> Another noticable thing is the ncomplaining spirit of these men accustomed to war. Despite the fact that it rained almost incesantly while they were in Houston and the mud was deep about their tents and they suffered many inconveniences, but little complaint was heard. They took what came and said nothing. Many of the younger people talked about the poor things to eat, about the discomforts of cots without pillows, about the unusual dampness and the mud, about the crush on the streets, on the trains and street-cars; but these older men who have seen harder times, said very little. There is a lesson to be learned from them, if the younger people will only learn it. Eureka Chemical and M'f'g Co., La Crosse, Wis.; Dear Sirs: I have been a tobacco fiend for many years, and during the past two years lave snoked from fifteen to twenty cigars regularly every day. My whole nervous system become affected, until my physician told me I must give up the use of tobacco, for the time being at least. I tried the so-celled "Keely Cure," "No-To-Bac," and various other remedies, but without success, until I accidentally learned of your "baco-Curo." Three weeks ago to-day I commenced using your preparation, and, to-day I consider myself completely cured; I am in perfect health, and borrible craving for tobacco, which every nveterate smoker fully appreciates, has sompletely left me. I consider your "Baco-Curo" mply, wonderful, and can fully recommend.

The "Quick Meal" Gasoline Stove. IT IS ECONOMICAL AND SAFE,

IT LIGHTS LIKE GAS, NO SMOKE OR ASHES! It is a solid, but light, pretty contrivatore, fed with Gasoline, instead of Coal or Wood, and is especially invented for ladies who want to do their cooking comfortably in summer time in a cool kitchen. The price of a large "QUICK MEAL" is no more that that of a large coal or wood cook stove, but the price of a small "QUICK MEAL" is considerably less than that and the cost of gasoline is but little. All expense ends with extinguishing derstood "right here," that on a "Quick Me'l" you can accomplish the same as on the best wood or coal Range—cooking, bak-

in a more agreeable way. The 'work Meal' requires no n arch to the wood-shed for kindling wood to get and to split, no heavy buckets of coal to worry with, no shaking, no coal dust and dirt to soil hands and clothing with, no smoke, ashes or soot to fix around, no ash-pans to be emptied, no heat that will scorch you. It runs itself—never too hot or soot hot enough—always just right, 350,000 "Quick Meals" are now in use. 57,118 were sold in 1894. Send for illustrated entalogue, we mail it free.
