfactory. They are uniformly light and sweet, more palatable and wholesome, and can be eaten continuously without and can be eaten continuously without the slightest digestive inconveni Besides they are mixed and baked in a moment, requiring no time to rise. Following is the receipt used:

Two cups of pure buckwheat flour (not "prepared" or mixed); one cup of wheat flour, two tablespoons o Royal Baking Powder and one-half teaspoonful of salt, all sifted well together. Mix with milk into a thin atter and bake at once on a hot griddle. Once properly tested from this recipe, no other buckwheat will find its way to your table. - Domestic Cookery.

Many shoe stores and some shoe factories now make it a point to prevent women from finding out what size shoes they are buying. That seems curious, but it grows out of a peculiarity of womankind which gives the shoe clerks a great deal of trouble They say that the majority of women will not try a shoe that is the right size. They nearly all want them to be too small. It often happens that a woman buys a shoe which she has declared to be the most comfortable she ever put on her feet. Then she gets home and sees the number, or sees it before the purchase is wrapped up, and if is a shade larger than she has been in the babit of buying she will not take the purchase. On this account there has grown up a custom of marking shoes with a cipher system, which only the manufacturer and dealer can understand. The result is that many women are more wisely shod than ever they were before.

Foretelling the Weather.

Many country people in Italy foretell the weather by means of a leech in an open-mouthed bottle partly filled with water. The water must be changed once a week and a spoonful of blood poured in it about as often. will remain coiled up at the bottom of the bottle. Whenever rain is near at very restless and dart about in the water as though in pain, while before a thunder storm it will appear to be in convulsions. It is so generally Saturday night a young lady from Bartlett while en route to school at Austin and waiting for a belated train and the leech is one of the most useful members of the household

Nothing on board a United States man of war strikes the visiting landsman more forcibly than the seemingly almost constant sound of the boat swain's whistle. That instrument sends its thin and wandering strain of music up and down the deck every few minutes from suprise to sur day long in one or another sort of active duty requiring summons by signal.

Rev. O. H. Power Symptoms of Cancer Appeared on my lip. Disagreeable cruptions came on my neck. After taking 4 bottles of Hood's Sarsaparilla, all the traces of disease have disappeared and the medicine has given me renewed vigor and strength. I am now almost 73 years of age, and-work like a liger.
And I know that Hood's Sarsaparilla has had much to do with my vigor and strength. I recommended it to my wife, who has suffer-

also with female weakness. In two years Hood's Sarsa- Gures she has used about 3 bottles of Hood's Sarsaparilla, and to-day, and for the last 6 m she seems like a new being." REV. O. H. Pow-zn, 2024 Hanover Street, Chicago, Illinois.

WORN NICHT AND DAY

Thompson's Eye Waler.

months, and morphine in great quantities. When he began taking Pink Pills we stopped giving him morphine or any other medicine, and cut off all stimulants. In ten days after father began taking the pills, he could get it of bed and walk without assistance, and has continued to improve until now he walks about the house and the

streets by the aid of a cane only.' "Yes," said Mr. Hyde, "and the pain has gone out of my back and the numbness out of my legs. I have no moré chills, my digestion is gool and then, after a pause, "But, ah, me, I am an old man; I have seen my best days, and cannot hope to recover my igor as a younger man might but I am so thankful to have the use of my limbs and to be relieved of those dreadful pains."

Others in Solsville are taking Pink Pills, notably the mother of Abel Curtis, who is using them with satisfactory effect for rheumatism, and Mrs. Lippitt, wife of ex-Senator Lippitt, is using them with much benefit for

nervous debility.
Dr. Williams' Pink Pills contain in a condensed form all the elements necessary to give new life and richness to the blood, and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, Et. Vitus' dance, neuralgia, rheumatism, nervous headache. the after effects of la grippe, palpitation of the heart, and that tired feeling resuling from nervous prostration; all discases resulting from vitated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities and all forms of weakness. In men they effect a radical cure in all cases arising from mental worry, overwork

or accesses of whatever nature. These Pills are manufactured by the Williams' Medicine Company, Schenectady, N. Y., and Brockville, Ont., and are sold only in boxes bearing the firm's trade mark and wrapper at 50-cents a box, or six boxes for 2.50, and are never sold in bulk or by the dozen or hundred.

A house servant in Vienna says he committed his various crimes, including robbery and attempted murder, because of the maddening effect of being required to shave off his musmade it a condition that his upper ip should be clean shaven, and the man agreed under protest. After five years he had been discovered to be a criminal, and in his confession he says that his motive was to revenge himself on his mistress for the wound she gave his manhood.

Richard Joy, who died May 18, 1742, at the age of 67 and is buried in the St. Peter's churchyard, Isle of Thanet, Kent, England, was known throughout Europe as the "Kentish Hercubar Court Europe as the "Kentish Hercubar" or the "Second Samson." When les," or the "Second Samson." When but a youth of 17 years he was invited to London by the king to give an exhibition in remarkable feats of strongth. Among the feats of his fore mature years was that of breaking, with his hands and feet, a rope it?" with a tensile strength of 3500 weight and the lifting of 2200 pounds.

Sandow, the strong man, will have to look out for his laurels. It is said that there is a 9-year-old girl living near Huntsville, Ala., who bids fair

"No, sartain," said Peter. "Folks might laugh at you."

So Sandy gathered up the shocks of corn and the scattered ears, and the next night, as Peter advised, went to the corn to the corn and the scattered ears, and the next night, as Peter advised, went to the corn to the co soon to eclipse his grandest feats of strength. She weighs 162 pounds, and it is said that she lifts with ease tub, and, wrapped in his blanket, lay and it is said that she lifts with case an anvil weighing 225 pounds. She thinks nothing at all of picking up and carrying about her father, a li the household and showed a dead bear, with a fat cub lying among the corn. Two others had managed to

A fire Results Funny.

A fire in a museum at Passaic, N. J., last week, caused a panic among the freaks. The "three-legged man," in making his escape forgot his third leg. The principal damage done was to the complexion of the tattooed Circassian Princess. She waited to rescue some of her belongings, and the firemen inadvertently turned the hose on her, with the result that most of the tattooing was washed off.

"I knew I could ketch some bears. I planned it up to watch in the scalding tub," he said triumphantly.

"I don't like folks that are always agreeing and agreeing; they're kind of traps themselves," said Sandy afterward.

WELL WON;

Or, the Whaler's Wife.

RECORDING OF PRILADERS

THE WAR CALLED STATE

THE WAR There are cases reported where persons struck by lightning had small holes bored in the skull but otherwise they were not marked. In others in stances victims have been horribly burned, or even dismembered or discomboweled. There have been cases where a stroke of lightning has cut off a man's ear, or shaved his hair and beard clean, and not hurt him in any other way. The most notable instance of this sort occurred in Mobile, Ala., on June 23 of last year. A negro struck by lightning found after he had recovered consciousness that he had one completely white arm. The rest of his body was as black as usual.

Blindness, deafness and total or partial paralysis are frequent consequented.

A Whate's Strength.

Sir William Turner, the eminent anatomist of the University of Edinores that the anatomist of the University of Edinores to a been content to abide by the ancestral content to abide the content to abide th tial paralysis are frequent consequences of lightning strokes. Sometimes certain fishes on the New England the lightning selects a single object on coast on portions of which scarlet and the lightning selects a single object on a man's person and assails that without apparently touching the man himself. Coins have been melted until they stuck together in a man's pocket, while he suffered no ill consequences. Keys, watches and watch chains, method to the fishes.

Coast on portions of which scarlet and crimson seaweeds abound, is explained by Prof. J. Brown Goode by the red pigment derived by the crustaceans from the seaweeds they devour, and which in turn form the food of the fishes.

NOTHING UNUSUAL

that Yarn About Lightning Cavorting When the captain of the steamship Abana, from Dundee, came into port a kipper who tells of a similar electric

He is Captain Lord, of the British steamer Croma, which lately arrived in New York from Dundee. Captain Lord says his ship encountered heavy weather from the start. Seas beat high, and the barometer dwarfed it-

That night there was a succession of hail squalls, and the captain asserts that during each squall every masthead, yard-arm and gaff were ablaze with composants, or St. Elmo's lights, as mariners prefer to speak of them. They came and went as the squalls blew and subsided, and, as these lasted throughout the night, the ship was several times illuminated with dancing

tips of fire. The ship during this time was driv ing before the gale with engines stopped. She was lightly laden, and the seas were swinging so high that it was found necessary to stop the enpractice in the state and Federal Courts. gines to check the frightful racing of the propellers. Waves constantly dashed over the ship, and one of the vessel's crew was badly injured by be-

ing thrown to the deck. Toward morning the wind fell light and then came in fitful gusts. Then the lightning got in its play, and for fect blaze of sheet lightning.

A CHECK ON THE ICEMAN Gas Meters and Water Meters, Why

It was left to a Kansas City man to foil the ice man, another prolific sub-ject for the funny men who write for Dickson, who by profession, is at the head of a school of shorthand, and incidentally is an author. was recently granted a patent for an ice meter, to be attached to refrigerators. It is to be known as the Dickson ice meter. By its use the consume will no longer be at the mercy of the ice man and the ice man will no longer be compelled to listen to the cor plaints of his customers. The device weighs the ice as it is day by day put the month a look at the register will ing in the refrigerator at any time of the day, enabling the owner to know whether or not it is necessary to order ice. There are also other advantages attached to the use of the meter. Mr. Dickson has received numerous in quiries about his invention and has

been offered a flattering suin for it. To Connect Chicago and the Ocean. Engineer A. R. Sutton of Chicago is the inventor of a scheme, that ap pears plausible, for connecting Chicago with the scaboard. He plans to deepen the Welland canal so as to permit vessels of twenty-two-foot draft to pass a point near Thorold, Ont, and from there to cut through to the Ni-agara river at a point just below the rapids. Then he would deepen the St. Lawrence river and the Canadian channels along it to a point due north of lake Champlain. Here he would cut a channel south to that lake, and from its southern point dig a canal to Troy or Albany. The Hudson river would give them egress to the ocean.

A Chinese mandarin is not expected to have any friendships or intimacies outside of his office, and he cannot encourage visitors within its precincts without laying himself open to a charge of favoritism or corruption. If charge of favoritism or corruption. If the inhabitants of a district wish to show their appreciation of an official's administration and testify to his probity, the most effective way in which they can do so is to wait upon him at one of the city gates as he makes his farewell exit and beg the gift of the official boots, which are thenceforward preserved in some temple as public property.

The Irishman's Injuries. A story is told of two Irishmen who were caught one night in the loft of a burning building. One of them hastily drew on his trousers and jumped from the window. In his fright and hurry he had pulled on the garment wrong side foremost with an effect which, when he recovered his equilibrium af-Tinware, bill interest on the loft; "air ye kilt intirely?" "No, Moike," replied Pat, in hopeless tones, "it's not kilt Oi am, me b'ye, but Oi fear Oi'm fatally twishted!"

> Last Year's Fatalities on the Lakes. Navigation of the great lakes during the season of 1893 resulted in the loss of 123 lives. The number of vessels lost was 53, with an aggregate tonnage of 24,258, and valued at \$1,-040,400. Partial losses by strandings, collisions and fires bring the total up to \$2,112,588. The shallow waters of Lake Erie claimed nearly half the lives lost. Lake Huron being second.

Applent Preservation of the Doad. Herodotus gives a good description of the manner in which the early Ethiopians preserved their dead. Having thoroughly dried the corpse, they plastered it over with a paste made of gypsum and then painted the face and exposed parts so as to make them look as natural as possible. Dead bodies served in this manner remained intact for hundreds of years.
